Israeli Knesset debates treaty

JERUSALEM (AP) - Prime Minister Menachem Begin opened the Israeli Parliament's ratification debate on the Israeli-Egyptian peace treaty today with a vow never to allow a Palestinian state in the occupied West Bank of the Jordan River or the Gaza Strip or to give East Jerusalem back to the Arabs

"It will not happen," Begin told the Knesset. "We won't agree to it, we won't allow it, we won't make it possible."

Begin said he was replying to a statement by Egyptian Prime Minister Mustafa Khalil that Israel would have to withdraw to its borders before the 1967 Arab-Israeli war, surrender Arab Jerusalem and accept

"My dear, honorable Dr. Khalil," said Begin, "write this down: Jerusalem, the one Jerusalem, is Israel's eternal capital. It will never

As the debate opened right-wing opponents of the pact set up a makeshift settlement in the northern Sinai Desert, and a shouting Communist member was expelled from the Knesset after accusing Begin of "selling Israel to the Americans." But observers predicted at least 100 of the 120 members would endorse the pact Wednesday at the end of the two-day debate, which was being broadcast live on television and radio.

Begin planned to leave Friday for Washington to sign the treaty, and Al Ahram, the semi-official Egyptian newspaper, said Egyptian President Anwar Sadat would leave Saturday. The signing at the White House is expected Monday

Al Ahram said Sadat would spend five days in th United States, then return to Egypt to submit the treaty to the 360-member National As-

In Washington, Defense Ministers Ezer Weizman of Israel and Kamal Hasan Ali of Egypt failed to agree on when Israel will give up the offshore Sinai oil fields, the last issue in their negotiation of a timetable for Israel's withdrawal from the Sinai. But both said they were confident the dispute could be resolved before Monday.

The dispute is over "a stupid 60 days or 90 days, not very much," said Weizman before returning to Israel for the Knesset debate.

"Maybe I can do more from there," he told Ali. Israel wants to hold the oil field for the full nine months that its military

Blue law: Free enterprise or threat to family?

AUSTIN, Texas (AP) — Repeal of the so-called "blue law" that prevents the sale of certain items seven days a week-would either give a needed boost to the free enterprise system or cause the family to crumble, conflicting witnesses told a House commit-

"It would take working mothers out of the home on the one day they have to spend with their children. Let well enough alone," said Jeanette Salviati of Caribe Fine Jewelry in San Antonio.

The law "is based solely on economics and as a matter of fact to control competition," said Rep. Bill Ceverha, R-Dallas, sponsor of a bill to repeal

The House Committee on Business and Industry sent his bill to subcommittee along with proposals that would:

-let each county decide for itself whether to repeal it, a measure sponsored by Rep. Robert Valles, D-El Paso.

-repeal the law and also dismiss any pending court cases against alleged violations, sponsored by Rep. Doyle Willis, D-Fort Worth.

The committee's acting chairman, Rep. Doug McLeod, D-Galveston, said the local option proposal had the best chance of receiving a favorable report.

"The people don't want the blue law. It's an irritant to them; it's an inconvenience to them and most of all it's confusing to them," Ceverha said. He said the items that can't be sold were selected

"We find that the confusion causes bad feelings with our customers. It causes problems for our clerks," said Richard Craig of the Texas Federation of Drugstores.

The law does not prevent stores from staying open seven days a week but forbids certain items to be sold on Saturday or Sunday.

The list was developed "by design, directed at the very stores that are primarily closed," said Jack Welch of Marlin, representing the Texas Retailers Association against repeal.

He said the law makes sure that retail employees have a day off.

His association represents department and specialty stores. "The smaller retailers feel they will just practically be put out of business," he said.

Welch claimed the move to repeal the law only had the backing of stores already open seven days a week like groceries and drugstores.

Mrs. Salviati said she came to testify "in hopes I would not have to work every Sunday for the rest of my working years. Working six out of seven days is Rep. Al Edwards, D-Houston, offered a contrast to

the other blue law proposals before the committee by from staying open seven days a week. He said it would conserve energy and make it

easier for people to spend time with their families. 'When we talk about close, why pick on supermarkets? ... Our iceboxes run anyway. You can't save any energy at all," countered Hobert H. Joe of the Houston Retail Grocers Association.

City planning group approves townhouses planned by Magnatex

By LANA CUNNINGHAM Staff Writer

Another segment in the continuing saga of Magnatex versus The People was written Monday night when Midland's Planning and Zoning Commission gave a favorable recommendation to the developer's proposal for a planned district of townhouses.

The townhouse section will be a buffer zone for a retail shopping center proposed by Magnatex. To be known as Midkiff Plaza, the shopping

center will take up 425,000 square feet of a 57-acre space at the southeast corner of Loop 250 and North Midkiff Road.

Magnatex's plan has sparked opposition from a number of persons living in the residential section south of the proposed area. Some residents have filled City Council chambers on two occasions to voice their objections to the project.

Dividing the proposal into sections, the commission at its March 5 meeting gave a favorable recommendation to the "general concept" of the retail shopping center.

Up for review at Monday's session were criteria for the planned district and a preliminary plat for Midkiff Plaza. The preliminary plat was continued until the next commission meeting April 2.

CRAIG EATON, AN urban planner with a Dallas firm, reviewed the townhome buffer plans Monday, saying the residences would be clustered with a screened fence separating them from Apollo Drive in front.

Some landscaped areas will be provided "for water retention," while one in the southeast corner of the development will be used for "a swimming pool and-or water reten-

tion.' Richard Hennessy, director of the planning and community development department, pointed out that the proposal, using "0-lot-line construction," only calls for 40-foot wide lots.

The city zoning ordinance calls for a minimum of 50-foot wide lots for townhouses.

OTHER PROBLEMS with the plan were noted in the staff report, which was circulated among audience mem-

An acceptable drainage plan had not been submitted to the Public Works Department, reported the

Rain, clouds may greet arrival of spring tonight

Typical spring temperatures, but with cloudy skies and maybe even rain, are scheduled to greet the official arrival of spring tonight, the weatherman predicts.

Continued mild temperatures with a chance of showers through Wednesday is the official word from the National Weather Service office at Midland Regional Airport.

This morning's fog and drizzle ex-tended throughout the Basin, but the rain gauge at the airport recorded only a trace of moisture for the last 24

Midland's gauges seemed to agree, with none squeezing more than a few tenths from the gray moisture. Wednesday's high is expected to be in the mid-60s, with the overnight low

in the upper 40s. The weatherman is giving 50-50 odds on the showers continuing through tonight with a 30 percent

chance of showers Wednesday. While Midlanders will have typical spring temperatures for the beginning of the season at 11: 22 tonight, the record temperatures for the date show it is not always so.

Record high for Monday is a sum-

mer-like 88 degrees set in 1976 with the record low a wintry 14 set in

Most area towns reported the same fog and drizzle Midlanders contended with on the way to work this morn-

ported "dripping fog" while others had fine mists and overcast clouds

Weather watchers in Andrews re-"all the way to the ground."

Crane County man killed, one hurt when truck hits wall

CRANE - A Crane County man was killed in a single-vehicle accident late Monday night seven miles south of Sheffield, said a spokesman for the Department of Public Safety today.

Jimmy Lee Workman, 25, of Crane was pronounced dead at the scene, said a spokesman for the DPS.

Injured in the same accident was Rhonda Foyill, 24, of Crane, said the spokesman. She was in "guarded condition" today in the intensive care unit of Medical Center Hospital in Odessa, according to a hospital

Troopers said Workman was driving a truck north on Texas 349 when the vehicle struck a rock wall on the west side of the road. The vehicle then overturned, tossing Miss Foyill out and pinning Workman under it, said authorities.

Texas House passes bill implementing tax relief amendment

AUSTIN, Texas (AP) - The Texas House has passed and sent to the Senate a bill implementing the 1978 Tax Relief Amendment, including

exemption of two cars per family from property taxes.

Also in the bill is more than \$430 million in state reimbursement of school district revenue losses resulting from mandatory property tax

Next step will be committee hearings in the Senate, which probably will rewrite the bill (HB1060). That would mean a joint conference committee would have the job of drafting a compromise The House voted on the bill article-by-article Monday. The closest vote

was 78-56 on a provision setting out the formula for state reimbursement of school district revenue losses caused by mandatory property tax Passage of the tax relief bill marked the mid-point in the 140-day

regular legislative session. Voters approved the Tax Relief Amendment in November. Its only

automatic provision exempted \$5,000 of the market value of each owner-occupied house in Texas from school district property taxes. Major provisions of the bill would: - Add another \$10,000 exemption on homes owned by the disabled and

persons 65 and over, and freeze school taxes of the elderly for the rest of - Exempt two cars or light trucks per family from property taxes, with the state reimbursing school districts for the revenue loss in the 1979

tax year, estimated at about \$17 million. Limit state spending increases to the percentage of growth of Texans' total personal income each year.

Exempt intangible property from taxation, except for intangibles already subject to taxes, mainly bank stock. - Establish a method for taxing farm, ranch and timber land on its

crop-producing ability instead of its market value. Omit intangible property from the measurement of school district wealth that is used in determining how much state aid each district will

receive - a boon to urban districts where most of the intangibles are concentrated. The formula for reimbursing school districts covers losses dollar-fordollar in the coming fiscal year. In 1981, however, the formula would provide only 90 percent of the homestead tax losses of districts whose

appraisals are below the statewide average. State representatives passed to the Senate a bill raising penalties for assault — where no bodily injury occurs — when the victim is a school

teacher. Assault includes threats as well as actions. The bill would provide up to 180 days in jail and a \$1,000 fine for an assault on a teacher. The usual penalty for assault is a fine of up to \$200

House members passed, 133-0, a \$907,000 emergency appropriation for the attorney general's office. The bill returns to the Senate for action on a House rewrite, which itemized the expenditure items, including \$300,000 for the Howard Hughes will case and \$260,276 for the "Ruiz case," which seeks wholesale changes in the operation of the state prison system.

The Senate spent most of its Monday session on a bill that finally was postponed because of a technicality. Sen. Bill Moore, D-Bryan, presented a bill that would relieve contractors of liability for construction defects after public authorities had

accepted a new building or road unless misconduct was involved. Sen. Lloyd Doggett, D-Austin, protested that the bill was an attempt by the Associated General Contractors to make the public pay for their mistakes. "It's a bad bill that shifts the costs to the taxpayer," Doggett argued.

Delivery Service 6\$2-5311 Want Ads 6\$2-6222 Other Calls 682-5311

Showers are expected from West Texas into the southern Plains and warm weather is expected for the East today through Wednesday morning, according to the National Weather Service. Cold weather is forecast for the central states and near-normal temperatures for most of the West. (AP Laserphoto Map)

Fife hearing recesses with no venue decision

ODESSA - The change of venue hearing for Stephen Fife, 22, of Odessa, charged in connection with the death of 19-year-old Catherine Ann "Fifi" Murphy, recessed late Monday here with a decision still pending.

But 244th District Court Judge Joe Connally did tentatively set April 3 as the trial date for the case, said au-Fife is charged with murder in con-nection with the death of the daughter

of a prominent Odessa businessman. Miss Murphy's body was found in a grave in Crane County earlier this

She had been missing since July 19 last year and her disappearance touched off an intense regional search. by Odessa and Ector County law en-forcement officers — aided by Midland County authorities and other

agencies.

Judge Connally reportedly set the

Midland man struck by auto

ODESSA - A 75-year-old Midland man was listed in critical condition this morning in Medical Center Hospital here following multiple injuries he suffered when struck by a car shortly before 8: 45 p.m. Monday in Midland.
Antonio "Tony" Rodriquez was hit
as he was crossing Front Avenue just

west of its intersection with Lamesa Road, Midland police said.

Driver of the car was Martha Gies, 56, of 4318 Brookdale Drive, police said. The man was treated at Midland

Memorial Hospital and then was transferred to the Odessa hospital, He suffered a factured hip and leg, fractured ribs and an injury to the diaphragm, a hospital spokesman

Police said they were unable to

determine Rodriquez's address.

date for Fife's trial during Monday's change of venue hearing because of the requirements of the Speedy Trial Act. Judge Connally also indicated the hearing would reconvene early today or Wednesday to hear more testimony.

Numerous media representatives, attorneys and others testified Monday concerning publicity in the case and the possibility of Fife receiving a fair trial in Ector County.

Royal Caswell and Cynthia Clack, attorneys for Fife, contend the defendant cannot receive a fair trial here.

Today the court was scheduld to hear tapes of televison news broadcasts concerning Miss Murphy's dis-appearance and Fife's arrest after her body was found, said officials.

Defense attorneys and District Attorney John Green briefly questioned several news media representatives Monday. Questions dwelled upon the coverage of the various news organizations and the amount of reader, listener or viewer exposure to the details of the case.

Defense lawyers also called several attorneys to the witness stand Mon-day, including Will Hadden, who re-presented the Thomas D. Murphy family in the search for their daughter, Warren Burnett, Mike McLeaish and Tom Sneed.

Both McLeaish and Sneed said they do not believe Fife can receive a fair trial in Ector County because of the amount of publicity concerning the

"I don't believe he (Fife) can re-ceive a fair trial in Ector County" due to "massive publicity that sur-rounded the case," McLeaish said in

But several witnesses called by Green testified they believe Fife can

receive a fair trial in Ector County.

After Judge Connally set the trial date at Monday's hearing, Caswell indicated he will seek a continuance Ricky Womack, the city's arson investigator, or to Jim Ryals, city fire in the case.

Israel won't allow division of Jerusalem

(Continued from Page 1A)

forces are pulling back after the treaty is signed. Egypt wants to take over the wells in the Gulf of Suez two or three months before the rest of the withdrawal is completed.
Weizman brought home word from

Defense Secretary Harold Brown that the Carter administration would ask Congress for about \$3 billion to help Israel with the withdrawal. Most of the money would go for construction of two new air bases in Israel's Negev Desert to replace two bases the Israelis had in Sinai.

Israel asked for \$3.4 billion and the United States offered \$2.5 billion. Weizman said the compromise would include \$2.2 billion in loans and \$800 million in grants. He said Brown also agreed to begin delivery next year of 75 F-16 fighter planes promised to

Ali is still negotiating with Brown for the additional military aid Egypt will get for agreeing to the treaty. Sadat wants F-16s, Hawk anti-aircraft missiles, submarines and surplus Navy frigates which Ali said is needed for defense against the hostile, Soviet-backed governments in Libya, Ethiopia and South Yemen.

The Israeli Cabinet approved the treaty Monday by a vote of 15-2 after previously approving each item in it individually. The opposing votes were cast by Agriculture Minister Ariel Sharon and Transport Minister Haim Landau, both hawks on the issue of Palestinian autonomy in the West Bank of the Jordan River and Gaza

One member of the government coalition, the National Religious Party, demanded that the Cabinet commit itself to continued Jewish settlement in the occupied territories and to retaining security control over the territories, contrary to the Camp David accord. Begin agreed to form an 11-member Cabinet committee to recommend the position Israel will take on these issues in the negotiations to set up an autonomous Palestinian government in the territories.

About 120 right-wingers opposed to the peace treaty set up a Jewish settlement in northern Sinai today to protest the treaty provision returning the peninsula to Egypt.

The demonstrators occupied a site south of the town of Yamit, set up buildings and barbed-wire fences and blocked the road leading to the site to prevent the government from evacuating them.

Inheritance bill stalled

AUSTIN, Texas (AP) - A bill that would allow spouses to escape state inheritance taxes stalled in the Senate Finance Committee on Monday after it was noted it would even apply to the widow of someone as rich as

the late Howard Hughes. The tax exemptions would cost Texas an estimated \$20.2 million over the next two

"Everybody's going to die. We're just postponing it (the taxes)," said the bill sponsor, Sen. Walter Mengden, R-Hous-

The committee voted 8-1, however, to send the proposal to a

Sen. Ray Farabee, D-Wichita Falls, said under current Texas law a \$500,000 estate would be subject to a tax of only \$500. Sen. W.E. "Pete" Snelson, D-

Midland, asked what the fiscal impact would be if Hughes had died, leaving a wife. "I do not know," replied

Mengden, but he agreed Hughes' surviving spouse would be exempt from the state inheritance tax.

Lawsuits trying to determine Hughes' legal domicile are still in the courts.

Texas has claimed it was Hughes' domicile.

Citizens post arson reward

BIG SPRING - A rash of deliberately set fires here has led to an offer of a \$2,000 reward for information leading to the arrest and conviction of the person or persons responsible for one fire and consideration of future rewards for other arson information.

Concerned citizens have posted the reward for information about the fire that gutted the Village of the Spring condominiums here Feb. 18.

The apartments, which were about 40 percent complete, were destroyed by the fire.

The possibility of a future arson reward fund will be discussed at a Wednesday meeting of the Chamber of Commerce board of directors. City officials estimate 30 percent of

the fires in the city this year have been arson cases. Losses from the fires have totaled \$250,000.

Information supplied on the origin of the condominium fire will be kept confidential, fire officials said, and the identity of those helping solve the crime will be secure. Information can be turned in to

"I asked the Magnatex vice president then to reduce the concept, but from that time I've never seen a substan-

Townhouse section to be buffer zone for planned retail shopping center

(Continued from Page 1A)

portation, and mailed to Hennessy

IN THE LETTER, Pearson said: "...drainage problems exist in the area that do not appear to be considered. We believe it would be in the best interest of all concerned that a solution to the drainage be determined prior to approval of the plat."

At the last City Council meeting, the director of public works, in discussing drainage in that area, said he had been advised the southeast corner would be a problem area for drain-

A member of the group opposing the plan, Danny White of 2818 Emerson Place, said he preferred that more land be included in the buffer zone, making it wider. Several Midlanders have conferred with Charles Priddy, president of Magnatex, about how they believe the plan should be drawn, he said.

"But, it looks like this thing (townhouse buffer zone) will go on to the City Council in its original plan. This is not the plan we worked out with Priddy," White said at the Monday

"IT LOOKS LIKE something is get-ting slipped under the door. I feel like the U.S. negotiator in the SALT talks — we're giving 75 percent and getting 25 percent," he added.

"Well, it looks like I'm worse off than I thought," began Bill Pickering of 2815 Emerson Place in expressing his dissent.

Referring to the swimming pool section and-or water retention, Pickering questioned: "How does a swimming pool help the drainage problem there? I might understand when it's empty, but not when it's full of water. The drainage problems there have not been eased one iota with this

Another problem for the Emerson Place residents will be the "trash breaks" (garbage pickup accesses) that will face some residents' alleys, Pickering noted.

After listening to the Magnatex presentation and the opposing side, George Veloz, commission member, said he has studied the plan since it first was proposed in January.
"I saw the biggest problem is that it is mammoth in design," Veloz said.

tial change in the design.
"We couldn't ask for a better developer (Magnatex) in Midland, but this has been hastily put together," he

DISAGREEMENT became evident

among members of the commission, Hennessy and Magnatex concerning the 40-foot lot widths. Eaton maintained he could meet other criteria requested by the plan-

ning department, but he could not make the lots any wider. Nor did Magnatex want to make that buffer strip any wider, he added. The commission then suggested Magnatex draw up a site plan incor-

porating the city staff's requests. But Harrell Feldt, an attorney representing Magnatex, replied to that suggestion by saying: We want to see something done to

this proposed Planned District today so we can continue to move along and try to work it out with the people. Veloz still contended he preferred to continue the item until an April meeting, when a site plan could be

But Feldt again said no. 'We want you to impose the criteria on this district so we can go ahead to the City Council with it while we get a

submitted.

member, Mrs. James Purvis, asked Feldt how Magnatex could change the drawing and meet the criteria without the panel looking at a site plan to see

what has been done first. Feldt insisted it could be done, reiterating that Magnatex wanted to move on to the City Council.

Finally, the commission passed the plan with a favorable recommendation, but made the plan subject to the staff's comments. The lot widths also would have to be approved by the But the commission held off on the

preliminary plat, saying there are several questions in that regard. Magnatex's planned district proposal should come before the City Council on April 24.

Flood watch extended By The Associated Press

Heavy thunderstorms drenched much of East, South and Southeast Texas early today, prompting the National Weather Service to extend a flash flood watch through today.

Midland County woman held for marijuana possession

ODESSA - A 27-year-old Midland County woman was arrested here early Monday night for alleged felony possession of marijuana, said author-

A search warrant was issued by Peace Justice Manuel Valles Monday, authorities said. The warrant was carried out by law enforcement officers at about 6:45 p.m. the same day, said an Ector County Sheriff's Office spokesman.

Sheriff's deputies, federal Drug Enforcement Administration agents and Department of Public Safety narcotics officers participated in the arrest, said the spokesman.

According to reports, lawmen converged on a mini-storage business located in the 600 block of Dale Street. Deputies said they arrested the woman and confiscated seven pounds of a green, leafy substance believed by them to be marijuana.

In addition, the spokesman said, officers confiscated equipment which they described as "a complete la-boratory set up for the manufacturing of DET and DMT,"both of which were described as "hallucinogenic

Also, officers confiscated "some other drugs, the names of which are unknown at this time," said the spokesman. He said the substances were taken

to the DPS laboratory in Midland to be analyzed by chemists.

derson County and moved to Snyder

Other survivors include her husband, four daughters, a son, three sisters, two brothers and 13 grand-

Judge produces cheaper policy than committee

HOUSTON (AP) - Members of the Harris County insurance committee were somewhat nonplussed when handed a liability policy for county officials costing some \$86,000 less than the one they had recommended.

County Judge Jon Lindsay produced the policy Monday for the county Commissioners Court, leaving some of its members wondering out loud if the committee was trying to sell the county a more expensive policy so members could share a larger commission.

Lindsay said it was up to the committee to "search out" the best buys on insurance policies and bring them before the commissioners court.

Doyle Webb, another committee member, said he had "no idea" what the committee's commission would be on the policy recommended. But committee members are appointed by the commissioners court to serve as insurance agents for the county and should expect some commission, he

J. Hunter Lamb

ROSWELL, N.M. - Services for J. Hunter, Lamb, 73, of Roswell, N.M., uncle of Dorothy Ann Pringle of Midland, were held Monday in Elliott-Hamil Funeral Home in Abilene, Burial was in Elmwood Cemetery in Abilene

Lamb died Thursday at his residence.

He was born Sept. 18, 1905, in Arkadelphia, Ark. He was a lumber broker and was employed with Dierks Lumber Co. He had lived with his daughter in Roswell the past six months.

Other survivors include a daughter and three grandchildren.

Hurchell D. Shaw

RANKIN — Services for Hurchell Dallas Shaw, 71, longtime resident of Rankin, will be at 2 p.m. Wednesday in the First Baptist Church here. Officiating will be John Kidd Jr., assisted by the Rev. Ray Singleton, pastor of the First Baptist Church.

Burial will be in Rankin Cemetery directed by Larry D. Sheppard Funeral Home of Crane

Shaw died Monday in a San Angelo hospital after a short illness.

He was born July 29, 1907, in Lovington, N.M. Shaw grew up in Barnhart and was graduated from Ozona High School. He was married to Gwendelyn Patterson Dec. 24, 1933, in

Shaw operated a self-service station in Rankin. He was a member of the First Baptist Church. He had lived in Rankin the past 40 years.

Survivors include his wife; two daughters, Jean McEwen of Midland and Mrs. Joe Tilley of Dallas; two sisters, Susie Metcalf of Barnhart and Mrs. Tom Johnson of San Gabriel, Calif., six grandchildren and a great-

Chagra case subpoenas will stand

EL PASO, Texas (AP) - Subpoenas for the personal and business records of a bail bondsman who put up \$400,000 bond for Jimmy Chagra were allowed to stand Monday.

U.S. District Judge William Sessions denied motions to quash the subpoenas, issued as part of a grand jury probe into racketeering.

Chagra, brother of slain narcotics defense lawyer Lee Chagra, was arrested in Las Vegas on narcotics charges and is scheduled to stand trial in Midland in April.

Victor Apodaca Jr. posted the bond, believed to be the highest in El Paso history.

Apodaca's lawyer, Sib Abraham, had said the subpoenas were outside the area of the FBI, which issued them. Abraham said the subpoenas were a "license to conduct a fishing expedition."

The subpoenas called for Apodaca's business records from July 1976 and for personal records dating back 12

The subpoenas included the accounting firm headed by El Paso Mayor Ray Salazar, which handled Apodaca's records during some of the period under investigation.

Salazar said Monday he already had turned the requested records

over to the U.S. attorney's office. Sessions ordered another accounting firm to turn over its records in the case Monday afternoon.

Abraham, Apodaca's lawyer and partner in several business ventures, charged the FBI subpoenas "usher in a new phase of the federal probe." Abraham's sister is the widow of Lee Chagra.

Lee wins at forensic competition

Lee High School took first place in overall Freshman School in secsweepstakes competition at the Second Annual Last Chance Forensic Tournament at Midland

College last weekend. Some 230 students from 13 area high schools competed, meet organizers said.

Midland High School took second in the overall competition, followed by Big Spring High School in third place. Tim Norman of Lee

earned the President's

Award as the outstand-

ing individual competitor in the meet. In debate competition. the team of Anthony Folger and Ralph Kenny of MHS took top honors,

and Gary Rohie of Austin ond. The teams of George Harben and Rayford Graves from MHS and Ernest Angelo and Paul Raymond from LHS tied for third place

In informative speaking, Mike Shaunessy was first followed by Bobby Dawson in second. Both are from LHS. Mark Caffey from Monahans was

Persuasive speaking winners were Tim Norman from Lee, first; Brenda Clay of Big Spring, second, and Kathy Birdwell of Big Spring, third.

Poetry interpretation winners were Nancy followed by Randy Iola Hancock of Monahans,

first; Tracy Stewart of winners included Brian Andrews, second, and Jim LaFontaine of Lee, Bryan McNary of Lee, third.

Winners in prose interpretation were Sonja Goza from Lee, first; Jan Whittington, Big Spring, second, and Kerry Whittey, Big Spring, third.

Impromptu speaking

Slack of Andrews, first; second, and Mima Kay Brown of Lee, third.

SANANDAJ, Iran Prime Minister Abbas ing the morning. But on

(AP) - Sporadic gunbattles continued around a besieged army barracks in this Kurdish city today as residents counted their dead and wounded, victims of bloody fighting between Kurdish rebels and government troops.

There was no immediate word of casualties when the new battle erupted after a brief truce in Sanandaj, the capital of the Kurdistan

region 250 miles west of Tehran. At least 170 people were reported killed in fighting Sunday and Monday before the

Amir Entezam today put the official toll at 86 dead and 200 wounded.

Throughout the city groups of armed Kurdish fighters manned road blocks in the virtually empty streets as army helicopters flew overhead. The city apparently was in the control of the Kurdish guerrillas except for the army bar-

racks under siege. The government said it was sending reinforcements to relieve the siege of the barracks after an overnight cease-fire was

broken by the rebels. Ten helicopters, apparently ferrying in reincease-fire, but Deputy airport of the town dur-

the drive to Sanandaj from Tehran there were no signs of major troop movements. Residents reported

that Sunday, after the fighting first flared, four helicopter gunships circled the city firing indiscriminately on people in the streets. At the Khanh Hospital,

doctors said they had the corpses of 21 people killed in the fighting and 133 wounded. Another hospital, they said, reported 30 more dead. In the Khanh Hospital

morgue several bodies were placed in cubicles with ice preserving them forcements, flew into the and others were laid out

n— Trerasury notics.
Bid and asked Irices quoted in dollars and thirty seconds. Subject to Federal taxes but not to State income taxes.

SAN ANTONIO, Texas (AP) — Cattle and calves: 1200; alaughter cows firm to 1.00 higher in a limited early test. Slaughter buils firm to 1.00 higher. Feeder steers and buils 400 lbs. and lighter firm to 1.00 higher, over 400 lbs. firm to 1.00 higher. Feeder helfers 400 lbs. firm to 1.00 higher. Supply about 10 percent slaughter cows and 5 percent slaughter buils. Balance mainly low to average good feeder cattle. Slaughter cows: Few utility 2-3 57.75-80.73, lot high dressing including some helferettes 62.25. Cutter 1-2 53.25-57.75. Slaughter buils; Yield grade 1-2 1030-1700 lbs. 68.25-70.25. Few high dressing 71.30-73.75 with some indicating a low boning percentage 1100-1300 lbs. 60.25-64.75. Feeder steers and buils: Few good and choice 240-300 lbs. 128.00-146.00, few 300-300 lbs. 116.00-128.00, few 840-770 lbs. 86.00-180.00, few 640-770 lbs. 86.00-180.00 few 640-770 lbs. 86.00-180.00 few 640-770 lbs. 86.00-180.00 few 640-770 lbs. 86.00-180.00 few 640-70 lbs. 87.00-180.00 few 640-70 lbs. 87.00-180.00 few 640-75 lbs. 80.25-87.25. Feeder helfers: Good 280-400 lbs. 87.00-87.00 few film kinds near 240 lbs. 87.00-88.00, few 640-87.50 Standard and low good 200-300 lbs. 88.00-87.00 Standard

FORT WORTH, Texas (AP) — Cattle and calves: 400 (200 less than estimated earlier) slaughter cows steady. All feeder cattle and calves firm. However, not enough fresh cattle on hand to fully test trend in a clean up type trade. Run includes around 20 percent slaughter cows. Balance mostly feeder calves. Receipts curtailed sharply due to good general rain.

curtailed sharply due to good general rain.

Slaughter cows: Utility 2-3 51.50-58.00, mostly 51.50-54.00; cutter 51.00-55.00; few canner 48.00-52.00.

Slaughter steers and heifers: Good and choice 80-0-80 lbs. 68.00-69.60.

Feeder steers: Choice 330-500 lbs. 98.00-110.00; good 250-350 lb. 110.00-131.00; 350-450 lbs. 95.06-106.00.

Feeder helfers: Choice 200-300 lbs. 100.00-120.00; 400-300 lbs. 00-88.00; good 300-300 lbs. 78.00-84.00.

Hogs: S50: barrows and gilts steady to .50

Hogs: 550; barrows and gilts steady to .50 higher. US 1-2 200-230 lbs. 47.50-48.00; 2-3 200-270 lbs. 47.60-47.50. Sows: 1.00 lower. US 1-3 300-800 lbs. 44.00.

Boars: 300-650 lbs. 35.00; 150-250 lbs. 38.00-39.00.

DES MOINES, lowa (AP) — Central US carlot beef report — f.o.b. Omaha basis (includes the major production areas in the Midwest and Texas-Oklahoma Panhandle) as of 11: 15 a.m.

Compared to Friday's 4: 30 report: Steer and heifer beef 1.00-3.00 higher, mostly 2.00-3.00 up. Most trading into Chicago breakers or chain stores with some packers buying interest noting in face of limited live cattle purchases. Demand only moderate, but market forced higher by very limited offerings. Cow beef steady to firm, instances 1.50 higher on canner and cutter cows compared to last Tbursday. Demand uneven with trading levels not fully established. Choice forequarters 3.50 higher in limited trade. Sales reported on 21 loads of carcass beef.

Steer beef: Eight loads choice 3 600-800 lbs. 106.50-107.00, 2.50-3.00 higher; one load choice 2 600-800 lbs. 108.50, 2.00 higher; one load good 2-3 600-800 lbs. 102.50, 1.50 higher.

load good 2-3 600-800 lbs. 102,50, 1.50 higher.

Heifer beef: Two.loads choice 3 500-700 lbs. 103.50, 1.0-3.00 higher; two loads choice 3 500-700 lbs. 104.50 packer to packer, fully 2.00 higher.

Cow beef: Qne load utility 3-4 (Boning) (nthm) 650 lbs and up 91.25 (West Coast), steady; five loads utility 2; 3 (boning) (nthm) 400 lbs. and up 92.50 (Midwest), firm, one load canner and cutter (nthm) 1-2 350 lbs. and up 106.50 (Midwest) 1.50 higher than Thursday.

Choice 3 primal cuts: One load fores 130-210 lbs. 96.00 trimmed, 3.50 higher.

BUSINESS MIRROR Regulation fastest growing industry By JOHN CUNNIFF

NEW YORK (AP) — You cannot buy shares in it, and since it doesn't make any money you wouldn't want to, but regulation is probably America's No.1 growth industry.

Federal spending to administer it cost the government \$866 million in fiscal 1970. The fiscal 1980 budget allocates regulatory expenditures of \$6.04 billion, an increase of nearly 600 percent.

That growth, says Kenneth Chilton, assistant

director of the Center for the Study of American Business at St. Louis University, "would be the envy of any business executive tracking a company's

Similar to the pattern in business, he observes, "it is the newer 'product lines' — consumer safety and health, job safety, and environment and energy that show the most rapid expansion." While he was at the Brookings Institution, Charles Schultze, now chairman of the President's Council of

Economic Advisers, offered another telling observation about regulation's growth: "Relying on regulation rather than economic incentives to deal with the highly complex areas of behavior has a built-in dynamic that inevitably

broadens the scope of regulation. Might not goals be more efficiently achieved, he asked then, if we used market incentives instead, such as fees related to a firm's pollutant activities, with the money used to maintain environmental standards?

The reflections are from two studies released during the past few days, by the St. Louis study center and by the Business Roundtable, the latter a small organization of big business chief executives. They are not the only ones concerned. Slowly, it appears, everyone is getting worried about regula-

tion's growth, even consumer groups that actively pursued it, even officials charged with implementing Congress now has before it a number of reform bills. The White House has issued executive order

12044, on improving government regulation. It has also formed a regulatory analysis review group. Reformers are not all of a fabric. Some seek more efficiency, nothing more, and some want the ma-chinery dismantled. One thread, however, is woven

through all: They fear a monster has been loosed.
The monster gobbles dollars, and the common fear is that unless given better training and more direct-ion, it might degenerate into doing little but that. Regulation, they say, must be regulated.

And so the studies, neither of which takes a

political stand, limiting itself to mostly statistical findings and comparisons. Through Arthur Anderson & Co., the accounting firm, the Roundtable studied cost to 48 companies in

20 industries of just six regulatory agencies - the first such study, it claims, ever done. The figure: \$2,621,593,000, a number whose significance is revealed in comparison with the companies' total research and development costs, generally thought to be their lifeblood, of \$6 billion.

The full 550-page report, which shows that in several instances regulations conflict with broad national goals, is available from the Roundtable.

The Center's study, among other things, docu-ments the expansion of new forms of regulation, including consumer safety and health, job safety, environment and energy, which account for 83 percent of the fiscal 1980 regulatory budget, up from

The center offered an interesting comparison: "The 10-year period from 1970 to 1979 witnessed the establishment of the largest number of new regulatory agencies, 20. The runner-up decade, the New Deal period of the 1930s, produced 11 new agencies."

Paroles granted for eight people

Austin Bureau

AUSTIN-The Board of Pardons and Paroles has approved the parole of eight persons sent to prison from the Midland area.

Joaquin Cantu, sentenced to ten years for a 1974 Howard County burglary, was paroled back to Howard County after serving and earning eight years and seven months.

Archie Collins, sentenced to five years after con-viction for a 1977 Midland County burglary, was paroled to Lubbock County after serving and earning three years and four months. Gerald Griffin, convicted in Ector County in 1976 for possession of a controlled substance, was paroled

to Tarrant County after serving and earning three years and two months of an eight year sentence. Donald Murdock was released to Michigan after serving one year and eight months of a five year sentence for a 1978 Ector County burglary. Danny Peterson was released to Brazoria County after serving eight years and four months of a 25

year sentence for a 1973 Midland County conviction for assault with intent to murder. Adrian Porter, convicted in Ector County in 1977

for theft, was paroled to Howard County after serving and earning four years and eight months of a six Elmer Sharp, serving a 15 year sentence for rob-bery by assault, was paroled to Andrews County

after serving and earning 14 years and two months. Albert Stuart was paroled to Taylor County after serving and earning two years and five months of a five year sentence for a 1977 Ector County theft.

Sen. Kassebaum granted divorce

EL DORADO, Kan. (AP) - Sen. Nancy Landon Kassebaum, Kansas' first woman senator, says the divorce she has been granted from her husband of 24 years was "something we worked out between us." Butler County District Court Judge Page Benson

granted the uncontested divorce petition Saturday when he met with the Republican senator and her attorneys in his chambers. Her husband, Wichita attorney Phil Kassebaum, did not appear or send a representative. The couple had been separated two years. "It's nothing that's ever easy under the best of

circumstances," Mrs. Kassebaum said after the hearing Benson said a property settlement in the case

would be filed sometime next week. Mrs. Kassebaum's office has said details of the settlement will be made public after all court proceedings are final.

Wednesday. The two days of technical programs begin at 9 a.m. Thursday. The conference, expected to draw more than 600 persons, is sponsored by the Permian Basin and Trans-Pecos sections of the Society of Petroleum Engineers. (Staff Photo by Mike Kardos)

Operators stake explorer sites in seven West Texas counties

Seven West Texas counties have gained wildcat operations.

Dalton H. Cobb of Midland has announced plans to reenter a dry hole in the Moore-Hooper multipay gas field of Loving County and test above 17,990

The project, No. 1 Wolf, originally was drilled by Continental Oil Co. as the No. 1 Arno Gas Unit. It was plugged at 18,005 feet in June 1978.

The location is 6,925 feet from northeast and 692 feet from northwest lines of seciton 80, block 33, H&TC survey and two miles west of Men-

It is one and seven-eighths miles northwest of Fusselman gas producion one and five-eighths m west of Atoka gas production and 4.5 miles northwest of Ellenburger gas production.

PECOS WILDCAT

Ike Lovelady, Inc., of Midland spotted a 7,000-foot wildcat eight miles north of Coyanosa in Pecos County. It is No. 1 Ogden, 3,500 feet from

south and 660 feet from east lines of section 5, block 8, H&GN survey and one and three-eighths miles southwest of Exxon No. 1 Howe Gas Unit. Devonian discovery in the Howe multipay pool.

STERLING PROJECTS

Hillin Production Co. of Odessa No. 1-7 I. W. Terry has been spotted as a Fusselman wildcat in the Conger (Pennsylvanian 7,000) area of Sterling County, 3.6 miles southwest of Sterling City.

Scheduled for an 8,600-foot bottom. it is 700 feet from south and 755 feet from east lines of section 7, block T,

T&P survey. Diamond Shamrock Corp. of Amarillo is to be drilled as an 8,100foot wildcat in Sterling County, 14 miles notheast of Sterling City.

The project will attempt to find gas production. It is one mile west of oil production in the Rose Creek field and 660 feet from south and 1,980 feet from west lines of section 61, block 18, SPRR survey. There is no nearby gas

The project will be operated as No. 1 E. P. Ellwood Trust.

RANK WILDCAT

Northern Michigan Exploration Co. of Wichita Falls No. 1 Edna Powers has been spotted as a rank wildcat in northeast Cottle County, three miles southwest of Lamesa.

Scheduled for an 8,500-foot bottom, it is 1,750 feet from north and 467 feet from east lines of J. F. Razor survey, abstract 1145 and three miles southwest of Lazare.

The site is 1/2 mile north of a 6,373-foot dry hole and one mile southwest of an 8,250-foot failure.

BORDEN EXPLORER

WES-TEX Drilling Co. of Abilene No. 1 Blagrave is a 9,200-foot wildcat in southwest Borden County, four miles northwest of Vealmoore.

Location is 2,510 feet from southand 510 feet from west lines of section 8, block 33, T-3-N, T&P survey.

Congressional leaders await meeting results

By TOM RAUM

WASHINGTON (AP) - Congressional leaders are awaiting word on the result of President Carter energy talks at Camp David, but top Republicans say it's possible only an energy official with more power to act can lead the nation out of the current

House and Senate Republican leaders, Rep. John Rhodes and Sen. Howard Baker, are calling for appointment of a "special energy administrator" with more sweeping powers than those of Energy Secretary James R. Schlesinger.

President Carter, back from an energy-economy strategy session with top aides at Camp David, was meeting Democratic leaders at his weekly leadership breakfast today amid speculation he would provide them some insight into his thinking on energy.

Baker said Monday the Carter energy program is in such a shambles gasoline rationing might be necessary by this summer - despite claims by officials that they wouldn't invoke a standby rationing plan except as a "last resort" in a major fuel

Colorado Gov. Richard Lamm and Virginia Gov. John Dalton were going before a Senate energy subcommittee today to testify on that standby plan, now pending congressional approval.

Deputy Energy Secretary John F. O'Leary told the panel Monday that the world oil supply situation, with restoration of some production from Iran, is looking brighter and that mandatory steps contained in the

standby plan may not be needed. In addition to rationing, the standby plan also contains proposals for weekend closing of gasoline stations and mandatory thermostat controls on public buildings. One of the chief energy issues

Carter must grapple with is whether to allow federal price controls to expire on crude oil. Under existing law, the president has this option beginning June 1. The controls expire automatically in mid-1981 if Carter fails to act before then.

At a Monday news conference, Rhodes and Baker urged Carter to use his authority to lift the price controls on oil and other fuels, saying excessive federal regulation plays a big role in discouraging the search for new U.S. energy supplies.

They said the proposal for a "special energy administrator" is also aimed at trimming away layers of federal regulation. This individual would be given the muscle to cut through federal regulation and to get things done, the GOP leaders said.

But the proposal doesn't seem to be generating much enthusiasm among Congress' Democratic majority. House Speaker Thomas P. O'Neill dismissed it flatly, telling reporters the president "has most of the powers himself now" to do what is needed on

Rhodes and Baker insisted they weren't joining any dump-Schlesinger movement. In fact, they praised Schlesinger and said he'd probably be a good candidate for the new position their proposal envi-

Influencing the call for a super energy official, the GOP leaders said, was last week's announcement by Standard Oil of Ohio that it was abandoning - because of years of permit delays - a proposed major pipeline to bring surplus Alaska oil from California to Texas.

RUNNELS TESTS

E. B. Fletcher of Dallas staked three wildcats in Runnels County.

No. 1-425 Wayne Roberts is 1,337 feet from north and 2,453 feet from east lines of section 54, block 63, H&TB survey, abstract 1418. Some maps show J. D. Crewe survey No. 54. It is scheduled for a 4,900-foot bot-

Another 4,900-foot wildcat is Fletcher No. 1 W. Roberts, 2,421 feet from north and 1,560 feet from west lines of section 54, block 63, HT&B survey, abstract 1418.

Fletcher will drill No. 2-417 L. B. Watkins as a 4,990-foot wildcat. The location is 825 feet from southeast and 1.650 feet from southwest lines of section 14, Henry L. Bays survey No.

The first two locations are seven miles southwest of Winters, and the third is three miles south of Win-

IRION PROJECT

Threshold Development Corp. of Dallas announced plans to reenter a 7.405-foot hole in Irion County and plug back to 2,350 feet for wildcat

It is the former Gwendolyn Weiner Oil Properties of Fort Worth No. 3 Fred Ball which was completed in 1976 as a Tom Ketchum (Canyon gas) field well.

Location is 1,500 feet from south and 906 feet from west lines of section 3077, block 28, H&TC survey and 11 miles northwest of Mertzon.

IRION WELL

Fortune Drilling Co., Inc., of San Angelo No. 1 DeLong has been completed as the third Divide sand oil well in the Lucky-Mag multipay pool of Irion County, three miles north of Mertzon.

It finaled for a daily flowing potential of 56.7 barrels of 40-gravity oil and 4.6 barrels of water, through a 12/64inch choke and perforations from 6,-415 to 6,501 feet.

The gas-oil ratio is 1,085-1. The pay section was acidized with

1,000 gallons and fractured with 63,000 gallons. the well is one location northeast of

other Divide production and 660 feet from south and 1,980 feet from west lines of section 27, block 2, H&TC

WARD PRODUCER

Gulf Oil Corp. No. 2 J. W. Cadenhead, one mile northwest of Pennsylvanian production in the G-M field of Ward County, has been completed.

From the Pennsylvanian, it finaled for a calculated absolute open flow potential of 2,534,000 cubic feet of dry gas per day, through perfortions from 16,428 to 16,992 feet.

Total depth is 17,990 feet and seven and three-quarter-inch casing is set on bottom. The plugged back depth is 17.490 feet. Location is 1,090 feet from notheast

ad 1,980 feet from northwest lines of section 25, block 1, W&NW survey and 11 miles nothwest of Barstow.

EXTENDER COMPLETES W. C. Blanks of Midland No. 1 Blas-

singame has completed as a one and one-third mile northwest extension to the Luther, Southeast (Siluro-Devonian) oil pool of Howard County, 11 miles north of Big Spring.

It finaled for a daily flowing potential of 185, barrels of oil, gravity not reported, and 10 barrels of water, through a 22/64-inch choke and open hole from 9,898 to 9,926 feet. Completion was natural, and the gas-oil ratio

Total depth is 9,926 feet and 5.5-inch casing is set at 8,989 feet. Wellsite is 1,980 feet from north and

1,320 feet from east lines of section 28, block 32, T-2-N, T&P survey.

President says he will make decision soon

By JAMES GERSTENZANG

WASHINGTON (AP) - A day-long meeting with his top advisers at Camp David left President Carter convinced that any decision he makes to cope with energy shortages will exact a political price, his spokesman

Although the meeting Monday produced no apparent or sudden policy shifts, the president was reported to

ENERGY

have promised a response to the latest energy developments within about 10 days and his spokesman said it was correct to assume action would be taken.

Asked upon his return to the White House late Monday whether any decisions were reached, Carter said with a grin, "we'll let you know later."

Carter summoned congressional leaders to the White House today for breakfast, with the matters discussed at Camp David a likely topic of conversation.

Energy Secretary James R. Schlesinger was meeting later today with California officials and representatives from Standard Oil of Ohio to decide whether a pipeline project dropped last week by the company can be salvaged. Energy officials had viewed it as a major way of getting a surplus of Alaska oil on the West Coast to the nation's interior.

White House press secretary Jody Powell said Monday that detailed reports of the energy options discussed at Camp David would be "extremely premature.'

Those options include action on

price controls ranging from retaining

federal control, to partial decontrol, to lifting the controls entirely. "There were no decisions made period," said Powell, who spent the day at Camp David. But he said it became clear that "tradeoffs all along the line" on energy and its effect on the economy "are extremely

difficult." "Everything you do costs you something in one area or another," he said. "From our standpoint politically, there are costs on everything."

"The sessions focused primarily on energy, but of course that had to be discussed in the context of our overall economic situation, particularly our concerns about inflation," Powell

Powell said the president's consultations in coming days with members of Congress would be intended "to determine what degree of cooperation and support we can expect from

them. Asked whether this meant legislation was contemplated, he replied: "It means some of the options that may be attractive are feasible only with appropriate congressional action or would be effective only with ap-

propriate congressional action." In addition to Vice President Walter F. Mondale, the participants included Schlesinger, Treasury Secretary W. Michael Blumenthal, Labor Secretary Ray Marshall, Commerce Secretary Juanita Kreps and Budget Director James McIntyre.

Rate increase suspended

AUSTIN, Texas (AP) - The Railroad Commission suspended for 120 days Monday a Southern Union Gas Co. rate increase request for rural

sections of southeast Texas. The action affects about 1,096 customers in unincorporated areas near Port Arthur, Port Neches, Griffing Park, Groves and Nederland.

Jim B. Cloudt, hearings examiner for the case, said the delay would allow those cities more time to consider Southern Union's identical rate request for customers in the incorporated areas.

Sale plan revealed

AMARILLO - Mesa Petroleum Co. announced the company proposes to sell its Canadian oil and gas properties and is beginning immediately to seek a purchaser. The sale will include all producing

and nonproducing properties and related facilities and equipment.

Dec. 31, Mesa's Canadian properties consisted of approximately 400 billion cubic feet of net proved natural gas reserves and 8 million barrels of net proved reserves of oil, condensate and natural gas liquids; 292 net gas wells and 113 net oil wells; 213,660 net producing acres; and 1,300,000 net undeveloped acres.

Mesa's production from Canadian properties in 1978 was 28 billion cubic feet of net natural gas (26 percent of total company gas production) and 728,000 barrels of net oil, condensate and natural gas liquids (15 percent of total company liquids production). Revenue to Mesa from Canadian

properties during 1978, after royalty. was \$50 million (Canadian). Mesa management stated that the proceeds of the sale would be used to reduce indebtedness

It was further stated that the decision reflected Mesa's desire to consolidate its exploration and development activities.

anti-inflation strategist, Alfred E. Kahn: Charles Schultze, chairman of the Council of Economic Advisers; White House domestic policy aide Stuart Eizenstat; trade ambassador Robert Strauss; Assistant Secretary of State Julius L. Katz; House congressional liaison chief Frank Moore:

In other energy developments Mon-

-House and Senate Republican leaders Rep. John Rhodes of Arizona and and Sen. Howard Baker of Tennessee called for appointment of a 'special energy administrator" with more sweeping powers than those of Schlesinger. They also urged Carter to lift price controls on oil and other fuels to encourage more exploration for domestic energy supplies. Baker said the Carter energy program is in such a shambles gasoline rationing might be necessary by this summer.

-House Speaker Thomas P. O'Neill dismissed talk of a special energy administrator, telling reporters the

himself now" to do what is needed on

-Deputy Energy Secretary John F. O'Leary told a Senate energy subcommittee the world oil supply situation, with restoration of some production from Iran, is looking brighter and that mandatory fuel conservation steps, such as weekend gasoline station closing, may not be needed.

-A report financed by the oil industry said that although growth in U.S. gasoline consumption is expected to slow by 1981, spot shortages of unleaded gasoline may occur unless federal price controls are lifted.

-Interior Secretary Cecil D. Andrus announced that the first sale of petroleum leases in the North Atlantic may be held this year.

-Delegates from 14 states that rely heavily on tourist business voted unanimously at a meeting in Tampa, Fla., to oppose a ban on weekend gasoline sales and ask Congress to let states make their own plans to con-

South ruffed the second spade and led the jack of diamonds.

West played low without thinking. An experienced defender develops the habit of losing finesse. If East had the queen of diamonds why should West steer South away from a losing finesse by playing the ace of

DRAWS TRUMPS South's jack of diamonds won the trick, and declarer switched to trumps. He took five trumps, four clubs and a diamond.

If South had drawn trumps before touching the diamonds, West would easily see that he could take the ace of diamonds and the rest of his spades. South's early diamond play should not have deceived West, and all players who are never betrayed by their habits have a right to scold West.

DAILY QUESTION Partner bids one spade, and the next player passes. You hold: S-7642; H-K9; D-K83; C-KQ103. What do you

ANSWER: Bid two clubs. You would jump to three spades if your trumps were headed by the queen or perhaps even the jack. With the actual hand, bid your own suit and show the spade support later.

DDT contaminates fish in northern Alabama town

TRIANA, Ala. (AP) -Residents of this northern Alabama community are being forced to change their fishing habits and cast away from streams containing residue of the pesticide

The Center for Disease Control in Atlanta said Monday that tests from a dozen residents of the poor, predominantly black town indicated that

the levels of DDT in their blood were two to three times above normal and comparable to levels found in workers at DDT

One of those tested, 83year-old Felix Wynn, was found to have what the CDC called an unheard-of 3,347 parts per billion of DDT-related compounds in his blood. Wynn is hospitalized in Huntsville with a urinary

streams near Triana. Fish from two DDTpolluted creeks has been a major ingredient in the diet of Triana's 1,000 residents. The creeks are located

downstream from a nowclosed Olin Chemical Corp. plant on the Army's Redstone Arsenal property. The plant was the world's largest DDT manufacturing facility for 22 years until it was dismantled in 1970. However, the Tennessee Valley Authority says 4,-200 pounds of DDT are still on the property and washing into the two creeks and the Tennes see River.

Triana Mayor Clyde

Foster described Wynn

as "a life-long fisher-

man" who has regularly

eaten fish caught from

DDT - dichloro-diphenyl-trichloroethane - is believed capable of

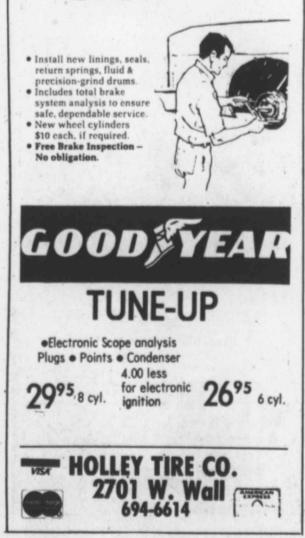

causing cancer. The TVA, the Army and the Environmental Protection Agency said they would attempt to

remedy the situation. Dr. Ralph Brooks, chief of TVA's water quality and ecology branch, said the agency rushed commercial fishing equipment and experts to Triana in an effort to find a local, nonpolluted source of fish and possibly set up a cooperative to provide the town with food.

Dave Harris, an Army spokesman at Redstone Arsenal, said the Army and TVA would work together in developing alternative fishing supplies for Triana residents.

EPA's regional adminstrator, John C. White, said several EPA scientists were expected in Atlanta today and were to review the result of the CDC blood tests.

Jurors deliberate murder sentence

BEAUMONT, Texas (AP) — Jurors who must decide whether convicted murderer Linda May Burnett will be put to death by lethal injection begin their second day of deliberations

The jury was unable to decide Monday whether she should be executed or receive a life prison sentence, and retired for the night after four and a half hours of deliberations.

The 31-year-old mother of three daughters was convicted Saturday of capital murder in the abduction and slaying last July of one of five members of a family near Winnie who were shot to death execution-style. One of Mrs. Burnett's daughters testified for the defense during the punishment phase.

Janey Burnett, 12, who has appeared frequently as a spectator during the trial, sometimes sitting on the front row and whispering to her mother "I love you," was on the stand only briefly. She was asked if she understood the purpose of the proceeding. "To see whether or not my mother

gets the death penalty," she answerea The daughter, an attractive girl

with long brown hair who remained composed during her testimony, said she still loves her mother. On crossexamination she said her 14-year-old sister once ran away from home and was returned by police. The jury, which convicted Mrs.

Burnett Saturday, began deliberating her punishment at 2:30 p.m. Monday. They later sent out a question asking District Judge Larry Gist how many years Mrs. Burnett would have to spend in prison if she were assessed a life sentence. He replied that under state law, she would be eligible for parole in 20 years.

Mrs. Burnett was convicted for the

death of 3-year-old Jason Phillips, who was slain along with his parents and grandparents July 1 after the family had been abducted from a rural farmhouse near Winnie. All five bodies were found in a common grave in the same general area July 10.

Prosecutors called only one witness during the punishment testimony Monday morning — Hubert Miller, Mrs. Burnett's ex-husband.

Miller testified that in 1977, after his wife had remarried, she showed up at his house one day. Miller said when he asked Mrs. Burnett what she wanted, she said nothing but shot him in the shoulder.

Mrs. Burnett still faces additional capital murder charges in the deaths of Bishop and Ester Phillips of Winnie, and Elmer and Martha Phillips of Woodward, Okla. Elmer and Martha were Jason's parents.

Another defendant in the slayings, Joe Dugas of Port Arthur, will be

tried later in Corpus Christi. Optimist group cited

The Westside Optimist Club of Midland has been named an "honor club" by Optimist International, announced Dudley D. Williams, president of the international men's organization.

The Midland club, which has been so honored four times in 10 years, was cited for its "outstanding service to the youth" of the Midland communi-

The Westside Optimist Club sponsors such events as Tri-Star Basketball, an oratorical contest, Miss America Soft Ball, motocross and bicycle motocross race tracks, a bicycle safety program, Young Texan and Youth Appreciation Week, among other youth-oriented projects.

Danny Storch is president of the 36-member club.

LEE YOUTH CENTER CHATTER Coronation honors seniors

By CINDY CANFIELD, ROBIN BENNETT and JULIE OCHSNER

HEY REBS! Last Saturday night, as y'all know, was the BIG night we were all waiting for-CORONA-TION!!! We finally got to find out who on the court received honors in what category. The outstanding members of our senior class were recognized with the following Mr. & Miss Integrity-Ken Van

Hoozer and Susie Alexander. Mr. & Miss Courteous-Doug Crawford and Peggy Jones.

Mr. & Miss Academic-Randy Martin and Lety Rivas Mr. & Miss Valuable-Arthur Per-

tile and Julie Ochsner. Mr. & Miss Talented-Clay Calhoun and Leah Owens. AND

Mr. & Miss L.H.S.-Tim Carter and Suzanne Brower.

We are truly proud to have these great Rebels representing the best of our school. Congratulations EVERY-ONE!!! We'd also like to commend the Band and the Origin for fantastic performances. Y'all were GREAT!,

ATTENTION ALL SENIOR WOMEN: If you want an anchor for you and your date's names, turn in \$3 to Kathleen Gilles NOW!!! Also the girls' patterns and material for the sarongs are in, so pick them up at Cloth World

CONGRATULATIONS to Cheryl Brenner for receiving the All-Around title in the girls' competition in the dual gymnastic meet held at the Midland College Physical Education Building. Way to go, Cheryl-keep

NEW SCOREBOARD STATISTICS HOT OFF THE PRESS!!!

Our TERRIFIC TRACKERS TRIUMPHED AGAIN last Friday under drizzling rain in the Tall City Relays. They scored a new school record of 157 points (YEA!) over Pathetic Permian, Odessa High, Amarillo Palo Duro, Amarillo Tasco-sa and San Angelo. Keep it up, guys! ZIP ZIP ZIPPY, ZAP ZAP ZAPPY. H-A-P-P-Y WE'RE HAPPY!

The Super Strokers competed in the state swim meet last weekend at The University of Texas. Special recognition goes to Carey Carrens for finishing fourth in the 100-yard breaststroke and setting a school standard of 1:00.74 in last Friday's preliminaries. Way to go, Carey! Other new Rebel records were made by the team of Robin Franke, Jon Franke, John Kimberly and Carey in the 400-yard freestyle relay. REBS NO. 1!!!

Our Mighty Defending District 5-4A Baseball Team smeared the Alamogordo, N.M., Tigers 4-2 last Saturday to win the Hobbs Invitational Baseball Tournament. John White and Terry Willis hit home runs. We are now 11-4 in preseason play and we open the 1979 district season at 4 p.m. today against those Bumbling Broncos from Odessa High on our diamond. HEY, HEY, WHAT DO YA SAY?! MIGHTY REBELS ALL THE WAY!!!

TO ALL PARENTS of Lee and Midland High students. There will be a very important meeting in the Lee Youth Center at 7:30 p.m. Thursday, March 29 for those interested in working on the Senior All-Night Party. See ya there.

EARLY BIRD UNTIL 2:15 ALL SEATS \$1.50 Stay tuned till next week! FEATURES: 1:45-4:15-7:00-9:30 Your Rebel Reporters-Cindy, Robin & Julie

P.S. To Clay "Baseball Nose" Calhoun: We're elated to observe that the front appendage on your face has abated in size. In other words, we're glad to see that your schnoz has shrunk!!! (C, R & J.)
P.S.S. Note from B.C.: There WAS

a dance for Coronation. I guess the reason our Chatterers forgot it was that hardly anyone stayed. This is the first time in nine years we've shut down a dance an hour before it was due to end. The powers that be say it just may be the last Coronation

Thanks go to Darcy, Becky, Ta-mara and Wolfgang (these are the ones I know) who painted the murals. and to Jim Reiter, Darcie Raymond and Craig Mulloy who set up for the dance, hung the murals and cleaned up on Sunday. There weren't many involved, but they DID A GREAT JOB!!! Thanks to you all!

DR. NEIL SOLOMON

Self-examination worthwhile doing

close friends of mine there are still risks inhave undergone volved.

If you have a medical mastectomies in the past Dear Dr. Solomon: Our question, write to Neil year. This has left me teen-age daughter is on a Solomon, M.D., 1726 somewhat anxious, 100 percent vegetarian Reisterstown Road, particularly during the diet. She has started to Baltimore, Md. 21208. Dr. interval between my annual visits to my gynecologist. I have Is there any connection? attempted breast selfexamination, but I'm not a doctor and feel I really daughter may be sufdon't know what to look examination really of much value?-Nancy

Dear Nancy: You breast self-examination, and I would urge you not to minimize its importance. Bear in mind that 95 percent of breast cancer is first detected by deficiency of vitamin women themselves. B12. If your daughter

There is really no mystery to breast haphazard approach to of B12 that her body the procedure may not be needs. If she won't eat very helpful. All you foods with B12 then your really have to learn is the doctor could prescribe texture of your own B12. breast so that, should a change occur, you would be aware of it. You may surprised at the number of small lumps and thickenings that are completely normal. Gaining such knowledge does not require a medical degree.

A certain amount of anxiety when you first start is understandable, but the return is well worth the investment of a few minutes of your time. Dear Dr. Solomon: It

seems to me that people who condemn what the media call the sexual revolution are those too old to take part in it. With the possibility of unwanted pregnancy no longer an important consideration (what with the Pill and legalized abortion), how can their criticism be justified? It seems a healthier attitude would be one which advocates "doing what comes naturally." -Barbara

Dear Barbara: While I would not advocate a return to mid-Victorian standards, the sexual revolution has not been an unmixed blessing. As just one example, the incidence of gonorrhea has reached epidemic proportions.

Now a new health hazard is emergingtrichomonas, a parasite of the vagina in women and of the urethral canal in men. During 1977, infections produced by trichomonas have been estimated at two million in the United States alone. Although the infection can be acquired by other means, it is now considered primarily a form of venereal disease.

Those who advocate greater sexual freedom

Babysitting' part of country life

PATRICIA - You wander into the small, cozy office out in the country but along a well-traveled route be-tween Midland and Lamesa.

A friendly chap in a Western hat, boots and leisure garb gets up. He greets you with a handshake. It's about quitting time, but that

doesn't matter at all. "I'm Norman Gandy," he says, 'but folks around here call me 'Buck'

He is doing far more waiting than working.

You might call "Buck" Gandy a "gentleman farmer," since he no longer toils in the field.

At 70, he's retired and has recovered quite well from open-heart surgery he under went almost a year

"I'm baby sitting this afternoon," he tells you. His wife, Iris, who is the bookkeeper at Newcomer Butane & Oil Co. here, has gone over to the Klondike Baptist Church to help prepare supper for a Thursday night church workers' conference, he

says. Churchgoers from rural congrega-

ties on counties but hasn't given them

new revenue source to pay the bills,

McLennan County commissioner

Commissioner Roy Nail urged the

House Ways and Means Committee on

Monday to approve a bill that would

let counties impose a 1 percent sales

He said his county was having to

build a \$6 million jail because of

standards set by the legislatively

created Texas Commission on Jail

tax if local voters approved.

Standards

AFTER SUPPER, they'll have "singing and visitation galore," Gandy says. "Everybody's welcome to come for the fellowship, but gen-

of Farm Road 828, of Patricia. There's a school, church and gin in Klondike but not much else in the

middle of this cotton country.

Patricia has a blacksmith's shop, filling station, two cotton gins, some vacant and dilapidated wooden buildings from the "boom" years, a ceme-tery covered by sand and not much more. Patricia Forbes is buried there, Gandy says. The community perpetuates her name. She died young many vears ago

Gandy moved to southern Dawson County to farm in 1930. He farmed around the old Higginbothan community, which now "is all gone."

He laid the plow to rest after his heart surgery up at Lubbbock last April 10. He was the hospital's 1,900th open-heart patient.

"They've got it (heart surgery) down so well now that it's no different from appendectomy," he reckons.

The "medical profession" has the technique pretty well perfected, says Gandy, who figures he's in good

"OH, I THINK I could go back to farming as far as my health is concerned. But there's no money in it whether you make a good crop or

Though he keeps up his farm home just west of Patricia, Gandy and the wife live in Lamesa - the 12,000-peopled seat of Dawson County.

"It's just like every place else," he says of the town. "They've got some bad ones (folks), some good ones and some in between.

About that time, Henry McQuien Jr. drives up in a twin-tank Newcomer fuel truck. He's the delivery man for the business and does "a little of everything." He and Iris Gandy run the butane-oil business here for Earl Newcomer, who lives in Ackerly on the Dawson-Martin County line.

"She's real active in community affairs," McQuien says in explaining her leaving the office early and getting Gandy to more or less run things "baby sitting," as he puts it. "She takes a lot interest in the communi-

McQUIEN, 54, GREW up at Lamesa, where his late father was an automobile mechanic

He left Lamesa for Alpine in 1946-47, when he was enrolled in Sul Ross State University, and "went to school" with O'Donnell's Bobby Dan Blocker, who later gained fame portraying Hoss Cartwright in television's Western "Bonanza" series.

The Gandy-McQuien ramblings reflect the sincere warmth of a fireside chat on a chilly afternoon.

McQuien sits behind the office desk and, like Gandy, contentedly smokes cigarette after cigarette as if the day would last forever.

A wooden sign behind the desk says something about having "a nervous breakdown...as soon as the rush is over." A fellow gave it to McQuien in 1976, when the butane-oil business was doing particularly well largely due to a bumper crop year.

The hurrying has slowed down con-

Just outside the office and next to a tree is the rusted and ripped-open casing of a practice bomb dropped on the old L7 Ranch during World War II. Midland, like Big Spring, was site of a bombardier school in the early

"I found it last year," McQuien says in his unhurried and easy drawl. 'Somebody just plowed it up. That L7 is in pretty desolate country right there" where the practice bombing took place. The old L7 is mostly in Martin County.

TALK TURNS TO the blacksmith's shop, which actually does more welding and straightening jobs than hammer-and-anvil work around the bellows. The conversation drifts to Patricia's boom days in the late 1940s and early 1950s.

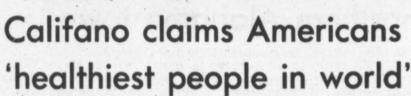

Back then, Patricia had a hotel, three grocery stores, filling stations, cafe, washateria, post office and, of course, the cotton gins. The hotel burned down.

That blacksmith's shop is the only thing (outside the gins) left here, and they're trying to close it down," Gandy allows.

THE OLD SHOP, which belongs in an era long since past and looks the part, is at the crossroads leading to Klondike, Andrews, Midland, and La-

Gandy and McQuien fondly ramble about the past that was Patricia's and many other rural communities no longer of this world.

McQuien is reflective. "They tell me what ruined these rural farming communities was the good highways and the cars. That's what I understand." Many folks "fled" to the city and town but still

Norman "Buck" Gandy, right, and Henry McQuien Jr. "shoot

the breeze" on a no-rush workday afternoon at rural Patricia.

The secretary of health, education and welfare says Americans 'are among the healthiest people in the world," but the costs of staying that way are high.

(Staff Photo by Ed Todd)

Joseph A. Califano Jr. made that assessment in his third annual report to the Congress on the nation's health.

The nation's health bill in 1977 was \$163 billion, or \$737 per person, and consumed 8.8 percent of the Gross National Product, its highest share ever. In 1950, 4.5 percent of the GNP went for health care.

Health costs this year are expected to top \$200

during the first trimester and keep costs from conof pregnancy, when prenatal care is crucial.

-Half of Americans did not see a dentist in 1977, and 20 percent of adults and school-age children had not seen a dentist in at least five

-One-third of Americans over age 40 have never had an electrocardiogram.

Califano said the price of medical services has "mushroomed," with the cost of a semiprivate hospital room tripling and physicians' fees doubling between 1965 and

Carter administration's fight for a bill that would impose a lid on hospitals' revenues next year if they fail to keep the inflation rate of their expenditures below 9.7 percent this year. The report said heart

disease and cancer remain Americans' No. 1 and No. 2 killers, accounting for nearly 60 percent of the nation's death toll. But the ageadjusted death rate for heart disease fell nearly 28 percent between 1968 and 1976, while the canductivity of health care cer death rate has risen providers and the ser- 5.5 percent since 1950. For people under age 45, be improved if the nation the cancer death rate acis to receive better care tually has fallen.

Official urges county sales tax On top of that, he said, the 1977 Speedy Trial Act is adding \$125,000 a AUSTIN, Texas (AP) - The Legislature keeps piling new responsibili-

> ty's courts and prosecutors' offices. "We know what the sales tax has done for the state and the cities, and we think it could do the same thing for counties," Nail said.

year to the cost of operating the coun-

The committee sent two county sales tax bills to subcommittee for more study.

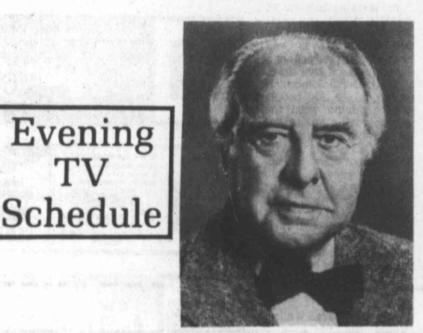

One, by Rep. Lee Jackson, R-Dallas, would give three-fourths of the revenue to school districts within a county. The rest would go to county government.

The other, by Rep. Bill Keese, D-Somerville, would entitle a county to all the money from its sales tax.

To receive its allocation under Jackson's bill, a school district would have to reduce property taxes by 90 percent of what it received from the sales tax.

"I suspect people would rather have a penny sales tax than see what has been hapening in property taxes continue to happen," Jackson said.

Jackson said if voters in each county approved a county sales tax, it would mean \$317 million a year for schools and \$105.9 million for coun-

SCHOOL DAYS

Re-creating his Academy Award-winning role from the 1973 movie, veteran actordirector-producer John Houseman stars as Charles W. Kingsfield Jr., the professor of law who paradoxically petrifies and captivates his students, in "The Paper Chase." The compelling drama about the intense competition among students in law school airs Tuesday, March 20, on CBS.

James Stephens also stars as the somewhat unsophisticated student, James T. Hart, who is both petrified and captivated by Kingsfield's some presence.
