Pulitzer Prizes

Tiny weekly newspaper, little-known play, 'Cheever' are among winners

NEW YORK (AP) - A tiny California weekly newspaper with one full-time reporter and a little-known off-Broadway play are among the winners of Pulitzer Prizes, with the top fiction award going to "The Stories of John Cheever.'

The Point Reyes (Calif.) Light, with a circulation of 2,700 in a town with a population of 426, won the Pulitzer Prize for meritorious public service for its long-time investigation of Synanon, the drug and alcohol rehabili-

Dave Mitchell, 35, co-publisher of the Light with his wife Cathy, 34, said after the award was announced Monday that for most of the past year almost every issue of the paper had a story and editorial on Synanon. In their investigation of the group, the Mitchells, who did most of the writing, uncovered allegations of beatings, hoarding of weapons and revenge attacks. Mitchell said Synanon leaders consider the paper so insignificant "they haven't even asked for a retraction."

Mitchell said the staff position of reporter has been filled by several persons, including Keith Ervin, who no longer is at the paper, but who wrote one of the stories included in the series that won the prize.

Tapped for the drama prize this year was "Buried Child," a story of disintegrating rural family life in Illinois. It was written by 35-year-old Sam Shepard, who appears as an actor in the film "Days of Heaven." The prize came the day after the play closed following more than 150

The 66-year-old Cheever, - who won the fiction award for his best-selling collection of 61 stories, spanning three decades - said he was "tremendously excited."

Robert Penn Warren, 73-year-old professor emeritus of English at Yale, was honored for "Now and Then: Poems 1976-78." He said he felt the book was "better than some," but that he was surprised to learn that it had won the prize. "Good luck is always a surprise," he said.

It was Warren's third Pulitzer. He won his first Pulitzer in 1947 with the novel "All the King's Men," and took the poetry prize in 1958 with "Promises: Poems 1954-56."

The reporting of Richard Ben Cramer from the Middle East won the Philadelphia Inquirer the international reporting prize, the newspaper's fifth Pulizer in five years. Cramer, 28, said "It's been wonderful....I'm

The Washington Post picked up its fifth Pulitzer in a row when its syndicated cartoonist, Herbert "Herblock" Block got the editorial cartooning award for the third time in 37 years. The cartoon published Aug. 31 showed a Roman judge named "Judicius Imperius" handing a soldier a "license to fish through notes, memos and anything else belonging to members of the press." The caption read: "And bring me

Planning group OKs center's plat

Some stipulations put on commission's approval

By LANA CUNNINGHAM Staff Writer

Another segment in the continuing "live" drama involving a developer and some residents unraveled Monday before the Planning and Zoning Commis-

And the final revelation toward the end became a recommendation to approve the preliminary plat and send it to City Council.

Final decision by the six-member commission came only after a lot of discussion and with some stipulations made.

Tacked on to the preliminary plat is the stipulation that Magnatex widen Apollo Drive to include a 60-foot right of way and a corner setback

MAGNATEX'S PLAN is in the form of Midkiff Plaza Addition - a shopping center and buffer zone of townhouses on 57 acres in the southeast corner of FM 868 and North Midkiff Road. This would be directly across the road from the planned Midland

When the plan first appeared before the commission, Magnatex had not included a buffer zone of townhouses; instead, an alley would have separated the shopping center from a residential area which will border the development on the south and east

After residents in the area registered their com-

plaints about the plan and requested a buffer zone, the townhouse project appeared on the next prelimi-

BUT THAT still did not appease some residents, who protested at a March 19 meeting that the buffer zone needs to be widened more. And city staff

Tacked on to the preliminary plat is the stipulation that Magnatex widen Apollo Drive to include a 60-foot right of way and a corner setback.

questions about drainage in the area had not been answered fully at the time.

At Monday's meeting, Magnatex's attorney Harrell Feldt addressed revisions on the drainage plan, saying, "this drainage plan will improve the situation out there now.

Plans call for installation of an underground 27inch pipe around Apollo Drive and a "retainage

The basin would be located on the southeast corner of the development, an area designated as a trouble spot in a drainage report prepared for the city. Rainwater from the shopping center will be col-

lected in the basin and be allowed to drain through the pipe after the initial collection of water had been shunted to other major drainage channels in the city,

One woman opposed the retention basin, claiming the "pet pond" would be a source of problems because of the possibility of children playing around

AFTER GETTING drainage and size of buffer zone were settled, the discussion centered on the planned width of Apollo Drive and landscaping next

to the street. Feldt described Apollo Drive, which separates townhouses from the shopping area, as being 50 feet wide and the buffer zone 140 feet side.

"We (Magnatex) continue to argue this plat is consistent with the best possible planning," Feldt told the commission; adding that that particu-

before the City Council. The attorney said the developer had "negotiated

lar preliminary plat would be the only one supported

and compromised" to give up some of the commercially zoned property and decided on the 190 feet of buffer zone Richard Hennessy, director of planning and com-

munity development for the city, said the public works department was recommending the street

Voting begun in Rhodesia

Blacks and whites in Rhodesia today elect a black-majority government as 90,000 soldiers guarded against guerrilla activity.

Voter turnout was reported heavy in Salisbury. In Highfields, where a half-million blacks live in the capital's major black township, 3,000 voters were waiting otside one booth when the polls opened at 7 a.m., elec-

tion officials sad Many black voters did not want to be inerviewed by reporters for fear of reprisals by black guerrillas opposed to the elections

But one middle-age woman, who would not give her name, told reporters: "I vote so that I can gain free-

A young black man said, "I voted because that is what we have been

In Bulawayo, Rhodesia's second-largest city, blacks chanted and danced outside the voting booths. Voting was expected to be heavier over the five days of elections there than in rural areas where guerrillas

have been active. The guerrillas of the Patriotic Front, led by Joshua Nkomo and Robert Mugabe, vowed to wreck the election and were busy on the eve of elections. They set fire to a fuel depot in the southern garrison town of Fort Victoria with rockets, attacked five voting stations and did minor damage to one, and did minor damage to a bus

depot in Salisbury with mortar fire. A commando squad on Monday night attacked a house used by the black guerrillas in Lusaka, in neighboring Zambia. There were unconfirmed reports the attackers were from the Rhodesian army, and there were no immediate reports of casual-

But with 2.8 million blacks and 100,-000 whites estimated eligible to vote. Prime Minister Ian Smith and his three black co-leaders of the biracial government were hoping for a big turnout that could start a tide of

SALISBURY, Rhodesia (AP) — international recognition.

lacks and whites in Rhodesia today — Since Smith declared independence voted together for the first time to from Britain in 1965 to prevent black rule, Rhodesia has been an international outcast. Only neighboring white-ruled South Africa maintains

diplomatic relations with it, and it is the target of economic and military Smith reversed himself last March, formed a transitional government with moderate black politicians Abel Muzorewa, Ndabaningi Sithole and Jeremiah Chirau, and agreed with them on a new constitution providing

and the country's first black prime Nkomo and Mugabe have vowed to sabotage the elections and step up their guerrilla war because while the blacks will have the majority, the whites will dominate the future gov-

for a black majority in Parliament

The whites, who make up just 4 percent of the population, will have 28 of the 100 seats in the new House of Assembly, enough to veto any change in the constitution. Constitutional provisions will also keep the armed forces, the civil service, the judiciary and the police under white control for at least the next five years.

Black supporters of the constitution say they agrzed to the guarantees to the whites to retain the whites' expertise for black Zimbabwe Rhodesia, as the country is to be renamed, to get the whites to agree to majority rule and, hopefully, to get international recognition.

The voter was given a ballot with five black parties listed and special symbols to guide illiterates. The voter marked his or her choice with an "x" in a private booth, then folded the ballot and deposited it in a ballot

About 50 foreign observers invited by the government were allowed to watch the voting, watch the ballot boxes being sealed and could even place their own seals on them.

Gov. Clements halts efforts to increase mortgage rates

AUSTIN, Texas (AP) - Gov. Bill Clements shut off legislative efforts Monday to raise mortgage interest rates by threatening to veto higher charges, but said a special session

may be needed on the subject. The governor's announcement killed hopes of the savings and loan industry to up the state's usury limit this session from 10 percent to 12 percent.

"Too many Texans now cannot afford home loans, not because money is tight but because interest rates already are too high," Clements told a news conference. "If rates are allowed to go even higher, the number of people able to buy homes will drop accordingly.

If housing starts decline drastically, Clements said he will consider calling a special legislative session on

After three months of considering both sides, the governor apparently rejected arguments by Sen. Bill Meier, a sponsor of 12 percent interest rate legislation.

"I told him I was disappointed, that I thought he made the wrong decision," said Meier, D-Euless, who talked with Clements before the governor's news conference.

Wichita Falls shooting to go to grand jury the car, was charged with violating Wright said the suspect got out of a WICHITA FALLS, Texas (AP) -

The police officer who shot and killed a curfew violator has been placed on "limited duty" and will face a grand jury, according to Police Chief Curtis Harrellson.

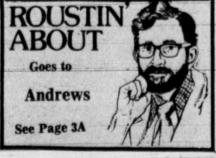

Authorities were trying today to identify the slain suspect, shot in the back as he ran from police before dawn Monday in the downtown area.

The officer who fired the fatal shot. Jay L. Wright, stopped the suspect for violating a curfew established to discourage looting after a tornado wrecked thousands of buildings in this North Texas city a week ago.

The downtown area escaped the twister that devastated eight square miles, kille 44 persons and caused more than \$200 million in property damage. But an 11 p.m. to 6 a.m. curfew was in effect citywide.

car, shoved him and ran. The officer said he chased the suspect and fired when the victim turned and reached into his pocket. Wright and his partner, John J. Bailey, said in their police report they believed the suspect was reaching for a gun.

But no firearm was found on the body. The suspect was killed by a single shot from Wright's .357-caliber

Harrellson did not elaborate on what "limited duty" Wright has been assigned to. He said a Wichita County grand jury will interview the rookie police officer Wednesday.

The chief also ordered an internal investigation, and one of the investigating officers, Sgt. James Shelton, said Wright and Bailey ordered the victim to halt "several times" before the suspect put his right hand into his right pants pocket and started to turn toward the officers.

Shelton said friends of the victim. who was in his mid-20s, said he did not speak English.

The shooting victim had been a passenger in a car driven by another man when the two officers stopped them. The driver, who remained in the curfew and released on \$28.50 After the shooting, two other offi-

cers arrived and administered cardio-pulmonary resuscitation without It was the first shot fired by officers since the curfew was imposed, Har-

Extended forecasts

West Texas: Chance of showers and thunderstorms mainly east of the mountains Thursday. Clearing Friday, becoming mostly fair Saturday. Not as warm north Friday and over the area on Saturday. Highs in the 80s and low 90s on Thursday, cooling to 70s north and 80s extreme south by Saturday. Lows 40s Panhandle to 50s and 60s south on Thursday, cooling to 30s in the Panhandle and 40s and 50s south by Saturday.

North Texas: Widespread showers and thunderstorms. Thursday and Friday. Clearing Saparday. Cooler north-west Thursday night and over most of area Friday and Saturday. Highest temperatures in mid 80s. Lowest

Motion to disqualify judge added by Fife's attorneys

ODESSA — A motion to disqualify 244th District Court Judge Joe Connally from hearing the murder case in Fort Worth against Odessan Stephen Patrick Fife will be heard here at 9 a.m. Thursday in Connally's court.

Fife, 22, is charged with the murder by strangultion of his girl friend, Catherine Ann "Fifi" Murphy, 19,

last summer. The motion to disqualify Connally stems from a conversation in which Will Hadden, attorney-spokesman for the Murphy family, said the family would prefer that trial be held in Odessa. Connally allegedly asked Hadden if the Murphys had a preference for the trial.

Miss Murphy was the daughter of an Odessa real estate-insurance exec-

The new motion brings to four the number to be considered Thursday. The first three motions call for psychiatric examinations of Fife prior to further proceedings in the case, the release of state evidence against Fife to his attorneys, and the release of Fife to his attorneys to help in the preparation of the case.

Investigation of Synanon wins Pulitizer for weekly

(Continued from Page 1A)

their heads so I can see what goes on inside them."

The awards, established by the late Joseph Pulitzer, publisher of the defunct New York World, have been awarded since 1917. This year the rules were changed so that nominating juries submitted their choices in each category alphabetically, not in order of preference.

The Pulitzer Advisory Board, whose role had always been more than advisory, renamed itself the Pulitzer Prize Board and picked the final winners. The awards are administered by Columbia University.

Each winner gets a \$1,000 prize except in the public service category, in which the prize is a gold medal. A new award for feature writing went to Jon D. Franklin, science

writer for the Baltimore Evening Sun, for a two-part account of brain

Photography awards went to Thomas J. Kelly III of the Pottstown, Pa., Mercury in the spot news category for a series of pictures of a hostage situation; and to staff photographers of the Boston Herald American in the feature photography category for their work during their city's worst snowstorm in February 1978.

In the arts category, the non-fiction award went to Edward O. Wilson. Harvard entomologist, for "On Human Nature," and the biography prize was won by Leonard Baker for his "Days of Sorrow and Pain: Leo Baeck and the Berlin Jews.

The history award went to Don E. Fehrenbacher, Stanford University professor, for "The Dred Scott Case."

Joseph Schwantner, associate professor of composition at the Eastman

School of Music in Rochester, won the music award for "Aftertones of Infinity," first performed in New York last January Other journalism awards went to Edwin M. Yoder Jr., for his editorials

in the Washington Star; to Russell Baker in the commentary category for his humorous columns in The New York Times, and to Paul Gapp of the Chicago Tribune in the field of criticism for his writings on architec-

A two-time winner was James Risser, Washington bureau chief of the Des Moines Register, whose seven-part series on pollution by farmers took the national reporting prize. He got the same award only three years ago for a series on grain inspection.

The general local reporting prize went to the San Diego Evening Tribune for its coverage of the nation's worst air disaster, the Sept. 25 midair collision that occurred only 28 minutes before the paper's first edition deadline.

Vandals hit during Easter holiday

By MIKE SLATON Staff Writer

Bricks, clubs and guns were used by vandals over the Easter holiday to damage about 27 cars, trucks and mobile homes, causing thousands of dollars in damage, according to police

No injuries were reported in the wave of destruction in which damage to vehicle windshields has been estimated by several Midland windshield repair shops to be between \$4,000

Area struck by the vandals primarily was in a section west of North A Street, with the majority of damage located in an area defined by Wadley Avenue on the north, Garfield Street on the east, Golf Course Road on the south and Midland Drive on the

Fourteen incidents of vandalism occurred within those borders. Guns were involved in four of the

incident, police said.

Police identified Hindman as the

wall of a Midland print shop.

27 incidents, three taking place sometime Saturday night or Sunday morning and the other either Friday night or Saturday morning, according to a police spokesman.

Robert M. Cunningham reported about 8:23 a.m. Saturday that the windshield of his car parked in the 2000 block of Winfield Road had been shot out and what looked like a bullet hole was found in the right front fender, police said.

About 3:30 a.m. Sunday, police received a call that someone was shooting a gun in the 3000 block of Dengar Avenue

When police arrived at the scene they were told by a witness that a man had backed a pickup into the driveway of the home of Texas Rangers Captain J.P. Lynch.

The man stepped out and fired nine shots in a westward direction with a .22-caliber pistol, the witness said.

The man who fired the shots joined another man waiting in the pickup and drove away, the witness said. A few houses down the street a

mobile home owned by Clayton Williams was found with nine small bullet holes in it, according to police.

Officers said Williams estimated the damage at \$20,000.

Howard Shaw of the 2000 block of Sinclair Avenue reported about 10:29 a.m. Sunday that eight holes had been shot in the driver's side door of his car, parked about 1½ miles from where the Dengar Avenue shots were fired and about five+blocks from where Cunningham's car was fired

Police said the holes may have been made by a .38-caliber or .380-caliber automatic weapon.

A .22-caliber weapon may have been the instrument used to fire two shots through three windows and a wall of Ray McCarthy's home in the 2600 block of Northrup Drive, police

McCarthy and his wife, who were

asleep in the house at the time of the

shooting, were not injured. The McCarthy home is about half a

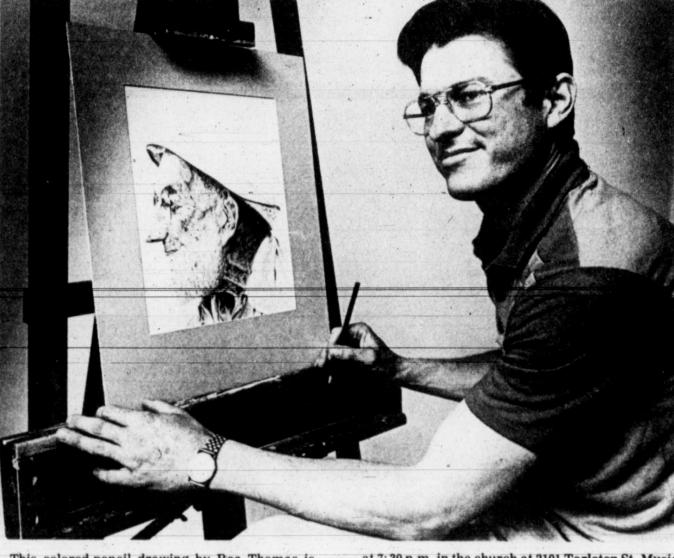

mile south of the Williams mobile A pickup may have been driven over the curb to vandalize the front yard of J.C. Roberts in the 3000 block

of West Ohio Avenue, according to

Mrs. Roberts. Tracks from big tires like those used on pickups were made in the yard about 1:30 a.m., Mrs. Roberts

Other Midlanders reported over the weekend that windows of their cars and trucks had been broken with bricks or what they said appeared to

be a club or mallet. Detective Captain Billy Ray said the Midland Police Department has no way of determining whether the crimes are related. But he added that when vandalism occurs in such a defined area, there is a good chance the incidents are connected.

at 7:30 p.m. in the church at 2101 Tarleton St. Music and refreshments also are scheduled for the night. (Staff Photo)

Fed chairman says U.S. economy slowing, inflation will still be felt

WASHINGTON (AP) - G. William Miller, chairman of the Federal Reserve Board, says the economy is already slowing down nicely, although inflation will continue to plague consumers for several more

months at least. "We'll have bad news on prices pretty much for the whole first half of the year," Miller said in an interview Monday. Consumer prices increased

1.2 percent in February. Miller said he believes the Federal Reserve is already following the correct policies to restrain the economy and inflation and that further tightening of the economy would risk a serious recession.

"We're in the range of properness," he said.

Miller said it takes from six to 18 months for policies to work and that policies now in place probably won't show up in a lower inflation rate until the second half of the year.

The Fed chairman indicated he has no intention of yielding to pressures from some members of the Carter administration to push interest rates higher to slow the economy and help fight inflation.

He said inflation itself is helping slow the economy - especially higher prices for food, energy and housing, over which the government has little control

"This increase in the cost of necessities is already depleting the capacity of the consumer to buy other items and is already putting downward pressure on the demand for other goods and services," Miller said.

Some of those urging higher interest rates now are the same "lowerechelon people" who worried a year ago that higher interest rates would wreck the economy, said Miller. "They sure change their opinions fast," he added. "I'm not going to worry about them.

Boat, complete with fish, stolen

SAN ANGELO - Good luck on the lake turned to bad luck on the lot for a Midland fisherman Sunday

Bill Brittain reported his \$4,500 fiberglass boat, its 70 hp Mercury motor and trailer were stolen while he had dinner in a San Angelo steak house.

In the boat were a pair of water skis, a depth finder, several fishing rods, five life vests and 30 pounds of fish accumulated at Twin Buttes

The rig had been parked on the street near the restaurant and was stolen about 6:15 p.m. Sunday, Brittain told police.

Egypt ousted

KUWAIT (AP) - The Organization of Arab Petroleum Exporting Countries expelled Egypt from its membership today and announced an embargo on oil shipments to Egypt.

Chairman Omar Al Montasser, the Libyan minister of heavy industries, announced the decision at the end of a two-day OAPEC meeting that was attended by the other nine members of the organization.

ing Monday. The move conformed with a decision by the Arab League last month to impose a political and economic boycott against Egypt in retaliation for President Anwar Sadat's signing of a

Egypt walked out of the meet-

The decision to impose an oil embargo on Egypt will mean that Egypt will have to seek some oil supplies from outside the Arab world, its main supplier until the ban was imposed.

Oil industry sources said

peace treaty with Israel.

Egypt produced an average of 90,000 barrels of oil daily during 1978, but it had to import oil from Saudi Arabia to meet its local requirements. Earlier in the week Egypt was expelled from three Arab financial institutions: the Arab Fund

for Social and Economic Devel-

enment the Arab Bank for Eco-

nomic Development in Africa

and the Arab Mining Co. -

risburg, Pa. Gov. Edmund G. Brown Jr. previously had asked that the plant be closed for precutionary tests, but the federal Nuclear Regulatory Commis-

sion ruled that it could continué oper-

LOS ANGELES (AP) — U.S. Sen.

Alan Cranston said Monday that

Mexican oil sales could skyrocket to

\$30 billion annually in the next 10

years and the United States could

cause it is a near-twin to the crippled

Three Mile Island reactor near Har-

ations at a reduced level. "Mexico needs U.S. agricultural machinery, American industrial technology and machine tools for developing its industry. The U.S. needs Mexican oil and gas," Cranston told officials of the two nations at a conference in Los Angeles. "So there is a natural basis for increasing

Cranston said further development

Solon says rates may hurt coal development

HOUSTON (AP)- Rep. Bob Eckhardt; D-Texas, said Monday if railroad rate increases approved by the federal Interstate Commerce Commission are allowed to stand efforts to use coal as a substitute energy source. for oil and gas would be hurt sever-

Eckhardt, speaking at a hearing on coal-hauling rates, said the electricty consumers of Houston alone would be forced to pay an additional \$40 million

The hearing centered on the transportation costs of coal from the west ern states of Wyoming and Colorado

to Texas. George W. Oprea, executive vice president of Houston Lighting and Power Co., said Burlington Northern Railroad originally offered to ship coal from Wyoming to Houston at a rate of \$10.22 aton.

lad was on the way, therailroad asked for and received a sharp increase with the rate now \$17.22 a ton. Oprea said the railroad had refused

to supply freight cars and Houston

Lighting and Power had purchased

But, he said, even before the first

1,200 cars to carry the coal. Eckhardt, chairman of the House Subcommittee on Oversight and Investigations, was accompanied to the Houston hearings by Rep. Mickey Le-

Eckhardt, in his opening statement, said the delivered price of coal to Corpus Christi, Texas, from Africa is cheaper than that sent from Colora-

Texas Attorney General Mark White said a "familiar pattern is emerging from his attempts to combat increased rail rates. When a utilirailroad, the railroad often breaches its contract and through its monopoly

position tries to increase its rates. A subcommittee economist, Carolyn Emigh, said the investigators are looking more closely at the ICC than

at Burlington Northern. The ICC, she said, has failed to develop procedures and standards to ensure that railroads operate "under honest, economic and efficient man-

agement." A similiar hearing is scheduled in

San Antonio Tuesday. Arguments

road commission Monday set oral arguments for Thursday on the applications of Lone Star Gas Co. and Amoco Gas Co. to pass on to customers increased natural gas costs in some of the companies' lower-priced

The two companies contend they should be allowed to pass on gas costs as a result of a settlement between Lo-Vaca Gathering Co. and its customers

Examiner Glenn Johnson recommended the commission deny Lone

Examiner Jeffry Hill, however, recommended Amoco's application be granted to pass on costs to four customers - Air Products and Chemicals, Inc.; Big Three Industries; Champion International Corp. and Gulf Oil Corp.

Pl report on quarter shows completion hike

DENVER, Colo. - Through the first three months of this year, 11,800 wells drilled for oil and gas were

ed in the first quarter of 1978, according to Petroleum Information Corp.,

Last year's first quarter total included 4,734 oil wells and 2,915 gas wells. The 1979 first quarter total included 4,361 new oil wells - down 8.0 percent for the period - and 3,688

gistered in recent years appeared to be flattening, the average depth of all categories of drilling, and industry's success rate were increasing. The average well in the first quarter of this year was drilled to a total depth of 4,873 feet...246 feet deeper than in the same period a year ago. Sixtyeight percent of the 1979 first quarter wells were completed producing oil or gas compared to 65.1 percent in 1978's first quarter.

The slowing in well completions is partially attributable to the first quarter's deeper drilling. Though exploratory wells seeking new fields declined five percent for the period to 1,646 completions, the average depth of those wells increased an average of

drilled in the first three months of 1979 increased 2.2 percent to more than 10.3 million feet. Exploratory wells in and near existing fields were driled an average of 392 feet deeper than in the first three months of

quarter of 1979 was up 5.8 percent to more than 57.5 million feet. This compares with less than 54.4 million feet in the first quarter fo 1978.

Total footage drilled in the first

fornia largely accounted for the leveling off in the rate of well completions nationwide. Through March, 1979, Texas had 3,862 wells completed, ..431

The decline in California completions was largely attributed to a slowing in steamflooding projects in the

Rig counts in both states, according to Hughes Tool Co. have droppedsharply since the first of this year. For the week of April 2, the Texas rig count was 700 - down 123 from early January, and the California count for the week was 84 - down 20 from the

completions from the first quarter of 1978 included: Kansas - down 95; Indiana - down 76; and Illinios down 51. The largest increases in drilling

during the first quarter of this year occured in Ohio, Louisiana and West Virginia. Drilling in Ohio jumped 153 percent as 746 wells were completed through March, 1979. Louisiana drilling also rose sharply as 1,262 wells were completed in the first quarter of this year, compared to 892 for the same period last year.

to increase as 440 completions were reported there compared to 249 in 1978's first quarter. Pennsylvania also had a substantial increase with 325 completions there...96 more than were completed through March last

A good provider, but not with sex

By ABIGAIL VAN BUREN

DEAR ABBY: I am 19 and have a year-old girl. Her father liked to sleep with me but didn't like the responsibility of being a father, so he left. I swore I'd never get involved with

another man like him again. Now I have a man who is just the opposite. He wants the responsibility of being a father but doesn't like to sleep with me.

He's a businessman who says he's got business on his mind constantly and never thinks about making love.

We've been living together for a year and he's slept with me only twice. He told me he doesn't think we will ever sleep together again. He's loyal, stays home most of the time, doesn't drink, and is a good man. We has temporarily stayed with the child. work together in his store.

Do you think we will make it together? - CONFUSED IN MASS. DEAR CONFUSED: All that's necessary for two people to "make it together" is for each to need the other. If you can live happily without sleeping with him, and he can live happily with things the way they are,

there's no reason why you can't make DEAR ABBY: I would like to know the correct way to wear my wedding ring set. Which ring goes on first the engagement ring or the wedding. band? And what is the reason for it?

- MRS. W. W. DEAR MRS. W .: The wedding band goes on first. I don't know the reason for it, but I like to think that the wedding ring is closer to the heart.

DEAR ABBY: When Randy first started to date, he'd say: "The girl has no curfew, and I have to be in before SHE does. It's embarrassing." Randy is our 16-year-old son, and I'd like to know what the parents of teen-age girls are thinking of.

We're not unreasonable, Abby. We ask Randy to leave the girl's house at 10 p.m. on school nights and 1 a.m. on weekends. If he's going to be held up for any reason, all we ask is a phone

This girl he has been seeing a lot of lately has just turned 16. She is under no restrictions on dating. Even when nothing special is planned, she asks Randy to come over and just sit around. Needless to say, we are in a constant state of worry. Our son has had a good upbringing, but even nice kids fall in love and get carried away. I'm afraid they're playing with fire. If Randy came to us and said he wanted

Gasoline mileage guide distributed

CAR BUYERS NOTE - The expanded, second edition of the 1979 federal gasoline mileage guide has been distributed to car dealers across the nation, the Energy Department

This booklet, prepared by the Environmental Protection Agency, lists autos and tells the number of miles per gallon that can be expected from them. The new edition lists most foreign cars, as well as domestically produced autos.

Auto dealers are required to have the guides on display and to give them to the public without charge. There is a separate version of the guide used in California, which has more stringent air pollution standards.

Single copies of the guide are available by writing Fuel Economy, Pueblo, Colo. 81009.

Consumers who find a dealer not making the guides available can contact the Office of Enforcement, National Highway Trffic Safety Adinistration, Department of Transportation, 400 Seventh St. SW, Washington,

to get married before he finished his education, we'd be heartsick. Abby, please, please tell parents of

Study compares sexual function of homosexual, heterosexual

BOSTON (AP) - There is no difference in the ability of men and women to achieve orgasm, regardless of whether they are homosexual or heterosexual, says a new Masters and Johnson study.

The husband-wife team of William H. Masters and Virginia E. Johnson said their discovery should help erase what they said are the taboos against homosexuality.

The conclusions of their study conducted from 1968 through 1977 comparing the sexual function of homosexuals and heterosexuals are contained in their new book, "Home sexuality in Prospective," outlined at a briefing Monday. The work is their first major study since "Human Sex-ual Inadequacy" was published in

The couple said they found that the sexual problems of homosexuals including the desire by some to function as heterosexuals - in many cases can be effectively treated in two weeks of intensive therapy.

They studied 84 homosexual men and women for problems they had in functioning effectively as homosexuals - impotence in the case of the men and inability to reach orgasm in

the case of women. The two-week treatment failed in about 12 percent of the cases, they said. The treatment program is similar to the program they pioneered to solve the sexual problems of heterosexuals.

About 35 percent of the 67 homosexual men and women who wanted to function as heterosexuals failed to achieve a longstanding reversal of their homosexuality during their treatment, the couple said

The researchers observed the love making of men and women, both homosexual and heterosexual, in their laboratory at the Master & Johnson Institute in St. Louis

They found that regardless of sex-

ual preference, men and women failed to reach a climax through masturbation, partner manipulation and oral sex less then 1 percent of the When heterosexuals engaged in in-

tercourse, the men failed to reach orgasm just over 3 percent of the time and women slightly less than 3 per-

"There is no basis in physical fact for the oft-repeated dictum, 'My way is better than your way'," they wrote. "It is reasonable to speculate that, when absorbed, this finding should lead to significant modification in current cultural concepts."

Lula Miller

SAN ANGELO - Services for Mrs. Joe (Lula) Miller, 72, of San Angelo, mother of Rose Darlyne Poyner of Big Lake and Joe Winford Miller of Odessa and sister of Tommy Derrick of Big Lake, will be at 3:30 p.m. Wednesday in College Hills Baptist Church.

Burial will be in Fairmount Cemetery directed by Johnson's Funeral

Mrs. Miller died Monday in a San Angelo hospital.

She was born Aug. 17, 1907, in Brady. She had lived in San Angelo since 1940. She was married to Joe D. Miller Aug. 17, 1926, in Weatherford. She was a member of College Hills Baptist Church.

Other survivors include her husband, a son, two sisters and a broth-

Midland Junior Achievement completes banquet plans

Plans are complete for the annual Future Unlimited Awards Banquet of Junior Achievement of Midland. directors of the association were told at their April meeting held this morning in the J.A. Center.

The function, which is expected to attract several hundred Achievers, their parents, advisers and officers and directors, is scheduled for 7 p.m. Thursday in the Midland Hilton. President Joe Kloesel will preside, and Parker Humes will be master of

Ed Hagan, chairman of the Awards Committee, said numerous awards will be presented to individual Achievers and their miniature companies. Two special scholarship awards will be presented.

Gary Petersen, executive director, said the program is winding down on what has been a "most successful" season. He said nine of 17 companies have qualified for "Company of the Year" competition, which is well above the national average. The number compensors with six out of 15 number compares with six out of 15 last year. He said the exam scores also are much higher this year than

A report on the "Project Business" program was heard, and Gene Abbott reported briefly on the National

Business Leadership Conference held earlier this month at New Orleans,

It also was announced that the graduation banquet for Achievers enrolled in the Dale Carnegie course will be held at 7 p.m., April 27, at

Furr's Cafeteria. Reports of the nominating and budget conmittees will be heard at the May meeting.

Communion wine allowed in prison

BOISE, Idaho (AP) - Wine is being used for the first time in religious services at the Idaho-state prison system, overturning a strict policy against alcoholic beverages behind

The issue came up when prison officials decided to apply the policy to the sacramental wines used in Christian communion services and Pass-

over wine for Jewish inmates. The ban brought cries of protest from church officials and the general public as the end of the Easter and Passover week drew near.

Stock market loses

NEW YORK (AP) - Talk of more credit-tightening by the Federal Reserve sent stock prices into a broad decline Monday, pinning the Dow Jones industrial average with its largest loss in more than six weeks.

The widely recognized average of 30 blue chips fell 10.05 to 860.45, for its biggest decline since it dropped 14.12 points last Feb. 27.

The daily tally on the New York Stock Exchange showed more than three losers for every stock that gained ground.

The Federal Reserve's policy-making Open Market Committee is scheduled to hold its monthly meeting Tuesday. In view of the surge in the inflation rate so far this year, many analysts were predicting that the Fed would decide to exert new upward pressure on interest rates

Point-plus losers among the blue chip and glamor issues Monday included Du Pont, off 11/2 at 1371/2 as of the 4 p.m. close in New York; Union Carbide, down 1½ at 37%; Walt Disney Productions, 11/8 lower at 38%; Texas Instruments, off 1 1/8 at 83, and Xerox, down 1 at 55.

International Business Machines, which declined sharply last week on disappointment over the 13 percent earnings gain the company posted for the first quarter, eased 1/4 to 311 1/4.

Some gambling stocks moved against the downtrend. Caesars World jumped 51/8 to 74 and Bally Manufacturing rose 3 to

The NYSE's composite index droppd .48 to 57.05.

Standard & Poor's index of 400 industrials was down .97 at 112.75, and S&P's 500stock composite index lost .88 to 101.12.

Auto sales off slightly

DETROIT (AP) - U.S. auto sales fell slightly in the first 10 days of April - to nobody's surprise.

Analysts say they would have been surprised if buyers had gone to the showrooms in the same numbers as they did in early April last year, when spring thaws liberated sales slowed by a severe winter.

The five domestic manufacturers sold an estimated 219,882 cars in the period down 5.5 percent from sales of 232,581 in the same time last year, according to sales reports Monday. The estimate is necessary because American Motors Corp. . no longer reports 10-day sales.

The Big Three manufacturers reported deliveries of 212,155 cars, 6.7 per cent below last year's 227,511. Only GM was ahead of last year's pace.

"This is an annual rate of 9.5 million domestic cars, perfectly acceptable," said Mary Ann Keller, an analyst for Kidder, Peabody & Co., a Wall Street investment

GM's total of 138,722 was 1.3 percent above early April of last year, when 136,885 were sold. A Chevrolet dealer contest expired during the period and probably more than accounted for GM's increase as Chevy sales were up by more than 18,000, a spokesman noted.

GM's new compacts go on sale Thursday, and analysts said some buyers might have been holding back to see them. Ford Motor Co. sold 52,643,

down 11 percent from 59,-

Chrysler Corp. sold 20,790, a decrease of 34 percent from last year. A dealer incentive program at Chrysler worked to push many April sales into March, analysts

AMC's sales, strong in recent days, were estimated at 3,800, down 25 percent from 5,070 last year. AMC announced Monday it was increasing daily car production by 32 percent next week.

Volkswagen Manufacturing Corp. delivered 3,827 Rabbits from its Pennsylvania plant. They were not being sold yet last year.

For the year so far, car sales of 2,406,401 were ahead of last year's 2,288,299 by 2.1 of last year 4/17/79 percent.

BUSINESS MIRROR Downturn is coming soon

By JOHN CUNNIFF

NEW YORK (AP) - The small business outlook is down. So is the view from the towers of big business. The banks say the economy's forward motion will slow. Various consultants raise their odds on a recession

No surprise, then, that the popular measurements of consumer behavior show ordinary Americans worrying about the future, worrying about the present and comparing their lives unfavorably with the

Meanwhile, the economy ignores it all, seemingly living a life of its own, unaffected by what small business, big business, the consultants or the public believe should be happening to it. It expands.

What began in March 1975 is now destined to live at least 50 months, making it one of the longest this century. And one of the most unusual. Unusual for several reasons, one of them being

that so few people really believe the nation's output of goods and services has been expanding. If it has been, they ask, where in the world has it gone? Up in smoke, consumed by inflation rather than by

consumers, is one explanation, but a partial one only. Living standards really have risen, measured by economics. Measured in attitudes, they haven't. Those attitudes are measured every month by at least one of the popular consumer opinion firms: the

University of Michigan's Survey Research Center, Sindlinger & Co., the Conference Board and Citi-And those surveys have for many months been sending out bearish signals, based on the announced

intention of consumers to pull in their credit cards and renounce their buying ways. Promises, prom-When will determination be translated to action?

From early in the second half of 1977 to the end of 1978 the Michigan index fell, except for minor, brief recoveries. In the 1978 final quarter it plunged. Since the economy continued to expand since that

time, contrary to the suggestion of the index, what is The Michigan people say that consumers bought in

anticipation of higher prices; that they might not have wanted to buy but they did buy because it was the lesser of evils.

The consumer surveyors aren't alone in being perplexed.

The Index of Small Business Optimism, main tained for the National Federation of Independent Business, has been falling since April 1977. The most pronounced bearishness was in response to the question, "Is it a good time to expand?" But business did expand.

Big-business economists haven't been much more optimistic. Some, along with their academic and consulting colleagues, began talking recession more than a year ago. Their forecasts are off by at least a

There have been notable exceptions. The National Association of Purchasing Management repeatedly has found little sign of a downturn. The heads of some industries, automobiles for one, have been

But more remarkable has been the consistency of bearish forecasts. Unshaken by the reality, some forecasters have dug in and insisted more strongly than before that a recession is coming. It has to, they

why do they remain so bearish? Because, they insist, economic conditions have been deteriorating right before our eyes. The price of oil, the persistence of high interest rates, the anticipatory buying, the inability to restrain prices, the high household debt

Albert Cox, president of Merrill Lynch Economics Inc., is one of those who has been forced to change the timing of his forecast, but in so doing he has raised the odds on it coming.

Though it's exact timing remains an open question, he told clients during the past month, the odds are now higher than before that a downturn will occur within a year. He gives it an 85 percent

While believing that a moderate recession by midyear is the most probable (50 percent), Cox has also raised his odds to 35 percent from 30 on the chance of a deeper and later recession occuring by

No matter that there timing has been off, and very badly so, the surveyors of big business and small, the economic consultants, the banks, and the consumer forecasters do not feel the need to apologize.

The downturn is coming they say. You just wait

Social Security increase to be record 10 percent

WASHINGTON (AP) - The cost-of-living increase Social Security beneficiaries will automatically begin receiving in July will likely be a record of about 10 percent, government sources predict. The exact increase will not be known until April 26,

when the Labor Department reveals the Consumer Price Index for March. Social Security benefits climb automatically each July if the index for the first three months of the year is 3 percent or more above the figure for the same period of the previous year. Double-digit inflation in January and February

already has helped boost the index to 9.3 percent above its level in the first quarter of 1978. The index's March jump, which is inevitable, will push it close to 10 percent, said the sources, who asked not to be

Last July the nation's 34 million Social Security beneficiaries got a 6.5 percent increase. The highest previous automatic hike was 8 percent in 1975, following a year in which inflation hit a postwar

The trustees of the Social Security trust funds, meanwhile, were releasing their annual report to Congress Monday.

Last year the trustees, Health, Education and Welfare Secretary Joseph A. Califano Jr., Treasury Secretary W. Michael Blumenthal and Labor Secretary Ray Marshall, reported higher taxes had put the system's retirement and disability trust funds on a sound footing until the early 21st Century.

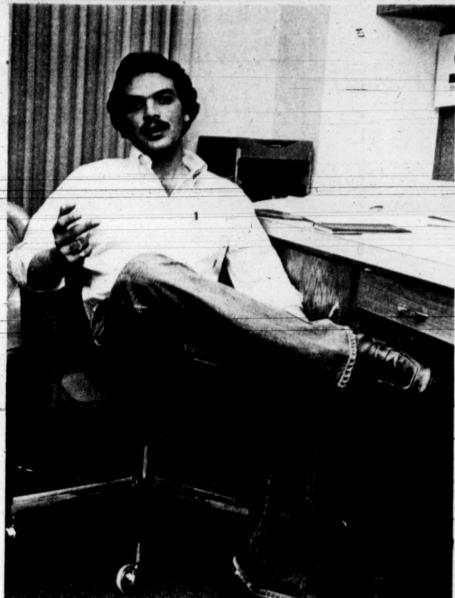

However, they said the Medicare hospital insurance trust fund will go broke by 1990 unless it receives additional revenues.

The cost-of-living increases, which have been automatic since 1975, are one reason the system has been thrown into the fiscal crisis that led Congress to pass higher taxes in 1977.

The maximum Social Security benefit for a worker retiring at age 65 in 1978 was \$489 a month, so a 10 percent increase would boost his benefit to \$538 a month, or \$6,456 for 12 months. A spouse of retirement age is entitled to an extra 50 percent for a total benefit for the couple of \$9,684.

But the average Social Security benefit for a single retired worker last year was \$254 a month; for a couple, \$433.

Railroad Retirement checks and Supplemental Security Income payments will go up by the same percentage in July.

Gary W. Hanson, son of Mr. and Mrs. Gerald W. Hanson of Stanton, is busy preparing to take over as president of the Texas Tech University Student Association. Hanson, a former Stanton High School student council president, will be representing some

Stanton student to be president at Texas Tech

LUBBOCK - Gary W. Hanson, son of Mr. and Mrs. Gerald W. Hanson of Stanton, is preparing to assume the presidency of the Texas Tech University Student Association which represents more than 22,000 stu-

Hanson, a former Stanton High School varsity athlete and student council president, is aware that his new duties will be far removed from those as president of a 200-student high school.

His new duties will includes motivating people to get things done, supervising expenditures of the student budget and signing vouchers.

He also will be responsible for seeing that Student Senate legislation reaches the right administrators and checking on the implementation of the pro-

His plans for the new year include printing summaries of all academic courses, instituting a crimeprevention program on campus and improving cam-

To increase participation in student government only 2,334 of the 22,000 students voted in the last election — Hanson said he plans to publicize what the association does and can do for students and said he would like to produce a monthly supplement to the daily student newspaper.

After graduation, Hanson's plans are not so clear-

"I'd like to be a sucessful businessman 15 years from now. I'd like a job in marketing or public relations, probably in the Dallas or Houston area.

"I want to feel that I have contributed something to my profession, just as I hope I'll have contributed something to Texas Tech," he said.

Carter calls for 10 million acres in U.S. to be preserved as wilderness areas

WASHINGTON (AP) - Congress should designate nearly 10 million acres of national forest land in the contiguous 48 states as wilderness, President Carter says. The move would keep the acreage free from new development and mineral exploration.

An additional 5.5 million acres of roadless land in Alaska would be

designated wilderness ministration said Conunder the administration's proposal. But the president also

recommended Monday that 28.5 million acres of roadless land in the lower 48 states be opened to "multiple uses," such as mining, grazing, timber cutting, recreation and oil and gas explora-

The areas selected are part of the RARE II lands, an acronym for the U.S. Forest Service's Roadless Area Review and Evaluation program involving 62 million

acres of land. The Carter recommendation to set aside a total of 15.4 million acres as wilderness would nearly double the size of the wilderness system.

The recommendation also calls for further Jones, D-Abilene, said the finance committee study to determine the best uses of 7.6 million acres in the lower 48 states and 2.9 million acres in Alaska.

Non-wilderness areas would account for 28.5 million acres in the contiguous 48 states and 7.5 million acres in Alaska.

Congress already has set aside 14.7 million acres of public land as wilderness. The lands are administered by the Forest Service, National Park Service and Fish and Wildlife Service.

Clements fails to give administrators much hope for higher teacher pay

AUSTIN, Texas (AP). - Big city school superintendents got no encouragement from Gov. Bill Clements in their quest for higher teacher salaries and didn't even have time to bring up bigger issues of school finance.

months and fined \$1,000.

Superintendents and administrators from the seven biggest school districts emerged from

with Clements on Monday to say he was adamant in his stand on teacher pay.

Clements also said, according to those who were present, he wants diplomas that would tell a prospective employer something of the competency of a high school graduate.

"He wants people to
