Get School Trip Tickets Now While They Last

by MARY ALICE ATCHISON

"All aboard for Dallas and SMU," sings out the conductor and Tech is on its way on the annual out-of-town school trip to see the Red Raiders accost the Mustangs on their home grounds.

Tech's school trip is scheduled for the Tech-SMU basketball game, Feb. 22. Wick Alexander, chairman of the school trip, says that 500 seats in SMU's coliseum have been reserved for Tech stu-

dents.

TICKETS WILL BE passed out to Student Council members tonight and sale of tickets will begin tomorrow. The price, \$14.25, will pay for a train ticket and ticket to the game.

At least 400 tickets must be sold before the Santa Fe Railroad will run a special train. Ten lightweight cars have been reserved and more will be available if needed.

THE TRAIN WILL leave Lubbock at 11 p.m. Friday, Feb. 21, and is scheduled to arrive in Dal-

las at 8 a.m. Saturday. Leaving Dallas at 1 a.m. Sunday, Feb. 23, the train should arrive in Lubbock at 10 a.m. the same day.

Classes on Saturday, Feb. 22, will not be dismissed.

An 80-member band will also make the trip. There will be a pep rally at the station before the train leaves. The band will have charge of the concessions on the train.

TO HELP WHILE away the hours between arrival at Dallas and the game that night, the SMU Engineering School will be con-

ducting Engineering Week with an open house in the Caruth Engineering Building.

Also scheduled is a tour of the new Univac Building. The Univac, a scientific computer, is the only one of its type in this part of the country.

UNIVAC IS the principal electronic computing device available for general use in a 13 state area which reaches from New Mexico to North Carolina.

After the game, from 9 to 12 p.m., Tech students are invited, free of charge, to an Engineer's

all-school dance in the Grand Ballroom of the Umphrey Lee Student Center. The dance is to be semi-formal.

"AS THE NEWEST member in the Southwest Conference, we want a lot of students to make this trip and help foster relations between Tech and SMU. We want to make a good showing," stated Alexander.

Committee members for the out-of-town trip include Gerald Myers, Bob Byrd, Carolyn Williamson, Sandra Shields and Claude Rogers.

Sharla Pepper Shot in Robbery

Averyt Wounded; Suspects Arrested

by BEN McCARTY

Sharla Pepper, popular Tech coed, was shot down about 10 a.m. Monday as two armed gunmen robbed the Texas Tech Bookstore. She was dead on arrival at the hospital.

The two suspected murderers, Tech students, Richard Stewart and Allan Hollis, were captured shortly after noon Monday when they attempted to flee from the Tech Union after officers closed in on them. They were charged with murder without malice.

RONNIE AVERYT, government instructor at Tech, was wounded in the left shoulder during the robbery and shooting. He was taken to a local hospital and later released.

Immediately after the holdup, a Rix ambulance arrived at the scene to take Miss Pepper to the hospital for emergency treatment. Attendants at the hospital said the bullet went through her heart and lodged in her back.

Averyt gave this account of the incident: "Two students came into the bookstore . . . they were dressed strangely, and I recognized one of them as being one of my former students . . . I saw them walk up to the cashier's counter and pull out their guns, then Sharla screamed . . . there were two shots . . . the next thing I knew I was on the floor . . . I saw Sharla lying on the floor . . . then they took me back into W. C. Coles' office."

Mrs. Merle Noles, cashier at the bookstore, said, "two men came in, pulled their guns and said, 'this is a holdup, give us the money.' I gave them the money, and they put it in a paper sack. 'About then, I heard a scream See FUNERAL RITES, Page 4 —

New ID Cards Are Valuable

ID cards equipped with a new supply of Rogue's Gallery photos will be issued to Tech students Feb. 7 and 8.

In case of loss the card can be replaced at Herald Photo, 1405 College Ave, for a nominal price; however, the new card will be replaced without the numbered section along the bottom of the card which is the student admission to athletic activities.

The new card will serve all which the original was intended except for admittance to Raider contests. This section of the card cannot be replaced.

SHARLA PEPPER

KTTC Meets

Students interested in working for KTTC, campus radio station, are requested to be at the special meeting tomorrow. The meeting will be held at 4:30 p.m. in the Speech Building, according to Bob Sewell, station manager.

Bulgianin Writes Ike

MOSCOW, Feb. 3 (AP)—Premier Bulganin, in his latest letter to President Eisenhower, offers to discuss the control of outer space, the Soviet government disclosed today.

But the offer is wrapped up in a package, including abolition of nuclear weapons and reduction of armed forces — in a form that previously proved unacceptable to the United States.

BULGANIN ALSO seeks to meet United States objections to an East-West summit conference by proposing an agenda and by accepting the idea of preparatory

See AP HIGHLIGHTS, Page 5

Seniors Meet

The senior class will meet today at 10 a.m. in the Tech Union workroom. Don Gray, vice president, urges all seniors to be present.

The agenda will include discussions of the senior carnival, senior banquet, and senior class gift. The time and place of future class meetings and a report on class dues will also be given.

AP HIGHLIGHTS

Army Scientists Plan For 700 Pound Shot

WASHINGTON, Feb. 3 (AP)—Plans for bigger and better U.S. satellites piled up today as the Army's 30.8 pound Explorer sailed around the earth at 18,000 miles an hour.

Army scientists, it was learned, are proposing to send up an elaborately instrumented satellite weighing as much as 700 pounds before the end of the year. It would be the forerunner of a true space station.

THE NAVY WAS reported to be considering cutting down on the number of miniature moons it will launch in its Vanguard test program, and concentrating instead on getting a basketball-size satellite in orbit sometime next month.

Heavy winds at the Cape Canaveral missile site in Florida appeared to have eliminated the chances of another U.S. satellite being launched today.

A 72-FOOT VANGUARD is standing on its launching pad.

The Army also has a tall missile ready on a nearby launching stand. It may be another 70-foot Jupiter-C, the type that carried Explorer into orbit Friday night, or it could be just the 56-foot Redstone first stage rocket.

A SECOND EXPLORER is expected to be fired soon, to be followed by a 300-pound TV-equipped reconnaissance vehicle.

Then, Maj. Gen. John B. Medaris, Dr. Wernher von Braun and

other scientists working on the Army's missile program, want to send a 700-pound aloft to gather detailed data for the building of a space station.

Occupation Opportunities Plentiful Now For Engineers, Physical Science Majors

Job opportunities for engineers and physical science majors with the U. S. government are plentiful now.

The United States Civil Service Commission announces that there is a need for engineering aids, physical science aids, engineering technicians, and physical science technicians, at salaries ranging from \$3,175 to \$5,440 a year.

Appropriate experience or a combination of education and experience are the main qualifications for these positions. For positions paying \$3,670 and below, appropriate education alone may be qualifying.

Further information and application forms may be obtained at many post offices throughout the United States, or from the U. S. Civil Service Commission, Washington 25, D.C. Applications will be accepted by the Civil Service Commission in Washington until further notice.

Tryouts for Angels Conclude Thursday

Tryouts for Texas Tech's Angel Flight drill team will be Monday through Thursday from 4 to 5 p.m. on the South drill field.

The Angel Flight is an honorary Air Force ROTC auxiliary for coeds, who march with the cadets at parades and similar occasions.

Qualifications for the team are a 1-point (C) average, good posture and drilling ability.

Two Intramural Sports Organized For Tech Women

Women's intramural basketball and swimming is being organized by the women physical education department.

Practice for women's intramural basketball will begin Monday from 4 to 6 p.m. in the old gym. Practice will be Monday through Friday.

There will be a meeting at 5 p.m. Thursday in the Faculty Lounge of the Home Economics building to organize the basketball teams.

Final date for entering a team will be Feb. 14 and tournaments will start March 4. Organizations and individuals are invited to participate in the tournament.

When the teams are organized the gym will be scheduled to the teams.

Winner of the tournament will receive a trophy.

Women's intramural swimming will begin March 27 and last through May 10.

Practice will be from 7 to 10 p.m. every Monday through Friday, except Wednesday night which is recreation night for all students.

A swimming meet will be scheduled at the end of the intramural swimming program.

Any woman on campus can participate and if she is not in an organization a team will be formed for independents.

Gamma Phi's Invite Students to Dance

Gamma Phi Beta sorority will be helping Tech students celebrate Valentine's Day early this year as it will have a "Swinging Sweethearts" dance at 8 p.m. Friday at the Palm Room.

This is a record sports dance and all students are invited to attend. There will be no admission charge.

Red and white hearts will be the decorations for the dance.

Janet Vines is in charge of decoration.

The Palm Room is located on the Idalou highway.

Two Greek Groups Resume Activities

Two greek organizations, Kappa Kappa Psi and Phi Beta Phi, have planned activities for the first part of this week.

Kappa Kappa Psi fraternity will have a smoker at 7 p.m. today in the Union for its members.

Tomorrow, Pi Beta Phi sorority will have a supper meeting at 6:30 p.m. at 2421 19th as the fraternities and sororities resume their weekly meeting for the spring semester.

JOB FACTS FROM DU PONT

BETTER THINGS FOR BETTER LIVING
THROUGH CHEMISTRY

YOUR INTERESTS, SPECIAL ABILITIES ARE IMPORTANT WHEN DU PONT MAKES YOUR FIRST JOB ASSIGNMENT

ROOM TO GROW

There's plenty of room to grow at DuPont. One reason is that the very diversity of our products and processes requires specialists in almost every area of science and engineering. Another reason is that DuPont continues to expand in many new directions.

For example, in 1957 sales reached \$2 billion. Four new plants were being built. New research projects were launched, new products marketed.

In 1957, too, new technical men joined DuPont in chemical, civil, mechanical, metallurgical, electrical, industrial, petroleum

H. J. Hollberg
Dupont
Representative

and mining engineering; in atomic energy, instrumentation, chemistry, physics, mathematics and many other fields.

All this activity points to as bright a future today as ever before in our long history. There's a place for the good graduate in this picture. If you would like more specific information on opportunities at DuPont, we invite you to sign up for a DuPont interview with your placement director.

Personalized Training Relates to Policy of Promotion from Within

Where do your interests lie? What courses have you taken? What are your special abilities? DuPont tries to match these factors with available jobs to determine your first job assignment within the Company.

Once the assignment is made, the Company helps you apply your knowledge to a problem right away. You learn by doing—in consultation with your supervisor and others working on various phases of the same project. Your performance on the job is evaluated periodically, so you always know where you stand in the eyes of your management.

As you might guess, DuPont's personalized training is closely related to its promotion policy. Almost all advancement is made from within the Company, so if your supervision has indicated that you are ready for promotion, and an opening occurs for which your training has prepared you, you are sure to be considered.

Although DuPont employs about 90,000 people, management authority is decentralized through many departments into small groups—small enough so that the new man's capabilities can be recognized quickly. This type of organization, plus the Company's steady growth, produces many opportunities for the new man.

DuPont, over the past 25 years, has spent \$1 on research for every \$3 on production facilities.

DU PONT SUMMER JOB GIVES YOU A CHANCE TO EARN AND LEARN

DuPont offers college juniors and qualified sophomores in technical fields the opportunity to earn college expense money this summer while they learn more about the kind of work that will be open to them when they graduate.

The Company has 75 plants and 98 laboratories located across 26 states—a spread that often gives the student a chance to work in or near his own section of the country. Some of these locations have openings for summer employment in 1958.

Students work side by side with practicing engineers and scientists. In this way they gain valuable experience to supplement classroom theory.

Last year, 407 students from 113 colleges took advantage of this program. DuPont pays round-trip transportation expenses from home or school to place of employment. Students are not obligated to continue with the Company after graduation.

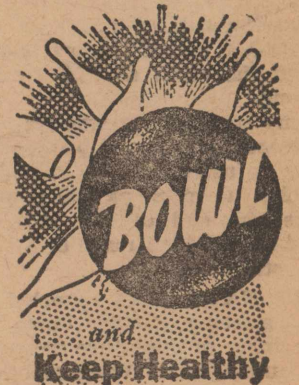

For complete details on this program, check with your college placement director.

SEND FOR INFORMATION BOOKLET

Booklets on jobs at DuPont are yours for the asking. Subjects include: mechanical, civil, metallurgical, chemical, electrical, instrumentation and industrial engineers; atomic energy, technical sales, business administration, research and development. Name the subject that interests you in letter to DuPont, 2494 E. Nemours Building, Wilmington 98, Del.

LLT Presents 'The Rainmaker'

Beginning Thursday and continuing through Saturday of this week the Lubbock Little Theater will celebrate its 10th anniversary with the presentation of Richard Nash's play "The Rainmaker" at 8 p.m.

The cast of "The Rainmaker" will include Shirley Henne as Lizzie Curry, D. M. McElroy as H. C. Curry, her father; Charles Aikins and Fritz Stanley will play the parts of the brothers Noah and Jim Curry. Wildon George will

play the roistering rogue and Bill Starbuck the rainmaker.

The entire production is directed by the former LLT president and leading player, Mrs. Charles L. Cobb, who will be assisted by Mrs. R. K. Green. Walter Clayton, technical director and stage manager, is in charge of the set design. Fred Beasley is in charge of the program design.

Also appearing in the play will be Tommy Hancock as File, the deputy sheriff, and James Curry as Sheriff Thomas.

Tickets may be purchased by calling the LLT box office from

11 a.m. until 5 p.m. Monday through Saturday. Student tickets are \$1.

Cake and coffee will be served at all performances with charter members of Lubbock's acting-producing organization serving as hosts, hostesses and ushers for the three-night run.

Thursday night Mr. and Mrs. Marshall Harvey will share the ceremonial duties. Friday the duties will be shared by Mrs. Weldon George and Mrs. R. K. O'Laughlin. Saturday's spokesman will be Charles L. Cobb.

Juniors Arrange Stunt Night Plans

Information has been sent to all campus organizations by the Junior Class about its annual Junior Stunt Night.

The annual event will be Wednesday, Feb. 26, at 7 p.m. in the for the Union Ballroom to raise enough money for the Junior-Senior Prom.

Each organization has been asked to present a skit lasting no longer than five minutes. Skits will be judged by quality of presentation and audience applause reaction. Awards will be presented for first place in three divisions: all campus, sorority and fraternity.

Deadline of entries is Feb. 19. To insure participation each organization is requested to submit a deposit of a \$5 check made to the order of the Junior Class with its application. If the organization does not present a skit, the \$5 will be returned.

Marines Explain Officer Programs

The Marine Corps Officer Procurement Team will visit Tech Feb. 18-21 to explain the Marine officer program available to college students.

The program for undergraduate students consists of two six-week summer training periods. Upon graduation the candidates will receive commissions as 2nd Lieutenants.

Seniors and graduates may receive their commission upon completion of a ten-week training period following graduation. Training as a Marine Corps Pilot is also available through these programs.

Interviews with men eligible for the officers candidate course are particularly desired.

Red Cross Offers Instructors' Course

An instructor's course, "Care of the Sick and Injured," will be offered by the Lubbock Red Cross Chapter, according to Mrs. Glenn Woody.

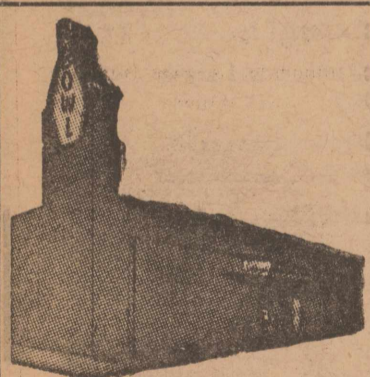

Classes will start Feb. 5 and will meet five times. They will be offered from 9 a.m. to noon or from 1 to 4 p.m. on Wednesday and Friday.

Mrs. Woody, a registered nurse who will teach the course, said that those persons who can speak Spanish, as well as English, are especially urged to enroll.

Not only does the course include the care of the sick, but be-

cause of the recent emphasis on civil defense, it covers the types of injuries that may be expected after a disaster or attack.

Those successfully completing the 30-hour course will receive ARC certificates which authorize them to teach the course in their own communities or civic, church and school organizations.

Funeral Rites Pending

(Continued from Page 1)

and a shot, then I saw Sharla lying on the floor. The two men with the guns ran out the door and then someone covered Sharla up. The ambulance came and took her away.

Another employee at the bookstore, Doris Turpin, said, "It startled me."

THE TWO suspects were apprehended in the Tech Union at 12:20 p.m. by Tech Patrolmen Wayne Swink and Leland Hart.

Averyt, who had been released from the hospital after having his shoulder treated for a gunshot wound, identified the two suspects as they drank coffee in the east portion of the Union.

WHEN THE SUSPECTS saw the officers, they broke for the east door. Swink beat them there, and after he had collared the two, they offered no resistance.

They were taken to Lubbock City Jail where they were booked

and placed in maximum security. Officers feared that the two were in danger of student violence. They said they may be transferred to another city to wait trial. Newsmen were not allowed to question the prisoners.

MARGARET WEBSTER, who works in the Dean of Women's Office, was sitting near the table where the two suspects were having coffee. When the two broke and ran for the door, and the policemen went after them, "I was just plain scared," she said.

Patrolman Swink said they knew nothing of the murder and holdup at first, but a few minutes after 10 a.m. they saw a car speed away from the bookstore with a girl driving. He said there were two boys in the car, and when the car approached 14th and College, the car slowed down and the two men jumped out.

"WE FOLLOWED the car and stopped it on Broadway, and we found two guns and stolen money

in the back seat," he related.

The girl, Martha Morgan, told us the entire story and gave us the name of the two holdup men. We went back to the bookstore and investigated, then went back to the traffic office.

"ABOUT 12 NOON, Averyt contacted us and said he had spotted the suspects in the Union. We caught them trying to run out of the building, and then took them to the city police station," he added.

The two holdup men are being held without bail.

Funeral services for Miss Pepper are pending at Rix Funeral Home.

Skiers Meet Today

The Ski Club will meet today at five to elect officers. Students who went on the recent ski trip are urged to bring any snapshots taken during the trip.

...wet wash...

—wetherington

Things aren't so bad, after all. I mean here we've all got this far together without too many ulcers, and with the help of the profs, the dieticians, Amarillo retailers, and those little red and black capsules, we should be able to pull each other through another semester and things.

AND NOW THAT dead week and exam week are over and the headman's axe has made its final round, with swift and gay abandon, the warmish feeling of being homebodies again has pushed schoolbody problems back away. All this invites a soppy nostalgia for this writer. So this week there's no fantasy, no science-fiction, no dialogue; no unique little ideas for a story.

Just typewriter-talk.

THE WILDERNESS of our academic minds, apprenticed to a world of coffee-breaks and term papers, has led us thus far along the labyrinth of higher things (among them, education). Being pulled haplessly down this maelstrom of knowledge, occasionally pausing for a casual snowball fight in the Union, we have learned many things. Notable among our new-found pearls is the awakening that the proper study of mankind, contrary to the illustrious A. Pope, is not man, but instead is history dates, the binomial theorem, and the muscular system of *Rana Pipiens*. On the other hand, we have revealed, the proper study of womankind (and there are sundry kinds) is man.

THIS SEMESTER we have

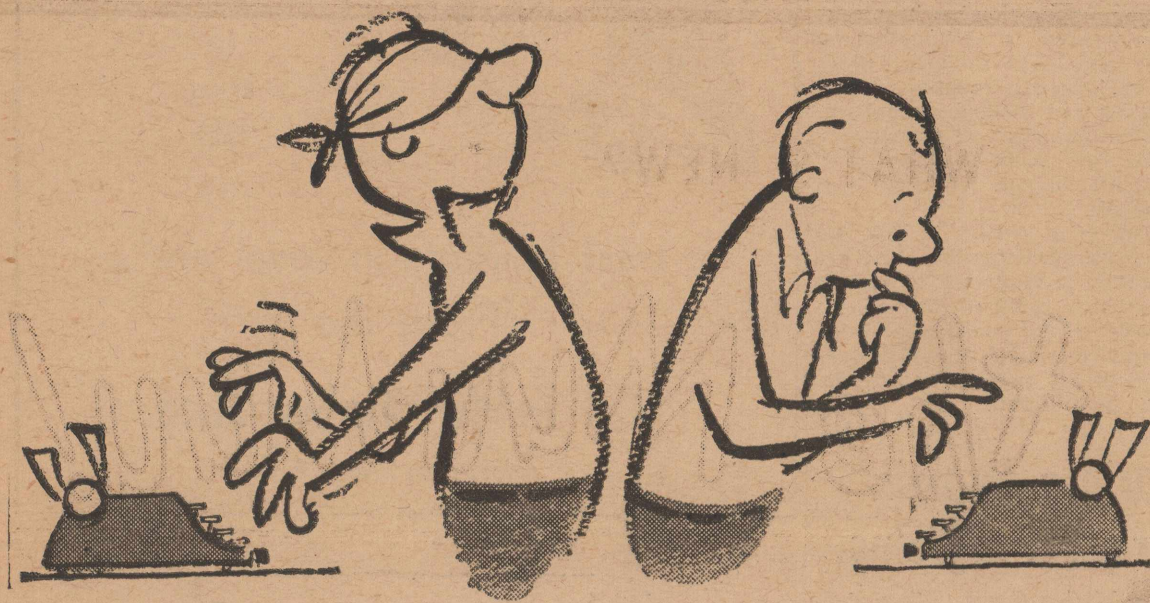

tackled such problems as school spirit, matriculation fees, parking problems, Varsity Shows, short holidays, I.D. cards, and Arizona's halfback. Adding up, we find we now still have the problems, of school spirit, matriculation fee, parking and I.D. cards. The short holiday problems was easily resolved, and we will have a Varsity Show. (We're not too sure about the halfback, but can wait until next year for that.)

A RECENT SURVEY shows, however, that regardless of our defeats — game-wise as well as otherwise — ninety percent of us still come out in a high percentile of victories, all of which goes to show that the high cost of higher education has an edge over the low cost of mediocrity.

And so in conclusion, while the free-world fights the unfree; while Dulles fights the Democrats; while Redstone fights Thor; and while everyone else tosses coins for the first trip to "Far-Side," let us — the privileged few on the inside — pause a moment in retrospect. Forget for a moment the coming term. Forget for two moments. Compare the matriculation fee with McElroy's budget. Compare your academic ulcer with Nixon's headache. Before the next semester frowns, like I said way back in my first column: smile. (If it doesn't hurt too much, even laugh, hey.)

Someday we'll have a parking lot and no matriculation and an overflowing cup of school spirit. Even *wet wash* will pass away.

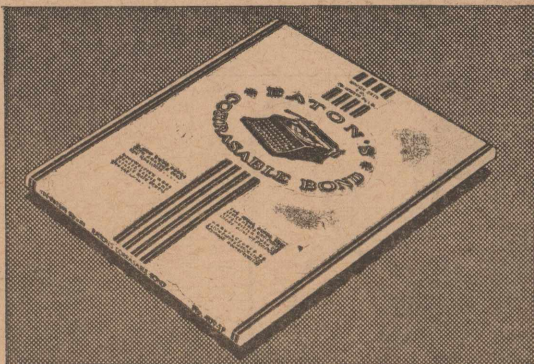

Things aren't so bad, after all.

talks through normal diplomatic channels.

Eisenhower already had ruled out nearly every one of Bulganin's nine agenda points, and Bulganin's acceptance of the idea of preparatory talks seemed based on the West's agreeing first of all to call the summit conference.

Killer Pleads Innocent

LINCOLN, Neb. (AP) — Charles Starkweather pleaded innocent today to a two-count complaint charging him with one of the 11 slayings he has admitted.

Starkweather, looking a little bored, at first waived a preliminary hearing. But after Lancaster County Judge Herbert Ronin explained his constitutional rights, Starkweather pleaded innocent.

JUDGE RONIN SET the preliminary hearing March 1.

The complaint on which the young redhead was arraigned charged him with slaying Robert Jensen, 17-year-old Bennet High School junior.

Starkweather was charged with murder with premeditation and murder in perpetration of robbery in the theft of Jensen's automobile.

Tech Back 'in The Groove' after Win

by BILL DEAN

Texas Tech's Red Raiders are back "in the groove" today following their 57-55 win Saturday night over Texas A&M at College Station.

That win combined with Southern Methodist's 69-66 victory over Arkansas Saturday night in Dallas has tightened the Southwest Conference basketball race considerably.

IT WAS Arkansas' first loss and gave the Hogs a 5-1 conference mark. Tech and SMU are now tied for second with 4-2 records, one game behind Arkansas.

Rice is in fourth position with a 3-2 record and TCU (3-3) Texas (2-3), Texas A&M (3-4) and Baylor (0-7) follow in that order.

Arkansas was due to meet TCU in Fort Worth last night.

Other games this week will send Rice against Texas at Houston and A&M vs. Houston at College Station tonight; A&M vs. Baylor at College Station Friday night; and Tech vs. Texas at Austin, SMU vs. TCU at Dallas and Arkansas vs. Rice at Fayetteville Saturday night.

PODD HILL continues to lead the Raiders in scoring with a 17.0 average. He leads in field goals with 106 and rebounds with 130. Hill is third in conference scor-

GERALD MYERS

ing for the season with 106 field goals and 43 free throws for 255 points.

The lanky junior from Sudan is fifth in conference scoring with 40 field goals and 10 free throws for 90 points.

However, against A&M, Hill experienced one of his worst nights, scoring only four points.

GERALD MYERS, the spunky little guard from Borger, broke out of a mid-season slump against the Aggies netting 18 points, high for the night.

Myers is second in Raider scoring with a 15.5 average. He leads in free throws with 67 and has yet to miss one at home.

His 233 points on 83 field goals and the 67 free throws ranks fifth in the conference for the season.

RON STEVENSON, the TCU flash, continues his scoring domination with 105 field goals and 86 free throws for 296 points for the season. His conference record stands at 37 field goals and 37 free throws for 111 points.

Against the Aggies Polk Robinson's Red Raiders trailed most of the way, twice by 11 points, before staging their comeback. Behind Myers in scoring were Gene Arrington and Chuck Key with 12 points.

IT WAS ONE of Key's best performances of the season.

Clutch free throws by Arrington and Myers in the last minute and 30 seconds gave Tech the necessary margin.

The Raiders journey to Austin Saturday night for their clash with the Longhorns and then venture to Waco next Tuesday night for a battle with the Baylor Bears.

Tech's next home game is with the University of Arkansas Sat-

urday night, Feb. 15. With the reserved seats completely sold out and general admission tickets go-

CHUCK KEY

ing fast, Jimmie Wilson, business manager of athletics, does not expect to sell any tickets at the game. Also most of the reserved seats are sold for Texas, Feb. 18, Texas A&M Feb. 25 and Rice Mar. 4.

Baseball Drills for Pitchers and Catchers Begin

Texas Tech's varsity and freshman baseball pitchers and catchers reported for their first day of drills yesterday.

The pitchers and catchers will work on conditioning and getting their arms and legs in shape for two weeks and will then be joined by the rest of the team for full-scale workouts.

LACK OF pitching depth will be the main problem facing Tech Coach Beattie Feathers, beginning his fourth year as head baseball coach. He will be assisted by Paul Ortoski.

Feathers will probably have the strongest material the Raiders have ever possessed in the diamond sport this spring with 15 lettermen returning from the varsity squad which was 7-4 last year and 19 sophomores moving up from last year's undefeated freshman team.

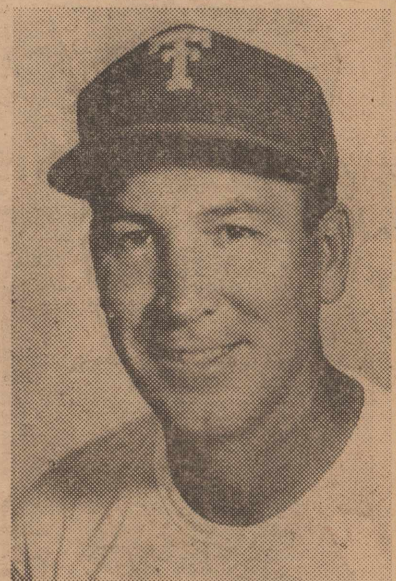

However, only four of these are pitchers with much game experience.

They include Houston Powell of Lubbock and Wick Alexander of Amarillo from the varsity and Billy Tombs of Georgetown and Charles Flanagan of Cactus from the freshmen.

POWELL WILL probably lead the moundsmen. Last year he compiled a 3-2 record and an ERA of 3.53. Powell pitched the first nine-inning shutout in modern history at Tech.

Alexander saw only limited action but posted a seven-inning shut-out for a 1-0 record.

Tombs and Flanagan were the leading freshman pitchers with 4-0 and 2-0 records. Both are hard throwers. Also expected to report is lefty Lawrence Barber who was 2-0 with the freshmen last spring.

Outlook

by BILL DEAN

The addition to the Texas Tech coaching staff of Joe Kerbel and J. T. King makes the outlook for the future bright indeed.

Both coaches bring brilliant records here — records of success. Both have been around and under some of football's best mentors and their knowledge and experience should prove invaluable at Tech.

KERBEL IS a graduate of Oklahoma where he studied under Bud Wilkinson. His first coaching job was at Cleveland, Okla., in 1950-51. He then moved to Breckenridge for three seasons, winning the Conference 3AAA state championship in 1952 and 1954.

His 1954 team was the last high school team to actually defeat Abilene. The Eagles were beaten by Highland Park on penetrations last fall.

From Breckenridge he moved to Amarillo to try and rebuild the sagging fortunes of the Sandies. In 1955 he posted a 5-5 record.

THEN HIS teams won the district 2AAAA crown in 1956 (9-2) and 1957 (11-1) only to lose out in the play-offs.

Let's hope Kerbel can bring along about 11 of his graduating Amarillo seniors.

J. T. KING graduated from the University of Texas in 1938 and became head coach at Kennedy High School. In 1940 he moved to Enid, Okla. and then entered the college ranks as assistant to Henry Franka at Tulane in 1946.

He served as line coach at Texas A&M in 1949 and then came back to Texas as line coach under Blair Cherry and Ed Price from 1950-through 1956.

King was serving as end coach under Bear Bryant last fall and also as the number one assistant.

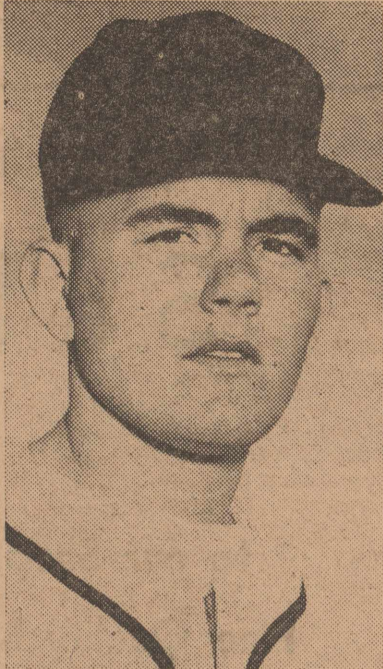

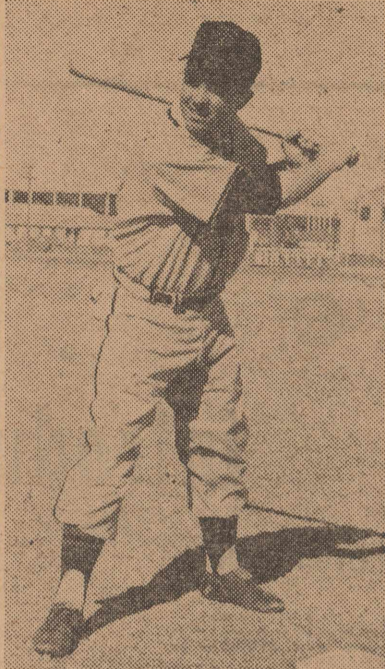

He is well known as a top-notch coach and recruiter.

Swimmers Engage Ponies

Texas Tech's swimmers engage Southern Methodist at Dallas Saturday afternoon.

Coach Ray Kireillis' freshman swimmers, 46-40 winners over New Mexico Military Institute here Saturday, are given a better chance in their match than is the varsity against the Mustang varsity.

SMU is defending Southwest Conference champion.

TWO OF THE returning regulars on the Texas Tech baseball team this spring are pitcher Houston Powell, left, and first-baseman Walter Bingham, right. Baseball workouts began yesterday with pitchers and catchers reporting to Head Coach Beattie Feathers. See story, page 6.

Mountaineers Still Tops!

by HUGH FULLERTON, JR.

The Associated Press

After due consideration of West Virginia's first defeat, sports writers and broadcasters today voted the Mountaineers the No. 1 college basketball team in the country for the seventh straight week. Arkansas, ranked 18th, was the only Southwest Conference team in the top 20.

THE RACE FOR the top spot became wide open when the last two unbeaten major teams, West Virginia and St. John's of Brooklyn, lost last week. But the observers who had liked West Virginia during its 17-game winning streak didn't back down too far after the Mountaineers lost to Duke and bounced back to whip Florida State.

In the weekly Associated Press poll of sports writers and broadcasters, 44 out of 120 put West Virginia on top. The remaining votes were scattered, 27 going to Kansas. The result gave West Virginia 1,061 points on the usual 10-9-8 etc. basis while runner-up Kansas polled 928 points.

KANSAS, IDLE since Jan. 18, didn't get a chance to cash in on the Mountaineer loss by doing something which would impress the experts. Third-place Cincinnati won two games, but a pair of unranked opponents held down Oscar Robertson's scoring and didn't let the Bearcats put on much of a show. Thus Cincinnati again beat out Kansas State by a

rather narrow margin for third place.

Only one change in the Top Ten was made in this week's voting.

Frogs Open Drills

FORT WORTH, Feb. 4 — Weather permitting, TCU's coaching staff took its first look at the 1958 varsity football prospects Monday afternoon.

The expected 79 candidates, including 21 lettermen, will gather for the initial work at 3 o'clock. Head Coach Abe Martin has scheduled five workouts during the first week. The Frogs will work Monday through Thursday, take Friday off, and return Saturday afternoon for a short scrimmage.

THE PURPLES are allowed 18 work days over a 28-day period according to Southwest Conference rules. The sessions are slated to be climaxed by the annual Purple-White intrasquad game on March 1.

"We plan to take Fridays off for the first two weeks and then take two days rest the final two," Martin said. "If we run into bad weather, the entire schedule will change."

MARTIN will be joined in the work by the regular members of the staff—Walter Roach, Allie White, Fred Taylor and Vernon Hallbeck. Also former Purple players, Chuck Curtis, Harold Pollard and Jim Shofner, will assist.

Martinez Gains Free Ride into Finals

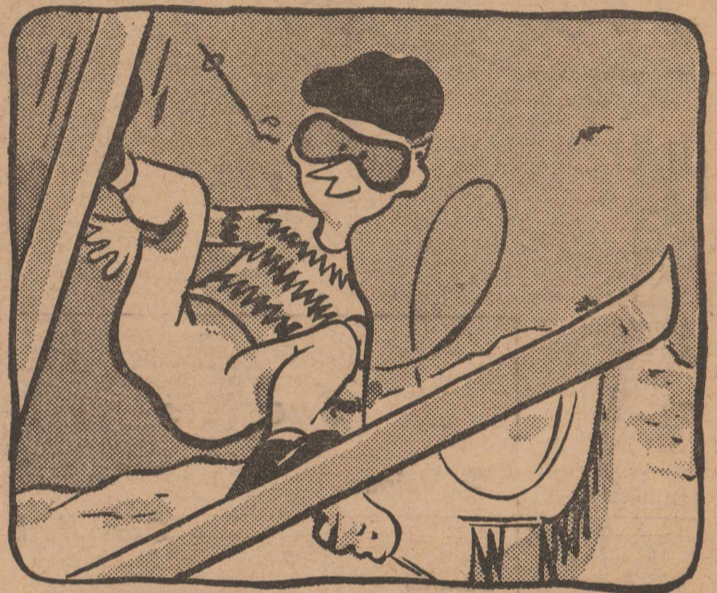

NEW YORK, Feb. 3 (AP) — A draw out of a hat today gave handsome Vince Martinez of Paterson, N.J., a free ride into the final round of the welterweight boxing eliminations tournament. He will meet the winner of a Virgil Akins-Isaac Logart 12-rounder for the title vacated by Carmen Basilio.

If the plans of the World Championship Boxing Committee, headed by Julius Helfand, go through on schedule, a new 147-pound champion could be crowned within three months.

HELFAND, WHO is chairman

of the New York State Athletic Commission as well as president of the world body, ordered the blind draw when Australia's Geo. Barnes, the British Empire champion, declined offers by the International Boxing Club to come to the United States to fight Akins.

THE DRAW WAS conducted by Nat Fleischer, editor of Ring Magazine and consultant to the world committee, at Ring's office. Helfand looked on while Fleischer plucked the names out of the hat. Akins, of St. Louis, was first picked and then Logart, the Cuban contender. Thus Martinez got the bye.

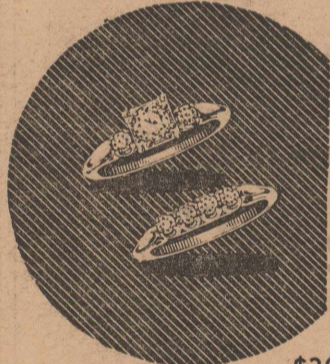

DO SPEED AND SPACE EXCITE YOU?

You can be a career speed merchant if you're an engineer. You may make speed history, if you choose Chance Vought, whose Crusader fighter has set three national records.
