#### The Easiest Rider?

How does a motocross racer jump hills, go around "berms" and generally smoke the competition without firing up his engine? Sunday's West Texas Life takes a look at one kind of racer who never runs out of gas.

#### A Special Kind of Pride

Pride in the effort will be a main result of the Special Olympics track meet being held today for special education youths from Midland schools. Lifestyle editor Wanda Mouton writes on that subject - pride - in Sunday's Reporter-Telegram.

#### **Humble Beginning, Rich Story**

The Permian Basin oil industry began with hurried late-night drilling beside a railroad track in 1923. In Sunday's R-T, Associated Press writer Mike Cochran looks at the Basin's development and raises the question of how much oil is left.

# More radiation escapes plant

HARRISBURG, Pa. (AP) - Pennsylvania Gov. Dick Thornburgh today urged all residents within 10 miles of the Three Mile Island nuclear power plant to stay indoors at least throughout the morning following a new release of radioactive gas from the crippled facility.

Paul Critchlow, Thornburgh's spokesman, said: "We are advising people within a 10-mile radius to stay indoors throughout the morning until further instructions are handed down. There is no need for an evacuation. There was a series of uncontrolled bursts of radiation from about 6:40 a.m. until about 9

a.m. this morning.' Traffic was jammed on the streets of Harrisburg 10 miles from the plant and in surrounding communities. Service stations were jammed with cars and pedestrians hurried along the streets to head in-

Businesses shut down early and overburdened telephone lines were jammed in the area.

There were conflicting explanations of what caused the new release of radioactivity. Critchlow said the release occurred as workers carried radioactive waste from one storage area to another.

Nuclear Regulatory Commission spokesman Frank Ingram first said in Washington that the release occurred as an automatic part of the recirculation of reactor cooling water. But shortly thereafter, he said his information may have been

Critchlow said, "We are urging people to say calm and not to panic. There is no need for evacuation at "Our people do not believe there is any immediate

danger. The suggestion to stay indoors is pracau-

tionary only.' Energy Secretary James R. Schlesinger said today in Washington, meanwhile, that Wednesday's accident at the power plant was serious, but "it underscores how safe nuclear power has been in the

Schlesinger's remarks came in answer to questions at a public appearance about two hours before the new emission of radioactivity from the plant was

Thornburgh had said earlier today he was consid-

ering evacuating all the nearly 1 million residents from a four-county area surrounding the facility. The counties are York, Dauphin, Lancaster and Cumberland.

"The heavier dose of radiation that was released into the atmosphere will be dissipated by noon,' Critchlow said.

"The company had hoped to shut the reactor today. But they are finding more fuel damage than they anticipated and that this apparently is resulting

in the increased radiation discharge. 'We do not have any assurances that this will not happen again," The emissions have stopped. Levels are pretty much down to normal," Critchlow said at

Natonal Guard and local civil defense authorities were put on special alert.

E.C. McCabe, section chief with the Nuclear Regulatory Commission, said a 30 millirem per hour reading was taken south of the plant after the release and was rapidly decreasing. He said that "is not an indication of a serious problem. It is indicative of a gaseous pocket that was released and dissipated."

The governor's press office said there was a reading of 1,200 millirems per hour at the plant vent,

from which the gases escaped. The average American is exposed to 100 to 120 millirems of radiation per year, including radiation

from everything from space to X-rays. A millirem is a term used to measure absorption of radiation by body mass.

Harrisburg, the state capital is in Dauphin County. which has a population of more than 220,000. Lancaster County has a population of more than 319,000; York more than 262,000; Cumberland 158,000. In addition to HarrIsburg, the cities of Lancaster

and York are in the affected area. Earlier, officials had said a controlled release of low-level radiation was still beaming from 250,000 gallons of highly radioactive water inside a disabled nuclear power plant, and experts said the water

might have to be buried in lead or evaporated. But at that time federal authorities said the radiation was contained inside the plant's 280-acre perimeter and no longer was a threat to neighbors of the

"Based on what we've been able to see so far, the danger is over for the people off site," sai Charles Gallina, an NRC investigator who rushed to the scene after the reactor's cooling system malfunctioned early Wednesday.

# Pardon issued in 1939 but mislaid until now

Miles maintained for more than 40 vears that he was innocent of a manslaughter conviction that sent him to jail for nine months. Idaho's governor apparently agreed and granted him a pardon, but nobody told Miles until this year - 40 years after the pardon was issued.

Miles, 74, was convicted in 1937 of criminal manslaughter in connection with the death of Joe Kipp, a Nez Perce Indian, and served nine months in the Idaho County Jail and the state

penitentiary Pardon proceedings on Miles' behalf were initiated earlier this year. But a clerk digging through old records discovered that on April 14, 1939 - only five days after Miles finished his jail term - he was given a full pardon by then Gov. C.A. Bottolf-

sen, now dead. It was a pardon that, until a few weeks ago, he never knew existed. Miles, in an interview with the

Lewiston Morning-Tribune, said he never got a copy of the pardon or any notice that it had been issued. He said that following his release from jail he was rejected for job after job because of his criminal record, and that ultimately he became an

# 1,000 absentee voters possible for joint election of April 7

Upcoming joint election for city, school and hospital district officials will draw more than 1,000 people to vote absentee - if Midlanders follow last year's patterns.

Don Furgeson, school district business manager, said as of this morning 580 persons had cast absentee votes in the April 7 election, 527 of them in the past week.

sons voted before the election, but more than half of that number came in on the last day. The final two days of absentee voting always are the heaviest, said Furgeson.

So if voters stick to their habits, this year's total should pass the 1,000 mark, he added. Record for absentee balloting in a local election is 1,217 in 1975, Furgeson said.

Absentee voting continues in the school administration building, 702 N. N St., from 8 a.m. to 5 p.m. weekdays through Tues-

Voters are selecting city counci. school board and hospital district board of directors mem-

At Greenwood, where citizens will vote April 7 for school board and hospital district board members, six persons had voted absentee by this morning, School Superintendent Mel Williams said today.

Voting there is in school administrative offices weekdays from 8 a.m. to 4: 30 p.m. through

Practicing for the mythical all-round championship at Midland College's third annual Chaparral Round-up Saturday is Chuck Matthews of Kappa Kappa Fraternity. Designed to show off Midland College to area high school students, the Round-up will feature several contests - among them kite flying, pie eating, a hairy leg contest, cow chip throwing, watermelon eating and jalapeno pepper eating. Events will be held from 10 a.m. to 6 p.m. in Beal Plaza at the college. A food concession will be open, and the public has been invited. (Staff Photo by Brian Hendershot)

# There's more Smiths than anvils

By GUY SULLIVAN

One in every 100 people in the U.S. is named Smith, according to a writer

who has studied the situation - a writer named Smith, of course. That would mean approximately 2,180,960 Smiths, not counting the Smyths, Smithes, Schmidts, Schmitzes and other variations, observed author Jack Smith, writing about a book by H. Allen - you guessed it

Midland County Sheriff Dallas Smith Thursday responded to that valuable piece of information.

"I didn't know there were so many of us."

Added the lawman: "At least my first name helps eliminate a lot of duplication. There just aren't that many Smiths named Dallas." Sheriff Smith did, however, recall a guy named Dallas Smith who used to write hot checks.

'People were always calling me up, thinking I was him," he noted.

A long glance at the current Midland telephone directory Thursday showed at least 200 persons who have the last name of Smith. In addition, the 1978 Midland city directory reveals a full eight pages of

Writer Smith (Jack) has pointed out that throughout history Smiths have been greater in number than any other family in the world. But, he reported modestly, "We have not shaken the world, nor even diverted it much. We've been content to live modest, useful lives, working at our anvils, paying our taxes, and, in politics and contests of all kinds, generally being runners-up."

Jack Smith pointed out that a man named Elsdon C. Smith of Skokie, Ill., recently published a book titled, "The Book of Smiths." Elsdon Smith summed up the scope of his work with one phrase: "Almost everyone has a strain of Smith in his veins.'

names - a kind of counterbalance, perhaps, to the mundane quality of their For example, somewhere in this world there exists someone (a former Oklahoma infant) named Loyal Lodge No. 296 Knights of Pythias Ponca

And people named Smith aren't above going in for exotic or unusual first

City Oaklahoma Smith. Jack Smith, quoting H. Allen Smith, commented, "I think it improbable that there is anyone else of that name in the world today." He's probably right. One genuinely hopes he's right.

Jack Smith said the Smiths of America "could probably populate any one 'Why so many of us?" he asked before answering his own question.

"Mostly, (as) H. Allen Smith points out, because smiths made the swords in war and the plowshares in peace. Since we are always either at war or at peace, there were many smiths. The word meant craftsman, especially one who worked in metals. Proud of their crafts, smiths soon took on the name

# More anti-inflation measures

# Administration trying to shore up price guidelines

WASHINGTON (AP) - The Carter administration is trying to rescue its foundering anti-inflation program by shoring up its voluntary price guidelines for businesses.

The Council on Wage and Price Stability asked the nation's 1,300 largest corporations Thursday to begin reporting price data on a quarterly

The council also singled out five industries, where prices have risen most rapidly, for closer monitoring.

And it moved to close a "loophole" that had allowed many businesses to pass their higher costs on to consum-

The three-pronged action - along wit tough, anti-inflation statements from President Carter and wageprice council chairman Alfred E. Kahn - came at a time the government is particularly sensitive about price increases.

The voluntary guidelines instituted last October call for workers to hold wage increases to 7 percent or less this year. Corporations are asked to keep price increases a half a percentage point below those in 1976-77.

Kahn, the president's chief anti-inflation adviser, warned members of the National Association of Manufacturers that too many businesses were letting prices rise above the guide-

When pressed about the voluntary features of the latest administration step, wage-price council Director Barry Bosworth said: "There are degrees of volunteerism."

To date, however, the program has been most successful on the wage side. While some unions have settled new contracts within the guidelines, prices have risen at double the rate the Carter administration projected for the year. And corporate profits increased 26.4 percent in the fourth quarter of 1978 compared to the same quarter of 1977.

Changes in those guidelines, announced by wage-price council Director Barry Bosworth, will require the nation's businesses to report significantly more price information to the

Bosworth denied that the action was a move toward mandatory controls. "The regular submission of the

and the second of the second o

reports is being requested as a voluntary action," he said. When pressed, he added, "There are degrees of vol-

The five industries singled out for the most stringent reporting requests were dairy, drug, electrical motors and generators, cement and lead

Other corporations with annual sales of \$250 million or more will be asked for quarterly price reports. Until now, only the 750 corporations with sales over \$500 million had been asked for reports - and those on a less frequent basis.

The new guidelines also say companies that use a profit-margin standard as an alternative to price figures will be asked to meet tougher requirements. These include an as-yet unspecified restriction on "uncontrolable cost increases" and an unspecified price limits.

### Ten old sections stay in code

NASHVILLE, Tenn. (AP) -Tennessee's oldest legislator has succeeded again in including the Ten Commandments in the Senate's code of ethics.

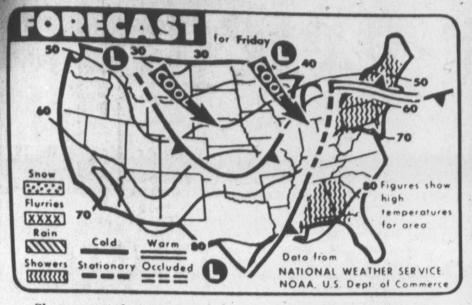

The code, approved 31-0 Thursday, prohibits conflict of interest, requires extensive financial disclosure and establishes a permanent ethics committee to handle complaints.

The Ten Commandments were added at the urging of Clarksville Democrat Halbert Harvill, 85, a retired educator and former college president. The Ten Commandments vote was 19-8, two more than needed

for passage. Those objecting to the measure said it was unneccessary and made a mockery of the

When the Senate adopted the code in 1977, there was substantial opposition to it and the insertion of the Ten Commandents was viewed by many as a way to kill the measure.

### **VEATHER SUMMARY**

# 40 years after issue, pardon finally found

(Continued from Page 1A)

Idaho County Prosecutor Harry J. Hanley, said: "I feel now that I need not hesitate to commend Miles as a good substantial law-abiding citizen and hereby do so and freely state that I believe the verdict of the jury to have been a mistake. Henley said he had become con-

vinced that Miles was a victim of circumstance and of an untruthful witness. Miles kept the letter as what he

thought was the only tangible piece of evidence of his innocence.

He had assumed himself to be a convicted felon - unable to vote, unable to hold down any of the number of jobs for which he submitted applications, always admitting his criminal record on them

"He suffered mightily," said his wife, Beatrice. "It has troubled us nearly all our married life."

Last year, he made one last attempt to have the black mark stricken.

He asked state Rep. Joe Wagner of Lewiston to see if current Gov. John Evans would look into the possibility of a pardon.

Moved by Miles' story, and by the letter from Hanley, Evans referred a pardon request to the state board of pardons and parole in January.

When a clerk at the state parole commission pulled Miles' records from the state archives, she found a copy of the pardon.

'There is no correspondence in the files," said Mary Harris, the clerk. "Just the pardon. It's one of the strangest things I've seen here.'

She said that normally a pardoned convict is sent the original document while a copy is put in his file. She said the pardon found in Miles' file was a copy; the original has never been accounted for.

# Idi Amin's shrinking forces clinging to Ugandan capital

NAIROBI, Kenya (AP) - President Idi Amin's shrinking army of loyal troops held on to Kampala today as Tanzanian invaders and Ugdanan exiles pushed to within eight miles of the capital. Thousands of frightened

residents streamed from the city. "All we are sure of is that, for now, Kampala is still in the hands of the Ugandan government and army," said a diplomat there who was reached by telephone from Nairobi.

There was no confirmation of claims by Ugandan exiles that Amin had fled with loyal Nubian troops toward his mud-and-thatch hometown of Arua, possibly to make a last stand in that remote corner of northwestern Uganda.

One resident of Kampala said gunshots echoed through the streets as

#### Nations are 'receptive' to paying peace costs

WASHINGTON (AP) - Secretary of State Cyrus Vance says the industrialized nations of Western Europe and Japan are "receptive" to the idea of paying part of the costs of the Israeli-Egyptian peace treaty.

"drunken Ugandan deserters wandered around firing in the air.'

No fighting was reported within the hilly city of 400,000, and residents said heavy rains cut short the invaders' shelling Thursday night. They said two children were killed by a shell that fell in the back yard of a house near the cathedral in western Kampala, but no other casualties were

They reported Ugandan tanks drove through the city Thursday afternoon heading toward Natete, a road junction six miles to the southwest. They returned after dark following a noisy battle that lasted several hours, the informants said. The outcome of the fighting was not

Long lines of refugees, many carrying babies in their arms and meager bundles on their heads, fled from Kampala on foot, crowding roads to the north and west for the second straight day. Scores of foreigners, including diplomats and their families and U.N. employees, drove east to

Those who staved behind remained inside their homes. A few tanks were the only vehicles reported on in the

SWEETWATER, Texas (AP) - Wild horses couldn't keep the people away.

Horse traders of all shapes and sizes showed up Thursday for what was billed as the "Adopt A Horse" program at the Steen Cattle Co. corral.

They came, they saw and they took home 60 mustangs brought from the Nevada wilds.

'The response was just tremendous," said Darlene Gilbert of Reno, division clerk for the Bureau of Land Management project. "About eight people slept here overnight.'

The wild horses were "adopted" on a first-come first-serve basis to qualified applicants who paid a \$90 fee per animal to cover the transfer costs from Nevada.

That fee also covered vaccinations, veterinarian care and reguired state health inspections.

Ms. Gilbert said the studs and geldings generally were used as pleasure horses while some of the mares were used for breed-

It was the second such program in Sweetwater. The BLM shipped 85 wild horses to the West Texas city in mid-Febru-

Danny Turner apparently was pleased with the mustang he claimed in February. The 15year-old Sweetwater resident, proudly brandishing a photo of his horse, was back to get two

The BLM allows each successful applicant, who must have adequate corrals and shelter to take up to four horses a year.

Title to the animals remains with the federal government for the first year as an effort to prevent inhumane use or commercial exploitation of the

### Burlgary of car reported to police

Police said H.B. Melton of the 1600 block of North Midkiff Road reported the burglary of his car Thursday.

Melton told police a set of tools valued at \$300 was missing from the Richard Lyons, also of the 1600

block of North Midkiff Road, reported to police that his van had been broken into and a number of eight-track tapes had been taken. Police said entry to the van ap-

parently was been gained by breaking Estimated value of the window and tapes is \$165.

running heavily in favor of the Islamic republic. But some voters complained of a lack of privacy at the polls, saying opponents of Khomeini's plans were reluctant to deposit red ballots in full sight of election offi-

Rebellious members of Iran's ethnic minorities have threatened to boycott the two-day referendum, along with leftist militants who believe Khomeini's six-week old revolution has done too little to establish a 'workers' state.'

But state radio reported heavy turnouts in many parts of the country. Khomeini cast his "yes" vote in the holy city of Qom, 100 miles south of

Tehran, amid a crowd of followers who pressed so hard around his car that the 78-year-old ayatollah had to pass his ballot through a window.

heads still put on a dramatic display of light-

Iranians go to polls to establish republic

Preliminary reports from the provinces said voting was going peacefully. Government officials predicted about 12 million of the 18.7 million Iranians eligible to vote would go to the 80,000 polling places today and

They said anything less than 80 percent approval would disappoint Khomeini, who led the year-long revolution that drove Shah Mohammad Reza Pahlavi from the country Jan. 16. The shah left his exile in Rabat, Morocco, by private plane this morning for the Bahamas, the Moroccan news agency said.

ning. (Staff Photo by Bruce Partain)

"I voted for an Islamic republic because it was the only way to stop the corruption of the past regime," a young man in a wheelchair said after dropping his green "yes" ballot in a box at Tehran University.

"We have given our blood for this day," said a guerrilla who brought his automatic rifle to the polling station with him. "We have waited years for

Voters had their birth certificates or identity cards stamped at the polls and their fingers daubed with longlasting paint to prevent voting twice. First results are expected Sunday.

# Gene Leroy Hart found innocent in sex slayings of Girl Scouts

OKLAHOMA CITY (AP) - Gene Leroy Hart was found innocent today of the 1977 sex-slayings of three Girl Scouts at a summer camp in northeastern Oklahoma.

The six men and six women of the jury returned the verdict one hour after resuming deliberations this morning.

Hart burst into loud sobs as the court clerk, Eloise Gist, read the first of three innocent verdicts handed her by jury foreman George Kelly. He buried his face in his hands as defense attorney Garvin Isaacs beat upon the defense table with a clutched fist to loud cheers from supporters in the

courtroom. Law officers cleared the courtroom of Hart's friends and relatives as they continued loud crying and whoops of

On the other side of the courtroom, parents of the three young victims were seen weeping.

District Judge William Whistler polled the jury and each juror reported an innocent verdict.

Hart was on trial for the rape and bludgeoning of the three girls, Lori Lee Farmer, 8; Michele Guse, 9; and Doris Denis Miler, 10, at Camp Scott, near Locust Grove, June 13, 1977.

A guilty verdict would have required the jury to hear additional arguments for a sentence of life imprisonment or death by lethal injec-

Hart, a former Locust Grove high school football star, already faces prison sentences totaling 305 years on convictions for rape, kidnapping and burglary.

He escaped from Mayes County Jail here in September 1973 and was still a fugitive when he was charged 10 days after the slayings.

Hart was captured April 6, 1978, at a shack in the rugged Cookson Hills of eastern Oklahoma 50 miles from Camp Scott.

Jury selection in the trial that began March 5 took 11 days, and 77 witnesses were called during nine days of testimony.

Jurors asked late Thursday to rehear testimony linking items found in Hart's Cookson Hills hideaway to Camp Scott.

A small pipe and a mirror recovered at the cabin were identified by a former Girl Scout counselor as items she had at the camp at the time of the slayings.

# Clear skies, cooler weather included in weekend forecast

Clear skies and cool temperatures are on tap for the Permian Basin for the weekend, the weatherman pre-

dicted today. Saturday's high should be in the upper 60s with the overnight low in the low 40s, according to the National Weather Service office at Midland Regional Airport.

Thursday turned out almost summer-like despite a spectacular nighttime display of lightning from storm clouds east of Midland. The clouds failed to drop any moisture in the

Thursday's recorded high of 83 degrees, however, did not approach the record temperature for the date of 95 degrees set in 1963. The overnight low of 45 also was mild compared to the record low of 23 degrees set in 1937.

No rainfall was reported in the area or predicted in the forecast, so the monthly accumulation of .81 inch and the annual total of 1.23 inches remains unchanged.

Today's 10 to 20 mph winds are expected to become light and variable

Area towns were enjoying the same weather Midlanders had this morning, with most area weather watchers reporting clear skies and cool temperatures.

# Stay clear of Homer Harding's rattling freezer

PIERRE, S.D. (AP) - Coiled in Homer Harding's freezer were four angry rattlesnakes - frozen solid. 'My wife wasn't too happy about

it," he conceded the other day. Harding, majority leader of the South Dakota Senate, loaded his freezer with whirring, angry rattlesnakes last fall after he captured four and decided to freeze and stuff

"It sounded like a hive full of bees when they froze," he said. "They curled into the striking position and within a couple of hours they were alive but dormant.

"And within two days, they were frozen solid in a classic coil," he

Harding, an auto dealer, has been hunting rattlesnakes on the prairies around Pierre since he was a boy, and never has been bitten. "I tried to drown one once," he said "I put him in a one-gallon jar filled

with water and drove home. Two hours later. I opened the jug and he came out and struck at me.

"He missed my hand," Harding said, "but he hit the jar lid instead. That was the closest I ever came." Pat Harding used to assist her husband in the hunts, before she had a close call of her own.

"She squatted down to watch me catch one and there was another one right under her bottom," he said. 'She hadn't seen him. But as he coiled to strike, he slipped off a clump of dirt and down into a crevice. "Now she stays in the pickup," he

Harding usually hunts rattlers in the fall with his sons, Steve and Bill.

"It's kind of a family outing for us," he said. "My folks took me out when I was a little boy and I've been taking

my sons out since they were small.' For the past decade or so, the family has been capturing the eldest snakes in a large den which winters together in a prairie dog village near town. Harding wouldn't say exactly

"The best time to go is a warm day

after the first frost," he said. "They kind of ball up together so you can pick up six or eight of them at a

"At any time, we may have 100 snakes in sight," he said.

Harding said he nabs his prey with a 21/2-foot pronged pole, pinning him firmly behind the head. He brings the rattlers back to the freezer in a jar if he wants to stuff them.

#### **DEATHS**

### 'Red' Pittman

Services for Randolph W. "Red" Pittman, 67, of 2503 Harvard Ave. were Thursday in Newnie W. Ellis Funeral Home.

Officiating was Dr. Daniel Vestal, pastor of First Baptist Church. Burial was in Resthaven Memorial Park.

Pittman died Tuesday in a Midland hospital following an illness.

He was born June 14, 1911, in Hamilton County and was reared in Albany. He was a graduate of Albany High School. Pittman attended Texas Christian University and Texas Tech University. He was married to Anne Lindsey March 24, 1940, in Kirkwood,

Pittman was a district manager for the Oil Well Division of U.S. Steel Corp. for 18 years. He moved to Midland in October 1953 and became one of the owners of W.E. Pittman Trucking Co. until it was sold in 1965. He was associated with Wales Trucking Co. of Dallas.

Survivors include his wife; two brothers, T.C. Pittman and Frank K. Pittman, both of Albany, and three sisters, Dorothy Jene Pittman of Stephenville, Mrs. Charles C. Thompson of Colorado City and Mrs. E.L. Adoue of Parker Heights.

Pallbearers were to be O.R. Sharp, Neal Taylor, John Reid, George Staley, Bill Malone and George Barton. Honorary pallbearers were to be J.K. Lee, the Rev. Johnny Lee of Tucumcari, N.M., Dr. H.B. Mills, Ellis Mills, Earl Lewis of Brownwood, Melvin Dixon of Abilene, Gomer Alsup, H.L. Winkler, Buie Britt and Hershel Howard and Ralph Hamilton, both of Odessa.

#### Fred Johnson Jr.

ODESSA - Services for FredaE. Johnson Jr., 58, of 3505 Thomas St. in Midland will be at 2 p.m. Saturday in the Hubbard-Kelly Funeral Home. Burial will be in Sunset Memorial Gardens here.

Johnson died Thursday of an apparent heart attack in Midland.

Johnson was born May 14, 1920, in Baltimore, Md. He was married to Gertrude Heiser Nov. 23, 1945, in Fort Worth. He was self-employed at the time of his death.

Johnson was a former police officer with the Midland, Odessa and Baltimore, Md., police departments.

He was a past president of Southside Lions Club and a member of Central Baptist Church in Odessa.

Survivors include his wife; a daughter, Linda Franklin of Midland; two sons, Earl Johnson of Midland and Donald Johnson of Odessa; two brothers, John Johnson and Millard Johnson, both of Baltimore, Md., and seven grandchildren.

#### Alonzo Davis

CENTERVILLE - Alonzo Davis, 68, of Hale Center, father of Walter Jones of Midland, died Tuesday.

Services are pending with Green Funeral Home in Centerville. The body will be sent to Centerville from Freeman's Funeral Home in Hale Center Saturday.

The Madisonville native moved to Hale Center from Amarillo in 1970. He was married to Emma Clay Jones July 1, 1939, in Middleton. He was a World War II veteran and a retired farmer. He was a member of the Hale Center Church of Christ.

Other survivors include his wife, four sons, three daughters, four brothers, two sisters, 23 grandchildren and a great-grandchild.

### Birdie S. Rogers

Services for Birdie S. Rogers, 80, of 2411 Gulf St. will be at 10 a.m. Saturday in Leonard Funeral Home in Bixby, Okla.

Burial will be in Memorial Park Cemetery in Tulsa, Okla. Local arrangements were made by Newnie W. Ellis Funeral Home.

Mrs. Rogers died Wednesday in a Midland hospital.

She was born Oct. 21, 1898, in Castle Dale, Utah, and spent her early life in Utah. She later moved to California, where she was married to Arnim Jack Rogers. They moved to Tulsa in 1925. then to Arkansas in the early 1930s. They returned to Tulsa, where they lived until 1948, when they moved to

In 1950, the Rogers moved to Casper, Wyo., and in 1969 to Bixby, Okla. Her husband died in November 1976. She moved to Midland in Novem-

ber 1977. She was a member of the Church of Jesus Christ of Latter-Day Saints, Order of Eastern Star Chapter 4 of Casper and Order of the Daughters of the Nile of Tomah Shrine Temple, also in Casper.

Survivors include a son, Jim A. Rogers of Midland; a brother, Elmer Savage of Salt Lake City, Utah; two sisters, Silva McCormick and Rebecca West, both of Salt Lake City, two grandchildren and a number of nieces and nephews.

#### Maclobio Fierro

OZONA - Services for Maclobio A. Fierro Sr., 65, were to be at 3 p.m. today in Our Lady of Perpetual Help Catholic Church in Ozona with burial in Lima Cemetery directed by Larry Sheopard Funeral Home.

Fierro died Thursday in an Ozona hospital. He was born Oct. 15, 1913, in Mexi-

co. He married Angelita V. Fierro Nov. 11, 1933, in Ozona. Survivors include his wife; two daughters, Francis Delgado of Lub-

bock and Tonia Trevino of Grand Prairie; three sons, Manuel Fierro, Chon Fierro and Maciobio Fierro Jr., all of Ozona; two sisters, Manuela Perez of Ozona and Genoveva Gomzales of Utah; three brothers, Refugio Fierro and Juan Fierro, both of Ozona, and Sepriano Fierro of Marble Falls, 18 grandchildren and six greatgrandchildren.

### James Johnson

TEMPLE - Services for James Johnson, 54, of Big Spring are pending at Branford Funeral Home in Temple. Big Spring arrangements were handled by Nalley-Pickle Funeral Home

Johnson died Wednesday in a Big Spring hospital.

He was born Nov. 24, 1924, in Rogers. He was married in Temple to Rosetta Venavle, who died in 1960.

He was a World War II Army veter-Johnson was a cook for the Country Fair restaurant in Big Spring, where he had lived since moving from

Snyder about a month a ago. Survivors include two sons, Van Johnson of Snyder and Todd Burnett Johnson of Temple; two daughters, Sharon Elaine Johnson and James Etta Johnson, both of Temple; three brothers, Ted Johnson of Boston, Mass., and Melvin Felix Johnson and Clarence Johnson, both of Temple; a sister, Josephine King of Temple, and three grandchildren.

#### Julius E. Price

Services for Julius E. Price, 59, of 110 N. Lee St. will be at 2:30 p.m. Saturday in Mount Calvary Missionary Baptist Church with the Rev. Robert E. Lathan, pastor, officiat-

Burial will be in Fairview Cemetery, directed by Jackson Funeral

Price died Tuesday at his home following an illness.

He was born May 30, 1919, in Terrell in Kaufman County to Mr. and Mrs. Joe Price. He joined Cannon Baptist Church in Loraine after the family moved to West Texas in 1925.

Price moved to Midland in 1937. He was a member of Macedonia Baptist

Price served in the U.S. Armed Forces in World War II.

Cooley was married to Izora Mae "Ode" Moore July 17, 1933, in Ballard.

Other survivors include his wife, three sons, two sisters, three brothers and 11 grandchildren.

### Priests observe Karen Quinlan's 25th birthday

MORRIS PLAINS, N.J. (AP) Behind closed doors at the Morris View Nursing Home, family members of Karen Ann Quinlan gave thanks on the 25th birthday of the woman who has been comatose for nearly four

Five Roman Catholic priests concelebrated Mass on Thursday at her bedside to commemorate the birthday, which came two days before the third anniversary of a landmark state Supreme Court ruling giving the family permission to disconnect Miss Quinlan's respirator.

The priests used a portable tray as an altar. Her aunt, Irene Gubitosi, brought red roses

The day was full of "happy memories of Karen," said her mother, Julia Quinlan.

'We really believe the Lord isusing Karen," she said. "There is no medical reason why she should be alive today. She's had many infections and she's had pneumonia.

Her father, Joseph Quinlan, said that everything medically possible had been done for Karen.

# Traeger seeks to end 'blind bids' for movies

AUSTIN, Texas (AP) - What bowls them over on Madison Avenue might not draw as enthusiastic a reception in Pampa or Texarkana, Sen. John Traeger told a Senate committee Thursday.

Theater owners, however, had to put in their bids last fall to show 'The Main Event" starring Barbra Streisand and Ryan O'Neal this summer without having seen the film, Traeger

He introduced two bills that would outlaw "blind bidding" and ban certain guarantees and advances exhibitors pay to movie distributors

The Senate Economic Development Committee will continue its hearing on the measures Monday.

"If the film bombs out, the distributor gets his guarantee of \$35,000. The exhibitor loses his shirt," said Traeger, D-Seguin. Exhibitors "object to having to buy a pig in a poke. Don Adams, a former state legisla-

tor representing the Motion Picture Association of America, said passage of the bills would destroy the motion picture industry's balance. "We've got the movies - but

they've got the screens," he said. Adams said the association is made up of 10 major film distributors.

"Fiscal disputes like this should be resolved in the marketplace," he said. "There is no public safety involved. ... The taxpayers' rights are

not at stake." He said producers and distributors assume a risk when they decide to put

up the capital for a film. "This is a risk business." Adams said. "The advances are simply a

pledge of credit. The Ohio law against blind bidding is presently being tested in federal court, he added.

Christopher Meacham, of the Na-

tional Association of Theater Owners of Texas, said seven states have passed legislation similar to Traeger's proposals. He showed the committee a copy of

a letter to theater owners from Columbia Pictures asking for bids to be submitted by Feb. 22 for its unfinished Christmas release, The Electric Horseman. "The Electric Horseman stars Ro-

bert Redford and Jane Fonda, was directed by Sydney Pollack (The Way We Were). Need we say more!" the letter said.

It also suggested that the exhibitors offer a minimum six weeks playtime, "a substantial guarantee" and 90 percent of the take above a "reasonable house allowance.

# Attorney retained ODESSA - A group of

Odessans trying to overturn results of a December \$21.6 million school board election have filed a motion to set the stage for an appeal of a district court decision.

Odessa attorney Gloria Svanas was retained by the group earlier this week and filed in 161st District Court a motion for "findings of fact and conclusions of law."

Such a motion is a preliminary step toward appealing a decision by Judge J.H. Starley of Pecos, who rejected the group's efforts to void approval of the school

gentlemen, how would you like to win a h.s.m. suit? It's easy, with no obligation. Just try a H.S.M. suit or sport coat on and register and your name might be the lucky one that is drawn on April 7 at 6:00

The co-hostesss were Mrs. Don Mabry, Mrs. J. B. McMahon and Mrs. Clifford Miller.

The honorees are the daughters of Mr. and Mrs. Lester VanPelt Jr. and Mr. and Mrs. R. J. Womack.

# Thinking key to fitness

Want to get fit? Dr. John Farquhar has some ad-

Farquhar, professor of medicine at Stanford University and director of the university's Heart Disease Prevention Program, admits that it's tough to break the habits of a lifetime. To lose weight. Cut down on fats, salt and sugar. Stop smoking. Start exercising. Learn to cope with stress.

But he says those goals can be

achieved - gradually Farguhar believes that the key to success is as much in the thinking as the doing. And he advises against trying to do everything at once and expecting immediate results.

The first step in his step-by-step plan for lowering the risk factors for heart disease is getting informed.

"In order for people to be motivated... to change," he says, "they must have information that shows the need for change and that proves that the

change can be helpful.' To that end, he points out that the nation's heart attack rate has dropped by 20 percent in the last 10 years, although it had risen by 40 percent in the previous two decades. He at-

tributes the drop to life style changes. "The drop has come as people have stopped smoking, begun to limit their fat intake and to get their high blood pressure controlled," he says. "To me that says that a lot of people are doing

something right." Once the motivation is established, Farguhar recommends a period of self-observation to gain a thorough knowledge and understanding of

existing patterns of living. One of the main obstacles to change, Farquhar says, is mental

\*Harry Clark, middle, president of First National Bank, presented a program on Midland's progress and future as a city at a recent luncheon meeting of the Elcor Wives at Ranchland Hills Country Club. Hostesses for the event were Mrs. Hsiung Tsai, left, and Mrs. Herald Beaty. (Staff Photo)

Students celebrate Bowie Spirit Day at Bowie Elementary School. The special day will be held every Friday until the end of the May school term. The project is sponsored by the PTA. Students here mark the day with a flag ceremony. (Staff Photo)

**DEAR ABBY** 

# Baby makes heaven for couple

By ABIGAIL VAN BUREN

DEAR ABBY: When my parents were first married, they tried for years to have a child, but could not. They finally gave up hope and adopted me. Two years later they adopted my brother. I am now 19.

After 24 years of marriage, my mother became pregnant! She was 47 and my father was 55. They were thrilled, and are now the proud parents of a baby girl. And what a beautiful baby she is! Abby, please tell couples who think

there is no hope of ever having a child to hang in there and they might be as lucky as my parents.—MARCIA DEAR MARCIA: Your parents are

luckier than some who become parents in their later years. My medical expert, Dr. John A. Haugen, a fine obstetrician and gynecologist for over 40 years says, "A child born of a woman in her 40s runs a much greater risk of being defective." (Particularly Down's

Syndrome-better known as mongolism.) True, tests can be done in midpregnancy to detect abnormalities. If an abnormality exists, the pregnancy can be terminated but this (the test) is quite a major undertaking. Also, mothers in their 40s are more apt to have complications and more difficult

labors. Finally most parents in their 60s find raising teenagers no picnic. DEAR ABBY: I went to a doctor who examined me-and said I needed

### School spirit encouraged at **Bowie School**

In an effort to encourage school pride and spirit, Spirit Day will be held every Friday at Bowie Elementary School until school is out.

The announcement is made by Barbara Greene, Bowie School PTA projects chairman. All students will be asked to wear

the school colors of red and white, and many will be wearing Bowie Bulldog shirts," she said.

A trophy will be presented each week to the classroom which has the ing red and white. A class who wins the trophy three weeks in a row may keep the trophy. At the end of the May school term, the classroom which has won the trophy most often will be given a celebration.

some medicine. He didn't write out a prescription. Instead, he called his brother's drugstore and told him to have the medicine ready for me, that I'd be over to get it in a few minutes.

I was quite surprised that I wasn't given a written prescription and allowed to have it filled at my own pharmacy. I also was angry because this doctor's brother charges much higher prices than the pharmacist I usually trade with.

One of my friends asked this doctor for a written prescription. He got mad at her and refused to give her one.

Abby, shouldn't people be given their own choice of pharmacies?— MRS. O. J.

DEAR MRS. O. J.: The doctor is clearly operating outside the bounds of ethical medicine. Change doctors. And be sure to tell him why you're

DEAR ABBY: I am 10 years old and ashamed of my mother. She tells the biggest lies, and she gossips a lot on the telephone. She will talk to one lady and pretend to be her best friend, when she is really her worst enemy. How can a person be so two-faced and then tell me that if I tell a lfe God will punish me?—ASHAMED OF MOM

DEAR ASHAMED: Do as your mother SAYS, not as she does. Perhaps you mother will read this and realize that although "example" is not the ONLY teacher, it is one of the most powerful.

Are your problems too heavy to handle alone? Let Abby help you. For a personal unpublished reply, write; Abby: Box 69700, Los Angeles, Calif. 90069. Enclose a stamped, selfaddressed envelope.

# Hair dryer merchandisers suspend sales

WASHINGTON (AP) - While the government tries to find out whether some hair dryers can cause cancer, two of the nation's largest merchandisers already are suspending sales of

the questioned products. J.C. Penney and Montgomery Ward suspended sales of hair dryers containing asbestos Thursday after the Consumer Product Safety Commission launched a high-priority investigation of the devices.

The two firms are continuing to sell dryers that do not contain asbestos. The commission moved after both private and government tests showed that dryers containing asbestos spew out fibers. Asbestos fibers, if inhaled, are considered by scientists to be a potent cause of cancer and other seri-

ous diseases. The commission said that of the 50 million hair dryers in home use, 'perhaps 12.5 million hair dryers manufactured with asbestos insulation remain in use by consumers."

The agency issued a "special order," which is similar to a subpoena, to the nine largest manufacturers of hair dryers.

The order calls for information on whether the manufacturers have ever made hair dryers containing asbestos and, if so, which models. This would enable the commission staff to provide consumers with a list of hair dryer models containing asbestos, including those no longer on sale.

The commission sent telegrams calling for top executives of the nine firms to come to Washington for a meeting with the commissioners early next week. In advance of the meeting, Mont-

gomery Ward and J.C. Penney took off the market their hair dryers that contain asbestos. Sears, Roebuck and Co. and one of the major manufacturers, North American Phillips Corp., said they already had stopped offering dryers with asbestos. North American Phillips makes Norelco hair dryers.

# Multiples meeting set

Linda Cardwell, Kathleen Brewer, Frances Collins and Christy Nelson of the Midland Mothers of Twins Club are planning to attend the Texas Mothers of Multiples' sixth annual convention to be held April 19-22 in Houston. The Houston Mothers of Twins Club

The Texas Mothers of Multiples was founded in 1973. With 20 member clubs throughout the state, the organization strives to aid mothers of multiple births through research, direct aid and moral support. Many member clubs also participate in the National Mothers of Twins Club.

Highlights of the convention will include fun and learning opportunities, ranging from shopping trips and a dinner theater to workshops concering life with twins, triplets or more. A general business session, during which new state officers will be elected, will be held. After a Cinderetta Banquet, the new officers will be installed.

All interested parents of multiples are invited to attend the convention. More information can be obtained from Mrs. Cardwell, 694-1401.

# The sap runneth over; How sweet it will be

By HUGH A. MULLIGAN AP Special Correspondent

RIDGEFIELD, Conn. (AP) — A cloying sweet smell envelops the house these days. Huge pots, the biggest we can find, are steaming away on the stove. The kitchen windows are misted over; the walls damp with humidity.

For the first time ever, we are making our own maple syrup.

Sweet revenge is being exacted from the smug sugar maples for the tons of leaves they dumped on our lawn last fall. It may amount to only an ounce or two of revenge, enough to cover a single stack of buckwheat cakes or a waffle or two, because they tell me it takes 40 gallons of sap to make one gallon of syrup, but how sweet it will be.

All those autumn Saturdays spent raking and bagging and hauling to the dump will find vindication some day soon in one great glorious breakfast. There is more to this maple syrup

business than running out in the yard with a plate of pancakes and giving the nearest deciduous hardwood of the genus Acer (as we say in syrup circles) a big bear hug.

FIRST, YOU MUST bore a hole in the bark of the tree about three inches deep and three or four feet from the ground. Next, insert a metal spout that can be bought from the local hardware store for what it would cost to buy a decent-sized bottle of ordinary pancake syrup, the kind made with sugar cane and not maple sugar, which isn't the same thing at all. From the spout, you hang a bucket or a large plastic jug.

All this must be timed to the end of winter and the first faint promise of spring. Cold, cold nights are needed, followed by suddenly warm, sunny days. And then one fine, frosty morning you run out on the porch and hear the neighbors yell: "Here comes the sap now." or "See the sap running," or something like that.

"Mushegeneh" I've also heard them cry, which I believe is Yiddish for putting maple syrup on potato pancakes, otherwise known as candy knishes. Or is it lotkes?

No matter, hearing the drip, drip of that crystal clear sap into the bucket is no less than being in tune with one of nature's miracles. It is like driving a bung starter into Joyce Kilmer's "Trees" and drawing off the essence

Mulligan's

of poetry. The sweet silver blood stream of life is surging once again through the blue veins of winter. We sap suckers get quite lyrical.

Some days two or three gallons will seep from a single tree. Some mornings, after a particularly cold clear night when the morning star lingers late on the horizon, the sap is found frozen in diamond-like chunks at the bottom of the bucket. Hauling it to the stove you feel like Grandma Moses playing hookey from a Christmas card.

THE INDIANS KNEW about maple syrup long before the white intruders sprinkled his hunting trails with all night diners and fast food pancake emporia. They collected the sap in birchbark containers and tossed heated stones into the sap to boil it down, a tedious process that allowed plenty of time for the invention of the hotcake. This was their version of flapjacks made of hominy grits or corn flour, which later caught on down South in a boiled version unredeemed by golden maple syrup but doused in something called red-eyed gravy. Grits, otherwise known as Carolina caviar.

When Ellsworth Bunker was ambassador to Saigon, he always served maple syrup over ice cream for dessert at official dinners. It was a fixture on the agenda, more certain than pacification of eventual victory, at every press briefing at the ambassadorial residence. Bunker, who has a farm in Purney, Vermont, tapped his own trees like all genuine Yankees and had the syrup flown in by diplomatic courier in the official pouch.

This may have accounted for his smooth handling of even the stickiest problems and vice versa, although the fact that maple syrup never replaced nuoc mam, the Vietnamese dried fish sauce, in the minds and hearts of the people should have indicated the way things were going out there.

We used to joke that even when the U.S. Embassy was under attack during the Tet invasion the Viet Cong infiltrators never did manage to find Bunker's bunker, the ambassador's secret hiding place, if indeed he had one. Over government-issue ice cream, doused in real Vermont maple syrup, we used to wonder too how close the sappers had come to tapping the sap supply. Intercepting a diplomatic pouch might have led them to

believe the Americans had perfected a new sweet smelling brand of plastique, the sticky explosive that figured in so many terrorist incidents during the French regime in Indochina.

LISTENING TO THE ping ping of the sap oozing out of my two tall maple trees makes me wonder now how many acres of maples the ambassador had to tap on his Vermont farm to sweeten the bill of fare at those weekly press dinners. Certainly there is no shortage of sugar maples in his part of the country.

in his part of the country.

I went to college in Vermont, which leads the nation in maple syrup production, although its 45,000 pounds-a-year is only one-tenth of what Quebec produces. Marlboro College even had a course in maple syrup sugaring off. A chemistry student named John Bartlett improved on the curriculum by finding a method of distilling the sap into a high potency white lightning that we nicknamed "Northern

# Stock market gains

NEW YORK (AP) - The stock market edged slightly higher in an erratic session

Trading slowed considerably from Wednesday's active pace.

After the Organization of Petroleum Exporting Countries decided early this week on a 9 percent price increase, investors initially took the news as a pleasant surprise.

Although the increase was smaller than had been feared, analysts noted that by Wednesday some traders had begun to look at it as still troublesome for an economy already beset by high inflation rates.

Brokers said more of those mixed feelings were evident in the market's indecisive showing today.

The DowJones average of 30 industrials posted a .52 gain to 866.77.

Advances outnumbered declines by a 7-6 spread on the New York Stock Exchange.

Big Board volume came to 28.51 million shares against 39.92 million in the previous

The NYSE's composite common-stock index eased 01 to 57.34.

At the American Stock Exchange, the market value ndex was up .58 at 179.61.

#### Livestock

FORT WORTH, Texas (AP) — Cattle and calves: estimated receipts 1725 compared with 850 last week and 3075 the same period a year ago. Compared with close of a week ago: slaughter cows firm, instances 1.00 higher on cutter. Slaughter buils steady. Feeder steers and steer calves mostly 2.00 higher. Feeder heifers and heifer calves 2.00-4.00 higher. Demand good. Trading active. Quality on feeders much improved over last week. Run includes around 20 percent slaughter classes. Balance mostly feeders. Buyers more aggressive for numbers due to small receipts.

Slaughter cows: utility 2-3 53.00-57.75; cutter 32.00-56.50; high dressing cutter and utility 56.50-60.50.

Slaughter buils: yield grade 1 1000-1700 lbs. 64.50-68.00.

Feeder steers: choice 250-400 lbs. 114.00-132.00, mostly 114.00-123.00; 400-500 lbs. 105.00-116.00; 500-600 lbs. 91.25-95.00; good 300-400 lbs. 100.00-115.00; 400-500 lbs. 91.00-100.00; 500-600 lbs. 91.00-96.00; 500-600 lbs. 82.50-94.00.

# Food stamps 2nd currency of Puerto Rico

years, U.S. federal food stamps have become the second currency of Puerto Rico, growing into an addiction economists and politicans say would cripple the economy if withdrawn.

More than 54 percent of the island's 3.2 million residents use stamps and 69 percent are eligible for the program, which spends far more in Puerto Rico than any state on the U.S. mainland, even though the island's population is one-sixth that of New York, the second largest recipient of food-stamp aid.
In addition to aiding nutrition, experts say, the

stamps have boosted employment, improved family life and fattened the island's gross national product - the sum of all its goods and services - by three-quarters of a billion dollars this fiscal year.
"If the stamps were taken out of Puerto Rico it

would crack the economy because the money circulates three and four times," said Gov. Carlos Romero Barcelo. "A substitute would have to be found to subsidize the poor.'

Labor Secretary Carlos Quiros remarked that it could take the island 10 years to recover if the stamps were phased out of the economy.

ECONOMIST PARIMAL Choudhury predicted 'social unrest if the program were removed," and yet another stamp specialist said the economic consequences would be far worse.

'There would be a significant drop in the GNP, a narrowing of the tax base and a lag in the general economic activity," said the specialist who asked that his name be withheld.

"The stamp's dramatic impact is evident in that this tiny island received \$592 million last year ... New York got \$386 million and California \$337 million, although together they have 14 times the population of Puerto Rico.

The stamps have been a boon to an economy with 19 percent unemployment and limited economic resources. Puerto Rico, a U.S. commonwealth, depends heavily on mainland capital investments. It imports almost everything from the United States.

The stamps have increased the "purchasing power" of low-budget families for nonfood items besides expanding their grocery lists because of the additional income the program produces, said Choudhury, author of three studies on the subject. "Food stamps must not be looked at solely as a

welfare program without economic results," he IN FISCAL 1978, food stamps made up almost 8

percent of the \$8.7 billion GNP, according to Puerto Rico's Planning Board. That contribution is expected to be 7.8 percent of an estimated \$9.5 billion GNP in fiscal 1979, if the economy grows by 8 percent over the current fiscal period and the island receives \$750 million in stamps, as expected. The stamps have created 15,000 direct and indirect

jobs, the government says, accounting for roughly two percent of total employment.

Planning Board figures show that although the recession and spiraling inflation — 64.4 percent in eight years - held down spending, overall consumption rose after stamps were introduced in mid-1974. Choudhury said in the absence of stamps, the economy would have experienced a down-

As the island's economy recovered slowly from the because of the stamps.

Per capita food consumption went up to \$725 in 1978, an average of two percent a year during the

Spending on nonfood goods and services rose at a slower pace because inflation made durable items more expensive.

THE WIDESPREAD NEED for some form of assistance in Puerto Rico is masked by the apparent prosperity of the island, the number of cars - one for every three adults - and the high average income of \$10,724 for a family of four in 1978.

But more than 2.2 million people, more than two-thirds of the population, qualified for food stamps under rules that set a ceiling of \$5,500 on the income of a family of four.

Their plight is amplified by a cost of living higher than that on the U.S. mainland.

Stiffer federal regulations taking effect in March are expected to cut the eligibility rolls somewhat. But program officials expect the number of persons actually receiving the stamps to go up by at least 10 percent because of a provision that provides stamps free. Past recipients had to pay a small percentage of the stamps' face value.

"Los cupones," as they are called in Spanish, have changed Puerto Rican eating habits adding more meat, eggs and milk to the traditional beans and rice. Equally important, Choudury says, is the improvement of home life for children whose mothers now do not have to work.

AT THE SAME time, the stamps appear to have eliminated from the lower economic strata "the hunger to achieve," as one observer called it.

This is apparent when a taxi driver refuses a passenger because the distance is too short or a hot-dog vendor turns down three sales because he is eating a steak sandwich. Choudhry said persons receiving stamps have

become more selective of the jobs they take. Yet the stamps are a matter of survival for those

such as Migdalia Martinez Espada, a widow. "If I could find work I wouldn't take the stamps, but without them my two sons would go hungry," she

Office worker Jose Antonio Rodriguez says he spends up to \$375 a month on food for his five children 'so the \$300 in stamps aren't enough. My children drink six quarts of milk a day. Before they only drank three."

# 1912 quarter leads to man's arrest in slaying

AUSTIN, Texas (AP) - A 1912 quarter has led to the arrest of a 41-year-old man wanted in connection with the slaying and robbery of a Grand Island, Neb.

Sgt. Mike Farrar of the Austin Police Department homicide division said the man was arrested at the Austin airport Tuesday afternoon after he had offered a local coin collector items believed to have come from the Nebraska man.

The victim, 59-year-old Eugene Zimmermann, was found strangled with an electric cord at his home in March. Grand Island police said \$16,000 worth of coins and \$10,000 cash were stolen. Farrar said the arrested man has not been

charged but that Grand Island offices arrived Wednesday and plan to begin extradition proceedings

# Young Tiger staff keeps Moss happy with performance

By The Associated Press

Detroit Tigers Manager Les Moss may be drawing straws before the weekend's over. He needs to trim his pitching staff, but his youngsters are not cooperating. "They've done everything we've

asked, all of them," Moss said. "Usually they eliminate themselves, but that hasn't been the case." On Thursday, two of them com-

bined with veteran reliever John Hiller to two-hit the Boston Red Sox, strike out 12 - including Jim Rice four times in a row — and give the Tigers a 6-2 victory.

Steve Baker, a 22-year-old righthander who appeared in 15 games with Detroit last season, started for the Tigers, striking out five and allowing both hits and both runs in five innings.

Sheldon Burnside, a 24-year-old lefty who appeared in two games with Detroit last season, handled the next three innings, striking out six, and Hiller handled the last inning, chalking up the 12th strikeout - Mr. Rice

Moss' problem is that he wants to carry nine pitchers, so he must cut Baker, Burnside or 24-year-old Jack Morris. Baker is 3-0 in spring training, and Burnside is the only southpaw on the squad besides the 35-year-

Burnside's best pitch Thursday was a changeup. Last week, he was nursing a sore arm, and he didn't look good at the Tigers' minor league

camp near Tigertown. "I was throwing 60 miles an hour," Burnside said. "I had no whip. It was from pitching so much in winter But Thursday, the soreness was

"Yeah, boy. I got 'em - I got 'em this time," the effusive Burnside

Detroit got all its offensive punch from Lance Parrish and Aurelio Rodriguez, who each hit three-run homers. Parrish got his in the first inning, and Rodriguez' homer came in the fourth off Boston starter Andy

After Burnside's tribulations of last week, he said Hiller told him to take a week off - not even throw a ball. He followed the advise, he said, and "it worked."

Meanwhile, Moss still had another pitching problem - Mark Fidrych.

Fidrych, who appeared in only three games last season because of shoulder problems, has had back spasms this spring. He says they're not bothering him now, but he'll probably go on the disabled list anyway.

Fidrych threw 20 minutes of batting practice Thursday, and Moss said he looked okay. Moss said The Bird would pitch Monday at Tigertown.

In other exhibition contests, the Philadelphia Phillies defeated Cincinnati 7-5, the New York Mets blanked St. Louis 4-0, Montreal edged Texas 5-4, Pittsburgh clipped Baltimore 6-5, Toronto got by Kansas City 5-3, Cleveland edged California 8-7, Oakland downed Seattle 4-2, the Chicago White Sox beat the New York Yankees 4-1 and the Chicago Cubs whitewashed San Francisco 5-0.

Atlanta, meanwhile, lost a pair, the (Continued on Page 2-C)

# Kansas City chosen to win AL Western

By HAL BOCK **AP Sports Writer** 

The balance of power may be shifting from Kansas City to California in the American League West, thanks in large part to the trading policies of the Minnesota Twins.

The Twins made two major winter deals with the Angels and as a result, perennial batting champion Rod Carew is now working in California along with outfielder Dan Ford. In exchange for those two, the Angels surrendered six players, none of whom figured prominently in their

WHITEY HERZOG, manager of the defending champion Kansas City Royals, couldn't help but notice the Angel deals, especially the one for Carew. "What surprised me about it was they got a player of Carew's ability without giving up a single regular," said Herzog.

The Royals have won three straight division crowns with essentially the same team and shoots for No. 4 with very few changes. The question is whether they'll be able to hold off the improved Angels and the ambitious Texas Rangers. After those three, Minnesota and Chicago occupy the middle of the division, with Oakland and Seattle in the rear.

1978 Finish - Kansas City, California, Texas, Minnesota, Chicago, Oakland, Seattle.

1979 Prediction - California, Kansas City, Texas, Minneesota, Chicago, Oakland, Seattle.

THE ANGELS did an effetive job of plugging their holes over the winter. Besides getting Carew, baseball's best hitter, to play first base, California acquired Ford to replace the late Lyman Bostock in the outfield, and free agent Jim Barr for the bullpen.

Manager Jim Fregosi, starting his first full year as pilot of the club, figures to open with an infield of Carew at first, Bobby Grich at second, third baseman Carney Lansford, and either Dave Chalk or Rance Mulliniks at shortstop. Ford, Joe Rudi and Rick Miller are the outfielders, with Don Baylor the designated hitter and Brian Downing catching

The pitching is impressive, headed by superstars Frank Tanana and Nolan Ryan and backed by Don Aase, Chris Knapp and Dave Frost. Barr joins a bullpen that includes Ken Brett, Dyar Miller and Dave LaRoche.

Kansas City presents the same cast that has won three straight division titles. Herzog has shuffled it a bit though, trying to get more mileage out of speedy Willie Wilson. "If Wilson plays fulltime, he'll steal 100 bases,' the manager said.

That explains the spring training experiment switching Amos Otis to first base. If it works, Wilson will work in center field, flanked by Al Cowens and either Clint Hurdle, Tom Poquette, Steve Braun, Hal McRae or even Otis in left field.

GEIRGE BRETT missed most of spring training with an injured thumb, but he'll be the everyday third baseman, with Freddie Patek at short, Frank White at second and either Otis or Pete LaCock or John Wathan at first. The catcher is Dar-

The return of Steve Busby strengthens the Royals pitching staff with Paul Splittorff, Dennis Leonard, Larry Gura and Rich Gale the main starters and the Mad Hungarian, Al Hrabosky, the No. 1 man out of the

Texas did some housecleaning over the winter and new Manager Pat Corrales will have a some new faces. The rebuilt bullpen has Sparky Lyle and Jim Kern, as good a lefty-righty combination as there is in the league. The new shortstop is rookie Nelson Norman and the new third baseman is Buddy Bell, acquired from Cleveland for Toby Harrah. Oscar Gamble, who came over from San Diego for Mike Hargrove, becomes the DH, with veteran Mike Jorgensen battling rookies Pat Putnam, Gary Gray and Dan Duren for Hargrove's old first base job. Second baseman Bump Wills completes the infield and Al Oliver, Richie Zisk and John Grubb or Bill Sample will be the outfielders, with Jim Sundberg, one of the best in the business, the catcher.

FERGIE JENKINS, Jon Matlack, Dock Ellis and Steve Comer figure as the starting rotation, with Lyle and Kern ready to pick them up.

Minnesota didin't exactly give Carew and Ford away and receive nothing in return. Third baseman Ron Jackson and first baseman-catcher Danny Goodwin came over for Ford. Carew brought outfielder Ken Landreaux and pitcher Paul Hartzell. All four figure prominently in Manager

Gene Mauch's plans for the Twins. Jackson, Goodwin and Landreaux

PAGE 1C

will be everyday players along with shortstop Roy Smalley and catcher Butch Wynegar. Hartzell moves into pitching rotation constructed around newcomer Jerry Koosman, and returnees Dave Goltz, Roger Erickson and Geoff Zahn. Free agent Mike Marshall decided to stick around and is the main man out of the

Shortstop Don Kessinger will double as the manager of the Chicago White Sox and needs some medical good luck for his club to contend. The White Sox looked like General Hospital last year with key men such as outfielders Claudell Washington, Chet Lemon, Wayne Nordhagen and Thad Bosley, infielders Jorge Orta and Alan Bannister and pitchers Pablo Torrealba and Ron Schueler all sidelined for extended periods.

All are back in working order and could play significant roles on Kessinger's club. The Sox also have one of the most interesting rookies, 5-foot-3 Harry Chappas, who's trying to beat the manager out of the shortstop

Torrealba joins a pitching staff headed by Francisco Barrios, Ken Kravec, Mike Proly and Jack Kucek. The Sox also like them young arms

the tornado-spiced thunderstorms that ravages the Valley of the Sun Wednesday night, no one is quite sure whether Mesa is an island isolated from Phoenix or Phoenix is an island isolated from Mesa. The one certainty is that the Salt

River is on a rampage and there were only three passable bridges by which to get in or out of Phoenix, creating some super economy-sized traffic jams and lots of short-fused tem-While the clouds hang menacingly

along the distant mountain ridges. sunshine has returned but it will take a while to dry out the waterlogged turf. In fact, it would be noon before any of the players would know for sure whether they'd gey any work in before sundown.

WITH THE regular spring training routine of a morning practice and afternoon game interrupted, players found various ways to wile away the time. TV and persuing the morning paper were the less imaginative ways. In one room, the occupants were involved in a hot game Baseball Strategy, a game you could hear even if the contestants weren't visible from outside.

Down on the motel parking lot, Lee Smith, a pitcher with Midland last year, was doing a cleaning job on his automobile engine while Aaron Randall offered advice, soon to be joined by outfielder Eric Grandy and pitcher Michael Taylor, who hopes to make it to Midland this spring after pitching for the Texas League team in spring training last year, only to be cut.

MESA, Ariz. - In the aftermath of

with Wichita, but are keeping their fingers crossed, while Randall, released by Midland last season, is working out with Wichita in hopes of hooking a job with the new Carribbean area AAA league.

"I've had some contracts and C.V. Davis (Chicago Cubs Farm Director) is trying to help me hook on with someone, " Aaron explained. "If it doesn't work out, I'll probably stay here and try to continue the work I was doing in Midland and work towards a degree in psychology at Arizona State and then return to Mid-

Randall has worked with the mentally-retarded in Midland the last two winters, but feels he is somewhat handicapped in the contributions he can make by the fact that his college degress were in business and accont-

Meanwhile, with no performances to evaluate, staff meetings of coaches, manager and instructors were flavored by a little yarn-swapping. When the subject of fireballing pitcher Henry Mack, acquired from the Phils during the off season and destined for either Wichita or Midland, was brought up, Wichita Manager Jack Hiatt recalled when a high school kid named Nolam Ryan reported the Astrodome for a look one long-ago summer.

"JACK STEPHENSON was catching him and they were most impressed, naturally, by his fast ball, " Hiatt related. "One of the coaches asked him if he had a curve and Nolan said, 'Sure I got a curve'. Stephenson had never seen the kid before and was concentrating on where it would break. The coach then told Ryan to 'bring his fastball', only Nolan didn't give the hand signal to Stephenson. Jack didn't get his mitt up in time and suffered a broken collar bone."

Hiatt continued, "Later in the year, after Ryan had pitched in the minors, he was brought back up and taken down to the bullpen to throw. Stephenson again was the catcher. He was just throwing fast balls, so Jack didn't have a mask or protector on. One of the coaches asked Ryan if he had a changeup. Ryan said, 'Sure I've got a changeup.' He signaled Stepehnson for a changeup, but his changeup came in at 95 miles-perhour. The pitch hit Stephenson right between the eyes. Twice in one season, Jack was knocked out of action by Ryan.'

CACTUS FLOWERS-Steve Davis, former Midland Cubs' shortstop who a second base candidate with Chicago this spring, is hitting .350 and George Riley, who pitched for Midland last year and isn't expected to stick with Chicago this year, has the best ERA of any Cubs pitcher this spring with 2.25...Arizona State, a national power as the perennial champion of the WAC, is finding life isn't so beautiful in the Pac-10. The Sun Devils are only 2-6, however, with 22 games left, there is no panic, although USC comes in this weekend for a three-game se-

# Great performances in City Track Meet

By RICHARD VINCENT **Sports Writer** 

More outstanding performances were recorded Thursday afternoon at Memorial Stadium in the final day of the 1979 City Junior High Track

In girls competition, Alamo walked away with the seventh grade title with 193 points while Goddard was second and San Jacinto third. Goddard bagged the eighth grade divison with 164 with Alamo second and San Jacinto third while Austin easily annexed the frosh crown with 105 with Edison second.

On the boys side, San Jacinto took the seventh with 138 followed in order by Alamo and Goddard. San Jacinto captured the eighth with 201 as Goddard was second and Alamo third while Austin pocketed the frosh competition with 1101/2 with Edison sec-

#### Prez takes lead

RIONEGRO, Colombia (AP)-Mexican Carlos Prez took the lead of the Rionegro International Golf Tournament Thursday with a 5-under-par

Spain's Manuel Calero and Colombian Alfredo Puerto finished second

Another Mexican, Ernesto Perez, tied with American Karl Lorez and Spanish Ramon Munoz with 70, Alberto Rivadeneira from Argentina had a 71.

THE GIRLS continued to pelt the record book with 10 more new bests established and two more tied. In all, 25 new records were set and three were equaled.

The second day of girls action involved the field events. In seventh grade, Henderson of Alamo copped the long jump and triple jump and set records in each. During Wednesday's first round, she set records with wins in the 100 and 220. Other seventh grade field event winners were Minor of Goddard with a new best in the shot and Mathis of San Jacinto with a new mark in the high jump. Griffin of Alamo set new eighth

grade standards with wins in the long jump and triple jump. Kenney of Goddard won the high jump and en route tied the record while Avila of Goddard grabbed the shot put title. AUSTIN'S OLSEN took the frosh long jump and triple jump, with rec-

ord-setting efforts in each, while

Riggs of Austin rewrote the shot put

best and Edison's Parker tied the

high jump record. Although only six boys records fell during the meet, there were some excellent contests in all divisons. Three new bests were established Wednesday, including 12-9 in the frosh pole vault by Edison's Jay Motter. Thursday in the seventh grade, Gibbs of Goddard, who set a record on the first day in the long jump, bettered both the 220 and 330 standards. Thursday's other boys record went to eighth

grader Valentin Vela of San Jacinto in

Joining Gibbs and Vela, who also grabbed the 660, as double winners was San Jacinto's Kyle Kitto, who took the 70 hurdles and the 230 bar-

OTHER BOYS seventh grade winners were the Alamo 440 relay, Ross Petree of San Jacinto in the 660, Terry McGowan of Alamo in the 100, Armando Padilla of Goddard in the 1320 and the Goddard 1320 relay.

Eighth grade winners were San Jacinto in the 440 relay and 1320 relay, Murdar Lara of San Jacinto in the 70 hurdles, Phillips of San Jacinto in the century, Damon Polk of Goddard in the 230 sticks, Madrid of San Jacinto in the furlong and Diego Maldonado of San Jacinto in the 1320.

TITLISTS IN the ninth grade were the Austin 440 relay and mile relay, Norman Young of Austin in the 660, Al Ochoa of Edison in the 70 hurdles. Stan Caston of Edison in the 100, Troy Barber of Austin in the quartermile, Bart Ryan of Austin in the 230 hurdles, Mike Swearingen of Austin in the half lap and Greg Sotelo of Edison

in the 1320. One girls running final was completed Thursday as Austin won the 880 relay in record time:

The top four finishers in each event from all divisions qualified for the Midland-Odessa Meet, which will be held next week at Memorial Sta-

# Chako Higuchi captures lead after round of 69

COSTA MESA, Calif. (AP) - Her swaying swing defies universal form, but Chako Higuchi, the queen of Japanese golf, is disinclined to tamper with success

"The sway helps me get distance," explained the 33-year-old veteran.

Because of wet and soggy conditions at the 6,174-yard, par-71 Mesa Verde Country Club, distance was difficult Thursday, but her 2-underpar 69 stood alone as the first-round lead in the \$150,000 Ladies Professional Golf Association tournament.

The 5-foot-4 Higuchi mastered the front nine with three consecutive birdies and had a round of 33-36, putting her in position for her first tour victory since 1977.

Missing only four greens, her steady play sent her into today's second round with a 1-stroke lead over five challengers, including Jan Stephenson. Two strokes back, among a group of seven, was Nancy Lopez, bidding for her third 1979 victory.

Higuchi, with only three American victories since joining the tour in 1970, was aided by new-found putting prow-

"I've been hitting the ball well, but putting has been a problem. I would have won last week if I had putted well," she said, referring to her

# M-Cubs take 6-4 victory

By TED BATTLES Sports Editor

MESA, Ariz. - Outfielder Carlos Lezcano is alive, well and throwing three-for-three in the Texas League. What's more, he can count five finger tips on each hand although one is so bent it looks like an afterthought.

Lezcano is the cousin of Milwaukee's outfielder Sixto Lezcano. He came out of Florida State in 1977 to play 71 games as a pro rookie after joining the Cubs in mid-season.

Lezcano, a 24-year-old native of Prio Peidras, P.R., did little more than get his feet wet last season and was looking forward to his first full year in the Texas League last spring, planning lofty plateaus of achieve-

Maybe he was showing someone just how high he expected to go that day coming nome from practice wher he leaped up to touch a sign. When he came down, he left a finger, caught by a loose ring.

They sewed it back on, but Carlos was out for the year and some suspected for his career.

When Midland's trip to Sun City was wiped out by wet ground, the Texas League Cubs played big brother Wichita instead at Ho Ho Kam Park. Lezcano cracked out two singles and a triple to lead Midland to a 6-4 win.

"The finger? It feels good and it doesn't bother me at all," Lezcano assures. "In fact, the way it is bent at the end helps me dip the ball when I throw.'

Lezcano adds that his performance against Wichita was no flashing appearance. "I didn't play any ball last summer, but I did play in the Puerto Rican League last winter," and led in home runs, runs batted in and stolen

Outside of Lezcano and John Hartin, who singled, most of the Midland lineup consisted of strangers as far as Midland fans are concerned. However, if Mike Turgeon, a 23-year-old from Groton, Conn., starting his second pro season, has many more days like he did Thursday, he won't be a stranger to Midland fans for long.

Turgeon doubled twice, singled once and batted in two runs in four

Bill Hayes, who caught for Midland pitchers and threw against Midland batters while batting in the Wichita lineup, had two of the six Aeros hits. Buddy Lowe, Mario Avallone and Jack Ledbetter pitched against Midland allowing 12 hits.

fourth-place finish in the Sahara tour-

Because heavy rains this week. made the Mesa Verde course unplayable early Thursday, officials delayed the start of the tournament by an hour. Darkness forced two late-starting groups to quit before finishing their rounds. Those groups were to complete their first round today before beginning the second.

Joining Stephenson at one stroke back were Sandra Post, newcomer Alice Ritzman, Jan Ferraris and Bobbie Bryant.

Lopez, who started the day with a bogey, was at par 71 with Sally Little, Sandra Spuzich, Gail Toushin, Donna Young and Kathy Young.

JoAnne Carner, currently the No. 2 money-winner in 1979 behind Lopez, was three strokes off the pace at 72, as were eight others.

Stephenson said she hoped her best start in years would provide her with increased confidence and momentum. She has just three LPGA victories since joining the tour in 1976.

"I'm just terribly emotional," Stephenson said. "I always doubt myself. The only time I do well is when I get off to a start like this. You can't afford to fall down: not with Nancy out there every week.'

Lopez said she was pleased with her game but disappointed at missing many birdie attempts.

The 72-hole tournament, which offers \$22,500 to the winner, is sponsored by Kemper.

Carner is thankful for birdie putt on Thursday.

# Jackson brawls way into GG quarterfinals

round 125 pound fight.

INDIANAPOLIS (AP) - Clinton Jackson is after his fourth Golden Gloves crown and the 24-year-old sheriff's deputy from Nashville, Tenn., is confident he'll get it.

A four-time Amateur Athletic Union champion who boxed for the United States in the 1976 Olympics, Jackson brawled his way to tonight's quarter-finals with victories in two 156-pound bouts at the 51st National Golden Gloves tournament Thursday

Jackson, whose long career includes a 1975 Pan American games gold medal, pounded Anthony Dee of Kansas City, Mo., without letup to gain the decision in his first bout. He later took a decision over Charles Carter of Las Vegas.

"I'm gonna win," Jackson, 24, said afterwards. "They've got some pretty good boxers here, but I think I'll do

A quarter-finalist at the Montreal Olympics, Jackson says his ambition is to win at the 1980 Games in Moscow and then turn pro.

"It won't take me more than a year to win the professional title with the right coaching," he said. "Then I can make enough money to sit back and work with the kids.

He was referring to his teammates on the Nashville Sheriff's Department team fighting here under the banner of the Knoxville Golden Gloves squad: welterweight Mike McCallum. flyweight Jerome Coffee, and lightweight Johnny Bumphus. All have shots at titles this year.

In earlier 112-pound action Thursday night, Coffee, a 1977 AAU winner, bested Joe Johnson of Detroit.

A total of 113 bouts in five weight classes were on Thursday's card. Most of the top names passed early tests and moved toward Friday's 44 quarter-final matches at the Indiana Convention and Exposition Center.

DAVE MCKAY'S two-run single in the fifth inning lifted Toronto over Kansas City, and Gary Alexander tripled with one out in the ninth to drive in the winning run as Cleveland downed the Angels.

Jeff Newman singled three times, driving in two runs, to help Oakland deal Seattle its sixth straight loss, and Claudell Washington drove in two runs and scored once to pace the White Sox past the Yankees.

# Luke Easter shot to death during robbery of bank

Cleveland Indians slugger Luscious 'Luke'' Easter, who was shot to death by two gunmen in a robbery Thursday, was a peaceful man, according to those who knew him.

His only violence came during games when he slugged balls with all his might. He walloped what is regarded as the longest home run ever hit in Cleveland Stadium in June 1950. It traveled 477 feet.

Easter, 63, was slain Thursday morning outside a Euclid bank where he had gone to cash about \$40,000 in checks as a favor for his fellow workers at TRW Inc. He was a union steward there.

Two men rushed up to him, fired a shotgun at him and fled with the bag of money, according to a witness.

Police said Easter was hit just above the heart, by the charge from the shotgun, as he left the Cleveland Trust Co. branch office.

Police were holding two men, aged 31 and 32, in connection with the shooting Thursday. The two were lodged in the City Jail, but no charges had been filed.

Police said about \$30,000 of the money was recovered when the two were apprehended following a police chase and gun battle. Officers speculated that more may be hidden in the alleged escape car.

Police said the two men lost control of their car and slid into a bridge

EUCLID, Ohio (AP) - Former abutment. The driver allegedly fired at a police car, shattering the windshield but missing the officers. The other man allegedly shot at police from behind a car, officers said. There were no injuries

such as Ross Baumgarten, Rich Wortham and Steve Trout, son of a onetime Tiger star.

Eric Soderholm will play third base, Orta is at second and Lamar Johnson at first, with Lemon, Washington and probably Ralph Garr or Bob Molinaro in the outfield and Bill Nahorodny catching.

The return of Steve Busby strengthens the Royals pitching staff with Paul Splittorff, Dennis Leonard, Larry Gura and Rich Gale the main starters and the Mad Hungarian, Al Hrabosky, the No. 1 man out of the bullpen.

Texas did some housecleaning over the winter and new Manager Pat Corrales will have a some new faces. The rebuilt bullpen has Sparky Lyle and Jim Kern, as good a lefty-righty combination as there is in the league.

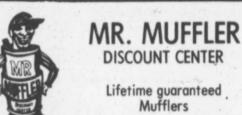

### Anthony in lead

GARDENCITY, N.Y. (AP) — Despite winning only two of his eight matches Thursday night, Earl Anthony of Kent, Wash., maintained a slim lead after four rounds of the \$70,000 Long Island Open bowling tournament.

Anthony leads Tom Baker of Buffalo, N.Y., by sx pins with Mark Roth of North Arlington, N.J., the tour's leading money-winner, 21 pins of the Hawaiian's lightning-like comoff the pace.

Anthony rolled 1,807 for his eight games Jumawan, a native of Okinawa, said Jumawan. "But I thought I bet-Thursday night. Howevnow living in Wahiawa, Hawaii, is ter go out and get it." He did, preser, his opponents looking for his first Golden Gloves suring Gray in the third round to take averaged 230 against him after Anthony had In one of Thursday night's upsets, dominated the qualifying 1978 106-pound champion James Culrounds, taking a 204-pin lins, Bladensburg, Md., was deciinto match play. sioned by Jeff Hanna in a second-

Baker rolled games of 238, 255, 259, 226, 256, 247, 243 and 224 while posting a 6-0-2 match-play record and climbing from fourth place to second.

FRIDAY, MARCH 30, 1979

# Nuclear waste report published

ALBUQUERQUE, N. Mex. — The interagency Review Group on Nuclear Waste Management published its final report on March 13. The IRG expects to submit its findings and recommendations to the President

This final report contains the findings, policy considerations and recommendations reached by the IRG and attempts to reflect the full range of comments and concerns.

The draft IRG report was released for public review and comment October 19, 1978, and through January 1, 1979, some 3,300 comments from all states were received and reviewed.

The final report recognized the need for a broadly based nuclear waste management program which addresses fundamental scientific questions within a systems concept. The IRG emphasizes the need for flexibility in programmatic and repository design to permit disposal of all types of existing and future radioactive

THE FINAL version contains the original text of the draft report, plus a summary of the public comment on individual sections inserted at the end of each section. An IRG response immediately follows the summary of public comment. These IRG responses reflect a modified or amplified view based on the public comments and/or deliberations by the

Following the March 15, 1978, mandate by the President for the nuclear waste report, the IRG attempted to obtain a broad range views from Congress, state and local governments, Indian nations, industry, the scientific and technical community, public interest groups, environmental organizations and the public.

One of the principal findings of the IRG is that the public and all interest groups are virtually united in stressing the difficulty and importance of institutional aspects of the waste disposal problem and in insisting that goverment programs be more deliberate, better conceived and better managed than in the past.

The IRG report has identified many important institutional issues and has suggested a conceptual framework to

# **Transition** upcoming

HOUSTON (AP) - A new Shell Oil Co. study says the world beyond the 20th century will be considerably different with respect to the types of energy consumed.

A report released last week said the nation will be consuming less conventional oil and gas annually, as opposed to the current situation in which more is consumed each year although at a declining growth rate.

"Thus, the next 20 to 30 years will be a period of energy transition in which the summit of world oil production is reached and a new era of energy economics begins," Shell reported.

The study projects coal will be the primary domestic fuel source by the end of the century, contributing 40-45 percent of total energy. "Oil and gas will provide 30-35

percent of the nation's total energy, versus 70-75 percent cur rently," the report states.

"Nuclear power, despite much lower growth than was forecast several years ago, will contribute 15-20 percent. New technologies such as solar, coal gasification and coal liquefaction will also make important contributions.'

The report discusses two energy scenarios, one with rather weak domestic economic growth and low public concern over energy problems and the other involving strong growth and major public concern.

The weaker growth scenario indicated domestic demand for energy will grow at an average rate of about 2.1 percent a year, approximating 71 million barrels per day crude oil equivalent in the year 2010. The other scenario indicated demand would increase 2.6 percent a year and approximate 83 million barrels per day crude oil equiva-

Domestic energy demand in 1977 approximated 37 million barrels per day crude oil equiva-

# Administration charged with hiding import data

By TOM RAUM

WASHINGTON (AP) - The Carter administration deliberately and grossly exaggerated the effect of the Iranian oil cutoff on the United States, a new congressional study contends.

Energy Secretary James R. Schlesinger was expected to be questioned today on allegations that oil imports actually increased in Februrary despite administration claims of a 500,-000 barrel-a-day shortage reflecting the Iranian cutoff.

An aide, Jim Bishop, said Schlesinger was prepared to deny the study's conclusions in his testimony

# Firms seek lawsuit dismisals

WASHINGTON (AP) - Some of America's largest oil companies are asking a federal judge to dismiss government lawsuits accusing nine oil firms of overcharging customers more than \$1 billion

Company lawyers are telling U.S. District Judge Gerhard A. Gesell today the Department of Energy should have attempted to resolve the issue before going to court.

The alleged overcharges involve the price of natural gas liquids, a source of such products as propane, butane and heating oil. The Justice and Energy departments have asked that the companies be ordered to refund excess charges plus interest.

The motion for dismissal was filed by Cities Service, Gulf, Exxon, Phillips, Amoco and Texaco. The government lawsuits name those firms plus Shell, Mobil and Arco.

All nine companies joined in a separate motion asking Gesell either to transfer the lawsuits to courts in Delaware and Texas or to hold up the Washington proceedings until similar cases in those states are decided. The oil companies contend their

pricing systems complied with "ambiguous pricing regulations" as generally understood. The companies say the Energy Department keeps changing its interpretation of the rules and then applies the changes retroactive-

The oil companies, in the Delaware and Texas suits, have asked for a judicial explanation of the pricing regulations.

The federal lawsuits accuse the companies of either charging customers too much for the natural gas liquids or "banking" excessive costs on their ledgers to serve as the basis for increasing customer costs later. Government officials have said, however, they are not charging the companies with criminal conduct or con-

The government suits request payment into the U.S. Treasury as a form of refund to the general public.

However, Energy Department officials have said the court could order the companies to reduce prices to reimburse the public, as has occurred in other cases. The court also could require direct refunds to customers whose losses could be identified, the officials have said.

# Nigeria adds surcharge

NEW YORK (AP) - Nigeria has posted a \$4-a-barrel surcharge on the \$14.54-a-barrel price set on crude oil by the Organization of Petroleum Exporting Countries, a spokesman for Phillips Petroleum Co. said

today OPEC earlier this week raised the base price for crude oil by 9 percent to \$14.54 a barrel, effective Sunday, but said members of the organization were free to add surcharges if they

Many oil-producing nations have boosted prices above official OPEC levels in the wake of the crude oil shortage cause by a 69-day shutdown of petroleum production in Iran, once OPEC's second largest producer. The

shutdown was part of the revolution that led to the overthrow of Shah Mohammad Reza Pahlavi. Nigeria is the seventh-largest OPEC oil producer, based on 1978 industry estimates. According to Phillips spokesman Brooks Garner,

"our people have been notified there's going to be a surcharge," effective Sunday, boosting the price of Nigerian oil to \$18.50 to \$18.60 a 42-gallon Other African nations demanding

surcharges similar to that posted by Nigeria include Libya, OPEC's sixthlargest producer, and Algeria, ranked 10th in production.

OPEC's posted price increase on Saudi Arabian light crude oil, the benchmark for the organization's rate schedule, should lead to a 2 cents-a-gallon increase in U.S. retail gasoline prices by May, industry spokesmen have estimated. If the \$4-abarrel surcharge were added to all OPEC exports, gasoline prices in the United States could rise by as much as 7 cents a gallon.

subcommittee.

Bishop said the information obtained by the committee is suspect and disputed the increase in imports claimed by the report. "I can assure you this will be clarified," he said.

The study by the subcommittee staff asserts: "U.S. imports during the month of February surged by 1 million barrels per day.'

The report said it based its conclusions on oil export-import information recently compiled by the Paris-based International Energy Agency.

Rep. Albert Gore, D-Tenn., a subcommitte member, charged that Schlesinger's agency kept the alleged increase in imports secret "because it was embarrassing to administration policy."

The staff report did not dispute the reality of the three-month Iranian production halt. But it claimed the cutoff had a minimal impact on U.S. supplies — at least in Feburary.

"Claims of a shortfall have been used to justify hardships for the American consumer in the form of higher prices as well as a reduction of gasoline supplies," the report said. In other energy developments:

-Sen. Abraham Ribicoff, D-Conn. introduced a bill Thursday that would allow users of home-heating oil a \$125 a year tax credit if Carter removes oil price controls. Ribicoff said that with deregulation, heating-oil prices which now average 60 to 64 cents a gallon could soar to 80 cents a gallon by next

-In New York, Phillips Petroleum

Co. and other oil industry sources confirmed that Nigeria has imposed a \$4-a-barrel surcharge on top of the regular base price of \$14.54 a barrel set by the Organization of Petroleum Exporting Countries. Several other OPEC countries - including Kuwait, Libya and Algeria - already were

attaching a surcharge to their oil. A general round of high surcharges could boost U.S. gasoline prices by as much as 7 cents a gallon. -Weldon V. Barton, director of the Agriculture Department's energy office, told a House subcommittee Thursday any federal gasoline rationing plan would insure that farmers

get fuel allocations "sufficient to

meet full food and fiber production

goals approved by the president."

# Goen well potentials

Robert Klabzuba of Fort Worth No. 1 Chester Schwethelm finaled as a second well in the Fuzzy Creek (Goen gas) pool of Concho County, 5 miles northeast of Paint Rock.

Operator reported a calculated open flow potential of 1,590,000 cubic feet of gas per day, through perforations from 3,356 to 3,362 feet. The gasliquid ration is 25,966-1.

Location is 3,890 feet from north and 560 feet from west lines of Conrad Frey survey No. 6.

Total depth is 3,450 feet and 4.5-inch pipe is set at 3,425 feet.

ERITY.

A University of Texas at San Antonio archaeologist shovels dirt away from a skull unearthed during an excavation at the Alamo in downtown San Antonio. The skull, one official said, is "most likely" that of a casualty from the famous 1836 battle at the old Spanish mission-fortress. The archaeologist is Augustine Frkuska. (AP Laserphoto)

# Dealing in hot birds newest get-rich scheme

WASHINGTON (AP) - Federal investigators are looking into what sources say may be a widespread and lucrative business of selling stolen tinue to operate. possibly smuggled cockatoos, parrots and other imported "exotic" birds.

Aside from the criminal aspects, the birds are posing a threat to the vast U.S. poultry industry because of the possibility of spreading exotic Newcastle disease, which is highlycontagious, into flocks of broilers and egg-laying hens.

The Agriculture Department, which handles import and other regulatory programs aimed at preventing the introduction of foreign diseases that affect animals and plants, is alarmed that exotic Newcastle could decimate poultry flocks at a time when increased production is wanted to help offset soaring retail prices of

red meat. According to federal sources, who asked not to be identified, the department's Office of Inspector General, the Justice Department and the U.S. Customs Service are involved in investigating various aspects of thievery, possible smuggling and other violations involving birds.

The investigations were disclosed after USDA announced Wednesday that it has "temporarily halted" exotic bird imports through commercially operated quarantine facilities that normally operate under depart-

ment certification. More than 80 of these establishments were shut down immediately by the order. Normally, birds are shipped to the private facilities and have to spend time in quarantine to make sure they are not diseased.

The businesses shut down handle an estimated 95 percent of the birds imported by U.S. dealers and others.

However, three import centers operated by USDA in Clifton, N.J.; Miami, Fla.; and Honolulu will con-

The department's Animal and Plant Health Inspection Service, which calls itself APHIS, said the closing were necessary because of recent outbreaks of exotic Newcastle disease in California, Florida, Arizona and Nevada.

Frank J. Mulhern, administrator of APHIS, said investigations "suggest that serious problems exist" in some of the private quarantine facilities.

'Stronger security measures must be taken to deal with the risk involved in importing birds from around the world," he said. "If this cannot be achieved, the only alternative would be to prohibit the importation of such birds.

Mulhern added that exotic Newcastle disease "appears to be reaching worldwide epidemic proportions" and that since last October the disease has been diagnosed during quarantine in 24 groups of birds from 12 different countries. Only 15 groups were found diseased in all of the preceding year.

The order does not apply to commercial shipments of birds now on their way to the United States or already in the privately owned faci-

Although solid figures were not available, one department estimate showed that about 350,000 of the birds entered the United States through the commercial import facilities last

One of the sources said that the business is growing rapidly, particularly in some areas - including California - where "it's something of a status symbol" to have a foreign bird or two in the home.

# Exiled shah of Iran leaves Morocco for the Bahamas

RABAT, Morocco (AP) - Shah Mohammad Reza Pahlavi of Iran left Rabat in a private plane this morning for the Bahamas, the Moroccan national news agency reported.

The shah had been in exile in Morocco since Jan. 22. He left Iran a Jan. 16 after a year-long revolution directed by Shiite Moslem leader Ayatollah Ruhollah Khomeini.

U.S. officials in Washington said Thursday the shah would soon leave Morocco for another place of refuge. They said although he had not been barred from coming to the United States he had been strongly urged not to go there for security and other reasons.

The Moroccan government of King Hassan II is known to have been uncomfortable with the presence of the shah and Empress Farah.

His departure followed increasing demonstrations by leftist students and labor unions campaigning for the shah's expulsion.

"One shah in Morocco is enough," was one of the slogans scrawled on university walls in Rabat and Casablanca, reflecting the leftists' frequently voiced claim of a parallel between the discredited Iran monarchy and King-Hassan's less autocratic regime. Officially, the shah was treated as

virtually a non-person in Morocco. He was never referred to in the official newspapers and broadcasts and rarely if ever appeared at public func-

Informed Moroccan sources said the shah had lapsed into a deep depression, verging on a breakdown, following reports that dozens of his top generals and other officials had been executed in Iran.

Khomeini, the Moslem leader who engineered the shah's fall, had said he would ask for extradition of the shah. But Moroccan sources said no formal extradition request had ever been re-

The revolutionary regime has said it would try the shah in absentia for alleged crimes against the people - a show trial certain to end with a death

Egypt had expressed a willingness to welcome the deposed monarch. But the governments of Switzerland, Spain, France, Britain and Italy have told him they cannot accept responsibility for his security at this time.

JANITORIAL WORKERS

To All Interested Persons

and Parties:

You are hereby notified of the opportunity for written public comment concerning the construction permit application No. C-7434 by S.L. Briley Construction Company to construct a Rock Crusher in Midland County, Texas. The proposed location is between Highway 80 and Interstate 20, and two and one tenth miles East of the Midland Ector county line. This facility proposed to emit the following air contaminants, Particulate-

Before a permit can be issued for this facility, all emission sources must demonstrate compliance with all Rules and Regulations of the Texas Air Control Board and all applicable Federal Regulations. This includes the application of "best available control technology" to each emission source and compliance with all ambient air quality standards.

A copy of all materials submitted by the applicant is available for public inspection at the Texas Air Control Board Region 6 office at 835 Tower Street, Odessa, Texas 79760, and at the Texas Air Control Board. 8520 Shoal Creek Boulevard, Austin, Texas 78758. All interested persons shall have until April 30, 1979 to inspect these materials, submit written comments to the Executive Director, andor request notification of the proposed agency action. All comments received in writing by the above date shall be considered by the Board in making its decision on the application. All comments will be made available for public inspection at the Texas Air Control Board office in Austin.
