The other night we had cabbage for supper. My wife is a swell cook, and she'd done an especially good job on the cabbage. I took a heapin' big plateful for myself and passed it over to Susie. Susie is our little four-year-old.

"Have some cabbage, honey?" I asked her.

"Nah-h-h-h!" she said, "I don't like cabbage."

"Why, Susie," her mother spoke up, "have you ever eaten cabbage?"

"Nah-h-h-h, I never did eat any of it-I just don't like cabbage!"

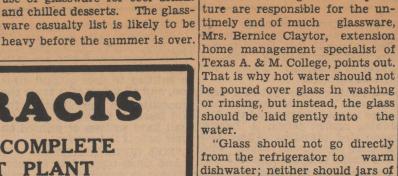

Well, that set me to thinking Every time I go down to my Co-op, the boys there ask me to use Co-op Motor Oil For years now, I've been using another brand of oil and I always thought it was the best, so I always told them "No, I don't like Co-op oil." You know, when Susie pulled that stunt about the cabbage, it hat me like a ton of bricks-how did I know whether I liked Co-op oil or not, I'd never

I was startin' some plowing the very next day, so I order out my first barrel of Co-op Solvent Refined Oil, and I can truthfully say that I have never used a better motor oil. And I know why, too. It's made in a farmer owned refinery for use on farms, to specifications that will meet the heaviest farming uses From now on, you'll find nothing in the crankcase of my tractor, pick-up and car but CO-OP SOLVENT REFINED MOTOR OIL!

By the way, Susie likes cabbage now. She tried it

Sudden changes in tempera-

"Glass should not go directly from the refrigerator to warm dishwater; neither should jars of food, hot from the canner, stand in a breeze to cool," Mrs. Claytor said. "Glass expands with heat, contracts with cold; if forced to do either too suddenly, it often cracks or breaks."

She suggests that in making iced tea or coffee in glass, pour the hot beverage slowly onto the ice rather than against the glass, or more safely, make the beverage in a china or pottery pitcher and then pour into the glass-

To save glass from taking a rap in dishwashing, there are circular rubber gadgets which fit over the end of faucets; rubber mats for the bottom of the sink or dishpan, or for the counters on either side of the sink. The rubber-covered dish drainers also give protection.

"The time-honored dishwash- tified, GREFTING: ing rule is "glass first, silver second, china third," Mrs. Claytor said. "Glass gets first place because it needs clean suds with no trace of grease to come out clear and shining."

back home about Federal spendng" and increrasing.

However, sentiment in favor of cuts in spending, and practical action toward that end, are two different things. Congress is always bedeviled by pressure groups, all of whom are in favor of cutting the appropriations that go to someone else and increasing their own. As an obvious example, there is hardly a chamber of commerce that does not pay lip service to the cause of economy, and then whoop it up whenever it sees a chance to This member of the genus get a slice of Federal tax money

Diesel Replaces 'Iron Horse' Approximately one-fifth of the total weight of a modern diesel electric locomotive consists of copper and copper-base alloys. This figure is many times the amount of copper and its alloys contained in a steam locomotive—the romantic "iron horse" that has served the nation's railroads faithfully for over a century, ever since the Tom Thumb, built by Peter Cooper in 1829, was given a trial run in September of that year. Finally the "iron horse" is being turned out to green pastures as most of the major railroads of the country turr to diesel electric locomotives f both freight and passenger hauli

CITATION BY PUBLICATION THE STATE OF TEXAS TO: C. L. WISWELL and C. L. DISTRIBUTING

COMPANY GREETING: You are commanded to appear and answer the plaintiff's peti-tion at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the of August, A. D., 1949, at or before 10 o'clock A. M., before the Honorable District Court of Sherman County, at the Court

House in Stratford, Texas. Said plaintiff's petition was filed on the 9th day of May, 1949. The file number of said suit being No. 1173. The names of the parties in

said suit are: Carl Craig as Plaintiff, and C. L. WISWELL and C. L. WISWELL DISTRIBUTING COMPANY as Defendants

The nature of said suit being substantially as follows, to-wit: Action for damages breach of a contract entered into by and between the plaintiff and the defendants, which contract was breached by the defendants resulting in damage to the plaintiff in the amount of \$3,250.00, and to foreclose the garnishment and attachment liens issued in said cause, all as is more fully shown by the plaintiff's pe-tition and the other instruments on file in this cause.

W. H. Manning filed in this cause on June 10, 1949, a plea in intervention claiming a laborer's lien upon a building situate on Lots 6 to 10, Block 80, in the town of Stratford, Sherman County, Texas, upon which an attachment has been levied (as the property of C. L. Wiswell and C. L. Wiswell Distributing Company) in this cause, in the amount of One Thousand and Forty Dollars (\$1,040.00); for which

right to the proceeds of the sale pany, filed in this cause on June 30, 1949, a plea in intervention claiming a material man's lien upon which situate) belonging to Odell Pugh and Jack F. Pugh, the land being Sec. 189, Block 1C, G., H. & H. Ry. Co., Sherman County, Texas, belonging to Odell Pugh, in the amount of Four Hundred Forty pine.

Four Hundred Forty-nine Dol-lars and Seventy-five Cents (\$449.75), praying judgment in that amount, and also claiming rie's parents, Mr. and Mrs. Ray superior and prior right to finds in the hands of Odell Pugh and Jack F. Pugh, garnishees, as shown by their answer filed herein; and on June 30, 1949, the General Metals Manufacturing Company,

a corporation, also filed a plea in intervention in this cause, also claiming a material man's lien upon the above building and the land on which Student, the amount of Nine Hundred Seventy-nine Dollars and Twenty-one Cents (\$979.21), praying indoment in that amount Mr. and Mrs. A. E. Pronger and the land on which situate, with interest, costs, general and special relief, and also claiming a prior and superior right to the funds in the hands of garnishees, as shown by their answer in this cause; and you are also commanded to answer Mr. and Mrs. Bradford Clay said intervenors' pleas, as they appear on file in this cause, at

> unserved. Issued this the 30th day of June A. D., 1949.

Given under my hand and seal of said Court, at office in Stratford, Texas, this the 30th day of June A. D., 1949.

The Truth About **Electric Appliance Prices**

Are Prices Too High? Are You Getting the New Features and Quality You **Expected in Post-war Appliances?**

IF YOUR FAMILY has been thinking of buying a new appliance, you may be confused by conflicting stories about today's prices and values.

THE FACT IS, there is no purchase you can make at this time that brings you more real value for your money than a good electric appliance. While the cost of living is up 70 percent over 1939, according to government statistics, the average price increase of ranges, refrigerators, washing machines, water heaters and dishwashers is only a little more than half that!

FOR EXAMPLE, today you can buy a brand new 1949 Hotpoint Refrigerator for \$189.75 — only \$10 more than the same kind and size cost in 1939 — and this is a lot better refrigerator and has many improved features. When you consider that the dollar today is worth just 60% of its 1939 value, you must agree that this new, vastlyimproved Hotpoint post-war refrigerator actually costs a lot less.

COMPARE THIS with the price increase in automobiles, houses or almost anything you buy - up from 50 to more than 100 percent.

WE SEE NO REASON for you to wait to buy a new appliance. At today's new low appliance prices you get the greatest dollar-for-dollar values we have ever been able to offer. We say this knowing full well that our future depends on satisfying you. We sell a lot of things - everything for the complete electric kitchen and home laundry - so we can't afford to lose you as a future customer when you buy any one of our appliances.

"YOU CAN LOOK TO HOTPOINT FOR THE FINEST - FIRST" is no idle statement. So, we back it up with the greatest dollar-for-dollar value in quality appliances ever offered

Hotpoint Inc.

'Back Yard Beach' With Barge Sandbox

HERE'S an easy to build sandbox that gladdens the hearts of tiny tots and small fry. It's a barge boat that can be used as a wading pool. Its simple construction eliminates the need for anything more than a hammer and saw. Complete, step-by-step directions and full size patterns insure building in a minimum of time. Painting guides are also printed full size on the pattern. These can be traced directly on the finished boat and painted with the colors suggested in the pattern. All lumber needed is stock size and can be obtained at lumber yards

Send 35c for Barge Boat Pattern No. 77 Easi-Bild Pattern Company, Dept. W, leasantville, N.Y.

Might Have Been Highest

If Aconagua hadn't "blown its top," its name might be far more famous than it is today. This Argentine mountain might have been renowned as the world's highest peak. According to World Book encyclopedia, Aconagua, highest mountain in the western hemisphere, erupted many centuries ago with such force that it totally destroyed its summit and all signs of its volcanic crater.

Drain off extre dressing and serve will do for a main. Why can't you not to be like mules or colts (Ps. 32:9). These animals can be head as if frustrated, "these modwhat is going on, and if left to themselves they would never serve.

They have to be caught, harnessed and driven. But God does not want to treat human beings like that. Getting right with God is not a business of getting into harness, being beaten into walking on the right

That is not God's way. He pleads Be not as mules—be men!

THE short good Bible word for be-"Immediately the horses on my very first step toward being right knew everything. And no one will come to God who thinks he is as good as he needs to be. When life goes hard with us, when everything about our life seems twisted and rotten, we make all sorts of excuses for ourselves, we lay the blame on our parents or our friends of the social and economic system in which we live (doubtless all these have a share in creating our troub-Bruises, Burns, Cuts, have a share in creating our troubles), but we hate to look at our selves in the mirror of truth.

This comes first: recognizing our own wrongness, not just weakness but wrongness. When we reach the point where we can say with the Psalmist, "Create in me a clean heart, O God, and renew a right spirit within me," then we are on the right road.

"Hide Thy Face"

THERE are two things we never hear about in the Bible. One is that God never forgave anyone who did not repent, and the other is that he refused to forgive any one who did repent. But repentance is not merely regretting that a wrong was done; still less regretting being caught. Repentance, the kind the Bible describes (as in these Psalms for example), means a complete change of attitude, it means coming over on God's side and seeing sin the way he sees it, seeing life the way he sees it.

God's forgiveness is not of the grudging, remembering, reminding kind. But condoning and forgiving are still a world apart. Condoning means saying in effect, It is all right, it makes no difference, you can go on sinning for all I care.

Some human "forgiveness" may be like that, but not God's. His forgiveness is based on real repentance, and the aim of it is to save the sinner from his sin. . . .

Plenteous in Mercy

THE Psalmists saw clearly what kind of God we have. He is not like the holder of a mortgage waiting till the first time some payment is deferred gives him a chance to pounce down and evict his tenant. We are not criminals against whom God is a prosecuting attorney, trying to pile up evidence against us. "If thou shouldest mark iniquities, who shall stand?" We are children, lost and wandering children, rebellious and disobedient children, but still children; and God holds open the door of mercy.

speeding the arrival of that day.
Since the war there have been large for building or converting plans for building or converting two huge pipe lines to carry natural gas to the Eastern Seabord. That area has an abundance of coal, the supply of which is much more plentiful than are the supplies of petroleum and gas. We need to ask whether it is sound faded draperies and carpeting—or we found that we wanted to let in the light and warmth of winter sunshine. So, this year we purchased Ron-del folding aluminum awnings which stay up all year long, giving us sun protection when we need it and fold up in a jiffy when we don't need the protection. They are raised and lowered easily from inside or outside the house in need to ask whether it is sound from inside or outside the house in long-range policy to permit the a matter of seconds.

You may be wondering about we have an almost inexhaustable put them back up in the spring—and always a storage problem! The

resources would deprive us not only of two major fuels, but also windows—and we could have put of two very important raw materials for industry. For the na- cream color so we chose natural tion as a whole it would, unless adequate substitutes were available, paralyze our economy and enamel colors to give your home menace our national security. The states of the Southwest are especially affected by these two pletely resistant to wind and hail—these folding aluminum awnings minerals. Those states depend on them, not only for a major doubly sure that these were right portion of their income but also for our home. This might well call for wholesale substitution of oil and Had Needle in Head gas for other fuels. The second essential is to see that the extraction of these two minerals build up other economic sources and activities.

"Both of these ends might served by a heavy severance tax on these two items. and Texas are collecting substantial amounts from severance taxes now, but both apparently are using the funds for current operating expenses — Texas using the tax to some extent as a substitute for an income tax. For an adequate program, joint action by several states would be required to levy a tax equal to, perhaps, a large fraction of the value of the oil and gas at the well. Or the Federal Government could levy the tax and remit it to the states in which production takes place. The revenues should then be earmarked and placed into a special trust fund to be used only for economic development. Some plan seam before pressing it, fill
