Meanwhile, as tornado-whipped dust settled on both sides of the Texas-Oklahoma border, residents of three other devastated communities got a clear view of what happened

Carter declares disaster area

WASHINGTON (AP) - President Carter today declared Texas a major disaster area as a result of the tornadoes and other severe storms that hit the state Tuesday and Wednesday.

Carter's declaration, issued by the White House shortly after the president left for an Easter vacation in Georgia, will make federal funds available for relief and recovery efforts in designated areas of the state.

Texas Gov. Bill Clements estimated the cost of rebuilding at and left the two-state death toll at 57

Eleven persons were killed in nearby Vernon, one in Harrold and three in Lawton, Okla., across the Red

As the stricken areas sought to recover, a new swarm of tornadoes struck Arkansas, Alabama, Missouri and Kentucky on Wednesday. There were no reports of deaths, but Missouri officials reported 16 persons injured while Arkansas officials said 44 were injured.

Texas Gov. Bill Clements toured the area by helicopter and estimated property damage at between \$200 and \$300 million. He said he expects federal disaster aid for the storm-raked

Sen. John Tower, R-Texas, returned to his hometown of Wichita Falls and said, "I've seen the damage of hurricanes, a tornado, of American bombers over Japan, but I never have seen one equal to this in terms of

More than 800 persons were injured by the twisters that hit "Tornado Alley," most of them in Wichita

Hospitals were filled to capacity as they treated about 500 persons. An additional 200 persons were treated

Carter backing down on curbs

No legislative proposals or regulatory actions in the works

curbs on the use of new oil profits, and officials concede they have no clear idea how such retrictions would even be fashioned.

No legislative proposals or regulatory actions are in the works, say officials at the White House and the Energy and Treasury departments. Some concede it would be difficult to come up with workable ideas.

Carter, in a nationally televised speech last week, pledged to "demand that they (the oil companies) use their new income to develop energy for America, and not to buy such things as department stores and hotels, as some have done in the past."

But that line, a White House official, requesting anonymity, said, was inserted without fully exploring how Carter could enforce investment curbs.

Then, at Tuesday's news conference, the president added circuses and timber lands to the list of oil company investments of which he disapproves.

"I would favor," he added, "any constraints placed on the oil companies by the Congress or administratively within my own sphere of influence to encourage that use of increased revenues for oil and gas production."

Carter said oil companies will net \$6 billion over the next three years from his decision to lift oil price controls, even if Congress enacts his proposed "windfall profits tax" on the new income.

ment investment curbs.

"Our hope and our belief is that such action will not be necessary, that these companies will in fact act in a responsible manner," he said.

Powell refused to discuss how restraints on oil company profits would work. "Thought has been given to that," he said. "There are various ways ... I'm not going to get into that now. ... I don't consider

But other officials said little attention had been given to the idea of profit curbs. Energy Department spokesman Jim Bishop said "nothing solid" was in

A White House official, asking not to be named, said "the administration hasn't fully explored" the idea. "We killed ourselves to get the program

out on time." The reference to demands that profits be plowed back had been added almost as an afterthought, he

Powell suggested cryptically that tax legislation might be drafted to encourage plowing back profits. "The history of taxation in this country is ... very much a history of structuring taxes to encourage or discourage certain types of spending and

behavior," he told a reporter. But a Treasury Department official, who is draft-

WASHINGTON (AP) — The White House is back-ing away from President Carter's threat of federal Wednesday backed away from the threat of govern-tounded at the suggestion.

"You've got me," he said. "I'm not aware of any plans to do it through the tax system."

The official, who asked not to be identified, said the only way he could think of accomplishing investment curbs through taxation would be to tax away every cent of the profits from decontrolled domestic oil. then give back some of the money in tax credits for specifically approved investments. Such an approach is far from the 50 percent tax Carter pro-

Meanwhile, oil industry officials said that some of Carter's investment criticism was off the mark.

The president's reference to circus purchases was aimed at Gulf Oil Co., which says it held only a single discussion in early 1974 about buying Ringling Bros. and Barnum & Bailey for its Florida land holdings. Gulf, which at that time had heavily invested in real estate, has since sold its land in favor of energy

Carter also referred to timber lands and hotels. Exxon, however, has sold off its European hotel holdings and Sohio unloaded its interest in the Hospitality Inns chain, according to Nicholas Gal, a financial analyst for the American Petroleum Insti-

West Texas winds gust through Midland area

By RICHARD MASON SUSAN TOTH Staff Writers

West Texas winds - gusting to 69 mph - blew with a vengeance Wednesday, scattering dust and pushing their way into Midland conversations.

Confused neckties went in opposite directions around necks and dresses fluttered wildly. Hats, too, developed "lives" of their own, vaulting from heads as they sought freedom in winds which ranged from 35 to 50 mph

most of the afternoon. Building glass groaned from the pressure downtown and city workers blocked Wall Avenue between Colorap.m. Wednesday because of the threat of falling glass from The First National Bank Building renovations.

While the barricades were supposed to come down by 8 p.m., an apparent oversight left them in place for the downtown morning rush hour today. Only the wind whistled in Midland

Wednesday. Reactions to the breath-taking wind were varied.

An older woman glanced through the glass doors of The First National Bank Building downtown and shook her head with stoic resignation.

"It hasn't let up yet," she said. Ominously, the glass rattled back. At the Midland Inn, two mechanics

wrestled with the glass doors as they (See WINDS BLOW, Page 2A)

County to begin rental subsidies

By LINDA HILL Staff Writer

After more than a year of indecision and false starts, the Midland County Commissioners Court Wednesday made a commitment to begin a rental subsidy program in the unincorporated portions of Midland County.

The commissioners Monday had voted to apply for funding from the U.S. Department of Housing and Urban Development for rental subsidy, but still had a lot of questions Wednesday for Mary Teemley, HUD representative from Dallas.

That Monday vote was 2-0, with Commissioner Durward Wright abstaining and Republican Commissioner Win Brown, most vocal opponent on the court to the program, absent.

Wright complained that the county had begun action once before to start the program, but changes in HUD policy forced them to stop and start

"It seems like every time we get in a position to go, the rules change," said Wright.

Wednesday, the commissioners voted 3-0 (with Brown still absent) to contract with the Midland Housing Association to administer the 20 units

for which the county will apply.

Ms. Teemley said once the rental subsidy application is received, the county's application for \$230,000 in 1977 unallocated Community Development funds will be approved. That money is to be used for paving in low-income areas.

Under the rental subsidy program,

said Ms. Teemley, the first step will be to approve an application by an individual to participate.

The basic requirement will be that the family income be no more than 80 percent of the median income level for the county. Other considerations include how many persons make up the household and such things as extra medical expenses.

Then, she said, the family will have to find a rental unit which qualifies for the program by meeting HUD standards for housing - to include having a rent not above that determined as the "fair market rent" for the area.

"You're not involved in finding the units for them," she explained to commissioners.

When the family moves in, HUD

will pay the difference between the rent and 25 percent of the family income, she said.

Ms. Teemley claimed that HUD housing standards are less stringent than many city building codes, but are enough to assure "safe, decent, sanitary housing."

HUD will provide money to administer the program, but the exact amount, as well as what the "fair market rents" are, is subject to complicated computations by HUD.

If the program is started and not enough renters or units qualify to fill even the intitial 20 units, the program likely will be canceled for Midland County, said Ms. Teemley, but "you will have met your obligation" for purposes of getting the Community Development funds.

Triskaidekaphobes beware

Friggaphobiacs also warned that first of 1979's double whammy is upon us

WASHINGTON (AP) — Millions of Americans are superstitious about \$2 bills. But some might even shun a \$1 bill because it has 13 stars above the eagle's head, 13 arrows in one talop and an olive branch with 13 leaves

Such types are extreme triskaidekaphobes, people who fear the number 13. And they face a double whammy this year with Friday the

13th tomorrow and a second jar coming in July.

Friday fraidies? They're friggaphobiacs, after the Norse goddess
Frigge. On Friday, Eve tempted Adam, the great Biblical flood started, the Temple of Solomon fell and Christ was crucified, to name origins.

On Friday the 13th, triskaidekaphobia and friggaphobia combine to create the worst problem. The economy slows as businessmen shun deals, restaurant dining declines and even shopping and marrying are Operators of ocean liners hold ships until at least 12:01 a.m. Saturday following a Friday the 13th. That's to calm the superstitious, not because the H.M.S. Friday, whose construction was started on Friday, set off on

its maiden voyage on a Friday and was never heard of again.

For fear of plain 13, airlines omit Chair No. 13 and real estate men the 13th floc in hotels and skyscrapers. House numbers in France skip from

Back in the 1950s, the town of French Lick Springs, Ind., tried to help the cause by ruling that all black cats had to wear bells on Friday the

The day has some historic credits, including: Friday, June 13, 1498 -Columbus first set foot on the North American continent; Friday, Oct. 13, 1792 — construction began on the White House; Friday, Sept. 13, 1814 — "The Star Spangled Banner" was written. And on a timely note, on Friday, Aug. 13, 1943, gasoline rationing was

cut from four to three gallons a coupon.

How to foil the whammy? Some methods used through the ages: Leave your hat on in elevators. Wink at white horses. Whistle while passing a

graveyard. Don't stir coffee with your knife. Dop't open an umbrella indoors and don't pick up safety pins on the street. Babe Ruth alwys touched first base for luck while heading for the

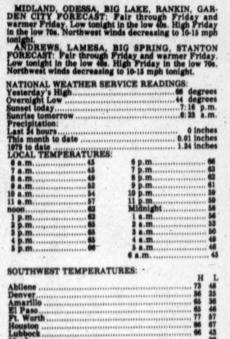

outfield on a Friday the 13th game. But voluminous sports statistics include no record of the Babe's batting average for those days.

Foes of superstition have organized to fight fear of 13. A group in

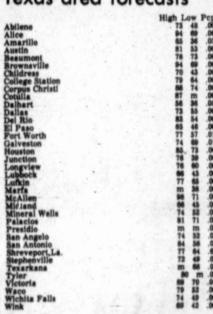

London called the Thirteen Club made international news years ago with dinners at which thirteen were always present. Between courses, members smashed mirrors and spilled salt.

Rain is expected in the forecast period until Friday morning for mot of the East. Rain is also forecast for Minnesota and the eastern Dakotas. Cold weather is forecast for the northern Plains, but most of the nation will be mild. (AP Laserphoto Map)

Teamsters officials lash out at inflation adviser Alfred Kahn

WASHINGTON (AP) — Angry Teamsters officials say President Carter's inflation adviser is encouraging a rank-and-file contract rejection by hailing the union's tentative agreement with the trucking industry as a victory for the president's elastic wage guidelines.

"This idiot out there is trying to shoot down our contract with his idiotic statements," union spokesman Bernard Henderson charged Wednesday after inflation adviser Alfred Kahn declared that the settlement meets Carter's 7 percent pay raise standard even though the union and industry estimated wage and benefit increases totaled more than 9 percent

Kahn also said the increase in wages and fringe benefits in the new contract is "substantially less" on a percentage basis than in the last contract negotiated by the union.

That comment in particular threw Teamsters President Frank Fitzsimmons into a rage, said union spokesman Henderson.

It is understood that other administration officials also were alarmed by Kahn's statements, fearing a rankand-file backlash that would send negotiators to the bargaining table once more in search of a settlement that, the next time around, would break the

"It's as if he (Kahn) is deliberately trying to sabotage ratification," said Henderson, who called Kahn's comparisons between the new and old contracts "absolutely, totally incor-

A Kahn aide later acknowledged the new contract might provide more new money than the old pact. Henderson said it will take about

four to six weeks to complete a ratification vote. Meanwhile, the union and major trucking firms prepared to resume normal operations today for the first time since April 1, when the two sides

became locked in a nationwide work stoppage over the contract dispute. The two sides agreed to end an industry lockout of striking Teamsters after reaching tentative agreement on a new three-year contract. late Tuesday, but did not complete details of a back-to-work agreement until Wednesday. About 500 major trucking companies and 235,000 Teamsters were affected by the dis-

The 11-day shutdown, the longest in U.S. trucking history, had little impact on the economy except for the auto industry, forced to cut production and furlough nearly 100,000 workers due to shortages of parts normally delivered by truck. Auto industry officials said they did

not expect to be back to normal production until next week.

The administration, which has

guidelines, hailed the settlement Wednesday even as it admitted it had once again loosened the standard to accommodate the giant union, but hadn't told anybody.

key test of Carter's wage increase

The latest change, the administration disclosed, exempts contract increases that improve union retirees' pensions

Both the Teamsters and the industry estimated that increases in wages, cost-of-living adjustments and fringe benefits under the new pact total about 30 percent over three years - or slightly more than 9 percent a year plus compounding.

But the administration, using a lower projected inflation rate to estimate future cost-of-living adjustments, says it calculates total increases at 27 percent - 8.3 percent a

After deducting 4.5 percent worth of contract costs that are exempt from the guidelines - such as increased payments to maintain the value of pension and health insurance benefits

- the contract increases total 22.5 percent, or 7 percent a year, the

Big Spring's city manager resigning to enter business

BIG SPRING - Harry Nagel, Big Spring's city manager for the past 71/2 years, is resigning his job to join his wife, Ruby, in a two-store business operation here.

"I'm tired of city management," Nagel said from his office this morn-

Nagel, 48, said his decision to leave the high-pressure job is "like losing a 10,000-pound load. Nagel said he will be helping his

wife operate two convenience stores. The city manager said he will stay

on the job until after the city run-off election April 28.

Nagel formally announced his intent to resign in a news conference

Wednesday. He said he had planned to make the move two years ago, but Webb Air Force Base here was under threat to close, which it later did, "and I was nervous about business falling off." But Big Spring's economy picked up even after the base, a jet pilot training facility, was closed

Nagel said he was so relaxed over his move that he came to work today without his coat and was considering "shucking" his tie.

Nagel moved to Big Spring in 1971 from Sulphur Springs, where he was

city manager. The Big Spring City Council already has discussed seeking a replacement,

Nagel said his wife got into the

convenience store business in 1975 and opened a second store earlier this year. He said the business venture was planned to get him out of city management work.

Talmadge admits several rules violations

WASHINGTON (AP) — Sen. Herman Talmadge has admitted several violations of Senate rules in an agreement worked out with the Senate ethics committee, but he will continue to fight major allegations of financial misconduct "still hotly in dispute,"

his attorney says. James Hamilton, Talmadge's lawyer, revealed the agreement — though no details — Wednesday, 12 days before the Georgia Democrat is to face a committee "trial" on allegations of breaking Senate rules govern-ing financial dealings.

Hamilton did not say which of the five committee accusations Talmadge was admitting, but The Atlanta Constitution, quoting unnamed committee sources, listed these

-That false claims were made about campaign expenditures and re--That taxes on gifts of stock to

Talmadge's former wife Betty were -That gifts and property were not

reported to the secretary of the Sen-

No agreement was reached on alle-gations that campaign contributions were converted to Talmadge's own use and that expense vouchers were submitted to the Senate for money not actually spent by Talmadge, the

newspaper said.
The accusations concern possible

violations of Senate rules, not federal

Sen. Adlai Stevenson, the committee chairman, said he hoped for a vote in about a week on two Talmadge motions which could have a big impact on the way the committee conducts its hearing.

One motion seeks to exclude evidence taken by Talmadge's chief accuser, former administrative assistant Daniel Minchew, when he left Talmadge's office. If granted, it could leave Minchew without documentation to back up his version of why he opened a secret bank account that was the repository for unreported campaign contributions and for improperly obtained Senate expense ac-

The other motion seeks to require the committee to adopt a strong burden-of-proof standard, a move designed to make it harder for the committee to find the Georgia senator

guilty of any wrongdoing.

Comments made during oral arguments Wednesday indicated at least three of the six committee members have doubts that the motions should be granted.

Those comments came after Talmadge lawyer Hamilton said that to allow use of evidence Minchew took without Talmadge's consent "would condone rummaging through sena-tors' files and disrupt the Senate's

He noted that federal rules of evidence prohibit the introduction of sto-

len documents.

But Sen. Harrison Schmitt, R-N.M. said he found it hard to "see how theft could be applied to retention of records ... that had been received by that person."

Sen. Robert Morgan, D-N.C., agreed with Talmadge's attorneys that Minchew's conduct in taking the documents was questfonable. But he asked why the committee should exclude evidence taken from Talmadge's office when it could use the same evidence if it had been left in the office and subpoenaed by the com-

And Stevenson, D-Ill., asked, "Are we to be prevented from using records of the government simply because they were taken from the government? That seems to me to be compounding the issue.'

The basic issue involved in the proceeding is whether Talmadge was aware of a secret bank account set up by Minchew and whether he knew of the nearly \$40,000 that was funneled

Odessa man listed as stable after 'family feud' shooting

listed as being in stable condition early today after being shot four times on a downtown street here about 8:40 a.m. Wednesday, police officials said.

The wounded man, Leroy Flores Alaniz, 20, drove himself to the police station after the shooting, police From there, he was taken to Medi-

cal Center Hospital. Raul N. Franco, 21, of Odessa, the brother-in-law of Alaniz, was arrested at his home about 20 minutes later.

He was charged with attempted

murder before Peace Justice Manuel

Jail this morning in lieu of \$5,000 bond, officials noted. Police said the incident was the result of a "longtime family feud." The shooting reportedly came after Alaniz's car was rammed by another

Franco remained in Odessa City

Alaniz was shot in the abdomen, right leg, groin and right shoulder with a .22-caliber pistol, according to

police reports. Police said they had confiscated a Nuclear scientists very angry at writer of H-bomb article

MADISON, Wis. (AP) - Howard Morland, author of a controversial magazine article on the hydrogen bomb, says nuclear scientists are angry with him for offering to print research which he says could give citizens a better knowledge of nuclear weaponry.

Writing in the May issue of The Progressive, Morland said scientists were upset because the magazine's 'intentions to publish the H-bomb secret amounted to a threat to flood the market with their currency - the currency of secrecy."

His sources simply discussed matters generally known to thousands of persons in the business, he said, adding he was told frequently "that all my information had been previously published.' On March 26, U.S. District Judge

Robert Warren ordered The

Progressive, a 40,000-circulation news and opinion magazine, not to publish Morland's article. The Justice Department, backed by affidavits from Energy Secretary James Schlesinger and two other members of President Carter's cabinet, said the article's description of

bomb construction could help foreign

powers manufacture nuclear weap-

The Progressive's editors, given 60 days to appeal, say the administration's prior restraint of publication is a violation of the press-freedom guar-

antee of the First Amendment. Morland, 36, a former Air Force pilot with limited scientific schooling, said that, during six months of re-search, he obtained no information

that any journalist couldn't have ob-

tained routinely.

Morland said he discovered that lexicon "passwords" could be used to coax shop-talk data from nuclear au-

"When I made my first doodle of an H-bomb in the spring of 19782" he said, "I was making a rough draft of a membership card for the fraternity."
"Once I knew the 'handshake,' peo-

ple would discuss technical matters with little hesitation," he said. Samuel H. Day Jr., managing edi-

tor of the magazine, said Wednesday more than 20 scientists at Harvard, Princeton, Massachusetts Institute of Technology, the University of Wisconsin and other schools were asked to review the proposed article.

Nine of them filed affidavits saying they doubt it could encourage proliferation of nuclear weapons, he said.

AT LAST. THRILLS & CHILIES IN REFRIED BEANS.

El Paso's about to put a little spice in your life. And a whole lot of temptation.

Introducing our new Refried Beans with Green Chilies. The first refried beans with mild, juicy chili peppers. Plus a pinch of onion. And a delectable dash of garlic.

Serve them alone for a lively side dish that's a snap to make. Or use them to give your favorite recipes extra snappy-flavor.

Cook up an exciting Acapulco pizza. What do you get when you cross an

Italian pizza with spicy Mexican flavor? A new, easy meal that's doubly tempting. For 4 to 6 servings, place a large flour tortilla

on an ungreased cookie sheet and bake for 2 minutes. At the same time, brown 1 lb. ground beef and drain. Stir in 5 tablespoons Old El Paso Taco Seasoning and 3/4 cup water; bring to boil. Reduce heat and simmer, uncovered, another 10-15 minutes. Pour 1 can Old El Paso Refried Beans

tortilla, top with meat. Bake at 425° for 8-10 minutes. Top with 1 cup shredded cheese and bake 2 more minutes. Sprinkle lettuce, tomato, green peppers and Hot or Mild Old El Paso Taco Sauce on top. Turn out scrumptious cheese turnovers.

These party appetizers are so delicious, they sometimes disappear

before the guests arrive. For 12, cut 6 oz. of Monterey Jack cheese into a dozen 3x1x1/4" strips. On each of 12 Old El Paso Corn Tortillas spread 1 tbs. of Old El Paso Refried Beans with Green Chilies. Top each tortilla with a slice of cheese, fold in half and secure with a toothpick. Heat 2 tbs. cooking oil in a skillet. Then brown turnovers 2 minutes on each side.

More about our mouthwatering beans.

Old El Paso also makes savory Refried Beans with Sausage. And, of course, there's our original delicious Refried Beans. Look for them in our convenient section in your store.

Voters had their say

Congratulations and all best wishes are in order for the victorious candidates in last Saturday's city council, school board and hospital district

The voter turnout was exceptionally heavy, something for which all Midlanders well may be proud. Several of the races waxed very warm, almost to the point of boiling, but the campaigning was conducted on a high level, something else for which citizens may be proud.

Carroll M. Thomas and Doris Howbert were the victors in their respective city council campaigns, and Gordon Marcum II was unopposed in his re-election bid. So, the council membership continues unchanged for the coming year.

In the Midland Independent School District balloting, Joyce Sherrod and Parker Humes were the winners in their respective races, while incumbent Ed Runyan faces a runoff for his Place 6 post against Alice M. Greer. Humes and Sherrod are

new members of the board. Ed Magruder, Dr. Henrie Mast and Scott Shelton were elected

ART BUCHWALD Art insists his tennis comes first, regardless

WASHINGTON - In Margaret Trudeau's discreet book, "Beyond Reason," she reveals that she fell in love with another man when she visited New York with her husband, Canada's Prime Minister Pierre Trudeau. to attend the RFK Pro-Celebrity Tennis Tournament. Without naming the person, she describes him as a Southern gentleman, who was tremendously handsome, charming, a terrific dancer and a passionate person.

Since I was at the RFK Pro-Celebrity Tennis party that year, I feel I owe it to the people of Canada to issue an unequivocal denial that I was the chap who played a role in breaking up the Trudeau marriage.

It's true that Margaret and I did dance that evening and, while she may have been smitten with my savoir-faire, I did nothing to encourge her to think there was the slightest chance of our having a more intimate relationship. Friends who know about my personal indiscretions will testify that I have never made a pass at the wife of a head of state in all the years I have been playing tennis.

There are many reasons for this. One is that I know how easy it is for a woman who has to attend one official function after another to fall hopelessly in love with somebody like myself. But I am also aware that she is not falling in love with me but with my tremendous serve and my defen-

It's hard for many women to be-

Art Buchwald

lieve that off the court I am just like anybody else, and while they fantasize about my vicious backhand and unbelievable drop shots, I still put on my sneakers one foot at a time.

It's true that while we tangoed Margaret did reveal to me that all was not going well in Ottawa between her and Pierre. But I thought she was talking about tennis. Many women who play tennis find their husbands are not up to the game, and they tend to look for happiness in someone with a faultless overhead.

A smart player will not be taken in by this flirtation. The stakes are too high. If I ever decided to have a fling with the wife of a head of state, it could be so time-consuming that I might easily let my volley shots go to

Many people have asked me, "Well, if you weren't the person at the RFK party, then who was it?"

It's hard for me to say. There were at least 200 people at the party, 50 of whom could fit the description. The Southern gentleman part of it is a red herring, because most Canadians think anything below the Canadian border is south. Also, Margaret could be disguising the man with whom she fell so madly in love. For all I know it might have been Buddy Hackett or Rosie Grier or Howard Cosell.

I do recall that during one fox trot Margaret asked me, "Who is that beautiful senator sitting with Ethel Kennedy's

"That's Jack Javits of New York," told her. Yet when I think back on it, I don't believe Jack and Margaret said two words to each other all

The revelations in Mrs. Trudeau's book came as a surprise to all of us who have had anything to do with the RFK Pro-Celebrity Tennis Tournament. Because the party precedes the tournament and is held on a Friday evening, Ethel Kennedy has a strict rule that anyone playing in her tour-

I can understand why many people would suspect that I was the great love in Margaret's life, as it seems likely that she would fall for the topseeded celebrity in the tournament. But anyone who knows how much I love tennis will tell you that if I have the choice of a romance with the wife of the Prime Minister of Canada or being in top physical shape to play the next day, I will always be asleep by 11

WASHINGTON MERRY-GO-ROUND

Judge Pratt's pro-FBI bias told

WASHINGTON - Federal judges are appointed for life to guarantee their independence. For this reason, it is essential that they be both honest and unbiased.

We have seen disturbing evidence that U.S. District Judge John H. Pratt of Washington, D.C., tried to cover up an impropriety on the bench, then apparently lied to FBI agents about the incident, and finally tried to get the investigation called off by reminding the G-men that as a judge he has been "very pro-government and especially pro-FBI."

If Judge Pratt was exaggerating his boasted bias to influence the agents, it would be bad enough. Attempting to block an FBI investigation constitutes obstruction of justice.

But if Pratt told the truth about his pro-government attitude on the bench, the implications are even more serious. It would mean that anyone who has appeared before Pratt since his appointment in 1968 was at a crippling disadvantage if the case involved a federal agency.

Our sources tell us Pratt wasn't kidding about his pro-government prejudice. This may explain the Justice Department's reluctance to pursue the investigation of Pratt.

By coincidence, we were involved in the original indiscretion that led to Pratt's more serious misconduct. Crack Washington private detective Richard Bast appeared in Pratt's courtroom on Jan. 30, 1978, and the

judge remarked that "there's a rumor" Bast's Information Acquisition Corp. was "the creature

of Mr. Jack Anderson. Bast truthfully denied the rumor, and Pratt, belatedly realizing the impropriety of spreading gossip from the bench, ordered the entire colloquy deleted from the court record. He did this without consulting the attorneys

in the case, as is required by law. Not long afterward, Pratt's secretary and office manager, Kathleen McTiernan, allegedly ordered court reporter Dennis Bossard to destroy his stenographic tape of the judge's improper remarks. A conspiracy to destroy court records is a felony punishable by up to five years

in prison and a \$10,000 fine, Bossard indignantly refused Mc-Tiernan's order; instead he wrote a memo about the incident minutes after she left. "She told me to tear up my notes," the memo stated: "When I told her I wouldn't do that, she told me to lie and say I didn't take it down.'

Informed of the situation by Bast, the FBI decided to investigate the judge and his secretary. Justice Department officials, - evidently leery of setting the FBI loose on a federal judge and one of their favorites, at that - stalled the investigation for several days.

The FBI agents persisted. Because of the clear possibility of a criminal violation, the Justice Department finally gave a reluctant go-ahead. On Feb. 14, 1978, two agents - ac-

an accumulation of 80 millirems of

radiation from the accident, less than

cognizing that 13 percent of our na-

tion's electricty comes from nuclear

lirem - an infinitesimal amount.

normal year.

power.'

companied by a Justice Department official - interviewed Pratt.

The interview was apparently rocky from the start. When one of the FBI agents read Pratt the standard 'Miranda' warning that he had the right to remain silent and to have an attorney present, the judge "went bananas," according to courthouse sources. He complained bitterly, courthouse source told us, that it was "demeaning" and "insulting" for a federal judge to be read his rights like

The agents asked Pratt whether he had spoken with the court reporter, Bossard, about the incident. They knew he had spoken with Bossard just the day before; the reason they knew it was that they had a secret tape recording of the conversation.

Incredibly, a source at the Justice Dept. told us one of his colleagues wanted to warn Pratt about the existence of the tape before he was questioned about the conversation. But the FBI agents correctly pointed out that this could compromise the case and furthermore, Pratt was not entitled to special consideration.

Pratt told the agents he had spoken to Bossard on Feb. 5, 1978. He was asked repeatedly if he had discussed the case with Bossard "in the interim" - that is, between Feb. 5 and the time of the FBI interview on Feb. 14. Pratt never mentioned the conversation in his chambers the previous day, though the only topic he and Bossard had discussed then was the deleted remarks and the ensuing.

controversy. Our sources say the FBI agents were convinced that Pratt could not have forgotten a conversation he had less than 24 hours earlier, and that he was in fact lying to them. In any case, they have the tape to prove the conversation took place.

Pratt met with the FBI agents again on Feb. 16. Sources familiar with this meeting say the judge remarked that the case against him and his secretary was "cheap" and "not of prosecutable merit," and that interviewing his secretary would constitute "needless harassment.".

He then tried to get the agents to tell him exactly what evidence they had uncovered. The agents properly refused to give him this information. It was then, our sources say, that the judge pointedly reminded the Gmen that he was "very progovernment and especially pro-FBI." It is a credit to the integrity of the FBI agents that they refused to be intimidated by the judge's tactics.

Every man and woman who appears in court has the right to a fair trial presided over by an impartial judge. But Pratt's statement that he 'pro-government and especially pro-FBI's shows that this basic right apparently is not possible in his

Mark Russell says

Time magazine reported that psychiatry itself is suffering from depression. This reminded me of a dentist I knew who couldn't eat corn on

More people are getting into quickie, trendy therapies instead of establish psychiatry. It's difficult for a doctor charging \$60 an hour to compete with an ad that says, "Kick that annoying homicidal maniac habit on your lunch break."

Pop-therapy is all around us. Psychiatry's days were numbered the moment somebody invented the smile

Drugs for every mood are being discovered daily. Eventually, everyone's behavior in America will be perfectly regulated. By then we all will have the personalities of TV game show hosts.

So pity the psychiatrist. He might have to close up shop because depression is getting harder to come by. And you know why? Too many of us are having a nice day.

prohibited.

Time to get facts on accident and blame the guilty

WASHINGTON - It is time to analyze what happened at the nuclear plant on Three Mile Island, question those responsible, and frame new rules to prevent such accidents in the future. The nation needs nuclear power, but wants more confidence in it. A thorough investigation is the best deterrent to that gathering claque of demagogues yelling hysterically on the nuclear issue. Several elements in the Three Mile

Island picture deserve intense scrutiny. The first has to do with bucks. Did Metropolitan Edison Co. rush the nuclear plant into operation in the last hours of 1978 to save \$40 million in taxes and also to qualify for an increase in electricity rates?

If it did, certainly the Nuclear Regulatory Commission (NRC) was running alongside this sprint, and had not only the duty but ample opportunity to blow the whistle, if indeed it de-served blowing. The plant didn't have the best record in 1978. It was shut down 71 percent of the time, and experienced problems similar to those which led to the worst accident in the history of commercial nuclear operations.

Next is the matter of Metropolitan Edison closing three auxiliary cooling pumps for maintenance for two weeks or longer before the accident - a clear violation of NRC regulations. "There would have been an entirely different outcome if they had been operational, as they should have been," observed Harold R. Denton, NRC's director of nuclear reactor

regulation.
Once the cooling pumps story is verified by testimony, hell should be raised and severe penalties administered. But what to do about the subse-

quent series of fouled operating procedures?

They are: failing to react correctly to a stuck relief valve, shutting off pumps driving the emergency cooling system, misreading gauges, pumping contaminated water into an auxiliary building not designed to hold it, thus spewing gases into the atmosphere.

So there's plenty to dig into, and we must hear the entire story from: Walter M. Creitz, president of Metropolitan Edison; G.P. Miller, superintendent of the Three Mile Island station; Dr. Joseph M. Hendrie, NRC's chairman; Harold R. Denton; and Boyce H. Grier, director of the King of Prussia NRC regional office which monitors the Three Mile Island facili-

Many others should also be summoned by the NRC for its investiga-tion, scheduled to be conducted privately, but with its findings made

At least two senators are also probing the nucler question: Sen. Gary Hart (D-Colo.), chairman of the subcommittee on nuclear regulation, is holding hearings, and Sen. Edward Kennedy (D-Mass.) is taking elements of his subcommittee on health and scientific research to Utah to study effects of radiation caused by atomic testing by the military a generation ago.

No industry in the Republic deserves closer regulation than nuclear energy, and no industry should be called on for stricter accounting and penalties than nuclear.

The present civil law provides for fines of \$5,000 on nuclear plants which violate NRC regulations, with no more than \$25,000 in fines allowed in one month. The NRC asked Congress last month to legislate a \$100,000 fine for each single-violation penalty, and to put no limit on the amount of fines levied in one month.

There is also a criminal penalty of \$5,000 and-or two years in prison for any willful violation of an NRC order, but it is difficult to get a conviction on a criminal count.

President Carter has asked that NRC inspectors be permanently assigned to each nuclear plant - an expense he justifies even at a time when budget trimming is in order. Meat packing houses have federal inspectors on the premises, and one constant challenge is to keep the foremen from getting too cozy with the inspectors.

Anyway, despite all the howls on television and radio about Three Mile Island, rationality will have its day. There was no meltdown or explosion. No one was killed or injured in this accident. There was no radioactive cloud of dust over the area - as Jack

Anderson reported. The milk, water and food in the area do not contain dangerous levels of radiation as a consequence of the accident. The latest NRC reading is that people living in the area received

> Appointing members who include a resident of Middletown, Pa. - site of the stricken nuclear power plant - a college president, an environmentalist and several scientists, Carter said

> "It is essential that we learn the causes of this accident and make sure that the safety of our citizens is never again endangered in this way.

> The eyes of the nation, and indeed of the entire world, will be on this commission.

> The panel's work is expected to cost the government \$1 million, according to Jack Watson, Carter's assistant who headed an administration task force on the accident, considered the worst in the history of commercial nuclear energy. Radiation - apparently in small amounts - was leaked over a period of several days, and officials feared more would be released before the reactor was cooled down.

Carter instructed the new commission to "find out what happened at Three Mile Island ... assess how the accident could have been prevented ... review how the government and others responded and ... make recommendations to enable us to prevent any future nuclear accidents." John G. Kemeny, president of Dartmouth College and a mathematician who worked on the nation's first atomic bomb, was named chairman.

Another member is Ann Trunk, a Middletown woman who stayed home with her six children during the problems at Three Mile Island. She said she felt she was picked for

the panel because "they thought I could represent Middletown and people's feelings."

"I want to hear the facts; I'm going there to learn," she said. "I'll make up my mind later on.'

Named to the panel, in addition to Kemeny and Mrs. Trunk, were: Gov. Bruce E. Babbit of Arizona; Patrick E. Haggerty, retired president of Texas Instruments Inc.; Paul A. Marks, a Columbia University biochemist and physician; Cora B. Marrett, a University of Wisconsin sociology professor and Lloyd McBride, president of the United Steelworkers

Also, Harry C. McPherson Jr., who was an aide to President Lyndon B. Johnson; Russell Peterson, former chairman of the Council on Environmental Quality; Thomas Pigford, chairman of the University of California's nuclear engineering depart-ment, and Theodore B. Taylor, a "rape" in the Penal Code Princeton University professor of and to substitute "asaerospace and mechanical science. sault."

Safety rules slated WASHINGTON (AP) - The Nuclear Regulatory

Commission, spurred by the lessons of the Three Mile Island nuclear power plant accident, is issuing new safety directives to similar plants through-

The NRC said Wednesday that the directives were expected today. But it did not say what they would entail or how many plants would be directly affect-

Under new scrutiny, it was known, are nearly half the nation's nuclear plants, as well as some that were given new orders earlier.

The NRC did say it "is not contemplating recommending any new reactor shutdown at this time." Shortly after last month's Pennsylvania accident, directives were sent to operators of eight "pressurized water reactors" similar to the stricken Three Mile Island plant and built by the same firm, Babcock & Wilcox.

On Wednesday, NRC staff members met with representatives of Westinghouse Corp. and Combustion Engineering Corp., designers of the 34 other pressurized water reactors in the United States, to discuss the significance of the accident for their

The NRC staff, in a "preliminary notification" to the five-member commission, said the talks were held "so that further appropriate short-term correc-

tive actions can be developed and implemented." The notification said the staff was still reviewing these issues, but "it has been concluded that further actions should be considered on a priority basis for all light water power reactor facilities.'

That phrase seemed to forecast new safety action for all but one of the nation's 72 licensed nuclear

But NRC spokesman Frank Ingram said later that the statement was meant to refer to only the 43 pressurized water reactors.

The 28 other "light water facilities" are boiling water reactors, which do not have the high-pressure cooling system in use at Three Mile Island.

One commercially licensed nuclear power plant, the Fort Saint Vrain plant at Platteville, Colo., is cooled by gas, not water. The NRC notification pointed out that some Westinghouse plants have instruments that could, in

some circumstances, fail to start an emergency cooling system automatically as they should, or could mislead plant operators into taking the wrong actions, as may have happened at Three Mile Is-The NRC noted that Westinghouse itself advised operators of its plants not to rely on the automatic

operation of these instruments and to start the emergency cooling system manually if pressure in the main cooling system drops too low. John Taylor, Westinghouse vice president for the

water reactor division, said in an interview that the instructions have been standard operating procedure for a long time. But he added that Westinghouse was calling the

operators' attention to the instructions because of the Three Mile Island accident. Taylor said he did not know how many plants had the instrument arrangement, but he believed the

warning applied to all, or almost all, the Westinghouse-designed pressurized water reactors. A plant operator, watching the pressure indicator, should have about 20 minutes to realize a problem

Code to delete rape references

AUSTIN, Texas (AP) - Senators voted might be developing and to start the emergency cooling system manually to prevent damage to the

reactor core, he said. When the Three Mile Island Unit 2 suffered equipment failures March 28, the reactor shut itself down and the emergency cooling system came on auto-

Art of China on exhibition in Fort Worth

FORT WORTH - Paintings and calligraphy by two dozen outstanding Chinese artists make up a new exhibition opening April 17 at the Kimbell Art Museum of Fort Worth.

The paintings from the Arthur M. Sackler collection, will remain at the Kimbell through June 3, to be on view to the public weekdays and Sundays. Admission is free.

The nucleus of the exhibition is a group of important paintings and calligraphy by Tao-chi, one of the leading painters of the early Ch'ing dynas-

The works by Tao-chi to be exhibited here comprise the largest body of authenticated works by that 17th Century master. There are seven important handscrolls and hanging scrolls, along with eight albums, ranging from an early album dated 1677-78 to a major album of 12 landscapes dated 1707.

The 15 Tao-chi works in the show demonstrate the full stylistic range of the artist's landscape, figure, flower and fruit painting, as well as the range of his calligraphy.

Subtleties of connoisseurship in Chinese painting are illustrated in the exhibition by the pairing of Tao-chi originals with different kinds of

A part of a painter's training in China was the time-honored practice of copying or imitating earlier masterworks, and there is a traditional reverence for past masters.

This has resulted in the many copies made of works by master painters. Tracings and freehand copies of works by Tao-chi, as well as identified forgeries, were purposefully acquired for the Sackler collec-

These enable the serious viewer to define the personal quality of the master and his coloristic style. The problems of attribution and authentication facing scholars and connoisseurs of Chinese painting are also made clear.

Dr. Arthur M. Sackler of New York began his remarkable collection of Chinese paintings and calligraphy in the 1960s, and most of the works were acquired under the guidance of Dr. Wen Fong, chairman of the art and archaeology department of Princeton University.

Dr. Fong also has served as a special consultant for far Eastern affairs at the Metropolitan Museum in New

Members of the Pickwick Players, the young people's performing company of Midland Community Theatre, are in rehearsal for "Step On A Crack," a contemporary play by Susan Zeder. The Pickwicks will present the play in public performances on April 22 and 28, and tickets for the presentations will go on sale Monday morning at Theatre Midland, 2000 W. Wadley Ave. Pickwick members above rehearsing a scene in the play are, from left, Amy Johnston, Mark Schneider, Debbie Guerry, Mark Andrade and Karen Price. (Staff

'Real People' doesnt fit molds

By PETER J. BOYER

LOS ANGELES (AP) — One of the popular complaints about commercial television is that so many TV shows look alike, as if produced on a videotape assembly line and stamped "ABC," "NBC" and "CBS" for billing

ENTERTAINMENT

purposes.

Evening

Schedule

Producer George Schlatter has, and has given the matter some thought. "One of the reasons television programming comes out so similar, so omogenized," he says, "is because to get a show on the air, you have to be able to describe it in one sentence."

George Schlatter, though, is partial to television that requires two or three sentences by way of explanation. Sometimes a paragraph. Until he commits some really spectacular crime or runs for president, Schlatter

Masters tees off in search of new star

By WILL GRIMSLEY

AUGUSTA, Ga. (AP) — They teed off today in the 43rd Masters Golf Tournament with many people wondering if the game is ready to produce

another star figure.
One is needed desperately.
Television ratings are plummeting — down 25 percent in some instances. The winter tour, which whets the appetite for the long summer pursuit of the sun, has spawned a collection of John Doe winners, many of whom wouldn't be recognized in their own neighborhoods.

Whatever happened to Jack Nicklaus? He hasn't won a tournament all year and is 79th in the money standings. And Tom Watson, the freckled Huckleberry Finn out of Kansas City—he's back on top of the money list but not setting the grass on fire. He has one tournament victory in 1979.

Arnold Palmer - remember Arnie's Army? will be 50 in September. He hasn't won a tour event since 1973. South African Gary Player, leather-tough, is 43 and rated no better than a 12-1 shot in the tournament he won so sensationally a year ago.

SAN FRANCISCO'S Johnny Miller, who used to pull birdies out of a hat like a magician and who once loomed as golf's "Golden Boy," has lost his groove. He hasn't been higher than 26th in a tournament this year.

Remember Lee Trevino, old Super Mex, the feisty Latin with the hustler's heart and a carnival barker's tongue? He's still battling to overcome his encounters with a lightning bolt in 1975,

Bigtime golf appears at a crucial crossroads. Is the game, after two glamorous and prosper-ous decades dominated first by Palmer and then Nicklaus, headed for an inevitable period of

Many observers think so. History dictates as much. Such things run in cycles. The TV ratings are a depressing barometer. Even the most dedicated of fairway buffs are finding the tour one gigantic yawn.

Such a slump followed the glorious era of Bob Jones and Walter Hagen in the 1920s and 1930s. Ben Hogan, Byron Nelson and Sam Snead revived interest in the sport after World War II only to see another lull until Palmer and his Army went on the rampage in the late 1950s. Nicklaus picked up the cudgel in the early 1960s and proceeded to sweep to 15 major professional championships — a mark that appears beyond GOLF, AS other professional sports, needs to

ride the tail of a meteor — a superstar. Muhammad Ali brought boxing from the edge of the grave. Pro football has soared on the magic arms of Johnny Unitas, Joe Namath and Terry Bradshaw. Women's golf was in the doldrums until Nancy Lopez came along. Billie Jean King and later Chris Evert turned women's

tennis into a gold mine.

Golf has been on a celestial voyage since
Palmer started squinting into the sun and sinking putts from here to eternity in the mid-1950s and Nicklaus began his phenomenal pro career

Watson, 29, emerged as a possible heir apparent when he beat Nicklaus in those great birdie duels in 1977, but he has failed to grab the game by the throat and dominate it.

Meanwhile, Jack, at age 39, insists - in the vein of Mark Twain — that reports of his golfing demise have been grossly exaggerated.

"I still feel like I'm a kid," says the Golden Bear. "I assure you I am not ready to drop dead yet. I love the game. I intend to play as long as I feel I can be competitive - and that's a few years yet.

"I know somebody some day will break my number of major records, but I want that num-ber to be a little higher."

Cubs to try again

Mack goes against Scrhom

After first checking to see whether Cubs Stadium had held its Hogan Park ground and not been blown to suburban Stanton by two days of winds in the 80-90 kilometer-an-hour range, Midland Cubs General Manager Bill Rigney, Jr., rescheduled the Texas League opener against El Paso Diablos for 7:30 p.m. today in Cubs

The game will be preceded by the traditional Opening ceremonies and then Henry Mack, the aspirin server from Winchester, Ky., the rookie acquired from the Philadelphia Phillies' organization in the Manny Trillo trade last winter, will match serves with the Diablos' Ken Schrom.

Mack, a 6-2, 185-pounder, will be starting his fourth season of pro ball and his progress has been spectacular. At Auburn in 1976, Mack was 2-9 with a 7.33 earned-run-average and failed to complete a game in 13 starts. He whiffed 44, but walked 67. Then, in 1977, he was 5-10 for Spartanburg,

Louganis triumphs

AUSTIN, Texas (AP) - Greg Louganis, defending champion in the men's 1-meter springboard, held onto his title Wednesday by taking the title with a score of 851.37 in the 1979 U.S. Indoor Diving Championships.

Carrie Finneran of Columbus, Ohio, overcame a wide lead by Denise Christensen of Austin to win the finals in the women's 3-meter springboard. Louganis, 19-year-old freshman at

the University of Miami, defeated second-place finisher Robert Cragg,

plete game in 24 trips to the mound following the playing of the National Anthem. Mack was still having control problems with 87 strikeouts and

THEN, LAST year Mack put it together with a 15-4 record and a 2.79 ERA. He completed nine of 23 starts and for the first time fanned more batters than he walked, 158 to 118. He was the reason it took so long to complete the Trillo trade. Chicago wanted him and Philadelphia was reluctant to surrender him and his 95 mph fastball.

Although Mack spent most of the spring with Wichita, the Cubs returned him to Midland rather than rush him from A to AAA in one sea-

Schrom is considered good enough to pitch for California's AAA affiliate in Salt Lake City, but was shuffled back to El Paso when the Angels cut their roster and left SLC with a surpluss of good pitchers. Schrom had five complete games in 19 starts and also picked up a couple of saves in relief roles. Against Midland, Schrom was 3-2 last year. His ERA was 4.68 in

Both Midland's Randy Hundley and El Paso's Moose Stubing are counting on their pitching to win for them this year and the first series should give each some hint as what to expect.

SPEED IS another ingredient that both teams seem to possess in abun-

Remember Moose? Well, he's back in town

It was hoped that he'd been exiled to Salt Lake City or California or, maybe, the managers' union would have lifted his membership card during the winter, but Moose Stubing, drat it, is back at manager of the El Paso Diablos.

We didn't always feel that way about the Moose. The native New Yorker, who now calls El Paso his permanent home, always seemed like a nice enough sort, good for a read-able before or after game quote.

It wasn't until last August that we began to regard him in the way a hometown fan might regard a basketball referee, which he is in the offseason, who had just blown one against

At the time, it seemed like a harmless enough after-the-race is over pep talk, given by a manager just to keep the morale of his troops up. And it wasn't until several days later that the seeds of irritation took root.

The Diablos had won the first half West Division pennant and the redhot Midland Cubs were in the process of wrapping up the second half flag, even though the Diablos won the first game of the six-game series. They were still 5 1/2 games back and laboring. It was a meaningless victory at best and the writer dropped by the Diablos' dugout to record his statement of surrender and the expected assurance that "we'll get you guys in the playoff."

MOOSE MAINTAINED the facade of hope, declaring El Paso had Mid-land just where it wanted them. "All we have to do is win four of the next five and go home three and a half games out of first place to play San Antonio. Then, the race will go down to the wire and whoever sweeps Amaillo will win it."

Perhaps it would have made sense if Midland was the only team ahead of El Paso, but Moose still had to catch San Antonio, only a game and a half behind Midland, before he could catch the Cubs.

However, you couldn't blame the guy for deluding himself, and his team. After all, the Northwestern coach tells his Wildcats that the other team puts its pants on one leg at a time before he sends them out to face

And Jim Marshall undoubtedly assures his Oakland A's that the game isn't over until the last out and there's always pennant hope until mathematical elimination.

It sounded so absurd that out of courtesy it was necessary to turn the head to hide the smirk. The temptation to tell Moose to take off his cap and talk into it like it was a microphone was surpressed. There's an old adage that you never kick a guy when he's down by telling him to talk through his hat.

MERCY, AFTER all, is a luxury winners, like the Cubs were soon to be, can afford. And really, you couln't blame Moose for trying to maintain

the illusion of a pennant race.

That night, the Cubs whipped up on the Diablos to stretch their lead to 6 1/2 games and Stubing was purposely avoided the next night. Who likes to see grown men cry? It was just hoped he didn't do anything drastic back at the hotel room.

Baseball managers, like sportswriters, are notorious for the unreliability of their predictions. When one asserts that under no circumstances will Bobby Bonds be traded, you can make book that Bobby will be gone within the week.

When one predicts his team isn't out of the pennant race, you can be sure he is whistling past the graveyard, not really believing in miracles.

Stubing violated all the established codes for stiff-upper lip showmanship. He not only believed his Diablos were still alive in the pennant race, but proved it. El Paso not only won the next four games in Midland, but streaked to the wire with 11 straight wins to take the second half outright, a feat that enabled Midlanders to feel more than casual sympathy for the folks in Boston last summer.

It's little wonder that the Moose is personna non grata in the Tall City and it is only hoped that he will mend his ways this summer and regain the respect he lost as a managerial prognosticator last year. After all, if he's gonna talk, what does he think they gave him a hat for?

BYU signs pair

PROVO, Utah (AP) — Two avidly sought high school basketball players signed letters of intent to play at Brigham Young University Wednes-

Greg Kite, a 6-11, 255 pound center who averaged 17.6 points and 15 re-bounds per game in his senior year at Madison High School in Houston, Texas, said he would attend BYU.

BYU also received a committment from Pete Aguilar.

Tech rips Trinity, 9-1

SAN ANTONIO, Texas (AP) — John Keller slammed three hits in five tries Wednesday, in-cluding a triple, as Texas Tech chalked up an easy 9-1 win over Trinity in a non-conference baseball

Steve Dennis, 1-2, was credited with the win and Edwin Weiss, 1-7, took

Randy Harris scored Trinity's sole run from second base in the fifth nning on Brooks' Wallace's two-base throwing

Sparky Lyle sure hates spring training - you could tell by his performance this year.
"I wasn't digging it too much," says the 1977 Cy

Young Award winner, who had a typically poor exhibition season.

During the regular season, however, it's usually a different ball game for him — like Wednesday night, during the Rangers' 4-0 victory over the Cleveland

Making his first appearance of 1979, the star reliever made it a good one with two spotless innings in back of Steve Comer's sparkling one-hit pitching.
"I couldn't do a thing in the bullpen tonight," said

Lyle, "but something happened between the bullpen and the mound."

LYLE, ACQUIRED from the New York Yankees in an off-season trade, helped support a Texas shutout string that has now reached 23 innings.

"They had their best pitching working," said California's Bobby Bonds, hitless in four tries. "I look back and think about just how good the Rangers would have been last year if they made an effort to get genuine relief pitching like Lyle and (Jim) Kern."

Rain postponed the Chicago-Toronto game.
Comer permitted only Ted Cox's third-inning single before he tired and yielded to Lyle in the eighth

The Rangers handed rookie Eric Wilkins a loss in his major league debut, and wildness helped contribute to his downfall. A hit batter, an error, a walk, a sacrifice fly by Pat Putnam and Bump Wills' run-producing single put Texas ahead 2-0 in the second. Al Oliver's RBI double sent Wilkins to the showers in the fifth inning and he was charged with a fourth

run on John Ellis' sacrifice fly after he departed.

Orioles 6, Yankees 5

Rick Dempsey's bases-loaded single in the 10th led
Baltimore over New York. Baltimore, which had tied the game at 5-5 with a three-run ninth, loaded the bases in the 10th off Yankees reliever Rich Gossage on a single by Ken Singleton and two walks.

Paul Mirabella came in to retire Larry Harlow for the second out, but Dempsey hit a 1-2 pitch from Dick Tidrow into short center field to score pinch-runner John Lowenstein.

"I think it was a one-handed swing," Dempsey said of his big hit in the 10th. "The pitch was out of my zone, so I was just trying to foul it off. But it hung out there long enough for me to flare it into center

Angels 11, Twins 2 Nolan Ryan fired a three-hitter, striking out 10, and Don Baylor knocked in five runs to lead California over Minnesota. Loser Dave Goltz departed in the seventh inning when the Angels rallied for six runs, two on a double by Baylor, to put the game out

Along with his double, Baylor collected two singles in the Angels' 17-hit attack. Joe Rudi had three singles and a double and drove in a run for Califor-

Royals 10, Tigers 3
Shortstop Alan Trammel's error on a potential double-play ball let two runs score and Fred Patek, George Brett and Hal McRae lashed consecutive doubles as Kansas City rallied for seven runs in the eighth inning to beat Detroit.

Patek's two-run double capped a 4-for-4 night for the Kansas City shortstop.

A's 14, Mariners 7

Dave Revering scored three runs and accounted for two more with his first homer of the season as Oakland beat Seattle The A's broke a 7-7 tie in a four-run seventh keyed

by Jeff Newman's two-run single. Dwayne Murphy singled in the first run and Miguel Dilone drew a walk to force in the fourth.

Jim Todd, a former Mariner, got the victory in

relief. The loser was Rick Honeycutt. Umpire group nixes handling Cleveland

CLEVLAND (AP) - tinue to umpire the The Cleveland Umpires Association has voted to prohibit its members from working in Cleveland Indians baseball games, saying they do not want to take away from the professionalism of the sport.

But the Northwest Cuyahoga Umpires Association, which provid-ed two umpires for last weekend's Indians games, said it will continue to supply the American League team with officials.

The Cleveland association, which also supplied two umpires for the same Indians games, said Wednesday it will no longer permit its members to act as replacements for striking major eague umpires.

JOHN LUCCHESE, umpire in chief of the Cleveland association, said the CUA membership unanimously adopted a resolution "that no member of the association will act as a replacement for the major league umpires during their current dispute.

"We realize that as a replacement we have the honor of umpiring a major league game," Lucchese said. "However, we cannot deny that as amateurs we are taking away from the professionalism that the great American game of baseball has conveyed

throughout the years." Lucchese also said it was the understanding of his association that other umpire groups in the immediate area were con-templating the same ac-

The Northwest Cuyahoga association said its group considers the major league umpires as engaging in a walkout, not a strike, and will con-

Atlanta stuns Rockets in opener at Houston

By The Associated Press

The Houston Rockets can't stand too much of a good thing - namely winning.

The Rockets, who had won their last seven regular-season games to get the home-court advantage in the opening game of their best-of-three series with Atlanta, lost to the Hawks 109-106 Wednesday night in the National Basketball Association playoffs.

"We don't live with rosperity very well." said Houston guard Mike Newlin. "It's only when we are presented with a futile situation that we seem to come out and play our best.'

New Jersey Nets Coach Kevin Loughery often feels his situation is futile, where refereeing is concerned.

THE NETS lost to the Philadelphia 76ers 122-114 after their coach was ejected from the game. The volatile Loughery, who was assessed 42 technical fouls during the regular season, got two more Wednesday night and was ousted with 7:32 left in the third

"It's a league rule that at future Indians games. you can't talk about offi-

clating," he complained later. "But I think we should be able to talk about officiating.'

With Wednesday's games, all four NBA divisions had played their first games. Action resumes Friday with the Rockets and Hawks moving to Atlanta and the Sixers and Nets going to Piscataway, N.J.

Teams that did battle Tuesday also resume first-round play Friday, with the Phoenix Suns joining the Trail Blazers in Portland and the Denver Nuggets visiting the Los Angeles Lakers.

Phoenix beat Portland 107-103 Tuesday, while Denver downed Los Angeles 110-105 that night. The Hawks would

seem to have a big advantage at home in the Omni, where they have won 34 games this season - 18 in a row - and lost just seven:

But, said Atlanta Coach Hubie Brown, "We don't think this is a one-game series because we won. They could come to our place Friday and do a great job.'

HOUSTON, WHICH has lost four of five games to the Hawks this season, seemed ready to reverse the tide when they took a 57-50 halftime

lead. But Atlanta started the third quarter with a 16-6 scoring spurt and they gave up the lead, as Dan Roundfield scored 23 points and got 18 rebounds before fouling out with 2:07 left. Atlanta's usual high scorer, John Drew, hit only four of 24 shots and finished with 15

"If you'd told me that Drew would go four for 24 and we'd still win, I'd have bet \$5,000 against " Brown said. "We had a lot of unsung heroes going for us tonight."

Moses Malone led the Rockets with 28 points and 17 rebounds while Newlin added 16. In Philadelphia, Julius

Erving scored 28 points and the 76ers never fell behind, even though the Nets' John Williamson poured on 38 points before his ejection on a second technical with 1:29

SWC rounds up out-of-staters

Texas Tech lured a Mississippi allstater, Texas signed a 7-footer and Southern Methodist outdueled several schools for a Kansas all-stater as Southwest Conference basketball coaches inked players Wednesday to national letters of intent.

Texas Tech's prize was 6-6 forward Joe Washington of Tupelo, Miss., who averaged 18.5 points and 11 rebounds per game. Washington, a three-time all-stater, was courted by Mississippi Mississippi State and Alcorn A&M and led his team to a 31-3 record. Texas Coach Abe Lemons, who des-

perately needed a large, dominating center this past season in tying Arkansas for the SWC championship, landed 7-foot, 1-inch Steve Frederick of Pasadena Dobie.

Frederick, a two-time all-district player, averaged 17 points and 10 rebounds a game his senior year and had a game high of 40 points.

SMU hauled in a big catch in 6-2 guard Dave Piehler of Newton, Kan., who was pursued hotly by Oklahoma, Arkansas and Kansas. Piehler averaged 28.5 points for a team that won the Kansas state title with a 20-4 ledger. Piehler was the most valuable player in the state tournament, scoring the winning basket in the title

Although losing Piehler, Arkansas Coach Eddie Sutton signed 6-6 forward LeRoy Sutton of South Bend, Ind., to a national letter. The Razor-

guard Keith Hillard of Northeastern Oklahoma and 6-8 center Scott Horrell of Marmaduke, Ark., High School.

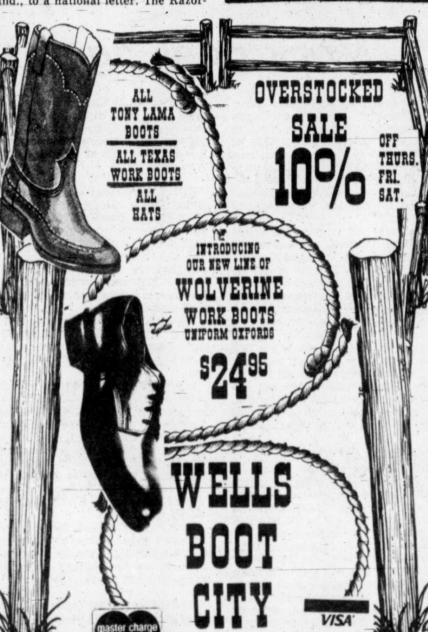

Robert Williams, a two-time allstate guard from Houston Milby, signed a national letter with the University of Houston. The Cougars also signed 6-10 David Bunce, an all-dis-

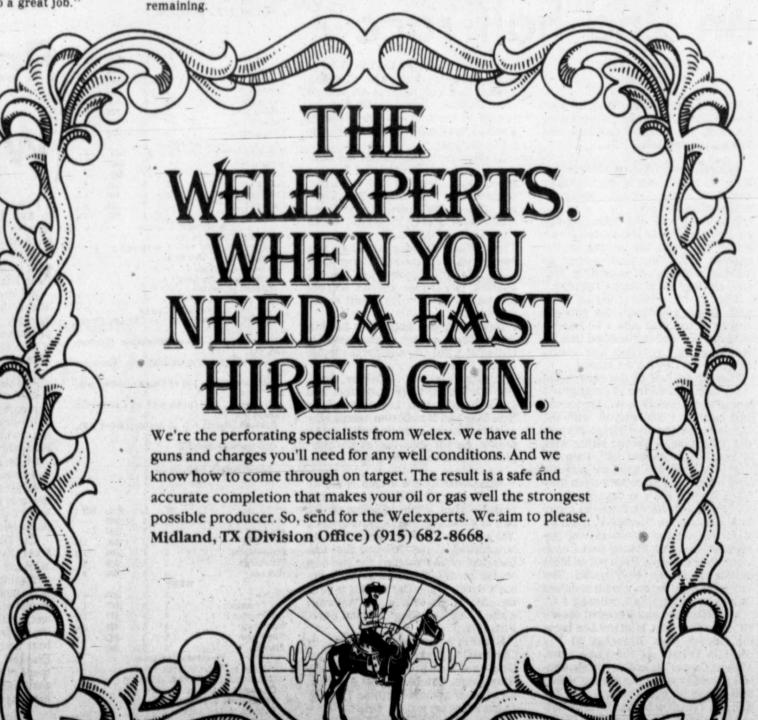

trict performer from Conroe who averaged 17 points last season. Williams, scheduled to play for the Texas All-Stars Thursday night in the second annual Roundball Classic here, led city scorers with a 26.3 average last season and paced Milby to a 24-6 record. UH won a recruiting duel with San Francisco for Williams

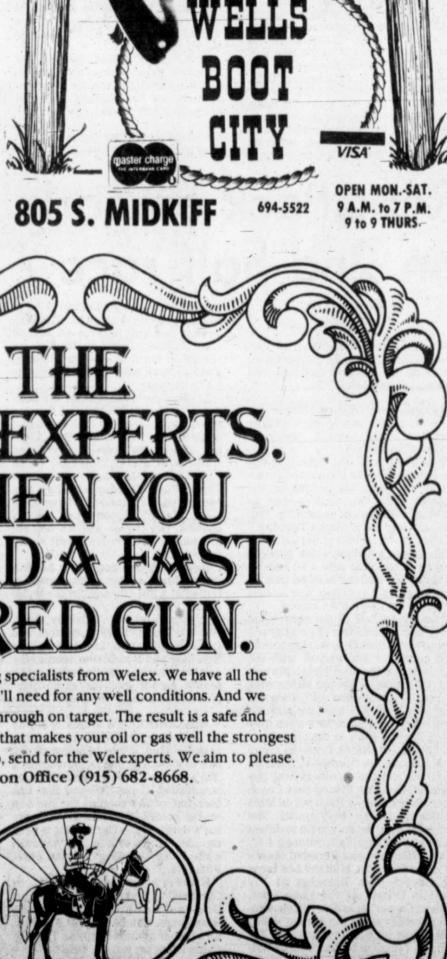

Baylor's Jim Haller signed 6-5 James Bailey of Waco Richfield, who

averaged 23 points and 14 rebounds.
Texas A&M Coach Shelby Metcalf said it would be several days before the Aggies would announce any signings because of the schoolboy all-star games being played.

Oil decontrol backlash looming

By J. P. SMITH The Washington Post

WASHINGTON - President Carter's proposals to conserve energy may be headed for defeat in Congress, in part becuse of backlash against his decision to lift price controls on crude

Members of the House and Senate committees handling the conservation measures say that three of Carter's four main proposals are in trouble.

"They had real problems on the merits, and now the people who are likely to support them are irritated by decontrol," said Rep. Toby Moffett, D-Conn., an outspoken opponent of Carter's decontrol plan.

Moffett and others on Capitol Hill agreed that Congress is likely to approve mandatory thermostat settings, but may kill standby gasoline rationing, as well as bans on weekend gasoline sales and decorative light-

The mandatory thermostat settings - 65 degrees for commercial buildings in winter and 80 degrees in summer - would save the most-oil, about 350,000 barrels a day.

Energy Department officials Wednesday conceded that they faced problems winning approv-al for the other standby measures, especially weekend service station closings, although a DOE spokesman said, "We still hope to get them all. We're fighting like hell."

There has been no formal vote on the standby conservation plans in the House, but according to Moffett an informal vote in the Commerce subcommittee two weeks ago indicated little

support for Carter's proposals. Earlier this week the Senate Energy Committee agreed to support mandatory thermostat settings, but rejected bans on outdoor lighting — a measure DOE estimates would save 4,000 of the 19.5 million barrels the nation consumes daily. The Committee also deferred action on rationing and on weekend gasoline sales.

"There is little erthusiasm anywhere on Capitol Hill for the ban on lighting, even as a symbol," says Frank Potter, a member of the House Commerce subcommittee staff.

On the Senate Energy Committee, Chairman Henry M. Jackson, D-Wash., has also expressed reservations about the chance for passage.

Sen. Lloyd Bentsen, D-Texas is one of a number in the Senate who have staked out objections to the standby rationing plan which some argue has a bias

against rural and agricultural

Rep. Al Gore, D-Tenn., said, "The prevailing opinion here is that rationing is in a lot of trouble." Gore said, however, that it can be saved if the administration sets aside blocks of rationing coupons for states to allo-

By far the most controversial measure, short of rationing, is weekend service station closings, which DOE has estimated would save 240,000 barrels a day. Under stiff opposition from the tourism industry and officials of rural states, both the House and Senate energy panels have been reluctant to indicate any moves toward approval.

One House Commerce Committee aide, however, said that the panel may approve the measure on April 24 when it comes before the committee so the full House will have an opportunity to vote on the issue.

Still another factor, according to Gore, is that "the savings appear to be disputed by DOE's own studies." Gore and others also point out that weekend station closings may not pass because there is growing support for Carter's alternate proposal that states set their own conservation goals, and work out their own plans to meet them.

Border stakes deep Loving wildcat

Border Exploration Co. of Midland No. 1 Continenral-TXL has been staked as a 16,500-foot wildcat in Loving County, 16 miles northeast of

IRION RE-ENTRY

Simpson-Mann Oil Producers of San Angelo will re-enter a 7,410-foot wildcat failure three miles east of Mertzon in Irion County and attempt completion above 1,500 feet.

The project, the former C. Simpson-Mann No. 1 Clifton Brooks, is 1,980 feet from south and east lines of section 3, block 3, H&TC survey. It was abandoned in January 1977. It now will be operated as the No. 1-3 Clifton Brooks and others.

The site is one and one-eighth miles northwest of the MIM, Northeast (San Angelo oil) pool and one mile south-east of the depleted C.B. (San Angelo oil) pool.

CROCKETT WILDCATS

Pueblo Petroleum Corp. of San Angelo staked a pair of 3,500-foot wildcats in the Simpson (Grayburg) area of Crockett County, 13 miles northeast of Sheffield.

The No. 3-5 Scull, is one location southwest of Grayburg production and 467 feet from north and 1,800 feet from west lines of section 5, block 1, GC&SF survey. Ground elevation is 2.605 feet.

The No. 5-5 Scull is 5/8 mile southeast of Grayburg production and 467 feet from north and east lines of section 5, block 1, GC&SF survey. The Grayburg pay produces at 2,500

FERGUS WELL

The 10th well has been completed in the Fergus (Grayburg gas) field of Crockett County, seven miles south of

It is C. F. Lawrence & Associates, Inc., of Midland No. 1-63-E Halff, a re-entry operation.

The operator reported a calculated absolute open flow potential of 1,200,000 cubic feet of gas per day, through perforations from 1,415 to 1,476 feet. The pay was fractured with 20,000

Total depth is 1,595 feet. The project originally was drilled by Ledge Petroleum Co. as No. 1 Halff Estate and plugged in 1944.

The 5.5-inch casing is cemented at 1,590 feet and the plugged back depth is 1,560 feet.

The well is 3/8 mile southwest of production and 330 feet from north and 4,950 feet from east lines of section 63, block 1, I&GN survey.

The Yates was topped at 746 feet on ground elevation of 2,220 feet. The Seven Rivers was hit at 910 feet, the Queen at 1,150 feet and the Grayburg at 1,400 feet.

RUNNELS WILDCATS

Three wildcat operations have been announced in Runnels County. Trojan Oil Production & Services, Inc., of Irvin spotted two 5,200-foot

wildcats in the Winters, North multipay) area, three miles nothwest of The No. 4 Harry Jonas is one mile

northwest of Goen production and 467 feet from north and west lines of section 79, CTRR survey.

The No. 5 Harry Jonas is 1/2 mile north of Goen production and 1,630 feet from north and 467 feet from east lines of section 79, CTRR survey. James K. Anderson, Inc., of Dallas

No. 1 Bowen is a new 5,400-foot wildcat five miles southwest of Wingate and one and five-eighths miles northeast of the depleted Wilmeth (Canyon) field.

The drillsite is 1,568 feet from south and 1,320 feet from west lines of Hiram Friley survey No. 448. Ground elevation is 1,976 feet.

MARTIN PROJECT

BTA Oil Producers of Midland announced plans to re-enter an old Devonian well in the Lacaff multipay area of Martin County and attempt completion in the Wolfcamp.

The project is No. 9-E 742 JV-S Mustang, 20 miles northwest of Lenorah and 200 feet from south and 1,000 feet from west lines of section 43, block 6, University Lands survey. It is 5/8 mile northwest of Wolf-

camp production. Tests will be made above 10,000

SCURRY TESTER

F. W. Holbrook of Midland No. 1 Sue has been spotted 3/8 mile southeast of the only producer in the Gill (Pennsylvanian Reef 6900 oil) pool of southwest Scurry County, two miles north-

DOE's entitlements program equalizes the cost refiners pay for oil by, in effect, averaging the costs they pay

sells for \$16.50 a barrel or more. program domestic refiners now enjoy

day capacity. As Carter phases out domestic oil price controls beginning this June, the entitlements subsidy the refiners receive will be reduced and eventual-

Ironically, the domestic refiners' pleas come at a time when Carter has awarded the oil companies - at least in part - their longest held goal: oil price decontrol. Meanwhile, Carter has also eliminated a 63-cent-a-barrel tariff on imported refined products, which produces domestic refiners competitiveness with foreign sellers.

The administration is sharply opposed to tariff or other schemes to protect domestic refiners enmasse.

Stuart Eisenstadt, Carter's domestic policy advisor, has told oil producers in recent weeks that the administration expects the refiners to absorb up to 33 percent of the added oil costs simply resulting from decontrol by cutting their profit margins on refining operations.

"We're waiting for the refiners to

Question ignites huge battle on Capitol Hill

By J. P. SMITH The Washington Post

WASHINGTON - Can the American oil refining industry enjoy price decontrol and also be allowed to keep hundreds of millions of dollars in subsidies, too?

That question has ignited a political battle on Capitol Hill certain to engulf the oil industry and the Carter admin-

As one Washington oil lobbyist sar-donically observed: "We simply must protect the American consumer from cheap foreign oil products."

Such protection is already afforded the domestic refining industry under a sheltering network of Department of Energy regulations. This shelter would be stripped away under the decontrol plan by putting U.S. and foreign refiners on the same price

Sen. J. Bennett Johnston, D-La., a friend of the refiners and a forceful member of the Senate Energy Committee, thinks that the domestic refiners need help from Congress "so they don't have a competitive disadvantage." He is preparing legislation that would make up what he estimates to be a \$2-a-barrel loss to the U.S. refiners if they are forced to compete openly with their foreign counter-

Johnston and the major domestic refiners such as Ashland Oil, Sun Oil and Standard of Indiana as well as well as most of the "small" refiners make this argument: Because of stiff environmental laws, the Jones Act requirement to use higher-cost American tankers and other rules and regulations the domestic refiners need protective relief from the effects of decontrol.

Larry Goldstein of the Petroleum Industry Research Foundation agrees. "The current advantage they have over foreign refiners will be eliminated under decontrol," he said. Northeast Petroleum's Vice President John Buckley offers a stronger view: "The combination of removing (import tariff) fees and ending the entitlements program (DOE's regulatory subsidy) will leave the U.S. refiner naked - some capacity will be shut

Out of 19.5 million barrels of oil consumed daily in the United States, 17 million barrels are refined domes-

Johnston says that he will soon introduce legislation calling for about a \$1.50-a-barrel import tariff on refined oil products such as heating or fuel oil to shelter domestic refiners. "You need a pot of money from some-

DOE's complex entitlements program which Rep. John D. Dingell, D-Mich., calls, "The largest transfer system we have outside of welfare," and last week President Carter assailed as an outright subsidy to im-

for domestic oil - selling for as low as \$5.90 a barrel - with foreign oil that A recent DOE refining study concludes that under the entitlements

a \$1.36- to \$3.36-a-barrel subsidy, with the largest subsidy going to small refiners with less than 10,000 barrels a

the most concerned about it, along

with the little guys." Under a 1978 request from Johnston and Dingell, DOE has undertaken a comprehensive study of the domestic refining industry.

One senior DOE policymaker summarized the findings of the study saying, "We tried to look at the national security, competition and balance of payment issues and we just couldn't find any justification for re-

Beyond that, in the words of one senior administration official, "How can Jimmy Carter politically call for trade protection for domestic refiners after decontrolling oil?"

The refiners disagree. "There absolutely is a national security argument, it's dangerous... it acts as a signal to foreign countries and in particular the Arab OPEC (Organization of Petroleum Exporting Countries), to develop their own petrochemical and refining capacity rather than exporting crude oil," says Urvan Sternfels, of the National Petroleum Refiners Association.

Sternfels adds that ending the entitlements subsidy "will under cut the ability of domestic refiners to recapture profits."

DOE counters, saying that since the United States is already importing oil, what difference does it make to import products, particularly when the oil product imported is likely to come from oil refineries operated by some of the U.S. majors overseas.

Some of the refiners hope that Johnston will be able to hammer together a coalition with Sen. Edward Kennedy, D-Mass., and House Speaker Thomas P. O'Neill, D-Mass., ex-changing tarriff rebates to New England consumers in exchange for support for a refiners' relief program. Last year, some New England mem-

go along with such a plan. However, since the president called for decontrol and cancelled import fees, one DOE official says, "That marriage has been annulled."

bers of Congress indicated they would

Operators announce 106 new Basin oil, gas tests

Twenty-four wildcats and 82 field operations were scheduled in Permian Basin areas last week, with District 8-A of the Railroad Commission, headquartered in Lubbock, receiving request for drilling permits

Four of the District 8-A tests are wildcats and the other 30 are in proven field areas. The wildcats were staked in Terry, two, and Kent and Lubbock one each.

The Midland District 8 office handled 27 applications for new tests, two of them for wildcats and 25 in field areas.

The wildcats were staked in Mitchell and Pecos counties.

District 7-C, headquartered in San Angelo, processed 20 applications, with eight of them wild-

The wildcats were staked in Runnels, 2, and one each in Coke, Crockett, Irion, Kimble, McCulloch and Terrell counties.

New New Mexico operations included six field tests in Eddy, six in Lea and two in Chaves. Eddy gained three wildcats and Chaves and Lea each

gained one. Wildcat Field District 8 Andrews Crane Ector Howard
