

Jon Voight and Jane Fonda

## Vietnam war, 'Duke' steal Oscar spotlight

HOLLYWOOD (AP) — It was a fine bit of Hollywood irony — John Wayne and Vietnam. "Duke," the legendary superpatriot, and a war Hollywood had ignored for a decade.

They were the heroes of Monday's 51st Annual Academy Awards presentation, with two Vietnam films winning the big Oscars and Wayne making an emotional first public appearance since cancer surgery Jan.

"Coming Home," a film depicting the physical and emotional wounds of Vietnam, earned best acting Oscars for Jon Voight and Jane Fonda, who portrayed a paraplegic veteran and the officer's wife who falls in love with him. Miss Fonda had won a previous Oscar playing a hooker in the 1971 film "Klute."

"The Deer Hunter," a violent depiction of the war's effects on three young Pennsylvania mill workers, was picked best picture by the Academy's 3,400 voters and won best director honors for Michael Cimino.

Virtually shut out in the competition was Warren Beatty's comedy-fantasy "Heaven Can Wait," which had nine nominations but won only for

Wayne, 71, thin but tanned and jaunty, received a thunderous ovation from the audience at Dorothy Chandler Pavilion, then presented the

makers of "The Deer Hunter" their Oscars. Wayne, the Hollywood personification of the tough-guy patriot, starred in Hollywood's last Vietnam movie prior to 1978, the hawkish "Green Berets" in 1968.

Besides Wayne, another of the academy's living legends appeared to a standing ovation - Sir Laurence Olivier, who was presented a special

Oscar by his longtime friend, Cary Grant. 'The Deer Hunter" was the big winner of the night, copping five little statues in all. Besides best picture and director, the picture took awards for supporting actor, Christopher Walken; editing, Peter Zinner, and

"Coming Home" won three Oscars — the top acting awards and a screenwriting Oscar for Waldo Salt and Robert C. Jones.

Maggie Smith was the only winner of a top Oscar not involved in one of the Vietnam films. She was named best supporting actress for her role as an actress who loses her bid for an Oscar in Neil Simon's "California

The nationally televised Oscar show was not as lively as some in the past, but there was some controversy stirred by "The Deer Hunter" and a

# Women, children return to homes near nuke plant

HARRISBURG, Pa. (AP) — Joyful women and their young children, told that the nation's worst nuclear "crisis is over," are returning to their homes in the shadow of the disabled Three

Mile Island power plant.
Relieved and tearful mothers cheered Monday's announcement by Gov. Dick Thornburgh and Nuclear Regulatory Commission officials, who 11 days earlier had urged pregnant women and pre-school children living within a five-mile radius of the plant to leave because of the exposure risks to radiation emanating from it.

"It's like breathing a giant sigh of relief," Yvonne Black said after she and her 18-month old daughter stepped into the living room of their Middletown home.

"I'm so glad to be home," said a sobbing Justine Stauffer, a mother of two who heard the welcome radio bulletin from a motel room where she had taken shelter.

"My brothers were with me, and I jumped up and screamed at them, 'Oh, my God, I'm going home!" said Mrs. Stauffer, who like Mrs. Black is not pregnant.

In Washington, meanwhile, a federal advisory committee on reactor safeguards said an instrument reading problem may have contributed

heavily to the accident at Three Mile Island and could pose a similar hazard at 43 other reactors.

NRC officials said the instrument may have fooled the plant operators into shutting down an emergency cooling system which had come on automatically, making the accident worse than it otherwise might have

The NRC had already noted the problem in bulletins advising reactor operators of this and other problems found in the Three Mile Island acci-

Inside the isolated plant, engineers gingerly worked to bring the simmering reactor to a cold shutdown.

Though the tedious process is at least several days away from completion, officials said the atomic cauldron had been tamed and only traces of radiation were being emitted from

"I consider the crisis over with regard to the status of the core," Harold Denton, the NRC's chief of operations, said at a joint news con

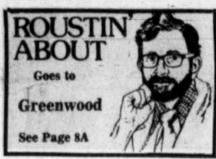

ference with Thornburgh. About an hour after the press conference, monitoring teams detected a slight increase in radiation - to about 4 to 5 millirems per hour, less than the dose of an average chest X-ray - at a

site east of the plant. Officials said the level rose because there was no wind to disperse the radiation, and repeated assurances that "there is no threat

to the public health. At the height of the crisis, considered the most dangerous nuclear power plant accident ever in the United States, Thornburgh advised the evacuation of pregnant women and young children living within the fivemile area. They are most vulnerable to low-level radioactivity.

"This means it is now considered safe," Thornburgh said.

Mop-up operations continued Monday at a cautious and steady pace. Giant charcoal filters were removing iodine trapped by chemicals from waste water that spilled on the floor of an auxiliary building.

# Gov. Clements seeing for himself

## Schedules tour of evangelist Lester Roloff's youth homes

CORPUS CHRISTI, Texas (AP) - Gov. Bill Clements gets a chance to see for himself today how controversial evangelist Lester Roloff operates his

The governor has sobeduled a get-acquainted tour of two facilities in between building dedications at Corpus Christi State University and an evening banquet of the National Conference of Christians and Jews The two homes are among six Roloff institutions being investigated by the

attorney general for pssible violation of state licensing regulations. "He (Clements) decided it wouldn't be a bad idea to take a look at them see what they looked like; see how they operate," Jon Ford, the governor's press secretary, said Monday in Austin.

He said a group of prominent South Texans would accompany Clements on the afternoon tour of the Rebekah Home for Girls and the Lighthouse 'All they're going to do is go through the schools," Ford said. "They'll be

looking over the facilities. He said Roloff extended the invitation to Clements after learning the

Corpus Christi trip was scheduled.

The tour was planned several weeks before the Corpus Christi Caller-Times reported in a copyright story that five girls said they tried to stab another girl to death at the Rebekah Home.

Roloff did not report the stabbing to the authorities but administered paddlings and solitary confinement as punishment, the newspaper said. Nueces County District Attorney Bill Mobley said Monday he will ask a grand jury to investigate. Mobley said he was "shocked that something this

serious and severe went unreported. Roloff had introduced five girls March 29 at an Austin rally for legislation to exempt from state licensing child care institutions operated by religious

Clements attended to extend an official welcome to Austin and met the evangelist for the first time.

The governor was on stage when Roloff told the crowd, "They (the five girls) stole a butcher knife. Only the Lord stopped them." Roloff said he told the girls to "get me the best board you've got ... and I gave them a good thrashing.'

The governor declared his support for the legislation the morning after

"I support what Roloff is doing in his schools and I am going to support the

bill to correct this inequity," Clements said.

About 4,000 fundamentalist Christians at the rally heard the evangelist proclaim: "Austin, Texas - especially Capitol Hill - has had a facelift-

Roloff said he sent out more than 50,000 letters last fall urging Clements' election over former Attorney General John Hill. Hill won several court decisions that Roloff's homes must be licensed.

Roloff said state licensing of religious facilities violates the constitutional

## County changes policy on taking over roads

By RICHARD MASON Staff Writer

County commissioners Monday whipped quickly through a light agenda, amending the county roads policy and agreeing to meet with a Department of Housing and Urban Development official to discuss requirements. for obtaining \$235,000 in community. development funds.

Commissioners voted to amend a provision in the county roads policy which requires that roads given over to the county for maintenance be paved before the road was eligible for

Under the amendment passed Monday, the county will require paving only for those roads that lead to tracts of land two acres or less in size. Roads leading to tracts of land larger than that, like those in an industrial park, need only be caliched under the new provision.

The amendment applies to roads inside the three and one-half mile extra-territorial belt surrounding the city of Midland, Commissioner Charlie Welch said.

"We felt the rules were too rigid," Welch explained during a recess in the meeting Monday.

Commissioner Jack Leonard said that "some folks just couldn't afford to buy property" out in the county because of the high cost of paving.

Also, commissioners took steps Monday to gain \$235,000 in Community Development funds, originally earmarked for the county two years ago, by voting to apply for enough rent subsidy money to fund 15 to 20 housing units in the county.

According to Leonard, the county committed itself "several years ago" to a housing program which would include federal rent subsidies for people who were paying more than 25 percent of their income in rent.

However, when the county neglected to follow up on the committment, HUD withheld funding, Leonard "HUD is forcing us to participate in

this rent subsidy (program) before they'll let us have it (the Community Development funds)," the commissioner explained Leonard said if the county qualified

for enough funding to subsidize "15 to 20 housing units," the money would be turned over to some other local governing agency to administer. 'The county intends to turn the

## Thundershower full of sound, signifies little

A brief thundershower over Midland Monday produced more thunder than shower. The heavy-looking clouds dropped only .01 inch of moisture in the official National Weather Service rain gauge at Midland Regional Airport.

The short rain came with loud thunder and a few lightning bolts, but did little more than wet the windshields of most Midlanders.

Weathermen are giving the area a 20 percent chance of more rain tonight, but Wednesday the skies should be only partly cloudy with no mention of further moisture in the fore-

While the chance of rain may end, the wind will stay. Winds are expected to gust from the southwest at 15 to 20 mph tonight. Wednesday, the gusts should shift to the west and pick up to 20 to 30 mph, the weatherman predicted.l

Overnight low tonight is ex-(See LITTLE, Page 2A)

## Spending bill 'far short' of Clements' relief goal

AUSTIN, Texas (AP) - With both its Republican members voting "no," the House Appropriations Committee has approved a \$20 billion state budget bill that leaves \$365 million available for tax cuts or additional spend-

Floor action on the 1980-81 general appropriation bill will start next Tuesday or Wednesday, said Speaker Bill Clayton.

Some \$200 million left unspent by the committee's bill results from a rider, inserted at Clayton's insistence, cutting most general revenue items by 2 percent.

The only dissenters in the 16-2 committee vote were Republicans Milton Fox of Houston and Fred Agnich of

The amount of money the bill would leave "on the table" falls far short of the \$1 billion Gov. Bill Clements wanted available for property tax re-

Fox said Clements "now recognizes" that \$1 billion for tax relief was out of the question. Fox said, however, he would fight on the House floor to increase the amount "on the table" to \$500 million.

He predicted a special legislative session if Clements is sent a budget bill anything like the appropriations

"If this is the kind of product we come out with, there is a pretty good chance we will be back working on budget matters next summer," Fox

Fox said he was "thoroughly disgusted with our approach to funding." which he said was typified by "log rolling" and 15 percent raises for district judges.
Included in the bill are 5.1 percent

cost-of-living pay raises for school teachers and state employees.

The \$314 million in cost-of-living raises for teachers would supplement automatic raises of as much as 4 percent for teachers in the first 16 years of their careers, which Clem-

Committee Chairman Bill Presnal, D-Bryan, said with the automatic raises teachers' salaries would rise by an average of 7.1 percent. This, he said, was about the same as state employees would get when fringe

benefits are considered.

Rep. Bill Hollowell, D-Grand Saline, won an 8-7 vote to cut the appropriation for faculty salaries at the University of Texas at Austin by \$8

"There are many people out there who aren't teaching anything," Hol-lowell said, "and very few who are teaching three courses a week."

Lower Coast: Southeast winds 15 to 20 knots today increasing to 15 to 25 knots tonight and continuing Tuesday. Seas today 5 to 7 feet. As few showers or thundershowers.

## Hospital expenses likely to lift lid on cost hikes hospitals must buy, such as food and

WASHINGTON (AP) - America's hospitals, faced with higher prices for food and fuel plus a bigger demand for medical services, found their expenses in January 14.4 percent higher than in the first month of 1978, the industry says.

In making the announcement, Alex McMahon, president of the American Hospital Association, said it will now be difficult for the industry to meet its voluntary 11.6 percent lid on hospitalcost increases this year.

"But it's still our goal," McMahon told the House Commerce health'subcommittee. "And we are going to try to meet it.

About two-thirds of the January increase, he said, was caused by rising prices for the goods and services

## Little rainfall realized here

(Continued from Page 1A)

pected to be in the mid-40s, with Wednesday's high near 70.

Monday's high was a windy 73
degrees with the overnight low recorded at 47. Record temperatures for the date, for comparison, are 93 degrees set in 1939

and 30 degrees set in 1952. The .01 inch officially recorded at the airport brought the annual rainfall accumulation to 1.24 inches.

Big Lake, Big Spring and Crane reported light sprinkles Monday, but all area weather watchers were recording cool temperatures, cloudy skies and lots of wind early today.

The rest of the hike, he said, "was caused by a significant increase in the volume of hospital services rendered

during the month. In a statement issued from the association's Chicago headquarters, the head of the industry's voluntary effort, Paul W. Earle, said the average length of hospital stays actually decreased in January, but the boost in the number of admissions was the

second largest for any January since "Clearly," Earle said, "hospitals are doing a good job controlling the expenditures they can. But they can't control the cost of food and fuel, nor the number of people who get sick or the number of births."

The overall rise in hospital costs in

1978 was 12.8 percent. McMahon reiterated the industry's opposition to President Carter's proposed standby hospital cost controls. "The administration's cost contain-

ment bill would limit hospital spend-ing or revenues but would not limit inflation or the demand for health care services," he said.

The administration's bill would impose controls Jan. 1, 1980, on hospitals that fail to keep their total costs from rising more than 9.7 percent this

A top official of the Department of Health, Education and Welfare, meanwhile, said hospitals are in effect admitting they cannot make their

voluntary goal. HEW Undersecretary Hale Champion told a reporter the hospitals' goal 'is only a Band-Aid anyway."

Champion said the apparant failure of the voluntary effort "is all the more reason for the administration to get control of things that the hospitals cannot manage to do for them-

## Filibuster fails to halt auto fee bill

AUSTIN, Texas (AP) - Three senators - one young and presumably in top health, another with a bad back and a third who has had heart trouble - fired a double-barrel filibuster

They failed Monday to block a vote on a proposal to allow auto dealers to charge customers \$35 for paperwork on car sales. The bill was tentatively approved, 18-10, with a final vote still needed to send the measure to the House.

In delaying a vote on the auto fee until 8:35 p.m Monday, the three senators were able to hold off for at least a day a final vote on proposed changes in the 1973 Texas Consumer Protection Act.

The trio loaded another round today against those proposed changes,

AUSTIN, Texas (AP) - Legislation that would have repealed Texas' pre-vailing wage law for public construc-

tion projects was defeated Monday in

A 73-65 vote tabled the bill, which was the top priority this session of Rep. Lee Jackson, R-Dallas.

Jackson called the prevailing wage law a relic of the Depression, when public works accounted for 60 percent

of all Texas construction and itin-

erant workers were competing with

The law requires contractors on state and local public construction

which they claim would weaken the

The proposed changes were tentatively approved last week, after a 15-hour filibuster.

Behind-the-scene negotiations to reach a compromise on consumer protection during Monday's 9 hour and 15 minute filibuster apparently were fruitless.

The auto fee, shouted Sen. A.R. Schwartz, "is a dead rip-off to 12 million people in Texas who might buy an automobile some day." Schwartz, D-Galvestgon, was on his feet for nearly four hours although he has suffered such severe back problems he once feared he might have to undergo an operation.

Schwartz and Sen. Carlos Truan, D-Corpus Christi, who had a heart attack earlier this session, joined Sen.

Lloyd Doggett, at 32 the youngest senator, in protesting Sen. Tom

Creighton's proposed auto fee. Creighton, D-Mineral Wells, admitted he was sponsoring the bill on behalf of the Texas Automobile

Dealers Association. "The Senate is stupid to lend its best wishes to this meanest kind of... do-nothing, special-interest, lobby bill

...you're being a sucker of, a fool of,"

said Schwartz. Several attempts to lower the \$35 fee failed, but Creighton accepted an amendment that would force car dealers to post notice telling customers the fee is not required by law and can be avoided.

Doggett, D-Austin, said afterwards he had agreed to halt the filibuster, because Lt. Gov. Bill Hobby had promised no immediate effort would be

made to follow up with a vote on consumer protection.

Doggett was on his feet for over half of the filibuster, stating the paperwork should not cost customers more than 65 cents.

He described Creighton's bill as a "deceptive sales gimmick...the first tax bill that has reached the floor this session.... The difference in this and other tax bills is that all the money will go into the pockets of members of the Texas Automobile Dealers Association.

The \$35 fee, he said, "is unjust, unadvertised and unwarranted, and it

will go up and up and up.' 'This body takes care of a lot of special interests on a day-by-day basis," said Schwartz. "This is Christmas in April - the Legislature's back in session."

Receiving the eagle insignias that go with his promotion to the rank of Air Force Reserve colonel is Hugh White, left, of Midland. Pinning on the symbols of his new rank is Midland Postmaster

David E. Holster, a retired Air Force colonel. White is attached to the reserve unit of the Directorate of Energy Management, San Antonio Air Logistics Center, San Antionio. (Staff Photo)

## England Dan, John Ford Coley offer 'decidedly good' concert

The talent was there; seven musicians, all versatile and completely in control of their creation. Lights flashed through the usual sequences of blue, red and yellow, mirroring the mood of the music.

The audience, though small in number, was large in its enthusiastic sup-

port of the band. All the parts were there, ready to be put together into a model of the aver-

age concert; average but decidedly England Dan and John Ford Coley had something else in mind, howev-

The Chaparral Center concert-audience Monday night was treated to an all too rare case of interaction Mon-

day night. The band recognized the audience and - surprise! - the audience responded.

The band even recognized the band, and the music they produced became a spontaneous creation.

The musicians on stage actually seemed to enjoy what they were

#### A Review

doing, not just for the sake of playing music, but for the sake of playing for people as well.

Soft ballads and rock and roll reached out to take the audience by its emotions, alternately caressing and pummeling them.

England Dan and John Ford Coley, and the five rock musicians that back them up, proved amazingly skilled and able, moving the audience with soft, melodic songs, synonymous with the duo's image, and hard-driving rock and roll, a relativly new dimension for the two performers. England Dan, alias Dan Seals,

brother of the famous Jimmy Seals of Seals and Crofts, moved from instrument to instrument. The West Texas native proved himself a well-rounded musician as he switched from clarinet to saxophone to 12-string guitar, which, as a south-paw, he played backwards and upside-down.

Interwoven in these exhibitions of talent, England Dan added vocals, harmonizing with John Ford Coley.

Coley, a former Dallas resident, enriched the performance with pianoplaying indicative of his training as a classical pianist. In addition, composer Coley played

guitar - rounding out a concert which one would have to call very much out of the ordinary.

major Academy awards

In the first coordinated attack against draft and registration bills in Congress, 39 House members sent Carter a letter Monday asking him to

oppose such legislation as well as proposals for a national service program of compulsory work in hospitals, parks and elsewhere.

The congressmen - five Republicans and 34 Democrats - argued that compulsory service during peacetime would be a violation of the constitutional ban on involuntary servitude. "The return to the draft, in a time

when the United States has chosen to actively pursue the cause of world peace and so soon after the trauma of Vietnam, cannot fail to raise grave doubts and create new divisions and alienation among our people," the congressmen said

Carter said earlier this year he does not foresee going back to registration or a draft - last used more than six years ago. But the nation's top military officers - the Joint Chiefs of Staff — are pressing for a registration system and saying a draft is likely if not inevitable.

The congressmen said a registration program - believed to have the best chance for congressional action this year — would be widely viewed as

the first step in a return to the draft. The letter to Carter was announced

at a news conference.

### **DEATHS** Glenn R. Taylor

Services for Glenn Ross Taylor, 29, of 2100 W. Wadley Ave. were Monday in Newnie W. Ellis Funeral Home with the Rev. Shell Dennison, a United Methodist minister from Sanjon, N.M., officiating. Burial was to be in the National Cemetery of El Paso today.

Taylor died Saturday in a Midland hospital after a lengthy illness.

Taylor was born June 4, 1949, at El Paso and was reared there. He was married to Fredde Anne Fritz Aug. 9, 1968. He served three years in the U.S. Army before attending The University of Texas at El Paso, graduating in 1975 with a degree in business management. He moved to Midland three years ago and was associated with Goodyear Tire and Rubber Co.. He was employed later by Union Oil Co. of California as an accountant.

Survivors include his wife; two sons, Douglas Earl Taylor and John Paul Taylor of Midland, a daughter, Jeane Marie Taylor of Midland; his mother, Jeanette Taylor of El Paso; a sister, Bonnie Jean Hargrove of Denver, Colo.; his grandfather, J.J. Taylor of El Paso, and his grandmother, Mrs. Lawrence Bobb of El Paso.

Honorary pallbearers were James Welch and James E. Wilson III of Albuquerque, N.M., Romey Jackson of Arlington and Roy Lane of El

The family has requested memorials be directed to the American Cancer Society.

### **Aubrey Warren**

BALLINGER - Aubrey Lee Warren, 71, of Ballinger, brother of Eunice Carney of Big Lake, died Monday in a Ballinger hospital following a three-day illness.

Services were to be at 4 p.m. today in Rains-Seale Funeral Home. Burial was to be in Evergreen Cemetery.

Warren was born March 7, 1908, in Concho County. He was married to Desma McWilliams on Feb. 4, 1933, in Ballinger.

He was a carpenter. Other survivors include his wife, three sons, two daughters and 12 grandchildren.

#### W.H. Nichols

McCAMEY - Services for William Harris Nichols, 68, of McCamey were to be at 10 a.m. today in the Church of Christ in McCamey. Graveside services and burial were to be at 4 p.m. in

City of Lubbock Cemetery. Nichols died Surday in a McCamey hospital.

He was born Jan. 18, 1911, in West. He was married to Orelia Davis Dec. 14, 1938, in Lubbock. He was a retired minister of the Church of Christ and had lived in McCamey 14 years.

Survivors include his wife; four daughters, Barbara Johnson of Odessa, Karen Smith of Wylie, Lynda Trayler of Mangum, Okla., and Peggy Spinks of Temple, and seven grandchildren.

#### 'Pete' Shankle

LOCKNEY - Services for Burnell Odell "Pete" Shankle, 71, of Lockney, brother of Lucille Osborn of Crane, were to be at 3 p.m. today in the First Baptist Church here with the Rev. John Jenkins, pastor, and the Rev. V.L. Huggins, paster of the Travis Baptist Church in Memphis, officiat-

### Mamie Jones

Graveside services for Mamie Jones, 82, of 2901 W. Ohio Ave. were Monday in Resthaven Memorial Park directed by Newnie W. Ellis Funeral Home. The Rev. Steve Edwards of the First Christian Church officiated.

She died Sunday in a Midland hospital after a lengthy illness.

Mrs. Jones was born March 13; 1897. in rural Shade in Navarro County. She moved to Midland in the early 1900s. She was married to the late T.D. Jones Feb. 26, 1920, in Corsicana. He died in 1978. She was a member of the First Christian Church.

Survivors include a son, A.W. Jones of Houston; a daughter, Jewella Hiett of San Luis, Calif.; three brothers, Ellis Locklar of Odessa, Newton Locklar of Midland and Jim Locklar of Lubbock; a sister, Etta Franklin of Midland, five grandchildren and two great-grandchildren.

#### Ruth Row

COLEMAN - Mrs. Ray (Ruth) Row, 67, of Coleman, mother of Van Row and Doyce Row, both of Midland, died Sunday in a Midland hospital

following a brief illness. Services were to be at 2:30 p.m. today in the Henderson Funeral Home in Coleman. Burial was to be in Gouldbusk Cemetery in Coleman County.

Mrs. Row was born Nov. 6, 1911, in

Blinn, Okla. She was married to Ray M. Row in Gouldbusk on June 2, 1928. He died in 1977. She had been a Coleman County

resident since 1916. She was a Bap-

Mrs. Row worked for Coleman Manufacturing Co. for 20 years, retiring earlier this year.

Other survivors include four sons, a daughter, 20 grandchildren and two great-grandchildren.

## Bomb kills man in Tel Aviv

TEL AVIV, Israel (AP) - A terrorist bomb exploded at a fishmonger's stall in a crowded open-air market today, killing an Israeli man and wounding=22 other persons, five seriously, police reported.

Officials said the blast, latest in a new wave of bombings in apparent retaliation for the Israeli-Egyptian peace treaty, was almost prevented. A municipal inspector noticed a

suspicious package under the stall at the Carmel market and asked whether it belonged to anyone, "but before they checked it out, there was an explosion," said Tel Aviv Mayor Shlomo Lahat, who rushed to the scene.

Police commander Moshe Tiomkin told Israel Radio that about 15 Arabs had been detained - he called it 'preventive arrest" - to protect them from angry Israelis as well as to investigate them as suspects.

A Palestinian spokesman in Beirut, meanwhile, claimed that Palestinian guerrillas and Lebanese leftists fought a battle with Israeli gunboats along the southern Lebanese shore Monday night and foiled an Israeli attempt to land amphibious troops.

#### James A. Grant

BIG SPRING — Services for James Albert Grant, 61, of Big Spring will be at 4 p.m. Wednesday in Coahoma Cemetery directed by Nalley-Pickle

Funeral Home. Grant died Sunday in a Big Spring hospital after a lengthy illness.

He was born March 1, 1918, in Mountain Home, Ark. He was a retired truck driver. He was married to Gertrude Soles Sept. 22, 1941, in Colorado City. He had lived in Big Spring

## WING CHAIRS

Do you remember as a child sitting in "The Wing Chair" or visiting Grandmother or a favorite aunt and feeling regal like a Queen or King? Wing Chairs are dateless and ageless. They fit with any decor whether Mediterranean, Traditional, English or Modern. They provide that eclectic touch to any simple line, modern, and are right at home with Colonial and French. Wing chairs are like good cooking. They make us think of home...how nice it was to be there, and the tug of nastalgia makes us want to go back for a visit again. Knorr's thinks you want your grandchildren too, to have that feeling. You can buy memories for them today at Knorr's. Knorr's has a great variety of "The Wing" in stock, right now, and many can be custom ordered to fit a specific decor or color scheme.

All items are subject to prior sale. No approvals or phone orders, please.

Wing chairs just now are specially priced from \$179.50.

2200 W. TEXAS...AT THE VILLAGE

Speaking at the Downtown Lions Club Wednesday will be Mark Withrow, attorney with Turpin, Smith, Dyer and Saxe. Withrow's topic will be "Legal Aspects of the Trial of Christ." The attorney serves as an outreach leader with First Baptist Church. He is a graduate of Abilene Christian University and Texas Tech University School of Law.

. 700 N. Ft. Worth

## More ships needed

One need look no further than recent headlines to augment the already persuasive case for the larger U.S. Navy required to safeguard this country's interests overseas.

The fall of a pro-Western government in Iran, a buildup of Soviet arms and Cuban troops in nearby South Yeman, the Soviet-Cuban military presence in Ethiopia, and increased Soviet arms shipments to Iraq all constitute a growing menace to the West's oil lifeline through the Persian Gulf and the Arabian Sea. The three-ship U.S. flotilla in the Indian Ocean is patently inadequate to counter so great a threat.

But to reinforce the Indian Ocean squadron, the Navy would have to divert ships from either the 6th Fleet in the Mediterranean or the 7th Fleet in the Western Pacific. Both fleets are already stretched thin.

And now that the Soviets have begun using Cam Ranh Bay in southern Vietnam as a port facility for warships based 2,500 miles to the north at Vladivostok, pressure on the U.S. 7th Fleet is dramatically increased. The 7th Fleet's responsibilities include protection of Japan's oil shipping lanes, which skirt the Indochina peninsula within easy range of Cam Ranh Bay.

Moreover, a permanent Soviet naval presence at Cam Ranh Bay would pose a potential threat to the Malacca Strait, the strategic choke point between the Western Pacific and the Indian Ocean.

craft carrier Constellation and five surface escort vessels are steaming in the Arabian Sea as a show of support for Saudi Arabia's nervous, pro-Western government. But the Constellation is one of only two carriers permanently assigned to the Western Pacific. It cannot remain indefinitely off the Arabian peninsula, particularly now that the Soviets have dramatically expanded their Pacific naval capabilities by settling in at Cam Ranh Bay, a magnificent natural harbor enhanced by \$1 billion in U.S. military construction during the Vietnam war.

Reassigning a carrier task force from the 6th Fleet in the Mediterranean would halve U.S. naval strength deployed in support of NATO's already weak southern flank.

## No free dinner either

The White House says there was nothing unusual about putting the bite on big corporations to help pay for the state dinner celebrating the signing of the Egyptian-Israeli peace documents. In fact, the recent Kennedy Center gala for the visiting Vice Premier Deng Xiaoping (Teng Hsiao-ping) was both a gesture of Chinese-American friendship and a tribute to corporate donors who got their seats by helping pay for the show.

Maybe this is how the government plans to deal with those high corporate profits that caused such a stir recently. They could be siphoned off in a subtle shakedown operation - like inviting corporate officials to ride with the president aboard Air Force One and making them pay for the fuel.

We doubt if Congress could get away with selling seats in the gallery to firms on the Fortune 500 list, but now that sessions are being televised, there may be a way to work in some discreet commercials during station

The only limit is the patience of the corporations. They already pay a 48 percent federal tax on their earnings. But with the White House on the line with an invitation, it takes a nervy businessman to say, "Sorry, I gave at the office."

#### BROADSIDES

CONTAMINATED

At the moment, the U.S. air-

What all this means is that the United States Navy needs more ships and it needs them quickly. Because the Carter administration has not yet seen fit to recommend an appropriate expansion of the fleet, we can only hope that Congress will examine the Navy's present difficulties and draw the logical conclusions as it considers the fiscal year-1980 defense budget.

**WASHINGTON MERRY-GO-ROUND** 

## 'Cuban connection' resurfaces

By JACK ANDERSON

WASHINGTON - Involvement of the Mafia and Cuban Premier Fidel Castro in the assassination of President John F. Kennedy has been given a new and intriguing twist in the still unreleased report of the House Assassinations Committee.

We broke the first version of the "Cuban connection" in 1967, as it was told to us by the late mobster John Roselli. While the committee doesn't buy his story in its entirety our reports sparked an investigation that led to a variation of the Roselli theory as one of the possible scenarios of the Dallas assassination.

Roselli told us that Mafia hirelings, with the blessing of the Central Intelligence Agency, were sent to Cuba to kill Castro. The dictator had earned the mob's enmity by cutting off their lucrative gambling and other interests in Cuba. The would-be assassins were captured by Castro, Roselli told us, "turned around" under torture and persuaded to direct their murderous efforts toward Kennedy.

The assassinations committee's version gives a more plausible motivation for the mob's involvement - that the Mafia, like Castro, had its own reasons for wanting to kill Kennedy. The alliance, if there was one, was voluntary.

The committee doubts Roselli's story of a forced turnaround by the Mafia hit men after torture. "The committee found it more difficult to dismiss the possibility that the Mafia, although not turned around by Castro, might have voluntarily turned around with him," the report states.

The committee notes that, by 1963, the mob "may have lost their motivation to assassinate Castro' because the growing Soviet presence in Cuba made it unlikely that he would be overthrown and the country reopened to Mafia operations.

On the other hand, the committee report says, the mob "had been given sufficient reason to eliminate President Kennedy." By 1962, both Castro and the Mafia were hurting financially, "chiefly as a result of pressures applied to each by the Kennedy administration," the report notes. It adds: "Thus, they had a common motive that made an alliance more attractive than mutual animosity."

The longstanding animosity between Castro and the mob would have been no obstacle to collaboration against a common enemy, the report notes. "Mafia figures are rational, pragmatic 'businessmen' who often realign their associations and form partnerships with ex-enemies when it is expedient.

The evidence gathered by the committee indicates that the Cuban-Mafia conspirators "could have considered using the resources at their disposal to increase their power and alleviate their problems by assassinating President Kennedy."

Muddying the waters even more is the possibility that anti-Castro Cubans may have been involved. 'Many of them," the report says, "had come to conclude that the U.S. president was an obstacle requiring elimination even more urgently than the Cuban dictator."

Why does the committee discount Roselli's version of the Castro-Mafia

alliance? "The committee considered it significant that Roselli's public revelations about the plot corresponded with his efforts to avoid deportation in 1966 and 1971 and to escape prosecution for illegal gambling activities in 1967." Roselli, the committee suggests, may have hoped to get CIA intervention in his legal difficulties "as a price for his agreeing to make no further

disclosures.' Ironically, while the committee didn't buy Roselli's story, "it was his death that really pushed the committee" to study the Mafia possibility in depth and come up with the alternate theory, a source told our associate Tony Capaccio.

The committee report stresses that the Cuban-Mafia connection is still only a theory without hard evidence. The committee "was frustrated by its inability to determine details of activities that might have led to the assassination - identification of participants, associations and timing

A BREAK FOR BANKS: Many of the nation's charities are unwittingly donating money to recipients who need it the least - the banks.

Proof of this is easily available to anyone who has sent a check to a favorite charity. Just look at the canceled check and note the date it was written and the date it was cashed. The difference constitutes the number of days your bank had free use of the money you donated.

Time in the mails is beyond the charities' control, of course, and would be relatively insignificant anyway. But some charities inexplicably wait weeks before they deposit contributions, thus losing interest they should be collecting.

Our random sampling showed that the fastest charity depositor was the Prison Fellowship, a Christian mission to aid convicts. A donation was on its way to the bank the same day it was received.

Others, including the Disabled American Veterans, the YMCA, the Heart Fund, Christmas Seals and the American Civil Liberties Union, took from several days to weeks to get their money in the bank. One, Temple University, took more than two months to deposit a check

Almost as wasteful is some charities' practice of keeping large amounts of money in checking or lowinterest bank accounts. The funds would be better invested in higher interest savings accounts or shortterm government bonds.

#### BIBLE VERSE

"And the glory which thou gavest me I have given them; that they may be one, even as we are one: - John

WRITE ON:

## Big Brazil is termed a giant of the future

By VIRGIL PINKLEY

Copley News Service

RIO DE JANEIRO, BRAZIL -Everything about Brazil is big, big,

It is by far the largest country geographically, and also from the standpoint of population, in all of Latin America. Shortly it will be utilizing the

stupendous production of the hydroelectricity plant at Itaipu, on the Parana River between Brazil and Paraguay. The installation will give 12.6

million kilowatts and exceed by 30 percent that of the largest predecessor in the world, the U.S.'s Grand Coulee Dam. The cost of this undertaking will be

more than \$9 billion. To make it possible, the river is being diverted into a parallel channel

2,000 meters long, 150 meters wide, and 90 meters deep. It has taken more than three years to chisel out the mammoth man-made waterway, which goes through solid

A battery of 700,000 kilowatts turbines has been placed across the

original river bed What promises to be the largest newsprint plant in the world is being built in stages at the headwaters of the Amazon River. It has been made in sections, then floated over from

Japan. It will exceed the output of any newsprint mill in Scandinavia or

Pinkley

Hundreds of thousands of piles have been driven into the soft earth at the headwaters of the Amazon, which incidentally is the largest river in the world. The mill is being installed, section by section, at low tide.

Brazil is the main coffee producer in the world. It is still true that they grow "an awful lot of coffee in Brazil."

Today the country has a total population of approximately 115 million, and it is estimated that by 2000 it will reach and exceed 200 million. So before too many years Brazil's population will exceed that of the United States, and the only other nation in the Latin American hemisphere which might partially keep pace is Mexico. The families in Brazil are much smaller than those in Mexico.

The largest city in the new world today is Sao Paulo, with its population estimated at from 12 to 15 million. The state of Sao Paulo has a population exceeding 23 million. At Sao Paulo, Volkswagen has at work 40,000 employees, annually producing more than 45,000 of the "bugs and "rab-

Recent surveys show that the Amazon River holds one-fifth of the world's sweet water reserves. Along its banks and to the interior is the richest and most varied plant and animal species known to man.

Most of the country is a tropic paradise and Amazonia fauna covers 250 species of animals, 1,500 varieties of fish, and 1,800 types of identified birds.

There are a number of cities in the country that have more than a million population, such as Brasilia, the new capital. Built only some 16 years ago, it already has a million and a half population. Porto Alegre, on the Brazil-Uruguayan frontier, has more than one million inhabitants. It is from this region that the famous gauchos celebrate their typical customs and their rich and varied traditions.

There are many waterfalls throughout all parts of the country and the largest in the world are located on the borders of Brazil and Paraguay.

About all the world knows of Brazil to date is that it is a treasure chest stuffed to bursting with the riches of the Earth. Thus far the lid has been lifted only slightly, but no one knows

all of the treasures of their extent. Traditonally Brazil has been one of our closest allies in Latin America, and relationships generally have been excellent until a few years ago when a military junta which had gained control decided to make Brazil less dependent on exports and imports from the United States.

#### THE BIBLE CAN YOU QUOTE IT? By LAVINA ROSS FOWLER AND ELIZABETH ROSS WIERSEMA

1. It is said that Matthew's Gospel was written for Jews, Marks for Gentiles, and Luke's for Greek readers, while John's was for Christians. What book follows these different

versions of the same story? See. 2. Who built the house known as "The house of the forest of Lebanon?" 1 Kings 7:1-2 (K.J.) 3 Kings (D.)

3. What fault lies as the cause of many broken family relations and much heartbreak? Mt. 18:21, Mk. 11:26 4. What wild animal is associated

with the prophet Daniel? Dan. 6:16 5. Which apostle said, "God is no respecter of persons."? Acts 10:34 Four correct...excellent. Three correct...good.

#### **INSIDE REPORT:**

## Mood in Saudi Arabia toward U.S.: watch, wait

Novak

By ROWLAND EVANS AND ROBERT NOVAK

RIYADH, Saudi Arabia - The failure of a secret American warning just before Saudi Arabia imposed its 1973 ofl embargo has led President Carter. more than five years later, to take a low-key approach in seeking support for the Egyptian-Israeli peace treaty from the Saudis, now more aware than ever of their international leverage.
The warning was a sharp note from

then-Secretary of State Henry Kissinger to the Saudi government. It was pointedly recalled by the ruling royal family in confidential talks with American Ambassador John West shortly before national security adviser Zbigniew Brzezinski's treatyselling mission to Jordan and Saudi

Arabia Kissinger warned that if the oil weapon was used, the U.S. would not be "responsible" for the security of the oil fields and would consider all obligations for the defense of Saudi Arabia against outside attack terminated. But the oil weapon was used with a vengeance - and without U.S. reprisal. When it was sheathed, U.S.-Saudi relations immediately returned

to their former intimacy. The Saudis' clever use of that Kissinger warning today tells a good deal about the upward shift in Saudi selfconfidence. Fully aware of the crisis atmosphere in the U.S. and the industrialized world caused by the revolu-

tion in oil-rich Iran, the always-subtle, always-indirect Saudis are sending a message to Jimmy Carter: if you turn the screws on us, you are the one who will be squeezed.

The Saudi princes do not have to stress the obvious. In about two years the Soviet Union will be in the world oil market in a big way for the first time, as their own production slows and Soviet-bloc demands grow.

That Carter understood is a conclusion inescapable from the shrewd, careful way in which Brzezinski handled his delicate mission just before the treaty was signed. Brzezinski told Prince Fahd, the top man here, first that the Africa-Mideast Soviet strategic threat is too ominous to permit a serious split between the U.S. and Saudi Arabia; and second, that Carter's intention to bring Israel around to a solution of the Palestinian problem is a personal "commit-

The Saudis accepted that low-key

presidential promise from Brzezinski, delivered without hint of pressure from Washington. That leaves the mood here toward the U.S. as one of watch and wait, with no disposition either to increase oil production because the U.S. wants it or to use oil as an anti-U.S. weapon.

"We are not going to start a crusade to undermine Jimmy Carter's hope for a comprehensive Arab-Israeli peace," one of the handful of top princely policymakers told us. Asking not to be quoted by name, this official ruled out any chance that Congress would undo the result of the vicious battle last year that finally authorized the sale of F-15 aircraft to Saudi

The realistic suspicion is high here, just as we found it in Baghdad, that the principal object of Israeli policy is now to create "confrontation" between the U.S. and the Arabs, particularly Saudi Arabia. It is known here, for example, that the American-Israel Public Affairs Committee, a registered lobbyist for Israel in Washington, possesses the most extensive files on the royal family ever collected, ready for use against Saudi Arabia if and when needed.

The ruling princes credit Carter with having moved Israeli Prime Minister Menahem Begin a good distance in two years, recalling Begin's boast not to return "one grain of sand" to Egypt. They think Carter can do a lot more and they believe his "commitment" to try.

But they do not intend to wait forever. Despite indications in Yeman that Carter may finally be moving the U.S. out of dangerous acceptance of the Soviet strategic drive, the Saudis are not sure. They watch the world balance of power carefully, and they have not been embarrassed by recent displays of Soviet affection, no matter what they say publicly.

If Israel can continue to resist American pressure for a comprehensive Mideast settlement, Saudi Arabia will mark it down as a failure of will and power - another downward notch in the shifting balance of power. Given the Saudis' new sense of their own world influence, that could and probably would mean an unpleasant change in one of the most fruitful relationships Washington still has going

Stock market mixed

NEW YORK (AP) Gambling stocks jumped ahead while the rest of the market drifted lower in slackened trading Monday.

The Dow Jones average of 30 industrials, which had climbed almost 60 points over the past five weeks, slipped 1.99 to 873.70.

**New York Stock Exchange** volume dropped off to 27.23 million shares from Friday's total of 34.71 million.

Among the Big Board volume leaders, Caesars World climbed 41/4 to 66% as of the 4 p.m. close in New York; Hilton Hotels added 2 to 32%; Bally Manufacturing 3 to 691/2; and Holiday Inns 13/4 to 18%

Resorts International class A shares, up 134 at 49%, topped the active list at the American Stock Exchange

The daily tally on the NYSE showed about five losers for every three stocks that advanced. The exchange's composite index dropped .16 to 57.88.

Standard & Poor's index of 400 industrials lost .39 to 114.85, and S&P's 500-stock composite index was down .31 at 102.87.

General Public Utilities led the active list, off 1 at 13. The stock stood at 17% before the accident in late March at GPU's Three Mile Island nuclear power plant near Harrisburg, Pa.

The American exchange's market value index fell .64 to

In the over-the-counter market, the NASDAQ composite index eased .01 to 133.74. Toys R Us dropped 1/2 to 161/2 bid despite the company's report of higher quarterly earnings.

**BUSINESS MIRROR** 

## **Descriptions** aren't precise about profits

By JOHN CUNNIFF

NEW YORK (AP) — In speaking of profits, especially before they're made, descriptives such as excessive, windfall, ripoff, underserved, and enormous usually reflect an attitude rather than a mea-

There is no dearth of profit measurements. Precise records are kept for practical reasons, such as determining corporate health, taxes owed, cash distributions to shareholders, funds to be reinvest-

Last year was a good one for profits, with corporations reporting a 17 percent after-tax increase over 1977, according to figures compiled by Citibank. Return on investment was 16 percent, on sales 5.2 Whether these numbers are excessive is a matter

of judgment. They do show an improvement return on investment in 1977 was 14.9 percent, on sales 5 percent — but few records were set and few even approached. Since its figures were derived from returns by

2,491 publicly-held companies (with after-tax profits of \$98 billion on sales of \$1.7 trillion in 1978), Citibank's survey is considered authoritative. It shows that as an industry, petroleum production

and refining earned more net income than any other industrial category, some \$14.9 billion, a 12 percent increase over 1977's \$13.3 billion.

But, as oil company officials anxiously remind the public, big is relative. Their investment is huge, they point out, nearly \$104 billion in 1978. From that investment they received a return of 14.4 percent. Is 14.4 percent large? Not when measured against

the 16 percent average of all manufacturers. Nor is it large when matched against the 20-plus percent return earned by many consumer products manufac-

The baking industry, for example, earned 20.3 percent for its shareholders. Soft drink manufacturers earned 22.8 percent, drug & medicine producers 21.5, and soap-cosmetic concerns 20.8.

The other common measurement, return on sales sometimes gives a different picture, but mainly because of the varying nature of businesses. Last year the return rose slightly, to 5.2 from 5 percent. Once again, oil companies fell below the average

retaining 4.8 percent of their sales, a percent almost imperceptibly higher than in the previous year. And 1979? That now becomes the big question.

With price controls being phased out for U.S.-produced crude oil, President Carter has strongly ex-

pressed his belief that oil company profits will be excessive unless pared to size by taxes.

His choice of words has especially angered some corporate executives. What, they ask, does he mean by excessive, windfall, enormous, ripoff, underserved - words he used in seeking support for an oil-profits tax?

In defense of their companies - and they say, in defense of the free enterprise system - more each year include in their annual reports a breakdown of

General Motors, which reported sales last year of \$53.5 billion, notes on the opening page of its report that 32.7 percent went to employees, 51.8 percent to suppliers and 8.1 percent to taxes.

Compare those figures, it seems to say, with the 2.8 percent retained for "use in the business," and the 2.7 percent distributed to nearly 1.3 million share-holders, the people who actually own the company.

Corporations maintain it is only by breaking down the big numbers - by return on equity, return on sales, profits in relation to other years and the distribution of revenues - that a fair picture

"Excess," they maintain, is immeasurable. Especially in advance.

## Turkey might get Kurdish nationalism

ment fears the upsurge of Kurdish nationalism in western Iran is spreading across the border to the 6 million Kurds in rugged eastern Turkey.

"Domestic and foreign elements" seem intent on dividing Turkey, says Premier Bulent Ecevit. "There seem to be some foreign elements who expect developments in Turkey similar to those in Iran, and some domestic elements fancy they could start these developments." Sen. Kamran Inan, a Turkish Kurd, charges the

Soviet Union is fomenting trouble in Kurdistan, which includes 2 million Kurds in oil-rich northeast Iraq, 4 million in northwest Iran and the 6 million in Turkey. "Their aim is to set up a separate pro-Moscow

state in Kurdistan," said the senator.

The ouster of Shah Mohammad Reza Pahlavi and the disintegration of his army revived the hopes for independence or autonomy in the Iranian Kurds. After a brief but bloody rebellion late last month in the capital of Iranian Kurdistan, the revolutionary Iranian government promised greater autonomy to the Kurdish areas.

The fall of the shah also revived the hopes of the 2 million Kurds in northwest Iraq, whose long war for independence collapsed in 1975 when the shah made peace with the Iraqi government and cut their supply lines through Iran. "The downfall of the shah has liberated our forces

from one front," Iraqi Kurdish leader Celal Talabani told a team of Turkish journalists who visited his mountain stronghold earlier this year. Ecevit confirmed a report leaked from the nation

al security agency that weapons are being smuggled into eastern Turkey despite martial law imposed there after 107 persons were killed in fighting be-tween rival Moslem sects in the southeastern town of Kahramanmaras.

# Senators mull response to future nuclear mishaps

WASHINGTON (AP) — A Senate panel is considering a plan to set up quick-response teams of government nuclear engineers to rush in and take control of any nuclear plant at the first sign of an accident.

The fact that the Nuclear Regulato-

The fact that the Nuclear Regulatory Commission did not take charge of the Three Mile Island plant until three days after last month's accident began is the focus of a hearing today

by the Senate nuclear regulation subcommittee.

All five NRC commissioners were to be present to explain their roles in the Pennsylvania accident's aftermath.

"The NRC is on trial in terms of this accident and its response to it," the subcommittee chairman, Gary Hart, D-Colo., said in a prepared statement.

The hearing comes a day after the head of a federal advisory committee said a gauge-reading problem may have contributed heavily to the accident and could pose a similar hazard at more than 40 other reactors of the same general type.

same general type.

Raymond Fraley, executive director of the Advisory Committee on Reactor Safeguards, said Monday night that the committee has recom-

mended to NRC Chairman Joseph Hendrie that the NRC consider requiring additional instruments on the reactors to correct the problem.

Fraley said the NRC staff found that an instrument that was supposed to show the water level in a pressurizer may have given a false reading because of its design, fooling plant operators into shutting down an emergency cooling system which had come

on automatically.

Hart has said he will introduce a bill requiring the NRC to monitor continuously all commercial atomic reactors—either by remote control or by having an inspector on the sites.

This monitoring system would be augmented by special "crisis management" teams of atomic scientists and engineers who would take control of nuclear plants at the first signs of trouble, Hart said.

An NRC team eventually took control of the stricken Three Mile Island reactor March 30 — the third day of the accident. At a hearing last week before another Senate panel, Hendrie conceded, "We were not as fast getting to the site with a team as we might have been."

## **Suppliers** agree diesel supply short

AUSTIN, Texas (AP) — Suppliers of diesel oil to West Texas farmers agreed Monday there is not enough to meet the demand but they had no cures unless they can get more crude oil to process.

"We've been operating at 100 percent of our crude capacity in our refineries in El Paso and Amarillo," said R.R. Dickenson of Texaco. "We are supplying 110 percent of last year's demand now.

Dickenson and a group of other oil refiners and suppliers appeared before a Senate subcommittee looking into the diesel shortage.

The testimony followed a hearing last week where dealers said they had sold out of diesel allocations made them by distributors.

"We have an extremely low inventory but we hope to catch up by mid-summer," said Bob Heard of Diamond Shamrock. "This follows an unusual high demand last fall and

"If we could get more crude we could refine more diesel," said Fred Hansen of Sothern Union. "There are two reasons that everyone has extremely low inventories now. One is the nationwide crude shortage caused by the Iran situation and the second is. the unprecedented demand from West Texas.'

"We are running crude to the maximum of our capacity," said Tom Royal of Pride refinery in Abilene. "We make about 5,000 barrels of diesel a day and it all goes ... another point is that we also sell diesel to drilling rigs and we must see they keep drilling.

Royal said if the crude situation did not improve, his refinery's committment for diesel would be cut in half in

## Complaints increasing

WASHINGTON (AP) - Complaints about price gouging by oil and gasoline dealers are increasing, the Department of Energy said Monday.

Spokesman Bill Webb said the calls have picked up in the last three to four weeks, although exact flures were ot immediately available.

Since the department opened its hotline to take complaints from the public on Jan. 8, he said, there have been 2,508 calls.

Early in the program most of the calls were about heating oil; now more and more concern gasoline, Webb said.

He said when a complaint is received the figures are checked and if auditors feel there is a violation a letter is sent to the dealer involved asking for an expanation. Webb said 1,031 such letters have been sent out.

If the explanation by the dealer is inadequate, auditors are sent to check the books, Webb explained. He said 51 audits have been launched, with 37 of them having been completed.

These audits have resulted in 12 dealers being sent notices of probable violation of pricing regulations, and they have 30 days to respond.

The department can then go to court to force them to lower prices and to seek fines. A dealer can be subjected to fines of up to \$2,500 a day in civil court and, if criminal action is taken for a willful violation of the law, the fine can be as much as \$10,000 a

No fines have been imposed so far, Webb said, explaining that the whole process can take as much as a year.

Persons who feel they have been overcharged can call the hotline toll free at 800 424-9246. In Washington, D.C., the number is 254-5474.

## North Slope oil firms lose

JUNEAU, Alaska (AP) - A Superior Court judge has ruled that North Slope producers cannot charge the state a share of conditioning crude oil before it flows through the trans-Alaska pipeline.

The decision by Judge Allen T. Compton Monday is almost certain to be appealed to the Alaska Supreme Court. According to assistant attorney general Bob Maynard, the ruling in

favor of the state will amount to about \$1.3 billion over the life of the Prudhoe Bay field, which is expected to decline production in the

The state sued the Prudhoe Bay producers in 1977 to settle a dispute over the language of the state's oil and gas leasing laws and the actul language of the leases. Producers say the lease forms themselves take precedence over the

state's leasing law, and that the leases permit them to charge the state a share of the cost of cleaning and dehydrating the oil. The state maintains that its laws demand that the 12.5 percent royalty payments to the state is free and clear of the conditioning

Iran's revolution

# Schlesinger reports

By J.P. SMITH

WASHINGTON - Energy Secretary James R. Schlesinger said Monday that Saudi Arabia, the world's leading oil exporter, is reducing its production, which could further tighten world oil markets and add some upward pressure on prices.

in the Organization of Petroleum Exporting Countries (OPEC), produced up to 10.5 million barrels of oil a day in January, but has reduced production

Energy Department officials said the reduction is expected to cut the Saudis' average production during the second quarter to 8.5 million barrels a day, down 1 million from March production levels.

While the reduction will take some slack out of the world oil market, it will not result in significant added spot shortages, officials said.

SAUDI OIL Minister Sheik Zaki Yaman has said repeatedly that Saudi Arabia would reduce production as soon as Iran restored its oil exports. Iranian exports, which were shut down totally during January and part of February, rose to 2.7 million more than 3 million Monday, according to DOE officials.

A senior administration official said, "The Saudi goverment has made its views on production cuts known to Aramco." The Arabian American Oil Col, a consortium made up of Exxon, Mobil, Standard Oil of Calif. and Texaco, produces the bulk

James V. Knight, Aramco's Washington vice/president, said Monday night that he could not verify Schlesinger's comments on a cut in production, adding that the Saudis, rather than Aramco, will make their inten-

# U.S. shows guarded optimism after gas talks

By LEONARD GREENWOOD The Los Angeles Times

MEXICO CITY - The United States and Mexico have reopened talks on the possible sale of Mexican natural gas to the United States and the talks are going well, informed sources said Monday

The talks, believed the first since the United States rejected a Mexican gas proposal in 1977, are expected to be continued in the weeks just ahead, the sources said.

"We all came out of the first conversations with very guarded opti-mism," one source said, "but we still have a long row to hoe.

Moreover, Mexico has made no secret of the fact that it has a much higher price in mind today than the price mentioned in 1977.

The talks took place here Tuesday and Wednesday of last week, but in the emotional atmosphere that fol-lowed U.S. rejection of Mexico's first offer, neither side would even confirm that the talks had been resumed.

The U.S. negotiators were led by Julius M. Katz, assistant secretary of state for economic and business affairs. He was accompanied by Harry Bergold of the Department of Energy and other officials.

The Mexican negotiators were led

## **Payments** could soar

WASHINGTON, D.C. - Careless application of incremental pricing provisions of the Natural Gas Policy Act of 1978 could cost America an additional \$2.5 bilion in foreign oil payments next year, American Gas Association President George H. Lawrence said.

In testimony before Commissioner George Hall of the Federal Energy Regulatory Commission (FERC), a gas industry panel composed of Lawrence, Edmund Schroer, president and chief executive officer, Northern Indiana Public Service Co., and Maurey Halsey, vice president, cent survey conducted to determine the impact of implementation of a mandatory higher cost gas pass through provisions of the Natural Gas Policy Act of 1978 could drive potential industrial customers away from gas to imported oil.

"The resultant higher prices to residential consumers conbined with the ever higher foreign oil bill would be a double blow in the battle against inflation. But with effective implementation based on realistic and timely alternate fuel price determinations, this need not happen," Lawrence emphasized.

is designed to pass through the cost of higher priced increments of new gas to industrial customers using more than 300 million cubic feet per day in

smaller, local area, 741 to 816 billion cubic feet of gas would be replaced by

The increase of \$2.5 billion in possible added foreign oil cost, he said, is based on a forecasted price of almost \$17 per barrel in 1980.

He noted that using the No. 6 price level over a smaller price-averaging region would benefit residential consumers by enabling gas utilities to maintain a more balanced load and by spreading the fixed costs of distribution and transmission over a larger base. The A.G.A. recommended that regions be defined on the basis of standard metropolitan statistical areas to permit better assessment of the comparative situations in the industrial merkets for gas vs. fuel oil. "When timely assesments in these areas show that No. 2 fuel oil is the actual alternate fuel, it would be so designated, but because the potential adverse consequences are so severe, this should be done only with great caution," Lawrence urged.

"It makes no sense to increase foreign oil use when this nation is trying to improve its balance of payments, curb inflation and move in an orderly manner to develop increased domestic energy supplies. Nor does it make sense to disrupt the gas industry's highly efficient operations at the very time when such efficiency is an effec-

available, and we project that with proper implementation of the energy bill and reasonalbe regulatory aplong-tern supplies of clean, economical gas energy far into the future," Lawrence said.

The A.G.A. survey covered 40 gas utility companies which accounted for 60 percent of the industrial gas sales in the U.S. suring 1977. by Juan Eibenschutz, director general of energy in the sub-secretariat of mines and energy of the Department of Natural Resources and Industrial Development.

After the talks, the U.S. negotiators returned to Washington to report to President Carter. Both sides are now assessing the

chances of continuing the talks," one source said, "but the atmosphere indicated that they will meet again in the near future. He said that because of Holy Week,

when many senior Mexican officials are away from their offices, no further meetings are likely this week. He said the talks are expected to be resumed soon after Easter.

"The talks were very preliminary," the source said. "We were exploring at this stage if there was any common basis for further discussions and it was decided that there is. Whether anything will come out of the talks in the end remains to be seen. The atmosphere was generally cordial but in this kind of exploratory talks everyone was hedging his bets a bit."

The emotional atmosphere stirred up in both Mexico and the United States by the U.S. rejection of the first Mexican offer marred the start of President Carter's visit to Mexico in February.

But at the end of his three-day visit, Carter and Mexican President Jose Lopez Portillo agreed to begin government-to-government negotiations on a fair pricing system for gas sales to U.S. customers.

In 1977 the Carter administration cancelled a pact negotiated by six private U.S. companies to purchase natural gas from Petroleos Mexicanos (Pemex), the Mexican state oil monopoly. It said the price - \$2.60 per 1,000 cubic feet of gas - was too high and would put an unfair burden on American consumers.

But it was not only the potential reaction of U.S. consumers that made Washington apprehensive at that time. Canada sells natural gas to the United States for \$2.16 per 1,000 cubic feet and warned that it would raise the price if Mexican gas was bought

The Mexican offer was to sell 2 billion cubic feet a day to the United States, delivered by means of an extension of the gas pipeline Mexico was building from its southern gas wells to the northern industrial city of Mon-

At the time, Mexico was negotiating financing for the new pipeline and financing was linked to a U.S. sales contract. When the sale fell through, mexico returned its credit application to the Export-Import Bank in Washington and borrowed \$1 billion instead from a European consortium.

The pipeline to Monterrey, without the extension to the order, was inaugurated March 18 by Lopez Portillo. Mexican officials have made it clear that any new purchase price would not be as low as the figure mentioned in 1977.

Pemex chief Diaz Serrano said last month that Mexico's price now would be about \$3.15 per 1,000 cubic feet.

While President Carter was visiting Mexico, U.S. officials traveling with him said that the government-to-government talks would be to establish price parameters and that the negotiation of contracts would be carried out by private U.S. companies with those parameters.

## Fuel rates increased

AUSTIN, Texas (AP) - More than 2,000 Panhandle customers of High Plains Natural Gas Co. will be paying higher gas utility bills following action Monday by the Texas Railroad Commission

The commission allowed the company to raise prices from \$1.24 per thousand cubic feet to \$1.32 per mcf. The new rates are below what the utility requested, but above what municipal jurisdictions had approved.

Some 2,350 residential and commercial customers in Spearman, Perryton, Booker, Canadian, Higgins and Mobeetie will be affected.

## Comment on controls makes for hubbub

WASHINGTON (AP) - What inflation fighter Alfred E. Kann said - or seemed to say - about alternatives to the nation's voluntary anti-inflation program has caused more than a little hubbub in the capital.

Kahn, chairman of the Council on Wage and Price Stability, told an AFL-CIO gathering Monday that both he and President Carter )re opposed to such non-voluntary anti-inflation measures as mandatory wage and price controls or a tight monetary policy that might result in recess-

But he added, "An honest person has got to admit that if this (voluntary) program doesn't work, we may get one or another of those alternatives, whethe we like it or not."

The hint that mandatory controls might be on the way drew a quick denial from the White House, and eventually from the wage-price council. But the comments come at a critical time for the inflation fighter and the Carter administration.

The voluntary wage and price program, announced by Carter last fall, has not yet begun to make a dent in inflation, which has been going up so far this year at an annual rate of more than

Labor, particularly the striking Teamsters union, has begun challenging the 7 percent ceiling on wage increases. And the owners of many small- and midsized businesses appear to be ignoring the price limits altogether, both Kahn and the president have charged

Meanwhile, the business community has grown increasingly skeptical about the future of the voluntary program.

A January-February "business confidence" survey taken by the U.S. Chamber of Commerce and Gallup pollsters indicated 83 percent of some 1,000 corporate executives think "the federal government's voluntary wage-price control program will be mandatory during the next two years.

When the Chamber of Commerce first asked the question in a poll in the fall of 1977 - a full year before the voluntary guidelines were introduced - only 34 percent thought a mandatory program was likely, said James Morris, a senior economist with the business group

Kahn's statement, made at a kickoff rally for the AFL-CIO's national price monitoring program, did emphasize the government's commitment to its

voluntary guidelines. "My bottom line is simple: Given the rather grim nature of the alternatives available to us, we really have no choice but to pursue our present course, but with increased intensity," Kahn said. But the sentence about what happens "if this program doesn't work" caused a bit of an up-

## BRIDGE

## Believe opponent's bid in playing hand

By ALFRED SHEINWOLD Forewarned is forearmed. If an oponent tells you where all the missing high cards are, use the informa-

If East kept quiet in today's hand South would try the diamond finese, losing one diamond, one club and two spades. Since East's notrump overcall made it clear that the diamond finesse wouldn't work, South forced East to lead diamonds.

Declarer took the ace of hearts, ruffed a heart and led a club. East captured dummy's king and returned a club to the queen.
RUFFS GOOD CLUB

South next led a spade, losing dummy's queen to the ace. The spade return went to the king, and South ruffed a good club in dummy in order to ruff another heart. Then he cashed his last club and led his last trump to give East the lead.

With only diamonds left, East had to give declarer a free finesse and his game contract.

DAILY QUESTION As dealer you hold: S-AJ10; H-KQ8; D-Q109; C-A984. What do you say? ANSWER: Bid one notrump, prom-ising 16 to 18 points in high cards, balanced distribution and strength in at least three suits.

Both sides vulnerable

#### Presidential press secretary Jody Powell responded first. Powell said "absolutely not" when asked at a

White House news conference if Carter were thinking of asking Congress for authority to impose mandatory controls. Kahn, Powell said, "in no way meant to imply that this president would under any circumstances

impose wage and price controls.' Later in the day, the Council on Wage and Price Stability issued a statement "to clarify"

Kahn's remarks. "There seems to be confusion about what I said at the AFL-CIO's price-monitoring rally,' the statement quoted Kahn as saying. "I was only pointing out that the alternatives to the kind of voluntary anti-inflation program we have today are either a recession or mandatory controls. Both of these are unacceptable.'

Yet businessmen remain skeptical. Economist George Hagedorn of he National Association of Manufacturers said the guidelines program has failed. And he added, "Since there are no good options in the short term, the administration is showing signs of desperation, and you

can't predict what a desperate person might do. One group that did not challenge Kahn's remark - or ask for clarification - was the labor group he addressed. The AFL-CIO and its president, George Meany, have long been on record as in favor of mandatory wage and price limits.

## Now Evans will fight court's death sentence

MOBILE, Ala. (AP) -John Louis Evans III, who last week demanded to die in the electric chair, is now ready to challenge the constitutionality of Alabama's 1975 death penalty law,

his lawyer says. But attorney Reggie Stephens, chosen by Evans to represent him in his fight to die, said Monday that Evans doesn't want such a challenge to leave him on death row for a year or more while courts review the case.

Meanwhile, written arguments against Evans'

execution were expected to be filed today with the U.S. Supreme Court by attorneys for Evans' mother, Betty Evans, of Beaumont, Texas.

Supreme Court Justice William Rehnquist, in a decision announced six hours before Evans's scheduled execution, agreed last Friday to stay the death sentence for one week pending a full-court review of the mother's petition.

If a majority of the court refuses to stay the electrocution for further review of issues raised in the mother's appeal, the Alabama Supreme Court must then fix a new date for Evans' death. The court's practice in past years has been to set a new date at least 30 days from the time of the announcement

If the U.S. Supreme Court agrees to stay the execution further, it ap-parently would take months to resolve legal questions raised in the appeal by Evans' mother. Among other things. she questions if her son is mentally competent to understand his legal op-

Evans was sentenced to die under Alabama's 1975 death penalty law for the 1977 robbery-murder of Mobile, Ala., pawnshop owner, Ed-

ward Nassar. Meanwhile, in Green-ville, Miss., U.S. District Court Judge Orma R. Smith stayed the Wednesday execution of convicted murderer

Charles Sylvester Bell. Smith ruled that a federal court should review Bell's conviction and sentence "to see whether the constitutional rights of the defendant were violated."

Bell, 22, was convicted in the 1976 shotgun slaying of a Hattiesburg, Miss., service station attendant, Danny Haden.
