

Texans inaugurating first GOP governor in 150 years in Austin

By GARTH JONES

AUSTIN, Texas (AP) — Thousands of Texans whoop it up today to celebrate the inauguration of the first Republican governor elected in 150 years.

Bill Clements, the former oil field roughneck who created a worldwide oil drilling company and then pulled off the biggest upset in recent Texas political history, was the center of attention.

The big moment was scheduled for 12:15 p.m., when the 61-year-old multimillionaire was to place his hand on a Bible held by his wife and take the oath from Texas Supreme Court Justice Joe Greenhill.

Most observers considered it the biggest inaugural bash since another

surprise gubernatorial winner, W. Lee "Pappy" O'Daniel, took the oath before 60,000 yelling supporters in the University of Texas football stadium.

Republicans led the day and night long celebration but there were plenty of Democrats involved, including many members of the predominantly Democratic Legislature.

Inauguration headquarters estimated as many as 20,000 visitors came to Austin for the occasion. All 1,500 hotel and motel rooms in the immediate vicinity were filled, and the nearest vacancies were at Georgetown, 30 miles to the north, and San Marcos, the same distance to the south.

At least 4,000 persons grabbed all tickets to the \$50-each black tie balls

at three downtown locations.

Monday night, Republican fundraising receptions attracted many

R-T covering inauguration

Today's inauguration of Bill Clements as Texas governor is being covered for readers by staff writer Linda Hill, whose reports will begin Wednesday.

On Thursday, The Reporter-Telegram will follow up with sidelights of the inauguration and a full page of pictures of some of the many Midlanders attending the Austin festivities.

early arrivals, including a goodly number at a \$5,000-per-person cocktail party in a west Austin home.

Clements headquarters billed the inaugural festivities "a day for all Texans" and stressed that Lt. Gov. Bill Hobby, Democrat, also was being sworn in for another term.

The \$400,000 cost was raised throughout the state by Clements-appointed committees or by the admission prices to the individual events. In previous years, most of the cost of inauguration merrymaking has been paid by local businessmen and lobbyists.

The inaugural breakfast honoring the Legislature and statewide elected officials was paid for by the Dallas Chamber of Commerce. The following prayer service featured an address

by Dr. W.A. Criswell, pastor of the First Baptist Church in Dallas.

Later today, there was a barbecue lunch in the Capitol, an inaugural parade down Congress Avenue led by Clements' alma mater band from Southern Methodist University, and an afternoon ice cream party for young visitors on the Capitol grounds.

The nighttime festivities began with an inaugural concert by the Austin Symphony Orchestra.

Then the dancing begins.

At least 1,500 are expected for the \$10-per-person "All Texas Ball" at the Austin Municipal Auditorium, where Gov. and Mrs. Clements make their first appearance and members of the Legislature are presented.

ROUSTIN ABOUT with Ed Todd

Inflation rapidly is becoming the No. 1 table topic throughout the nation.

Though as common now and as ubiquitous as the weather, inflation may never return to normal.

It may set records, just like this winter's freeze, and stir the masses to unrest and cause others to stare starkly in despair.

And, certainly, it will prove that there's not always glory in record-breaking.

How often have you heard this lament on salary, wage and voracious inflation:

"I'm making two to three times what I was making 10 years ago, and have less to show for it."

Probably, it's true, though exaggerated.

There's something to the axiom-turned-phrase that "The more you make the more you spend."

That's quite natural; to learn to do otherwise requires a discipline not ingrained in most. Besides, who wants to live—exist—on an austerity program from here to eternity? This is the nation of opportunity and high living, right?

Must we be penalized for fits of squandering to relief frustration...or simply to compound it?

The answer, likely, is yes.

And who, outside the boss and payroll clerk, hasn't complained, perhaps justly, that raises haven't offset inflation?

And which entrepreneurs haven't computed that profits are too low?

Goods and services kick on up in cost. Wages go up. Interest rates sneak up. Goods and services costs climb. Wages increase—some. Interest rates ease up. Imported merchandise inundates the U.S.-made goods. And the whole economic scene become more of a maze-like quagmire

Herding her pig around so the judges can have a good look at it proves to be quite a chore for 10-year-old Teresa Glover who, despite her size, fared well Monday. She won a fourth place award for her efforts at the Midland County Livestock Show. (Staff Photo by Brian Hendershot)

Simmental cross grand champion

By ED TODD
R-T Staff Writer

A 1,290-pound Simmental-Hereford steer shown by Gaye Holland, 18, of Midland was judged grand champion calf Monday in the annual Midland County Livestock Show.

The hefty tan and spotted steer, named Blondie, was in competition with about 60 calves in the show.

"Sure was (pleased to win)," said Miss Holland, a senior at Midland's Robert E. Lee High School. "I guess smiling always helps. Well, I had hopes." Miss Holland is a member of the Future Farmers of America chapter.

Cattle judge Fred Wilkinson of Crane picked a 1,195-pound Main-Anjou tabbed Black Lightning as the reserve champion steer.

The calf was exhibited by 10-year-old Mark Graham of the Greenwood community east of Midland.

"Oh, I was glad," said Mark, moments after he had congratulated Miss Holland on her winning calf, "and (I) hope to do it wherever I go (to livestock shows). I'm surprised I did this well."

Two years ago, Mark's older sister, Andrea Graham, also a 4-H member, showed Honeysuckle, the show's reserve champion steer.

"I'm tickled," said their father, Roy Graham.

Tonight, 117 lambs, swine and steers, including the grand champion and reserve champion, will be auctioned off in the Midland County Exhibit Building east of Midland off U.S. Highway 80.

Tommy Marricle of Snyder will be the show's auctioneer.

The auction, which begins at 7 p.m. today, will be preceded at 6:30 p.m. by a presentation of showmanship and other awards.

Last year's prize steer, a 1,095-pound black Limousin-Angus calf exhibited by Mark Hyde, 16, brought the bid \$1,583.87 at \$1.49 per pound. Buyer was Vicki Mallison.

The reserve champion, shown by Socorro Chavez, was auctioned off for \$1,624 at \$1.45 per pound. The steer weighed 1,120 pounds.

All told, the sale of 117 livestock shown by 4-H Club and Future Farmers of America boys and girls in the 1978 show grossed \$43,698 for the

youths. This year's champion and reserve champion heifers, weighing 745 and 440 pounds, respectively, were shown

Citizens protest zoning change

By LANA CUNNINGHAM
R-T Staff Writer

The signs were printed and ready for waving.

The residents were all in agreement.

But the Planning and Zoning Commission Monday was not prepared for an onslaught of residents who filled the City Council Chambers during the panel's regular meeting.

It was a case of developer versus residents over a planned retail district. In dispute were plans for a 57,398-acre-of-land east of Midkiff Road and just south of FM 868 (proposed Loop 250 Road).

Magnatex Corp. was appearing before the Planning and Zoning Committee with its request for a zone change and a look at its preliminary plan as the first step in the lengthy procedure to get plans approved by the commission, and later by the Midland City Council.

The corporation wants the zoning changed from single family to LR-1 and LR-2, both retail districts but with different restrictions.

It was explained to the audience at the beginning of the meeting that the committee, consisting of the commission members, had gathered to review the plans and decide what additional work should be done.

"This is not a public hearing," Commission Chairman Robert Truitt Jr. said.

BUT THE AUDIENCE stayed where it was.

And the signs proclaiming cries of "Yes to Families! No to Magnatex!" and "Save Our Children from Commercialism's Claws" remained on the floor facing the panel.

C.W. Craig, vice president of Magnatex, told the committee the strip of land is located on a major thoroughfare (Midkiff) and next to the proposed Loop Road. While the firm is wanting it for commercial use, Craig said the company realized the section needed a buffer zone to divide it from the rows of single family dwellings to the east and south.

Shah leaves Iran; Iranians celebrate

TEHRAN, Iran (AP) — Shah Mohammad Reza Pahlavi left Iran today for Egypt and the United States, a journey that many believe will end in permanent exile for the embattled monarch. His departure touched off jubilant celebrations throughout Tehran.

"The shah is gone forever!" people chanted as millions poured into the streets, showering each other with candies and rose water, cheering and shouting with joy.

Motorists honked their horns and jumped from their cars and hugged each other.

The 59-year-old Iranian monarch arrived later in Aswan, Egypt, where he was greeted at the airport by President Anwar Sadat, Egypt's Middle East News Agency reported. The two then drove to a hotel on an island in the Nile River.

The shah is expected to leave for the United States Wednesday.

In a statement to Iran's official Pars news agency, the shah said he was going "on vacation because I am feeling tired." He left his royal powers with a Regency Council and appealed to the Iranian people to preserve the monarchy during his absence.

The shah said the length of his stay abroad would depend on his "physical condition." But many believe the vacation will turn into permanent exile and the end of the dynasty his soldier-

father founded 54 years ago.

"I HOPE THE government will be able to make amends for the past and also succeed in laying the foundation for the future," said the shah. "This work needs a long period of cooperation and patriotism in its utmost meaning. Our economy must start rolling again and we must have better planning for the future."

Ayatullah Khomeini, the Shiite Moslem religious leader who is the shah's most influential opponent, congratulated the "heroic people of Iran" on the shah's departure and said it was "the first step toward ending the Pahlavi dynasty."

Khomeini, an exile in France, said he would return to Iran "at the first proper time" and would name his own "provisional government" to supplant Prime Minister Shapour Bakhtiar and the new government appointed by the shah.

The lower house of the Majlis, the Iranian Parliament, confirmed Bakhtiar and his cabinet today by a vote of 149-43 with 13 abstentions. The Senate gave it a vote of confidence Monday.

Palace sources said the shah and Empress Farah left Tehran airport "according to schedule" at 12:15 p.m. after giving reporters the slip with a false announcement that they were delaying their departure until

(See SHAH'S, Page 2A)

Some members of shah's family reportedly now staying in Lubbock

LUBBOCK, Texas (AP) — Several members of the Iranian royal family fled to this West Texas city early today, joining Iran's crown prince as Shah Mohammad Reza Pahlavi fled his strife-torn nation.

An officer at Reese Air Force Base who asked not to be identified said a plane that arrived here early today carried the shah's mother-in-law and three of his children.

The shah and Empress Farah left Iran secretly today after the lower house of Parliament gave final ap-

proval to the country's new civilian government.

The 59-year-old monarch and empress were reportedly headed for Egypt and the United States.

The flight that landed here apparently was an Imperial Iranian 707 jet that took off from McGuire Air Force Base, N.J., Monday night.

Witnesses here said a convoy of about 20 vehicles carried the jet's passengers to the crown prince's retreat in west Lubbock.

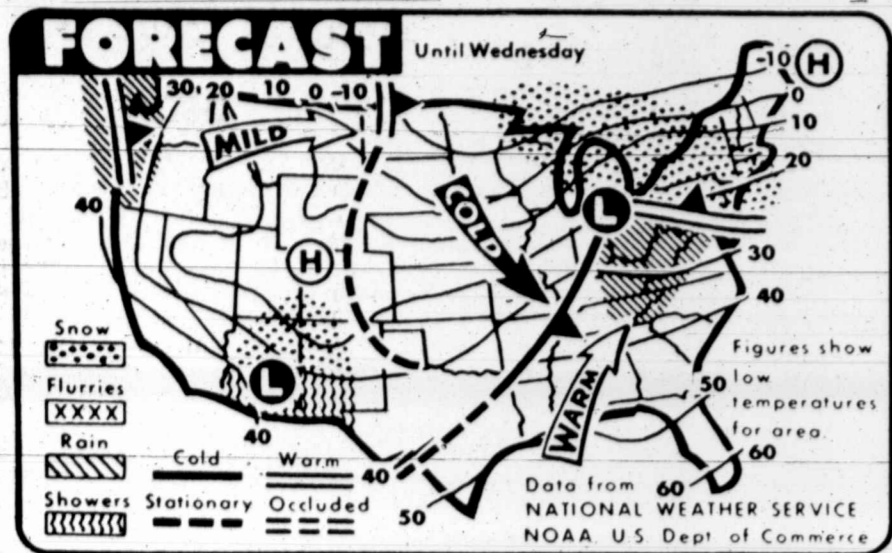

Crown Prince Reza Pahlavi, 17, is

in pilot training at the air base in this city of nearly 165,000 people.

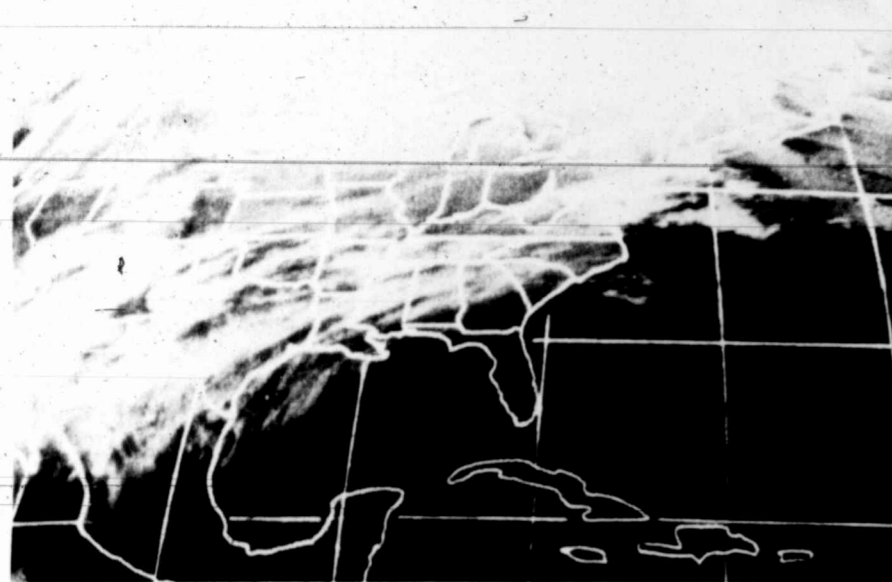

Local reporters said security at the prince's home — normally handled by off-duty Lubbock police officers, was being handled by U.S. State Department guards.

After the convoy arrived, the prince was seen playing with children in the lighted area of his back yard. The Lubbock Avalanche-Journal reported it had confirmed late Monday that Iranian government officials had rented rooms at a Lubbock hotel.

WEATHER SUMMARY

Snow is expected today through Wednesday morning from the Midwest and Great Lakes to the Northeast.

Broken high clouds from the mid-Atlantic coast westward across the southern Plains, becoming heavier overcast across the Southwest to California.

Woman reports damage to auto

A Midland woman told police an estimated \$200 damage was done to a 1974 Volkswagen vehicle parked in the 3300 block of West Wadley Avenue Monday night.

Troops wage night raid on Lebanon

TEL AVIV, Israel (AP) — Israeli commandos landed in Lebanon early today and blew up a building used by Palestinian guerrillas.

The night raid was carried out at Ras el-Ain, two miles south of the Lebanese port of Tyre and 12 miles north of the Israeli border.

In Beirut, the Palestine Liberation Organization claimed its guerrillas inflicted heavy casualties on the raiders.

The enemy pulled out leaving big amounts of weapons and pools of blood behind, a communique from the Palestinian command said.

Murder trial to start today

ODESSA — Twenty-one-year-old Alvin Chester Willis of Odessa was to go on trial here today on a charge of murder in 70th District Court in connection with the April 27 shooting death of Wayne Allen Wallace.

DEATHS

John M. Wise

BIG SPRING — Graveside services with full military rites for John Marion Wise, 56, of Big Spring will be at 1:30 p.m. Thursday in Fort Bliss National Cemetery in El Paso. Services will be directed by Larry D. Sheppard Funeral Home of Big Spring.

Wise died Sunday in a Big Spring hospital after a lengthy illness. He was born July 9, 1922, in Walnut, Ill. He was married to Alice Frederickson on Nov. 19, 1947, in Osceola, Ark. Wise was a retired stationary engineer for a bank and was a veteran of World War II. He had lived in Big Spring for seven years.

Survivors include his wife; a son, Karl C. Wise of Big Spring, and two sisters, Yvette Sager and Andrea Bennett, both of California.

Ervin H. Holley

GRAHAM — Services for Ervin Howell Holley, 79, were Saturday in Morrison Funeral Home. Burial was in Pioneer Cemetery.

Holley died Wednesday in a Graham nursing home.

He is the father of Grady Holley, Arnel Holley and Linda Lou Holley, all of Midland, and Ervin Holley and Marie Reach, both of Odessa.

He was born Nov. 26, 1899, in Oak Cliff. He had lived in Graham since 1929. He married Dolly Butler Dec. 8, 1927, in Coleman.

Other survivors include his wife, a son, two daughters, two sisters, 23 grandchildren and 11 great-grandchildren.

A. Nicholas

McCAMEY — Services for Arabelle Nicholas, 78, of McCamey, mother of Kay Stump and sister of Mrs. J.D. Windham, both of Midland, were to be at 2 p.m. today in the First Baptist Church here with burial to follow in McCamey Cemetery directed by Larry B. Sheppard Funeral Home.

Mrs. Nicholas was born Feb. 7, 1901, in Fairy. She had lived in McCamey for 38 years.

Other survivors include two sons, six grandchildren and a great-grandchild.

Plague kills 10 persons in Kenya

NAIROBI, Kenya (AP) — An outbreak of bubonic plague has killed 10 persons and possibly infected 301 others in Kenya since early this month, a Health Ministry official says.

Dr. Eric Mngola, quoted today in Nairobi's Daily Nation newspaper, said the disease erupted in the towns of Lengesi, Kitui, Taveta and Loitokitok in eastern and southern Kenya.

Suspected cases also have been found in an area just 14 miles from the Kenyan capital, but he said, "The public can rest assured there is no cause for alarm as their lives are not endangered. The outbreak is under control."

No new cases have been reported in southern or eastern Kenya since the initial outbreak, Mngola said, and the situation was being closely monitored by the government.

A special coordinating committee to combat the spread of plague has been set up by the government and the spraying of houses and killing of rats in plague areas was in progress, he said.

The plague, known as the "Black Death" when it ravaged Europe and Asia in the 14th century, is transmitted by rat fleas.

Fire chief announces promotions

Midland City Fire Chief Raymond Lewis today announced today the following promotions:

Capt. Farrell Ezell will be promoted to battalion chief. The 50-year-old firefighter has been with the department 27 years.

Lt. Wayne Kerley will be promoted to captain. The 46-year-old fireman is a veteran of 23 1/2 years with the department.

Charles Haynie will be promoted from driver to lieutenant. The 44-year-old city employee has been with the agency 16 years.

L. Michael Stephens will be promoted from hoseman to driver. The 30-year-old Midlander has been employed with the department four years.

Annie C. Koonce

Annie Charlene Koonce, 54, of 2900 W. Illinois Ave., died Monday in a Midland hospital following a long illness.

Services were to be at 10 a.m. today in Newnie W. Ellis Funeral Home with the Rev. Bob Netherland, pastor of Asbury United Methodist Church, officiating. Burial was to be in Resthaven Memorial Park.

Mrs. Koonce was born Sept. 13, 1924, in Tyler and moved to Midland at the age of 6. She attended schools here. She was a businesswoman in Midland for many years, owning and operating West Texas Reproduction Co. She was a member of Asbury United Methodist Church.

Survivors include a daughter, Susie Whitley of Midland; her mother, Mrs. P.L. Crawley of Midland, and two sisters, Jackie Richman and Johnnye Glaspie, both of Midland.

Palbearers will be Buster Davis, Paul Olgin, Melton Olgin, Hal Dean Jr. and Ralph Johnson of Midland, and Bill Seals and Vann B. Mitchell, both of New Braunfels.

Mrs. E.B. Pope

Services for Mrs. E.B. (Angelina) Pope, 67, of 1119 N. Carrizo St., were to be at 2 p.m. today in Newnie W. Ellis Funeral Home with the Rev. Bob Porterfield, pastor of the Kentucky Street Baptist Church, officiating. Burial was to be in Resthaven Memorial Park.

She died Saturday in a Midland hospital after a long illness.

Mrs. Pope was born in Kansas June 21, 1911. She moved to Midland in 1956 from Odessa. She established Angles Message Bureau, which she operated until 1970. She was a member of the Baptist Church.

Survivors include her husband; a daughter, Barbara Ann Brown of Imperial, Neb.; two brothers, Loren McMannama of Las Cruces, N.M.; a sister, Opal Cox of Sterling, Kan.; four grandchildren and two great-grandchildren.

Palbearers will be Lewis Furche, Jim Murphy, Ed Williams, Buster Davis, Howard Madden and Arvin Norwood.

Cordie L. Trout

CHILDRESS — Services for Cordie L. Trout, 83, of Claude, sister of Lois Hutton of Midland, were to be at 11:30 a.m. today in Griggs Funeral Home in Amarillo with the Rev. John Glover, pastor of Cannon Street Baptist Church of Amarillo, officiating. Graveside services were to be at 3 p.m. today in Childress Cemetery with the Rev. Joe Allen, pastor of First Baptist Church of Childress, officiating.

Mrs. Trout died Friday in a Claude nursing home.

She was born April 10, 1895, in Indian Territory and was a longtime resident of Childress County before moving to Amarillo in 1952.

Other survivors include two sons, three daughters, nine grandchildren and five great-grandchildren.

Olen Buckalew

ODESSA — Services for Olen Buckalew, 65, of Odessa were to be at 2 p.m. today in Easterling Funeral Home. Burial was to be in Sunset Memorial Gardens here.

Buckalew died Sunday in an Odessa hospital.

He was born Sept. 11, 1913, in Colorado City. He was married to Edith Hudson Nov. 26, 1932, in Lovington, N.M. He was a Baptist.

Survivors include his wife; two sons, Charles Buckalew of Crane and Neil Buckalew of Odessa; two daughters, Carrol Reeves of San Angelo and Brenda Taylor of Midland; a sister, Sybil Rhodes of Lamesa; four brothers, D.A. Buckalew of Fort Worth, Roscoe Buckalew of Lubbock, Mack Buckalew of Lamesa and Leroy Buckalew of Oakdale, Calif.; and 11 grandchildren.

Jared L. Carter

WINTERS — Services for Jared Lloyd Carter, 75, of Buchanan Dam and formerly of Midland, were to be at 2 p.m. Wednesday in Spill Funeral Home here.

He died Monday in a San Angelo hospital following a brief illness.

Carter was born Jan. 3, 1904, in Bell County. He moved to the Wingate area in 1924. He worked in Winters for a bottling company and later on a farm northwest of Winters.

In 1928, he moved to Midland, where he worked for the U.S. Post Office. Later, he was a rural mail carrier,

retiring in 1974. In 1966, he moved to Buchanan Dam.

Carter was married to Bonnie Bryan Dec. 26, 1928, in Anson. He was a member of the Church of Christ.

Survivors include his wife; a son, Jerry Carter of Midland; a daughter, Katherine Pittman of San Angelo; three brothers, Dalton Carter and Horace Carter, both of Atascosa, and Troy Carter of Dos Palos, Calif.; and five grandchildren.

Reuben Johnson

SAN ANGELO — Services for Reuben C. Johnson, 76, of San Angelo, father of Maxine Parrish of Midland, will be at 2 p.m. Wednesday in Johnson's Funeral Home with the Rev. C.T. Aly, retired Baptist minister, officiating. Burial will be in Fairmont Cemetery.

He died Sunday in a San Angelo hospital.

Johnson was born Dec. 15, 1902, in Nacogdoches. He was married to Helen Schulkey Oct. 18, 1967, in San Angelo. He had been a resident of San Angelo 55 years.

Other survivors include his wife, a son, three brothers, a sister, seven grandchildren and seven great-grandchildren.

R.L. Barrington

THROCKMORTON — Services for Robert L. Barrington, 63, of Throckmorton, brother of Rosa Crawford of Lamesa, were Monday in the First Baptist Church in Throckmorton with the Rev. Pete Bradford, pastor, officiating. Burial was in Throckmorton Cemetery directed by Merriman Funeral Home.

He died Saturday in a Throckmorton hospital after a long illness.

Born Sept. 15, 1915, in Dallas, Barrington had lived in Throckmorton County since 1919. He was an automobile mechanic. He was a member of the First Baptist Church. He was married to Mae Breeden May 18, 1941, in Anson.

Other survivors include his wife, two daughters; two sons; four brothers, three sisters and eight grandchildren.

Jesus Vasquez

LAMESA — Services for Jesus Vasquez, 19, of Lamesa will be at 2 p.m. Wednesday in St. Margaret-Mary's Catholic Church with the Rev. Jerome Vitek, pastor, officiating.

Burial will be in Lamesa Cemetery directed by Branon Funeral Home.

He died Sunday from injuries received in a car accident.

Survivors include his parents, Mr. and Mrs. Faustino Vasquez Sr., of Lamesa; three sisters, Mary Jan Sanchez of Lamesa and Roselinda Vasquez and Gloria Vasquez, both of the home, and six brothers, Faustino Vasquez Jr., Vincent Vasquez, Ray Vasquez, Joe Vasquez, Frank Vasquez and Rupert Vasquez, all of Lamesa.

Jury selection rescheduled for Burnett trial

BEAUMONT, Texas (AP) — Jury selection for the capital murder trial of Linda May Burnett has been rescheduled to begin at 9:30 a.m. Thursday after a defense lawyer swore he never received a copy of the list of prospective jurors.

The trial was to have begun in state district court here Monday morning, but Mrs. Burnett's lawyer swore he had not received a copy of the prospective juror list.

Mrs. Burnett, a 30-year-old mother of three, is charged in the slayings last July of five members of a Winnie, Texas, family — Bishop and Ester Phillips; their son, Elmer; Elmer's wife, Martha; and Jason Phillips, 2, Elmer and Martha's son.

District Judge Larry Gist said he handed a copy of the prospective jurors list to both the prosecution and defense last Friday. District Attorney James McGrath said both he and defense attorney Bill Howell got the list last Friday.

But Howell said he never received the list.

The judge then scheduled jury selection to begin Thursday, complying with state law that requires the lawyers be given two days' preparation after getting the jury list.

Mrs. Burnett and Ovide Joseph Dugas, 32, are accused of killing the family during the July 4th weekend.

Supreme Court refuses lawsuit by El Paso

WASHINGTON (AP) — The Supreme Court today refused to allow El Paso, Texas, to file a \$1.5 million federal lawsuit against three steel firms the city says illegally drove up construction costs of a civic center complex.

The justices, without comment, left intact a lower court's ruling that El Paso tried to file its antitrust suit too late.

The controversy grew out of El Paso's decision in 1968 to build a municipal civic center complex. In mid-1970, the city signed a contract with Robert E. McKee Construction, the project's general contractor.

On Sept. 4, 1970, McKee signed a contract with the Darbyshire Steel Co. for the structural steel to be used in the civic center. The project was completed four years later.

The city's antitrust suit was filed Aug. 19, 1975. It charged Darbyshire, El Paso Machine & Steel Works and Robberson Steel Inc. with entering into a price-fixing conspiracy.

The suit charged that the three steel firms agreed that Darbyshire would submit the only bid to McKee and that all three firms would collect profits from material provided for the civic center's construction.

Such a restraint of trade is in violation of the Sherman Act, a major antitrust law.

U.S. District Judge William Sessions dismissed the suit without ruling on the merits of the city's allegations.

Sessions ruled that the four-year statute of limitations in antitrust cases had run out as of Sept. 4, 1974 — four years after McKee signed its contract with Darbyshire.

The 5th U.S. Circuit Court of Appeals upheld Sessions' ruling, rejecting the city's arguments that because payment for the structural steel under the McKee-Darbyshire contract was being made through mid-1974 the lawsuit should not be barred.

In seeking Supreme Court review, lawyers for El Paso argued that the appeals court ruling is in conflict with other federal court interpretations of when the running of the statute of limitations starts in cases of a "continuing conspiracy."

Five new contracts approved by union

DENVER (AP) — Five new contract offers have been approved by officials of the Oil, Chemical and Atomic Workers International Union, bringing to nine the number of offers accepted since the union's previous contracts expired.

Union president A. F. Groszpiorn said the five latest acceptable offers followed the pattern established Thursday by Gulf Oil Corp.

Jerry Archuleta, spokesman for the Denver-based union, said 24,750 of the union's 60,000 refinery workers are now covered by contracts. The OCAW is negotiating 411 contracts with 100 companies.

Archuleta said the offers approved Monday were from Texaco, Sohio (Standard Oil of Ohio), Atlantic Richfield, Energy Cooperative Inc. of East Chicago, Ind., and Cenex of Laurel, Mont.

The union represents about 8,250 Texaco employees, 900 at Sohio, 3,500 at Atlantic Richfield, 650 at Energy Cooperative and 200 at Cenex.

Earlier, the union's leadership approved contract offers from Amoco (Standard Oil of Indiana), Marathon Oil of Ohio, and California-based Lion Oil, in addition to Gulf.

Ratification votes were scheduled at the local level on the approved contracts, but in some cases voting was delayed pending resolution of local issues.

The OCAW's tentative agreement with Gulf calls for a wage increase of 73 cents an hour in the first year of a two-year contract and a 5 percent pay boost the second year. The contract contains a reopener clause the second year.

Gulf officials say the 73-cent increase amounts to about an 8 percent boost for its workers.

The Gulf settlement has the tentative blessing of the Carter administration, which seeks a voluntary 7 percent limit on wage and fringe-benefit increases over the life of a contract.

In Port Arthur, Texas, an after-midnight bargaining session by Texaco averted a strike by 4,500 union members which had been called for 6 a.m. Monday.

The strike was "narrowly averted" when Texaco withdrew one national and two local issues from the bargaining table as demanded by local OCAW officials.

A final agreement still has not been reached, but OCAW officials had threatened to strike over Texaco's persistence in pursuing the issues.

Texaco dropped an attempt to prohibit strikes for non-arbitrable issues, allowed under the 1976-1978 contract; deleted a proposal that would have required the union to drop a suit against Texaco seeking back pension benefits; and decided against trying to exempt new Texaco employees from wage increases voted in the 1979-1980 contract.

"I think we are in the ballpark for negotiating the national program now," OCAW negotiator Larry Steffen said, referring to the agreement reached last week between the union and Gulf Oil.

Texaco has offered the union a two-year contract similar to Gulf's.

Dance pioneer given Schweitzer award

NEW YORK (AP) — Dance pioneer Katherine Dunham received the second Albert Schweitzer Music Award Monday night during a 2½-hour program of dance works, all colorful and bursting with vitality, all choreographed by Miss Dunham.

Miss Dunham, who is 70, was given a bust of Schweitzer from his daughter, Rhena Schweitzer Miller.

Miss Dunham received the award for service to the performing arts and for humanitarianism. The first Albert Schweitzer Music Award was presented, on the late scientist's 100th birthday in 1975, to violinist Isaac Stern for his efforts on behalf of Carnegie Hall and Israel.

Fifteen Dunham dances, several from 1938 and the most recent from 1975, filled the evening and there wasn't a weak one among them. Some were excerpts from long suites, like a couple of formal early 19th century quadrilles from "The Brazilian Suite."

Others were a buck and wing and slave square dances from plantation days.

"Shango" is an exciting, dramatic dance — set to drums — of sacrificing a chicken to the African god Shango in Trinidad. Dancers, all wearing white, would shake their shoulders, keeping still below the waist, or shake just from the waist down, or shake all over.

Striking costumes, from primitive to flapper funny to elegant, were by Miss Duncan's husband, John Pratt.

Twenty-six dancers taking part included Vanoye Aikens and Lucille Ellis, who were Dunham stars of the 1930s, other former Dunham dancers and nine lithe members of Southern Illinois University's Performing Arts Training Center in East St. Louis, which Miss Dunham has run for "street people" since 1967.

One sees the Martha Graham Dance Company in New York and can see how Miss Graham has influenced Alvin Ailey in choreographing for his enormously popular dance company. Miss Dunham hasn't had a dance company here since 1962 and it is instructive to see how her tradition has inspired Ailey, too, probably even more.

Miss Dunham, who was born in Glen Ellyn, Ill., had her first company, Ballet Negre, in Chicago, in 1931. In the mid-1930s she studied religions in the West Indies and Haiti, returning to get a masters degree in social anthropology from the University of Chicago.

Her dance company has danced in Broadway shows and in movies. She was the first black to choreograph for the Metropolitan Opera.

Harry Belafonte, at Carnegie Hall, said the audience had come "to testify to her greatness."

John Cheever wins top fiction book honors

NEW YORK (AP) — "The Stories of John Cheever" has been named the best book of fiction of 1978 by the National Book Critics Circle.

Cheever's stories won the fiction prize over John Updike's "The Coup"; "Final Payments," by Mary Gordon; "The World According to Garp," by John Irving, and "Wrinkles," by Charles Simmons.

The award for poetry went to "Hello Darkness: The Collected Poems of L. E. Sissman," edited by Peter Davison; and Meyer Schapiro's "Modern Art: 19th and 20th Centuries, Selected Papers" was named as the best work of criticism.

Two works will share the general nonfiction award: "Facts of Life," by Maureen Howard, and "Inventing America: Jefferson's Declaration of Independence," by Garry Wills.

The awards, announced Monday, will be presented at ceremonies on Jan. 25.

The winners were chosen from nominations by the organization's board of directors and its regular members, about 200 professional critics, reviewers and review editors nationwide.

Other nominees in the poetry category were "The Dream of a Common Language: Poems, 1974-1977," by Adrienne Rich; "The Late Hour," by Mark Strand; "New and Selected Things Taking Place," by May Swenson, and "Spectral Emanations: New and Selected Poems," by John Hollander.

DR. NEIL SOLOMON

No cure for herpes simplex

Dear Dr. Solomon: Every time I get a cold, my nose and lips fill with sores and blisters. This has been happening ever since I was a child. Is there anything I can do to alleviate the pain and annoyance of these sores and blisters? Can they be prevented?—Bonnie

Dear Bonnie: What you describe are cold sores and fever blisters caused by the herpes simplex virus, and I'm afraid I can offer little comfort. The reason you have been susceptible for so long a period of time is that once the virus enters the body, it remains for the life of the person. An outbreak can be triggered by sunlight or emotional problems, as well as by respiratory infections.

Although there is no cure for herpes simplex, you may be able to prevent the blisters by applying very hot water to the affected area as soon as you feel an outbreak coming on. After blisters have appeared, calamine lotion or alcohol can be applied. These drying agents are helpful since moisture delays healing. After a crust has formed, an application of zinc oxide ointment will speed its disappearance.

Dear Dr. Solomon: I am 46 but am worried about having a heart attack. Both my mother and father died of heart attacks before they were 50. Please tell me what the warning signs are so I know what to look out for. Thank you.—Mr. T.R.

Dear Mr. T.R.: Usually when we speak of a heart attack we mean an acute condition that doctors call coronary thrombosis, a sudden blocking of one of the coronary arteries—the arteries that supply the heart muscle with blood.

Although the attack itself is sudden, it is the result of a slowly developing

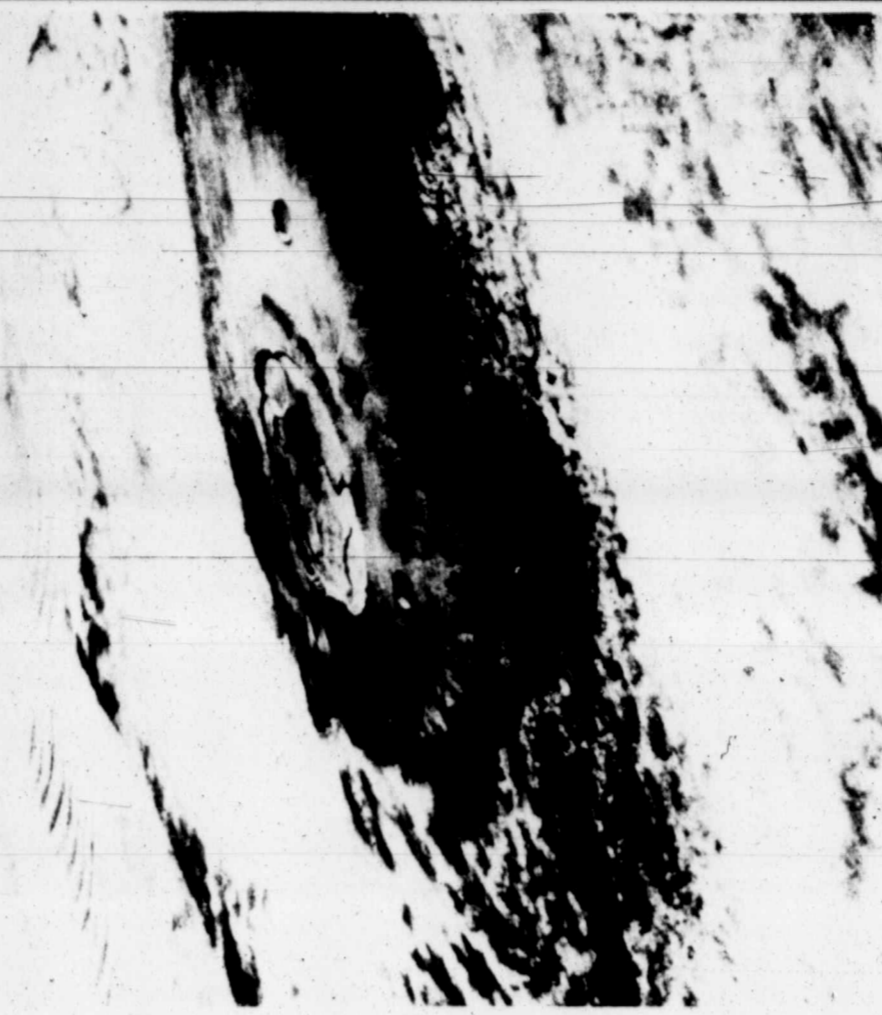

disease process (atherosclerosis) of the coronary arteries. Atherosclerosis is responsible for most heart attacks and for the chest pain called angina pectoris. It is a form of arteriosclerosis (hardening of the arteries).

In atherosclerosis, the passageway through the arteries becomes roughened and narrowed by fatty deposits that harden into patches along the inner lining of the artery. This process has been compared to the formation of lime deposits in a water pipe. Around these patches, scarlike fibrous tissue forms in the artery wall, so that the channel is narrowed and there is less room for the blood to flow through.

A blood clot may form in the narrowed artery to block the channel and so cut off the flow of blood to the part of the heart supplied by that artery. When a clot (thrombus) cuts off the blood supply to a section of heart muscle, the result is a heart attack. Physicians call it a coronary thrombosis or coronary occlusion, or myocardial infarction.

Symptoms vary, but these are the usual warnings of heart attack: prolonged, oppressive pain or unusual discomfort in the center of chest, behind the breastbone. Pain may radiate to the shoulder, arm, neck or jaw. The pain or discomfort is often accompanied by sweating. Nausea, vomiting and shortness of breath may also occur. Sometimes these symptoms subside and then return.

(If you have a medical problem, see your doctor. If you have a medical question, write to Neil Solomon, M.D., 1726 Reisterstown Road, Baltimore, MD, 21208. Dr. Solomon cannot give personal replies but will answer as many questions as possible in his column.)

The planet Mars great northern volcano, Olympus Mons, the largest volcano known to man is shown in a photo taken by the Viking spacecraft from a distance of 5,000 miles on the Martian morning of July 31, 1976. Its multi-ringed crater, or caldera, measures some 50 miles across, and towers 15 miles above a base that stretches roughly the distance between San Francisco and Los Angeles. (AP Laserphoto)

Richard Nixon to make return White House trek

WASHINGTON (AP)—Richard M. Nixon is going to the White House, for the first time since his resignation, to have dinner later this month with President Carter and China's Teng Hsiao-ping.

Nixon, whose 1972 outreach to China ended 22 years of estrangement between the two nations, was invited by Carter, who built on Nixon's initiative by establishing full diplomatic relations with Peking.

"He was invited and he has accepted," said Mary Hoyt, press secretary to first lady Rosalynn Carter. Nixon aides in California confirmed the acceptance.

"It seemed the appropriate thing to do," a White House official said of the invitation. The official, who asked not to be named, said Nixon was invited "because of his role in opening up the process of normalization."

Nixon has not been in the Executive Mansion since he resigned under the blistering heat of Watergate Aug. 9, 1974.

Teng, China's vice premier, is scheduled to begin a week's tour of the United States Jan. 29 with a White House visit. The state dinner is that night.

Gerald Ford, who also made a presidential trip to China, was invited, too, but he expects to be out of the country on a trip to the Middle East that began Monday night.

It was not known whether Nixon will fly to Washington on a government plane. Mrs. Nixon will not come along.

Nixon has been in the capital only twice since he resigned. He was here briefly a year ago for Hubert Humphrey's funeral and again last month for a meeting of the Tuesday Group, a club of former White House co-workers.

Like all former presidents in recent years, Nixon has received periodic administration foreign policy reports.

His major interest has been with China, a country he revisited in 1976 as a private citizen.

In 1972, after his dramatic first trip to China, Nixon toasted that nation's leaders and spoke of "the years ahead to build a bridge across 16,000 miles and 22 years of hostility which had divided us in the past."

He declared: "We have been here a week. This was the week that changed the world."

Teng is scheduled to visit Atlanta, Houston and Seattle after a three-day stay in Washington. He expects to be in the United States for a little over a week.

Nixon got a warm welcome on both his trips to China. In 1972, he met Chairman Mao Tse-tung and Premier Chou En-lai. In 1976, he was one of the first westerners to meet Hua Kuo-feng, who became acting premier after Chou's death and is now party chairman. Nixon talked with Mao on that trip, too, but he did not meet Teng, then the target of an "anti-rightist" campaign.

"Our two peoples tonight hold the future of the world in our hands," Nixon said on a side trip to Shanghai. "As we think of that future, we are dedicated to the principle that we can build a new world, a world of peace, a world of justice, a world of independence for all nations."

Madrid's hotel workers strike

MADRID, Spain (AP)—Hundreds of tourists returned home ahead of schedule today, or made their own beds and cleaned their own rooms as most of Madrid's 70,000 hotel and restaurant workers struck.

All 30,000 workers of Spain's leading car manufacturer also struck today in Barcelona and Madrid seeking a 10 percent wage raise.

LEE YOUTH CENTER CHATTER

Lee High Rebels play Abilene Eagles tonight

By CINDY CANFIELD, ROBIN BENNETT & JULIE OCHSNER

REBEL POWER!!! That's right, Rebels! That's what it was Friday night as our Rebel Basketball Men POUNDED, PULVERIZED, PUNCHED, PUT DOWN AND POWERED those Pansy Panthers from Permian by a score of 54-51. Our Rebel Men showed what it means to NEVER GIVE IN; HUSTLE TO THE VERY END!! It was a great effort made by every guy on the team. If you missed this game you missed a GREAT one! After this victory, the team traveled to Abilene to play those crummy Cougars from Cooper. They played hard but fell behind with a hard fought score of 56-49. Our Rebel Men will play the Abilene Eagles in the Rebel gym tonight. Everybody come out and see another great Rebel victory! Game time is 8 o'clock sharp, so be there!!!

"Ready for action were our girls Thursday night as they grabbed for the gusto they could by pounding and pulverizing those 'Punky Permian Panthers. The girls will travel to Abilene Monday to defeat the Eagles-GO GIRLS!"

"Everybody in the pool! Our Red-Eyed Rebels went to a swim meet in El Paso this past weekend. The Rebel men placed 2nd. Carey Carrens did an outstanding job placing 1st in the 200-Medley, 100-Breast, and 400-Free Style.

"Because you did so good at the Permian game, we will 'Rebelette' again at the Abilene game here Tuesday night. There will be squad meetings at 7:45 Wednesday morning. Remember if you plan on running for office or being in Honor Squad, you must have as many points in other sports as you have in football. To the girls that 'Rebelette' at the Permian game, you were SUPER!!!

"Everyone who came to the Junior Council meeting knows that B.C. made reservations for the Senior Trip at the Holiday Inn on South Padre Island. For those of you who didn't attend, we have reservations for April 9-13!!! Remember, if you're scheduled to work, you better do it. ALSO, come and clean up after the dances, or YOU WILL NOT GO TO PADRE!!!

"Ladies (Seniors, that is) be sure and come to football practice 'cause we're running out of time. Our game is scheduled on Sunday, Jan. 28! Everyone come out and see the 4th annual Blood Baul!

"Say Rebels! The Football Banquet was held last night in the Cafeteria. The guest speaker was Fred Akers, head coach at U.T. Awards were given for outstanding Offensive and Defensive linemen, outstanding Offensive and Defensive backs, outstanding linebacker and receiver and specialty team member award. A scholastic award also was given. Recipients of these awards will be published in next week's chatter.

"REBELS!! Our tennis players competed in a duel meet against San Angelo. They were narrowly defeated. They will be taking on Abilene High here Saturday. Ace 'em, netters!!

"B.C. COMMENDS Kelly Blackwell, Susie Alexander, Sherri Griffin, Darcy Raymond, Marlise Crow and Angel Durr for being present Sunday to clean up.

"B.C. COMPLAINS to the rest of the Seniors for not being present for the clean up. IF WE are to be successful on Friday—I need your personal commitment to be present to set up and run the dance Friday night. SO—PLEASE LET ME KNOW YOU WILL BE HERE!!!

"REBELS! REBELS! REBELS!! Cindy, Robin, & Julie

Nixon pre-presidential papers made public record today

WASHINGTON (AP)—The General Services Administration was making public today about 600,000 pages of Richard M. Nixon's correspondence before he became president.

The first segment of documents from Nixon's pre-presidential years is being made available at the National Archives and Records center in Laguna Niguel, Calif.

Included among the papers are some of the documents for which Nixon once claimed a \$576,000 tax deduction.

During the first year of his presidency, Nixon gave the papers to the government with a deed dated March 27, 1969. It was not signed by Nixon but by deputy counsel Edward L. Morgan and

was not delivered until after April 10, 1970.

Nixon claimed his gift of papers to the National Archives was worth \$576,000.

Probability plus alertness pays off

By ALFRED SHEINWOLD We continue a week-long study of probability with a choice between a straight finesse and a suit break. It's not necessarily a matter of mere mathematics.

South dealer Both sides vulnerable

NORTH ♠ K 8 3 ♥ 8 4 ♦ 10 6 5 2 ♣ A K 4 2

WEST ♠ Q 10 7 ♥ J 10 5 3 ♦ 7 ♣ 10 8 6

EAST ♠ A 5 2 ♥ 9 7 6 2 ♦ 9 8 4 3 ♣ J 9

SOUTH ♠ J 9 6 4 ♥ A K ♦ A K Q J ♣ 7 5 3

South West North East 1 NT Pass 3 NT All Pass

Opening lead — ♥ Q

You can easily win two hearts, four diamonds and two clubs. Do you play

the clubs in the hope that each opponent has three clubs? Or do you lead a spade in the hope that West has the ace?

The odds are almost 2 to 1 against the club break. The odds are even that West has the ace of spades. As a matter of cold mathematics, therefore, you should try the spades.

EXTRA CHANCE This is not, however, the whole story. South can afford to run the diamonds before he must make a decision.

West must find three discards. If West ever throws a club, South can successfully lead spades. If West throws two hearts and one spade, South can afford to lose two spades. Even if West discards three hearts South can and should lead a spade to take a deep finesse with the eight. West's unwillingness to discard a spade is very revealing.

DAILY QUESTION Partner opens with one spade, and the next playing passes. You hold: SA52; H9762; D9843; CJ9. What do you say?

ANSWER: Bid two spades. You have five points in high cards and one point for the doubleton, just barely enough for a response.

Consumers group urges advertising moratorium

SAN FRANCISCO (AP)—A consumers group has urged a moratorium on advertising "harmful food and toys" and called the industry's attempts to regulate itself and its advertising to children "a disaster."

Peggy Charren, president of the Massachusetts-based Action for Children's Television, said Monday that recent developments, including Mattel's recall of the rocket-firing Battelstar Galactica toy last week, prove that the danger to children come from a lack of government regulation.

She said that 13 children have been injured, including a 5-year-old boy in Massachusetts who swallowed a missile.

"A child's desire for most unsafe toys and harmful foods is created by television advertisements. If the industry were forced to sell to adults, the products would very likely improve," Ms. Charren said.

ACT filed a petition that led to Federal Trade Commission recommendations, one of which is an outright ban on TV commercials directed at children under 8. Half a billion dollars a year flow into advertising aimed at children who gather around the

television each weekend to watch the antics on their favorite cartoons.

The FTC began a two-week round of hearings on kiddie ads Monday, asking for testimony to guide their decision on whether to regulate the commercials.

A psychologist, toy and cereal manufacturer, an independent television station and consumer groups were among the witnesses Monday.

They argued Monday over medical, psychological, jurisdictional and legal issues, including whether television ads promote sugar consumption and whether the FTC has the right to make policy and enforce a ban.

Fire Department urges use of smoke alarms

By GUY SULLIVAN
R-T Staff Writer

Smoke alarms must be okay to use — the Midland Fire Chief has three in his home.

Popularity of the alarms is based not so much upon it being a fad, but on the safety they provide for buildings and people, according to Midland City Fire Chief Raymond Lewis.

In fact, Lewis said, both new Midland City Fire Department structures — a central fire station and a substation — now being built will be equipped with smoke alarms.

"We wouldn't want to be the last ones to find out there was a fire in the department!" he declared.

"I highly recommend them because they give you enough advance warning of a fire to do something about it," said Lewis.

BACKING UP his philosophy with action, the fire chief has three battery type smoke alarms installed in his family's home.

"I'd definitely recommend the battery-operated kind because sometimes if you're unable to use the house current, the electrical type wouldn't work," he said.

"The house current is likely to be the first thing to go in a fire."

Lewis also suggested Midlanders check to see such products are marked by Underwriter's Laboratories stamp because this means the item has been approved for use by consumers.

The U.S. Product Safety Commission

said more than 6,000 persons die and more than 300,000 are injured each year by home fires. Many of those injuries and deaths in a home fire are caused by smoke, not flames.

Of these, officials said many deaths and injuries occur with fires breaking out at night while the victims are asleep.

THAT'S WHY U.S. Consumer Product Safety Commission officials strongly suggest that a reliable way to wake these sleepers before the smoke becomes too dense to breathe would help more people escape uninjured.

Misconceptions citizens have about fires include the following:

— The smell of smoke would awaken residents.

— There's usually plenty of time to get out.

— Fires only happen to other people.

— Smoke detectors aren't effective.

Two types of smoke detectors are on the market — ionization and photoelectric.

The photoelectric smoke alarm senses smoke by "seeing it" through light reflected by the particles of smoke, according to officials.

The ionization principle involves a small, carefully shielded piece of radioactive material which "ionizes" the air in the detector's chamber, said officials.

AS A RESULT, a very weak electrical current flows through that cham-

ber and is sensed by the detector's circuit. But when tiny particles of smoke drift into the chamber, the electrical current flow is reduced.

And, said officials, when enough particles have entered the chamber, the electrical current drops below the acceptable level, resulting in the detector's alarm or buzzer going off.

If the ionization smoke detector is held close to a person eight hours a day for a whole year, that person would receive only a tenth as much radiation as on a roundtrip airline flight across the nation, according to the U.S. Nuclear Regulatory Commission.

Still, officials admit more photoelectric smoke detectors are purchased than the ionization types.

However, whether Midlanders buy a house current or battery-operated smoke detector, they should be aware of certain aspects when shopping for such safety devices, said officials.

Suggested points to look for include: Are the instructions clear and complete? Can you do the installation yourself — safely? What maintenance is required?

THE QUESTION of where to install such devices depends upon the size and layout of the home, said federal officials.

Monthly testing of smoke alarms is also strongly recommended.

In addition, they said, home fire drills are serious — not "fun procedures." Families should walk through their main escape routes several times.

Planning alternate ways of escape from each room also is recommended.

If a person must go through a smoke-filled area, he or she should crawl on hands and knees with the head kept low to avoid breathing smoke, said federal authorities.

Before opening an inside door, you should touch the knob and the top of the door, officials suggest. If either feels hot, don't open the door. Fire on the other side might flash into the room.

If that happens, officials suggest citizens utilize a secondary escape route.

FAMILIES SHOULD agree on a place to meet outside the home to make sure everyone is safe, authorities added.

Get out safely before calling the fire department from a neighbor's home or from an alarm box, said officials. They don't recommend calling the fire department from a burning home.

Finally, officials said citizens should go back into the house or apartment only after firefighters have assured them the fire is completely out and the structure is declared sound.

A young woman, center, is helped by rescuers after an avalanche buried a group of ski students and their instructor at Mount Seegrube near Inns-

bruck, Austria, Monday. Three American students were swept to their deaths and five were rushed to hospitals with serious injuries. (AP Laserphoto)

Three American students killed by Austrian avalanche on ski trip

INNSBRUCK, Austria (AP) — Some 40 American students were to vote today on whether to continue a European ski tour or return home after an avalanche killed three of their classmates on 6,300-foot Mt. Seegrube.

Prof. Joseph Masters of Stetson University, De Land, Fla., said the students were scheduled to leave Innsbruck for Munich. "If a vote will decide whether we continue our tour or return straight home."

In addition to West Germany, the students originally planned to go to France and England before returning to the United States Jan. 30.

But on Monday, an avalanche killed Dennis Long, 23, of Louisville, Ky., William Scott Fenlon, 21, of Thomasville, Ga., and Katherine Resnick, 23, of Stockbridge, Mass. Five other students received minor injuries and were released from a hospital after first-aid treatment.

The professor gave this account: "There was a group of about 10-12 intermediate skiers. They had skied before and were on the upper slope of

Mt. Seegrube at the time.

"The other group was on the lower slope. They were not affected because the avalanche stopped a few yards in front of them.

"They just looked up as they heard the noise and saw this ball of snow

rolling down the slope, and they saw people being carried away by the snow.

"They rushed up to help them, and (Austrian) rescuers were very quick. They were surprisingly fast ... in their work."

Hilton leaves estate of \$100 million

LOS ANGELES (AP) — Hotel magnate Conrad Hilton, who died Jan. 3 at the age of 91, has left an estate of about \$100 million, according to documents filed in court.

A petition for probate of the will filed in Superior Court on Monday by Hilton's son, Barron, and James E. Bates — co-executors of the will — included bequests of \$750,000 to Barron Hilton, \$300,000 to son Eric, and

\$100,000 to daughter Constance Frances Hilton.

Bates said one provision of the will provided Barron Hilton an option to buy his father's shares of Hilton Hotel Corp. common stock at the value appraised in the estate. Barron Hilton reportedly planned to purchase the 6,775,000 shares by using a 10-year promissory note, Bates said.

Unanimous vote by House settles Cartwright's status

AUSTIN, Texas (AP) — Rep. Don Cartwright, D-San Antonio, no longer is in a state of legislative limbo.

The Texas House voted unanimously Monday to reject an election contest filed by Kae Thomas Patrick, a Republican whom Cartwright defeated by 738 votes in the Nov. 7 General Election.

With Cartwright and Rep. Brad Wright, R-Houston, shown as present and not voting, the House voted 136-0 to permanently seat Cartwright.

Cartwright, a two-term member, had been temporarily seated since the legislative session opened Jan. 9 and had taken part in all House votes.

A select House committee had heard testimony and arguments in Patrick's contest and reported back it could find no evidence that would justify seating Patrick or throwing out the Nov. 7 results and calling for a new election.

Patrick's lawyer, Tom Joseph of San Antonio, repeated the argument made to the committee that Patrick was denied Republican votes by an allegedly illegal redistricting in 1973.

But the committee said the Legislature acted within its rights in changing district boundaries ordered in 1972 by a federal court.

"I wonder if Mr. Patrick would have contested or refused to take his seat if he had won," said Buck Wood of Austin, Cartwright's attorney.

Joseph also protested the committee's refusal to receive testimony concerning Cartwright's arrest record. The committee had ruled it was empowered only to consider the election contest and not anything related to Cartwright's qualifications.

"There had been some tampering with court records, and that was the point of our contest," Joseph said, raising an issue that had not been heard by the committee.

YMCA announces programs

The Park Center YMCA announces its upcoming Winter and Spring programs which will start Monday and run through May 30th.

The basketball program is now under way for boys in grades 1-6. Boys wishing to play are urged to call the YMCA office as soon as possible. Games are scheduled each Saturday, starting this weekend.

Girls can also play basketball as long as they're in grades 3-6 and these games are set for Saturdays also.

Tae Kwon Do class will be taught by Johnny Hollums at a fee of \$11 per YMCA member and \$15 per non-member. Class will meet between 7:30 and 8:30 p.m. every Tuesday and Thursday, starting Jan. 23 for six weeks.

Guitar lessons will start at 7 p.m. each Monday and Wednesday and last until 8 p.m., starting Monday for six weeks.

day for six weeks.

Instructor Joe Ostrenga will teach basic techniques and fundamentals of music theory for a fee of \$10 for Y members and \$15 for non-members.

Macrame is offered for those wishing to learn the art of this creative hobby. Classes, which include all materials needed, will meet between 7-8 p.m. each Thursday, beginning Jan. 25 and continuing through March 15.

Fee for this class is \$12 for Y members and \$16 for non-members.

Gymnastic lessons from 5-6 p.m. each Tuesday and Thursday, starting Jan. 23 and continuing through March 1 will be for beginning boys and girls in grades 1-6. Cost is \$8 for Y members and \$10 for non-members in this class to again be taught by Jennifer Long.

Baton lessons between 11 a.m. and 12:30 p.m., starting Jan. 27 through March 17 will be taught by Miss Jamie Johnston at a cost of \$10 fee for Y members and \$12 for non-members.

A ladies' exercise class, designed for fitness-minded members, will be taught by Sylvia Sanchez. Class meets from 7:30 to 8:30 p.m. each Monday and Wednesday, starting Monday. The course involves a wide variety of aerobic dance and floor exercises with special attention given to problem areas.

The weightlifting room, featuring a new universal gym, will open between 6:30 and 8 p.m. every Monday, Wednesday and Friday for its members ages 15 and older.

In addition, a new game room, featuring foosball, bumper pool, ping-pong, air hockey, shuffle board, and television, will be open 3 to 7 p.m. Monday through Friday.

Boys and girls in grades 1-6 can be looking for information in March about the softball program.

Park Center membership rates for youths ages 18 and under are \$5; adults, \$7, and families, \$12.

Those seeking more information or wishing to register for a program may come by the YMCA, 1509 Orchard Lane, or call Park Center, 682-0533.

Two Basin cities to get more sales tax returns

AUSTIN — Two cities in the Permian Basin will be getting more sales tax returned to them this month while another one will be getting less when compared to the same period a year ago, according to State Comptroller Bob Bullock.

Odessa will be getting the largest share of the three with \$258,075.57 being returned as its January allocation. This is 21 percent more than the \$212,130.61 received a year ago.

Midland is scheduled to get \$175,418, a 10 percent increase over the \$159,259.49 allotted a year ago.

Big Spring is dropping to \$25,051.14. This is a 17 percent drop from the allotment of \$30,490.58 given a year ago.

Bullock said Monday the January allocation of the local option 1 percent sales tax would exceed \$18.1 million.

This sales tax is collected by merchants and other sales tax permit holders along with the state sales tax. It is rebated monthly to cities in which it is collected.

Dallas woman charged with attempted murder

DALLAS (AP) — A 32-year-old Dallas woman has been charged with two counts of attempted murder in the beating and mutilation of her children, police said.

Municipal Judge Lee Clemens set bonds of \$100,000 Monday on each of the charges against Kathleen Gradi. She did not post bond.

Her son and daughter were hospitalized in critical condition from wounds suffered Friday at their northeast Dallas apartment.

Police found Clifford Cecil Gradi, 11, in the blood-spattered apartment Friday, a screwdriver jammed through his eye and buried up to its hilt. He underwent two operations at Parkland Memorial Hospital.

His sister, Aimee Jean Gray, 8, was taken to Baylor Medical Center, where she underwent surgery for a skull fracture and a punctured lung.

Mrs. Gradi told police Friday that the children were getting ready for school when she left for work.

Geologists optimistic on Canyon

By J.P. SMITH
The Washington Post

WASHINGTON — Despite Gulf Oil Corp's announcement last week that it has abandoned the seventh wildcat well in the Baltimore Canyon off the mid-Atlantic coast, government geologists remain optimistic about the prospects for finding significant amounts of oil and gas there.

"It is going to take some more drilling and exploration before we will significantly alter our estimates," says John Lee, a resource evaluation specialist with the U.S. Geological Survey.

There has been but one potentially major find to date, a natural gas field hit by a Texaco-led consortium, with generally disappointing results elsewhere as reflected by the drilling companies' guarded statements. The impression is that the Baltimore Canyon area 70 miles east of Atlantic City, N.J. is not another Alaskan North Slope, and is almost dry.

But Lee, though he admits that the survey's estimates are "somewhat tenuous," says that the government expects the companies to find about 870 million barrels of oil and 11 trillion cubic feet of natural gas in the 109 tracts leased by the Interior Department for \$1.1 billion in 1976. That would be the equivalent of about 100 days of United States' oil imports and a little more than half the annual gas consumption.

By comparison, Alaska's North Slope has about 10 billion barrels of oil and about 24 trillion cubic feet of gas.

ASKED ABOUT THE depressing results being read from the oil companies' guarded statements about drilling in the Baltimore Canyon — many of which indicate non-commercial quantities of oil or gas have been found — Lee said, "There was drilling in the North Sea for years before they came up with a significant find."

"If they hit a bonanza on the next well, it would change the picture," he added.

Last summer, after Texaco's announcement, Wall Street analysts and the media were boosting speculation that the canyon leases in four clusters of the mid-Atlantic states held enormous promise.

Since then more wells have been capped, despite some interesting "shows," as traces of hydrocarbons are called by the companies. Gulf Oil's Joe Metula sums up the current situation: "Texaco is the only one with really positive discoveries; all the rest have been dry." The rest includes consortiums led by Shell, Mobil, and Continental Oil Co., along with Exxon and Houston Oil and Minerals.

Asked for the industry consensus, one oilman actively involved in Baltimore Canyon drilling operations said, "Right now it is on the negative side." The reason is that the best prospect, the Baltimore Dome, a geological structure that was thought to be a major trap for gas or oil, was drilled by Mobil and turned up dry.

THERE IS TALK elsewhere in the industry that the Baltimore Canyon, the first chunk of U.S. leased Atlantic acreage, could end up like the Gulf of Alaska or the Tanner Banks off California, where little or no oil and gas have been found.

In fact, the most promising new domestic drilling frontier has turned out not to be the Continental Shelf, but the overthrust belt, a hydrocarbon-rich geological structure that winds southward across Wyoming and the Great Plains.

The expectation has been that 40 percent of the oil and gas that remains to be found would be discovered underwater on the Continental Shelf. In fact, the major finds of recent years in the North Sea off England and Norway, and in Mexico's prolific Bay of Campeche have been offshore.

Nevertheless, only about 3 percent of the U.S. Continental Shelf has been leased and explored, and there are hundreds of thousands of acres of potentially lucrative drilling areas in the Atlantic. This is part of the reason the oil companies have been so sparing in their statements about Baltimore Canyon drilling, offering only the minimum information to comply with securities laws and regulations.

"This is partly out of caution at presuming too much before testing and evaluation is complete, and partly for competitive considerations, since another canyon lease sale is scheduled for February," writes Charles Maxwell, a noted oil analyst on Wall Street.

Val Verde gains well

Mobil Oil Corp. No. 4 Phillip-Arledge has been completed in the Will O (Ellenburger gas) pool of Val Verde County, 7.5 miles northeast of Pandale.

The operator reported a calculated, absolute open flow potential of 11.5 million cubic feet of gas per day, through perforations from 13,807 to 13,945 feet after 10,000 gallons of acid.

Total depth is 15,200 feet and 5.5-inch casing is set on bottom. Hole is plugged back to 10,100 feet.

The well, the 15th Ellenburger producer in the field, is surrounded by other Ellenburger wells.

Location is 1,583 feet from south and 738 feet from east lines of section 41, block Q3, TCRR survey.

Government says oil, eagles don't mix

PORTLAND, Maine (AP) — Oil and the bald eagle don't mix, says the federal government, which has blocked a \$700 million oil refinery planned for the Maine Coast.

The U.S. Environmental Protection Agency's regional office in Boston Monday denied a pollution permit needed for construction of the 250,000 barrel-per-day refinery and an oil tanker terminal in Eastport, the nation's easternmost community.

The EPA said the complex could damage the Northeast's best nesting ground for the national symbol.

William Adams Jr., EPA regional administrator, said a report from the U.S. Fish and Wildlife Service was the basis for the rejection.

"We were advised that the refinery would have significant adverse impacts on the eagles and their habitat as a result of oil spills, air pollution, and the impact of refinery construction and operations," he said.

"These potential impacts could not be avoided or mitigated by any means short of denial of the permit."

Pittston, a New York-based corporation primarily involved in coal production, could not be reached for comment. Earlier this month, A.F. Kaulakis, Pittston vice president for energy development, said the project would be scrapped unless government obstacles were removed within the year.

"We've been thwarted at every turn by obscure agencies in the government," he said of the project, which has been in the works for nearly a decade. "We're not going to continue this forever."

In Maine, the rejection was applauded by environmental groups, which have been fighting the refinery for years.

"This action by EPA is in accord with a common sense interpretation of the National Environmental Policy Act," said attorney Edward Lee Rogers of the Natural Resources Council of Maine.

The Fish and Wildlife Service report said the refinery site was the most productive bald eagle nesting area in the Northeast. The bald eagle was designated an endangered species last February.

Pittston could appeal the decision to the EPA in Washington, through the courts, or to a board comprised of cabinet members.

Supplies of unleaded gasoline uncertain

By STUART DIAMOND
Newsday

NEW YORK — Supplies of unleaded gasoline are uncertain, with shortages possible almost any time after this spring, according to interviews with economists, industry spokesmen and government officials.

Experts say the demand for unleaded gasoline is just matching supply, but that several factors could cause disruptions. They said an increase in driving or in new-car buying or a refinery shutdown could tip the balance and create shortages similar to those that occurred this past fall.

Larry Goldstein, senior economist of the Petroleum Industry Research Foundation, which is preparing a major study of unleaded gasoline supplies, said, "There are no short-ages today, but I'm starting to get nervous. The situation is not promising. While we might not face a severe shortage this year, 1980 could be severe."

The problem has been caused by several factors: —Beginning with the 1975 model year, nearly all American cars have been manufactured with catalytic converters to meet the requirements of the Clean Air Act of 1970. (This is one of the least expensive ways to meet the Clean Air Act requirements; many imported models with more efficient engines do not need catalytic converters.) These cars must use unleaded gasoline because lead ruins the converters. With at least 10 million cars added each year, demand for unleaded fuel has skyrocketed, even though overall gasoline use has increased only marginally. In each of the past two years, demand for unleaded gasoline has risen by more than 30 percent, while overall demand for gasoline increased less than 3 percent.

—Since 1973, federal controls on the price of gasoline have prohibited oil companies from reaping a profit on new refinery equipment. Thus, refiners have been reluctant to spend millions of dollars on additional capacity for unleaded gasoline, which is more expensive than the leaded variety. Refiners have just kept pace with the projected demand.

—Putting lead in gasoline is an inexpensive way to boost the octane necessary for the efficient perfor-

mance of many cars. Lead-free gasoline of the same octane requires more refining, more expense and more energy, further reducing the amount of fuel available.

—The demand for new cars from General Motors, the nation's largest auto producer, is running 7.5 percent above last year's level, meaning that substantially more older cars using leaded gasoline are being replaced by new cars that require unleaded fuel. Although no exact figures are available, industry sources estimate that 33 to 40 percent of all American cars now have catalytic converters. This month, 37.5 percent of all gasoline produced has unleaded, according to the Department of Energy.

—New cars have been getting lower fuel economy than predicted by the Environmental Protection Agency, meaning that more unleaded gasoline is being required.

Since November 1976 federal energy officials have been proposing to deregulate — or remove price controls from — gasoline.

In theory, this would give producers the money necessary for unleaded gasoline — an estimated 2-3 cents more per gallon. Oil economists predict that retail gasoline would cost 4-6 cents more. (Officials contend that the substantially higher price for unleaded gasoline at some service stations now is due to retailers purposely undercharging for leaded fuel in price wars, and making up the difference on the unleaded fuel.)

Nevertheless, a number of influential congressmen have said they were afraid that deregulation, coupled with fuel shortages, would cause gasoline suppliers to raise the price of fuel substantially. In addition, President Carter's staff has been concerned that deregulation would feed inflation.

Oil companies note that there were no federal price controls on gasoline before the 1973 oil embargo and that the market functioned without price-gouging.

"Almost everyone — including the Department of Energy — says the current situation is irrational," said Goldstein. "The oil companies have been adding refinery capacity faster than rational economics might dictate, in anticipation of decontrol — which the government has promised for five years." Most experts said deregulation is the only way that sufficient supplies will be produced.

Permian Basin counties gain new field projects, producers

Way & Mills of Midland No. 1-10 University has been completed in the Farmer (San Andres) area of Reagan County, eight miles southeast of Big Lake.

Total depth is 10,180 feet and 5.5-inch casing is set at total depth. Scheduled as a Cisco project, it is 3,000 feet from south and 6,200 feet from west lines of section 37, Zavalla County School Land survey.

The producer, 17 miles northwest of Seminole and one location west of other production, completed on the dump for a daily potential of 57 barrels of 33-gravity oil and 121 barrels of water. Gas-oil ratio is 289-1.

Completion was through perforations from 5,029 to 5,047 feet after 1,000 gallons of acid.

Location is 660 feet from north and west lines of the northeast quarter of section 21, block A-7, psl survey.

Completion was through an 18/64-inch choke and perforation from 8,839 to 7,114 feet after 2,000 gallons of acid and 40,000 gallons of fracture solution.

Location is 1,620 feet from south and 1,320 feet from east lines of section 32, block 13, SPRR survey and seven miles southwest of Sterling City.

Completion was through an 18/64-inch casing and perforation from 8,839 to 7,114 feet after 2,000 gallons of acid and 40,000 gallons of fracture solution.

Location is 1,620 feet from south and 1,320 feet from east lines of section 32, block 13, SPRR survey and seven miles southwest of Sterling City.

Holly Energy will dig Garza area explorer

Holly Energy, Inc., of Dallas announced location for a 9,300-foot wildcat in Garza County, 15 miles southwest of Post.

The Ellenburger project is 1/2 mile east of the depleted Gordon Simpson (Stran and Ellenburger) field and 467 feet from north and 2,173 feet from

pool of Pecos County, nine miles southwest of Girvin.

Operator staked location 1,955 feet from south and 1,355 feet from east lines of section 65, block 11, H&GN survey. It will be drilled as No. 3-65 Becken.

ANDREWS TEST American Trading and Production Co. of Midland No. 5-28 David Fasken has been spotted in the Serio (Grayburg) pool of Andrews County, 15 miles southeast of Andrews.

Scheduled for a 5,000-foot bottom, it is 467 feet from south and 1,814 feet from east lines of section 28, block 40, T-2-N, T&P survey.

The field produces from the Spraberry zone.

MARTIN WELL Mitchell Energy Corp. No. 1-13 University has been completed to extend the Lacaff (Wolfcamp oil) pool of Martin County 3/4 mile southwest.

On 24-hour potential test it flowed 133.5 barrels of 36.5-gravity oil and a trace of water, through a 1/4-inch choke and perforations from 9,770 to 9,852 feet.

Gas-oil ratio is 395-1. The pay was fractured with 50,000 gallons.

Total depth is 13,015 feet and 4.5-inch casing is set at 9,984 feet. The plugged back depth is 9,920 feet.

Well site is 990 feet from north and 1,980 feet from west lines of section 13, block 7, University Lands survey and 29 miles north of Midland.

MARTIN PRODUCER RK Petroleum Corp. No. 1 Anchor, drilled as a wildcat to 10,915 feet in Martin County, eight miles north of Tarzan, has been completed in the Spraberry Trend Area field.

Operator reported a daily flowing potential of 55 barrels of oil and eight barrels of water, through a 12/64-inch choke and perforations from 9,230 to 9,358 feet.

Total depth is 10,915 feet and 4.5-inch pipe is set at 9,520 feet.

Gas-oil ratio is 800-1 and the pay was acidized with 2,000 gallons.

Location is 5,076 feet from south and 1,980 feet from west lines of league 252, Ward County School Land survey.

ECTOR SECTOR Shell Oil Co. No. 13-D University, a former Ellenburger and Connell producer in the Jordan multipay field, has been re-completed from the Wolfcamp.

Extending Wolfcamp production 5/8 mile northeast, it finished for a daily pumping potential of 6 barrels of 41-gravity oil and four barrels of water, through perforations from 6,207 to 6,207 feet.

It completed for a daily pumping potential of 13-2 barrels of 25.6-gravity oil, with a gas-oil ratio of 1,288-1.

The finish was through perforations from 4,658 to 4,653 feet.

Total depth is 4,845 feet and two and three-eighths-inch casing is set at total depth.

Location is 2,130 feet from south and 467 feet from east lines of section 16-85-38.

ROOSEVELT AREA Flag-Redfern Oil Co. of Midland No. 2 CITGO-Ste is a new oiler in the Bluit (San Andres) pool of Roosevelt County, N. M., seven miles east of Bluit.

It completed for a daily pumping potential of 13-2 barrels of 25.6-gravity oil, with a gas-oil ratio of 1,288-1.

The finish was through perforations from 4,658 to 4,653 feet.

Total depth is 4,845 feet and two and three-eighths-inch casing is set at total depth.

Location is 2,130 feet from south and 467 feet from east lines of section 16-85-38.

CONGER PROJECTS Wagner & Brown of Midland announced locations for two more tests in the Conger (Pennsylvanian) area.

One of the projects is in Glasscock County and the other is in Sterling.

The Glasscock test is No. 2-28-A Allein, 1,980 feet from north and 660 feet from east lines of section 28, block 32, T-5-S, T&P survey and 18 miles southwest of Sterling City. It is slated for an 8,400-foot bottom.

Wagner & Brown No. 3-34-A Allein, also contracted to 8,400 feet 18 miles southwest of Sterling City, is 1,980 feet from north and 660 feet from east lines of section 34, block 32, T-5-S, T&P survey.

PECOS PROJECT Flag-Redfern Oil Co. of Midland is to be drilled as a 5,200-foot operation in the Chenot (Wolfcamp) gas

pool of Pecos County, nine miles southwest of Girvin.

Operator staked location 1,955 feet from south and 1,355 feet from east lines of section 65, block 11, H&GN survey. It will be drilled as No. 3-65 Becken.

ANDREWS TEST American Trading and Production Co. of Midland No. 5-28 David Fasken has been spotted in the Serio (Grayburg) pool of Andrews County, 15 miles southeast of Andrews.

731 to 6,964 feet after 1,400-gallons of acid.

Gas-oil ratio is 833-1. Total depth is 8,935 feet, 5.5-inch pipe is set at 8,851 feet and hole is plugged back to 8,700 feet.

Location is 1,990 feet from north and 1,280 feet from west lines of section 7, block 35, University Lands survey and five miles south of Penwell.

CRANE OILER Gulf Oil Corp. No. 7 W. N. Waddell and others, a re-entry project in Crane County, has been recompleted as a Wolfcamp gas well in the Sand Hills multipay area.

It finished for a calculated, absolute open flow potential of 705,000 cubic feet of gas per day, through perforations from 5,673 to 5,715 feet. Gas-oil ratio is 146,678-1. Gravity of the liquid is 35.7 degrees.

The pay was acidized with 5,000 gallons.

Total depth 6,013 feet and seven-inch casing is set at 5,881 feet. The plugged back depth is 5,754 feet.

Study indicates smoking's harmful pregnancy effects

HILTON HEAD ISLAND, S.C. (AP) — New evidence indicates the negative effects of smoking continue even if women quit before pregnancy, says a major new study.

Data released Tuesday for the U.S. Collaborative Perinatal Project, which examined more than 50,000 pregnancies at 12 hospital centers, confirmed previous studies showing smoking during pregnancy increases disorders that kill the unborn and the newborn.

But Dr. Richard L. Naeye of Pennsylvania State University told the American Heart Association's annual science writers' forum he was particularly disturbed by the first data to indicate past smoking had an effect on later pregnancy.

He said placenta praevia and the presence of abnormally large areas of dead tissue on the placenta were more common for smoking mothers and were related to past smoking, measured as cigarettes per year over a period of time.

Placenta praevia is a condition in which the placenta is attached abnormally low in the womb, leading to dangerous complications during labor and birth.

Naeye said no one knows how long the effects of smoking continue after a woman quits, but he advised women contemplating pregnancy to give up smoking as early as possible before conception.

Previous studies linked sudden infant death syndrome — also called crib death — to smoking during pregnancy. But Naeye said this study is the first to show smoking as an independent risk factor of the condition, a problem of unknown origin which kills one of every 400 children born in the United States.

While smoking is not the greatest risk factor in crib death — premature birth and respiratory and prenatal infection are others — it alone increases the risk of crib death by 52 percent, Naeye said.

Among the adverse effects that the study confirmed increase because of smoking during pregnancy are spontaneous abortions, stillbirths, and premature births.

The study found smoking increased the frequency of three other often-fatal disorders: premature separation of the placenta (the sack in which the fetus grows) from the womb; Rh disease, a blood disorder; and malformations of the heart and other organs.

Naeye, head pathological scientist for the study, said the study disagrees with previous reports on the prenatal effect of smoking on a child's intelligence.

Several studies have reported children of mothers who smoke have lower intelligence test scores than offspring of nonsmokers. But in comparing IQs of siblings whose mothers smoked during one pregnancy but not the other, the study found no difference, Naeye said.

The project, funded by the National Institutes of Health, uses data gathered during pregnancy, birth and the postnatal period between 1959 and 1966. Much of the data still is being analyzed, and it will be years before all the results are in, Naeye said.

Participating medical centers are Johns Hopkins Hospital, Baltimore; Columbia-Presbyterian Medical Center, New York City; Metropolitan Hospital of New York Medical College, New York City; Boston Lying In Hospital; University of Oregon Medical School, Portland; Charity Hospital, New Orleans; Children's Hospital, Buffalo, N.Y.; Medical College of Virginia, Richmond; University of Minnesota Hospital, Minneapolis; Pennsylvania Hospital and Children's Hospital, Philadelphia, considered as one unit in the study; Brown University Child Study Center, Providence; and Gailor Hospital of Memphis, Tenn.

Tractor caravan nears Fort Worth

A caravan of farmers stretched out for five miles along Interstate 20 today as it headed for Fort Worth — and ultimately to Washington, D.C. — to dramatize the farmer's protest of low farm prices.

They left from Abilene Monday morning as other farmers pulled out of Amarillo, heading for the nation's capital by another route. They'll be joining other farmers from the Dakotas, Nebraska, Kansas, Colorado, Oklahoma, Florida and Georgia who plan to be on hand for the Feb. 2 opening of the 96th Congress.

The Abilene caravan set its goals for Ranger, Texas, Monday evening and planned to arrive in Fort Worth later today.

The Amarillo caravan scheduled a rally in Sayre, Okla., Monday night and planned to arrive in Oklahoma City tonight or Wednesday. The caravans will average about 100 miles of travel a day, said a spokesman for the American Agriculture Movement.

The tractorcade of farmers and supporters carried signs and slogans ranging from "Dump Carter" to "Not a vacation, just desperation."

Farmers dubbed the caravan "National Tractorcade 1979."

The American Agriculture Movement had 1,000 farmers in supporters in Washington last year; they hope to have 2,000 this year.

Gerald McCathern, a Hereford farmer who has been a principal figure in the movement, said the key difference in this year's Washington protest will be the number of tractors on the streets of Washington.

The movement will be successful only "if we can get 1,000 tractors or more in Washington," McCathern said.

J.L. Cox of Littlefield, Texas, said the presence of the tractors would make the difference.

"I don't think all the farmers walking around Washington (last year) will have the effect the tractors will," Cox said, calling last year's protest mainly a publicity effort.

Bus collision kills 22

BUENOS AIRES, Argentina (AP) — Twenty-two persons were killed early today when two buses collided head-on 100 miles south of Buenos Aires on the highway to Mar del Plata, the Atlantic Coast resort, the government news agency Telam reported.

LEGAL NOTICES

NOTICE
THE STATE OF TEXAS
COUNTY OF MIDLAND

In compliance with Article 2546, et seq. Revised Civil Statutes of Texas, NOTICE IS HEREBY GIVEN that the County of Midland, State of Texas, at the regular meeting of the County Commissioners Court at 1:30 p.m. on February 12, 1979 will receive bids and enter into a contract with a banking corporation, association or individual banker of said County for the depositing of the Public Funds of the County of Midland in the Trust Funds of the County and District Clerks of Midland County, and the Public School Funds of Midland County for the ensuing two years as prescribed by law.

Any banking corporation, association or individual banker desiring to be designated as County Depository shall make and deliver to the County Judge on or before February 12, 1979 at 10:00 a.m. an application to be designated as such depository. The application shall be accompanied by a statement as to the amount of bond to be deposited and permanent surplus of said bank and a statement showing the financial condition of the bank as of the date of said application. The application shall also be accompanied by a certified check of not less than one-half of one percent of the County's revenue for the preceding year, or the amount of the good faith on the part of said bank, and that if said bank is accepted as County Depository that it will enter into the required bond.

Dated at Midland, Texas this 8th day of January, 1979.

WILLIAM B. ABBERS,
Midland County, Texas
(January 16, 1979)

Honor Roll Report

In February, 1985 the City of Midland was founded. Midland is now 94 years old and its present population is over 75,000. How long has your business been in Midland?

Coming January 21 in the Midland Reporter-Telegram Classified Section will be the Honor Roll Report. This interesting feature will list Midland firms in chronological order by the number of years they have been in business. The feature will be published on January 21, 28, February 4 and 11, 1979.

YOUR FIRM MAY BE REPRESENTED IN ALL FOUR OF THE SUNDAY ISSUES IN WHICH IT WILL BE PUBLISHED FOR AS LITTLE AS \$20.00

To be sure your firm is listed in the HONOR ROLL REPORT, USE THIS CONVENIENT ORDER COUPON
