HIGH, but not dry, is 9-year-old Robb Moore's method of battling ontinued heat in Dallas. His home-made shower consists of a metal chair and the cooling spray of a garden hose. The city has suffered 18 consecutive days of temperatures 100 degrees or higher and more than 20 persons have died as a result. (AP

# Old-timer's letter filled with Midland vignettes

Considering that he's outlived most of his contemporaries, Jim Flanigan might honestly call himself an old-

But, if wit counts, and it does, he's got more youth than most. Now, Roustin' About has never met this gentleman-character. Many a Midlander, though, in the grave and

still getting about has. Flanigan, like his father before him, was a surveyor back when Midland wasn't much more than a cattle town; petroleum didn't start enriching the land until the late 1920s. And when it did, you can bet your wellworn walking boots that Flanigan was out sizing up this mushrooming niche

of the Western world. Kindly Jim Flanigan dropped Roustin' About a for-what-it-is-worth letter, which provided a minute vignette into a mere fraction of the Midland-town as Flanigan remem-

It would be most enlightening to listen to him sometime. Maybe that time will come to pass if Flanigan ever gets out of Houston and returns home or if the Rouster ever drifts down to too-humid and too-peopled Houston. Flanigan moved down there last November.

In his typewritten letter, Flanigan mentioned building contractor Will Sinclair who, back in the 'teens, built a homeplace "in the 300 or 400 block of

Carrizo or Pecos," he recalled.

"I forget which, as back in those times," Flanigan wrote, "we knew that it was south of Mrs. Dr. McCall's and west of 'Timberline's' and Mrs. Wall's." Back then, he threw in for free, there were "no streets back west of Marienfeld."

Here comes the rub: Flanigan recalls Sinclair's hand-polishing to "a gloss you that wouldn't believe" his dining and living room areas. ". And it is the same today as back sixty years ago

Sinclair, Flanigan said, had two sons, George and Bill. And it was Bill who built Elliott and Faye Cowden's 'house there on the corner of Texas and C streets.

Flanigan's figured that there's a chance for a story there. It's worth a genuine check and, no doubt, some column inches. So is Flanigan.

"I'm a newcomer to Midland — just born there in 1904 . . .," wrote Flanigan. "I have to chuckle sometimes when I read statements from some of those kids that call themselves the 'Historical Society.' Our old homeplace was on the corner of Texas and Weatherford (202 N. Weatherford St.), and when they come out with something about the old Z.T. Brown house, most statements (are) 'Bull.' I was across the fence a long time before any of Sarah's (Sarah Dorsey's) children were born.

That might be worth a line or two. "I've got to shut up," Flanigan said, as he was winding down his letter. "But it looks like an old man that has and still does love his hometown and friends likes to talk about and remember them even if 99 and 44/100 percent are out in the ceme-

And he said to step over and say "HOWDY" to Bill Collyns, a crony of Flanigan's and a newspaper editor who has got some years to go before he's the old-timer that Flanigan is. Tell him, Flanigan said, "that

everything is on the top shelf, but I can't reach it." That's part of being an old-timer. Never mind. Youth has its draw-

#### ing on state budget increases, a twothirds vote requirement for passing state tax bills and unlimited initiative and referendum.

Constitutional amendments must win committee approval before they can reach the House floor and, ultimately, the voters.

Briscoe scored points with some lawmakers Wednesday by opening the special session to a bill centralizing property tax appraisals in one office per county and setting uniform statewide appraisal standards.

The House Ways and Means Committee heard testimony on the bill, by Rep. Wayne Peveto, D-Orange, shortly after Briscoe issued his proclamation but adjourned until today without

taking a vote. Lt. Gov. Bill Hobby, meanwhile, referred the bill to the friendly Senate Jurisprudence Committee, not the economic development committee where it languished until nearly the end of the 1977 session.

Peveto has revised the bill since 1977, winning support of the once-hos-tile real estate lobby by tacking on what amounts to a 5 percent annual limit in local property tax increases.

"The state of Texas would not be dictating to local folks other than setting up uniform standards for appraisal," Peveto told the House com-

Speaker Bill Clayton said the House might be able to do some serious voting Friday if either the ways and means or constitutional amendments committees send out something by noon today.

have to wait until Monday.

He said he was neutral about including corporations in the agricul-tural tax break — "As far as I am concerned, I will take it either way.'

# Landowners raise questions about potential problems with effluent

"All I know to do is to blow it up, said Gale Pugh, a Midland County landowner who is fighting mad at the prospect of the city of Odessa's sending additional millions of gallons of sewage effluent across his land.

Prosecutor won't comment on charge

that grand juror under indictment

of the federal court," said Wilson.

"The Justice Department has nothing

to do with it. . . . It would be improper

qualify the jury.

granted the city of Odessa a permit to dump 9.8 million gallons a day from its expanded existing plant and 5.22 million gallons a day from the new

**Odessa City Manager Kerry Sweatt** today said the actual discharge would be "the amount of the permit or less," initially. He said it is likely that an effort would be made to sell portions of the effluent, and that would affect the volume of discharge.

"It's a little premature to talk about flow and how much will be sold before we're even sure it (the new facility) will be built," Sweatt said.

Midland County officials and land-owners opposed the discharge permit unsuccessfully, and County Judge Blake Hansen told The Reporter-Tele-gram this week that he believes there is nothing more to be done.

Pugh, however, said Wednesday he wrote the Water Quality Board a letter in which he said the plant "should be sabotaged or blown up" if its built at the proposed sight on the old Dora Roberts Ranch. "I might do it or have it done," said the crusty farmer who has been working his land in the Warwick community for about 30

District Judge Barbara Culver, who was county judge at the time the water board approved the Odessa permit, said Wednesday she thinks the project should be watched close-

"I think the project should be moni-tored by Midlanders to be sure that the residents who live in that area are justly compensated for any damage that might be done to their land or to the value of their land as a result of this installation. I also think all Midlanders should be concerned about the potential health hazard from flies tered as a result of the one treatment plant," Judge Culver said.

She said precautions should be taken to make sure the insect problem doesn't increase. Also, she advo-cated requiring the city of Odessa to make the water available for agricultural or industrial uses.

Odessa City Attorney Joel Roberts refused Wednesday to respond to the "hypothetical question" about whether the city would be liable for loss of income or value from land which the effluent crosses. "It is my understanding that there would be no damages, no repercussions," Roberts

Vernon Chandler, who owns and

to determine if Lozano's civil rights from serving on a petit or grand Juror qualifications, under local "A federal grand jury is a creature Forecast lists slight chance

# for thundershowers in area

The weatherman finally has added a new twist to his forecast - a 20 percent chance of thundershowers for

And if Midlanders keep their fingers crossed and heed the advice of longtime area residents to "pay the preachers enough," the Midland area just might be lucky enough to catch

some moisture.

Residents at least received some relief from the searing rays of the sun as clouds covered much of the sky over Midland early today.

The National Weather Service at Midland Regional Airport said it should be partly cloudy and warm through Friday. High Friday should be in the mid-90s with the low dropping to the lower 70s.

Record high for July 19 is 102 de-grees set in 1951. Midland was alightly cooler than that Wednesday with the high only hitting 96 degrees. Record low for today is 62 degrees set in 1959. The city was warmer today with the low at 71 degrees.

Of the 23 persons on a full grand jury, only 16 are needed for a quorum, Wilson said. And only 12 votes from the grand jury quorum are needed to vote an indictment.

Reports were broadcast Wednes-day night and published today to the effect that one of the Lozano grand jury members allegedly is under in-dictment for burglary in Ector Coun-

There was no explanation of the change, and official comment was not

# Postal officials, unions avoid face-to-face, using mediators

By JEFFREY MILLS

WASHINGTON (AP) - With a mail strike possible at midnight tonight, negotiators for the Postal Service and its unions today continued separate meetings with federal mediators rather than talking

The mediators have kept the two sides apart since Monday when direct negotiations were halted. The mediators have talked to representatives of each side in separate rooms of a Washington hotel for the last three days and carried proposals back and forth. Wednesday's session lasted until about mid-

A source close to the negotiations said privately: "They obviously will be together later in the day if there is anything that can be accomplished that

way."
The current three-year contract expires at midnight tonight. The major issue dividing the two sides is whether

the Postal Service can fire employees to reduce its The unions won a no-layoff clause in 1970 and say it must be included in any new contract. Postal Service negotiators want to eliminate the 25-word phrase in

an effort to trim the workforce and hold down future increases in postal rates. National union officials refuse publicly to discuss whether they would call a strike - illegal under federal law - if the midnight deadline passes. But sentiment at several locals Wednesday indicated members would follow a national strike call.

"We're prepared to go out," said the president of one Boston local. Stephen Albanese of an American Postal Workers

Union local said 100 signs had been printed and permits secured to picket several post offices.

In Cincinnati, three locals representing 4,000 workers voted Wednesday night to follow a national strike

And Tucson, Ariz., Postmaster Arnold Elias said 90 percent of that city's 1,000 postal workers would walk out if a national strike were called.

If walkouts occur, Postal Service contingency plans call for Postmaster General William F. Bolger to ask President Carter to declare an emergency and order out federal troops to handle the mail.

Chief Federal Mediator Wayne L. Horvitz said Wednesday that differences over grievance procedures, arbitration and union recognition had been ironed out, but that "both sides ... are still far apart on several other issues.'

He was not specific, but sticking points besides the no-layoff clause reportedly included wages and changes in work rules.

Negotiators for the postal workers, the Laborers International's mail handlers division and the letter carriers union want a \$1,965 increase over two years in the \$15,877 average postal worker's annual sala-

But the no-layoff clause was clearly the paramount dispute.

One union source called the clause "far more important than wages or any other issue." The source said postal workers union president Emmet Andrews "doesn't want to call a strike. But he might as well quit if he gives in on the no-layoff issue.

And, the source said, "That's the one issue that really would unite postal workers across the country on a strike.'

Andrews said late Wednesday that the Postal Service had cut 70,000 jobs, "but that ain't enough for them." The unions maintain normal attrition gives managment sufficient flexibility.

One source close to the talks said the two sides agreed Wednesday to a union demand spelling out the right of the Occupational Safety and Health Administration to inspect working conditions.

Andrews said late Wednesday the unions were "trying to get management back to the table. The mediators have tried all day but they haven't been willing to come.

A spokesman for the Federal Mediation and Conciliation Service said, however, that no attempt was made Wednesday to set up a face-to-face meeting. Spokesman John Rogers said that, "if the conditions were right," mediators would propose such a meet-

Andrews previously accused the Postal Service of trying to "keep the negotiations at a boil right up until the deadline.

Management, he said, had been unwilling to negotiate any of the other major issues "unless the unions

are willing to consider giving up the no-layoff Postal Service spokesmen declined to comment. The talks were making progress until Monday

night, when sources said the two sides divided bitterly on the no-layoff issue. Since then, they have not met face-to-face, and federal mediators have shuttled back and forth with proposals in an effort to get direct bargaining resumed. Bolger, in a letter sent earlier this week to the

554,000 workers affected by the expiring contract, said the Postal Service intends to enforce the law, which calls for fines and jail terms for viola-Those sanctions were not applied in 1970 as part of

the agreement ending wildcat strikes in which 200,-000 workers took part, mainly along the East Coast.

At stake is this clause in the present book-length contract:

"It is agreed by the employer that no employees employed in the regular work force will be laid off on an involuntary basis during this agreement."

Separate negotiations were being conducted with a fourth union representing rural letter carriers.

# Questions plaguing Congress over 39-month extension of controversial ERA Amendment

By W. DALE NELSON

WASHINGTON (AP) - Exactly 110 years ago today, Secretary of State William H. Seward was telling Congress it was "a matter of doubt and uncertainty" whether states could withdraw their approval of a constitutional amendment.

It still is, and Congress will continue to grapple with that question and the related issue of how long is a "reasonable time" to allow for threefourths of the states to put the Equal Rights Amendment into the Constitu-

The two questions are at the heart

### Odessa man given 99 years

ODESSA - A 19-year-old Odessa man was sentenced to 99 years in prison Wednesday morning after a 161st District Court jury found him guilty of the aggravated rape of an Odessa housewife on Dec. 14, 1977.

Donnie Ray Mosley was sentenced after the eight-man, four-woman jury deliberated for about 30 minutes. The only persons called to testify

during the trial Tuesday were three prosecution witnesses. These included the victim, a neighbor and the Odessa police detective who investigated the case.

Defense attornies presented no wit-

Mosley was originally tried on the aggravated rape charge in 70th District Court before Judge C.V. Milburn on June 21. Judge Milburn declared a mistrial at that time after the district attorney read the wrong indictment against the defendant.

### Mark Vozar best speaker

Mark Vozar won the best speaker title at this morning's meeting of the Tall Town Toastmasters, according to a spokesman.

Other results include Tom Buford, best table topics and most improved speaker; Lee Cerboskas, spark plug, and Steve Wright, best evaluator.

# Midland County landowners question effects on land of Odessa's proposed sewage plant

(Continued from Page 1A)

lives on a farm about three miles west of the proposed plant location, said he would not be unhappy, if certain steps were taken to solve the problem associated with the installation.

Chandler does not believe that all water sent down the draw in the past has been treated. If putting in the new facility means that all the water will be treated in the future, that's a benefit of the new plant, he said.

And, Chandler said, if there were a guaranteed and steady amount of water, farmers could use it for irriga-

The problem, at least with the current situation, is that the discharge is sporadic, with what winds up in the draw being what is left over after sales to industrial and irrigation users in Ector County, he said.

Chandler said he asked Odessa officials about the possibility of getting "a steady, certain amount." "In the first place, they wanted to sell the community the water. When I first talked about it, they wanted to

know how much this community

would pay for the water. Of course, we're not interested in paying. The community out here has to some way get back some of the land we're going to lose to draw water," Chandler Sweatt said he does not know of any

such sale offer, but it is possible that someone in city government may have made the suggestion. In order to be able to pump water out, the draw would have to be chan-

neled so it would not spread out so much, but Chandler said he has been told Midland County may be willing to Solving those problems would leave

only the mosquitoes and the odor from the plant to contend with, Chan-J.D. Crawford's land is farther

down the draw and not likely to be affected for several years, "until all that ground close to it is saturated," he said. But he is opposed to the plant's construction for the sake of his

The draw now is "like an open sewer," Crawford said. He, too, said he would not be opposed to a steady flow of water. "A standing stream stagnates in a hurry in this weather. That's the thing I'm opposed to."

However, he also is concerned about the potential odor problem even if the effluent is running. "They can do everything they want to to effluent water, but they can't make it smell good," Crawford said.

Landowner O.C. Collins Jr., whose property is across the road from Crawford's, said he would not object to the discharge so long as it were not polluted. But he said he had expressed a willingness to join other landowners in hiring a lawyer to explore legal ways of blocking the in-

Several landowners said a community group last year was considering the possibility of legal action, but, when asked Wednesday, none knew of any definite action planned.

Should Odessa voters approve the project, the city then would have to purchase land on which to build the new facility. Sweatt said today the city is negotiating with representatives of the Dora Roberts Foundation about purchasing a one-section tract. City Attorney Roberts said Wednesday the state's eminent domain laws

give the city of Odessa the power to

condemn land, even if it is in Midland Sweatt would not speculate on the need for condemnation.

1977.

h 200,

they

LOS ANGELES (AP) - Californians are feeling the effects of the tax revolt, and many can't tell whether they are winners or losers.

Gerald Edwards, who lives in Fountain Valley, got the lower property taxes promised by Proposition 13. But the 32-year-old homeowner isn't all smiles — the teaching job he hoped for was eliminated because taxes were cut.

We bought in 1975 and our taxes have gone up, but I valued my teaching job more than the decrease in property taxes," said Edwards, a substitute teacher in Orange County for two years.

Jack Kenan saw property taxes fall at Academic Specialties Inc. in El Cajon, but Kenan, a contract estimator there, isn't sure the school supply firm really gained. Proposition 13 slashed property taxes; that meant curtailed spending for education.

'What we've lost in business more than offsets what we save in property taxes," Kenan said. "I have mixed emotions. We want our government to be well run and efficient, yet on the other hand we know it's going to hurt our business.'

Kenan and Edwards, their livelihoods tied to revenue-short schools, already feel Proposition 13. Others find it tougher to figure out where they stand under the tax-cut measure.

Homeowners, big supporters of Proposition 13's 57 percent average property tax reduction, generally came out ahead. Many banks already have cut mortgage impound payments to reflect property tax savings.

Yet homeowners also will have less to deduct from federal income taxes and will face - along with many others - increased fees for everything from dog licenses to golf games as cities try to make up for the lost property tax revenue.

Renters, 47 percent of the state's residents, have seen few pass-on rent cuts and generally feel they are victims of greedy landlords.

'There's been no impact at all from Proposition 13," says Joe Caux, chairman of a renters group in apartment-short Orange County. "We've gotten reports from 36 apartment complexes in the last week and a half that rents are going up August 1."

Landlords say that higher municipal fees and uncertainty over their final savings from Proposition 13 make rent cuts impossible now

'The various city and county agencies have added all sorts of charges — license fees, sewer charges and so on," said Gordon Thill, an aide to Proposition 13 sponsor Howard Jarvis and a landlord. "If the politicians and bureaucrats leave me alone, I can make a rebate. But if they hand me some whopping increases...I can't.'

The real impact of Proposition 13 has been delayed by use of the state's \$5 billion budget surplus to help local governments bear the \$7 billion loss. Already, however, there are hints of the future.

In the Los Angeles suburb of Downey, for example, dog licenses now cost \$10 - double what they were a month ago. Golf fees on Sacramento courses have been increased \$1 and the state Capitol's parking meters now demand a quarter per hour instead of the pre-Proposition 13 dime.

One long-term effect of Proposition 13 may be a good one: an easing of the housing shortage that helpe8d push up property values - and therefore taxes - in the first place.

Ben Bartolotto of the California Construction Industry Research Board says Proposition 13, by making home owning cheaper, could stimulate construction of 179,000 more units through 1980. That would mean 365,000 jobs in building-and related industries, he says.

"Business benefits from the property tax reduction as well as homeowners, so this can mean improved economics for new business ventures, or in the case of existing companies, extra cash for expansion," Bartolotto said.

Not all executives would agree with Bartolotto's assessment but California's business community, which stands to recoup about \$4.5 billion under Proposition 13, is under intense pressure to recycle that money into the state's economy.

Business leaders say, however, that lower property tax deductions translate into higher corporate sive taxes."

income taxes that will consume half their savings right away. Proposition 13 also reinstated California's business inventory tax and many business spokesmen say that and other hastily enacted municipal charges may wipe out their "windfall."

Oakland, for example, increased its business license fee from 90 cents per \$1,000 of gross receipts to \$14 per \$1,000 - about 1,500 percent.

Also worrying businessmen are moves in the State Legislature to split the tax rolls and restrict Proposition 13 savings to residential property only, including

"It's difficult for business to make any decisions on what might be done with tax savings until we know whether business will in fact realize any tax savings," said a spokesman for Standard Oil of California, the state's largest industrial firm. "If these other taxes and fees go into effect and then they exempt business from Proposition 13, you wind

Meanwhile, tax-cut movements have sprung up in other states and a congressional study says Proposition 13 will cause a spillover loss of 60,000 jobs nationally but a dip in the Consumer Price Index. Federal pension and Social Security payments, union wages and even some alimony payments are pegged to that index of inflation.

Most observers agree that the real impact of Proposition 13 will come next year — after the state's budget surplus is spent. How Californians react then may well determine whether their tax rebellion is real - or another West Coast fad.

### Committee frowns on tax proposals

By SUSAN STOLER

AUSTIN, Texas (AP) - A house committee informally has let Gov. Dolph Briscoe know that it frowns on writing several tax relief proposals into the Texas Constitution.

Committee members took an unofficial, straw vote Wednesday on several of Briscoe's proposals. The only measures gathering enough support for passage were limited iniative-and-referendum and taxation of rural land based on productivity, rather than

Chairman Tim Von Dohlen, D-Goliad, said he hoped to put together an agricultural taxation proposal for a possible vote today.

'We're dealing with very serious things with high risk factors, in that we don't know what their full consequences will be," Rep. Tom Schieffer told his eight fellow members of the House Constitutional Amendments Committee

"If we get detailed about these things in the constitution, we'll lock something in here that we'll

not be able to change," he cautioned.

One-by-one, members unofficially turned down proposals Wednesday for a percentage limit on state spending, limits on local taxes, unlimited citizen petition-and-referendum and a required two-thirds legislative vote for any new state taxes.

Only Rep. Joe Robbins, D-Lubbock, consistently supported Briscoe's proposals. 'I see it as investing power and authority over

local governments in the people," he said of a proposed local taxation limit. Other members viewed the idea as meddling in

"If we lock it (limitation) into a percentage figure, we're keeping them (local governments) from governing themselves," Von Dohlen said. "That's not been the historical concept of government in

Six members favored a limited initiative-and-referendum measure, which would allow citizens to petition local governemnts for a tax roll-back. Unlimited initiative caught heavy opposition. The petition method was used by California voters to cut state property taxes under Proposition 13.

"You've either got to believe in representative government or not," said Schieffer. "We've gotten along in our old, creaky way with unprogres-

## Compromise possibilities sought on federal tax-cutting measures

By EDMOND Le BRETON

WASHINGTON (AP) - The administration and key congressional Democrats are warily exploring compromise possibilities as long-delayed action resumes on a bill to cut federal taxes by \$15 billion.

On the eve of House Ways and Means Committee consideration of the measure, the administration signaled on Wednesday it might modify its opposition to any easing of the capital gains tax on the profits from selling assets held at least a year.

Carter had made a campaign issue of taxing capital gains as ordinary income and had threatened to withhold approval of any tax bill with provisions to

But an 11th-hour round of discussions with Treasury Secretary W. Michael Blumenthal left House tax writers with the impression Carter might accept capital gains changes that would:

- Ease the burden on homeowners selling properties whose value are swollen by inflation. - Encourage investors to buy into new, risky

- Ease the tax path of businessmen wishing to dispose of one enterprise so as to invest in another, and perhaps even some modification of capital

The White House insisted Carter has authorized no compromise committing him to a certain position, but that he had simply directed Blumenthal to check where sympathies lay on the tax issue.

# School administrators oppose bill with property tax ceiling intact

AUSTIN, Texas (AP) - Rep. Wayne Peveto courted the once-hostile real estate lobby by adding a limit on local tax increases to his property tax "reform" bill. Now the school men are mad.

Bedford Supt. Forrest Watson said Wednesday the Texas Association of School Administrators can support the Peveto bill only without the 5 percent

ceiling on property tax increases.

Watson testified before the House Ways and Means Committee, which held a hearing on the bill shortly after Gov. Dolph Briscoe said the special session could take it up.

Committee chairman Joe Wyatt, D-Bloomington, said he was concerned that the state would have to replace as much as \$1 billion in school district revenue that would be lost by the bill's provisions. One such provision would tax farm, ranch and

timber land on its productive capacity rather than its market value, handing rural districts a cut in "I think we would be committing ourselves to a tax

bill in the future," said Wyatt. Peveto's bill centralizes property tax appraisal at the county level and sets up a State Property Tax Board to issue appraisal standards and make studies to determine if property is being appraised uniformly across the state.

Watson said the property tax limit would hamper school districts' ability to cope with inflation, new program requirements and state and federal man-

"School budgets only have 6 to 8 percent discretion" because most spending is tied to state and federal requirements, he said. "In my case it is less than 6 percent.'

percent of your budget," he said. Rep. Bob Davis, R-Irving, said the idea of referenda to roll back tax increases was a good idea but he

"It would be ridiculous to have referenda on 6

thought a 5 percent limit seemed "unrealistic when you have an annualized inflation rate of 11.4 per-Peveto, D-Orange, defended the agricultural tax

feature, which would require a constitutional amendment to take effect. "If we do nothing, taxes on agricultural land, on a

statewide average, are going up 46 percent this year," Peveto said.

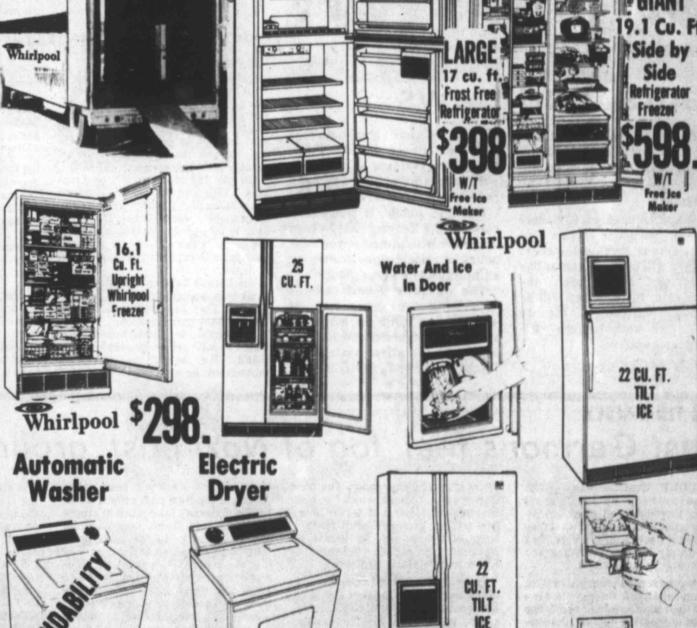

He also tried to reassure those who fear the new state bureaucracy would dictate to local taxing "The state of Texas would not be dictating to local

folks other than setting up uniform standards for appraisals," said Peveto.

Joel Whitmire, chief appraiser for San Jacinto County, said he opposed the state's replacing revenue local governments would lose from agricultural

"It seems to me we are going to be rewarding folks for not doing their job over the years.... One school district in East Texas has timber land on the books at \$35 per acre," Whitmire said.

# Judges of merit

Members of the U.S. House and Senate have agreed to create 152 new federal judgeships, increasing the federal judiciary by one-third and giving President Carter and the Senate the largest judicial patronage package in history.

And the Senate representation in a conference committee struggling over differences in the House and Senate versions of the legislation has scuttled merit selection which would erode Senate clout in the selection process.

The House proposed that presidential nominees be chosen according to non-binding "procedures and guidelines" to insure that the best qualified

candidates were considered. But Senate conferees resisted even this mild admonition in seeking to preserve their traditional control over nominations. The conference bill calls only for "standards and guidelines."

Either form could be waived by the President, whose nominating power is spelled out in the Constitution.

A strong message from Congress, however, would make it difficult to bypass merit selection criteria - and President Carter pledged in his campaign to minimize "political aspect or influence" in his judicial appointments.

Standards of competence and experience are useful in reviewing nominees proposed by senators, usually resulting in judges who are qualified.

But the present system does not seek out the "best qualified."

The merit selection statement should be restored to the legislation in the continuing conference or in consideration by the full House, where it originated.

The impact of the massive increase in the judiciary gives added importance to finding the very best candidates.

# Inflation, wage floor

A boost in the minimum wage to \$2,90 an hour, scheduled for Jan. 1, is "in hundsight" a mistake, according to G. William Miller, chairman of the Federal Reserve Board.

Miller told the Joint Economic Committee of Congress that he would like to see the increase postponed for two years as a means of putting the brakes on inflation.

Since any delay would have to be approved by Congress, the hike from the present rate of \$2.65 seems likely to stand. Organized labor, which fought tooth and

toenail for the increase, surely would battle a delay.

Miller conceded that postponement of the increase would mean no more than a 0.05 percent shaving of the inflation rate, but his remarks serve to dramatize the need to control the inflationary fires.

Labor Department statistics released rece**ntly** gave emphasis to Miller's fears. The inflation he envisioned as perhaps 7 percent this year could be as high as 11 percent.

Congress should get the message.

# Bears 'bad news

The bears in Yosemite National Park are anything but cuddly, according to Dick Riegelhuth, ranger in charge of bear management.

To impress upon park visitors that the 500-pound beasts are neither cute or lovable, the bears no longer will be given names like "Sugarplum" and "Sunset," the ranger said. Instead they will be assigned numbers to identify those which have become "unmanageable outlaws."

camps, steal food, break into cars and sometimes invade tents, terrorizing campers.

Sugarplum now has been redesignated as Bear No. 242.

But the public is not easily convinced. Rangers have been harassed with protests over their policy of relocating or destroying animals that create problems.

The reaction should not be surprising. A generation of Americans recalls the era when vicious two-legged criminals were referred to affectionately as "Baby Face" and "Pretty Boy."

#### ART BUCHWALD

# 'What the heck; it's a 25th anniversary gift'

WASHINGTON — A lady in Virginia was arrested and found guilty of eating two strawberries in a supermarket. It was a national story, and many people thought the arrest was outrageous. That is because they didn't know what the stores are getting for strawberries this summer.

The price of fruit is out of sight. I discovered this the other day when I took my wife to Neam's Market to buy her an anniversary present. We went to the fruit and vegetable department. But first we had to ring the bell before the guard opened the steel

"We're interested in fruit," we told

We were ushered into a carpeted room where Mr. Neam himself came out and sat behind his Louis XIV desk. We were asked to be seated across

"Can I be of service?" he asked. "We were looking for something in fruit for our 25th anniversary," I

Mr. Neam snapped his fingers and an assistant brought out a tray of strawberries.

"I have a matched pair that just arrived," he said, holding two of the most beautiful strawberries I have ever seen.

My wife's eyes glowed. 'How much are they?' "With or without the sugar?" he wanted to know.

'With the sugar." He wrote down the price on a piece

**WASHINGTON MERRY-GO-ROUND** 

# Paraguayan faces unknown fate

By JACK ANDERSON

WASHINGTON - This is the story of a brave man who left safe haven in the United States, knowing his life might be in danger, and returned to the clutches of Paraguay's ruthless military tyrant, Gen. Alfredo

Domingo Laino dared to speak out against the dictator during a six-week stay in the United States. He boldly opposed international loans to Paraguay until Stroessner stops committing atrocities against his

Stroessner has held the Papaguayan people in an iron grip for 23 years. The dictator not only has tyrannized his own people; he has also provided a haven for Adolf Hitler's war criminals.

Our associate Larry Kraftowitz met with Laino and asked about the risk of his returning to Paraguay. He admitted fatalistically that his life might be in danger. But he insisted that he had to go back to help his countrymen in a struggle against Stroessner's oppression.

On the day of his return to Asuncion, Laino was stopped and dragged from his car on a downtown street by Stroessner's police. Today, the lonely hero is being held incommunicado by the police, awaiting years in prison or perhaps a firing squad on trumped-up

His friends have relayed messages to us fron Asuncion that they fear for his life. They have reason to believe he may have been tortured.

It should be emphasized that Laino's only crime is speaking his mind. He heads no guerrilla movement; he hasn't even advocated

violent revolution. He merely trumpeted his views in the free atmosphere of Washington.

Stroessner's lackeys responded by denouncing Laino as a traitor. Then the docile Paraguayan parliament, under the tight rein of the dictator, took up a resolution that would revoke the citizenship of anyone criticizing the regime from abroad.

U.S. analysts in Latin America had no trouble grasping the intent of the resolution. The proposal, they cabled Washington, was a "poorly disguised effort to discourage future Lainos from criticizing the government abroad.

Earlier, on the eve of Laino's visit to the United States, the American embassy in Asuncion cabled the State Department that Laino and his compatriots were being denounced as 'discredited opportunists seeking to curry favor with the USG (United States Government) and gain personal publicity by waving the banner of human rights."

The cable, dated April 12, also reported ominously that Laino had been accused of "sowing resentment and hatred." This catch phrase, the embassy warned, is normally used by the dictator when he invokes infamous Law 209. This is a sweeping measure that permits Stroessner to detain political prisoners at whim.

Informed observers now speculate privately that Laino may be tried under Law 209 on previous charges that were never prosecuted. Stroessner has used this tactic in the past to intimidate opponents who have a popular following. He merely leaves charges hanging over their heads, as a warning that they could be tried and convicted at any time.

The unprosecuted charges against Laino are the usual claims of Marxist associations. Laino has sharply denied the accusations in a private letter to the minister of the interior. There has been no such Marxist front ... ' he wrote. He also denied that a book he published was edited and financed by the communists. "This falsity," protested Laino, "is as base as all the other ones.

On an earlier occasion, the dictatorship tried to smear Laino by accusing him of stashing \$25,000 in Soviet funds in a Swiss bank account. But Laino was able to produce evidence that the charge was a complete fabrication.

In 1975, Laino hid in a cellar for twodays while Stroessner's henchmen, posing as an anti-communist mob. searched the city of Villarrica for

But on this occasion, the Paraguayan government has admitted the police are holding Laino. His brutal arrest on the streets of Asuncion, however, more nearly resembled a kidnapping.

His wife has been allowed to see him for only two minutes. According to Paraguayan sources, the brave Laino walked sluggishly and looked as if he might have been in a drugged stupor. His wife was unable to tell whether he had been beaten, because he was shrouded in an outsize garment covering his entire body.

Footnote: U.S. Ambassador Robert White has met privately with the Paraguayan foreign minister to express concern for Laino. But only last December, the tinhorn Stroessner had dinner with President Carter at the White House.

CARTER MANEUVER: President Carter is trying quietly to maneuver around the obstinate AFL-CIO chief. George Meany, who has made personal cracks against the president. In the secrecy of a Cabinet meeting. Carter said he was "disappointed" in

The White House strategy is to try outflanking Meany by dealing with lesser labor leaders. The president's men have used the same strategy in an attempt to outmaneuver the traditional Jewish leaders.

#### BIBLE VERSE

For the Lord knoweth the way of the righteous: but the way of the ungodly shall perish. - Psalm 1:6.

Buchwald

I gulped. "Do you have anything else?"

He snapped his fingers again and the assistant brought out another

"These are pears shaped like diamonds," he said. "Note the luster of the skin when I hold it up to the light. Elizabeth Taylor had one of these for breakfast when her husband John Warner was running in the prima-

I could see my wife's mouth watering. "I don't think we're in Elizabeth Taylor's class," I said.

'Consider this diamond-shape pear an investment. In three days when it's ripe it will be worth three times what you paid for it."

We both shook our heads. Mr. Neam, who is to fresh fruit what Bulgari's is to jewelry, was very po-

He snapped his fingers and the assistant took away the tray of pears and brought a tray of peaches, each

sitting on its own piece of cotton. "One of these would go lovely with your wife's complexion," he said. 'There are only 11 on this tray. Sophia Loren bought one when she was in town a few weeks ago. When these are gone, there won't be any more. As you can see, our designer has made it possible to either eat one as is, or cutit up into small pieces and add sweet cream.

He wrote down the price on a slip of

There was no way I could afford "We were hoping," I said, "for something that would take up more

room in our Waterford fruit bowl." "I have just the thing," said Mr. Neam, still smiling. He snapped his

fingers and the assistant brought out a tray of bananas. They were still green, but Mr. Neam explained the green ones had the most value because in time they

would turn yellow. My wife picked one up, and I knew from the way she held it that this is what she wanted. "What the heck." I

thought. "A 25th anniversary only comes once in a lifetime.' I wrote out the check and they put

the banana in a velvet-lined box.

Mr. Neam locked the safe and then escorted us to the door. "Come back next week," he said. "We're having an exhibition of rare raspberries loaned to us by the Mellon family who grow them on their farm in Middleburg."

#### THE BIBLE CAN YOU QUOTE IT?

By LAVINA ROSS FOWLER AND ELIZABETH ROSS WIERSEMA

1. The plant "lentils" is a product of the Old World. It is about as tasteless as straw, but was used in a dish called "pottage." (Ezek. 4:9) There is an account in Genesis 25 of one brother selling his birthright to his brother for a meal of pottage. Name the two brothers.

2. Which of the apostles said, "We ought to obey God rather than man."? Acts 5: 29 3. Complete Jesus' words to the rich KODAK

# West Germans feel 'fog of Nazi past' around them

COLOGNE, West Germany - The Germans are heavy hitters. They are serious, thorough, and often obsess-Ive. They put firm hands on what they do. When it deals with intellect, they probe deeply for inner meaning and tend to catacyclismic mood.

So when terrorism emerged in West Germany, it struck the psyche even harder than the Germanic body. The murders of Siegried Buback, the public prosecutor; Jurgon Ponto, chairman of the nation's most powerul bank, and Hans-Martin Schleyer, a key industrial leader - all within six months last year — traumatized the Germans like nothing since the World War II catastrophe.

Actually, by comparison with the numbers of people killed or wounded through terrorism in other countries, West Germany has had a modest experience. But the very fact that terrorism could disturb the cravedfor order in the German state which toiled to an economic miracle, caused an enormous binge of self-doubt, soulsearching analysis, and even doomsday utterances.

The intelligensia, students, social critics, and particularly author Funter Grass — the post-war chronicler of German mood - suffered anguish over the possibility that Germans would again, as during the Wei-mar Republic, be unable to live

brough crisis. The killings last year were the most

lethal message the German terrorists

leged, but nihilistic young men and women — had delivered in their seven

an odd collection of bright, privi-

years of hateful expression. The West German government, which has been compulsively liberal in terms of police actions, grappled with the chal-lenge of tighter security measures. Naturally, the nations victimized by Hitler and the Nazis twitched.

The sight of armored vehicles, coils of barbed wire, fresh-faced young police bearing guns and checking i.d. cards, along with the Bundestag's fierce debate over anti-terrorist legislation, made some of West Germanys neighbors shudder.

This bothered many thoughful Germans who have prayed and worked for the strength and success of the 29-year-old Federal Republic, and don't want to see it cruelly assaulted as in Weimar times.

A distorted opinion of the Federal Republic is painted abroad, Gunter Grass declared during the worst of the Schleyer affair, a picture that's often filled with hatred, as if people abroad do not wish to take cognizance of changes in the Federal Republic ... a democracy has grown up here.

A Dutchman, Prof. H.W. Von Der Dunk of Utrecht, pooh-poohed the alarm over the outbreak of, and reaction to, terrorism in West Germany, as pharisaism. He noted that terrorism is no West German speciality, and came down hard on leftists who charged West Germany would use Fascist tactics to combat it. The professor cited West Germany's liberal educational policies and the fact that 60 percent of the population was born

after Hitler. But 60 percent or whatever, all Germans feel what has been called the fog of the Nazi past around them. Hence, it doesn't take much to arouse identity pangs. Germans want order and democracy. In Weimar times, they had none of the former, so they lost the latter. When they got order and prosperity from Hitler, they also got a war which killed 10 million of

them, and destroyed their country. Now, like members of Alcoholics Anonymous, they view that one drink of excessive order as perhaps fatal, so they fret about it constantly.

Students charge that airport searches, American style, are a step toward Naziism and that the government is out to crush the universities. One young professor told me that because he had visited the Soviet Union, he was sure his career was severely damaged. A young woman, olding a good government job, said that because of terrorism, she is afraid to say anything positive about the Communist East German government. A substantial number of German young people, while deploring terrorist killing, complain that the government should spend more time studying why the killers became terrorists, than in developing techniques

to cope with them. The progressive left here is a bunch of cry-babies, says Prof. Erwin Scheuch of Cologne University. They want a revolution with civil service protection, and retirement with honor at age 60. They are small-town Bab-

bits - credit card revolutionaries. Scheuch was once a hero to the progressive left, but terrorism disgusts him, and he's brave enough to say so. The students are sulking now, he told me. The suicides of their heroes took the wind out of them. This country has an awful lot of reserve loyalty from people who want the nation to suc-

Between 1917 and 1947 the Germans suffered two horrible wars, devastating unemployment, the defeat of their first democracy during Weimar, and seduction and consequent destruction by Hitler.

In the 30 years since, the Germans survived the Berlin blockade and constant Soviet threat, and went on to build an economic miracle and a working democracy. But the Germans don't have full self-confidence yet, and there always seems to be a dark cloud over these remarkable

They are in the midst of a great test, but then, they seem to wallow in great tests.

Spontaneous action often pre-planned

By FRANK CORMIER **Associated Press Writer** 

WASHINGTON (AP) Presidents and their families sometimes do things in public on the spur of the moment, but it's not always easy to tell what's spontaneous and what's pre-planned.

When President Carter went to West Berlin last weekend, a woman approached the outdoor platform where he was while his remarks were translated into German for his audience.

The president stepped from beside his bullet-resistant rostrum and reached down and smilingly accepted flowers.

Was this spontaneous or pre-planned?

If it wasn't planned in advance, it was a breach of normal security procedures. Presidents aren't supposed to accept bouquets from strangers, unless arrangements are made in advance - particularly in terrorist-conscious West Berlin.

The relative rarity of spontaneity in such situstanding and waiting ations was emphasized in Wiesbaden, West Germany when an Army major approached the president as he was about to leave and expressed a desire to give Carter a plastic white

military unit reviewed by the visitor.

A White House advance agent intercepted the major and announced: "The President can't accept that. It wasn't part of the plan." So Carter accepted it

any way, which proves even presidents don't always adhere to the scenarios prepared for

Presidential assistant Hamilton Jordan was questioned in West Germany about prospects for an exchange of American-held prisoners for Soviet dissident Anatoly Shcharansky.

Jordan acknowledged.

'Midge doesn't want to

Jordan, the most powerful of presidential as- Vance session apsistants, referred to proached, one reporter Margaret "Midge" Cos- after another got up and tanza, who long resisted top-level demands that she vacate her office closest to the president's private quarters when the senior staff was ex-

panded a few months ago

**During Carter's visit to** the West German capital of Bonn, Secretary of

State Cyrus R. Vance scheduled a meeting

Carter's chief trade ne-

As the hour for the after another got up and walked out the only exit - right beside Strauss' platform.

After at least half a dozen had paraded past him toward the exit, Strauss interupted himin an effort to dispel crit- self to comment dryly, "I'm going to empty this

joint pretty soon."
After all that, Vance cancelled the meeting with the reporters.

In final negotiations with reporters that was for a seven-nation ecoto coincide closely with nomic summit declaraeagle - symbol of the at least in jest, that this an on-the-record briefing tion, Strauss insisted the

was correct but added, by Robert Strauss, document state that megotiators for liberalized trade had succeeded in fulfilling commitmen ts made at the previous e conomic summit in Lors-

French Premier Va lery Giscard d'Estaina! suggested this might be acceptable if the trade negotiators - and he was staring directly at Strauss - wanted to brag on themselves.

Strauss responded with one of his favorite stories involving baseball Hall of Famer "Dizzy" Dean, a pitcher out of the Ozarks.

"It ain't bragging if you've done it," Strauss quoted Dean as saying

Inflation, oil

might force Carter's hand

By JOHN CUNNIFF

NEW YORK (AP) — His economic performance rated weak, and with important promises unfilled, President Carter conceivably might be forced to act in a manner that could be construed as imperious.

At stake, among other things, are President Carter's reputation as an international leader, and his credibility on the major domestic issue of restoring price stability to an inflation-distorted

The promises were restated at the just-completed meeting of industrial nation leaders in Bonn, West Germany, when Carter pledged to cut both the rate of domestic inflation and the use of imported oil.

The problem with such promises is the delivery, and the chance exists that Carter can deliver only if he takes unusually aggressive and authoritarian action that is bound to stir harsh controversy.

At this moment, the president is hardly succeeding in his efforts to control inflation, now running at better than 10 percent annually. And his efforts to pass an energy bill have been frustrated by Congress.

In fact, criticism and resistance might even have

grown stronger over the past year, and could be forcing the president to consider actions he has so The administration's anti-inflation effort has been meeting resistance from business and labor, who

fear that voluntary restraints might only worsen their position while inflation in general runs un-So long as this attitude prevails, the administra-

tion's jawboning can only get tougher. And that, says a U.S. Chamber of Commerce economist, is what has been happening: "Rougher and more precise."

"There is a certain deja vu about it," he said. "We've heard it before." When? "In August 1971," he replied, "when President Nixon froze wages and President Nixon at that time already had standby

authority from Congress to impose controls. Presi-

dent Carter does not, despite an assumption that authority is passed on from president to president. Can Carter obtain the authority? "Congress has always been happy to give the president standby authority because it takes responsibility of its

back," said the Chamber economist. Others might react differently. Business and labor might consider such a move to be a dictatorial interference with their rights, and an explosion of criticism might be expected. But some

of the public might react with relief. Still, controls are widely thought to represent failure, a resort to power after more sophisticated and democratic efforts have collapsed.

And the same attitude might pertain to the oil situation also. The president has attempted to per-

suade Congress to tax crude imports, but with little

success. His next move could be to impose quotas Again, such a move might be interpreted by some to be arbitrary and a failure of the democratic 8-20 process. And it would lay the president open also to the accusation that he was merely contributing to inflation.

Still, the president has made his promises to the heads of the other industrial nations, and for reasons of honor, prestige and reputation he undoubtedly feels compelled to demonstrate he is a man of his

And domestically, embarrassed by the vicious criticisms of ineptness, he must feel compelled as well to demonstrate that he is capable of effective action, even if he has to take it all by himself.

# Tax bill author happy at Briscoe

AUSTIN, Texas (AP) — Rep. Wayne Peveto, D-Orange, said Wednesday he was overjoyed that Gov. Dolph Briscoe had asked the special session to approve a measure similar to the property tax revision bill offered by Peveto. However, Peveto said he might be open to compro-

mise on one provision that Briscoe said he was particularly interested in.

The Peveto bill, heard Wednesday afternoon by a House committee, calls for countywide apprais-al offices for all local taxes. It also would set a 5 percent limit on local tax increases, unless approved by two-thirds of a governing body. It also would have farm land taxed on productivity instead of real estate value.

Briscoe said in a news conference Tuesday that he felt it was "essential" for this session to pass a tax limitation measure and he was impressed by the 5 percent provision in Peveto's bill.

"There is room for compromise there," Peveto said after Briscoe included his bill in the session call. "I am not set in concrete there."

Peveto said he would like for his package bill to come out of the legislature with four main points—property tax revision with single county appraisals, \$10,000 exemptions from local school taxes for homeowners, plus another \$10,000 for those over 65, and appraisal of farm and ranch lands by productivity.

"I do not think we can have repeal of the state utilities sales tax and property tax revision too," Peveto said. "There is not enough money available ... The sales tax repeal would help people very little anyway, just a few dollars."

# REAL ESTATE WANTED

BOSTON (AP) - When a man has a sexual problem, his wife probably knows about it, but the man rarely recognizes his wife's own problems, according to a published study of 100 "happily married" couples.

One-third of the women surveyed said they had difficulty maintaining excitement during intercourse, but only one husband in seven thought their wives had this problem.

The study of 100 white, middle-class Christian couples was conducted by the University of Pittsburgh's Department of Psychiatry and published today in the New England Journal of

and one-third of the men reported physical or psychological problems with sex, 83 men and 83 women rated their marriages as happy. Ninety percent said they would marry the same person if they had their lives to

The study concludes the couples "still feel very positive about their sexual relations and their mar-

The researchers said difficulty in becoming aroused was the most important factor in a woman's sexual dissatisfaction, more important than difficulty or inability to reach or-

Nearly half the women said they

had difficulty getting aroused, and 46 of those questioned had difficulty reaching an orgasm.

The women also said they could not relax during sex and complained of too little foreplay and too little tenderness after intercourse.

The most frequent problem among the men, listed by 36 of them, was premature ejaculation. Sixteen percent said they had either difficulty getting an erection or difficulty maintaining one.

The average age of the women surveyed was 35, the men 37.

The researchers cautioned that the 100 couples should not be considered typical because they are "all welleducated, relatively comfortable couples who believe that their marriage: are working."

It also acknowleged the risk of asking people to rate their own mar-

riages.
The study identified two types of sex problems: dysfunctions - erectile and ejaculatory problems in the male and arousal and orgasmic problems in the females; and difficulties - inability to relax, inconvenience, disinterest, too little foreplay and too little tenderness.

The study says that although wives may suffer their sexual dysfunctions in silence, sexual difficulties are apt to color the couple's relations.

"Among all the possible kinds of sexual problems it is clearly the wives' sexual 'difficulties' that was the least well tolerated," the study

'Indeed, they seem to have a ripple effect on all sexual relations. Although it was once thought it was the man who wrote, produced and performed the sexual scenario, with the wife acting the role of 'extra,' at least within this better educated, more affluent population, the wife emerged as the major influence on the course of the drama.

"If the woman was unable to, relax, felt 'turned-off' or was approached at the wrong time, all sexual relations suffered as a result."

# and well in Ohio

CLEVELAND (AP) -Warren D. Riebe always knew where he was, even if a certain "Mrs. D" from Seattle and a robot letter-writing machine at the White House never could straighten out his whereabouts.

He's been here all the time.

Mrs. D didn't know. that 10 months ago when she received a response to a letter she had written to the White House objecting to the appointment of Jack Tanner as a federal judge. Tanner has since become U.S. District Judge in Tacoma, Wash.

The response from the White House letter-writing machine thanked Mrs. D for recommending "Warren D. Riebe for a position in this admin-

#### **DEATHS**

William L. Kerr

#### William L. Kerr

Services for William L. Kerr, 74, of 1200 Country Club Drive will be at 10:30 a.m. Friday in the Episcopal Church of the Holy Trinity. Officiating will be the Rev. Sam Hulsey,

Burial will be at 2 p.m. Friday in Fairview Cemetery in Pecos directed by Newnie W. Ellis Funeral Home. Kerr died Wednesday at his home after a lengthy illness.

Kerr, a practicing attorney for about 50 years, was the senior member of the law firm Kerr, Fitz-Gerald & Kerr.

He was born to Martha Jane and Monroe Thompson Kerr June 5, 1904, in Van Horn. His parents had settled in Eastern New Mexico and West Texas in the 1880s. He married Frances Hubbard in 1929.

Kerr attended Pecos public schools, Texas Christian University, The University of Texas and Cumberland University School of Law in Ken-

He was admitted to the practice of law in Texas in 1927, and, except for the years he was a state district judge, Kerr practiced law with his father-in-law, W.W. Hubbard, in Pecos from 1927 until 1944.

Kerr had served as county attorney of Reeves County and district attorney and judge of the 109th Dis-trict Court, which included Reeves, Ward, Crane, Winkler and Andrews counties.

In 1944, he began his law practice in Midland. At first, he was a member of the firm of Whitaker, Turpin, Kerr, Smith & Brooks. Later, he became a member of the Kerr, Fitz-Gerald &

Kerr firm. Kerr was a former member and president of the Board of Regents of the State Teachers Colleges of Texas, former president of the State Bar of Texas and a past member of the House of Delegates of the American Bar Association. He was a fellow of the American College of Trial Lawyers, fellow of the American College

42" Pedestal Table 4-Folding Chairs

**501 EAST ILLINOIS** 

682-2843

of Probate Counsel, fellow of the American and Texas Bar Foundations and was a member and former vestrymen of the Episcopal Church of the Holy Trinity. He is listed in the biographical dictionary, "Who's Who in the United States.'

Kerr was a past district governor of Rotary International and was a member of the Downtown Rotary Club. He was a former member of the Parents Advisory Council of Washington and Lee University.

Kerr's expertise in legal counseling and law included Texas water rights, on which he was an authority.

Survivors include his wife; two sons, Wm. Monroe Kerr and Ted M. Kerr, both of Midland; a sister, Nell Kerr Prickett of Lubbock, seven grandchildren, a great-grandchild and a niece.

The family has requested that any memorials be sent to the West of the Pecos Museum at Pecos or to the Permian Basin Petroleum Museum, Library and Hall of Fame in Mid-

#### Maybelle Tidwell

BIG SPRING - Services for Maybelle Tidwell, 82, of Big Spring will be at 10 a.m. Saturday in Nalley-Pickle Funeral Home. Graveside rites will be in Pine Bluff Cemetery in Locus-

She died Wednesday at her home in Big Spring. Mrs. Tidwell was born July 19, 1896,

in Alabama and had resided in Big Spring since 1942. She was a Baptist. She was preceded in death by her husband J.B. Tidwell in 1962, and her eldest son J.T. Tidwell in 1973.

Survivors include four sons, Alfred Tidwell, Charles Tidwell and Ralph Tidwell, all of Big Spring, and Fred Tidwell of Bakersfield, Calif.; three daughters, Sylvia Dody of Roanoke, Mrs. Gene Rossi of Minneapolis, Minn., and Patricia Barba of Sacramento, Calif.; two sisters, Irene Butler of Blount County, Ala., and Ila Cozart of Pittsburg, Mo.; two brothers, Bill McCay of Denison and Henry McCay of Vidor; 34 grandchildren, 42 great-grandchildren and five greatgreat-grandchildren.

#### James Jackson

### Gottfried falls Herrera's future cloudy to Saviano

WASHINGTON (AP) - Taking a bite at a hand that fed him, Nick Saviano reached the third round of the \$175,000 Washington Star International Tennis Tournament and is basking in the glow of the biggest victory of his career.

Saviano upset second-seeded Brian Gottfried 7-6, 3-6, 7-5 Wednesday, and afterwards gave Gottfried a lot of the credit for his being on the circuit.

"Last summer, I was thinking about quitting," said Saviano. "I was really depressed about a lot of things," including a lack of home life and a losing record that had all but dropped him from the national rank-

ings.

Then he bought a house in Florida, giving him a stable anchor in the nomadic world of the touring pro. It also gave him a chance to practice with Gottfried and Harold Solomon, both of whom live in southern Flori-

"They helped me a great deal. On days when I couldn't get two balls in the court, they'd still practice with me, even though I wasn't giving them good practice," he said.

The improvement was evident Wednesday. Saviano served and volleyed aggressively, and kept control of his temper on critical points. Gottfried made the errors. "I'd get rolling and then he'd do something to stop the momentum," Gottfried said.

Saviano said he was confident the victory wouldn't disrupt his friendship. "Brian knows it's just business out there," he said.

Gottfried was the only seeded player to lose in the first two rounds of the tournament although ninth-seeded John Alexander of Australia was fighting a stiff challenge from Terry Moor of South Africa. Their match was halted by darkness after Alexander won the first set 7-5 and lost the second 7-6.

Wednesday was a good day for veterans. Both Australian Ken Rosewall and Arthur Ashe looked sharp, Rosewall defeating Erick Iskersky 6-4, 6-1, and Ashe destroying Ivan Molina of Columbia 6-1, 6-2.

DALLAS (AP) - Efren Herrera's future with the Dallas Cowboys remained cloudy Wednesday as the deadline approached for the All-Pro kicker to report to the Cowboy's pre-season training camp at Thousand

Oaks, Calif. Herrera, the Cowboys' leading scorer last season with 93 points, wants more money in a new contract. He made \$32,500 last season and the Cowboys reportedly have offered him a contract of \$40,000 this season with annual increases of \$5,000 up to \$55,-000 four years from now.

"I haven't been in contact with anyone from the Cowboys since a week ago Friday (July 7)," said Buck Woy, Herrera's agent.

"It's more or less a take-it-orleave-it situation. They've been stealing him for four years already," Woy

season was \$41,506. Will Herrera, a Dallas resident who is now in the Los Angeles area, report to training camp by the Thursday

deadline?

money anywhere else."

"That's not my decision," Woy said. "But it is something we are going to have to talk about in the next 48 hours. His chances of improving his situation with the Cowboys are not

very good." Dallas Coach Tom Landry, who

# Nicklaus wanted week off

PHILADELPHIA (AP) - Jack Nicklaus is at the Whitemarsh Valley Country Club for the \$250,000 Philadelphia Golf Classic which started today, but the game's top attraction made it clear that he would rather be somewhere else - home.

Nicklaus accepted his responsibility to play on the tour this week, because the event has been given designated status, but he didn't like it. A designated tournament means the game's top players have to partici-

"If this were not a designated tournament I wouldn't be here," Nicklaus said Wednesday. "Don't get me wrong, I like the golf course. I've won here twice. I'm willing to cooper-

The only member of this year's top 10 money winners not teeing off in the 72-hole tournament over the 6,615yard course is Gary Player, who was excused by the sponsors when the South African pleaded exhaustion.

The others here, starting with money leader Andy Bean, are runnerup Tom Watson and in order, Lee Trevino, Nicklaus, Hubert Green, U.S. Open champion Andy North, Hale Irwin, Bill Kratzert and Lon Hinkle.

Nicklaus is fresh from winning the British Open, and has twice won on the tour this year. He won at Whitemarsh in 1964 and 1965, and in eight appearances here has earned \$83,159. No wonder he likes the course.

The 38-year-old Nicklaus understands the concept of the designated tournament - to help bolster places that need golf's top draws to insure financial stability. He alone can be the difference between profit and

Nicklaus likes to play in 12 to 15 tournaments a year, including the Masters, U.S. Open, British Open and PGA. Although there are only two designated events this year - there will be only one in 1979 - Nicklaus doesn't like to be told when he has to

Tom Weiskopf, 12th on the money winning list and another of the game's leading attractions, also reluctantly accepts the philosophy of the designated tournament. He also said he wouldn't be at Whitemarsh if it wasn't a command performance for the Pro-fessional Golf Association.

Weiskopf suggested that the PGA not have a designated event after a major such as the British Open.

"I was over there (Scotland) pre-

Milwaukee at Texas, 8: 35 p.m.

Jean Willrich is finding happiness by giving in San Diego - assists, that

Willrich assisted on three early goals Wednesday night as the San Diego Sockers defeated the Los Angeles Aztecs 4-3 in a North American Soccer League match and chalked up their third consecutive victory. Besides running off to an early lead,

the Sockers are starting to run away with the American Conference Western Division, opening up a 43-point advantage over the California Surf. Julie Vee started San Diego off by taking a pass from Willrich and beating Los Angeles goalie Bill Mishalow at the 23-second mark.

Willrich then set up goals by Heinz Stickel at 8: 47 and Walker McCall, his 10th goal of the season, at 13:36.

Bob McAlinden put the Aztecs back in the game with goals at 16:58 and 19: 39 as George Dewsmit assisted on

But San Diego's Klaus Wolf added a goal at 48: 21 before the Aztecs' Pete Coyne closed out the scoring at

Both teams had 37 shots, and goal-keepers Allan Mayer of San Diego and Mishalow each had seven saves.

In other NASL action, Detroit edged San Jose 4-3 in overtime, Toron bested Portland 3-1; Fort Lauderdale blanked New England 2-0; Colorado suprised Dallas 3-1 and Chicago sipped Tampa Bay 3-2.

Express 4, Earthquakes 3, OT Trevor Francis netted two goals and Eddie Colquhoun scored 21/2 minutes into overtime as Detroit edged San Jose, the Earthquakes' 13th consecutive loss.

The defeat made their losing skein the longest in league history, breaking the 12 straight losses in 1976 by the now-defunct Boston Minutemen. Peter Ressel, Paul Child and Victor Kodelja scored for San Jose.

**Metros-Croatia 3, Timbers 1** Ivan Lukacevic scored two goals as Toronto defeated Portland and posted to their fifth consecutive victory. Sead Susic added the Metros Croatia's other goal, while Clyde Best scored for the Timbers. Strikers 2, Tea Men 0

Midfielder Ray Hudson scored two goals as Fort Lauderdale handed New England only its second shutout of the

Caribou 3, Tornado 1 Louis Nanchoff scored two goals as Colorado defeated Dallas and ended a seven-game losing streak. Jomo Sono also scored for the Cari-

bou, who posted their third road victory this year, while Jim Ryan scored for Dallas. Sting 3, Rowdles 2 Arno Steffenhagen, who has scored nine goals in the past eight games, tallied with less than five minutes

remaining as Chicago edged Tampa Dick Advocaat, on a penalty kick and Karl-Heinz Granitz also scored for the Sting. Arsene August and Gra-ham Paddon scored for Tampa Bay.

NBA franchise recently swapped teams with Celtics owner Irv Levin. But this time Brown consulted with Red Auerbach, the Celtics presi-

dent and general manager, before making the deal. Auerbach nearly quit after Brown and Levin capped their team exchange with a multi- Italian boxer player swap.

A statement attributed guard we need as part of our rebuilding program. John (Brown) went out

# Tark goes to the movies

First, the bad news for the NCAA:
Jerry Tarkanian, the University of
Nevada-Las Vegas coach, is putting
together a basketball team in semisecret in Burbank (Calif.) and—
come closer—the players are getting
paid big salaries! Limos pick them up
each morning and chauffeur them to
practice, they get meal money, their
hotel rent is paid, they don't even
have to make their own beds or go to
classes.

Now for the good news: None of these guys will ever play a minute of coilege ball for Tark the Shark. One of them is Dr. J himself. Another is Meadowlark Lemon, and their presence is legit. Tarkanian is technical advisor on a basketball movie, a musical comedy, "The Pish That Saved

Pittsburgh," the story of the Pittsburgh Pisces, a team Dr. J leads to the championship through the magic of astrology.

The big news is that, if the NCAA had its way a couple of years ago, Jerry Tarkanian would no longer be a college coach. The collegiate athletics regulating body threw an all-court press on Tarkanian and his UNLV Running Rebels two years ago, and a condition of probation for the school was that it fire the coach.

You would have thought the NCAA wanted to take out the slot machines. The attorney general of the state, Frank Sinatra, Wayne Newton, the congressman from Nevada, Jimmy the Greek and a half a hundred pit bosses counterattacked. When last

RODEO IS not always a fun sport as Barney Brehmer of Claremond, Calif., finds out after being knocked unconscious by a buil named Convoy in a recent rodeo in Canada. Brehmer was not injured seriously. (AP Laserphoto)

seen, the NCAA was trying to call time out. Tarkanian was claiming they had five personals already.

When Jerry Tarkanian moved from Cal State Long Beach to Nevada five years ago, it was inevitable he and the NCAA would meet in the finals. First of all, they, the NCAA, punished Cal State Long Beach posthumously, so to speak, putting them on probation after Tarkanian had left.

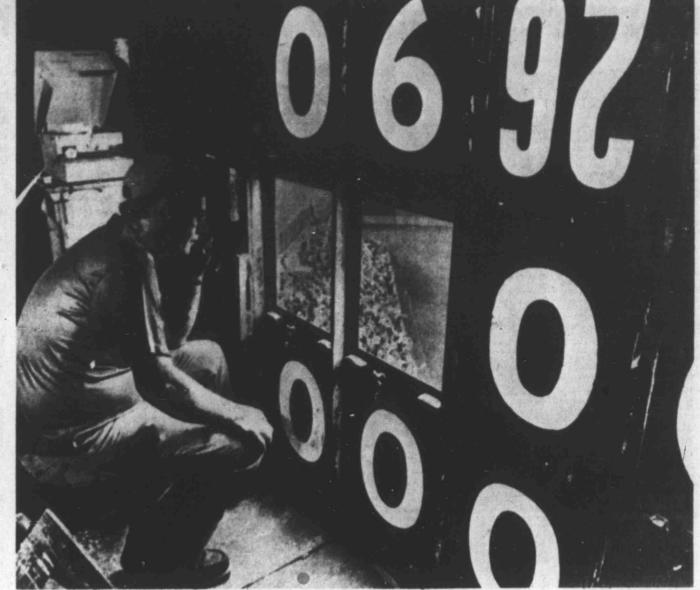

It was not difficult to imagine what was going through the minds of the collegiate association to have a crack coach moving into a Damon Runyon situation like Las Vegas. It was right out of "Guys and Dolls." Tarkanian moving into an institution where the "Alumni" made its living off green felt tables and blackjack and most of them were named "Tony" or "Nick" or "Rico" or "Joe Knucks" or "Fat Tony" or "Lucky." They were afraid hotshot recruits might find Silver Cloud Rolls-Royces in their driveways' or rival coaches might find horses' heads in their beds.

None of this happened. Jerry Tarkanian pointed out Las Vegas had more Mormons than slot machines, more priests than pits. There was probably more betting on basketball in Boston than Vegas, and nobody was going to make anybody any offers they couldn't refuse. Tark had to convince mothers of 6-11 centers that they wouldn't be carried off by the entire front row of the Folies Bergere, and that nobody would hold anybody's hand over a hot stove, The town actually made a pet out of the Running Rebels, dinner shows were interrupted to flash halftime scores, and anyone caught tampering would be apt to find himself under escort to the state line by nightfall or barred from the casinos for life.

None of this convinced the NCAA, which kept waiting for Nathan Detroit or Arnold Rothstein to show up. Tarkanian was the most wanted man since Dillinger. The NCAA kept looking for his fingerprints on 7-foot basketball players.

When Tarkanian made the NCAA finals in 1977, it was considered proof positive that the dice were finally loaded. But Tarkanian regularly used to come within one basket of winning Western regional finals for the NCAA (UCLA beat his Cal State Long Beach 57-55 in 1971, and that was UCLA's closest margin on its march to the championship). Tark's junior college record had been an incredible 198-13, his Long Beach record 122-20, and his UNLV record 122-24 even with a probation.

UNLV comes off probation this year. But Tarkanian is not about to lift his sanctions against the NCAA. He proposes to sue — with a little help from his friends. If I were the NCAA, I'd take to the mattresses.

ART SAGEL sits with phone in hand as he watches a Chicago Cubs home game from a unique vantage point above Wrigley Field in Chicago. Art

is one of three men who work the baseball scoreboard. The scoreboard has worked in this manner since 1937. (AP Laserphoto)

# No. 2 is slump for Evert

they go up and down. When they're up

down, they are capa of losing to any-

one. I've never been really superhu-

man and I've never been really

THAT STEADINESS, Evert said,

By ELIZABETH WHEELER
The Los Angeles Times

LOS ANGELES — Chris Evert has started joking about it with her friends. "I say: 'I'm going through a slump. Now I'm No. 2."

"How many people would love to be No. 2?"
Well, right now, probably every woman in competitive tennis except two: Chris Evert, 23, who has been No. 1 in the world for four years, and

IN THE latest women's Tennis Association rankings, Evert is No. 2 —

Martina Navratilova, 21, the big

Czech defender who defeated Evert at

Wimbledon and is now top ranked.

"I can't resign myself to being No. 2 for the remainder of my tennis career or I will be No. 2,"she told an interviewer. "There's still the U.S. Open and the Colgate championships. I think I have a fighting chance of

getting (the No. 1 ranking) back."
Whether she does or not, Evert's loss has been as big a story in tennis as Navratilova's victory. Several newspapers headlined the story:
Evert loses inWimbledon Finals.
"When I win," said Evert "there's no reaction. When I lose everyone says:
'The kid's going down hill' — and I

end up defending myself.

"I hate being defensive. I don't think any woman in tennis has ever been No. 1 for four years. My game isn't any different now. Martina's game has been sloppy for three years. It's her emergence. I wish people would write about these players who are beating me — give them their

"I quite honestly think it would be hard for anyone to dominate tennis that way again. The top women are so close. Between me, Martina, Evonne (Goolagong) and Virginia (Wade), it's going to be a battle."

RIGHT NOW, if anyone is going to dominate, it looks like Navratilova. She's won Winbledon, the Virginia Slims championship and is easily the top woman in World Team Tennis. After Wimbledon, Navratilova of Boston beat Evert of Los Angeles again, in the WTT All-Star match, 6-1.

"Martina's had an excellent six months," said Evert. "Right now, she's definitely No. 1. But she hasn't been consistent in the past. Now the pressure's on her and let's see how she reacts. She could crack or she could get so confident she can beat anyone. Look at Virginia (Wade). She won Wimbledon last year and she hasn't done a thing since.

"Players like Virginia, Martina, Evonne and Billie Jean in the past, allowed her to beat the bigger and stronger Navratilova in the past. "I know my capabilities and I know my limitations. I'll never serve like Martina. I'll never have an arm like that. I'll never be as quick as she is. She's a better athlete than I am."

But, Evert said, it was Navratilova's hunger, not her athletic ability.

But, Evert said, it was Navratilova's hunger, not her athletic ability, that beat Evert at Wimbledon. "She has the game to beat me and I have the game to beat her. It just depends on who hangs in there."

AND, FOR once, Martina hung in there. People who watched the tournament commented on the difference between the obvious dismay Evert's friend Jimmy Connors showed when he lost to Bjorn Borg in the men's finals and the seeming nonchalance with him Evert accepted her loss to Navratilova.

"I'm not upset that I lost to Martina," Evert said. "She was tougher in every way than I was. Maybe I was too willing to accept defeat. I never really felt deep in my heart that I was the better player on grass at that

"To have confidence, to be considered a great player, you need to win titles. I've won 10 or 11. She hadn't won a thing. She just needed it more than I did.

"You have to have the intensity, the desire to win. You can't fake it. For me, the desire to win was there because I ever want to go out on the court and lose. But the intensity wasn't really there. It hasn't been since the break."

THE BREAK — for four months at the beginning of this year when Evert did not play competitive tennis — may be the key. Evert had devoted most of her life to tennis and during the last four years she dominated the sport. "Tennis was everything," she said. "I suffered in a lot of ways because of it — with my family, my relationships, things you keep to yourself."

To

Since then, Evert hasn't put all her energy into tennis. Before Wimbledon, she said she hoped to be able to achieve the same standard of play wihout the same intense committment. Now she's not certain.

"I almost can that's for sure It

"I almost can, that's for sure. It was that close," she said, holding her fingers about an inch apart. "A matter of two or three points. If they'd gone the other way, you'd be talking to the great champion."

BUT IT may be that a 100 percent commitment is what it will take for Evert to regain the position of No. 1. if that's the case, Evert isn't sure she'll ever be No. 1 again.

ever be No. 1 again.

"Are you asking me whether it would be worth it?" she said. "To go back to the way I was to be No. 1 again? I don't know. Someday, maybe, it will hit me and I'll say: 'I

need to be No. 1 to be happy."

Evert made a face after that state-

ment.
"That sounds pretty sad, doesn't it?
I wouldn't say I was happy during those four years. I was happy with my tennis. But I won Wimbledon in 1976 and went back to an empty hotel

room. I didn't feel good then."

Evert said she hopes she doesn't have to choose between tennis and her grownup lifestyle. "I haven't come to that realization yet. I'm still experimenting." She said, she'll sit down at the end of the year, look at what she's accomplished and weigh her priori-

"I believe you get out of things what you put into them. I put everything into tennis and I was No. 1. I put nothing anywhere else — and it

# Irv Levin paid the price to get team nearer home

By DAVE DISTEL The Los Angeles Times

SAN DIEGO — To a casual observer, trading the Boston Celtics for the Buffalo Braves might seem like trading the New York Yankees for the Atlanta Braves.

But to Irv Levin, new owner of the former Buffalo team, it doesn't seem like a bad deal at all. Having moved the club to San Diego, he now has a team just an hour or so from his Beverly Hills home.

"I traded the Boston Celtics with the greatest misgivings," he said, "but that's the price I had to pay to have the pleasure of enjoying a team back home."

AND LEVIN is convinced it was no penthouse-for-bomb-shelter transaction.

"I think we're better than the Celties," he said. "After the trade we made, our roster presents a better ballclub on the court. And I hope to add to it by making trades and signing free agents.

Levin, an entertainment executive, does not appear to be reluctant to shake things up. After trading ball-clubs with John Y. Brown, he immediately consummated a seven-player transacion with Brown and the Celtics. Such a deal between basketball teams is comparable to a 15-man swap between baseball teams.

Assuming options are picked up and free agents signed, Levin will come away from the deal with Kevin Kunnert, Kermit Washington, Sidney Wicks and Freeman Williams. For them, he dispensed with Nate Archibald, Billy Knight and Marvin Barnes.

UNABASHEDLY, Levin proclaimed that San Diego had gotten the best of the deal.

Levin has little more than players right now. He hid from the telephones in a Sports Arena office one afternoon last week and pondered the difference a month can make in a man's life.

He went to the National Basketball Association meetings in Coronado, Calir., on June 13 as the owner of the Celties, an old-line franchise with multitudes of fans, a front office, players and even basketballs.

Buffalo owner John Y. Brown also went to that meeting, but he was more than a little footloose. Buffalo had everything Boston had, except a multitude of fans. Brown proposed to

move his team to Dallas.

"He was turned down," Levin said,
"because the league thought that Dallas, with its old, small arena, wasn't
ready for an NBA franchise yet."

There was also talk from Brown that the Braves might go to Miami or Louisville or Minneapolis-St. Paul. "San Diego," Levin said, "was way down on the bottom of the list."

Friends within the NBA went to Levin and suggested that a trade of franchises might be workable — that maybe he would like to come in from the cold and own a team near home.

"IT MADE sense for both of us,"
Levin said. "He loved the idea of
owning the Celtics and I loved the
idea of having a team here."

However, Levin did not become a principal owner of National General Corp., a bilion-dollar conglomerate, by rushing headlong into business deals. San Diego, after all, had previously been the unhappy home of two professional basketball teams, one in the NBA and the other in the American Basketball Association.

"It caused me to do some quick and intense research," he said. "I came away with the conclusions I have now. The NBA team, the Rockets, was doing rather well, but it left because the owner was having arguments with the arena people and the city. Someone came along with a lucrative offer—a \$4 million profit—and he took it. The ABA team was a bad team, no comparison with what we have today. This is a whole different thing, what professional basketball is all about."

LEVIN DOES not profess to be an expert in the intricacies of professional basketball. His background is in flicks rather than picks.

He began 25 years ago as a small independent distributor of reissued action films. He had an office in Los Angeles. He sold the film locally. The name of the game was hustle.

His horizons expanded nationally and then internationally.

Working with Sam Schulman and Gene Klein, Levin became a part of National General in 1961. By 1972 the conglomerate owned 300 theaters, two book-publishing companies, an insurance company and a savings and loan company.

"WE WERE fellows who loved sports," Levin said. "We were super-

Levin was a partner in the group, headed by Klein, that purchased the Chargers in 1966. Schulman headed a group that bought the NBA Seattle SuperSonics in 1967, with the others loging him.

Levin became interested in the Celtics in 1972, but the potential conflict of interest with Seattle caused the NBA to turn him down. He left National General in 1972, intent on taking control of the Celtics, but had to work his way through two and a half year of litigation with the late Bob Schmertz to get 50 percent of the franchise. When Schmertz died in 1975, Levin bought the other 50 percent from his estate.

NOW LEVIN, Klein and Schulman have their own little places in the sun — Klein owning the Chargers and Schulman owning the SuperSonics and Levin owning San Diego's newest

Levin calls it "kind of a business hobby."

"You try to make money," he said, 
"but you don't make money commensurate to what you might make if you 
put the same amount of money in 
other investments. You want to make 
money and have fun, but you usually 
end up not making money and trying 
to have fun."

Levin will be an active owner, particularly right now. He has to be. Norm Sonju, president of the Braves in Buffalo, is helping with the transition, but the owner himself is now basically a one-man staff.

"We're getting 100 calls a day from people looking for jobs," he said, "and maybe 150 letters. Everyone wants to live in Southern California. We've got to hire a general manager, coach, assistant coach, publicity people, marketing people. We have to do simple things like just opening a bank account."

LEVIN'S FIRST priority is to hire a coach. He wants a man who is a proven NBA winner. He says he has such a man in mind and could have him under contract in the next few days.

"I intend to be active," he said, "but professional decisions I will leave to the coaching staff. I'm very sure I'm going to make mistakes, but I want to keep them to a minimum. I have a lot to prove at the league level. I don't want to let my partners down. They voted to let me move here."

### El Paso loses to Arkansas, 5-3

In Texas League action Tuesday night, San Antonio edged Jackson, 2-1, Arkansas beat El Paso in 10 innings, 5-3, and Tulsa beat Amarillo, 6-2.

By The Associated Press

Gerald Hannahs gave up only three hits in pitching San Antonio to a 2-1 victory over Jackson. One of the hits, however, was a homer by Hubert Brooks of the Mets. The Dodgers scored both runs in the second inning on a single by Hilario Soriana and on a bases loaded walk to Jack Perconte. Scott Holman, now 7-2, took the loss and saw his personal six-game winning streak broken.

Dave Rivera hit his 12th homer of the year and designated hitter Joe Stewart drove in two runs with a bases-loaded single as the Tulsa Drillers defeated Amarillo, 6-2. Brian Allard, who allowed only five hits, was the winning pitcher.

Arkansas scored two runs in the 10th inning to defeat El Paso, 5-3.

Three Tall City teams
begin state tourney run

**oSIDE PIPES** 

United Girl's Softball Association State Tournament will begin a four-day run here tonight at the Roy Anderson Softball Complex with three Midland teams shooting for titles in two divisions.

Midland P.oyal Blue is the Tall City entry in the Division I competition, which is for girls in the eight through 10 age group. Midland Maroon and Midland Kelly Green are local teams entered in Division II for girls 11 through 13.

Today's action kicks off at 6 p.m. when Midland Maroon will face Big Spring in a Division II clash. Two Midland teams will be playing at 8 p.m. today. Midland Kelly Green will face Odessa No. 2 in the Division II struggle while Midland Royal Blue will face Odessa No. 2 in the Division I contest.

The tournament is a double elimination meet, and the finals are slated for a 1:30 p.m. start Sunday at the same site.

Odessa No. 1 and Snyder drew opening round byes for tonight in Division II. Odessa No. 1 will face the winner of

BIG SPRING — The United Girl's Softball Association State Tournament will begin a fourday run here tonight at the Midland Maroon-Big against Snyder at 10:30 a.m. Friday. The losers will drop to the loser's bracket for 6 and 8 p.m. bout will square off games Friday.

### Unit, 815 feet from south of Kenna, 4,350. School records declared 'open'

AUSTIN, Texas (AP) - A school district employee has a right to a copy of a superintendent's memorandum concerning him, Attorney General John Hill said Wednesday. Hill said, however, that the employee does not

communications with its lawyer. Hill's legal opinion went to Superintendent Gordon Cockerham of the Lancaster Independent School

have a right to copies of the school district's

'We do not believe that the governmental employee's special right of access to information in his personnel file extends to information protected by the attorney-client privilege, even if the subject of the correspondence relates to the employment relationship," Hill wrote.

The superintendent's memorandum mentioned expected litigation by the employee, and the district's lawyer told Hill it should not be made public.

'This memorandum does not relate directly to pending or contemplated litigation, but to the facts and circumstances out of which the litigation might arise," Hill said, in ruling the memo should be

#### turned over the employee. 14, block G, GWT&P sur- No more standing

PHILADELPHIA (AP) — A federal appeals court has affirmed a ruling that it is unconstitutional to compel school students to stand during the Pledge of

The 3rd U.S. Circuit Court of Appeals ruled Tuesday in favor of Deborah Lipp, 16, of Mountain Lakes, N.J. U.S. District Judge H. Curtis Meaner, who originally heard the case, had struck down a portion of the New Jersey statute that required students "to show full respect to the flag while the pledge is being given merely by standing at attention."

MAURICE BULLOCK, right, chairman of the Permian Basin Petroleum Museum's Board of Executors, receives check for \$3,000 from C. E. Cardwell Jr., Permian District manager for Atlantic Rich-

field Co. in Midland. The unrestricted ARCO grant to the museum was presented during a reception-tour of the museum for employees of ARCO Tuesday night.

# Wildcats scheduled, oil opener finals in Permian Basin areas

Wildcat locations have been announced in Loving and Crockett counties, and a small pumping discovery has been completed in Ward County.

The Petroleum Corp. of Delaware, operating from Midland, announced location for a 5,000-foot wildcat in Loving County, six miles northeast of

The prospector is No. 1-46 Bass, 660 feet from south and 1,360 feet from east lines of section 46, block 53, T-2, T&P survey. It is one and three-quarters miles southwest of the Slashs Ranch (Ellenburger gas) field and two miles southeast of Delaware oil production in the Dummit pool.

CROCKETT TESTS

Anderson Petroleum, Inc., of Ozona announced locations for two 7,400-foot wildcats in Crockett County, 28 miles southwest of Ozona

No.1-8-B Elmer Hoover Hatton Estate is to be dug one and one-fourth miles northwest of Canyon gas production in the Ozona field, and four and three-eighths miles northwest of Clear Fork production.

The drillsite is 850 feet from north and 1,000 feet from east lines of section 8, block MM, T&StL survey.

Anderson No. 2-8-B Elmer Hatton Estate has been spotted 761 feet from south and d661 feet from east lines of section 8, block MM, T&STL survey. The location is one mile west of

Canhyon production and 3.5 miles northwest of Clear Fork oil production in the Ozona field.

#### WARD STRIKE

American Quasar Pertroleum Co. No. 1-27 Dunagan and others has been completed as a small pumping discovery from the Bone Spring zone in the Dunagan field area of Ward County, 10 miles north of Bakersfield.

Operator reported a dally dotential of 10 barrels of 41-gravity oil, plus 62 barrels of water, through perfora-tions from 9,086 to 9,250 feet. Gas-oil ratio is 11,000-1.

The pay section was acidized with 5.000 gallons.

Total depth is 19,269 feet and the plugged back depth is 9,250 feet. Seven-inch liner is set at 17,668 feet.f A re-entry project, it is a former Morrow discovery.

Lodcation is 1,320 feet from northeast and northwest lines of section 27,

block 1, W&NW survey. The Lamar lime was topped at 4,704 feet; the Cherry Canyon was hit at 5,880 feet and the top of the Bone Spring is at 8,380 feet.

#### FREEVES STEPOUT

Texas Pacific Oil Co., Inc., No. 1 First National! Bank-State has been staked 1/2 mile southeast of production in the Reaves, North (3200) field of Reeves County, nine miles southeast of Orla.

Location is 660 feet from north and 1,320 feet from west lines of section 22, block 56, T-3, T&P survey. Contract depth is 3,500 feet.

#### MARTIN TEST

BTA Oil Producers of Midland spotted location for a 10,000-foot project 20 miles northwest of Lenorah in Martin

County. Scheduled as No. 10-B 7412 JV-S Mustang, it is one location northeast of one of the two Wolfcamp wells in the Lacaff (Wolfcamp) pool

Slated for tests of the Wolfcamp, it is 1,000 feet from north and 2,173 feet from east lines of section 2, block 7, University Lands survey.

#### MIDLAND TESTER

Cities Service Oil Co. No. 4611 Dora Roberts (Devonian) Unit is to be drilled as a 12,900-foot Devonian gas project in the Dora Roberts multipay area of Southwest Midland County, 14 miles southeast of Odessa.

Location is 2,030 feet from south and 650 feet from west lines of section 46, block 41, T-3-S, T&P survey. The field has four Devonian gas wells.

Petroleum Exploration & Development Funds, Inc., of Midland has completed its No. 2 Crow as the third well in the Patricia, Northeast (Spraberry) field of Dawson County, four miles southwest of Lamesa.

Operator reported a 24-hour pumping potential of 47 barrels of 39.6-gravity oil, plus 70 barrels of water, through perforations from 8,156 to 8,175 feet after 1,000 gallons of acid and 30,000 gallons of fracture solu-

Gas-oil ratio is 702-1. The hole is bottomed at 8,300 feet and 4.5-inch pipe was landed at that

The location is 1,980 feet from south and 660 feet from west lines of section 21, block 36, T-4-N, T&P survey.

#### PECOS OILER

A. G. Kasper of Midland No. 1-A F.A. Perry Jr. and Ann Nita Silliman has been potentialed in the Sheffield, Northwest (Canyon) pool of Pecos County.

The well, a re-entry project, finaled for a daily pumping potential of 48 barrels of 34.6-gravity oil and 37 barrels of water, through perforations from 7,270 to 7,304 feet. Gas-oil ratio is

The pay swas treated with 2,750 gallons of acid.

Total depth is 8,102 feet and 4.5-inch casing is set at d7,555 feet. The plugged back depth is 7,454 feet.

Originally drilled by George W. Strake as No. 1 Frank A. Perry and plugged in 1963, the well is 660 feet from north and east lines of section 23, block Z, TCRR survey and 10 miles southwest of Iraan.

#### MARTIN WELLS

A pair of Spraberry wells have been completed in Martin County.

MGF Oil Corp. of Midland No. 1 Lidsey Estate is a new producer in the Spraberry Trend Area pool, 12 miles northwest of Stanton

It finaled for a daily pumping po-tential of 69 barrels of 37-gravity oil and 44 barrels of water, through perforations from 7,576 to 8,242 feet, from 8,316 to 8,486 feet and 8,898 to 9,084 feet. The pay was fractured with 160,000 gallons.

Total depth is 9,200 feet and 4.5-inch casing is cemented on bottom. The plugged back depth is 9,160 feet.

Location is 1,320 feet from south and 1.520 feet from east lines of section 16, block 38, T-1-N, T&P survey. MGF also complted its No. 1 Stimson in the Spraberry Trend Area

On 24-hour pumpint potential test it made 63 barrels of oil and 57 barrels of water, through perforations from 7,968 to 8,983 feet after 3,500 gallons of acid and 160,000 gallons of fracture

Gravity of the oil is 37 degrees and the gas-oil ratio is 920-1. Total depth is 9,100 feet and 4.5-inch pipe is set on bottom. Plugged back

depth is 9,042 feet. Wellsite is 1,320 feet from south and east lines of section 42, block 37, T-1-N, T&P survey.

#### ANDREWS PUMPER

The McFarland (Wolfcamp) field of Andrews County gained a new well with completion of Amoco Production Co. No. 11-BR University, nine miles northeast of Andrews.

The well finaled for a daily pumping potential of 154 barrelsof 42.6-gravity oil, no water, through perforations from 9,000 to 9,300 feet. Gas-oil ratio is 279-1.

Total depth is 10,546 feet and 5.5inch casing is set at 10,546 feet. Plugged back depth is 9,300 feet. Operator acidized the pay section

with 5,500 gallons. Location is 870 feet from north and 2,000 feet from east lines of section 6, block 4. University Lands survey. It is 1,024 feet south of other Wolfcamp production.

Hunt Oil Co. of Dallas No. 1-76 V. T.

flowed 375 barrels of 41.4-gravity oil, no water, through a 12/64-inch choke feet and from 9,136 to 9,154 feet.

4,500 gallons. casing is set on bottom. Hole is

oil production.

### Coast areas may get help

WASHINGTON (AP) - House-Senate conferees on legislation revamping offshore oil-leasing rules agreed Wednesday to earmark \$135 million over the next ten years in grants to coastal states and communities.

The money is intended to help offset costs of additional public services such as roads, sewers or schools required because of increasing offshore activities. Most of the funds would go to states

like Louisiana, Texas, California and New Jersey where the most extensive offshore drilling activity is taking It was a compromise between a

House proposal for \$200 million and a Senate measure calling for \$70 mil-

Agreement came as the conference committee neared completion of its work on the first major overhaul in offshore oil and gas leasing laws in 25

Generally, the legislation would make it easier for smaller companies to compete for federal leases with the giant oil firms that now dominate offshore activities.

Conferees agreed to a provision under which no state with a coastline could get less than 2 percent of the \$135 million.

# Coal slurry pipelines killed by house vote to take away their business. Rep. Fred Rooney, D-Ap., chair-Udall said he would acdept the most absolute states rights veto over use of

problem.

By RICHARD L. LYONS
The Washington Post
WASHINGTON — A surprisingly controversial bill to move Western coal to Southern and Eastern markets by means of slurry pipelines was killed by the House Wednesday, 246 to 161, a victim of railroad clout and

environmental fears. When a bill has cleared two committees, as this did, opponents usually have to settle for hitting it with a few weakening amendments. But in this case the opposition killed it with one punch. That should be the end of the issue for this Congress.

Rep. Morris K. Udall, D-Ariz., floor manager of the bill, said the action is typical of what the nation faces as it

### **ENERGY** OIL & GAS

tries to evolve an energy policy and adjust to it. "Energy decisions will be tough, complex and tred on powerful interests," he said. "The result here was that the public interest got tram-

pled. A coal slurry pipeline would provide an alternative to railroad cars for moving coal from mine to market. Pulverized coal mixed with equal amounts of water could be pumped hundreds of miles, chiefly from Wyoming to power plants in the Texas-Arkansas area. The bill would, when the secretary of interior decided it to be in the public interest, give pipeline com-panies the power of eminent domain to obtain rights of way over land to build a pipeline.

Udall told the House the sole purpose of the bill was to make available a new technology for moving coal. In most cases, he said, it would still be cheaper to move coal by rail. But about 5 percent of the proposed doubled production by 1985 could be moved by pipeline, he said. He said the railroads would still get the bulk of new business from increased reliance on coal, that they need competition and that the power to obtain rights of way has been given gas and

oil pipeline companies. But opponents contended that it made no sense for the govenment to spend billions of dollars trying to make the railroads healthy and then turn around and create a competitor

### Tailings plan told

DENVER (AP) - The Colorado Department of Health reports a New Mexico corporation has applied for permission to relocate and reprocess about 1.4 million tons of uranium mill tailings now located along the San

Miguel River in Durango. Ranchers Exploration and Development Corp., Albuquerque, N.M., is seeking a radioactive materials license to transport the tailing to a site 10 miles southwest of Durango, and chemically leach them to recover ura-
