Minute Meditation

(By Ferguson C. Pollycutt) A Little Thing Called Kindness

A reader of this column recently requested a few thoughts on the subject of kindness. It was thoughtful of her to write; and in as much as kindness is a matter of common concern, I am happy to fulfill her request.

Kindness is a little thing in terms of either time, effort or even money. It costs so little; and yet how inestimable are its accomplishments! The road of life from birth to death would likely be unbearable if there was no kindness shown along the And yet, how frequently so little a thing is manifest! So many of us seem to be in too big a hurry to be kind. We rush along day after day with little thought for anyone but our-selves. But we are the first to take offense if someone, is thoughtless of us!

It does not cost very much to smile, to be polite or lend a helping hand. It takes so little time to visit someone ill, speak a word of encouragement or share another's joy. It does not hurt to be a friend of man!

We need only remember the One from whom all kindness flows. Jesus was a kindly man, I am sure. We read how even little children clamored about But He never sought his happiness at the expense of someone else. Happiness never found that way! It is a by-product. It comes to us at no cost as a reward for doing

Each of us wants to be happy. And the one sure way to accom-plish this end is to be kind. Happiness and kindness go hand in hand. Yes, a little thing called hand. Yes, a little thing called KINDNESS goes a long way! (Editor's Note: If you wish Mr. Pollycutt to discuss a particular topic, just mail your request to the "Stratford Star in care of Minute Meditation." All

INGURDISS FI in the 1/2- to 2-ton truck field!

TALK about power! These great new I GMC's are unsurpassed in horsepower in the ½- to 2-ton field-power to keep hauling years longer! But new engines are only part of the story.

From the rims up, these GMC's are truck-engineered to stay young throughout the uncertain years ahead. You get proof in feature after feature from individual models-things like wider Twin-Action hydraulic brakes, heavier axles and longer "pillowaction" springs.

Yet extra quality is standard GMC equipment. You pay no "extras" for such things as easy-turn steering with recirculating ball-bearing action, the Ventipane-controlled ventilation of the Weathersealed "Six-Footer" Cab-Turbo-Top pistons that develop higher power without "knock" even when using standard-grade gasolines!

So come in. Select from the widest range of engine-body-chassis combinations, 9 smart new colors. Drive out in a rugged '51 GMC! You'll know it will take you farther, cost less to runbecause it's built to last like the big ones!

Priming the Pup The city editor gave a bit of oldfashioned advice to the new reporter: "It means nothing to our readers when a dog bites a man, but when a man bites a dog, that's news."

The reporter nodded his head gravely at this, and went out to cover his beat. An hour later he came rushing back into the office, flung a sheet of paper into his typewriter and began pounding furiously.

The editor watched from his desk for a moment. Then, unable to stifle his curiosity, he walked over and looked at the reporter's copy. The story was headed: "Hy drant Sprays Dog."

To clean a parchment shade, rub it with a fresh piece of white bread or an art-gum eraser, or with a cloth dipped in milk. In any case, be sure to brace the inside of the shade with one hand while you rub with the other, or you may poke the rubbing hand right through.

The money can pass from wicked hand to wicked hand, it can be used for godless purposes by men who do not have God in all their thoughts. The name of God in public ceremonies (such as oaths of office) or in the constitution may mean no more than decorative designs on a letter-head. The king ruling by "divine" right may be a cruel and corrupt man.

GOD BEGINS to get into the life of a nation when He gets into the lives of people. It is not disparaging the common man to point out the plain fact that as between one believer in God who is obscure. and another who is prominent and powerful, the latter means more in the long-run life of a nation.

It was so in the era of Moses. That was a time of religious confusion, just as it is today. Doubtless there were many humble persons at that time who had a living faith, but if it had not been for Moses the nation of Israel would never have been a nation, but would have shrunk back into the ruck of little no-account tribes, never to be heard imagine what the masses of the

> If the nation of Israel ever became godly, they had Moses to thank; yet he himself was under no illusions as to the people he left behind him. "I know that after my death ye will utterly corrupt yourselves and turn aside from the way which I have commanded you." (Deut. 31: 29.)

It took centuries of toil and paprophets to change Israel from a nation mostly indifferent to God, to a people mostly God-fearing; and the change took place only as homes changed.
