TEHRAN, Iran (AP) - Former Prime Minister Shahpour Bakhtiar was arrested today as Iran's new provisional government appeared to be making headway in its efforts to bring unruly supporters under con-

Tehran Radio said six generals also had been arrested, including the commander of the paratroopers, Gen. Mauncheh Khrosrowdad.

As the new government struggled to take hold, its military chief of staff, Gen. Mohammad Vali Gharani, ordered all officers to report for duty. Apparently he was preparing to reorganize the military following the weekend battles, insurrections and looting of bases in Tehran and elsewhere that preceded and followed the collapse of the Bakhtiar govern-

Fewer gunmen were on Tehran's streets today compared to Monday, presumably as a result of Khomeini's appeal to his armed supporters to turn in their weapons and refrain from violence. Traffic also seemed to be returning to normal and many food shops were open.

However, American sources said gunmen seized the U.S. Information Center in Tehran and that U.S. officials had not been allowed inside. They also said about nine American civilians were seized Monday by various factions in Tehran, and some of them were held up to 12 hours before being released.

A U.S. Embassy spokesman said Khomeini supporters also briefly detained 25 Americans assigned to the Military Airlift Command.

Jury indicts Fife in death of 'Fifi' Murphy

ODESSA — An Ector County grand jury Monday returned indictments in which murder was charged against three persons, including Stephen Fife. boyfriend of an Odessa woman whose body was found Thursday in a shallow grave in Crane County

Fife, 22, who led officers to the grave of Catherine Ann "Fifi" Murphy, 19, was named in an indictment on a murder charge.

The grand jury and District Attorney John Green Monday recommended bond for Fife be raised from \$60,000 to \$100,000.

Another indictment named Steve Paul Perrin, 21, an Odessa oil field worker who took law enforcement officers Jan. 5 to Raymond Carl White's grave 12 miles west of Odes-

sa. No bond had been set on Perrin. Perrin had been serving a 10-year probated sentence for a burglary he was convicted of four years ago.

On a June evening in 1977, White, also known as Johnny Carl White, left without saying goodbye to his mother, Rose Clara White of Odessa.

His bones were found 18 months later in a southwest of Odessa, near

Penwell. White's body was buried in a hole about three feet deep, officials said. A missing person's report on White was

filed June 15, 1977. The Ector County grand jury Monday also returned an indictment charging murder against David Padilla of Odessa in a case involving the death of a 7-month-old girl. Padilla today was in Ector County jail in lieu

of \$100,000 bond. In the Murphy death case, District Attorney Green earlier had expressed dissatisfaction with a \$60,000 bond set by Peace Justice Charles Gee last

Green said the range of punishment in such a case can extend from a minimum of five years to a maximum of 99 years or life.

When asked if he expected a change of venue in the Murphy death case, Green answered, "In all probability,

but only because of the publicity during the six months Miss Catherine Ann Murphy was not found.'

Asked if Green believed anyone else is involved, he replied, "I don't foresee anybody else involved. However. we're continuing to investigate."

Green said the Fife indictment specified "death by strangulation." He added, "The indictment says he knowingly and intentionally killed" Miss Murphy.

When asked how he felt about the grand jury's decision, Green replied, 'It's to be expected. The trial is going to be interesting."

false Form W-4 in 1976. Monday afternoon, federal District Judge John H. Wood Jr. ordered Odessan Rita Duke jailed two days and fined her \$500 after citing her for contempt of court. Wood had ordered Mrs. Duke not to attempt to act as an

attorney for Patterson. Mrs. Duke claims to be a lawyer, with training consisting of "reading the law" and attending court proceedings to observe how they work.

Federal rules bar anyone, whether an attorney or not, from acting as a lawyer before federal court without being admitted to practice before the federal court.

PATTERSON HAD ATTEMPTED to have Mrs. Duke represent him at

preliminary hearings. As testimony began today, Patterson sat alone at the defense table, as, on the other side of the podium, an assistant U.S. attorney, an attorney from the U.S. Justice Department Criminal Tax Division and an IRS special agent handled the case against him

Asked if he planned a defense, Patterson said he does not have an attorney. "I hired an attorney," he said, adding that he does not think that at this point he could find "another attorney" to represent him.

Patterson conducted no cross examination, but, after the morning recess and outside the presence of the jury, did read to the court from court cases involving definitions of legal tender and tax liability for government notes.

Three small sections of Midland County are designated as justice of the peace precincts. But no one lives there.

That necessarily also means there is no justice of the peace for those precincts.

"I don't know what the heck we're going to do if a crime ever happens there," commented Commissioner Win Brown Monday at the County Commissioners' Court meeting.

In giving the background about the JP precinct divisions, Brown said these were designated small pieces of land, owned by Texaco, on which no one

House committee hears testimony on exempting autos from taxes

Austin Bureau

AUSTIN - Exempting two automobiles per family from property taxes would cost state and local governments as much as \$51 million a year and would still not produce a fair and legal tax system, according to testimony Monday to the House Ways and Means Committee. The committee is considering legis-

lation necessary to activate some of the tax relief provisions adopted by voters in November. Among those provisions are the automobile exemption and homestead exemption for elderly and disabled persons. State Rep. John Sharp of Victoria

told committee members that the tax on family cars is collected by fewer than half the taxing authorities in the state, despite a constitutional requirement that taxation be uniform and equal in all counties. "It (the tax on family cars) is one of

the most unpopular taxes," said Sharp, who explained that some counties have to spend half the tax money they collect in trying to collect the other half. As a result of the November tax

relief amendment, the Legislature has the option of exempting automobiles from the tax base. And the committee is considering similar bills by Sharp and State Rep. Froy Salinas of Lubbock to exempt two vehicles per However, State Rep. Lee Jackson of

it means you cut out unnecessary spending," Salinas said. The committee also heard testi-

mony on two bills by Rep. Jim Clark According to some of the testimony of Pasadena to grant elderly and disabled citizens tax breaks of up to \$10,000 on their homesteads.

Clark's bills would grant the exemption regardless of economic status, a proposal committee chairman Bob Davis of Irving says ought to be carefully examined.

WASHINGTON (AP) — Consumers may be starting to reduce their purchases at department and furniture stores, new figures indicate.

The Commerce Department said Monday retail spending increased by 0.4 percent in January, the smallest

gain since July. The nation's economy has been fueled since last summer by consumers spending extra income and borrowed money on consumer goods.

Retail sales climbed faster than the inflation rate in the fall, posting gains of 1.3 percent in both October and December.

The administration hopes to reduce inflation to 7.4 percent this year, down

NOTICE TO TELEPHONE CUSTOMERS

We are planning changes that will increase some rates to five countries and introduce a lower international dial rate to sixteen countries.

The American Telephone & Telegraph Company (AT&T) has filed a new schedule of overseas rates with the Federal Communications Commission (FCC) which accomplishes the introduction of international dialing to 17 additional countries. This brings the total of internationally dialable countries to 64. The scheduled changes include substantial rate decreases for 16 countries and selective rate increases in 5 of those 16 countries for calls billed on the United States mainland. There will be no rate changes for the 17th country, the Netherlands Antilles. The decreases are scheduled to become

increases are scheduled to become effective May 15, 1979. Increases and decreases of rates to five

effective on February 17, 1979, and the

The increases, which are limited to the initial period rates and are scheduled to become effective on May 15, 1979, will raise the Sunday Operator Station and Person-to-Person rates to Argentina; the Sunday Person-to-Person rate to Colombia; the night and Sunday Person-to-Person rate to Haiti; and the night and Sunday Operator Station and Person-to-Person rates to Honduras and Nicaragua. For example, the rate for Argentina goes from \$6.50 to \$8.00 for Operator Station and from \$9.00 to \$12.00 for Person-to-Person; for Colombia, from \$8.25 to \$12.00 for Person-to-Person; for Haiti, from \$9.00 to \$12.00 for Person-to-Person; and for Honduras and Nicaragua, from \$5.00 to \$6.00 for Operator Station and from \$6.00 to \$9.00 for Person-to-Person. There are no increases in the additional minute charges. These increases will make the initial period charge for these calls the same as the existing daytime rates.

The new International Dial rates, which are lower than all rates presently in effect, will become effective February 17, 1979.

International Dial rates.

With the introduction of International Dial rates on February 17, 1979, customers can save from 10% to 42% compared with the current lowest cost day call.

For example, a three-minute daytime call to Iran, Iraq, Malaysia, Saudi Arabia, Tahiti, Turkey or Yugoslavia, which now costs \$9.00 at the Operator Station rate, would cost \$7.80 if dialed. Similarly, an \$8.10 call to Kenya would be \$7.20, the \$8.00 call to Argentina would be \$7.05; a \$6.75 call to German Democratic Republic would be \$6.00, and a \$6.00 call to Honduras or Nicaragua would be \$5.40.

New Operator Station and International Dial rates for countries.

AT&T's proposal includes introducing both International Dial and Operator Station rates to four countries-Bahrain, Belize, Colombia, and Haiti. These rates will be lower than current daytime rates. A three-minute daytime call to Bahrain, if dialed, would cost \$9.00; to Belize, the rate would vary from \$3.45 to \$5.40; to Colombia, from \$4.50 to \$7.05; and to Haiti, from \$3.45 to \$7.05, depending on which state you're calling from.

It is important to note that customers calling from areas not presently equipped for International Dial would benefit from the lower dial rates even though the call would have to be completed by the operator. However, if the customer requests special operator assistance or special billing, the Operator Station rate would

DPS plea justified

The Texas Legislature should give serious consideration to Col. Wilson "Pat" Speir's request for increased funding of the Department of Public Safety, of which he is the chief.

Col. Speir's job of operating a statewide law enforcement agency is a tough one at best, and legislators should recognize the fact that law enforcement at all levels of government is becoming more and more expensive as additional demands are placed on it. Limited funds make the job really difficult.

The colonel, who formerly headed the state agency's Midland Region, pointed out that the department needs 400 more troopers but — if he had to make a choice - he would rather pay more to those already on the payroll.

He asked the Senate Finance Committee for a 13.6 percent pay raise for troopers during each of the next two years.

The Legislative Budget Board, however, has recommended only a 5.1 percent across the board increase each year of the biennium.

The board's total recommendation for the DPS in 1980-81 is \$196 million, which is \$40.2 million less than the DPS request. The recommendation of the board includes \$56.4 million from general revenue, which also is \$40.2 million less than the DPS had asked.

It would appear that the budget board was not fully aware of the serious situation facing the DPS in coming up with its recommendations.

Speir said his first and most important concern is the benefits recommended in the bill for the department's present personnel. He explained that it costs approximately \$30,000 to train a trooper, and "we're losing 200 officers a year." He went on to say that some cities are paying \$150 to \$200 a month more than the DPS for law enforcement officers.

These are matters which demand the attention of legislators and lay citizens.

The budget board did not recommend any new state troopers in 1980-81, yet it is reported that Texas motor vehicle drivers are increasing at the rate of 1,000 net each day. In addition to this, the federal government

says that one-third of all Texas motorists must drive within the 55-mph speed limit by Sept. 30 of this year, or the state could lose \$8 million of 1981 highway funds. At least 70 percent of the vehicles must be within the 55-mph limit by 1983 - or else.

Considering all of this, it is easy to see the plight in which the DPS finds itself in regard to finances. More troopers must be added to the force if the federal order is to come anywhere near being met.

The 400 new officers sought by the DPS would cost approximately \$11 million a year, according to Speir.

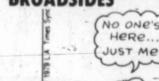

We most certainly are for reducing the budget wherever and whenever possible, but at the same time we realize that a reasonable, practical approach must be followed. Adequate law enforcement is essential in state government, just as adequate national defense is absolutely necessary in federal budgeting. The frills and the non-essentials must bear the brunt when it comes to pruning the budget.

It is interesting to note that Sen. A.R. Schwartz, D-Galveston, said he would like to see every single employee who stays with DPS get the 13.6 percent wage hike recommended by Col. Speir.

He also said that if 100 troopers are added, instead of increasing the pay significantly for those on the payroll, "We'll just get another 100 more underpaid people who will stay with you until they get another job." This is realistic thinking

Speir emphasized that the department's greatest need "is benefits to the people we have so we can retain quality people."

He has presented an excellent case. Surely the legislature will provide some relief more in line with the colonel's request.

WASHINGTON MERRY-GO-ROUND

AID is loose in its spending

By JACK ANDERSON

WASHINGTON - Just about every nation in real or apparent need has received aid from the United States. The handouts have been channeled through the Agency for International Development, which has carefully disbursed the biggest bucks to friendly regimes. The cash on the barrelhead, theoretically, has helped improve U.S. influence abroad.

This hardheaded, practical approach has always been the selling point that got AID appropriations through Congress — \$38 billion since 1961. Any suggestion of simple-minded, do-good extravagence is enough to arouse the wrath of conservative budget cutters on Capitol Hill.

Accordingly, AID officials have usually maintained close supervision over the way recipients spend their funds. But there is disturbing evidence that they are far less tightfisted when it comes to the money they spend on themselves.

Recent internal audits turned up shocking examples of high living, sloppy record keeping, disregard of agency guidelines and just plain waste in the handling of administrative funds. AID's operating expenses are now about \$250 million a year.

Some of the agency's 71 missions overseas are run efficiently, but certain abuses are widespread. Telephones and travel funds are used for personal and unofficial purposes. Lavish improvements are made to mission offices without authorization from headquarters. The luxurious, pukka-sahib lifestyle of some mission directors is a mockery of the poverty programs they are supervis-

Here are some of the cases the auditors uncovered:

- In Mali, an impoverished landlocked nation in the Sahara desert, all 15 houses leased for AID personnel are equipped with swimming pools, though a public pool is readily available. Not only that, the maintenance costs of these private pools are paid out of operating funds. The Mali mission ignored a 1976 directive from Washington intended to curtail the leasing of houses with swimming

- Top officials of the Pakistan mission have treated their administrative budgets like personal slush funds. Richard Cashin, who took over as mission director in 1977, put the official AID car and chauffeur at his family's beck and call; auditors found records of daily trips to "food markets, jewelry shops and similar establishments." The deputy mission director also took the opportunity to cash in on the easy access to public funds by employing two fulltime gardeners at his home.

 Reflecting their bosses' cavalier attitude toward the taxpayers' money, single employees and childless couples at the Pakistan mission occupy four-bedroom houses with five or six air conditioners. The auditors were at least able to keep the mission from spending \$60,000 for 100 clothes dryers, pointing out that "for most of the year the air is bone-dry." The mission's reason for requesting the fancy appliances was that staff morale would suffer if AID employees couldn't keep up with the Jonses at the American embassy, which issues dryers to its personnel.

 When Irving Tragen took over the Panama AID mission in 1975, he added \$6,668 worth of security devices to the official residence, rented an alarm system and hired a full-time guard. He used AID funds to buy a stereo set and color television, and even such picayune items as a shower head and a bathroom scale. The deputy director also purchased a color TV with public money, as well as a bar, an ice-making machine and a barbe-

— General Accounting Office investigators found that the Honduras mission had owned an airplane since 1965; the plane's operating and maintenance expenses ran to \$32,000 a

year. Mission officials explained they needed a plane to inspect AID projects in the rugged Honduran boondocks; they sold the plane after GAO's audit, and now rent aircraft as needed.

try to justify their revolutionary

This concept of Christ, as a politican, as a revolutionary, as the subversive of Nazareth does not conform with the teachings of the church. "Confusing the insidious pretext of

the accusers of Jesus with Jesus' own, very different attitude, the cause of his death is made to seem the result of a political conflict ...," the pope pointed out, in his address to the inaugural session of the Third Latin American Episcopal Conference (CELAM). It was to inaugurate the CELAM

meeting that Pope John Paul II went to Mexico, and it was there that he delivered his theologically irrefutable admonition to those who profess the theology of liberation.

It was Pope John Paul's first foreign trip since his election to the Holy See last year, the first time a pope has ever visited Mexico, and only the second time in history that a pope has set foot in Latin America. The conference in Puebla, which

drew more than 200 prelates from all over Latin America, is of considerable importance to the church as well as to those Latin American governments that have had to face the problem of fighting guerrilla bands led by priests and encouraged by bishops and archbishops. Estimates are that some 300 million

of the world's 750 million Catholics live in Latin America. What with widespread poverty, the living conditions of many are woeful.

While the church has long been concerned about the problems of the faithful, particularly after the second CELAM meeting, in Medellin, Colombia, in 1968, some bishops and priests adopted a more activist approach to the plight of the poor.

Swept along by the ideological ferment and the impatience of those times, they began preaching that violence was the only means to achieve Latin American social and political progress.

Some even shed their cassocks and joined the Marxist-led guerrilla bands that were and, in some cases, still are waging war against their govern-

ments.

In an effort to rationalize their behavior, they began preaching that Christ, the founder of the Catholic church, was really the first revolutionary, the first subversive, the first to engage in the class struggle.

For years, the Vatican has been trying to correct their mistake. But, perhaps because the admonition was delivered in Latin, from Rome, the word did not seem to get across the Atlantic.

Now, though, Pope John Paul II has visited Latin America, he has seen and been seen by the church hierarchy and, so that there can be no possibility of misinterpretation, he delivered them a 70-minute-long address in Puebla, on Sunday, Jan. 25, in Spanish, a language they all understand.

It can be summed up briefly. The church still stands on what it considers the word of God, the gospels. And Christ's message was one of love, not hatred, not violence, not revolution.

INSIDE REPORT:

Teng Hsiao-ping talked business while 'on the road'

By ROWLAND EVANS AND ROBERT NOVAK

SEATTLE - On the eighth and last night of Teng Hsiao-ping's U.S. visit, one more symbolic piece of evidence was provided about how quickly respectable conservative opposition to the new Washington-Peking link has

Instead of standing outside in the Seattle rain protesting abandonment of anti-communist Taiwan, leaders of the business establishment were inside at Canlis' expensive restaurant hosting a dinner for the veteran of the communist long march of 1934. The guest list, selected by Boeing Co. chairman T.A. Wilson, included industrial giants of the Pacific North-

That was the tone of Teng's five days on tour after leaving Washington. While his stay in the capital was marked by reassurances of non-combativeness toward Taiwan and warnings about the Russian polar bear, Teng on the road was talking busi-

Business leaders in the three prosperous, high-development cities visit-ed — Atlanta, Houston and Seattle were more than willing to respond. The only visible opposition came from extremists (Birchers and Klansmen on the right, Maoists on the left), members of the Chinese-American community loyal to Taiwan and a few nervous politicians.

Such nervous politicians were most obvious in Texas. Republican Goy, William Clements greeted Teng at Houston with warmth that matched the winter chill. Clements was positively bubbling, however, compared to Houston's Mayor Jim McConn, who

declined to give him the key to the city on grounds that Houston and Taipei are "sister cities." But businessmen and other leaders

of the Houston establishment - including Lt. Gov. William Hobby - felt McConn had overreacted and were embarrassed by him. Hobby, the state's senior Democratic official, introduced Teng to a steak-and-egg breakfast for newspaper editors. At that breakfast, his mother — Oveta Culp Hobby, chairman of the Houston Post—declared "we live in a changing time" that includes U.S.-Chinese

"reapproachment." Carter administration officials had feared that editors from Texas, Oklahoma and Louisiana would verbally assault Teng over Taiwan and communism. Not one such query was asked. Instead, they were concerned mainly with dollars-and-cents issues:

U.S.-Chinese agreement on oil exploration, Chinese farm production, farm imports from the U.S., Chinese oil exports. "You see," a triumphant China expert from the Carter administration proclaimed to reporters, "that's what people really care

Although news reports stressed his

attack on Soviet "warmongers," Teng's masterful speech to an Atlanta Chamber of Commerce luncheon emphasized how much China could learn from the people "in what you call the Sunbelt." Such stroking of civic pride and the profit motive surpassed even anti-Soviet haranguing on Teng's road trip.

So, the final-night Seattle dinner

was a natural culmination. As a piano played show tunes of the 1930s, Teng rubbed elbows with the likes of George Weyerhauser of the Weyerhauser Co. Towering multimillionaire David Packard, Richard Nixon's dep-uty secretary of defense, leaned down to exchange pleasantries with the 5foot-2 Chinese leader sipping a Coca-Cola ("I ordered a Coke because I've got to get used to it," Teng

No blacks, union chiefs or noted liberal leaders were present at the Seattle dinner, fitting the pattern of the entire trip. When a black editor at the Houston breakfast asked about Chinese ties with U.S. minority businesses, Teng brushed it off with the stock Chinese "welcome" for such contacts. In Atlanta, he showed no interest in visiting Martin Luther King's grave and did so only after President Carter's intervention.

Business enthusiasm for Teng clearly surpassed that of what Chinese Communists call the working masses. Before his tour of the Ford plant in Mariettà, Ga., there had been assembly line talk about "athe-istic communism." When Teng arrived, some workers held back from waving and looked sideways to see what their mates were doing. Neither in foreign policy nor in attention to U.S. domestic problems did Teng share the agenda of American liberals who long advocated the Washington-Peking link. Far from echoing Nikita Khrushchev's role of selling communism during his 1959 American tour, Teng uttered no word about U.S. social problems. The rest of the Chinese touring party scrupulously followed that lead.

In response, Americans encountering Teng on the road asked few embarrassing questions about Taiwan, human rights or internal Chinese politics. Barring inexplicable mainland pressure against Taiwan, there seems nothing in the China issue to benefit Carter's foes. Teng has returned home with business approval of both his anti-Soviet and pro-development lines (contrasting with shaking knees at the State Department over his Russian-baiting). The tough little survivor of China's bloody politi-cal wars, therefore, achieved the principal aims of his historic jour-

Upland: Traces of old ranching community remain

Her cemetery provides a 'suitable' epitaph

UPLAND — The old courthouse has all but crumbled. The jail walls have fallen inward.

Rubble is scattered about and can never be fitted together again. Traces of houses, the mercantile store, church, hotel, school, black-

smith and wheelwright shops long since have vanished. The people here, the few that

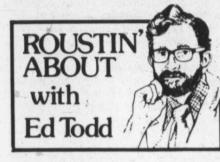

stayed, are only ghosts. Upland's graveyard writhes with weeds, cactuses and mesquite.

A broken tombstone lays toppled. The epitaph on the marker, to an infant who died two days after her birth in June 1913, reads:

> Short pain, short grief, Dear babe were thine.

Now, joy eternal and divine.

That inscription to the daughter of George E. and M.Y. Blanton might somewhat fit the old Upland commu-

...joy eternal and divine" nowhere seems evident in old Upland, which today persists only as rangeland barren of livestock — a result largely of drought.

An old windmill, though, turns in the wind and brings water up on the Dwayne Lindsey ranch, which gradually has absorbed Upland.

UPLAND, POOR UPLAND, was the victim of recurring drought, poorto-begin-with grazing land, scarcity of underground water, failure of irrigation to pan out and, finally, of railroad "neglect"...those then-vital strips of steel having bypassed Upland the same way they did Stiles to

In effect, the demises of Upland and Stiles insured the survival - though not the grand growth - of Rankin and

The rails of the Kansas City, Mexico and Orient Railway (now, the Santa Fe) were laid in Rankin, 11 miles south of Upland, in the mid-1910s.

And due to that and to the harshness of the land and weather, the disheartened souls of Upland moved their gear, wares, houses and businesses to

Rankin...to the railroad. Not unlike the Blantons' child, Upland succumbed in near-infancy. The community was "born" early in 1900,

perhaps before 1908. In 1910, Upland was designated the seat of Upton County. But by the mid-1910s, most ranchers had moved into Rankin. And when an election was called to relocate the county seat, the few hangers-on at Upland lost out

A DIRT ROAD SPURS westward from Texas 349, cattle-guards onto the Dwayne Lindsey ranch, passes the old cemetery and leads to the Lindsey ranch house. Less than two

miles from there rests the rubble that once was Upland.

Admittedly, Lindsey knows far more about ranching - his livelihood than he does about the history of Upland. But he graciously allows visitors on his ranch so they can mill about the old Upland townsite.

Some who come are bona fide historians. Others are curious or campers or both. Others loiter and litter, build campfires and make their age-old marks called graffiti.

Lindsey doesn't really mind as long no one gets hurt or pilfers.

Anyway, what's left of Upland, if not eventually worn down by time and weathering, may someday be felled and buried by bulldozers. That "finale" will be for safety, for no one wants to fall on rubble or, worse, have it fall

RUINS AND THE SHAPED rocks of stone buildings represent what little is left of Upland: the two-story sandstone courthouse, wasted as if by war; the wreck of a jailhouse, which, too, got the full blast of abandoment by man, abusive visitors and the harsh West Texas elements; and a hull of concrete, which served some purpose now lost in non-history. In front of the desolate courthouse

is a cement block, an accidentally symbolic tombstone for Upland. Printed on black on the marker is "R.I.P." - one can imaginarily delete the periods or read it as an abbreviation for rest in peace.

Less mournfully, lettered in black just above the north threshold to the courthouse is "MOTEL." Lindsey's youngest son, Shane, 11,

occasionally wanders around and into the Upland rubble. So do others. "A lot of Boy Scouts come down here and spend the night," Shane

They, too, left their mark. "BSA Troop 96" of Midland is boldly lettered high on a wall.

"Yes, sir," said Shane, "we're fixing to cave it in. Dig a big hole and get a big bulldozer and push it in. All of it. The courthouse."

That may be some time off, but the day will come when nothing but a historical marker and the old cemetery will suggest the site of Upland. Upton County was organized in 1910

by an act of the neighboring Midland County Commissioners' Court. And on May 7 of that year, an election was held to name county officials and to determine the site of a county seat for the county of 501 people.

One of the townsite promoters, rancher Henry Halff, had built a hotel and general mercantile store before

Fledgling Upland had a school building, and was planning to build another. In 1912, voters passed a \$30,-

000 bond election to build the stone courthouse and jail.

Those structures did come to pass. So did the town's badly needed railroad line - but in a fatal, literal, ll-miles-away sense.

Built by the Kansas City, Mexico and Orient Railway Co., the railway was the dream of A.L. Stilwell. It would run from Kansas City to Mexico. But never through Upland.

Perhaps the railroad's ultimate route - more than drought, lack of water for irrigation and poor soil spelled the death of Upland.

HENRY HALFF SOLD his hotel and general store to John Johnson who, realizing that Rankin would outlast Upland, put the buildings on skids and had them team-pulled to Ran-

New snow hits East

By The Associated Press

Bitter cold and about half a foot of new snow left most of the East Coast and Mid-Atlantic states in a vast deep freeze today, closing schools, forcing motorists to abandon cars and sending some venturesome residents of Washington, D.C., to the streets on skis.

Record lows - as cold as 47 below zero in New York State - were recorded throughout the East after a low pressure system blew in from the Midwest, then headed out over the Atlantic Ocean.

An area within a 100mile radius of Washington, D.C., appeared to have been the hardest

The National Weather Service reported 7 inches of snow at Alexandria, Va., and other suburbs of the nation's capital, and police spotted skiers in/ downtown Washington. National Airport,

Stock market gains

By CHET CURRIER **AP Business Writer** NEW YORK (AP) - The stock market jumped ahead

today as the gradual rally of the past three sessions accelerated.

The Dow Jones average of 30 industrials, which had climbed 8.83 points since last Wednesday's close, was up another 7.28 at 832.12 by noontime today. Gainers outdistanced

losers by more than a 3-1

margin among New York Stock Exchange-listed issues Analysts said the stage for today's advance was set over the past several days, during which the market managed to move ahead

despite a generally dismal news background. Late last week government reported the sharpest rise in wholesale prices in the last four years. And uncertainties abounded about the energy outlook

after the revolution in Iran. When those developments failed to touch off any significant declines said, traders analysts seemed to conclude that the balance of supply and demand for stock favored a

The dollar, meanwhile, turned in a steady showing in foreign exchange today. Coal stocks extended their

recent gains. Pittston rose 3/8 to 21% and Continental Oil, which has extensive coal operations, added 1/2 to 315%, both in active trading. Buyers of the stocks

evidently believe the industry will benefit from new pressures on oil supplies resulting from the upheaval The NYSE's composite

index rose .42 to 55.46. On the American Stock Exchange, the market value index was up 1.06 at 161.77.

Talks underway trying to avert exchange strike

NEW YORK (AP) — A federal mediator has set up more talks after cancellation of a no-strike truce and the possibility of a walkout by clerical employees of the New York Stock Exchange.

After meeting separately with union representatives and officials of the exchange on Monday, federal mediator Rosemary LeBoeuf set up a bargaining session for today. Trading on the exchange apparently proceeded

Union leaders have not commented on possible effects of the cancellation of the no-strike truce, and on a new money offer made by management Friday

The 2,100 members of Local 153 of the Office and

Professional Employees Union threatening to strike include nearly 1,000 working on the exchange floor. The rest are employed by two exchange subsidiaries, Depository Trust Corp. and Securities Industry Automation Corp. A major stumbling block in the talks has been a demand for a shorter work week for the subsidiary

employes, who under the old contract had a 40-hour week compared to a 32-hour week for employes on Because on Lincoln's Birthday on Monday, Depository Trust, which handles the transfer of securities

and money for the exchange, was closed. However, Bryant Mason, news manager for the exchange, said a full staff reported for work at Securities Industry Automation.

"There's been no work stoppage or slowdown," he added. "Everything is quiet." The union served 24 hours notice Friday night that t was terminating the truce under which both sides agreed not to alter contractual relationships while negotiations continued. The day-by-day truce fol-lowed a 90-day extension when the previous three-

year contract expired in November. The new economic offer was believed to be little changed from a previous offer of three annual seven percent raises. Most of the clerical workers have an annual base pay of \$15,000.

Does anybody know about U.S. economy?

By JOHN CUNNIFF

NEW YORK (AP) - The economic news has not been good. Who said so? Maybe you, for one, but if not you then certainly your neighbor, if we can believe the polls. And the Carter administration for It's official line seems increasingly to be at odds

with the more spontaneous, less considered com-ments of its individual members. And that could mean some unpleasant decisions coming up. Such as whether or not to curtail gasoline sales, and whether to strengthen or perhaps enforce more

rigidly its wage-price standards. While the official word remains one of optimism that the country can escape the worst of inflation, recession, shortage and other economic stresses, you

have to wonder when: -James Schlesinger, energy secretary, assessed the Iran oil cutoff as "prospectively more serious" than the 1973 oil embargo, and then, to stress the ositive, called it "serious" but not "critical. -Alfred Kahn, chairman of the Council on Wage

and Price Stability, called the January producer price increase of 1.3 percent "a catastrophe" and said he couldn't even appear to be optimistic. -Courtenay Slater, Commerce Department chief

economist, expressed surprise as the big producer price rise, saying it was more than she expected, and warning of fairly large consumer price increases to -Michael Blumenthal, treasury secretary, in

effect conceded that the dollar has not stabilized in world markets and that "uncertainties continue to enerate nervousness" concerning it. -Kahn, though doing his utmost to sound happy

about it, was forced to concede that of the 500 largest U.S. companies, only 207 have pledged to uphold the wage-price guidelines. Among the holdouts: oil and Perhaps nothing has generated more general ner-

ousness than the wide currency of "unanticipated," word repeatedly used to describe the continued rise in wholesale and consumer prices.

The entire wage-price program — in fact the entire Carter economic plan — is predicated on accurate estimates of future prices, but some of those prices

already seem to be slanting off at different angles. Moreover, economists are complaining that temporary distortions, such as weather, Iran, and a oossible Teamster strike are making it difficult even o determine where we are in the business cycle.

Another factor that might be squeezed into that same categoy is the mind of the consumer, which is far less predictable than some economic modelmakers would like to have it. How do you explain all Last year, for example, various debt records were

set, including one for the amount of installment credit outstanding. As the year ended it totaled \$275 billion, up 19.1 percent in one year. While that total itself was a surprise to many if not most economists, even fewer were prepared for the surge that occurred late in the year, when \$8.4 billion

was added to the total in just November and Decem-If consumers continue to add almost fearlessly to their credit burdens, defying expectations that as bills piled up they would turn conservative, there

arises another specter of controls, on credit. Even this early in the year it is clear that the unanticipated is playing a huge economic role, and the greater the role the harder are the decisions to be made. Will the administration back into controls? Nobody in the administration will give an answer

to that, but the admission of surprise over the economy's direction would seem to indicate it must be on their minds. Even the Council on Wage and Price Stability,

which should be in a position to know, has admitted to being victimized by unanticipated factors right in In asking Congress for more money to almost double the size of its staff, it conceded, "The work load has increased more than had been antici-

Leakey challenges

new fossil theories BOSTON (AP) — Anthropologist Richard Leakey says he has uncovered new fossils which challenge the theory that a recently identified prehistoric creature called the "Afar ape man" is among man-

kind's direct ancestors. Leakey, one of the world's leading experts on human origins, said he believes the Afar creature was only a near relative of the human line. In an interview Saturday, Leakey said he would report on the new fossil finds within two months in the British scientific journal, Nature.

Researchers probe new cystic fibrosis cause

By NEIL SOLOMON, M.D.

Los Angeles Times

Dear Dr. Solomon: I had always been under the impression that cystic fribrosis was hereditary. New I hear it's caused by deficiencies in nutrition. What's the latest on this?—Hal

Dear Hal: The theory that cystic fibrosis is caused by prenatal or neonatal deficiencies is interesting but has not been proved. It was advanced by a veterinarian, Dr. Joel D. Wallach, on the basis of studies with monkeys at the Yerkes Regional Primate Research Center in Atlanta. Following some controversy concerning his research and findings, Dr. Wallach has left the center, and the studies are being continued by Dr. Harold M. Mc-

Dr. McClure says the hypothesis is worth looking into. He warns, however, that the announcement of

an environmental basis for cystic fibrosis is premature. Dear Dr. Solomon: I've heard there's a new instrument that enables patients with retinitis pigmentosa to see in the dark. Can you tell me what it

and how expensive it is?-Mr. G.L. Dear Mr. L.: The instrument you refer to is called the Night Vision Aid, is sold by a Maryland firm in association with the National Betinitis Pigmentosa Foundation, and costs about \$2,750. It provides people with night blindness caused by retinitis pigmentosa the equivalent of their best daylight vision when they go out in the dark.

A person must have reasonably good day vision to be helped by the device. There are four screening centers- in Boston, Los Angeles, St. Louis, and Baltimore—staffed by opthalmologists who can decide whether a patient's day vision is good enough to be helped by the Night Vision Aid.

The scope was developed from an army nightvision surveillance device. It converts light into an electronic image which is then intensified and displayed on a screen viewed through the eyepiece. It is battery-powered and designed to last through about one thousand hours of use. Since most patients would use the scope for only a few minutes a day, it is estimated that it might last anywhere from five to 10

However, the Night Vision Aid is not an unqualified success. Some patients have reported they feel a powerful flashlight would be just as useful.

Dear Dr. Solomon: What causes air pollution?-

Dear M.S.: Several processes contribute to air pollution. One is evaporation of liquids like gasoline. Another is attrition-activities like grinding or drilling. But most air pollution comes from com-bustion in furnaces, vehicles, incinerators and open

These processes take place primarily in: automobiles and other moving vehicles; furnaces burning fuel for heating and making electicity; containers or places for burning waste; industrial activities, including cement making, grain handling, kraft paper pulping, petroleum refining and storage metal smelters and mills, fertilizer production, and many forms of chemical manufacturing.

Ford said planning 1982 front-wheeler

DETROIT (AP) - Ford Motor Co. is reportedly planning a second line of small front-wheel drive cars for 1982, a year after the scheduled introduc-tion of its first front-wheel drives in models replacing the present Ford Pinto and Mercury Bobcat.

Code-named "Derby," the 1982 models would be longer versions of the 1981 subcompact "Erika" Pinto replacement, the trade publication Metalworking News reported Monday.

Another front-wheel drive project, "Monica," was reported to have been put on the back burner. Monica was to have replaced the present compact Ford Granada and Mercury Monarch models in

But instead, the Granada and Monarch lines will get a "major facelift and redimensioning" and keep their rear drives, the publication said in a report that attributed its information to "sources within the

Monica could be revived later if demand for front-wheel drive cars turns out to be strong enough, it was reported.

Recently, representa-tives of the Community Economic Business Development Meeting popped up in town to tell civic leaders that their city is being considered for a pilot project.

The project's aim is to identify the most promising cities in the country and cull the better ones, eventually setting up a program designed to make private and government sectors work together in a system for wide-ranging community development.

Styles and tastes in America may be chang-ing, but it's hard to tell that from the Valentines available for the holiday Wednesday in most Midland stores.

The traditional February custom of wearing one's heart on one's sleeve still seems to be going strong here.

The types of greetings

When South dropped the deuce of hearts at the first trick East should read the heart situation. West had not led low from Q-J-4, J-10-4 or 10-4. The lead made sense only if West had precisely Q-10-4 or the singleton four.

In either case East could lose nothing by returning a low heart rather than the ace. South would be unable to develop a heart trick, and he would be down one when the club finesse failed.

Camp Fire Girls honor fathers with supper

Fathers again were treated to their favorite meal by the Camp Fire Girls at the annual Father-Daughter Box Supper in Goddard Junior High School. Blue Birds, Adventurers and Horizon Club members and their fathers participated.

The girls spent the last few weeks preparing by making table decorations, decorating boxes, deciding the menu and preparing skits for the night's entertainment.

Ray Schulze was master of ceremontes. Cheryl Duree's Cheyenne Blue Birds presented an Indian prayer for the blessing. After dinner, Chuck Franklin was selected as Big Chief Daddy, the honorary Camp Fire Dad for the evening, and was crowned with the honorary headdress by Amy Casbeer, Blue Bird escort.

Indian lore, an important part of the Camp Fire program, was the theme for the skits. Skits performed included Indian musical instruments, played by the Shieta Shish Ua Ga Adventure Group; a skit, "Brave Little Indian," performed by the Flying Indian Blue Bird group; "Trail Seek-ers Desire," performed in sign lan-guage by the Waditaka Shuta Odowan Adventure Group and Mary Wester's Adventure Group; "A Wooney Cooney Cha," sung by the Arapahoe Blue Birds; Indian symbolism, explained by the Flying Blue Birds.

Also Indian games, played by the Shak-pah Blue Birds; Indian outdoor symbolism, explained by the Bluebonnets Blue Birds; Indian counting, explained by the Wohelo Adven-turers; "Red Men," sung by the Happy Hopi Blue Birds; Camp Fire Law, done by the Yakani Blue Birds; Indian legends, told by the Cherokee Sunshine Blue Birds and Sweet Sioux Blue Birds; other Indian symbols, shown by the Little Flower Blue Birds, and lumi sticks, demonstrated by the Nice and Happy Cherokee Blue

Low tar MERIT with 'Enriched Flavor' tobacco delivers taste equal to-or better than-leading high tar brands.

The 'Enriched Flavor' science of low tar MERIT, 12 years in the making, isolates and fortifies flavor components of smoke for a taste way out of proportion to tar. Can that taste satisfy the toughest critics of low tar smoking—current smokers of high tar cigarettes?

Read the results from a detailed, nationwide research effort involving smokers who tastetested MERIT against leading high tar brands.

Confirmed: Majority of high tar smokers rate MERIT taste equal to—or better than—leading high tar cigarettes tested! Cigarettes having up to twice the tar.

Confirmed: Majority of high tar smokers confirm taste satisfaction of low tar MERIT.

MERIT smokers:

Confirmed: 85% of MERIT smokers say it was an "easy switch" from high tar brands.

Confirmed: 9 out of 10 MERIT smokers not considering other brands.

Confirmed: Overwhelming majority of MERIT smokers say their former high tar brands weren't missed!

MERIT has proven conclusively that it not only delivers the flavor of high tar brands—but continues to satisfy!

This ability to satisfy over long periods of time could be the most important evidence to date that MERIT science has produced what it claims: The first real taste alternative for high tar smokers.

Morris R. Antweil of Hobbs, N. M., No. 1 Buddy is to be drilled as an 11.300-foot project in Lea County, N.M., seven miles south of Caprock.

The project is 1/2 mile east of the same operator's No. 1 Landlady which, on last report available, was shut-in following four-point gauges on the Morrow as a discovery.

The No. 1 Buddy is 660 feet from

north and 660 feet from west lines of section 9-12s-32e

The No. 1 Landlady flowed gas at the rate of 750,000 cubic feet per day and condensate at the rate of 10 barrels per day, through a 1/4-inch choke, with tubing pressure of 930

It flowed at the rate of 930,000 cubic feet f gas per day and 12 barrels of condensate per day, through a 10/64inch choke, with tubing pressure of 720 pounds.

It then flowed at the rate of 1,000,000 cubic feet of gas per day and 10 barrels of condensate per day, through a 22/64-inch choke, with tubing pressure of 640 pounds.

The fourth flow was at the rate of 1,100,000 cubic feet of gas and 12.4 barrels of condensate per day. through a 24/64-inch choke.

The project is 660 feet from north and 1,980 feet from east lines of section 8-12s-32e. It is a west offset to an 11,900-foot dry hole.

Southland Royalty Co. of Midland No. 1-23-A State Communitized is to be drilled as an 11,800-foot test in an undesignated Morrow area between the HG (Morrow and Turkey Track (Morrow) field of Eddy County, N.M. 12 miles southwest of Loco Hills.

The location is 1/2-mile west of Southland Royalty No. 1-23 State Communitized, recently completed Morrow gas well.

Drillsite for No. 1-23-A State Communitized is 1,980 feet from south and 660 feet from west lines of section 23-19s-29e.

ENERGY

By ROBERT A. ROSENBLATT The Los Angeles Times

WASHINGTON - Calling the oil situation serious but "not crucial," President Carter Monday appealed to-Americans to conserve energy by obeying the 55-mph speed limit set-ting thermostats at 65, and limiting unnecessary driving in favor of carpools and rapid transit.

"We are in no immediate danger," the president told a news conference. But he added that world oil stockpiles are being depleted by the shutdown of Iranian production and that the situation "certainly could get worse" if that production is not restored in coming months.

If there is a worldwide oil shortage, the United States is committed to share oil with its allies. In that case "More strenuous action" than his exhortations for voluntary conservation would be required, the president warned.

"If we would honor the 55 mph speed limit, set thermostats no higher than 65 degrees in homes and buildings ... limit discretionary driving voluntarily, and (shift) to carpools and to rapid transit systems, we could offset the current reduction in Iranian supply of oil to our country," the president said.

Industry officials said current high levels of production in Saudi Arabia should avert a dangerous world shortage of oil through the middle of this year. "Things will get critical in the fourth quarter if Iran is still out, because that's the time of year when we build stockpiles for the winter season," a supply expert for one of the major international companies

The United States normally imports 900,000 barrels of oil daily from Iran, about 5 percent of total demand. However, increased imports from other countries have trimmed the net loss to 500,000 barrels daily. This figure, amounting to a 2.5 percent deficit, is easily manageable in an economy using 18 million barrels of oil daily, government and industry officials

"If we experience a worldwide shortage to the extent that our sharing commitment would be triggered, this would mean an additional shortage in our country that would go from 1 1-2 percent up to 4 percent," Carter

"And if the Iranian production is not restored in the next number of months, our shortage in this country could go as high as 5, 6 or 7 percent, under which circumstances we would have to take more strenuous ac-

Discussing his forthcoming trip to Mexico, the president acknowledged the attractiveness of Mexican petroleum reserves and indicated the United States would not strive for any special terms on price or supply.

"We will try to be a good custom-er," the president said. "But we have no inclination to force them to give us a special privilege nor to do anything that would be damaging to the wellbeing of the Mexican people." Recent major discoveries of gas

and oil will provide hundreds of thousands of new jobs for Mexican workers, reducing "the pressure on some of them to seek employment in our country," the president added.

As for the illegal alien problem, Carter said, "I want to make sure that we minimize any illegalities relating to the border, and I want to make sure that when people are in our country, whether they are here as citizens or not, that we protect their basic human rights."

Other issues discussed by the presi-

ODESSA - Midland fighters won two out of three matches Monday

Fabian Ramos and Emilio Menchanca, left the ring with championship trophies while competiting in the High School Football Division of the 33rd annual Regional Golden Gloves Tournament before more than 6,000 boxing fans in the Ector County Coli-

Ramos, a 110-pounder from Midland Lee, punched out an impressive victory over Gary Trout of Odessa High in a close bout while Midland High's Menchaca, a 117-pounder, took 120, from Monahans.

Both Ramos and Menchaca fought well and received a good response from the big crowd, although when Ramos was announced the winner in his fight, the OHS fans booed loudly.

There was no question about Menchaca's victory as he used several body punches early in the fight to pile up important points.

Jimmy Rascon and Anthony Cortez, a pair of 50-pounders, opened the 37-card fight in a special Pee-Wee

Division fight which was crowd pleasing, in getting the finals underway. The 37 fights lasted for more than four hours with Rascon, from Seminole, taking a close decision over Cortez of the Odessa Boys Boxing Club.

In a special Sub-Division 90-pound bout, Joel Abila of Odessa Boys Club, came out swinging early to take a techincal knockout victory over Seminole's Timmy Garcia. The TKO came in the second round as referee Zeke Sanchez stopped the fight when Garcia was unable to continue.

Fort Stockton's Joey Gaitan, one of the classiest fighters in the tourney, pounded out a victory over Roy Chavez of the Odessa Boxing Club, but one of the best fights of the night was fought by Midland Lee's Warren Kyle, a 147-pounder, who dropped a very close decision to Odessa High's Robert Gardner in the High School Football Division.

Kyle, a gutty fighter, was behind in points going into the third and final round, but fought back tremendously and almost pulled out the win in a fight that brought the crowd to its feet. His final flourish had Gardner going, but the Broncho boxer had enough points early to hold on for the

Despite the loss, Kyle received the "Fightingest Fighter Award" for the

Besides the Kyle-Gardner fight, the final bout of the night in the High School Football Division, really got the crowd's attention when Odessa Permian's Bryan Lambert, squared off with Elton Powell of OHS. It was a free-swining fight with both boxers fighting well. Powell won in a close decision much to the delight of the Broncho followers and OHS won the team title in taking two out of three matches from the Mojo fighters. OHS' Darren Dennard outpointed Permian's Ted Rambo in a 131-pound fight while Permian's only win OHS came when Fabian Nunez, a 129-pounder, pounded out a victory over Kenneth Tollett.

Jessie Lujan of Andrews won his Football Division fight, posting a win over Edward Jaso, also a 124pounder. Jaso was fighting out of San Aneglo for Tony's Boxing Club. Jesse Gore and Raul Yzagurrie,

both from OHS, put on a great fight with Yzagurrie taking a TKO win after being knocked down by Gore in the first round. Aggies fail in upset bid

Midland Lee's girl cagers open new can of worms

By TERRY WILLIAMSON **Sports Writer**

Monday night was supposed to be the end of the District 5-4A girls' basketball season, but when Midland Lee finished pounding out a very decisive 43-23 victory over the Midland High Bulldogs on foreign hardwood, the Rebels had opened up a new can of

In effect, we now have a new District 5-4A season. The 20-point victory gave Lee the second half District 5-4A title with a perfect 7-0 mark, but they are not in the playoffs yet. Midland High and Abilene High tied for the first half championship with 6-1 records, and they must now meet in a 5-4A playoff to see who will face Lee for the state playoff berth.

IF IT sounds complicated, it is. But in a nutshell, there are two do-or-die games left to be played with any of the three teams able to win the overall 5-4A title and a trip for future glory. Still, Lee seems to be in the best position since they have to only play in one of the games. They can sit back and wait for Midland High and Abilene High to decide which one wants

to be in that final game.
The MHS-AHS playoff battle has been set for 7:30 p.m. Thursday in Snyder's Scurry County Coliseum. The winner will face Lee at a date and time sitll to be determined. Abilene has been designated as the home team and tickets will be sold for \$1.50 for adults and 75 cents for students.

BUT MONDAY was a night for the Rebels to put in a scrapbook. They were never really threatened and they dominated the entire course of action on the floor.

"We've been fighting for our lives ever since we lost to Midland High in the first half. The girls have been playing hard, and it all paid off out there tonight. I don't know anything about the playoffs, but I think we will take the day off tomorrow (Tuesday)," Lee coach Shirley Stephenson

said after the big victory.

The Bulldogs, who could have wrestled the 5-4A title away from the defending champions with a victory, were their own worst enemy Monday. They were so cold in their shooting touch that one would have thought a snow blizzard was raging outside. The Pack missed their first 18 shots from the field and ended up hitting only five of 42 attempts-a meager 12 per cent.

THE REBELS didn't exactly burn the cords with 16 of 46 from the field and a 35 per cent shooting percentage, but they did maintain the tempo of the game and dominated both the offensive and defensive boards.

Senior Deborah Ledbetter led the Lee attack with 11 points, but she was even more awesome crashing the boards while intimidating the Pack shooters. She was all over the court.

Leisha Watkins was the only other player on the court in double figures with 10 points, but she fouled out early in the fourth period.

DEBORAH KITTLE gave Lee a 4-2 lead with 5:10 left in the first period and the Rebels never trailed after that. The Rebs built up a 12-2 lead in the first period and then led 21-8, a 13-point cushion with 1:12 left in the half after a seven-point run in the second period. Ledbetter canned two back-to-back baskets in that spurt.

Meanwhile, the Bulldogs did not score a field goal in the first half on an 0-for-16 streak, and hit on only nine of 18 free throw tries. But they were lucky to be trailing only 21-9 at the

Midland High missed two more shots to open the second quarter to stretch their field goal mark to 0-for-18, but Margaret Christian, who led the Pack with six points, finally hit a layup with 5: 26 left in the third period. That is a dry spell in anyone's book.

"We couldn't hit the broad side of a barn," was the only comment MHS coach Jane Young had to say.

LEE'S DEE DEE Poole hit for nine points in the victory and four of them came in the fourth period on two brillant steals that went the length of the court for easy layups. She scored six of her nine in the final period, and the last bucket she scored gave Lee the 20-point margin of victory, the biggest lead of the night with 2:28 still left in the game. Neither team scored

"You never expect to win one that easy," Stephenson said. "But Midland High has a fine team. They were just cold and couldn't get anything to drop for them. We know they are a good team, and I think we will have to face them again."

Midland High did win the junior varsity contest, 40-37, as Sandra Black led the way with 15 points. Black sunk two big free throws with 22 seconds left to give the victory margin. Lee had come back from a 12-0 deficit to go ahead, but Midland tied the game at 33 in the fourth period. They never trailed again. Still, Lee wins the JV district championship with a 12-2 record. Brenda

Gilchrist had 10 points for the Pack while Kay Rowe led Lee with 10

The Lee varsity is now 27-7 on the year while MHS fell to 25-11. The Bulldogs finished with a 6-1 second half record and a 12-2 overall district mark. Ironically, that is the same mark the Rebels had in overall district action.

Howard College falls as Chaps start rolling

BIG SPRING - Robert Tate, Chucky McGill, Cullen Mayfield and Kenneth Young paved the way Mon-

Midland College, with that four-some, shot down the Howard College Hawks, 67-61, in a Western Junior College Conference game.

Tate flipped in 17 points while McGill followed with 16 and Young and Mayfield chipped in with 15 and 10 points, respectively as the Chaps showed a balanced scoring attack.

The victory for Coach Jerry Stone's Chaps gives them a 16-10 season record and they are 8-5 in WJCC action while the Hawks are now 1-12 and 8-21 on the year.

MC jumped out in front early so the Hawks didn't have a chance to run their patent slow-down game.

The Chaparrals led by as much as 13 points in the first half and had leads up to nine points in the second half in leading all the way. It was 39-36 at halftime in favor of MC, but Howard did manage to pull to within three points--57-54 with 3:49 left in the game. But baskets by Mayfield and Luis Alvarado, increased the lead

Robbie Randolph was the only Hawk player in the double figures with 27 points as MC connected on 50 per cent from the field and 56 per cent from the line and the Chaps won the battle of the boards, 37-31.

Midland entertains Frank Phillips College of Borger Thursday night in the Chaparral Center on the MC campus. Frank Phillips took a narrow 80-79 decision over the Chaps in their first conference meeting.

Midland in 58-54 tilt

Lee Sophs defeat

Led by Dairus Berry's 14 points, Midland Lee's sophomores defeated Midland High sophs, 58-54, Monday in the final game of the season for both teams. Jerry Odems and Eugene Merritt had 10 each for Lee while Dexter Peterson led Midland with

Lee finished with a 13-3 season rec-

portant 65-57 Southwest Conference basketball victory over the Aggies, rated 11th going into the game.
"I didn't have any set plan," said

Moore, who went into the game averaging nine points. "I just had the open jumper so I considered it my duty to take it."

In other SWC action Monday night Houston outran SMU 101-94, Rice nipped Texas Christian 84-80 and 14th-ranked Arkansas shot a blistering pace from the field in beating Baylor 71-62.

Free throws were the difference in Rice's win. Rice went to the charity stripe 32 times in that game while TCU got only seven free throws. Rice is now 4-10 in the SWC and TCU is

Arkansas remained a game behind Texas with a 10-3 mark, while Baylor fell to 7-6.

The Aggies meanwhile lost their third straight SWC game, each time falling behind in the first half.

"We're just letting teams get a quick jump on us," said freshman star Rudy Woods, held to four points. "That's what we had been doing to teams but now they are controlling

The victory ballooned Texas' league lead to three games over the

Aggies, 9-5.
The Aggies went scoreless in the

first 5: 12 of the game as Texas ran up a 10-0 lead using a slow methodical offense en route to a 35-20 halftime

Texas shot 68 percent from the field in the first half. A&M managed only 34 percent from the field in the first half and could not stop the incessant outside shooting by the Longhorns. The Aggies fought back in the sec-

ond half with a much more aggressive defense. They cut Texas' lead to 60-55 with 1:03 to play. But five straight Texas free throws ended the threat. "They've got to be the best mad dog

pressing defense in the nation, Texas Coach Abe Lemons said. "We should have pulled out on them to-

Moore said the Longhorns six day layoff since their last game helped. "We knew it was going to be loud so we had to know where everybody would be," Moore said, about the enthusiastic crowd of 7,850.

A&M Coach Shelby Metcalf said, "This game cleared the air. I feel like we'll comeback and play two good ball games and be ready for the tournament. Our defense was outstanding. Our problem is on the offensive end of the court. We need to add a shooter to the lineup.

Texas is now 18-5 for the year and 11-2 in SWC games. The Aggies are

Pesky Rebels shoot for upset over MHS Bulldogs

By TERRY WILLIAMSON Sports Writer

For all practical purposes, the District 5-4A basketball chase is over, but there is still that matter of the pesky

Midland Lee Rebels to consider. Midland High's Bulldogs put the 5-4A title in their hip pocket Friday with a resounding 62-35 victory over Abilene Cooper, and they are looking forward to the state playoffs. Still, the Bulldogs must face Lee today at 8 p.m. in the Chaparral Center on the Midland College campus, and that's where the guessing starts. It's hard to take this year-end finale

as cut and dried because the Midland High-Lee basketball contest has

never been all that predictable. Emotion sometimes is more powerful than season records indicate.

The Rebels have had some trouble this year, and they are going to end up with more losses than victories whether they win or lose tonight. But they haven't been a team to fold. They have been competitive, and if they really want a victory tonight, they just might pull one off. The true makeup of the two teams will be on

display in the Chap Center. The last time around, the Bulldogs hung a 30-point haymaker on the Rebels after they tried a stall effort. No one knows what the Rebs plan tonight in the rematch.

Midland High cage boss Don

Humphrey says his Bulldogs will try to win the game tonight, but he also stated that they would play this one for fun. Humphrey plans to use every player in the game. The question is, "Can the Bulldogs take this game seriously with wondering eyes looking at next week and the playoffs?"

The Rebels, on the other hand, would like nothing better than to go out on a winning note against the 5-4A champions, but Coach Paul Stueckler's crew must come to play to win. A Stueckler team rarely does anything but that, and he likes victories over Midland High.

Lee is the home team tonight, and will be carrying a 14-17 season mark into the battle against the 25-8 Bulldogs, who have won 15 games in a row. The Bulldogs would like to keep that win streak in tact while heading into the playoffs.

Over 4,000 fans turned out for the first meeting between the two schools at the end of the first half play, and another large crowd is expected to-night. No pre-game sale of tickets has been done, so all tickets can be purchased at the gate.

Meanwhile, Sam Cox, Midland ath-

letic director, announced Monday that the Wichita Falls-Midland High bi-district contest will be played in Abilene's Taylor County Coliseum Tuesday, Feb. 20, at 8 p.m. Ticket information will be released as soon as all the details are worked out.

Midland High officials will meet with the Wichita Falls officials immediately after tonight's contest to work out all the fine details of the bi-district clash. Both coaches wanted to play in the Taylor County Coliseum since that will be the site of the Regional Tournament, which is set for Feb. 23-24. The winner of the MHS-WFH bi-district game will then have a small edge since the winner will already have played a game on the Taylor County floor.

But the Bulldogs had better take first things first because some renegade Rebels have nothing else to look forward to. Tonight is their last stand.

HOUSTON (AP) - A computer evaluation of last season's performance by National Football League players has determined that rookie running back Earl Campbell of the Houston Oilers was the top achiever. He won \$10,000 and the Seagram "Oscar," in the competition, spon-

sored by Seagram Seven. Campbell was given a productive efficiency rating of 62.17, enough to edge Dallas quarterback Roger Staubach (61.08) and Archie Manning,

New Orleans quarterback (60.62) for the cash award. Indiana State rips West Texas

By The Associated Press

Nothing's changed now that the Indiana State Sycamores are finally No. 1 — they're still winning basketball

Undefeated but relatively unloved by the voters throughout the season, the Sycamores have moved to the top of The Associated Press poll and established their new beachead with a handsome 100-75 conquest of West Texas State Monday night.

Incidentally, that not only gave some more substance to their topranked status, but clinched the Sycamores' first Missouri Valley Conference championship.

"They are certainly one of the better teams in the country," said New Mexico State Coach Ken Edwards of Indiana State, a possible answer to some charges that the Sycamores play a soft-touch schedule.

That was apparently the thinking of AP voters who in past weeks voted Indiana State No. 2 even though the spotless Sycamores had the best record in the Top Twenty. In other games involving the

ranked teams, No. 6 Louisiana State beat Auburn 78-68; No. 11 Arkansas stopped Baylor 71-62; No. 12 Texas whipped Texas A&M 65-57 and No. 19 Vanderbilt beat No. 20 Alabama 65-

As on many other occasions, Larry Bird was the reason that Indiana State won its most recent game. Bird scored 27 points and registered 19 rebounds against West Texas State.

"The second half, we just stuck it to them," said Carl Nicks, who scored 17 points for the winners. "We started to fast break.

Jordy Hultberg scored 16 of his 20 points in the second half as LSU rallied from a 12-point deficit in the final 17 minutes to beat Auburn. The Tigers, recording their sixth straight victory, went ahead for good at 58-56 on a basket by Hultberg with 8:42 remaining. "This team really believes in each

other," said LSU Coach Dale Brown.

"Even when we were 12 down, you never saw any of them snapping at each other or getting on each other. We were able to scratch back because we never lost our togetherness."

Noted Auburn Coach Sonny Smith of LSU: "There is no doubt they are the class of the league. LSU did what you have to do to win - they attacked us from outside, and scored well."

Mike Rhodes scored 32 points as Vanderbilt beat Alabama, overshadowing a 29-point performance by the Crimson Tide's Reggie King.

Elsewhere, Chad Kinch and Kevin King each scored 24 points to lead North Carolina-Charlotte over New Orleans 76-66; Marty Coyne's 17 points led Army over Fordham 71-70; Florida State stopped St. Louis 84-79 as Kris Anderson put in 20 points; Kelvin Troy had 19 points as Rutgers defeated New Hampshire 83-73; Cincinnati held off Xavier 60-58 behind Pat Cummings' 25 points and Les Henson had 18 points to power Virginia Tech past William & Mary 55-49.

Also, John Stroud sank two free throws with one second left to give Mississippi a 67-65 victory over Florida; Davidson turned back Tennessee-Chattanooga 70-64 as John Gerdy scored 36 points; Tom Slawson's 16 points led The Citadel over VMI 72-69; Carl Belcher scored 26 to lead St. Bonaventure over St. Francis (Pa.) 86-77; Kenneth Williams scored 38 points as Houston trimmed SMU 101-94 and Anthony DeCello hit two free throws with 11 seconds left to ice an 84-80 victory for Rice over TCU. Dwight Anderson scored 26 points

to pace Kentucky past Mississippi State 80-65; Tulane's Joe Holston sank a 20-foot jumper with 24 seconds remaining to give the Green Wave a 75-74 decision over Southern Mississippi; Wayne Kreklow fired in 30 points as Drake edged Southern Illinois 79-75; Dana Perno's 19 points triggered West Virginia past Robert Morris 85-79 and Michael Brooks and Kurt Kanaskie combined for 56 points as La Salle defeated Lehigh 100-93.

While Bill is sweating out tonight's decisive game against Sterling City at Greenwood High's gym, Dean Foshee will relax and enjoying himself in the opener against the Sterling girls. Dean's Greenwood girls may be a not-quite-as-spectacular, 20-5, but they do have their district title and playoff berth desposited in the vault.

We beat Sterling City at their gym by seven points, but they have some good outside shooters and some size inside," Jordan explains why he isn't breathing easy yet. "Last time their outside kids matched up with us, but we beat 'em on the boards."

JORDAN understandably isn't taking anything for granted and hasn't even begun to think about Sanderson as a bi-district foe. However, this is the closest one of his teams has come to a perfect regular season. A few years ago at Petersburg, "We won 12 or 13 in a row before losing and wound up 23-3." It was one of two championships he won in three seasons at Petersburg before moving on to Sweeny in the Houston area.

As far as forecasting the kind of season the Rangers are expecting, Jordan says, "We knew we were going to have a good team. Last year we were 27-5. But we didn't know what the competition would be. That plays a big part in your success."

Jordan adds, "Teamwork, balance and a good bench have been the keys to our success. We have eight players who do a good job. No player is averaging more than 12 points a game and when you are scoring over 60 a game, it indicates depth.'

Greenwood has only one senior starting, 5-8 Mark Swafford, who along with 6-1 Rex Evans, a sophomore, and 6-0 Joe Mobley, a junior, are averaging in the low double figures. Others starters are Vondell Woffolk, 5-11 junior, and Homer Lopez, a 5-9 freshman. From the bench, Jordan has leaned heavily on Tommy Sommers, a 6-4 junior; Raymie Williams, a 5-9 junior; Ronnie Taylor, a 5-9 senior; and Russell Manning, a senior, who has been hampered by injuries much of the sea-

In winning 23 games, the Rangers have had some close calls. Once against Forsan, a team Greenwood had beaten easily on three previous occasions. "It was in the finals of our own tournament. We scored near the end to go one ahead and they got the last shot, but it rimmed the basket. And we beat Sands 54-53."

Outside of those, the margins have been fairly comfortable even against a Grady team that twice tried to a stall on the Rangers. The first time, Greenwood won 26-7 and last week the Rangers were even better prepared, winning 20-2, building up a 16-2 lead after three quarters, but winning teams have to expect these things.

THIS IS the second season at Greenwood for both Foshee and Jordan. "We were both coaching at Sweeny and Dean came out for the girls job and told me about the boys

opening and I applied.' Jordan is a native of the Panhandle, playing at Amarillo High, then at Amarillo College before finishing up at North Texas. This is his eighth year coaching, three years as head coach

at Petersburg and one at Sweeny. Foshee had been at Sweeny eight

UNTIL THE playoffs start, Greenwood must be satisfied with the weekly rating game and fourth isn't bad, especially for a school most of Texas may not have realized exist-

Ranked ahead of Greenwood are Crum and Snook, tied for first, and then Anderson. "Last week Snook beat Anderson, 44-43." Jordan noted. Although Jordan is extremely reluctant to consider anything beyond to-night's game, he does admit that teams like the top three are battlehardened veterans. "If they get to Austin, you know they aren't going to get stage fright."

WHEN DISTRICT 10-B finally decides its winner, the next step will be bi-district against Sanderson, a week from next Monday or Tuesday, and then on to regional at South Plains College in Levelland the following Friday and Saturday.

Greenwood, with four starters back, should be formidable next year and chances are you'll be hearing more from them in other sports as

This year, a football program was introduced with the games the junior varsity variety. "Next year we will play nine varsity games on a nonhonor basis. That is, we won't be eligible for playoffs. But we will compete for district honors the following year," says Jordan.

With 112 students, Greenwood may soon move up to Class A. "The minimum for Class A is 129 students and we might surpass that next year, but you have to average it for a couple of years, so such a step is at least three years away."

Right now, Jordan and his Rangers aren't looking beyond tonight. That's

Sycamores finally gain top rung

NEW YORK (AP) - Indiana State Coach Bill Hodges said his Sycamore basketball team should be No. 1 and they are today — but just barely.

The Sycamores, who rolled to their 23rd consecutive triumph with a 100-75 win over West Texas State Monday night, collected 43 of 62 first-place votes and 1,196 points in balloting by The Associated Press' committee of sports writers and broadcasters. They edged second-place UCLA by a scant six points.

"If we were good enough to be rated No. 2 with our schedule, we're good enough to be No. 1," Hodges said, replying to critics who felt Indiana State's schedule is weak.

And the AP committee agreed, although there were exceptions. Indiana State and UCLA, which re-

ceived 19 first place votes, were both named on all 62 ballots. The Sycamores were listed as low as No. 9 by one voter, while the Bruins, who upset then No.1 Notre Dame 56-52 Sunday, were ranked no lower than fourth.

The Fighting Irish, who handed North Carolina State its first non-conference game home loss since 1968 Wednesday, slipped to third with 1,073 Atlantic Coast Conference teams

occupied the next two positions. North Carolina, No.6 last week, jumped to fourth with 983 points following wins over Maryland and Providence. Duke, top-ranked in the preseason poll and third last week, slipped to fifth with 901 points after being upset by Pittsburgh 71-69 on Saturday. Knicks reshape future in trade

NEW YORK (AP) - The trade of Bob McAdoo from New York to Boston has dramatically reshaped the futures of two of the National Basketball Association's most presigious

The deal, arranged over the weekend and announced Monday, signals an end to New York's "open checkbook" policy of trying to achieve instant success by buying the most talented athletes available and a return to the more traditional route of rebuilding through the college draft.

From Boston's angle, it is a gamble that a player of McAdoo's magnificent offensive talents can be blended into the Celtics' time-honored team concept without upsetting the apple

The trade was engineered by Sonny Werblin of the Knicks and John Y. Brown of the Celtics, two owners who are not afraid to roll the dice.

New York will receive the three first-round picks Boston had accumulated in the 1979 draft - Boston's own, Golden State's and Seattle's, the latter two having been obtained in deals for Jo Jo White and Dennis Awtrey. Boston retains the draft rights to Indiana State's Larry Bird, whom the Celtics picked last June.

New York will also get a player to be named later this week, a frontcourt reserve from either Boston or another NBA team.

The Knicks had been without a first-round pick in the draft, which is what prompted the deal.

"I was in a ridiculous situation," said Werblin. "I was trying to rebuild without draft choices. Bob happened to be a tradeable commodity we could move to improve ourselves. We have now put ourselves in a position to rebuild the team and perhaps make more trades this season and next."

Werblin felt the Knicks had gone as far as they could with McAdoo, a three-time NBA scoring champion and currently the league's No.3 scorer with a 26.9 average.

"Our coaches were not able to get him to fit into the team concept," said

Werblin. "Maybe he will somewhere

Brown is confident "somewere else" will be Boston Garden.

"You have to consider the type of team he's been with," Brown said. "At Buffalo they had to go to him because he was pretty much their entire offense. It was just about the

same thing in New York.

"That won't be the case in Boston. We're only interested in the team game. McAdoo has never been utilized on a team that is totally team oriented. But I spoke to Bob today and he understands he's going to have to

Brown said that from his standpoint, it was a matter of obtaining a proven quantity in McAdoo for the

unproven draft choices. "You have to take chances," said Brown. "We considered the value of McAdoo vs. the value of three draft picks and everyone agreed McAdoo's value was overwhelming. We don't feel the draft is that strong this year; in any case, with draft choices it's guesswork.

"It really boils down to a matter of value. It's hard to find draft picks of

the value of a Bob McAdoo. Brown said he consulted with Celtics President Red Auerbach on Sunday, before the deal was finalized, and the veteran executive gave his approval.

'How often do you have a chance to grab a top-flight player like McAdoo?" asked Auerbach. "There is positively no one in the draft who could

measure up to this guy." McAdoo, 27, is in his seventh NBA season. He spent 41/2 years in Buffalo, leading the NBA in scoring from 1974 through 1976 with averages of 30.6, 34.5 and 31.1 points per game. He was

Tom McMillen for \$3 million and John Gianelli on Dec. 9, 1976.

His trade comes a little more than a month after the Knicks dealt another high-scoring forward, Spencer Haywood, to New Orleans. The Knicks had spent \$2 million to acquire Haywood a year before they McAdoo, but the two - symbols of the "open checkbook" policy — never were able to mesh their talents.

This has been not been a happy season for either New York or Boston. Both teams started slowly and went through coaching changes, Red Holz-man replacing Willis Reed with the Knicks and Dave Cowens becoming player-coach for the Celtics in place of Tom Sanders.

They are just one-half game apart

in the standings, New York at 25-33 and Boston at the bottom of the Atlantic Division at 23-32. But the Celtics have revamped their roster dramatically in recent weeks - shedding White and Marvin Barnes, among others - and have won seven of their last eight games.

"All of a sudden, Boston has gone from a team that had not much of a future to a team that's in pretty good shape," said Brown. "McAdoo may help us make the playoffs this year. And even if we don't, adding him to the nucleus we've got, plus Bird coming out of college, gives us a lot of options for the future."

BUFFALO, N.Y. (AP) - It bothers Tony McKegney to play hockey in the Deep South, but says he had to travel north to Pittsburgh to run into his lone encounter with fan racism in the Na-

He said in an interview he doesn't feel like the Jackie Robinson of his sport, but he can't seem to get away from the question of what it's like to play in the virtually all-white NHL.
"I think I just want to be accepted

However, Bulls owner John Bassett claimed Bulls fans protested the acquisition of a black player and the contract eventually was terminated with the consent of McKegney. The Bulls, who had just 4,800 season

ticket sales to Buffalo's 16,000-plus, said "less than 100" people called in protest, but noted the figure represented too great a loss of money.

The sequence of events put McKeg-ney in the league he wanted, but scarred his memories of the South. He said he had put the color question behind him after the first flurry

of interviews when the season opened, but all the mental baggage went with him when the team flew to Atlanta to play the Flames. "I did feel negatively about playing

down there," he said. "At one time, I completely had the subject out of my mind. Then in Atlanta I thought about The people of this hockey-craving city apparently have taken McKegney at his word in judging him as a

U.S. trying to normalize relations with Iranians

WASHINGTON (AP) - The Carter administration is seeking to quickly establish normal diplomatic relations with the new Iranian regime.

While a White House official acknowledged "some resistance" to the United States, which supported the ousted monarchy, State Department spokesman Hodding Carter said "we are moving toward normal diplomatic relations.

The White House official, who requested anonymity, described the developments in Iran by saying: "It's a very fluid situation. It's still very

Resumption of normal diplomatic business with Iran would be a first step in resuming oil shipments from the strategic Persian Gulf nation, which previously supplied about 5 percent of the United States' daily

While cautioning against overly optimistic assessments, U.S. officials positive in comments about the cloudy U.S. relationship with the regime set up by Ayatollah Ruhollah Khomeini.

President Carter said Monday at a news conference the government was in very close consultation with the new regime. Supporters of Mehdi Bazargan, Khomeini's choice to be prime minister, "have been very helpful in ensuring the safety of Americans," he said.

U.N. Ambassador Andrew Young said in a speech that the United States should not feel threatened. "We should not be afraid when people begin to feel a sense of their own power," he said in comments about the Iranian turmoil.

Among the factors favoring satisfactory U.S.-Iranian relations listed late Monday by the White House official were these:

-An assessment that U.S. citizens were not in immediate danger. -"Contact with individuals who

seem to be moving into positions of influence (who) have been quite help-

-Iran's "extreme nationalism and the long Soviet border, which could lead Iranians to perceive a greater threat from the Soviet Union

Soviets see Iran going down path of socialism

MOSCOW (AP) — A Kremlin leader has indicated the Soviet Union views Iran as heading onto a revolutionary socialist path similar to those already being followed in Angola, Ethiopia and Afghanistan.

The Soviet Union moved quickly to recognize Iran's provisional government headed by Mehdi Bazargan, with Soviet Premier Alexei N. Kosy-gin informing him in a telegram Monday that Moscow looks forward to developing "all-round cooperation."

Today the Communist Party newspaper Pravda published the text of a speech given Monday by Boris N. Ponomaryov, a candidate member of the ruling Politburo who oversees Moscow's ties with non-ruling Communist parties.

Western diplomatic sources said they found the tone of Ponomaryov's remarks on the Iranian upheaval less positive than they might have been in view of the downfall of the shah-appointed regime in Tehran.

Japan sees Iranian oil in six months

TOKYO (AP) - A Japanese oil industry leader said today he believes Iran will resume exporting oil in a little more than six months.

Masami Ishida, chairman of the Petroleum Association of Japan, told a news conference, however, that Iran's oil production likely will shrink to 3 million barrels a day, half what it

Ishida noted Iran's oil facilities remained almost untouched despite recent political and military turmoil. Once Ayatollah Ruhollah Khomeini's regime decides on the resumption, he said Iran can start shipping oil in about half a year.

Ishida, who also is chairman of Japan's Idemitsu Oil Co., denied having any particular inside information but added that Iran needs to export oil to support the nation

The Kremlin still appears to be taking a somewhat cautious attitude, distancing itself from the immediate course of events in Iran rather than rushing into an unqualified endorsement of the revolution, the sources

However, Ponomaryov's speech appeared to strongly suggest the overall context in which Moscow views the Iranian situation and where it is heading.

"The socialist camp has stepped up to a new stage in its development, and the creation of a number of governments going along the path of socialism has become an event of universal significance," Ponomaryov de-

He went on to note that "united socialist Vietnam is successfully developing. The Laotion people has stepped onto the path of building a new society, and very recently the people of Kampuchea (Cambodia).

"Anti-imperialistic revolutions have won in Ethiopia, Angola, Mozambique and Afghanistan. The last fascist strongholds in Europe have been brought down. The government of (Prime Minister Shahpour) Bakh-tiar has fallen in Iran. The army took the side of the people. The revolution is winning," Ponomaryov said.

At the same time, Ponomaryov ascribed to "anti-communist hysteria" Western charges that the Soviet Union has fomented the revolutionary unrest in Iran and elsewhere. He labelled such claims "a most unpardonable lie."

Pravda also carried a separate commentary on Iran by political commentator Vsevolod Ovchinnikov.

"Fierce attempts are being continued to preserve in some way or other the economic and strategic interests of U.S. imperialism in the region by methods of interference in the internal affairs of other countries," the commentary said.

But it argued that "the Iranian people have passed an important landmark along the road toward rid-ding itself of monarchic despotism and foreign sway, along the road to independent national development and social progress."

Five of those were committee members and all except Rep. Berkley Bedell, D-Iowa, have already spoken out strongly on behalf of the protesters.

Representatives of the American Agriculture movement protest group are scheduled to testify Wednesday and Thursday. Officials from other farm organizations and the general public have been invited to speak next

The protesting farmers want Congress to pass a resolution urging President Carter to raise prices to 90 percent parity, a level that would give them 90 percent of the puchasing power farmers had during the 1910-14 base period.

Overall, farm prices are now running at about 75 percent of parity because of high livestock prices. Crop

prices are lower. On Monday, nearly 200 tractors paraded for more than two hours in a blinding snowstorm. To avoid further traffic snarls in the late afternoon, police said, the farmers agreed to leave their vehicles parked overnight near the Lincoln Memorial, where they had gathered for a demonstration on Lincoln's birthday.

The Agriculture Department building which had been kept open for farmers after hours last week was closed at 6 p.m. as usual Monday.

Job sharing is effective

SALEM, Ore. (AP) - Two cannot work as cheaply as one, but they get more done, according to the first evaluation of job sharing in Oregon state

Job sharing, which was promoted in state government by a law passed in Price going 1977, involves more than one employee sharing the salary and hours of one position.

The system is more costly, howev er, because workers sharing a job receive full medical and other bene-

fits. That means a payroll increase of about 6 percent for each position, the Evaluations by state agencies frequently stated that job sharing in-

creased productivity, allowed greater flexibility in meeting changing workloads and encouraged retention of specially skilled employees otherwise unavailable for work. On the negative side, the reports

cited an increase in supervisory and administrative responsibilities, the rise in payroll expenses for benefits and a lack of continuity in work assignments.

Betty Reynolds of the Budget and Management Division said jobshared positions include physicians at state hospitals, university instruc-tors, social workers, administrative assistants and various clerical and secretarial posts.
