## Heavy Rain Assures Fall Maize Yield

Rains ranging from two to four inches fell over most of the territory Monday night to virtually assure a good yield of maize this fall. In Stratford 1.97 inches of rain fell Monday night with an additional .07 falling in a light drizzle Tuesday morning. The official rainfall for the county this month is 2.83 inches.

West and northeast heavier rains were reported although the moisture strip did not extend more than 10 to 15 miles south of Stratford. West of Stratford approximately four inches of rain fell and near Stevens approximately the same amount of moisture was recorded with fields covered in water deep enough to resemble lakes 12 hours after the rain stopped falling.

The rain began about 28 miles west of Stratford and extended 40 miles to the northeast. Northward the rainy strip extended 35 miles in width.

Activities of the Oklahoma-Texas-Kansas Weather Improvement Association continue the seeding of rain clouds with silver iodide. According to the theory on which the organization operates the treatment of the clouds will increase the normal rainfall fifty percent.

If scientific treatment of rain clouds to increase rainfall proves to be successful it will remove much of the semi-arid land of the Texas and Oklahoma Panhandles and Western Kansas into the garden spot of the world.

Weather forecasts to OTK members has been of great importance in enabling farmers to prepare their land to hold moisture and in the planting of their crops.

Although wheat is now growing in a small percentage of the fields in the county as a pasture feed for cattle, a major portion of wheat drilling in the county is likely to take place about the middle of September.

Previous to the last rain temperatures during the month had ranged from a high of 104 degrees to a low of 85 degrees. The temperature stood at 100 degrees Monday afternoon and dropped to 59 degrees after the rain Monday night. Tuesday night the thermometer dropped to an all-month low of 58 degrees.

Estimated damage to the King car was over \$100 and the Etheridge car damage was expected to exceed \$300.

## SAVIOR OF THE WHEAT CROP

SWARMS of passenger pigeons ravaged early  
Wisconsin wheat crops by devouring the  
newly-sown grain. Moved by the farmers' plight,  
the Van Brunt brothers of Horicon, in 1861,  
built a seeder, incorporating their newly-pat-  
ented cylinder feed. Seed grain was worked into  
the ground and covered with a protective blanket  
of soil.

The success of the Van Brunt seeder exceeded  
its builders' fondest dreams. It not only over-  
came the pigeon menace, but revolutionized ex-  
isting seeding practices. Within a few years the  
fame of the Van Brunt machine spread across  
the nation.

**HOUSE JOINT RESOLUTION NO. 2** proposing an amendment to Section 49-b, Article III, Constitution of Texas, that the total amount of bonds or obligations that may be issued by the Veterans' Land Board is increased to One Hundred Million Dollars (\$100,000,000); providing for the issuance of said bonds and certain conditions relating thereto and the use of the Veterans' Land Fund; providing for an election and the issuance of a proclamation thereon.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**  
 Section 1. That Section 49-b, Article III, Constitution of Texas, be amended so that the same will hereafter read as follows: "Section 49-b. There is hereby created a Board to be known as the Veterans' Land Board, which shall be composed of the Governor, the Attorney General, and the Commissioner of the General Land Office. The Veterans' Land Board may issue not to exceed One Hundred Million Dollars (\$100,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund. Such bonds shall be executed by said Board as an obligation of the State of Texas, in such form, denominations, and upon the terms as are now prescribed by Senate Bill No. 29, Chapter 315 of the Acts of the Fifty-first Legislature (provided, that when the limitation of Twenty-five Million Dollars (\$25,000,000) is used in said Senate Bill No. 29, the same shall hereafter be construed as One Hundred Million Dollars (\$100,000,000), or as said Act may be hereafter amended, or by other laws that the Legislature may hereafter enact; provided, however, that said bonds shall bear a rate of interest not to exceed three per cent (3%) per annum, and that the same shall be sold for not less than par value and accrued interest.

"In the sale of any such bonds, a preferential right of purchase shall be given to the administrators of the various teacher retirement funds, the Permanent University Funds, and the Permanent School Funds; such bonds to be issued as needed, in the opinion of the Veterans' Land Board.

"The Veterans' Land Fund shall be used by the Board for the sole purpose of purchasing lands suitable for the purpose hereinafter stated, situated in this State, (a) owned by the United States, or any governmental agency thereof; (b) owned by the Texas Prison System, or any other governmental agency of the State of Texas; or (c) owned by any person, firm, or corporation.

"All lands thus purchased shall be acquired at the lowest price obtainable, to be paid for in cash, and shall be a part of the Veterans' Land Fund.

"The lands of the Veterans' Land Fund shall be sold by the State to Texas Veterans of the present war or wars, commonly known as World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945, as may be included within this program by legislative act, in such quantities, and on such terms, and at such prices and rates of interest, and under such rules and regulations as are now provided by law, or as may hereafter be provided by law.

"All moneys received and which have been received and which have not been used for repurchase of land as provided herein by the Veterans' Land Board from the sale of lands and for interest on deferred payments, shall be credited to the Veterans' Land Fund for use in purchasing additional lands to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945, as may be included within this program by legislative act, in like manner as provided for the sale of lands purchased with the proceeds from the sales of the bonds, provided for herein, for a period ending December 31, 1959; provided, however, that so much of such moneys as may be necessary during the period ending December 31, 1959, to pay principal and interest on the bonds heretofore issued and on bonds hereafter issued by the Veterans' Land Board shall be set aside for that purpose. After December 31, 1959, all moneys received by the Veterans' Land Board from the sale of the lands and interest on deferred payments, or so much thereof as may be necessary, shall be set aside for the retirement of said bonds and to pay interest thereon, and any of such moneys not so needed shall not later than the maturity date of the last maturing bond or bonds be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law. All bonds issued hereunder shall, after approval by the Attorney General of Texas, registration by the Comptroller of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute obligations of the State under the Constitution of Texas. Of the total One Hundred Million Dollars (\$100,000,000) of bonds herein authorized, the sum of Twenty-five Million Dollars (\$25,000,000) has heretofore been issued; said bonds are hereby in all respects validated and declared to be obligations of the State of Texas. This amendment shall become effective upon its adoption."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State of Texas on the second Tuesday in November, 1951, at which election all voters favoring the proposed Amendment shall write or have printed on their ballots the following words:

FOR the Amendment to Section 49-b, Constitution of Texas, for increasing Veterans' Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945.

Those opposing said proposed Amendment shall write or have printed on their ballots the following words:

AGAINST the Amendment to Section 49-b, Constitution of Texas, for increasing Veterans' Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945.

If it appears from the returns of said election that a majority of the votes cast were in favor of said Amendment, the same shall become a part of the State Constitution and be effective from the date of the determination of such result and the Governor's proclamation thereof.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and laws of this State.

Here is destruction you can see. And it is likely that these two "Indians" will be called to task for their saw and hammer artistry. But, even so, this destruction is not as serious as the destruction you can't see that goes on within your costly farm machinery motors when you trust your lubrication to "just any" oil.

Several years ago, a group of farmers realized the need for a refinery that would make oil especially for use in Op Refinery, is the product of their vision. This Oil is Op Refinery, is the product of their vision. This Oil is the farmer's assurance of maximum service and minimum wear.

FOLKS HAVE TO FEEL WELL  
TO DO A GOOD DAY'S WORK

HADACOL Helps Folks Troubled With Poor Appetite, Tired-Out Feeling and Sleeplessness Caused by an Upset Stomach, If Due to Lack of Vitamins B1, B2, Niacin and Iron in System

Too many folks put off doing something for themselves when they don't feel as good as they should. But when they don't feel up to doing their work the situation demands immediate action. Bert Baldwin, Jr., 1838 Golden Gate Avenue, San Francisco, California, works in a rope factory and for a time he had been feeling tired, didn't sleep well at night and had no appetite. He heard how HADACOL could help folks with conditions like these when due to lack of Vitamins B1, B2, Niacin and Iron in the system and began taking it. Now he says he feels like working every day. Here is his statement:

Bert Baldwin, Jr.

"I have tried HADACOL, and it helped me in many ways. Before I took HADACOL, I was tired and I did not feel like working and I could not sleep well at night. I did not have a good appetite. After taking the first two bottles I began to eat a good meal three times a day. I am no longer tired and I sleep well all night long. I am 23 years old. I have told my friends what HADACOL has done for me. I feel like working every day since I am taking HADACOL."

Yes, HADACOL has helped many folks of all ages, from all walks of life to feel good again when their ailments were due to deficiencies of Vitamins B1, B2, Niacin and Iron. That's why HADACOL is America's favorite family formula.

HADACOL makes it possible to actually relieve the real cause of poor appetite, sleeplessness due to an upset stomach and that tired feeling when due to lack of Vitamins B1, B2, Iron and Niacin in the system.

AND LISTEN TO THIS! Continued use of this great HADACOL not only gives continuous complete relief but helps keep such distress from returning when caused by such deficiencies. Now that's the kind of product folks have been looking for... the kind to buy and start taking at once.

HADACOL's wonderful Vitamins and Minerals come in liquid form and are quickly absorbed and assimilated in the blood, ready to go to work at once.

HADACOL is So Effective Because HADACOL helps build up the hemoglobin content of your

blood (when Iron is needed) to carry these precious Vitamins and Minerals to every organ and to every part of your body.

You may have tried other Vitamin preparations or other Vitamin and Mineral preparations, so we make you this offer. Try a bottle of HADACOL today if you need Vitamins B1, B2, Niacin and Iron. You be the judge. If you do not believe that HADACOL is the best Vitamin and Mineral preparation you have ever taken, we will gladly send you back your money. That's our positive money-back guarantee. You take no chances.

So be fair to yourself. Don't go through life suffering from poor appetite, tired-out feeling and sleeplessness when due to deficiencies of Vitamins B1, B2, Niacin and Iron, when relief may be as close at hand as your nearest drugstore.

Refuse Substitutes  
There is only one HADACOL. Don't let anyone tell you something else is "just as good." Insist on genuine HADACOL. You risk nothing because HADACOL is sold on a strict money-back guarantee.

Sold at all drug counters. Trial size, \$1.25, but buy the large family-size, only \$3.50. If your dealer does not sell HADACOL, order direct from The LeBlanc Corporation, Lafayette, Louisiana.

Bradley Gets Riled

GEN. OMAR BRADLEY, who doesn't get riled easily, was pretty sore when he heard how one of his own army spokesmen had blurted out to a press conference the name of an airborne division which had been transferred from Korea to Japan.

The incident took place in a press conference at which the army was explaining how Chinese Communists had built up their strength in North Korea while we had weakened ours.

What happened was that General Ridgway had cabled Washington for permission to transfer the airborne division in question to northern Japan because of the fact that the Russians had two airborne divisions poised on the island of Sakhalin, threatening northern Japan. While the two Russian divisions have only enough airplanes between them to move one division at a time, Ridgway wanted to be on guard against a surprise airborne attack on Japan.

Washington accordingly gave permission to transfer the American airborne division back to Japan. Such a troop movement is highly secret. But the Pentagon briefing officer, anxious to prove that the Chinese have used the truce talks to build up their strength, blurted out the movement of this particular division to a roomful of newsmen to which foreign correspondents are admitted.

When General Bradley heard of this, he tried to call army chief of staff, Gen. Joe Collins, but couldn't reach him. So he summoned assistant chief of staff Maj. Gen. C. L. Bolte and ordered a full investigation of who pulled the boner.

Eisenhower Says No

Gen. Dwight D. Eisenhower has quietly passed the word to his GOP boosters that he is not interested in the Republican nomination—if isolationists control the party. In addition, Ike let it be known that he is upset by the timid and hesitant policy of internationally-minded Republicans and the way they let bitter attacks on him go unheeded.

One close friend who returned from Paris recently put it this way: "If the Republicans want Ike merely to bail out the party and win an election, they're badly mistaken. That would be like putting a million dollar jockey on a two dollar horse."

"The general is not the least bit interested in running for President just to accommodate a candidate for sheriff. Those who say they want Ike so badly are going to have to do a lot more than say, 'he's a fine fellow and will win the election for us.' They'll have to work and fight to make the Republican party the kind of place where the general would feel at home."

Eisenhower's close friends agree that this issue will largely decide whether he consents to run—and on which party. They claim Eisenhower is disturbed by four factors:

- 1. The prospect that as the GOP nominee he might help elect an isolationist Republican congress which would then proceed to dump the military and economic aid program which he has been spearheading.
2. The lack of a hard-hitting, effective international-minded GOP bloc in congress, as existed when Sen. Arthur Vandenberg was active. The last attempt to organize the internationalists among senate Republicans was in January, 1949, when Sen. Henry Cabot Lodge, Jr., called a meeting. This rump group met only once.
3. The way the Taft-isolationist wing has grabbed control of the GOP party machinery. Ab Hermann, the national committee's executive director, boasted to senate secretaries the other night: "We're building a sound organization precinct by precinct, so we won't have to ride to victory on the coattails of a strong and popular figure." The Taft crowd are in charge of the Chicago convention machinery and determined to prevent an Eisenhower gallery demonstration.
4. The noisy attacks on the general from both the Chicago Tribune and the Gerald L. K. Smith brand of hate mongers. The mails are being flooded with vile diatribes against the general, while his GOP friends sit on the sidelines.

Are You a Citizen?

Lesson for August 26, 1951

LET'S come down home. The official title of this week's lesson is "The Christian's Responsibility in Public Life." That is a big thing, a wide circle; but the center of the circle is you, my friend, and right around you is the community in which you live.

What kind of town is it? Not how big, but how good. It doesn't have to be a town at all. It may be a section of open country, a few miles of farms, ranches or woodland. But it is some kind of community.

In New York state the Citizen's Council prepared the following set of questions which can be used to help you rate your community. After each set of these questions write down either 10 for good, 5 for fair, or 0 for poor.

Rate Your Town

"1. Education: Does your community make modern education available to every child, youth and adult? Are its schools uncrowded, properly equipped, and in good physical condition? Are the teachers highly qualified and well paid?"

"2. Housing and Planning: Is every family decently housed? Is there continual planning for improvement of highways and other community essentials? Are parking, transportation problems under control?"

"3. Religion: Is full opportunity for religious expression offered to every individual in your community? Are your churches strong and well supported?"

"4. Equality of Opportunity: Do people of different races, religions, nationalities have full chance for employment and taking part in community life? Are dangerous tendencies kept at a minimum by avoidance of discrimination and injustices?"

"5. Economic Development: Are good jobs available? Do labor, industry, agriculture and government work together to insure the sound economic growth of your community?"

"6. Cultural Opportunities: Are your citizens' lives strengthened by ample opportunity to enjoy music, art, and dramatics? Does your community have a professionally administered library service which benefits people of all ages? Do your newspapers and radio carefully review the affairs of the community?"

"7. Recreation: Are there enough supervised playgrounds and facilities for outdoor activities? Does your community offer full opportunity to take part in arts and crafts, in photography, and in other hobbies?"

"8. Health and Welfare: Are medical care and hospitalization readily available? Is provision made for underprivileged children, the aged, and the handicapped? Can families in trouble secure the help they need?"

"9. Government: Do capable citizens seek public office? Are your officials concerned above all with community betterment? Does controversy stem from honest differences of opinion and not from squabbles over privilege?"

"10. Community Organization: Is there any organization (community forum or the like) representative of the whole community, working for the advancement of all? Do your citizens have opportunity to learn about and take part in their local affairs? Is there an organized community-wide discussion program?"

It's Up to You NOW add the scores you have put down for each of the ten groups of questions. A total of 100 is fine; 50, fair.

But now look over those questions again. Is there anything you could do, personally, about each of those things? If so, have you done it? Have you done as much as you could? Have you ever tried to get other people interested?

You can make another score sheet and head it: How I Rate as a Citizen. Then grade yourself under each of those ten heads, 10 for doing all you can, 5 for doing a little something, 0 for nothing at all. If you are a Christian, be especially strict with yourself.

If you were out of it, would your community miss you as much as you miss salt when some one forgets to put it on the potatoes? If you left your community, would it seem a bit darker there after you were gone? \*Reprinted by permission.

Color is a vital factor in health, mood, and even temperature. A color expert during the war demonstrated to the navy that a white helmet was 21 degrees cooler during a daytime temperature of 97 than a black helmet. The latter absorbed more of the sun's rays.

### Youths Are Neglecting To Register

The number of 18-year old Texans failing to register under the federal draft law is increasing, Brig. Gen. Paul L. Wakefield, state Selective Service director, stated this week.

State draft headquarters records indicate that registration has been falling off since the end of March. Gen. Wakefield estimated that 2,000 to 2,500 18-year olds currently are unregistered.

"We've been watching this situation closely since late spring with the hope that the trend would stop," the state draft director said. "We've asked the local draft boards to act under a provision of the regulations whereby a letter will be sent to men in their communities suspected of being delinquent under the law."

Gen. Wakefield reminded males subject to registration of penalties if convicted of failure to comply with the law. He quoted from a section of the law providing maximum penalties of fine up to \$10,000 and imprisonment up to five years.

Under the draft act, all 18-year old males are required to register with the nearest draft board on their 18th birthday or within five days thereafter.

#### Glove Conditioner

Any work with bricks or rocks will wear out a pair of fabric gloves in short order. To triple the life of such gloves, try this hint from Better Homes & Gardens magazine. First, saturate the cloth well with a waterproof glue. Then rub fine sawdust into the glue. Let the glue dry before using the gloves.

Shotguns capable of holding more than three shells are forbidden for hunting doves or waterfowl.

The barn or screech owl is often called the "feathered cat" because it is a great foe of mice.

The nuthatch builds its nest in decayed trunks of trees so that its young may eat insects that flourish in this habitat.
