March Of Time Photographers Take Rush Scene

Excited March Of Time photographers kept their cameras grinding here Friday afternoon to film scenes unparalleled in experience of wheat harvest.

Trucks were rushing wheat to the limited space available in the Stratford Grain Co. elevator while an estimated number of approximately 800 combines and trucks from the South Plains passed through to fields in Oklahoma and Colorado.

4-H Girl Gives Report Of Trip

Joe Everett and Mildred Bennett of Stratford, and Jimmie and Barbara Weatherford of Texhoma were the 4-H club members attending the State 4-H Round-Up at College Station on the A. & M. College campus June 13 to 17. Mildred Bennett has written the following resume of their trip.

"Our group left Stratford on June 12th with Mrs. T. L. Wakefield as 4-H club sponsor and Miss Dorothy Dixon, the Home Demonstration Agent. We spent our first night in Brady.

Monday we went through the capitol building at Austin. We arrived in College Station that evening. The Round-up got under way Monday evening with a "Carnival Time." After the concessions closed we had group games and singing. Then we were entertained by some puppets.

With a group meeting in Gulon Hall on Tuesday morning, the Round-Up was officially started. Our singing was led by Billy Triggs, Minister of Music, First Methodist Church, Wichita Falls, whom we enjoyed very much. Our group picture was made in the shape of a four leaf clover on a shield. Following this we had an election of two chairmen, a boy and a girl, to preside over the Round-Up for the remainder of the time.

In the afternoons, we were divided into six big groups. Tuesday afternoon we girls attended the group meetings for Breakfast, and Recreation. Wednesday we attended Poultry, Landscaping, and Work Simplification on Bed Making.

Wednesday we heard reports from the 4-H boys and girls who attended the National 4-H Camp in Washington, D. C., the Danforth Camp, National 4-H Club Congress in Chicago, and about a trip to the Netherlands. These trips were given to these club members for outstanding work. The Talent Program was presented by 4-H club members and was thoroughly enjoyed by everyone.

Wednesday afternoon we went for a swim in the pool in Downs Natatorium.

The Round-Up was closed by the Dress Revue and the presentation of awards. Barbara was in the dress revue. This completed our stay at A. & M. College.

Mrs. T. L. Wakefield then took us to Galveston where we had the time of our lives. We went boat riding, then swimming. That night we went to the Midway. The ride on the roller coaster was very thrilling as it was our first.

All during our stay we had delicious sea food. We couldn't get enough of it. We stayed in a sea-side hotel. The next morning we had another swim just before we left for College Station. At College Station E. Goule joined us for the return trip. We spent the night in Fort Worth and arrived home Saturday evening from a most wonderful week.

It certainly was an honor and a privilege to represent Sherman County 4-H club girls at the 4-H Round-Up.

Pastors Picnic Held Tuesday

Rev. and Mrs. H. A. Nichols attended the annual picnic of pastors of the Perryton District held in Near to Nature Park near Gruver Tuesday. All of the pastors but one was present.

Dr. Harold Cook of McMurray College was the principal speaker. Rev. Luther Kirk was in charge of the program.

Pastors, their wives, and officials of the church enjoyed a fried chicken dinner.

PITTSBURGH, PA. — Dressed to kill in her own conception of work clothes (pedal pushers and sport shirt), Shirley Cullom demonstrates the newest scientific weapon for wholesale attack on insects. Using electrically-compressed air, the power sprayer she wields treats 250,000 cu. ft. against flying insects in less than half an hour. Developed by Gulf Oil research, it adapts the principle originated by the aerosol bomb to large-scale use in food industries. Its mist is non-toxic to humans, imparting no odor and leaving no residue.

3-Way Wreck At Scene Of Stubble Fire

Fire of unknown origin which burned 640 acres of wheat stubble in a field east of Stratford Tuesday afternoon resulted in a three-way car accident although occupants of the cars escaped with minor bruises.

A south wind blew smoke across the Stratford-Gruver highway reducing visibility to zero.

Mrs. Gladys Marie Moore of Guymon, Oklahoma was driving west on the highway. As she became blinded by the smoke she started slowing her car to pull off the highway. Before this could be done the Plymouth and a 1941 Ford driven by Jack Ben Walls collided, damaging the left sides of each car. Before the cars could be moved, a Chevrolet driven by W. T. Martin smashed into the rear of the Plymouth.

Mrs. W. D. Green and children were in the car with Mrs. Moore.

Manned by members of the Stratford Volunteer Fire Department, the Sherman County Farm Bureau Fire truck, answered the call to the blaze, and extinguished the blaze along the edges of the field.

Officers and Firemen alike, appeal to residents of the county, to avoid the congested rush which often takes place when a fire alarm is sounded as the effort to be present at the scene of the blaze may result in the death of some citizen.

Mrs. Reaves Entertains Circle

Circle No. 3 of the Christian Church met Wednesday afternoon in the home of Mrs. John W. Reaves with nine members present, reporting eight daily devotionals and eight books read.

Mrs. Calvird, the leader for the day gave the following program: "What it means to be a missionary", Mrs. John Reaves; "Duet", "I Surrender All", Mrs. Frank Judd and Mrs. Reaves; "The Disobedient Missionary (Jonah)", Mrs. Bernard Dovel; "The Obedient Missionary" (Paul), Mrs. Joe Billington; "Duet", "Speak, My Lord", Mrs. John Knight and Mrs. Herbert Folsom.

The collection taken amounted to \$9.00.

Circle officers elected for the coming year are: Mrs. Leslie Parker, Leader; Mrs. Frank Judd, Assistant; Mrs. E. Hill, Secretary and Treasurer; Mrs. Billington, Reporter.

The meeting was dismissed with the Missionary Benediction. The hostess served delicious salad and punch. A pleasant fellowship was enjoyed by all.

The next meeting is to be at Mrs. Joe Billington's home, with Mrs. Herbert Folsom as program leader.

Circle 3 members not attending the meetings are missing a spiritual blessing.

Circle Meets In Home Of Mrs. Palmer

Circle No. 1 of the Christian Church met at 2:30 Wednesday afternoon in the home of Mrs. Everett Palmer with seven members present.

Mrs. Eugene Hudson had charge of the program with the following topic: "Cooperation for Christian Nations."

Talks were given as follows: "Appointed A Prophet" by Mrs. Ralph Salesman; "God Wants More Than Worship," by Mrs. Orland Lasley; "A Coming King" by Mrs. H. E. Lowe; "The Nation Which Trusts God" by Mrs. Paul Aduddell; "The Door to Abundant Life" by Mrs. Joe Parker.

A short business session was conducted and officers were elected for the year. The program was dismissed with the Missionary Benediction.

Mrs. Palmer served the group delicious refreshments and a social chat was enjoyed.

British Nurses Rebel At Training Harshness
 LONDON. — Harsh methods of training, perpetuated by British hospital matrons who have been brought up in the old tradition of strict discipline, have tended to discourage members of the present generation from continuing their hospital courses, it was stated in a recent debate in the house of lords on the question of what could be done to attract young women to take up nursing.

Despite a widespread campaign of recruiting and the importation of a limited number of trainees from foreign countries—chiefly Germany—the hospitals still need greatly increased staffs. The shortage of nurses is estimated to be in the neighborhood of 48,000.

One of the suggestions was that the training of nurses be taken away entirely from the hospitals and turned over to some new authority. Lord Shepherd announced that this policy was already being "considered by the government."

Lord Crook told the members that several instances of petty tyrannies to which his attention had been drawn had resulted in the resignation of young women who resented being sharply reprimanded or punished for slight infractions of the rules.

Another suggestion for relieving the shortage was that provision should be made for the training of more male nurses, but the proposal met with little support. Lord Simon said most patients preferred having "a ministering angel of the female sex" to look after them and he doubted if they would be as comfortable under the care of the best-trained male nurse.

Drought-Resistant Grass Stands up Under Tests

SANTA BARBARA.—A new grass seed called Harding grass, subject of a 21-year experiment, has displayed characteristics which may make it the nation's leading drought resistant feed for cattle, it was reported by Mr. and Mrs. Girard van Barkaloo Hale of Santa Barbara, California, and New York.

Two years ago, Mr. and Mrs. Hale "adopted" and completely rehabilitated the demolished village of Maille in France, together with its 490 inhabitants.

The greatest single benefit of the seed, which remains green for more than six months of the year and is a 20-year perennial, is the fact that, where now three acres of grazing grass are required for each head of cattle, in Harding grass pastures it is possible to feed three head on only one acre of grass.

Harding grass is highly drought-resistant, each stalk producing bulb-like growths above the surface in which plant foods are stored. During an eleven-month drought, the Harding grass remained green and nutritious while the surrounding fields were devoid of growth.

Patient Deer Winds up As Trophy of Huntsman
MONTGOMERY, MICH.—Lowell Hawkins can thank a patient deer for his success on a first hunt. He saw a 10-point buck grazing with a herd of cattle and called conservation officials to find out

what he should do about it. "No," said the conservation department. "You can't shoot it because you don't have a license, and besides, you must use buckshot for deer." Hawkins drove into town and got the license and buckshot. The deer was waiting in the pasture when he returned and he dropped it with one shot.

as the "sink-float" method, John T. Sherman, mining engineer of the American Cyanamid Co., told the American Society of Mechanical Engineers.

It utilizes the force of gravity to separate valuable from worthless materials and is similar to the method used by the gold miner's pan, the sluice box, jog and the shaking table to separate heavy constituents of an ore or raw coal from the light.

Is Ruling of Britisher Stealing Milk No Prank

LONDON.—The judge in the Marlborough street magistrates' court in there was no indication they were London had before him Jenny Frances Clark, an 18-year-old typist who came into prominence last summer when she defied the police by swimming across the Serpentine in Hyde Park in violation of the regulations. At that time her picture in a bathing suit was in many of the London papers.

This time she was charged with having picked up three bottles of milk outside a dairy on her way back from a dance early one morning. She told the judge she did it as a prank.

"Did you enjoy the joke?" asked the judge. "Did you get a good laugh out of it?" "No, I didn't," replied Miss Clark. "At the time I thought it was funny, but before I could have a laugh the policeman arrested me."

The probation officer testified that she found Miss Clark "to be a bit wild—a little out of hand." The judge, who said he would like to find out more about the young woman who had the faculty of getting into minor difficulties, remanded her in custody for a week.

Stay at Home Money

THERE'S AN OLD THEORY that money kept at home is idle money.

That's not the case with your Public Service Company. A great deal of our "stay at home money" actually stays in the area we serve in the form of wages, rents, local and school taxes, dividends to stockholders and purchases from local businessmen.

It's as simple as this: the money we receive from our customers is put back to work for the progress and prosperity of everyone in the Panhandle-Plains-Pecos Valley area.

Free enterprise and sound business-management go hand in hand to bring better living... electrically... from your Public Service Company.

Confused About Appliance Prices?

This Message May Help You

IN TERMS OF QUALITY and new work-saving conveniences, leading electric appliances like our own Hotpoint Refrigerators, Ranges, Dishwashers and other products are far superior to pre-war models.

BUT THAT'S ONLY THE HALF OF IT! In terms of today's cost of living and the price increases of other commodities such as automobiles and houses, our 1949 Hotpoint Appliances actually cost a lot less than the corresponding models of 10 years ago.

FOR EXAMPLE, you can buy a new Hotpoint Refrigerator now for just \$189.75 — only \$10 more than the comparable 1939 model, which gave you far fewer advantages. When you stop to think that the dollar today is worth only 60 per cent of what it was ten years ago, you can readily see how low appliance prices really are now.

THE APPLIANCE INDUSTRY has done a great job of building new and better products, while still maintaining the low prices you want. Hotpoint,

for example, has accomplished this by careful planning — having completed the industry's greatest postwar expansion program to provide far more efficient production facilities.

BECAUSE YOU GET record quality at such low cost, we can say sincerely that now is the time to buy an appliance. In making your selection, however, be sure to look them all over, compare values and ask your friends who know from experience.

WE THINK you'll choose Hotpoint, because we honestly believe that these appliances are as fine as technical facilities and human skill can produce — and priced as low as any other make of comparable quality.

WE INVITE YOU to inspect the latest models and see why we say you can "Look to Hotpoint for the Finest — First!" — why you can get the greatest dollar-for-dollar values ever offered — right now!

"Your magic carpet—may turn out to be a throw rug." Publichouses and social planners are urging the Government to guarantee U. S. citizens food, clothing, housing, amusements, education and medical care. What happens when people are provided these things? The American Indians have been pampered, and dominated by our government for 80 years. Here's what they had to say to Senate Committees: "The flag that flies upon the Capital dome here, that says under the Constitution every man shall have his day in court, every man shall have his personal rights, his property protected—that means absolutely nothing on an Indian reservation." "You give any race of people, regardless of creed, a dole and a hand-out and you have got a dependent, and they will continue to depend on that and sooner or later they become lazy, lazy and undependable."

CITATION BY PUBLICATION THE STATE OF TEXAS

TO: C. L. WISWELL and C. L. WISWELL, DISTRIBUTING COMPANY, GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 15th day of August, A. D. 1949, at or before 10 o'clock A. M., before the Honorable District Court of Sherman County, at the Court House in Stratford, Texas.

Said plaintiff's petition was filed on the 9th day of May, 1949. The file number of said suit being No. 1173.

The names of the parties in said suit are: Carl Craig as Plaintiff, and C. L. WISWELL and C. L. WISWELL, DISTRIBUTING COMPANY as Defendants.

The nature of said suit being substantially as follows, to-wit: Action for damages for the breach of a contract entered into by and between the plaintiff and the defendants, which contract was breached by the defendants resulting in damage to the plaintiff in the amount of \$3,250.00, and to foreclose the garnishment and attachment liens issued in said cause, all as is more fully shown by the plaintiff's petition and the other instruments on file in this cause.

W. H. Manning filed in this cause on June 10, 1949, a plea in intervention claiming a laborer's lien upon a building situate on Lots 6 to 10, Block 80, in the town

of Stratford, Sherman County, Texas, upon which an attachment has been levied (as the property of C. L. Wiswell and C. L. Wiswell Distributing Company) in this cause, in the amount of One Thousand and Forty Dollars (\$1,040.00); for which he prays judgment, with interest, costs, and general and special relief, and also claims a prior right to the proceeds of the sale thereof; and Raymond G. Sweet and Fred R. Sweet, co-partners under the firm name and style of The Resident Lumber Company, filed in this cause on June 30, 1949, a plea in intervention claiming a material man's lien upon a building (and the land upon which situate) belonging to Odell Pugh and Jack F. Pugh, the land being Sec. 189, Block 1C, G. H. & H. Ry. Co., Sherman County, Texas, belonging to Odell Pugh, in the amount of Four Hundred Forty-nine Dollars and Seventy-five Cents (\$449.75), praying judgment in that amount, and also claiming a superior and prior right to funds in the hands of Odell Pugh and Jack F. Pugh, garnishees, as shown by their answer filed herein;

are also commanded to answer said intervenors' pleas, as they appear on file in this cause, at the same time and place.

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

Issued this the 30th day of

June A. D. 1949.

Given under my hand and seal of said Court, at office in Stratford, Texas, this the 30th day of June A. D. 1949.

(Seal) LELAH BONEY, Clerk District Court, Sherman County, Texas. 7/7, 14, 21, 28.

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.
Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

Ayrshire Breeders Testing Production
Keep Average Chart, Record of Animals
The Ayrshire breeders' association is the only cattle-breeders' organization in the field which maintains "average" rather than "selective" production records of its cows, according to officials.
At this time, it was reported, some 16,000 Ayrshire cows are voluntarily "on test." Daily, certified records of all phases of pro-

Two directors of the Ayrshire breeders' association, Edward Wilson, left, and Michael Rapuano, right, look over "Armour Mona," the blue-blooded Ayrshire cow sold at the Bucks county, Pa., sale.

duction and lactation are averaged into monthly records and these, in turn, are averaged into annual records. From these annual figures, "herd" averages are then computed, and these are computed into the only "breed" averages extant.
Owners of the Ayrshire cattle are given duplicate copies of the production records compiled with the help of foolproof IBM machines. This system is of immeasurable help to Ayrshire farmers in operating their herds and disposing of surplus cattle.
But this painstaking "cows on test" project is only one of the many operations conducted by the A.B.A. staff. The birth of every Ayrshire calf is recorded and registered.
The operations of the A.B.A. are helping to make Ayrshire cattle one of the most popular breeds of dairy cattle in the country. The Ayrshire is reported the highest producer of 4.0 per cent milk of any breed. Only Ayrshires produce "naturally homogenized" milk—the fat globules are so fine and tiny that they are integrated by nature with the rest of the milk. Ayrshire milk is in great demand by hospitals, and by doctors with on-diet patients.

Uncovered Relics Yield Story of Primitive Man

LONDON. — Archaeologists thought they had caught a glimpse of the lives of Britain's pagan Saxon ancestors through relics dug up recently from an ancient burial ground on Farthing Down near Coulsdon.
Beside the skeleton of a child of about 2, probably a boy, had been placed his well-loved toy iron spear. A child in another grave was thought to be a girl.
Beneath her chin were found the colored beads she used to wear and someone, more than 13 centuries ago, had placed a large decorated bead in her mouth when she was laid to rest.
Leg and ankle bones of an old man were found to be bent, probably because he had squatted on his heels in a primitive home which boasted no chair.

De-Humidifier

Now the home-owner can protect property in his basement from mold, rust and mildew damage by moist summer air with any one of several simple and inexpensive de-humidifiers and a low-cost chemical—calcium chloride.
Scarce in supply during the war years, calcium chloride is now in plentiful supply. Low-cost de-humidifiers are available nationally through hardware and lumber dealers.
De-humidifiers designed to use the chemical have a container such as that shown here, for the flake which is exposed to air. Calcium chloride has the unique property of being able to absorb several times its own weight in moisture.

Good Building Style

One of the finest examples of Anglo-Norman building style of the 11th and 12th centuries can be found in the cathedral in Durham, England.

SEEDS Germinate FASTER

when you put **ROLKLEEN** TIRES ON YOUR PRESENT STEEL PRESS WHEELS

Rolkleen V-Tires help speed germination by pressing seeds down into bottom and sidewalls of furrows, where moisture is most highly concentrated. The plant comes up 2 to 5 days sooner in many cases - giving you a head start on an earlier, bigger-yielding, better-paying harvest.

NO DIRT BUILD-UP: FIT PRESENT WHEELS
 * Smooth V-side walls prevent build-up of dirt and mud so common with flat press wheels. Semi-pneumatic Rolkleens shake off dirt and mud - and pull easier, roll quietly, and absorb shocks.
 * Prolong press wheel life. Hub turns 1/2 slower. Less dirt gets into bearings, because wheel flanges don't dig into furrow sidewall.
 * You can easily install on your present steel wheels. Made of tough, long-wearing rubber. Rolkleens soon pay for themselves!

Fig. A Fig. B

(A) Rolkleen packs soil completely around seeds, leaves moisture-catching mulch behind in its track. (B) Flat press wheel packs soil unevenly, makes a hard crust.

Oil Boom Town of Today Quiet as One's Back Yard
 RANKIN, TEX. - This is what passes today for an oil boom town. It's as quiet as your backyard. Gone are the brawling boom days when poor men struck it rich overnight, when roughnecks drank bootleg whisky like water and fought in muddy streets for the sake of fighting. That happened until the late 1920's wherever new oil fields were found, from Pennsylvania to California. It's still happening in Canada, oil men say, but in the United States the boom town has grown stolid. Changes in machines and men and laws are behind the boom town's new respectability. Workers used to have to crowd into an undersized hamlet near the field, or live in tents and bunk-houses on the job because their rattletrap cars bogged down in narrow roads hub deep in mud. Now they can spread out, as far away from the field as they feel like driving over paved highways. In the old times, hardly a day passed that a man wasn't hurt on a rickety rig. Now equipment is safe, and tested to make sure it stays that way. Among today's roughnecks you'll find college men - petroleum engineers and geologists. They're getting ready to be executives by learning the horny-handed end of the business. Wildcatters, who drilled wells with barely enough money to buy baling wire to hold their rigs together, went out of business when the big companies started leasing and the states began laying down the law about where and how close together wells could be sunk.

LONG SEARCH SEEN ENDED Chlorophyll in Toothpaste Fights Decay A new toothpaste containing chlorophyll may be the answer to the long-time search for a preventive for tooth decay. Use of chlorophyll in the new product was announced by Dr. Gustav W. Rapp, professor and research biochemist of Loyola university's dental school, and his assistant, B. F. Gurney.

The new paste acts to do away with all of the conditions generally thought by dental authorities to be causes of dental decay, according to Dr. Rapp and Mr. Gurney, and owes its unusual powers to the use of the water-soluble derivatives of chlorophyll, which is the magic green substance that gives grass and all other green plants their color. Long known as essential to all life, chlorophyll previously has been used with excellent results.

WEEKLY NEWS ANALYSIS Truman Wants Welfare Department; Veterans Will Get NSLI Dividends; Big Four Agree on Austrian Pact

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.

ROOSEVELT CHATS WITH TRUMAN... Another Roosevelt, Franklin D. Jr., chats in the White House with President Truman. The meeting occurred shortly after young Roosevelt was sworn in as congressman from the 20th New York district, replacing the late Sol Bloom. F. D. R. Jr., made it plain he is a Democrat and a member of Mr. Truman's "team."

WELFARE: More for Less

Signing into law a bill to reorganize the federal government, President Truman offered a major proposal. He wants a new department of welfare created with its chief officer given full cabinet rank.

THE IDEA is not a completely new one. It was heard frequently during the early days of the Roosevelt era, much oftener during the latter years of F. D. R.'s regime.

While this proposition commanded chief attention of the nation's press, the President offered six other streamlining plans aimed at giving the taxpayers better service for less money.

These included: Transfer of the U.S. employment and unemployment compensation offices to the labor department.

PLACING of the two key defense agencies - national security council and national security and resources board - directly in the President's office.

Tightening up administration of the post office department, maritime commission and civil service commission.

Transfer of the public roads administration to the commerce department.

The President said the plans, which followed closely several major recommendations of the Hoover commission on government reorganization, will not "automatically" produce efficiency and cut spending.

BUT HE SAID they open the door to improvements that will make the government "more vigorous" and operate more smoothly at a lower cost "over a period of time."

No one expected any reduction in federal spending, and the President's conclusions might be construed as a preliminary defense set-up for continued federal outlay at the present, or an increased level, despite the Hoover commission recommendations and the President's own seven-point manifesto.

VETERANS: Get Good News Veterans of World War II were all set for a surprise bonanza. The Veterans' administration announced in Washington that cash refunds totaling 2.8 billion dollars will begin for them about next January—that is, for all GI's who took out national service life insurance during the war. These were estimated to number some 16 million.

Under the new payments, announced by the VA, each ex-serviceman or his heirs would receive an average of \$176 from life insurance dividends. Described as a "dividend" the money is to be repaid from two sources:

1. An eight billion dollar surplus which developed from the fact that G.I. insurance premiums were based by law on a standard mortality (death) rate table which turned out to be higher than needed.

2. Earnings from the surplus. In general, it was explained, every veteran who took out national service insurance and kept it in force at least three months will be eligible—provided the policies were not issued after January 1, 1948. No refunds are to be made on policies issued after that date.

MEANWHILE, government officials saw in the insurance dividend payments a timely "shot in the arm" for business in 1950 which

thought by dental authorities to be causes of dental decay, according to Dr. Rapp and Mr. Gurney, and owes its unusual powers to the use of the water-soluble derivatives of chlorophyll, which is the magic green substance that gives grass and all other green plants their color. Long known as essential to all life, chlorophyll previously has been used with excellent results.

House Republicans indicated they were tired of the federal housing wrangle. So, they promised, they'd introduce a housing bill to substitute for the administration's program.

It was said to include a plan for privately-owned homes and some low-rent property. In fact, the substitute measure would embody most of the administration's slum-clearance ideas.

RED HUNT: Harvard Cool Harvard, the nation's oldest university, was having nothing to do with any Communist-hunting.

There was a reason, officials said. They felt that to do so might be a danger to the university's freedom and to its academic integrity.

AND, Harvard held, American freedom is the school's "true glory," as it once told a man who tried to "buy" it for 10 million dollars.

The Harvard policy statement in connection with Communist-hunting activities was put this way: "There will be no harassment of professors for engaging in open and legal meetings. There will be no apparatus of inquiry and 'closer watch'."

"The harm done by the effort necessary to discover even a single clandestine party (Communist) member would outweigh any possible benefit."

'UNIVERSAL MAN': Johann von Goethe

From every state in the union and from many foreign lands, distinguished visitors are pouring into the historic little frontier town of Aspen, Colo., to pay honor to a man born 200 years ago.

The Goethe Bicentennial Convocation and Music Festival (June 27-July 16) is presenting an imposing roster of thinkers, writers, statesmen, philosophers, educators and musicians who will seek to re-examine and re-interpret the works and philosophy of Johann Wolfgang von Goethe, the Universal Man, as it pertains to the atomic age.

HEADING the impressive list of lecturers is Albert Schweitzer, of French Equatorial Africa—philosopher, doctor, musician, theologian—acknowledged throughout the civilized world as the foremost modern disciple of Goethe.

The music festival, running in conjunction with the convocation, will feature compositions based on Goethe's works, monumental music of equal stature to Goethe and music contemporary to him and known to have been inspirational to him.

LABOR: Bad Timing? Was the postwar buggy ride of consumer demand and increasingly higher wages really over?

The Ford motor company thought so and said so. CONFRONTED with a list of demands by the united automobile workers union, the company made a significant counter-proposal.

Instead of pay raises and pension, health and welfare plans as drafted by the union, the company proposed to peg wages where they are for another 18 months.

Such action, said the company, would "set a stabilization pattern for the entire (national) economy at this critical time."

THE UNION, among other things, had demanded that wages be pegged to the cost of living.

Pointing out that the cost of living is down and that the market for cars might drop up to 32 per cent after this year, the company declared flatly that it would reject any change in the work contract which would mean higher labor costs—whether in the form of wage increases or pension or welfare funds.

THUS the issue was hastening to a showdown. Could industry stand firm against another round of wage increases, or would labor with its organized power so stifle industry that capitulation would be inevitable?

GERMANY: Partial Accord The four-week conference of the council of foreign ministers of the four major powers had ended with partial accord having been reached.

The western powers and Russia cleared away obstacles to an Austrian independence treaty and agreed to try to get along a little better in Germany.

THE RUSSIANS, however, were in there pitching right up to the final moments of the parley. The conference ended in a flurry of excitement as Russia sought unsuccessfully to make a last minute change in the announcement of the meeting's results.

The Reds had promised not to reimpose a blockade on Berlin in return for efforts to revive east-west trade in Germany. This was contained in a six-point statement of principle by the Big Four to guide negotiations in Germany.

The Russians were supported in their 150 million dollar claim on Austria for German assets, and swung an uppercut at Yugoslavia's Marshal Tito by dropping their support of Yugoslavian claims on Austria. These were the points which cleared the way for an Austrian treaty which has been ordered for presentation by September 1.

DESPITE the improvement in east-west relations growing out of the conference, American spokesmen were not optimistic in evaluating results. U.S. Secretary of State Dean Acheson had no immediate comment.

Work on the Austrian treaty, however, was termed a "substantial step" forward and of no little importance because it would free Austria and push Soviet troops farther back into eastern Europe.

It was felt that ground had been neither gained nor lost in Germany.

should serve to stimulate sales. They recalled that the terminal-leave payoff of some two billion dollars in 1947 provided a sizeable such stimulus for the nation's business.

The plan to start the checks rolling in January brought vigorous criticism on Capitol Hill as Representative Keating (R., N. Y.) demanded that congress set October 15 as the deadline. He introduced a bill to hurry the dividend payments to that date. He declared that the government had "overcharged" veterans on their life insurance, and that the money should be refunded "immediately, not a year from now."

PROMISES: Made for Housing House Republicans indicated they were tired of the federal housing wrangle. So, they promised, they'd introduce a housing bill to substitute for the administration's program.

It was said to include a plan for privately-owned homes and some low-rent property. In fact, the substitute measure would embody most of the administration's slum-clearance ideas.

THE POWER to thrill has not been lost by the Psalms, as the men on that carrier found out. The group numbered 120 through 134 in our Bibles are known as the "Pilgrim Marching Songs," and were originally used by the Hebrews as they went year by year up to their capital city of Jerusalem and to the Temple which was the center of their religion. Then as now, the Hebrews were a singing people. A nation that cannot sing, a nation without songs, is a dismal country indeed.

Difference among various countries is symbolized by their songs, or the lack of them. The Chinese, for instance, have no song that draws them all together in the same way that Englishmen are united in "God Save the King" or as Frenchmen once were by the "Marseillaise."

When it comes to pass, as one it did in the United States, that one part of the nation will sing one song (say, "John Brown's Body") while another part will not sing that song but another one (say, "Dixie"), then civil war is at the gates. Only people who will sing together can be trusted to live together.

Singing Church IN the long caravans, marching up the rocky hillside trails to Jerusalem, the ancient Hebrews put their faith into stirring words set to music. So it is always. All over the Christian world, wherever and whenever the singing is good, religion is warm and vigorous.

Where the heart is full, there will be song. Revivals of religion are revivals of singing. To this day a stranger in a strange city, looking for a church home, is most likely to settle down in the church where the singing is the best.

It is not an accident that the Moravian church is at the same time the church that makes more of Easter than some other churches, it is the church where at funerals the music is never sad but joyous, not mourning-songs but triumphant hymns of Christian faith.

Patriotism and Religion READ these marching Psalms through—the reading time is only a few minutes—and see for yourself how the ancient Hebrew men of God united their praise of Him with love for their country. To this day, in our Christian hymns, patriotism and religion are often combined. The English national anthem, "God Save the King," is a prayer; so is "America the Beautiful." National hymns have a rightful place in a book of public worship. For while patriotism, by itself, is a poor substitute for religion, still a man who will not love his country lacks something of being a good Christian, and on the other hand a man without faith in God makes a very poor citizen.

Marching Songs Lesson for July 10, 1949

WE did not win all the battles we fought with Japan. The day of a certain naval defeat near the Philippines, an American "baby" carrier, left to its fate, was doing its best to get away from the pursuing Japanese. All afternoon it dodged and twisted. Enemy destroyers and planes were hot on its trail, and it was a "sitting duck" in case they really got the range. No one on board expected to live. The only question in anybody's mind was: How soon will they get us? But late in the afternoon, for some reason never explained, the enemy gave up the chase, and the American ship slipped off into the protecting night. The next day, as the men gathered for a special service of thanksgiving, the chaplain read the 124th Psalm. It came as a new Psalm altogether to those men, even to those who had known it by heart:

"If it had not been the Lord who was on our side, when men rose up against us, then they had swallowed us up quick, when their wrath was kindled against us; then the proud waters had gone over our soul. Blessed be the Lord, who hath not given us as a prey to their teeth."

"Let Me Write A Nation's Songs" THE POWER to thrill has not been lost by the Psalms, as the men on that carrier found out. The group numbered 120 through 134 in our Bibles are known as the "Pilgrim Marching Songs," and were originally used by the Hebrews as they went year by year up to their capital city of Jerusalem and to the Temple which was the center of their religion. AROUND THE HOUSE

Dry in no time. A quick way of drying stockings is to squeeze them as dry as possible, then roll tightly in a turkish towel for five minutes. Hang in an airy place and they will dry in a jiffy.

Experience taught her. One mother who sends a boy and girl away to college makes a list of the things packed in each trunk and secures it to the lid of the trunk on the inside with thumb-tacks. This way she gets back at least a percentage of the things originally sent.

On the bias. Try cutting the thread on a slant when threading a needle. It will point the thread and make it much easier to thrust through the eye of the needle.

Consider the mop. Floor mops, as a rule, are somewhat neglected when it comes to washing. Give your mop a good bath in boiling soapuds every week or so. Soda added to the water will loosen the dirt wonderfully.

Wash line technique. When washing heavy blouses, shirts, etc., hang each one separately on a wooden clothes hanger and then on the line. They will dry more quickly and in better shape than when pinned directly to the line.

Sprinkle plain muffins, just before they go into the oven, with a mixture of melted shortening, brown sugar and cinnamon or nutmeg.

Add the juice of one orange to apples, peeled and chopped, ready to be cooked for apple sauce. The orange juice gives the sauce a golden color and a delicate flavor.

Overdone. Take a look — are there too many things of no value on the mantel of your living-room?

Hubbie—"You look tired, dear. Why don't you go to the mountains for a nice rest?" Wife—"Oh, I don't know. I don't think the mountain air would agree with me."

Hubbie—"Well, it would be the first thing that didn't."

Teacher—"So you want to be older so that you can do many things that your brothers and sisters do, eh?" Small boy—"Yes, ma'am."

Teacher—"Well, who is the oldest in your family?" Small boy—"Daddy is, but he got a head start."
