# Deposits here up dramatically

Midland bank deposits registering tremendous gains during the last year were at an all-time high of \$824 707 793 a4 1978 drew to a close This marks the first time that combined deposits of Tall City banks have hurdled the \$800 million figure at a scheduled date of reporting

The figure is up \$83 364 364 from the \$741 443 229 reported at the same date a year earlier and up \$84.605.888 from the \$740-101-905 reported last Sept. 30

Statements of condition of the city's five banks - Commercial Bank & Trust Co. Metro Bank. The First National Bank The Midland National Bank and Western State Bank - were revealed this morning in line with the policy requiring reports to be issued at the end of each quarter

Dec 31 marked the first reporting date for the new Metro Bank which

opened for business Dec 1, 1978 Loans and discounts of the banks also were at a record high as the old year ended, totaling \$531,409,647

The figure is up \$54.472.727 from the \$476 936 920 reported at yearend 1977. and up \$11 532.043 from the \$519.877.604 shown last Sept. 30

The First National Bank reported deposits totaling \$527.244.273. compared with \$463.551.272 a year previously and \$455.458.023 at the end of September

The bank's loans and discounts totaled \$339 793 403 compared with \$301.504.829 at yearend 1977 and \$336.565.530 last Sept 30.

The Midland National Bank had deposits totaling \$211.234.284. compared with \$200.539.990 at the same date a year ago and \$211.045.026 three

weather history, a wintry cold front this morning dropped the temperature to zero degrees

**By ED TODD** 

**R-T Staff Writer** 

The low, which came around 7 a.m. marked the fifth time since 1933 that the mercury has plunged to zero -18 Celsius) or lower, said a weatherman with the National Weather Service at Midland Regional Airport

## Air travel slowed here by weather

#### By LANA CUNNINGHAM **R-T Staff Writer**

Travelers who thought they would be leaving Midland or some other city in the Permian Basin over the holiday weekend found their stay lengthened. but not by their choice

And if the ice and snow don't melt off the runways at Midland Regional Airport quickly enough, those travelers will be putting themselves up for another night in several West Texas towns.

Director of Aviation Col. Wilson Banks said early today the Midland airport's runways were "still fairly slippery. The braking action is poor to fair

While the airport has never been officially declared "closed," Banks said, all airlines have been advised of the conditions and "it is at the discretion of the airline to operate or not." On Sunday and Monday, the air-

lines chose not to operate and all (Continued on Page 2A)

## **Reds ask Goldwater** to help reunify Taiwan

PEKING (AP) - Vice Premier Teng Hsiao-ping today invited Sen Barry Goldwater to Peking to discuss reunifying Taiwan with the mainland. said he intended to use the "hand of peace" toward the offshore island. and indignantly rejected a Republican congressman's suggestion that China wants to industrialize for conquest

Teng made the remarks in a lively two-hour meeting with eight members of the U.S. House Banking Committee, led by Rep Thomas L. Ashley, D-Ohio. It was his first meeting with American legislators since diplomatic relations were established Monday

Details of the meeting were learned from the congressmen and a recording made by Rep. Richard Kelly, R-Fla., who made the charges of possible Chinese expansionism.

Answering a question from Rep.

John J. LaFalce, D-N.Y., about the future of Taiwan, Teng replied it was an internal matter but reunification would be sought through peaceful means

He said China had adopted a "realistic attitude" toward Taiwan and agreed that Taiwan should have people-to-people and trade relations with all countries

'We all have two hands and the Chinese have two hands," LaFalce quoted him as saying. "We have the hand of peace and the hand of war and we want to use the hand of peace in order to bring about the reunification of our people.

Then he added: "If political figures in the United States also want to bring about a peaceful resolution to the Taiwanese situation, we would hope they would not put up any obstacles in our way.'

## U.S. and China toast beginning of new era

launched new relations with the United States with a blast at Soviet "expansion and aggression" and an invitation to Taiwan to "go with the tide" and reunite with the mainland. China's double message was

brought home by Ambassador Chai Tse-min in receptions Monday on the first day of what Vice President Walter F. Mondale called "the dawn of a new and bountiful era.

The Chinese diplomat said by establishing ties, his government and the United States were broadening a common front against "hegemony" and serving a warning "to those countries and groupings that seek hegemony.

Mondale, in an exchange of champagne toasts at a reception hosted by Chai, said the establishment of full relations reflects a realistic sense of U.S. and Chinese interests and a mutually beneficial relationship.

What has brought us together is an awareness of our parallel interests in creating a world of economic

WASHINGTON (AP) - China has progress, stability and peace," he said

Behind Mondale and Chai, as they stood side by side in a crowded room in the renovated hotel the Chinese use as their headquarters, were flags of the United States and the People's Republic. The American flag was pinned on the wall backwards, its stripes pointing leftward.

Smiling Chinese diplomats mingled with past and present U.S. officials, exchanging New Year's greetings and expressions of friendship. With Mondale on the dais were Secretary of State Cyrus R. Vance and Zbigniew Brzezinski, the U.S. national security assistant

Expressionless and following his prepared text closely, Chai declared.

"The normalization of Sino-U.S. relations is not only in conformity with the aspiration and interests of the Chinese and American peoples, but also will certainly play an active role in combating the expansion and ag-(Continued on Page 2A)

## Sunny skies to continue

### (Continued from Page 1A)

the Midland area. The mercury hit the freezing mark - 32 degrees at 10 a.m. Saturday, and hasn't drifted up to the thawing temperatures since then, said the weatherman before noon today.

However, that may change Wednesday, when sunny skies are expected to bring in a relative warmth — into the low 40s - and should lead to a thrawing of the iced-over outdoors.

The high today was expected to reach into the mid-20s, and the low tonight should to drop to the low teens, according to the weatherman. Other than this morning's zero reading, the zero or below temperatures in recorded history here are: minus 11 on Feb. 8, 1933; minus 1 on Feb. 1, 1951; zero on Feb. 2, 1951, and minus 8 on Jan. 11, 1962, said the weatherman.

The record high temperature for a Jan. 1 is 73 degrees, set in 1965. The previous record low for a Jan. 2 was 15 degrees, set in 1974.

Since Saturday, when the freeze set in, workers in the city of Midland's streets department have been pouring brine water over intersections and along major thoroughfares such as Big Spring and Garfield streets and Wall and Front avenues, said Mike Butler, superintendent of streets.

"We got the crews out working," he said this morning. Lacing major state and federal in-

tersections with salt and sand since Saturday has been the Texas State Department of Highways and Public Transportations.

A highway department spokesman said Interstate Highway 20 and U.S. Highway 80 were passable this morning, even dry over the more heavily traveled areas.

However, a spokesman for the Texas Department of Public Safety said "all the roads" west and east of Midland were icy and that "traffic is discouraged.

"The farther east you get, the worse it becomes," said the spokesman.

Many of the mechanical and electronic computerized traffic signals in the city were operating erratically this morning, said Doug Vanover, Midland's traffic engineer.

Some, particularly the mechanical opearated signals, were sluggish and were taking two to three minutes to cycle, said Vanover.

"I think by the time the sun gets out, the problem will be all right," Vanover said.

Cites and towns throughout the Midland area this morning reported icing and hazardous driving conditions.

Not everyone in the Tall City started the new year with a holiday. Some restaurants, food stores, medical facilities and, of course, the

## Intense cold front, accompanying hazards moving eastward today

#### **By The Associated Press**

An intense cold front that socked the Rocky Mountain states and Midwest over the weekend appeared to be moving slowly eastward today. The East was near-balmy, but there

was a hint that it could yet get a taste of the iey blast that knocked out power, stranded thousands and killed at least a dozen people on highways and while they shoveled snow.

Early-morning readings in the 50s and 60s along the East Coast felt more like April than January, while the Great Plains and Southwest still Shivered in sub-zero cold.

The mercury hit 64 degrees at midnight in Baltimore, breaking the 24vear-old record for Jan. 2, according to the National Weather Service.

Meanwhile, a foot of snow still covered the ground in much of Kansas and Missouri. And thousands of resi-

state, trailing freezing rain and sleet. The freeze was an abrupt change from the New Year's Day readings that soared into the 50s and 60s.

An ice jam on the Kansas River left Lawrence, Kan., a city of about 50,000 population, with virtually no water and closed the University of Kansas campus there.

A heavy snow warning was issued for northeastern Ohio, and winter storm watches were posted for West Virginia, western Pennsylvania and western New York.

The mercury settled to 23 below zero in Moline, Ill., at daybreak. Chi-

Some flights from Midland airport expected, Banks says

cago registered -12, but shivered as high winds produced a wind-chill factor that made it feel as cold as if it were -41 with no wind.

A foot or more of snow had plas--tered northern Illinois over the long weekend, and high winds created near-blizzard conditions. Traffic at Chicago's O'Hare International Airport slowed almost to a standstill Monday, with four of five runways shut down and delays of up to 21/2 hours. After a second runway reopened late Monday, delays were reduced to about a half hour, an airport spokesman said.

## China pact still protested

#### (Continued from Page 1A)

world

gression of hegemonism and upholding peace and stability in Asia and the

As is the custom in China's bitter public quarrel with the Soviet Union, the buzzword "hegemonism," meaning an imperialistic spreading of influence, was used to attack the Kremlin. The Chinese diplomat, as is also the custom, made no direct mention of the Soviets by name.

Earlier, in much the same impassive tone, Chai called Taiwan an integral part of China. "The day will certainly come when Taiwan reunites with the mainland," he said.

U.S. officials said films of the Chinese reception would be relayed by satellite to China where, for the first time, U.S. documentaries on Ameria can life were shown New Year's Eve

To mark the upgrading in relations, the Chinese hoisted their flag in front of the building. A formal exchange of ambassadors is set for March 1.

Hundreds of Chinese who support Taiwan marched behind Nationalist flags from the city's Chinatown to the White House before President Carter returned from Camp David, Md. They stood along the sidewalk, across Pennsylvania Avenue, chant-

ing "Keep China Free" and singing patriotic songs. The demonstration was peaceful.

dents in the Dallas and St. Louis areas were without electricity late Monday and early today as ice-laden power lines snapped under the weight.

At one point Sunday, more than 130,000 in the two cities were without electricity

Power company officials in Dallas were calling it the worst ice storm in 30 years. Many of the 10,000 Texans without power Monday were told they could expect no power until sometime today

In Amarillo, the mercury dropped to 8 below zero. The town of Corsicana, Texas, 53 miles south of Dallas, put up 600 stranded motorists - many of them returning from the Cotton Bowl in Dallas - after ice prevented further travel on Interstate 35.

Weather-related traffic accidents in Wisconsin, Missouri and Kansas accounted for at least three deaths. Other deaths were reported by police in Chicago and Milwaukee, where a total of five men collapsed and died while shoveling snow.

Some of the coldest readings New Year's day were felt in Colorado, Idaho and Utah where the mercury dipped as low as minus 45 — and felt even colder because of high winds. However, forecasters predicted more moderate temperatures as the storm moved on.

Travelers advisories were issued early today for the eastern half of Michigan, most of the Ohio Valley, Tennessee, northwest Arkansas, and the Gulf Coast states from Texas to Georgia.

"The asphalt absorbs heat and we should have some aircraft operating within a few hours," he said about 9 a.m. today.

flights into and out of the airport were

cancelled, according to spokesmen

for the three commercial airlines.

(Continued from Page 1A)

A spokesman for Texas International said today's morning flights were cancelled, but that his company would be monitoring the condition of the runways in trying to make a decision about flights later today. Southwest Airlines also cancelled

its morning flights - as did Continental Airlines. Charles Logue, regional director for Continental, said that airline's flights "at noon are subject to runway conditions.

Meanwhile, would-be passengers who have been waiting for flights must arrange with their respective airline about finally getting a flight out of the Midland airport. Logue said it is up to the individual as to when he wants to leave and what space is available on the flights.

Despite the cancelled flights, Banks said the only time the airport building has been filled with disgruntled passengers during the current cold siege was Saturday night when the first flights were stopped. Since then, passengers have checked before driving out to the airport, he added.

"People have asked why we don't have the equipment to keep the runways clear or why we don't sand or salt the runways," Banks said.

A few years ago the two commercial airlines then operating out of Midland — Texas International and

## Roustin' About

### (Continued from Page 1A)

ing, the cold front drops the temperature well below freezing and into zero degrees Fahrenheit (-18 Celsius), you wish your car, van or truck were fur-lined.

Up North, where today's weather is a common wintry occurrence, many cars, though not fur-lined, are prepared, or so "they" say. Electric heating coils keep the engine warm and primed for a ready start.

But since those plug-in coils don't seem readily available down here, here's a suggestion from Dave Williams: just drop a trouble light into your engine compartment, plug it in, and let the watts keep your engine warm.

Be careful and cautious, please, for the passing current could cause shocking injury.

And just be trusting that the light won't draw unsavory characters to your "wheels."

Once on the roadways and shivering from the cold yet to be purged from the interior of your car, be watchful of the car's tendency to slip and slide.

Continental - were asked if they wanted to invest in equipment for bad weather, the aviation director said.

Both companies said it would not be worth the \$150,000 to \$200,000 investment to let the equipment "sit around for two or three years before using it. It was the consensus of the two that it (bad weather) happens so rarely here the investment in equipment would not be worth it."

And larger airports which do have the equipment still encounter problems, he said.

If the runways were covered with sand, Banks said, the sand would have to pure - free of any foreign material such as rocks and leaves. 'Pure sand is hard to come by out here," he noted.

Salt corrodes the runways and the aircraft, and such action is prohibited by the airlines, Banks said.

'It's an impossible situation," he said. "I realize people want to get out. If I could do something about the weather, I would. But I can't."

## Theft of tool box reported by man

James C. Brothers of the 2400 block of Emerson Court, told Midland police Monday night an estimated \$274° worth of property had been stolen from his garage.

Officers said they were told a tool box, a check and a drill were discovered missing.

Brothers said the property was removed from a workbench sometime between 3 and 6 p.m. the same day. He reported the thefts to authorities at 8: 55 p.m.

VATICAN CITY (AP) - Pope John Paul II welcomed the new year with a special "peace prayer" asking for an end to war and hatred

Speaking on the Roman Catholic Church's "World Day of Peace," the 58-year-old pontiff Monday directed his Happy New Year wishes to the sick, imprisoned and those held by kidnappers in Italy.

"Deliver us from war, from hatred, from the destruction of human life! Don't let us kill!" the pope said. "...Deliver us from evil! Defend us from war! From any war.

The pontiff also issued a papal message for the day, entitled 'To Reach Peace, Teach Peace." The message, released 10 days ago, asked "all of you who desire peace to make gestures of peace, even audacious ones, to break free from vicious cycles and from the deadweight of passions inherited from history.'

The students paid \$375 to buy the shoes at an auction in Beverly Hills, Calif. Now they're writing the late singer's third husband, Sid Luft, who staged the sale, and her daughter, Liza Minnelli.

OPA-LOCKA, Fla. (AP) -Cliff Robertson's movie airplane is headed for an unhappy takeoff, but the crash will be an illusion.

Officials of Prunier Productions say they plan to "crash" the DC-8 at Opa-Locka airport next week, and then return the \$500,000 jet unharmed to its owner, Concord International Airlines.

In the scene, the plane will veer off course on the runway, smashing through a plastic foam model of a radar shack. One engine will "explode" and a fireball of flame will engulf the craft.

The sequence is the finale to a film called "The Pilot," in which Robertson portrays an alcoholic airline captain. Robertson, a licensed commercial pilot, will do his own flying.

**Production manager Boyce** Harman said he's confident the crash will be a success - in a cinematic sense - but there's no way to rehearse. "'It's one of those things that

you shoot the shot, then everybody goes to church until you see the rushes," he said.

NEW YORK (AP) - Billy Carter says his brother Jimmy is "probably the most brilliant man I've ever known" but that he himself is more popular and makes more money.

"I get along with folks," the president's brother said in a Penthouse magazine interview. "My audience is not the real high-class crowd, not the middle class, but more the working class.

"I hate to say it," he said, "but I guess I'm one of the best

## Draft constitution has few surprises

#### **By MAUREEN JOHNSON**

SALISBURY, Rhodesia (AP) -The draft constitution for war-torn Rhodesia after its black majority gets the vote was published today and contained, as expected, provisions for whites to retain control of the military, judiciary and civil service for at least five years.

The only surprise in the 147-page document was a stipulation that the country will be named Zimbabwe Rhodesia. This combination of the black and white names for the country was another defeat for the three black leaders who joined Prime Minister Ian Smith in a biracial transition government 10 months ago.

Spokesmen for the two leading nationalists in the government, Bishop Abel Muzorewa and the Rev. Ndabaningi Sithole, protested retention of the name honoring Cecil Rhodes, the 19th century founder of the former British colony.

The constitution is to be submitted to Rhodesia's 80,000 white voters in a referendum Jan. 30. If approved by them, it is scheduled to take effect after adults among the 6.8 million blacks vote with the whites on April 20 in the country's first universal-suffrage election.

Ultra-rightist white groups also protested the constitution, and a small white liberal group called the National Unifying Force is urging a "no" vote in the referendum because the two guerrilla armies fighting the government do not accept it.

However, the whites are expected to endorse the constitution reluctantly, accepting Smith's argument that black rule is inevitable and the constitution's safeguards for white rights and privileges is the best then can

In accordance with the Salisbury

Agreement between Smith, Mu-zorewa, Sithole and Chief Jeremiah Chirau last March 3, the constitution reserves 28 of the 100 seats in the legislature for whites for 10 years, enought to block changes in the constitution. After 10 years, a judicial commission will "review the question of retaining the 28 white seats," the constitution provides.

It also incorporates a later agreement that whites will hold 25 per cent of the cabinet seats for at least five years.

The whites' retention for at least five years of control of the armed forces, the police, the judiciary and the civil service will be effected by stringent qualifications for top offices or membership on commissions which control appointments.

The constitution provides: -The public services will be controlled by a commission of three to five members dominated by persons from the two top grades of the civil service. All of these senior civil ser-

vants are whites. -The police commissioner must have at least five years service as an assistant commissioner, and all assistant commissioners are now white.

-The army and air force com-manders will be appointed by a commission dominated by current senior commanders, all of them white. -Members of the judiciary and a

watchdog commission to prevent the firing of judges for political reasons must be senior lawyers with 10 years experience. There are now only a handful of blacks with such qualifications.

The draft constitution also incorporates a declaration of rights providing for freedom of speech, assembly and 'protection from discrimination." It also protects white holdings by

stipulating that the state can seize personal property only on court orders, and compensation must be paid.

Dual citizenship is also permitted, allowing the white holder of British, South African and other foreign passports to retain them.

## One for the Congress

Now is the time for Congress to come up with some worthwhile. meaningful New Year's resolutions, and one of the major ones should have to do with heeding the grievances of taxpayers across the length and breadth of the land.

This undoubtedly would be a tough one for Congress to achieve. but a serious effort should be made in this direction.

And in this connection it is hoped that Sen. William Proxmire, D-Wis., is correct in his observation that Congress will prune President Carter's budget. as lean as it may be.

The senator, in his assessment of the attitude of the next Congress, said, "Contrary "to general opinion, Congress will cut even a tight-fisted presidential budget in the new fiscal year."

This, of course, had to do with the President's previously announced plan to submit a budget with a deficit of less than \$30 billion, with increases indicated in military funding:

Proxmire predicted that there will be tremendous pressure on Congress to keep budget items high. He said that various government agencies, including the Defense, State and Labor departments, HUD, HEW and others, "will be lobbying through the back door and organizing their friends to restore the congressional cuts plus any more thay can get."

But, he continued, "The budget will be cut because there is overwhelming support from the public, to which Congress is responsive, to cut and cut hard and because spending was an issue on which many members of Congress campaigned."

JAMES N. ALLISON JR. (1931-1978)

He went on to predict that Congress will not only cut the president's proposed budget below what he sends to Capitol Hill but that the reductions "willresult in more efficient, effective and humane government programs.'

You undoubtedly have heard comments like this on numerous occasions in the past, but it just could be that the messages of the taxpayers during the year just ended have gotten through to the powers that be. We can hope anyway, as we celebrate the New Year in anticipation of better things to come fron Congress in the area of fiscal responsibility.

It is interesting also to note that Senator Proxmire comments that Congress is responsive to public opinion, in this regard. Hopefully, his assessment is right.

He also remarked that the budget will be cut because many members of Congress campaigned on this particular issue. Well, campaign promises are not usually worth a whole lot on the open market.

Performance is what counts. Again, and hopefully, the new Congress will chart a course leading to fiscal responsibility by reducing the federal budget in the months ahead. It's up to Congress.

## Disasters and fraud and HUD

### By JACK ANDERSON

WASHINGTON - When a flood or other disaster strikes a community. the National Guard is often mobilized to prevent looting in the stricken area. Unfortunately, there is no such hardnosed effort to prevent the looting of public funds by contractors and government employees who prey on other people's misery by overcharging for repair work or submitting exorbitant overtime claims. Federal auditors and other official watchdogs have a tough enough time fighting waste in normal situations; after a disaster, the controls are loosened to the point of absurdity as federal agencies try to expedite relief measures for the victims. A glaring example of disaster-relief extravagance is in the Housing and Urban Development Department's emergency preparedness staff, which provides temporary homes for displaced victims and minor repairs for their damaged residences. Over the years the staff has aided thousands of families hit by disaster. But it has also let employees and contractors take advantage of its slipshod supervision, at a staggering cost to the taxpayers. Here are some of the abuses our associate Peter Grant uncovered: Overtime rip-offs. During the 1977 Johnstown-flood, HUD staffers on the scene logged 22,302 hours of overtime in the first month. Disaster relief isn't a 9-to-5 proposition, of course, and sometimes employees must work around the clock to speed aid to the victims. They would be criticized if they didn't. But a HUD review of the Johnstown office disclosed that the staff was in fact underutilitzed, "with employees reporting late, reading newspapers,

correspondence." In the recent West Virginia floods, it turned out that 90 hours of overtime were tabulated for every family placed in temporary housing - Sloppy inspection and shoddy

repair work. Furnaces and water heaters were replaced when cleaning or patching would have been adequate. Contractors have "repaired" parts of structures that were not damaged by the disaster. Auditors found more than \$2.8 million of such waste in a study of last year's Kansas City flood alone Most of the blame can be traced to

"we'd be criticized for that."

- Inadequate steps to correct abuses. One overtime investigation was cut short by upper echelon officials just as it was about to identify the guilty parties. Knowledgable sources told us that two officials working on the overtime swindles were forced out of the agency.

## \$6.4 billion in fuel in 1977.

### THE BIBLE CAN YOU QUOTE IT?

#### By LAVINA ROSS FOWLER AND ELIZABETH ROSS WIERSEMA

1. The story of Judas Maccabeus is found in the Douay Bible, which contains the Apocrypha. His rededication of the Temple at Jerusalem in 164 B.C. is commemorated by the Feast of Chanukah. It is known as the Feast of Lights, beginning this year on Dec. 25 and ending Jan. 1. It is reasonable to believe Jesus and His apostles observed this holiday. Why? Matthew 26:17

2. How did the "wise men" prove themselves wiser than Herod? Matt. 2:12

3. With what final insult did the soldiers mock the convicted Lord? John 19

4. "How beautiful upon the mountains are -----." Isaiah 52:7

5. "It is more blessed to ----- than to -----." Acts 20:35

Four correct...excellent. Three correct...good.

to recover the cost of the Jonestown airlift, either from the \$1 million found at the camp or from the millions believed deposited by the Peoples Temple in various bank accounts.

The cost of the airlift was exaggerated in early reports. It now develops that the government's actual out-of-pocket expense for transporting the 900 bodies from Guyana back to the United States was less than \$1 million.

It was a proper expenditure, under the circumstances. But if financial recovery can be made without burdening the families of the victims, it definitely should be.

### IT HAPPENED HERE

- 30 YEARS AGO (Jan. 2, 1949): Midland was 10th among\_Texas cities in building permits issued during 1948, according to an Associated Press survey. Permits here totaled \$7,272,990, an all-time record.

poor on-site inspection of the affected homes. "Damage assessments and feasibility inspections in some cases were terrible," an official told us. "Some inspectors obviously made their inspections from their cars."

Overcharges by contractors. During the Boston flooding last year, for example, contractors were paid from \$80 to \$140 for pumping out septic tanks. The going rate before the Santa Clauses from HUD began handing out contracts was about \$60.

One disaster relief official admitted that the price the government pays "is high regardless of where we're So lucrative are the disaster at." contracts that the contractors descend on a disaster like vultures from all over the country. A 20-man crew came all the way from Texas to work in the Boston area last year, for example.

John Gibson, the director of HUD's emergency preparedness staff, pointed out that efficiency sometimes has to be sacrificed to streamline the agency's disaster responses. "If we were slow in responding." he said.

Even the corrective actions tend to backfire. HUD began requiring a supervisor's approval for overtime claims of more than 12 hours. Now, one source said, employees just charge the government 12 hours a day in overtime, whether they worked it or not. Many of these abuses, director Gibson insisted, are being eliminated.

Footnote: We have received hundreds of letters from citizens across the country who are eager to help us keep a watch on waste. Although this overwhelming response precludes individual replies, we are investigating the most serious charges. Those who know of government waste, meanwhile, can write to Jack Anderson's Watch on Waste, Box 2300, Washington, D.C.-20013

SOVIET PERSECUTION: The Soviet government has shown no inclination to live up to its Helsinki promise to stop persecuting religious groups. The victims are not just Jews who want to emigrate.

Another sect that has been badly abused is the Church of Seventh Day Adventists. Searches of members' home by the secret police are commonplace.

According to the congressional Helsinki Commission, the church's 83year-old chairman, V.A. Shelkov, was arrested last March. He had already spent 23 years in prison, labor camps or exile. After his arrest, the police ransacked his daughter's home for four days, tearing out walls, ripping up floors and shredding mattresses, pillows and upholstery in the search for "subversive" material.

Another Adventist, Yakov Nikolaevich Dolgoter, refused to reveal where he had obtained religious literature. Interrogators took turns beating him, dousing him with cold water, tossing him from side to side like a ball, and threatening him with execution.

The police then instructed him not to discuss the beatings with anyone. The dauntless Dolgoter refused

### **BIBLE VERSE**

And all they that heard it wondered at those things which were told them by the shepherds. But Mary kept all these things, and pondered them in her heart. - Mat. 2:18,19.

President Jose Lopez Portillo has said repeatedly that Mexico will not cut prices of its petroleum exports below world market levels. In line with that, Jorge Diaz Serrano, director general of the government oil monopoly. Petroleos Mexicanos, announced that Mexico was raising its prices right along with OPEC in 1979.

However, as the U.S. State Department had commented prior to that action, "even though Mexico sells its petroleum at world prices. proximity to the United States and the resultant lower cost of transporting oil provide an economic incentive for us to continue to be Mexico's most important market.'

### White House must realize that the tax revolt lives tually, the Social Security tax suspen-

#### By ROWLAND EVANS AND ROBERT NOVAK

INSIDE REPORT:

**WASHINGTON** — Unless there is an awakening to reality at the White House, President Carter is in danger of being bowled over for the second straight year by the unexpected advent of the tax revolt.

With the adjournment of Congress and end of the election campaign, the president and his advisers wrote off tax cut fever as an aberration happily departed. In fact, lawmakers returning here Jan. 15 will have tax-reduction schemes in their hands and hearts, with the prospect of full-scale anti-tax rebellion if a recession is around the corner.

Inexperience might explain Carter's loss of control in the 1978 tax fight. But there is no excuse for being hit from the blind side so soon again.

While the president and his men congratulate themselves on the demise of what they consider the tax-cut hysteria, they actually face two threats as the new Congress convenes:

Threat No. 1: Carter's "wage insurance" scheme may well be converted inside the House Ways and Means Committee into a tax "indexing." That is, the president's limited tax relief - compensation for inflation to workers whose unions forgo inflationary wage increases - would turn into general tax relief for everybody to offset inflation. That is nothing more

or less than a general tax reduction. This proposal is privately pushed by Republican members of Ways and Means, but surely will pick up Democratic votes because of its wide popularity. Once again, Carter will be in danger of opposing a measure demanded by the economically desperate middle class.

Threat No. 2: As soon as Ways and Means disposes of "wage insurance," pressure will be exerted to suspend the excruciating schedule of Social Security payroll tax hikes beginning in 1979. Rep. James Jones of Oklahoma, a rising Democratic power on the committee, is preparing just such a bill for early introduction.

Introduction of any Jones bill ought to sound warning buzzers at the White House. The Carter team ignored his tax reduction bill in 1978 to the president'as later dismay, when it was passed intact by the House. Acsion is only one of several administration-opposed-"anti-inflation" proposals being drafted by Jones (lower mimimum wage for youth, suspension of revenue sharing to the states, a spartan welfare reform). But it is the one with widest support.

Moreover, scores of congressmen will return to Washington carrying variations of the Nunn bill in their briefcases. The proposal by Sen. Sam Nunn of Georgia, to cut federal income tax rates annually if there is an annual reduction in spending, had majority support in both houses but died in the session-end maneuvering. Its attempted resurrection in the face of White House hostility is assured. Finally, behind all this lies the specter of recession. Should unemployent push toward seven percent in 1979, as

widely forecast, there will be a major congressional push for a quick tax cut to stimulate the economy. It is one certainty of life on Capitol Hill.

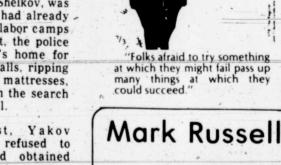

Yet, with the conspicuous exception of Treasury Secretary W. Michael Blumenthal, the consensus within the Carter administration is that Congress will react to recession with the discredited old medicine of public works spending. "The tax revolt is just as dead as Kemp-Roth," one administration policymaker told us. In post-mortems of the past year, administration officials actually suggest the president should have vetoed the tax cut and gone to the public for

justification rather than signing a measure that he had little or no part in shaping. Indeed, so anxious were • the president's men to defeat the Republican Kemp-Roth tax reduction bill that they deluded themselves about the political reality of tax-cut fever.

Blumenthal knows better. While no advocate of an additional tax cut, he understands its solid political appealand depth of support in Congress. The secretary of the treasury got nowhere the last two years trying to educate the president about what was and was not possible in tax legislation. Now he is trying once more to convince the White House that the tax revolt is not

the Carter anti-inflation strategy.

only alive and well but a menace to

WASHINGTON (AP) - A member of the House assassinations committee says there is no evidence of a political conspiracy in the assassination of President John F, Kennedy.

However, Rep. Richardson Preyer, D-N.C., said the Justice Department should look into the possibility that individual members of organized crime or anti-Castro Cubans were involved in the killing.

In a statement issued Monday, Preyer said:

'Our committee believes that it was not a political conspiracy in the broad sense of the word. We exculpate all major groups and conclude that changing the institutions of government was not the goal of the possible conspirators.

"We find definitely that there is not a scintilla of evidence implicating involvement in the assassination by the Secret Service, CIA and the FBI....The committee believes the Soviet government and the Cuban government were not involved in the

Department to investigate what it characterizes as new evidence that both Kennedy and civil rights leader Martin Luther King Jr. were slain as a result of conspiracies The Justice Department has not

Bob Armstrong was sworn in Monday for another 4-year term in the

## 7 still sought in Monday's **Cummins Prison Farm escape**

CUMMINS PRISON FARM, Ark. (AP) - Seven inmates were being sought today after escaping from Cummins Prison Farm when they overpowered guards and seized control of the prison's maximum security unit for about an hour.

The seven apparently broke out into the 10-degree weather Monday night wearing just the standard prison garb, long-sleeved, white denim uniforms, said Tim Baltz, a spokesman for the state Correction Department. Five other inmates involved in the escape attempt were captured a short time later, including Paul Ruiz, 28, who is under a death sentence for slaying two Arkansas law enforcement officers.

One of the six guards received minor injuries and was taken to the prison infirmary, but the others were unharmed, said Tim Baltz, a spokesman for the state Correction Department

Baltz said about 80 state and local law enforcement officers and prison officials were scouring the sprawling

### DEATHS Sarah Blocker

STANTON - Services for Sarah Modene Blocker, 89, of Stanton are pending with Gilbreath Funeral Home in Stanton

Mrs. Blocker died early Monday in a Stanton hospital following a lengthy illness

Mrs. Blocker was born Oct. 12, 1889, in Missouri. She had lived in Stanton 32 years. She was a member of the First United Methodist Church here. She married J. William Blocker Oct. 9, 1946, here. He preceded her in death.

Survivors inlude a son, Jack Drake of Big Spring; four stepsons, H.S. Blocker and John Blocker, both of Stanton, W.M. Blocker of Hobbs. N.M., and George Blocker of Jal, N.M.; three stepdaughters, Mrs. Troy Minn of Andrews, Mrs. Betty Sadler of Alamagordo, N.M., and Mrs. Bobby Snodgrass of Stanton, four grandchildren, five great-grandchildren, 21 stepgrandchildren and 36 stepgreat-grandchildren.

### **Howard Hays**

Services for Howard L. "Doubletree" Hays, 52, of 1215 Moran St., will be held at 2 p.m. Wednesday in Newnie W. Ellis Funeral Home here with Rev. Ross Payne, pastor of Cottonflat Baptist Church, officiating.

Burial will be in Greenwood Ceme tery under direction of Newnie W. Ellis Funeral Home.

Hays was born Sept. 2, 1926, in Lynn County and spent his early life there. He moved to Midland in 1938 and attended schools here. He was married to the Wanda Jo Young in 1950. He was a former radio dispatcher for the Yellow Cab Co. in Midland.

Hays, a Baptist, also was a member of the Midland CB Club.

Survivors include his wife; a son, Dennis Daniels of Tacoma, Wash.; a daughter, Sharion Butler of Midland; a brother, Bill Hays of Brownwood: three sisters, Alma McMiHan of Tahoka, Charlene Aldridge of Clifton and Velma Gaylor of Wolford, and three grandchildren.

### **Randy Sperry**

Services for Randy Sperry, 22, of 3315 W. Ohio Ave., will be 4 p.m. Wednesday in Newnie W. Ellis Funeral Home. Burial will be in Fairview Cemetery.

Sperry died Sunday in Pecos County.

He was born Nov. 2, 1956, in Midland where he had spent most of his life. He was graduated from Midland High School in 1975. He was an Eagle Scout. He was employed with Central Texas Iron Works at the time of his

### D. D. Mattison Friends here have been advised of

the sudden death early today of D.D. Mattison, formerly of Midland, in his home at Kerrville Funeral arrangements are pending.

Mattison, a retired long-time Shell Oil Co. employee, moved to Kerrville several years ago

## **R.P. Hayslip**

Services for R.P. Hayslip, 67, will be at 10 a.m. Wednesday in the First Assembly of God Church with the Rev. J.W. Farmer officiating. Burial will be in Resthaven Memorial Park directed by Newnie W. Ellis Funeral Home

Hayslip died Monday at his home, 2200 City View Road, after an illness of about three weeks.

He was born Feb. 19, 1911, in Demmington, Okla. Hayslip was reared in Texas and moved to Midland in 1958 from Hobbs, N.M. He had worked in the oil fields.

Survivors include his wife, Juanita; two sons, John Hayslip and Travis Hayslip, both of Midland; two brothers, Jim Hayslip of Claremont, Calif., and J.C. Hayslip of Bakersfield, Calif.; a sister, Pearl Garland of Bakersfield, eight grandchildren and a great-grandchild.

### **Everett Kratzer**

OKEENE, Okla. - Services for Everett Kratzer, 72, of Oklahoma City, brother of Mrs. Ralph Purvin of Midland, were held here Friday. Kratzer died Dec. 27 after a short

illness. He was born in 1906 in Okeene. He was employed as a heavy equipment operator for Oklahoma County for many years. Kratzer was retired.

Survivors include his wife, a brother, three other sisters and six children.

## Jurd Young \*

POST - Services for Jurd Young. 81, of Post, father of Shirley Young of Midland, were to be at 2:30 p.m. today in Post Church of Christ with Robert Elliott, minister, officiating. Burial was to be in Terrace Cemetery directed by Hudman Funeral Home

Young died Sunday in a Lubbock hospital following a lengthy illness.

He was an Atasco County native and a longtime Post resident. He married Artie McKay Sept. 20, 1914, in Fisher County.

Survivors include his wi8fe, two other sons, 10 grandchildren and 11 great-grandchildren.

### THE MIDLAND REPORTER-TELEGRAM, TUES., JAN. 2, 1979

## Park programs go on in winter

Cold wind may blow and snow may fall, but that apparently doesn't stop the Midland Parks and Recreation Department in starting its winter and spring recreation programs.

Beginning the list of activities is a model aircraft class which starts Friday and is held on Jan. 12, 19, and 26. Class time is 7:30 to 9:30 p.m. and will be held in the Parks and Recreation Gymnasium and the Hogan Park Flying Pad. Instruction will cover building and flying model aircraft and safety factors involved.

The dog obedience class starts Monday and is held one hour per week for 10 weeks in the Parks and Recreation Gym at 300 Baldwin. Reservations can be made by telephoning Dalton Byerly at the Animal Control Center, 683-2941.

Two other classes kick off on Monday and those are the Ladies Swim Class and Ladies Keep Fit Class.

The swim program includes land flexability exercises, water exercises and swimming instruction. The fee is \$7. The class will meet at the City of Midland pool on North A Street from 10 to 11 a.m. Jan. 8 through May 10.

The second women's class consists of walking and-or jogging and exercising to maintain a high level of fitness. An outdoor track is available. Session cost is \$5 per person. The class will meet at 1:30 p.m. Mondays and Wednesdays and 9 a.m. Fridays Jan. 8 through April 27.

Tennis lessons are on tap in three sessions to end in May. Classes will be on Tuesdays and Thursdays. Intermediate players will have their class from 1:30 to 2:30 p.m.. Beginners are scheduled for 2:30 to 3:30 p.m. The fee is \$5 per person and each class is limited to 12 persons.

9 through Feb. 8, another from Feb. 20 through March 22 and the final one from April 3 through May 3.

The Midland Women's Tennis Association will starts its Polar Bear League in Janaury. More information can be obtained by telephoning President Kay Smith, 684-7672 Pre-school programs that-

started in the fall session will continue through April. They are designed for the 3,4, and

5-year-old. The development program includes music, dance, reading readiness, stories, games, play activities and an introduction to numbers and the alphabet. There is a classroom setting with use of the gymnasium.

The class is limited to 10 students. Fee is \$10 per five-week

session. The first session starts Jan. 22 and runs through Feb. 22. The second session is March 5 through April 5.

### Herberto Escobar

MONAHANS - Services for Herberto Escobar, 61, of Monahans, father of Alfredo Escobar of Crane, will be at 3 p.m. Wednesday in St. John's Catholic Church here directed by Wilson-Miller Funeral Home

Burial will be held in Monahans Cemetery. Escobar was pronounced dead Sun-

day night in a Monahans hospital.

He was born March 16, 1917, in Escobares. He had been a resident of Monahans since 1963. He was a construction worker. He was a veteran of World War II. He was a member of the Catholic Church. Escobar was married to his wife, Trinidad, March 5, 1971.

Other survivors include his wife, three daughters, two sisters, his mother and nine grandchildren.

Chester Ingram

LAMESA - Services for Chester Ward Ingram, 77, of Lamesa were to be at 10 a.m. today in Second Baptist Church here with the Rev. Clifton Igo, pastor, officiating.

Burial was to be in Lamesa Memorial Cemetery directed by Branon **Funeral Home** 

Ingram died Saturday in a Lamesa hospital after a sudden illness.

He was a native of Comanche County. Ingram had been a resident of Dawson County since 1942, when he moved here from Throckmorton. He was a retired farmer and a member of the Baptist church. He was married to Ruth Graves Nov. 22, 1927, in Ackerly today

Survivors include his wife; two daughters, Wanda Etchison of Ackerly and Peggy Campbell of Welch; a son, J.C. Ingram of Ackerly; three sisters, Grace Easley and Mrs. Franie Anderson, both of Midland, and Ouda Condron of Lamesa; two brothers, Sidney Ingram of Midland and Jack Ingram of Abilene, five grandchildren and five great-grandchildren.

oth in the protracted legal drama. The Fort Worth industrialist faced Attorneys mysteriously scuttled a further cross-examination by prose-

motion last week designed to free the defendant for a New Year's eve reunion with his girlfriend Karen Mas-

Davis has been in jail here since Sept. 22, his 45th birthday, when the trial was transferred from Fort

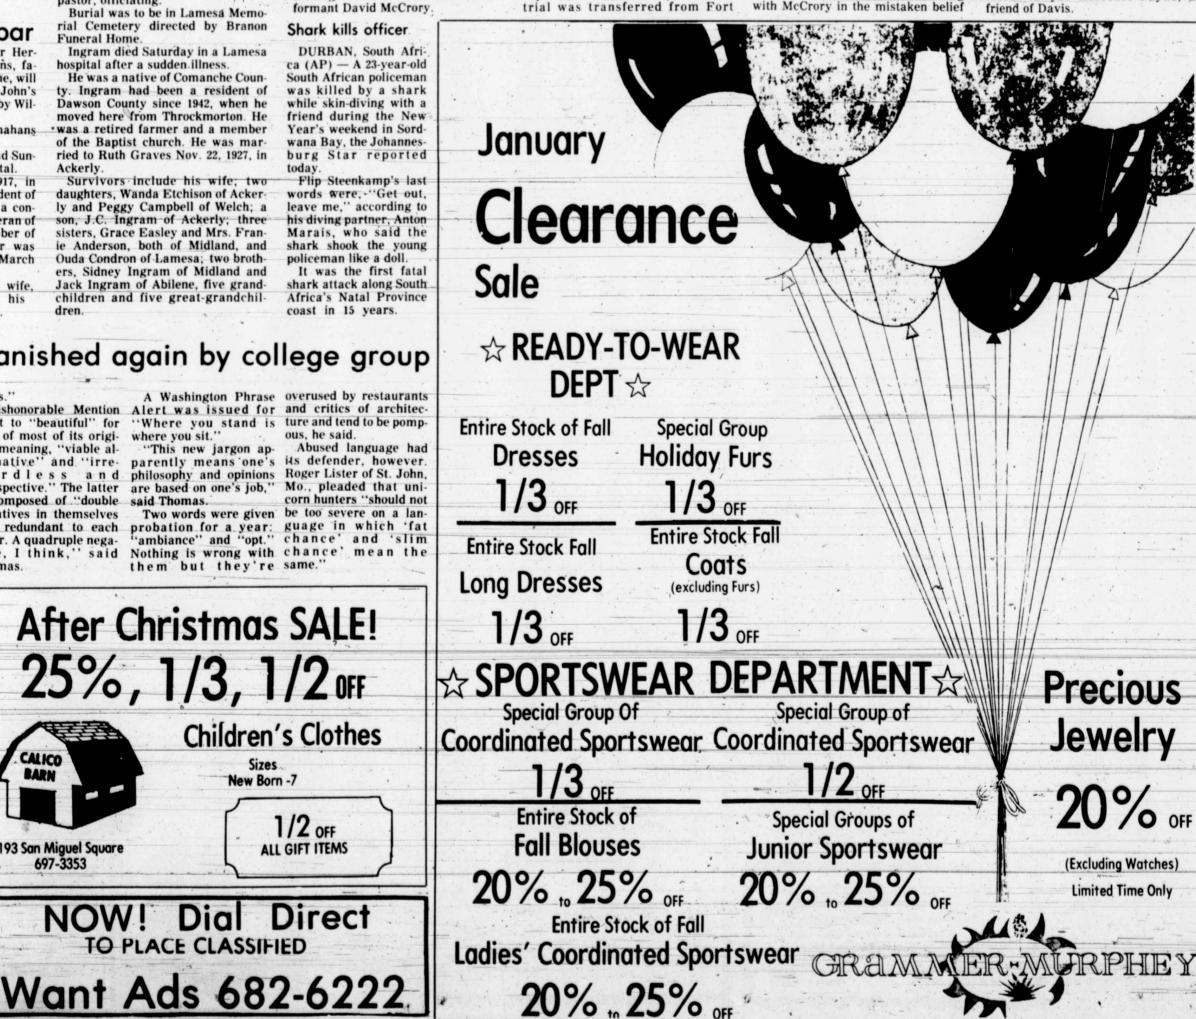

Judge Joe Eidson, the presiding jurist in his 4-year-old divorce case.

According to McCrory, 40, Eidson was one of 15 persons his former boss wanted killed. The defendant's wife was another.

Davis maintained he never intended to kill anyone, that he went along with McCrory in the mistaken belief

on his own life f he out bid Priscilla for the services of unidentified contract killers.

The defense suggested it had one and perhaps two more surprise witnesses. Subject to last minute changes in strategy, the final defense witness was expected to be Fort Worth lawyer Herschel Payne, a friend of Davis

Energy tightrope walked by nation

#### By JOHN FARINA **Copley News Service**

Whatever else anyone-tells you,remember this:

-Your are the villain. Not the sheikhs of Araby and the lords of OPEC.

Every month you and millions of your fellow vehicle owners use billions of gallons of gasoline.

And in comes the inexorable law of supply and demand; the more you demand, the more it costs to supply. **Energy Secretary James Schlesinger** says American motorists will be paying five to six cents a gallon more next year because of the oil price hike by nations of the Organization of Petroleum Exporting Countries.

There are, of course, no easy answers to the long-range energy questions that must come up. But this much is certain. Whatever is on the way, the nation is walking an energy tight-rope.

What better example of that than OPEC's price hike and a decision by Shell recently to cut back deliveries to retail and commercial outlets because seasonable demand exceeded supplies?

Back in 1973, when the world first realized the Arabs had their fingers clenched around the nozzles of gasoline pumps, U.S. authorities began massive programs to encourage conservation. We were to drive at 55 mph, car pool and take trips only when really necessary. For the few weeks of the Arab oil embargo we lined up to pump gas and were restricted to 10 gallons a time.

Surely those doings hammered home to motorists the point that the days of unlimited energy are over, that superabundance in the land of the free and the home of the brave is gone for good? No, apparently they didn't. Motorists are the worst offenders when it comes to conservation.

Home owners are doing a little better in fuel conservation. They are limiting their energy consumption, conserving heat by adding better insulation to their homes, and some are even installing solar heating systems to share in the energy work. The same is true of agricultural and

the energy in the United States -

dustrial fuel. That wouldn't be politic. he said. The American public and the government would think the oil companies were trying to tell them something. Maybe lay the groundwork for more price hikes.

But Ross doesn't mind revealing that the oil companies will be increasing their importation of foreign oil next year, without indicating whether he thinks overall gasoline consumption will go up appreciably.

Is that a veiled threat to the government? Suffer dependence on foreign oil and its price rises and consequent threat to the economy, or let the oil companies drill for new supplies in sanctified areas of the United States.

The oil companies also want prices decontrolled so they can raise their profits and finance exploration for new sources

'But oil is finite," says Ross, as we expected him to say. "We will run out of it some day. The question is whether there'll be enough to carry us until the next form of dominant energy takes over.

Meanwhile, in a recent survey, it was learned that 20 percent of drivers questioned wouldn't mind paying \$2 a gallon for gasoline, rather than switch to other forms of transportation, or a car pool

That might make it tough for President Carter's goal of reducing gasoline consumption in 1985 to 10 percent below early 1977 levels.

Congress is not at all that cooperative, either. It approved only a watered down version of the President's original energy conservation package . Proposed taxes on crude oil and on industrial uses of oil that might have decreased use were deleted

Still, the legislation can be expected to reduce oil imports by about 2.9 million barrels a day by 1985. Right now, the United States imports 7.9 million barrels of crude oil and refined products daily and produces 10.9 million barrels to meet total daily demand of 18.8 million barrels.

Higher energy prices will certainly follow the new energy program, but how much depends on a lot of factors. including those hinged on inflationary

## Lucia can add mileage SUAMICO, Wis. (AP) - Car-

roll Lucia says he's found a way to trim the gas guzzling of some of those big V-8 autos. Try running them on four cyl-

inders

Lucia plans to-start selling kits early in 1979 for a do-ityourself conversion from eightcylinder to four-cylinder operation.

While it's not for every V-8 engine and it cuts acceleration capability considerably, Lucia expects the conversion to produce a gain of several miles per gallon

"Above 35 miles per hour the car just sails along and you can't detect any appreciable change in noise or vibration," he said. But, "it's a dog getting across an intersection. You don't have that punch. It's like driving a loaded pickup truck.

"But we have 18,000 miles on the first car we converted," he added. "I never found one instance when I had to have more power.'

The conversaion is accomplished by removing standard rocker arms and push rods from two cylinders on each bank of the engine. Replacement parts hold exhaust valves open so that compression pressure is relieved in each unused cylinder. A replacement carburetor stops the fuel supply to the extra four. eylinders.

Lucia, 65, an automotive engineer for much of his life and a former Packard company worker, has operated Delta Dynamics at Suamico for 17 years. He. plans to begin the mail-order marketing soon of about a dozen do-it-yourself conversion kits for some of the larger-engine models, at a cost of \$250 each.

He said the conversion was not economical for smaller V-8 engines, and other factors affecting any mileage savings include front wheel alignment, weight, exterior design and engine wear

"One thing I have to tell people all the time is you can't make a good V-4 from a poor V-8," he said.

In his research, he determined

## **New York Botanical** Garden stores energy

#### **By EARL ARONSON**

MILLBROOK, N.Y. (AP) They're storing the sun for cold, cloudy days in a big building here sheltered by hills and woodlands and built into the earth.

The structure, the Plant Science and Administration building at the Cary Arboretum of the New York Botanical Garden, is probably one of the best insulated in the country. It is the largest privately-financed building in the northeast United States to rely on solar energy for its heat.

The building, nestled in a beautiful 2,000-acre tract in Dutchess County, is about 98 percent complete, according to George Bookman, Botanical Garden vice president. Normally, during winter months, with ice or snow on the ground, the thermostat is set at 68 degrees daytime and 55 at night. Window shutters are closed when there is no sun and some or all of the 28 rope-controlled skylight hatches covered to conserve energy

Basically, the intent of the project is to conserve heat and energy. The sources are the sun, a heat pump and a gas generator for use in emergencies in the 27,400 square feet of space

The structure is two thirds below ground level. Windows on the north side are narrow; wide on the south side. There is a wind-breaking belt of hemlocks along a branch of the nearby Wappingers Creek and a bank of protecting earth.

"We can store heat for a week or 10 days," Bookman explained.

Dr. Willard W. Payne, arboretum director, said the building, opened in April 1978 even though it was unfinished, "has performed remarkably well. It has an enormous thermal mass and is resistant to change. It absorbs the heat and retains it, aided by masonry a foot thick below ground level.'

The attractive structure cost nearly \$3 million. Actually, the solar system is a demonstration project costing about \$260,000 which Payne said should pay for itself in fuel costs in 12 years. After that it will be 85 percent cost free, he said, adding that in the there is low level direct task lighting in work areas.

beds bearing native plants. The C-shaped, well-landscaped plant has two wings, one for adminisdone on the effect of air pollution on trative quarters and the other for trees, generating gas from burning of laboratories, with a center courtyard. vegetable matter and plant nectaries Outside the library, the courtyard's involving insects and sugar.

## Andrews pools gain new crude producers

ENERGY OIL & GAS

A pair of field wells have been completed in Andrews, one by Amoco Production Co. and the other by Maralo, Inc., of Midland.

Amoco finaled its No. 2 W. A. Bush as the 10th well in the University Block 13 (Ellenburger) field 10 miles west of Andrews.

Operator reported a daily pumping potential of 241 barrels of 43.-2 gravity. oil and 12 barrels of water, though perforations from 190,912 to 10,917 feet after 250 gallons of acid.

Total depth is 11,030 feet and 5.5inch casing is cemented on bottom. Wellsite is 100 feet from north and 550 feet from west lines of section 3, block A-47, psl survey.

#### MARALO WELL

Maralo, Inc., No. 3-A Southland Royalty has been completed in the Deep Rock (Devonian field, five miles west of Andrews.

creasing annually, but at a slower rate than before," confirms Donald have cut fuel use by an average of 9.2 Nielsen, an official with Chevron." percent since 1972 - a savings of \$3 "Primarily that's true because of the higher cost of energy.

"The power companies, utilities, construction firms, industry in general, are all looking for ways to save dollars and cents. It's bucks they're concerned about," said Nielsen.

Nielsen isn't telling us anything we don't know when he says the price of gasoline will increase, and that during times of limited supplies, so will the lines at gas stations. But he doesn't anticipate a \$2 a gallon charge for gasoline, unless the government decides to tax as heavily as European governments now do. Mr. Carter has talked about a 25

cent tax on the gallon, but so far, nobody's listening.

Congress, it seems, doesn't want to unduly upset gasoline producers and consumers. Or the U.S. economy. Perhaps the strategy is to wait until the pain of oil shortages is unbearable. Then Congress could step in and offer some "relief," taking conservation steps that right now

would be unpopular. Who knows?

Dr. Louis Rosenblum, chief of the

that the conversion idea was nothing new 'We made a patent search

and one of the V-4 conversions had a date of 1918," Lucia said. But most experimentation with the process was aimed at the factory level.

"What we're talking about is do-it-yourself," he said, adding that other possible mechanical refinements to boost mileage "would take it out of the hands of the do-it-yourselfer."

He said limited exposure of his idea had triggered widespread interest but he had gone slow in development of it, watching for changes in the energy situation and gasoline prices.

"No, you don't have the same power if you convert from V-8 to V-4, not half the power, but the individual will have to decide 'is it adequate for my use?"' he said. "Maybe it will become stylish to drive slow.

## Winds move crude slick

LA CORUNA, Spain (AP) - The leaking supertanker Andros Patria was being towed out into the Atlantic today as northeast winds changed the direction of the oil slick and lessened the pollution impact.

Speaking by telephone from Ijmuiden, Holland, an employee of the Dutch salvage firm, BV Bureau Wijsmuller, told The Associated Press: "We got three men aboard from our

tug Typhoon and a towing wire was attached around midnight. As no destination has been decided for the tanker we are towing her westwards, away from land. Early this morning it was about 45 miles from land."

He said the powerful, 1,200-ton Typhoon was the first salvage vessel to reach the Greek supertanker and that the Dutch firm was dispatching a salvage team from Holland to board the tanker later today, possibly by helicopter

The 218,665-ton ship exploded and burned some 30 miles off the northwest tip of Spain in heavy seas Sunday. A 60-foot-wide gap opened on the port side and an esoimated 12 million gallons of the nearly 60 million aboard leaked out and spread over three miles of ocean.

The Andros Patria was bound for the British Petroleum plant in Rotterdam, Holland, with 39 aboard when the accident occurred. Twenty-seven crew members, plus the captain's wife and son, abandoned ship and were missing and presumed drowned when lifeboats cansized

Nine other bodies were found Mon-The new solar electrical system for day, and three other crewmen who Schuchuli 1s located on the edge of the stayed aboard were taken off by helicommunity and consists of a solar cell copter. array field of 192 photovoltaic power

It was the second oil spill off La Coruna since May 12, 1976 when the Spanish tanker Urquiola went aground at the entrance of La Coruna port, spilling nearly 30 million gallons of crude and causing damage officially estimated at \$75 million.

old facilities and greenhouses the cost of electricity alone was \$500 month-

In summer, the plant's deep well water is used to cool air that is circulated through the structure.

Federal and state grants provided 80 percent of the cost of the solar system aspects. This \$260,000, Payne noted, would just about pay for a furnace in a comparable-sized building elsewhere. The cost is based on 1976 dollars and would be more under the present inflated dollar.

The most striking visible feature of the building is an array of seven rows of flat, black, glass-covered boxes in a sawtooth pattern on the roof. These are the solar collectors that absorb the sun's energy and convey its heat to the interior of the building. Each south-facing row of collectors is 110 feet long, about 8 feet tall, inclined 60 degrees from the horizontal to absorb maximum energy from the winter sun.

Bookman explained the process:

"Energy from the sun provides virtually all the heat in the building by means of the rooftop solar collectors. The solar energy is fed either directly into the building's heating system or indirectly by means of a water-towater pump. Water from deep wells is used both as the backup source of heat for the heat pump and to cool the interior in the summer.

"Throughout, a variety of special systems work both to conserve heat and natural resources and to minimize energy consumption. The building truly reflects its purpose as the laboratory facility, library and administrative headquarters of an organization dedicate to nurturing the relationship between plants and man

"The sun's energy warms a mixture of water and antifreeze that circulates inside the collectors. This heat is then transferred by means of a heat exchanger to plain water that is stored in two heavily insulated underground concrete tanks with a total capacity of 15,000 gallons. The hot water is released from these tanks into a series of heating coils, fans flow air over the coils, and it is this warm air that actually is circulated through

To conserve energy, interior light-

## head dies

HOUSTON (AP) - John H. Wimberly, past president of the American Gas Association and the Southern Gas Association, died Monday in his home. He was 74.

Wimberly, an honorary chairman of the board of Houston Natural Gas Corp., began his career in 1929 as chief accounting clerk for the firm. The funeral will be held Wednesday

at 11 a.m. at Saint John The Divine Episcopal Church in Houston. He is survived by his wife, Edith Cooney Wimberly; three sons, a sister and eight grandchildren.

## Solons object to planned shift in USDA role

WASHINGTON (AP) - Resistance is stiffening to any reorganization plan by President Carter that would diminish the Agriculture Department.

The latest objection came in a letter from Sen. Herman E. Talmadge, D-Ga., and Rep. Thomas S. Foley, D-Wash., urging Carter "in- the strongest possible terms" to abandon any such plans for the department

Talmadge and Foley, chairmen of the Senate and House agriculture committees, told Carter in the letter a shift such as that reportedly under consideration "would reduce the effectiveness of governmentservice to the people and hamper efforts to meet the nation's growing needs for food" and other resources

Their comments were in a letter to Carter dated Dec. 28 and released Sunday. It referred to reorganization plans reportedly under review that would strip USDA of the Forest Service, along with some conservation and rural development programs.

One plan calls for parts of the Soil Conservation Service to be put into a new Department of Natural Resources

Another would transfer some rural development programs from the Farmers Home Administration, or FmHA as the agency calls itself, into a new Department of Community and Economic Development built around the present Department of Housing and Urban Development.

Sources said late last week that all or key parts of those proposals have been cleared by top reorganization task force people, but had not yet been submitted to Carter.

The sources, who asked not to be identified, said the earliest Carter is expected to announce any reorganization proposal is in his State of the Union address to Congress later this month.

In their letter to the president, Foley and Talmadge said, "As we indicated previously, we wish to cooperate with you in every possible way to make government better.

But the blueprints for USDA "only accomplish a moving of organizational boxes" within government, they added.

"They will-not save money. They will not improve service. They will not be acceptable to rural America. We respectfully urge, in the strongest possible terms, that you decide to reject these proposals."

Talmadge and Foley said further that any reorganization of federal programs in resource areas "must be based on the need to manage our vast complex of crop, forest and grass lands to produce the food and fiber that the nation will increasingly need.

Thus, they said, a stronger Agriculture Department will be required, not one weakened by removal. of some of its most important functions.

Carter was told that the transfer of FmHA rural development programs to "an urban-oriented department would hamper efforts to develop rural areas" and that Congress provided the agency with a \$12 billion mission "precisely because other agencies were not serving rural needs.

**Rights of dads** before court

WASHINGTON (AP) - As a curly-haired child of seven, David wasn't old enough to understand the battle among the people dear to him. But he was old enough, according to a New York judge, to "express love for both his fathers.'

That was two years ago, and the battle has finally reached the last forum, the U.S. Supreme Court. It is the age-old story of a love affair gone sour, the father and mother fighting each other for rights to the children, the children caught in the middle.

But this case is different because David and his sister Denise were born to parents who never married. The complications arising from their relationship to each other, to their new spouses and to their children presents the courts with issues they have rarely confronted.

The high court decision this year will determine whether Abdiel Caban will ever again see his son and daughter and could have broader ramifications for a growing number of men who cherish the children they father out of wedlock.

The legal dispute is partly a product of the broad changes of the past decade. More and more men and women live together without being married - and without being stigmatized. American women gave birth to nearly a half-million babies out of wedlock in 1975, more than 14 per cent of all births that year, according to the Census Bureau.

Against this background, the Supreme Court must consider whether unwed fathers should have the same legal rights to their children as divorced fathers.

"Historically, the law provided no rights at all to the fathers of illegitimate children," University of Georgia law professor Paul M. Kurtz wrote in an analysis of the Caban case. "While unwed fathers are often anonymous ... there are a number who take a great interest in raising and supporting their children. Any decision interpreting their rights canbe very important."

Abdiel Caban was not one of those unwed fathers who drop out of sight at the first hint of a child on the. way. His love affair with Maria Acevedo became a "marriage" in everything but the law.

It began in 1968. Maria was 18 and had known Caban all her life. They were Puerto Ricans in Brooklyn and their families were neighbors.

As their relationship blossomed, Maria moved in with Caban, took his name and lived as his wife. She would testify later that they savored one year of harmony before tough times came.

Money, or rather the lack of it, apparently was a problem. In later testimony, Maria complained that ' Caban contributed only \$30 a week for food while she paid all of the medical and household expenses and bought the crib when David was born in July 1969.

Soon after the baby was born, she went back to her secretarial job. Two years later, Denise was born, and the tough times grew worse.

Subsequent court testimony was filled with the same sort of bitter accusations that flow through the records of innumerable divorces. He drank toomuch, she ran around, and on and on, spelled out on. the public record in embarrassing detail. At any rate, Maria felt "she had nowhere to go

until she met Kazim Mohammed," her attorney, Morris Schulslaper, wrote in a brief.

In December 1973, Maria took her children, left Caban and moved in with Mohammed. They were married a month later. Maria was 22.

The children lived with their mother and stepfather during the week and spent weekends with their father. Then in the summer of 1974, the Mohammeds sent the children to stay with Maria's mother in Puerto Rico. According to court records, Caban grew increasingly disturbed, went to Puerto Rico and brought his children back to New York.

What was a family matter became an issue for the law. Maria won a court order granting her temporary custody but allowing Caban to visit. It was shaping up s just another divorce case even though there had been no divorce and no marriage.

## **Fidel Castro denounces China**

### **By JOHN D. HOPKINS**

MIAMI (AP) - As Chinese diplomats and U.S. leaders toasted new ties in Washington, Cuban President Fidel Castro denounced China for "developing bourgeois ideas" and said the United States was immoral in its blockade of his island nation.

Marking the 20th anniversary of the revolution that brought him to power, Castro Monday night repeated his call for the United States to lift the blockade that in 1962 forced Cuba to seek new markets for sugar, its key export product.

For the United States to trade with most socialist countries while maintaining the blockade is, Castro said,

"a deep political immorality, a categorical proof of the hypocrisy of the empty rhetoric about human rights.

As for China's new diplomatic relations with the United States, Castro declared "the paper tiger is developing bourgeois ideas.

He said Cuba would make no such compromise: "But if the Chinese government sold the revolution in exchange for Taiwan, technology and Western credit, Cuba will never change a single one of its principles for the Guantanamo base, not for all the gold of the imperialist countries

together. His hour-long broadcast from Havana, monitored in Miami, was frequently interrupted by applause. He spoke before the Cuban National Assembly, thanking the Soviet Union "because without its help the Cuban revolution couldn't have lasted 20 years.

In Washington, Chinese Ambassador Chai Tse-min said Monday that U.S.-China ties will help stem hegemonism, Peking's codeword for Soviet aggression. And Vice President Walter Mondale said a common interest in world "progress, stability and peace" brought the two nations together.

Castro, who has relied on Soviet. economic aid for his nation for 18 years, has previously indicated he'd like to resume trade with the United

States. The United States was formerly Cuba's main customer for sugar.

But he again rejected President Carter's terms for lifting the embargo: withdrawal of Cuba from its role in Africa

"The United States insists on keeping its criminal blockade, using it as pressure, a demand, for relations with Cuba," Castro said, "but Cuba cannot be pressed, nor intimidated, nor bribed or purchased. Cuba is not China, nor (is it) Egypt." The embarge was declared in 1961

after the emerging Communist government of Cuba expropriated U.S. assets. In September, Carter extended the embargo for another year.

JACKSON, Mich. (AP) - A former railroad worker is under arrest in the shotgun killings of three Conrail employees, police said.

Police in Egkhart, Ind., reported the arrest Monday of Rudy Bladell, 45, of Elkhart. Later, Jackson police said Bladell was in custody for "questioning and investigation only.

Bladell served a prison term for a 1971 shooting of a railroad worker in Elkhart, about 75 miles southwest of Jackson, said David Pennington of Elkhart police.

He was picked up a mile from the

UNUSED ITEMS ARE QUICK SOURCE OF EXTRA CASHI

Amtrak station in Jackson about 141/2 hours after Sunday's slayings there, Pennington said.

Killed Sunday at the Amtrak station were William Gulak, 50, a freight conductor; Charles Lee Burton, 22, a fireman; and Robert Blake, 42, a flagman.

Gulak and Burton had brought a train to the Jackson yards and were waiting for another, said another member of the freight crew, Gregory McGowan, 27, of Detroit. McGowan said he left them at the crew room. where Blake was, to get something to eat

The three were then shot to death with a 12-gauge shotgun, police said. All were wounded more than once. Bladell served four years in prison for aggravated assault and battery in the shooting of John Sayne of New Buffalo, Mich., in the Conrail yards at Elkhart

The body of one of three victims killed Sunday evening lies outside the Jackson Amtrak depot in Jackson, Mich. Three men were each shot once in the head with a 12-guage shotgun. All were Conrail employees. (AP Laserphoto)

### DAILY QUESTION

As dealer you hold: S-A K Q 9 8 7 4 H-5; D-74; C-A2. What do you say. ANSWER: Bid one spade. The trouble with bidding four spades is that partner will probably pass even if he has values that will produce a slam. You would bid four spades if partner had already passed.

## **DR. NEIL SOLOMON** Do married people live longer than singles?

Dear Dr. Solomon: I've heard a number of times that married people live longer than single people. Is this true or is it just a myth?-Agnes.

Dear Agnes: Single life does appear to be hazardous to one's health, and there are statistics to support this contention. Insurance companies have recognized for some time that unmarried people are a greater risk of premature death. During the years 1959 to 1961, for example, among divorced men 15 to 65 years old, death rates were from two to six times higher for every major cause, including death from cancer, than formarried men.

Dr. James J. Lynch, professor of psychology at the University of Maryland School of Medicine, points out that it is not the fact of being single that is hazardous, but the absence of human companionship. As he "loneliness can damage, if not says. break, the human heart.

Dear Dr. Solomon: Several months ago I became nauseated after taking some penicillin prescribed by my doctor. Does that mean I'm allergic to it and should avoid it in the future?-Tony.

Dear Tony: There is a difference between being allergic to a drug and simply experiencing some side effects. Discuss your symptoms with your physician. If the nausea you experienced was merely a side effect of the penicillin, there is no need to discontinue the use of this relatively safe drug.

To my readers: Because I have gotten so many questions about sickle cell anemia, I thought the following might be of interest to you.

Two and a half million black Americans either have sickle cell anemia or have the capacity to pass it on to their children-and their children's children. Somewhat even more startling is that an estimatedone-half of these 21/2 million people know little or nothing about this disease that brings pain, crippling, and early death to the lives of its victims.

In future columns I will tell you what the disease is, how you get it, how you know you have it and what to do about it. This is where testing comes in. Quick and simple testing is now possible for everyone. Special testing centers have been set up at various clinics. A visit to one of them or your physician, might show the need for counseling and/or treatment should the test results show that the individual has sickle cell trait or the more severe form known as sickle cell anemia.

## Sugar not very sweet for Nittany Lions

#### By The Associated Press

The national championship in college football is up for grabs after a costly fumble by Penn State in the Sugar Bowl.

The Nittany Lions' chances for their long sought-after national title quickly turned sour in the wake of a 14-7 defeat by No. 2 Alabama Monday.

And while the Crimson Tide was claiming the No. 1 ranking, there were other voices heard from after the results of New Year's Day.

THIRD-RANKED Southern Cal put in a bid for the title with a 17-10 decision over No. 5 Michigan in the Rose Bowl, and fourth-ranked Oklahoma hoped to move into the picture after a 31-24 decision over Nebraska in the Orange Bowl Monday night.

Only the winner of the Cotton Bowl, No. 10 Notre Dame, was apparently out of the title picture. The Fighting Irish beat the ninth-ranked Houston Cougars Monday in a 35-34 thriller, but their 9-3 record pales in comparison to the glittering 11-1 marks of Alabama, Southern Cal, Oklahoma and Penn State.

"Alabama should be No. 1," said a distressed Joe Paterno, the Penn State coach who lost an opportunity for the Nittany Lions' first national championship. "Alabama beat an awfully good football team and has asmuch right to claim it as anybody." Alabama Coach Bear Bryant se-

conded the motion. "Yes, I feel we're the best in the country," he said. "There are a couple of reasons I would vote our team No. 1 — they overcame all the injuries and peaked today, and our schedule was extremely difficult. There were no soft touches."

**ONE OF THE** tougher opponents for Alabama this year was Southern Cal. The Trojans beat the Crimson Tide at the start of the season, and it's the primary reason that voters will give them heavy consideration as the nation's top college football team. "I pick us No. 1," said Southern Cal

Coach John Robinson, who like Bryant insisted that his team played one of the toughest schedules in the country. "It's one of the greatest. teams in USC history.'

Oklahoma Coach Barry Switzer, meanwhile, wasn't exactly claiming a title for his team, but he was promoting the possibility.

Asked who deserved to be No. 1 when the final Associated Press poll is released Wednesday at 6:30 a.m., EST, Switzer replied: "I don't know. I think we are a great team. We've led the nation in rushing and scoring and came up just a few yards short in leading in total offense. I believe we have the greatest offensive team in the country.

"DEFENSE? Alabama has a great defensive team. Penn State also has a great defensive team. But I felt all season there are quite a few teams with a better offense than Penn State. Whatever the final polls say, I just hope we're recognized in a position representative of the greatness of this

(Continued on 2D)

Alabama Coach Paul "Bear" Bryant leaves the field among fans at the Sugar Bowl Monday after defeating Penn State, 14-7. (AP Laserphoto)

NEW ORLEANS (AP) - Alabama went home today to wait for the ballots of be counted. Penn State went home counted out.

SPORTS

Alabama's No. 2-ranked Crimson Tide beat No. 1-ranked Penn State, 14-7 New Year's day in the Sugar Bowl, and thus laid claim to college football's national championship.

There might be some argument from Southern California, which like Alabama finished an 11-1 season, including a win over the Tide, but legendary Coach Bear Bryant and his Alabama team most assuredly have the inside track to their fourth national crown.

ALABAMA ACCOMPLISHED the feat of kayoing Penn State with a punishing defense that intercepted four passes thrown by the losers' quarterback, Chuck Fusina, and sacked the All-American five times.

The offense found a stubborn foe in Penn State's nation-leading defense, but scored on a 30-yard pass from quarterback Jeff Rutledge to split end Bruce Bolton in the second guarter for a 7-0 halftime lead.

After Penn State came back to tie on a 17-yard pass from Fusina to split end Scott Fitzkee in the third quarter, the Tide put the winning touchdown on the board with an 8-yard scoring run by Major Ogilvie in the same period

The big plays, however, for the winners came in the fourth period with some six minutes left.

Penn State recovered a fumble at the Tide 19. The Lions moved to the 1 with two downs to score the tying touchdown. But Alabama's defense rose to turn back runs by Matt Suhey and Mike Guman, taking possession inches from their end zone.

PAGE 1D

BUT THE TIDE wasn't out of danger yet. They were forced to punt, and the ball shanked out-of-bounds on the Alabama 20. Penn State, however, had 12 men on the field at the time, and and the penalty gave the ball back to the Tide with a first down. Penn State Coach Joe Paterno re-

fused to identify the 12th man.

"The kid just didn't come out," Paterno said. "We won one that way one time in a bowl game (15-14 against Kansas in 1968), and now we blew one the same way. That's the first time we've had 12 men on the

## Yeoman should have been wary of fast Irish finish

DALLAS - When Notre Dame was staging its miraculous fourth quarter comeback against USC that Saturday back in late November, you couldn't blame the Houston Cougars if they didn't pay that much attention.

That same afternoon, the Cougars were having problems of their own. Texas Tech's garrison had just handed the champions their only SWC defeat, 22-21.

Maybe Coach Bill Yeoman should have been wary, however. The Houston coach had played against Notre Dame while at Army back in the 1940s, and should have known better than to sell the Irish short, anytime. But really, can you blame him?

**HOUSTON HAD** reduced Notre Dame to rubble, leading 34-12 when Yeoman lifted quarterback Danny Davis, who the game's Most Valuable offensive player, to give Delrick Brown some playing time in a bowl game.

It wasn't like sending in the scrubs. Brown had come in in the second half to turn the SMU game into a laugher, but this time he was coming in cold...cold, shoot, he was frozen stiff in the bitter cold of the worst day for a Cotton Bowl game in the classic's 43vears.

With a 20-mile per hour wind out of the north that reduced the chill factor to a minus six degrees, there hadn't been anything comparable since that 1947 tie between LSU and Arkansas when the teams braved rain, sleet and snow for naught.

An estimated 32,500 showed up, leaving 39,500 no shows.

WHAT THEY missed was the greatest finish in Cotton Bowl history and a game to rival Notre Dame's 18-12 last minute come-from-behind upset of Ohio State way back in musty 1936.

And the only tragedy was that this, rather than the game at New Orleans, wasn't for No. 1.

In fact, Houston had turned the game into such a complete rout that but for that Tech loss, it might have blond-headed senior from Monoghela, Pa., engineered the comeback that saw the Irish score 23 points in the final 7:25, scoring the tying touchdown with no time left on a nine-yard pass to split end Kris Haines and then getting the winning point in the 35-34 victory on Joe Unis' second kick after the Irish had drawn a procedure penalty on the first try.

But as a hero, Montana showed up disguised as the Johnstown flood with the flu. In the first half, his fumble and two interceptions led to a touchdown and two field goals for a 20-12 Houston halftime lead.

ter in the second half. Joe didn't arrive back on the field until late in the third quarter, and then was one for seven passing. And a fourth period interception at the Houston 24 stopped one Irish drive and Notre Dame later failed to capitalize on a blocked kick which gave it possession on the UH 10.

LITTLE WONDER, it seemed safe to give Davis the rest of the day off. Danny, who sold popcorn in the Cotton Bowl as a youngster and never had tasted defeat in Doak-enlarged as a Dallas prepster

It was so cold, one scalper hawked his wares outside the stadium, "Cotton Bowl tickets; free.

Top-ranked Penn State's Sugar Bowl loss to Alabama left the fourthranked Sooners, 11-1, with a longshot chance of moving ahead of two other once-beaten teams, Alabama and Southern Cal, in the Associated Press poll that will be announced Wednes-

However, most of the Sooners are convinced they let a national championship slip through their fingers when they lost six of nine fumbles during the earlier Nebraska game.

"THERE'S NO WAY this game replaces the first one. There's no way to make up for losing the national championship," said quarterback Thomas Lott, who scored two-touchdowns while directing the devastating Sooner Wishbone offense.

"How can you forget losing to them?" asked Lott, who fumbled five times at Lincoln. "Something like that affects your life so much." Asked if the Sooners still have hope.

Lott smiled wanly. "It helps because we've beaten

PASADENA, Calif. (AP) - Contronational college football championship since Southern Cal whipped Michigan in the Rose Bowl - in a game itself marked by controversy.

The third-ranked Trojans, 12-1, staked their final claim to the national title with a 17-10 victory over the Wolverines, who finished the season 11-2 and were fifth-ranked going into Monday's Rose Bowl.

The No. 1 spot became clouded when second-rated Alabama beat topranked Penn State 14-7 in the Sugar Bowl. USC lists among its victories this year a 24-14 win over the Crimson Tide in Tuscaloosa.

SOUTHERN CAL got the help of a disputed touchdown in its victory over Michigan, making its third consecutive losing Rose Bowl appearance. **Trojan tailback Charles White dove** three yards for USC's second touchdown, but fumbled on the play. A

taped replay appeared to show White versy undoubtedly will arise over the had fumbled before he made it to the end zone, but the officials ruled it a (Continue

## Incredible comeback stuns Houston Cougars

#### (Continued from Page 1D)

or UH quarterback, had rushed for 84 yards, scoring two touchdowns, and completed four of 12 passes for 60 yards and one TD as the Cougars mounted what seemed like an unassailable lead.

Then Tony Belden blocked a Jay Wyatt punt and Steve Cichy, a strong safety from Fargo, N.D., who probably was the only one who felt at home in Dallas' ice-covering setting, scooped it up and ran 33 yards for a touchdown with 7:25 left. Montana hit Vargas Ferguson for two points and it was 34-20.

MONTANA TOOK it in from two yards out with 4:15 left and passed to Hains for two more points and the Irish had both the wind and the time

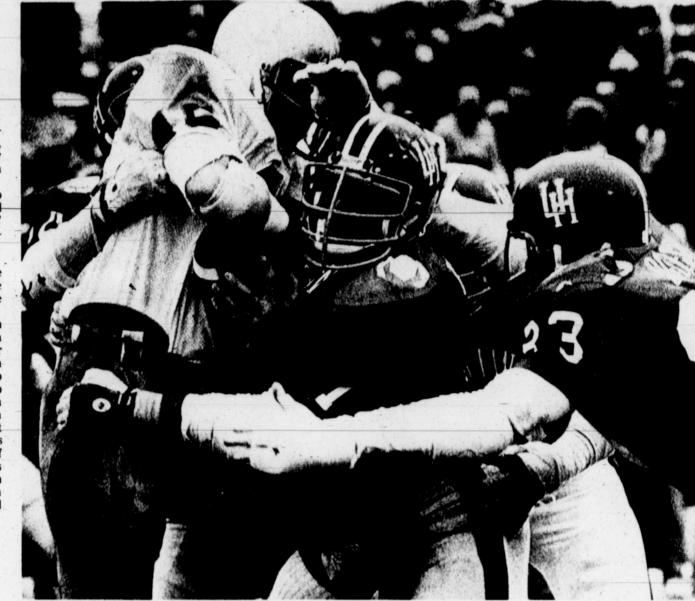

Although Montana was to fumble away another promising drive at the UH 21 with 1:50 left, judicious use of time outs and a Cougar gamble on fourth down, gave Notre Dame one more chance from the Houston 29 with 28 seconds left amd it took just three plays to capitalize on it.

The gamble was set up after Houston, facing fourth and six at its 22, punted to midfield, but a penalty against the Irish gave Houston a fourth and inches at the 29.

"We were kicking 10 to 12 yards into the wind and Chuck Brown had a bad wrist and couldn't snap the ball, " Yeoman said. "I was completely responsible for the call.'

THE GAME winning play came after a 10-yard pass put the ball on the nine with six seconds left in the game.

"We had a choice, " Coach Dan Devine said, "We had to make a decision to run two hurry up plays or one good play and we couldn't run a sprintout or drop back pass. It had to be a rythm play with a three-step drop with the receiver making a quick turnout as in our 91 play for a slant-in pass. We picked the 91. It missed the first time, because Haines didn't turn in time. Joe asked Kris if he could beat his man again and Kris said yes, so he called it again. When he turned to the bench, we waved him back. He knew what play we wanted and called it."

Cornhuskers still sore about bowl rematch

#### (Continued from 1D)

every team on our schedule. But I don't even think there's a chance. We can't hope for that much. It's almost really impossible

"And we can't blame nobody but ourselves," he said.

**COACH BARRY SWITZER**, whose team lost its hold on last year's No. 1 ranking with a 31-6 upset loss to Arkansas in the Orange Bowl, said he felt Alabama and Southern Cal were more likely choices than the Sooners.

"I doubt if we can ever make up for that loss at Lincoln. We'll be remembered as the team that lost the championship by three yards," he said, referring to Heisman Trophy winner Billy Sims' fumble at the Nebraska 3 in the closing moments.

"Without that fumble, we would have been playing Penn State here. tonight for the national championship," he said.

The Sooners may have cost themselves a few first-place votes by get-year's victory. ting outscored 14-0 in the final quarter. Lott lost a fumble in the quarter,

and Nebraska scored a touchdown on the game's final play.

'We were thinking that if the other teams played close games, which they did, and we came in here and scored a lot of points and beat them bad, we could move in there," Sims said

AS THE SOONER offensive line opened the holes, Lott masterfully mixed plunges by Kenny King and Sims with his own runs and passing and pitches to Sims.

"WE GOT BEAT," Sorley said. "I have to concede that to Oklahoma." Slashing I-back Berns, who gained 99 yards on 19 carries, had said earlier he wanted to show the Sooners they were beaten by the better team in Lincoln.

"I didn't think there was any way they could win," he said. "I don't think it proved anything.

Coach Tom Osborne, who lost his first five games with Oklahoma, was unhappy about having to match this

"I didn't think it was fair to us at all," he said.

Pete Pallas, Notre Dame fullback, goes for a two yard gain in the first quarter of the Cotton Bowl Monday before being stopped by Houston's David

Hodge with help from Robert Ogelsby. (AP Laserphoto)

Alabama players remain calm after last year

NEW ORLEANS (AP) - It was almost like part of the childhood ritual of wishing on a star - the part that says your wish won't come true if you say what you wished for.

The Alabama players were eager to talk about the exploits of their teammates in the 14-7 conquest of Penn State in the Sugar Bowl Monday, but there were no exhuberant shouts of, "We're No. 1," as might be expected when the second-ranked team beats the top-ranked team.

pens," said quarterback Jeff Rutledge, who mentioned the team's unanimous wish only in response to direct questions. Last year, Alabama beat Ohio

State in the Sugar Bowl and felt it should have moved up to first after Notre Dame upset Texas in the Cotton Bowl and Oklahoma fell to Arkansas in the Orange Bowl. But Notre Dame vaulted ahead of the Crimson Tide in the final poll.

THE PENN STATE dressing room was also quiet, but theirs was the silence of disappointment. The school has never won a national college football championship.

stopped short by the Alabama defense.

"I didn't get a good jump," Suhey said. "I didn't really get the height.'

"The linebackers just plugged the gap. They stopped me. That's all there is to it," said Guman. "I thought the play would go, but they just played excellent defense.

PENN STATE quarterback Chuck Fusina, the All-America passer who led his team to an 11-0 regular season mark, said

## Late fumble didn't deter.... **Fighting Irish**

DALLAS (AP) - Even comeback artist Joe Montana thought Notre Dame's incredible Cotton Bowl rally was all over when he lost a fumble late in the game to stop what looked like a game-winning touchdown drive.

"I thought it was all over," said Montana, who lost the ball at the Houston 20 yard line with 2:05 remaining. "But then I saw we had timeouts left and our defense really played a super game.'

It proved to be far from over. With 35 seconds remaining, the revived Irish defense held the upstart Cougars on a key fourth down gamble at the Houston 29.

**MONTANA THEN** connected with Chris Haines for the tying touchdown as time ran out and Joe Unis booted the vital extra point Monday for a 35-34 Notre Dame victory.

The Cougars, facing away from a biting north wind that gusted to 30 miles per hour and pushed the chill factor well below zero, took a commanding 34-12 advantage in the second and third quarters.

Montana, meanwhile, was in the dressing room most of the third period with a bad case of chills brought on by the bitter weather.

'They told us Joe was not coming back in the second half and we thought it was over. But we've learned over the last four years that it's never over," said center Dave Huffman

THE WIND, which accompanied a record ice storm that had crippled Dallas on Sunday, had dictated the tempo of the game all day. It also forced Houston Coach Bill Yeoman to gamble on the key fourth down and one play late in the game.

"We were kicking the ball 10 or 12 yards into the wind," Yeoman said in explaining the decision. "Plus we had a kid (center Chuck Brown) with a very-bad wrist snapping the ball. I was completely responsible for that call.

Houston's ace running back Emmett King was stopped cold and the Irish got back the ball for their winning thrust.

On the previous play, Houston's Jay Wyatt had fluttered a pitiful 21-yard punt into the stiff wind. But Notre Dame was called offsides, giving Houston the opportunity to go for the first down.

"THAT WAS NOT a bad move at all. We felt we could make it." said Houston quarterback Danny Davis. 'I realize that some fans might have wanted us to punt, but we didn't have time to take a survey. King agreed, "If it came up in the

team.

'We beat the best team we've played all year,"-said Alabama running back Tony Nathan. "They were strong and well-coached. We just took it to them.

That's exactly what Southern Cal did to Michigan at the start of the Rose Bowl, running up a 17-3 lead in the first half behind the quarterbacking of Paul McDonald and the running of Charles White. McDonald passed 9 yards for one score and White ran 3 vards for another to give the Pacific-10 champions all the points they needed in the Pasadena classic.

THE VICTORY continued the West's mastery in the Rose Bowl,

where Pacific-10 teams have won for five straight years. The game was punctuated by a mild earthquake.

Heisman Trophy winner Billy Sims and quarterback Thomas Lott scored two touchdowns apiece in Oklahoma's victory over Nebraska - the first time that the Big Eight rivals have met in a bowl game. the victory gave the Sooners a bit of revenge for a 17-14 loss to the Cornhuskers Nov. 11.

Notre Dame guarterback Joe Montana completed an 8-yard TD pass to wide receiver Kris Haines as time ran out and Joe Unis kicked the vital extra point to give the Fighting Irish a spectacular comeback victory over **Houston's Southwest Conference** champions.

## Alabama just waiting for ballots after win

#### (Continued from 1D)

field probably in five years."

All-American tackle Keith Dorney probably said it all for a Penn State. team that didn't cry, make excuses, or blame anyone but themselves for the crushing loss.

We messed up. We blew it. It hurts real bad. At this point I'm not sure whether to cry or laugh. I've done plenty of the former, now it's time to forget it."

Penn State, from Paterno on down, conceded the national title to Alabama

"WE HAD TO WIN and we didn't, so we're out of it," said Paterno, who tried to hide his feelings behind a face etched in disappointment.

Bryant said he hoped the voters would give Alabama the national crown when the ballots were counted Tuesday night and the result was announced by The Associated Press at 6 a.m. Wednesday.

Bryant, who is third to Amos Alonzo Stagg and Pop Warner in career coaching victories, tried to be a com-

They made more noise after beating lesser teams during the regular season

"WELL, WE'RE PRETTY tired," said Barry Krause, the linebacker named most valuable player in the contest.

"I think that what you're seeing is satisfaction," said Jim Bunch, the offensive guard who drew the assignment of going headup with tough Penn State tackle Bruce Clark.

"We're sort of calm because of what happened last year. We have to wait and see what hap-

touchdown and wiped out Michigan's fumble recovery.

"I didn't see the controversial call, but obviously, what everyone says was that it wasn't a touchdown," said Wolverine Coach Bo Schembechler. 'I don't want to talk about the officiating. It will just get me in trouble. But it's a shame that something like that has to take away from the effort of our kids."

"HECK, I DIDN'T know what was going on, but I know there aren't a lot of errors made in those kind of calls." said USC Coach John Robinson. "I think making such a big thing of it takes away from the game itself, it's splitting hairs.'

Line judge Gilbert Marchman of the Big Ten, looking down the goal line, made the call on the touchdown. :

"I felt I was in the end zone and released the ball," said White, who gained 99 yards on 32 carries for the Trojans. "It wasn't batted out of my hand: I saw an official signal touchdown and let go of the ball.

"Then I realized it was too soon to release the ball.'

Jerry Meter, the Michigan linebacker who fell on the loose ball, said: "All I know is that I saw the ball on the 1-yard line and fell on it. But the officials called it a touchdown and it must have been."

THAT TOUCHDOWN gave USC a 10-3 lead, and Frank Jordan kicked a 35-yard field goal with two seconds remaining in the first half to give Southern Cal a 14-point advantage at the intermission. The Trojans had scored first on a 9-yard pass from quarterback Paul McDonald to tight end Hoby Brenner early in the opening quarter.

**Houston's Earl Campbell** 

## **Upstart** Oilers anticipate war

FOXBORO, Mass. (AP) -The upstart Houston Oilers are looking forward to another 'war" with the mighty Pittsburgh Steelers while "it's wait 'til next year" once again for the New England Patriots.

In their first appearance in the National Football League playoffs, the Oilers are having a ball, picking up confidence with upset victories over the Miami Dolphins and New England. Although they got into the

playoffs on a wild card, the Oilers proved they belong on New Year's Eve by whipping New England 31-14 on Dan Pastorini's three touchdown passes in the second period and rookie Earl Campbell's rushing for 118 yards and one score.

The victory also proved that Houston's comeback from a 23point deficit for a dramatic 26-23 triumph over the Patriots here Nov. 12 was no fluke. The second time around, the Oilers domin-

split two regular-season games,

each winning on the other's turf, but the upcoming game is the big one, with the conference championship and a Super Bowl berth at stake.

Although they figured to be the underdog a third consecutive week, the Oilers are oozing confidence, starting with Coach **Bum Phillips.** 

"We're going to Pittsburgh to win - and I believe we well win," Phillips said. "I expect a knock-down, drag-out fight with them.'

"Pittsburgh's gonna be a nice, tough, physical game," said defensive end Jim Young, who helped hold the Patriots to 88 yards rushing. "Nothing personal, but we're gonna whomp the heck out of them."

Campbelt, who became an instant pro star after winning the Heisman trophy at Texas last year, said, "Next week will be a bigger thrill than the Heisman if everything goes right.

GOOD YEAR Great Grip for Rain

### Navratilova seeks win

WASHINGTON (AP) women's professional tennis tour three of the - Martina Navratilova, last four years, meets champion of the Wash-Lea Antonopolis in the ington stop of the

first round of the \$125,000 tournament tonight. Navratilova, the No. 1 seed here, won the Washington tournament last January and went on to win 37 matches in a row, taking the indoor tour championship and her first Wimbledon singles

title. The Women's Tennis Association computer selected her the best women's tennis player in the world, but several leading tennis publications selected Chris Evert No. 1. Evert is bypassing the Washington tournament

Time will tell, Navratilova said recently of her rivalry with Evert. "The computer says I'm number one. People can say what they want, They have opinions. The computer doesn't. 'At the present, I want

it (to be No. 1) more than anything else. I'm hitting the ball well and I'll be in top shape.

'I don't want to be a has-been. A lot of people have been No. 1 for a while, but not too many people have stayed there. I'm going to be one of those who's able to stay up there." In first-round matches Monday, unseeded Renee Richards, playing in competition for the first time since undergoing surgery on her heel in September, upset No. 6 Virginia Ruzici of Romania 5-7, 6-4, 7-5. **Eighth-seeded** Diane Fromholtz of Australia won by default when JoAnne Russell was forced to retire after reinjuring her right ankle and heel. Fromholtz had won the first set 6-2 and was ahead 2-1 in the second. Other first-round winners were Peanut Louie,

Anne Kivomura, Ruta Gerulaitis, Ilana Kloss of South Africa, Janet Newberry and Hana Strachonova of Czechoslovakia.

NAME

CITY

Louie defeated Viviana Gonzales of Argentina 6-4, 7-6; Kiyomura beat Jeanne DuVall 6-4, 6-2; Gerulaitis topped Dana Gilbert 6-4,6-4; Kloss defeated Laura DuPont 7-6, 2-6. 6-4.

## Cowboys, Oilers get their wishes

#### By The Associated Press

The Houston Oilers and the Dallas Cowboys have gotten their wishes.

The Oilers have been made underdogs for Sunday's American Football Conference championship game against the Pittsburgh Steelers at

Pittsburgh. And the Cowboys have been assured that first-string quarterback Roger Staubach will be ready for Sunday's National Football Conference title contest against the Los Angeles Rams at Los Angeles.

The winners will advance to Super

#### Bowl-XIII Jan. 21 at the Orange Bowl in Miami

Both the Cowboys and the Steelers have won two Super Bowls - no team ever has won more - whereas the -Oilers and Rams never have participated in the National Football League's major postseason extrava-

ganza Dallas, the defending champion, and Pittsburgh are favored to meet there again, just as they did in Super Bowl X, with the Steelers defeating the Cowboys 21-17, the last time the NFL championship was decided in Miami. Pittsburgh's other Super

Bowl triumph was 16-6 over the Min- ond half, overcame the Atlanta Falnesota Vikings in Super Bowl IX.

Dallas' victories were 24-3 over the Miami Dolphins in Super VI and 27-10 over the Denver Broncos last season. The Cowboys lost to the Baltimore Colts 16-13 in Super Bowl V.

The early line this time has Pittsburgh a seven-point choice over the Cinderella Oilers, trying to become Bowl. the first wild card team to win the Super Bowl (Dallas was the only other wild card team to play in the Super Bowl, losing to Miami three vears ago). The Cowboys are 21/2point favorites over the Rams.

'We always play better when we're the underdogs," said Houston quarterback Dan Pastorini, who directed the Oilers to a 31-14 romp over the favored New England Patriots last Sunday in the second round of the AFC playoffs. The Oilers also upset Miami 17-9 in the opening round of the playoffs Dec. 24.

In the other second-round games, Pittsburgh trounced Denver 33-10 last Saturday; Dallas, with the injured Staubach on the sidelines in the sec- England.

cons 27-20 Saturday, and Los Angeles whipped Minnesota 33-10 Sunday.

S

We're going down to Pittsburgh to win," Houston Coach Bum Phillips said. "And I believe we will win. Pastorini was great (against New England) and played the way he has to play if we are to win the Super

Pastorini, wearing a flak jacket and a leg brace to protect broken ribs and a twisted knee, completed 12 of 15 passes for 200 yards and three second-period touchdowns, two to Mike Barber and a 71-yard bomb to Ken Burrough, in Houston's surprisingly easy victory over the Patriots.

Pittsburgh and Houston met twice during the regular season. The Oilers won the first game 24-17 at Pittsburgh Oct. 23 as Earl Campbell, the sensational rookie running back, led the way with three touchdowns, but the Steelers posted a 13-3 victory six weeks later at Houston.

Campbell rambled for 118 yards and one TD on 27 carries against New

Ser.

Ohio State's' football

North Carolina State. Ara Parseghian has no desire to return to college coaching.

The opening at the Big Tén Conference power was created Saturday when Ohio State athletic director Hugh Hindman fired Hayes, the center of a brawl in the waning moments of the Buckeves' 17-15 Gator Bowl loss to Clemson. Hayes slugged a Clem-

son player in full view of a national television audience, abruptly ending one of the game's greatest careers. He ranked fourth on the all-time list of winningest college coaches, with 238 victories

The 42-year-old Holtz and Hindman are close friends and served on Hayes' national championship coaching staff 10 vears ago. "I can have the job," Arkansas Gazette sports

editor Orville Henry quoted Holtz as telling a friend a year ago. "I'm not sure I want it. A lot of things would have to be changed.

"Following Woody, I'm not sure I can get those things changed." Once Hayes was fired, Holtz left the door ajar on his candidacy when he said, "I plan to stay at the University of Arkansas for as long as the people want me to."

Frank Broyles, the Razorbacks' athletic director, said the Holtz speculation was premature, bu added: "We've got a coach everybody wants. Now if we can just keep him.

# COLLECTOR'S EDITION SOLID BRASS BUCKLES

SUPER B

 $(\mathbf{Q})$ 

You are looking at three "one of a kind" originals, the result of sand casting — a process over two centuries old. Each buckle is solid brass, hand poured

and finished. Each buckle has its own characteristics. And now for a limited time, these same Collector's Edition buckles are available exclusively at Citizens Savings.

#### The Lone Star Buckle

The strong historical character of the Lone Star State comes alive in this deeply sculptured relief. Fashioned after-the state seal, this buckle truly represents the heritage of Texas. 10.95 + tax.

### The Longhorn Buckle

Russell R. Waterhouse is recognized the world over for his west Texas art. He has been commissioned, specifically to create this design. Each buckle is numbered, registered and signed by the artist. 10.95 + tax The Dallas Cowboys Super Bowl Champs Buckle Offered now in Limited Edition. This is the only Dallas Cowboys Super Bowl Buckle authorized by NFL Properties Inc. and the Dallas Cowboys. 10.95 + tax

**Special Editions in Sterling Silver** 

If you prefer, you may special order any buckle design in Sterling Silver. When it arrives your name and date of purchase will appear engraved on the reverse of the buckle. 125.00 + tax

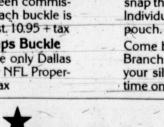

#### **Dress Buckles**

Approximately one half the size of the originals. These buckles are hand cast in solid sculptor's bronze. Each is highly detailed both in design and craftsmanship. 10.95 +

The complete three buckle series is also available mounted on a hand tooled leather/and solid mahogany display. Just

snap the buckles on and off as you wish to wear them.-Individual buckles come protected in their own leather pouch.

Come by your nearest Citizens Savings and Loan Assn. Branch for your Collector's Edition buckle, or to order your silver buckle. But hurry, this offer is for a limited time only.
