Precincts drawn illegally, but who redraws lines?

By LINDA HILL

The Midland County Commissioners Court Monday agreed to a man that the county's commissioner pre-cincts are divided illegally.

The unresolved questions, with positions largely breaking along party affiliations, are how major the problems are and who should redraw the

Weather

Partly cloudy through Wednesday. Cooler tonight and Wednesday. Low tonight upper 30s. Details on Page 2A.

Everyone agreed the fact that Precinct 1 is divided into two non-contiguous parts is in violation of established

And the court's two Republicans, County Judge William B. Ahders and Commissioner Win Brown, both argued that the population differences of the precincts are outside legal bounds, citing voter registration fig-

County Attorney Leslie Acker said the courts have ruled the population of each must be more than 20 percent but not less than 30 percent of the

number of people in the county. According to figures cited by Ahders, current registered voter

Three inmates still at large after break

LAMESA -Three of four inmates who escaped from the Dawson County Jail Monday night still were at large this morning, and Dawson County Sheriff Bill Horton said today he thought the three may be in the Midland-Odessa area.

The four escaped, Horton said, after a jail trusty apparently jim-mied the elevator in the jail to ride down to the floor where the jail keys are kept.

He then rode the elevator back up and let the other three out of their cells, Horton theorized. The three still at large are James.

Mason, the jail trusty, Robert Callaway and Quincy Butler. Mason and Callaway were serving terms for burglary. Butler was serving a misdemeanor sentence and had only 10 days left before release, Hor-

ton said. The fourth inmate, Henry Barrera, was captured and returned to the jail. He had been held for revocation of counts range from 19.27 percent in Precinct 3 to 31.8 percent in Precinct

Commissioner Charlie Welch, however, repeatedly reminded the court that it is total population, not registered voters, that counts.

Ahders and Brown argued for a "non-political" redistricting plan, urging the Democratic commissioners to agree to ask the Permian Basin Regional Planning Commission to present a proposal to the court.

Though Brown's motion lost 3-2 on a split along party affiliation, the PBRPC may wind up drawing the

lines yet. "I didn't really vote against it," claimed Democratic Commissioner Jack Leonard after the meeting.

"I'd like to have them (the PBRPC) do it after we find out how many people we have in each precinct,' said Leonard, who represents Precinct 3.

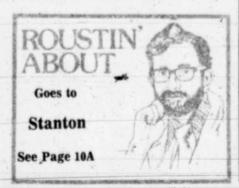

Welch and Commissioner Durward Wright contended throughout the debate that the law requires the commissioners themselves to draw the

"Why not let them (the PBRPC) provide the data and do it ourselves like the law says?" asked Wright. "If you can't stand the smoke, don't

get in the kitchen," Welch chimed

"What are you talking about?" Ahders asked testily.

Wright noted, "We're supposed to be five reasonably intelligent people," capable of redistricting with as (See REDISTRICTING, Page 2A)

Carter ends mission without peace treaty

CAIRO, Egypt (AP) — President Carter ended his six-day Mideast peace mission today announcing that he has "defined all of the main ingredients of a peace treaty between Egypt and Israel.'

The president began the 1416-hour flight back to Washington without the treaty he had hoped for, but claiming a major breakthrough.

Carter said Egypt's President Anwar Sadat today accepted U.S. compromise proposals "for resolving the few remaining issues," and that Israeli Prime Minister Menachem Begin agreed to submit these compromises to his Cabinet for consideration "at the earliest opportunity."

Carter did not specify the shape of the compromise proposals. The remaining issues were believed to be Israel's desire for Sinai oil, Egypt's desire for liaison officials to supervise Palestinian self-rule in Gaza, and Israel's desire for a quick exchange of

ambassadors. Carter's statement seemed to indicate that all that remains in the way of a Egypt-Israeli treaty, ending 30 years of hostility between the two nations, is approval of the compromises by the Israeli government.

Ratification by the Egyptian par-liament is considered to be a formali-

But even if Begin's Cabinet goes along with the latest Carter peace plan, approval by the Israeli Knesset is another question. Begin was heckled there by treaty opponents on Monday after an address by Carter.

"I am convinced that we now have defined all of the main ingredients of a peace treaty between Egypt and Israel which will be the cornerstone of a comprehensive peace settlement for the Middle East," Carter said at Cairo airport just before his depar-

The day began with Carter's mission seeminly ending in failure. U.S. officials described his break-

fast meeting with Begin as mainly a courtesty, a farewell to his host. Both men brought their wives. But meanwhile Begin's spokesman

Dan Pattir was strongly opposing the idea that the talks had ended in failure. He said briefings given by White House spokesman on Monday were 'calculated to make the picture look black, for domestic reasons.

The Carter-Begin breakfast in Jerusalem broke up with no report of progress, but Carter soon lifted the gloom with a statement as he departed from Tel Aviv's Ben Gurion air-

He said "good progress has been made" toward a peace treaty and vowed "we will not fail."

He said progress was made Monday night in a meeting of U.S. and Israeli cabinet officials, and further progress was achieved this morning over

breakfast at the King David Hotel. Begin, also speaking at Ben Gurion airport, said Israel had now gone as far as it could go toward meeting Egypt's terms and that "now, of course, it is the turn of Egypt to give

Then Carter hopped to Cairo air-

Evidence does disappearing act

There wasn't much, but it was there. Then it wasn't, and now its back again...the evidence that is.

An undisclosed quantity of a substance authorities believe to be marijuana - described by Major Ira Dees of the Department of Public Safety as "not a great amount" - was reported missing from a DPS storeroom in Midland Thursday.

The substance was being held by the DPS as evidence last week in connection with several cases.

The marijuana-appearing substance was stored under lock-and key in a room normally used for the storage of polygraph equipment, said

Lock and key apparently proved insufficient security, for when a DPS chemist went to the storage room Thursday to retrieve the evidence for testing, some of it wasn't there, said officials. An investigation by the Midland County Sheriff's office and the DPS

resulted in the recovery of some of the stolen substance. Mark Randell Agan, 17, of Midland, a part-time janitor for the DPS was arrested and charged Friday with burglary in connection with the missing evidence, said Sheriff's Department officials.

Deputies said Agan has been released on \$5,000 bond. Dee said a new lock has been installed on the door of the stor-

Hospital Board election draws eight hopefuls

A parade of candidates just before the filing deadline Monday transformed the race for the Midland County Hospital District board of trustees from suspenseful to eventful.

When the hospital administration office closed Friday, only two candidates had filed for three at-large openings on the hospital board, and it looked as though the board might be a director short for the next

When the office closed at the filing deadline Monday, however, eight candidates were on the

Filing Monday were Steve Becker, M.H. "Buddy" Davis Jr., Pat Estes, Scott Shelton, J.D. Webster and Floyd A. Wright.

Incumbent Edwin Magrudger. Jr. and Dr. Henrie Mast had filed earlier for posts on the board.

Two other incumbents, L. Decker Dawson and John Pendleton, chose not to run for reelection to the board.

Each candidate filed a petition with the name of 25 registered voters to have his name listed officially on the ballot.

The drawing for ballot positions was to have been at 10 a.m. today. The three candidates with the

largest vote totals in the April 7 election will serve in the at-large places on the board.

MCAA enacts by-laws, as requested by mayor

By LANA CUNNINGHAM

Tired of fighting blanket opposition from Midland's city government, Executive Director Alexandra Morris recommended Monday the Midland Community Action Agency give in to requests made by the mayor two years ago.

During a meeting of the board of directors in which only one member of 15 was absent, Mrs. Morris said she had talked with Mayor Ernest Angelo Jr., who promised the city's support of MCAA if only it would enact his requests made in 1977. Those requests, made after a city

councilman resigned from the MCAA board during the period when the agency was having problems with its bookkeeping, included total revision of the by-laws, resignation of all those who were board members prior to 1977 and resignation of those who had been on the staff prior to 1977.

The first request formally was met Monday when the board adopted a new set of by-laws.

But pressure from the mayor and opposition to the proposal voiced by several board members put the executive director in a squeeze.

MRS. MORRIS SAID she had talked with Angelo recently and he pledged the city's support "when the other two requirements are met,"

In presenting her case, Mrs. Morris said in concluding her third program year with MCAA: "I have had increasing frustration with this agency" in accomplishing its goals.

Those goals, as outlined by the Community Services Administration,

calls for concentration of efforts and resources to eliminate the causes of poverty in the city, enabling the poor to become self-sufficient.

"After much thought I concluded this agency is not doing this," she said. "I have seen this agency can not become a viable entity without the support and cooperation of elected

That lack of support from Midland was apparent at last month's meeting of the Permian Basin Regional Planning Commission, in which the board, noting the unfavorable comment Angelo gave the agency and rejected giving MCAA a favorable recommendation on a funding grant for this However, the CSA recently notified

MCAA the agency still will receive its funds this year, despite the PBRPC

IF THE TWO DEMANDS from Angelo are met, Mrs. Morris said it will mean "negating all these unfavorable comments and that someone from the City Council would come onto the MCAA board."

Freddie Nelms, a new board mem-ber who has resided more than 20 years in Midland, said rhetorically, You mean the mayor has the authority to do all that? Are we going to yield to one man's request just be-cause of the way he feels, the way he stands, the way he thinks about Charlotte Windecker, who had ap-

peared at the PBRPC board meeting in February to help with the MCAA presentation, replied, "It's like he's

(See MCAA, Page 2A)

THE TIMES OF MY LIFE: PART TWO

The Kennedy administration was 'very dancy ... and very stylish'

From THE TIMES OF MY LIFE by Betty Ford with Chris Chase, Copyright (c) 1978 by Betty Ford. Pub-lished by Harper & Row, Publishers, Inc. and The Reader's Digest Association, Inc.

By BETTY FORD with Chris Chase

PART TWO

You turn around, and 10 years are gone. Mike was born in 1950, and in 1960 the Eisenhowers went home to Gettysburg, the Kennedys moved to 1600 Pennsylvania Avenue, Gerald R. Ford began his seventh term in Congress and, for the first time in ages, I didn't have a baby any more. Susan was almost three years old, and the part of my life that had been measured out in Pablum spoons was

The Eisenhower White House had been managed very efficiently, in a very military way, which was only natural. (Their Congressional parties were tremendous affairs, and formal But what stands out most in my memory about Mamie and Ike is their affection for each other. So many pictures of them look unposed, as if they'd been caught in the act of touching. I can't help thinking that book by the woman who claimed to be his girlfriend was a fraud.

In May of 1977, the widowed Mamie, then 80 years old, gave a com-mencement address at Eisenhower College in Seneca Falls, New York. She talked about her husband's "wonderful hands." Every knuckle, she said, "was broken from football or whatever, but I always felt in all the years we were married that I could grab onto them when I felt sick or worried, and nothing was ever

going to happen to me."

It isn't a bad testimonial to a marriage.

The Kennedy White House was much more sophisticated, more European, than the Eisenhower White House had been.

At most official functions, the

everybody to please "stand wherever you are, and Mrs. Ford will be brought around and introduced to you." It's an ideal setup. You're the one who's doing the walking, and the person who is escorting you is careful not to let you spend too much time with anyone, just a few words and you

For Democrats OR Republicans, Betty and Jerry Ford often were the life of their "party" during the Congressional years. In this second excerpt from her book, Betty Ford describes a few of the more memorable social occasions.

Kennedys did away with the receiving line; they just circulated. When Jerry was President, we sometimes did the same thing, mingled with the crowd. If there was a special cocktail party before a dinner, an aide would tell

move on to the next group.

ONE OF MRS. Kennedy's most famous parties was given at Mount Vernon, soon after she came back from her triumphant visit to Paris. If

you recall, President Kennedy said the Frencg had been more interested in seeing his wife than they were in seeing him. He was a smart politician; both he and she were good with languages, and he always greeted crowds in their native tongues, which added considerably to his popularity. (Jerry and I aren't great language students; it's just not our cup of tea. For us, greetings in foreign languages always had to be written out phonetically if they were going to come out sounding half

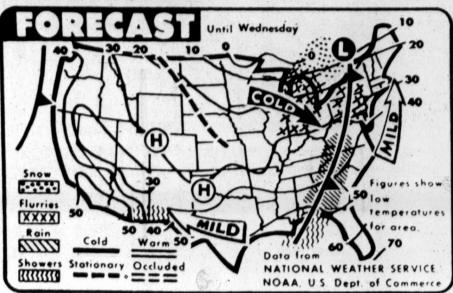

right.)
We were not in the Kennedys' inner circle, but we were invited to that Mount Vernon party for Pakistan's President Ayub Khan. In his book, "Upstairs at the White House," Chief Usher J.B. West wrote about the planning. Mrs. Kennedy had insisted

on rehearsing every detail that went into the evening: "We made a number of trips down the Potomac on the Presidential yacht, Honey Fitz — Mrs. Kennedy standing at the bow like Cleopatra on the Nile — to perfect the timing of transporting over 150 workers... the National Symphony Orchestra, the Marine Honor Guard, the Army Fife and Drum Corps, the air Force Strolling Strings, not to mention 132 guests, to the home of the first President where dinner was served by candlelight on the front lawn overlooking the river."

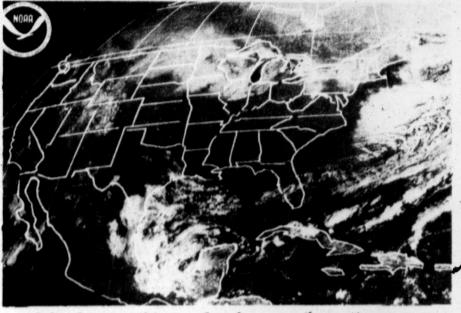

THE PARTY WAS to be taken up the Potomac in four boats, the Presidential vacht and three others that belonged to the Navy Even as Jerry

(See BETTY FORD, Page 2A)

WEATHER SUMMARY

Rain is expected today through Wednesday morning from the eastern Gulf to the Ohio Valley. Snow flurries are expected from the Midwest to Pennsylvania and New York. Cold weather is forecast from the northern Plains to the Midwest but much of the nation will be mild. (AP Laserphoto Map)

Only a few exceptions to a clear day across the country are seen in this satellite cloud photo, recorded Monday afternoon. Uniform low clouds and fog lie along the Texas coast and in the interior valley of California. Small broken lines of low clouds cover the northern Appalachians. Snowcover over the northern Plains is only partially obscured by high, thin clouds and is clearly seen over the Rockies and western Lakes. (AP Laserphoto)

It may not be spring on the calendar, but temperatures are reflecting what could be the season's last stand before the onslaught of summer in the area.

Wednesday is expected to be a little cooler, with the passage of a slight cool front through the area tonight.

Partly cloudy skies through Wednesday and a little cooler tonight and Wednesday is the word from the weathermen at the National Weather Service office at Midland Regional

Airport. Low tonight is expected to be in the upper 30s, with the high Wednesday reaching only to the middle 60s. The winds should shift to the north tonight at 5 to 10 mph.

While spring-like temperatures showed in the 73-degree high recorded for Monday, summer seemed to have a firm grip in 1967, when the record temperature for the date was set at 88

Texas thermometer

The mild 43-degree overnight low recorded here was nothing like the winter-lingering 14 degree record set

No rain is mentioned in the forecast, so the monthly total of .16 inch and the annual gathering of .58 inch seem likely to stand another day.

Area towns were experiencing the same cool mornings Midlanders had today, with most reporting clear and partly cloudy skies.

Carter claims major progress

(Continued from Page 1A)

port, where he huddled for about 21/2 hours with Sadat in a VIP lounge. As their session drew to a close,

Egyptian television broadcast a picture of Carter speaking on the tele-phone. Carter said later he had called Begin from the airport to inform him that Sadat accepted the latest U.S. compromise proposals.

Before today's apparent breakthrough three issues were said to have remained unresolved, in descending order of difficulty:

Redistricting due in county

(Continued from Page 1A)

little "disturbance to the voters" as

Wright and Welch both insisted rearranging voting precincts is the most annoying thing the court could do to the voters.

"The fewer people you have to confuse, the better off you are. I don't think we have much of a chore," said Welch, who claimed the population balances are "pretty close" to the acceptable range.

Arguing for substantial line changes was Janeice Builta, county voter registration deputy, who said she receives frequent complaints from voters about difficulty in determining where they vote.

'This they don't like. I don't know why they don't. I'm just trying to get along with the people who elected you all," Mrs. Builta said.

When Welch and Wright argued changing voting boxes was more annoying, Mrs. Builta replied, "But you're not one of the peons.'

Brown contended an "outside" agency could draw lines without regard to "where the commissioners live," but that the commissioners themselves would "insist we each remain in our own commissioner's precinct.'

Wright's motion to ask the PBRPC to provide population information passed 3-1, with Brown voting against, and Ahders, who serves as presiding officer, not voting.

'This is too open-ended,' said Brown. "Are we going to use that information or are we going to hatch-

"I assume we're going to use it," Wright replied.

Brown conceded the information 'will be a help, but I still think we're spittin' in the wind.

In addition to contiguous boundaries and population balance, according to Acker, any redistricting plan must not "dilute minority voting strength," if the courts are to accept

In the past, the current division, which divides predominantly minority neighborhoods begtween Precinct 2 and Precint 3, has been the topic of debate on that point.

But Monday's discussion barely touched on the issue.

Odessan, 39, in custody

ODESSA - A 39-year-old Odessa woman was in custody in Odessa City Jail today after Odessa Municipal Court Judge Otis Moore set bond at \$50,000 Monday and charged her with murder, said authorities.

Freda Shook, 39, was charged in connection with the knifing death of a 55-year-old Odessa man late Sunday night at the residence the two people shared, police said.

Police said the woman was arrested at the north Odessa residence shortly after Eugene Norman Berg was found

Berg was found seated in a chair slumped over a living room table, police detectives said.

Peace Justice Virgil Lumpee pro-nounced Berg dead and withheld an inquest pending results of an autopsy he ordered.

Berg was stabbed with a kitchen knife with a five-inch blade, detectives said.

The woman arrested in connection with the murder was the only person at the residence when officers got there, police said.

Witnesses told police the woman was seen making a stabbing motion with her right hand.

The witnessess also told authorities that they heard Berg scream and cry out, and then drop out of view.

Officers said the man and woman had been living togethe8r about a

Officers said the woman had blood on her hands when she admitted police to the residence.

Bond hearing to begin today

ODESSA - An evidenciary hearing stemming from the \$21.6 million bond election contested by 10 Odessans was to begin today in 161st District Court.

The contestants, alleging misconduct by election officials, are challengin the results of the 1978 bond elec-

District Judge J.H. Starley set the hearing after 161st District Judge R.L. McKim excused himself from

School officials have denied the petition's allegations, which they called "insubstantive" and "vague."

-An Egyptian demand to place Egyptian liaison officers in the Gaza Strip as part of the first step in granting Palestinian self-rule. Israeli sources said their negotiators refused to admit such officers at this stage.

-A demand by Israel that Egypt provide oil on a preferential basis from the Sinai oilfields the Israelis would abandon.

-Israel's insistence that the two countries exchange ambassadors after the first stage of Israeli withdrawal from the Sinai. Egypt wants to hinge diplomatic ties on the speed with which Palestinian self-rule is implemented.

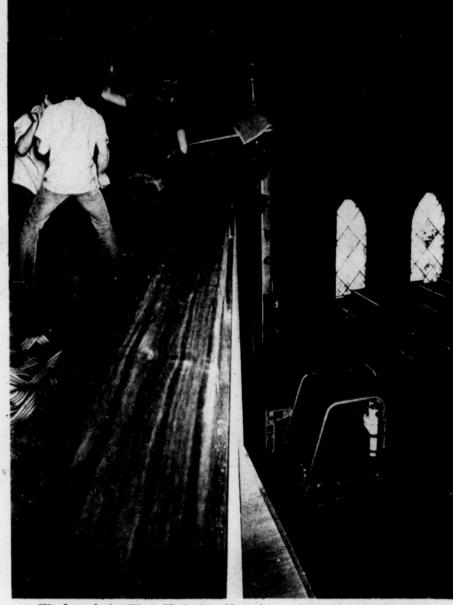

As Carter left Israel, Begin told him: "May I say respectfully, that you can leave this country with satisfaction. And we are happy that we could have helped you to the best of our ability New violence broke out even as

Carter's peace mission was ending. Israeli military officials said several shells and rocket rounds fired from Lebanon caused damage but no casualties in northern Israel.

Palestinian guerrillas swapped artillery fire with Israeli border gun-

Lebanese authorities said a child was killed and three Lebanese civilians wounded by an Israeli shell that exploded near a school in Zotar, 14 miles north of the Israeli border.

Three Israeli warplanes buzzed Beirut and sonic booms from other Israeli jets shattered windows in Palestinian stronghold towns 12 miles north of the Israeli border.

Workers hoist First Christian Church's new organ over the choir loft as the first step in the installation process. The Rogers electronic organ weighs 810 pounds, with speakers adding another 1,400 pounds. Stephen E. Spain, organist and choirmaster for the church, located on West Louisiana Avenue, said installation and tonal direction for the new system should be completed before Sunday's services. (Staff Photo)

Betty Ford describes memorable White House social occasions

(Continued from Page 1A)

and I had been dressing to go, we could hear the sirens screeching on those military trucks, but we hadn't known they were headed for Mount Vernon loaded with our dinner.

We all met at dockside and were piped aboard. The women had been told to wear short dinner dresses, because we'd be getting on and off these boats, and then Mrs. Kennedy turned up in a long dress. I gave her the benefit of the doubt. I figured she must suddenly have realized that the wives of the heads of state and other visiting dignitaries might be in native costume, and she'd better sport a long skirt to make them feel more at ease. I was a bit miffed because I'd had to go out and shop. I didn't even own a short evening dress - short evening dresses weren't fashionable then but I got a black chiffon that was pretty. I think Susan still has it.

All the elements were with Mrs. Kennedy that night. The air was warm and balmy, the guests' mood festive. There was live music aboard each yacht, and even though it was a short run along the river to Mount Vernon, drinks and hors d'oeuvres were provided on deck. At the boat landing, cars were waiting to drive us up the hill to the mansion.

To this day, I don't know how Mrs. Kennedy ever got the ladies of the Mount Vernon Association to let her give a dinner there. They're a very elite, very closed society; in order to belong, your heritage probably has to go back to George Washington or one of those soldiers who was in that boat with him when he crossed the

During dinner, Vice President and Mrs. Johnson had asked us to go back on their boat, and we'd said yes. Next thing we knew, we got a message that President and Mrs. Kennedy wanted us to go back on THEIR boat. Of course they outranked the Johnsons, so it was the Honey Fitz for us. I have no idea why we were so sought after, but I had a ball, and danced all the way home.

That was a very dancy ad-ministration (Hubert Humphrey was a great dancer, so was Lyndon Johnson, though he was so tall and held you so tight you felt sort of squashed) and a very stylish administration. Mrs. Kennedy had such marvelous taste that all women in Washington, all the women across the country, copied her. We wore the same things she wore, the little pillbox on the head, the sleeveless shift. It was epidemic, that wardrobe.

A NEW ERA BEGINS

The White House was still in mourning for President Kennedy when the Johnsons moved in, but after a few days President Johnson couldn't stand the dolefulness around him, and Lady Bird phoned me to say they were having some friends in for dinner on a Saturday night, and they wanted us to come.

The gathering took place in the family quarters, and we were the only Republicans invited. Lyndon and Jerry had worked together so much, ironing out kinks in legislation, compromising, and Lyndon always kidded Jerry: "You're a great man, but you belong to the wrong party."

At the end of the dinner, someone toasted the new President. The country had survived a hideous wound; the government was going forward. Then came other toasts, wishing the President success in his foreign policy, success with the Congress, I don't remember what all.

We were on our feet when the last toast came "President Johnson, may he be returned to the White House in the next election." I didn't know what to do. A good Republican could hardly

drink to that. I stood with my glass in my hand and thought, I just won't take a sip and I hope nobody notices. I guess Jerry did the same thing. All those Democrats; I felt like a thief among them.

THROUGHOUT THOSE YEARS, however, I didn't spend nearly as much time going to parties as I did going to emergency rooms.

If you have four children, you spend a lot of your waking hours in hospitals. On one such occasion, Steve got his fingers smashed on what had started out to be a festive Sunday. All six of us were going to Family Day at the Congressional Country Club. I'd cleaned up Steve and Susan, put him in his little plaid jacket, her in her little white pinafore, and sent them outside so Jerry and I could get dressed in peace.

All the children were running around like wild Indians, and Jerry yelled that they should calm down and get into the car. Susan hopped in the back, slammed her door shut, and never noticed that Steve's fingers had been curled around the door frame.

I took one look and knew this child wasn't going to a picnic; he was going to the emergency room, Jerry and I took him, leaving the older boys and Susan at home. While we were gone, the phone rang. It was the White House calling for Congressman Ford. "He's gone to the hospital," said

Jack. President Johnson came on the line. 'What do you mean, he's gone to the hospital? What's wrong with him?"

"Nothing," said Jack. "It's my little brother's fingers —" Lyndon wanted to know which

The mashed hand was being Xrayed when the next call came from the President. He'd rung up the hospital to find out how Steve was doing. President Johnson was that way; you couldn't go anyplace without his tracking you down. It was one of the Fords' more interesting trips to an emergency room. Not all of them were honored by a call from the President of the United States.

Coming tomorrow

MCAA submits to demand of Mayor to enact by-laws

(Continued from Page 1A)

(Angelo) got a stranglehold on us." The recommendation also met with opposition from other board members and from those in the audience who were staff members or involved with the agency in some form.

Clarence Rankin charged that Angelo will never give the agency what he has promised. Since the agency began operation eight years ago, "it has never had the graces of the mayor. I don't think if you do get his graces, you'll get anything but that.

"The mayor has never cared for MCAA and the agency has been able to handle it," he continued. "We've had some bad times, rougher than you've read about, and we've survived. I recommend every board member who can't stand the pressure to resign."

Returning to the topic of the mayor, Rankin said, "Angelo screams we don't want federal monies and yet the city of Midland uses it."

ALSO INCLUDED IN Mrs. Morris' proposal was a consolidation of the agency's neighborhood centers to cut

Panel OKs amendment

BIG SPRING - Howard County Commissioners Monday granted permision to amend the revenue sharing budget for 1979. A cut from \$197,000 to \$167,000 in federal funds makes the amendment necessary, said officials. A public hearing is required before

the amendment is acutally possible, said Virginia Black, county auditor. Mrs. Black said the cuts should be in the road and bridge budget but that the county could "hold on the paving money. Commissioneers reportedly are

committed to building a maintenance shed, but Mrs. Black recommended no more large road and bridge expenditures be made. She also said no more money should be spent for courthouse items this fiscal year. The county already has spent more federal revenue sharing money than

it has received, according to Mrs.

Black. A total of \$91,000 has been

received by the government, but the

county has spent \$129,000.

down on overhead cost. One center worker in the audience retorted, "We work like a dog to get this (agency) to work, and now you tell me to move.

Two county commissioners, Jack

Leonard and Charlie Welch, said after the meeting they did not agree with the executive director's recommendations. "We've done more in the last year than they've ever done before," Leonard said, adding that the agency is not

in the same situation it was when Angelo made his requests. "I wish Angelo would come over here and sit through a meeting and see how it's (the agency) changed."

WELCH, WHO SAID he didn't agree with Angelo's requests two years ago when he presented them to the board and doesn't like them now, added that "it would be unthinkable for anyone to say this agency is to fire good people. Why, they could sue us all the way to Washington, D.C., and

The proposal was dropped with no decision made, but one director said he feels sure it will resurface at the board's next meeting.

In other action, the board approved purchase of a bus to be used in the weatherization program for transporting materials and crew and heard a report on the Emergency Energy Assistance Program.

A nominating committee was appointed to draw up a slate of officers for the April meeting. The board approved going after a Department of Energy grant which would be used to develop a new type of insulation.

Raymond Massey

CISCO - Services for Raymond H. Massey, 69, of Cisco and formerly of Midland will be at 2 p.m. Wednesday in Cisco Funeral Home. Officiating will be the Rev. Don McClenney, pastor of the First Christian Church here, and the Rev. E.A. Sherwood.

Burial will be in Oakwood Cemetery

Massey died Sunday in an Abilene hospital after a lengthy illness. He was born June 14, 1909, in Cisco.

He was married to LaVeda Looney Aug. 18. 1947, in Marlin. He served with the U.S. Navy during World War II. Massey was a member of the First Christian Church of Cisco and the Veterans of Foreign Wars.

He was employed with Pylant Sign Co. of Midland. He moved to Cisco from Midland in 1975.

Survivors include his wife; two sons, Donald Ray Massey of Vista, Calif., and Kenneth Raymond Massey

of Phoenix, Ariz.; a brother, R.C. "Chick" Massey of Cisco, two sisters, Johnnie Cheshire of Cisco and Ethel Wright of Dallas, and four grandchil-

Helen R. Furlow

LAMESA - Services for Helen Ruth Furlow, 47, of Lamesa were to be at 4 p.m. today in the First United Methodist Church of Lamesa. The Rev. Alvis Cooley, pastor, the Rev. Paul Land, pastor of the First Christian Church in Lamesa, and the Rev. Walter Driver, pastor of the First United Methodist Church in O'Donnell, were to officiate. Burial was to be in Lamesa Memorial Park directed by Brannon Funeral Home. Mrs. Furlow died Sunday in a Lub-

bock hospital after a brief illness. The Montgomery County, Ark., native was employed by Lamesa Printing. She was a member of Rebekah Lodge No. 90 in Lamesa and the O'Donell United Methodist Church.

She was married to A.R. "Joe" Fur-

low May 10, 1974, in Lamesa. Survivors include her husband; two sons, William Earl Wingfield III of Universal City and David Wingfield of Lamesa: two sisters, Martha Siler of Stone Mountain, Ga., and Edna Boyce of Grand Prairie, and three grandchildren.

Frank R. Rowland

LEVELLAND - Services for Frank R. Rowland, 70, of Whiteface, father of William Glenn of Big Lake. were to be at 4 p.m. today in the First Baptist Church in Whiteface. Burial was to be in City of Levelland Cemetery, directed by George C. Price Funeral Directors.

Rowland died Sunday in a Lubbock hospital following a lengthy illness. He was born June 3, 1908, in Lake City, Utah. He moved to Levelland in 1956 from Bridgeport, Ala., and then to Whiteface in 1961.

He was a retired service station owner and operator.

He was married to Emogene Lawhorn on Sept. 24, 1950, in Rossville, Ga. He was member of the Baptist

Other survivors include his wife, a son, a stepson, two daughters, a stepdaughter, a brother, three sisters, 23 grandchildren and nine greatgrandchildren.

Jack A. Walker

SLATON - Services for Jack Andrew Walker, 69, of Slaton, father of Cindy Evans of Big Spring, were to be at 2 p.m. today in Triumph Baptist Church in Slaton with the Rev. M.A. Brown, pastor, officiating. Burial was to be in Englewood Cemetery directed by South Plains Funeral Home of Lubbock

Walker died Friday. He had lived in Slaton 30 years. Other survivors include his wife, a son and a daughter.

27 U.S. dams in need of emergency repair work

WASHINGTON (AP) - The Army Corps of Engineers has ordered emergency actions taken on 27 private dams to prevent their collapse, new Corps statistics showed today.

The 27 are among 459 dams that have been declared unsafe as a result of the Corps' dam inspection program that began after the Barnes Lake Dam in Toccoa, Ga., collapsed in 1977, killing 39 persons.

To date, the Corps has completed inspections on 2,119 private dams across the country. It hopes to inspect about 9,000 of the nation's 43,500 nonfederal dams by 1981

The dams classified unsafe are not ncessarily in danger of imminent collapse, said Corps spokesman Ed Greene. In many instances, he said, the Corps simply copsidered a spill-way unsafe to handle torrential

rains. The General Accounting Office, an investigative arm of Congress, said the Corps inspection program emphasizes the possible need for continued federal involvement in establishing an adequate nationwide dam safety

In a study, the GAO said a review of the Corps programs shows many dam owners refuse to correct deficien-

In additon, it said many states do not have the legislative authority or money to conduct their own programs.

Pools were lowered or drained on 23 of the 27 dams that required emergency actions, the Corps said. On three others, remedial construction is underway, surveillance has been initiated or the owner notified of the danger. These were, respectively, Barker Dam in Ada County, Idaho; Waltonville Lake Dam in Jefferson County, Ill.; and "No Name - 448 Dam"in St. Charles County, Mo.

Litigation has been initiated on Lakeland Lake Dam in Montgomery County, Texas, the corps said.

The other dams which required emergency draining were: Alabama: Lakeo Springs, Shelby

County; Camp Mack Dam No. 1, Talladega.

Georgia: Silver Lake, Dekalb County; Erin Lake, Dekalb; Black Rock Mountain, Rabum; Manley Estates, Madison. New York: Warwick, Orange Coun-

ty: Jamesville Reservoir, Onondaga; Watervliet Reservoir, Albany; Boyds Corner, Putnam.

Nevada: Squaw Valley, Washoe Missouri: Tarsney Lake, Jackson

County; Indian Rock Lake, Franklin

Oklahoma: Vettie Cooley Lake, Tulsa County. West Virginia: Mod Branch Dams Nos. 1 through 5, McDowell County; Four Sates WS Dam, Marion.

North Carolina, Flat Top Mountain,

Vermont: Lake Paran, Benning-

Buncombe. New Jersey: Untermeyer, Morris.

Hawaii: Wahikuli, Maui. Arizona: Tsaile, Apache. Texas: Kaufman City Lake No. 1,

Kaufman County Utah: Hobbs Reservoir, Davis

New emissions bill proposed

AUSTIN, Texas (AP) - A pilot program of automobileQemissions inspection would be started in Harris County under a bill whose sponsor says it is a bargain for the state.

"The Environmental Protections Agency's willingness to accept the provisions of House Bill 2138 ... represents a tremendous victory for the state of Texas in retaining contol of our air pollution control efforts," Rep. Tim Von Dohlen, D-Goliad, told a news conference today.

The Texas Air Control Board, the Department of Public Safety and the state highway department would work out details of the pilot program, Von Dohlen said.

Under 1977 changes to the federal Clean Air Act, states must submit a plan to control pollution, he explained. The state plan mush include emissions inspection for areas that cannot comply with national air standards by Dec. 31, 1982.

Harris County is the only county that apparently will not be able to clean up its air in time.

Inspections probably would be free to participants, he said. A car owner would have to pay for repairs if they were needed to reduce emissions.

"The greatest incentive is that it would probably be a economizer for gasoline in automobiles," he said.

If the bill doesn't pass, the state could face loss of federal highway. funds, Von Dohlen said. He added that federal officials are not taking an "adversary position" in the bargain-

Jeffrey L. Hale

Services for Jeffrey L. Hale, 22, of 4601 Mercedes St. were to be at 10 a.m. today in Newnie W. Ellis Funeral Home with the Rev. Kenneth James, pastor of Crestview Baptist Church, officiating.

Burial was to be in Resthaven Memorial Park. Hale died Saturday while scuba diving near Santa Rosa, N.M.

Survivors include his parents, Mr. and Mrs. M.L. Hale of Midland; a sister, Jamie Lynn Hale of Midland; his grandparents, Mr. and Mrs. O.L. Hale of Goldthwaite and Mr. and Mrs. John Earl Smallwood of Fort Worth, and his great-grandfather, Scott

Thompson of Goldthwaite. Pallbearers were to be Danny Heurich, Dan Ray, Gary Ryan, Bruce Belknap, Randy Phillips, Tony Fraser, Junior Costillo and Rick O'Bannon.

Honorary pallbearers were to be members of the Alpha Phi Omega service fraternity of Texas Tech Uni-

Shelly K. Shearer

TAHOKA - Services for Shelly Kay Shearer, 2-year-old great-granddaughter of Mrs. M.M. Shearer of Lamesa, were to be at 3 p.m. today in the First Baptist Church here with the Rev. Jim Turner, pastor, officiating. Burial was to be in Tahoka Ceme-

tery, directed by White Funeral Home. The child died Sunday at home. She was born Oct. 15, 1976, in Taho-

Other survivors include the parents, Mr. and Mrs. Shelby Shearer of Lubbock, her grandparents and great-grandparents.

Martha Eisenwine

PECOS - Services for Martha Maureen Eisenwine, 64, of Pecos, mother of Julie Dyer of Midland and sister of Mrs. George Darden Sr. of Crane and H.H. Miers of Lamesa, were to be at 2 p.m. today in the First Christian Church here.

Burial was to be in Fairview Cemetery directed by Pecos Funeral Home.

Mrs. Eisenwine died Sunday in a Pecos hospital. She was born March 28, 1914, in

McCauley. She was a longtime Pecos resident.

Other survivors include her husband, two daughters, three brothers, two sisters and nine grandchildren.

'Babe' Routh

BIG SPRING - Joe H. "Babe" Routh, 76, of Big Spring died Monday in a Big Spring nursing home.

Services were to be at 2 p.m. today in Nalley-Pickle Funeral Home here with Masonic graveside services to follow in Mount Olive Memorial Park in Big Spring

Routh was born in 1903 in Ballinger. He was a retired motel operator. He was married to Bulah Webb on April 6, 1935, in Lovington, N.M. Routh came to Big Spring in 1927. He later lived in Monahans and

Arkansas. Routh was a member of the Church of Christ and was a member and a past master of Marble City Lodge in Dogpatch, Ark.

Survivors include his wife; a sister, Mrs. Berlan East of Fort Worth: two half sisters, Nell Youngblood and Kathlyn Routh, both of Santa Monica, Calif.; a half-brother, Will Edwin Routh of Alvin, a nephew and a

Marvin never meant to share life with mate

LOS ANGELES (AP) - Actor Lee Marvin, defending himself in a landmark \$1.8 million lawsuit, contends he never meant to share his life or property with his former live-in lover, Michelle Triola Marvin.

The 55-year-old Marvin concludes his testimony today as the star witness for the defense and then faces attorney Marvin Mitchelson's efforts to shake his story.

Miss Marvin, 46, who livzd with the film star for six years, claims she should receive half the assets he accumulated during that time - from 1964 to 1970. The assets are estimated at \$3.6 million.

A portion of her claim seeks payment for such services as homemaker, companion and personal adviser. But Marvin, in his testimony Fri-

day, tried to show that Miss Marvin spent little time with him and that when they traveled, homemaking was done by maids and Miss Marvin hardly ever cooked.

The former showgirl, who says she is a gourmet cook, was visibly angered by Marvin's comments. After listening to his testimony, Miss Marvin told reporters bitterly: "I should have slapped his face a long time

Marvin was solemn as he testified about the affair which ended nine years ago on the beach at Malibu. He spoke of arguments with Miss Marvin, of times that were "tolerable." but never mentioned romance or happy days.

What broke up the love affair? Marvin said he and Miss Marvin argued constantly about his close friendships with stuntmen and crewmembers on his movies.

"She disapproved of the men I spent my time with and admired," he.

Superior Court Judge Arthur Marshall has estimated that testimony and final arguments will conclude.

Everett J. Grindstaff

Lions to hear Grindstaff on Wednesday

The Midland Downtown Lions Club will be host Wednesday noon to Everett J. "Ebb" Grindstaff of Ballinger, who will address club menbers and guests at their meeting in the Midland Hilton.

Grindstaff, a past Lions district governor and a former director of Lions International, presently is a candidate for 3rd vice president of the international association. He has the support of the Downtown Lions Club, as well as other Lions clubs here and throughout Texas. The election will be held at Montreal, Canada in July.

Program Chairman Duke Jimerson said Grindstaff will discuss Lionism in its varying phases in his Midland address.

Grindstaff, a practicing attorney at Ballinger since 1956, has distinguished hinself in local, state and national bar circles, in addition to his varied civic work at local, regional and state levels. He has been an outstanding Jaycee at Ballinger and has served as president of the Ballinger Chamber of Commerce and as chairman of the Water Resources Conmittee of the West Texas Chamber of Commerce. He is chairman of the Upper Colorado River Authority and is active in the First Baptist Church at Ballinger.

Banks cleared in Cleveland

CLEVELAND (AP) - The Federal Reserve Board has cleared a city bank and a utility of wrongdoing in Cleveland's default last December, and has warned banks holding Cleveland notes against being too lenient, the Cleveland Plain Dealer says. Quoting an unnamed senior federa

bank regulator, the Plain Dealer said in today's editions that the board found no wrongdoing on the part of the Cleveland Trust Co. and the Cleveland Electric Illuminating Co.

The board's report warned banks against extending further credit to Cleveland, which has been in default since Dec. 15 on \$14 million in bank loans, until its financial situation stabilizes, the newspaper said. Mayor Dennis J. Kucinich, who

asked the chairman of a House banking subcommittee on Jan. 22 to request the investigation, said he would comment after he had seen the report. Bob Weissman, a top Kucinich aide, said the Federal Reserve Board is "a banker's bank." Meanwhile, City Council President

George L. Forbes said he had been able to confirm the preliminary report's findings through contacts in Washington. Forbes said he feared that six city banks holding city loans would go to court to force payment of the \$14 million.

Forbes predicted that the city's budget, currently being studied in council hearings, may be amended Wednesday to include an appropriation for the money.

Kucinich has said he can pay off the loans with the proceeds from a 50 percent boost in the city income tax. The increase took effect March 1.

The mayor had charged that Cleveland Trust chairman M. Brock Weir insisted that the city sell its Municipal Electric Light System to CEI as a condition for refinancing Cleveland Trust's loans to the city. Kucinich said Weir had offered to arrange a \$50 million emergency bond issue if the city would sell Muny Light.

Voters decided by a wide margin in a Feb. 27 referendum to raise the city income tax and keep Muny Light.

Consumer advocate Ralph Nader had also asked in January for an investigation of Cleveland Trust and CEI, saying he thought they were engaging in "a kind of institutional extortion.

CEI sent its employees, stockholders and residential customers a letter defending the company on Monday. The letter, signed by CEI's board

chairman and president, repeated the company's denial that it conspired with Cleveland Trust last December. CEI also insisted Muny Lwght has never been a check on CEI rates.

A \$330 million antitrust lawsuit brought by the city against CEI is pending in Cuyahoga County Common Pleas Court.

Symposium on police scheduled in Austin

AUSTIN, Texas (AP) - A symposium on contemporary issues in Texas police-community relations will be held March 23-24 in San Antonio, Austin Police Chief Frank Dyson said today.

Dyson is co-chairman of the sympo-sium with Ruber Bonilla Jr., Corpus Christi, state director of the League of United Latin American Citizens.

Volcanoes observed on Jupiter moon

LOS ASNGELES (AP) - Immense where but on Earth. And Io's volcavolcanoes, the first ever seen erupting on another world, are spitting ash, dust and gas above the orange surface of the moon Io, the latest discovery from Voyager 1's epic encounter with Jupiter.

"It's incredible. We've found five or six (erupting volcanoes) and they're still finding more," planetary geologist Larry Soderblom said Monday. This surface has to be the most active in the solar system. (The Jovian moon) is continually recycling its innards out onto the surface.'

The eruptions - which spew volcanic materials nearly 200 miles above Io's surface - were found Friday as scientists at the Jet Propulsion Laboratory examined thousands of pictures taken by Voyager. The ship sailed past Jupiter and its moons March 5.

Excited scientists worked through the weekend to confirm the disco-

One picture shows a fountain of volcanic debris rising like an umbrella over the surface. Another shows at least three volcanoes erupting simultaneously

Long-dead volcanoes exist on Mars, Mercury and Earth's moon, but these are the first active ones seem any- ed.

noes are much more powerful and active than Earth's occasional eruptions, scientists said.

Soderblom said rock and dust explodes out of Io's apparently molten interior at speeds up to 2,000 mph, about the velocity of a high-powered rifle bullet.

most exciting thing to come out of the Voyager mission so far," said Bradford Smith, who heads the Voyager photography team. The spacecraft now is millions of

The discovery "is probably the

miles past Jupiter and racing toward a rendezvous with Saturn in November 1980. A sistership, Voyager 2, will take another close look at Jupiter and its 13 moons this July.

Io is the closest to Jupiter of four planet-sized moons. It was a major target of Voyager's 11 cameras and instruments.

The intense volcanism apparently solves the puzzle of Io's missing meteor craters. One of many surprises in Voyager's pictures was the almost total absence on Io of craters left by meteors that pound every other object in the solar system, including other Jovian moons.

The answer, said Smith, is that Io's surface is being constantly recreat-

St. Louis teachers vote to return to classrooms

ST. LOUIS (AP) — Beating a court order by one day, public school teachers are returning to work after voting by a large margin to end a strike that has shut St. Louis schools for 56

The teachers go back today; the system's 74,000 pupils are to return to classes Wednesday.

About three-quarters of the system's 4,600 teachers and staff personnel voted Monday night to end the walkout, which was called to press demands for higher pay, smaller class sizes and more benefits. School board President Anita Bond

said an additional \$1.45 million in state funds made available by Gov. # duty assignments and, board adher-Joseph Teasdale plus \$600,000 from four private businesses helped bring about the accord during a marathon bargaining session over the week-"It's the first time, we believe, that

in any place in the United States the private sector has come forward in this fashion," she said. "We are deeply grateful.' Robert Jensen, an American Federation of Teachers negotiator, said the

new two-year pact wa approved by a "substantial to overwhelming" mar-"All that's left is for the teachers to go back to work and the kids to go

The teachers ratified the agree-

back to class," said Jensen.

Ivan Lee Holt Jr.'s Wednesday deadline for their return to the class-Under the agreement, makeup days

ment two days before Circuit Judge

will be scheduled to ensure 174 days in the classroom for the city's schoolchildren in accordance with state and federal funding guidelines. The new contract calls for raises

laries from \$9,650 to \$10,150 now, to \$10,400 next fall and to \$10,900 in 12 months. The teachers, in addition to their pay gains, received increased insurance benefits, more pay for extra

that increase beginning teachers' sa-

ence to class size requirements set by Teachers had been seeking a \$3,150 increase over two years, \$1,000 more than the board's offer. Salaries under the old contract ranged from \$9,650 to \$17,250 for teachers with bachelor's

Meanwhile, in Baton Rouge, La., many of the district's 3,900 teachers walked picket lines Monday to demonstrate their demand for collective bargaining rights. Schools remained

The Baton Rouge school board meets Thursday. Teachers have threatened to take a strike vote if the board refuses to negotiate with

Camp Fire Girls Week

Midlanders this week are becoming better acquainted with their Camp Fire Girls and their varied activities through a series of special happenings designed to serve others.

The occasion is the celebration of the organization's 69th birthday anniversary which is being held in connection with the annual observance of Camp Fire Girls Week.

It is a great and meaningful occasion to which Camp Fire Girls each year look forward with anticipation.

Perhaps you noticed the picture in Sunday's issue of The Reporter-Telegram of three Camp Fire Girls (Blue Birds) presenting cupcakes to Midland firemen. This act is in line with a longstanding tradition of Camp Fire Girls Week, when members become more visible than usual in their community by performing specific projects serving it and its residents on a day-by-day basis

during the week-long observance. The baking of homemade cupcakes for neighborhood firemen is one of this year's projects, along with cleaning up .

vacant lots, visiting nursing homes and entertaining residents with song or puppet shows, making tray favors for the hospitals, making bandages for the Red Cross and performing other services. >

This valuable, far-reaching program really makes the participating girls something special in the community.

Although many of the organization's general objectives have remained the same from the beginning, others have changed to meet the needs of changing times. Today's expanded, far-reaching programs in multiple areas of life help mold individual character and provide young people with opportunities which help them grow mentally, physically and spiritually.

The program levels for Camp Fire Girls are Blue Bird, ages 6-8; Adventure, ages 9-11; Discovery, ages 12-13, and Horizon, ages 14 and older.

Midlanders direct a snappy salute to all Camp Fire Girls and their volunteer leaders on their organization's Birthday Week observance, in appreciation for all their good works.

Montana is a long, long way from New York City, where a young woman named Kitty Genovese was murdered on the street amidst uncaring, unresponsive neighbors. representing a harsh reality of

But even Montana, which is so famed for Western hospitality, is now apparently infected by New York's Genovese Syndrome.

When firemen, fighting a fire at the home of Harry Petroff, a railroad employee, learned that he had failed to join the rural subdivision fire department association, they turned off their hoses and let the dwelling burn to the ground. Good Grief! And what is our great nation coming to, when things like this occur?

It mattered not that Mr. Petroff and his family had just moved from another city, had been in the house only hours, and knew nothing about joining the association and paying its \$25 intiation fee and \$15 annual dues as a pre-condition of protection.

This makes it all the worse. And it happened in the West, which certainly is most unusual. These firemen put their association and its fees and dues ahead of everything else.

And a Gallatin County fire truck which went to the scene did nothing because the fire marshal said he is authorized to cover only unpopulated areas not protected by private associations.

For the same good reason that Sen. William Proxmire, D-Wis., bestows his famous Golden Fleece award for stupid, wasteful government projects, there should be a Kitty Genovese award for those guilty of cruel indifference to human loss or suffering.

Montana's Rae Fire Department and the Gallatin County fire marshal merit nomination as being unusually deserving of the distinction of being co-winners of the first Genovese award.

BIBLE VERSE

Confidence in an unfaithful man in time of trouble is like a broken tooth. and a foot out of joint. - Pro. 25:19.

Old game, but with new players

By JACK ANDERSON

WASHINGTON - Sloppy work-manship and waste on a \$5.6 million government contract at Malmstrom Air Force Base, Mont., have apparently been winked at because of the contractor's real or suspected political influence.

A troublesome project engineer was quietly reassigned. The contract officer began accepting work that inspectors had pronounced unsatisfactory. The contractor ignored inspectors' complaints. Meanwhile, the Air Force brass seem more concerned about keeping the contractor happy than in seeing that the work is properly done.

It's not unusual for inspectors, whose job is to prevent excessive cost and shoddy performance on government contracts, to find their efforts thwarted by political interference from Capitol Hill on behalf of a favored contractor.

The irony is that frequently this intercession is only pro forma, the kind of service every member of Congress is expected to provide for constituents. But the agency officials involved have no sure way of determining this. When a contractor exaggerates the degree of political influence he can summon, officials tend to knuckle under, rather than call the contractor's bluff and risk antagonizing a senator or congressman.

This seems to be what happened at Malmstrom, where Praxis Ltd., of Alpine, Utah, was awarded a \$5.6 million contract to renovate 492 housing units on the Montana air

WASHINGTON MERRY-GO-ROUND

The Praxis bid was about \$1 million lower than the Air Force's own estimate of what the job should cost. "Their plan was to do marginal work and then find the weak links in the government system to get it accepted," an Air Force official told our associate Peter Grant.

Problems developed almost from the start. Faulty workmanship reported by Air Force inspectors and confirmed by two of our associates on the Great Falls Tribune who made an on-site inspection for us included warped doors, improperly fitted siding, bulging walls, cabinet doors and drawers that don't fit, badly sanded walls and large holes around poorly installed electrical fixtures and plumbing.

Despite these numerous and obvious flaws, 444 of the units have been accepted by the Air Force and are currently occupied.

The turning point in the contract an abrupt switch from refusal to acceptance - came after the intercession of Sen. Orrin Hatch, R-Utah. Asked for help by Praxis Ltd., Hatch first met with Air Force officials in Washington, including Gen. Dewey Lowe, head of contracting. Then he sent his aide John Haddow to Malmstrom for a meeting with Air Force and Praxis representatives at the base.

Our sources say the ranking government official present, Harry Hall of the Strategic Air Command, agreed with Praxis that inspectors

were being "overzealous." Oddly enough, neither the project engineer nor the inspectors involved were invited to the meeting.

HEMISPHERE REPORT:

By WILLIAM GIANDONI Copley News Service

president of the Latin American Studies Association, was entitled

"The Carter Administration and Latin America: Business as Usual?"

The error, the thrice-repeated reference to Gen. Omar Torrijos as "president" of Panama.

That should surprise Demetrio B.

Lakas, who was president of the isth-

mian republic from 1972 to 1978. His

six consecutive years in office set a

record in Panama's three-quarters of

Of course, it is true that Gen.

a century as an independent republic.

Torrijos was considered "maximum

leader of the Panamanian revolution," as it was put in Spanish, or "chief of government," as he was

called in English, and he outranked President Lakas.

ran things in Panama, the dictator.

And he was right up to last Oct. 11

when Aristides Royo, the youthful educator-diplomat he handpicked,

Clearly, Torrijos was the man who

three pages.

It makes you wonder.

The net result was that the Air Force began bending over backward to keep Praxis happy. The project engineer and Praxis' principal critic, Ronald Meyers, was taken off the job. An official told us that, "requirements of the contract are now being interpreted as to whether it will make the contractor mad and bring Sen. Hatch back into the act."

Ben Shippen, principal owner of Praxis, told us he called on Hatch only as a last resort; Air Force officials say that Praxis had been invoking the senator's name for a long time.

The "Hatch connection" which carried such weight with the Air Force, was more than the normal relationship between a senator and a constituent. Shippen is the chairman of Hatch Associates, a group raising funds for Hatch's 1982 re-election race. Praxis' attorney, William Nixon, is an old friend of the senator's and contributed \$1,000 to his 1976 campaign. Nixon's wife is the manager of Hatch's Salt Lake City senate office.

Praxis officials claim they asked for Hatch's help because the firm was being discriminated against by Air Force employees as a non-union company. Shippen said inspectors refused to accept Praxis' work that was as good as that done by union contractors, and said his firm's workmanship was no worse than any other at the base.

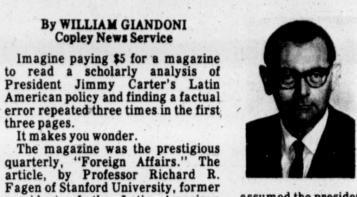

For his part, Hatch insists that he did not intervene to bring pressure on the Air Force but only to "clear the air." He said he was as concerned at the possibility that his name was being used to threaten the Air Force as he was at his friend's allegations of unfair treatment.

CANCER CURE? Dr. Linus Pauling's championship of ascorbic acid - vitamin C - for treatment of cancer may be in for a closer look by the overwhelmingly skeptical scientific establishment

The Nobel laureate's claim that massive doses of the vitamin can produce dramatic remission in some severe cancer cases has been scoffed at by other cancer researchers.

That attitude may be changing. The respected journal, Cancer Research, will soon publish a lengthy article examining the role of vitamin C in treatment of advanced cancer cases.

CONGRESS PROBE: Ralph Nader, the tireless consumer advocate, has launched a new muckraking publication called Congress Probe, which will investigate the mistakes and misbehavior of our representatives on Capitol Hill. Welcome to the club, Ralph.

The United States lacks

clout in Latin America

assumed the presidency, and Torrijos returned to being commander of the

National Guard. The fact Torrijos was a dictator posed a problem for those who seek to justify President Carter's policy toward the other American republics.

As Fagen noted, the Carter policy toward Latin America initially was limited to "the decision to accelerate the negotiation of the Panama Canal treaties and the decision to explore more correct, if not actually warmer, relations with Cuba."

Both were goals loudly applauded by U.S. liberals, including those who find it hard, if not impossible, to tolerate any rapprochement with Latin America's right-wing, anti-Communist dictatorships.

Apparently most liberals found it easier to accept the U.S. attempt to work out long-lasting agreements with the Panamanian revolutionary government if Torrijos were referred to as "president." To have called him maximum leader or chief of government probably would have grated on the sensibilities of idealists who learned that those were euphemisms for dictator.

However, as Fagen indicates in his article, the only successes for which the Carter administration can take full credit are conclusion of the Panama Canal treaties and the opening of U.S. and Cuban govern-ment offices, called "interest sec-tions," in Havana and Washington.

Carter's human rights policy initiatives in Argentina were thwarted by pressure from the U.S. business community, Fagen in-

The "timid, too-little-too-late approach of the Carter administration to Nicaragua" can be explained by "a continuation of cold war attitudes and policies" that give rise to the fear a Sandinista victory there would open the door in Central America to Cuba and the Soviet Union.

Fagen termed the presidential election in the Dominican Republic for the (Carter) administration's human rights effort in Latin

He credited the "immediate and sharp protests from the United States, coupled with a generalized protest from the more democratic governments of Latin America and Europe" with preserving the victory of the opposition presidential candidate, Antonio Guzman.

But, on the whole, Fagen's appraisal was pessimistic.

"Even if the worst excesses of torture and the denial of civil and political liberties are reduced in the hemisphere, the majority of the region's citizens will continue to live lives of poverty and much reduced opportunities, while a minority will continue their progress toward Western standards and styles of life," Fagen wrote.

Here, then, is the heart of the policy dilemma that faces the Carter administration."

Mark Russell says

When I read that the New Jersey Gambling Commission declared Resorts International to be free of organized crime I wept. I always cry at exorcisms.

The high commissioner stood among the crap tables, raised his arms and cried, "Away, away, all ye vile and wretched devils of the underworld. I declare this place to be pure!"

The gamblers dropped to their knees and cried tears of joy. And looking up to the high commissioner, they cried out — "He has washed away the evil syndicate of gambling. Truly, a miracle.'

"All praise to the great gods, Bac-

Yes, in this sometimes dark and wretched life, we know there is a better world - New Jersey. Just follow the yellow brick turnpike and

the small society

NICK THIMMESCH

Dr. Stein prescribes hard medicine for inflation

WASHINGTON - Since the President announced his anti-inflation program last October - eventually shooting for a goal of 6.5 percent for 1979 — inflation has run at an annual rate of 13.4 percent, and shows no letup. The fretting in the White House over this politically debilitating trend must equal that of Carter's effort to get a Middle East peace settlement. My, oh my, is what Dr. Herbert

Stein seems to be saying about this development. Being a conservative economist and a former chairman of the President's Council of Economic Advisers (in a Republican administration), Stein thinks much of the Carter program is near useless. So does 76 percent of the public, according to an ABC News-Harris survey taken a few weeks back.

"These programs have their greatest glory in the early days," Stein observers, "and then begin to run down. Basically, the Carter program is untenable to the American people. He is asking everybody to behave as if the rate were 7 percent or less, when it is 9 percent or higher.'

President Carter called on business to voluntarily hold price increases to 5.75 percent, and labor to hold pay hikes to 7 percent. He has also asked Congress to pass a law making "workers in groups" (meaning unions) eligible for a tax rebate if inflation goes over 7 percent, thus

"real wage insurance." "Voluntary programs come close to being mandatory anyway," Stein says. "Even if you call it mandatory, unless you want 100,000 price-policemen around, it depends on voluntary coopertion. We saw that in 1973, when we (Nixon Administration) had price-

Nick Thimmesch

wage controls. 'Certain parts of the economy begin to revolve, parts you cannot control like agriculture, imports, small business sales, wages of unorganized low-income workers. When these rise, you cannot keep the rest of the price system under control.

"As for real wage insurance, it is inequitable, a pacifier for labor. You give a tax rebate to a selected group, based on their membership, and it isn't given to business, farmers, people on fixed incomes? It's unlikely Congress will ever approve that.

"The trouble is that this is all bad education, giving people an easy way out, telling them they don't have to take the hard medicine.

Stein's hard medicine is strict monetary policy ("the key") and prudent federal budget management. Stein welcomed the "sharp change" in monetary policy made last November, "a change very much in the right direction, toward strength. The question is, will they stick it out as the economy slows and unemployment increases? I am encouraged they

Ostensibly, Presidents don't set monetary policy, the Federal Reserve Board does, and Stein sees no evidence that Carter is signaling the

board now. "There was a time in 1977 and in early 1978 when the Administration seemed to be pressuring the Federal Reserve to be more expansive." The Administration now seems to be supportive of the restrained monetary policy." He gives good marks, too, to

Carter's budget trimming, feels more can be cut and believes the deficit will run from \$35 to \$40 billion, instead of Carter's optimistic goal of \$29 billion. "My complaint about the Carter budget is not about the upcoming fiscal year but about lack of planning for the future," Stein says. "You can't get a balanced budget by 1981 with a quick snap-back in the economy. And it is unrealistic to include no tax reduction in the next two years.'

Stein is a calm sort, not given to hyping anything, least of all the economy but he believes defense spending should be hiked because he feels the military position of the United States is insecure, that "we are in more external danger than at any time since the battle of Midway," a turning point in the Pacific during

World War II. He would be content to let our gross national product, which grew last year at an annual rate of 12 percent (9 percent inflation plus 3 percent real growth), settle down to 6 percent (3 percent inflation, plus 3 percent real

'We can get down to that in five years if we are steady and determined," Stein says. "The Japanese and Germans did by restraints on monetary policy and the economy.

"For years we were accustomed to

having one of the world's lowest infla-

tion rates. I remember in 1958 writing

a defense against inflation and worrying about two successive years in which the rate was 2 percent. Looking back, that was bliss. It is difficult to undo inflation. It gets built into the

Stein believes all of us fret too much over economic statistics, as though we were constantly jamming thermometers in our mouths to take our temperature. "We just keep ourselves in a constant state of excitement and anxiety," he says.

"If one looks at the American economy over the past 20 years, one sees that average real income has increased, that we steadily become better off. The number of employed is at an all-time high. The number of poor is declining. These underlying trends of strength are obscured by constant looking at little fluctuations.

"This fussing has serious consequences, becuse the world - and we, too - see our country as having a weak, struggling, impotent economy - which isn't the case at all."

NEWS IN BRIEF Parity prices would destroy family farms KANSAS CITY, Mo. (AP) — Farmers who rode their tractors into Washington last month to press

their demands for higher farm support prices were in effect asking for the downfall of their own family farms, says Agriculture Secretary Bob Bergland said Monday that the higher government support prices farmers want for their products will only price the United States out of the export market, raise food prices to a disastrously high

level and destroy the family farm through soaring The warning was delivered to 1,500 delegates at a National Farmers Union convention whose theme is "Family Farms - Save Them While We

Land costs have risen 15 percent annually the last seven years, Bergland said, rapidly driving the small farmer out of business and preventing young people from getting into agriculture - except as tenants for wealthy landowners and corporate giants.

He said changes must be made in current tax policies that provide incentives for the wealthy who buy land for capital gains, yet provide nothing for the small farmer with a moderate income.

Demand causes oil crisis

ODESSA - Demand by the American public is the reason energy problems in the U.S. are worsening, former Railroad Commissioner Jon P. Newton told oil and gas representatives Monday night.

Speaking at a five-day seminar on deep-drilling technology at The University of Texas of the Permian Basin, Newton told the gathering energy consumption in the U.S. during the past 23 years has doubled, while the gross national product has increased in real terms by a much lesser amount.

The former commissioner said domestic crude oil production is down 5 percent, but would have de-clined by 17 percent without development of the Alaskan north slope. Howevever, Newton said he believes the U.S. can

meet the challenge posed by energy problems and avert economic catastrophy. To do that, he added, a "less indulgent populace" will need to develop technical innovation in design to

make deep drilling economically feasible.

The seminar continues at UTPB through Friday

Chagra appeals to Kennedy

DALLAS (AP) - Relatives of slain defense attorney Lee Chagra of El Paso have appealed to Sen. Edward Kennedy of Massachusetts for help in investigating the shooting death and ensuing federal grand jury probes into racketeering.

The appeal came from former pro football player Roosevelt Grier. A spokesman for Kennedy, chairman of the Senate

Judiciary Committee, said in a telephone interview that Grier called last week to ask the senator's The spokesman said no decision has been made on

An FBI agennt investigating the case said, "Seems to me they're trying to swat a fly with a baseball bat. I can't imagine why they'd want to drag Ted Kennedy into this." Joe Chagra, an attorney and younger brother of

whether to enter the case.

Lee, said the family sought Kennedy's aid through "Yeah, I think JoAnne (widow of Lee Chagra) is the one that got it started," Joe Chagra said. "Rosie was a good friend of Lee. Lee used to handle cases for him - poor black kids in California. Lee would represent these kids for free. I think he met Lee in

Las Vegas." Border gunfire exchanged

BEIRUT, Lebanon (AP) - Palestinian guerrillas and Israeli border gunners exchanged artillery fire today on the last day of President Carter's Mideast peace mission. Lebanese authorities said a child was killed and three Lebanese civilians wounded by an

The casualties occurred when the shell exploded near a school in Zotar, 14 miles north of the Israeli border, said a spokesman for the governor's office in Sidon, the southern Lebanese capital.

Three Israeli warplanes buzzed Beirut, drawing anti-aircraft fire from Palestinian guerrillas and Syrian troops, but none of the planes was hit, Lebanese army sources said. The Syrian troops are part of an Arab League force in Lebanon to keep peace between rightist Christian and leftist Moslem groups.

Davis hearing March 19

HOUSTON (AP) - District Judge Wallace Moore has scheduled a hearing March 19 to hear arguments by defense attorneys seeking a change of venue for the murder solicitation trial of Fort Worth millionaire Cullen Davis.

Davis was tried in Houston on charges of hiring a hit man to kill the judge who was presiding over his lengthy and bitter divorce trial. A mistrial was declared after a jury, after more

than 40 hours of deliberation, failed to reach a Defense lawyers said Davis could not receive a fair

retrial in Houston because of the massive publicity during the first trial. U.S. will change money supply rate

WASHINGTON (AP) - Charles Partee, a governor of the Federal Reserve Board, said Tuesday the board will not hesitate to adjust the money supply if the economy begins falling toward a recession.

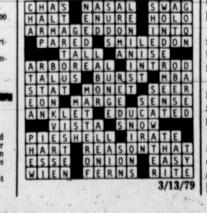

However, Partee told the House Banking subcommittee on domestic monetary policy, "We don't find that credit is unavailable or unusually tight. We don't get that kind of signal ... at this time.

"If we do, we certainly will be guided strongly by the need to adjust the money-supply growth rate," he Partee said that any premature move by the Federal Reserve to expand the money supply would

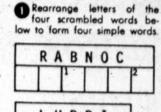

hurt the fight against inflation and "I'm not prepared to do that." Rep. Parren J. Mitchell, D-Md., chairman of the subcommittee, said he was gravely concerned that the Federal Reserve Board's tightening of money

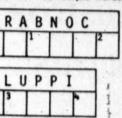

supply would lead to recession. Partee said tight money does not always mean recession, pointing to 1962 as one year in which a sizable decline in the growth of the money supply did not precede a decline in the economy.

He said the subcommittee may be paying too much attention to the narrowly defined money supply cash and checking accounts - and not enough to credit availability. "Credit expansion continues at a 3/13/79 high rate," Partee added.

Lear acquires Brookhaven

DALLAS - Lear petroleum corp. announced it has acquired all of the capital stock of privately-owned Brookhaven Oil Co. for approximately \$9.2 million in cash and notes.

President Max W. Woodard estimated that Brookhaven owns reserves of approximately 15.3 billion cubic feet of natural gas and 87,000 barrels of oil and natural gas conden-

Brookhaven has working interests in 100 gross wells and royalty interests in 415 gross wells. Virtually all of the reserves are located in the San Juan Basin area of northwest New Mexico.

"Based on our estimate of Brookhaven's natural gas reserves," Woodard said, "this acquisition will, in our opinion, increase Lear's natural gas reserves by more than 70 percent.'

Woodard also said Lear has acquired 18.5 percent of Dacresa Corp. capital stock, an affiliated company of Brookhaven, whose properties are compatible with those purchased from Brookhaven.

Lear has extended its offer to purchase the remaining outstanding stock by dacresa stockholders to March 7, 1979.

Purchase planned

PITTSBURGH, Pa. - International Paper Co. and Gulf Oil Corp. jointly announced they have agreed in principle for Gulf to acquire the oil and gas operations of General Crude Co., an International Paper subsidiary, for approximately \$650 million.

Gulf will also undertake a substantial exploration and development program on International Paper's prop-

The hard rock minerals, agricultural properties, water rights, GCO Drilling Company and certain industrial real estate are not included in the transaction.

International Paper's board of directors has approved the proposed transaction, and the parties are working on definitive agreements which will be subject to approval of the boards of directors of both companies and to the satisfaction of other terms and conditions.

General Crude, headquartered in Houston, had net daily production of 26,700 barrels of crude oil and 103 million cubic feet of natural gas during 1978. Its producing properties are primarily in Texas, Louisiana and the Gulf of Mexico, with some production in Canada and Barbados. Other foreign and domestic petroleum exploration acreage is also involved.

Frizzell re-elected

ABILENE - Jack Frizzell, president of Enrich Oil Corp. cf Abilene, was re-elected president of the West Central Texas Oil & Gas Association during its 46th annual meeting Monday in

Gerald Cockrell, with WES-TEX Drilling Co. of Abilene was elected a new vice president.

Re-elected as vice presidents were Harry M. Bettis, Graham, and Dorman Farmer and Stacy Smyre, both of Abilene.

Frank Spiva of Abilene was re-elected treasurer.

Deepwater port plans go to governor

AUSTIN, Texas (AP) - Plans to build a deepwater port for super oil tankers off the coast from Freeport have gone to Gov. Bill Clements for his approval, or veto.

The Senate approved 31-0 Monday the changes made by the House in the Senate-appproved bill.

Clements said last week he would study the bill before deciding whether to sign it. He said he did not object to the state owning the port but thought it should be operated by private in-

The \$2.4 million appropriation would go to the Texas Deepwater Port Authority. The authority could spend the bulk of the money only after securing Clements approval and getting a federal license for the port.

The port would be built in the Gulf of Mexico 26 miles south of Freeport and would consist mainly of buoys attached to pipelines that would carry oil from ships to storage tanks on

The \$2.4 million would go to issue bonds to build the installation which would be paid off by would be paid off with revenue from oil companies that use the deepwater terminal. The House reduced the appropria-

tion, called for it to be used in three stages, and limited spending depennents approval and secur ing a federal license.

- Approved 31-0 and sent to the House a bill that would allow cities to contract with the Texas Parks and Wildlife Department for beach cleanup without going through a county commissioners court.

Approved a bill giving the Board of Nurse Examiners injunctive power, passed to House 29-0. - Approved a bill allowing the

Board for Lease of State Parks Land to enter oil and gas leases for any state park, passed to House 29-0. - Refused to debate 11-18 a bill requiring contract of sales to be re-

corded with the county clerk The House passed and sent to the Senate, 133-0, a bill providing criminal penalties for doctors who prescribe drugs on the "controlled sub-

stances" list without a medical rea-

deeper oil and gas drilling. He said the University of Texas "stands ready" to help develop the technology needed for deeper oil and gas drilling, especially in Texas.

"We can and will solve those new problems with new technologies so that the risks and costs involved in finishing deep wells and bringing them into production will be as low as feasible," Newton said at a banquet marking the first day of a deep drilling seminar at UTPB's Center for Advanced Pegtroleum Technology.

"The university stands ready to undertake this new research, and resources must be available for this purpose," he said. Newton said the new sources of

energy can add to the Permanent University Fund as well as help solve the energy crisis.

The fund is made up largely of royalties from oil and gas on the 2.1 million acres that belong to the university system. "Call it greed if you like, but if there

is deep gas and oil down there below UT lands, I want to get at it," Newton

Newton, appointed a regent in January by former Gov. Dolph Briscoe. said "first, as a former member of the Railroad Commission, an now, as a citizen who retains an intense interest in the whole subject of oil and gas, I recognize the towering implications that deep drilling holds for the energy industy, for our economy and four our position of leadership and strength in the world."

"But, lest you think I am completely absorbed with altruism, there is a second reason for my keen interest in these proceedings (the CAPT seminar): pure, unabashed self-interest," Newton said.

He explained. "As a newly appoint-

Administration officials start price discussions

Associated Press Writer

WASHINGTON (AP) - With Americans ignoring pleas to hold down fuel consumption voluntarily, mandatory controls may be needed by this summer, says Energy Secretary James R. Schlesinger.

The first step probably would be maximum and minimum thermostat settings in public buildings, he said. Even with a resumption of oil imports from Iran, shortages of unleaded gasoline, jet fuel and home heating oil are likely, Schlesinger told a Senate committee Monday.

Administration officials were going before a House Commerce subcommittee today to discuss gasoline supplies and prices.

And another House panel was begining hearings on auto fuel economy rules amid charges by consumer advocate Ralph Nader that the auto industry is gearing up for a major attack on those standards. "In private meetings of attorneys

and allied groups in Washington, the auto companies are preparing to launch one of their characteristic 'big lie' campaigns, replete with phony premises and contrived conclusions, Nader said Monday in a letter to Rep. John Dingell, D-Mich..

Nader said the the auto makers plan to use as "one of their springboards" hearings opening today before a subcommittee headed by Din-

Under a 1975 law, automakers are required to make their cars average 27.5 miles per gallon by 1985 as an energy-saving measures.

Dingell, a major supporter of the 1975 law, was not available for comment on Nader's letter. A Dingell aide, who asked that his name not be used, said the auto industry has advocated lessening interim standards for the early 1980s, but, "We haven't heard anything about watering down the 27.5 mile-per-gallon standard." Reacting to Senate critics who have

called for his resignation on grounds the administration is not doing enough to drive home the seriousness of the energy crisis, Schlesinger told the Senate Energy Committee Monday he has already tried to quit several times.

Sen. John Durkin, D-N.H., accused Schlesinger of "stumbling through" the current crisis and told him he should resign. "This country faces a serious crisis

the opportunities are splendid for demagoguery,," Schlesinger responded. "As to my own resignation, I have offered it several times. This is not a responsibility that is entirely pleasurable on a day-to-day basis.' Talking to reporters later, Schle-

singer declined to elaborate on his resignation offers beyond saying that he tried to quit several times and had his efforts rejected by President

In another development Monday, Barbara Blum, deputy administrator of the Environmental Protection Agency, told the House Commerce oversight and investigations subcommittee that her agency and the Department of Energy have informally reached agreement on a rule to prohibit price differences between leadthan 5 cents a gallon.

She said the rule, to be issued in June, would be aimed at preventing wholesale "fuel switching" by owners of autos that take unleaded gasoline.

. The increasing price gap between regular leaded gasoline and unleaded fuel is drawing motorists into using leaded gas in vehicles requiring unleaded gasoline, she said. This ruins emission-reducing catalytic converters, increasing air pollution, she tes-The president's call for Americans

to observe the 55 mph speed limit, eliminate discretionary driving, turn thermostats down to 65 degrees and turn off lights and appliances when not in use "is not working effectively," Schlesinger testified.

He said daily U.S. oil consumption has reached an all-time high of 21 million barrelw a day.

The first step likely to be taken under a program of mandatory conto not higher than 65 degrees or cooled to not lower than 80 degrees, Schlesinger said. Meanwhile, Texaco, the only oil

trols, perhaps by this summer, would

be to order all public buildings heated

producer to report a significant strike in the Baltimore Canyon Trough, said Monday in Atlantic City, N.J., its second exploratory well had come up

The second well was drilled to confirm a "significant" strike of natural gas made last August under the Atlantic Ocean about 106 miles east of Atlantic City, N.J. The second hole was drilled 1.5 miles west of the origi-

Texaco's unsuccessful effort - the tenth dry hole reported in the area so far — was seen as a significant blow to the oil industry's prospects in the once-promising area off New York, New Jersey, Delaware, Maryland and Virginia.

Three House members offerflat-rate tax on gas

AUSTIN, Texas (AP) - A flat-rate natural gas tax that would build and fix state college buildings with non-Texans' money was recommended Monday by three House members. Colleges outside the University of

Texas and Texas A&M systems now use the 10-cent state ad valorem tax for construction, but the tax is under attack in both the courts and the Legislature. A major issue before the Legislature is whether to dedicate another

tax to college construction or simply let the schools compete for legislative appropriations. Reps. Wayne Peveto, D-Orange; Bill Caraway, D-Houston; and Don Rains, D-San Marcos, introduced a

bill and a constitutional amendment that would: Impose a flat-rate natural gas tax for the next two years. It would be 12.5 cents per 1,000 cubic feet in fiscal

1980 and 13.9 cents in 1981. Gas now is taxed at 7.5 percent of market value. Taxing gas on value instead of

Texans because interstate gas prices are regulated while those in Texas are

- Use the added money from the flat rate gas tax plus currently frozen revenue from the state property tax, a total of \$364 million, to endow a State Higher Education Assistance Fund All colleges outside the University.

of Texas and Texas A&M systems could issue bonds, guaranteed by income from investing the fund, for construction and repairs. The Texas College Coordinating Board would determine building needs and set priorities for issuing bonds. UT and A&M both draw on the

Permanent University Fund for their building needs and also have authority to issue bonds backed by tuition.

One provision of the bill likely to incur the wrath of the state's Big Two in higher education would add the University of Texas at Arlington and UT medical schools to those drawing

Indiana State for real

NEW YORK (AP) - It wasn't unanimous, but not everyone believes Indiana State is for real this year except, of course, those teams who've had the misfortune to play against

The Sycamores, 30-0, retained the No.1 position in the final Associated Press college basketball poll for the 1978-79 season Tuesday, collecting 50 of 54 first-place votes and 1,072 points in balloting by a nationwide committee of sport writers and broadcasters. UCLA was a distant second.

"They've won 30 in a row," Virginia Tech Coach Charles Moir said after watching his Gobblers lose to Indiana State 86-69 last Sunday in a secondround NCAA Midwest Regional game. "They're for real.

UCLA, which beat a stubborn Pepperdine 76-71 in a second-round NCAA West Regional game last Sunday, collected two first-place votes and 997 points - 23 more than Michigan State, No.3 this week. The Spartans, who were ranked fourth last week when they clobbered Southland Conference champion Lamar 95-64 on Sunday in a Mideast Regional game, received the other two first-place votes.

The NCAA playoffs played havoc with the remainder of The AP Top Twenty, as five teams dropped out of the poll and the remainder played a wild game of musical chairs.

Notre Dame, which defeated Tennessee 73-67 in a second-round Mideast Regional game, moved up a notch to No.4 with 917 points.

Arkansas and up-and-coming De-Paul also moved up as North Carolina, No. 3 last week and Duke, No. 6 a week ago, were upset in the NCAA tournament play last week. The Razorbacks, No. 7 last week, jumped to fifth with 779 points, while the Blue Demons, unranked a month ago, climbed from No. 8 to sixth with 732

Louisiana State, with 662 points, edged Syracuse for the No.7 spot by a scant five points.

North Carolina, suprised by Pennsylvania 72-71 last weekend, fell to No.9 with 594 points while Marquette rounded out the Top 10 with 573

Injury-plagued Duke, the pre-season favorite, headed the Second 10 with 484 points. The Bue Devils, who finished second to Kentucky in the NCAA playoffs last year, dropped a

80-78 decision to St. John's but played without starters Kenny Dennard and Bob Bender, both out with injuries.

San Francisco, No.19 last week, jumped to 12th followed by Louisville, Pennsylvania, Purdue, Oklahoma, St. John's, Rutgers, Toledo and Iowa,

Penn, Oklahoma, St.John's, Rutgers and Toledo are all newcomers to the Top Twenty this week, replacing Georgetown, Temple, Texas, Detroit and Tennessee - all of whom lost in the NCAA playoffs last

Aggies down Reno during NIT action

By The Associated Press -

While six teams waited to see which clubs would draw byes into the National Invitation Tournament semifinals, six other clubs said their goodbyes to college basketball for the season.

Tournament officials were to gather in New York this morning to decide the dates, locations and matchups of the four teams which will play quarter-final contests later this week.

Two squads from among Old Dominion, Alabama, Indiana, Ohio State, Purdue and Texas A&M, were to obtain byes into the semifinals.

One thing was certain after Monday night's action: the Atlantic Coast Conference is through for the year. A day after highly ranked North Carolina and Duke were upended in the NCAA tournament, Clemson, Maryland and Virginia were ousted from

THUS FIVE of the seven ACC teams entered postseason play, and by midnight Monday, all had been eliminated.

Old Dominion dropped Clemson 61-59 in double overtime, Ohio State topped Maryland 79-72 and Alabama trimmed Virginia 90-88 in NIT action Monday. Meanwhile, Indiana beat Alcorn State 73-69 to hand the minipower its first loss of the year, Purdue beat Dayton 84-70, and Texas A&M trimmed Nevada-Reno 67-64.

"I'm not going to say the ACC is better or that the Big Ten is better than us," said Maryland Coach Lefty Driesell after the Buckeyes got 23 points from Kelvin Ransey to finish the Terrapins.

"No matter what I say, they're going to continue to say they have the best league in the country and we in the Big Ten will say we're the best,"
