Executions beginning amid Iranian fighting

TEHRAN, Iran (AP) - A revolutionary firing squad executed Shah Mohammad Reza Pahlavi's hated secret police chief and three other generals at Ayatollah Ruhollah Khomeini's headquarters during the night. It has reported 26 other officers and officials of the old regime will be executed.

Fearful Americans were packing their bags for a massive air evacuation set to begin Saturday. A preliminary flight took off today with 167 of them

Tehran radio reported that pro-Khomeini forces appealed for tear gas to disperse an attacking mob after a night-long street battle in eastern Tehran. But three days of fierce fighting in the northwestern city of Tabriz have ended, the radio said, and the government is in control.

Unconfirmed reports put the ca-sualty toll in Tabriz as high as 700 dead with thousands wounded. 5,000 of the 7,000 Americans still in Tehran Radio blamed the fighting on "counter-revolutionary SAVAK agents" and said a nightly curfew remained in effect.

Thousands of youths marched in Tehran in celebration of the reported victory in Tabriz.

Tehran bound for Frankfurt, West Germany. It carried most of Pan Am's 90 Tehran employees and dependents and any others who were ready to board the 183-seat plane. The airport was heavily guarded by guerrillas loyal to Khomeini.

The U.S. government hopes to begin a full-scale evacuation of Americans Saturday, using two Boeing 747 jumbo jets chartered from Pan Am. About 800 were expected to leave on the first two flights.

Six U.S. Air Force C-130 transport planes and five HH53 "Jolly Green Giant" helicopters landed at Incirlik air base in southeast Turkey, about 850 miles from Tehran, Turkish state radio reported.

U.S. officials in Washington said Thursday the helicopters and planes would be used only in an emergency. The U.S. government expects some

ways Boeing 707, took off today from Iran to leave the country. It arranged the evacuation airlift after scores of renegade gunmen stormed the U.S. Embassy in Tehran Tuesday.

The British Royal Air Force had four planes standing by in Cyprus awaiting Iranian permission to fly to Iran and evacuate some of the 1,600 British subjects there. Tehran Radio also announced that

Prime Minister Mehdi Bazargan and his Cabinet unanimously approved a decree confiscating all properties of the royal family in Iran, including palaces, lands, and stock in banks, factories and businesses.

The Cabinet also decreed that properties and wealth of government officials will be examined, along with that of former officials arrested on corruption charges.

There was no official estimate of the value of the royal properties in Iran, but unofficial estimates place their worth at several billion dollars.

Marland was honored for the work done by Marland Oil Co. in pioneering Permian Basin oil development, for early use of seismic methods and for other accomplishments.

The Rowan brothers were admitted to the Hall of Fame as a team. Their Rowan Drilling Co. (now Rowan Enterprises, Inc., Houston) did much of the drilling during the Permian Basin's boom days as well as drilling in other oil areas. They were cited for their outstanding civic leadership, as were the other inductees.

Skelly Oil Co. (now a part of Getty Oil Co.) made major oil discoveries in the Permian Basin. Skelly himself gave distinguished leadership to the industry in Tulsa and other oil industry cities.

Several members of the families of the inductees were present for Thursday night's ceremonies.

Senator Harrison H. "Jack" Schmitt of New Mexico, a former astronaut who was the lunar module pilot on the Apollo 17 moon mission in 1972.

He said the United States has reached the point where Congress must declare a national energy production emergency and get to work on passing a National Emergency Energy Production Act.

"No longer can we avoid the necessity of greatly increased domestic oil and gas production just because President Carter is afraid that American industry might benefit," said the speaker, a geologist by profession.

"No longer can we avoid the necessity of the suspension of non-essential price and operational regulations just because Mr. Carter might see America and its environment prosper in a climate of freedom rather than constriction.

"No longer can we avoid the necessity of funding greatly increased energy research and development just because some of Mr. Carter's special interests might lose their favored fedcountry, but the government said the four just executed were "the first group of traitors" to be tried by revo-lutionary courts. It said Khomeini attended the trial.

The newspaper Ettelaat said 26 other officials and military officers of the shah's regime had been convicted of crimes and would be executed. It gave no further details, and Khomelni spokesmen declined comment.

The executions by a 10-man firing squad were announced by state radio accompanied by martial music.

It said the generals were convicted on charges of "torture, massacre of people, treason to the country and earthly corruption. They were sentenced to death and the verdict was immediately carried out by Islamic armed forces." It said their property was confiscated.

The generals were Nematollah Nassiri, chief of SAVAK, the shah's dreaded secret police; Manuchehr Khosrowdad, head of the elite paratroopers; Mehdi Rahimi, martial-law governor of Tehran, and Reza Naji, governor-general of the central city of Isfahan.

Each was riddled by at least eight bullets. The bodies were transferred from Khomeini's headquarters to Tehran's central morgue.

The first American evacuation flight, a Pan American World Air-

U.S. again berated

MEXICO CITY (AP) - Mexico's President Jose Lopez Portillo has had the last word again during his summit session here with visiting President Carter, declaring that too often his poor countrymen who go the the United States "have to sell themselves."

Lopez Portillo, who surprised and irritated U.S. officials Wednesday when he in effect accused the United States of deceit and abuse, threw a fresh discordant note into the acrossthe border summit early today.

Responding to a toast at a dinner given in his honor by the U.S. presient, Lopez Portillo said:

"This, Mr. President, I believe, is the most serious matter of our times - the fact that there are men that can buy men and that there are men that have to sell themselves. And this is what happens very frequently with our poor people that go to the Unites States.'

Carter and his associates had thought the summit talks were back on track after the shaky start Wednesday when Carter was given a correct but cool reception and was lectured by Lopez Portillo in the first toast of the summit during a luncheon given in Carter's honor.

A high White House official who asked not to be named said Thursday

night that Lopez Portillo had indicated agreement when Carter, at an unannounced private 10-minute session earlier in the day, suggested that too-strident Mexican references to disagreements between the nations could be conterproductive.

Carter's session with Lopez Portillo was followed by reports of summit progress and the scheduling of a reakfast meeting between the two leaders - actions seen as indications that the Carter visit was going well.

Then came Lopez Portillo's emotional toast, during which he told Carter, "I am deeply moved, and I shall try to be more stable."

The Mexican chief executive went on, however, to ask rhetorically,

"What is happening to the free world? ... Is it possible for the human being to be free and at the same time to be just, is it possible to conceive of an international order that can avoid the state of affairs in which a man would sell himself and another would buy

another human being?" But Lopez Portillo's also said, "Our firendship has made it possible to be frank."

U.S. sources, reporting on Thursday's talks, said progress was made on energy issues. But no progress was reported on at least one major issue, illegal immigration.

Oil crisis costs Texans more than anyone else

By LINDA HILL Staff Writer

The current national energy situation is "more expensive to each Texan...than (to) any people on earth," Attorney General Mark White said in Midland Thursday.

White spoke to district judges at the West Texas Judicial Conference in the Midland Hilton.

The attorney general accused the federal government of promoting "regionalism," and setting one area of the country against others.

White promised to fight the inequities visited on Texas on several fronts.

First, he pledged to continue a suit begun before he took office against the federal natural gas pricing bill, which regulates intrastate gas prices.

The new attorney general also pro-mised to pursue means to cut down the price of coal from Montana and Wyoming.

"There are very few people in Mon-tana who voted in these elections," said White, referring to his campaign promise to sue Montana on its 30 percent severance tax on coal.

"It's worked pretty well so far, so we will continue to sue Montana every chance we get," White quipped. However, the city of Austin and the Lower Colorado River Authority already have filed that suit against Montana.

White said he has joined in that suit, and will file a separate one if necessary to protect the interest of the entire state.

In a related area, he said Texas also will try to block an increase in the cost of shipping coal from Montana to Texas from \$6 to \$16 a ton.

That increase exceeds all inflation control guidelines, he contended, and is not justified as "reasonable return on investment," either. In fact, he added, customers in Texas had to purchase the railroad cars to get the coal down to Texas.

White also pledged to take other action as it becomes appropriate to try to stop federal "over-regulation" of energy industries.

After his speech, White said a deci-tion on whether Texas should try to find a way to collect a larger propor-tionate share of energy taxes from out-of-state customers is up to the Legislature.

Gov. William P. Clements has proposed a natural gas export tax. "I don't think it's right to set one

state against another. We've got an American problem," said White. The new attorney general, who took

THE MIDLAND REPORTER-TELEGRAM, FRI., FEB. 16, 1979

Solons favor bypassing federal rationing plans

(Continued from Page 1A)

eral handouts," Schmitt charged. The senator, in proposing a National Emergency Energy Production Act, said the legislation should include:

Deregulation of the price of all domestically produced crude oil, phased over three years. Immediate deregulation of the

price of newly-discovered domestic natural gas.

- IMMEDIATE FIVE-YEAR suspension of the promulgation and enforcement of nonessential regulations related to crude oil and natural gas exploration, production and distribu-

Consolidation of all federal oil and gas drilling and pipeline permitting authority in a single agency with automatic permit approval unless denied within 30 days of filing.

Institution of an accelerated, royalty-based federal leasing procedure for oil and natural gas exploration

Institution of full first-year depreciation of tangible recoverable drilling costs.

Retroactive institution of full first-year depreciation of all costs for equipment made necessary under federal or state environmental regulations.

- Institution of full first-year depreciation of the cost of equipment giving at least a 10 percent increase in energy conversion efficiency.

"The passage of such emergency legislation related to oil, natural gas, and conservation would encourage a rapid increase in domestic supply and would generate the investment capital necessary to undertake such an increase," Schmitt said.

HE NOTED that as a geologist he is confident "these measures for encouraging the domestic oil and gas industry would rapidly begin the discovery and production of an undiscovered resource base of at least 300 billion barrels of oil and 700 trillion cubic feet of natural gas, not including secondary or tertiary recovery or our immense geopressured methane resources.

"That would provide several decades of low cost supply while we develop alternatives as fast as we can, but without the threat to national survival we now face."

.01 cdy .02 clr The former astronaut warned that "the Congress should not allow fe-01 cdy derally administered rationing or al-.08 cdy cdy .18 cir .01 cdy .62 cir locations until it is clear that the market place and increased domestic producton cannot handle foreign sup-.02 cdy ply interruptions, such as that related to Iran. I know of no evidence that the .01 clr .17 cdy Department of Energy could handle

rationing or allocations any better than the market place, in fact, all evidence is to the contrary.'

Before presenting his proposals for a National Emergency Energy Production Act, the senator criticized the U.S. for its failure to devise a true national energy policy.

"How a country with the resources and technology of the United States could have let things get so fouled up is beyond me," he said. "Without the existence of a true energy policy and a commitment to its implementation, the solution to our other problems is impossible.

He attributed over-priced foreign oil and gas as major contributors to the crippling inflation that infects the nation's economy.

DEPENDENCY ON UNCERTAIN foreign supplies of oil makes it impossible to conduct a rational Middle Eastern policy or to bargain from a position of strength on other international issues, he said.

"Dependency on foreign supplies of oil and susceptibility to the loss of those supplies severely compromise the defense options of this country," he said.

He pointed out that unreasonable regulatory restrictions on the production and use of natural gas and nuclear power are "preventing the protection and enhancement of our environmental heritage. "Inadequate and uncoordinated re-

search and development of more efficient energy conversion systems and new energy sources is prolonging the number of years we will face the peril of a catastrophic interruption of en-ergy imports," he warned.

Schmitt said oil imports have increased from 28 percent of the nation's requirements in 1973 to about 50 percent in 1979.

"Our bill for these over-priced imports will be about \$45 billion in 1979," he said. "This is an intolerble drain on our capital resources as well as on our personal pocketbooks."

THE REPUBLICAN SENATOR added that "the development of new domestic energy capacity whether in oil, gas, coal or nuclear is in a regulatory shambles. Our sources of foreign supply and those of our potential allies are under increasing threat of Soviet domination or neutralization.

"And, worst of all, the Carter Administration seems incapable of understanding or analyzing the quantitative and economic facts of energy supply or of honestly reporting those facts to the American people or the Congress.

Harold Runnels of Lovington, a member of the U.S House of Representatives and of the museum's board of executors, introduced the speaker.

A follower of the Ayatollah Ruhollah Khomeini carries a red carnation in the barrel of his weapon Thursday as he stands guard at a clinic in downtown Tehran. A drawing of the Shiite religious leader is on the wall behind him. (AP Laserphoto)

U.S. military secrets in hands of Iranians

WASHINGTON (AP) - Despite administration assurances, some U.S. officials say they are convinced key U.S. military technology in Iran has been compromised during the chaos there in recent weeks.

These officials acknowledge they have no firm evidence, but say it must be assumed vital American military secrets are in the hands of dissident Iranians.

The officials say the_Soviet KGB intelligence service long has been active in Iran, next door to Russia, and that they believe some of the Iranian groups in the fragmented revolutionary structure have links with the Soviets.

Almost like a litany, Defense and State Department spokesmen answer questions daily about 78 U.S.-supplied F-14 fighters and their Phoenix missiles by saying, "We believe that the planes and equipment are safely in the hands of the Iranian air force, which is the representative of the government that owns them." But some deeply concerned U.S.

shards of glass flew through the air

officials, who refuse to be identified by name, challenged the basis for such statements.

They say the Iranian air force was the first to disintegrate as an effective military organization. The Iranian army, too, has virtually fallen apart. they said.

Sources said a major cause for concern is the whereabouts of technical manuals on the F-14, its Phoenix missile system and highly-sensitive electronic devices. Such manuals, it was said, would be invaluable in learning about the systems.

The fear among U.S. officials is that the Soviets will acquire, through left-, ist Iranian dissidents, enough knowledge of the F-14 to devise ways of defeating it.

The F-14 has the unique capability of firing missiles simultaneously at as many as six separate targets. Each of the missiles has a rage of more than 100 miles. The plane is regarded by the U.S. Navy as essential to air defense of the fleet.

Continued cold with occasional rain or drizzle likely most sections tonight and Saturday. Precipitation possibly changing to free-ing rain or sleet over the Hill Country tonight and Saturday morning. Highs upper 36s northwest to mid 40s south. Highs Saturday 30s northwest to the mid 40s south. Highs Saturday 30s northwest to the mid 50s extreme south.

Police statistics show increase in number of assault cases

(Continued from Page 1A)

1978, as opposed to 11 during 1977. Police reported 1,093 criminal mischief incidents in 1978, a decrease of

Though the police department's traffic division reported an increase in accidents during 1978, there were only four fatalities in the city compared to eight in the previous year. The number of city fatalities in 1978 was the lowest since 1974, when only one person died in a car accident.

The study showed that 783 persons were injured in 3,219 separate accidents compared to 676 injuries in 2,919

accidents in 1977.

Hit and run incidents (579) in-

creased by 77. Chief Gideon's crime report showed a decided drop in narcotics arrests during 1978.

Police narcotics agents arrested 163 persons in 133 cases in 1978 compared to 289 arrests in 211 cases the previous year.

Police arrested 149 adults and 14 juveniles on narcotic violations, decreases of 121 and 5 respectively.

The Juvenile Division reported a decrease in juvenile arrests last year. There were 561 arrests compared to 760 recorded in 1977.

Negotiations begun in lettuce strike

(AP) - The nation's largest lettuce producer has begun closed-door negotiations with the United Farm Workers union, which has struck lettuce growers during the height of the harvesting season

Union and growers representatives, who have been involved in a wage dispute that has put 4,200 farm workers on picket lines, said Thursday that SunHarvest Inc., a subsidiary of United Brands, started talks in Los An-.03 edy edy edy eir geles.

The UFW negotiating team is headed by union leader Cesar Chavez. Roland Kemp, SunHarvest's executive vice president, said Chavez

sought the meeting. "Our primary objective is to get the conflict out of the fields and back to the negotiating table," he said.

Last week, Chavez threatened a national boycott if growers did not ease their bargaining stance. A boycott also would affect United Brands a huge food-growing, processing and sales conglomerate that includes Chiquita bananas, Morrell meats and the A&W fast-food chain.

Growers' spokesman Fred Karger said his group feels SunHarvest is "trying to stave off a possible boycott by the UFW."

Farm workers struck 11 of 28 negotiating lettuce growers in California and Arizona on Jan. 19. About 40 percent of the nation's winter lettuce

Explosion in Warsaw bank claims at least 41 lives

WARSAW, Poland (AP) - The death toll has risen to 41 in the explosion that shattered a crowded Warsaw savings bank, the official PAP news agency reported today.

It said the cause of the blast Thursday, Poland's worst explosion since World War II, had not been determined.

The agency reported 110 persons injured, and said 77 remained in hospitals today. The others were released after treatment.

It's snow or freezing rain now for Basin area residents

the upper 30s.

night

Mindful of recent sunny skies and summer-like temperatures, Midlanders nevertheless faced the possibility of snow or at least freezing rain late today or Saturday.

Thursday's sudden change in the weather was caused by a cold front from the north, and that front should bring mostly cloudy skies and a continued "iceberg" atmosphere with a chance of rain through Saturday, said the weatherman.

Rain possibly mixed with snow or freezing rain are predicted through Saturday, according to officials of the National Weather Service at Midland **Regional Airport.**

For Sunday, a slow warming trend is forecast by officials.

White says federal government promotes regionalism in the U.S.

office in January, said the job is more complex than he anticipated it would

"I didn't realize how much trouble we'd gotten into in the last few years.

White also said his reorganization of the attorney general's office will put more emphasis on providing assistance to county governments, which he said are becoming more important "as more people move into the rural areas."

If possible, he said, he also will set up a pool of experienced trial lawyers who would be available to help district attorneys, particularly in rural areas, prosecute complicated or timeconsuming criminal cases.

Also in the area of crime, White reiterated his campaign promise to work on crime prevention, particularly through the schools.

He called for development of rea-sonable and constitutional discipline standards in schools to improve education "and restore respect for our institutions."-

In El Centro, murder charges were Carter's 7 percent voluntary guidefiled against three men in Contreras' Picketing resumed Thursday after death. Those charged were Leonardo Alfredo Barriga, aMario Saikhon Farms general foreman; Froilan a three-day suspension to honor slain farmworker Rufino Contreras, who Perez Mendoza, a truck driver, and was shot to death Saturday as he and Anthony Andres San Diego, a temother picketers allegedly entered the lettuce fields where replacement porary foreman who had contracted a crew to work during the strike.

Grimes won't seek re-election

Seven killed in rowhouse fire

a couple and four children who had been burned out of their own home two days ago, officials said.

Authorities did not immediately identify the victims, but neighbors said they were the homeowner's

wife, son, daughter-in-law, and four grandchildren. A 66-year-old man, identified as the owner of the house, was burned over 80 percent of his body and injured when he jumped from a second-floor window said Rosemary Larson, a spokeswoman for Dela ware Division hospital.

The son's family had escaped injury Wednesday morning when a fire broke out in a front bedroom on the second floor of their home, said Lt. Stewart McLaughlin, of the fire department's data statistics. "No one was trapped. Everyone was up and about," he said.

"This is very ironic," he said. "They moved in with the parents of the husband seeking shelter for the children.

McLaughlin said the department was investigating both fires, which occurred less than 41 hours apart and within a mile of each other in the northwest section of the city.

"Nothing links them at this time. I guess it was fate that they happened so close together, not only in

time but proximity," he said. The hospital spokeswoman said the elderly man was in critical condition in the hospital's intensive care unit. "His injuries are obviously quite exten sive," she said.

First reports indicated an explosion preceded the fire, but Wilmington Fire Chief Jerome Donohue said he thought the explosion came from air rushing into the burning house when the elderly man broke the window.

Elizabeth Quigley, who lived next door to the burning house, said the son and his family moved in earlier this week after their home here was destroyed by a blaze.

She said the son had five children, but he had been splitting the family among various relatives.

DEATHS Ollie K. Benson

McCAMEY - Services for Ollie **Kizzee Benson**, 62, of McCamey will be at 2 p.m. Sunday in Two Mile Church in Leona. Local arrangements were handled by Larry D. Sheppard Funeral Home of McCamey.

She died Wednesday in an Odessa hospital.

Mrs. Benson was born Aug. 1, 1916, in Leon County. She was married to Wilbert Benson Nov. 26, 1938, in Centerville. She was a retired school teacher and a member of the Methodist Church. She had been a resident of McCamey 24 years.

Survivors include her husband; a son, Wilbert Benson Jr. of Dayton, Ohio; a brother, Curtis Kizzee of Normangee, and a grandchild.

Dick Tipton

McCAMEY - Services for Dick Tipton, 73, of McCamey will be at 10 a.m. Saturday in the First Christian Church in McCamey with the Rev. Jerry Jones, pastor of the First Christian Church in Burkburnett, and the Rev. Weems Dykes, pastor of the First Christian Church in McCamey, officiating.

Burial will be in McCamey Restha-. ven Cemetery under direction of Larry D. Sheppard Funeral Home. Tipton died Wednesday in a Crane

hospital.

He was born July 26, 1905, in Frost and was married to Sarah Rutledge Oct. 23, 1938, in McCamey.

Tipton, a 42-year McCamey resident, was a retired maintenance foreman for the Texas Department of Highways and Public Transportation.

He was a member of the First Christian Church and of the IOOF Lodge.

Survivors include his wife; two sisters, Cora Osburn of Midland and Bessle Flesher of Esparto, Calif., and two brothers, Talmadge Tipton of Plainview and Buford Tipton of Ore-

Wornick Hipp

BRONTE — Services for Wornick Hipp, 73, of Bronte, father of Wornick Hipp of Hobbs, N.M., and brother of M.M. Hipp of Big Spring, were to be at 2 p.m. today in the First Baptist Church here. Burial was to be in Decker Cemetery, directed by Shaffer Funeral Home of Bronte.

Hipp died Wednesday in a hospital here.

He was born Feb. 16, 1905, in Concho County. He was a retired rancher. He was married to Edith Tubb Oct. 17, 1926, in Blackwell. They lived in Blackwell and Silver before moving to Bronte in 1941.

Survivors include his wife, another son, another brother, three sisters and three grandchildren.

Mrs. Fred Wilcox

Robert Rankin

SWEETWATER - Services for Robert Rankin, 63, father of Larry Rankin of Midland, will be at 1 p.m. Saturday in the Loraine Baptist Church. Burial will be in Roscoe Cemetery directed by McCoy Funeral Home of Sweetwater.

A resident of Dallas and formerly of the Champion community near Sweetwater, Rankin died Thursday in a Dallas hospital.

Survivors include his wife, one other son, his mother, three sisters, two brothers and three grandchildren.

Margaret Crow

STANTON — Services for Margaret Crow, 89, of Stanton were to be at 2 p.m. today in the First Baptist Church. Burial was to be in Evergreen Cemetery directed by Gilbreath Funeral Home.

She died Sunday in a Martin County hospital after a lengthy illness.

Mrs. Crow was born Sept. 20, 1889, in Santa Anna. She moved to Martin County in 1928 from Haskell County. She was married to C.E. Crow in Nivot Feb. 14, 1909. He died in 1964. Survivors include a son, Harold E. Crow of Luling, La.; four daughters, Beulah Ragland of McCamey, Lora Bell Tom of Stanton, Faye McDaniel of Boerne and Daisy Wilkes of Sulphur Springs; four sisters, Ethel Clark of Yarnell, Ariz., Kate McMil-lon of Paducah, Easter Bush of Odessa and Alice Harrison of Nocona; two brothers, Henry King of Midland and John King of Plainview, 15 grandchildren and 19 great-grandchildren.

Douglas Currey

BIG LAKE — Services for Douglas O. Currey, his wife, Tina Denise, and their daughter, Kimberly Ann, will be at 2 p.m. Saturday in the First Baptist Church, here. Burial will follow in Glen Rest Cemetery here directed by Newnie W. Ellis Funeral Home of Midland.

The Curreys died Wednesday from injuries received in an automobile accident.

Douglas O. Currey, 24, was born Jan. 26, 1955, in Crane. He was reared in Big Lake, moving here when he was 7. He was a graduate of Big Lake High School. He was married to Tina Gandy in May 1975. Currey was a member of the First Baptist Church of Big Lake. He was employed as a pumper with Tamarack Co., and lived in the St. Lawrence community.

He is survived by his parents and stepparents, Mr. and Mrs. Bill Currey of Baton Rouge, La., and Mr. and Mrs. Kenneth Hyde of Big Lake; his grandparents, R.O. Simmons of Big Lake and Justine Currey of Midland; two stepbrothers, Jimmy Cur-

Bell Telephone making changes to handle all customers' needs

For 102 years, Bell Telephone has been satisfied to provide the customer with the best possible service under a monopoly umbrella. That no longer is enough, said C.L. "Chet" Todd, vice president of customer services from San Antonio.

Todd was in Midland Thursday to explain more about the massive reorganization the country's No. 1 telephone company is undergoing. This reorganization will enable the

Todd said Two departments will be established to handle all customers' needs and these are business and residen-

> By recognizing what the customers' needs and wants are, Bell Telephone 'will be able to do a better job. We'll update our technology and find out what the customer feels he needs," Todd said.

In this reorganization, Bell Telephone will be spending about \$1.002 billion in Texas.

"Texas is the second largest growing state for our service. It ranks behind California," the vice president said.

For the first time, Bell will be in the arena of competition against all the smaller firms trying to take business away from the "mother" company. As a result, the firm will focus not only on telephones, but will enter the world of "telecommunications," Todd said.

Interconnecting telephone companies are providing competition and may give more heat in the future if the government deregulates the system as it did the airplance industry, according to Todd.

"Competition is keen," he said. "That's why we've taken on the pos-

State court reporter spends night in clinker

C.L. "Chet" Todd

WICHITA FALLS, Texas (AP) - A state district court reporter spent Thursday night in the clinker because she is nine months behind in completing the transcript of an appealed case.

Holly Hanks was arrested Thursday morning and ordered jailed until the 20-page transcript is complete. While Ms. Hanks was moving her typewriter into the Wichita County jail, Wichita County commissioners voted to suspend her salary until she is released.

County Judge Tom Bacus said Ms. Hank's confinement "constitutes an unauthorized absence from work."

The Court of Criminal Appeals ordered the reporter clapped in jail Tuesday, but the Wichita County Sheriff's department said the arrest order did not arrive until Thursday.

"It's so humiliating, I don't think it's fair," she said while lugging her equipment to the jail.

In their order the appeals court judges said Ms. Hanks had been granted three extensions since Oct. 15 to finish work on the transcript of David Wayne Sheppard, who is appealing a probation revocation on a theft over \$200 conviction.

In the last extension, granted Oct. 31, the court said no more time would be granted. In January, the court asked the reporter to show cause why she should not be held in contempt.

The plan calls for installation of more modern switching offices which also can provide extra services to the customer.

The electronic switching allows the company to keep its costs down to the consumer with fewer people needed to operate and repair such a system, Todd said. It also provides better service.

The only drawback is that when something on the system goes "out," the whole system quits, he noted.

Bell has emergency power systems designed for all of its offices during a power failure. There may be some problems if the power outage is widespread and lasts several days, Todd said

Texas "is standing on its own two feet" within the Bell system and will be more of an entity in the near future, he predicted.

"The growth in Texas is astronomical," Todd noted. "We just passed the eight million mark on number of phones. The forecasts are that Texas is going straight up.

"And Midland enjoys a reputation throughout the state as being very rich," the Bell vice president said, adding that the city always comes up in a conversation at meetings.

Henryetta upholds dance ban

SEC

HENRYETTA, Okla. (AP) — The City Council has voted 3-2 against rescinding this northeastern Oklahoma city's controversial ban on public dancing despite legal advice that it probably won't withstand coming court tests.

A proposal drawn up by City Attorney Ernest Smith would have scrapped the 1957 ordinance and replaced it with another that would have established strict licensing provisions regulating the establishment of public dance halls in the com-

munity. Smith also told the council his research indicated the current ordinance "will be ruled unconstitutional or invalid and overturned when it comes up for consideration in City Court later this month.'

The dance ban drew strong public endorsement in an advisory referendum last fall and the council voted not to repeal

The showdown on the ordinance is expected later this month when trial is scheduled for Gary Moores and James Whitman, who are charged with sponsoring separate dances last fall in violation of the ordinance.

PASADENA, Calif. - Mrs. Fred H. Wilcox of Pasadena, formerly of Midland, died here Wednesday.

Services will be at 10 a.m. Tuesday in Turner-Stephens Mortuary here. Mrs. Wilcox, the former Clifford Heath of Midland, was graduated

from Midland High School in 1921. She was married Jan. 12, 1928. Mr. and Mrs. Wilcox moved to the

West Coast several years ago.

Icy winter weather stretches from Michigan to Northeast

By The Associated Press

Snow, freezing rain, sleet and freezing drizzle stretched from Michigan into the Northeast today.

Snow was over most of the Great Lakes region while in the northern portions of the Ohio Vally, snow was mixed with freezing rain and drizzle. That weather pushed to the east, into eastern Pennsylvania, Maryland and New Jersey.

Winter storm warnings were posted across the northern half of Michigan, southeastern Pennsylvania and southern New Jersey.

A storm system pushed across Oregon today, causing some light rain and snow in higher elevations from northern California to western Washington.

In the Southwest, there were some rainshowers and a few isolated thunderstorms in southern New Mexico and extreme southwest Texas.

Except for drizzle in the southern half of the Ohio Valley and a little snow in the Colorado Rockies, the rest of the nation had dry weather early today.

Clear skies were over the Southwest and North-central portions of the na-tion, while cloudy skies were over the

East. Very cold temperatures pushed southward across the nation's midsection. Late Thursday night, readings were near 20 below zero over the northern Plains and Minnesota.

Temperatures in most of the Gulf Coast region were in the 60s or better, but readings in the 20s were found as far south as northwestern Arkansas and north Texas.

Temperatatures around the nation at 2 a.m. EST ranged from 28 below zero in Warroad, Minn., to 70 in Brownsville and McAllen, Texas.

Here are some temperatures and weather conditions recorded early today from cities around the nation and Canada.

Eastern U.S. - Atlanta 60 cloudy, Boston 11 cloudy, Cincinnati 24 foggy. Cleveland 14 snow, Detroit 11 snow, Louisville 34 cloudy, Miami 62 clear, Nashville 38 foggy, New York 17 snow, Philadelphia 21 freezing drizzle, Pittsburgh 23 freezing drizzle,

Washington 24 foggy. Central U.S. — Chicago 20 cloudy, Denver 20 snow, Des Moines -9 windy, Fort Worth 30 windy, Kansas City 1 windy, Minneapolis-St. Paul -10 clear, New Orleans 67 cloudy, St. Louis 18 cloudy.

week.

Running, gunning Chaps put juice back in attack

BY TED BATTLES Sports Editor

When the Midland College Chaparrals are going good, they play like they did Thursday night in blowing Frank JPhillips Junior College off the Chapar ral Center court, 99-73, and that had to be good news for Coach Jerry Sitone with two of the biggest games of the season coming up next

MC hosts Odessa College Monday and travels to Snyder for Western Texas College Thursday, both teams ahead of the Chaps in the Western Junior College Conference standings. By winning Thursday, Midland boosted its 'WJCC record to 9-5 and at the same time dropped Frank Phillips, one of? the teams yapping at their heels, to 6-7.

But more important, perhaps, was the return to the flamboyant, freewheeling style that had deserted them the last couple of weeks. The Chaps hadn't looked this good since, since, well, that upset of Western Texas Colle ge back in January.

They were thieving, rebounding, fast-breaking demons, hitting the open man with just the right touch, not aciding that extra pass that blows the beautifully executed manevuer.

. WHEN THE Chaps play this kind of gam'e, one of the ring leaders is going to be 5-9 Cullen Mayfield, the sharpshooting floor general, who led the way with 30 points. And when the Chap's play like this, they are going to have several folks in substantial figures, like Luis Alvarado with 17 poirits, Robert Tate with 15, and, welconne back, Kenneth Young 15.

B ut it was a game in which everybody made contributions. Midway through the first half when it was a still a game and Frank Phillips led 12-10, a couple of big thefts and basket fee ds by James Hicks, the former Micliand High cager, helped snapped the Chaps out of the doldrums. His steals set up Tim Shelby and Tate on suc cessive fast breaks that seemed to pick up the team.

The Chaps really began to break thi ngs open with Frank Phillips clinging to a 20-19 lead with eight minutes in the half outscoring t

Chaps really got it rolling. With Mayfield riddling the rim with four baskets and the Chaps completely de-moralizing the FPJC offense with aggressive, ball-grabbing defense, Midland reeled off 14 points while holding the Plainsmen scoreless for five minutes for a 62-38 lead.

Shelby, who had a modest seven points, set up 13 other baskets with assists and Mayfield, in addition to hitting 15 of 25 shots from the field, handed out eight assists and came up with four steals.

Actually, the difference in thefts was only 29-21, but what made it seem greater was that Midland was turning its swipes into buckets on the boards.

Midland's win moved the Chaps into sole possession of fourth place as New Mexico Junior College lost to South Plains, 73-72, at Hobbs, N.M., dropping the Thunderbirds to 8-6 and raising SPC to 8-6. Western Texas is now 12-2 after walloping Amarillo College, 91-76, and Odessa College is 9-4, but barely, after squeaking by Howard College, 68-67.

Midiaad College (99) — Cullen Mayfield, 13-2-3-30; Tim Shelby 3-1-2-7; Luis Alavarado 7-3-4-17; Ralph Tate 6-3-0-15; Chucky McGill 4-04-8; Kenneth Young 6-3-3-15; Fred Jones 2-0-1-4; James Hicks 0-3-2-3. Totals: as42-15-19-99. — Note:

19-99. Frank Phillips (73)—Danny Crowe :5-2-3-12; Kerry Sandifer 4-0-8; Grant Dalton 2-0-34; Elston Darby 3-0-36; James Jones 5-2-1-12; Willie Smith 0-0-1-0; Tim Giddings 2-14-5; Tim Rushing 1-2-1-4; Bradley Webster 9-4-1-22; James Hill 0-0-1-0, Totals 31-11-23-73. Halftime: MC 38, FPJC 28.

Walker withdraws from mile

SAN DIEGO (AP) - Eamonn Coghlan, favored to win the mile in tonight's San Diego Invitational track meet, says New Zealander John Walker withdrew because he's tired of losing to the nearly unbeatable Irishman.

Even without Walker and injured Wilson Waigwa of Kenya, the mile field is still a promoter's dream. And with the steep-sloped Sports Arena track one of the world's fastest, odds are that Dick Buerkle's indoor mile mark of 3: 54.9 is in danger.

Walker, who holds the outdoor record for the mile, declared Wednesday, "I'm sick. what can I say? I have the flu and my lungs are congested. I'm

going home to New Zealand." Coghlan, who ran a blurring 3:55 in

last week's Millrose Games, one-tenth of a second off Buerkle's record, has his own version of Walker's troubles.

"Sick? Ah, he's sick in the head, maybe," Coghlan said. "I don't know what's wrong with that guy. There's no reason for him not to compete. Walker changes like the Irish weather - every day.

"I still wouldn't be surprised if he sticks around and competes in the AAU meet next week in New York," Coghlan continued. "Of course, maybe he doesn't like to compete against me. Maybe he's getting tired of getting beat all the time."

tempts to block the shot in action at Chaparral Center Thursday night. (Photo by Mike Kardos)

MHS fems earn another shot at Midland Lee crew

By BOB DILLON **Sports Writer**

SNYDER - Another Tall City showndown is on the horizon. Midland High's girls gunned down Abilene, 40-30, here Thursday night in

the Scurry County Coliseum in a District 5-4A basketball playoff battle.

The victory gives Coach Jane Young's crew the first half championship and now her team must take on **Coach Shirley Stephenson's Midland** Lee girls next Thursday in a game that will determine the 5-4A championship and a playoff berth the following week in Class AAAA bi-dis trict action.

Midland and Midland Lee will play off for the District 5-4A championship at 8 p.m. Thursday in the Chaparral Center on the Midland College campus, Midland Schools Athletic Director Sam Cox announced Friday morning.

Midland and Abilene had tied for the first half title with identical 6-1 records and Lee won the second half, going undefeated in seven games, so for the third time, the Bulldog and Rebel girls will tangle and this one will be for all the marbles.

Midland downed Lee, 43-40, in the first half of the race in the Lee Gymnasium, but Lee turned the tables on Midland four days ago by blistering the Bulldogs, 43-23, in the MHS Gymnasium to win the second half.

Midland jumped off to a 10-5 first period lead, but Abilene came back to cut the lead to 16-15 at intermission. Young's team then outscored the Eagles, 10-4, in the third stanza for a 26-19 advantage going into the final period.

Margaret Christian paced Midland's attack with 14 points and she was the only Bulldog in the double figures. Sandra Rock was next with eight points while the big gun for Abilene was Rose Baldwin with 10 points. Rene Washington and Debra Grant followed with eight points each as Abilene's season comes to an aburpt end.

The Midland-Lee battle for the 5-4A crown will be played in the Chaparral Center on the Midland College campus so that the game will be played at a neutral site.

"I was really pleased the way the

Mustangs corral James

girls came back after playing so poorly against Lee earlier in the week, " said an elated Young afterwards. "We got a good performance from Christian and Rock and although LaSchell Schrock only had six points, she played a good all-around game for us and rebounded well."

Young was happy over her team's offense during the game. "Abilene plays pretty good defense so I feel like we improved in that department after only scoring 23 points against Lee Monday," added Young.

The winner of the Midland-Lee game next Thursday will most likely face Lewisville, which is winning in District 6-4A, and that game will probably be in Abilene since the regional will be at McMurry College in Abilene.

Lee won the bi-district title last year and then lost in the regional tourney.

MIDLAND HIGH (46) Cook, 2-0-4; Rock, 4-0-8; Christian, 6-2-14; McDonald, 1-0-2; Trollinder, 0-1-1; Schrock, 3-0-6; White, 2-1-5. TOTALS: 18-4-40.

ABILENE HIGH (30) Washington, 4-0-8; Baldwin, 3-4-10; Grant, 3-2-8; Payne, 1-1-3; Eversdk, 0-1-1. TOTALS: 11-8-30. Score by periods: Midland 10 6 10 14-40 10 6 10 14-40 5 10 4 11-30 men, 19-8, to retire at intermission witch a 38-28 lead as Alvarado's three field goals and free throw set the pace.

I'F WAS still only 46-38 Midland four minutes into the second half when the

Dodgers gain Thomasson with trade

LOS ANGELES (AP) - The Los Angeles Dodgers, who lost four players since the 1978 season ended, have since made up for it, at least in terms of numbers.

Pitcher Tommy John and utility players Lee Lacy and Bill North played out their options and catcher Jerry Grote retired, but since that time the Dodgers have added infielder-outfielder Derrel Thomas, outfielder Von Joshua, pitcher Andy Messersmith and outfielder Gary Thomasson.

Thomasson was the latest addition. The 27-year-old outfielder was acquired Thursday from the New York Yankees in exchange for catcher Brad Gulden, who hit .300 with the Dodgers' Albuquerque club of the Pacific Coast League last season.

Although Thomasson hasn't signed a contract with Los Angeles, both he and club officials indicated that might be just a formality. Thomasson said the new pact was a four-year extension of the contract he had with New York.

Otherwise, terms were not announced.

Thomasson, a high school star at Oceanside in southern California, first played major league baseball with the Sain Francisco Giants. They traded him to Oakland last spring and he was sent to the Yankees shortly later.

In six National League seasons, Thomasson hit .254 and wound up with a .233 mark in the American League last season.

Dodgers' General Manager Al Campanis said Thomasson can play any of the outfield positions and "is an outstanding addition to our club."

Thomasson indicated that he expected to be in a utility role when he said, "I could play if Rick Monday is hurt or if Reggie Smith is hurt. I want to play regularly, but I do think there will be more opportunity to play in Los Angeles than there would have been in New York."

Monday plays regularly in center field and Smith in right.

Had he stayed with the Yankees, Thomasson indicated he would have played out his option during the 1979 season and become a free agent.

Thomasson had his best major league season in 1977 with the Giants. where he established career-highs in games with 145, hits with 114, doubles with 24, triples with 6, home runs with 17 and runs-batted-in with 71. He stole 16 bas es and §it .256. Texas Tech players Joe Baxter (55) and Thad Sanders (23) go

for the ball that was rebounded by Houston's Ralph Hamilton. The Cougars' George Walker (34) looks on as the three work for the

Texas Tech cagers didn't get message

HOUSTON (AP) - Texas Tech Coach Gerald Myers says he knew his Red Raiders would have a tough game against the Houston Cougars-but his players apparently didn't get the message.

The underdog Cougars hit nine of their first 10 shots from the field and finished the game with their best shooting percentage of the season, 63.2 per cent, en route to a 103-89 victory in the lone Southwest Conference basketball game scheduled

Thursday night. "Instead of coming out real dedi-cated, we seemed to be kind of satisfied tonight," said Myers, whose Raiders suffered their worst loss of the season. "Houston started out great, like they were ready to play.

'Our guys just didn't realize what they were getting into. This was the last home game for Houston's seniors and I knew they would have a lot of emotion.

Emotion and a hot-hand. The Cougars hit 63.9 per cent from the field in the first half when the out scored the Raiders 19-2 to start the game and led by 28 points, 54-26 at halftime.

The Red Raiders, who had their five-game winning streak snapped, joined the shooting duel in the second half by hitting 67 per cent but the Cougars didn't slow down, finishing the game with a 63.2 per cent average.

The Cougars, led by Ken Williams with 27 points, were hot on offense, but Coach Guy Lewis was just as pleased with his team's defense.

"That could have been the best defense we've played all year. Lerwis said. 'I was really pleased with our defense the first 20 minutes.

Tech dropped to a 17-7 overall record and a 9-5 SWC standard prior to a showdown Saturday against the University of Texas in Austin.

"I don't know how this is going to affect us for the Longhorns," Myers said. "You just can't predict those things "

Geoff Huston and freshman David Little got Tech started in the second half. The pair shared scoring honors for the Raiders with 19 points each. Huston had one point at halftime and Little had six.

Houston closes out its regular seaon schedule Saturday against Arkansas while Tech must face Texas in Austin Saturday and then host Arkansas Tuesday.

FEXAS TECH(88) Hill 3 1-1 7, Taylor 2 3-4 7, Brewster 4 1-2 13, Huston 7 5-5 19, Williams 4 3-4 11, Parks 3 1-3 7, Little 7 5-6 19, Baxter 3 0-0 6, Totals 35 19-25 89.

HOUSTON (AP) - Southern Methexcited." odist broke out on top in the Southwest Conference football recruiting race

when the Mustangs bolted from the gate to sign blue-chip running sensation Craig James.

"Obviously we are ecstatic, we are just ecstatic," said SMU Coach Ron Meyer after he inked the Houston Stratford star to a SWC letter of intent Thursday.

"I'm just glad it's over," said James, who set an all-time Class AAAA rushing record of 2,411 yards and was considered one of the two most sought-after schoolboy running backs in the state.

"I am tickled to death. My parents are happy. There are a bunch of people over here and they are happy," James told The Associated Press in a telephone interview from his home in Houston.

We think Craig adds tremendously to a great class already coming to

SMU," said Meyer. "We are really

That Mustang stable of new recruits includes seven athletes named in the Dallas Times Herald 1978 bluechip list, compiled in a secret ballot by conference coaches.

James played down reports he had wavered in his commitment to play football at SMU after hearing reports the Mustangs could be in hot water with the National Collegiate Athletic Association over recruitment of another offensive wizard - running back Eric Dickerson of Sealy.

"I have tried to get Eric to come to SMU," said James. "I am not afraid of competition, I love competition and I would like to play in the same backfield with Eric. I'm not worried. I'm not going to be a blocking back "

Earlier, James declined to identify the persons who warned him of impending recruiting problems at SMU.

"I don't want to do that. Let's just say some other college coaches and some members of the media," said James

A new Pontiac Trans Am is the driving force behind the controversy swirling around the annual conference recruiting wars.

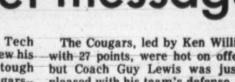

Dickerson, probably the most sought-after Texas running back, is driving the new car that he said was a gift from his grandmother.

And the speculation now is that Dickerson will be driving that car to SMU in the fall.

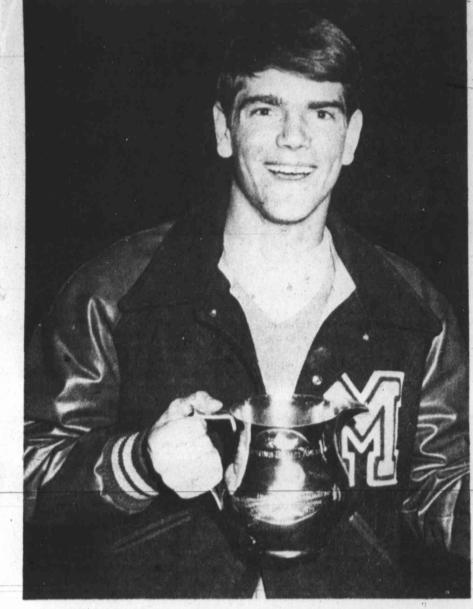

NCAA investigators have talked to Dickerson about that car and an unindentified source at Texas A&M, which originally was thought to have the inside track on signing Dickerson, said the car is simply what the athlete said - a gift from a relative. Dickerson has been in seclusion

since Wednesday.

ball. (AP Laserphoto)

PAGE 2D

Midland's Paul Davis shows the trophy he won recently in the Spring Grand American Trapshooting meet in Phoenix, Ariz. Paul was the Preliminary Handicap Junior Champion with a score of 96 X 100. He is also the 1977 Texas Junior Amateur Champion. Davis is a Midland High senior.

Kuhn to review sale of players

NEW YORK (AP) - Two years ago, Bowie Kuhn publicly warned owner Charles O. Finley that he would carefully review "any player assignments of the Oakland club which involve substantial payments of cash to the Oakland club.

That's why Kuhn has called Finley and the New York Yankees on the carpet today to explain the attempted sale this week of two minor league players by Oakland to the world champions for a cool half million dollars

Finley's explanation will be simple.

"I did it because I need that money that deal as well as Finley's sales of to meet my payroll," the A's owner Joe Rudi and Rollie Fingers to Boston said Thursday, explaining the sale of catcher Bruce Robinson and pitcher Greg Cochran for \$500,000. 'These two players are minor leaguers. Losing them won't hurt my club at all. When George Steinbrenner offered me \$500,000 for these two. I had to accept it. I thought I made a pretty good deal.' It would certainly seem that way. Robinson's major league experience is limited to 84 at bats with Oakland last season when he hit .250. He spent most of the year playing at Vancouver of the Pacific Coast League and batted .299. "I got \$400,000 for him," said Finley. Cochran, who was not even on the A's major league roster, spent 1978 at Jersey City of the Eastern League where he was 10-13 with a 3.41 earned run average. The Yankees paid the other \$100,000 for him.

THE MIDLAND ILEPORTER-TELEGRAM, FRI., FEB. 16, 1979

Hollywood endings all the same

By The Associated Pr ess

Those Hollywood endings a re all the same: It's UCLA every time, it seems

Hard to beat anywhere -- but almost impossible at home - the second-ranked Bruins turned an apparent loss into a victory at Pauley Pavilion Thursday night, beating Arizona State 85-83 with some la te-game theatrics.

"We had the game absolutel y won;" said Arizona State Coach Ned Wulk, stunned by the dramatic turn of events. "It was completely d isheartening to lose. Everything was happening at the other end of the court and we couldn't get any infor mation to the players.'

What happened was certainly enough to frustrate any coach.

THE SUN Devils had an 83-179 lead with nine seconds left, but foule d Roy Hamilton at this point and the UCLA guard made two free throws. Then UCLA's Kiki Vandeweghe stole the inbounds pass from Arizona State's Tony Zeno and was fouled by Z eno in the resulting action. Vandeweghe made two shots to tie the game, at 83 with seven seconds to play.

Blake Taylor missed a 20-foc t shot

for the Sun Devils with five seconds to play and Zeno fouled Holland on the rebound.

"There was no doubt that Brad Holland was fouled," said UCLA Coach Gary Cunningham. "The only question was, had time expired?"

It hadn't - and the call went UCLA's way. Whereupon, Holland converted both shots with many UCLA fans hanging expectantly at the rim of the court. Holland sank the first shot of the one-and-one situation for the winning point, then put in the other while the UCLA fans swarmed around him at the foul line.

"We just have to make it exciting, I guess," said Vandeweghe. Elsewhere, top-ranked Indiana

State remained undefeated after 24 games, beating Southern Illinois 69-68; third-ranked Notre Dame blasted Mahattan 86-63; No. 8 Michigan State stopped Indiana 59-47; No. 9 Louisville tripped St. Louis 78-62; No. 14 Iowa turned back No. 13 Purdue 75-72 and No. 17 Ohio State stopped Minnesota 74-68.

UCLA, THE Pac-10 leader with an 11-2 record and 19-3 overall, trailed 40-27 at halftime before rallying to take the lead late in the game. Then the Bruins lost it for a while before

their heart-stopping finish.

"Luck was just with us tonight," said Cunningham. "I felt my team thought the game was over (when they were down by four points in the last nine seconds.) But I never felt we were out of the game. I never do. I've seen teams win like that in the last seconds. For one of the few times this year, everything I planned in the end worked out.

"It was one of the greatest victories

I've ever experienced in college." Larry Bird scored 20 points and Steve Reid sank two free throws in the final 14 seconds to seal Indiana State's victory over Southern Illi-

"We feel we are as good as anyone on a given night and on a neutral court and, on this night, better than UCLA," said Indiana State Coach Bill Hodges after the game at Carbondale,

Hodges said the criticism his team has received about playing a soft schedule is unjustified.

"The people who are saying that haven't done their research," he stated. "Purdue is as tough as anyone in the nation to beat on its home court, a task we accomplished early in the year.

BIRD'S POINT total moved him past Notre Dame's Austin Carr into eighth place on the NCAA all-time scoring list.

Kelly Tripucka's 18 points led a balanced attack as Notre Dame defeated outmanned Manhattan in the second game of a doubleheader at New York's Madison Square Garden. Rutgers beat Seton Hall 88-67 in the first game as James Bailey scored 29 points and grabbed 9 rebounds.

Earvin "Magic" Johnson scored 15 points to lead Michigan State past Indiana. The Spartans scored eight straight points to break a 30-30 halftime tie and never were headed.

Darrell Griffith scored 15 points and Larry Williams added 14, leading Louisville over St. Louis, nailing down the Metro Conference title for the Cardinals.

"It's the most aggressive and hardest we've played in 2-3 weeks," said Louisville Coach Denny Crum. "We had been in a mental slump. Defense is a mental thing. You can't play good defense unless you're right mentally. Tonight, I thought our defense was outstanding."

Steve Krafcisin scored 17 points to lead Iowa over Purdue.

"When George Steinbrenner asked me what I wanted for these two. I told him \$500,000, not expecting him to agree," said Finley. "But he did. I accepted immediately, before he had

for \$2 million more.

the money and George had it. I spent

free agent draft (of high school and

the day the Yankee deal with Minne-

sota for Rod Carew fell through.

Carew was subsequently traded to

himself with some excess cash,

turned to Finley's shop, where he has

college prospects)."

done business before.

In February 1977, the commissioner approved the sale of Paul Lindblad by Oakland to Texas for \$400,000 but warned that he would carefully scrutinize future player sales by the Oakland owner. Last January, Kuhn blocked the sale of Blue to Cincinnati for \$1.75 million and at the time cited his earlier warning. Blue eventually was traded to San Francisco last March for seven players.

Ironically, one of the players Finley received from the Giants in the Blue deal was outfielder Gary Thomasson, who later was traded to the Yankees. On Thursday, New York swapped Thomasson to the Los Angeles Dodgers for catcher Brad Gulden, who, like Robinson, was a standout receiver in the Pacific Coast League last year.

Finley said he hoped for Kuhn's approval after today's hearing. "I need that money to keep my checks from bouncing," he explained.

District 5-4A tank meet starts today

The first District 5-4A meet in nustory begins today at the Mabee Memorial Swim Center with Midland Lee and Odessa Permian expected to walk away with team titles before the meet ends Saturday afternoon.

Preliminaries were to begin today at 2 p.m. while the diving competition started at 9 a.m. at Odessa Permian. Saturday's swimming finals will have a 2 p.m. start.

The top eight swimmers in today's preliminaries will advance to Saturday's finals. In the finals, the top six swimmers will score points and qualify for the Regional tournament to be held in Midland in two weeks. Top swimmers there will earn a state swimming berth.

Since this is the first 5-4A meet, all winning times posted Saturday will be new meet records.

Odessa Permian is expected to win the girls' team title with Midland High and Lee the major threats. Lee is expected to win the boys' run with Midland High to be the major compe-

Coach David Whytlaw's Rebels are led by team captain Carey Carrens, and Whytlaw also expects John Franke, Robin Franke, Paul Friemel, Mike Imber, John Kimberly, Mark Solari and Scott Beatty to come up with important points.

The Lee girls will be paced by Sara Hellinghausen, Patti Bruton, Holly Franz and Emily Murrah.

"Permian is getting better and better. They have a fine feeder program from the junior highs that we do not have, and we are beginning to feel the pinch a little bit as a result," Whytlaw said.

Whytlaw also stated that several swimming teams were improving and it is not as easy as in the past when Midland Lee and Midland High dominated swimming in this part of the country. "Amarillo has a strong team and they will probably give everyone fits in the regional meet," Whytlaw said.

LAWRENCE, Kan. (AP) — Kansas was being "knocked down" in every Athletic Director Bob Marcum has Big Eight game and complained bitpublicly reprimanded basketball Coach Ted Owens, but he made it clear his heart wasn't in it.

Owens was reprimanded for storming onto the court Saturday during KU's Big Eight game against Oklahoma.

Owens went into a rage of protest when Darnell Valentine, his prize sophomore guard, was knocked into the goal support while going up for a layup."Owens later said Valentine

terly that neither the officials nor the conference commissioner was doing anything about it.

Marcum said the reprimand was dictated by Big Eight policy which states that coaches will act at all times "in a dignified manner" and will "remain on the bench or in the designated area."

563-3643

"We are totally supportive of Coach Owens," Marcum said Thursday.

NEW YORK (AP) - Equality doesn't come quickly to women in corporate life, so the Financial Women's Association is having a coming out party of sorts on March 6.

At a breakfast on March 6 at the Board Room, a private club frequented by chairmen and presidents, the ladies plan to present to corporate society the names of 10 women they feel are qualified to sit on boards.

These women, they say, have achieved high re-sponsibility within the established structure, have demonstrated broad community interest, have often been the first women in their field, and are very bright.

While those are general attributes, Marilyn Brown of the association's corporate board committee believes the specific achievements of the 10 women, as yet unnamed, should be put right before the top brass.

"We would never say you should put women on your board," said Ms. Brown. "But we do find," she added, 'that a number of corporations are seeking to add women to their boards." The association can help.

Some correctible oversights were found in analyzing board memberships of the 1,300 largest companies, said Ms. Brown. Among the top 100, for example, 52 percent were found to have no women directors.

The association feels it can help adjust that situation by presenting the names of eligible females from its own files and from a list of women directors maintained by Catalyst, a nonprofit organization.

After the breakfast, to be addressed by Thomas Murphy, chairman of General Motors (two women directors), the association intends to write chairmen throughout the country concerning their list of eligibles.

On their mail list will be the chairmen of some of the country's lesser known companies whose boards, for a variety of reasons, often have fewer women directors than the larger concerns.

The largest representation of women is on boards of the 100 largest companies. In the second 100, only 31 percent have women directors. The percentage decreases to just 9 in the 900-1,000 size category.

Why? "I don't know," says Ms. Brown, a securities analyst. "I think in part it's because the larger corporations have the time, energy and staff to devote to social issues." But, she says, she cannot be sure.

Other breakdowns might suggest some explanations. By industry, for example, commercial bank-ing and utilities have the highest percentage of women directors, at 54.

And that some companies in other categories have named women to their boards because they too, although less regulated, are subjected to more than the usual amount of public interest and scrutiny?

As the largest manufacturer, for example, General Motors attracts a fair degree of interest. It also sells a lot of automobiles to women. It also has as directors Anne L. Armstrong and Catherine B. Cleary.

It is not by mere chance that Murphy will keynote the meeting with 40 or 50 chairmen and presidents. He has, says Ms. Brown; "provided helpful insights into the corporate board nominating process."

And though he had already been named as speaker, it didn't damage his chances when earlier this month he named Betsy Ancker-Johnson to be General Motor's first women vice president.

ty 400 lbs and up s utility 400 lbs 50 higher (bng) Economic slowdown One load hinds teady; one load predicted for '79

> WASHINGTON (AP) - A leading business organization Thursday predicted a sharp economic slowdown this year and little progress in dampening inflation.

> Economic consultants to the Business Council, composed of chairman of the country's largest companies, said the economy will grow by 1 per-cent all year, less than half the Carter administration's prediction of 2.5 percent.

> The consultants forecast the unemployment rate to jump from 5.8 percent to 6.8 percent by the end of the year.

> At the same time, the government issued a report showing that the nation's industrial output grew by 0.1 percent in January, the smallest increase in a year, as stormy weather interfered with production by utilities, mines and factories.

> The nation's industrial output rose by the smallest amount in a year last month as stormy weather interfered with production at the nation's utilities, mines and factories, the government said today.

> It was unclear whether the 0.1 percent increase for January also reflected a slowing of economic activity. Economists have been watching government indicators to determine whether a business downturn is ahead.

> The January increase was the smallest since a 0.6 percent drop in January 1978, during another harsh winter. Last month, heavy snowstorms covered the Midwest and kept workers home in some areas.

> The government adjusts the figures for seasonal variations, but the last three winters have been more severe than usual in many regions.

> In its report, the Federal Reserve Board said "January output was affected somewhat by weather conditions."

> The production of new cars declined 4 percent and steel output declined sharply, the report said. Production of energy supplies, particularly coal, dropped 7 percent.

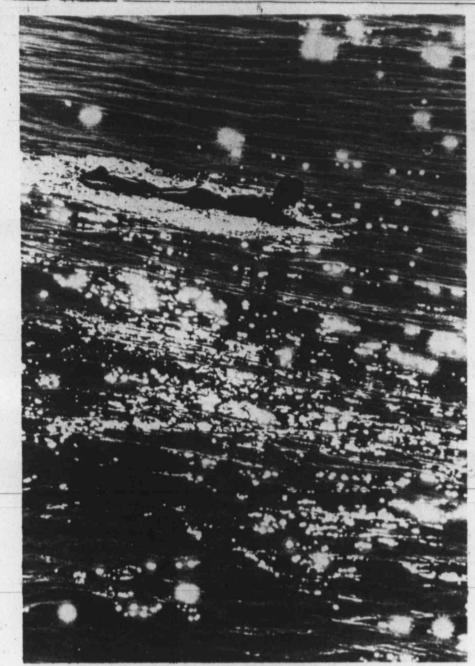

> In an economic slowdown, it is usually the construction industry that is hit first, but the report showed no signs of that happening yet. Factories continued turning out large volumes of construction supplies, the report said.

> Meanwhile today, the Commerce Department re-ported that businesses increased their inventories by a cautious 0.6 percent in December.

The increase compared with the 1.1 percent gain the month before and was smaller than increases in sales. Total business sales increased 1 percent in December after rising 1.1 percent in November.

Businesses kept \$1.38 in inventories for every \$1 in products sold, one of the lowest levels on record and the same level as in November.

Convicted slayer asks that appeal be dropped

tence.

MONTGOMERY, Ala. (AP) - A 29-year-old convicted slayer who said he wants to die, but agreed nevertheless to appeal his death sentence, is now asking his lawyer to drop the appeal, the attorney disclosed Thursday.

John Carroll of the Southern Poverty Law Center said the condemned man, John Louis Evans III, asked him to dismiss the appeal now pending before the U. S. Supreme Court and also to refrain from any other legal action on his behalf.

Carroll said he forwarded the request to the court but asked at the same time "for guidance." He said he has not heard from the court. The attorney said he thought there

or Albuquerque or Peoria. Some will tell you without corkscrew a hint of doubt that Washington is an Eastern city full of snobby big shots, balky bureaucrats and muggers who take what the government doesn't get. True, sometimes.

But there are levelers in life. They tend to make people pretty much alike. And that means there are times when people in Washington, believe it or not, become just as decent and helpful and considerate as people in Des Moines and Albuquerque and Peo-

Take the snow storm. Not much by Chicago

WASHINGTON TODAY

standards, or compared to what people in the Dakotas are used to. But by Washington lights, it was

extraordinary. The storm began during the day Monday. By rush hour, Washington, D.C., was a traffic jam. Nothing moved. Cars lined the streets like tin soldiers in a frozen parade. Wheels spun. Batteries died. Gasoline tanks emptied. And commuters were stranded by the score.

In a city with a heart as cold as ice.

On a street in Georgetown, considered one of the snobbier parts of town, a couple walked from car to car, knocked on the frosted windows and offered cups of steaming tea.

How long had they been doing it?

"This is our 31st pot," said the man.

His name?

"We're not doing this for publicity," he said nd walked away.

It would have broken a press secretary's heart. At the Francis Scott Key Bridge across the Potomac, teen-agers carrying brown shopping bags hawked cans of Budweiser to motorists stuck for eternities between inches of frustrated progress.

The kids charged 50 cents a pop. Beer costs twice that much at the fancier spots in town. And they don't have curb service.

On P Street at the intersection of 21st, the jam was interminable.

A woman wearing evening clothes got out of her husband's car and began directing traffic.

"Altogether, there were three of us doing it," said Jayne Ikard, who is a free-lance writer when it's not snowing and the intersections are clear.

Not everyone acted with total selflessness.

On M Street, a young woman held up a sign that said, "Fifty Cents for Bathroom ... Fifty Cents for a Phone Call to Let Your Loved Ones Know You're Safe."

That's a bit much, even to talk to your wife. A man in a jogging suit sold Hennessy brandy to stranded commuters on K Street for \$2 a shot. That's a bit much, even with curb service.

Big Pecos gas well is completed

Texas Pacific Oil Co., Inc., No. 12 Montgomery-Fulk, project in the El-sinore (multipay) field of Pecos County, has been completed from the Fusselman for a calculated, absolute open flow potential of 1.306 billion cubic feet of gas per day.

The prolific well is 25 miles south of Fort Stockton and 3,375 feet southeast of the closest other Fusselman production in the field.

The high potential was on the open hole zone from 12,700 feet, where 5.5inch casing is set, to total depth of 12,880 feet.

The biggest well ever completed in the field was Texas Pacific's No. 6 Montgomery-Fulk, three and threeeighths miles to the northwest. It had a calculated, absolute open flow potential of 4.3 billion cubic feet of gas per day, making it the largest single gas completion in the world.

The No. 12 Montgomery-Fulk was completed natural.

On four-point gauges the well flowed 3 million cubic feet on twohour test through a 15/64-inch choke, with flowing tubing pressure of 2,092 pounds.

The second two hours it flowed 6.1 million cubic feet of gas on a 23/64inch choke, with flowing tubing pressure of 2,035 pounds.

The third two-hour test it flowed 9.25 million cubic feet of gas through a 30/64-inch choke with tubing pressure of 1,906 pounds.

The fourth two-hour test it flowed 11.6 million cubic feet of gas, through a 36/64-inch choke, with a tubing pressure of 1,680 pounds.

The location is 1,940 feet from south and 824 feet from west lines of section 2, Clements survey.

WARD OILER

Adobe Oil & Gas Corp. No. 10 Barstow has been completed as an extender to the Scott (Cherry Canyon) field of Ward County, three miles south of Barstow.

Operator reported a daily flowing potential of 149.04 barrels of oil, plus 343.62 barrels of water, through perforations from 5,827 to 6,092 feet. The gas-oil ratio and gravity have not been reported. The flow was gauged through a 20/64-inch choke. Hole is bottomed at 6,508 feet.

Location is 1,980 feet from northeast and 660 feet from southeast lines of section 34, block 33, H&TC survey.

THE MIDLAND REPORTER-TELEGRAM, FRL, FEB. 16, 1979

Applications approved

AUSTIN - The Railroad Commission has approved an additional 161 applications for gas well classification under the federal Natural Gas Policy Act of 1978.

Chairman John H. Poerner and Commissioners Mack Wallace and James E. Nugent have now accepted the recommendations of the commission's well determination task force that cover a total of 322 wells in Texas.

To date the commission has received more than 2,052 applications for well classification under the pricing provisions of the federal gas policy act that were implemented last December 1.

Under the act, state agencies such as the Railroad Commission are required to receive and review applications and assign well categories. State well determinations, however, may be rejected or remanded by the Federal Energy Regulatory Commission

In the latest batch of applications approved by the Commission, 148 wells determined to be new onshore producers. Ten were classed as stripper gas wells and one each as a deep, high cost well (below 15,000 feet), or a new onshore gas well or a new well producing from an existing reservoir.

The Commission this week forwarded 42 of its well determinations decisions to FERC for review and further action. It was the first such shipment by the Commission to the federal agen-CY.

Secretary of Treasury says prices must climb

By MICHAEL DOAN

WASHINGTON (AP) - Oil and gasoline prices must increase further in the United States as the nation tries to conserve energy, Treasury Secretary W. Michael Blumenthal said today.

Blumenthal said he opposes rationing or new taxes on gasoline but said there is little the country can do to prevent oil-producing nations from raising their prices.

Gasoline prices have gone up about one cent a month recently, but Blumenthal said prices may need to be higher to discourage consumption.

Appearing on NBC-TV's "Today" show, the Treasury secretary was asked if he favors a new tax on gasoline as an energy conservation measure.

"I don't like to talk in terms of new taxes. I think the price of oil will go up for all kinds of reasons and should go up so that we conserve more," Blumenthal said, according to a Treasury Department text of the interview

"And there are many ways in which

this can happen. And we're going to have to finish some studies and make some recommendations to the president before he can make up his mind what he wants to recommend," Blumenthal said.

Interviewers asked Blumenthal about reports that oil-producing countries will take advantage of the reduced Iranian production to raise their prices another 7 percent. He was asked if the United States can do anything about it.

"Nothing we can do about it," Blu-menthal said. "When a product is in short supply, the people who are selling it raise the price. And that's bad. That's going to hurt all of the economies in the world."

Asked about its possible effect on inflation in the United States, he said, "Obviously rising oil prices make it more difficult to beat inflation. But we're making progress on other fronts a little better than we thought. So we have a chance.'

Blumenthal suggested that President Carter may announce some new energy conservation measures.

Wildcats scheduled In WT areas

HNG Oil Co. of Midland has filed application with the District 8 office of the Railroad Commission of Texas for permission to drill a 5,600-foot wildcat in Reeves County, 20 miles northwest of Pecos.

The prospector is No. 1-6 Tate-State, 660 feet from south and 1,867 feet from east lines of section 6, block 55, T-4, T&P survey.

The project is 1/2 mile northeast of HNG No. 2-12 Sabine-State, Cherry Canyon discovery in the Aylesworth field, and 7/8 mile northeast of HNG No. 1-12 Sabine-State, the field's Pennsylvanian discoveryl.

Nugent says he will fight costly regulations

James E. Nugent, the newest member of the Railroad Commission of that a six-foot fence be built around Texas, who was in Midland Thursday on a "get-acquainted, knowledge-seeking" mission, said he will wage an all-out fight against "costly and useless regulations" that threaten to reduce oil and gas hunters to "endangered species.

The commissioner, appointed to the **RRC** staff by former Governor Dolph Briscoe to fill the vacancy created by

> ENERGY OIL & GAS

the resignation of Jon Newton, was

the guest of the Permian Basin Petro-

leum Association at a luncheon in the

Referring to himself as a "30-day

wonder" on the commission (he was

sworn in Jan. 4), Nugent said "we are

in the middle of an energy crisis right

or understand."

from Kerrville said.

part by far.

"One section of those rules requires every active disposal site. The fencemust have a controlled gate which means either having a guard or an electronic device which opens only on cue.'

Nugent maintained such rules are "totally inappropriate" for the oil and gas industry, and said people willing to wrestle with regulatory burdens would become the "endangered species of oildom.'

"I am determined to do everything! I can to ensure that such costly and! useless regulations are not imposed! on the public," he vowed.

"Toward that end, I am gathering the facts and information necessary to participate in the hearings on the proposed rules,"he said.

Nugent said the EPA rules would lead to another federal program that the Railroad Commission would have to administer.

Nugent gave these philosophical approaches to his responsibilities as a

-"It is my duty to do all I can to

tem because it obviously has worked.

-"I am in the habit of basing my decisions solely upon the facts put before me. I am not going to change that habit."

Nugent said Texans' estimation of **Energy Secretary James Slessinger** is about as low as it can get. He added, though, that the Department of Energy is getting easier to talk to. "I have noticed the change even since I have been on the commission. The DOE and others in Washington seem to be more willing to talk to us and get our opinions than they were several months ago."

Nugent told his audience Thursday that he would run for a full term on the commission when his appointed term expires.

These regulations provide for a mountain of additional paperwork, chemical analysis of the mud, and of course, numerous reports," he said, "but that is not the most ridiculous

Crude oil price hiked

PARIS (AP) - Abu Dhabi and Qatar are increasing the price of their

and brines produced in oilfield operations as dangerous substances. "Even wellbores in which drilling muds have been left would cause the wells to be classified as hazardous waste disposal facilities and subject to compliance with requirements pertaining to such sites," Nugent said.

Grain sorghum could fuel much of world

COLLEGE STATION, Texas (AP) - A plant scientist at Texas A&M University has developed a grain sorghum that he claims stands a good chance of feeding and fueling much of the world.

"Humans in many countries are hard pressed for an adequate supply of food, and sooner or later, we are going to have to grow our own fuel," says Dr. Frederick Miller.

Miller labels grain sorghum as perhaps one of the most energy-efficient crops for use in survival of man, and specifically the most energy-sufficient species on which man can draw.

"The total plant can be used in the production of energy," Miller points out. "Calories for human food and livestock and poultry feed, fiber for clothing materials and the leaves and stalks for processing alcohol into fuel."

The use of gas processes from plant residue will become economically feasible once gasoline reaches \$1 per gallon, he says.

Grain sorghum's multi-uses have been limited primarily to livestock feed and to by-products such as glue for postage stamps.

The plant came to the United States soon after 1850, and primarily was used as feed for farm work stock, and more recently for the export market and feedlot production of beef.

But places such as Brazil are using the plant's stalk and leaves for 20 percent or more of its fuel.

"Grain sorghum not only is a re-newable resource annually," the scientist explained, "but can grow in any semi-tropical area of the world. If the plant doesn't fit into the growing conditions it can be altered genetically and tailored to meet requirements for prolific production."

Plant scientists began improving grain sorghum in the 1920s. The late R.E. Karper at the Agricultural Experiment Station in Lubbock foresaw the possibilities of the grain on the South Plains of Texas.

Karper and associates genetically changed the tall, goose-necked stalk with drooping heads of grain into as sturdy stalk capable of supporting heavy heads of grain in an upright position.

Later, at the experiment station in Chillicothe, scientists developed a hybrid which yielded a sorghum at a price for seed that farmers could afford to plant.

The resulting abundance of grain triggered new world markets, not counting the feedlots which sprang up in the Lubbock-Amarillo area on the Texas Plains.

But the stalk and leaves, or stover, were left in the field to provide roughage for cattle.

And it's the stover's energy-supplying potential which excites Miller.

He said 37 tons of stover from an acre of improved tall sorghums yield 3,500 pounds of sugar which can to processed into 275 gallons of methanol, an alcohol.

Chemical engineers at Texas A&M have modified an automobile engine that burns alcohol. The vehicle has been extensively and successfully road tested. Its developers describe the fuel system as "an alternative" to gasoline.

Summing it up, Miller said: "We have a sorghum which has capacity for high grain production, a genetic understanding of the sorghum spe-cies, and sufficient diversity to allow an entire plant to supply energy for man, beast and mechanical vehi-

Governor to carry demand from Texans

AUSTIN, Texas (AP) - When Gov. **Bill Clements goes to Washington** next week he expects to carry a demand from Texas for President Carter and Congress for an all-out effort to increase energy production and conservation.

The resolution, by Sen. Walter Mengden, R-Houston, was approved 28-0 by the Senate Thursday and sent to the House for action on Monday.

The vote came after Clements held a conference with former presidential

a conference with former presidential advisor Walt Rostow and Lt. Gov. Bill Hobby in Hobby's office. Rostow told the Texas Energy Ad-visory Council Tuesday that the Unit-ed States wasted five years preparing for the energy crisis expected in the

early 1980s and now must rely on its own resources

"The governor wanted Rostow to acquaint him with the details of our energy situation in preparation for the governors' meeting," Hobby said later.

Mengden told the Senate that Clements wanted to take the resolution with him when he attends the National Governors Conference in Washington. He said Clements probably would offer a similar resolution for action by the nation's governors.

The resolution originated at a meeting of the Texas Energy Advisory **Commission Wednesday**

TOM GREEN TEST

Leonard Resources of Albuquerque, N.M., announced location for a 5,500foot wildcat in Tom Green County, three miles southwest of Wall.

It is No. 1 R. V. Allison, 1,700 feet from north and 1980 feet from east lines of section 127, block 11, SPRR survey. Ground level elevation is 1,888.7

feet.

The wildcat is three and fiveeighths miles northeast of an undesignated Strawn gas discovery in the Lipan Creek (Canyon oil) area.

SCHLEICHER WILDCAT

Wheelock Oil Co. of Corsicana staked a new wildcat in Schleicher County, 10 miles southeast of Eldora-

Scheduled as a 6,000-foot operation, it is 660 feet from south and 1,650 feet from west lines of section 68, block K, **GH&SA** survey. Ground elevation is 2,340 feet.

The drillsite is one and threeeighths miles southeast of the depleted one-well Page, South (Strawn oil) field.

UPTON WELLS

John L. Cox of Midland has completed two new wells in the Old Upland (Bend) field of Upton County, eight miles north of Rankin.

The Cox No. 1 Laura, 3/4 mile northwest of other Bend production, finaled for a 24-hour flowing potential ofd 70 barrels of 49-gravity oil, no water, through an 8/64-inch choke and perforations from 10,194 to 10,212 feet after 5,000 gallons of acid. Gas-oil ratio is 3,640-1.

Location is 990 feet from south and 860 feet from east lines of section 26, block Y. TCRR survey.

Cox No. 1 ATM was completed for a 24-hour flowing potential of 170 barrels of 45-gravity oil, no water, through a 15/64-inch choke and perforations from 10,189 to 10,235 feet. The gas-oil ratio is 1,850-1. The pay section was acidized with 12,500 gallons.

Location is 1,980 feet from north and 660 feet from west lines of section 27, block Y, TCRR survey.

WARD TEST

D. H. Hunt of Dallas No. 3-31 F. H. Scott is to be drilled one location southeast of production in the Scott (Cherry Canyon oil and Delaware oil) pool of Ward County, five miles southeast of Barstow

The 6,500-foot test is 5,940 feet from notheast and 1,980 feet from northwest lines of section 31, block 33, H&TC survey.

STERLING PROJECT

Ventures, Ltd., of San Angelo No. 4-11 L. R. Stringer is to be dug as a 1,600-foot test in the Stringer (San Angelo) area of Sterling County. It is a northwest offset to production

and 2,476 feet from south and 1,652 feet from east lines of section 11, block 11, SPRR survey and 11 miles southeast of Sterling City.

ги сги on 1.2 pe increased price put into effect by members of the Organization of Petroleum Exporting Countries on Jan. 1, Compagnie Francaise des Petroles said today.

The two small Persian Gulf sheikdoms produce about 1.8 million barrels of oil a day, or only about 6 percent of OPEC's total production. But other countries in the oil cartel are expected to announce similar price increases since there is a shortage due to the suspension of Iranian oil exports and consequently no competitive pressure to keep prices down.

This, according to U.S. oil experts, could result in an increase in the price of gasoline in the United States of nearly a cent a gallon. They figure that a 5 percent increase in OPEC's price means an increase of half a cent at the pump.

CFP, the French government oil company, said Abu Dhabi and Qatar informed it and other customers of the increase Wednesday night. They said the price of their light crude would increase from \$14.10 a barrel of 42 gallons to \$15.12 a barrel.

OPEC's 13 members agreed in December to increase prices this year a total of 14.5 percent by Oct. 1. The increase is to be applied in four in-stallments, and the first increase of 5 percent went into effect on Jan. 1.

Under this schedule of increases, OPEC's base price on Oct. 1 is to be \$14.54 a barrel for Saudi Arabian light crude, the cartel's "benchmark" oil. Abu Dhabi and Qatar produce a higher quality oil which commands a premium price.

Saudi Arabia, the world's biggest exporter, recently put a special 5 percent surcharge on additional oil it is producing because of the Iranian shutdown. The Saudi production target for the year is 8.5 million barrels a day, but the Saudis say they are now pumping about 9.5 million. The surcharge thus is applicable to about a million barrels.

many (AP)-The American supertanker Esso Hawaii, carrying 44.1 million gallons of crude oil, ran aground today near the island of Wangerooge in the storm-tossed North Sea.

The 283,000-ton vessel, directed by two pilots, was on its way from elmshaven to the south of En-Wilh gland when it rammed into the edge of the shipping channel.

A spokesman for the owners, Esso Tanker Inc., said five tugs were sent to the scene and it was hoped they would free the 1,066-foot-long ship when the tide runs in later in the day.
