Tornadoes, heavy rains carve path of destruction over North Texas area

By The Associated Press

Tornadoes and torrential rain from three waves of ominous black clouds that swept across North Texas Thursday injured at least eight persons, none seriously, and left a trail of destruction estimated at \$2 million. Two afternoon tornadoes that tore through the Dallas suburb of DeSoto,

destroyed nine homes, damaged 12 businesses and DeSoto High School. The approximately 1,300 students, who had undergone a tornado drill

only hours earlier, spent a nervous but safe two hours huddled in the dark hallways of the school, which received only minor damage.

"The wind was blowing so hard, I couldn't hear the tornado coming," said Carolyn LaFlower of DeSoto. "But I saw a table and the porch swing on the patio blow over and things started flying through the air.

"I grabbed my son and ran into the shower. I figured it was the safest place as it turned out, that was

In the Basin, temperatures plummet to near-record lows

Near-record cold swept through the Permian Basin on the heels of a front Thursday, leaving Midlanders shivering in short sleeves and wondering where the recent, warm days of spring went.

Warmer temperatures are, however, expected to arrive for the weekend, the weatherman said today.

Fair and warmer tonight and Saturday is the word from the National Weather Service office at Midland Regional Airport.

- Thursday's high, recorded at midnight, was 68 degrees. The temperature fell steadily from there to a low of 39, one degree aove
- the record for the date the record having been set only last year. In fact, an early May cold snap in 1978 broke a record for low temperatures that had stood since 1935.

Record high for Thursday's date is 98 degreese set in 1947. Clouds which have hovered over the area for the past week delivered only a trace of mist Thursday, leaving the annual rainfall accumulation at 2.86 inches Saturday, however, is expected to offer excellent weekend weather with the high predicted to be near 80 and the overnight low in the upper 40s. Today's cold north winds are expected to become light and variable tonight.

about the only part left standing when it was over.

Thousands of Dallas residents scrambled for shelter, others rushed to the streets to gawk at the boiling clouds when Civil Defense sirens echoed their eerie warnings.

The flurry of tornadoes came less than a month after a massive twister killed 48 and injured hundreds in Wichita Falls.

Several tornadoes touched down within minutes of each other near Wilmer and Hutchins, about 10 miles south of Dallas, injuring four persons in a demolished mobile home, tearing the roof off of Wilmer-Hutchins High School and collapsing the roof on a supermarket.

Three men were slightly injured when the roof collapsed under the weight of collected water on a topfloor coffee shop at Dallas' Le Baron Hotel

"It got black as pitch and I heard the crash of falling debris," said hotel manager Frank Fry.

Fifty mobile homes in two trailer parks were damaged when a tornado roared through the tiny town of Red Oak, 20 miles south of Dallas.

Almost four inches of rain fell on parts of Dallas and surrounding areas as the three severe weather systems rolled across the state

Margaret Thatcher wins Britain's election

LONDON (AP) - Conservative Party leader Margaret Thatcher, champion of free enterprise and curbs on union power, swept to power today in Britain's general election, making her Europe's first woman prime minister.

Prime Minister James Callaghan went to Buckingham Palace to tender the resignation of his Labor Party government to Queen Elizabeth II. The queen will then ask the 53-yearold Mrs. Thatcher to form a new government.

The British Broadcasting Corp. reported in mid-afternoon as the vote counting from Thursday's election neared completion that the Conservatives had passed the 318-seat mark in the 635-seat House of Commons, an absolute majority.

Earlier, with 574 of the 635 seats in the House of Commons declared, the Conservatives, traditional party of big business, had 301, Labor 255, Liberals 10, the Scottish Nationalists 2, Plaid Cymru (Welsh nationalists) 2, and one seat for the speaker.

Computer projections showed a final overall majority of 41 seats for the Conservatives.

"I am aware of the very great responsibility," Mrs. Thatcher said ather jubilant headquarters. ".... It is very exciting, but somehow one has to be very calm about it. I feel it will be all right."

The 67-year-old Callaghan, government chief for three years, spent his last hours in office closeted at No. 10 Downing St., official residence of the prime minister — as bouquets of blue flowers, the Conservative Party color, began arriving for Mrs. Thatcher.

The results showed the country deeply divided, with the prosperous south of England solid for Mrs. Thatcher's Tories, while Scotland and the north of England, where the shipbuilding, steel, engineering and coal industries rely on state support, consolidated behind Labor.

The latest popular vote figures showed the Conservatives with 12,271,-619 votes, or 44.3 percent, and Labor with 10,540,851, or 38 percent. Union reaction to Mrs. Thatcher's

triumph came swiftly.

Railwaymen's union leader Sidney Weighell warned, "We are going to have a confrontation situation generated if they do what they say they are going to do.⁹ Joe Gormley, leader of the National Union of Mineworkers, whose strike brought down the previous Tory government in 1974, said, "Just when we have got things

stage this morning. cut a path two miles wide and five miles long, destroying or damaging

buildings in Forney, Lawrence, High Point, Poetry and on the outskirts of Terrell, about 30 miles east of Dal-Forney Police Chief Bondy Richman said 30-40 homes had been damaged. Authorities estimated dam-

age in Kaufman County at \$500,000. DeSoto city officials estimated \$1 million damage to homes and \$200,000 to businesses.

A tornado that skipped through the Dallas subdivision of South Oak Cliff caused an estimated \$140,000 dam-

At least 22 homes were destroyed and 50 to 115 damaged in the areas hit by tornadoes. More than 150 mobile homes were damaged or destroyed. Numerous other tornadoes, heavy rain and large hail were reported in East Texas as the thunderstorms that spawned the tornadic activity near Dallas sped eastward

Flooded streets stranded hundreds

A memory to treasure

Federal building dedicated to Mahon

By RICHARD MASON Staff Writer

His graying hair tossled by chilly winds, former U.S. Rep. George H. the dedication of the federal building complex on Wall Avenue in his name, asking what more could he say than "thanks, thanks, thanks."

only congressional representative the 19th District had ever known, said he

Thursday's ceremony marked the final phase for the federal complex. Completed in 1974, the structure houses the U.S. Postal Service on the west side and a three-story building on the east containing offices for U.S.

under his heavy eyebrows as letters of praise from former colleagues and

associates were read aloud by Ann Doughty, regional administrator for the General Services Administration and master of ceremonies for the dedication

Sen. Lloyd Bentsen praised Mahon's "leadership, integrity, and profound understanding of fiscal policy," and House majority leader Rep. Jim Wright offered his hopes that the George H. Mahon building "like its namesake, (will) stand for the best that America has to offer. The dedication was not completely

Related photo,

Page 2A

somber, however.

In fact, Mahon was almost overlooked during the ceremony when it came time for his comments

Ann Doughty was busy listing who would give the benediction when a general uproar called the oversight to her attention.

Mahon was greeted by laughter and applause as he arose from his seat to

address the crowd. "I would like to jog around the building to warm up before making any remarks," he began.

He said he was "thrilled, excited. and surprised" by the comment of his colleagues.

-INSIDE

Glancing around the audience, Mahon said, "I always thought myself a modest kind of fellow. But I've

got to reappraise my importance." The audience again applauded the smiling ex-politician.

Earlier in the ceremony, Mahon was given a portrait commissioned by the Midland Chamber of Commerce. The painting arrived just in time for the ceremony.

As chamber president Joe Kloesel explained, the painting left Houston early Thursday morning, was flown to Lubbock, then routed to Midland, where it was unveiled midway through the dedication.

A gentleman to the hilt, Mahon gave the portrait to GSA representative Ann Doughty, who announced that it would hang inside the federal building.

Mahon and his wife, Helen, were given a large, gold-colored key to the facility.

Kloesel invited the Mahons to make the Midland-Odessa area their home And speakers praised the federal building in regard to it having been designed and constructed by West Texas firms.

Neuhardt and Babb of Midland and Covington, Shelton, Taylor of Odessa designed the multi-faceted concrete, brick and glass structure. Area Builders of Odessa constructed it.

Ceremonies began about 11: 30 a.m. Thursday with lively marching music provided by the Austin Freshman School Band.

TODAY-

Americans still believe oil shortage is hoax

NEW YORK (AP) - "The energy crisis is real. I said so in 1977, and I say it again tonight, almost exactly two years later," President Carter told the American people almost a month ago.

But a majority of the public doesn't agree, an Associated Press-NBC News poll found.

Americans say energy shortages are a hoax and that they don't like Carter's decision to lift price controls on domestic crude oil.

However, the public's distrust of oil companies runs so deep that, when faced with crude oil decontrol, they overwhelmingly favor a windfall profits-tax on oil company profits.

On April 5, Carter made the second major energy speech of his adminis-tration. He said he had decided to gradually lift price controls on old domestic crude oil and to ask Congress for a new tax on oil companies to prevent them from reaping excessive profits due to his decision.

The president argued that lifting price controls would give greater in-centives for searching for new oil fields, while the tax would keep oil companies from benefiting unduly from the lifting of controls.

Public reaction to Carter's proposals is mixed, in large part because Americans generally don't agree with his assessment of the nation's energy situation.

Fifty-four percent said the nation's energy shortages are a hoax. Only 37 percent say the shortages are real. Nine percent of the 1,600 adults interviewed nationwide by telephone were not sure.

Less than a year ago, the public was split down the middle - 46 to 46 - on the question of whether energy shortages were real. In that August 1978 poll, 8 percent were not sure.

As a result, the public doesn't accept the president's reasoning for lifting oil price controls. Only 37 percent of the public backed his decision, while 50 percent said they opposed. Thirteen percent of those interviewed Monday and Tuesday were not sure.

The link between a person's view of the energy situation and that person's reaction to Carter's decision is direct.

Those who think the energy shortages are real split 48-42 in favor of lifting controls on crude oil prices. Those who say the energy crisis is a hoax come down 58-31 against lifting controls.

Even though they don't like the lifting of controls, the other half of Carter's decision struck a responsive chord among Americans.

Nearly two-thirds of those interviewed said they support his proposal for a new windfall profits tax on oil companies. Only about 24 percent opposed the action and 10 percent were not sure.

Behind this perception is a definite dislike of the oil companies: The public blames the companies for the higher energy prices Americans are paying today.

Thirty-nine percent of the public says the oil companies are responsible for higher gasoline and heating oil prices, putting them at the top of the

Talmadge secretary denies incriminating memo

WASHINGTON (AP) - Sen. Herman Talmadge's financial secretary has denied under oath that she typed a 1974 memo which appears to imply that Talmadge wanted to conceal two The weather elsewhere >campaign contributions.

Allyne Tisdale also says she did not type another 1974 memo, which also bore her initials on the bottom. That memo instructed Talmadge's thentop aide, Daniel Minchew, to give the senator \$500

But the clearly-nervous secretary acknowledged both memos were written "similar to my style."

25

.72 cdy 2.59 cdy cdy clr

The Senate Ethics Committee planned to question Mrs. Tisdale again today about the two memos. Both memos, as well as several other pieces of evidence introduced Thursday, were received from Minchew, who once was Talmadge's chief aide and is now his chief accuser. If they are proven authentic, they would to support Minchew's credibili ty.

The two checks were for reimbursement of Senate expense claims. Both the check for \$10,604.68 in 1973 and one for \$2,289.99 in 1974 were funneled into a secret bank account set up by Minchew and did not show

Mrs. Tisdale also told the committee that, contrary to her earlier testimony to panel investigators, she was not all that involved in key financial transactions in 1973. She recanted parts of her earlier deposition, saying she was confused about the dates, and modified other sections

And the veteran Talmadge staffer also said it was Minchew himself who provided the "trail of evidence" that first enabled Talmadge to suggest Minchew might be an embezzler. She said Minchew told her in a July

14, 1978, note that there were problems with Talmadge's expense claims in 1973 and 1974.

Minchew also had given Talmadge a memo that morning, noting problems with the 1973-74 figures, and telling Talmadge he "resented very much" the senator not being totally candid in a meeting the previous day 'about your instructions to me regarding the special (office) account.

Both the handwritten note and the memo to Talmadge were delivered at a time when news reports were alleging that Talmadge had overcharged the Senate for his expenses. Talmadge, Minchew, other staffers and Talmadge attorneys met on July 13 and 14 to discuss those expenses.

Attorneys and top Talmadge staffers later that day - July 14 took Minchew's memo to the senator and copies of two Senate expense checks for 1973 and 1974 to the Justice Department and the ethics committee and suggested Minchew might be an embezzler, previous testimony has disclosed.

Agreement reached in Birmingham city strike

BIRMINGHAM, Ala. (AP) - Bargainers reached a tentative agreement early today that would end a strike by policemen, firefighters and sanitation workers who walked out in a health insurance dispute, officials said.

"The City Council will be voting on a proposal" later in the morning, said Lige Richardson, public information officer for the city.

A few hours after firefighters joined the walkout Thursday night, two empty houses caught fire, and only supervisory personnel of the Birmingham Fire and Rescue Squad responded to the alarm. No one was hurt.

The unofficial word was that Blue Cross-Blue Shield would continue as the carrier of the city's health insurance program at least until April 1, 1980, and that the city would take no disciplinary action against strikers. Maintaing the Blue Cross-Blue Shield plan had been the strikers' major demand

All police pickets were ordered down and policemen were asked to assemble at the Fraternal Order of Police lodge for a special meeting. Details of the agreement would have to be ratified by both the city and the employee groups

Gov. Fob James spent the night in town helping to work out an agreement, and federal mediators huddled with city officials and labor leaders throughout the night.

Mayor David Vann earlier offered amnesty without back pay for striking workers who returned to their jobs by 8 a.m. He promised disciplinary action, possibly including dismissal, for those who did not.

The city's 652 firefighters voted late Thursday to join about 1,700 other city workers - including the 570-man police force - on the picket lines, which went up Tuesday.

Soon after the vote was announced. Vann said 18 of the 29 fire stations were unmanned, and the rest had crews of supervisory personnel and 40 Natioal Guardsmen trained in fire protection.

Vann said he asked neighboring municipalities to assist in major emergencies, such as fires

One supervisor, Lt. Sam Caffey, a 36-year veteran of the Fire Department, said his south side station's contingent was made up of three chiefs, a captain and a lieutenant.

'We'll just have to do the best we can to take care of the people," he said. "I feel responsible to the people."

A number of false alarms were reported by dispatchers, who were screening reports carefully to prevent unnecessary runs.

Patrick O'Brien, 36, whom officials said had been committed and released from the San Antonio State Hospital eight times since 1965, was charged Thursday with two counts of murder in the slaying of William O'Brien, 66, and his 56year-old wife, Mary.

Justice of the Peace **Rudy** Esquivel ordered the man held without bond.

The couple's slashed bodies, each stabbed "hundreds of times" with two steak knives, a screwdriver and an ice pick, were discovered inside their blood-spattered northside apartment late Wednesday night by their 24-year-old daughter, Peggy.

'He is a very, very sick man," Robert Pugh, head of the Bexar County Mental Health Department, said of O'Brien. "He should have never been on the streets. He has a history of violence. The police called me to his parents' house one night and he had just thrown his father through a screen door.'

"He was close to a Ph.D. in mathematics. He is a brilliant man, but a terribly sick man," added Pugh. O'Brien held a masters of science degree from Texas A&M University. Police found

DEATHS Lloyd Vick

SAN ANGELO - Services for Lloyd Vick, 75, of Christoval, brother of Mrs. Herbert (Ina Lee) Butler of Midland, were Thursday in First United Methodist Church in Christoval withthe Rev. Jo Dan Adams, pastor, officiating. Burial was in Christoval **Cemetery directed by Robert Massie** Funeral Home.

Vick died Wednesday in a San Antonio hospital.

He was born Jan. 3, 1904, in Energy. He was married to Ethel Belle Schrock July 7, 1953, in Abilene. He was a retired Dallas County purchasing agent and had lived in Irving for 15 years before moving to Christoval in 1969.

He was a member of the Masonic Blue Lodge and Knights Templar and was a member and past Worshipful Master of Masonic Lodge No. 901 in Christoval. He was a member of the First United Methodist Church.

Other survivors include his wife, three daughters, a sister and four grandchildren.

Bessie Sandy

BIG LAKE - Services for Mrs. C.C. (Bessle) Sandy, 85, of Big Lake were to be at 2 p.m. today in the First Baptist Church in Big Lake, the Rev. J.B. Bintner officiating. Burial was to follow in Lawnhaven Memorial Gardens in San Angelo. She died Wednesday in a Big Lake

hospital

Born Feb. 13, 1894, in Mount Pleas ant, she was married to L.C. Sandy on March 18, 1928, in Texon. He died June 20, 1971. She lived in Texon for 35 years before moving to Big Lake, where she resided for the last seven years.

Survivors include a daughter, Mrs. D.E. Cook of Big Lake, a sister, Bell Fuqua of Big Spring, and three grandchildren.

Don Mincey

WINTERS - Services for Don Mincey, 46, of Big Spring will be at 2 p.m. Saturday in Winters Funeral Home with the Rev. J.H. Halford of Ballinger officiating.

Burial will be in Crews Ceme

Mincey died Wednesday in Big Spring following a short illness.

He was born Oct. 4, 1932, in Oklahoma. He was married to Frances Wood on June 24, 1961, in Winters. The couple moved to Big Spring from San Angelo in 1970. He was a Baptist

Survivors include his wife; a daughter, Darla Mincey of Big Spring; four brothers, Elbert Mincey of Eldorado, Okla., Leon Mincey of Redondo Beach, Calif., Elvin Mincey of Brownfield and Nathan Mincey of Knox City, and three sisters, Mrs. Lynward Wilcox of Alexandria, La., Lois White of Long Beach, Calif., and Alpha Wheeler of Mangum, Okla. THE MIDLAND REPORTER-TELEGRAM, FRI., MAY 4, 1979

Tax protesters sentenced

The last three of five area men involved in an income tax protest movement Thursday were sentenced to a year in prison and fined \$10,000 in Federal District Court in Midland by Federal Judge John H. Wood Jr.

Two others involved in the movement were sentenced last month.

Wood also placed the three, Midlanders Richard L. Enloe, Billy D. Cawthon and Thomas O. Fluornoy, on five-year probations under terms that they "divorce" themselves from the tax protest movement and that they pay their income taxes during each of the five years after their prison term

The three were found guilty, in separate jury trials last February, of failure to provide information to the IRS

Flournoy filed suit against the federal government in August 1977, contending that the Federal Income Tax Law was unconstitutional.

He contended that the law was illegal on the basis that federal reserve notes are not legal money and therefore cannot be taxed as income.

"The real purpose of the suit is to get backing of our money with gold or silver, and not be at the mercy of the Federal Reserve System," he was quoted as saying at that time. He was found guilty in February

1979 on two counts of willingly and knowingly failing to provide the IRS with required information.

His conviction was one of five during a two week period in February. Billy D. Cawthon was found guilty

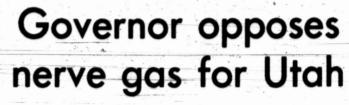

in a separate trial on one count of failing to provide required tax information to the IRS and two counts of filing false forms.

His son, Vance Cawthon, was convicted on similar tax charges a year earlier. The younger Cawthon's appeal to the U.S. Fifth Circuit Court of Appeals was rejected in February.

Enloe was convicted on one count of supplying a false Form W-4 and one count of failure to supply required information to the IRS. Sentenced last month were Byron

GRAMMER-MURPHEY

F. Patterson of Midland and Morris Reid Smith Jr. of Odessa. Each was convicted of tax evasion in separate jury trials in February.

SALT LAKE CITY (AP) -Gov. Scott Matheson says he will fight the Army's plan to transfer 900 nerve gas bombs from Colorado to Utah, claiming they contain enough of a deadly agent "to annihilate the whole world.'

"The Army has shown callous disregard for the health and safety of the people who live here," Matheson told reporters Thursday after military offi-cials said they would proceed with the once-delayed transfer. Matheson said if he is unable to get a court order halting the transfer, he will appeal directly

to President Carter. The Army's plan calls for the bombs to be flown by military transport from Rocky Mountain Arsenal near Denver on an un-

specified date after May 12 to Dugway Proving Ground in Utah. From there, the bombs would be shipped 46 miles by truck convoy to a storage site at Tooele Army Depot in Utah's western desert.

Automobile? Buy it with a WANT AD, for less. 682-6222

Matheson said the flight path for the Air Force C-141s would bring them within 55 miles of Salt Lake City. A crash, he said, 'could cause a catastrophe.' Each of the bombs - called Weteyes" - contain 350 pounds of the nerve agent GB, 'enough to annihilate the whole world, at least theoretically," Matheson said.

He claimed lead plugs on the bombs where the nerve gas was inserted are deteriorating. "All the bombs will corrode and all will leak agent GB," he said.

Insurance plan favors doctors over patients

WASHINGTON (AP) - Health insurance premiums paid by 71 million Americans can be held down by keeping physician groups from controlling what Blue Shield pays doctors for their services, a major federal study

The Federal Trade Commission staff, after a three-year investigation, said Thursday the medical profess-ion's control of most Blue Shield plans results in some decisions favoring doctors instead of those paying for the

Gym-A-Thon set for May 12

coverage

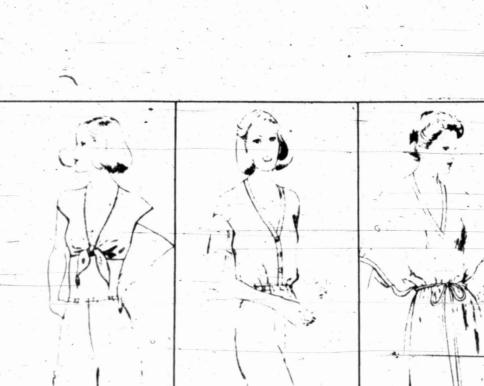

able

The FTC staff recommended that the commission consider prohibiting physician organizations from control ling Blue Shield plans. Blue Shield, the largest private underwriter of health insurance, offers plans that cover about 40 percent of the population, the 409-page report said Thursday.

Physicians control most of the nation's Blue Shield medical plans that, in turn, decide how much physicians are paid for performing services, the report said.

"Medical control of a plan means that physician organizations set or strongly influence the prices that their members will be paid by the plan," the report said.

The Blue Cross and Blue Shield Associations disagreed with the major finding of the report, saying the regulation would be "unnecessarily costly to America's taxpayers, potentialy harmful to Blue Cross subscribers and factually unsupport-

sleepwear for the woman who loves body conscious clothes...

event

Juneteenth holiday favored

AUSTIN, Texas (AP) - The House has tentatively approved a bill that would make June 19, Emancipation Day in Texas, a state holiday and drop Columbus Day from the list.

A final vote on whether to send the bill to the Senate was expected today.

Rep. Ron Bird, D-San Antonio. fought to keep Columbus Day as a recognized holiday on which state offices and banks could be closed.

Rep. Bill Messer, D-Belton, observed that before Columbus brought European civilization to America, "all men did was hunt and fish and women did all the work. They didn't have any income tax and there was no pollution.

"So why celebrate Columbus?" asked Messer. "I don't know," said Rep. Al

Edwards, D-Houston, sponsor of the bill. Bird's amendment to pre-

serve Columbus Day as a holiday was tabled.

Walter J. McNerney, president of the group said, "The FTC's theory that physicians on Blue Shield Plans' Boards increase health care costs is

without foundation. He said, "Blue Shield Association's statistical analyses indicate little or no correlation between physician representation on Blue Shield Plan Boards and health care costs to Blue Shield subscribers. If anything, the analyses demonstrate a lowering cost influence '

The report said, "Physicians control decisions concerning payment to physicians, coverage, or benefits in most of the nation's 70 Blue Shield plans. As of 1968, physician organizations selected the majority of members of the governing boards of 32 plans, and physician-controlled committees supervised or participated in decisions about payments and claims in 67 plans."

Subpoenas issued during the investigation produced documents in which medical societies referred to Blue Shield as the "economic arm of the medical profession," the FTC staff

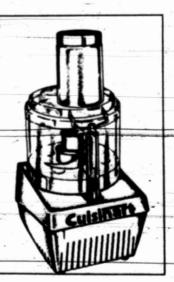

In addition to controlling decisions on payments to physicians, the boards also control payments to their competitors for some services, including clinical psychologists, optometrists and podiatrists, the report

Officials mum about John Wayne cancer

LOS ANGELES (AP) - Hospital officials aren't saying whether any new cancer was found during surgery on actor John Wayne, who remained in stable condition at UCLA Medical Center.

The 71-year-old Hollywood superstar was moved Thursday from the intensive care unit, where he spent a restful night after surgery the day before. Doctors removed an intestinal blockage in an operation hospital spokesman Al Hicks described as common

Doctors had not issued a statement on whether they found any trace of the cancer that led to the removal of Wayne's stomach in January, said hospital spokeswoman Bonnie Whitham. The hospital was running a rou-tine cancer check, she added. It was the third time since January

that the actor had been hospitalized. Wayne, who will be 72 on May 26, was taken to UCLA Tuesday night with abdominal pain. The hospital said he had been scheduled to return to UCLA for a checkup following his January cancer surgery.

In January, he underwent gall bladder surgery at UCLA which revealed cancer in his stomach and surrounding lymph nodes. The malignancies were removed during a 91/2hour operation.

Wayne then was admitted to Hoag Memorial Hospital in Newport Beach with bronchitis. He left that facility on April 25.

Fifteen years ago, his left lung was removed because of cancer. Last year, Wayne underwent open-heart surgery.

Wayne, who won an Academy Award in 1970 for his role as Rooster Cogburn in "True Grit," has ap-peared in about 200 movies in his 50-year career.

After 16 terms and 32 years, history-making mayor retires

BAY CITY, Texas (AP) — It could have been any other working day in the last 32 years. Mayor Richard Gusman sat in his City Hall office, next to the front door, bellowing a greeting to every person who walked by.

But this day the greetings were good-byes, for Gusman was cleaning out his desk. He had just completed his 16th straight two-year term the night before by swearing in his replacement.

It was not a melancholy task for the tall, robust 74-year-old, who tossed government pamphlets and regulations into a waste basket with glee while boasting of past accomplishments and plotting his future.

"I've had the longest term of any mayor in the United States," Gusman declared. "I was going to stop two years ago, but I read where one other mayor had been re-elected 15 times

"I could have run one more time and been elected, because I had enough pledged votes," he continued. "But I would have ended up at 77, and I'm trying to live to be 80

"I think I've got a better chance of doing that by getting out now, because the conglomeration of state rules and federal regulations was just running me nutty.

The job of mayor for this town of 20,000 people is full-time, and Gusman has been a one-man band at City Hall since he took over in! 1947.

He held five jobs at the same time, including finance director, head of the city-owned gas system, director of the city service center, city manager and mayor

"The only things that haven't gone up since I've been mayor is city taxes and my salary of \$125 a month." Gusman said. "In salaries alone, I've donated more than \$1 million to Bay City during my term by doing jobs other cities put individal people in."

Gusman nurtured Bay City like his own business, bringing it along carefully during times of booming prosperity and keeping it out of debt until it grew from a community of 4,000 into the seat of government for Matagorda County.

'We were still using outhouses when I came here," he said. "We had very little schools, very little of anything. We didn't even have mail delivery

"When I was first elected, I said I would run the city on a cash basis, and it's been free of debt for 32 years." said Gusman. "Last week I paid all the small loans at the bank and turned the business of the city over to the incoming administration without any outstanding bonds or notes.

That hard-nosed, independent approach grew more and more difficult to maintain as government, and the world, became more complex, Gusman admitted. "I enjoyed being mayor up until 10 years ago," he said. "We are no longer allowed to operate our cities, or have any free-thinking in this day and time.

'Getting out from under all that makes me feel better than I've felt in many a year," he said. "I'm just as happy as a lark.

Janell Watson, 18, an Ozona High School junior, will be among five area girls competing in the **District 2-A1 Lions International** queen contest Saturday at the Midland Hilton. Janell, who is being sponsored by the Ozona Lions Club, is ranked sixth academically in her class. District Lions will be meeting in Midland Friday through Sunday for their annual convention.

Coffee prices rise 15 cents

By The Associated Press

The nation's three biggest coffee roasters have boosted prices for the first time in two years, but they say the move does not signal the start of another major price spiral.

The increases, announced Thursday, will take effect immediately. The companies said the 6.2 percent boost - 15 cents on a pound of ground coffee now selling at wholesale for \$2.43 - is within President Carter's price guidelines.

General Foods Corp. of White Plains, N.Y., the country's largest roaster and the maker Maxwell House coffee, said the price of green coffee beans had risen sharply since the last price decrease on March 6. It also said there had been 14 price decreases totaling \$2.23 a pound since May 1977 when wholesale prices peaked at \$4.46 a pound.

That peak came after a 1975 frost destroyed crops in Brazil and Colombia. Fears of a shortage sent prices' soaring, but-a cut in consumption helped bring them down again.

General Foods said green coffee supply and demand were now "in reasonable balance" and said no further substantial price rises were expected.

Increases also were announced by Procter & Gamble Co. of Cincinnati, whose Folgers coffee recently edged out Maxwell House as the best-selling ground coffee, and by Hills Brothers Coffee of San Francisco. They also blamed increases in bean prices for the rise

Judge to rule on rubber union's challenge to wage guidelines

WASHINGTON (AP) - A federal judge is hearing a legal challenge to President Carter's wage and price guidelines that administration officials warn could have a "debilitating effect" on the nation's struggle with inflation

U.S. District Judge Barrington D. Parker called for arguments today on a request from the United Rubber Workers for a temporary restraining order to bar enforcement of the voluntary guidelines.

The union, meanwhile, says it is ready to rescind a strike call against Uniroyal, Inc., now set for 12:01 a.m. Saturday if Parker rules in its favor. The Rubber Workers, backed by

the AFL-CIO, wants the order to stop government officials from threatening to deny large federal contracts to companies that don't comply with the guidelines.

The union claims the president lacks authority for such enforcement action. The Justice Department maintains the administration is on sound legal ground.

In court papers filed Thursday, Justice Department lawyers said a restraining order would "cast doubt on the legality of the anti-inflation program at a particularly crucial period.

- They warned that a victory for the union "could create a precedent for other ongoing negotiations that could have nothing less than a debilitating effect on this country's concerted campaign against its number one problem, inflation.

Union officials said that while Rubber Workers President Peter Bommarito was ready to rescind the strike call-against Uniroyal, they declined to predict what steps he would take if Parker ruled in the government's favor

Janis Froelich, a union official, said it was possible that contract talks would resume between the Rubber Workers and Uniroyal without a strike, however. No new negotiations have been scheduled in the contract dispute

the package that's been negotiated and see what we can do with it," Ms. Froelich said.

Bommarito has made it clear for several weeks he would like to avoid a walkout against Uniroyal, a firm that would be hard-pressed to endure a long strike. The company employs about 8,200 URW workers. "We are very desirous of avoiding a

strike," Ms. Froelich said. But she added that the union president is prepared to use his "strike weapon. A temporary restraining order presumably would bar the administration from enforcing its wage and price guidelines until Parker could issue a

definitive ruling in the case. But even a temporary order would knock another support out from under the shaky guidelines program, which has thus far failed to slow the spiral in prices.

Already, Congress has signalled its unwillingness to approve the president's program of "real wage" insurance, a proposal to protect the pay of workers who hold down wage demands in deference to the anti-inflation program.

Administration officials conceded privately when they announced the program last fall they weren't certain the president had authority to deny contracts to non-complying compan-

The case before Parker is the first

Judge upholds indictments, orders Estes to stand trial

kind

DALLAS (AP) - Unimpressed by arguments that Billie Sol Estes had been duped by federal prosecutors, a U.S. district judge overruled motions to dismiss federal indictments against the paroled swindler and or-dered him to stand trial June 11.

Estes, the West Texas financial wizard who served six years in federal prison for a multi-million-dollar hoax in the late 1950s, is now accused of masterminding a similar scheme raising money on non-existent oil field cleaning equipment.

Lawyers for Estes contended the charges were politically motivated and that federal authorities leaked stories to the press in an effort to sabotage a proposed plea-bargaining agreement that fell through earlier this year.

"So what?" Judge Robert M. Hill responded from the bench twice during defense arguments. "I'm not impressed with it. I don't think I'll ever

Opponents of Stacy Reservoir await replies on motion for rehearing

Austin Bureau

AUSTIN - Replies were due today regarding the motion for rehearing on the Texas Water Commission's approval of Colorado River Municipal Water District's permit for construction of Stacy Reservoir.

The rehearing request - required to complete the administrative procedures - was filed by opponents of the project, including the Lower Colorado River Authority, City of Austin, Lake Travis Improvement Assn., wholesale customers of the LCRA, Garwood Irrigation Co., Lakeside Irrigation Co. and several individual claimants

sioner Dorsey Hardeman from voting on the application. Hardeman is a former state senator from San Angelo, which would be a potential customer for Stacy's water.

-Inconsistencies regarding the effect of the project on riparian water rights.

-"Flawed" findings regarding the dependable yield of the reservoir and water supply needs of the area. -Ignoring impairment of existing water rights. -Incorrect conclusions that there would be sufficient water for the Lower Colorado River Basin with construction of the project. No date for any consideration of the request for rehearing has been set. If the TWC does not formally consider the measure by May 25, the request will be automatically overruled under provisions of state law.

Honor students to be graduated

Seventy-four seniors have been named honor graduates from Midland's two high schools.

Honor graduates are those students who have a grade-point average of 4.0 or better on a 4.0 scale by the end of the second quarter of their senior year. Extra grade points are given for grades in honors classes

The 37 honor graduates from Lee High School this year are Patricia M. Adams, Shelly Alther, Edward Barrera, Holly Bartosh, Paul Brown, Tim Carter, Mary Cloyd, Sandra Craig, Marlise Crow, Kim Culvahouse, Kimberly Davis and Barbara Day.

Other Lee honor graduates are John Denier, valedictorian Mary Kathryn Downs, Cheryl Erxleben, Holly R. Franz, Katherine George, Jessica Huddleston, Cheryl Jezisek, Vickie J. Kelly, Diane Marek; Randy Martin, Jeanne Miller and Dorothy Peter-

Others are Darcie Raymond, salutatorian Jim Reiter, Sidney Roberts, Judy Roop, Teresa Scardino, Catherine Shelley, Greg Simolke, Michael Sites, Allan Smith, Jeff Sparks, Robert Warfield, Van Williams and Sharla Wooton.

Midland High School's 37 honor graduates are Synthia J. Bishop, Dan P. Black, Lori Blackwell, Joni Brown, Becky Carlton, Luis Cortazar; valedictorian William N. Creager, Carrick Eggleston, Pherese Folger, Jane E. Forsyth and Claudia Ge

Other MHS honor graduates are James A, Goodgame, Dawn Hyatt, Sydney Jolliffe, Karen Kimberly, Susan Kirkpatrick, Cindy Kreger, Mike Lawson, Lydia Lee, William Leifeste, Kyle H. McDonnold, Robert Matejek, Jonathan Morgan and Louise Morgan

Others are Richard Morton, salutatorian James O'Neill, Allison M. Pace, Paul Philpy, Paula Rabb, Jeffrey C. Rea, Cecily Shull, Jeff Spangler, Nancy Spaugh, Randal C. Spears, Eileen Stanley, Valerie Van Pelt and Vicki Vasicek.

Abilene has wet March

AUSTIN, Texas (AP) - The 5.16 inches of rain that fell on Abilene in March made that month the "wettest March" in the 20th century for Abilene, the Texas Department of Water Resources reported Thursday.

The department said heavy thunderstorm rains during March 17-22 and March 29-31 "were largely responsible for the inordinately high monthly rainfall totals at most weather observing points in Texas.

Dallas-Fort Worth had its second wettest March in the 20th century with 6.33 inches of rainfall, the department said.

Beaumont-Port Arthur had its wettest March since 1949 with 9.35 inches of rain; Austin and San Antonio had their wettest March since 1957; and Lubbock its wettest March since 1958.

day with his brother Jim, an Arlington County officer. The FBI said Cleveland attorney Jerry Milano accompanied them

John File, the other man who had been sought in the abduction of Kravitz and his wife, Georgene, turned himself in earlier in the day to an Akron police officer

Kravitz, the board chairman of First National Supermarkets Inc.,

and his wife were abducted Tuesday from their apartment by two men in police uniforms

Kravitz 68, who was shot three times in the chest, died Wednesday morning.

Meanwhile, Mrs. Kravitz, 56, hospitalized with gunshot wounds to both arms, reportedly told police the kidnappers wanted 10 percent of her husband's stock in the grocery store

chain he headed, and \$1 million in

cash The Cleveland Plain Dealer said Mrs. Kravitz told officers her husband tried to raise the cash from a Cleveland Trust Co. loan officer, but the banker was out to lunch.

Mrs. Kravitz said she had not thought the kidnappers would harm them, but her husband had feared for their lives.

THE MIDLAND REPORTER-TELEGRAM, FRI., MAY 4, 1979

Negotiations started to rescue ration plan

By TOM RAUM

WASHINGTON (AP) - President Carter's standby gasoline-rationing plan may be modified to bar owners of more than three cars from reaping additional rationing coupons.

High-level negotiations were underway today to rescue the plan from what some congressional leaders see as likely rejection when it comes up for floor votes in the House and Senate next week.

ENERGY OIL & GAS

standby plan by the end of next week, it will die.

One modification that seems to be gaining support would impose a three-car cap on coupon eligibility. said House assistant Democratic leader John Brademas, D-Ind.

As submitted to Congress, the president's plan would allocate gasoline during serious fuel shortages based on the number of registered vehicles in a household. Critics say this would give people

who can afford many cars an automatic advantage over those who can't. They also argue that cars could be rescued from junk heaps and qualify for coupons.

"Some people were even calling the president's plan the 'used car dealer's relief bill,"' joked Brademas.

Brademas also predicted as likely a provision aimed at appeasing western states' House and Senate members by guaranteeing extra gasoline rations to states where gasoline use is heavy - often because of long driving dis-

tances and tourism. Brademas said various ways are

being considered to permit changes designed to win support — including possible resubmission of the plan with modifications. A 1975 law severely limits the possibility for amendment to the Carter proposal, Brademas said.

The rationing plan is seen only as a last resort during times of severe fuel shortages, such as another Arab oil availability is "imperative" for the nation's energy future.

The House Commerce Committee rejected the plan earlier this week. but agreed to send it to the House floor without a recommendation.

Meanwhile, House Ways and Means Chairman Al Ullman, D-Ore., formally introduced Carter's "windfall prof-

its?' tax in the House Thursday. But he said the plan is only "a starting point" and his committee may decide to strengthen it - as House Speaker Thomas P. O'Neill has

Ullman announced hearings on the tax would begin May 9.

The tax would soak up some of the extra revenues oil firms would enjoy from the president's decision to lift price controls on domestic oil starting

lines" so stations could "operate with more regularity and stay open more.

He said representatives from the oil, tourist and rent-a-car industries were also expected at the Monday meeting.

Maullin said the Brown administration grew increasingly concerned when officials from San Francisco and Santa Clara counties reported instances of emergency vehicles being trapped in clogged streets by long lines of cars waiting for gas.

57 strikes reported

AUSTIN, Texas (AP) - Texas operators reported 19 oil discoveries and 38 gas discoveries during the last half of April, the State Railroad Commission reported Thursday.

The oil discoveries included six in North Texas, four in the Midland area, three near Refugio, two each in South Texas and East Texas and one each in the San Angelo and Lubbock areas.

The wildcat gas wells included 11 in South Texas, six each in the San Antonio and Refugio areas, five in Southeast Texas, four in East Texas, two each in West Central and North Texas and one each in East Central Texas and near San Angelo.

Through April, the commission said, Texas operators have reported 151 oil discoveries, six more than in the first four months of 1978. There have been 462 gas discoveries, 160 more than at this time a year ago.

cent.

He chided President Carter for federal policies which failed to control runaway inflation, saying the best way to battle inflation was to increase productivity, not tax business.

"We don't need more taxes." he said, "We need more energy.'

On another subject, Connally said the accident at the Three Mile Island nuclear power plant near Harrisburg, Pa., had not changed his opinion that the nation should continue development of atomic energy.

He said oil, coal and nuclear power are the three energy sources the nation will rely on for the remainder of the century and their development is essential "if we are not to live in bondage to the OPEC nations. Connally, here for a GOP fund-raiser, was scheduled to meet Friday morning in Springfield with Gov. James Thompson and Republican legislators.

Wild well still burning

NEW ORLEANS (AP) - Wild well experts were working on two plans today to control a flaming natural gas well in marshes south of New Orleans

Max Hebert, a spokesman for Texaco Inc. which owns the well, said the damaged drilling barge would be removed to permit direct access to the well, and another drilling rig would be set up.

Preparations were made Thursday to remove the drilling barge from the wellhead, Hebert said.

'This must be done before anything else can be accomplished in extinguishing the fire," he said.

advocated.

June 1. Unless both houses approve the Thursday:

LOS ANGELES (AP) - Gov. Edmund G. Brown Jr. was expected to outline to the public today an emer-

gency plan for rationing gas in some areas of California, a state official said. The plan would be based on license

plate numbers, State Energy Commission Chairman Richard Maullin said

Maullin said the emergency plan was drafted Thursday night because "we have had sufficient reports of difficulties at lines at service stations becoming too long to handle ... and emergency vehicles that were unable to pass.

Maullin-said the plan, if enforced, should reduce lines considerably.' Brown was expected to meet on Monday with county officials in Sacramento to review each area's needs before making a final decision on the

"as early as next Monday or Tuesday

The energy official also said no hearings would be necessary to implement the program because the governor would be using his emergency powers to protect the health and safety of the public.

Under the plan, owners of cars with license plates ending in an odd number could buy gas in a ration-plan embargo. The president says its county only on odd-numbered days of the month. The reverse would be true for owners of cars with license plates ending in even numbers, he said.

plan, Maullin said.

He said the plan could go in effect

– it depends on the governor.'

The plan could save 1 percent to 2 percent of gasoline supplies in the state, but Maullin said its main purpose would be to "smooth out the

University Lands survey. The location is 29 miles northwest of Eldorado.

GLASSCOCK AREA

Hulen, H. Lemon of Midland No. 2-A Jones is a new 9,000-foot test in the Spraberry Trend Area field of Glasscock County, 18 miles southeast of Midland. The location is 660 feet from north

and 1.320 feet from east lines of section 31, block 36, T-3-S, T&P survey.

UPTON PROJECT

Union Texas Petroleum Corp. of Midland No. 1-2 South Velma is a new test in the Amacker-Tippett, Southwest (Wolfcamp) field of Upton County, 13 miles northwest of Rankin

The 10,000-foot project is 660 feet from north and west lines of E. J. Littleton survey No. 2. It is 3/4 mile south and slightly west of one of the field's three wells.

Field work reported

in New Mexico areas

MGF Oil Corp. of Midland announced potential tests on two wells ina San Andres area of Lea County, N.M.

They are the No. 1 Southland-State and the No. 1-26 Thompson.

The No. 1 Southland-State is two miles northeast of MGF No. 1 Santa Fe which was completed in 1978 as a San Andres discovery. The operator suggested Sawyer, South (San Andres) for the new field.

On 24-hour potential test, the well pumped seven barrels of oil, gravity unreported, through perforations from 4,960 to 4,971 dfeet. The gas-oil ratio is two small to measure.

The well pumped 74 barrels of water during the potential test.

Total depth is 5,031 feet and 4.5-inch casing is cemented at 5,031 feet.

Location is 1,980 feet from south and 660 feet from east lies of section 12-10s-36e and 15 miles northeast of Tatum.

MGF No. 1-26 Thompson was compelted on the pump for four barrels of oil and 22 barrels of water per day, through perforations from 4,968 to 4.980 feet.

The pay was acidized with 1,200 gallons.

Total depth is 5,014 feet and 4.5-inch pipe is set on bottom.

Wellsite is 660 feet from north and east lines of section 26-10s-36e.

It is two and one-half miles southeast of the No. 1 Santa Fe.

LEA PROJECT

Jake L. Hamon of Midland No. 2 Union-State is to be dug as an 11,600foot project in the Osudo, North (Morrow gas) pool of Lea County, nine miles northwest of Oil Center.

Location is 660 feet from north and 560 feet from east lines of section 30-20s-36e.

KEMINTZ AREA

Elk Oil Co. of Roswell, N.M., spotted No.4 N. E. Kemnitz in the Kemnitz (Morrow) pool of Lea County, 12 miles southwest of Lovington. The 13,500-foot operation is 660 feet from north and 1.980 feet from west lines of section 15-16s-34e.

CHAVES WELL

McClellan Oil Corp. of Roswell No. 1 Tolmack has been completed as a comfirmation well in a recently opened Abo area of Chaves County, 23 miles southwest of Elkins.

It finaled for a daily flow of 414,000 cjubic feet of gas, through a 1/2-inch choke and perforations from 4,024 to 4.272 feet.

It is one location northwest of the

same operator's No. 1 Peniack, completed earlier this year through perforations from 4,314 to 4,334 feet for a daily flow of 272,000 cubic feet of gas per day, through a 5/16-inch choke.

The location is 660 feet from south and east lines of section 36-19s-25e.

MORANCO WELL

Moranco, Inc., of Hobbs, N.M., No. 3 Western Reserves-State is a new well in the Tom Tom (San Andres) area of Chaves County. It finaled for a daily pumping po

tential of 101 barrels of 24-gravity oil and 15 barrels of water, through perforations at 3,d769-3,852 feet. The pay was acidized with 7,000

gallons and the gas-oil ratio is 465-1. Total depth is 3,944 feet and 4.5inch pipe is set at 3,974 feet. Location is 990 feet from south abd

1.650 feet from east lines of section 32-7s-31e.

MORROW WELL

HNG Oil Co. of Midland No. 1-16 State is a new well in the Malaga, West (Morrow) gas pool of Eddy County, one mile west of Malaga.

Operator reported a calculated absolute open flow potential of 3,239 feet of dry gas per day, through perforations from 12,214 to 12,492 feet. The pay was acidized with 7,500

gallons and fractured with 37,500 galons Total depth is 12,841 feet and 4.5inch liner is set at 12,841 feet.

CEMETARY POOL

David Fasken of Midland No. 3 **Ross-Federal Communitized is a new** well in the Cemetary (Morrow gas) area of Eddy County, 11 miles southwest of Lakewood.

It completed for a calculated absolute open flow potential of 974,100 cubic feet of dry gas per day, through perforations from 9,531 to 9,618 feet. Total depth is 9,862 fet and location is 1,641 feet from north and 460 feet from west lines of section 4-21s-24e.

CONOCO GASSER

1.1.1

Continental Oil Co. No. 1-N-19 State Communitized has been finaled in the Empire, South (Morrow) area of Eddy County.

It completed for a calculated absotute open flow potential of 4,874,000 cubic feet of dry gas per day, through perforations from 10,679 to 10,722 feet.

The pay was acidized with 24,000 gallons.

Total depth is 10,880 feet and 5.5inch pipe was cemented on bottom. Location is 660 feet from north and 1,980 feet from east lines of sectidon 16-24s-28e.
