ed to Garden City and dropped a 14-7 conference opener to the Bearkats. The local youngsters cannot afford another district loss if they hope to stay in the chase for the conference championship and plan to make Greenwood their first victim.

The Rangers, a relatively new school located near Midland, were one of the preseason choices to take the loop title. A tough non-district schedule left them at 0-3 and a 14-0 loss to Sterling City in their district opener dropped their record to 0-4. Despite their record the Rangers are expected to give the Steers all they can handle.

The Eden Bulldogs continue to be the top team in 7-A as well as one of the top ranked in the state with a 3-0-1 season record and 1-0 in district. Sterling City also

STEERS FALL TO GARDEN

by Ronnie Baker

Complaining and excuses are part of the losing side of anything, but this was terrible. Officiating is a difficult thing to do anyway, but when you let things get out of hand and you start looking the other way, you lose the aspect of the game. It can cause quite a difference in the outcome of any contest and cause feelings and composure to go below the level of sportsmanship. You had to see it to understand the situations I am talking about. The point is, the Steers had a lot of help in losing this contest. Period!

1st QUARTER

The Steers received the opening kickoff at their 13 and Skinner returned it to the 31. The Steers put on a very good drive consuming time and making 4 1st downs in the process. But at the Garden City 21, it sputtered out and the Steers were held on downs. Then after an exchange of the football on downs the first quarter ended with Garden City in possession at the Steer 9 yard line.

2nd QUARTER

Garden City then scored from the 6 and after kicking the extra point they led 7 to 0.

The Steers took the kickoff and returned it to the 39. Quickly they fumbled and Garden City recovered at the Steer 36. They then made a big 1st down at the Steer 8, where they scored. They kicked the extra point and led 14 to 0. Then the rest of the quarter was back and forth with the Steers running out the clock at the Garden City 23 yard line.

3rd QUARTER

The Steers received the 2nd half kickoff with Garden City taking the wind with the ball being returned to the Steer 45. The Steers got a 1st down to the Garden City 40 and at the 34. Greg Grim got a block and after breaking a couple of tackles ran in for a Steer score. Kyle Gibbs kicked the extra point and it was now 14 to 7. Garden City got the ball and drove to the Steer 10 where the Steers held with Garden City trying an unsuccessful field goal. The Steers couldn't move, so they punted to the Steer

Millican then intercepted a pass and returned it to the Garden City 24, but they were held on downs and Garden City took over. The Steers got it back on an interception by Anthony who returned to the Garden City 26 as the 3rd quarter ends.

4th QUARTER

The last quarter wasn't much fun as the turmoil started with lots of mistakes by the two teams and the officials. It's bad to say, but they goofed a bunch. Rasco intercepted his 2nd pass of the game in the end zone to stop another Garden City drive and that about did it for both sides as the game ended soon after.

SHEILA HAMMERTON VISITS

Sheila Hammerton is visiting her parents and brother, Mr. and Mrs. Bobby Roberts and Douglas, this week. Her husband, Bob, was here for the weekend visiting her parents in San Angelo and the Roberts. CORRECTION

A story last week in the Observer announced a \$750.00 donation to the Robert Lee Volunteer Fire Department by Union Texas Petroleum. It contained the statement that Winton Milliff was the plant manager at the Silver plant, when in fact Chester Wilson of Bronte is the plant manager while Mr. Milliff serves as assistant plant manager.

FROM YOUR NEXT LT. GOVERNOR

This may be my last column in this series. We began this column ten weeks ago, hoping it would be a success. And judging from the response of the readers. I would call it an unqualified success. The mail has been very favorable. The columns that drew the most response were those dealing with education of our children, the property tax issue, and the issue of Mr. Hobby raising funds for the ACLU to use in that organization's crusade against prayer in schools and

in defense of pornographers.

I have made a point in these columns that Texans need a Lt. Governor who is in touch with the people he is supposed to serve. Mr. Hobby is clearly out of touch with the thinking of Texans, and, in my opinion ought to be retired.

Mr. Hobby's lack of understanding can be illustrated:
Texans are overwhelmingly in favor of President Reagan's efforts to transfer power and responsibility back to the states. I agree that Texans can do a better job for Texas than Washington can. Mr. Hobby disagrees. The vast majority of Texans do not believe they ought to be forced to pay for the education of the children of illegal aliens. I have compassion for these children—but I must confess that I care

more for Texans who are faced with the burden of supporting their own children in hard economic times. Mr. Hobby disagrees. Most Texans think our Right to Work law should be incorporated in the Texas constitution. I agree here, too. But Mr. Hobby disagrees and has fought the effort. The list goes on and on.

The problem with continuing my column is a simple one—money. We originally budgeted for ten columns, and we have now reached that point in our budget. If we are successful in raising more campaign funds, you are likely to see more columns. I hope so, for this seems to be a good way to get the issues to the people.

people.

These columns are needed. Without them Mr. Hobby will clearly avoid the issues and seek to confuse us with 30-second TV commercials created by his image builders. If you would like to see these columns continue and would like to help in that regard, please send your contribution. If you can't make a contribution, I assure you that your opinion will be equally important. Please write to me at Texans for Strake, 1213 W. 34th, Austin 78705. Let's keep in touch.

Social Security News Items

Social Security numbers for work purposes can only be issued to U.S. citizens, permanent resident immigrants, and temporary aliens who have been granted permission to work by the immigration and naturalization service, Frank Upp, Social Security district manager in San Angelo, said recently. Even so, Upp said, legal aliens who do not have permission to work may need a Social Security number for purposes other than work, such as banking, school, or driver's li-

In such cases, a Social Security number will be issued, but the card will be marked to show that it is not valid for employment. A prospective employer would know at once that the holder of such a card is not legally permitted to work.

Social Security numbers cannot be issued to illegal aliens for any purpose. A person applying for a Social Security number must present evidence of age, identity, citizenship or alien status. In addition, a person 18 or older must apply in person.

An applicant for a social security number who provides false documents or false information of age, identity, citizenship or alien status may be subject to a fine of \$5,000 or 5 years in jail or both.

More information about Social Security numbers can be obtained at the San Angelo Social Security Office, located at 2214 Sherwood Way. The telephone number is 949-4608.

EXTENSION EXTRAS

by Mary Anne Lackey

Americans will suffer through an estimated 70 million colds this

This means that we'll be missing work, falling behind in school and -- worst of all -spending a lot of time feeling just plain "miserable."

Contrary to popular belief, colds are caused by viruses -- not by exposure to rain, cold or drafts - although these lower our resistance and make us more susceptible to viruses. By nature, viruses are highly contagious, and they're spread more rapidly in the fall and winter when people are in closer contact and spend more time indoors.

Here are some ideas to help you survive the cold season:

1. Stay away from cold sufferers and from surfaces they've touched. If a member of your family is sick, let him or her use disposable plates and utensils to prevent the spread of the infec-

2. Don't allow the air in your home to become excessively dry. A humidity level of 35 to 40 percent will keep the mucus membranes of the nose and throat moist and thus serve more effectively in trapping germs before they can infect the body.

3. If you do come down with a cold, follow the time-honored guidelines of staying in bed, drinking plenty of liquids, and taking medication to bring down your temperature. This will probably be more effective than any cold remedy you can buy. A study by the Food and Drug Administration reports that cold medicines may temporarily relieve the symptoms of a cold, but none can cure it or alter its course. Even Vitamin C has yet to be proved effective in preventing or curing

4. Be patient. A cold needs to run its 7-10 day course, and if you attempt to carry on with business as usual you will probably wear down your strength and prolong the infection. Be good to yourself and remain in bed for at least a day, covering with a warm blanket. By resting and relaxing, your body will have a chance to fight the cold without everyday stress.

4-H Rifle Club News

The Coke County 4-H Rifle Club met at the range on Sept. 26 with a record 17 persons attending. Instructors Jim Herford and Richard Johnson were aided by volunteers Gene Baker and Doug

Good improvement was noted since the last meeting.

Next scheduled meeting will be on Sunday, Oct. 3.

The Club has plenty of \$1.00 tickets left on the .243 rifle to be given away during halftime at the Bronte-Robert Lee football game on Oct. 29 in Bronte. Chances are available from any 4-H Rifle Club member, Herford, Johnson, or J&B Lumber Company.

Pageant Assn. **Holds Meeting**

The Coke County Pageant Association, Inc. met September 21 in the hospitality room of the Robert Lee City Hall with Wilson Bryan, outgoing president of the association conducting the business meeting.

After reports were given, the nominating committee presented the following names to serve as pageant association officers:

President, Pauline Vaughan; first vice president (finance chairman), Alice Beaty; second vice president (membership chairman) Gaye Williams; secretary, Dee McClesky; treasurer, Edna Havins; construction and property superintendent, Leslie Copeland; pageant director, Lucile Bryan and publicity chairman, Reba Tabor. The slate of officers were elected to serve one year.

Mr. Bryan turned the meeting over to the incoming President Mrs. Vaughan who appointed Alice Beaty and Lucile Bryan to study the by-laws for some possible changes. She, also, appointed Wilson Bryan, Robert Vaughan and Alvin Lara to serve with Leslie Copeland on the construction and maintainence

The president asked for suggestions from each one present regarding needs for improving the pageant and the amphitheater, and a discussion followed the several priorities given. The members of the association agree that in the four years since the amphitheater and pageant were started they both have come a long way, but still there is a need for long range planning on both

Again the association, thanks each person who helped make the past season a success.

According to the latest figures, it appears that this year will be the smallest crop of upland cotton produced in Texas since 1946.

The severe storms during June destroyed several cotton stands through the state. This, combined with the continued dry summer weather, has resulted in a 58 percent drop in cotton production and a 58 percent drop in acreage for harvest from 1981.

Cotton growers throughout the

state produced an estimated 2.35 million bales with harvesting completed from the Coastal Bend to the Lower Valley regions, according to reports from the Texas Department of Agriculture. Dry weather in scattered parts of the state has prevented stalk plow-up.

In the Southern Plains area of Texas, major cotton producing region, total production is estimated at 820,000 bales, down 70 percent from a year ago. Farmers Oct. 1, 1982

ion is expected to reach 160.2 million cwt., a substantial increase from last year. While the projected yield is down 392 pounds from 1981, harvested acreage is expected to increase 18 percent. Harvesting of the state's sorghum is making good progress across the state. In the High Plains region many hailedout cotton fields were replanted with sorghum which increased expected production for the area 30 percent.

Looking briefly at other crops .. the Texas corn crop, expected to reach 155 million bushels, is down 10 percent from 1981 but has increased 5 percent from a month ago. The crop has been maturing rapidly under the hot dry weather conditions and harvest is well underway in the Panhandle. The estimated yield for this year's corn crop, 100 bushels per acre, is off 17 percent from last year.

A record soybean crop is expected this year with a projected yield of 27.5 million bushels. This is 4 percent above August predictions and nearly double 1981 soybean production. The continued dry weather throughout much of the state has affected yields in some areas, but irrigated fields are making good pro-

The rice production for this year is forecasted at 21.5 million cwt., off 21 percent from 1981, while the state's peanut production of 341 million pounds is down 13 percent from last year.

The polling place is the heart of our democracy. Here, with a ballot, the people of Texas select the leaders of their government. As voters, they have the right to choose the men and women who make and enforce the laws of the State, levy the taxes, and decide how those taxes should

The voices, opinions, and influence of the voters of Texas are all recorded at the polls - with their vote.

But their vote can be stolen, as surely as a thief can steal their property, through an act of criminal vote fraud or coercion. If our elections can be corrupted through fraud or coercion, the valuable freedom of choice we have will be lost.

For the month of October, 1982, the Texas Crime Stoppers Advisory Council is focusing its statewide "Crime of the Month" on vote fraud and coercion. If you have information on this criminal activity, please call the anti-crime hotline at 1-800-252-TIPS (8477). Cash rewards are available for information leading to arrest and felony indictment of those who would, through fraud or coercion, attempt to set aside the voting process. Citizens do not have to reveal their name, just give their information, and they will be given a unique code number for identification purposes.

By and large, our criminal system works well. Texas is blessed with fine law enforcement agencies and officers. We must make sure that they continue to have the money and manpower to carry on their work.

We must also provide the incentives to speed up the court system and end the legal foot-dragging so that the criminal will know he faces swift and certain justice...

We must also make sure that we have the prison facilities to handle the rising criminal element, once the judicial system has had a chance to work.

But there is a more important element that we do not address here in Texas: **CRIME PREVENTION**

Statistics show that most adults sentenced to prison have had more than one brush with our laws as a juvenile...I want the state to make more of an investment in our juvenile system to keep today's kids from becoming tomorrow's

We can do that by reducing the case loads of juvenile probation officers who often have to cover many counties and act as truant officers as well. And, we can put the first-time juvenile offender under close supervision so that he doesn't become a repeater.

We can get tough about enforcing our school truancy laws so that parents fully understand they will be held responsible. This approach means that the parents become involved with truant children early. We can provide money for counseling both parents and child in cases A 183 of repeated truancy or juvenile crime...

The vast Pacific Ocean washes the shores five continents - North and South America, Asia, Australia and Antarctica.

We wish to express our gratitude and thanks to those sending food and flowers at the death of our loved one. Words cannot adequately express our deep appreciation for the many kind and sympathetic acts that came to us at this sad time. Also we are deeply grateful to Dr. Zeon and the nursing staff at West Coke County Hospital for their excellent and loving care.

Local People Tour New Mex.

Bascom and Barbara Chesney accompanied by Turney and Irma Casey recently returned from a 15 day tour of New Mexico. The first week was based at Ruidosa Downs with daily excursions which included a ghost town at White Oaks, Mescalero Apache Indian Reservation, Indian Petroglyphs at Three Rivers, a lava bed at Valley of Fire near Carrizozo, Gran Quivira ruins. White Sands, Cloudcroft, Bonita Lake, a drive to the ski area atop Sierra Blanca, Ft. Stanton, Capitan where Smokey Bear was found orphaned by a forest fire, and Lincoln, location of the Lincoln County War where Bill the Kid gained his fame.

The second week was spent with a day at Old Town, Albuquerque and a drive to the base of Sandia Crest where several people were enjoying a Sunday afternoon of hang gliding, a day at Bernalilla visiting the nearby Kuana ruins, on to Santa Fe with a visit to Wheelwright Museum of American Indian Art and Hyde State Park, a drive to Taos with a visit to the mission built by St. Francis of Assissi in 1181, a side trip to drive across the 650 ft. Rio Grande Gorge, then on to Red River, Eagle Nest, Angel Fire and back through the wilderness to Las Vegas. The grave of Billy the Kid and 2 pals was visited at Fort Sumner where the tombstone of Billy is in iron shackles plus an iron cage over the triple gravesite to keep the stone from being stolen the third time.

Coming home across the plains near Plainview, the acres of sunflowers were impressive as well as corn, cotton, milo, beans, peppers and cabbage.

At Capitan, fellow visitors at the museum were R.B. and Hazel Dooley of San Angelo. Their conversation was praise for Ole Coke County, encouraging its' continuance. Tommy Womack, nehew of Jerry Gibbs, welcomed the opportunity to chat at White Sands Nat'l. Monument. Louise Hatch and Mrs. Fred Roe were given a brief hello at Red River. Truett and Patsy Randolph of San Angelo recognized us as they drove down the street stopped for a visit at the Old Mill in Ruidoso. Mrs. Lewis, of Odessa and Robert Lee, was enjoying fishing at Alto the same day as Turney

and Bascom. Sophia Thompson, former resident of Robert Lee, sends a big hello to all her friends from Las Vegas, New Mexico.
