# SUNDAY **PREVIEW**

### Gymnastics Coming of Age

With gymnastics now a varsity high school sport, Midland athletes are trying to compete against other District 5-4A schools with even more intensive programs. And the young men are trying to get a toe-hold in what is still a female-dominated sport. The full story will be in Sunday's West Texas Life.

### Women in the Work Force

As more and more women join the work force in the United States, concern grows over the difficulty of obtaining quality child care. In Sunday's Lifestyle section, The Reporter-Telegram will look at dilemmas faced by Midlanders looking for daycare facilities for their children.

### Iran and Deregulation

As a cutoff of oil imports from Iran drags on, will it make national leaders more willing to deregulate domestic oil prices? Not necessarily. In Sunday's Reporter-Telegram, staff writer Linda Hill looks at how internal strife in Iran likely will affect U.S. oil supplies, prices and production.

# \$148,000 grant OK'd for MidTran vehicles

Staff Writer

MidTran, a public transportation system for Midland, may get moving

The Urban Mass Transportation Administration late Thursday approved a grant for \$147,840 for the city of Midland to purchase the necessary

The announcement first came from U.S. Sen. Lloyd Bentsen's office and later from U.S. Rep. Kent Hance. The funds will be used for seven 14-passenger vans and 15 two-way mobile radios, according to Bentsen's office.

UMTA approved the grant only six weeks after its submission, according to MidTran President John Ingram. "It's phenomenal," he said of the short time involved in getting the

grant approval A definite start-up date has not been announced by any MidTran spokesman. Various dates ranging from March to June have been voiced at different times with the added com-

ment that these were speculative. MidTran, a non-profit corporation, was set up to implement a mass transportation system designed by General Motors to meet the needs of Midland. It will employ demand-re-

sponsive and subscription services. signated for employees who will contract with MidTran for transporation to and from work each day.

Demand-responsive is for the general public. Passengers must notify the services 24 hours ahead of time when and where they want to be picked up, where they want to be delivered and when they want to re-

This will enable a MidTran employee to coordinate the vehicles' trips.

According to the cost estimates presented to the City Council in September, the city will be absorbing about 7 percent of the capital cost with the state donating 13 percent and the federal government 80 percent.

Net operating costs will be split between the federal and local governments, each taking 50 percent.

Recently, the City Council approved specifications on the vehicles to be advertised for bids. The council first approved two sets

of specifications - one for seven modified van-type vehicles and the other for seven light transit buses.

Cost for the buses is slightly more than for the modified vans, council members were told by MidTran Transportation Coordinator John

Schafer. He also recommended they Subscription service has been de- eventually go with the light transit buses, claiming they would last

longer. The light transit vehicles also would have space for a few more passenger and would be better equipped to meet Midland's mass tranportation needs, said Schafer.

At its Jan. 9 meeting, the City Council was told to choose between the two sets of specifications since UMTA would only approve a grant for one. The panel went for light transit Proposed hours of operation are

from 6:30 a.m. to 6:30 p.m. Rates have been proposed for 75 cents per person each way. Elderly and handicapped persons would have a reduced rate of 35 cents.

MidTran resulted from a Chamber of Commerce task force appointed in Summer 1977 to look at Midland's transportation needs and come up with an idea to meet those needs.

A General Motors special team was hired to conduct a study and to present a plan to the chamber and later to the City Council. The plan was adopted by the council, and the transportation task force subsequently was given approval to incorporate. Incorporation was completed in April

# Sewage plant hearing set

Or the city could decide to go ahead

"The city may have to put out the

same amount of money either way, if

you consider the increased cost of

building by the time the federal gov-

The Midland City Council will have

at least two months before it must

begin considering an expansion to the

plant. Lowe said it will be about that

ernment approves it," Lowe said.

and fund the entire project.

The Texas Water Commission has set a hearing on an application by the city of Midland to expand its main sewage treatment plant so it can employ an energy conservation pro-

The hearing is set for 9 a.m. Feb. 13 in the Stephen F. Austin State Office Building in Austin, and will be conducted by a hearing examiner.

Midland's application seeks an amendment to the city's existing permit to provide for plant expansion and allow for disposal of domestic sewage

effluent for the plant. Director of Public Utilities John Lowe said a study on the situation at the sewage plant was conducted by Black and Veatch, consulting engineers of Dallas.

The completed report, presented to the City Council in June, concluded it was time to consider expanding the plant's facilities, Lowe said.

The city currently has a no-discharge permit. If the commission approves an amendment, it will tell the city what type of plant the state

would approve. The new addition would take the waste and treat it through the same stages it already is going through, but would eliminate the most energy-consuming step, Lowe said. This would save taxpayers about \$150,000 to \$200,-000 a year.

The effluent from this plant would be retained in storage pools and used for irrigation. No discharge to surface waters is proposed, according to

The city currently has a contract with a farmer who has about 900 acres of land contingent to the sewage treatment plant. He also farms several acres of city-owned land and uses the treated effluent for irrigating it, the utilities director said

"The nitrate loading rate is one of the primary things considered in this process," Lowe contended. This "land treatment" process pro-

posed by Midland would allow nature to make the final changes. The same method was used by the

city in the 1950s until the government ruled that sewage must be taken a step further in treatment. To accent the added cost of the final

step of treatment, Lowe said it used to cost the city about six or seven cents per thousand gallons to process waste water. After adding the new plant in 1971, it now costs about 15 cents per thousand gallons.

Lowe said the water used for irrigation would not be as "renovated" as that from the current plant. But, he said, water from the new addition could be used for irrigation while the water from the current plant is cleaner and could be used for an industry that would need recycled water. "This gives us greater flexibility,"

Estimated cost of the addition at current prices would be about \$3 million. If the city decides to seek federal longbefore the state commission anfunds, it could take several years to nounces a decision on the Feb. 13 get the federal government's approvhearing. The only question Lowe thinks citial for the process and then funding.

zens may have about the plant is the connection between it and the proposed Odessa sewage treatment plant, which would discharge into Monahans Draw.

"We have a set of physical conditions that indicate it (the proposal) is an acceptable and good way to go," Lowe said. "It is a lot better than dumping it into the draw. This way it (water) is being used over and over

### Braniff's first landing scheduled for March 15

Long-awaited first landing of a time, Continental had withdrawn Braniff International aircraft at Midland Regional Airport should happen March 15, according to a spokesman for the airline.

That is the "firm target date" released Thursday by Braniff.

Approval for Braniff to start service to the Midland-Odessa area was given in late December by the Civil Aeronautics Board. At that time, airline officials were hoping to be able to get their planes servicing the Permian Basin by the middle of Febru-

But that date was conditional, depending upon when they could take delivery on their new 727-200s and start service at airports which had been approved before Midland.

A flight schedule for Midland-Odessa service still is being drawn up, said Mike Kaeser, director of public relations for Braniff, Thursday. Officials expect the schedule to be definite by next week, and it will be announced then, he added.

At that time, passengers can begin calling Braniff for reservations. Plans for an opening ceremony at

the Midland airport still are indefinite, Kaeser said. The Permian Basin service will

put Braniff at a total of 79 airports in mainland United States, Hawaii, Mexico, South America and Europe, with interchanges to Alaska and Can-Col. Wilson Banks, director of avia-

tion for the city of Midland, noted Thursday that the airport is ready whenever Braniff is.

"It's just a matter of them (Braniff) getting their equipment in here and set up," he said.

The airline has had a mobile trailer located at the south end of the airport building converted into a ticket count-

er since early December. The tentative March opening will be almost exactly nine months after Braniff first submitted its application

some of its flights to Dallas-Fort Worth Airport.

Braniff's service will be to DFW with connections to the East Coast. When the airline first submitted its

application, tentative plans had called for six flights daily from Midland-Odessa to Dallas-Fort Worth. Initial plans also called for one-stop service to Chicago, New Orleans and

New York with similar return flights (See BRANIFF, Page 2A)

### Car accident kills Odessan

A 25-year-old Odessa woman was killed and three other persons were injured in a two-car accident at the intersection of Interstate 20 and FM 1788 in Midland County Thursday af-

Linda Karen Morphew, driver of one of the vehicles, was pronounced dead at the scene shortly after 5:15 p.m. by Peace Justice John Biggs.

Larry Pierce, 25, also of Odessa, a passenger in the Morphew car, was listed in serious condition early today at Midland Memorial Hospital, He was receiving treatment for a broken left leg, a spokesman said.

Also injured in the crash, according to reports, were Jimmy Wayne Henderson, 31, of Odessa, the driver of the other vehicle, and Thomas Cooper, 58, of Odessa. Both men were treated and released from the hospital, according to a medical spokesman.

The Morphew car was westbound on the south service road of Interstate 20 and Henderson was northbound on Route 1788 at the time of the accident, said State Department of Public Safety officials.

Investigating the accident were DPS troopers Jim Swain and Hiland

### Texas area forecasts

upper 10s Panhandle to low 60s extreme south. Lows upper teens Panhandle and mountains to middle 30s extreme south. Highs Saturday near 40 Panhandle to upper 50s extreme south.

South Texas — Cloudy and cool through Saturday with occasional light rain or drizzle. Highs 40s and 50s to 60s lower coast and Lower Rio Grande Valley. Lows 30s and 40s to 50s lower coast and lower Valley.

Port Arthur to Port O'Connor — East and southeast winds 15 to 20 knots today, becoming east and northeast 15 to 20 knots and occasionally gusty tonight and Satur-day. Seas 5 to 8 feet. Occasional light rain, drizzle and fog with a few thundershowers possible through Satur-day.

Port O'Connor to Brownsville — South and southwest winds 15 to 20 knots today, becoming north and northeast 15 to 20 knots tonight and east and northeast 15 to 20 knots Saturday. Winds occasionally gusty tonight and Saturday. Seas 4 to 7 feet today. Occasional light rain, drizzle and fog with a few thundershowers possible through Saturday.

### Patty missing again but now in good hands

By SUSAN AGER

SAN FRANCISCO (AP) - Patricia Hearst, out of prison after a five-year odyssey that began with her kidnapping, is missing today - but this time she's having fun and nobody's telling where she is.

There are some who know. But all they'll say is that Miss Hearst and her fiance, Bernard Shaw, left for at least a week by themselves somewhere in California.

A bodyguard went with the couple. They also took Miss Hearst's German shepherd, Arrow.

Miss Hearst and Shaw left San Francisco International Airport in a twin-engine Cessna about 12:30 p.m. PST Thursday, hours after she strolled from a federal prison - free for the first time in five years.

Five years ago Sunday, the heiress was dragged screaming and halfnaked from her Berkeley apartment. The terrorist Symbionese Liberation Army told the world she was a "prisoner of war."

Later she joined the SLA in a bank robbery, for which she was convicted after eluding the FBI for 19 months. Supporters launched a clemency campaign, which climaxed Monday when President Carter commuted her seven-year sentence.

Miss Hearst was talkative Thursday, grinning and giggling and tossing her long brown hair.

Outside her mother's home in Hillsborough, she opened a baggy green blouse, thrusting out her chest to show off a green T-shirt proclaiming, "PARDON ME."

She also wore a gold medallion, a Christmas gift from Shaw, that said "SURVIVOR" and "2-4-74," the date she was kidnapped. She said she planned to add the date of her release to the medallion.

Soon to turn 25, Miss Hearst said of the past five years:

'I think I've gotten a lot stronger, a lot more self-confident. I take a lot of things in stride that make other people fall apart...For someone my age, I've been through an awful lot."

"Is there a place you can get away, though, without being Patricia Hearst?" a reporter asked.

"I don't see anything wrong with being Patricia Hearst," she replied as friends applauded.

She later joined her family and friends at a champagne brunch. Her father, San Francisco Examiner president Randolph A. Hearst, and her mother, Catherine, were legally separated last month. Both welcomed their daughter home.

The day was also a late Christmas for the newspaper heiress, as she opened Christmas presents that could not be taken into the prison.

"I really can't remember what the gifts were because I was so busy watching her," said her attorney, George Martinez. "She was so animated, so happy...the simplest thing pleased her to no end.'

Among the gifts was an antique fork and knife from her mother, intended for the cutting of her wedding cake. She and Shaw, a police officer who was once her bodyguard, are expect-

### ed to marry in April. Farmers prepare for diesel assault

WASHINGTON (AP) - Disgruntled farmers are camping around the nation's capital, preparing for a diesel-powered assault on Congress and the Carter administration.

With more than 500 monstrous tractors spread over three Virginia campsites, the American Agriculture movement members said they will wait until Monday morning before wreaking havoc with the commuter-

congested Washington streets. "Unless somebody gets itchy feet and decides he wants to be the first one in, we'll all go on Monday," said Gerald McCathern,

## Economic slowdown not reality

WASHINGTON (AP) - The nation's unemployment rate declined slightly to 5.8 percent in January, showing the slowdown in the economy that the Carter administration is planning had not yet begun to occur, a government report showed today.

The jobless rate in December was 5.9 percent, and the Labor Department noted in its report that unemployment has hovered at just below 6 percent for the past six months. It has been at the 5.8 percent level twice previously in recent months.

However, the administration predicts that unemployment will rise to 6.2 percent during this year and remain at that level in 1980 as a result of government efforts to retard growth of the economy to help control infla-

Both the percentage of the population who had jobs, 59.3 percent, and the share of the population in the labor force, 63.7 percent, were at alltime highs.

The Labor Department said total employment increased during the month by 450,000, with gains occurring in most major industries. Total employment was put at 96.3 million, while the number of Americans seeking jobs was 5.9 million.

Adult men accounted for most of the job gains in January, although unemployment declined among all

population groups. The department gave the following breakdown on unemployment in January by various categories:

Adult men 4 percent, down from 4.1 percent in December. Adult women 5.7 percent, down

from 5.8 percent. - Teen-agers 15.7 percent, down from 16.5 percent.

- Whites 5.1 percent, down from 5.2 - Blacks and other minorities 11.2

percent, down from 11.5 percent. - Full-time workers, 5.2 percent, down from 5.3 percent.

- White-collar workers 3.3 percent, down from 3.5 percent. - Blue-collar workers 6.4 percent,

down from 6.8 percent. The department said 72 percent of all major industries reported job gains during January, as retail trade led the way with 130,000 new positions. Overall manufacturing employment gained by 65,000, a slightly lower increase than in previous

months. All figures in the report were ad-

justed for seasonal variations Employment in the last two years increased at a 4.1 percent annual rate, which the administration said was virtually unprecedented in peacetime.

The proportion of the working-age population employed in 1978 rose to 58 percent. Total employment grew by 3.3 million, outstripping an increase in the labor force of 2.75 million.

The percentage of women in the labor force - those either working or seeking employment - rose 1.5 percent last year to 50.1 percent, passing the 50 percent mark for the first

But President Carter and his advisers say the substantial gains in employment in the last two years came at a cost of worsening inflation. because the speed of the increase helped push wages up faster than justified by worker productivity.

For this reason, they say slower economic growth is necessary to help restrain the creation of new jobs and to help reduce the upward pressure on

Any further significant decrease in the unemployment rate would worsen inflation, in the administration's

The administration is projecting a slowing of economic growth to 2.2 percent this year, down from about 4 percent in 1978. That would not be enough to keep pace with new addi-

tions to the labor force, meaning that unemployment would be bound to in-However, the economy finished 1978 with a growth rate for the final three months of 6.1 percent, much higher than expected and more than enough to further reduce the jobless rate. So administation officials were uncer-

tain when an actual rise in jobless-

### Soviet magazine criticizes Baker

ness might begin.

MOSCOW (AP) - A Soviet magazine said today that minority leader Howard Baker and other U.S. senators were making a mistake by linking Senate ratification of a new Strategic Arms Limitation Treaty to Soviet behavior in Africa and other areas of the world.

New Times said Baker, who met in the Kremlin last month with President Leonid I. Brezhnev, learned that the Russians supported the quickest possible signing of a new SALT agreement.

But the weekly said the Tennessee Republican made an erroneous conclusion that in exchange for ratification of the accord the Soviet Union would have to make political conces-

"Those who share this point of view of H. Baker lullaby themselves with false illusions," New Times said.

The review said the history of U.S.-Soviet relations shows that there have been no instances when the Russians have allowed themselves to be

blackmailed. New Times warned that if there were no SALT agreement this would lead to resumption of the Cold War in its worst form.

A sea of hands greeted religious leader Ayatullah Khomeini today as he appeared on the balcony of his Tehran headquarters. Shouts of "Death to

Carter!" rang out as tens of thousands of Khomeini followers surrounded the headquarters. (AP La-

# Kohomeini followers shout 'death to Carter'

"Death to Carter!" rang out today as tens of thousands of Ayatullah Ruhollah Khomeini's followers surrounded the headquarters of the leader of Iran's revolution while he prayed and mapped political strategy.

The mob also chanted "Death to Huyser!" U.S. Gen. Robert Huyser, deputy commander of American forces in Europe, has been in Tehran for several weeks. U.S. sources say he is President Carter's liaison officer with the Iranian army. Some in the opposition claim he would be the man to give the go-ahead for an anti-Khomeini military coup.

Prime Minister Shahpour Bakhtiar, meanwhile, told state radio he wants to meet with Khomeini for an "exchange of views" that could lead to a political solution of the Iranian cri-

He proposed the meeting in an interview with state radio and did not elaborate. There was no immediate comment from the Khomeini camp.

Bakhtiar wanted to fly to France last week to meet with the Moslem religious leader, but Khomeini refused, saying Bakhtiar first must resign as prime minister of the "illegal" government appointed by Shah Mohammad Reza Pahlavi.

Karim Sanjaby, head of the secular olitical opposition to the Bakhtiar government, met with Khomeini and said afterward that the tumultuous welcome home the ayatullah received was a "vote of confidence" in his plans for an Islamic republic and that Bakhtiar should resign "since he

TEHRAN, Iran (AP) - Shouts of claims to be a strong believer in democracy.

The frantic crowd chanted "Hail Khomeini!" and "God is Great!" But "Islamic police" organized by his local aides kept them from touching the 78-year-old religious leader as he walked from the Moslem girls' school he is using as his headquarters to a

nearby building for Sabbath prayers. Later he appeared at a window and waved to the crowd as aides led it in chanting "Death to the Pahlavi dy-

Pro-Khomeini, anti-Bakhtiar demonstrations were reported today in the southern cities of Isfahan and Ahwaz and the northwestern city of Zanjan.

The Moslem leader returned to Iran Thursday from more than 14 years' exile in Turkey, Iraq and France. Although more than a million Iranians gave the ayatullah a frenzied welcome home, there were no reports of political bloodshed Thursday for the first time in weeks.

But early today five gunmen killed a 28-year-old ex-boxer in what was believed to be a politically motivated assassination. They dragged him from his Tehran home and shot him in the street 100 yards away. A note attached to his body said the People's Warrior Touheed Guerrillas, a previously unknown group, was respon-

Speaking at the Tehran cemetery where many of those killed in the past year of riots against the shah are buried, Khomeini told his jubilant supporters Thursday he would "es-

tablish a government with the back-

ing of this nation.' He again denounced the monarchy, the Bakhtiar Cabinet, the Parliament and the many foreign advisers brought to the country by the shah to

advance his westernization program. "There cannot be a country with two governments so the illegal government has to get out," said the ayatullah, who contends that because the monarchy and Parliament are illegal, the government which the shah appointed and Parliament con-

firmed is also illegal. Khomeini's goal is to remake Iran into an Islamic republic with a government controlled by himself. He had been expected to announce plans for a Revolutionary Council to set up a provisional government, but one of his chief local aides, Mehdi Bazargan, said other steps were planned. He did

Bazargan told reporters the decision to scrap the council was in no way linked to fear of a military

"Many officers have said or indi-

remains in seclusion in Morocco with his family. His son, Crown Prince Reza, left for the United States today after a week with his parents. The 18-year-old prince was returning to Lubbock Air Force Base in Texas, where he has been taking pilot train-

# Teng visits Houston today

ATLANTA (AP) - Chinese Vice Premier Teng Hsiao-ping, working his way across America, shaking hands and provoking demonstrations,

continues to needle the Soviet Union. His tour was to take him to Houston today for a visit to the Johnson Space Center and a ride in a pilot-training simulator for the space shuttle.

Teng also can expect demonstrations in Houston - a sister city of Taipei, Taiwan's capital — similar to the protests by pro-Mao and pro-Taiwan groups that he has seen in Wash-

ington and Atlanta. In the Georgia capital Thursday, Teng added more fuel to the controversy he has started with his tough

anti-Soviet talk. "The danger of world war remains." Hegemonism is the biggest threat to international peace and security. Historial experience tells us that peace is not secured by prayer alone," Teng told a luncheon audience of 1,400 Atlanta businessmen.

"It is imperative to oppose and contain hegemonisn and upset the strategic plans of the warmongers. China and the United States ... have reaffirmed that each is opposed to efforts by any other country to seek

hegemony. A joint press communique, issued just before Teng left Washington for Atlanta, said that President Carter

### Brick building engulfed in flames

SIOUX CITY, Iowa (AP) - A three-story brick apartment building in downtown Sioux City was engulfed in fire Thursday after a series of explosions. Twenty of the building's 100 tenants were unaccounted for immediately, officials said.

### Braniff service starts March 15

(Continued from Page 1A) to Midland-Odessa

The Midland flights also will hook up with Braniff's Concorde service to London and Paris.

Banks said although the CAB's December approval of a large number of new Braniff markets has delayed Midland's service, Braniff's arrival will give Permian Basin residents an increased availability of flights.

Midland Regional Airport already is serviced by Texas International, Southwest and Continental airlines.

and Teng reaffirmed their opposition to "hegemony" but did not mention the Soviet Union.

Soviet expansionist policies. It was Teng's third major blast at

China uses "hegemony" to describe

the Soviets during his trip, and Tass, the official Soviet news agency, accused him of slander and trying to undermine chances of a SALT agreement between the Soviets and the United States. Tass said the Carter administration

should clarify its position on Teng's remarks, a request which Soviet ambassador Anatoly Dobrynin repeated in person to Secretary of State Cyrus Vance Thursday. White House spokesman Jody

Powell said Vance reassured Dobrynin that the United States is not joining the Chinese in ap anti-Soviet bloc.

But American officials traveling with Teng who asked not to be identified said the government is not inclined to do anything to discourage the Chinese leader from speaking out. "If the shoe fits, let it," said one

The officials say the Carter administration, under Vance's strong urging, intends to proceed deliberately

### It's Ground Hog Day folks, but...

If Midland had any groundhogs, they couldn't have seen their shadows on this foggy and gloomy Ground Hog Day morning.

Whether that means an early spring, however, is open to challenge from purists who might insist a prairie dog won't substitute for the traditional ground hog as an indicator of when spring will come.

Though this morning's fog didn't last long, the weatherman is calling for considerable cloudiness through Saturday. The low tonight should be in the upper 20s, and the high Saturday should be near 50. Winds are expected to shift to

A high temperature of 51 degrees was recorded Thursday at the airport. The record high for Feb. 1 is 80

degrees set in 1963

reaching into the 60s.

northwesterly at 10 to 15 mph to-

The overnight low was 29 degrees. The record low for today is 0 degree set in 1951. The extended forecast calls for a gradual warming trend Sunday

through Tuesday, with temperatures

and Bakhtiar. The shah, who left Iran Jan. 16,

with China, trying to improve relations with the Soviets while Chinese relations blossom. Teng, meanwhile, followed an itin-

erary Thursday that concentrated on the educational and industrial facilities he wants China to acquire with Western help by the end of this century. Henry Ford II gave him a tour of an automobile factory outside Atlan-

Teng is also learning about some of the staples of American political life. On the first few days of his visit, Teng would walk pass crowds waving but not touching. Thursday morning, however, he walked right up to the small crowd welcoming him to Dobbins Air Force Base and presyed the

flesh like a vote-seeking American. Thursday night, Teng had a close look at the other side of American political life, when about 400 demonstrators lined sidewalks near the governor's mansion when Teng drove to dinner. They waved Taiwanese flags and pro-Taiwan placards.

### Rotary members see color film

A recently-produced, color film, "Of the people - - the Texas Legislature." was shown as the program highlight at the Thursday noon neeting of the Downtown Rotary Club in the Midland Hilton.

The film focuses on several members of the legislature, showing them in their home districts and in Austin, and on the overall workings of the legislature from the time proposed legislation is introduced until final voting on measures cleared for floor debate and final action.

Gene Grimwood, program chairman. The Midland Reporter-Telegram Published by Reporter-Telegram Publishing Company evenings (except Saturday and Sunday) and Saturday and Sunday morning. 201 E. Illinois Street. P. O. Box 1650. Midland, Texas 19702.

COMMERCIAL & INDUSTRIAL REAL ESTATE

### Giants of beer flailing away at each other

By JOHN CUNNIFF **AP Business Analyst** 

NEW YORK (AP) - In marketing circles, the figurative fistfight between Anheuser-Busch, the country's largest brewer, and Miller Brewing, the challenger, is considered one of the most direct slugfests ever. Perhaps only out of a sense of what is proper, the

leading citizens in any industry seldom fight it out in the town square. They settle for more subtle tactics, which leave the impression they are above it all.

But maybe the beer stakes are too high, because the two giants are swinging away at each other, and there's no question that each hopes to land a hay-

maker. That beer market is a lucrative one.
The United States has about 80 million beer drinkers, who consume more than 160 million barrels of brew in a year. And their number, and equally import, their propensity to consume, is steadily

By 1985, a Wall Street research house believes, the number of beer drinkers will reach 89.4 million, their consumption 198.5 million barrels, or a per barrel average of 2.22, compared with 2.08 in 1977.

GROWTH COULD EVEN be stronger. If, for example, brewers succeed with women as cigarette makers did in the 1960s. But then the brewers have to contend with wine drinkers, so maybe it all evens out

Any way you look at it, the market's a good one, and both Anheuser-Busch and Miller want a bigger share of it, even if they have to swing some heavy

blows for it. A-B is the biggest. Miller is second-One of the first encounters came when Miller, a subsidiary of Philip Morris, which also owns a cigarette company, began heavy promotions of its Lowenbrau beer, which many thought was import-

They had good reason to so believe. The label looked the same, and the name Munich was prominent. But the product was made in the United States by Miller, which purchased rights from the German

A-B complained to the Federal Trade Commission, pointing out that domestic Lowenbrau was not even the same beer as that which used to be sold under the imported Lowenbrau label.

MILLER RETALIATED by announcing Gussie beer, presumably named for August Busch 3rd, the A-B chairman. It suggested that A-B, so-called king of beers, was fearful of losing its crown.

A-B got in its blows by publicizing what it said were the natural ingredients and purity of its products, and pointedly disparaging additives, such as Miller has been known to use. Through its Lite Beer, Miller got the jump on A-B and other competitors for the low-calorie market.

But Miller lost the exclusivity of terming its beers "light," and A-B entered the market. A-B called its new beer Natural Light, a label that couldn't be overlooked by a nation increasingly conscious of ingredients. And then it emphasized the

point by calling its new beer simply "Natural." Meanwhile, A-B called attention in other ways to its claim of purity, even though nobody seems to have found anything physically harmful about beer

IT PUBLICIZED A brown bottle, for example, the kind used for its Budweiser brand, as opposed to the clear glass of the Miller bottle."Brown bottles are beautiful, naturally," it advertised.

One ad explained that "a brown bottle can protect a beer that's made of all natural ingredients...." If it weren't brown, it continues, light rays would damage the beer, "and light rays aren't good for beer made with only natural ingredients." Miller filed a complaint with the Federal Trade

Commission this week to force A-B from continuing to advertise its products as natural, but that isn't likely to stop the battle. It continues in other ways. When A-B brewed its 40 millionth barrel last

December, according to Beer Marketer's Insights, a newsletter, it said it did so without acquiring other brewers. Miller, beer people know, has done so. The announcement went further, said the newslet-

ter, with A-B making further insinuations, such as that it achieved high volume without having tobacco company as financial guardian. And, it quoted A-B as saying, "without building

yearend inventory to artificially exaggerate our Neither has to exaggerate, because both are doing well. Last year, A-B brewed 41.6 million barrrels, or 10 million more than Miller, its chief competitor.

While A-B's lead remains fairly constant, Miller is growing, but mainly at the expense of other

Meanwhile, Miller has resigned from the U.S. Brewers Association, whose chairrman is August Busch 3rd.

### Federal prison to be open in Big Spring by October

BIG SPRING - Preliminary preparations at the Federal Minimum Security Facility at Big Spring Industrial Park should be under way within 90 to 120 days, according to John All-

man, new warden of the facility. By October, the open, communityinvolved facility should be in operation with 60 staff members and 200 to 250 inmates. Full capacity will be reached after that with 96 staff members and some 500 inmates, Allman

About half the staff members are expected to be recruited from the 50-mile radius around the city, the new warden said.

Staff will be recruited during the six months before operations begin.

During the same time, utilities will be installed, equipment moved and the facility general restored to a usable position.

Allman toured the facility with a small group of federal and city officials and airport manager Harry Spannus Jan. 26. He also met with managers of all the local utilities to discuss installations at the future prison site.

He noted some inmates in the minimum-security prison might be employed in the community and added we hope to be involved with the local

### Attorney given subpoena power

ODESSA — The family of Catherine Ann "Fifi" Murphy has authorized an attorney to seek subpoena power in an effort to locate the young woman missing since July 20, 1978, Odessa lawyer Will Hadden said Thursday.

Hadden, retained by the Thomas D. Murphy family to find the missing 19-year-old, said he may petition district court for the "power of subpoena" to take statements from individuals questioned in the case.

Miss Murphy, daughter of Mr. and Mrs. Thomas D. Murphy, disappeared in the early morning hours July 20 and has not been heard from since. Hadden and the Murphys suspect foul play.

Hadden said taking statements from the individuals would ensure having the information on hand for later use.

# Dallas judge who favored some fails to get senate's approval from Jarvis

AUSTIN, Texas (AP) - A Dallas family district Chet Brooks, D-Pasadena. court judge who once presided over Sen. Oscar Mauzy's property settlement suit has lost his job at the hands of Mauzy's colleagues in the Senate.

Judge Steven G. Condos had been relieved last month of presiding over the Dallas senator's case. On Thursday, Mauzy's colleagues voted 16-4 to remove Condos permanently from duties in the 330th

family district court by rejecting his appointment to the bench. Seven senators, including Mauzy, ab-

'There are indications he has favored certain lawyers he has been associated with in law practices," said Mauzy.

Rejection of the nomination was among the Legislature's last acts before weekend adjournment. The House turned sports-minded by passing a resolution challenging their peers across the Red River in Oklahoma to a basketball game.

Senators approved bills that would add cocktails to room service menus, ban dangerous toys and give said Thursday he will not each other up and have a judges the option of ordering juvenile offenders to compensate their victims for property damage.

Condos, 47, was nominated to the family district court bench by former Gov. Dolph Briscoe late last year. Gubernatorial appointments require a twothirds vote for Senate confirmation. Mauzy said he abstained because of his personal

involvement in Condos' court. The senator's ex-wife Gov. Bill Hobby. sued him in a property settlement matter. Condos was assigned the case but later was removed. Condos should have excused himself immediately, and I will show the differ-

Mauzy said, and not forced another judge to take the case from him. The senator said judges usually don't want to

handle cases when the parties involved are attorneys, who the judges have dealt with in court. 'But the main reason the Senate rejected him was

because of the complaints I've had from other lawyers of his lack of impartiality," Mauzy said. "Every litigant is entitled to a fair and impartial judge.

Condos does not live in Mauzy's district, and the senator did not invoke senatorial courtesy to block the nomination. Mauzy told reporters he talked to senators about

the judge before Thursday but did not speak against Condos during the closed session. The judgeship remains vacant until Gov. Bill

Clements nominates a replacement.

Sen. John Traeger, D-Seguin, has introduced bills in other lawmaking sessions allowing hotels to serve mixed drinks anywhere — not just in designated bar areas. But the legislation has died in the House.

He said out-of-state guests frequently are baffled by Texas laws when they try to make a phone call from the hotel lobby and take their drink with Toys that could shock, burn or mechanically injure

a child should be added to the state Hazardous Substances Act, said Sen. Lloyd Doggett, D-Austin. Under his bill, the Texas Health Department would ban sales of dangerous toys, some of which already

are outlawed by the federal Consumer Product Safety Commission. Federal laws do not cover toys made and sold only in Texas, he said, adding the law would close any

gaps between state and federal regulations. Juvenile offenders placed on probation could be ordered to pay their victims or repair any property mary, late primary, redamage they committed under legislation by Sen.

"The main purpose of the bill is to aid in the Howard Jarvis, Califorrehabilitation of the juvenile," Brooks said. ... Was it chicken every Sunday growing up at your house? Or was a fryer dipped and cooked to a turn the mid-week special?

Whatever your family's way, chicken probably appeared regularly on the dinner menu. Now is the time to dust off those old recipes — or shine up some new ones — and enter them in the National Chicken Cooking con-

April 1 is the deadine to mail recipes to contest headquarters in Washington, D.C. Five Texas finalists will be selected from recipes submitted and will compete in the Texas Chicken Cooking Contest June 1 at The University of Texas at Austin.

The state winner will get an expense-paid trip to Charleston, S.C., where she will compete July 25 with cooks from 49 other states and the District of Columbia for a first prize of \$10,000. Four runners-up will split another \$10,000.

Contestants may enter as many recipes as they want to, but each recipe must be written on a separate sheet of paper with the entrant's name, address and telephone num-

Recipes must be for broiler-fryers, whole or any part or parts. Exact amount for ingredients must be specified and ingredients should be familiar and available nationally.

Recipes will be judged on simplicity, appeal, appearance and taste, and should provide at least four servings. Preparation time, including cutting and marinating, cannot exceed three hours. Anything not necessary to the finished product, such as a garnish, should not be included

Contestants must be Texas residents who will be living here at the time of the national cookoff. Previous \$10,000 winners cannot enter.

Mail recipes to the National Chicken Cooking Contest, P.O. Box 28158, Central Station, Washington, D.C.,

FRIDAY, FEB. 2, 1979

More than 1,500 oil industry people and civic leaders were on hand Thursday as BJ-Hughes Well Services new division station was formally opened along Insterstate 20 near Odessa. The station is the

base for BJ-Hughes' cementing and stimulation

equipment. Visitors to the opening were treated to an old-fashioned Louisiana boiled shrimp dinner. The facility includes bulk tanks, not shown in picture, and laboratory facilities used to provide

### New Mexico discoveries finaled

A Mississippian gas discovery, two Morrow gas discoveries and a San Andres oil discovery have been reported in New Mexico counties. In addition, a new wildcat, a re-entry wildcat and field area operations have been announced.

YATES STRIKE

Yates Petroleum Corp. of Artesia, N. M., No. 1-JG Cities-State Communitized is the Mississippian gas discovery. It is nine miles southwest of Artesia in Eddy County.

The operator reported a 24-hour flowing potential of 2,600,000 cubic feet of gas per day, through a 1/2-inch choke and perforations from 8,551 to 8,775 feet. Tubing pressure was 405

The new field opener is bottomed at 900 feet and 5.5-inch casing is set on

bottom. The Mississippian top was picked by electric log at 8,545 feet on ground

elevation of 3,651 feet. Location is one and one-quarter miles southeast of 6,350-foot Cisco gas production in the Fordinkus field and 3/4 mile northwest of 8,490-foot Morrow gas production in the Penasco Draw field. It is approximately 50 miles southwest of the closest Mississippian gas production which in in the Mescalero Sands field of Chaves

Wellsite is 660 feet from south and east lines of section 13-8s-24e.

EXXON COMPLETION

Exxon Corp., operating from Midland, reported potential test on its No. 1 Scheidt-Federal, Morrow gas discovery 21 miles southwest of Malaga in south Eddy County.

It finaled for a daily flowing potential of 1,623,000 cubic feet of gas per day, through a 14/64-inch choke and perforations from 10,151 to 10,255

Hole is bottomed at 11,560 feet and 5.5-inch casing is cemented at 10,617 feet.

The discovery is nine miles southwest of Strawn gas production in the Cottonwood field and nine miles southeast of Morrow gas production in the Washington Ranch field.

Wellsite is 1,880 feet from south and 825 feet (amended) from west lines of section 30-26s0-26e.

MESA DISCOVERY Mesa Petroleum Co. of Midland No.

1 Gardner-State has been completed as the second Morrow gas discovery. It is nine miles south of Hope in west Eddy County.

Operator reported a calculated. absolute open flow potential of 8,564,-000 cubic feet of gas per day, with a gas-liquid ratio of 3,250-1 and shut-in wellhead pressure of 2,182 pounds. Completion was through perfora-

tions from 7,604 to 7,886 feet. Total depth is 7,785 feet and 5.5-inch casing is set at 7,785 feet.

The well is six miles northeast of 7,100-foot Morrow gas production in an unnamed field and three miles

### Roosevelt gains oiler

El Ran, Inc., of Lubbock No. 3 Byron has been completed in the Chavero (San Andres) pool of Roosevelt County, N. M.

On 24-hour potential test it flowed 89 barrels of 24-gravity oil, no water, through a 1/2-inch choke and perforations from 4,164 to 4,297 feet. Gas-oil ratio is 505-1.

Total depth is 4,343 feet and 4.5-inch casing is set at 4,342 feet. The pay was acidized with 6,000

gallons. Location is 1,650 feet from south and 1,980 feet from east lines of section 34-7s-32e

southeast of 7,320-foot Strawn gas production in the South Hope field. The site is 1,980 feet from south and

west lines of section 8-19s-23e.

MGF Oil Corp. of Midland No. 1 Santa Fe Railway is the San Andres Discovery. It is nine miles southeast

of Crossroads in Lea County. On 24-hour potential test it pumped 24 barrels of oil and 231 barrels of water per day, through perforations from 4,942 to 4,950 feet.

Hole is bottomed at 5,015 feet and 4.5-inch casing is set one foot off

The wellsite is 760 feet from north and east lines of section 13-10s-36e and 3.5 miles northeast of 4,980-foot San Andres oil production in the Dickin-

OUTPOST STAKED

Yates Petroleum Corp. announced location for a one-mile southeast outpost to an unnamed 8,100-foot Morrow gas discovery in Eddy County, seven miles southwest of Artesia.

The project, No. 3-CX Federal, is 1,980 feet from south and 2,310 feet fom west lines of section 7-18s-25e. It is to drill to 8,450 feet.

ATOKA AREA

Yates Petroleudm Corp. also will drill a new project in the Atoka, West (Morrow) pool of Eddy County, six miles southwest of Artesia.

It is No. 1-KN Upham, 1,980 feet from south and west lines of section 14-18s-25e. It is contracted to 8,750

WILDCAT SITE

Lawbar Petroleum, Inc., of Los An-

geles, Calif., No. 1 Mesa-Federal is to be drilled as a 2,000-foot wildcat in Eddy County, 14 miles northeast of Artesia in Eddy County

Location is 660 feet from south and east lines of section 19-16s-28e.

**UNDESIGNATED AREA** 

Amoco Production Co., operating from Levelland, No. 1-GP State Gas Communitized is to be drilled one mile northeast of 8,400-foot Morrow production in an unnamed area of

Scheduled for an 8,700-foot bottom, it is 1,980 feet from north and east lines of section 33-18s-24e and 10 miles southeast of Hope.

BASS PROJECT

Perry R. Bass of Midland No. 74 Big Eddy Unit is to be drilled as a 13,000foot test in the Indian Flats (Morrow) pool of Eddy County, 11 miles northeast of Carlsbad.

It is 1.5 miles northeast of production and 660 feet from north and 1,980 feet from east lines of section 25-21s-

LEA RE-ENTRY

Tom L. Ingram of Roswell, N. M., No. 1 Eidson is a re-entry wildcat in Lea County, 19 miles northeast of Maljamar.

Originally drilled by Western Natural Gas Co. and completed from the Devonian in 1955, it is 1,980 feet from north and east lines of section 35-16s-

The old total depth is 12,678 feet. It will be plugged back to 11,600 feet. The location is 1.5 miles northeast of the Shoebar, South (Morrow gas)

### Rank wildcat scheduled In Culberson County

American Quasar Petroleum Co., operating from Midland, has announced location for a 15,500-foot rank wildcat in Culberson County.

It is No. 1 Tres Alas, 1,320 feet from north and 990 feet from east lines of section 4, block 112, psl survey.

The drillsite is 50 miles north of Kent.

STERLING WILDCATS Mesa Petroleum Co. of Midland announced locations for a pair of wildcats in Sterling County, 5.5 miles southwest of Sterling City.

Scheduled as Fusselman wildcats and stepouts to Conger (Pennsylvanian gas) production, they will be drilled to 8,700 feet.

No. 1-9 Morgan is 1,980 feet from south and 660 feet from west lines of section 9, block T, T&P survey and 3/4 mile east of a depleted Fusselman

well in the Lacy Creek area. Mesa will drill the No. 1-4 Williams 3./4 mile northeast of the No. 1-9 Morlgan and 660 feet from south and 1,980 feet from west lines of section 4, block T, T&P survey.

DAWSON OPENER

Getty Oil Co. No. 1 I. L. Graham, re-entry project in Dawson County, has been completed as a Dean-Canyon discovery in the Knight-Miller (Fusselman) field.

It completed for a 24-hour pumping potential of 30 barrels of 35.4-gravity oil and 50 barrels of water, with a gas-oil ratio of 467-1.

Completion was through perforations from 8,871 to 8,999 feet and from 10,198 to 10,210 feet. Amount of stimulation, if any, was not reported.

Hole is bottomed at 11,669 feet and 4.5-inch casing is set at total depth.

Location is 660 feet from north and west lines of secton 6, block 35, T-4-N, T&P survey. The well originally was completed

in 1972 as the No. 1 I. L. Graham by Knight & Miller Oil Corp. of Midland. It is one location south of Fusselman production. EXTENDER FINALS Agar & Agar, Inc., (formerly

Benchmark Oil Co.) No. 2 Diamond Lill has been completed to extend the Double H (Grayburg) field of Ector County one and one-quarter miles

Opertor reported a 24-hour pumping potential of 94 barrels of 18-gravity oil and 42 barrels of water, with a gas-oil ratio too small to measure. Total depth is 10,302 feet and plugged back depth is 4,500 feet.

Completion was through perforations from 3,867 to 3,877 feet. The pay was acidized with 1,000 gallons and fractured with 10,000 gallons. Location is 1,980 feet from north

and 990 feet from west lines of section 44, block 43, T-3-S, T&P survey and 12 miles southwest of Odessa.

REAGAN WELL

Saxon Oil Co. of Midland No. 4 Turner has been completed in the Spraberry Trend area field of Reagan County, 14 miles northwest of Big It completed for a daily pumping

potential of 52 barrels of oil and 144 barrels of water, with a gas-oil ratio of 1,750-1. Completion was through perfora-

tions from 7,805 to 7,939 feet The amount of stimulation has not

been reported. The well is bottomed at 8,019 feet and location is 1,320 feet from south and east lines of section 1200, CCSD&RGNG survey.

# Lignite operators likely big backers of mine bill

By MITCH GREEN **Austin Bureau** 

AUSTIN — Texas lignite operators are likely to be among the strongest supporters of a bill that will make it easier for the Railroad Commission of Texas to fine them and more likely that they will be sued by environmen-

The magic ingredient in this fairytale-like transformation is not a kiss from environmentalists, but what the industry sees as the ominous threat of the Wicked Witch of the North-federal regulation

Under federal strip mining legislation, enacted after Texas' 1975 law took effect, states have a choice of developing a regulatory program of their own that complies with federal standards, or submitting to a federal regulatory program.

Lignite operators don't hesitate to express their preference. "No one likes to be regulated," says Hal Reagan of Alcoa's Rockdale lignite operation, "but if we've got to be, we'd prefer it to come from the folks closest to home."

Environmentalists, state officials and lignite operators all agree that the changes necessary to bring the 1975 Texas Surface Mining Act into compliance with the federal law will

### Schleicher strike finals Devon Petroleum Corp. of Oklaho-

ma City No. 1 E. M. Jackson Jr., has been completed as a Canyon sand discovery in Schleicher County, 1.5 miles southeast of Eldorado. Operator reported a daily pumping

potential of five barrel of oil, with a trace of water. The gravity and gasoil ratio were not reported. Completion was through perfora-

tions from 5,362 to 5,482 feet after 82,000 gallons of fracture solution. Total depth is 5,700 feet and 5.5-inch casing is set at 5,498.1 feet. The

plugged back depth is 5,492 feet. Wellsite is 660 feet from north and east lines of secion 70, block K, GH&SA survey.

It is one and one-fourth miles southwest of the depleted Page, South (Strawn oil) field.

be minor and mostly semantic, but they will also require the addition of some procedues which are distinctly at odds with the way Texas does

Most notably, the federal law re-

quires a "citizen standing to sue" provision that allows any citizen with an interest to file an environmental suit against a lignite operator. Current state law limits this standing to citizens of the county in which

and the adjacent county. The legislature has rejected the broadening of citizen standing in environmental matters in three of the last four sessions.

the lignite mining operation is located

Complying with federal guidelines will also require giving the Railroad Commission significant new powers to levy fines directly, instead of the current procedure where the attorney general asks the courts to assess a

Federal requirements that states legislate authority to place liens on private lands reclaimed by the state after strip mining are also contrary to Texas traditions and strike a blow at the almost religious sanctity Texas lawmakers attach to private property

"There's already not much we can do about all this," says John Schratwieser of Shell Development Co.

"Most of the language is in the federal law and either we adopt it or the Office of Surface Mining sets up operations in Texas."

Schratwieser says he doesn't think there would be too much of a difference between the stringency of enforcement under a federal program and a state program, but that state regulation is "basically a philosophical matter.

"The state regulators just know more about the specific circumstances of our operation and are therefore better able to regulate us than people all the way off in Wash-

Schratwieser says forcing states to decide between federally-approved

state programs and federal programs is an increasingly common federal tactic expecially in the environmental and energy areas.

Texas industry, for instance, must deal with a dual system of state and federal water quality permits because the state has not met Environmental Protection Agency stan-

Unless the legislature acts during this session to approve state programs, federal regulation could prevail in these areas:

-Energy performance standards for the design of all new buildings. -Energy conservation in public buildings and private homes. —Coastal zone management.

-Air pollution. Field tests

# This 'guidance' not parental

By HUGH A. MULLIGAN

OVER THE GULF OF MEXICO (AP) — Flying down to Mexico, the stu got on the horn to announce which in-flight movies had been mandated for our compulsory viewing.

In the aft cabin it will be "Somebody Killed Her Husband" with Farrah Fawcett-Majors," she intoned, "and in the forward cabin it will be "Hooper" with Burt Reynolds. Except she renamed it "hooker," which raised some leering expectations among the macho oil workers in the smoking section.

"Both movies," she added, "are rated PG - parental guidance."

There were a number of urchins abroad. I looked around to see if any of the parents were stuffing them under the seats with the carry-on luggage.

Maybe declining to rent the earphones at \$2.50 a set might be a partial exercise in parental guidance, but even with the sound shut off there was no getting

away from the picture. The seats didn't swivel in the direction of the tail, and leaving the reading light on or the window blind up was considered an anti-social act that brought a stern reproof from Big Sister on the microphone.

"Passengers will better enjoy the film if they draw the shutters," she scolded those trying to hide behind newspapers. When they still didn't get the point that the movie really wasn't optional, she came down the aisle to bully them. The executive-looking type in the tortoise shell

The executive-looking type in the tortoise shell glasses and the three-piece brushed denim suit across the aisle finally gave up on dictating into his hand-sized tape recorder and fiddling with his credit card sized calculator. The oil workers obediently folded up their gin game.

Sixteen priests heading down to a conference of Latin American bishops squirmed perceptibly behind their Roman collars and settled back for simulated naps as the title credits for "Hooper" flashed on the screen in that dark aluminum tunnel.

It was a moderatly amusing and adventurous flick about Hollywood stunt men.

The characters for the most part were amiably violent people who mouthed a number of four-letter rudities which have become fashionable on the silver screen.

This is called an adult movie because adults are supposed to talk like that all the time. However, if anyone on board had started using the language heard on the sound track, the pilot would have been summoned from the flight deck to make a command decision about cutting off his or her booze ration.

Burt Reynolds was roguishly charming as "Hooper," the bravest, devil-may-carest stunt man of them all, even if Errol Flynn would have been better and a trifle more refined in his vocabulary.

Sally Field, as Burt's live-in girl friend, which I suppose was one area where the parents were required to provide some guidance, still looked like the Flying Nun out of habit, even in the dimly lit scene where she didn't seem to have any sort of habit on at all.

A fine old-fashioned barrom brawl from which no one emerged bleeding or bruised rates as one of the best I have seen since the cross-country Donney-brook between John Wayne and Victor McLaughlen in "The Quiet Man." But parents engaged in any guidance might have had reservations about their teen-agers emulating the drag race scene in which our heroes pass beer cans back and forth and change seats at 100 miles an hour, and the comic way they unsaddle a state trooper from his motorcycle by attaching a long wire to his pistol belt.

Over the Gulf of Mexico, the weather turned frightful. The pilot put the seatbelts and rafts-underthe-seat sign on. The stewardesses shut off cabin service just at the time when everyone could have used an anxiety quencher. The screen started bouncing about in a most ominous way, as if by lightning and thunder God's sriptwriters had decided to ex-

punge some of the racy dialogue.

All 16 priests had their reading lights on and their brievaries out on the serving tables. They could have done a good business in confessions. At 40,000 feet, up there on God's turf, a lot of white knuckle flyers get nervous about meeting their Maker fresh from a risque show or its parentally guided Hollywood

The plane bucked and bumped and shuddered with a terribly tinny sound, as Burt took the deity's name in vain. "High altitude chop and clear air turbulence," the pilot called it. The priests shook their heads knowingly or at least two of them did.

Maybe what the airlines require at time like this, for the comfort of their passengers, is a "Smut" and a "No-Smut" section for content mandatory in-flight movies with a high raunch content.

# Darvon questioned in committee probe

WASHINGTON (AP) — A group of drug experts says Darvon appears no more effective than common aspirin and says abuse of the popular prescription pain reliever has been implicated in a number of deaths.

The Senate Small Business subcommittee on monopolies was to hear further viewpoints today on the drug, once the most popular pain reliever prescribed by doctors.

The Health Research Group, which was formed by Ralph Nader, has asked the federal government to either ban the use of propoxyphene, a basic ingredient of Darvon and several other compounds using different trade names, or to place federal limits on its availability.

Darvon is a trade name used by Eli Lilly and Company.

Dr. Charles G. Moertel of the Mayo Clinic in Rochester, Minn., told the subcommittee Wednesday: "I would seriously question whether the use of Darvon is good medical practice at all."

Eli Lilly officials did not testify Wednesday but the company said in a statement Darvon had given relief to millions of persons during the past 21 years and there was no evidence that propoxyphene products "have ever caused death or serious injury when used as recommended."

It also said a study of propoxyphene-related deaths showed "most of the deaths involved use of propoxyphene at doses far in excess of their therapeutic levels and in combinations with alcohol and other

One witness, Kenneth A. Durrin, director of the Office of Compliance and Regulatory Affairs of the Drug Enforcement Administration, told the Senate subcommittee reports from medical examiners indicate that propoxyphene "ranks third behind heroin and alcohol (in combination with other drugs) in terms of drugs associated with deaths."

Durrin said the reports indicated 502 deaths in 1975 and 528 in 1977 were related to propoxyphene overdoses. He said suicide was indicated in 44 percent of

IF YOU WANT

TO CUT THE PRICES

# YOU CUT THE COUPONS!

It's a fact that you can do your own price cutting when you shop. Millions do. (Four out of five families).

Clip coupons. Save cash.

And if you think it "doesn't amount to all that much," think of this.....

LAST YEAR AMERICAN CONSUMERS CLIPPED \$500,000,000 OFF THE PRICES THEY PAID FOR THINGS THEY BOUGHT!

HALF A BILLION DOLLARS.

With cash-saving coupons like those in

vessels

ontrol

In a single recent issue of The Midland Reporter-Telegram

the total coupon value was \$17.76

In another issue the value amounted to

\$22.27

plus additional coupons for free items with purchase.

It varies, of course, from issue to issue. The point is, there are DOLLARS WORTH of coupons, week in, week out. So CLIP COUPONS, SAVE CASH!
