Experts on economy see inflation easing in latter part of year

HOT SPRINGS, Va. (AP) - Inflation should begin easing as the economy slides into a "moderate, brief" recession in the second half of the year, according to economic consultants for a prestigious group of businessmen. The analysis released today at the semi-annual meeting of the Business

Council was more pessimistic than the group's previous quarterly reports. And it was a contrast to Carter administration insistence that a recession can be avoided as inflation is brought in check by tighter money and budget policies and the voluntary wage and price guidelines.

The report to the council, which is made up of board chairmen and chief executive officers of 100 major U.S. corporations, predicts the economy will decline for six to eight months before turning up again.

"I thnk the consensus was (that) this is what we need, this is what we are moving into," Clifton C. Garvin Jr., chairman of Exxon Corp., said in remarks prepared for his introduction of the report. "It's not all that bad." Garvin aid he preferred the term "downturn" to "recssion" but admitted

"it's a little more severe than people had anticipated." As recently as February, the consultants had been predicting only a moderate decline in the nation's economy. But even that was a sharp contrast to its prediction last fall that the economy would expand this year by 21/2

percent, about the same as President Carter's prediction. The new Business Council forecast calls for the nation's output to decline "roughly 1 percent" over two to three quarters beginning at mid-year.

A recession is commonly defined as a contraction in economic growth for at least two consecutive quarters.

The Council said, however, that this year's recession would be no worse than the 1969-1970 recession, "the mildest of the post-war period." By contrast, there was a 6 percent drop in output during the severe 1974-75 recession

On inflation, the council agrees with the administration that "the worst of the current price surge is already behind us." It expects the rate of inflation to slow from an annual pace above 10 percent in the first quarter to an annual rate in the final quarter of 7.5 percent

Still, it said, "Consumer prices will be 91/2 percent higher this year than last and just over 71/2 percent higher in 1980 than 1979."

Treasury Secretary W. Michael Blumenthal earlier this week said the government "screwed up" on earlier inflation projections and suggested a revised target of 8½ percent for this year.

Garvin said some reasons for the more pessimistic projection include the decline in housing construction and in consumer purchasing.

'The consultants find reasons, however, for projecting no more than a moderate, brief, recession," he said in a written statement. Garvin did not

The predictions, likely to get close attention from the administration because of the prestige of the group, also say:

-The nation's Gross National Product the fourth quarter of this year will be 0.6 percent above the fourth quarter of 1978. The Carter administration has predicted 2.2 percent.

-The unemployment rate will rise about 1 percentage point from the first quarter's 5.7 percent rate. "The majority view is that interest rates have not yet peaked," the report

said. Most interest rates already are at record levels. In other economic developments Thursday:

-Commerce Department officials said the nation's retail sales edged up a half percentage point in April, despite a 2 percent drop in auto purchases. One official said the news indicated the economy "is hardly bubbling over." Sales of non-durable goods - such as food and drugs - rose 1 percent, while sales of durable goods stayed virtually the same.

-State Department officials said recent figures showing a sharp increasein U.S. imports of Japanese automobiles could undercut the favorable impression Prime Minister Masayoshi Ohira made on his recent visit here. Until this week, trends in U.S.-Japanese trade this year had been highly favorable, with both countries predicting a sizeable decrease in the \$11.6 billion deficit the United States had last year.

water puddle as Usha Cottrell, 5, has done in front of her West Michigan Avenue home. Water from Thursday's thunderstorms had dwindled to a small pool by afternoon, giving the youngster a place to play with her pull-toy. She is the daughter of Mr. and Mrs. John Cottrell. Will new plan for rationing be drafted?

WASHINGTON (AP) - It's now up to President Carter whether to draft a new standby gasoline rationing plan to replace the Senate-approved ver-sion that the House-dealt a stunning defeat Thursday night.

House leaders blamed the 246-159 defeat, after several days of intensive White House lobbying for the plan, on confusion over which Americans would have gotten the most fuel under its provisions

The president's original, oftamended plan for use in a national fuel emergency would have required motorists to use rationing coupons to buy gasoline under an allocation formula based on past consumption in each state.

Carter could send a new rationing plan to Congress, although he is not legally required to do so. He had fulfilled his statutory requirement to submit a plan for congressional ac-

tion to be taken by today.

The law calls for a 60-day, rulemaking period of hearings by the administration. Carter already has done that, and he presumably could submit another rationing plan almost immediately without another 60 days of hear-urban interests. ings. This was considered unlikely for political reasons, in view of the House

There was no sign today that any one in Congress was willing to take the initiative in drafting a legislative rationing plan.

Disregarding an impassioned appeal from House Speaker Thomas P. O'Neill that "this is the only plan you''ll have," the Democratic-controlled House handed Carter a bitter

"Many American felt this was a plan to implement rationing," said House Whip John Brademas, D-Ind., "even though the bill would only have given Carter standby author-

In addition, Brademas said lastminte changes to the plan made by the White House to win votes needed in the Senate led to fears in the House that some drivers would have ended up with a disproportionate share of a

"It is difficult for members to approve something they don't feel they can count on," he said.

congressional debate over implementing the national military draft, which was in place when World War II began three years later.

The majority leader said that in a major energy crisis the president would need a rationing plan.

He appealed to colleagues to put aside questions of how much gasoline their own districts would receive if rationing were invoked.

The rationing proposal originated with a 1975 law which required the president to propose various standby measures for use in case of a major cutoff of foreign imports such as the 1974 Arab oil embargo. Carter made concessions to sena-

tors from rural states Wednesday, agreeing to base allocation of gasoline during an emergency on the amount used in each state in past

The rationing plan cleared the Senate Wednesday 58-39. But there was. fear among White House officials that the compromise approved by the Senate would simultaneously lose votes in the House, which has stronger

California House members -- bitter tion inaction in solving already-existing gasoline lines in their state -complained that their constituents would lose gasoline under the compromise agreed to in the Senate. Similar complaints were heard from

Pennsylvania. Twenty-nine of 43 California House members voted against the president, partially on the urging of Senate Democratic Whip Alan Cranston, nor-

mally a Carter supporter. Shortly after defeating the rationing proposal, the House approved by a voice vote another standby conservation plan under which thermostats in public buildings would be controlled.

Carter has said he will use the thermostat plan, which calls for settings of 65 degrees Fahrenheit in the winter and 80 in the summer.

Supporters had said the standby rationing plan would have been used only for a major interruption of oil supplies and not to ease regional gasoline shortages like those in Califor-

Return of draft OK'd in House

Boys reaching 16 this year would register

WASHINGTON (AP) - Boys reaching age 16 this year will have to register as potential draftees when they turn 18 if a measure approved by the House Armed Services Committee becomes law.

The committee voted 30-4 Thursday to renew draft registration starting Jan. 1, 1981, but there is no indication whether the full Congress will go

The House may act as early as next week on the registration provision. which is contained in a \$42 billion weapons authorization bill. The overall bill was approved by the commit- Individual Ready Reserve.

The draft itself would remain suspended even if the registration provision becomes law. The measure unde consideration would require ung men to merely registerso mobilization would be speeded up in case the draft is ever reinstated for a war or emergency.

However, a House Armed Services subcommittee plans hearings within the next two months on a proposal to go one step further and draft up to 200,000 men a year into the Army

levels for more than 20 years.

The measure approved by the committee Thursday would require the president to register men who turn 18 after Dec. 31, 1980. Although it specifies that men be

registered, the measure also requires the president to recommend to Con gress how a registration system should be carried out and, as part of that, whether women should be in-

President Carter has taken no position on draft registration. Secretary of Defense Harold Brown has said he still hopes the present Selective Service system can be improved to meet war mobilization requirements without renewing registration.

The committee vote was to kill an amendment by Rep. Patricia Schroeder, D-Colo., aimed at knocking out of the bill a draft registration provision written into it earlier by a subcommittee.

Rep. Schroeder argued that Congress should wait and make a decision on the entire issue of how Americans should be called to fight any

Clements says shortage is of 'good common sense'

HOUSTON (AP) - Gov. Bill Clements says the Carter administration has a "shortage of good common sense" in its attempts to solve the nation's energy problem.

The Republican said Thursday night the administration should keep its

hands off the petroleum, coal and nuclear industries, Speaking at a Chamber of Commerce annual meeting, Clements said any windfall profits from the move to decontrol crude oil prices should be plowed back into the production of more energy and "not into some

government welfare program."

Clements said President Carter's windfall profits tax plan would create more bureaucracy, more government interference and more govern-

ment boondoggles. Clements acknowledged that his plan would mean higher prices for consumers on a short-term basis.

"But without full scale production, there is no hope for lower prices on a long-term basis and there is no hope for restraining inflation," he said.

H.S. Harris Jr. named to board

ODESSA - A 62-year old Midland attorney was appointed to the Texas Industrial Accident Board Thursday by Texas Gov. Bill Clements.

The announcement was made during a news conference in the IAB regional office here.

H.S. Harris Jr., who has practiced law in the Midland area for 30 years, will assume chairmanship of the board effective May 21. He replaces Cue D. Boykin who resigned to practce law in

Boykin is also a former Mid-(See MIDLANDER, Page 4A)

Brown, Chiles on NTSU board

ments Tuesday.

A Midland County commissioner and a former Tall City oil man were named Thursday to posts on the board of regents for North Texas State University. Gov. Bill Clements appointed Precinct 2 Commissioner

Winfree Brown and Harrel "Eddie" Chiles to regency positions, replacing two men who already hold posts on the university's governing body.

Brown, a 1951 graduate of the university, will replace

Kenneth May, a Lubbock newspaperman.

Brown currently is serving his third term as a commissioner. He has been active in local civic activities and has worked with the Midland Chamber of Commerce in its attempts to attract industry to this area. The San Angelo native is also involved in the oil

business as an independent landman and has ranching interests locally and near San Angelo. Brown, 52, has been involved extensively in politics for the Republican Party at the local, county and state

He was one of eight regional chairmen for Bill Clements' successful bid for governor, holding responsibility for 49 counties stretching from Eastland in Central

Texas to El Paso County.

As a commissioner, Brown is a member of the West Texas Judges and Commissioners Association, the State Judges and Commissioners Association and was appointed to the legislative committee for the Texas Association of Counties in January.

He is a Scottish Rite Mason and has been active in local Mason activities for some time. He and his wife, Lou, reside at 1400 Murray St. with

their four children. Also appointed to the board was Fort Worth oilman Harrel "Eddie" Chiles, who will replace Edward V. Smith III of Dallas.

Chiles, who heads an oil field services firm, is formerly from Midland. The state senate is expected to vote on the appoint-

Delco says bill won't kill fine arts courses

Austin Bureau

AUSTIN - Rep. Wilhelmina Delco, Austin, believes in more emphasis on the basics in education, including fine arts. That's why she introduced HB

But the bill, which restructures curriculum requirements for public schools, has got parents across the state up in arms because they think it will mean the end to bands, choirs and other fine arts.

"It's a horrible misunderstanding," says Delco, who blames it all on a misinformed official at the Texas Education Agency.

"It was never my intent to in any way eliminate fine arts courses," explained Delco, whose husband is the president of a local high school band parents organization and whose children play in school

But the phones in her office keep ringing, with angry parents on the line, afraid that Delco's new curriculum requirements will not leave any instructional time for their children to attend band or

What Delco's bill does is eliminate the current statutory curriculum requirements for instruction in specific courses such as penmanship, orthography, arithmetic, mental arithmetic, grammar, "kindness to animals," "intelligent patriotism," care and protection of nesting songbirds and drug abuse.

In its place, Delco sets out minimum percentage

Hospital encouraging Midlanders to join volunteer health effort

This is National Hospital Week and, according to Midland Memorial Hospital public relations director Pat Dishman, Midland Memorial — like hospitals throughout the nation — is encouraging Midlanders to join a voluntary effort to contain health care

Ms. Dishman also outlined steps Midlanders can use to help reach that goal.

"First and most important," she said, "become a better custodian of your own health. Preventive care is still the best bargain for you in health care.'

Steps to take include eating three meals a day with no snacking, moderate exercise two or three times a week, seven or eight hours of sleep each night, no smoking, keeping a moderate weight and using no alcohol or alcohol only in moderation.

Knowing how and when to use a hospital also is important, she says. "Because a hospital is geared to providing the highest level of care around the clock, its overhead and personnel costs are high. If you need that level of care, there's no substitute. "But it's a waste of resources to use it when you

don't," she added. People should use a hospital emergency room, Ms. Dishman adds, only when needed for life-threatening situations. Since emergency rooms are staffed by skilled personnel and sophisticated equipment, it's expensive care

'Consumers must realize," Ms. Dishman says, "that there is no such thing as 'free' health care. Even if you don't have to reach into your pockets right away to pay for the health care, you're going to pay for it somewhere along the line, perhaps through higher insurance premiums or bigger tax bills. That's why the conservative and wise use of health care resources is always in your best inter-

Old owners may buy back refuge land

ATLANTA (AP) U.S. Rep. Bo Ginn has introduced legislation in Congress that would allow former owners or their heirs to buy back land at the Harris Neck Wildlife Refuge which he said was seized in an "arrogant action" by the Army during World War

Ginn introduced a similar bill that was killed in committee in 1976.

The Georgia Democrat, who represents the state's coastal region. also called for a federal investigation into the cir cumstances of the origi nal acquisition of the land near Eulonia, Ga.

The property was acquired from mostly black residents for a war-time Army airfield, and has been the subject of recent protests by a group of blacks trying to regain the land.

Four black protesters who refused to obey a court order to leave the wildlife refuge in southeast Georgia were arrested last week and sentenced to 30 days in jail for contempt of court.

Odessa C of C helps formation of new PBPA

ODESSA - Odessa Chamber of Commerce's Industrial Development Department is assisting in the formation of the Permian Basin Person nel Association.

The first of its kind in the Permian Basin, the association will provide a forum for area personnel and industrial relations professionals em-ployed fulltime by area companies.

Any Permian Basin company may send a representative to an informational meeting scheduled for 7:30 p.m. Monday in the conference room of OIME on

East Highway 80. Further information may be obtained by telephoning the Industrial Development Department of the chamber at

requirements for the number of courses a school district must offer in two areas - basic skills and

From kindergarten to third grade, 95 percent of the courses offered would be in basic skills. That percentage would drop as courses offered in work skills increase in the later grades

"House Bill 921 does not require a student to enroll in a certain percentage of basic or work skills courses. It only requires school districts to offer prescribed percentages in these important areas,"

She labeled reports that students would have only 18 minutes per day for fine arts education "totally, completely and absolutely wrong.

"We are not dictating what a student has to take, but what a school district has to be prepared to offer." she said.

To defuse the controversy, Delco plans to offer amendments to the bill when it comes up in the Senate for floor debate.

"I have no problem making it clear that fine arts are included in basic education, because that's what I always intended," she said

Contac, Sine-Off being recalled

WASHINGTON (AP) - Nearly all bottles of Contac Nasal Mist and Sine-Off Once-A-Day Sinus Spray are being recalled from store shelves because of possible bacterial contamination, the government says. The Food and Drug Administration announced the recall Wednesday

after the products' maker detected the contamination during routine laboratory tests of samples, agency spokeswoman Faye Peterson said.

More than 2.7 million squeeze bottles of the two well-known over-thecounter nasal sprays are affected. The recall covers virtually all lots produced in 1978 and 1979.

Jeremy Heymsfeld, a spokesman for SmithKline Corp., parent company of the maker of the products, said the products are being recalled "as" a precaution.

Legislation could close 41 of 70 nuclear plants

WASHINGTON (AP) - More and more members of Congress appear anxious to tell the nuclear industry there won't be business as usual after the Three Mile Island accident.

The Senate Environment and Public Works Committee approved legislation Thursday that could force the closing in six months of nuclear reactors in states without government-approved evacuation plans.

The same should go for plants under construction, the committee said in its 6-4 vote.

Aides said the measure, if passed by Congress, could shut down 41 of the 70 plants operating in the United States or postpone operating licenses for as many as 12 more scheduled for completion before the end of 1980. No list of affected plants was immediately available.

The vote came as the panel approved legislation authorizing NRC programs for the fiscal year beginning Oct. 1.

IN ADDITION, the panel voted to

spend \$400,000 to investigate the March 28 Three Mile Island accident near Harrisburg, Pa., and called for tougher government controls over both day-to-day and emergency operations of the commercial nuclear in-

In other nuclear developments

Thursday: -An NRC official said seven nuclear power plants shut down for improvements after the Three Mile Island accident should reopen in the next few weeks. The accident at Three Mile Island's Unit 2 - which remains closed along with Unit 1 led the NRC to order improvements at similar plants designed by the same company, Babcock & Wilcox.

-An expert on radiation said Pennsylvania residents living near the Three Mile Island plant have little added risk of cancer as a result of the accident. Dr. Edward P. Radford, chairman of the National Academy of Sciences' advisory committee on biological effects of ionizing radiation, said two-to-five additional cases of

cancer, or one-to-three extra deaths, might be expected in the lifetimes of the 166,000 people living within 10 miles - cases "impossible to detect within the approximately 45,000 cancer cases expected (anyway) during the lifetime of this population.

-Leaders of a union striking the Goodyear Atomic Co. plant near Portsmouth, Ohio, said nearby communities could be in danger because the best-trained personnel are on strike. A company spokesman said the plant "is properly manned with fully qualified personnel.'

THE SENATE committee action Thursday followed by one day a vote in the House Interior Committee to block temporarily federal construction permits for six proposed reac-

House Speaker Thomas P. O'Neill already has predicted the full House will go along.

As the Senate committee debated his proposals to shut down plants in states without federally approved

evacuation plans, Sen. Gary Hart, D-Colo., said: "We should not have a nuclear plant operating in this country without an emergency evacuation plan. It's so elementary I am ashamed we haven't considered it a House passes year or so ago.'

Committee members who voted against Hart voiced agreement with his objectives, but said the six-month timetable he set was too short.

The committee also unanimously agreed to have the NRC draft legislation giving the government sole responsibility for operating a nuclear new district courts plant in an emergency.

"I WANT THE LAW, the law of the United States, to say who is in charge the Senate. of a nuclear reactor in the event of a crisis," Hart said. Among other steps the panel apand would specialize in proved, all without dissent:

Action delayed on nuclear rate hike

HARRISBURG, Pa. (AP) - Pennsylvania's Public Utility Commission, in a setback to one of the owners of the Three Mile Island plant, delayed action on Metropolitan Edison Co.'s request to start charging higher rates today.

The PUC decision Thursday came as the state civil defense chief told a legislative committee that he recmmended evacuation of the area around the plant two days after the accident that sent radioactivity into the atmosphere.

The company had proposed a six-month, \$16.3 million surcharge for energy costs incurred in 1977 and 1978. The PUC voted 2-1 to postpone action on that petition and two others that would have given the company an immediate influx of the cash it says it needs to stay solvent.

The other petitions were filed by Met Ed and Pennsylvania Electric Co., co-owners of the crippled Three Mile Island nuclear plant. The companies sought permission to start charging customers immediately for the cost of buying power to replace the electricity normally generated by Three Mile

The PUC said all three petitions will be considered during a series of hearings on who will pay for the March 28 accident that shut down Three Mile Island.

"It appears inappropriate to attempt at this time to adjust the rates of Met Ed or Penelec before all the facts are known and the record is complete," the PUC order said.

The order also said the two utilities "have neither alleged nor demonstrated any imminent danger of financial collapse

During legislative hearings on the accident, Oran Henderson, head of the Pennsylvania Emergency Management Agency, said he told Gov. Dick Thornburgh on March 30 that a full evacuation of the area should be ordered. He said his recommendation was based on commens from a shift supervisor and the Nuclear Reguatory Commission.

Thornburgh instead issued an advisory that day for pregnant women and small children to leave the

Thornburgh, contacted in Pittsburgh where he was. campaigning on behalf of judicial candidates in the May 15 primary, said Henderson was "badly mistak-

"There was no discussions with Mr. Henderson about mass evacuations at all," Thornburgh said. "His statement is a serious mistake and I'm very concerned about it.'

Instead of ordering a mass evacuation, Thornburgh issued an advisory for pregnant women and small children to leave a five-mile area around the plant and he instructed residents near the reactor to stay indoors.

Bank halts loans for nuclear power plants

world's largest lending institution, has halted temporarily loans for nuclear power plants pending the outcome of a federal investigation into the accident at the Three Mile Island generating station, a bank spokesman says.

The loans comprise 0.3 percent of the organiza-tion's total loan package of \$50 billion, the bank said. 'It would not be following the 'prudent man' rule to continue making loans for construction of nuclear projects or facilities while this ... review of the industry takes place," said bank official Ray Toman.

Toman said the company was "just putting ourselves in a holding pattern until the review of Three Mile Island is completed."

Dallas woman convicted in brutal child slayings

NG

DALLAS (AP) - A Dallas woman has been convicted of murdering her 11-year-old son, who was found with a screwdriver driven through his eye, and of voluntary manslaughter in the beating and stabbing death of her 8-year-old daughter.

Jurors deliberated more than five hours before returning the guilty verdicts Thursday against Kathleen Gradi, 32. Testimony began today in the second phase of the

trial, the question of how she should be punished. She could get life in prison. Mrs. Gradi was arrested after her son Clifford was found by police with a screwdriver driven to the hilt through his right eye in their blood-spattered apart-ment on Jan. 12. Clifford's half-sister, Aimee Jean

Gray, was found unconscious on the living room Clifford died 17 days later. Aimee died a short time

later. In closing arguments, defense attorney Doug Parks pleaded with the jury for acquittal, saying "the evidence — or the lack of evidence — fairly screams for such a verdict."

After the verdict, he would not say whether he plans to appeal.

Assistant District Attorney Doug Mulder, in final arguments, said the murders happened this way: "Aimee's there in the kitchen eating a piece of bread for breakfast ... She (Mrs. Gradi) got mad and grabbed that screwdriver and did her in just like that. I suspect Clifford heard it from upstairs.. She turned on him...He got into that closet and 17 times she struck home with that screwdriver until

she embedded it in his eye. Then, the prosecutor said, "she popped her clothes on and beat it down to the bus and was at work eating a sandwich at 7:45. That's how much those kids meant to her?"

Extended forecasts

Sunday Through Tuesday

West Texas: A slow warming trend Sunday through Tuesday. Widely scattered showers or thundestorms possible mainly eastern portions Monday. Highs upper 6c, north to low 80s south Sunday, warming into the mid 76s north to the upper 80s south by Tuesday. Lows low 40s north to upper 50s south by Duesday. Lows low 40s north and the mid 80s south by Tuesday.

North Texas: Mostly fair Sunday and Monday. Partly cloudy with scattered showers and thunderstorms Tuesday. A slow warming trend Sunday trough Tuesday. Highest temperatures in the mid and upper 70s. Lowest temperatures in the lower 50s northwest and in the lower 60s southeast.

South Texas: Mostly cloudy and cool Sunday through Tuesday. Chance of rain or sholwers over the area Monday and extreme east portion Tuesday. Lows in the upper 50s northwest, low 60s interior and southeast to near 70 south Highs in the upper 70s northwest and generally in the lower 80s elsewhere.

Border states forecasts

Oklahoma: Scattered showers and thunderstorms ending east and fair to partly cloudy elsewhere today. Fair to partly cloudy tonight and Saturday. Cool today and tonight A little warmer Saturday. Highs mostly in the 60s. Lows tonight 40s. Highs Saturday low to mid 70s.

New Mexico: Partly cloudy tday with a few afternoon showers of rain or snow over the northern mountains. Mostly clear and cool tonight. Mostly sunny Saturday. Warmer central and west today and statewide Saturday. Highs 50s and lower 60s mountains and north to 70s south. Highs Saturday upper 50s and 60s mountains and north to lower 80s south. Lows 20s and 30s mountains and north to

Morning sprinkles should give way to cool, dry conditions for Saturday

Unseasonably cool temperatures and overcast skies which spitted drops of rain occasionally greeted Permian Basin residents Friday morning. But the weatherman says, that is no indication it will rain

Today's low temperature dropped the thermometer to 52 degrees, but failed to even threaten the record low mark for this date - 42 - set back in 1946. And Thursday's high mark of 80 was far from the record 99-degree reading established in 1963, according to officials with the National Weather Service at Midland Regional Airport.

The mercury should drop almost to

50 tonight, forecasters say. According to the weatherman, today's cooler temperatures were the result of a cold front which moved into the area late Wednesday, bringing behind it colder air and some rain.

But even with today's early morning lows in the 40s in some area towns, there wasn't much rainfall. Andrews and Lamesa reported sprinkles, Rankin received mist early today and Big Spring received some showers.

Unofficial readings this morning also listed lows of 45 degrees at An-

Ten indictments returned in Big Lake

BIG LAKE -Indicments against 10 suspects were returned here Thursday with charges ranging from theft and burglary to felony possession of marijuana.

The indicments were returned by an 83rd District Court grand jury. Aubrey Edwards, 83rd district attorney, said the following defendants were arraigned with bond set by 83rd

District Judge William H. Earney: Robert G. Brown, released on \$10, 000 bond, burglary; Antonio Diaz, bond set at \$5,000, unauthorized use of a motor vehicle; Reginaldo De La Rosa, bond set at \$5,000, theft; Lufs Victorio, bond set at \$1,000, burglary of a building; and Barry Wayne Dunn and Jose Luis Beltran, bond set at \$25,000 each, felony possession of

marijuana. Edwards said one defendant. Tommy Joe Phillips, pleaded guilty to a charge of burglary and was given a

10-year probated sentence. In addition the grand jury returned two sealed indicments, Edwards tries her own angle. Angie's mother, Lee Reeder, finally comes to the rescue, offering the lift that refreshes. (Staff Photos by Bruce Partain)

Interest rates on savings bonds increased

By The Associated Press

The government has increased the interest rate on U.S. Savings Bonds for the first time in 51/2 years, meaning extra money for millions of Americans.

The increase announced Thursday takes effect June 1 and raises the interest rate from 6 percent to 61/2 percent on bonds held to maturity.

Carolyn M. Johnston, director of public affairs for the Savings Bond Division of the Treasury Department, said that statisticians were still calculating what the increase would mean in dollars and cents to individual bond holders.

In general terms, however, she said that holders of Series E bonds will be able to collect more when the bonds reach maturity; if you buy a \$25 bond, you will get more than \$25 when it reaches maturity. Holders of Series H bonds, meanwhile, will get an increase in the semi-annual payments they receive. Bondholders do not have

to do anything to get the extra interest; it is automatic.

Ms. Johnston said the raise means the government will have to pay about \$400 million in additional interest each year on the nearly \$81 billion worth of bonds held by some 25 million American families.

The interest rate on Savings Bonds has not been increased since Dec. 1. 1973, and critics have charged that the bonds represented a poor investment for small savers who saw their interest eaten up by inflation and who could earn more money elsewhere.

"Interest rates in general have been rising," Ms. Johnston said. The increase "keeps it (the Savings Bond) more competitive.'

The two most common bonds now in existence are the Series E and Series H. Under a plan announced earlier this year, the Treasury Department is phasing out these bonds and replacing them with Series EE and Series HH

bonds starting next Jan. 2. Series E bonds are sold for 75 percent of face value; they can be redeemed at face value any time after reaching maturity. They come in denominations from \$25 to \$10,000. The cheapest costs \$18.75. Series E bonds have a maturity of five years, plus extensions during which they continue earning interest. All outstanding Series E bonds are still earning interest; the oldest outstanding bonds issued from May 1941 to April 1952 will reach final maturity between May 1981 and April 1992. Bonds issued after April 1952 will reach maturity at varying dates starting in 1992.

Series EE bonds will be available in denominations from \$50 to \$10,000. They will be sold for half their face value - the cheapest bond will cost \$25. The original maturity had been expected to be 11 years and 9 months. but Ms. Johnston said the increase in the interest rate will mean a maturity of 11 years.

Series H bonds, issued in denomina tions from \$500 to \$10,000, are sold at face value. They have a maturity of 10

years and, like Series E bonds, have been granted extensions in the past Interest is paid semi-annually on a graduated scale. The oldest outstand ing Series H bonds - issued between June 1952 and January 1957 — wil mature between February 1982 and September 1986 Series HH bonds also will be available in denominations from \$500 to \$10,000 and will be sold at face

value. The biggest change between Series H and Series HH bonds will be in the

way the interest is paid. To earn the full interest rate, you must hold a Series H bond to maturity since the payment scale is graduated. The bond can, however, be redeemed for face value any time after six months. The Series HH bonds sold after Jan

2 will yield the full interest rate - the new 61/2 percent - immediately, but there will be a penalty for early redemption. If you cash them in before maturity, you will not get the full face

WASHINGTON (AP) - Who got the better of the SALT II deal?

That question will occupy the Carter administration, the U.S. Senate and perhaps some quarters of the Kremlin in coming months.

By ROBERT B. CULLEN

Based on numerous interviews with informed critics and supporters of the treaty, the short answer is that each side got from the seven-year SALT II negotiations what it had to have to satisfy its own military that security would not be compromised.

If either side wanted to put an end to the arms race, that was not accomplished. The treaty will put some ceilings on arms buildups, but it will not prevent each side from adding thousands of nuclear warheads to arsenals, at a cost of billions of dol-

BUT THE TREATY does enable each side to have some confidence about what the other might do. The Carter administration estimates it would have to spend an extra \$30 billion to \$60 billion to match what the Soviets would be likely to build in the absence of a treaty

The Soviets won the right to match and in some ways surpass the United States in the critical area of longrange, land-based missiles with multiple warheads (MIRVs). Entering the negotiations in 1973,

the United States had MIRVed mis-

siles. The Soviets were just beginning to test them. The United States suggested a freeze on MIRVs that would have kept the Soviets from getting them. The Soviets refused, continued their development program, and eventually

won the concession from the United States The Soviets won the right to maintain their force of 308 powerful SS-9

and SS-18 missiles. The United States, which had no plans to build such huge missiles, would not be allowed to do

THE SOVIET ADVANTAGE in heavy missiles is mitigated by the limits on the number of warheads each can carry. The SS-18 is limited to 10, which Pentagon experts say is about 20 less than it might carry at full potential.

But despite that limit, the SALT II treaty will allow both sides to develop and deploy sufficiently accurate multiple-warhead missiles to be able to pose at least a theoretical threat of a disarming first strike against the other side's land-based missiles. Such an attack becomes theoreti-

cally feasible when one missile with multiple warheads is capable of hitting and destroying several of the enemy's silos.

Of course, an attacker would be gambling that his attack would work

perfectly and that the other side would not immediately retaliate with its remaining submarine-based forces, plunging both countries into mutual destruction

SALT II did not call halt to arms race

There is a sub-limit of 1,200 on MIRVed missiles, whether they are launched from land or submarines. That leaves room for about 120 bomb- . ers equipped with cruise missiles, which count as MIRVed weapons.

NOT COINCIDENTALLY, that is the number of B-52s the United States plans to equip with the small, pilotless and highly accurate drones.

That represents one of the key concessions won by the United States. At Vladivostok in 1974, President Ford and Soviet President Leonid L Brezhnev agreed to a total limit of 2,400 on all long-range missiles and bombers. including air-launched missiles.

A few months later, the Soviets contended that the Vladivostok accord applied to the new American cruise missile. The Americans contended that it did not, since the cruise is not a ballistic missile but more like a jet plane

The eventual compromise gives the United States essentially what it wanted. it leaves the Soviets scrambling to catch up.

The Americans also took care to preserve their option to build the MX missile, a weapon planned for deployment in the mid-1980s. It will match the SS-18 in warheads, and it might be based on mobile launchers.

ON THE OTHER hand, the Soviets can also build one new land-based missile. And the treaty is written in such a way that the Soviets could effectively modernize their SS-11 missile by making it more accurate without having it count as a new missile, administration officials concede

Both sides also retain the right to modernize their submarine-based missile forces, as the United States already is doing.

The Americans also won the right to keep their European-based bombers, and those of the NATO allies, out of the SALT totals, even though they can reach Soviet targets.

But that triumph is mitigated by the Soviet deployment of the Backfire bomber, which fits in the same loophole for "intermediate-range weapons," even though it could reach the United States if it flew at low speeds and landed in Cuba.

THE AMERICANS also won from the Soviets an agreement on equal totals of strategic weapons, no more than 2,250 after 1981. That will require the Soviets to dismantle some 250 operational weapons.

The bargaining was intense, and often the negotiators deadlocked for months over matters that appear inconsequential in the context of the entire 70-pages of the draft treaty.

Terrorists chain Italian official

ROME (AP) - Three terrorists chained a Christian Democratic official to an iron staircase outside his apartment building today and hung a statement around his neck reading: "Red Brigades. Destroy the Christian Democrat Party. Hit the men of proletarian quarters.

Police said Giuseppe Merola, 46, a Christian Democratic representative in the city administration, was unhurt by his assailants who fled after taking a snapshot of Merola.

After the terrorists fled, Merola shouted for help and his family called police who unchained the Christian Democratic official.

Merola lives in Pietralata, a densely-populated, working class quarter of Rome. The attack came as Italy's dominant Christian Democrats, second-ranking Communists and other parties were campaigning for the June 3-4 general elections.

Fifteen Red Brigades terrorists set off bombs in the Rome headquarters of the Christian Democratic Party a week ago in their first pre-election strike, then shot and killed two policemen and wounded a third while flee-

The Red Brigades, Italy's most feared terrorist gang, kidnapped fivetime Premier Aldo Moro in March 1978 and killed his five police bodyguards, then left his trussed and bull et-riddled body in the trunk of a car near the party headquarters 54 days

'Midland man' is 'Midland Minnie'

The ancient "Midland man" wasn't a man, the American Indians weren't all that conservation-minded and even a tree limb can be an artifact, said Midland anthropologist Eunice Barkes

"This idea of Indians being great conservationists is not always true," Mrs. Barkes said in mentioning the sometimes-wanton slaughter of buffaloes by the Indians.

She was speaking Thursday on prehistory of the Midland area in a color slide presentation to the Downtown Rotary Club meeting in the Midland

Artifacts, she said, can be almost anything "made or altered" by man.

Fire damages home

Very heavy damage to a house and its contents were caused by a fire reported at 5:09 p.m. Thursday at 414 E. Dengar Ave., fire officials said.

Butane ignited by a water heater was the cause of the fire at the home

of Samual H. Ratliff, reports indicat-

It took firefighters about an hour to put out the fire, an official said. Seven firefighters responded to the call.

"A limb off a tree used to whip a dog would be an artifact," Mrs.

Church council debating nukes

SAN ANTONIO, Texas (AP) -American church representatives, after seeing a solar energy system at work, headed into a final round of debate on whether to challenge nucle-

ar power as a peril to humanity. The proposal before the National Council of Churches today constitutes the first attempt at a broadly representative religious-ethical appraisal of nuclear energy production.

Both pro- and anti-nuclear views rippled through the drawn-out discussion. Ironically, there were several tie votes Thursday on efforts to modify terminology in the proposed statement, which calls for a national energy policy which "will not need to

utilize nuclear fission. The statement concedes that a "just energy policy is difficult because inevitably some ethically desirable goals 'must be traded off' against other goals, which also are good," but the paper concludes that

nuclear power is morally untenable. To get a first-hand look at an alternative, representatives of most major Protestant and Eastern Orthodox churches Thursday climbed to the top of a Trinity University building to inspect a large-scale solar facility.

Contrary to the myths about the impracticality of such a system, it works and is cheaper, cleaner and provides more jobs than other power systems, physicist Eugene Clark told 250 church representatives.

Clark, director of the Presbyterianrelated school's solar data center, said current solar technology could meet 35 percent of the nation's heating needs and do it more economically than current systems. The proposal before the council,

representing 32 denominations totaling more than 40 million members, would urge the nation to focus on "renewable energy resources" such as solar, wind and water power.

The 2,500-word policy statement was worked out during research, consultations, and hearings extending

back to 1974. It included participation by top scientists as well as economists and theologians.

On other matters, the council

-Hailed the SALT II accords be-

a step toward ending the "spiral of terror of the arms race.

-Urged better treatment and possible amnesty for illegal aliens in this country, comparing them to the ancient Israelites who migrated to "the promised land

Zambia, Angola make pact

LUSAKA, Zambia (AP) - Presidents Kenneth Kaunda of Zambia and Augustino Neto of Angola pledged to set up a security force to repel Rhodesian and South African incursions into

their countries. They also vowed that an attack on one of their countries was an attack

on the other. The two presidents held talks Thursday in Ndola, a copper-producing region about 211 miles north of Lusaka

Kaunda's assistant for press, Milimo Punabantu, briefed reporters on the talks but gave no specific details on the security arrangements.

Neto has said in the past that Angolans were fully mobilized not only to defend their country but prepared to fight side by side with Zambians until their common enemy was defeated.

Rhodesia has launched more than a half-dozen raids on Zambian bases of guerrillas fighting a six-year-old bush

Crystal Ball sparkles

By WANDA MOUTON Lifestyle Editor

SECTION B

It was a shining affair Wednesday night at the Midland Country Club as some 300 persons attended the annual Crystal Ball, a benefit of the High Sky Girls Ranch.

As guests arrived at the festive event, they were greeted to the bright sounds of Mal Fitch and his Orchestra, and caught their first glimpse of the beautiful Waterford crystal on display in the foyer amidst a setting of white potted chrysanthemums and greenery.

The fourth annual event, hosted by the board of directors of High Sky Girls Ranch, featured a variety of activities, including dancing to the music of the Dallas band, auctioning of crystal and buffet dining.

Highest bidder for the Waterford

crystal chandelier was B Bernard Lankford Jr. Proceeds from the auction and the event will benefit the Girls Ranch, a place for young girls who are in trouble, having a difficult time living with their families, and need a home-like atmosphere in which they can develop. The ranch is located four miles northwest of Midland.

A highlight of the evening was entertainment presented by comedian Walter "Zaney" Blaney of Houston, who has been proclaimed the official Texas ambassador of goodwill by four Texas governors. He presented a magician act which featured participation by several of the guests. Blaney

has made several television appearances on the Tonight Show, Dinah Shore Show and Mike Douglas Show.

Shore Show and Mike Douglas Show.
Chairman of the ball was Mrs. Ronald A. Britton. Co-chairman was Mrs.
Greene Morgan. Committee members were Mrs. James Mims, finance;
Mrs. Chris Scharbauer and Mrs. L. S.
Melzer, invitations; Mrs. Ross Brunner, publicity; Mrs. Charles Cerf, decorations; Gary Burnett, properties; and John Seay and William Malone,

Sponsors for the event were Aladdin House Furniture, Mr. and Mrs James S. Allega, Mr. and Mrs. James M. Alsup, Mr. and Mrs. R. F. Bailey, Mr. and Mrs. Winston Bafclay, J. C. Barnes Jr., Mr. and Mrs. Barry Beal, Bed & Bath Fashion Shop, Mr. and Mrs. O. H. Berry, Mr. and Mrs. John B. Billingsley Jr., Mr. and Mrs. Dan P. Black, Mr. and Mrs. James R. Blackmon, Mr. and Mrs. Jack E. Blake, Mr. and Mrs. Ronald A. Britton.

Also, Mr. and Mrs. Jack E. Brown, Mr. and Mrs. Ross Brunner, Mr. and Mrs. Gary Burnett, Mr. and Mrs. Rufe S. Bynum Jr., Mr. and Mrs. Charles J. Cerf, Citizens Saving & Loan, Commercial Bank & Trust, Mr. and Mrs. John L. Cox, Mr. and Mrs. Max Curry, Mr. and Mrs. Francis X. Downs, Mr. and Mrs. Lynn D. Durham, Mr. and Mrs. Edwin A. Dwyer, and Elms, Faris & Co.

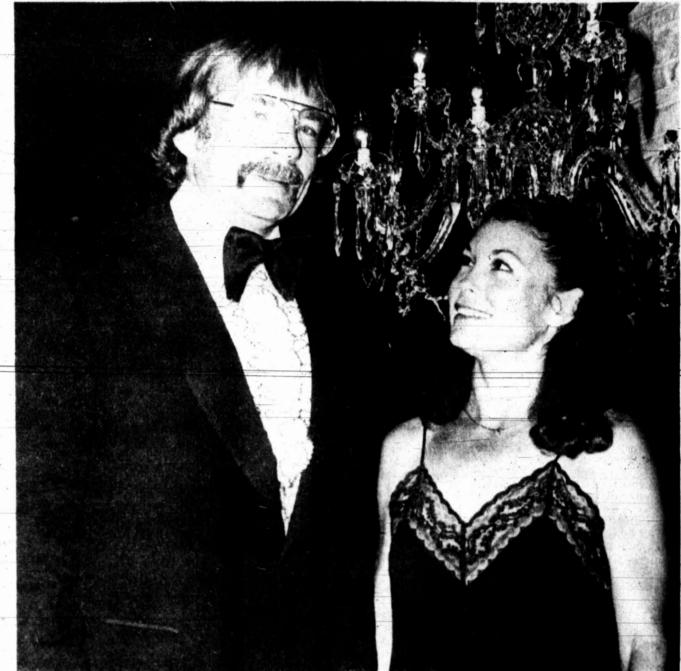

Also, Mr. and Mrs. Don Evans, Mr. and Mrs. Ted Fergeson, Mr. and Mrs. William S. Gesell, Mr. and Mrs. Joe N. Gifford, Mr. and Mrs. David G. Griffin, Mr. and Mrs. Kenneth H.

Griffin, Mr. and Mrs. Robert H. Hannifin, Mr. and Mrs. W. J. Heath, Mr. and Mrs. Joe Henderson, Mr. and Mrs. J. D. Highsmith, Mr. and Mrs. Robert K. Hillin, Mr. and Mrs. Jerry Hooper, Mr. and Mrs. Frank Houghton Jr., Mr. and Mrs. Parker Humes and Mr. and Mrs. Reginald Hyer.

Also, Mr. and Mrs. Paul Karcher, Mr. and Mrs. Yafe Key, Mr. and Mrs. W. D. Kleine, Mr. and Mrs. James W. Lacy, Laughlin Interiors, F. T. Levens, Mr. and Mrs. Walter Locker Jr., Mr. and Mrs. J. A. Matthews, Mr. and Mrs. L. S. Melzer, Mr. and Mrs. F. H. Mills Jr., Mr. and Mrs. W. C. Montgomery, Mustang Mud Inc., Mr. and Mrs. T. B. O'Brien, Dick Oldham and Mr. and Mrs. Frank Pannell.

Also, Mr. and Mrs. Charles Priddy, Mr. and Mrs. Russell Ramsland, Mr. and Mrs. John W. Rahlfs, Refiners & Producers Marketing Inc., Mr. and Mrs. Cecil Rhodes, Lillian K. Roach, Mr. and Mrs. M. D. Rogers, Mr. and Mrs. James Ross, Mr. and Mrs. William G. Ross, Mr. and Mrs. Jack Russell, Mr. and Mrs. Chris Scharbauer, Mr. and Mrs. John Seay, Henry Shaw Jr., Mr. and Mrs. James Sparks, and Mr. and Mrs. George Staley.

Also, Mr. and Mrs. Deane Stoltz, Mr. and Mrs. James Stone, Texas Plastic Industries, Mr. and Mrs. Charles Tierce, Mr. and Mrs. Ailen Trobaugh, Mr. and Mrs. Ralph Way, Mr. and Mrs. John Wetzel, Mr. and Mrs. Charles Wiesepape, Jack Wilkinson Jr., Mr. and Mrs. Clayton W. Williams Jr., and Dr. and Mrs. Charles Younger.

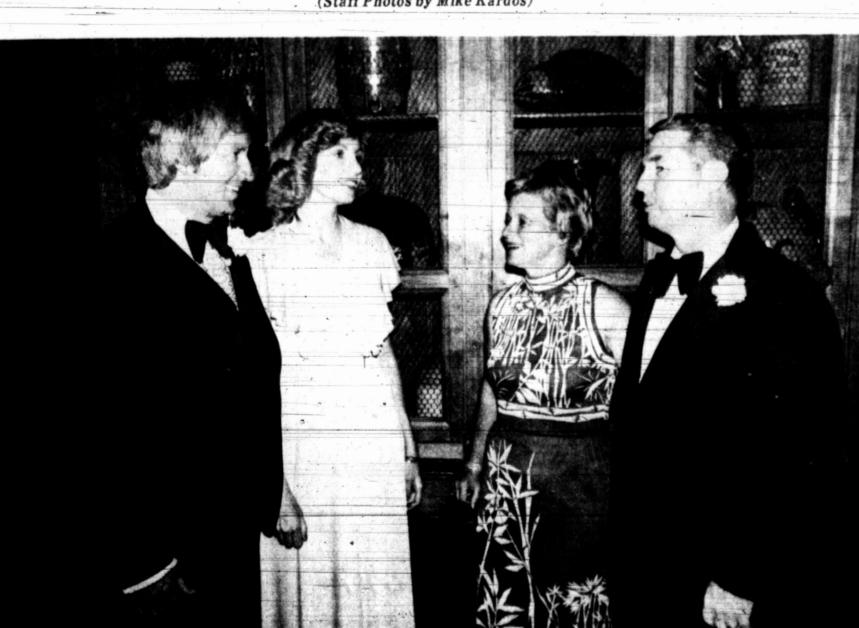

Mr. and Mrs. B. Bernard Lankford Jr. were the highest bidders at \$5,000 for the Waterford crystal

chandelier auctioned at the benefit Crystal Ball.

New York fall fashion confident, shapely

By BETTY OMMERMAN Newsday

-NEW YORK — Wearable. Comfortable. American exaggerated European styles.

body and are expertly tailored with attentioils as suit or short-pant suit. pleated or padded shoulders, fitted waistlines, embroidery, beading an other decorative trim.

What they're not is boring. Instead, they're a perfect mix of the classic and sophisticated, casual and glittering bodysuits with swirling skirts by Halston, Willi Smith's jumpsuits with removable cheerleader skirts and Adele Simpson's sophisticated gowns with coq feather bodices.

Sweater-dressing was one of the American traditions touted by many designers. Ralph Lauren, who gave us the prairie and cowboy looks for spring, discarded them in favor of an updated version of the all-American college girl of the '40s. The familiar short-sleeved pullover and long-sleeved cardigan sets were updated to include tucking and lightly padcrocheted or lace collars.

Naturally, all this attention to detail is expensive. But if you want to be in a sweater mood at a more budget-conscious price, there was a wide choice of horizontally striped sweater dresses by Betsey Johnson, as well as Charles Suppon's knit skirts and tops. Suppon also had some of the best-looking narrow knee length pants around

After several seasons of mostly being refegated to the back of the closet, pants are making a strong

In general, they're cut slightly fuller than those of ast year, with Geoffrey Beene favoring striped pants to match a striped blouse. Perry Ellis, believing American women just aren't built the way European women are (remember the similar fuss about American men not being able to fit into the narrow.European suits a few years ago?), had some of the wider-looking styles around.

You will even have your choice of baggy pants. One of the most interesting looks was Ralph Lauren's evening pantsuit. A tuxedo pant, it was

HOUSE OF ARTS & CRAFTS

As for fabrics, they're expensive, but long-lasting. Fine wools, fluffy mohairs, plush velvets, silks and chiffons were the designers' top choices, with polyester blends a rarity. Violet in all its shades was the favored color, although the earth tones as well as some black were also in evidence.

TOM GREEN WELL

The Susan Peak, North (Canyon sand) field of Tom Green County has gained its sixth well.

It is SUNEX Energhy Corp. of San Angelo No. 1-B Herbert Untermeyer. Operator reported a daily flowing potential of 210.72 barrels of 44-gravity oil, no water, through a 17/64-inch choke and perforations from 4,185 to

Gas-oil ratio is 575-1. The pay was treated with 600 gallons. Tubing pressure was 425

4,187 feet and from 4,207 to 4,210 feet.

The well is one location east of other production and 1,980 feet from south and 990 feet from east lines of section 137, block 11, SPRR survey and four miles southeast of Wall.

MEADCO WELLS

and 2,310 feet frm east lines of section Meadco Properties of Midland has reported potential tests on a pair of wells in Irion County Gulf Oil Corp. No. 2 Marquadt-Fed-

The firm's No. 1-3086 Burney was completed for a calculated absolute open flow potential of 1,110,000 cubic feet of gas per day, through perforations from 7,312 to 7,340 feet.

The gas-liquid ratio is 32,447-1 and gravity of the condensate is 68.8 degrees. The pay zone was acidized with 2,000 gallons

The new gasser is 1/2 mile mile northeast of the same operator's No. 1-3085 Sugg, a recently completed one and seven-eighths mile southeast extension to the Ela Sugg (Wolfcamp

gas) pool. The wellsite is 990 feet from the most westerly north line and 990 feet frm the most westerly west line of section 3086, block 28, H&TC survey and 18 miles northwest of Mertzon.

The Wolfcamp was topped at 5,485 feet on ground elevation of 2,264 feet. Other tops include the Seven Rivers at 540 feet, the Grayburg at 996 feet, the San Angelo at 1,860 feet, the Dean at 5,332 feet and the Canyon at 6,980

Scheduled as a wildcat, it drilled to 7,481 feet and set 4.5-inch pipe at 7,497

Meadco No. 1-380 Busby, one location southwest of the No. 1-3085 Sugg. was finaled for a calculated absolute open flow potential of 1,288,000 cubic feet of gas per day, through perforations from 7,361 to 7,471 feet after 2,000 gallons of acid. The gas-liquid ratio is 32,447-1, and gravity of the

condensate is 68.8 degrees. Staked as a wildcat, it drilled to 7,601 feet and set 4.5-inch pipe on

Wellsite is 830 feet from north and 2.136 feet from east lines of section 3080, block 28, H&TC survey

The operator reprted the following tops on ground elevation of 2,333 feet: Seven Rivers, 665 feet, Grayburg, 1,-115 feet; San Angelo, 1.990 feet; Cisco.

6850 feet and Canyon, 7,090 feet. The Ela Sugg field also produces gas from the Wolfcamp zone.

Congress blamed

FRIDAY, MAY 11, 1979

HEMPSTEAD, N.Y. (AP) -Former Texas Gov. John Connally said Thursday that he blames Congress and not President Carter for what he called "a very real energy crisis" in the United States.

Connally, one of six announced contenders for the Republican presidential nomina; tion, made his comments at a breakfast sponsored by the Nassau County Republican Committee at the Hempstead Golf and Country Club.

Connally said, "The fault lies in Congress, which has done nothing since 1973 and Congress just won't live up to its responsi-

He said, "We don't have to live in bondage to the OPEC nations because of our dependence on them for oil. We've got to develop our own resources domesti-

Connally, who also served as Treasury during the Nixon administration, said that in order to cure inflation, "We must do something to increase produc-

He said "Business is under attack in this country. We have built up an attitude in this country and a tax system in this country that favors the consumers of America, not the producers. We must do more for the

Connally, 61, was a Democrat before switching to the GOP during the Nixon administration. He served as secretary of the Navy during the Kennedy administration.

Wildcat sites announced

Wildcat operations have been announced in three West Texas coun-

Windfohr Oil Co. of Fort Worth will drill its No. 1 H. Stoecker as a 4,600foot explorer in Runnels County, two miles northeast of Winters.

Schlesinger to bird dog nation's gas refiners

By JIM LUTHER

WASHINGTON (AP) - Energy Secretary James R. Schlesinger says he plans to watch the oil industry closely in the next few weeks to see that gasoline production is not held

Governors dusting off old plans

By CHARLOTTE PORTER **Associated Press Writer**

Governors dusted off plans drawn up during the 1973 Arab oil embargo as the U.S. House of Representatives rejected President Carter's proposal for standby gas rationing authority. Around the nation, officials kept a

cautious eye on California should their states become the next to feel a gasoline pinch. 'We have to be careful and all conservation measures should be ac-

tively pursued," Washington Gov.

Dixy Lee Ray said Thursday. Gov. Hugh Gallen said New Hampshire is reviewing a gas rationing system it readied in 1973 but never used. In the meantime, a 26 percent cost increase threatened to drain the State Police gasoline account before the end of the fiscal year.

Mrs. Ray said no acute gas shortages were expected in Washington, but if shortages became serious enough, "then it is possible for the government to make an emergency declaration and reassign gasoline to areas that may be in acute shortage situations.

More than 63 percent of the stations in metropolitan Southern California were expected to close Saturday, according to the Southern California Auto Club, which predicted closings would reach 92 percent Sunday. Officials made it clear that beginning Monday they would enforce the 12county gas purchasing program, ticketing motorists who don't abide by the

San Francisco Supervisors unanimously approved the odd-even gasoline sales plan Thursday that had one into effect in many other areas Wednesday

Several Los Angeles residents whose license plates bore the even numbers that gave them a date at the gas pumps Thursday awoke to find their tags missing.

And when one radio reporter pulled off the side of a road to call in his report, a line formed behind him though there was no gas station in

Panic-buying could tip the scales toward gas rationing in North Carolina, Gov. Jim Hunt said Thursday. Hunt said a plan based on license

tag númbers, similar to the one in California, was ready to be implemented "at a moment's notice" if long lines appear at service stations this summer. But he said restrictions could be avoided if motorists stay

"It's really going to depend a lot on how people act, if they panic," said

Residents of Illinois will have less gasoline, diesel fuel and heating oil than usual during the next few months, said Gov. James Thompson, who asked residents to "respond, but not overreact." If voluntary conservation efforts fail, mandatory mea-

sures might be necessary, he said. Arkansas Gov. Bill Clinton urged motorists to cut their consumption by 2 gallons a week and ordered state agencies under his jurisidiction to reduce gasoline consumption by 15 percent toward a goal of 5 percent statewide

Indiana gas dealers were to meet with Gov. Otis Bowen today to discuss the state's plan to impose minimum gas purchase requirements - thus preventing motorists from topping off their tanks with small amounts of gasoline - if long lines develop at the

"If people here continue to display common sense, we won't need it,' said gubernatorial aide William

Maine Gov. Joseph Brennan called for "aggressive voluntary conservation measures. Massachusetts officials were con-

sidering an allocation system for holiday weekends. A final decision will depend on the gas supply as Memorial Tennessee Energy Director Ed

what would be required. "Until we know how much we have to conserve and what we are supposed to do, we can't do much," he said. In Michigan, a special task force worked on energy plans that could include strict enforcement of the 55

Spitzer said there was confusion over

mph speed limit. Oregon Gov. Vie-Atiyeh, who said he had no plans to implement a contingency plan announced in February, said drivers had heeded pleas to conserve fuel. Texas Gov. Bill Clements said his

staff was working on a plan to get fuel to shortage areas, but said it would not include rationing. "That's Mr. Carter's problem, and and I'm glad to leave it in his hands," said Clem-

back in anticipation of higher prices. But for the moment, Schlesinger told the House Ways and Means Committee Thursday, it is principally a shortage of crude oil - not any oil-industry conspiracy - that has held U.S. refineries to 85 percent of capac-

In an effort to reduce U.S. consumption of foreign oil, President Carter will begin phasing out federal oil-price controls June 1.

Schlesinger went before the committee seeking support for Carter's proposed new tax to take away some of the windfall revenue that will flow to the oil companies after decontrol.

The committee planned to hear today from Charles L. Schultze, Carter's chief economic adviser, on the economic effects of decontrol.

Rep. Ed Jenkins, D-Ga., told Schlesinger many Americans strongly suspect the current scattered shortage of gasoline is a deliberate effort by the oil companies to hold down production until decontrol begins and the maximum allowable price of oil is raised. "We have no such evidence,"

Schlesinger replied. He added that as oil imports from Iran continue to climb toward normal levels, refinery output should increase. The Energy Department bill monitor the refineries and "if they are too conservative, we will take

action," he promised. The Carter administration contends controls have held the price of U.S.produced oil artificially low in comparison with oil from the rest of the

world and has contributed to a 30 percent decline in the value of the dollar abroad. Schlesinger estimated that removal

of controls will raise the price of gasoline five-to-seven cents a gallon by 1981 and will cause an overall increase in inflation of about 0.3 per-

PAGE 1C

But the alternative would be worse. he told the committee. The decline of the dollar over the last few years "has cost the average American family many times over the modest cost of phased decontrol," Schlesinger said.

Carter's plan has come under attack from friends of the industry, who say oil companies should be allowed to use the windfall revenues however they want, and from liberals, who want to continue controls indefinitely in an effort to hold down prices.

The Treasury Department estimates removal of price controls will increase oil-company revenues in 1979 through 1981 by a total of \$15.4 billion. After existing state and local taxes, federal income taxes and payments to owner of oil lands are subtracted, the oil companies would be left with \$8 billion. Carter's proposed tax would take \$2 billion of that \$8 billion and use the money to help the poor pay oheir fuel bills, to aid mass transit and to finance development of new energy

Meanwhile, White House press secretary Jody Powell indicated Thursday Carter would be reluctant to sign any legislation reimposing oil price

Defunct firm admits sale

LOVING COUNTY

MARTIN COUNTY

BALTIMORE (AP) - The owner of a now-defunct fuel oil delivery company has admitted he sold 500,000 gallons of heating oil to private customers instead of delivering it to city schools and government office build-

Bernard L. Paul, 42, the owner of Paul's Discount Fuel Oil Co., entered a guilty plea to mail fraud charges Tuesday before U.S. District Judge Alexander Harvey I'. He faces a maximum five-year prison sentence and a \$1,000 fine

Paul's wife, Eileen, also has been indicted, but she has not been arrest-The plea involves a \$4,117 check his company received for delivery of 46,-

Trout said the city never received all

of the oil because Paul sold 7,200

Stock market loses

NEW YORK (AP) - Renewed concern about gasoline shortages combined with continued apprehension about Federal Reserve monetary policy to send the stock market sharply downward Thursday. The Dow Jones industrial average closed at its lowest level in more than two months.

The specter of a serious tightness of gasoline supplies later this year was heightened by the news that Saudi Arabia was cutting its crude oil sales by 14 percent to the American consortium that is its biggest customer. In Washington, Energy Sec retary James Schlesinger said he was pessimistic about the crude oil supply outlook.

The Dow Jones industrial average ended at 828.92, a drop of 9.70, its lowest close since March 2, when it finished at 815.75

Declining issue led gainers Exchange as more than 1.000 stocks lost ground

The NYSE's composite common stocks slid .51 to

Volume on the Big Board was a fairly light 25.23 million shares, compared with

27.67 million on Wednesday. Among the casino stocks, Caesars World fell 91/4 to 551/4. Bally dropped 67/8 to 62% and Playboy was down 11/4 to 19 % as of the 4 p.m. close of the NYSE. On the American Stock Exchange, Resorts International class A fell 31/8 to 37 1/8 and Golden Nugget was down 11/4 to

Crown Zellerbach notched a 416-point increase to 4116 on the strength of merger rumors, and interest in the stock put it at the top of the NYSE's most-active list.

On the Amex, the market value index fell 1.32 to 175.69 The NASDAQ-composite index of over-the-counter issues fell .63 to 129.71.

Livestock

BUSINESS MIRROR How to make that million through housing

By JOHN CUNNIFF

NEW YORK (AP) — Housing is an investment you can live in, that requires little money down, that appreciates faster than the inflation rate, that provides tax deductions and, in a way, a savings account.

You have heard it over and over, and you listen again. Authors and lecturers, such as William Nickerson, Albert Lowry and Mark Haroldsen, grow rich on the word. Your neighbor too might have a story to

Their activity is helping to produce a new class of entrepreneurial real estate operator, the middle-income, actively employed individual who makes a second income from owning and operating rental properties. Nickerson, Lowry and Haroldsen all claim to have

made millions in real estate, altough it is difficult to differentiate between income from books, articles and lectures and purely real estate activities.

WHATEVER, THEIR PERSONAL experiences lend credibility. They inspire audiences with the message "you too can do it." They remind their listeners that they too once struggled to make ends meet.

The three, operating independently, are one aspect of a housing phenomenon in which more than 5 5-2 on the New York Stock million units, new and used, changed owners in 1978, a year in which prices rose more than 10 percent.

All preach the beauty of buying undervalued properties, improving them, and perhaps raising rents. index of its more than 1,500 They praise inflation to the extent housing prices

exceed general price rises. They extol tax benefits. The story varies in the telling, but the message generally is the same. An example might go like

You spot a two-unit income property selling for \$38,000. You are attracted by the basic soundness of the house. Just a little paint and minor landscaping, you observe, would greatly improve it's appear-

You use the cosmetically poor appearance as an excuse for offering only \$28,000. You bargain, and settle for \$32,000. Already you are ahead; you'll only have to spend \$3,000 to improve the appearance.

THE BANK OFFERS an 80 percent mortgage, which means you put down 20 percent, or \$7,000, on the \$35,000 combined purchase and improvement price. (Sometimes the seller is even asked for a second mortgage). The existing rents are \$250 for each apartment,

which adds up to \$6,000 a year, or about one-sixth the purchase price. More commonly stated, the purchase price is six times the rentroll You improve the property; you will not settle for six times. You raise the rents to \$275 each, or \$550 a

month or \$6,600 a year. Now the multiple is down close to five. No question: You will cover your Just as importantly, you will have raised the market price. Houses in the area sell for about seven

times the rentroll. That would mean your house's. resale value is now \$46,200. Agreed, you'd have to bargain hard to get it, but negotiating is one of the arts vou're developing. Forget the rent multiple for a moment. There are

other ways to figure your growing estate. Consider that inflation might be adding 10 percent a year (it was 12.1 for existing homes in 1978) to market

REALIZING THAT consumer price inflation last ear was 9 percent, you might scoff at seeing the value of your house rise by only 1 percent more. Yes, but that 10 percent is on the total price of \$35,000.

A 10 percent gain on \$35,000 means \$3,500 in current dollars is added to your estate. But since you put up only \$7,000, your yield is figured on that basis. Before interest payments, it comes to 50 percent.

Since you're borrowing at 10.5 percent, you have some hefty interest payments to make, which effectively cut into your yield. But remember: Uncle Sam finances debt; it's tax deductible. And so is depreciation. Add the cash flow (excess of rental income over

operating costs) and the appreciation, and the equity buildup, and the tax deductions, and you have a return many times what you could get from a savings account. Can it be done? It is being done. Can you do it?

That's a different question. Timing and luck play roles. Judgment too. Handiness, free time, common sense, and credit-worthiness are involved. And

THAT "MORE" IS probably indefinable. The fact s that many people cannot do it, for any of a thousand reasons: they are not willing to take the risks or spend the time, or they just haven't the

Colorado land buyers may receives refunds

DENVER (AP) - Some 7,600 purchasers of Colo rado land may receive as much as \$14 million in refunds and canceled debts because of alleged misrepresentation and fraud, the Federal Trade Commission says. In what the FTC said Wednesday could be the

largest such settlement in its history, 12 companies have agreed to offer a refund to buyers who purchased essentially worthless land in the Park County and San Luis Valley areas of Colorado between 1971 and 1974. The land was sold, using what the FTC called

'allegedly deceptive claims," to residents of Chicago, Colorado and Texas and other areas. The FTC said the subdivision sites-totaling 75,000 acres - have "virtually no use at present or in

the foreseeable future." Most of the buyers were servicemen, blue collar and white collar workers and people planning their

retirements, the FTC said. The settlement was reached with Bankers Life and Casualty Co. of Chicago and other smaller companies a week before a scheduled trial on the matter. Under terms of the agreement, buyers will be eligi-

ble for a refund of 70 percent of the amount they paid, plus cancellation of remaining payments on their contracts. The decision to accept or reject the refund is up to the individual buyers, said FTC attorney Gerald H. Jaggers. If all 7,600 eligible buyers took advantage of the chance to get their money back and their debts wiped out, refunds would total about \$8 million and canceled contracts would amount to about \$6

million, he said.

French Democracy. Spain's Socialists and Communists scored major victories on April 3 in their country's first municipal elections in 48 years, winning control of the biggest cities. But Prime Minister Adolfo Suarez's party, the Union of the Democratic Center, won the biggest nationwide total of city council seats.

Leftists combined to elect Socialist mayors in the eight biggest cities, including Madrid, Barcelona and Valencia, and also in 26 of the country's 52 provincial capitals.

The leftist successes were the first since the death of dictator Francisco Franco 31/2 years ago and came a month after Suarez defeated a Socialist bid for power in national elections.

Suarez's party won a total of 29,614 city council seats, the Socialists 12,220, the Communists 3,608, the Basques 1,329 and independents, including many

Hunters

WASHINGTON (AP) - Hunting for sport has emerged as a major issue in debate on Alaska land-preservation legislation, with the National Rifle Association and other pro-hunting groups joining oil producers and other businessmen fighting an administrationbacked bill.

The NRA and other groups such as the National Outdoor Coalition and Safari Club International have lined up against the bill managed by Rep. Morris Udall, D-Ariz., and backed by national conservation organizations and the Carter administration.

The pro-hunting groups have joined oil, mining and timber companies and Alaska Gov. Jay Hammond in supporting Alaska lands legislation managed by Rep. John Breaux, D-La., and John Dingell, D-

more than 100 million Alaska to the national park and wildlife refuge systems. Alaska's area is about 375 million acres, double the size of Texas.

The Breaux-Dingell version is favored by the hunting groups because it would put more land than Udali's bill under the wildlife refuge system, making it eligible to be opened for hunting at the discretion of refuge

Breaux-Dingell would put 20 million acres off limits to sports hunting Is Europe turning left or right?
