50 YEARS AGO

The home of Mr. and Mrs. Martin Casey was completely destroyed by fire Monday night at Valley View. They woke up Tuesday morning at 4 a.m. and she was ablaze. Nothing was saved but the family escaped unharmed.

Sheriff Frank Percifull, deputy Bailey Bell, and constable Walker Good captured a 55 gallon whiskey still, 110 gallons of mash and a man about 10 miles southwest of Blackwell Tuesday on Art Henderson's place. Henderson was arrested, brought to Robert Lee where he waived examining trial, and placed in the jug to await the action of the grand jury next month.

The 6 year old son of Mrs. Verta Vickery died Wednesday and was buried the same day at Robert Lee. He had enlargement of the heart and took the measles with it.

Miss Dovie Williams of Wild Cat entertained with a 42 party Wednesday night of last week.

An old Indian fighter has left us. John Marrion Gunnels was born Sept. 13, 1842 in Missouri and passed away April 7, 1933 at the home of his grandson, John Gunnels. This makes him 90 years, 6 months, and 25 days old. He moved to Texas with his parents at the age of 8 years and moved to Coke County in 1890, 43 years ago.

In Hood County on Sept. 13, 1867, he was married to Miss Deborah Elizabeth Evans; to this union was born two sons. The eldest James (Andy) died at the age of four years and the other, W.R. Gunnels (better known as Will Gunnels) died Sept. 6, 1906 at the age of 35 years.

The deceased served about four years in the frontier service during the Civil War.

Mr. Gunnels was indeed a pioneer. He fought Indians all over the country from 1859 to way up in the '70's when they were driven from the Texas frontier.

His first battle took place in the early 60's in Palo Pinto County, where he helped recapture two (2) children from the Indians and returned them to their parents in Parker County near Weatherford. He also fought in two other battles in that vicinity. In Tom Green County near Christoval, he was in a big battle where several Indians were killed, and at Dove Creek near Tankersley, also in Tom Green County, he participated in a real hard battle with their muzzle-loaders. Twenty white men were killed and Lord only knows how many Indians.

Grandpa Gunnels, as he was commonly known, united with the Church of Christ at the age of 36 years, being a faithful member 54 years until death. He served as an elder in the church for many years.

Funeral services were conducted at the home by Brother Smith of Abilene and he was laid to rest

Turkey, Deer Hunting Good In Coke County

The 1982 turkey and whitetail deer hunting season closed on Jan. 2 in Coke County and finished on a much more successful note than in many other Texas counties. Despite predictions of doom because of dry weather conditions, poor grazing, and an overpopulation of does, the game here has remained plentiful and fatter than in recent memory. Another plus for the area is the luck-doe ratio, as many hunters reported seeing as many bucks as does this year.

Quail season will remain open through Jan. 30 in Coke County. Bag limit was upped this season to 20, due to a record number of birds. Hunters report quail are still plentiful and did not die off during the snow as had been feared. Temperatures did not get down so low over any extended time and enabled them to get out and feed.

Robots are increasingly being used in the manufacturing of garments. The robots can make more than 1,000 individual construction details in less than an hour, thus reducing hand labor considerably, explains Becky Saunders, clothing specialist with the Texas Agricultural Extension Service, Texas A&M University System.

Burglary occurs every two minutes in Texas, leaving behind losses that cannot be replaced. In Texas, burglary rings account for 245 million dollars worth of stolen goods annually, an average loss of 966 dollars per home.

Crime prevention is one answer to this growing problem. The simple act of locking one's home before leaving, reduces the chances of burglary by 20 percent. Asking your neighbor to pick up your newspaper when you are away from home and turning household lights on at intervals, can deter a prospective burglar. The Texas Crime Stoppers Advisory Council is doing its part to see that those criminals who make their living by stealing from others are put where they belong — behind bars.

For the month of January, 1983, Texas Crime Stoppers is focusing its statewide "Crime of the Month" program on burglary. Any citizen having information about burglary is asked to call the anti-crime hotline at 1-800-252-TIPS. Cash reward are available for information leading to the arrest and indictment of these criminals.

Our efforts to combat crime cannot succeed without active citizen involvement. Your support and participation in this program will be a formidable obstacle to any criminal.

Call 1-800-252-TIPS today to help shut down burglary rings in Texas.

Anyone Who Can't Walk a Straight Line Can't Drive One

It's amazing how some people who can't even control their feet think they'll be able to control their cars once they get behind the wheel.

Statistics show they're dead wrong.

According to government studies, a person with 1/10 of 1% alcohol in his bloodstream (legally intoxicated in Texas) is six times more likely to have a serious accident than someone who's had no alcohol at all.

That's why we, the people who make and sell alcoholic beverages, are offering a pocket chart called "Know Your Limits" (below). It can help you judge whether you're approaching, up to, or past your own personal drinking limit.

Get one at your participating restaurant, bar or liquor store. Or write 205 San Jacinto Bldg., Austin, TX 78701. Because the worst time to find out you can't drive a straight line is when you're on the wrong side of one.

Social Security News Items

As we start this new year, the vitality of the social security system is confirmed in two distinct ways. First, the whole country is watching and waiting for the legislative medicine that will restore financial health to the retirement and survivors benefit system. This public attention will assure effective treatment. Secondly, routine, annual adjustments and program refinements, already provided by law, will take place as usual in 1983. Orderly change of this type is characteristic of a stable and mature system.

Beginning this year, retirees who are at least age 70 can earn any amount and still get all their social security benefits. This "earnings" test exempt age" had been 72 until this year.

Also, retirees between the ages of 65 and 70 can earn \$6600.00 in 1983 without losing any benefits - a \$600.00 increase in this "allowable earnings amount." For Younger retirees, survivors and dependents the annual exempt amount is \$4920.00, up \$480.00 from 1982.

Social Security benefits are intended to partially replace lost earnings. Therefore, these annual earnings limits apply only to payment for services, including wages, salaries, and net profit from a business or partnership. The limits do not apply to other types of income.

Remember that those who received a social security check last year, who were not at least age 72 throughout 1982, and whose earnings were above last year's limits must file an earnings report with the Social Security administration by April 15, 1983. The 1982 exempt earnings limits were \$6000.00 for those between the ages of 65 and 72, and \$4440.00 for younger beneficiaries. People who estimated their 1982 earnings would exceed last year's limits can expect to receive an annual report from in the mail. Forms can also be requested from your nearest Social Security Office. Filing a tax return with the IRS does not

satisfy this annual report requirement.

By the way, these allowable earnings rules do not apply to those who receive benefits based on disability or to those who receive supplemental security income. Any earnings should be reported promptly by those who get disability of SSI benefits.

There is no scheduled change in the social security payroll tax rate in 1983. The tax rate will remain 6.7 percent, paid by both employees and employers. Self-employed persons will continue to pay 9.35 percent on their net profit. The amount of earnings subject to Social Security tax, however, has gone up this year, from \$32,400.00 to \$35,700.00. This taxable wage base increases automatically each year to reflect the rise in average wages. Although some workers will pay a slightly higher social security tax amount due to the increase in the amount of wages covered in 1983, there will be no increase in the amount of social security taxes paid by about 92 percent of all workers. Also, tied to the rise in average wages is the amount of earnings which will result in one quarter of work credit under Social Security. People born after 1928 need 40 quarters of work credit (or about 10 years' credit) to qualify for retirement benefits. Fewer quarters of work credit are needed by people who will be 62 before 1991 or in cases of death or disability before age 62. The new quarter of coverage amount is \$370.00, up \$30.00 from last year.

A final routine annual adjustment involves the Medicare Hospital Insurance deductible amount. The deductible amount is designed to represent the average, cost of one day of hospital care. To keep up with rising hospital costs, the 1983 inpatient deductible has increased by \$44.00 to \$304.00.

While some of these routine annual adjustments are more welcome than others, the changes are a necessary part of this country's most important system of financial protection and health insurance - the Social Security System.

Lone Star To Have Customer Aid Program

Lone Star Gas Co. President Carol Neaves announced today that the company will initiate an assistance program designed to help persons living in Lone Star's service area who are having difficulty paying their heating bills.

Lone Star has committed \$100,000 to begin a fund which has been named Heating Assistance Program for the Needy (Project HAP'N). Lone Star will invite its customers and the public in general to join in making contributions to Project HAP'N. The coordinating agency and the fund address will be publicized throughout Lone Star's 110-county service area soon. Project HAP'N assistance funds can be used for any type of heating bill.

"We at Lone Star recognize that our funding will not adequately help all who are financially in need with their heating bills," said Neaves. "But with additional funding from other sources, both public and private, this beginning effort should bring some help to more people."

"The potential is great," said Neaves. "We have long worked with various social service agencies to assist our customers; Project HAP'N expands this effort."

Contributions are tax deductible.

Excise Tax To Increase On Phone Bills

The federal excise tax on monthly telephone bills will increase during 1983 from 1 percent to 3 percent as the result of legislation passed by Congress in August 1982 to obtain new tax revenues.

The tax applies to local and long-distance service.

The tax legislation states the 3 percent tax will be collected for three years with elimination in 1986.

An excise tax on telephone service was first imposed by Congress during World War I as a "temporary" measure, according to the U.S. Independent Telephone Association. Although repealed briefly after the war, the tax was reinstated during the Depression. Rates have ranged as high as 25 percent on long-distance calls and 15 percent on local service.

The tax stood at 10 percent for almost 20 years. However in 1970, Congress voted to begin eliminating the tax by reducing it 1 percent per year beginning in 1973 and continuing through 1981. However, the Fiscal Year 1981 Budget Reconciliation Bill signed by former President Jimmy Carter in December 1980 contained a provision maintaining the excise tax at 2 percent during 1981.

The 1982 tax bill further postponed the phaseout by keeping the tax at 1 percent until Jan. 1, 1985. However, the August 1982 legislation raised the tax to 3 percent for the years 1983-85. The 3 percent tax is shown separately on the bill.

The tax revenues collected by telephone companies are forwarded to the federal government.

Public Hearing To Be Held In Abilene Jan. 18

The Texas Department of Human Resources will hold a public hearing at 7 p.m. on January 18 at McMurry College, Campus Center, Mabee Room to discuss the department's proposed employment incentives and initiatives.

Several programs are being considered for implementation in Texas, and hearings are being conducted in 10 cities during January to receive public comment on the programs, authorized by new federal legislation.

The employment initiatives include a job search program for applicants and recipients in the Aid To Families With Dependent Children (AFDC) program. Objective of the job search program is to reduce welfare dependency by helping individuals obtain regular employment.

Another initiative proposed is a community work experience program which will give experience and training to AFDC recipients who otherwise are not able to obtain employment.

Work supplementation is another proposed program under which Texas may place AFDC recipients with public agencies, non-profit organizations, and proprietary day care centers and subsidize their employment from funds that would have been used for AFDC payments.

A fourth initiative proposed is grant diversion that would allow the AFDC cash grant to be included as part of a paycheck. The assistance grant would go to an employer to cover all or part of the costs of the wages paid to the recipient.

Another proposal is for targeted jobs tax credits as an incentive for employers to hire persons who have special employment needs.

The Department of Human Resources is seeking testimony from the public hearings to assist in determining what employment-enhancing directions the citizens of Texas want DHR to pursue. For further information, contact Barbara Evans, 915/698-3657, P.O. Box 3235, Abilene, Tx. 76904.

G.A. CUSTER

Jerry Lackey's Country Folk

One can tell that stock show season has arrived in West Texas by observing the weather. In over 20 years of covering these events for the news media, I have never understood why we put out youth through this strenuous competition at this time of year.

However, every time I bring it up, I'm told it has to be this way in order to get all the levels of competition in for the year. From county to district to regional and state, the circuit takes months to complete. From the usual ice and freezing temperatures of January to the blowing dust of March and the first whispers of autumn, it comes with the territory!

Something else that came in

with the new year that is very precious to West Texans is moisture. Good rains, some ice and one of the wettest snows in years blessed dry terrain.

Larry Donaldson of Eldorado's D&D Feeds says the country is in good shape "with weeds springing out of the ground. That means these old sheep will have something to graze on soon."

"And now that deer hunting season is over, we will probably see some grass growing back in the pasture roads since hunters won't be driving them out every day," he laughed.

John Dublin has witnessed "a great deal of deer die-off in Schleicher County this winter. I don't think it is from lack of food so much as it is over population."

Out near Big Lake in Reagan County, Richard Boggs told this writer that the cattle are poor. Richard, working in the oilfields on the Rocker b Ranch, says they are fed daily and have something to eat in the pastures. "I tell ya, they have looked bad ever since calving," he added.

John Powell comments: "All is fine around Menard as 1983 starts. We had over five inches of moisture in December and some more last week."

Andy Smith said over a cup of coffee the other day that range conditions up the North Concho River around Water Valley were in top shape.

Gaylord Hankins spent some time in Edwards County over the holiday season visiting with old friends. He returned to San Angelo with information that the "country is in good shape around Rocksprings, but I think just about everybody is feeding... especially those Angora goats with kidding season approaching."

Well, despite the cold, let us not buck tradition... pull out the long-johns and the big coat and go to the local stock show and support out leaders of tomorrow. Happy New Year!

4-H Rifle Club News Notes

The Coke County 4-H Rifle Club started the 1983 year off with seven junior and three senior shooters practicing Sunday, Jan. 9. Some good scores were turned in shooters in prone and kneeling positions. They were: Claudette Walker, 79 and 65; Kerri Bilbrey, 78 and 51; Becky Padgett, 68 and 43; Tina Hines, 65 and 48; Justin Phillips, 61 and 12; Luke Robbins, 57 and 8, and Brent McPeek, 52 prone.

John Walker, Phil Stephens, and Mike Cervenka, senior shooters, worked on distinguished expert rating and each qualified on several targets.

The club will hold a county elimination to determine who will make the four member rifle team for the Jr. and Sr. event on Feb. 6 -- weather permitting.

The club qualification awards program has been very successful the last several months, one of the sponsors stated. Twenty-two shooters have earned at least an N.R.A. brassard and several of the junior shooters have moved all the way through sharpshooting rating. Three senior shooters have earned expert badge and are working on distinguish expert badge.

Club shooters will be held every Sunday afternoon at 2 o'clock until Feb. 6.

Rates Reduced By Land Bank

Interest rates on Land Bank variable rate loans will be reduced to 11.25 percent on farm loans and to 11.75 percent on farm-related business and rural residence loans, said Brian F. Meeks, president of the Federal Land Bank Association of San Angelo.

These rates become effective January 1, 1983.

"The Land Bank's objective is to provide credit to Texas agriculture at the lowest possible cost, consistent with sound business practices," said Thomas H. Benson, president of the Federal Land Bank of Texas in Austin.

"For over two years the Bank's average cost of funds consistently has been higher than the loan rate," Benson continued. "However, for the past four months, we have begun to see a decline in bond costs."

"As a result of this decline, we are able to reduce the Bank's

loan interest rate," he said. "We hope that the decline in bond interest rates will continue, allowing us to make further reductions in the loan rate."

The Federal Land Bank Association of San Angelo makes long-term real estate loans on farm and rural residence property in the counties of Coke, Irion, Reagan, Runnels, Sterling and Tom Green.

Social Security News Items

The Medicare Hospital Insurance deductible-- the amount a person with medicare is responsible for in a benefit period--increases to \$304 for benefit periods starting in 1983, Frank Upp, Social Security district manager in San Angelo, said recently. The 1982 deductible was \$260.

Under the law, the deductible must be increased to reflect the rising costs of health care.

A benefit period-- the measure of use of services under medicare starts the first time a person enters a hospital after hospital insurance protection begins. A new benefit period begins when the person has been out of a hospital or other facility primarily providing skilled nursing or rehabilitation services for 60 days in a row.

There is no limit on the number of benefit periods a person may have. Also increased are certain per-day amounts the person is responsible for under hospital insurance.

For the 61st through the 90th day of inpatient hospital care, hospital insurance pays for all covered services except for \$76 a day in 1983. The 1982 figure was \$65.

For each of 60 reserve days of hospital inpatient care, hospital insurance pays all covered services except for \$152 a day. The 1982 figure was \$130. For the 21st through the 80th day of care in a skilled nursing facility, hospital insurance pays for all covered services except for \$38 a day. The 1982 figure was \$32.50.

Other than the inpatient deductible, there is no charge for covered services for the first 60 days of inpatient hospital care and for the first 20 days of skilled nursing care in each benefit period.

More information about Medicare, including covered services and patient costs, can be obtained at the San Angelo Social Security Office, located at 2214 Sherwood Way. The telephone number is 949-4608.

KNOW YOUR LIMITS.

There's Another Limit You Should Know: Your Own

Everyone knows it's best not to drink before driving. But everybody also knows that most people drink, and some occasionally drive afterwards. So, many safety officials now say: "If you do drink before driving, know your own limit."

NOW U.S. SAVINGS BONDS OFFER OPPORTUNITY WITHOUT RISK.

The biggest improvement in 40 years.

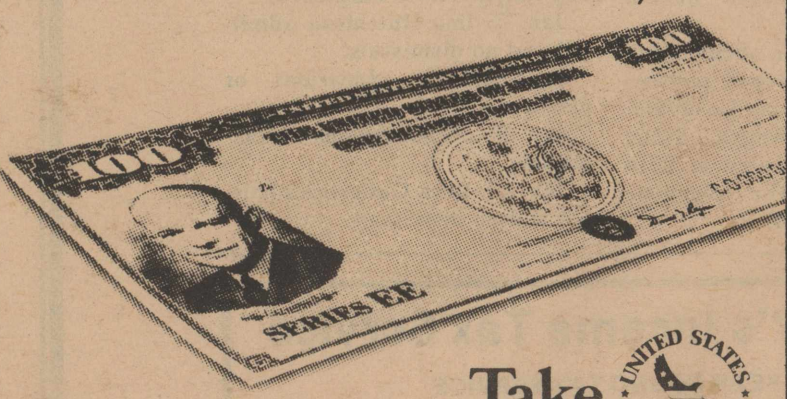

A message from Donald T. Regan, Secretary of the Treasury.

New Variable Interest Rate.
Finding the ideal investment is something everyone dreams about. One with a variable interest rate. One that lets you share in the rates offered in today's securities market.
But it must be *safe*. A plan where rates can't drop below a certain level.
Sound too good to be true? Well, it is available to everyone, even the saver with as little as \$25 to invest.
It's the U.S. Savings Bond. A vastly improved Savings Bond that changed from a fixed to a variable interest rate. There is no limit on how high the rates can go.

A Guaranteed Minimum*
Although interest rates will fluctuate, you're protected by a guaranteed minimum. And if you hold your Bonds to maturity, you'll absolutely double your money. You may do even better.

So take another look at Savings Bonds. We did, and then we made them better.

Take stock in America.

*Series EE Bonds purchased on and after 11-1-82 and held 5 years or more will earn 8.5% of the average yield on the 5-year Treasury securities rate. Bonds held less than 5 years will earn interest on a fixed, graduated scale - 5.5% after 1 year to 7.5% at 5 years. Bonds held at least 5 years will earn a minimum guaranteed rate of 7.5% per annum, compounded semiannually, to the 10-year maturity.

Ad Council
A Public Service of This Newspaper & The Advertising Council

“At the rate I was going, in ten years I’d have about \$2000 saved.”

I have a pretty good job. I’ve never been out of work. I’ve received regular promotions. The only thing I’ve never been able to do is save money.

One day I overheard my secretary talking about how much she’d saved buying U.S. Savings Bonds through the Payroll Savings Plan. I was astounded.

Then I looked at my bankbook. I figured out how much my average yearly savings had been since I’d been working. And I almost cried. At the rate I was going, in ten years I’d have about \$2000 saved.

Oh, some years I’d save three or four hundred (nine hundred one year), but it didn’t last long. Something would always come up and I’d take it out and spend it. I always figured one of these days I’d bear down and build up a nest egg.

Since nothing else seemed to work, I decided to give the Payroll Savings Plan a try. I *should* be able to save as much as my secretary. If it worked for her it should work for me.

It turned out to be very easy. They take a little out of each paycheck toward Bonds, so *that’s* a portion of your pay you’re not tempted to spend. Not only is it easy but it’s safe. The Bonds are piling up and so is the interest. And, by the way, the interest is guaranteed.

I never thought much about Bonds before but it’s hard to find a better return on such a small, initial outlay.

When I get enough saved I may look into other things. But as for right now, it’s the best, easiest way I know of to save. Actually, it’s the *only* way that works for me.

I started late, but better late than never.

HAS MINOR SURGERY

Michael Wilson, son of Mr. and Mrs. Jim Wilson, underwent a minor surgical procedure on Monday in San Angelo to determine the extent of a knee injury. Doctors there detected a ligament tear, but felt with rehabilitation it would heal. He will begin three times a week therapy sessions in San Angelo next week.

Michael was the starting center for the Steers football team and was injured at the end of the 1982 season.
