Carter's energy plan already facing trouble

WASHINGTON (AP) — President Carter's new energy plan to couple

Top administration allies on Capitol tax proposal the president announced

Henry M. Jackson, D-Wash.

In a nationally broadcast address, the president said he would gradually lift price lids on domestically produced crude oil, leading to total decontrol by mid-1981 - a goal long

Administration officials said the plan would add 4 to 5 cents a gallon to the price of gasoline and other petroleum products by mid-1981. But other unofficial estimates put the total inCongress as "the moral equivalent of war," a package of proposals that Related stories,

after he sent his first energy plan to

took Congress until last fall to pass. Carter said the action would help conserve oil by making it more expensive and also would provide a financial incentive to U.S. oil com-

Pages 10B and 1D

panies to seek and develop new oil

And he told Americans: "Each of you will have to use less oil and pay more for it." He said this would help move the nation away from its heavy reliance on imported oil.

To keep oil companies from gtting too rich from decontrol, Carter proposed the "windfall profits tax" on half the extra revenues that oil companies would get from higher prices.

Proceeds would be used to aid poor families, for mass transit projects and to help develop new energy

U.S.-produced oil is now held at about \$9 for a 42-gallon barrel. Carter's plan would allow it to rise gradually to the world market price of about \$15 a barrel.

Administration officials said the decontrol plan was designed in such a way as to dampen its inflationary impact this year.

The officials estimated that decontrol would add one-tenth of 1 percent to living costz that have been increasing at an annual rate of about 10

They added that the increase would be about two-tenths to three-tenths of 1 percent in 1980 and 1981.

Under existing law, Carter has the authority to lift oil price controls beginning June 1 without having to submit the plan to Congress.

Here are highlights of Carter energy plan

WASHINGTON (AP) - Here, at-a-glance, are the highlights of President Carter's energy address:

OIL PRICING

Carter proposed a timetable for phasing out federal price controls on crude oil by September 1981. Administration officials say the rise of U.S. oil prices to world levels will add about 4 to 5 cents per gallon to the cost of a gallon of gasoline. Other estimates have ranged up to 15 cents per gallon.

WINDFALL PROFITS TAX

He proposed a tax of 50 percent on additional company profits produced by removal of price controls on oil already in production. Officials say the combined effect of this "windfall profits tax" plus regular federal, state and local income taxes would actually recover for the public some 70 percent of the additional profits from decontrol.

Carter proposed an Energy Security Fund, drawing on some \$11.4 billion or more of the additional oil tax income during the next three years, to provide about \$2.1 billion in aid to the poor, \$700,000 to improve mass transit facilities and \$8.6 billion to increase domestic energy sources.

HEATING AND COOLING

He pledged to put into effect, as soon as Congress approves, mandatory thermostat limits in non-residential buildings. Temperatures could be set no higher than 65 degrees for heating and no lower than 80 degrees for

DRIVING

Carter urged motorists to reduce their driving voluntarily by 10 to 20 miles per week, perhaps by leaving their cars home one day a week. He also ordered phasing out of free and cut-rate parking now available to many federal employee.

STATE GASOLINE TARETS

He proposed setting state targets forreducing gasoline consumption, to be met by voluntary actions if possible.

GAS STATION CLOSINGS

If it becomes necessary to close gasoline stations on weekends to save fuel, states could submit alternative conservation plans subject to federal approval. Gas station closings on weekends would become mandatory in a state that failed to to meet conservation goals.

NUCLEAR POWER

He announced establishment of an independent commission to investigate the accident at Pennsylvania's Three Mile Island nuclear power plant, but said he will continue to seek legislation for speeding the siting and licensing of nuclear power plants and other major energy facilities, including coal slurry pipelines.

OIL PIPELINE

He proposed special legislation to override state and federal laws as needed to authorize quickly the construction of a pipeline to carry tankerdelivered Alaska oil from California to Texas.

TAX INCENTIVES

Carter proposed a federal tax credit of \$3 a barrel to encourage production of shale oil, a tax credit for residential wood stoves, additional tax credits for equipment and architectural constructions using solar energy, and permanent exemption of "gasohol," an alcohol-gasoline mixture, from the

THE ENVIRONMENT

He postponed for one year the next planned reduction of lead in gasoline. This would save the oil needed to replace the lead while maintaining necessary octane ratings.

Clements says roads were priority items

By LINDA HILL

Gov. Bill Clements told the Highway Department the North Loop around Midland and North Route to Odessa were priority items in his book, he said Thursday.

But, Clements said, "I don't consider that intervening." Clements spoke at a press conference Thursday afternoon. He was in Midland for a private reception to help retire his campaign debt. While here he met with Highway Department officials to discuss plans for the

highway projects. The department this week awarded \$3.5 million to purchase right of way for the twin projects, after earlier turning down requests from city and county governments involved for money to help ease the local burden.

The governor said he became interested in the project when Midland Mayor Ernest Angelo Jr. called him about it. Clements also said he had talked to State Rep. Tom Craddick and County Commissioner Win Brown of Midland. All three of those officials are Republican.

becomes a matter of priorities...There's a real sense of flexibility in the Highway Department," Clements said. However, he said, the \$3.5 million is all that will be available. "This \$3.5

million is your hunting license, and the ball is in your court." The four governing bodies will have to decide how to split the money. Also at his press conference, Clements reiterated his pledge to deliver a

He promised to veto any appropriation bill which does not include such a cut. But, though he has said he advocates a \$1 billion reduction in taxes over the biennium, he declined to name the minimum amount he would

The governor said he is "optimistic" the Legislature will pass a tax cut, because "I don't think they want to work all summer." Clements said he is not having any trouble working with the Democratic-

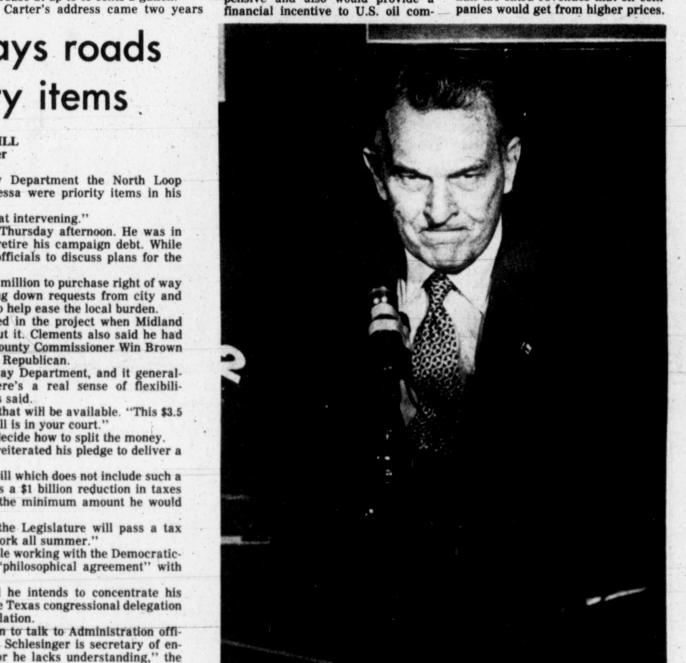

controlled Legislature because he is in "philosophical agreement" with the majority of both House and Senate. On the topic of energy, Clements said he intends to concentrate his energies on trying to get all members of the Texas congressional delegation

to support the "Texas position" on deregulation. Sending more delegations to Washington to talk to Administration officials would be unproductive while James Schlesinger is secretary of energy, he said. "Either this man is deaf or he lacks understanding," the governor said of Schlesinger.

The Texas executive declined to state a position on whether a presidential primary should be held separately from the primary for state But, he said, he would veto any bill that moved the state primary

from May to July or later. He has not excluded the idea of a June primary,

Clements said the legislative leadership is exploring the idea of joining forces with Louisiana, Arkansas, Oklahoma and New Mexico to have a common presidential primary in March.

Gov. Bill Clements responds to questions from area reporters during a news conference at Midland Airpark Thursday. During the session, Clements touched on the Legislature, the attorney general's office, President Carter, energy problems and the proposed California-to-Midland oil pipeline. Referendum tops Saturday ballot

By SUSAN TOTH Staff Writer

"Are you in favor of the consolidation of Robert E. Lee High School and Midland High School?

Midland voters will get a chance to answer yes or no to that question Saturday in a non-binding referendum item on the school board ballot. Voters also will choose three school

board members, city council mem-bers and directors for the Midland

County Hospital District Saturday.

The plan to consolidate the high schools, called Plan O by friends and foes alike, was offered to school board members again in January as a solution to the problems of declining secondary school enrollments and temporary imbalances in the two schools'

student populations Before district staff people could present the study of the plan the board called for at the meeting, however, citizen's groups had formed

to oppose it, petitions were circulating to stop the plan and irate parents were flooding the school district office and board members homes with

phone calls. Faced with an overflow of public input, board members called for the referendum to let still more Midlanders express an opinion on the

Plan O calls for using the current Midland High School campus for all sophomore students and the current Lee High School campus for junior and senior level classes.

By consolidating the schools into a single high school with two campuses, most of the problems of declining enrollments would be solved, school officials said.

In addition, frequent boundary changes to keep the two school's enrollments as equal as possible would

(See REFERENDUM, Page 2A)

Animal shot day planned to fight rabies in Midland

By RICHARD MASON

In the wake of a growing rabies problem in surrounding counties, Midland veterinarians are planning an animal vaccination day later this month, while Midland County Commissioners have scheduled the second of two public hearings on a county-wide animal vaccination ordinance for Monday

The vaccination day tentatively has been set for April 21, according to Jewell Smith, chief sanitarian for the Midland City-County Health Department. Under the proposal, veterinarians would open their offices early in the morning and remain open all day long to accommodate county residents seeking to have their animals vaccinated Final plans for the vaccination program should be completed by mid-

week, Smith said. "We're not in danger in the city, but the counties around us are," the sanitarian said. "In Ector County, 11 people are being treated for rabies. Locally, there is nothing alarming, but we want to be on the safe side."

Texas area forecasts

West Texas: Sunny today. Increasing cloudiness and mild most sections tonight. Windy most sections with blowing dust possible south plains Saturday. Highs near 70 Panhandle to low 90s Big Bend. Lows low 40s northwestern portion to mild 30s southeast. Highs Satur-day upper 70s north to low 90s Big Bend.

North Texas: Brief cloudiness eastern half of area late tonight and Saturday morning, otherwise fair and warm through Saturday, Highs 73. to 80. Lows 30 to 57. Highs Saturday 78 to 21.

Extended forecasts

Rabies problem leads to shot program

(Continued from Page 1A)

"There's no immediate problem," Dr. S. B. Shannon said Thursday. "this is just preventative vaccination to stop an epidemic from breaking

According to Dr. O.C. Collins Jr., rabies are "endemic" to Texas year round. However, cases become more prevalent in the spring and summer when animals such as skunks, fox, and bats begin to mingle Besides the case in Ector County, two people in San Angelo have under-

gone treatment for rabies, as has one other person in Big Spring, local officials said. Cases also have been confirmed in Houston, El Paso, Dallas-Fort

Worth, and East Texas, according to the veterinarian. The increase in rabies in surrounding counties has prompted Midland

County commissioners to consider an ordinance requiring vaccination of all household pets in the county and giving county law enforcement officers the power to impound for observation any pet that bites a human According to Durward Wright, Precinct 1 commissioner, the county

currently does not have the authority to enforce animal vaccinations. "There's no ordinance outside the city limits," he said Thursday. Wright said the proposed ordinance was a preventative measure.

There's no impending disaster about to occur, but we want to take steps to handle any situation should it occur," the commissioner said.

Referendum on Plan O leads ballot in Saturday's election

(Continued from Page 1A)

be avoided. As enrollments continue to go down, proponents of the plan contend, specialized classes with fairly small en-rollments would become too expensive to offer, and some classes offered several times each day would be offered only once, increasing scheduling problems for students interested in taking the classes.

Plan O, to proponents, is a way to keep varied educational opportunities available at the least cost to the

According to proponents, the first year of the plan, 16 teaching positions could be eliminated because of the decreased duplication of courses in both high schools, and some estimates of the tax dollar savings are as high as \$300,000.

Opponents claim the problems created by the plan would be greater than those solved. They call for the keeping of tradition with each of two high schools having a varsity team and organizations so more students can participate.

Some opponents of Plan O contend it is not necessary to offer every elective now in the school schedule and that adding one more single-year school would only fragment education in Midland further, as well as creat-ing more busing of Midland's stu-

In addition to the Plan O referen-

dum, voters Saturday will choose their representatives for the school board, City Council and hospital district board of directors.

In the Place 5 race for the school board, voters will choose between Penny Angelo and Parker M. Humes. Current incumbent David Grimes is not seeking re-election.

For Place 6, voters will choose from a list of four candidates: incumbent Edward E. Runyan, Alice M. Greer, Oralia "Lillie" Corrales and Raul Jimenez Salazar.

Place 7 pits incumbent Ann Page against Joyce Sherrod. The City Council also has three

positions before the voters Saturday, but only two races are contested. Place 1 pits Woodrow Wilson Bailey Jr. against incumbent Doris Howbert and Jim Hampton.

Place 2 has only the incumbent Gordon G. Marcum II on the ballot. Place 3 attracted three candidates, Jack M. Moore, incumbent Carroll M.

Thomas and Bill Carol Thomas. Voters will choose three hospital district director at large with the top three vote-getters filling the places. Candidates for the positions are Floyd A "Pete" Wright, J.D. Webster, Scott-C. Shelton, incumbent Edwin H. Magruder Jr., Steve Becker, Mrs. Pat Estes and Henrie E. Mast.

Two incumbents, L. Decker Dawson and Robert L. Pendleton, chose not to run for reelection.

Woman tells tale of terror in retrial of Ignacio Cuevas

HOUSTON (AP) - The only woman hostage still alive after police bullets greeted a makeshift shield containing her, two other hostages and three convicts in the 1974 Huntsville prison escape told a tale of terror in the retrial of Ignacio Cuevas.

Novella Pollard said Thursday that after the shooting ended, she found herself lying on her back, staring into the bloody face of slain convict Fred Gomez Carrasco.

"I was still handcuffed to Ignacio Cuevas and Elizabeth Beseda was lying across my arm, making it impossible for me to move," she said. Killed in the shootout were librarian Julia Standley, Elizabeth Beseda, Carrasco and convict Rudolfo Domin-

Cuevas is on trial a second time for capital murder in the librarian's death. He was sentenced to death following the first trial in May 1975.

The women and inmates were shot to death as they tried to move from the prison education building in a shield made from chalk boards, law books and tape. The escape attempt followed an 11-day siege in the prison's third-floor library.

Ford will pay \$500,000 settlement

WASHINGTON (AP) - After five trials, the Ford Motor Co. has agreed to pay \$500,000 to the families of a promising rock'n'roll singer and two members of his band who where killed nine years ago in a North Carolina automobile crash.

Lawyers for the automaker offered the settlement Thursday after an eight-day federal trial in which jurors had found Ford liable for the accident and were about to deliberate on what damages should be assessed.

On Jan. 17. 1970, according to police reports, singer Billy Stewart's 12day-old Thunderbird left Interstate 95, veering to the left and plunging into the Neuces River in North Caro-

Stewart, 32, drowned as did band members Norman Rich, 38, William Cathey, 27, and Rico Hightower, age unknown. Hightower's estate was not represented in the case.

Ford agreed to give Stewart's widow, Sarah, \$225,000. Rich's widow, Sophia, will receive \$200,000, and Cathey's mother, Annie, will recieve

Great Lakes hit by snow, winds

By The Associated Press

Wind gusts of up to 90 mph tore down power lines and trees, damaged buildings and darkened thousands of homes in northern and east-central Illinois, while frigid winds brought near-blizzard conditions to the Great Lakes region early today.

At least four deaths were blamed on the weather.

About 50,000 Commonwealth Edison customers in the Chicago metropolitan area, including 40,000 in the northern and western suburbs, lost electrical power for up to several hours because of downed lines. Many other areas of the state also experienced power interruptions

Stuart Lewis, a Federal Aviation Administration duty officer, said winds forced some operational delays at Chicago's O'Hare International

Winds lashing across Lake Michigan north of Chicago reached between 80 and 90 mph, whipping up some 15-foot waves, according to the Coast Guard at Wilmette, Ill. There were no reports of damage or injury.

ent

May 1975.

A rapidly moving cold front was behind the winds, with temperatures plummeting by 20 or 30 degrees in only an hour or two, plunging into the teens in northern Illinois counties during the night.

Elsewhere, winds reaching 60 mph whipped into the Ohio Valley and brought snow and near-zero visibility to northern Michigan. Houghton Lake, Mich., had 4 inches of snow and Sault Ste Marie and Grand Rapids, Mich., each had 2 inches.

Two occupants of a mobile home on the east side of Toledo, Ohio, were killed when the trailer burst into flames after being toppled by high winds. The fire was caused by a ruptured gas line, authorities said. The victims were burned beyond recogni-

High winds and blowing snow brought traffic to a near standstill in southeastern Minnesota, contributing to one death.

Benton County authorities said blowing snow and near zero visibility were partly responsible for a collision on Minnesota 23 east of St. Cloud. George Winkelman, 76, St. Cloud, driver of one of the vehicles, died in the accident, they said.

A gas company employee in Chicago died Thursday night several hours after sustaining multiple injuries when a wall of a building collapsed in the high winds. Officials said Cody Russell, 35, died several hours after part of a 20-by-80-foot wall collapsed on him as he attempted to shut off a main gas line. Two firefighters were slightly injured.

Meanwhile, flood-weary residents in the Illinois River Valley experienced winds of 50 mph that churned up waves as high as 5 feet that were eroding levees and hurling debris against flooded homes

Both the Illinois and Rock rivers above flood stage for more than a month - continued to recede slowly, however.

The Illinois was 8 feet above flood stage at Peoria. It was expected to fall another 2 feet by early next week, forecasters said.

The Rock River was about 2 feet above flood stage and dropping slowly along its entire length.

Early morning temperatures around the nation ranged from -7 in Minot, N.D., to 75 in Key West, Fla. Here are some other reports:

Eastern U.S. - Atlanta 48 clear, Boston 39 clear, Cincinnati 30 windy, Cleveland 24 snow, Detroit 23 windy, Indianapolis not available, Louisville 37 windy, Miami 73 clear, Nashville 52 clear, New York 44 clear, Philadelphia 45 clear, Pittsburgh 46 showers, Washington 49 clear.
Central U.S. — Chicago 18 windy,

Denver 39 clear, Des Moines 21 clear, Fort Worth 57 clear, Kansas City 27 windy, Minneapolis-St. Paul 12 clear, New Orleans 49 clear, St. Louis 30

Grand jury no-bills man

KERRVILLE, Texas (AP) — A Kerr County grand jury has no-billed a man arrested in the electrocution

Vernon Houston Smith, 43, apparently had wired his trash cans to an electrical outlet to shock dogs who had been scattering his garbage.

Travis Fry died last Sunday as he stood in a puddle of water and grabbed his bicycle that was leaning against the cans, which were wired to a 110-volt household outlet.

The grand jury heard testimony that Smith had disconnected the apparatus, but that it had been re-connected by someone else.

Howdy, bankers!

this weekend to the 6th District. Texas Bankers Association, and Midlanders are delighted to have this distinguished group of financial, civic and cultural leaders from across this vast West Texas territory as their guests.

More than 200 delegates are expected for the meeting, which opened this afternoon and which will continue through Saturday.

The six Midland banks are the official hosts for the conference -Commercial Bank & Trust Co., Metro Bank, The First National Bank, The Midland National Bank, Texas National Bank and Western State Bank

The number of Midland banks may be somewhat surprising to some of the visitors, since the Tall City had only four banks when last the association met here. This is an example of a growing Midland and a fast-developing West Texas.

Bankers always will find a warm welcome most anywhere they choose to meet, but in Midland the handclasp and the welcome are a bit more sincere and meaningful due to the fact Midland long has been the financial center of the vast and rapidly-developing Permian Basin Empire of West Texas and Southeast New Mexico, in which bankers have played and yet play leading roles. It is not surprising then that the welcome mat always is out to all bankers in the Tall

City. Show us an aggressive, progressive city by today's cone back to see us at every opstandards and we will show you

The Tall City of Midland is host aggressive, progressive, cooperative bankers who are leading the way in community growth, development and betterment.

West Texas bankers, generally speaking, fit into this particular category and the rest of us are grateful to them for their leadership, their aggressive spirit, their vision, their cooperation and their willingness to serve others.

We would hate to think what most of our West Texas cities might be were it not for the counsel and leadership provided so graciously and generously by members of the banking frater-

We have wanted for a long time to have the opportunity of expressing appreciation to West Texas bankers for all that they have done for their home communities and for West Texas in general, and we don't know of a better time than right now to say "THANK YOU! "

An exceptionally fine program has been arranged for the Midland meeting and it is hoped that everyone will find it both rewarding and enjoyable.

It is hoped also that the visitors will have the opportunity of touring the city, in order to see first hand the growth and development which have been Midland's in recent years.

Meanwhile, bankers, we are delighted that you came our way on this particular occasion; we hope that you will have a good time while here and that you will

Just common sense

President Carter had some success last year in his campaign to cut through the federal rules and regulations which add an estimated \$100 billion annually to consumer costs.

Partial deregulation of the airlines was accomplished, leading to dramatic reductions in fares and innovations in service.

Now he is taking aim at others of the "90 separate regulatory agencies issuing 7,000 new rules every year" that he found when he arrived at the White House more than two years ago.

The focus this year, he said, would be on legislation to deregulate railroads, trucks and

construction of nuclear power plants, to streamline controls over hospitals, and to improve monitoring of drugs.

The Carter call for "common sense" in reforming the "bewildering maze of paperwork, bureaucracy and delay" will win the approval of the consumer who bears the burden of regulation's by-products - loss of productivity and increased inflation.

BIBLE VERSE

The Lord is good to all: and his tender mercies are over all his works. - Psalm 145:9.

WASHINGTON MERRY-GO-ROUND

Medical Corps in sickly shape

By JACK ANDERSON

WASHINGTON - If war should break out in Europe, thousands of American soldiers will die needlessly because of inadequate medical and evacuation facilities. This is the sobering conclusion of a secret Defense Department report that has been withheld from the public.

For a country that prides itself on its first-class medical care, the second-class provisions for our frontline troops are a disgrace. The situation is made worse by the fact that the brass hats refuse to acknowledge the problems. But the secret report lays out the facts in alarming detail.

Shortages exist in everything from field hospitals to blood bags. The Army Medical Corps lacks the capability to evacuate seriously wounded GIs from the front-to rearechelon hospitals where their chances of survival are better. And little planning has been done to make the best possible use of the limited medical facilities available.

In the past, Army officials have acknowledged problems in the Medical Corps. But the inadequacies, they have maintained, are largely limited to a lack of doctors. This shortage they have been able to blame on the all-volunteer Army and its inability to compete with the lucrative attractions of private practice.

Unaware that we had access to the secret report, Army spokesmen poohpoohed our suggestion that anything was wrong with the corps' combatreadiness, other than the endemic personnel shortage. The secret survey of medical resources by the Defense Audit Service last fall shows otherwise. Here are some of the

auditors' findings: - There are supposed to be 67 large hospital facilities in place as the backbone of the evacuation effort. They are designed to receive battle casualties, treat the less seriously wounded and send the critical cases back to the United States. Today. after a gradual retrenchment that only 15 of these hospitals exist.

-Specially designed inflatable field hospitals, for use close to the battlefield, could not be used in the early stages of a war, the auditors concluded. This is because the blowup hospitals have not yet been assembled in unit sets - a job that would take 48 men a year to complete. The situation is compounded by a severe shortage of hospital beds in

-The Army's battlefieldevacuation plans depend heavily on the use of helicopters. This worked fine in Vietnam because the United States had unquestioned air superiority, something it's doubtful we'd have in a European conflict. Yet the auditors found that few plans have been made to deal with such a contingency by beefing up groundevacuation procedures.

- Insufficient medical supplies are pre-positioned to treat reserves arriving from the United States. One example the auditors found: Civilian blood donor centers in England don't even have enough blood bags. One center had been short of this item for seven months.

Sun Belt Syndicate

The Army's current medical policy for a war in Europe is designed to maximize survivability and minimize the need for replacements. "What we will try to do," explained an official in the surgeon general's office, "is treat the wounded as far forward as possible and then return them to

The Army's pitiful state of preparedness for this laudable plan was dramatized last fall in a mock war exercise called "Nifty Nugget." The result was confusion, overtaxing of airlift facilities and "an increase in the need for replacements at a time when no unit in the Army is up to 75 percent strength," one military source told our associate Peter Grant.

While the top brass try to pretend there's really no problem, the real experts - individual surgeons in the field - know better. One field surgeon was quoted at length in the secret

On the basis of his research into the Arab-Israeli wars, the surgeon presented a list of 14 medical instruments that are currently lacking at Army clearing stations, the units closest to the front. They include such basic items as Hemlich valves, which are used to treat chest wounds. Another item is an inhaler, which the Israelis found to be the only effective means of treating soldiers who injured their lungs by inhaling smoke from burning tanks.

The surgeon also criticized the lack of anesthesia at the front-line aid stations, a lack that would be critical if evacuation was not possible.

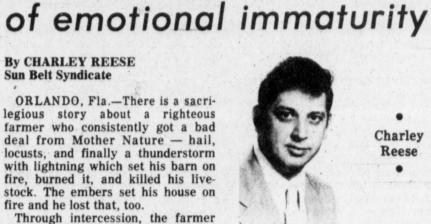

The doctor closed his comments with a plea to the Army desk soldiers, trying to shake them out of their complacency. "Let us look at the threat," he wrote. "Let us look at our assets. Let us re-evaluate. At the least —'let's talk about it."

Footnote: While the Army brass continues to blame the medical corps' shortcomings on circumstances beyond their control, Pentagon critics on Capitol Hill say the cause is rooted in the age-old problems of the military - incompetence, inefficiency and sloppy planning.

IT HAPPENED HERE

30 YEARS AGO (Apr. 6, 1949): William B. Neely was elected mayor of Midland in Tuesday's balloting. Frank Shriver was elected as a new member of the city council. H.E. Chiles and W.F. Hejl were re-elected as council members.

Duke Jimerson said a practice session of the Midland Men's Chorus will be held Friday night.

Writer cites symptoms

Charley Reese

with a money back guarantee and full warranty become fairly widely accepted. Only in America could that happen because only an exceedingly rich and benign and relatively safe society could provide enough cushion against the usual hard knocks that youngsters could grow up thinking life was a piece of cake and it was theirs by right.

I think the generally accepted description of that state of emotional immaturity is "spoiled." Some youngsters grow out of it but others remain emotional runts right on into senility and beyond.

You see evidence of this immaturity in those people who absolutely refuse to recognize that some people are evil. To these naive souls, every bad act can be scribed to a misunderstanding or failure to communicate. I have often wondered of what benefit it would have been for a Jew on the way to the gas chambers to have had a totally accurate and complete understanding of the man who was sending

It's a fact some people become more despicable the better you understand them. Their souls are like the faces of some ladies of the evening. You really don't want to see them stone cold sober and in the morning sun.

Another aspect of emotional immaturity surfaces when a person has spent all his years in blissful ignorance and in neglect of his civic responsibilities. Cruel fate throws him into the system and, lo and behold, he discovers it doesn't work. The jerk is outraged. Bureaucrats are rude, laws don't make sense, government invades privacy and pocketbook! So what else is new? There is no fury like the fury of the owner of a freshlygored ox, especially one who has been indifferent or stupidly unaware of the fate of everyone else's oxen.

Too much contact with these emotional runts makes you despair of democracy, but in actuality, they have always been around. We just made this mistake of enfrachising them and giving them a platform via the media which too often has all the discrimination of a \$2 whore.

Lest any perennial misreaders waste a 15-cent stamp, let me state explicitly that emotional runtism is not a condition found in any one race, creed, sex, nation, or income bracket. In fact, the search for scapegoats is as much a symptom of emotional immaturity as the search for perfection. So, too, is crybabyism which is a search for excuses.

The emotionally mature person has a healthy ego with no need to become an overgrown dependent or to force others into dependency. He has no use for either scapegoats or excuses. He has the courage to recognize the existence of evil but not be overcome by it. He has the patience to seek solutions without expecting instant success and he has the intelligence to deal with injustice without becoming embittered by it.

These people, not the runts, have dragged societies and nations screaming and kicking into better futures. There aren't many around, but then there never have been.

IT'S THE BUREAUCRATS WHO NO, DEAR, ARE ALL YEAR ROUND -ONLY CONGRESSMEN

INSIDE REPORT:

Jerry hasn't helped balanced budget movement so far

By ROWLAND EVANS AND ROBERT NOVAK

WASHINGTON - Although backers of the balanced-budget movement hope the transcontinental trip to New Hampshire by Gov. Edmund G. Brown Jr. will help their cause in New England, they ruefully complain that the charismatic Californian has done more harm than good so far.

Strategists for the constitutional amendment to require a balanced federal budget believe they might have won the support of the required three-fourths of all state legislatures by now if it had not been for Brown's unrequested endorsement. They are sure the amendment would have carried in California had it not been for that state's governor.

The reason: Thanks to Brown's endorsement, the amendment lost the support of his enemies and President Carter's friends. First on the list was California Assembly Speaker Leo McCarthy, who was moving toward support of the amendment but abruptly opposed it when it became exposed to the Brown-Carter cross-

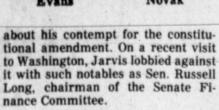

Nevertheless, the balanced-budget movement eagerly pressed Brown to visit New Hampshire and hopes he will address other state legislatures. Their reasoning, as explained by one strategist: "Since Jerry already has done us all the damage possible, we might as well get some benefit out of

his campaigning ability."

A footnote: The balanced-budget movement is getting torpedoed by another famous Californian, tax-cut crusader Howard Jarvis. The father of Proposition 13 makes no bones

MEXICAN ENVOY The question of who shall replace, Patrick Lucey as Ambassador to Mexico has triggered a replay of last year's noxiously bitter Senate race in Texas between Republican Sen. John

Tower and Democrat Bob Krueger. Former Rep. Krueger, who speaks fluent Spanish, very much wants the Mexico City post. He has strong sup-port from his influential fellow Texan, Ambassador Robert Strauss, as well as Democratic Sen. Lloyd Bentsen of

Texas. But Tower, who barely edged out Krueger last year, is not about to be magnanimous in victory and is aggressively trying to veto Krueger. Tower's reason: An American of Latin ancestry ought to be ambassador to Mexico. Tower's authority: No less than a statement to that effect made by Krueger during his Senate campaign.

A footnote: For far different reasons, Krueger is not the choice of State Department professionals. They have made Lucey, who quit as governor of Wisconsin to become ambassador to Mexico in his first diplomatic post, the scapegoat for deteriorated U.S.-Mexican relations. Blaming Lucey's inexperience, they do not want another politician in Mexico City.

MINORITY LEADER BAKER

Grumbling is mounting in the Senate Republican cloakroom against Tennessee Sen. Howard Baker's apparent decision not to step down as minority leader, as he previously indicated he would, once his campaign for the presidential nomination gets

The principal grumbling is coming from Sen. Paul Laxalt of Nevada, national chairman of the Reagan campaign, and Sen. Robert Dole of Kansas, a presidential hopeful in his own right. But many other senators not directly connected with other campaigns believe Baker should step

The change in plans is attributed to astute first-term Sen. Richard Lugar of Indiana, who has signed on as Baker's national campaign chair-

Efforts to move to Alaska's capital city continue

By WILLIAM ENDICOTT (C) 1979, The Los Angeles Times

ANCHORAGE, Alaska - For a dozen years, some determined residents of the populous Anchorage area have been trying to wrest Alaska's state capital away from Juneau in the state's remote southeastern panhan-

dle, two time zones away. "If you lived in California and your capital was in Mexico City, you'd want to move it," Anchorage businessman Frank Harris said. "That's about the way it is with Juneau and friends were making progress.

Alaska voters in 1974 approved an initiative calling for the capital to be moved by October of 1980, and two years later they chose a marsh near Willow, 35 miles north of Anchorage, as the new site.

But the best-laid plans have a way of going awry, and it now appears that the capital will remain in Juneau

- at least for the foreseeable future. "If you took a vote today, the vast majority of Alaskans still would vote to move it," Anchorage writer Virginia Breeze said. "They just don't want

has been approved for the project voters last November rejected a \$900 million bond issue to begin construction - and no one is rushing to allocate any.

The legislature is in session now, but legislative leaders have termed the capital move a "non-issue," and Attorney General Avrum M. Gross said everything "is kind of frozen."

Ironically, some of those who favor moving the capital, Harris among them, voted against the bond issue, saying the plans for the capital at Willow were too grandiose.

all at once," Harris said. "It was out of proportion to what the needs are. They were building artificial lakes. Every school had a swimming pool. I don't believe all that was neces-

But in the November election in which the bond issue was defeated, an initiative was passed declaring that no money can be spent for relocating the capital until the full "bondable costs" of the move have been resented to voters.

That would be a sizable sum probably several billion dollars - and Fairbanks, think that might put an end to the whole affair.

Alaska's royalties from North Slope oil have not reached expectations, and the state's financial condition is

"If they put up money for a new capital, it will be to the detriment of other, more important, priorities," Juneau Mayor William D. Overstreet

But those who favor the move, in Anchorage and its neighboring Matanuska-Susitna borough - where Willow is located — are not giving up.

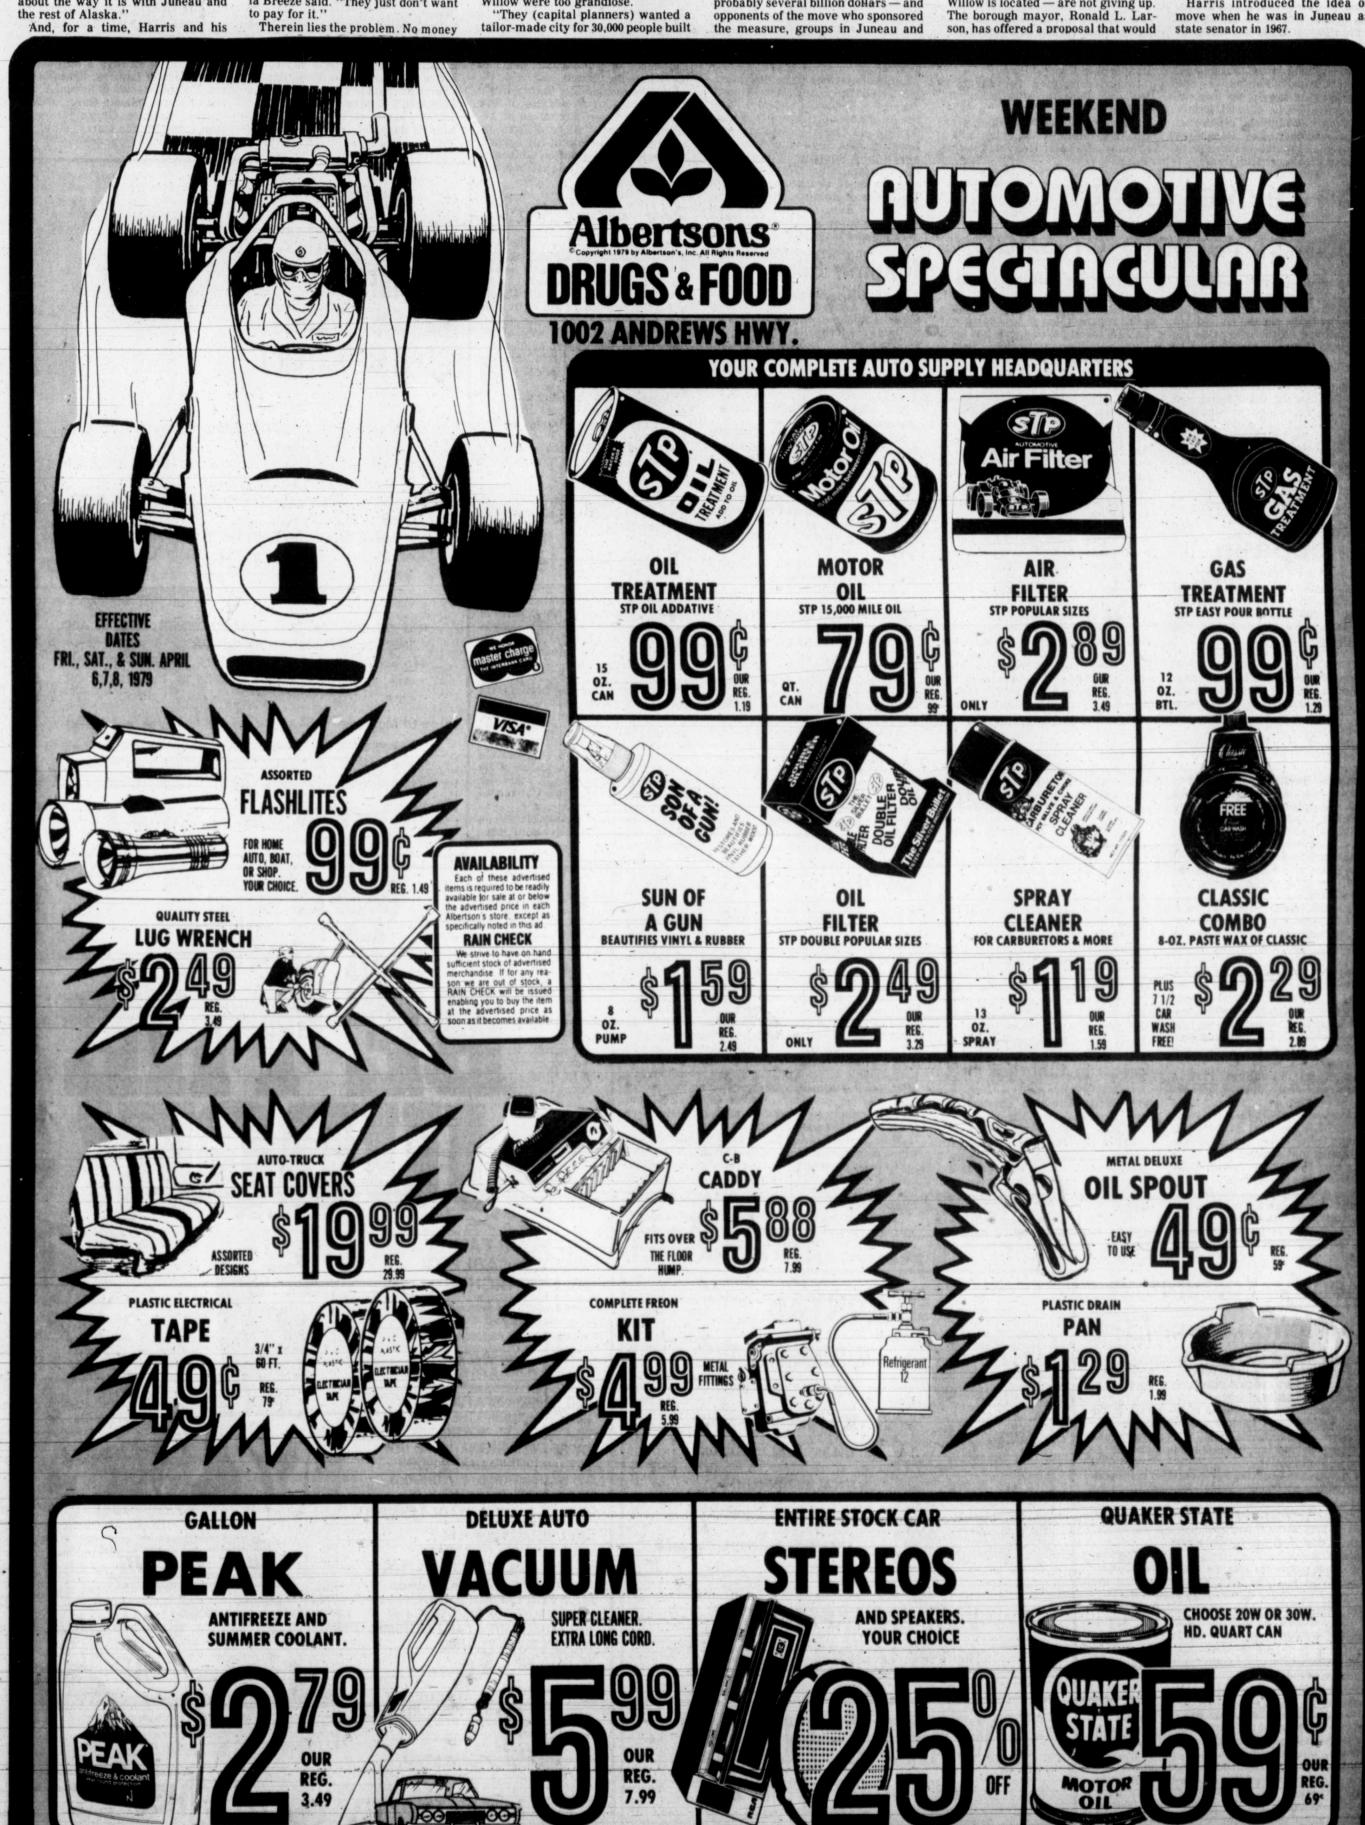

have the borough float its own bond issue to erect a scaled-down "state office complex" to house the legislature, the governor and key state of-

Iran revives action against regime of shah

TEHRAN, Iran (AP) - Revolutionary courts executed three more of Shah Mohammad Reza Pahlavi's policemen by firing squad before dawn today and opened the trial of an air force general in a major revival of action against officials of the old re-

The 4 a.m. executions in the central city of Isfahan and the opening of a new trial in Tehran followed the publication Thursday of a new decree permitting revolutionary courts to renew operations after a three-week suspension ordered by Ayatollah Ru-

Elections set in Rhodesia

SALISBURY, Rhodesia (AP) -The Rhodesian government today set April 17-21 for the elections that will lead to limited black rule and probably a stepup in the guerrilla war for unrestricted black power.

The election will allow all Rhodesia's black adults to vote for the first time and choose a black prime minister to replace Ian D. Smith who once vowed Rhodesia would never see black rule "in a thousand years." A black president also will be chosen as nominal head of a black-dominated Parliament.

But under terms of a constitutional accord that Smith and three black moderates worked out 13 months ago, whites will continue to hold 28 of the 100 National Assembly seats and a quarter of the cabinet posts. The whites, who represent 3 percent of the 7 million population, also will control for at least five years the armed forces, the civil administration and the judiciary.

As a result, whites will wield considerable powers even after the first black prime minister is appointed a few weeks after the results of the elections are known.

Their 28 seats will give the whites an effective veto bloc against efforts by the 72 black members to tamper with the new constitution which features important safeguards for the future of whites in a black-ruled Zimbabwe-Rhodesia, as the country will be known.

But guerrilla leaders Joshua Nkomo and Robert Mugabe, who reject the accord as a sellout, have vowed to press on with their six-yearold war that has cost 15,000 lives, sabotage the elections and topple the government that emerges.

Nkomo, the burly former lay preacher whose headquarters are in Zambia, and Mugabe, the intellectual Marxist whose bases are in Mozambique, have more than 8,500 communist-armed fighters inside Rhodesia and thousands more in training to

and having false identification.

apartment in September, 1975.

SAN FRANCISCO (AP) - The California Court of

Appeal has upheld the 1977 conviction of Patricia

Hearst's one-time fugitive companion, Wendy Yo-

The decision rejected claims of six errors in the

trial in which jurors found her guilty of unlawful

possession of a machine gun, a pipe bomb and other weapons and explosives found in a garage she rented in Berkeley.

Ms. Yoshimura could not be reached for comment.

In an interview last month, Ms. Yoshimura said,

"I don't worry about the appeal or the possibility of jail. But I don't feel completely free."

Defense 'attorneys had stressed the prejudicial effect of bringing to the jury's attention the 36-year-old artist's associations with Miss Hearst and the Symbionese Liberation Army. They argued the trial should have been restricted to the charges.

should have been restricted to the charges in

the 1972 indictment and that references to her activi-

ties while a fugitive violated her right to a fair

"The evidence," said the court, "clearly supports

It reviewed Ms. Yoshimura's association with

"Patricia Hearst and Company" and ruled it was not an abuse of discretion to allow into evidence such matters as the defendant being armed when arrested

"The damaging potential of this evidence was not to be overlooked, but we find no abuse of discretion

and no prejudice," the court said.

Ms. Yoshimura, free on \$50,000 bond pending appeal, dropped out of sight in 1972 after Berkeley police found illegal weapons and explosives in a garage she rented under an assumed name. She and

Miss Hearst were arrested at their San Francisco

the inferences that she was in actual or constructive

However her attorney, Dennis Riordan, said he

Unofficial reports said several other trials were also under way today in Tehran. Meanwhile, the state radio reported that 19 policemen and SAVAK secret police agents had been arrested in the western city of Sanandaj for putting down anti-shah demonstrations on the eve of the February revolution

The radio said the Tehran trial of Maj. Gen. Iraj Amini-Afshar opened in the early afternoon and that the verdict could be known by evening. The location of the trial was not announced, except that it was at the "central branch" of the Tehran revolutionary court. At least 13 generals already have been executed since the

Amini-Afshar was martial law administrator of the city of Najafabad near Isfahan and was accused of putting down anti-shah demonstrations in both cities.

He served in Iran's special forces under Gen. Manuchehr Khosrowdad, who was executed Feb. 15.

The executions in Isfahan were carried out less than 24 hours after the government published a decree outlining new court procedures written after the trials of members of the royal regime were suspended March 16 because Prime Minister Mehdi Bazargan objected to their secrecy and

The radio announcement said those executed were Mahmoud Shaeedi, deh. It said Shaeedi and Adib were interrogators for SAVAK, the shah's secret police, who were convicted of torturing persons, and Asgarizadeh was a policeman who killed a leftist guerrilla.

The radio said the executions took place "in accordance with Article 33 of the revolutionary court decree, which allows court sentences to be carried out immediately." The announcement indicated they had been tried befre the decree was issued, but apparently their sentencing was delayed until it came into force.

Their deaths brought to at least 65 the number executed by Khomeini's firing squads since he came to power Feb. 12 after the year-long revolution that drove the shah from Iran.

Inmate charged with

arson in Ohio jail fire DAYTON, Ohio (AP) - A 20-year-

old inmate has been charged with aggravated arson in Monday's fire at the Dayton Safety Building Police said Roderick Trice set fire

to his padded cell with a book of matches. Twenty-five persons are still hospitalized with injuries suffered in the blaze, officials said

David P. Sumrow

LAMESA - David P. Sumrow, 86, of Lamesa died Thursday in a Hereford hospital following a brief ill-

Services will be at 10:30 a.m. Saturday in Northridge United Methodist Church, with the Rev. Dewitt Seago, pastor of the First United Methodist Church in Lockney, officiating. Burial will be in Lamesa Memorial Park directed by Branon Funeral Home.

Sumrow was a native of Merit. He was a retired farmer. He was married to Ilene Hope Fleming June 2, 1912, in Hunt County. In 1941, he moved to O'Donnell from Celeste, where he farmed before moving to Lamesa in 1969. He was a member of the Masonic Lodge and the Methodist Church.

Survivors include three daughters, Mrs. Neil Duke and Mrs. Jimmy Thomas of Lubbock, and Mrs. Tom Harris of Amarillo; four sons, Elmer Sumrow of Lamesa, Floyd Sumrow of Houston, John Sumrow of Seminole, and Bobby Sumrow of Amarillo; three sisters, Mary Wylie of Merit, Lee Faye of Celeste, and Edna Chambliss of Houston; two brothers, Willeford Sumrow of Merit and Spencer Sumrow of Celeste, 13 grandchildren and 16 great-grandchildren.

Pauline Sikes

LUBBOCK - Services for Pauline Sikes, 68, of Lubbock, mother of Noel Sikes of Midland, will be at 11 a.m. Saturday in the Second Baptist Church here with Dr. Hardy Clemons, pastor, officiating.

Burial will be in City of Lubbock Cemetery directed by Sanders Funeral Home.

Mrs. Sikes died Thursday at her home after a lengthy illness.

She was a native of Hamlin. She was graduated from O'Donnell High School in 1928. She was married to J. Noel Sikes in 1928 in O'Donnell. Mrs. Sikes lived in Odessa from 1935 until 1941 when she moved to Lubbock. Her husband died in 1968. She was a member of Second Baptist Church and Order of the Eastern

Other survivors include two sons, a brother and 10 grandchildren.

Rita Kay Sargent

Services for Rita Kay Sargent, 22, of 3706 Shell St. are pending with Thomas Funeral Home.

Miss Sargent died Wednesday in Denver, Colo.

She was born Nov. 3, 1956. She was reared in Midland, living here for the past 16 years. Miss Sargent had been in Denver about two months. She was a student majoring in photography.

survivors include her parents and Mrs. Dudley J. Sargent of Midland; a brother, Bill Sargent of Las Vegas, Nev.; a sister, Wanda Ray of Albuquerque, N.M.; a grandfather, Miller Hodge of Humble, four nephews and two nieces.

Nancy L. Egan

BIG SPRING - Rosary for Nancy L. Egan, 49, of Big Spring will be said at 7:30 p.m. today in Nalley-Pickle Funeral Home.

Services will be at 10 a.m. Saturday in Immaculate Heart of Mary Catholic Church here. Burial will be in Trinity Memorial Park.

Mrs. Egan died Thursday in a Big Spring hospital after a lengthy ill-

She was born Nov. 29, 1929, in Dunkirk, N.Y. She was married to Richard Scott Egan Nov. 22, 1952, in Fredonia, N.Y. They moved to Big Spring 20 years ago.

She was a registered nurse at the Veterans Administration Medical Center for 181/2 years. Mrs. Egan was a member of Immaculate Heart of

Mary Catholic Church. Survivors include her husband; two daughters, Carolyn Egan of Big Spring and Tracy Roundtree of Andrews; two sons, Richard Egan Jr. and Mike Egan, both of Big Spring; her mother, Mrs. Marion Rhinehart of Dunkirk; a sister, two brothers and two grandchildren.

Rev. Gonzalez

SNYDER - Services for the Rev. E.P. Gonzalez, 87, of Snyder, father of Hiram Gonzalez and Ismael Gonzalez, both of Midland, will be at 2 p.m. Saturday in the First Baptist Church in Snyder. Officiating will be Dr. Epi-fano Salazar of El Paso, assisted by Elson Hernandez, minister of the Templo Bautista Church of Snyder. Burial will be in Hillside Memorial

Gardens directed by Bell-Seale Funeral Home. Gonzalez died Thursday in an Abi-

lene hospital after a short illness. A native of Fort Davis, he had preached in Ozona, Colorado City, Slaton and Snyder. He was married to Audrea Sanez Sept. 13, 1913, in Carlsbad, N.M.

Survivors include three daughters, six sons, 49 grandchildren, 45 greatgrandchildren and four great-greatgrandchildren.

'Pete' Wristen

MONAHANS - Services for Jess Morgan "Pete" Wristen, 68, of Grandfalls, brother of Sid Wristen of Lamesa, were to be at 3 p.m. today in the Church of Christ in Grandfalls. Burial was to be in Monahans Cemetery directed by Wilson-Miller Funer-

Wristen died Thursday in an Odessa hospital after a one-year illness.

He was born Nov. 2, 1910, in Ward County. He moved to Grandfalls 12 years ago. He was a retired rancher. He was married Sept. 12, 1922, in peace of Precinct 3 for 12 years. He was a member of the Church of

Other survivors include his wife, a son, a brother, a sister and three

Lavara Paulk

LEVELLAND - Services for Mrs. Jesse (Lavara) Paulk, 56, of Truth or Consequences, N.M., will be at 2 p.m. Monday in Second Baptist Church with the Rev. David Evetts, pastor,

Burial will be in Lamesa Cemetery directed by George C. Price Funeral Directors.

Mrs. Paulk was the mother of Janice Steen of Hobbs, N.M., and sister of Mabel Lee Ray and Agnes Waldrop, both of Lamesa

She died Wednesday in a Truth or Consequences hospital after a brief The Lamesa native moved to Truth

or Consequences from Levelland, where she had lived 29 years. She was a retired school cafeteria supervisor and a member of the First Baptist Church at Truth or Consequences and Levelland's Rebekah Lodge No. 5. Other survivors include her husband, a daughter, two brothers and nine grandchildren.

Birila Punnell

LAMESA - Services for Birila Punnell, 62, will be at 2 p.m. Saturday in St. Margaret Mary's Catholic Church, with Msgr. Jerome Vitek, pastor, officiating.

Burial will be in Lamesa Cemetery under the direction of Branon Funeral Home.

Mrs. Punnell died Wednesday in an Andrews hospital.

A native of Concrete, she lived in Lamesa 20 years, where she worked

in the restaurant business. She married Oscar Punnell May 11,

1961, in Lamesa. Survivors include her husband: two sons, Manuel and Pete Anzaldua, both of Odessa; two daughters, Theresa **Braden of Sulphur Springs and Marie** Townsend of Brady; a half-sister, Petra Cano of Lamesa; seven brothers, Pruenico Garza of Seminole, and Santos Garza, Martin Garza, Gilbert Garza, Valente Garza, Diomico Garza and Panfilo Garza, all of Lamesa; and eight grandchildren.

 Ed Magruder is 54 years old and has lived in Midland 30 years. His experience, education and community service qualify him to merit your continued confidence as your director of Midland County Hospital District.

Re-Elect Ed Magruder on Saturday, April 7

School heads seek teacher strike halt

HAZELWOOD, Mo. (AP) - School officials say they will seek a temporary restraining order today to force striking teachers to end a fiveday walkout that

nity Teachers Association, which represents more than 800 of the district's 1,100 teachers, offered to meet with the board Monday for further talks.

Plans to seek the court order were announced Thursday after teachers rejected a contract offer to hike starting salaries to \$10,000. The school board's offer, made Wednesday, represented an increase of \$200 over its previous offer of \$9,800. Teachers overwhelmingly rejected the earlier offer and have

Diane Holland of the HCTA read a union release which noted "movement on the part of the board."

coupled with the original proposal, present an excellent point from which discussions can continue," the release said.

has canceled classes for about 21,000 students.

"It is also recognized that the proposal in question,

authorized the district's negotiators to meet with the union only if teachers would return to work.

A union spokeswoman said the Hazelwood Commu-

maintained they want \$10,700.

Prior to the latest offer and its rejection, Superin-endent Thomas J. Lawson had said the board

Adobe completes Ward discovery

Adobe Oil & Gas Corp. of Midland has completed a prolific Ellenburger gas discovery in Ward County, Hunt Energy Corp., operating from Midland, staked a deep explorer in Pecos County, and W. C. Blanks of Midland finaled an Atoka gas discovery in Eddy County, N.M.

Wildcat locations have been announced in three other West Texas counties and in two southeast New Mexico counties

ADOBE DISCOVERY

The strike, No. 3 Barstow Unit, is a re-entry of a former Fusselman gas well in the Barstow multipay field two miles southeast of Barstow

It finaled from the Ellenburger for a calculated absolute open flow potential of 125,000,000 cubic feet of gas per day, through perforations from 19,690 to 19,718 feet.

Hole is bottomed at 19,743 feet and five-inch liner is set on bottom. The plugged back depth is 19,718 feet.

Wellsite is 1,320 feet from northeast and 514 feet from northwest lines of section 35, block 33, H&TC survey.

HUNT WILDCAT

The Hunt wildcat will be drilled to 28,000 feet 31 miles southeast of Fort

It is No. 1 Cerf Gas Unit, 1,980 feet from south and east lines of section 9, block 130, T&StL survey.

The location is two miles west and slightly south of Ellenburger gas production in the Grey Ranch pool.

EDDY DISCOVERY

W. C. Blanks No. 67 Big Eddy Unit, 20 miles northeast of Carlsbad in Eddy County, finaled for a calculted absolute open flow potential of 1,234,-000 cubic feet of gas per day, through perforations from 11,926 to 11,932

The four point gauges ranged from 237,000 cubic feet of gas per day to 497,000 cubic feet per day, through a 3/4-inch opening. Tubbing pressure ranged from 2,354 to 2,985 feet.

Total depth is 13,250 feet and 4.5inch pipe is cemented two feet off

Originally staked as a project in the Maroon Cliffs (Morrow gas) pool, it is 1,980 feet from south and 990 feet from west lines of section 15-21e-30s and 1/2 mile southeast of Morrow produc-

It also is 3.5 miles northwest of the Cabin Lake (Atoka gas) pool.

TERRY WILDCATS

A pair of wildcats have been an-

nounced in Terry County. Union Texas Petroleum Co. will drill its No. 1 Sara-Bullard as a 13,-600-foot wildcat in southwest Terry-County, two miles north of Sea-

The prospector isone mile north of a 13,360-foot dry hole. There is no nearby deep production.

Test site is 1,320 feet from south and 2,200 feet from east lines of section 81, block DD, J. H. Gibson survey.

The Superior Oil Co. announced location for a wildcat in west Terry Scheduled for a 14,500-foot bottom,

it is 1/2 mile northeast of Tokio and will be drilled as the No. 1 Perl Rush-Location is 2,310 feet from north

and 467 feet from west lines of section 40, block D-14, C&M survey and one and three-eighths miles east of a 13,-800-foot dry hole. There is no close by deep production.

KENT EXPLORER

RK Oil & Gas Co., operating from Midland, staked a 6,300-foot wildcat in Kent County, 10 miles southwest of

It is No. 1 McClain, 660 feet from south and 467 feet from west lines of A. J. McClain survey, abstract 973 and 1.5 miles east of an 8,146-foot dry hole and three miles north of the Lyn-Kay field.

YATES EXPLORER Harvey E. Yates Co. has announced location for a 7,900-foot wildcat in Eddy County, 14 miles southwest of

Lakewood. Scheduled as No. 1-Y Anadarko-Federal, it is 1,960 feet from south and 2,310 feet from west lines of section 35-21s-24e and two and one-quarter miles northwest of the Revalation (Cisco gas) field. There is a 10,694-foot wildcat failure one and one-half miles to the southwest.

LEA WILDCAT

Delta Drilling Co., operating from Midland, has announced plans to reenter a 15,087-foot dry hole in Lea County and clean out to 13,800 feet and test as a wildcat.

The project, No. 1 Delta Unit-State. is one and three-eighths miles northwest of a Wolfcamp oil discovery and two and one-quarter miles southwest of a Pennsylvanian discovery.

The project is 660 feet from north and 660 feet from west lines of section 30-16s-33e and three miles east of Maljamar.

EDDY PRODUCER

Gene A. Snow of Lovington, N.M., No. 2 Read & Stevens-State has been finaled in the Turkey Track (Queen-Grayburg) pool of Eddy County.

An outpost to other Queen-Gray-burg production, it potentialed on the pump for 46 barrels of oil and 46 barrels of water per day, through perforations from 1,644 to 2,964 feet. The gravity and gas-oil ratio have not been reported.

The pay was acidized with 750 gallons and fractured with 40,000 gal-Total depth is 3,020 feet and 4.5-inch

casing is set at total depth. Wellsite is 2,310 feet from south and 1,650 feet from east lines of section 10-19s-29e and 11 miles southwest of

QUAIL RIDGE AREA

General Exploration Co. of Midland No. 4 Pipeline Deep Unit is a new well in the Quail Ridge, North (Morrow gas) pool of Lea County.

The operator reported a daily potential of 5,700,000 cubic feet of gas per day, through a one-inch choke, with tubing pressure of 900 pounds. Completion was through perforations from 13,144 to 13,149 feet.

Hole is bottomed at 13,450 feet and 5.5-inch pipe is set at total depth.

The well is a 3/4-mile northwest extension and and was drilled 660 feet from south and 1,980 feet from west lines of section 6-19s-34e, 12 miles northeast of Halfway.

AIRSTRIP AREA

Gulf Oil Corp., operating from-Midland, has announced drillsite for a 10,800-foot project in the Airstrip (Wolfcamp) field of Lea County, 12 miles northwest of Monument.

Location is 1,980 feet from south and east lines of section 30-18s-35e and one and one-quarter miles east of Wolfcamp production. It also is an east offset to a 5,515-foot dry hole and one mile east of a recently completed Bone Spring oil discovery, Gulf No. 1-YH Lea-State.

CHAVES OILER

Plains Radio Broadcasting Co. of Roswell, N.M., No. 16-9 L. E. Ranch is a new oiler in the Chisum, East (San Andres) pool of Chaves County, 19 miles northeast of Dexter.

The operator finaled the well on the pump for 29 barrels of oil and no water, through perforations from 2,-208 to 2,266 feet. The pay was acidized with 4,000 gallons.

Total depth is 2,300 feet and 4.5-inch casing is set at total depth.

Location is 2,310 feet from north and 330 feet from east lines of section

ROOSEVELT WELLS

has finaled two wells in the Tomahawk (San Andres) area of Roosevelt County, N.M. The No. 7 Cone-Federal finaled for a

daily pumping potential of 83 barrels of oil and 15 barrels of water, through perforations from 4,251 to 4,278 feet after 4,000 gallons of acid. The gravity was not reported and the gas-oil ratio is too small to measure.

Total depth is 4,400 feet, and 4.5inch casing is cemented on bottom. Location is 1.980 feet from north and 660 feet from east lines of section 31-7s-32e and 13 miles southeast of

Kenna. Sundance No. 3 Chambers-Federal finaled for a 24-hour pumping potential of 45 barrels of oil and 19 barrels of water, through perforations from 4,151 to 4,173 feet after 6,250 gallons of

acid. Hole is bottomed at 4,350 feet and 4.5 inch casing is set at that point. The gas-oil ratio is 267-1 and the gravity was not reported.

Wellsite is 660 feet from south and west lines of section 29-7s-32e and 16 miles south of Kenna.

FISHER OPENER

General Crude Oil Co. No. 1-33 Mitchell has been finaled as a Flippen lime oil discovery six miles east of Roby in Fisher County.

On 24-hour potential test it flowed 111 barrels of 38.5-gravity oil and no water, through a 10/64-inch choke. Completion was natural through

perforations from 3,510 to 3,520 feet. The gas-oil ratio is 233-1. Total depth is 3,757 feet and 4.5-inch

casing is set at 3,653 feet. The plugged back depth is 3,588 feet. An earlier erroneous report had this

project plugged at 3,710 feet. The following tops were called on ground elevation of 1,863 feet: Coleman Junction, 2,740 feet; Noodle Creek, 3,105 feet; Saddle Creek, 3,340

feet, and Flippen lime at 3,400 feet. Wellsite is 467 feet from north and west lines of Subdivision 33, R. N. Hibbits survey No. 331.

MIDLAND RE-ENTRY

Brahaney Drilling Co. No. 1 Erwin Walton, a former producer in the Azalea (Atoka) field of Midland County, will be re-entered for a completion attemp as a Spraberry Trend Area (Dean-Wolfcamp) well. Tests will be made above 8,700

Location is 660 feet from north and west lines of section 38, block 37,

T-3-S, T&P survey and 17 miles southeast of Midland.

SCURRY RE-ENTRY

T. F. Hodge of Fort Worth will re-enter and plug back to 2,350 feet for tests in the San Andres at its No. 3 E. T. Ainsworth, former Glorieta producer in the Varel pool of Scurry County, three miles northeast of Fluvanna.

If completed as a well in the San Andres, it will be assigned to the Varel, North pool. It is a southwest offset to production and 1,800 feet from north and 996 feet from west lines of section 512, block 97, H&TC

explorer

Amoco Production Co. spotted location for a 13,200-foot wildcat in Eddy County, N.M., six miles southwest of Malaga.

Scheduled for tests in the Morrow, it is No. 1-GQ State Communitized, 1,980 feet from south and east lines of section 7-25s-28e and five miles southwest of the Malaga (Morrow gas) field. Elevation at drillsite is 3,070

A 13,400-foot wildcat failure was drilled two and one-quarter miles to the southeast.

EXXON PROJECT

Exxon Corp., operating from Midland, will spud its No. 3-CU New Mexico as a 1/2 mile northeasst stepout to production in the Winchester, North (Cisco) gas pool of Eddy County, 14 miles southwest of Loco Hills.

The 10,500-foot operation is 1,-

980 feet from north and east

lines of section 24-19s-28e.

EMPIRE TEST Yates Petroleum Corp. of Artesia, N.M., announced location for a 10,700-foot test in the Empire (Pennsylvanian) area of Eddy County, 10.5 miles west of

The project is 1,980 feet from north and 1,980 feet from east lines of section 22-17s-28e. It will be drilled as No. 1-KT Lucas Store-State Communitized.

Discovery completes

Florida Gas Exploration Co. of Midland announced plans to drill a 10,250foot project in the Florac (Strawn) field of Howard County, four miles southwest of Big Spring.

Location for the No. 1 Neel is 1,980 feet from south and west lines of section 32, block 33, T-1-S, T&P sur-

mile southwest of Strawn produc-Campana Petroleum Co. of Midland has filed application to drill a 9,100-

foot project in the Coahoma, North

The project is three-eighths of a

(Fusselman) and Coahoma (Mississippian) field of Howard County. Scheduled to drill is the No. 1-A Read located 1,980 feet from north and 467 feet from west lines of section 40, block 30, T-1-N, T&P survey, three

miles northeast of Coahoma. The well is one and one-quarter miles south of production in the Coahoma (Mississippian) field and seven-eighths mile south of Fusselman production.

MENARD PROJECT

Texas Oil & Gas Corp. of Midland will drill the No. 1 Menzies as a 1/2-mile northeast outpost to upper Strawn gas production in the Wilhelm Lane, West (upper Strawn oil and gas) field and as a 11/2-mile northwest outpost to gas production, separated by a 3,380-foot failure, or as a %-mile northwest outpost to oil production, seperated by a 3,500-foot failure, in the Wilhelm Lane (Canyon 3100 oil and gas) field of Menard County, 14.8 miles northwest of Menard.

Location, exception to Rule 37, is 1,700 feet from south and 330 feet from west lines of section 111, Hooper &Wade survey. Contract depth is 3,-550 feet and ground elevation is 2,302

YATES DISCOVERY

NRM Petroleum Corp. of Midland has opened Yates gas production in the Warhorse field of Terry County.

The operators No. 1-9 O.D.C. was finaled for a calculated absolute open flow potential of 355,000 cubic feet of gas per day, through perforations from 3,342 to 3,353 feet. The pay was acidized with 1,250 gallons.

Hole is bottomed at 10,018 feet and plugged back depth is 3,250 feet, with 4.5-inch casing at 4,960 feet.

Wellsite is 1,980 feet from south and west lines of section 17, block D-11, SK&K survey, seven miles southeast of Sundown.

Cox will dig Upton project

John L. Cox of Midland No. 1 Elaine has been spotted as a 10,500-foot test 5/8 mile north and slightly west of the Old Upland (Bend) field of Upton County, 11 miles northwest of Ran-

The project is 660 feet from south and 1,980 feet from east lines of section 17, block Y, GC&SF survey.

STERLING TEST R. C. Bennett of Midland No. 2-C Bade is a new test in the Conger (Pennsylvanian) pool of Sterling County, 12 miles west of Sterling City Slated for an 8,200-foot bottom, it is 660 feet from noth and 1,980 feet from east lines of section 22, block 22, HATC survey.

Amoco stakes Oil industry spokesmen have mixed reactions

By MARK POTTS

NEW YORK (AP) - Oil industry officials praised President Carter's decision to gradually lift price controls on domestic crude oil. But they also criticized his proposal to tax the "windfall profits" that would result, saying the tax would virtually negate

any benefits from decontrol. Price decontrol — which is expected to add several cents a gallon to the price of gasoline by the time it is fully implemented in September 1981 — is designed to encourage exploration for more oil. And the higher price, it is hoped, will discourage consumption somewhat.

Gulf Oil Corp., in a statement released after Carter's speech Thursday night, said the decontrol proposal was "a step in the right direction.

Board blames human error

By HOWARD BENEDICT

WASHINGTON (AP) - The offshore oil rig Ocean Express sank in heavy seas off the coast of Texas three years ago because of equipment failures on two of the three assisting tugs, the National Transportation

Safety Board said today. Thirteen of the 35 persons aboard the rig drowned when a self-powered survival capsule sank. The board recommended that the Coast Guard improve the safety of such capsules.

Contributing to the accident, the board said, "were the lack of preparation for towing emergencies, the lack of complete information in the rig's operating manual, and the inaccuracy of the National Weather Ser-

vice's weather forecasts.' The Ocean Express had been moved by three tugs to a new drilling site 30 miles offshore from Port O'Connor, Tex., on April 15, 1976. Its 312-foot-long legs were extended to a depth of 148 feet, but worsening weather prompted officials not to extend them to the bottom.

The board said waves could have been as high as 30 feet, although forecasts called for maximum waves of 18 feet.

One of the tugs became partially disabled with an engine problem and a second lost its towline to the rig. With one remaining tug unable to control it, the rig turned broadside to wind and seas, capsized and sank, the board said.

A Coast Guard helicopter rescued the barge master, while 14 crew members climbed aboard one enclosed survivial capsule and 20 got in an-

The 14-man capsule was rescued by the nearby vessel Nicole Martin. The crew of the tug Gulf Viking tied a line to the second capsule, but before rescue could be made, the capsule capsized and only seven of those aboard survived.

The board said the capsule could have been tipped over either by the waves or a combinatioon of the waves with the tripping forces imparted by the small line attached to the rescue

Investigators found that the Ocean Express did not have spare tow lines rigged for quick use, main deck fittings which were easily accessible in bad weather, or upper deck rigging for towing.

The operating manual for the yearold rig, which had been prepared by its builder, Bethlehem Steel Corporation, "did not contain complete structural, stability and operating information or appropriate guidance for emergency situations," the board reported

The board made 13 safety recommendatons to the Coast Guard; Bethlehem Steel; Ocean Drilling and Exploration Company, owner of the Ocean Express; Whittaker Corporation, manufacturer of the survival capsules, and the International Association of Drilling Contractors.

On the escape capsules, the board urged the Coast Guard to develop appropriate performance standards, including those for safe towing; tests to determine capsules capsizing characteristics and behavior in stormy seas, and require that the devices be equipped with accessible towing and mooring fittings.

Barnes well reopens pay

J. C. Barnes Oil Co. of Midland has reopened Pennsylvanian production in the Jenkins, North multipay field of Gaines County.

The operator finaled the No. 1 Sam Jenkins on the pump for 65 barrels of 45-gravity oil per day and no water, through perforations from 8.850 to 8,936 feet. The pay was acidized with 500 gallons

The gas-oil ratio is 194-1. Total depth is 9,895 feet and plugged back depth is 8,941 feet, with 4.5-inch casing set at 9.018 feet.

Location for the reopener is 1,980 feet from north and 4,600 feet from the west lines of section 10, block AX, PSL survey. The well is 13 miles southwest

Gulf pledges to use any resulting revenues from decontrol to develop more energy resources.'

Gulf called the proposed windfall profits tax "unnecessary," and added, "Existing tax laws will provide additional tax revenue from increased oil prices resulting from decontrol." Gulf claimed current tax and royalty payment laws would erase half of any windfall profits re-sulting from crude oil decontrol.

But many other firms - including Exxon, the nation's largest oil company - withheld comment on the speech, other than to say that the proposals so far were too vague and more time was needed to study

Most of the points outlined by Carter had been expected by oil company executives, and several - including domestic crude oil price decontrol - represented the fruits of intense lobbying by the oil industry.

Charles DiBona of the American Petroleum Institute, a Washingtonbased industry group, said, "(Carter's) decision to start removing federal controls on the price of domestic crude oil is a significant and necessary step toward increased domestic petroleum production, increased conservation, more rapid development of other American energy resources and eventual reduction of our dangerous dependence on import-

Herbert Schmertz, vice president of Mobil Corp, said: "We've been calling for gradual decontrol since 1974. We've always said the responsible way to decontrol is to do it gradual-

But there was sharp criticism of Carter's proposal for a 50 percent tax on "windfall profits" that oil companies would make as the result of decontrol, a move that government officials estimate would recover for the public about 70 percent or more of the additional profits from decontrol. Oil companies say that figure may be

conservative. Schmertz said Carter "talks about the need to give oil companies the replacement costs for the oil, then he attacks us and talks about taking 80 percent of the money in taxes. If the plan works, the consumer is going to be paying more, but he's not going to

get anything back." DiBona estimated that as much as 60 percent of any windfall profits would be taken under existing laws, and said, "we believe additional taxes

are not necessary.' Abroad, reation to the Carter statement was positive. In Brussels, Common Market Energy Commissioner Guido Brunner said Carter's proposals were "a great step forward" to stabilizing the U.S. dollar.

As reactor cools, Congress heats up for inquiries

By WALTER R. MEARS

WASHINGTON (AP) - Now that the nuclear crisis at Three Mile Island is cooling, congressional investigators are warming up for rival inquiries into what happened, who's to blame, and what should be done about it. The nuclear power people, the electric company

and the government's regulators can count on testi-fying at assorted, sometimes competing House and Senate hearings that are likely to go on for months. On a subject as momentous and as dramatic as the future of nuclear power and the hazards of the accident near Harrisburg, Pa., almost any commit-tee of Congress can find a reason to get into the

Sen. Edward M. Kennedy, D-Mass., got there first with a hearing Wednesday before his health subcommittee on the potential impact of the accident upon people who live in the Harrisburg, Pa., area and those who work at the plant.

Kennedy took the occasion to say that there should be a new, independent federal agency to investigate any future nuclear accidents. He said the Nuclear Regulatory Commission won't do because it sets the safety standards that have to be assessed when

things go wrong The Massachusetts senator not only got there first, he got there second, with a hearing Thursday before the Joint Economic Committee on the question of who should pay for nuclear power plant shutdowns.

House and Senate panels with direct responsibility for nuclear power issues are planning to begin their

public inquiries later. There's no question that the whole area of nuclear power needs careful scrutiny in Congress. That was true before the accident and it is more urgent now. There is legislation to be handled on the future of

nuclear power and the way it is regulated. It wasn't just the plant that broke down at Three Mile Island. There will be legislation seeking to have the Nuclear Regulatory Commission take charge in any future emergency and tell the neighbors what is

going on. There is a bill in the House to lift the 21-year-old ceiling on lability claims in nuclear power accidents. The limit now is \$560 millon, put there in the first place because without that protection against damage suits, power companies were wary of getting into nuclear operations at all. The bill would repeal that and limit liability only to the total assets

of the company involved. There have been calls for a congressional moratorium on the opening of new nuclear power plants. There are 90 under construction to go with the 72

that already have been opened. Sen. Gary Hart, D-Colo., who heads the Senate panel on nuclear power, said that Three Mile Island can serve as a valuable early warning signal. 'We must use this opportunity to review serious problems in our nuclear regulation and response systems and to proceed rapidly to effect reforms,"

The question is whether a profusion of congressional hearings will provide that kind of reasoned appraisal, and deal with the concerns - and fears quiries could do more to confuse the issue than to resolve it.

Nor would the search for a reasoned solution be enhanced by an effort to fix blame and find a villain for the piece. There are warnings in Congress against the influence and money behind the nuclear power industry. The industry opened its own credibility gap and

damaged its own image when its spokesmen tried to declare the Three Mile Island episode over just as it was beginning.

But if the nation has gone too far too fast with nuclear power, as critics contend, it's not enough to blame the power companies. It was, after all, a national decision, made years ago when advocates of nuclear power were claiming they could produce electricity so plentiful and so cheap that it wouldn't

be necessary to keep track of how much a household It didn't turn out that way, but it has turned out to be cheaper than electricity generated by burning

And consumers, including congressmen, don't stop to ask whether there is a nuclear plant somewhere behind their electricity. They just expect the lights to go on, and they expect the power company to make

GIs developed own methods of dentistry

CHICAGO (AP) - American pilots held prisoner n North Vietnam developed innovative self-help dentistry to overcome some of their dental problems,

wo dental researchers report. Some of the problems resulted from torture, others because dental care had been poor before they

entered combat, they say. The report was prepared by Dr. Charles R. Diemof the Naval Regional Dental Center and Dr. Milton Richlin, a psychologist at the Center for Prisoner of War Studies of the Naval Health Research Center, both in San Diego. It appears in the April Issue of the

Iournal of the American Dental Association. The report was based on interviews and military dental records of 111 men held captive for an aver-

age of six years. The former prisoners said medical and dental

assistance provided by the North Vietnamese was considered to be "barely adequate first aid" and was requested only when the POWs were desperate.

They reported that during extractions teeth were fractured and the roots not removed or the wrong tooth was removed. Dental treatment also was performed with the provider of the treatment also was performed with the provider of the treatment also was performed with the provider of t formed without anesthetic after the patient was told,

You Americans must learn to suffer." About a third of the captured Navy fliers, in addition to the usual dental problems, had fractured teeth from stones in their food or from torture and

punishment Diem and Richlin said the "ingenious methods of dental first aid developed by the GIs included the use of sterilized sharpened nails, wire, razors and other homemade instruments to lance and drain ab-

scesses, which relieved acute pain." Bamboo and nails also were used to dislodge pieces

"Tobacco juice" was used by some to obtain relief from pain, and the prisoners hoarded salt to ease the pain from abscesses by rinsing or massaging, or both.
