Israel gives landslide support to treaty

JERUSALEM (AP) - Israel's Parliament gave its landslide endorsement to the peace treaty with Egypt early today, clearing the way for Prime Minister Menachem Begin and President Anwar Sadat to sign the historic pact on Monday in Washington.

Capping an often-raucous 28-hour debate, the 120-member Knesset voted 95-18 in favor of the treaty that will end the 30-year state of war with Egypt, Israel's most populous Arab foe; return the Sinai Peninsula, captured from Egypt in 1967, and pave the way for limited Palestianian autonomy on the West Bank of the Jordan River and in the Gaza Strip.

Most of those voting against the treaty were nationalists, many from Begin's own Likud Party, who oppose return of the Sinai and the creation of a Palestinian council to govern the West Bank and Gaza. Thetiny pro-Soviet Communist Party also opposed the pact, claiming it did not go far enough toward Palestinian independence.

Two deputies abstained, three others voted "present," and two were

Begin, grinning, told reporters the vote was "the largest majority the Knesset has ever given on a political issue.'

President Carter sent congratulations saying, "Israel's Knesset spoke with a voice heard around the world — a voice for peace." A few hours after the vote, Foreign Minister Moshe Dayan left for Washington to wrap up negotiations on a memorandum of understanding be-

tween Israel and the United States. "The question is ... would the U.S. assume the responsibility and take measures in case one of the parties would not honor the agreement," Dayan told reporters as he left.

He said Defense Minister Ezer Weizman would follow him on Friday to negotiate the remaining dispute between Israel and Egypt - a timetable for giving up the offshore oil wells the Israelis developed in the Gulf of Suez off the Sinai coast.

Israeli officials have repeatedly said the oil issue is unlikely to hold up the treaty signing, but the Jerusalem Post reported the issue is proving difficult. It said Israel wants to keep pumping oil from thewells until it begins its pullout from Sinai nine months after the treaty is signed. Egypt wants the pumps stopped immediately and has asked Israel to hand over the field in six months, the Post said.

Begin stepped to the Knesset's rosewood rostrum shortly before 4 a.m. — 9 p.m. EST — to deliver a speech concluding the emotional debate.

"There is joy that we have reached this day," he said. "There is worry for the future. There is trembling in our hearts — it is perfectly natural.
"With all this, there is recognition that we have reached a certain turn-

simple or more humanitarian: Shalom — Peace.' Begin proposed that he and Sadat shuttle between Cairo and Jerusalem on Monday, April 2 to sign Hebrew and Arabic treaty texts. Asked why he chose that day, Begin quipped, "Because Sunday is April Fool's

ing point ... all of us together want to achieve that goal, there is none more

Day." He said he would take up his proposal with Sadat in Washington. In Cairo, Egyptian Vice President Hosni Mubarak discounted the possi-

bility of Begin visiting Cairo to sign the treaty.

"Let us leave his visit to circumstances," he said. "... Let us first sign the treaty (in Washington) and start the talks for Palestinian self-rule." Egypt and Israel have agreed to start those negotiations one month

Sadat suggested last week that the English, Arabic and Hebrew texts all be signed in Washington as a tribute to President Carter's work in mediating the agreement.

Begin praised the Egyptian leader's dramatic journey to Jerusalem 16 months ago that began the peace process. "It took courage to face the baying wolves from Damascus and Baghdad - in deciding to come and talk peace to Israel," Begin said.

Throughout the marathon debate, even the supporters of the treaty emphasized the risks to Israel of Palestinian autonomy and the danger of a new war by the Arab "rejection front" — the hard-line foes of the treaty led by Syria, Iraq and the Palestine Liberation Organization.

Weizman disclosed the military had been on a higher than normal state of alert "for the last several days.

Before the vote, newspapers in Saudi Arabia and Iraq called for war against Israel. The Saudi daily Al Jezira, with a circulation of 5,000, said Palestinians should fight "until they turn the occupied lands into a blazing

Dayan due to work on U.S. treaty

WASHINGTON (AP) - Israeli Foreign Minister Moshe Dayan was flying to Washington today to work out final details of the military annex to the Egypt-Israel peace treaty and a "memorandum of assurances" between the Jewish state and the United

The last unresolved detail on the military annex is the date of the Israeli military withdrawal from the Sinai oil fields. Israel wants it to be nine months from the signing of the treaty, while Egypt is seeking to make it two or three months sooner.

The annex must be completed before the treaty is signed at the White House Monday afternoon by President Carter, Israeli Prime Minister Menachem Begin and Egyptian President Anwar Sadat. However, there is no deadline for the memorandum of assurances, U.S. officials said.

The memorandum would set out in writing American assurances of political and economic support for Israel in the event that the peace process collapses.

The U.S. officials, who declined to be identified, said they expect Dayan to ask Secretary of State Cyrus R. Vance for assurances tantamount to a military security treaty but hope Dayan can be persuaded to settle for less binding assurances of political

The New York Times reported today that the memorandum will include these two principles:

If Egypt violates any part of the treaty, the United States would consult with Israel on what to do next. And if the United Nations Security Council takes action against the treaty, the United States would use its veto power or otherwise take necessary steps.

The memorandum of assurances is similar to a secret series of agreements the United States and Israel signed in 1975 after the Sinai disengagement agreement. But this time, the State Department has said the document will be made public.

Midland area lashed by rain, lightning, hail

By ED TODD Staff Writer

Dense gray clouds accompanied Wednesday's sunset in Midland and unleashed lightning, pea-size hail and in places - a drenching rain.

Officially, .57 inch of rain, mixed with quarter-inch hail, fell at the National Weather Service at Midland Regional Airport and came within .02 inch of matching the .59 normal rainfall for March.

Southerly winds gusted to a peak of 69 mph at 7:23 p.m. Wednesday. No significant damage was reported. Wind-driven rain and soft hail cut visibility virtually to zero for a few

minutes and caused a halt of some More than an inch of rain was reported in far west Midland. Some Midland streets, particularly Garfield Street, were flooded, but no

water damage was reported, said

Fred Baker, director of public works for the city of Midland, today. "We really had nothing other than some water in some yards on Illinois (Avenue)" in central Midland, he

said. "...There were problems, nothing spectacular." Garfield Street was flooded and was

strewn with debris from the running water. A tornado was sighted 10 miles southwest of Big Spring and, later, 15 miles southwest of there. No damage

was reported. The Central Fire Station near downtown Midland gauged .41 inch of rain, and up to .75 inch was reported on Midland's southside, said Hoot Leonard. Much of the rain was

CLEVELAND (AP) - Standard Oil Co. of Ohio, cautioning that no final decision has been made to go ahead with a \$1 billion oil pipeline it

scrapped nine days ago, on Wednes-day resubmitted an application for air quality permits in California. On March 13, Sohio said delays in

issuing the permits were the reasons for it abandoning its plan for the California-to-Texas pipeline on A Sohio spokesman said the appli-

cation was submitted to the South Coast Air Quality Management District, one of two environmental agencies evaluating the pipeline plan. Earlier Wednesday, Sohio Chairman Alton Whitehouse said the Cleveland-based company would will wait

officials will clear the way for con-Whitehouse's statement followed a meeting in Washington Tuesday with Energy Secretary James Schlesinger, California Air Resources Board Chairman Tom Quinn and a

number of congressmen.

several months to see if government

At that meeting, Sohio agreed to resubmit the applications for the environmental permits. Whitehouse said, however, he was still concerned that lawsuits would block the

The proposed PACTEX pipeline would move up to 500,000 barrels of Alaska oil daily from Long Beach, Calif., to a national pipeline distribution center at Midland, Texas.

Air pollution permits also have not been issued for the oil terminal at Long Beach. The area is already plagued by poor air quality.

In ditching the plan last week, Whitehouse said it had grown too expensive because of the delay in issuing environmental permits. He said then that Sohio would continue its shipping surplus oil from the West Coast through the Panama Canal.

But Whitehouse said in a prepared

Sohio resubmits request for air quality permits statement Wednesday that "the sec-

retary of energy and various members of Congress made it very clear in our meeting in Washington yesterday that they wanted the PACTEX pipeline project to go forward promptly in the national interest and that they will do all they can to encourage the issuance of the necessary permits and

After the meeting Tuesday, a Sohio spokesman quoted Whitehouse as saying, "If we received the green light within 90 days, there is a strong possibility we would proceed. If we received the green light within six months, there is a probability we might proceed. The project is losing strength and character with the passage of time.'

Now Wallace lays blame on California Gov. Brown

WICHITA FALLS (AP) - California Gov. Jerry Brown is to blame for Standard Oil Co. of Ohio's scrapping of a 1,000-mile, billion-dollar pipeline project to bring Alaskan crude to Texas, says Railroad Commissioner Mack

"I lay the blame directly at Jerry Brown's doorstep," Wallace said in a speech for the annual meeting of the North Texas Oil & Gas Association Wednesday night.

Wallace said Brown blocked the California-to-West Texas project "and I'm not going to let the country forget it."

The pipeline from Long Beach to Midland, initially would move 500,000 barrels daily of Alaskan crude oil to Midland where the oil would be channeled into pipelines to the Gulf Coast, Midwest and Northeast refining centers. Plans call for the pipeline ultimately to transport one million barrels a day to Midland.

Wallace said earlier he had asked the management of Standard Oil Co. of Ohio to reconsider a decision to abandon the proposed pipeline project.

Hospital won't change employee pension plan

By SUSAN TOTH Staff Writer

Replacing social security benefits with a private pension plan providing all the services the government plan offers would cost "more than you can afford," Midland County Hospital District directors were told Wednes-

After meeting with consultants from Boone-Chapman, the agency that handles the hospital district's insurance, directors decided to stay with the social security system rather than change to a private pension

The district had the option to remove its employees from the social security system when the hospital district was formed. Political subdivisions do not have to participate in the federal program.

Social security costs a total of 12 percent of payroll, Joe Duckworth,

the Boone-Chapman consultant said, including employee donations and the matching funds from the employer. To duplicate the services rendered by the system would cost 150 percent of payroll, he said.

The private plans cost so much more, Duckworth said, because private plans have to be secured by reserves, while the federal plan "has no correlation between costs and ben-In other words, directors pointed

out, "ours would have to be fiscally sound and social security is bank-

Some benefits offered by social security, which includes retirement and disability income for the wage-earner and dependents, could not be matched by a private fund because "the risks are uninsurable," Duckworth said. "There is no better buy than social

security as far as employee benefits are concerned," Duckworth said, "and I hate to tell you that because I'm basically against government operated systems.

Directors also agreed to write off some \$84,891 in bad debts and indigent care for March for the hospital district as recommended by hospital

Trustees met Wednesday just before the directors meeting.

For the first five months of the year, the losses written off by the hospital have exceeded the amount expected in the year's buget by some \$95,000, according to John Grimland, chairman of the trustees' finance

On the other hand, losses from Medicare and Medicaid programs have been some \$143,000 more than aniticipated in the budget. 'Since the net loss is only \$95,000,

the hospital must be doing something right operationally," Grimland said. Trustees also requested and directors granted a transfer of \$50,000 in tax money collected by the district to be transferred to the hospital operat-

ng account. The transfer will bring the total tax money used by the hospital to \$250,000 for the first six months of the fiscal year, well within projected budget limits, trustees said.

Special johns delay opening of new pavilion

Owners of good used submarines might find a buyer at Midland Memorial Hospital soon.

Opening of the hospital's \$1.5 million critical care pavilion has been pushed back by delays in shipping a pull-down type toilet fixture like the ones used in old pullman railroad cars or navy submarines, administrator Wayne Ulrich told hospital trustees Wednesday.

The fixtures are manufactured by only one company in the country, and Midland Memorial's shipment has been on backorder since early December, he said.

So far, neither hospital officials nor the contractor has been able to get word when the shipment will be sent, Ulrich said.

Once the fold-up facilities are in, the pavilion — originally scheduled to open in January can be put to use. Until then, critical care pa-

tients are being housed in another area of the hospital destined for renovation, further disrupting the contractor's The impass led one trustee to suggest the hospital try getting

in touch with railroads to see if they might have some of the fixtures for salvage. "We might want to buy a pullman car," he suggested.

"Or a submarine," another member quipped.

Shaky truce prevailing in Iran; Khomeini aide talks with Kurds

SANANDAJ, Iran (AP) - An uneasy truce prevailed in Sanandaj today as a close associate of Ayatollah Ruhollah Khomeini negotiated with Kurdish rebels still in control of the capital of the Kurdistan region after four days of fighting.

Khomeini, the Shiite Moslem leader of the Iranian revolution, sent Ayatollah Mahmoud Teleghani to try to check the local uprising by the autonomy-seeking Sunni Moslem Kurds before it spread to the rest of the tribe in western Iran.

Teleghani, the Shiite religious leader in Tehran, met with leading local tribesmen in the second-story cafeteria at Sanandaj University. He suggested that they submit a list of their demands so he could assess them.

Teleghani was accompanied by the interior minister in Prime Minister Mehdi Bazargan's provisional government, Seyyed Javadi.

Heavy firing around the army barracks, where the Kurds had besieged the local garrison of about 200 troops since Sunday, died down around midnight Wednesday, and the city was calm today.

The government said more than 100 persons were killed, but independent sources in Sanandaj said at least 200 were dead and there were hundreds of wounded, most of them Kurds.

The casualties included many women and children cut down by mortar barrages from the troops inside the barracks and firing by helicopter gunships on heavily populated areas of the town.

The Kurds were armed with light automatic weapons and rifles, some of World War I vintage. Their weapons were not powerful enough to penetrate the thick cement wall around the army barracks, which is strategically located atop a rise with a 500yard no man's land around it.

The Kurdish outbreak was the most serious threat to Khomeini's revolu-

otion since it swept the country five weeks ago. Being Sunni Moslems, the 4 million Iranian Kurds don't recognize the Shiife patriarch's religious authority, and their numbers and fighting ability make them formidable opponents for the demoralized armed forces and the disorganized revolutionary guerrilla groups. Seven million more Kurds live

across the borders of neighboring Iraq and Turkey.

Wearing bullet belts across their chests, the tribesmen dodged from doorway to doorway Wednesday as the soldiers in the barracks fired at them in the tree-lined streets of the regional capital 250 miles west of

Boys in their teens and middle-aged

men set up barriers and helped distribute arms and ammunition. But the Kurds were driven back when two government tanks rumbled out of the barracks and opened fire with machine guns and cannons.

Terrified civilians huddled in doorways. One old woman stepped out of her shop to watch the fighting, then ran back when a bullet shattered the window above her.

Ambulances and private cars took a steady stream of dead and wounded to Sanandaj's two hospitals. One ambulance driver was shot in the head.

Many victims were taken to private homes for lack of hospital beds. Sound trucks and radio stations controlled by the Kurds broadcast appeals for blood.

British ambassador, valet assassinated in Netherlands

THE HAGUE, Netherlands (AP) -Two mysterious gunmen shot the British ambassador to the Netherlands and his valet today on a Hague street and then escaped in morning rush-hour traffic. The two men died a short time later at a hospital.

Authorities could not immediately explain the motive for the assassination. The ambassador, Sir Richard Sykes, 57, was a security expert within the British diplomatic corps. Police said Sykes and the 19-year-

old Dutch valet were shot at about 9 a.m. outside the ambassador's residence as the envoy was about to enter his Rolls-Royce for the 10-minute drive to the British Embassy. Three shots were fired, the ambas-

sador was hit at least once, and one bullet struck the valet, who was holding open the car door, police said.

Eyewitnesses said the two gunmen fled through a nearby alley and disappeared into traffic, police reported. The killers were between 35 and 40 years old and were dressed in dark suits, the witnesses said.

Marian Scheffers, who was working with her mother in their candy shop across the street from the Sykes residence, said:

"I thought it was about six shots, but I didn't come out immediately. My mother went to the front of the shop and saw this boy lying wounded on the cobbles just inside the residence gates." Sykes' chauffeur, unharmed in the attack, drove him to the hospital while an ambulance picked the youth. The ambassador's residence, a his-

toric mansion, is in an affluent residential area of the Dutch capital.

"We have not received any threats, and there have been no claims since the shooting," a spokesman at the British Embassy said. In London, the British Foreign Office said it knew no reason for the attack.

The flag on the Foreign Ministry building in London was lowered to half-staff after news of the ambassador's killing, and Queen Elizabeth II sent a message of sympathy to Lady

In 1976 the British government sent Sykes to Dublin to investigate the killing of Ambassador Christopher Ewart-Biggs by a land mine at the entrance to the grounds of the embassy residence.

The Irish Republican Army, fighting a guerrilla war to drive the British out of Northern Ireland, said it planted the mine, but no one was ever arrested for the killing. Sykes became Britain's ambassa-

dor to Holland in June 1977 after filling diplomatic posts in Washington, Havana, Athens, Peking and Santiago, Chile. He and his wife had three children - two sons and a daughter all in their 20s and studying

Decision due on change of venue motion for Odessan Stephen Fife

ODESSA - Judge Joe Connally of Odessa said Wednesday he will announce a decision today on the change of venue motion heard Tuesday in the trial of Stephen Fife, 22, of Odessa. Fife has been charged in connection with the murder of Catherine Ann "Fifi" Murphy. Testimony in the change of venue

proceeding was heard in 244th District Court Monday. Connally viewed newsreels of local television stations concerning the Fife case Wednesday

Electric blanket fire causes smoke damage

A short in an electric blanket started a fire about 11:50 a.m. Wednesdaythat caused heavy smoke damage to the bedroom and bathroom of a Midlander's home, fire officials said.

The fire also caused light smoke damage to the rest of the home of Norman Mutter of 3502 Sentinel Ave., officials said.

and said he will announce a decision by today.

Miss Murphy, the 19-year-old victim, disappeared from Odessa on the evening of July 19 last year.

In early February, Fife reportedly led two law enforcement officers to a primitive grave in Crane County containing the remains of Miss Murphy's Shortly thereafter, Fife was

charged and indicted in connection with her death.

Fife remains in Ector County Jail. He was denied bond in the case. Court-appointed defense attorneys

Royal Caswell and Cynthia Clack filed the change of venue motion in February, claiming publicity in the case has made it impossible for the defendant to receive a fair and impartial trial in Ector County.

Did China-Vietnam war aid Soviets?

(AP) - The war between China and Vietnam may have led to greater Soviet influence in the region and confirmed Vietnam's domination over Laos and Cambodia, according to analysts

But they say it still is too early to tell for cer-tain and add that the Chinese could have come out of it with a long-range advantage.

Intelligence sources in Bangkok and Washington say Soviet warships docked in at least one Vietnamese port during the border conflict that began Feb. 17 and Soviet ships and planes were

Fife was The bill sponsored by connection Rep. Ben Z. Grant, D. Marshall, was sent to a ounty Jail. subcommittee for furcase. ther study. attorneys

Grant said the mixed drink tax brought in \$65 million to the state treasury last year. His bill would put a \$10 million limit on state aid to the regional alcoholism programs.

The mixed drink tax would not be increased, he added.

Grant said the social and economic costs of alcohol abuse in Texas has been estimated to be \$2.1

billion a year. "There is a need for adequate funding for people who work with these programs," he

Smaller savers protest present interest system

By JOHN CUNNIFF **AP Business Analyst**

NEW YORK (AP) - As some small savers see it, they are victims of a caste system that limits them to a minimal return on investment, while big savers earn several percentage points more.

Not merely prejudicial treatment, they say, but a caste system, one that effectively limits their ability

to ever get a shot at higher rates, the rates that go to those who already have a hunk of capital. The passbook savings rate, for example, is 5.25 percent in savings institutions, 5 percent in commercial banks. But if an individual can commit \$10,000 for six months, he or she can earn nearly 9.5

The difference is more than a few points of interest; for the small saver it can mean lending at a loss. At inflation of 9 percent, as prevailed from December 1977 to December 1978, the loss is significant.

Even discounting inflation, the effect is to widen the gap between small and big saver. At 5.25 percent interest, the face value of money doubles in 14 years; at 9.5 percent it doubles in less than eight. While conceding the disparity, not everyone be

lieves something should be done about it. They explain that there's a reason, that funds of small savers support home mortgages, and that home mortgage rates must be kept low. Home-buying, it is said, is socially desirable and should be supported.

In theory, the money of larger savers generally goes into commercial banks and is then lent out on higher cost commercial loans, on which there are few limitations except those imposed by market conditions. Such an explanation seems to offer small savers

little solace, to say nothing of the affront to their sense of justice. And they aren't without support. Some savings industry people share their view. Some of the latter, in fact, fear that their very

existence could be endangered. They see would-be savers disillusioned by the low return available to them, and find them becoming spenders instead. What this country needs today, say the latter, is

capital investment, which helps restrain inflation. Spending, in contrast, supports inflation, our No. 1 The U.S. League of Savings Associations, by far

small savers should get immediate attention.

It proposes that the lower limit of deposits accept ed for higher-paying, longer term savings certifi-cates — those in which funds must be left for at least

interest rates of up to 8 percent, even if they had to leave the funds on deposit for as much as 8 years.

day, if inflation is brought under control, they might

n— Treasury notes. 3 Bid and asked prices quoted in dollars and thirty seconds. Subject to Federal taxes but not to State income taxes. AMARILLO, Texas (AP) — Trade rather slow throughout the Panhandle area through mid-afternoon Wednesday. Slaughter steers steady but not enough heifers sold for a price trend. Feedlots reported rather limited interest from most buying sources after the early week's fairly liberal movement. Sales on 3500 slaughter steers and 100 heifers. All live cattle prices based on net weights f.o.b. the feedlot after 4 percent shrink. Slaughter steers: 100 head choice 2-3 1075 ib sorted 74.50. Good and mostly choice 70-85 percent choice, 2-3 1050-1175 ib 73.50-74.00. Mixed good and choice 2-3 1050-1200 ib 72.00-73.00. Slaughter heifers: 100 head mixed good

DETROIT (AP) - What the 1980 General Motors compacts will look like is a poorly kept secret, but the auto industry is watching closely to see if these so-called "X-cars" will live up to their advance billing as the most significant new automobiles in decades.

The front-wheel-drive cars, to be unveiled April 3, are of strategic importance to the nation's No. 1 automaker in any event. They represent GM's most critical move yet to satisfy the demands of the energy-short 1980s.

The auto giant, whose traditional strength is the lucrative bigger cars, can no longer afford to wink at the compact market and its fuel-economy advantages. And when GM takes aim, it is an enormous threat to competitors.

Haydon, auto analyst for Goldman, Sachs & Co., says of the new X-cars. The cars - dubbed "X" not with the idea of

secrecy but because autos are usually named by letter during their development - have attracted exceptional interest in industry circles. 'Sneak" photos of the cars have appeared routine-

been spotted at Ford headquarters in Dearborn, on Detroit freeways and in dealer lots. GM says the five-year development program for

cars to start at under \$4,500. The new compacts will replace the Chevrolet Nova, Pontiac Phoenix, Oldsmobile Omega and

Depending on who's talking, the X-car is either a significant development in auto design or a moderately interesting car that falls short of its advance

billing. All agree it's a creature of Washington, D.C. The cars are 800 pounds lighter and 20 inches shorter than the current models. With the base four-cylinder engine and manual transmission, the

2,500-pound Citation is rated by the Environmental Protection Agency at 24 miles per gallon in city driving - up 26 percent from 19 mpg on the current Nova.

highly fuel-efficient, all-new car," Haydon says. 'It's the flagship car for GM's sizing-down ef-An unimpressed official at a GM competitor,

however, sniffs that "the end product is a hell of a lot less formidable than the rumors had it. GM's advertising dollars are more to be feared than the car itself.

The key engineering feature is front-wheel-drive, a first in a non-luxury GM car, which saves space. An "east-west" or crossways engine and drive train placement let GM shorten the hood and save passenger and luggage space that in a rear-drive car would have been needed for transmission humps, drive shafts, rear axles and fuel tanks.

cubic feet of interior space than the Nova, according to Chevrolet. GM probably won't tout the fact, but the fuel tank

is ahead of the rear axle - a change facilitated by front-drive and endorsed as safer by critics of the fuel tanks.

Ford. GM President Elliott M. Estes says that to meet the federal mileage standard of 1983, GM will have to sell two compacts for every full-sized

GM leaks secret of its 'X-Cars

By DONALD WOUTAT

NEW YORK (AP) — Cotton futures No.2 were lower in afternoon dealings today.

The average price for strict low middling 11-16 inch spot cotton advanced 5 points to 59.42 cents a pound Tuesday for the ten leading markets, according to the New York Cotton Exchange.

Late afternoon prices were 35 cents to \$1.15 a bale lower than the previous close. May 62.35 Jul 64.35, and Oct 65.48. "They're going to hurt everybody else," Richard LUBBOCK, Texas (AP) - Today's base price cotton quotation for strict low mid-dling one and 1-16 inches at Lubbock is 55.95 cents per pound.

DEATHS Isabel Deetjen

Isabel Deetjen, 97, of 207 E. Circle Drive died Monday in a Midland hos-

Services were Wednesday in St. Ann's Catholic Church with Father Ed Brazell officiating. Burial was in Resthaven Me-

morial Park Cemetery directed by Newnie W. Ellis Funeral Home. She was born Sept. 26, 1881, in Havana, Cuba, and lived there until 1961. when she moved to the United States. She moved to Midland in 1966.

Ms. Deetjen attended schools in New York. A frequent visitor to the United States, she met and was married to H.J. Metz in Philadephia, Pa., in 1903. Her husband preceded her in death in 1916.

Survivors include a daughter, Isabel Ampudia of Midland, and three grandchildren, Dr. Ernest I. Vernezobre, Dinana Vernezobre and Rhonda Louise Vernezobre, all of Mid-

Ruth Ellen Harris

CRANE - Ruth Ellen Harris, 78, died Tuesday in a Crane nursing home after a lengthy illness. Services will be in the South Union

Church in the Jenkins Community with burial in Clarks Cemetery directed by Larry D. Sheppard Funeral Home

Time and date of the services are pending

The Texas native was born Ruth Williams Oct. 7, 1900. She was married to James Coleman Harris May 16, 1920, in Hughes Springs. He died in 1954. She had been a resident of Daingerfield before moving to Crane some four months ago. She was employed as a nurse's aide. She was a Baptist. Survivors include a daughter, Mrs. C.M. Phillips of Crane; a son, William C. Harris of Houston, two brothers, Frank Williams and Jewel Williams, both of Daingerfield, four grandchildren and five great-grandchildren.

Bertha Passur

CRANE - Graveside services for Bertha Passur, 86, of Crane were to be at noon today in Agudas Achim Palmetto Cemetery in San Antonio. Mrs. Passur died Tuesday at her

home in Crane. She was born Bertha Rosenwasseer Feb. 20, 1893, in Allentown, Pa. She was married to Nathan Passur June 22, 1913, in Ballinger. He died Dec. 14,

She was a member of Temple Beth-El in Odessa and was a 69-year member of the Eastern Star. Survivors include two daughters,

Helen Tobin of Crane and Evelyn Stern of San Antonio; a son, Charles Passur of Crane, three grandchildren and a great-grandchild.

Dora B. Ravens

CRANE - Services for Dora Belle Ravens, 83, of Crane were to be at 2 p.m. today in Larry D. Sheppard Funeral Home with Doug Crane, Church of Christ elder, officiating. Burial was to be in Crane County Cemetery. Mrs. Ravens died Tuesday in an

Odessa hospital.

She was born Dec. 11, 1895, in Hood County. She was married to Ralph Harris Ravens July 21, 1918. He died Oct. 18, 1972. She was a member of the Church of Christ.

Survivors include two daughters, Billie L. Townsend of Azle and Zula B. Anderson of Crane; five sisters, Nettie Neely of Tolar, Elizabeth Anderson and Andrich L. Warren, both of Lubbock, Maude Rush of Levelland and Ruth Miller of Littlefield, and eight grandchildren.

Helen Kinnaird

Helen Harris Kinnaird, 83, of 2800 W. Illinois Ave. died Tuesday in a Midland hospital.

Services will be at 3 p.m. Friday in the Episcopal Church of the Holy Trinity with the Rev. Sam Hulsey officiating. Burial will be in Resthaven Memorial Park directed by Newnie W. Ellis Funeral Home.

Mrs. Kinnaird was born July 22, 1895, in Oran, Mo. She spent her early life in Missouri. She was married to Herbert H. Kinnaird in 1917.

After living several years in Sapulpa. Okla., where he was in banking, they moved in 1922 to Glenrock, Wyo., where he worked for Marland Oil Co. They moved to Farmington, N.M., and later to Albuquerque, N.M., where he worked with the Continental Oil Co. after it merged with Marland.

The Kinnairds moved to Midland in 1971 from Farmington, N.M., after spending most of their married life in Albuquerque. He died in 1974.

Mrs. Kinnaird was a member of the Episcopal Church of the Holy Trinity. She served in the Daughters of the King in St. John's Episcopal Cathedral in Albuquerque. She also was a member of the Daughters of the American Revolution in Albuquerque and was past vice president of the New Mexico state hospital auxillary. Survivors include two daughters,

Midland, and three grandchildren. Arthur G. Rankin

Mrs. Seth B. Kittrell of Hesperia,

Calif., and Mrs. Norman D. Raman of

ODESSA - Services for Arthur G. Rankin, 58, of Odessa were to be at 4 p.m. today in Hubbard-Keily Funeral Home here. Burial was to be in Sunset Memorial Gardens.

Rankin died Tuesday at his residence following a brief illness.

He was born Dec. 24, 1920, in Mulecreek, N.M. He was married to Betty Carlene Johnson July 17, 1948, in Odessa. He moved to Odessa in 1945 from Hobbs, N.M. He was a member of the Westminster Presbyterian Church in Odessa.

He served with the Marines in World War II. He was a 32nd degree Mason in Masonic Lodge No. 955 in

Survivors include his wife; two sons, Dennis Rankin of Odessa and Bert Rankin of Houston; a daughter, Jane Prophitt of Odessa; three brothers, Beuford Rankin of Odessa, Noel Rankin of Silver City, N.M., and Calvin Rankin of Las Cruces, N.M., and three sisters, Nell Gersh of Silver City, Dovey Ussery of Seminole and Florena Blackey of Hobbs.

Feds admit it: States handle grants better

AUSTIN, Texas (AP) - John Ackley of the U.S. Office of Education says, for the first time, the federal government is admitting Texas and other states can do something better than it can.

Ackley promoted a proposal Wednesday that would establish a public non-profit corporation to guarantee college student loans from private lenders.

The Senate Education Committee approved the bill, 9-0, and sent it to the full Senate. Committee chairman Oscar Mauzy,

D-Dallas, offered the measure. He said it had been recommended by a special committee set up by the 1977 Legislature.

Texas already has a state-financed

loan program for students who are unable to obtain money from private

Congress voted in 1976 to provide states with incentives to administer private loan programs after so many problems developed in the federal program that many private lenders refused to participate.

Those incentives include the federal government's guarantee that it will cover all the state's costs when a student defaults on a loan, as well as provide start-up money and an allowance for administrative expenses.

Ackley said 39 states are administering private loan guarantee programs, and Washington and Missouri are expected to do so within four

Court delays appeal review

AUSTIN, Texas (AP) — The Texas Court of Criminal Appeals says it lacks enough trial records to review Jerry Hartfield's death penalty conviction in the ax slaying of a Bay City

The court put off a decision Wednesday on Hartfield's appeal until the full case transcript is sent to Austin.

Hartfield, a construction worker, was arrested in Wichita, Kan., two days after Eunice Jobe Lowe, 55, was found dead Sept. 17, 1976, in a Bay City bus station. Mrs. Lowe ran the bus station and telegram office.

Pentagon plans to spend \$108 million on bomber

WASHINGTON (AP) - Pentagon officials, acting in response to strong congressional pressure, are going to spend \$108 million to continue development of a Marine bomber program that President Carter had sought to cut from the defense budget.

Sen. Gary Hart, D-Colo., a supporter of the AV-8B fighter-bomber, said Wednesday work would continue on the new Marine Corps plane.

Earlier this year, the Defense Department had frozen all but \$15 million of \$123 million Congress appropriated last year for engineering work on the plane, called a "jump

Bill proposes to raise Texas' drinking age

AUSTIN, Texas (AP) - A bill aimed at stopping high school drinking by raising the minimum age limit to 19 was sent to the Senate Wednes-

In 1973, the Legislature lowered the alcoholic drinking age minimum from 21 to 18

"The phrase used then was, 'If they're old enough to fight, they're old enough to drink,'" Roger Wiley, principal of Lanier High School in Austin, told the Senate State Affairs Commit-

"But the reasoning does not hold fight doesn't take his 14 or 15-year-old friend with him," Wiley said. "It's not unusual for high school students to leave on lunch breaks, have a few beers and return to school somewhat

Other witnesses who appeared but did not testify included representives of school boards and professional organizations.

The committee approved the bill by Sen. Walter Mengden, R-Houston.

jet" because it can take off and land vertically.

Also, a Marine request for \$203 million for the aircraft in fiscal 1980 was denied by the Pentagon and White House budget officers.

Hart sponsored a Senate resolution to overturn the Pentagon's deferral of spending the \$108 million and he has fought for it in the Senate Armed Services Committee during consideration of the administration's request for \$2.2 billion in supplemental appropriations for 1979.

Hart proposed holding up the supplemental money, or freezing funds for salaries of high-ranking civilian defense officials to force release of the AV-8B funds. The panel had not acted on either proposal.

But release of the money, an-nounced Wednesday, will continue engineering work on the AV-8B for the remainder of the year and give Congress a chance to consider whether to order the Pentagon to continue development in 1980.

Defense Secretary Harold Brown has been skeptical of the aircraft, and some officials have said it failed to measure up against higher priority programs this year.

In addition, one official, who asked to remain anonymous, has called the bomber a "turkey."

The Marines bought 110 first-generation AV-8A Harriers, built in Great Britian, but 32 have crashed, killing

Even so, Marine officials - led by Gen. Louis Wilson, commandant of the Corps - have been lobbying Congress to lift the funding freeze and to appropriate more money in 1980 to continue development of an AV-8B model to correct the earlier model's technical problems and increase its range and weapons-carrying capac-

The Marines have hoped the plane would become their main battlefield bomber to provide close support for ground troops.

Carter's diplomacy fails to improve rating

deast summit last year, Americans' opinion of President Carter soared. But his successful Middle East shuttle diplomacy this month didn't raise his standing in the eyes of the public, an Associated Press-NBC News poll found.

Americans do approve of Carter's efforts to get Egypt and Israel to sign a peace treaty, the poll taken Monday and Tuesday shows.

What they don't like is the way the president has dealt with energy and the economy - two issues nearer to Americans' everyday cares than for-

The public's ratings of Carter's work on economic and energy problems are at the lowest levels ever found for the Democratic chief executive in these

In sum, these changes add up to essentially no change in the public's opinion of Carter's work Twenty-nine percent of those interviewed rated

Carter's performance excellent or good. That is not significantly higher than the 28 percent finding in last month's AP-NBC News poll. On the other side, 18 percent gave him poor

Fifty percent said Carter's work was only fair and three percent were not sure.

This poll was conducted after Carter had succeeded in his shuttle diplomacy to bring Egypt and Israel to the point of signing a peace treaty.

In a poll conducted right after the Camp David summit last September — when Carter brought Israeli Prime Minister Menachem Begin and Egyptian President Anwar Sadat together for 13 days of talks - Carter's overall job rating improved 16

The president's recent success in the Middle East did boost the public's opinion of his handling of foreign policy matters.

Forty-four percent gave his handling of international affairs good or excellent marks, up 9 points from last month's survey finding.

Eighteen percent rated his foreign policy work poor, while 34 perent gave it only fair marks. Four percent of the 1,600 adults nationwide inter-

viewed by telephone were not sure. Specifically on the Middle East, 64 percent rated Carter's efforts as excellent or good. Only 7 percent rated his work poor and 25 percent said it was only

But the twin problems of the continuing rise in prices and the specter of oil shortages have pushed the public's perception of Carter's work in those areas to the lowest points of his administration.

Forty-seven percent rated Carter's work in handling energy problems as poor. That is the most negative performance rating ever found by the AP-NBC News poll for Carter in any area and is up 14 points from the February survey. Only 13 percent of the public gave his response to

energy problems a good or excellent rating. Thirty-five percent said his work in the area was only fair and 5 percent were not sure.

Since the February survey, the effects of the Iranian oil shutdown have begun to show up in this

NEW YORK (AP) - After the Camp David Mi-country in the form of higher prices and some shortages. Other oil producing nations have also raised their prices for crude in light of the tight supply situation.

On the economy, Carter's problems were similar. or good. Four percent were not sure.

Forty-one percent rated his economic work as poor, down 8 points from last month. Another 41 percent gave him only fair marks. Only 14 percent rated his economic work excellent

Susan Livingston, both with Halliburton Services in . Midland. The conference, which continues Friday, is expected to draw more than 600 participants. (Staff Photo by Brian Hendershot)

Operators report field wells, tests in several West Texas counties

Hanson Corp. of Midland No. 1 Walker has been completed as a Canyon sand well in the Tonto field in Scurry County, eight miles north of

The operator reported a daily pumping potential of 64 barrels of oil, through perforations from 6,917 to 6,998 feet after 750 gallons of acid and 30,000 gallons of fracture solution.

The gas-oil ratio is 1,194-1 and gravity of the oil is 40.5 degrees.

The total depth is 7,150 feet and the 4.5-inch casing is set at 6,975 feet. The plugged back depth is 6,930 feet.

The project started out as a Strawn test in the depleted Tonto (Strawn) field and is 550 feet from south and 1,980 feet from east lines of section 390, block 97, H&TC survey.

KENT EXTENDER

Convest Energy Corp. of Houston No. 5 Wayne Williams and others has been potentialed as a 1/2-mile south and east extension to the Pollar (Ellenburger) field of Kent County, two miles southwest of Polar. The well finaled for a daily flowing

potential of 205 barrels of 42.4-gravity oil, through an unreported choke, and from open hole at 7,686 feet, where 5.5-inch casing is set, and total depth of 7,710 feet. The gas-oil ratio was not reported.

The well is 2,866 feet from north and 2,667 feet from west lines of section 59, block 5, H&GN survey.

DAWSON TEST

Hulen H. Lemon of Midland No. 1 Myers is to be drilled as a project between the Gin (Spraberry) and Gin, from north and west lines of section North (8,000) field of Dawson County, two miles west of Lamesa. It is 660 feet from north and 120 feet CROCKETT WELL

from west lines of section 4, block 36, T-5-N, T&P survey.

The operator staked the project in the Gin (Spraberry) pool.

Contract depth is 8,800 feet.

Exxon Corp., operating from Midland, spotted location for an east offset to the discovery well of the twowell Howe (Yates oil) pool of Ward unty, 14 miles southwest of Mona

The project, No. 3 W. E. Kreps Estate, is 2,750 feet from northeast and 800 feet from southeast lines of Joseph Howe survey No. 2. Contract depth is 2,700 feet.

UPTON TESTER

John L. Cox of Midland No. 1-57 Anacker has been spotted one-half mile south of Bend production in the Old Upland pool of Upton County, 10 miles northwest of Rankin.

Location for the 10,500-foot test is 2,244 feet from south and 467 feet from east lines of section 57, block Y, TCRR survey. It is one location south of the pool's only Wolfcamp producer.

CROCKETT TEST

Dan J. Harrison Jr. of Houston No. 2 Joe F. Bean is a new project in the two-well Pikes Peak Draw (Canyon gas) field of Crockett County, 10 miles northwest of Ozona.

Contracted to 8,150 feet, it is 3,960 feet west of production and 660 feet

Experts say crude too valuable to use as fuel

By GORDON D. MOTT

MEXICO CITY (AP) - A United Nations expert predicts that oil and natural gas-producing nations will use increasingly less of those valuable resources for fuel, channeling them instead into lucrative chemical production.

'Oil is too valuable to burn as fuel," Dr. Mohamed El Halfawy of Egypt said in an interview. He was one of 250 experts from 80 countries at a recent meeting on the petrochemical industry sponsored by the U.N. Industrial Development Organization or UNIDO.

Approximately 4.5 percent of the crude oil now produced is used to make petrochemicals. A report issued by the U.N. conference said the percentage will go up to 10 by 1985 and keep growing at a huge rate until the turn of the century.

Petrochemicals include a number of synthetic materials - especially plastics - that have large worldwide use. Ethelene and propylene, derived from crude oil, are basic components of plastics. Aromatics, benzene and xylene are used in fibers like nylon, dacron and rayon. Butadiene is used in synthetic rubber. Methanol, also derived from crude oil, is the ingredient for formol, a key constituent of adhesives. World consumption of ethelene is roughly double that of propylene or benzene

Halfawy predicted that developing nations - which produce the bulk of the petroleum now used as fuel by industrialized countries - will expand their petrochemical industries. despite efforts that he and other ex-

perts claim are being made by multinational corporations to resist that. "Western nations must realize that

oil-producing nations are going to set up petrochemical plants. It is their legitimate right. It is their raw material," he said. Currently, only 9 percent of the petrochemical industries are located in the developing na-

Mexico is one leading oil and gas producer that is expanding its petrochemical industry.

Halfawy claims these nations aim to have 25 percent of the world petrochemical market by the turn of the century and warned there could be a glut in petrochemicals if the industrialized nations do not cooperate in coordinating production.

"Most of the world's oil is in developing countries. Industries based on those raw materials should be natural choices to substantially increase the Third World total of petrochemicals production," he said.

"Does it make sense to take natural gas from the Middle East, liquefy it at great expense, transport it thousands of miles, store it, re-gasify it and then use it as feedstock for petrochemicals?" Halfawy asked.

"Why don't the multi-nationals go into joint ventures with developing nations to build plants close to the site of the raw materials?" That way there would be full utilization," he

"Instead, most of the best stock for petrochemical plants is being

Halfawy claimed that "industrial nations are more understanding of the plight of the Third World than they were 10 years ago. But they will too often use the argument they are free-market societies and they have no control over what policies their multi-national companies pur29, block UV, GC&SF survey.

International Oil & Gas Corp. of Midland No. 1-47 Ingham has been completed 1/2 mile south of Devonian gas production in the Ingham (Devonian and 6400 Canyon gas) field of Crockett County.

Finaled from the Devonian, it completed for a calculated absolute open flow potential of 4,560,000 cubic feet of gas per day. Production is from pay behind cas-

ing perforations from 7,216 to 7,604 feet. The zone was acidized with 40,-000 gallons and fractured with 40,000 Location is 660 feet from north and

900 feet from east lines of section 47. block 2, I&GN survey and 23 miles southwest of Ozona.

SUTON OUTPOSTS

William Perlman of Houston announced locations for three projects in the Shurley Ranch (Canyon gas) area of Sutton County, 16 miles southwest of Sonora. Each of the projects will be drilled

to 7,500 feet.

The No. 1-132 Ida Cauthorn Estate is one and seven-eighths miles south of Shurley Ranch production and one and three-eighths miles northeast of the Cauthorn Ranch (Strawn gas)

The location is 933 feet from north and 1,100 feet from east lines of section 132, block C, HE&WT survey.

The No. 2 -131 Ida Cauthorn Estate is one and one-half miles south of production and 1,650 feet from south and 933 feet from east lines of section 131, block C, HE&WT survey.

Perlman No. 1-10 Mack Cauthorn Estate will be drilled one and fiveeighths miles south and slightly east of production and 1,200 feet from south and 1,500 feet fom west lines of section 110, block C, HE&WT survey. It also is 1/2 mile west of a 6,000-foot

ANDOVER RE-ENTRY

Andover Oil Co. of Tulsa, Okla., will re-enter its No. 5-A J. E. and P. E. Adams, former Strawn gas well in Sutton County, and attempt to complete it as the second Strawn 3000 oil producer in the Fort Terrett Ranch field of Sunton County The project, 26 miles east of Sonora,

is 760 feet from south and 1,400 feet from east lines of section 66, block A, GWT&P survey. It originally was completed at total

depth of 2.860 feet in 1969 by CASEX as a Strawn oil producer. It later was reclassified as a gas well.

SCHLEICHER WELL

J. Cleo Thompson of Dallas No. 4 Rousselot is a new well in the Ozona, Northeast (Canyon 7520) field of Schleicher County, 16 miles northeast

The operator reported a calculated absolute open flow potential of 1.2 million cubic feet of gas per day, with a gas-liquid ratio of 46,986-1. Gravity of the liquid is 68 degrees.

Completion was through perforations from 7,323 to 8,368 feet and from 8,434 to 8,450 feet after 2,550 gallons of acid and 32,000 gallons of fracture solution.

The new gasser is one and fiveeights miles east of other production for the comparable pay. Wellsite is 1,320 feet from north and

east lines of section 14, block EF, GC&SF survey. The operator reported the following

tops on ground elevation of 2,388 feet: Canyon, 7,322 feet; Strawn, 8,432 feet and detrital at 8,530 feet.

Transportation head asks for new vehicles

WASHINGTON (AP) - With energy experts in and out of government agreeing that coping with gasoline shortages soon will be a way of life for American motorists, Transportation Secretary Brock Adams is renewing his call for the U.S. auto industry to re-invent the car.

"We have to have a basic breakthrough in the next seven years, technologically, if the American motorist is to keep the kind of mobility he now has," Adams told reporters Wednesday.

Adams said he has seen little re-

ENERGY

sponse since challenging Detroit automakers last December to turn to new materials and approaches to produce a car that would get 50 miles

per gallon of gasoline. However, he is going ahead with plans for top-level officials from government and the auto industry to meet in Washington in the next couple of months to discuss the situation.

Adams said he disagrees with the domestic automakers' contention that small, fuel-efficient cars won't sell.

"My position is that by the time they get finished making it - and it takes them at least five years to get anything changed up there — it's going to be marketable," said Adams. He said he is convinced the on Situation is not going to get better and 'I think the American public is starting CHAVES COUNTY

Penroc Oil Corp. No. 1-J Bar C-Federal; td 2,053 feet, plugged and aban-He said he is convinced the oil situato get concerned."

Adams' views on gasoline shortages were reinforced Wednesday by a new CIA study, government energy officials and executives from two major oil companies.

The CIA study, parts of which were made public by Sen. Mark Hatfield, R-Ore., concluded that low oil stocks in the United States "will inevitably lead to increased rationing of supplies by oil companies, higher prices and curtailed economic growth."

The CIA predicted that scenario "even with high levels of production in Saudi Arabia and elsewhere" to partially offset a curtailment of Iranian oil available for export.

A separate study released Wednesday by the Treasury Department concluded that the threat to U.S. national security from this country's growing dependence on foreign oil is "greater DAWSON COUNTY now than at any time in the past." It based that assessment on the possibility of an actual disruption of foreign oil supplies as well as the erosion of the U.S. dollar stemming from a large volume of imports.

Herbert I. Goodman, president of Gulf Oil Corp.'s trading and transportation subsidiary, told the Senate Energy Committee Wednesday in prepared testimony that even before the

California sale may be delayed

By ELLEN HUME The Los Angeles Times

WASHINGTON - Secretary of the Interior Cecil D. Andrus said this week that he might delay the proposed leasing in 1981 of new oil and natural gas tracts off the Northern California coast.

In another action that would please California agricultural interests. Andrus said that he also might favor exempting the Imperial Valley from the reclamation law's controversial 160-acre limit.

At a breakfast meeting with the Los Angeles Times Washington Bureau. Andrus said that he would "not waste five minutes of my time" on finding federal funding for the proposed Peripheral Canal in California "until the state of California makes up their mind what they want to do."

Andrus had been urged by Sen. Alan Cranston, D-Calif., and a number of California congressmen, including Democratic Rep. Leon Panetta and Republican Rep. Paul N. McCloskey, to delete many of the proposed oil and natural gas tracts in sale area 53 off the Northern California coast from Point Conception to the Oregon border.

"I would say they have valid concerns and complaints about the potential damage of that sale and which leases should be left out," Andrus said Tuesday. "There is the possibility that sale 53 might be slipped in the schedule if it does not prove up - and we think safe — at this point in time.

"If it is disallowed," he added, "I would substitute in that time frame another sale so that the energy needs of America wouldn't slip with the possibility of delaying that sale." Cranston and Democrtic Rep. Clair

Burgener introduced legislation last week to exempt the Imperial Valley from the 160-acre limit for farms using federally subsidized reclamation water. Andrus said that he may favor the Imperial Valley exemption if it helps

resolve the 160-acre controversy, which has been a major sore point between California agribusiness and the Carter administration. The issue flared up last year after a federal court ordered the Department of Interior to strictly enforce the 1902 Reclamation Act's 160-acre limit per

family member on farms using feder-

al reclamation water.

shutdown of oil production in Iran there was a budding shortage of the type of oil suitable for refining into gasoline and aviation fuel.

"And therein lie the seeds of the next real oil crisis: a scarcity of light crude oils, resulting in a scarcity of gasoline, aviation fuel and the inevitable spiraling prices for all these commodities."

Robert N. Dolph, president of Exxon International, told the committee there is the possibility of major heating oil shortages next winter because the loss of Iranian oil has left oil companies unable to build a stockpile as they normally do at this time of year.

Assistant Energy Secretary Harry E. Bergold Jr., questioned by the committee, agreed that serious shortages - particularly of heating oil are possible.

He said President Carter will lay out possible ways to deal with the problem in an energy policy speech to the nation March 29.

Meanwhile, a new Associated Press-NBC News poll indicates the public's ratings of Carter's work on energy and economic problems are the lowest since he took office. Fortyseven percent of the 1,600 adults surveyed Monday and Tuesday rated Carter's work in handling energy problems as poor. Only 13 percent gave him a good or excellent rating, 35 percent said only fair and 5 percent were not sure.

In other energy developments Wednesday:

-Standard Oil Co. of Ohio cautioned in Cleveland that it has made no final decision to proceed with a \$1 billion oil pipeline from California to Texas although it refiled an application for air quality permits Wednesday in California. The firm announced March 13 it was abandoning plans for the pipeline, but said it might reconsider after meeting Tuesday with Energy Secretary James R. Schlesinger and others in Washing-

-The Carter administration urged Congress to repeal a law which allows Congress the final say on whether to trade Alaskan oil for other oil more readily accessible to U.S. refineries.

-Iran's chief spokesman in the United States, Shariar Rouhani, said an Israeli-Egyptian peace treaty engineered by the United States should not hamper Iranian oil exports to the United States because the treaty "is not going to accomplish much.'

not resolve their differences. One administration source said the direction Carter has decided on "is not as much as they'd like, but it's as much as can possibly be done or that

the economy permits.

Workmen maneuver a skyhook nearly 80 "Columbia" while the craft sits on an El Paso runway. (AP Laserphoto) feet above the ground near the shuttlecraft

Space shuttle prepared for 'seat-of-pants' flight

EL PASO, Texas (AP) - The American space shuttle Columbia, waiting out Mother Nature in El Paso the last two days, is scheduled to take off for San Antonio today. But one official admits it will take some tricky flying to make the refueling stop before flying on to Florida.

"We're going to do some seat-ofthe-pants flying tomorrow (Thursday)," said Jim Kukowski, public affairs officer for NASA. "We've still

got some stormy weather ahead of us.

We don't know where we are going to

be tomorrow; we're restricted to dry skies. We've been stuck between two storm centers. Hopefully, we'll make it to San Antonio tomorrow.'

The trouble-plagued flight of .the orbiter, strapped onto a Boeing 747, started Tuesday afternoon at Edwards Air Force Base in California. The first leg of the trip was delayed from March 9 because of troubles with the shuttle itself.

Tuesday, the hump-backed craft was supposed to fly direct to Kelly Air Force Base in San Antonio, but the

weather forced an overnight stay in El Paso.

Kukowski said the piggy-back creation is scheduled to take off from Biggs Army Air Field (part of the Fort Bliss compound) at 8 a.m. for a refueling stop.

"After we get to San Antonio, we'll take a thorough inspection of the spacecraft, refuel and see what our options are," he said.

The 75-ton shuttle is half plane and half rocket and is is designed to make 100 roundtrips into space, leaving earth like a rocket and gliding back

Bergland said "many rumors have

been generated in the food and agri-

culture sector" as a result of talks

between his and other agencies on the

Thus, he said, the following decla-

-Wheat, corn and other feed grains

from the 1978 harvest will not be

permitted to enter the government's

grain reserve program under which

farmers hold the grain for up to three

years or until prices go up enough to

-Soybeans will not be allowed to be

grown this year on cropland set-aside

from production under wheat and

in food prices," Kahn said.

food inflation problem.

rations are in order:

trigger their release.

like an airplane. Columbia will be based at Cape Canaveral in Florida.

One official said the San Antonio stopover was now a matter of public relations as much as anything.

People have been gathering at Kelly Air Force base each time an announcement is made saying the shuttle will arrive there.

Each time they have been disappointed by a delay, and Wednesday was no exception. Hundreds had assembled to catch a glimpse of the ungainly aircraft combination.

-No further changes will be made

Kahn said he had asked Bergland to

consider whether it might be wise to

let farmers plant soybeans on set-

aside acres this year. But after con-

ferring with Bergland, "We agreed

that it would not be a desirable thing

in the set-aside programs already an-

nounced for wheat and feed grains.

feed grain programs.

to do," he said.

U.S. farmers won't be sacrificed: Kahn

WASHINGTON (AP) - In an attempt to calm fears and indecision among farmers, the administration is assuring them that they will not be sacrificed in a scramble to dampen food price increases and curb infla-

Alfred Kahn, the president's chief inflation adviser, says he is cooperating with the Agriculture Department in what he called "very intensive monitoring activity" on food prices to determine what is making them go

"We have no quarrel with the American farmer," he said. "The anti-inflation program depends heavily on American farmers having ample incentives to expand produc-

Kahn, appearing Wednesday at a news conference with Agriculture Secretary Bob Bergland, discounted rumors that the administration might be ready to set price controls on beef and other agricultural commodities.

posal in a speech to be delivered today

Califano was on a speechmaking

trip to Kansas City, Mo., Wednesday

when he was summoned home for a

White House meeting with Carter and

Sen. Edward M. Kennedy, D-Mass., a

long-time proponent of a comprehen-

Kennedy, chairman of the Senate

health subcommittee, and a broad

coalition of organized labor and tradi-

tionally liberal interest groups split

with Carter last summer when the

president refused to support the con-

cept of a single health insurance bill

designed to commit the government

to national mealth insurance once and

Carter, who promised a mandatory,

universal and comprehensive plan

during his campaign for the presiden-

cy, has since reserved the option of

proceeding in a piecemeal fashion as

Sources said after the meeting

Wednesday that Kennedy and Carter

exchanged some new ideas, but did

in New York.

for all.

sive health care plan.

expected to be revealed

we can solve the problems of inflation in food prices ... by imposing price controls, which are surely counterproductive, or by creating uncertainties in the minds of farmers," Kahn said.

Bergland, also attempting to clear away some rumors that have persisted about farm programs, outlined how he and Kahn are working together to "trace the increases in farm commodity prices from the farm gate to the grocery store" and to identify where unjustifiable increases occur. Asked what effect consumers might

expect from his and Bergland's efforts, Kahn replied, "I'm not in the business of promising miracles." The sharp price increases in recent months for beef, fish, fruits and vege-

tables, for example, "are of a nature that nobody can do anything about, except harm, by trying to meddle," he said.

there's any chance of Congress ac-

cepting, given the fiscal constraints

Other sources cautioned that many

details of the plan, including its cost,

remain to be worked out, but that the

essence of the president's decision is

to restrict both the scope and the cost

of the oft-delayed administration pro-

One account referred to the plan as

an abandonment — at least for now —

of the president's campaign promise

to seek a mandatory, universal and

comprehensive system for paying ev-

eryone's medical bills. Others refer to

it as "a phase-one plan," designed to

start the nation toward national

health insurance, but provide for im-

plementation of only a few elements

One source said the phase-one pro-

posal would contain some form of

catastrophic health insurance: a

means of protecting everyone against

the extraordinary costs of catastroph-

ic illness. The source said it abso

would clamp government controls on

That would would represent a sub-

stantial extension of the administra-

tion's present proposal to institute

standby controls on hospital fees if

the industry fails to bring its own

rising costs under control voluntari-

In a related development, Kennedy

cautioned the Senate Budget Commit-

tee against making "substantial cuts

in health programs" lest the harm

"far outweigh the marginal economic

ber of specific programs where selec-

tive trimming could be done.

both hospital and doctors' bills.

at this time.

gains."

we're operating under."

New Jersey teachers settle strike at college "We intend to take a balanced approach to examining ways in which "We are not prey to the illusion that we can reduce the high inflation rates By The Associated Press Carter's insurance plan

A strike by state college teachers in New Jersey is over and a boycott at Boston University has been averted, but teacher picket lines are still up in Minnesota, Louisiana and Washing-

And, a spokesman for a Rhode Island teachers union says a strike by bus drivers may force a walkout there

The New Jersey settlement by 3,200 state college teachers, which was reached Wednesday, will cost the state at least an extra \$1 million and probably will spark other state employee unions to seek similar increases, a state labor official said.

Teachers in the 65,000-pupil system voted by a 10-1 margin to ratify a new two-year pact that provides for 7 percent across-the-board salary increases each year.

Frank Mason, director of the state Office of Employee Relations and the state's chief negotiator in the dispute, said other employee unions will use the settlement as a model in their contract negotiations.

"If the other 70,000 state employees seek and receive 7 percent increases, it will cost the state \$11 million more than had been allocated in Gov. Brendan Byrne's budget," he said. A planned boycott by Boston Uni-

versity instructors was postponed because progress was being made in

negotiations. Univesity spokesman Wes Christenson said Wednesday both sides agreed to pay boosts of 29.5 percent over three years. Other issues were pending.

No such agreement appeared in the making in Minnesota, where a strike by 1,100 community college teachers entered its third day. Chancellor Philip Helland said if the strike lasts longer than two weeks, the spring quarter for 30,000 students at 18 colleges statewide may be canceled.

Union spokesman Pat Churchill said teacher negotiators were keeping Friday open for possible talks.

The teachers are demanding restoration of arbitration awards slashed by the legislature in 1975 and 1977.

In Louisiana, picket lines were up for the seventh day at the East Baton Rouge Parish's 115 public schools. However, administrators claim only one school is closed. The others are being manned by substitute teachers. Teachers are seeking union representation.

The deadlock extended to the nation's capital, where about half of the district's 3,300 teachers have avoided classrooms since March 6.

At issue is the degree to which the District of Columbia school board should share authority over discipline, grading and other policy-making with the teachers and the teacher's union.

Embezzler gets \$120,000

WASHINGTON (AP) — The fi-nance officer of a federally supported Cleveland social project embezzled \$120,000, was caught and then stayed on the payroll seven months before the federal agency whose money was stolen found out, investigators say.

Their report was being released today as a Senate Appropriations: subcommittee reviews the effectiveness of the Department of Health, Educations and Welfare's inspector

general's office.

The case, one of several instances of fraud and abuse involving federal funds turned up by the General Accounting Office, involved the Council for Economic Opportunities in Greater Cleveland, a community action agency that funnels federal, state and private money to other groups.

Report on x-rays attacked

NEW YORK (AP) - A recent report warning of increased cancer danger from ordinary medical X-rays has touched off an attack by scientists who question the study's methods and conclu-

The article by Dr. Irwin D.J. Bross was published in February's American Journal of Public Health, a scientific monthly.

Bross, chief of biostatistics at Roswell Park Memorial Institute in Buffalo, N.Y., and a frequent critic of current radiation standards, said he re-analyzed old data and found the leukemia risk from X-rays was 10 times as high as previously thought.

But the journal took the unusual step of publishing the article without "peer review," a process in which other scientists evaluate an article before it is printed.

Its editor, Dr. Alfred Yankauer an editor's note that he did so because, "Its subject matter is of great importance to the public health, yet Dr. Bross stands virtually alone in defense of his data."

The same issue carried an article rebutting Bross by two scientists at the National Cancer Institute. Drs. John Boice and Charles Land accused Bross of "incorrect statistical manipulations" that "produce estimates so imprecise as to be meaningless."

Bross, in a telephone interview, characterized their rebuttal as a 'hatchet job.'

Land and Boice, in separate interviews, accused Bross of sloppy science and "polemics." The first national re-

port of Bross' conclusions, carried Feb. 21 by The Associated Press. was written after an interview with Bross and without benefit of a copy of the journal or knowledge of its full contents. Hence, it omitted mention of the editor's note and rebuttal article.

The controversy surrounding Bross' article -The administration "will not acreflects the impassioned cept any increases in commodity and sometimes bitter deprice supports or target prices" as bate among scientists some have suggested to bolster govover whether repeated ernment crop guarantees to farmdoses of low-level radiation pose a special health threat.

The debate is important both because it has the potential to slow the growth of nuclear energy and more importantly because, if critics such as Bross are correct, thousands of lives may have been lost or will be lost as the result of underestimating the dan-

At issue is whether the small but well established cancer risk from large doses of radiation exists in a proportional level at low doses as well. Scientists have traditionally assumed that it does, an assumption that has been regarded as conservative.

But perhaps a halfdozen recent studies, including the one by Bross, assert that the danger per unit of radiation actually increases at lower doses because of genetic damage to the cells. In the journal study,

Bross said this damage could express itself later as either heart disease or non-lymphatic leukemia, blood disease. He based his conclu-

sion on a complex re-analysis of the X-ray history of 220 men with leukemia. But Boice and Land

said Bross failed to con-

sider alternate explana-
