MERKA, Somalia (AP) - A oneyear countdown starts today to see if smallpox, one of the five killer diseases to ravage the world since the dawn of history, is licked for good.

If by Oct. 26, 1979, no new cases are reported in six nations in East Africa and the Middle East, the World Health Organization will declare the disease wiped from the face of the

The only remaining chance of infection would be from virus stocks stored

As recently as 1966, smallpox accounted for between 500,000 and 1,000,-000 deaths a year worldwide.

Ali Maow Maalin, who has the dubious distinction of being the last man known to catch smallpox, naturally,

lives in this small town on the edge of the Indian Ocean.

Maalin, a 23-year-old hospital cook, was infected Oct. 26, 1977, during a three-minute ride in a jeep that was carrying two children with smallpox. If there are no new cases in Soma-

lia, Ethiopia, Kenya, Djibouti and North and South Yemen by the second anniversary of Ali's infection medical experts say they will consider the disease beaten.

"I am fully confident that in one year's time we will be able to confirm that the disease has disappeared," says Dr. Isao Arita, head of the WHO smallpox eradication campaign.

"Smallpox is carried by the breath so anybody close to a victim can catch it," said Dr. Zdenek Jezek, who organized the campaign against the disease in Somalia.

WHO doesn't count the infection of two people in Birmingham, England, in August, apparently from virus stored in a laboratory.

Jezek, who was in charge of the program that eliminated smallpox in India, Bangladesh and Pakistan, says he is confident the Somali hospital cook will be the last person to catch the disease naturally.

WHO wants virus stocks to be kept only in centers that rigidly enforce security precautions in collaboration

Stocks are maintained in at least 11 laboratories in South Africa, the United States, West Germany, the Soviet Union, the Netherlands, Britain, China and Japan. Arita wants this

reduced to two laboratories. The breakthrough in beating smallpox was a technique developed by Dr. William Foege, now director of the Center for Communicable Diseases in

He was in charge of the smallpox eradication program in West Africa and realized there was not enough vaccine or manpower to immunize everybody.

"He noted that if you could encircle an area where there was a smallpox outbreak and lock it in, the disease would not break out," said WHO information officer Jim Magee.

The conquest of smallpox, says Arita, will remove the need to vaccinate against the disease. Already 130 countries no longer require vaccination certificates for travelers.

WHO calculates \$2 billion will be saved annually.

Peace drive shaken by Israeli action

TEL AVIV, Israel (AP) - The Israel-Egyptian peace drive was shaken anew today when Israel announced it is strengthening existing Jewish settlements in the West Bank in apparent pique at the United States, and Egypt said it may recall its Washington peace negotiators for consulta-

Israeli Foreign Minister Moshe Dayan acknowledged that the settlements decision may "make it more difficult" to reach final agreement with Egypt on a peace treaty. Though Prime Minister Mustafa Khalil said in Cairo a recall of the Egyptian negotiators would be "purely routine," it would rule out the scheduled resumption of the peace talks Friday

in Washington. Israeli government officials said the decision to expand Jewish settlements in the West Bank of the Jordan River was made in angry reaction to statements made privately by Undersecretary of State Harold Saunders over the future of the Palestinian-po-

In a closed meeting with West Bank Palestinian leaders last week, Saunders reportedly hinted that Israel might evacuate its West Bank enclaves at the end of the five-year transition period envisioned by the Camp David agreements. He also reportedly reaffirmed the U.S. position that Arab East Jerusalem, annexed by Israel after the 1967 war, is considered by Washington to be occupied

"If you want to give the plan a name, you could call it the Saunders project," one Israeli official quipped about the settlements expansion.

The decision to build more apartments and send more Jewish families to settlements in the West Bank was made at a lengthy Israeli Cabinet meeting on the proposed treaty with Egypt but wasn't revealed until the end of late night political meetings.

Prime Minister Menachem Begin's Cabinet decided Wednesday to accept in principle the draft peace treaty but sent Dayan and Defense Minister Ezer Weizman back to Washington today with instructions to seek

amendments in the text. for further discussions, telling reporters simply, "I am in consultation with the president (Anwar Sadat) about the possibility of asking them to come

But he said the possible recall was "not in reaction" to Israel's West

Before he and Weizman boarded an El Al flight to New York, Dayan said of the settlements decision, "Maybe Egypt won't like this. But this is absolutely consistent with our policy.... Not only are we allowed to do it, but it's good.'

Dayan said Israel had pledged at Egypt. "But we can strengthen the settlements before autonomy, during

GSA deeds Webb land to city of Big Spring

R-T Staff Writer

BIG SPRING - The 2,080-acre former Webb Air Force Base complex was deeded over to the City of Big Spring this morning by the General Services Administration.

Ann Doughty, the Fort Worth-based GSA regional administrator, handed the deed over to Big Spring Mayor Wade Choate on the opening day of a two-day conference here of the National Association of Owners and

MIDKIFF - The wind got a bit huffy, but the Midkiff lads, dads and moms went ahead with their pre-Halloween Carnival, minus the jack-o'lanterns. There was a dearth of cos-

But they used the usual carnival "tricks" to get their treats.

The main treat, other than the fun of it all, was the money the carnival brought in. It'll be converted to upkeep, fuel, oil and other things to keep Midkiff's Boy Scout bus on the

The tricks were in the hullabaloo

generated by kids and grown-ups in their mingling together in the fun booths, such as the sponge throw, spookhouse and ring toss; the 'junk"-filled country store, and the cake auction.

They all cost money - from two bits for a potluck item from the country store to more than 40 bucks for a cake in the benefit auction.

Getting the cakes ready for the Saturday night bash was fun, perhaps, but a chore nevertheless. "Cake baking's nothing," said

Scoutmaster John Johnson, who wrestled with the batter in helping sons Allen, 14, and Mike 12, in the bake-off. "The icing is what's hard." And it's the fancily-done icing, not the texture and taste of the baked batter itself, which plays the major role in winning the judges' favor.

That's what happened last weekend, when the Boy Scouts of Midkiff BSA Troop 24 pulled off their second

Something new added to R-T

Beginning today, The Reporter-Telegram's stock market report will include four new features: Fort Worth and Amarillo Livestock, New York Cotton Futures and Gold Futures.

The additions are being made in response to requests from Midland and area readers and will appear daily in the R-T's regular market listings, found today on Page 10B.

Also beginning today is "This Is Midland," a weekly pictorial feature spotlighting points of interest in Midland, some wellknown and others perhaps little known. It will appear each Thursday.

Rarely does a 12-year-old boy get the chance to conduct a symphony ochestra. But Robert Britton did just that after he was chosen from an audience of elementary school students who gath-

ered at Lee High School's auditorium Wednesday to listen to the Midland-Odessa Symphony. Robert is the son of Mr. and Mrs. John Britton, 1203 S. Cottonflat Road. (Staff Photo by Mike Kardos)

Bush, Hance focus on inflation ills

By LANA CUNNINGHAM R-T Staff Writer

LUBBOCK - Inflation remains the main issue in the 19th Congressional District race, both candidates agreed Wednesday, but each took time out from the issues in an evening forum here to throw a few punches at his

opponent. The Society for the Advancement of Management sponsored a political forum in the Texas Tech University Center Ballroom. It featured George W. Bush of Midland and State Senator Kent Hance of Lubbock.

The two are running for the post being vacated by 44-year veteran George Mahon of Lubbock, who in effect retired with the adjournment of Congress last week. Each candidate outlined his qualifi-

cations and the issues in a 10-minute opening talk and then answered questions from a panel consisting of local and area news media representa-

President Carter's anti-inflation plan announced on Tuesday brought reactions from both men.

Hance said he prefers the voluntary wage and price controls over forced ones, but feels the problem could be better solved if there was an across-the-board cut in federal spend-

Bush criticized President Carter for waiting to announce the program until only two weeks before the general election on Nov. 7. He said Carter "has not taken that tough of a position with the Congress."

Later in the forum, Bush said he

feels Congress should have come up with a tax cut bill and a reduction in spending in its last session. During his opening talk, the inde-

élection

pendent oil and gas producer said he is not happy with the turn the campaign has taken lately. "He (Hance) has talked about my

family and has talked about me as an

outsider," Bush said. "Those are not the issues. I am proud of my education (at Yale and Harvard) and I am proud of my family (referring to his father George H.W. Bush, who has served as director of the Central Intelligence Agency and envoy to the

People's Republic of China). "We will run our campaign on a high dignified level.'

Hance, a Lubbock attorney who at one time taught business law at Texas Tech, then brought up the issue of contributors to Bush's campaign. He said Bush has received 64 per-

Weekend Auto Show to feature new models

An Auto Show featuring what's new in 1979 models will be held both Saturday and Sunday in Midland College's Chapparral Center, and the event is

free to everyone The show will be presented by the Midland New & Used Car Dealers' Association and takes place on Saturday from 10 a.m. to 8 p.m. and Sunday from 1 p.m. to 6 p.m.

Association members urge drivers and passengers of all ages to attend in order to see the direction of the future of today's automobiles.

Members of the Midland New & Used Car Dealers' Association include Berg Motor Co., Dotson Datsun-BMW, Inc., Honda-Jeep of Midland, Nickel-Williams Chrysler-Plymouth-Dodge, Rogers Ford Sales, Frank See Chevrolet, Stovall's Imports and

Village Lincoln-Mercury. The new models emphasize economy and value, according to Midland car and truck

Border states forecasts

Oklahorsa — Fair to partly cloudy with mild days through Friday. Cool tonight. Highs mostly 60s. Lows upper 30s Panhandle to the mid 60s southeast. Highs Friday upper 60s to mid 70s.

New Mexico — Cloudy to partly cloudy southeast today with a few showers ending by afternoon. Mostly saney elsewhere. Clear and cold tonight with fug possibile southeast. Sunny and warmer on Friday. Highs 30s mountains to 70 southwest. Lows 20s mountains and north to 30s elsewhere. Highs Friday 30s mountains to mid 70s southwest.

GSA deeds former Webb AFB land to Big Spring

(Continued from Page 1A)

managed by Col. (ret.) Harry Spannaus, former Webb AFB command-

Since the demise of the base and birth of air industrial park, the city of Big Spring has attracted 22 industries

to the park. Industries include makers of rods for oilfield wells and Midas International, manufacturer of recreational

The park also will be the site of a federal prison for white-collar criminals. The correctional unit is to go into operation in early 1979, Mayor Choate

The penitentiary will employ approximately 185. Most of the facilities, to be fenced off, will consist of former dormitories, club houses and some other buildings on 62 acres of the former air base.

Too, the city has begun construction of a \$1.4-million, 90,000-square-foot hangar on the possibility Lockheed Aircraft Corp. will be awarded a multi-million dollar Navy contract to modify the McDonnell F-4 Phantom all-weather interceptor-fighter, a supersonic "workhorse" used by U.S. forces in Vietnam. The aircraft is to be used by the United States well into the 1980s, according to officials. On Oct. 6, the GSA conveyed to the

city of Big Spring 51/2 acres for the hangar construction site. Lockheed will make the modifications over a 41/2-year period if that

aircraft company is awarded the contract, to be let in mid-December. Big Spring and Lockheed already have signed a provisional contact calling for the aircraft company to set up "shop" here.

Other major aircraft service companies, such as McDonnell Douglas and Rockwell International, are bidding for the work. McDonnell Douglas earlier this year was awarded a contract to modify the Air Force version of the aircraft.

Should Lockheed not be awarded the contract, Big Spring officials have said they expect to attract another major aircraft service company to air industrial park.

Mayor Choate noted that military

aircraft are being modified rather than new ones being built during these peacetime years.

Among those attending the deedgiving today in the Dora Roberts Community Center at Comanche Trail Park were Mayor Pro Tem Polly Mays, City Manager Harry Nagel, Col. Spannaus and Howard County Judge Bill Tune.

Middle East talks to resume

WASHINGTON (AP) - Israeli and Egyptian negotiators are preparing to resume talks to iron out the remaining wrinkles in their tentative draft of a peace treaty between the two historic enemies.

The Israeli contingent was expected back in Washington from Israel late today, hand the talks are to resume Friday.

or use other sanctions against com-WASHINGTON (AP) - President panies that do not follow its terms. To lead the program, Carter select-

Carter is picking up important sup-port for his anti-inflation program ed Alfred E. Kahn, chairman of from Federal Reserve Chairman G. William Miller and business and labor the Civil Aeronautics Board: Kahn gained prominence with his success in Miller, in a speech Wednesday night, called Carter's new program reducing airline prices by increasing competition.

Kahn will take over from Robert "a balanced, concerted and sustained S. Strauss, who will continue in his Miller's support was important to White House inflation fighters, who job as special trade representative, but who said he was too busy for the must avoid any collision course with expanded program. the independent Federal Reserve's

The program must work, Kahn said, or it will lead to "ever tighter If labor and business will supfiscal and monetary restraints" that port Carter's program, Miller said, could lead to a recession or reit gives us running room to eradsult in mandatory controls.

"I will not be a party to a graceful transition to mandatory controls," he told reporters Wednesday. The job of tightening credit is up to

Miller, who says it should not be the only way of fighting inflation. Miller promised to be careful in tightening the money supply but he held out little hope that interest rates

would start going down soon. "I want to assure you the Federal Reserve ... will use our full resources to use a prudent role in drying up inflation," he said. "We must take the necessary medicine to cure the disease now to avoid worse

maladies later." At a news conference Wednesday, Treasury Secretary W. Michael Blumenthal said that rising interest rates are a natural response to inflation and that the Federal Reserve is not driving them up too rapidly.

If the anti-inflation program works, he said, interest rates should start coming down.

As a last-minute entry in his program, Carter proposed a wage insurance program to encourage unions to go along with the program. It would permit tax rebates for workers who stick to the guidelines and lose purchasing power if the inflation rate exceeds 7 percent.

Officials admitted that it might provide a windfall for some workers who have full cost-of-living protec-

For example, if inflation is 10 percent next year, a worker with full protection would receive a 10 percent increase from the employer and another 3 percent from the government, a total of 13 percent.

Yet, the worker would not be exceeding the guidelines as now written because full cost-of-living protection in privateMcontracts is counted as only 6 percent toward the 7 percent limit.

Snelson urges compromise in lake dumping controversy

By MARK VOGLER **R-T Staff Writer**

The next session of the state Legislature should be an interesting test to see whether effective state agencies are improved and ineffective ones fade into the sunset, State Sen. Pete Snelson, a Midland Democrat, told the Downtown Lions Club Wednes-Snelson said legislators for the first

time would be reviewing the work of the the Sunset Commission, an agency created to study the performance of each of the state governmental "The first 26 agencies (reviewed by

the commission) will go out of existence unless they're recreated by the Legislature," Snelson said. The Sunset Commission is fulfilling a useful purpose in overcite of state

government, providing it is not used as a cosmetic change" for the sake of consolidating government bodies; according to Snelson.

"I feel the review procedures are very worthwhile. There is a legitimate public interest to be served by its function in determining how well a government agency is performing," Snelson said.

"If a government agency is serving a useful purpose and can be improved, then we ought to improve it. If a government agency is not functioning, then it ought to be eliminated. I don't think we ought to consolidate for the sake of consolidation. We wouldn't accomplish much that way.'

Regarding allegations that petoleum waste discharges into open pits and playa lakes in West Texas is

ground water, Snelson said he believes environmentalists and the oil industry should be able to strike a happy medium in the bests interests

of the Permian Basin. "We've got to always balance the ecological concerns with the economical concerns. It is important for future generations that our natural resources not be contaminated. And we have to realize that oil production is the backbone of our economy," Snelson said.

"I just don't think we ought to go off half-cocked and say that shutting everything down is a solution or (that) letting everything run wild is a solution. We have a responsibility to look at both sides of the issues before making decisions."

threatening to migratory birds and Candidates for Mahon's seat join in Texas Tech forum

(Continued from Page 1A)

cent of his money from outside the district.

Bush later maintained 64 percent of the total contributions to his campaign has been from within the district.

Hance then told the audience that the purpose of having campaign expenditure reporting laws was to let the public see where a candidate is getting his money.

"You saw what happened in 1972 with Watergate. That's why we have these reporting laws." He then claimed the number of

contributors Bush has from outside the district, and especially the northeast part of the country, is an issue in the campaign.

"These contributions from the northeast concern me," he said. "The northeast has been in direct conflict with us on oil and gas and agriculture.'

Bush retaliated later by saying: "I've had over 3,000 contributors to my campaign. That shows a lot of work for someone who was not given a chance to win. Do you want me to give it back," he asked the audience, "or would he (Hance) have taken it if he had been offered it?"

The crowd of about 300 gave Bush a round of applause.

Concerning Bush's education, Hance said: "Yale and Harvard don't prepare you as well for running for the 19th Congressional District as Texas Tech does.

He then added, "He (Bush) doesn't have as good credentials as I have by living here (in the district) all my

Agriculture is a major issue, it would seem, but the two men appeared to disagree on how to solve the problems in that area.

Bush said while Hance prefers adoption of the Nowlin Bill, he preferred the Dole Bill.

'The Nowlin Bill wants government to be part of agriculture," he said. "In this bill, the government

sets the price for selling a commodity and then says how much you can sell of it."

On the subject of each candidate having campaigned for more than a year for an office with a two-year term, each man said he feels he can be effective once he gets to Congress, and neither said he prefers extending the length of term for a congressman.

But a disgreement did crop up over how each candidate might be more effective than the other.

Bush said he would be effective "from day one." Although he said he knows the members of the Texas Caucus in Congress, he said it is not those that cause the problem but the "liberal Democrats and those are the ones we must battle against.

Hance brought up Bush's father, who had served as a congressman, with "My dad and granddad have had nothing to do with what's happened in Washington. How can someone say he will be a vote to get things done when a member of his own family couldn't do it?"

Instead, Hance said, by virtue of his knowing members of the Texas delegation he said he feels he can draw committee assignments which would be helpful to the 19th District.

rn. (AP

BIG SPRING — Graveside services for Edgar Earl Edens, 87, were to be at 4 p.m. today in Trinity Memorial Park directed by Nalley-Pickle Fu-

neral Home. Edens died Tuesday in a Big Spring hospital.

He was born Feb. 2, 1891, at Centerpoint. He was married to Mabel Parrish April 22, 1917, in Howard County. He was a member of the Crestview Baptist Church.

Survivors include his wife; four sons, Barney Edens, J.C. Edens and Bobby Edens, all of Big Spring, and Frank Edens of Lubbock; six daughters, Earlene Reid and Alice Hardage, both of Big Spring, Marie Dennis of Lubbock, Louise Tatum of Fort Worth and Elizabeth Waldron and Patsy Wallace, both of Louisiana, 34 grandchildren and 32 greatgrandchildren.

Hilton Shahan

n m. Wednesday in North's Memorial Chapel of Abilene for Hilton Shahan, 64, a longtime Abilene resident and former resident of McCamey, who died here Monday.

Burial was in Elmwood Memorial Park of Abilene.

Born Sept. 7, 1914, at Eastland, Shahan graduated from Abilene High School and went to work for West Texas Utilities Co., in 1934, later working for the company in San Angelo and McCamey before resigning to go to work for Humble Oil and Refining Co. He rejoined West Texas Utilities Co., in 1936, remaining with that firm until his retirement in 1974. He also was active as an independent oil operator.

During World War II, he served in

the U.S. Army Air Corps. During his years in Abilene following World War II, he was active in civic affairs. He served as president of the Abilene Junior Chamber of Commerce in 1949 and 1950 during the time that organization received the National Safety Award.

Shahan married Joy Holloway on Oct. 22, 1948, at Abilene.

Ruth Jones

RALLS - Services for Ruth Jones of Lorenzo, mother of Lena Mae Curry of Midland, are pending with Carter-Adams Funeral Home here. Mrs. Jones died in a Lubbock hospi-

Mrs. Jones was a native of Pennsylvania and lived in Lorenzo for 27 years. She married John Henry Jones Dec. 29, 1928, in Lubbock. Other survivors include three sons,

three daughters, a brother, three sisters, 23 grandchildren and seven great-grandchildren.

tal Tuesday after a long illness:

Robert W. Bice

SEMINOLE - Services for Robert "Woodie" Woods Bice, 65, father of Frank Bice of Andrews, were to be at 11 a.m. today in First Baptist Church with the Rev. Phil Watson, pastor, officiating.

Graveside rites will be at 3 p.m. Friday in Red Bayou Cemetery in New Boston with burial directed by Bates-Rolf Funeral Home in New Boston.

Bice died Tuesday in an Andrews hospital after a long illness.

He was born in New Boston and had lived in Seminole 34 years. He retired from Mobil Oil in 1978. He married Inez Rackley in Mount

Pleasant Dec. 30, 1937. Other survivors include his wife, a son, a sister, five brothers and three grandchildren.

E.L. Pennington

ALVORD - Services for Evalyn Lou Pennington, 51, sister of Charlotte Kelly of McCamey, were Tues-day in First United Methodist Church with the Rev. George Thompson, pastor, and the Rev. McClain Smith officiating. Burial was in Union Hill Cemetery directed by Coker Funeral Home at Decatur.

She died Saturday in a Decatur hospital after a brief illness.

She was born Feb. 24, 1927, near Burns Flat, Okla. She married Damon Pennington Dec. 22, 1951, in Elk City, Okla. She had been a resident of Alvord 27 years.

Other survivors include her husband, a daughter, four sisters, two brothers and two grandchildren.

Jack Griffin

LUBBOCK - Services for Jack Griffin, 50, of Lubbock will be at 2 p.m. Friday in the Church of Christ at 17th and Ave. N here with P.M. Oden, minister, officiating. Burial will be in Resthaven Memorial Park directed by Rix Funeral Home. Griffin was the son of Alvie Griffin

and the brother of Wilma Sharp and Martha Clements, all of Midland. Griffin died Tuesday in a Big Spring hospital after a long illness

He was a member of the Church of Christ. He was a Marine Corps veteran who served from 1946 to 1950, and in the Korean War.

Other survivors include his wife, three sons, a daughter, six brothers, six sisters and two grandchildren.

Hearne Freeman

LOOP - Services for Hearne Freeman, 67, of Loop, brother of Mrs. J.T. Hare and Joyce Luker, both of Hobbs, N.M., were held Wednesday in the Loop Baptist Church with Don Fleming officiating.

Burial was in Loop Cemetery under direction of the Connally Funeral Home of Seagraves.

Freeman died Monday afternoon. The Upshur County native had moved to Loop in 1937 from Daingerfield. He was a farmer. He was married to the former Cessie Lou Buck Nov. 14, 1938, in Hughes Springs.

Other survivors include his wife, a son, three daughters, three brothers and three sisters.

Ph. 563-0345

Keith Jezek

Keith Jezek, 18, of Rt. 3, Box 665D, South Midkiff Street, died Wednesday in a local hospital.

Services will be held at 2 p.m. Saturday at Kelview Heights Baptist Church with the Rev. Frank Johnson, pastor, officiating. Burial will follow at Resthaven Cemetery under the direction of Newnie W. Ellis Funeral

Jezek was born April 18, 1960, in Odessa. He lived in Midland all his life, attending Midland High School. Jezek was a homebound student since an auto accident in 1976. He

The former member of the Midland High School Band was active in Junior Achievement.

became ill Tuesday morning.

He was a member of the Kelview Heights Baptist Church.

Survivors include his parents, Mr. and Mrs. David L. Jezek, of the home; two brothers, David L. Jezek, II, and Kevin Jezek, both of Midland, and his grandparents, Mrs. Emma Kirkham of San Angelo and John R. Gosnell of Fort Worth.

The family has requested that memorials be directed to the Kelview Baptist Church.

Hiram Vaughn

LITTLEFIELD - Services for Hiram E. Vaughn, 69, of Littlefield, brother of Doyle Vaughn of Big Spring, were to be at 2 p.m. today in First Christian Church with Wayne Holder of Lubbock officiating, assisted by Tom Lewis of Littlefield.

Burial was to be in Littlefield Memorial Park under the direction of Hammons Funeral Home. Vaughn died Tuesday in an Am-

herst hospital after an illness. Vaughn was a resident of Littlefield for five years. He was a retired baker. He was a member of the Littlefield Fist Christian Church.

Other survivors include his wife, a son, a daughter, a stepson, a stepdaughter, a brother, a half brother, two half sisters, 11 grandchildren and two great-grandchildren.

A void in space

The National Aeronautics and Space Administration entered its 21st year recently facing, among other things, a diminished share of the federal budget.

As if to underscore the point, the White House recently released a lengthy statement of its space policy for the coming decade. A NASA official tactifully characterized the Carter administration's shrinkage of the space program as "a go-easy approach."

Actually, the policy statement describes a space program pared to the bone.

Space exploration will continue to be de-emphasized. Only unmanned vehicles will be assigned exploratory missions and then only when there appears a good chance for direct collateral

Projects designed to explore the feasibility of space colonization, manufacturing in space and solarpower satellites were specifically rejected.At NASA, the glory days may be over for quite some time.

The space agency's basic political problem is that its constituency generally is limited to its own employees, a few visionaries in the scientific community and some factions within the aviation and aerospace industries. Public support has proved transitory and NASA no longer has a friend in the White House. The popular fever to cut taxes and government spending compounds the space program's problems.

Declining public support for space programs can be attributed in part to a lack of public understanding of the real worth of these endeavors.

Weighed against its benefits, the cost of the space program has always represented a bargain.

Since 1958 NASA has spent a total of just under \$72 billion.Counting space program contributions from other federal agencies, the average cost of America's two-decade effort in space is \$100 billion.

Aside from the direct benefits of our immense new knowledge of space and space travel, the program's so-called technological spin-offs are truly impressive.

They include: the revolution in electronics made possible by miniaturization of components and circuitry, quantum leaps in computer science, much of the most advanced intensive-care equipment used in hospitals, a

whole range of new fire-retardant fabrics and materials, space photography with all its geological, agricultural and military applications, a vast new knowledge of climate and weather patterns which has transformed the science of meteorology, and a similar revolution in communications and navigation due entirely to satellites.

The value of these developments, of course, is incalculable.

A failure to comprehend the central role the space program played in the evolution of these technologies is deplorable enough.

It could be that this particular account of the multiple benefits of the program, in addition to the direct benefits, has not received the publicity accorded the overall program. This quite likely is something completely new to the average citizen.

But we wonder also if waning support for space exploration might signify something far more disturbing and profound.

If exploration is an act of faith motivated by confidence in the future, what does the present apathy toward space programs tell us about the nation's vision?

The Department of Health, Education and Welfare now spends more in nine days than NASA spends in a year. Can that be the extent of this nation's collective desire to push back the boundaries of man's physical limitations? It is hoped that this is not the case.

Nevertheless, it's something to think about.

THE BIBLE CAN YOU QUOTE IT?

By LAVINA ROSS FOWLER AND ELIZABETH ROSS WIERSEMA

1. The only way to avoid the hurt of ingratitude is to expect it. If it does not happen, then there's a happy surprise awaiting you. Think of Joseph, as he despaired in a dungeon for a crime he did not commit and a favor he had done, which had been forgotten. Tell. Genesis 40, 41

2. By whom was "mob-rule" rejected? Exodus 20:1 and 23:2

3. A furlong is one-quarter mile or 220 yards. What town, where Lazarus lived, was lss than four miles from Jerusalem? John 11:18

4. When Paul gave his declamation on "Faith," from which of the two Testaments did he take characters to exemplify? Hebrews 11

5. Name the blind beggar of Jericho, whose sight was restored by the Lord. Mark 10:46

Four correct...excellent. Three correct...good.

ART BUCHWALD Neutron 'discussion' leads to the Gong Show

WASHINGTON - My wife and I were watching the Evening News when Walter announced that President Carter had given the go-ahead to the Defense Department to start making the components for a neutron bomb. Walter said that while the components would be manufactured, they would not be assembled at the present

My wife, whose only weakness is she doesn't keep up on sophisticated nuclear weaponry, turned to me and

"What's a neutron weapon?" "It is designed to kill people without destroying property. We call it an enhanced radiation weapon," I told

"Who's we?" "Those of us in the military-indus-

trial complex.' "Are you in the military-industrial

complex?" she wanted to know. "No, but some of my best friends are. It's one helluva piece of hardware. With the right warhead you can zap a battalion of Soviet tanks 80 miles away," I said.

'Why do we need it?" she wanted to

"That's the most stupid question I ever heard. We need every type of nuclear weapon we can get. We've got hydrogen bombs and atomic warheads, and Nike and Polaris missiles. But they're too powerful to use in the field. The neutron weapon fills the gap and lowers the kill threshold to just the right level to fight a civilized

year; only one is appealing.

of his new employer.

and find a sensible job.'

Cunningham's sin was to leave

CORE to work for a rival fundraising

organization on the West Coast.

CORE officials accused him of con-

tacting his old CORE donors on behalf

Cunningham beaten up, Innis con-

firmed part of the story. He admitted

that he had met with Cunningham. "I

was Innis' personal bodyguard,

security chief and special assistant

for seven years. After his sentencing

last summer, Peay told the Los

Angeles County District Attorney that

Innis had ordered the beating. He told

the same story to the FBI's

Washington field office, and later

repeated it to our associate Gary

Farmer as a "completely reliable"

witness. And evidence suppressed at

the trial of Peay and the two other

CORE members, Terry Shumake and

William "Tank" Hill, adds cir-

cumstantial support to the contention

Peay and Hill were picked up by

sheriff's deputies outside Cun-

ningham's apartment the night before

the beating. The deputies found

stocking masks and rubber mallets in their car, which police sources said

was leased by CORE. And according to law enforcement sources, Peay and

Hill told them they had come to town

to "inflict a beating on a brother who screwed up."
Two CORE officials obtained

The next day, outside Cun-

that Innis ordered the beating.

Peay was described by James

Although he denied ordering

"Do the Russians have it?" she

Art Buchwald

"They certainly do not. All they have is monster weapons that can destroy entire cities. They're in a lot of trouble."

"I guess I should know this," she said, "but if the Soviets don't have a neutron weapon and we do, how do we prevent them from using their monster weapons after we use our small ones on them?"

"Because if they use their monster ones they know we'll use ours, and then we'll destroy each other," I said patiently.

"But if we use the neutron weapon against their armies in the field, won't we be destroying them? They're certainly not going to stand by and see all their men and tanks destroyed without retaliating with everything they've got." 'I'm sorry but I'm not at liberty to

answer that at this time," I replied. "Can I ask you another question? If we have developed a smaller weapon that just kills people and doesn't de-

stroy property, what is to prevent the Soviets from doing the same thing?" "They don't have the know-how to make a neutron bomb or they would

have before now." 'That's what you said about the atomic bomb after World War II." "Can you keep a secret?" I asked

"You know I can."

"Carter really doesn't care if we have a neutron bomb or not. But he wants a SALT treaty very badly. Even if the Soviets agree to one, he'll have a hard time getting the Senate to approve it. So by announcing he was going ahead with the neutron bomb, he'll win over the senators who are against SALT."

"Then," she said, "Carter's not going ahead with the neutron weapon to impress the Soviets, but to placate the U.S. Senate?"

"Now you're catching on," I said. "I think I'll watch The Gong Show." "How can you watch The Gong

Show at a time like this?" I asked. "Because it makes a lot more sense than building a neutron bomb.'

Mark Russell says

President Carter has ordered the parts for the neutron bomb but will not assemble it. That's like getting a toy without the battery.

The neutron bomb kills people but leaves buildings standing. The same can be said for the interest on mortgage loans.

The ERA received a three-year extension. This means women must wait until 1981 before the states deny them their rights.

Because Carter has set wage-price guidelines, the CIA must hold down payments on escort services for'Russian defectors.

The Country Parson

by Frank Clark

NICK THIMMESCH

Where is the combat, who are the valiant in '78?

WASHINGTON - We might have a fight after all this election season. The Democratic Congress went sort of Republican this year, and Jimmy Carter makes a show of being moderate, so the already weakened Republicans looked pale when they left here. But now some in the GOP show signs their glands can be activated, and that a little whoop and holler might win them some votes.

Perhaps the Republicans were too stunned to respond, but nary a one complained when President Carter spent taxpayers' bucks to travel to West Virginia Oct. 7th to campaign for Sen. Jennings Randolph. Federal election laws require that

the President's party, in this case, the Democrats, reimburse the government when Air Force One and other components of the White House apparatus are used by him on political trips. The West Virginia trip, by Republican calculations, cost the government \$10,000.

Every news account of Mr. Carter's day with Sen. Randolph shows the trip reeked of politics, and yet the White House insisted then, and now, that the trip was non-political. Besides thumping for Randolph, the president also announced two nice federal grants for West Virginia, one for a civic center in Charleston, and another to a faucet company.

Anyway, it wasn't until this week that a Republican, Rep. Guy Vanderlagt, chairman of the GOP Congressional Campaign Committee, yelped about Carter's political trip on federal

"It is not surprising that Carter did

Nick Thimmesch

this again," he said, "since the Federal Election Commission has three times fined the 1976 Carter presidential campaign for violations. It is shocking in the sense that Carter operates from such a moralistic position while he gets involved in questionable activities in elections.'

But other Republican leaders have been silent about such shenanigans. Hardly a peep out of congresional leaders Howard Baker and John Rhodes. Nothing from Sen. Robert Packwood, who is running GOP Senate campaigns. And William Brock hasn't growled like a party chairman

should either during election season. True, Carter and the Democrats have devoured Republican issues like inflation, cutting the deficit and taxes, and reforming the bureaucracy. The Lord and the public now elieve the Democrats were always for such thriftiness.

The Republicans should be sufficiently stung by their issues being pirated, that they would start screaming, "Yeah, but," and run up the flag on Bert Lance, Koreagate, the blossoming G.S.A. scandal, Andy

Young, the partisan tyranny in Congress as practiced by the powerhouse Democratic majority and the current use of civil service employes to crank out briefing material for Carter's campaign journeys. Again, the Republicans seem timid and impotent, in need of Vitamin "E," perhaps.

By JACK ANDERSON

Equality (CORE).

WASHINGTON - It is sad to see a

once-renowned organization falling

apart at the seams. But that's what is

happening to the Congress of Racial

When it was founded 36 years ago,

CORE earned a reputation for high

idealism and courageous if ram-

bunctious leadership. It played a

decisive role in the civil rights

demonstrations which cracked the

wall of segregation beyond repair.

But now, the organization is being

torn asunder by partisan bickering

and charges of financial im-

proprieties against a backdrop of

At the center of the controversy is

Roy Innis, a Virgin Islands native who

took over as head of CORE in 1968. He

of dollars to further this worthy goal.

members have told us that money and

power - and perhaps a short-lived

friendship with Ugandan President Idi Amin - have turned Innis into a

despot who considers CORE his

personal property. In an inept parody

of Louis XIV's famous comment, "I

am the state," Innis once blurted out

at a staff meeting that he was the

"King of France" and CORE was his

Law enforcement authorities have

now moved into the fray. The FBI and

kingdom.

CORE's record was a proud one.

This minority club even seems intimidated by obvious outrages committed by the media. For example, last week, NBC News, with Democrat David Brinkley narrating, told how political action committees formed by business are exerting major influence on this year's campaign.

This NBC bit opened with Richard Nixon speaking to the 1972 election, dissolved to face shots of various big businessmen who made illegal contributions to the Nixon campaign (some made illegal contributions to Democrats, but that wasn't mentioned), and then cut to the here and now, thus strongly suggesting that business PAC's are in league with the GOP. NBC is either biased or is dumb in missing a "Man Bites Dog" story.

The truth is that in 1976, the majority of the money business PAC's gave went to Democratic candidates. This year, the percentage amount is up even more. Indeed, business has become a major contributor to Democrats for the simple, cynical reason that business knows the bottom line and who has the power.

But do Republicans howl about this? No. Instead, they raise money for face-lifting image change and other media nonsense. Maybe people want some old fashioned, roll-upyour-sleeve-and-fight politics this year, and not a weak list of doubletalking Republican candidates.

WASHINGTON MERRY-GO-ROUND

local police are looking into

allegations that Innis ordered the

shooting or beating of former

colleagues who displeased him in one

way or another. New York State

authorities are also probing charges

that Innis diverted CORE funds for

vehemently denied all charges and

heaped scorn on his accusers.

In conversations with us, Innis

Meanwhile, we reported allegations

that Innis ordered the execution of

dissident CORE members, the non-

fatal shooting of a former staff aide,

and beatings of CORE members. In

the context of a bitter feud between Innis, CORE founder James Farmer,

and others in the organization, it is

possible that some of these charges

are either exaggerated or imaginary.

corroboration of the charge that Innis

ordered the shooting of an ex-CORE

member in Washington, D.C., back in

1974. The evidence includes a signed

confession by the man who claimed to

have pulled the trigger and testimony

by another man who claimed to have

Similar corroboration was obtained

by our associates Gary Cohn and

Tony Capaccio of the charge that

Innis personally ordered the beating

of Ray Cunningham, a former CORE

fund-raiser, who was set upon by three CORE employees wielding

rubber mallets in Los Angeles in

November 1976. The three were

convicted of the assault earlier this

witnessed the shooting.

But we have obtained strong

his personal use.

Has CORE leader divided group?

So far, the attack and counter-attack in politics has come mostly from "activist" groups which Sen. Edward Kennedy scorns as "special interest" groups unless they back him and become "public-interest."

Anyway, Kennedy caught hell in Dubuque, Iowa, from the pro-life crowd for his weaseling position on abortion, and more of the same in Minnesota from the gang which demands the right to run motor boats.

Is this the future? Is the only combat and fun going to be provided by people who wield picket-signs? Where are the party stem-winders, the stumpers, the arm-wavers? Would Harry Truman make it today?

For those who believe in the compe tition of ideas, especially in a political season, we deserve a more spirited show than we've seen so far this

the small society

Peay's and Hill's release, and one of the officials told police that organization takes care of its own disciplinary problems.'

> ningham's new place of business, the three beat him up. The fact that the thrashing was committed in broad daylight lends weight to the belief that Innis intended it as a warning to others who might be tempted to step out of line. Innis shrugged off Peay's

allegations. "They've been raising that charge against me all the time. he said. He explained that Peay sees himself as another Joe Valachi, the Mafia "soldier" who ratted on the organization in Senate testimony 15

"Every cheap hoodlum who wants to play games with the cops tries to get off for his own crimes with this cheap stunt," Innis sneered. "The Valachi syndrome, I call it."

"Sparkling conversationalists are those who say on the spur of the moment what you would have thought of later."

Alfred E. Kahn

Kahn presided over many changes in CAB

WASHINGTON (AP) - President Carter's wage-price chief is begin-ning his new job after establishing the ministrution's one bright spot in its

As chairman of the Civil Aeronautics Beard for the past 16 months, Alfred E. Kahn presided over substantial changes in American avia-tion, including a rash of discount air fares that have resulted in travelers lling airplanes in record numbers.

While retail prices are generally rising at an annual rate of nearly 10 percent, average air fares are now

ower than a year ago.

Carter selected Kahn for the CAB job because of his reputation as a specialist on deregulation. The presi-

dent wanted someone who would promate competition and protect con-

Kahn, 61, had taught regulatory and antitrust economics at Cornell University for 30 years and wrote "The Economics of Begulation," a study of the government's role in the regulation of private industry.

As head of New York State's Public Service Commission from 1974 to 1977, he introduced time-of-day pricing to give breaks to electricity users during non-peak hours and permitted competitions of the Bell telephone system

hank up to Bell's equipment. When Kalm took ever the CAB, he began making over one of the most staid of the regulatory agencies into a body which conducted its decisionmaking in as rational a manner as

He also moved to speed up the board's setting rates and assigning

Selecting top aides from among the sharpest critics of past CAB policies, Kahn moved people to the inside who once tried to change the board from

Also, Kahn backed the congressional moves to deregulate the airline industry. And he said once that was done he saw no further need for a Civil Aeronautics Board.

When he became impatient with the slow pace of Congress, he began to deregulate the industry on his own, gaining support from other board members. His stated goal was to free the airlines from any government economic controls and to allow them to fly anywhere at any time and to

charge any price. Earlier this month, Congress finally agreed on a deregulation measure which will gradually phase out federal regulation of the airlines and perhaps lead to the end of the CAB by 1985. President Carter signed the bill

into law Tuesday. His full-speed-ahead approach as CAB chairman was tempered with a wit that helped soothe the feathers he sometimes ruffled.

As an award ceremony where he was honored guest began to wind

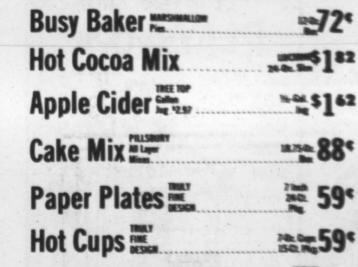

down earlier this year, Kahn told his hosts he had to hurry off. "I have to go back and destroy the airline industry," he said.

At one meeting, where Kahn backed a low-fare policy for U.S.-British travel, a veteran CAB staff man warned: "You have just destroyed the North American fare structure." Kahn replied: "That's a good after-

noon's work." No one was too big to take on. After Carter overruled a board decision, Kahn once called a news conference

to denounce the decision. "He is the president and has a right to make a judgment, and I have a right to disagree with it, and I do," he

Arms band discussion slated for Mexico City

WASHINGTON (AP) — The United States and the Soviet Union will meet in Mexico City in December to discuss a possible ban on arms sales to the rest of the world, a State Department official said Wednesday

The two countries had agreed in principle to the talks earlier but actual negotiations had not been set until Secretary of State Cyrus Vance was in Moscow this week for the most recent round of SALT negotia-

In announcing the agreement earlier this month to talk about troublesome arms sales, especially to the developing Third World, another State Department official, Leslie H. Gelb, told a House panel that the Soviets had reversed a "totally negative attitude."

Gelb told the panel then that the Soviet Union had three possible reasons for its reversal. "It could be that the Soviets realize that arms

transfers beyond a certain point can complicate and cause serious problems in their relations with the United States," he said.

Gelb also noted that the Soviets are learning that

some arms transfers, such as those to Egypt, Indonesla and Somalia, have resulted in the arms being used in politically sensitive areas in ways the Soviets had not foreseen.

And last, he said, Moscow may have decided that the United States has a much greater capacity for supplying arms to the Third World, meaning the Soviets eventually could overextend themselves in arms production and fall behind the U.S. in garnering influence in developing nations. Gelb said the United States first contacted the

Soviet Union about a ban on transfers last December after U.S. European allies said they would not consider cutting arms sales to the Third World unless the Soviets would agree to a similar curtail-

The Washington Post said in Thursday editions that the Mexico City talks would center on cutting sales to Latin America where the Soviet Union has few allies and weapons customers

But a State Department official, asking not to be named, said the talks would not be that specific. He did confirm, however, that the two countries also may be close to another round of talks on banning anti-satellite weapons.

The announcement that the Mexico City talks have been set comes before a backdrop of SALT talks that still have not produced a final agreement for the signatures of President Carter and Soviet President Leonid Brezhnev

There remains hope, however, that such an agreement on limiting strategic nuclear weapons can be reached before the end of the year and signed at a summit in the United States.

A dollar bill's beleagured George Washington peers at Japanese Yen coins representing today's opening price in Tokyo of about 178 ven, a new postwar low for the American currency. It was the third postwar low in four days. Experts attributed the skid to disappointment in President Carter's largely voluntary anti-inflation program. (AP Laserphoto)

Vietnamese reinforce operations

WASHINGTON (AP) - Vietnam has sent 10, 000 to 15,000 reinforcements to its army facing Cambodia amid expectations of intensified fighting within the next few weeks, U.S. intelligence sources say.

These sources, who declined to be named, estimated that Vietnam now has about 100,000 fighting men in position to push deeper into Cambodia if Hanoi decides on such a move. The reinforcements are said to have arrived in southern Vietnam from the north within the last month.

The Vietnamese are reportedly in effective control of an irregular strip of territory on the Cambodian side of the border. However, most of their units are deployed in five Vietnamese provinces within striking distance of Cambodia, the sources said.

Fighting between the two one-time Communist allies - it began after their Indochinese victories of 1975 - has slowed during the rainy season, but U.S. intelligence sources say the Vietnamese have been conducting battalionsized sweeps while Cambodian troops have staged small hit-and-run attacks into Vietnam.

In one recent action, the Cambodians were reported to have made an unsuccessful effort to recapture the town of Snuol, which the Vietnamese captured earlier

With the onset of the dry season, U.S. analysts predict some Vietnamese battlefield initiatives in coming weeks.

John Tower says Texas needs Republican balance in Senate

SAN ANTONIO - Texas needs influence "on both sides of the aisle" in the U.S. Senate, Sen. John Tower said on the campaign trail Wednesday.

Tower, "barnstorming" through his opponent's congressional district, said there is nothing his Dem-

ocratic opponent, U.S. Rep. Bob Krueger, can add to what is being done by Democratic Senator Lloyd Bentsen.

Tower, who is seeking re-election, said his Democratic colleague (Bentsen) has experience, and provides leadership in that party. He said he does not know of anything more "a junior Democratic senator" could accomplish.

"There's always the possibility you might get a Republican president in 1980, so consider the advantages of having influence on both sides of the aisle," said Tower.

Tower campaigned Wednesday in Big Spring, San Angelo, Del Rio, Fredericksburg and San Antonio. Of those cities, only Big Spring is outside the boundaries of Krueger's 21st Congressional District.

Asked in San Angelo about Krueger's charge that Tower has been ineffective because there has never been a "Tower bill" the senator said that is not a good measure of effectiveness. 'Nobody knows of a 'Byrd bill' but, as majority

leader Sen. Robert Byrd has considerable influ-

The candidate claimed a major role in passing a large number of important bills, and charged Krueger "has no legislative acheivement he can

During his Del Rio appearance, Tower called on President Carter to have a summit meeting with the president of Mexico.

"If they can do what they did at Camp David...I see no reason why old friends like the U.S. and Mexico can't get together," Tower said.

The senator questioned the wisdom of a proposed six-mile fence along the U.S. border at El Paso "that may not be effective (in keeping out illegal aliens), but ... will serve as an irritant.

"I don't want (the U.S.) to be blatantly offensive," Tower said.

Ultimately, the solution to the illegal alien problem is a healthy Mexcan economy, he said. The U.S., Tower contended, should be working to try to strengthen that economy.

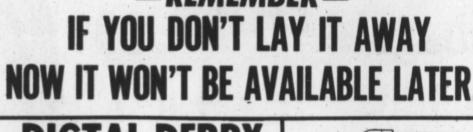

Fence plans delayed

LOS ANGELES (AP) - Plans to erect a \$3.5 million dollar fence along key sectors of the 2,000mile-long border with Mexico have been delayed to insure the fence's design does not endanger humans.

A spokesman for the U.S. Immigration and Naturalization Service here said construction probably would not begin until next year.

INS Commissioner Leonel Castillo was said to be perturbed by reports that steel latticework in the fence would be built with very sharp edges.

By PATSY GORDON R-T Lifestyle Editor

Parent-Teacher Associations of the various schools in the Midland system have been working hard the past few weeks putting together the annual Hallloween carnivals, one of the biggest fund-raising events sponsored by

Most of the carnivals are scheduled Saturday and those reported to the Reporter-Telegram are listed below. Please support your school's carnival. The proceeds go to improve your child's education.

WEST SCHOOL will serve dinner from 5:30 to 8:30 p.m. Saturday, with the booths opening at 6. Frito pie, hot dogs, beans and more will be on the menu. The booths will include a duck dip, cake walk, Country Store and fish pond. Prizes donated by Midland merchants will be given away at 9. So come and bring your ghosts, goblins and friends.

BEN MILAM Saturday is sponsoring a carnival based on the "Star Wars" theme. Dinner will begin at 5 p.m. before the booths open at 6. For your entertainment, you can view a horror movie, guess who the mummy is or "chat" with Darth Vader.

BURNET SCHOOL will begin serving a Mexican supper and chili dogs at 5 p.m. Saturday before the booths open at 6:30. A special spook house and auction will be held after the

CROCKETT SCHOOL will hold its carnival from 6-9 p.m. Saturday. Homemade tamales, burritos, hot dogs, cakes, pies, candies, cookies and much more will be available. There will be 14 booths of games and entertainment for the entire family. Prizes, including stuffed animals of all sizes, will be awarded at each booth. A costume contest will be held at 7 in the cafeteria for the "most creative" and "most ugly" costumes. A side of beef will be awarded at the close of the carnival. Tickets for the booths will be sold in the school office during the carnival for 10 cents each.

MIDLAND CHRISTIAN SCHOOL Saturday will have a Fall Fun Festival. The event will be held from noon to 9 p.m., with the fun booths opening at noon. There will be a silent auction all day, with the "big" auction opening at 7:30. A barbecue dinner will be served from 5 to 7 p.m. More than 800 pounds of brisket will be cooked in the barbecue pits behind the gym at the school by parents and friends of the school. The preparation will begin early the morning of the festival. Coordinators of the event are Grady and Marianne Lobley...

...MIDLAND JUNIOR ASSEMBLY is sponsoring a Harvest Dance from 8-11 p.m. Saturday in the Lee Youth Center. Chaperones are Mr. and Mrs. Sid Curle, Mr. and Mrs. Russell W. Neisig and Mr. and Mrs. Ben L.

SCOTT BROWN, son of T. J. Brown of Route 2, has been selected as a member of the Texas A&M University Debate Team.

Brown is an ocean engineering major at Texas A&M.

Students on the team, which ranked 33rd in the National Novice Class last year, put in 10-20 hours a week working on debate-related research...

LOURDES BALTIER, daughter of Mrs. Agustina Baltier of 800 N. Lee St., will graduate as a dental assistant from the Albuquerque Job Corps Center in Albuquerque, N.M. Monday. Formerly a student of El Paso High School, Miss Baltier has been in Job Corps the past 12 months. She plans to return home to seek employment, and hopes to continue her studies on dental hygiene at Midland College.

A Tuesday night preview in Museum of the Southwest opened an important exhibition of abstract expressionist paintings by such prominent American artists as Jackson Pollock, Robert Motherwell, Mark Tobey and Helen Frankenthaler. The collection is on loan from Houston's Blaffer Foundation, established by the late Sarah Campbell Blaffer, a voluminous art collector. Among guests at the

preview was a Blaffer granddaughter, Trinka Blaffer Taylor, second from left, and her husband, Nick Taylor, second from right. Flanking the Midland couple are other Midlanders, Lynn Durham Jr., left, and Mrs. Durham, right. The colorful abstract canvases will be on view daily at the museum for the next several weeks. Citizens help reduce death rate

By WARREN E. LEARY **AP Science Writer**

WASHINGTON (AP) - Americans apparently are heeding advice to cut down dietary fats, smoking and blood pressure, but there is little hard evidence on how much this is responsible for declining heart disease death

Heart disease experts meeting at the National Institutes of Health said Wednesday that they have "gut feeland indications that reducing these risk factors is at least partially responsible for the decrease in cardiovascular disease death rates.

But there has to be more to it than that, they add.

"It is clear we are doing something right in the United States," said Dr. Jeremiah Stamler of Northwestern University Medical School in Chicago. "We are doing better than any other industrial country at reducing the death rate. We admittedly started higher than most, but we are still making progress.'

Heart and blood vessel problems still represent the nation's No. 1 killer disease, taking almost 1 million lives

Stamler said he and Dr. Alan R. Dyer, also of Northwestern, just completed a statistical study which indicates that changes in average blood pressure, smoking and blood cholesterol in middle-aged white men over the last 20 years could be responsible for much of their decreased cardiac

Looking at the numbers for these risk factors in 8,100 men tested in the

Good roof comes from close check

By RANDOLPH E. SCHMID **Associated Press Writer**

WASHINGTON (AP) — When was the last time you made a close check on the condition of your roof? Will it stand up to another rough winter?

A good roof will last for years, the National Council of Better Business Bureaus reports, but only with a program of inspection, repair and main-

Look for penetrations, blisters or cracks before your roof starts to leak

or become badly worn. If you think your roof needs repairs it may pay to have it checked by a reputable roofing contractor. This person can make a detailed examination of damaged areas and flashings. Those are the sealing materials, usually aluminum, around chimneys

Before deciding to have any work done, get at least two reliable con-tractors. The local BBB office can advise you on their dependability.

Be particularly careful of fly-bynight contractors who offer big jobs at low prices. If they fail to pay the supplier for the materials used on your home, the BBB points out, a lien may be placed on your property even though you paid the contractor.

Get a written contract from the firm you finally select specifying what is to be done including the size of the roof, type of roof (flat or pitched) and type of shingles. It should also state whether flashings, valleys and removal of the existing roof are included and whether there is a warran-

1950s, the scientists calculated the death rate change for this group if the measurements had been reduced to mid-1970s levels.

These figures projected a death rate reduction for this group of 18.5 percent, very close to the actual mortality rate reduction of 20.9 percent.

Dr. Joel C. Kleinman of the National Center for Health Statistics said data on cigarette smoking is so sketchy that it is impossible to show definitively that many adults giving up the habit have contributed to reduced heart disease death rates.

Ironically, he noted, white women, who are at lowest risk of heart disease and whose cardiac death rate has declined more than any other group, are smoking more than ever before. This indicates other factors must be at work, he added.

Decisions difficult

By DR. LAURA SCHLESSINGER Copley News Service

"I just can't seem to make up my mind!" is a relatively common complaint. What makes decisionmaking so fearsomely difficult that many people will vacillate interminably or procrastinate in even thinking about it until "time and circumstance" make the decision?

As a child most major decisions are made for you by your parents, older siblings and family members, teachers and other authority figures. Structure and critical guidance are the decision makers and you are told that "When you are older and on your own you can make your own decisions, until then you have to do what I tell you. I know best for you

The hidden (but not so hidden) message is that you are incapable of making decisions now, but someday And what is supposed to happen "some day"? How do you know when or if you are ready?

Certainly people who have logged more track time in life have experience and knowledge above and beyond a child's.

However, courage and ability to make decisions are not inherent mechanisms switched into "automatic" at some magical age. These are qualities which are developed and nurtured by those who will allow you to practice. In other words, if your family is (or was) one in which negotiation, open discussion and individuality was supported and promoted then you would have had background helpful in gaining selfrespect and self-confidence.

In family situations in which all laws are given and irrefutable then your mind might tend to be frozen

with rigid rules which may deny you the flexibility to deal with different situations, times and people, making future decision-making difficult.

Often, decision making means coming to terms with inner tugs-ofwar which may represent a conflict between old and new versions of reality, ideas and beliefs. This may result in immobilization because of guilt.

For example, we are all carrying histories of assumptions, lessons and truths of earlier teachings, which may (or may not) have served us in the past. Now these earlier ideas might be encroaching upon our-ways of doing and thinking things now, interfering with our ability to relate open-mindedly and comfortably with the present.

Therefore, instead of being a source of wisdom, perspective and help, these past notions become a tyranny of "must and should" as though you were programmed like a computer to respond only in one way.

On the other hand you have the pull of present feelings, desires and thoughts.

Decision-making then becomes difficult because you are not only dealing with the dilemma at hand, but find yourself attempting to reconcile what you "thought was so" versus what you now "find out is so for you."

For many, the transition to intellectual and emotional autonomy is difficult. You might feel that total rebellion is the only way to be free. Or, if you become more secure internally, you might be able to objectively value past and present and work out your own way in personal and interpersonal peace.

For others, decision-making is difficult because of the fear of "loss." Many think that in making a decision you come to a cross-roads where you have to travel down one leg of the fork, sacrificing that which can be experienced down the road left behind. In part this is true since in choosing between possibilities you automatically eliminate others.

In part this is not true because you don't necessarily have to eliminate

Compromise is often more comfortable and satisfying than "eitheror." For example: work and-or family, work and-or fun, or friend and-or lover. Of course, there are situations in which you can't "have it both ways" but they are fewer than we often admit.

Compromise takes flexibility and courage, and it is more rewarding than the self-flaggelation often involved in forcing yourself to sacrifice — PAY — for the decision you've

In making decisions we participate in our own lives rather than observe

Amazons audition

LOS ANGELES (AP)—Some 75 tall women showed up for an audition for the movie, "Treasures of the Amazon Women," held at producer Alfredo Leone's office.

The amazons, according to Greek legend, were a nation of female war-

Those seeking to portray them included Claudia Lee Cutter, 6 feet 5 inches and Karin Hall, T6 feet.

Gloria Jones was downcast. "They said I was too short because I'm only 5 feet 11," she said.

Grocery shopping a science

By ERMA BOMBECK

I heard a man remark the other day that he did not know how his wife could go to the supermarket, purchase \$85 worth of groceries, come home and have nothing to cook for dinner. Isn't that just like a man? Men like that probably

don't even understand why a woman has a closet full of clothes and still have nothing to wear.

Grocery shopping is one of the last of the littleknown sciences in the world. All the experts know is it's demanding, requires great concentration and split-second timing

Dear Dr. Solomon: What is the best first aid when a person has collapsed with a heart attack-and there is no pulse? This happened to someone we knew last week- and out of seven or eight people present, nobody knew what to do. Is there some training pamphlet you could recommend?-R.W.

Dear R.W .: Cardiopulmonary resuscitation-CPR for short-is the best first aid when a heart attack victim has no pulse and has stopped breathing. It combines mouth-tomouth breathing and rhythmical chest compression, so that blood with oxygen keeps going to the brain until medical treatment can get the heart started again. CPR is best done by two people, but can be done by a single person if necessary. The only way to learn it properly is in a course that meets the standards of the American Heart Assn., which pioneered the technique. Check your local chapter of the AHA, the Red Cross, or the Fire Department.

Tax hiked on coffee

RIO DE JANEIRO. Brazil (AP) - The Brazilian government has raised its export tax on coffee, and prices in coffee-importing countries such as the United States could go up as a result.

The tax rose today from \$80 to \$85 on every 132-pound bag of green or decaffeinated coffee. It is the second increase this month, following a rise three weeks ago from \$75.

Humorist to address Crane C. of C. event

CRANE - Banker-humorist Lee Herring of Grand Prarie will be featured speaker at the annual Crane County Chamber of Commerce banquet at 7 p.m. Nov. 6 in the Crane School Cafeteria, said Peggy Morgan, the chamber's secretary-manag-

Herring is senior vice president of the Grand Prairie State Bank.

Ann Smartt will be installed as chamber president at the banquet. She will succeed Gordon Hooper. The chamber's new vice president will be Tom Witt, and Jowanna Griffin will be treasurer.

Crane's "outstanding citizen" and "first lady" for 1978 will be named in the fete to be emceed by M.D. Ford, superintendent of Crane public schools. Last year's recipients were Dr. B.J. Maynard, outstanding citizen, and Bernice Passur, first lady.

In-coming directors are Dan Anderegg, Jim Fowler, Mike Milam, Lou Tennison and Witt. Out-going directors are Charles Blue, James McDonald, Bob Lewis and Hooper. Hold-over directors are Johnny

Ainsworth, Gene Cowden, Carlos Fox, Ms. Griffin, Buren Hale, Bill Harkins, Steve Holifield, Ms. Smart, E.L. Tipton, and Darrell Warren.

Election slated

Officers of Midland County REACT, a citizens' band radio team, are to be elected at the organization's regular meeting at 7:30 p.m. Monday in the Community Room of Commercial Bank & Trust Co.

Loyd Bell is the outgoing team lead-

Members of REACT, an acronym for Radio Emergency Associated Citizens Team, monitor CB Channel 9 for emergency calls. REACT'ers take appropriate action, such as notifying law-enforcment and other emergency agencies or otherwise helping motor-

Fish lovers of America - delight! Now Mrs. Paul's gives you more to love.

New Supreme Light Batter Fish Fillets

love batter, too. That's

why we developed a brand

new recipe. Not doughy.

Not greasy. It's light and

golden. Prepared to let

rom Mrs. Paul's Kitchens comes the new fish fillet come by. And each Supreme Fillet is sized to

created especially for fish lovers-Supreme Light Batter Fish Mrs. Paul's Supreme Fillets give you more of all the things you love fish for. More fish instead of more batter. The thicker cuts of firm, white fish. The mild, sweet taste that's so hard to

satisfy the heartiest appetite. If you're a fish lover,

you want to know what it is you're eating. Mrs. Paul's

tells you by putting our ingredients right on the label.

more of the great taste of the fish come through the crunchy coating. And it's made with natural ingredients. After all, Mrs. Paul's is a family concern that's concerned about you and your family. Better fish and more of it...more mild sweet taste....crunchy light golden batter. With so much

more to love at home, who needs to go out? Look for Mrs. Paul's new Supreme Light Batter Fish Fillets in your grocer's freezer now. It's another great-tasting fish story for fish lovers from Mrs. Paul's.

Neighborhoods report certain

to stir hassles By JOHN CUNNIFF **AP Business Analyst**

NEW YORK (AP) - The task of the National Commission on Neighborhoods, which submits an almost certain to be controversial report to President Carter in March, is necessary perhaps but certainly not enviable. It must determine how the nation's largest politi-

cal unit, the federal government, can deal directly with the smallest, a neighborhood, without in the process damaging relations with mayors and

It must seek ways in which a cumbersome federal bureaucracy can help inspire development of a neighborhood's resources, skills, vision and creativity, without intruding upon and destroying its sponta-

The delicacy of the latter task has been compared to pushing a tricycle with a bulldozer, and the former with stepping on the paw of a lion and then patting the enraged beast in an effort to make it smile. Joseph Timilty, chairman, knew from the beginning that he faced a challenge, including molding a

report from the views of 20 ethnically, racially, geographically and politically diverse members. But the White House wanted action because of the suspicion that federal urban programs might be helping to build impressive municipal skylines and pastorally beautifully suburbs that merely hid the

Inner city residents, for example, complained that federal funds went for downtown business development at the expense of community projects, and that other money, such as for roads, speeded the exodus to suburbs.

Timilty, an attorney, university instructor and Massachusetts state senator, believes that "government is more help when it supports what the neighhorhood wants to do rather than imposes programs

And what the neighborhoods seem to want includes locally owned businesses, home ownership, strong local institutions and, as the commission has stated,

'a place where the scale is human. On inspection trips throughout the country, the committee-which includes community activists, mortgage lenders and four members of Congress -

has found pockets of energy, imagination and vitali-But members wrote in their interim report that people in every city told us they are sick of centralized, alienating institutions that respond to

human needs in remote, bureaucratic fashion.' They saw "neighborhoods turned over wholesale to a developer, with needless displacement of hundreds of families," and "miles of public housing where the design obliterates the possibility of community."

They frequently found individual initiative buried by red tape and by difficulties in obtaining insurance or home mortgages, and simply dying or lying unnurtured because of the neglect and ignorance of

"Neighborhood capacity (to handle its own affairs and build a community) derives from strong institutions," it reported. But those institutions, despite local efforts, often were decaying.

They were impressed too, as in parts of Baltimore, Chicago and Los Angeles. "We came to Baltimore because we thought we ought to start with the best," tion.

Although the commission was impressed by a St. Louis community development corporation that provided jobs, security, and a senior citizen program, among other things, the sparks flew in that city...

In accepting the chairmanship, Timilty had let it be known he considered the commission an advocate rather than a passive research vehicle. He showed it in criticizing St. Louis tax-abatement policies.

"Among our concerns," he explained later, "was the equity of (St. Louis) promoting tax abatement for downtown enterprise, but not for small business and homeowners."

As expected, the commission ran afoul of big-city mayors. John Gunther, executive director of the U.S. Conference of Mayors, complained that direct funding of neighborhoods wouldn't help cities.

Timilty wrote: "I think you confuse helping cities with helping city halls." He said Gunther reflected a siege mentality, and that public officials were 'fighting valiantly for their slice of the pie."

After examining scores of neighborhoods and reports, good and bad, the commission will submit its proposals in March, having won a three-month extension necessitated by early organizational delays. It isn't likely to be shy in its proposals. As Timilty explains, the commission isn't seeking to undermine city hall or to have more federal dollars spent, but it does seek to have them spent intelligently.

"Ultimately," the commission said in its progress report, it "hopes to make the case that the rebuilding of our cities can occur most effectively when citizens themselves assume decisive roles.

Finances force divorce on pair

ST. PETERSBURG, Fla. (AP) - Glenn and Carol Stephens have filed for divorce so they can stay together, something they could not afford if they remained married. "To me, we'll still be married," he said. "It's

what's in my heart that's important. If this is what it takes to make the government happy, then we'll do

Neither Stephens, 30, nor his wife, 43, wants to end their 3-year-old marriage. "We have a beautiful relationship. It hurts us to do this," he said. But the two see it as a way to end their financial dilemma.

Blind since birth, Stephens receives a monthly \$189 check from the federal Supplemental Security Income program. He and his wife also receive about the same amount from the city in rental assistance for their two-bedroom house.

But because Mrs. Stephens' 18-year-old son by a previous marriage has found a job and no longer lives at home, the local housing authority will reduce the rent subsidy. The authority wants the couple to move into a

smaller place, but Mrs. Stephens said her husband's mobility around the house and their neighborhood would be lost if they moved.

If Mrs. Stephens works and earns more than \$251 a month, it costs them the rental allowance and also jeopardizes her husband's federal welfare benefits. If she earns more than \$63 a month, with continued rental assistance, her husband's check would also be reduced.

But if they break their marriage ties, they say the government cannot penalize them for her earnings. "I'm so sick of hearing the word 'guidelines' I could scream," Mrs. Stephens said. "What they don't understand is how important it is to Glenn to feel that he is contributing toward our upkeep. When that check stops, so does his pride."

At the time, the firm had a halfdozen small accounts and did only \$75,000 worth of business in its first

Abandoned dam sites rediscovered

as hydroelectric energy gold mines

"It all started changing around 1973 with the energy scare," says J. D. Kiser, whose company has become a \$2 million a-year business with 50 major accounts. It employs up to 46 people in busiest times.

"It was hard to get people to do it at first. But now, since all this went up in price, hydro plants have become very attractive," he said in a recent tele phone interview:

While no one knows for certain how many abandoned water generator: may still be in existence, Kiser estimates there are "a couple hundred" abandoned sites in Michigan alone. A 1977 study by the Federal Power Commission found at least 228 small hydro plants had been abandoned in New England in the past 30 years.

The same report found that the nation's 66,000 megawatts of existing generating capacity could be nearly doubled to 113,000 megawatts if undeveloped hydra-electric power were developed to its potential.

Even if 10 percent of the nation's 50,000 small dams were partially developed, the energy equivalent of 180 million harrels of oil a year - costing about \$2.1 billion - could be saved,

karge hydroelectric power plants have long been used in some Western portions of the United States, but renewed interest by industries and municipalities in routoring smaller, previously abandoned projects is

In roost cases, the hydro equipment was there when industry took over a dam site, Kiser says. As plants grew, they had to supplement operations with steam and purchased power. Some thre old wafer generating plants down, but he says many didn't Now, the major plants are trying to get what they have back on line, says

LCRA fails in bid to kill Stacy Reservoir permit

Austin Parcent

AUSTIN Arguing that the Col-orado River Municipal Water District the issuance of a permit" for the proorado fliver Authority unsuccessfully attempted to convince the Texas Water Commission Inesday that the

New TWC chairman Felix Joe Carroll, however, overruled LCBA couse! Larry Smith's four-point motion to dismiss the application, requiring the river suthority and other pecied to be a lengthy rebuttal to the case for the reservoir presented by

In his motion to dismiss, Smith argued the district had failed to support its application on four-points

.*That the district failed to show the availability of unappropriated water in the Colorado River and further had "completely failed to deal with the question of what portion of the flews unappropriated water in the river

the Lower Colorado River Authority and other downstream rights holders.

"That the district "has failed to carry its burden of proof that the proposed appropriation does not impair

. That the district has failed to show it is entitled to rights under the Lower Colorado River Authority Act which give municipal uses of water priority over the LCRA's use of the water for hydroelectric power generation pur-

*That the district is not entitled to the permit under a "Wagstaff Act' claim since (a) the act grants rights to cities and towns and the district "is LCRA's permits predate the effective date of the Wagstaff Act; and (e) the district's application is for both industrial and municipal water and, the LCRA said, "a permit for industrial appropriation cannot be granted

under the Wagstaff Act." CRMWD attorney Frank Booth Called Smith's claim that the district has not shown the availability of

in "unappropriated water." Booth said. The issue is for the commission to make on the basis of all; the evidence, he added.

Booth also maintained the CRMWD engineer Bob Gooch had shown that existing water rights would not be impaired by demonstrating that there would be more water available in the river than is now being used.

Booth also said the commission should not construe the Wagstaff Act in a common sense and use its discretion in applying it to the Stacy Reser voir application.

On the matter of hydroelectric generation. Booth agreed that Stacy reservoir would reduce the amount of water available downstream for use by the LCRA for this purpose.

"We do not deny that." he said, adding that the issue in the application is whether or not hydroelectric power will be generated or people in West Texas will have drinking water."

While McDonald said the motion presented by the LCRA is helping him. 'erystalize" the issues in the case, he joined Carroll in overruling the mo-

The issue is a determination of what - ment Association, also opposing the

application brought several "public witnesses" before the commission to express their opposition to the proposed project.

Austin State Sen. Lloyd Doggett told the commission members his constituents in Burnet and Travis counties had contacted him recently to state their concern for the proposed reser-

Due to the possible effects of the Stacy project on the Highland Lakes Doggett said approval of the application could tell "great economic disaster" for the business and residents living around the lakes.

State Rep. Gerald Hill, Austin, warned of a potential "water quality problem" from reduced flows in the river. He noted that the City of Austin discharges a great deal of sewage effluent into the river and, with natural flows in the river, the quality of the water below Austin could be detrimentally affected.

Travis County Commission Bob Honts said the Travis County commissioners court is concerned the Stacy project would reduce the Lake Travis level to appoint that recreation and

Airlines make mad dash for hundreds of U.S. routes

By HOWARD BENEDICT

WASHINGTON (AP) - A modern-day version of the frontier land rush began Wednesday with more than 20 airlines claiming a newly legislated right to provide scheduled service to cities that don't now

With hundreds of U.S. routes up for grabs, the airlines trooped inside the Civil Aeronautics Board when it opened its doors Wednesday morning and filed bulky sheafs of legal documents for the routes they want.

First in line was United Airlines, followed by Eastern and American and the other 20 or so. Airline representatives had been camped on the sidewalk outside CAB headquarters for a week.

The new routes will be granted on a first-come, first-served basis.

There was no limit on how many routes an airline could claim, so conceivably United, as first in line, could grab them all. However, there is a provision that a carrier must begin serving any route it claims

They must wait several days while the CAB determines if they are "fit, willing and able" to serve the routes they have selected.

It was impossible to predict how many or which cities would get new airliner service since the airlines involved kept their plans secret. "We certainly ing to a spokesman. don't want to tip our hand on what we're after, and I'm sure the others don't want to, either," said Jim Linse of United.

The routes were available because of a section in the airline deregulation bill signed Tuesday by Presiany airline and dormant routes which airlines hold refreshments" for a Stay-At-Home party. authority for but are not using and do not plan to use

Why would one airline want rights to a route not being used by a competitor? A route that might not be profitable to one airline might fit better into Johnson gains release the route structure of another, which therefore would have a better chance of making a profit on it. And

elimination of CAB jurisdiction over airline routes, Paroles.

fares and mergers and could lead to elimination of the board by Jan. 1, 1985.

CAB authority over routes will be ended altogether at the end of 1981, leaving existing airlines free to start new routes without any application process.

At the end of 1982, the board will lose its authority over fares and mergers, leaving the airlines subject to the same federal antitrust statutes regarding pricing and mergers that apply to other non-regulated industries.

United has first crack at the new routes because it thought to put one of its representatives, Lew Ramsdell, an expert in route proceedings, in line last Thursday. Other carriers had not thought to queue up quite so early, but they hustled people into the line as word of the United presence spread.

Attorneys and airline officials made up the early line, and substitutes were made every few hours. But during the night hours and over the long weekend, stand-ins, including college students, were hired to

RUNNELS DISCOVERY

Hamco Exploration & Development Co. of Dallas No. 1-B V. Merfeld, has been finaled as a Capps lime discovery in Runnels County, 3/4 mile northwest of the Cold Duck (Gardner

Operator reported a daily pumping potential of 10 barrels of 41-gravity oil, plus 86 barrels of water, through perforations from 3,966 to 3,972 feet, after a 2,000-gallon acid treatment. Gas-oil ratio is 1,500-1.

The well is 1,950 feet from southeast and southwest lines of James B. Shaw survey No. 450 and four miles east of Winters.

The Capps lime was topped at 3,966 feet on ground elevation of 1,872 feet. The Gardner sand was entered at 4,206 feet.

MIDLAND TESTS

Parker & Parsley, Inc. of Midland announced locations for a pair of projects in the Spraberry Trend Area field of Midland County, 16 miles southeast of Midland.

The No. 1 Hutt is 660 feet from north and 1,320 feet from east lines of section 26, block 38, T-3-S, T&P survey. It will drill to 9,250 feet.

The opertor's No. 1 TXL will be drilled 15 miles southeast of Midland and 660 feet from north and east lines of section 25, block 38, T-3-S, T&P survey. It is contracted to 9,250 feet.

SPRABERRY WELL

Parker & Parsley, Inc., No. 1 Powell has been completed in the Spraberry Trend Area field of Martin County, five miles west of Stanton.

It finaled for a daily pumping potential of 60 barrels of 40-gravity oil and 90 barrels of water, through perforations from 7,314 to 8,177 feet after an 80,000-gallon fracture treatment. Gas-oil ratio is 1,417-1.

Total depth is 9,000 feet and 4.5-inch casing is cemented on bottom. Location is 660 feet from north and 1,485 feet from east lines of section 12.

block 37, T&P survey.

RK PROJECT RK Petroleum Corp. of Midland No. 2 Florence will be drilled as a 12,000foot project in the RK (Devonian) field of Martin County, two and threequarter miles north of Tarzan.

It is one location east of Devonian production and 660 feet from south and west lines of section 3, block 37, T-2-N, T&P survey.

STERLING OILER

Wagner & Brown of Midland no. 26-4 Hildebrand is a new flowing well in the Conger (Pennsylvanian) field of Sterling County, 10 miles southwest of Sterling City.

On 24-hour potential test it made 186 barrels of 48-gravity oil and one barrel of water, through a 14/64-inch choke and perforations from 7,236 to 7,302 feet and from 7,538 to 7,631 feet. Gas-oil ratio is 2,468-1.

The upper set of perforations was fractured with 35,000 gallons, and the lower zone was fractured with 40,000 gallons

Total depth is 8,230 feet and 4.5-inch casing is cemented at 8,207 feet. Hole is plugged back to 8,166 feet.

Wellsite is 760 feet from south and east lines of section 4, block 21, H&TC survey.

Amoco Production Co. No. 196-AK

Earnings lower loss

SAN ANTONIO, Texas (AP) Third quarter earnings of \$2.2 million have reduced the net loss of financially-troubled Commonwealth Oil Refining Co., Inc. to \$600,000 for the first nine months of 1978, Corco officials said Wednesday.

in the Midlnd Farms (Devonian) field 12 miles southeast of Andrews in An-

The well finaled for a calculated, absolute open flow potential of 4,550,-000 cubic feet of gas per day, through perforations from 11,069 to 11,100 feet. The pay was acidized with 3,000 gallons. Gas-oil ratio is 72,061-1.

Hole is bottomed at 12,566 feet and seven-inch casing is set on bottom. Plugged back depth is 12,350 feet.

A former Ellenburger well, the No. 196-AK Midland Farms is 550 feet from south and east lines of section 33, block 41, T-2-N, G&MMB&A sur-

RIAL PROJECT

Rial Oil Co. of Midland No. 1-24 University is a new 10,000-foot project in the Hutex (Dean) area of Andrews County, 19 miles northeast of An-

Drillsite is 660 feet from north and ,980 feet from west lines of section 24, block 7, University Lands survey.

Mobil Oil Corp. will re-enter and plug back from the Ellenburger to the Strawn in its No. 2-BB Fasken Block in the Lowe multipay field of Andrews

The former Ellenburger and Silurian well is 18 miles southeast of Andrews and 2,150 feet from north and 2,080 feet from west lines of section 26, block 40, T-2-N, T&P survey.

WOLFCAMP WELL

Amoco Production Co. No. 4 Blue Estate, drilled as a one and seveneighths-mile southeast outpost to the Wheeler (Devonian) field in Winkler County, has been completed from the field's Wolfcamp pay.

On 24-hour potential test it pumped 87 barrels of 35.3-gravity oil and 127 barrels of water, through perforations from 7,722 to 8,546 feet and from 8,810 to 8,850 feet. The upper zone was acidized with 3,768 gallons and the lower zone was treated with 7,000

Total depth is 10,640 feet and seveninch casing is set at 10,562 feet. The plugged back depth is 8,550 feet.

Wellsite is 640 feet from south and 2,009 feet from west lines of section 15, block 46, T-1-S, T&P survey. It is five miles west of Notrees.

COTTLE COUNTY

Perkins-Prothro Corp. of Wichita Falls announced locations for a pair of 4,900-foot projects in the Cee Vee (Canyon) field of Cottle County, 10 miles northeast of Paducah.

The No. 12 Carroll is 800 feet from south and 250 feet from east lines of section 5, F. P. Knott survey, abstract

No. 11 Carroll is 1,665 feet from north and 1,756 feet from west lines of section 3, F. P. IKnott survey, abstract 861.

TERRY TEST

Texland, Rector & Schumcacher of Fort Worth No. 3 Ethel Young is a new project 1/2 mile northeast of production in the Warhorse (upper Clear Fork) field of Terry County, 18 miles northwest of Brownfield.

The 6,700-foot test is 660 feet from north and 2,002 feet from west lines of section 17, block D-11, SKRR survey.

IRION PROJECT

Simpson-Mann Oil Producers of San Angelo No. 4-24 Reva McMillan is to be dug as a northeast offset to its No. 2-24 Reva McMillan, discovery well and lone producer in the Mim, Northwest (San Angelo) pool of Irion County.

The project, four miles southeast of Mertzon, is 330 feet from north and 4,228.4 feet from east lines of section 24, GC&SF survey. It is to go to 1,600 feet. Ground elevation is 2,389.5 feet. Strawn oil production was opened in

a Sutton County field with the reclassification of N. D. McIntyre (formerly Bass & McIntyre) No. 1 Blossom.

The well, in the Valliant (Strawn gas and Ellenburger oil) area, potentialed as an oiler for a daily flow of eight barrels of 42-gravity oil, plus one barrel of water, through a oneinch choke and perforations from 3,-852 to 3,887 feet. The pay section was acidized with 1,500 gallons and fractured with 30,000 gallons.

The new pay opener, 25 miles northeast of Sonora, originally was completed in 1972 as a gas well for a calculated, absolute open flow potential of 4.1 million cubic feet of gas per day, through perforations from 3,852 to 3,912 feet.

Location is 2,150 feet from north and 660 feet from east lines of section 23, block 5, TW&NG survey.

COKE CONFIRMER

A confirmation well has been com-

pleted in Coke County. It is Continental Gas Co. of Dallas No. 1 Willcockson, the second well in the Weaver Ranch (Strawn) field seven miles south of Robert Lee and 7/8 mile northwest of the discovery

On 24-hour potential test, the well flowed 244 barrels of 44-gravity oil and 38 barrels of water, through a one and one-quarter-inch opening and perforations from 6,224 to 6,285 feet. Drilled as a wildcat, No. 1 Wilcockson is bottomed at 6.610 feet and

plugged back to 6,454 feet. Operator set 4.5-inch casing at the plugged back depth. Location is 1,084 feet from south

and 3,824 feet from west lines of Isaac N. Moreland survey No. 16.

Questions remain

BROOKSIDE VILLAGE, Texas (AP) - Two major questions remain unanswered in the wake of a gas pipeline explosion that killed five persons--what caused the destructive blast and where is Miss Ivey Beasley?

Philip Hogue of the National Transportation Safety Board said Wednesday there was no evidence of maintenance or operating failure by the United Texas Transmission Co., owners of the 30-inch pipe that erupted near the Royal Trailer Park Tuesday.

Hogue said the initial investigation showed no failure by the company or any corrosion in the pipe, which is 25 years old.

Hogue added that the board's investigation would take three months and it would be detailed and thorough, "We will look into much more than the immediate cause of the explosion," he

The bodies of five victims were found in the pre-dawn hours and 43 others were injured by the blast. All area residents affected by the blast have been accounted for except Miss Beasley, 65, whose small frame house was leveled in the mushroom explosion.

Tom LeClere, a Pearland policemen, said "Ninety per cent of the opinions out here are that she was in the house at the time of the fire. Her whole house was leveled except for some concrete stairs.

Firemen said the intense heat was capable of incinerating a human being. A friend visited Miss Beasley Monday night and saw the woman lock her front gate and return to her home. Miss Beasley's dogs were found dead near the home. Joe Piotrowski, director of the

Texas Railroad Commission's gas utility division, said the 'cause is anybody's guess. You can't point a finger at anything. We can't see any negligence on anyone's part.' Piotrowski said the pipe was

20-25 years old "and appeared in excellent shape. You can compare it with the new pipe they are installing and cannot see any difference." The ruptured section of pipe-

line was replaced with 80 feet of new pipe and was back in operation early Wednesday.

By JOHN F. BERRY

The Washington Post

WASHINGTON - On Aug. 10 at the

Mead Corp. tower in downtown Day-

ton, Dr. Armand Hammer, the 80-

year-old godfather of Los Angeles-

based Occidental Petroleum Corp.,

gave the Ohio executives an offer for

their pulp and paper company that

since, Mead has answered the Oxy

takeover bid with a massive coun-

terattack. The weapons of this corpo-

rate battle have been propaganda and

legal legerdemain. Right after Ham-

mer and his top executives visited

Dayton, Mead hired a passel of high-

priced accountants, investment bank-

ers, lawyers and public relations men

who immediately began to dig for dirt

in Oxy's balance sheet - and they

As a result, the Justice Department

has concluded that an Oxy-Mead

merger would be anti-competitive

and has gone to court to block it.

Meanwhile, the Securities and Ex-

change Commission is scrutinizing

Oxy's offering prospectus for Mead to

determine if there is any truth to

Mead's allegations of questionable

In public documents, the Mead

forces have accused Oxy executives

of misdeeds ranging from "black-

mail" to "fraud" in operating the

international energy conglomerate.

HOUSTON - The Independent Petroleum Association of American forecast oil imports will begin to climb again next year as domestic crude production resumes a down-

Imported oil declined from record levels after the start of crude production from Alaska's North Slope region last year.

The association's supply and demand committee said, however, North Slope production will level off at about 1.13 million barrels a day next year as domestic demand for petroleum products approaches a record 19.4 million barrels a day.

The committee estimates crude and products imports nect year will average a record 8,870,000 barrels a day, compared with 8,144,000 this year and the 1977 all-time high of 8,722,000 barrels a day.

Domestic crude production meanwhile is expected to drop to 8,656,000 barrels a day, compared with this year's indicated average of 8,742,000. Before North Slope crude began

moving to markets in mid-1977, domestic crude output dropped from a record average of 9,637,000 barrels a day in 1970 to a low of 8,132,000 in 1976. Early North Slope production pushed the 1977 average to 8,179,000 barrels

Crude production in the lower 48 states is expected to decline next year by about 130,000 barrels a day compared with an anticipated decline of about 250,000 a day this year.

In it annual report, the supply and demand study group said energy demand growth next year because of

Yates finals well in Eddy

Yates Petroleum Corp. of Artesia, N. M., has completed its No. 1-JI Harvey-Federal one-half mile south Cisco production in the Little Box Canyon field of Eddy County, N. M.

Completed from the Cisco, through perforations from 5,899 to 5,969 feet, the well potentialed for a daily flow of 222,000 cubic feet of gas, through an 1/2-inch choke. The pay was acidized with 3,000 gallons. Location is 1,780 feet from south

and 1,980 feet from east lines of sec-

Total depth is 8,365 feet in the Mississippian, and plugged back depth is

But a lot more than a few high-paying

In 1977, Mead had sales of \$1.8

billion, net income in excess of \$98

million and assets of \$1.4 billion,

making it the 146th largest industrial

corporation in the U.S. Besides pulp

and paper. Mead's products include

coal, iron castings, chemicals and

molded rubber products. What is par-

ticularly galling to Mead's chief exec-

utive officer, J.W. McSwiney, is that,

for the past half-dozern years or so,

he has been trying to update the

been performing well, after a period

in the doldroms. Mead's earnings -

Oxy is offering Mead shareholders

preferred stock in exchange for their

common shares. Mead has urged its

shareholders to reject the Oxy prefer-

red, which if converted would be

worth about \$35 a share (Mead com-

mon hit a high of about \$24 before

Oxy is already too highly leveraged,

and preferred effectively adds to that

debt. Moreover, argues Mead, prefer-

red stockholders are subordinated to

tax credits. Since most of its current

holdings are overseas, it will lose

these credits without an acquisition.

industrial corporations with sales ex-

ceeding \$6 billion, net income of \$138

million and assets of \$4.13 billion.

Acquiring Mead would push up Oxy's

standing to 19th among industrial

companies. This makes Oxy's bid for

Mead one of the biggest unfriendly

Ironically, it was just four years

ago that Standard Oil (Indiana) tried

to take over Oxy, and Hammer, then

the victim, managed to get his friends

in the Senate to call a nearly instant

hearing so he could argue against

bigness. "If Standard succeeds," pre-

dicted Hammer, "... a message will

reverberate through every competi-

tender offers in history.

In 1977, Oxy ranked 27th among

many of Oxy's other creditors.

Oxy suddenly stepped in.

Crash crew reportedly lost sight of aircraft

LOS ANGELES (AP) - The crew of a Pacific Southwest Airlines 727 jetliner apparently lost sight of a small Cessna just before colliding with it in the worst air crash in U.S. history, the Los Angeles Times reported Wednesday. The Times carried an interview

with unnamed officials who said they had listened to a confidential cockpit tape recording of the crew's last words before the two planes collided and crashed, killing 144 persons the morning of Sept. 25.

The cockpit tape shows confusion about the small plane's whereabouts, according to the quoted officials. "Do you see him?" asked one crew

"He was right over there a minute "He's probably behind us." The tape is in the possession of the National Transportation Safety

Board, which is investigating the col-

member.

lision and has not yet released its A previously released Federal **Aviation Administration transcript of** radio talk between the San Diego control tower and the crew shows the pilot reporting "traffic (Cessna) in sight" 1 minute and 34 seconds before the collision. But that tape did not

The latter show, still third in ratings in its hour against NBC's "Today" and ABC's "Good Morning America," also will get a new look that could include another anchor change after only a year.

There've been rumors Richard Threlkeld and Leslie Stahl, who succeeded Hughes Rudd and Bruce Morton as the show's co-anchors in the fall of 1977, may depart for other duties soon.

'Well, it's possible," says Robert "Shad" Northshield, who last month became the executive producer of their show and is the guy who'il run the six-day "Morning" venture when it begins in

But he hastens to add there's been no decision the current "Morning News" anchors will be hoisted and others installed: "When I say it's not decided, I mean it hasn't been talked about.

"I know they (Threlkeld and Stahl) are absolutely going to be involved in the Sunday operation in a big way, and that's about all I know now." He was asked if they'd shift to Sunday-show hosting.

"Not necessarily, there may not even be anchors," he said by phone from New York. He said he wasn't trying to be vague, "it's just that we haven't even talked about it.'

Everything still is in the planning stages, emphasized Northshield, 55, a respected ex-NBC News documentary, specials and "Today" producer who last year rejoined CBS, where he toiled in 1953-58.

Right now, he said, he's busy enough just trying to hire a staff, get office space and secure the gear needed for the new Sabbath show, which he likens to

the Sunday edition of a daily newspaper. "It'll have hard news, a review of the week's news, plus a lot of cultural stuff, the kinds of things you only get on Sundays (in newspapers)," said the former Chicago newspaperman.

It'll also probably have staff critics to criticize art, music, theater, movies and even TV, he added. CBS says the Sunday effort, to regularly carry religious as well as cultural news, will be pre-empted several times each year for "important religious

As for the new look of the "Morning" show weekdays, Northshield said, it "will be similar to what we're doing Sundays" with more essays, features and comment on advances or retreats in the arts.

Museum of the Southwest visitors Ann Killins and Ruth Sidders

inspect a painting by noted American artist Helen Frankenthaler.

Portraying sisters in the Paul Zindel drama, "The Effect of Gamma Rays on Man-in-the-Moon Marigolds,", are Kitty White, seated, and Lori Skelton. The Pulitzer Prize-winning play will have final performances at 8:30 p.m. Friday and Saturday in Theatre II of Theatre Midland, 2000 W. Wadley Ave. Seat reservations for the presentations may be made through the Midland Community Theatre box office, 682-4111. (Staff Photo)

Mansion show near end

ODESSA - The Mansion's current attraction, "Last of the Red Hot Lovers," is in its final week at the dinner theater between Midland and Odessa.

The hilarious Neil Simon comedy, starring TV and stage comedy actor Al Lewis, will have final performances tonight, Friday and Saturday nights, and Sunday afternoon.

The weeknight performances begin at 8:30. Sunday's matinee begins at 2:30. Senior citizens of Midland and surrounding area may attend the matinee at a special bargain rate for the show and supper following the performance.

The colorful painting is one of two dozen abstract expressionist works by American artists currently at the museum, on loan from the Sarah Campbell Blaffer Foundation of Houston. The museum at 1705 W. Missouri Ave., is open to the public from 10 a.m. to 5 p.m. weekdays, and between 2 and 5 p.m. each Sunday. Admission is free. (Staff Photo) Food from Paradise 694-1688

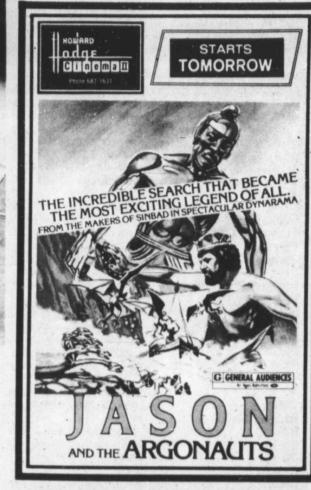

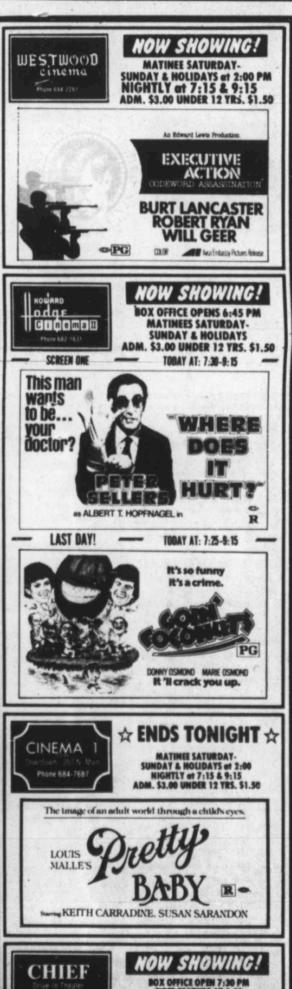

ODESSA - Permian Playhouse, Odessa's community theater, resumes performances of "The Mousetrap" this weekend.

The famous mystery play by the late Agatha Christie opened last weekend as the second attraction of PPH's current season.

"The Mousetrap" will have performances at 8 p.m. Friday and Saturday, and concluding presentations on the evenings of Nov. 3 and 4. Seat reservations for all performances are available through the Playhouse box office, 362-2329. The Playhouse is located at 310 W. 42nd St., adjacent to the Ector County Coliseum grounds.

Roundup Art Show opening this weekend with top Western works

Some of the foremost Western artists on the current scene will be represented in the second annual Roundup Art Show scheduled this weekend. The exhibition and sale Saturday evening and Sunday afternoon at the Pevehouse-Christensen Ranch south of Odessa will benefit the Buffalo Trail Boy Scout Council's ranch in the Davis Moun-

Among the artists to be represented at the show and sale are Sonny Timme, Bruce Marshall, Michael McCullough, Bernard Vetter, James Ralph Johnson, Jodie Boren, Theda Rhea, Wayne Terry, Delbert Brewster, Roland Rose, Gary Gore, Nancy McLaughlin, Frank Delaney Ward, George Boutwell, Tom and Doris Tischler, Jean Johnson, Bob Widmeier, Randy Follis and Pat Krahn.

The benefit event will begin with an invitational

preview Saturday evening. Admission will be \$25 per person, entitling guests to attend a chuck-wagon dinner, an auction of selected art works and a The art show will resume at noon Sunday, continu-

ing until 5 p.m. Admission to the public will be \$1 per

Carol Swain, director of Midland's Hanging Tree Gallery at 3201 N. Big Spring St., organized the first Scout ranch benefit last year, and she is in charge of arrangements for this year's art show and sale. Additional information on the exhibition is avail-

able by telephoning Mrs. Swain at 684-4721. The Pevehouse-Christensen Ranch, site of the benefit event, is located south of Odessa on the Crane Highway, 6 miles south of Interstate 20.

Tryouts slated for MCT

Midland Community Theatre is announcing tryout

dates for its 1979 season-opener, "The Music Man." Auditions of singers, dancers and actors to fill the parts of the River City, Iowa, townspeople will take place at 3 p.m. Sunday, and at 8 o'clock Monday and Wednesday nights in Theatre Midland, 2000 W. Wad-

The popular musical by Meredith Willson will go into rehearsal after the Christmas holidays. Copies of the script are available for checkout at the Theatre Midland office, 682-2544.

Midlander Carol Swain displays a replica of a famous Remington bronze sculpture which will be auctioned off at the second annual Roundup Art Show scheduled this weekend as a benefit to the Buffalo Trail Boy Scout Council's ranch in the Davis Mountains. (Staff Photo)

Snowball slated regardless

OMAHA, Neb. (AP) - Snow and wind won't stop Omaha-area softball enthusiasts from taking the

field in the middle of January. Jim Morton of the Omaha Softball Association announced Wednesday that the second annual March of Dimes Snowball Slowpitch Softball Tournament will be played Jan. 13-14 - no matter what the

The tournament raised more than \$4,000 for the March of Dimes last year, and Morton predicts a field of 300 teams in January.

That number of entries would make the event the largest single softball tournament in the nation,
