'As It Looks From Here'

Washington, D. C .- A number of people have written me requesting a complete copy of the secret letter carried by Chou En-lai, second in authority in Communist China, to Malenkov of Russia in March, 1953. This document was described in my last week's letter. It is the plan for world revolution submitted by Communist China, and follows the line of a plan by Stalin several years before his death.

If anyone of you would like the complete text o fthe letter and will drop me a line, I shall be glad to send you a copy.

By reason of the Army-McCarthy hearings which are now in their 4th week, seemingly there are those who think nothing else is going on in Washington. As a matter of fact, te wheels grind about as usual, except it is true that it is diverting attention from very serious aspects of government. Particularly is thhis true regarding the very sensative world situation.

It goes to remind us also that the most effective work of members of Congress and governmental officials is done quietly and without a lot of hullabaloo. It is natural that many people feel that one's accomplishments are measured by how often his name appears in print. Sometimes by acting a fool, one in public office and in public life can break int othe newspapers. Most times when he is doing his job quietly and efficiently it does not make news because it is no more than is expected. The most effective and constructive acts of public officials are done in this manner. Long hours of committee hearings, working on legislation and serving constituents is not news.

Several resolutions have been introduced in the House of Representatives to change the "Pledge of Allegiance of the Flag of the United States. Hearings are now being conducted before a committee to add two words to the Flag of the United States of America, and to the republic for which it stands, one nation indivisible (under God) with liberty and justice for all." The two words, "under God," are those suggested to be added.

There is a vast difference between flood prevention and flood control. Flood control is an effort t oharness water after it has reached the big rivers and creates flood conditions downstream. Flood prevention is the control of the water at its source. This latter method is also water and soil conservation, and I have been one of those working towards the firm adoption of uuch a policy.

ur efforts received somewhat of a blow this past week when a subcommittee of the Congress adopted an amendment which would give the Army Engineers veto power over the Department of Agriculture in constructing small dams and reservoirs on the tributaries of main streams. The Army Engineers have jurisdiction over flood control and build the big dams on the main rivers. If they are allowed to veto projects upstream on creeks in the upper watershed, it is doubtful that flood prevention can get very far.

The subccommittee also inserted a provision which would require at least fifty per cent of the cost to be borne by local contributions.

We hope to have these restrictions removed when it reaches the Full Committe on Public Works or when it reaches the Floor of the Congress. If it is allowed to stand, it will destroy the policy for which many of us have worked for several years.

Tyne Arlon Perkins, grandson of Mrs. May Perkins, and Mary Luman of Abilene, were married May 28. After a short honeymoon they are making their home in Abilene, where he is employed on the Reporter-News and she works in the tax collector's

Mr. and Mrs. Ernest Kolb visited Mrs. Tommy Helms in Abilene Saturday. Mrs. Helms is in Hendricks Memorial Hospital recovering from surgery. Mrs. Kolbs and Mrs. W. F. Edwards were there with her when she had surgery.

Mr. and Mrs. J. R. Strayhorn were in Sweetwater Sunday evening on account of the death of Mr. J. P. Maddox. They visited with Mrs. Maddox, Mr. and Mrs. Jimmie Maddox and Dr. and Mrs. W. L. Allen, who were from Rising Star.

Mrs. Claude Fletcher and children, Danny and Kay, of Baytown, came Monday to vicsit her sister, Mrs. O. R. Clark, and Mr. Clark.

Mrs. Ed Harris and grandchildren, Gleria and A. C. Jr. went to Wernon Sunday to visit Mr. and Mrs. Johnny Arnold.

Cub Scout Reports Show Successful Year

Mrs. Dono Darden and Mrs. Wayne Nowlin, Den mothers to Den 1, are very proud of their boys after a very successful year, and these are reports of their last two meet-

After a story was told to the boys in this Den, each boy was asked to name a man or woman that they oved and wasn't as fortunate as they were, and was a shut-in or

Bro. Carl Underhill gave the boys a very fine talk about a Scout that he had read them about, that went about doing good for others, and this was Jesus. He told these boys that this Scout had a guide book, just as they have, and it was the Holy Bible. As they went to eight homes, singing songs, and at each place they insisted they gave their Scout promise. The following boys want to thank all these nice people for refreshments served to them: Jim Nowlin, Don Smith, William Parsley, Kenneth Griffith, Donnie Trim, Marshal Bennett, Dwaine Underhill, Andy Shipp and Bill Burns, Bob Burns and visitors.

The last meeting was a weiner roast at Mrs. Dono Darden's place. One little boy was asked if he were going to give the Scout Promise, his reply was "he would promise to eat all they could hold," which they did. The Den mothers are proud of these boys and thankful for Scout-

Rotan HD Club

The Rotan H. D. Clb met June 4, with Mrs. Bud Hughes.

Mrs. Ragan presided for a business meeting. Mrs. C. G. Campbell gave council report.

Mrs. Cleo Shell was in charge of recreation.

Miss Kinsey gave a demonstration on preparation of "Frozen Meats". Members present: Miss Kinsey, Visitor, Mrs. Richard Ray, C. A. Ragan, S. T. Martin, Vernon Frazier, C. G. Campbell, L. E. Wright, Luther Terrell, Cleo Shell, Wayne Nowlin and hosttess.

Next meeting will be June 18 with Mrs. S. T. Martin 3:00 p.m.

Mrs. Aronld Allen and daughter, Eva Gail and Miss Mattie Schick attended graduation exercises at NTSTC, Denton last Thursday night. Wanda, daughter of Mr. and Mrs. Allan graduated with honors and received her degree. They returned home Friday and Wanda went to Dallas Sunday to spend several

Dairymen Making Drive Sun Tan Can Easily For Increase In Demand Be Overdone Of Their Products

AUSTIN - Dairymen of Texas will re-double their efforts, beginning June 1, to create a larger market for dairy foods and reduce milk surpluses, Sam E. von Rosenberg, state manager of the American Dairy

Association of Texas, said today. On that date, dairy producers will begin contributing two cents per hundred weight of the milk and onehalf a cent per pound butterfat in

in the past has been half that amount. The money collected, expected to exceed \$150,000 annually, will go into a fund and be used to promote a greater sale of milk, butter, ice cream, cheese and other dairy products through advertising and merchandising. The dairymen's contributions will be, as in the past, collected by dairy plants and sent to State

ADA headquarters in Austin. All milk and cream produced and sold by producers is subject to the ADA set-aside, von Rosenberg said. He pointed out, however, that the program is voluntary and leaves the decision for support of this effort up to each milk and cream produc-

Von Rosenberg said dairymen who do not wish to participate in this joint effort should notify him at State ADA headquarters, Perry-Brooks Building Austin, before Saturday, June 5.

Information explaining the expand ed ADA program has been distributed to all the approximate 30,000 milk producers in the state. He said he expected only a small percentage, representing only a fraction of the milk produced in Texas, to be nonparticipants.

"Dairy farmers have come to realize the necessity of building bigger markets for milk and have awakened to the fact that they, and they alone, must through a co-operative effort, share the responsibility of promoting a greater sale of milk and dairy food," von Rosengerg said. Dairy plants have their own brand advertising programs, he said.

"The job is too big for one individual, one group, one county, or even one regional association to do alone,' he said. "That is why the dairy farmers have banded together to develop a uniform, state-wide self-helppro-

A portion of the money raised in Texas will go to National headquarters, but will be returned in the form of advertising and other methods of promoting greater dairy food sales. Von Rosenberg estimates that for every \$150,000 contributed by Texas

The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., with spring tulips in bloom in park maintained by denomination, is a well known Boston landmark. The great Extension with dome (left) was dedicated in 1906, and seats nearly 5,000 persons. The Original Edifice (right) seats approximately 1,000 persons and was dedicated in 1895. Flowers from this park are frequent winners in exhibitions at nearby Horticultural Hall.

Spirtual understanding alone can Mothher Church. Pointing out that heal today's widespread distrust and Sunday School pupils are shown how discord and assure universal free to rely successfully on prayer, he dom and security, The Christian Sci- told of some of the clear-cut healence Board of Directors said today in ings by the pupils themselves that a special statement.

About 7,500 Christian Scientists year. from many parts of the world heard al Meeting of The Mother Church, ties for the Armed Services disclos-The First Church of Christ, Scientist, in Boston, Mass.

spirtual understanding, the Directors said that the healing promises of practical Christianity apply "to every human being and every group

"When we look at the world and its problems, we cannot fail to be grateful that the teaching of Christ Jesus has so broadly and deeply registerer in it," theh Directors said. This teaching, they declared, offers a lasting solution to confusion in government, conflicting national interests, and world tension.

Named President of The Mother Church for the coming year was Mr. William R. Knox of Boston, Massachusetts, a Christian Science practitioner active in the healing work of the denomination for almost 50 years. His term of office is one year.

Mr. Knox emphasized the conviction of Christian Scientists that God's law and power are scientifically applicable to human problems and available to all. He said they base this conviction on the practical results of "the simple power of prayer" in their own lives and in the healing of others.

Emphasizing the significance of spirtual healing in the work of Christianity as understood in Christian Science, Mr. Knox said, "Christian healing is the lifeblood of our Cause. . . . That branch church is most prosperous and blessed where the healing work flourishes and the lives of its members overflow with the Christ influence."

Bearing witness to this were accounts of Christian Science healing read at the meeting which included total recovery from a case of multiple Cerosis diagnosis as incurable, appendicitis and peritonitis diagnosed as beyond help, brain tumor pronounced fatal, and a case of internal injuries and crushed pelvis medically pronounced as crippled if not fatal.

Growing recognition of the effectiveness of Christian Science healing was reflected in favorable legislative action, Will B. Davis, Manager of Committees on Publication reported. "Freedom imposes responsibility," Mr. Davis emphasized, in referring to legal exemptions from compulsory meditation. He said that respect for the rights of others and careful observance of the laws relating to quarantine and the reporting of communicable diseases "has done much to win the public respect so widely enjoyed by our Cause."

Commenting on the widespread interest in healing, Mr. Davis reported that hundreds of letters are received each week from listeners to the new radio series, "How Christian Science Heals." The response from strangers to Christian Science, the reports of healing, and of increasing church attendance show that these radio programs are accomplishing their purpose, he ad-

Reports on the world wide activities of the denomination, which has branched throughout the United States and in some 40 other countries were made by other officials.

Growing acceptance of spiritual healing by young people was noted by Gordon V. Comer, Clerk of The

Drink More Milk Campaign On

COLLEGE STATION - "How about another glass of milk, Mom June is Dairy Month."

Ten thousand dairy herds furnish Grade A milk for Texans, both young and old, and dairying adds \$200,-000,000 annually to the state's farm

Dairy month coincides with the for producers. If consumers would step up their purchases of milk and other dairy products, these surpluses would soon disappear, says R. E. Burleson, extension dairy husband-

The extra milk is being made into ice cream, cheese, butter and evaporated, condensed and powdered milk. Dairy products are hailed as nature's most perfect food.

Burleson says milk production is several billion pounds above the national average, but consumption per accentuates the importance of efficient marketing.

This month everone is urged to 'have an extra glass" and to eat more ice cream, cheese and other wholesome products from the dairy

SAVE WHEN YOU BUY

SAVE WHEN YOU DRIVE!

Take a trial drive, then let us show you how you can afford Mercury's new beauty, new 161-hp V-8, even all 5 easy power features.

Nowhere today can you get so much for so little. For, with Mercury, there is no extra charge for extra horsepower. Every Mercury has the completely new 161-horsepower V-8. And that's more horsepower per cubic inch than any other car in Mercury's price range.

And you save every mile you drive a Mercury.

You get Mercury's famous economy and rugged dependability. This great V-8 has new shortstroke pistons to reduce friction and engine wear. And there's a new deep-skirt block for extra crankshaft support-even greater stamina. You save on upkeep.

But the biggest saving comes when you finally trade in this Mercury. Authoritative independent surveys prove Mercury leads all other cars in its class for trade-in value.

Trial drive a Mercury with Merc-O-Matic Drive, power steering, in fact, all 5 optional power features. Then let us show you how easy even this far-advanced Mercury is to own.
