shirts are in recognition of California's new gas allocation program which officially began Wednesday. (AP Laserphoto)

Rationing in California

Situation demands 'strong medicine'

SACRAMENTO, Calif. (AP) -After weeks of lining up in frustration for gasoline, or hoarding it in panic, nearly two of every three Californians today fell under a gasoline rationing scheme based on their license plate

"This is very strong medicine," Gov. Edmund G. Brown Jr. said as he signed an emergency proclamation Tuesday. "But the situation demands

"My hunch is that things are going to be difficult for a period of time," he said. He gave no estimate of how long, but urged drivers to use car pools and public transportation - and to ask themselves each time they get into

"Is this trip really necessary?" Ironically, he signed the bill and made his statement in San Francisco, a city not yet under restrictions. The plan leaves it up to county govern-

ments whether to ask to be included, and so far only eight of the state's 58 counties have signed on.

Nevertheless, those counties contain nearly two-thirds of California's population, and most of the biggest cities - among them Los Angeles, San Diego, San Jose and Oakland.

At least four more large counties will take part by Monday, bringing the number of drivers affected to 11.4 million, or 76 percent of the 15 million in the state, according to Brown

spokesman Steve Duscha. Under the plan, motorists can buy gasoline only on alternate days. Those with odd-numbered plates can buy gasoline today. On Thursday, it will be the turn of cars with evennumbered plates, and so on.

Like veterans swapping war tales, motorists waiting in gas lines are comparing anecdotes about people who camp overnight at stations that

never open, and others who drive through car washes three times to get the \$5 fuel limit allowed on each

Chuck Kaye of the Ventura Car Wash in Sherman Oaks said he's noticed some of the same cars going through his business two and three

"I let them," he said. "As long as they pay for a car wash is as many times as I'll sell them gas."

"Some will pay the \$2.95 and not even get a wash," he added. Kaye said he's heard stories from wives who claim they need gas for

their husbands' motorized wheel-Some frustrated motorists have even told him, "If you don't give me gas, I won't know what my mileage

Israeli tanks, troops reported in Lebanon

By The Associated Press

Twenty-five Israeli and Christian tanks and an unknown number of soldiers were reported to have taken up positions in southern Lebanon today following three days of Israeli air strikes against guerrilla targets and another terrorist attempt across

The provincial governor in the southern port city of Sidon said the tanks entered Shakara and were near Braachit, both six miles north of the border and about 15 miles east of

Braachit is one of several towns that Israeli-backed Maj. Saad Haddad recently ordered to join his breakaway state in southern Lebanon. The provincial governor said the tanks moved in about 7, a.m.

A spokesman for the Palestine Liberation Organization confirmed the movement, and the Iraqi News Agency said there were 30 Israeli tanks and about 300 soldiers in the force.

However, it was not clear if the tanks were being redeployed within Haddad's enclave or had actually moved into the area from Israel.

"It might be the preparation for a new invasion," said the PLO spokesman, referring to the March 1978 Israeli invasion of southern Leba-

When the Israelis withdrew last year, they left a six-mile border strip in the hands of Haddad and his 1,500 militiamen. Much of the invasion area is occupied by a 6,000-man U.N. peacekeeping force.

Meanwhile, the Tel Aviv command reported an Israeli army patrol clashed with a band of Palestinian guerrillas on the Israeli-Lebanese border early today, wounding and capturing one

The guerrilla squad was discovered at about 4 a.m. attempting to cross the border fence west of Kiryat Shmona into Israel. In a brief exchange of fire one guerrilla was wounded and captured while the rest of the band escaped back across the border into Lebanon, the army spokesman said. No Israelis were reported hurt in the clash.

From interrogation of the captured guerrilla, it was learned that the band originated in Tyre, on Lebanon's Mediterranean coast, according to the brief announcement. It was not disclosed how many guerrillas were in the squad, but the announcement said they intended to attack civilians.

Police also dismantled a bomb found near a Jerusalem bus stop today as Israelis braced for guerrilla raids following three straight days of Israeli air strikes against Palestinian targets in Lebanon

The Israeli public has been especially alert to terrorist attempts since Palestinian guerrillas raided the northern settlement of Nahariya last month, killing four persons.

Israeli warplanes attacked Pales-tinian targets in Lebanon for four consecutive days after the raid in April, and on Tuesday flew their ohird straight day of reprisal missions this

School board concerned over minority test scores

By BILL MODISETT

Concern over achievement test scores of minority students in the Midland Independent School District resurfaced Tuesday afternoon during the board's regular meeting. Dr. Viola Coleman brought up the

issue by asking the board for some action "to start narrowing this gap." The physician said she was concerned about achievement test scores of minority students in the MISD.

Those test scores, she said, reprein the school district relative to minority students, which these students believe are not being addressed by the board or the school administra-

Although the board took no action, Superintendent Dr. James Mailey was instructed to present additional information about what is being done at the board's next regular meeting.

Dr. Coleman also told the board the number of local minority teachers has been on the decrease in the district in recent years. As a result, black teachers have organized to attempt to bring about some beneficial

Dr. Mailey is expected to meet with

black teachers May 17 and indicated he will report to the school board on that meeting.

Specifically, Dr. Coleman said the needs of the district include a smaller teacher-pupil ratio, earlier diagnosis of children with special learning problems and less "social promotion" - moving children to the next higher grade even though they have not achieved that level.

According to Dr. Coleman, a "gap also exists in the schools between the administration and the school board and the community is aware of it.

number of black teachers in the school system, Dr. Coleman said additional minority teachers could help black students learn quicker and bet-

Suggesting the school district should look on the educational process as "multi-cultural," Dr. Coleman said educational consultants possibly could be employed by the school district to assist teachers in overcoming the problems.

In answer to Dr. Coleman's statement, Dr. Mailey told board members the district has set priority goals as part of its five-year plan and that those goals include the improvement of learning by minority students.

The efforts in those goals focus mainly on teaching methodology, he said, but the budget also calls for using some consultant help.

"Success is the name of the game," Mailey said. "I'm not at all satisfied with the progress our youngsters are making.

Board member Ed Runyan said the school district does not need a "quick solution to a long-term problem." What is needed, he said, is to "zero-in on this particular problem, arrive at a plan of action and implement it.

'We've got to have a time frame." on the "Partners In Reading" program operated by the school district in conjunction with the Junior League of Midland. The program, which has been in existence some two years, has been given financial assistance by the

The school district's five-year plan commits the program to continue, and the recommendation of the league was that the program contin-

'guilty' Fife switches plea

FORT WORTH - Stephen Patrick

Fife, 22, on trial for the strangulationmurder of his 19-year-old girl friend nine months ago, switched his plea from "not guilty" to "guilty" after 11/2 hours of plea bargaining here

He was sentenced to 50 years in prison as a result. Fife had been indicted for the July

19, 1978, death of Catherine Ann "Fifi" Murphy, his girl friend of three years. Seven months later, on Feb. 8, Fife led Jerry Davis, chief investigator for Ector County District Attorney John Green, and other lawmen to a grave, near the banks of the Pecos River in Crane County, containing the decomposed remains of Miss Murphy.

The change in pleas came after Fife's attorneys, Royal Caswell and Cynthia Clack, bargained with Green and his staff. Green consulted with Thomas Murphy, father of Miss Murphy.

The case was transferred from Odessa to Fort Worth on a change of venue, warranted, said the defense, due to the saturation of publicity from the time Miss Murphy was reported

missing last July until and after her body was found.

Plea-bargaining sessions began after Odessa pathologist Dr. Richard Cohen described to the jury the exhuming of Miss Murphy from the

The prosecution also presented 36 photographs of the gravesite and of the uncovering of the body.

Attorneys for the defense objected to 24 of the photographs and called them "highly inflammatory and prejudicial.'

Presiding Judge Joe Connally of Odessa overruled the objections.

The pathologist, who performed an autopsy on the body the morning following the exhuming, said he was 'not able to draw any conclusions" on cause of death. However, he did say, under examination by Green, that it was "entirely possible" that strangu-

Police guard confiscated drugs By MIKE SLATON a local field, a shoebox full of meth-Staff Writer

Dust rises to surround the tires of a rusted old car as it rolls into the clay driveway. The dog on the porch stirs himself to bark as a young man steps out of the car, crosses the yard and enters the house.

Minutes pass. The dust slowly settles back onto the driveway and covers the hood of the car with a grey film. The dog drifts back to sleep.

Music breaks the stillness a half hour later as the door to the house opens and the same young man steps out. In his arms are two brown paper shopping bags. Inside the bags, individually wrapped in newspaper, are 10 pounds of marijuana. The people in this house eventually

will be arrested, according to law enforcement officials who described the typical scene.

The young man who just purchased the marijuana is an undercover nar-

Although weeks or months will pass before the arrest is made, the two sacks of suspected marijuana must be kept somewhere.

For the present, it will be transferred to a secure holding place and marked as evidence. In time, the material will be tested, presented as evidence in court, and, eventually

destroyed. Along with those two sacks, on their way through the judicial process, are 12 50-pound bails of marijuana seized when a plane belly-landed in amphetamines confiscated in an earlier "bust" and thousands of dollars worth of illegal drugs and material suspected of being illegal drugs.

LAW ENFORCEMENT agencies in Midland and throughout the country are faced with the same problems: how to maintain security for the confiscated drugs and how to maintain a positive chain of custody.

As with all material confiscated for evidence, whether it be a possible murder weapon or samples of hair, custody of confiscated drugs must be documented in all steps of handling.

From the agent who first takes possession of the drugs to the person who ultimately destroys it by court order, all persons handling the evidence must be a recognized and identifiable

This documented chain must be maintained so there is no room for lapses in custody that might prejudice a case in court. Security is a major consideration in

be kept from any possible tampering or even allegations of tampering. Sgt. Les Fine is the evidence man for the narcotics divison of the Midland police department. It is his job to see that security and the chain of custody is maintained for drug evi-

Bell favors passing charter to guide nation's spy efforts

General Griffin B. Bell says he favors enactment of a legislative charter to guide the nation's spy agencies — if it can be done without hampering intelligence gathering.

'If charters will prevent intelligence agencies from performing their mission effectively, they are not worth the price," Bell said in the first speech ever given by an attorney

Murder-suicide ruled in deaths

ODESSA - Murder-suicide was the ruling here in a double shooting that occurred about 10: 30 a.m. Tuesday in a northwest Odessa residence, according to Odessa police.

Officials said the man called police. and reported his wife had been shot at the residence.

When they arrived at the house, officers said, they heard a gun shot. After forcing open the door, they found the man and his wife lying on a bed. The man was lying across the

woman's body, officials said. Louis Martinez, 28, died shortly after arrival at Medical Center Hospi-

tal, officials said. Mrs. Martinez was pronounced dead at the scene by Peace Justice Jimmy Harris.

According to investigating officers, Martinez was shot once in the chest with a .22-caliber pistol. Mrs. Martinez had been shot once in the right side with a .22 caliber bullet.

Harris ruled murder-suicide in the

general at the CIA's Langley, Va., headquarters. "If well-balanced charter legisla-

tion can be enacted, it would be a truly valuable and historic achievement," the attorney general said.

His remarks Tuesday to more than 600 CIA employees appeared to represent at least a change in tone from comments he made at a conference of FBI agents last month.

At that time, he said, "We would be just as well off to leave everything alone" and abandon the idea of a charter: "We have learned to live without it and I'm afraid we'll be done in if we aren't careful.' Bell also told the CIA meeting

Tuesday that "it would be better to do without charters" rather than place "unnecessary restrictions" on spy

But he said he expected Congress to enact a charter that would not hamper intelligence gathering.

"I believe...that reason and good sense will prevail," the attorney general said. "A sound charter would provide a mandate for proper intelligence collection. I expect that Congress will act responsibly in the char-

The push for charter legislation was sparked by recent disclosures of CIA and FBI spying on American citizens. The administration has sent two charter proposals to the Senate Intelligence Committee.

Bell said that a benefit of charters, governing both the CIA and the FBI, would be to help dispel public suspicion "breeding unfounded conspiracy theories."

Tornadoes claims lives in Florida

By The Associated Press

A swirling black tornado snuffed out the life of an elderly woman and at least five other persons died as storms cut a trail of wreckage across central Florida.

Damage from Tuesday's twisters and heavy rains was estimated in the millions of dollars, state officials said. Scores were injured.

The winds demolished a small concrete block shed near Auburndale where Margaret and Stanley Schnaare had sought refuge from the storm, killing the 83-year-old woman but only slightly injuring her hus-

Hospitals in central Florida reported treating about 40 persons for storm-related injuries, and Gov. Bob Graham called out 120 National Guardsmen to Auburndale, the area hardest-hit.

In St. Petersburg, 60 miles to the west, flood waters claimed severallives and police continued to search early today for two bodies.

The water swept a woman and her 12-year-old daughter from a busy street near a shopping center. The woman's body was found about 12 blocks away, but the girl was still

The woman was identified as Judith Coloom, but no age or address was

Also missing in St. Petersburg was a 53-year-old Dade City nurse whose truck floated off a road into a creek. Witnesses pulled her 15-year-old passenger out of the water, but the current carried Norah Smith beyond their reach.

Three other persons died at Brooksville, 50 miles north of St. Petersburg, when two cars collided on a rainslicked highway, the Florida High way Patrol reported.

Thirteen Auburndale high school sudents were cut and bruised when the tornado tore the roofs from school buildings.

"We were lucky. We got advance warning of tornadoes in the area and we came out all right," said Auburndale High School principal John Stewart. He said the toll could have been worse if not for drills begun after a tornado hit a Largo elementary school last spring, killing two chil-

The Adams Packing Association citrus plant west of Auburndale looked "as if a giant fist had slammed down in the middle," one observer

Partly cloudy skies expected

Midlanders who prefer dry weather can take heart, for hope has arrived at last.

The muggy Gulf Coast weather and high humidity which settled on the Basin is due a quick and windy end, the weatherman said.

And those temperatures in the mid-90s should be brought more in line with late spring realities — and more pleasant conditions.

Basin residents can expect partly cloudy skies through Thursday with a gradual cooling trend. High temperatures in the upper 80s are projected

with overnight lows in the upper 50s. The high Thursday may reach 80 degrees.

According to the National Weather Service at Midland Regional Airport. there is a 20 percent chance of thundershowers tonight It will be windy as usual with zeph-

yrs gusting out of the south at 15-25 mph, shifting to the west at 15 mph tonight. The high Tuesday was a sizzling

94; overnight low, a merciless 68. Record high was 103 in 1947, while the record low was 42 in 1969. No precipitation was recorded

possible mistakes, according to the

The Sheriff's office handles drugrelated evidence in a similar manner, said Deputy Phil Mathews.

The major difference in the procedure used by the sheriff's office is the use of a single vault rather than two, he said.

A field officer brings in the confiscated material, tags and identifies it and puts it in an evidence locker. From there the evidence man, who also has the only key, enters the evidence in a locator file.

This stays in the locker until testing, trial or disposition of the case, said Mathews.

THE DPS HANDLES not only the evidence brought to it by other law enforcement agencies for testing at its laboratory facilities, but also materials confiscated by its own narcotic investigation division:

A spokesman for the DPS narcotics division said all evidence is brought directly to the DPS where it is tagged for identification and initialed by all agents that handled it.

The evidence is assigned an identi fication number and that number is the only one in the state, the spokes-

Jim Swindall, one of the two chemists who works in the DPS lab, said all evidence received by the lab is entered into a log book by identification number and then placed in the evi-

In the few cases where the amount of evidence confiscated is more than can be reasonably stored in the vault. said Swindall, the evidence is sent to Austin where the DPS state headquarters are located. A warehouse is maintained by the DPS where large amounts of, for example, marijuana could be held, he said. Test samples are made of the evi-

dence, and it is returned to the locker until it goes to court or an order to destroy it is received, said Swindall.

EVIDENCE TO BE destroyed is usually taken to El Paso where it is dumped into the fires at a smelting plant, he said

Swindall suggested that an easier way to handle evidence that would require less storage space and reduce chances of it being stolen would be a system used by some of the Texas-Mexico border counties.

Instead of keeping all the evidence, said Swindall, a sample is taken of each piece of evidence, a photograph is made and the rest of the evidence is Instead of keeping 500 pounds of

marijuana in the evidence vault, he said a sample and a photograph could be made of each pound or whatever unit the marijuana is packaged in, for use in court and the rest could then be

Fife switches his plea to guilty in murder

Attempts to alter legislation on canal treaties attacked

PANAMA CITY, Panama (AP) -A top government official attacked U.S. congressional attempts to modify the legislation implementing the Panama Canal treaties and warned that Panama will reject any laws it feels violate the spirit of the agreements.

"There are factions in the House of Representatives trying to impose implementing legislation that violates both the spirit and letter of the treaties." Romulo Escobar Bethancourt said in a radio-television speech Tuesday night.

"From the rubble of colonialism, the House of Representatives is trying...to reduce the impact of the treaties and weaken the role Panama should play.

Escobar, an adviser to Gen. Omar Torrijos and President Aristides Royo, spoke on the eve of Royo's arrival in Washington to discuss implementation of the treaties with

His voice cracking with anger and his finger stabbing at the camera, Escobar said Congress alone must bear responsibility for any disruption in canal operations arising because of problems with the implementing legislation.

The controversial canal treaties, which were approved last spring by a one-vote margin in the U.S. Senate, go into effect Oct. 1, when the Canal Zone will cease to exist. But Panama will not get full control of the waterway until the year 2000.

Congress now is wrestling with legislation to carry out certain aspects of the treaties, including the creation of a new agency to supervise the operation of the canal until Panama takes it over.

Escobar was especially critical of a bill by Rep. John Murphy, D-N.Y., which he said made a mockery of ioint Panamanian-American participation in the operation and defense of the canal.

Panamanian officials support the implementing legislation submitted to Congress by the Carter administration; but the House decided to debate only an amended version of the Murphy bill which would give the U.S. government more direct control over the canal until 2000.

Witness held

BESSEMER, Ala. (AP) - Police Chief George Barron says a former Bessenner police sergeant is being held as a material witness in a bomb explosion that killed a police lieutenant and seriously wounded two other men at City Hall last week. Barron said Tuesday that Thomas

Fullman, 33, was not charged with a crime, but was held only as a material witness. An arrest in the case could come as

early as today.

Crude oil price rise foreseen

WASHINGT ON (AP) - Even as the Carter administration 1-aises its inflation forecast to at least 8.5 percent, some private economists are warning that price bo o sts for such necessities as food, energy and housing will far exceed that rate.

Treasury Secretary Michael Blumenthal admitted Tuesday that the administration had "screwed up" by predicting only a 7.4 percent inflation rate for

"I would be surprised if we're below 81/2 percent,"

he told a Senate appropriations subcommittee. Barry Bosworth, the director of the president's Council on Wage and Price Stability, later agreed with Blumenthal's prediction.

At a dinner of the Society of American Business and Economic Writers, he said inflation now is 'absolutely inconsistent with forecasts last Octo-

The revised prediction threatens to toughen labor's already hard stand against President Carter's 7 percent wage guideline, a COWPS spokesman acknowledged.

The United Rubber Workers union is seeking a package far in excess of the president's ceiling and the United Auto Workers union has warned the administration not to interfere in its upcoming nego-

"It doesn't make a more happy situation with labor," said spokesman Joe Carter of the wage and price council. "We recognize that it's a very difficult situation labor leaders are up against."

Even before the new prediction, the AFL-CIO's executive council, meeting here, blasted the president's anti-inflation program as "an absolute flop" that penalizes workers and urged that it be scrapped.

Meanwhile, economists at Data Resources Inc., of Cambridge, Mass., said energy prices are expected to increase at an annual 15.5 percent rate. Domestic crude oil should rise 20 percent in price, said Bob Gough, a senior economist at the company headed by Otto Eckstein, a former member of the Council of Economic Advisers.

Gough said the median price of a new single-family home this year will be about \$63,500, which would represent a 13.5 percent increase over last year. Food prices, he said, are likely to rise 9 percent to 12

The overall inflation rate will be tempered some what, Gough said, by relatively mild price rises for clothing and shoes, durable goods and transporta-

A general premise held by many economists is that forecasts of higher inflation can generate a buy-atany-price psychology among consumers wishing to beat ever-mounting costs. That increased buying, in turn, fuels inflation still further.

Reacting to that possibility, Blumenthal said Congress and the administration cannot afford to let Americans think inflation is unbeatable. And for those businesses that raise prices for fear of mandatory controls, the secretary added: "People should be assured now that there is no intention whatsoever

to have any kind of wage and price controls. The AFL-CIO, nonetheless, repeated its call Tues day for mandatory controls.

Another private economist, Gar Alperovitz, charged Tuesday that the administration has "failed to address the basic causes of inflation.

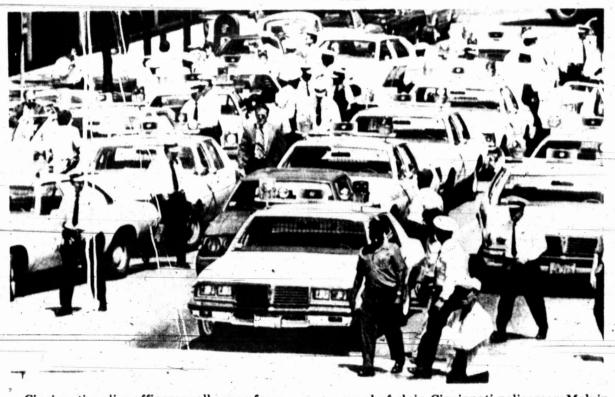

His National Center for Economic Alternatives said that from January through March: food rose at a 17.7 percent annual rate, seasonally adjusted; energy skyrocketed 24.6 percent; shelter increased 14.3 percent, and medical care, 9.4 percent.

Alperovitz called for a federal energy corporation to tap new energy sources, price supports to ensure sufficient and stable food supplies, and lower interest rates to help create enough housing to meet th high demand created by young couples of the

baby boom generation. Meanwhile, the Federal Home Loan Bank Board said Tuesday that the effective interest rate on mortgages for new homes rose in April for the 17th straight month. The rate rose to 10.34 percent for new homes and 10.54 percent for previously occupied homes, the board said. In March, the rate lenders were charging for new homes was 10.30 percent and 10.47 for previously occupied homes.

March set as walkout to end

CINCINNATI (AP) — Cincinnati police planned to worked 12-hour shifts Tuesday ioin their wives it i a march on a City Council meeting today before end ing a 24-hour walkout triggered by the death of a for irth officer in 10 months.

Several hundre d officers Tuesday threw their patrol car keys against a statue honoring the department's dead and walked away from their jobs. Police and their wives were to march to the meeting to seek action on their proposals for such tear the city apart."

safety measures, as hollow-nosed ammunition, twoman patrols, and body armor. The job action was to be brief, but Eliner Dunaway, president of the state and local chapters of the Fraternal Order of Police, said "we may just stay

out indefinitely" is the council did not act. In the meanting, the city was without its normal level of police protection for the first time since a wage strike 60 years ago.

The walkout was triggered by the slaying Saturday of Officer Melvin Henze, the eighth officer to die on duty in five years. FBI statistics show that so far this year, Cincinnati had the highest number of police deaths of any major city in the nation.

he emotion surrounding the deaths was evident on the faces of the 700 officers who attended enze's funeral. Some wept as the casket was brought "They're feeling a combination of emotions.

They're hurt. They're mad. They're afraid," said J.t. Col. Lawrence Wilialen. "Maybe they've suppressed their feelings too long. But now they're saying, 'It ends here. They'll be no more."

Police and city officials refused to say how many

New treatments slated for Wayne

LOS ANGELES (AP) - Actor John Wayne's new cancer treatment will begin as soon as doctors decide he has regained his strength from surgery last week, a UCLA Medical Center spokesman says.

The 71-year-old actor remained in stable condition Tuesday as doctors prepared to start the experimental treatments for cancer found in Wayne's intestine, said spokesman Al

Wayne has volunteered to participate in the cancer research project, although doctors have not worked out the final details about the type of treatment he will undergo or when it will begin.

"They're waiting until he gets his strength back," Hicks said. "That could be any day now.'

The new cancer was found May 2, during an operation to remove an intestinal blockage. In January, surgeons removed Wayne's cancerous stomach.

Wayne is expected to remain hospitalized for several weeks, officials

Kleberg Rancher

KINGSVILLE, Texas (AP) - Richard M. Kleberg Jr., board chairman of the sprawling King Ranch and one of the most powerful men in Texas ranching, died Tuesday at a Corpus Christi hospital.

Kleberg, who was 62, had been hos-

pitalized since February. Born to a prominent South Texas ranching family, Kleberg chaired the King Ranch corporation, one of the world's largest oil and ranching oper-

The 126-year-old ranch became famous for its development of the Santa Gertrudis cattle breed, and has a long history in thoroughbred horse racing, including the 1946 Triple Crown winner Assault, and his half-brother, the 1950 Kentucky Derby winner, Middle Ground. The ranch also was the inspiration for Edna Ferber's novel, 'Giant," and the motion picture.

Kleburg was noted for his willingness to experiment to improve the cattle industry. The Santa Gertrudis, the first officially recognized native breed in the Western Hemisphere, was developed by his father, Richard M. Kleberg, and uncle, R.J. "Bob" Kleberg Jr.

The ranch was founded in 1853 by Capt. Richard King, who bought a Mexican land grant in a sparsely populated region of South Texas. The ranch now covers more than 860,000 acres, and King's heirs share additional wealth from a lease on the land's vast oil and gas resources. Kleberg began as assistant manag-

er of the ranch under his uncle, who had expanded the King Ranch holdings into Florida, Mississippi, Kentucky, Pennsylvania, Venezuela, Brazil, Argentina, Australia, Spain and Morocco. The Kleberg family has run the ranch since the turn of the century.

Kleberg County, which borders much

of the vast estate, was named for

The event is made possible by a mixed doubles tournament, sponsored annually by Midland National Bank.

might be is undetermined, but Mike left the game, the winning pitcher, and Jack Ledbetter finished up.

Meanwhile, Power and McDonald were victims of defensive desertion by teammates as Midland scored only three earned runs. Typical was the first inning when Jared Martin reached first on a two-out error by shortstop Gary Weiss. Eric Grandy then tripled into the right field corner, Tracy walked and Mike Turgeon drilled a hit-and-run single through the hole vacated by Weiss as he dashed to cover second. That scored one run and then Brian Rosinski blooped a single to left for another

In the fifth, Tracy singled, Rosinski grounded to first and when John Shoemaker threw the ball away, Tracy scored. Naturally, catcher Jesse Baez let the ball go through his legs and Rosinski took second and scored on Javier Fierro's single

Lezcano hit the first pitch in the sixth for his fourth homer, a monstrous blow over the left field fence. 'I got it up and in with nothing on it," Power confessed late. Tracy then doubled, Turgeon singled and took second on the error and when Myron White bobbled the ball in right, Tracy

The ninth inning run followed the script when Bill Hayes struck out on a wild pitch, reached first and scored

on Martin's double

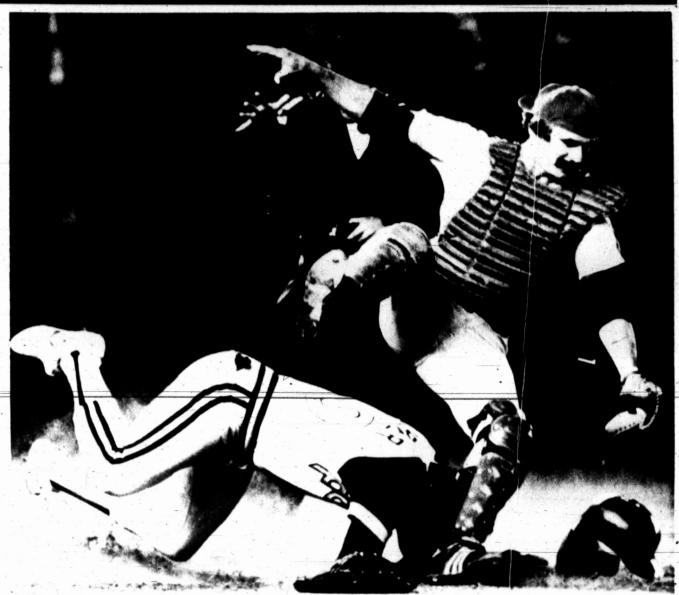

San Antonio's only runs came in the fifth when Smith walked two and gave up a single to Jim Del Vecchio to load

Weiss singled to right for two runs and when Smith walked Zouras, that brought on Allen for Smith who got

the final out on a fly to right. San Antonio has proven to be just the tonic needed for Midland pitching. In four games here, Midland hurlers have surrendered just five earned runs, although until Tuesday's game,

Rangers leave stunned Islanders in coma

NEW YORK (AP) - The New York Rangers, ever-poised, always businesslike, allowed themselves this one moment of jubilation - one giant departure from the composed, workmanlike manner which dissected the New York Islanders.

When the final buzzer sounded, and the 2-1 victory was theirs Tuesday night, the Rangers reminded everyone they are a bunch of young people. Goalie John Davidson leaped off the ice, jumping as high as a man can when he is wearing 30 pounds of wet equipment.

Right wing Don Murdoch soared into space, his gloved right fist punching the air, while every Islander stood and stared in open

The New York Islanders - the National Hockey League's best team in the regular season — had gone from powerhouse to doghouse in the span of a six-game semifinal they had expected to win. The first day of summer came much earlier than planned; instead of celebration, months of explanation lie ahead.

BUT FIRST, there is pain to wash

"I guess I'll get drunk. What else is there to do?" asked Islanders Captain Clark Gillies. "If I didn't, and I went home, I'd just be up all night, any-

You might say the Islanders choked or the Islanders blew it, but that wasn't so," said Islanders right wing Mike Bossy, who snapped a five-game streak without a goal by opening the scoring on a power play at 8:56 of the first period. "The Rangers stood up to us and the Rangers won the series. I still don't think they have a better hockey team than us, but they did in this series.'

As a result, the Rangers can sit back and wait to see who they'll play in their first Stanley Cup final since they lost to the Boston Bruins in 1972. If irony is on their side, and if the Bruins beat the Montreal Canadiens in Game Seven of their semifinal Thursday night, the Rangers would have a chance for revenge.

"But right now," said center Walt Tkaczuk, "I don't even care who we play. I just want to enjoy this victory.

TKACZUK AND left wing Steve Vickers are the only Rangers left from that '72 team. They have spent seven dismal years waiting for another opportunity; two of those years, they didn't even make the playoffs.

"I'm kind of jealous of the young guys on this team, because it only took one or two years for them to make the finals and it took me seven," said Vickers, a greybeard of

The smile on his face said he wasn't serious. He knew the youngsters combined with the veterans to pull this surprising team within four victories of the Stanley Cup.

Murdoch, a third-year man, tied it at 5:03 of the second period, and Ron Greschner — on a pass from rookie Don Maloney (the playoffs' leading scorer with 19 points) - scored the winner 3: 42 later.

All that was left was more of the hard-work that has been the Rangers' signature this spring. Doubt and discouragement remained for the Is-

"We get close and we get close," said Gillies, "and now we wonder what the heck it is we have to do to

What the Rangers did was work. They never gave Gillies - or his linemates, Bossy and Bryan Trottier - any space in which to work the magic which led Bossy to 69 regularseason goals, Trottier to the regularseason scoring crown and Gillies to 91 points of his own.

Rangers' Bobby Sheehan is knocked flying by Islanders' Mike Bossy in NHL Stnaley Cup semifinals at Madison Square Garden Tuesday night. (AP Laserphoto)

Phoenix squares Sonic series, 2-2

PHOENIX, Ariz. (AP) - Rebounding is causing concern for the Seattle SuperSonics, who return home to find their playoff series against the Phoenix Suns tied at 2-2.

The SuperSonics, the defending National Basketball Association Western Conference champions, out-muscled the Suns in the first two games of the best-of-seven set, picking up 119-92 and 109-106 victories before home-

town crowds. However, the Suns closed the rebounding gap in Game 3 Sunday in Phoenix, and slipped past the Sonics, 119-104. Tuesday night, the Suns finally won the battle of the boards, 49-40, and beat the SuperSonics, 100-91, be-fore a sellout crowd of 12,660 at Veterans Memorial Coliseum.

'We can't let that happen (get outrebounded) and expect to win," said Seattle center Jack Sikma, who averaged 15.6 points a game during the regular season and 12.4 rebounds. "We need to control the boards. We're the big team and they're the quick team. We'll have to work harder and do a better job the next time on the

The 6-foot-l1 Sikma was held to five points and nine rebounds Tuesday

"You can't depend on your shots day in and day out," added guard Dennis Johnson, who had 21 points in the losing effort. "But the defense can remain constant, and rebounding."

HOWEVER, JOHNSON promised the SuperSonics would "be all right when we get back to Seattle.' The Suns saw a 15-point lead in the

second period evaporate and Seattle take a 69-67 lead with 5:49 left in the third quarter. A layup by Lonnie Shelton culminated a run in which Seattle outscored Phoenix, 19-9.

The comeback was keyed by Gus Williams, who scored six of his 22 points on the night in that stretch. However, the Suns tied it 17 second later on a baseline shot by Paul West-

phal and went ahead for good with

5:08 left on an 18-footer by Walter Davis, who led all scorers with 27 The Suns, leading 81-77 going into

he final period, put the game on ice as they hit 12 unanswered points to go ahead, 93-77, with 6:20 remaining in the game. Half of that scoring punch was provided by reserve guard Ted McClain, who converted on shots from 10 and 12 feet out, as well as a

Bruins send Canadiens into 7th game

BOSTON (AP) - The Boston Bruins last won a Stanley Cup playoff game at the Montreal Forum against the mighty Canadiens on April 11, 1971. Now, once again, it's either do the job or go fishing for the

With their backs to the wall, the Bruins remained alive in the National Hockey League semifinal round Tuesday night, skating to a 5-2 victory which forced a seventh and deciding game in Montreal Thursday Stan Jonathan, a full-blooded Tuscarora Indian

from a Canadian reservation, switched from muscleman to scorer for the Bruins. He scored three goals, including two in the third period after Wayne Cashman had put Boston in front 3-2 late in the

DESPITE NINE consecutive playoff games losses in Montreal - one in 1971, three in 1977, two in 1978 and three this year - the Bruins insisted they can win there and move on to a championship showdown with the surprising New York Rangers.

"I'm looking forward to it," said Cashman, who helped Boston to Stanley Cup championship in 1970 and 1972. "When you win the seventh game of a series in Montreal, you know you're in the Stanley Cup playoffs. I think we can win a game there, whether it's the first game or the seventh game.

"One big thing: they can't afford to have a bad game now," Cashman said of the Canadiens.
"They've got to play their best. If they play a bad game it can put them out, something they haven't faced like that in a long time."

'It's the seventh game sure, but it's part of the series," said defenseman Guy Lapointe, who has helped the Canadiens to three consecutive Cup championships, the last two against the Bruins in the

"THE PRESSURE WILL be at the Forum, but it may be different," Montrel Coach Scotty Bowman said. "You just have to go out there and give it your

Boston Coach Don Cherry, who thinks the Bruins deserved better than two losses in the series' opening games in Montreal, said that Canadiens deserve to be favored in the seventh as defending champs. How-

ever, he refused to concede anything. 'We won the game we had to here," Cherry said. "Now we go there and all the pressure is on them. We just have to pop in a couple of goals there. We got five tonight and there's no reason why we can't get five up there. We'll show up anyhow.

'We just have to play the same way. We have to go right at them. If we get beat, we get beat. We don't

The Canadiens, employing a lot of skating area with both teams shorthanded, jumped to a 1-0 lead on Larry Robinson's sixth playoff goal at 8: 05. Howev-• er, Jonathan tied the score on a tip-in at 10:02. Boston's Don Marcotte and Montreal's Pierre Mondou then swapped goals in the next couple of minutes before the Bruins went to work and outbattled the Canadiens the rest of the way.

What's in a name? Just the smooth golden taste of premium Kentucky bourbon. Aged 8 years for greatness.

year. And I felt real strong last week against San Diego and statistically it was my worst game in the majors, seven hits and five runs allowed in five innings of a 10-2 loss.

Dawson said he "took a slight step back and then had no chance to reach the ball. The second baseman (Scott) told me he thought he could have made the play if I'd given him the go-ahead. But he saw me coming in

and was worried about a collision." In the fifth, Ellis Valentine singled, stole second, continued to third when catcher John Tamargo's throw was wild and scored on Dawson's hit. Tony Perez and Valentine walked before Parrish hit his first homer of the season in the ninth.

Reds 8, Cubs 7

Dave Concepcion hit his third homer of the season plus a double and single, driving in three Cincinnati runs and scoring three against the Cubs in cozy Wrigley Field.

"Whenever I've come here and the wind is blowing out, I always seem to hit ground balls," said Concepcion. "That was the first homer in my career in this park and I didn't need any help from the wind.

It was the Reds' sixth victory in seven games and enabled them to move within one-half game of firstplace Houston in the West.

Bobby Murcer hit a homer, Steve Ontiveros had a pair of doubles and a single and Jerry Martin had three singles and a double and drove in two runs for the Cubs

Cardinals 4, Astros 1 Keith Hernandez singled, Ted Simmons walked, then George Hendrick pounced a Ken Forsch pitch over the wall for St.Louis' tie-breaking homer

against the sagging Astros. Pinch-hitter Dane Iorg's first major league homer accounted for the Cardinals' other run in the seventh inning. Forsch singled home Houston's lone run in the fifth. It was the Astros'

Braves 4, Pirates 1

"I threw strikes. That's the key to pitching," Eddie Solomon said after he shackled Pittsburgh on three hits to halt Atlanta's five-game skid. The Braves jumped on Rick Rhoden for three runs in the second inning, two on Darrel Chaney's double.

Solomon was nicked for the Pirates' run in the first inning on Omar Moreno's triple and Tim Foli's sacrifice fly. "After that, I just made up my mind to go out there and give all I had, and that's just what I did," he

Phillies 8, Padres 7

Pete Rose hit a two-run single in the sixth inning and a tie-breaking tworun double in the 12th to lead the Phils to their comeback victory over San Diego.

Rose's double off John D'Acquisto was his third hit of the game and came after Rudy Meoli and Bake McBride walked and Larry Bowa singled. Meoli was thrown out at the plate trying to score on Bowa's hit.

The Phils, aided by a pair of errors, scored to runs in the eighth and two in the ninth off Padres relief ace Rollie Fingers to send the game into extra innings.

Dodgers 3, Mets 2

Dusty Baker doubled off Dale Murray, took third on Gary Thomasson's single and came home on Joe Ferguson's tie-breaking sacrifice fly in the seventh inning to give rookie Rick Sutcliffe and the Dodgers their victory over the Mets.

RBI singles by Ed Kranepool in the first inning and Lee Mazzilli in the third gave New York a 2-0 lead. The Dodgers scored a run in the bottom of the third when Ferguson walked and Dave Lopes tripled. They tied it three innings later on Ron Cey's RBI sin-

St. Ann meeting set

The fifth tape in a series on divorce will be heard by St. Ann's Support Group for the Formerly Married at 7:30 p.m. Thursday at 1511 Communi-

Entitled "The Law in Service of Divorced Catholis," the tape is narrated by the Rev. John T. Finnegan. He is a priest of the Boston Archdiocese, who holds a doctorate in Canon Law. He was president of the Canon Law Society of America in 1975 and is presently a consultant to the Committee on Canonical Practices of the National Conference of Catholic Bishops.

Coffee will be served and discussion held following the tape session.

The group meets twice a month and welcomes interested persons. Contact Sam Guyton at 682-4582 for additional information.

Wildcat sites staked in West Texas areas

New wildcat sites have been announced in Andrews, Reeves, Dawson, Garza and Crockett counties.

SECTION D

McCormick Oil & Gas Co. of Houston staked its No. 1 University Lands as a 13,000-foot wildcat 11.7 miles southwest of Andrews in Andrews

Location is 660 feet from north and 1,980 feet from west lines of section 24, block 10, University Lands survey and 3/4 mile east of oil production in the shallow Fuhrman-Mascho field.

It also is one and three-fourths mile north of the Emma, North (Yates gas) field.

REEVES EXPLORER

Laguna Petroleum Co. of Midland No. 1 Gillispie is a new 6,700-foot wildcat in Reeves County, 34 miles southwest of Pecos.

The prospector is 467 feet from north and west lines of section 27, block 50, T-8, T&P survey. It is a southwest offset to the Hamon (Ellenburger gas) pool.

DAWSON WILDCAT

Grand Banks Energy Co. of Midland announced location for a 7,400foot wildcat in Dawson County, one mile southeast of the Lamesa, East (Spraberry) pool discovery.

The new test is No. 1 Carrie S. Dean Estate, 660 feet from north and east lines of section 46, block 1, J. Poitevent survey, and 15 miles northeast of

Ground elevation is 2,717 feet.

GARZA AREA

Rocker A. Well Service, Inc., of Post No. 1-A Guthrie has been staked as a 3,700-foot wildcat in Garza County, 10miles north of Post.

Location is 660 feet from south and 2.009.6 feet from east lines of section 112, abstract 1009, F. A. Grove survey. (Some maps show TW&NG sur-

The drillsite is 5/8 mile east of the depleted Duffy Peak, Southwest (Glorieta) field.

Ground elevation is 2,507 feet. CROCKETT TESTERS

Cummings Oil Co. of Oklahoma City and C. F. Lawrence & Associates of Midland each announced location

for a wildcat in Crockett County. Cummins No. 3 West is a 2,000-foot gas wildcat 15 miles north of Ozona and 7/8 mile west of the Tom T (El

lenburger) field. The drillsite is 4,620 feet from north and east lines of Runnels County

School Land survey No. 1 Lawrence No. 1-H University will be dug 10 1,700 feet 16 miles north of

It is a southwest offset to the depleted one-well Midway Lane, Northeast (San Andres oil) pool.

The site is 990 feet from south and 1.650 feet from east lines of section 18. block 45, University Lands survey. Ground elevation is 2,656 feet.

LAWRENCE WELL

C. F. Lawrence & Associates, Inc., No 1 Williams have been completed as the sixth well in the Ecklaw (San Andres oil) pool of Crockett County,

14 miles north of Ozona. Operator reported a daily pumping potential of 41 barrels of 32-gravity oil, no water, from open hole at 1,402 feet, where 5.5-inch casing is set, and 1,421 feet, the total depth.

The pay was acidized with 500 gal-

Location is 1,871 feet from south and 330 feet from west lines of section 38, block OP, GC&SF survey.

OFFSET STAKED

C. F. Lawrence & Associates, Inc., will drill No. 1-59 Eck as a northeast offset to production in the Ecklaw

Scheduled for a 1,500-foot bottom, it is 330 feet from south and east lines of sectidon 59, block OP, GC&SF survey. Elevation at ground level is 2,579

WARD PROJECT

Union Texas Petroleum Corp. of Midland No. 2-18-19 University is to be drilled in the south side of the War-Wink, South (Wolfcamp) pool of Ward County, 7.5 miles west of Pyote.

Oil firm accuses The location for the 11,500-foot operbuyers ation is 933 feet from north and 1,293 feet from east lines of section 19, block 18, University Lands survey.

lantic Richfield Co. has accused California motorists of sparking the state's fuel crisis with panicbuying of gasoline and overreaction to reports of impending shortages of fuel.

Three Arco executives made the charges at a news conference Tuesday as they presented charts they said refuted public suspicion that the oil companies have been secretly holding back supplies.

John Simmons, president of Arco Petroleum Products, said there are long lines only at California service stations because motorists here "have overreact-

"They have to conserve," he said. "They have to stop this panic buying. Simmons was joined by Don-

ald A. Henriksen, vice president of governmental relations, and Edward G. Reilly, vice president of retail marketing, in claiming Arco and other oil companies have tried to keep up with growing fuel demand by refining more oil and producing more gas during this year's first quarter than for the same period last year.

The officials denied hoarding gasoline, saying instead Arco had a lower inventory level of gas for the first quarter this year than for the first quarter in

DOE says information leaked to organization

By CLIFF HAAS

WASHINGTON (AP) - Amid growing concern that gasoline shortages could spread from California, the Energy Department says leaks of internal documents to an oil industry group may threaten public confidence in the way the department makes rules and policy.

A report by the department's in spector general found that the American Petroleum Institute, which counts among its members the nation's largest oil companies, had ad vance access to a number of internal department documents.

Thomas S. Williamson Jr., deputy inspector general, said those documehts included draft rules-"that would directly affect the financial interests of API's member oil com-

The report said department employees acted "in good faith" in sharing the information. But it added "the practical effect of their conduct has been to favor a major industry group. over other interest groups and members of the public.

Williamson said the inspector general's office was concerned "about the broader implications of these findings for public confidence in the integrity of DOE's procedures for rulemaking and policy formulation.'

Meanwhile, Deputy Energy Secretary John F. O'Leary predicted that the nation was in for "a fairly tight spring and summer on gasoline supplies." Repetitions of the long lines at California gas stations may happen elsewhere "unless people are very,

Availability big worry

By EVANS WITT

NEW YORK (AP) - Americans' real worry about energy is getting enough of it to meet their needs, not how much gasoline, natural gas and electricity will cost, an Associated Press-NBC News poll shows.

Fifty-six percent of those interviewed April 30 and May 1 said supplies of energy, not price, was their bigger energy concern. Thirty-eight percent said price was the larger worry and 6 percent of the 1,600 adults interviewed nationwide by telephone were not sure.

A special AP-NBC News poll in Southern California before the lines began to form found the area's adults just as concerned about the availability of energy as the nation as a whole. And residents of the Los Angeles and San Diego areas said dollar-a-gallon gasoline will have less impact on their driving habits than on others across the country.

In Southern California, 59 percent said they are more worried about the availability of energy in the future than they are about the price. Thirtyfive percent said they were more concerned about price and 6 percent of the 234 Southern Californians interviewed were not sure. The survey in Southern California

was taken in conjunction with the national AP-NBC News poll April 30 and May 1 - before the gasoline shortage deepened and California Gov. Edmund G. Brown Jr. allowed counties to opt for even-day, odd-day gasoline rationing.

In line with the concern about availability rather than price, those from the Los Angeles and San Diego metropolitan areas are a bit less likely than adults nationaly to say they will cut back on driving in the face of dollara-gallon asoline.

Nearly a third of the Southern Californians interviewed — 32 percent said that dollar-a-gallon gasoline will not change their driving habits at all. That compares to 26 percent of those across the country who won't change.

In Southern California, 42 percent said they will drive less if gasoline prices continue to soar - compared to 44 percent nationally...

Seventeen percent in the Los Angeles and San Diego areas would switch to a smaller, more fuel-efficient car, less than the 20 percent across the country. Six percent in Southern California and 7 percent nationally said they would shift to mass transit from their car. Three percent in each sample were not sure.

As with any sample survey, the results of the national AP-NBC News polls could differ from the results of interviews with all Americans with telephones because of chance variations in the sample.

For polls with 1,600 interviews, the results should vary no more than three percentage points either way simply because of sample errors. That is, there is only one chance out of 20 that the results of interviews with all American adults would vary from these results by more than three percentage points.

The poll of Southern California residents is subject to similar variations, although the possible error margin is

For polls with more than 230 interviews, the results should vary no more than 8 percentage points either way simply because of sample very patient and don't panic," he

In California, gasoline sales will be restricted, starting today, in most of that state's largest cities under an emergency order signed Tuesday by Gov. Edmund G. Brown Jr. The order provides for sales by odd or even license plate numbers in at least nine counties, which include such major cities as Los Angeles, San Diego, San Jose and Oakland

An Associated Press spot check has found that nationwide long lines at gas stations are the exception rather than the rule.

In a related development, the Senate was voting today on President Carter's request for standby authority to order gasoline rationing.

That voting comes a day after the White House said the nation's supplies of crude oil are at a "dangerously low" level. But presidential press secretary Jody Powell insisted there had been no appreciable increase in the chance that rationing would be required.

The nation's reserves of crude oil were down to 319 million barrels, compared with the 310 million considered to be a "minimum safe level" by the Energy Department, Powell

Also at the White House Tuesday, a group of coal-state senators visited the president to ask him to reject tougher air pollution standards for coal-burning power plants. Sen. Walter Huddleston, D-Ky., said Carter seemed "very receptive" but made no commitments.

In other energy-related develop-

—The House was opening hearings today on the administration's proposed "windfall profits" tax on oil companies' profits resulting from Carter's decision to lift price controls

on domestic crude oil. -The AFL-CIO's executive council decided Tuesday at its spring meeting to mount an extensive lobbying effort in Congress to combat Carter's decision to start decontrolling oil prices June 1.

-The Energy Department said Exxon Co., U.S.A., agreed not to charge the public nearly \$4 million in claimed crude oil costs that the department said the company had hoped to "bank." The costs had been overstated from August 1973 through December 1977. But the department's Office of Special Counsel said the company miscalculated the amount of money it could pass through to

The Department of Energy's report on leaked documents was the result of an investigation begun after Congress Watch, a public interest group associated with Ralph Nader, disclosed an internal API document in May 1978.

The documnt was purportedly a quarterly report by John Innone, an API staff member, detailing his Energy Department contacts during January-March 1978.

The department report concluded that through Iannone, API obtained copies of "23 draft rulemakings and internal DOE memoranda and studies that had not been formally made available to the public. ...

Gulf No. 1-30 Lea State, td 10,800 feet, hooked up electricity and begin-pumping, no gauges, through perforations from 9,046 to 9,236 feet.
Gulf No. 1-D Landsdale-Federal, td 13,000 feet in shale, circulated and tested casing, pulled out of hole with tubing, ran logs from plugged back depth of 12,968 feet to 7,500 feet and shut down overnight.

shut down overnight.
Guif No. 1-SE Lea State, drilling
8,925 feet in lime.
Atlantic Richfield No. 1 Langley Atlantic Richfield No. 1 Langley, Boren, drilling 9,772 feet. Durham, Inc. No. 1 Elkan, drilling 5,800 feet in dolomite. Harvey Yates No. 1 Austin Mon-teith, drilling 6,900 feet. Estoril No. 1 Union-Federal, drilling 12,362 feet in lime and shale.

LOVING COUNTY Exxon No. 1-1 South Central Loving Gas Unit, drilling 5,500 feet, took drill-

recovered 47 feet of oil and 1,436 feet of drilling fluid. BTA No. 1 Junior, drilling 200 feet in redbeds, set 30-inch casing at 70 feet. Petroleum Corp. of Delaware No. 1-46 Jones, plugged back depth 4,900 feet, fractured perforations from 4,616 to 4,634 feet with 4,000 gallons and 1½-pound sand per barrel, acidized with 400 gallons, swabbed 5½-barrels of fluid in ½-hour.

LUBBOCK COUNTY
Gulf No. 1 Lena Rogers, td 4,810 feet
in lime and shale, pumped 8 barrels of
oil and 52 barrels of water in 24 hours,

MENARD COUNTY

MIDLAND COUNTY completion unit
Mobil No. 20-4 Preston, td 8,100 feet,
pumped 105 barrels of load oil and 78
barrels of load water and 106 barrels
of fresh water in 72 hours, through

perforations from 7,689 to 8,052 feet MITCHELL COUNTY The Eastland Oil Co. No. 1-F Wulf-jen, td 394 feet, killed well, ran logs, perforated (interval not reported), set

rig.
The Eastland Oil Co. No. 1 Harrall, NOLAN COUNTY

The Lovelady No. 1 Howard, td 6,725 feet, pumped 24 barrels of oil and 24 barrels of water in 4 days, through perforations from 6,125 to 6,183 feet.

PECOS COUNTY Mobil No 3 Ivy B. Weatherby, td 12,746 feet, flowed 256 barrels distil-late, 10 barrels load water, 185 mef in 24 hours, flowed 557 barrels distillate, ster, 195 mct in 24 noors, erail Wolfcamp perforations from 1,896 to 10,825 feet. Exxon No. 1 Longfellow Corp., drilling 12,395 feet. Exxon No. 1 A Monroe Gas Unit, drilling 12,206 feet. Mobil No. 4 Graham, td 5,606 feet, hilling and flowing; 41/2 barrels

10,806 to 10,825 feet.

Exxon No. 1 Longfellow Corp.; drilling 12,906 feet.

Exxon No. 2 Longfellow Corp.; drilling 12,200 feet.

Exxon No. 2 Longfellow Corp.; drilling 12,200 feet.

Mobil No. 4 Graham, td 3,600 feet, washbing and flowing; 41/2 barrels load oil, 39 barrels of fresh water in 10 hours, gassing heavy, perforations not reported.

Gulf No. 17 omilinson; td 5,255 feet in lime and shale, pumped 8 barrels oil and 32 barrels water in 24 hours through perforations from 5,197 to 5,205 feet.

Wilson Brothers Leasing Co. No. 2-19

Wilson Ranch; drilling 1,932 feet in lime.

Gulf No. 1034 Hutchings Stock Association, drilling 2,135 feet in salt and anhydrite.

Gulf No. 1034 Hutchings Stock Association, drilling 2,135 feet in shale, drilled DV tool and cleaned out to 8,775 feet, in lime.

REAGAN COUNTY

C'tics Service No. 1-3V University, td 9,579-feet in shale, ran logs, attempted drillistem test from 9,287 to 3,474 feet, packers failed, puiling out hole.

BTA No. 4-D Lake; td 7,775 feet, pumped 60 barrels load oil, and 105

hole.

BTA No. 4-D Lake; td 7,775 feet,
pumped 60 barrels load oil. and 105
barrels water in 24 hours, from perforations 6,109 to 7,671 feet.

Tamarack No. 1-A Ringo; td 8,185

REEVES COUNTY
Gulf No. 3 Ligon; td 13,470 feet inchert, pbtd 13,436 feet, worked with
swabb hung in tubing, worked loose,
recovered drill mud, made 4 swabb
runs and recovered 9 barrels heavy
drill mud Gulf No. 4 Ligon; td 6,700 feet, shut in, waiting on sales line. Gulf No. 5 Ligon; drilling 2,365 feet in salt and anhydrite.

SCHLIECHER COUNTY

STERLING COUNTY R. C. Bennett No. 2-C Bade, drilling 4,044 feet in lime and shale.

Mobil No. 1-B Goode; td 14,200 feet, flowed 169 barrels load water in 72 hours, through 48/64-inch choke, 19,772 mcfpd, flowing tubing pressure 2,300

Stock market mixed

gain-hunters, picking over a stock market that had taken heavy losses in the previous two sessions, went on a buying spree in the final hour of trading Tuesday that allowed the market to wipe out most of its early losses and finish mixed.

The Dow Jones average of 30 industrials, which had fallen more than 24 points Friday and Monday and was down more than six points during Tuesday's trading, wound up with an increase of 1.47 to 834.89.

Declines outnumbered advances 9-5 on the New York Stock Exchange, but the NYSE composite common-

stock index rose .04 to 55.79 NYSE volume was 32.72 million shares, up from 30.48 million Monday.

Among the gambling issues, Caesars World fell 2% to 6714, Bally was off 3/4 to 72½ and Holiday Inns dipped ¾ to 17%. On the American Stock Exchange, Resorts International class A stock dropped % to 41 % as the most active issue and Golden Nugget fell % to

18%.
The Standard & Poor's index of 400 industrial issues rose .19 to 110.81, while the S&P 500-stock composite

was up .15 to 99.17. The AMEX market value index lost 1.27 to 175.66, while the NASDAQ index of overthe-counter issues fell 1.00 to 129.60.

BUSINESS MIRROR Numerous signs flash warnings of storms ahead

By JOHN CUNNIFF **AP Businenss Analyst**

NEW YORK (AP) - The U.S. economy is now probing its way through murky weather. Thunderheads threaten turbulence, and a few shudders already have been felt. Radar reports differ, but the seatbelt sign is on.

If you were piloting the economy - assuming it could be piloted — you would be buffeted by con-flicts. Computer reports wouldn't be of much help either; some are suspect. No matter, the decision is You must act even though you're uncertain of vital

data, such as your forward speed. Or, for goodness sake, whether you're even going in that direction. Some of the data sent to you say you're already in Only reluctantly would you take decisive action in such circumstances. And when you did, your deci-

sion might be made with your own internal computer, your instincts, rather than the mass of con-That, to some degree, is the dilemma faced by those officials in the Carter administration and the

Federal Reserve Board who must monitor and at tempt to guide an economy of more than \$2 trillion. There's no limit to the advice they get. No limit to the amount of statistical data available. But what it adds up to is a personal decision, a subjective one, one made as much by hunch as by science.

The Index of Leading Economic Indicators fell in March for the third straight month. Once it was believed that three straight signaled a recession coming. Sure, but can you rely on the figures? On the

theory? "It looks to me like the index is throwing off some fairly mixed signals," said William Cox, Commerce Department deputy analyst. Very true; the index showed rises in both the workweek and the layoff

Is there guidance in the consumer mood? Little Surveys show buyers are depressed; they also show them buying up a storm. Can credit give guidance?

Little. March extensions reached a record; so did Well, try the employment figures. Okay. In April, employment declined sharply but the level of unemployment, seasonally adjusted, rose only one-tenth of

one percentage point to 5.8 percent. What do you make of that? Almost anything, some economists say. thing's out of joint, but what? The seasonal adjustment, which seems to distort the numbers each

spring? Or was it the trucking strike? Floods? Easter? Passover? Can you get some guidance from business spending plans? They're way up; McGraw-Hill says business will spend \$177.9 billion on capital improvements, "the sharpest rise since 1966." Sounds

awfully bullish. It does sound bullish, until the analysts get through with it. In the past, they say, industry used the hiatus of a downturn to improve its equipment and plant.

Maybe business expects another downturn? The pace of housing doesn't seem to offer clear guidance. Once it was the first to decline as an economic advance deteriorated. Now it seems almost immune to high prices, high interest, and

In seeking guidance from economists you find almost a consensus: there will be a downturn, they say, perhaps beginning during the second half of the year. But then, you recall, they said the same thing a

Moreover, you recall the great doubts economists have about their own discipline, their personal disputes, their questioning of each other's theories, their lack of agreement even on fundamentals.

A decision-maker, therefore, is inclined to rely on internal guidance and faith. Some economists seem to do so. And in declaring recession is avoidable, the president may be following instinct, not economics.

As pilot, he has come forth with no convincing economic documentation for that faith. Some of the

passengers are suspicious. They wonder how sure he himself is of his own statements. But when you consider the unusable ingredients offered to decision-makers, can you really blame the pilot of the ship of state for failing to produce decisons and explanations satisfying to all the pas-

General mining law under fire in Idaho

COEUR D'ALENE, Idaho (AP) - The future of the Apex Rule, the foundation of general mining law, is now in the hands of the Idaho Supreme Court.

A dispute over a 1944 contract, outlining the ownership of three ore bodies near Kellogg, Idaho, and signed by Sunshine Mining, Silver Syndicate and Polaris (now Hecla), was presented to the high court Monday

At stake is \$1,346,724 carried on the books by Silver Syndicate as owed by Sunshine, and a known ore reserve with about 2.7 million ounces of silver, currently valued at over \$21 million. Mining experts estimate the possible silver poten-

tial in the three veins at 20 million ounces, or \$160 million. In 1976, an Idaho District Court allotted 50-50

ownership to Sunshine and Silver Syndicate. When a vein is located, the Apex Rule states that the owner of the apex, the point nearest the surface,

is the owner of the entire vein. The vein in this dispute was discovered 2,700 feet below the surface, and today, 35 years after the bonanza was discovered, the apex still has not been

In 1944, instead of waiting until the apex could be located, the companies signed a contract in which Silver Syndicate conveyed partial rights east of the dividing plane and Sunshine and Polaris conveyed partial rights west of the divider.

The high court must decide whether the contract referred to ore bodies over the Chester vein, or to a strip 200 feet wide on each side of the vein.

The Idaho District Court ruled that the contract referred to the entire 400 foot-wide strip. Under the lower court ruling, Silver Syndicate is owner of half the ore within 200 feet on either side of

the Chester vein. Silver Syndicate attorney Don Kunz of Arizona told the high court Monday that the contract was drawn up to avoid "the difficulties and uncertainties of the Apex Rule.
