Subsidized housing not available here to all who need it

EDITOR'S NOTE: Obtaining housing in Midland, whether by buying a home or renting an apartment, is becoming an increasingly complex problem, and one not easily solved. This is the fifth in a seven part series examining the issue.

By LANA CUNNINGHAM Staff Writer .

Fred O. Worthey Jr.'s house could never qualify for any kind of assistance

Not Christmas in April, not the local Commission on Housing, not even anything from Casa de Amigos. So, Worthey said he's planning to move sometime this summer, possi-

bly to Waco or Tyler. Worthey, a 71-year-old Army veteran, might be a typical candidate for

a subsidized housing project. He has been in almost every nursing home in Midland "and didn't like

any of them. I've been in so many veterans hospitals and I've had my fill of them."

DURING WORLD War II, Worthey was a paratrooper with the Army. He had planned to make a career of the military, but ill health forced him out.

Reclining on a twin bed in a back room of his house, Worthey said he moved to Midland in 1950 and ran a drilli ng rig for nine or 10

Home

Home

years before his health forced him to quit that. He paid \$80 for the lot and "built this s hack with these two hands," he said, holding out a gnarled right hand. His four children were raised in that house. Today, light Sweet sockets dangle loosely from the ceiling, wood and cardboard substitute for glass panes, and spaces in the wooden slatted walls let in sunlight, wind, hea't and cold.

Worthey is paralyzed on one side from a stroke. Until six years ago, his wife took care of him, but she died. Now, other members of the family keep a check, he said. Reaching up to a shelf above his heard, Worthey picked up part five

a medicine bottle and said, "Now all I do is lay around here of a series and eat and take these pills.

THE ONLY TYPE of rental assistance in Midland is at Hillcrest Manor, and that is limited to the elderly and han licapped persons.

The project is a four-story apartment complex with several one-level separate cottages. It opened in August 1977 and has been filled to capacity with a long waiting list kept.

Getting this housing for Midland caused some problems, according to Fred Kester, secretary for the city of Midla ind Housing Authority which operates the complex

In July 1974, five persons were appointed to the board of commissioners of the Housing Authority to undertake d evelopment of a low-rent housing project for low income elderly or handicapp ed persons, Kester recalled. After several months of studying, the board selected a site out of five

submitted. This one was at the southeast corner of Big Spring Street and Scharbauer Drive.

But the Department of Housing and Urban Devlopment, which was financing the project, rejected the site selection, saying it was in an area of minority

Gasoline squeeze expected to spread across the country

WASHINGTON (AP) - President Carter may have soothing words for Californians lining up for gasoline, but his energy secretary predicts that a gasoline squeeze is coming across the nation

California drivers continued to wait in long lines at service stations that still had gas for sale. In one Los Angeles suburb, a man was arrested for trying to burn cars parked overnight at a gas station.

New Jersey officials said they were prepared to implement an odd-even rationing plan similar to California's. But if that proved ineffective, they said, motorists could be required to buy a minimum amount regardless of the cost.

And in London, owners of the Queen Elizabeth II said the ocean liner's yearly fuel bill has risen from \$2 million to \$16 million since 1973. As a result, the ship - the last of Britain's luxury fleet - may not operate after next year.

The president and his aides predicted that actions already taken and presidential recommendations unveiled Wednesday will push California over the hump of its current gasoline shortage. In the House, an energy and power subcommittee scheduled hearings today on California's situation and on energy pricing.

But, said Energy Secretary James R. Schlesinger, "there will have to be a squeeze" this summer as more automobiles take to the highways while gasoline supplies remain at 1978 evels

Although Schlesinger said "it would be safe to say we hope the worst is over" in terms of a national gasoline crunch, he predicted at the White House that the next few months would see a shortage of 4 percent to 5 per-cent below projected demand.

Currently, according to a survey by the American Automobile Association, gas is generally available in weekend. The hardest hit areas, besides California, appeared to include Illinois; the area around Seattle, Wash.; parts of Missouri and Kansas and some spots along the East Coast.

THURSDAY, MAY 17, 1979

44 PAGES, 4 SECTIONS

Meanwhile, the American Petroleum Institute, an industry trade organization, reported that U.S. demand for refined oil products in April totaled 17.6 million barrels daily, the lowest level since May 1977. Demand for gasoline was the same as in February and only slightly above the level of April 1978, the institute said.

Schlesinger, Carter, and a key presidential aide spoke at the end of a day that began with a politically-tinged meeting with Gov. Edmund G. Brown Jr. of California, who flew to Wash-ington to plead his state's case before Carter.

While he was away, Republican Lt. Gov. Mike Curb signed an executive order relaxing restrictions on the lead content of gasoline, saying the order would make it easier for refineries to make leaded gasoline and increase production. However, Brown, a Democrat, said he would rescind Curb's order and called the action "political hijinks."

Meanwhile, the chairman of Gulf Oil Corp. told Congress today that the oil industry is making less profit than most other American firms

"In Gulf's case ... profits, as adjusted for inflation, have actually decreased for the last six years." Jerry McAfee testified to the House Ways and Means Committee.

McAfee went before the committee to endorse President Carter's plan to remove price controls from domestic oil beginning June 1 and to oppose Carter's proposed tax that would take away some of the revenues flowing to the oil industry as a result of decontrol

He called the tax counterproductive

concentration - a violation of HUD's guidelines.

Kester said the city is divided into census tracts, and this corner is the top edge of a tract that extends south and east.

HUD AGREED TO accept a site d irectly across Big Spring Street from the board's preferred site. But the board fought for what it selected. Just when HUD was beginning to change its mind to move a few feet eastward, the developer lost the option to purchase that land, he said.

The board readvertised for sites, wording it in such a way the developer knew to keep it west of Big Spring S treet, according to Kester.

A site at Scharbauer and Pecos sti eets won approval because of its location and proximity to shopping areas.

Then began an argument betwe en HUD officials and the builder over contract prices.

'The builder and architect had to convince HUD it could not be built for HUD's prices," Kester said.

Final price for the 100-unit Hillcresst Manor was \$1,831,044. It was financed by selling bonds to the public under a since-discontinued HUD program.

The four-story building has 64 unit s, including 22 one-bedroom spaces and 42 efficiencies.

Its 32 cottages include four two-be droom, 16 efficiencies and 16 one-bedroom units.

To qualify for Hillcrest Manor, a person must be at least 62 years old, and-or handicapped and have a low incom e.

Social Security determines if a person is physically or mentally handicapped and not capable of earning a livin g, according to Kester. "They can not be gainfully employed to the point the y support themselves."

THE HOUSING AUTHORITY toard decided on the maximum level of income allowed, which Kester said ' 'is higher than any other housing authority I've heard of

The limits are: one person, \$7,200; two persons, \$8,200; three persons, \$9,250, and four persons, \$10,250.

These figures were suggested by HUD, based on Midland-area incomes, Kester said.

Rent at Hillcrest is based on the individual's income.

"They pay 22.5 percent of their in come to live here," Kester said. Average on all 100 apartments is \$46 a month.

Residents still must pay their electricity and telephone bills. But an allowance is made for the electric bill and deducted from the rent.

So, someone paying \$46 a month trent could get an allowance of \$20 if living in an efficiency, to allow enough momey left to pay electricity, Kester figured. "Most of the people here get arc and \$190 to slightly more than \$200 a month

to live on," he said. While designed for low income people, it is not always those with the lowest incomes who make it into the complex, which has a waiting list of about 160

names.

HUD instructs the managers to, "keep this place operating in the black, and to do that we must improve revenues," Kester said. "So, we select applicants from the list whose incomes are such that they would pay more than the average amount of rent."

HUD's wording on that regulation states, "All social levels of income

people," Kester said. "This means we do not have to take the person at the top of the list. Possibly it is the one who can pay the most," he added.

"We're obligated to keep this place running with rental revenues to pay the operating expenses. We don't take in enough now to make the interest payments on the bonds. HUD p ays for that."

Length of the vaiting list would seem to show a need for more such housing. But HUD now says only 20 perc ent of the housing it subsidizes will be reserved for elderly and handicapped persons. Because of this, the Midland City Council has rejected plans for more HUD housing, Kester said.

THAT REJECTION represents only one more clash in the continuing battle between the City Council and HUD.

Before the Hillcrest Manor idea was conceived, Kester said, Midland was scheduled for 300 units of housing to be rehabilitated for low income people.

What upset the council is HU D wanted the houses to be scattered all over the city. The council contended the project should be carried out east of Big Spring Street, "where the need reall; y was," he said.

As a compromise, HUD allowed some of the money from that project to be used for constructing Hillcres at Manor.

In late 1977, a Midland Com mission for Local Community Development was set up by Mayor Ernest An gelo Jr. as an alternative to HUD's funds for rehabilitating houses since the city no longer was receiving that money.

THE GROUP OF Midlande rs raised about \$100,000 - \$67,000 short of its goal. That money was used to reh abilitate 36 homes. Using the same guidelines as the HUD program, qualifying homes had to be

Showing off several entries in the Midland Chamber of Commerce slogan contest is Harry Clark, chairman of the Public Relations Committee, which initiated the idea. The businessmen's group is seeking more entries capsuling the chamber's relation to the public. Entries must be in the chamber office, 211 N. Colorado St., by 5 p.m. May 25. The winner will receive \$250. (Staff Photo)

most parts of the country. But the survey also showed that prices are skyrocketing. An oil industry publication reported the national average for regular gasoline was 79.1 cents a gallon as of May 4, while the unleaded average was 83.6 cents and the average price of premium was 85.8 cents a gailon.

A spot check by The Associated Press showed that most motorists should be able to find enough gas to travel during the Memorial Day

How to use federal money?

By LANA CUNNINGHAM **Staff Writer**

Ideas ranging from lights in a park to additional water and sewer lines were suggested as-uses for about \$612,000 in revenue sharing funds during a public hearing Wednesday in the City Hall Council Chambers.

About a dozen people showed up to voice their suggestions, with City Manager James Brown conducting

the hearing. Harry Clark, chairman of the city

of Midland Housing Authority, asked about using the funds for housing rehabilitation. But Brown said the money had to be used for projects the city normally would pay for out of general funds.

Since the city is not involved in housing projects, the rehabilitation probably could not be included. Patsy Painter, president of the Women's Softball Association, sug-gested two lighted women's softball fields be constructed in Ulmer Park. She later conceded the group would take two unlighted fields.

Dorothy Crawford pleaded her case for additional water and sewer lines along Garden City Highway, saying there isn't enough water pressure now and more businesses are going in along that road.

"If we had a fire we would be at our

own mercy because we don't have an adequate water supply," she said. Ada Spivey suggested lights be in-

stalled along North A Street at Wadley-Barron Park so families could use the park longer in the evenings. She added that the concrete islands in Cuthbert should be trimmed for better traffic flow.

Pat Conway, after suggesting the

MidTran closer to putting vehicles on street

By LANA CUNNINGHAM Staff Writer

Bids on vehicles and radios were opened and reviewed Wednesday when the Advisory Board of MidTran met, according to John Ingram, president of the non-profit corporation's board of directors

Ingram also noted MidTran now is in a transition phase with the corporation now looking at actually putting the vehicles on the road.

John Schafer, transportation coordinator, had to resign his position recently because of personal reasons, and MidTran will be looking for a replacement.

The seven bids for radios, which

Val Verde Chief Deputy Sheriff Joe Roman of Del Rio.

"He got into shallow water and he called for help," Roman said. "He had swam across the river a couple of times," he said.

A man swam toward Tisdale, who went under before he got there, Roman said.

National Park Service Chief Ranger Eldon Kohlman of Comstock said the drowning apparently was at the site where four Midlanders died on an holiday outing two years ago.

"It's a popular place where people can get to the river," Kolhman said. The water at Baker's Crossing is about eight to to 10 feet deep in places and occasionally has swift currents.

Constructed by Fred O. Worthey Jr. during ing through cracks in the wall boards, light between the boarding on the floor. (Staff the early 1950s, his home has sunlight filter- sockets dangling from the ceiling and splits Photo by Mike Kardos)

Long waiting list exists for housing at Hillcrest

(Continued from Page 1A)

owner-occupied and able to be able to comply with the city building code. By early 1979, funds for the program were depleted.

A Realtor who worked closely with the Housing Commission noted it would take at least four to five years, using \$100,000 a year, to rehabilitate all the homes that qualify

Thus, at least \$500,000 more is needed for about another 150 homes This still leaves out people like Worthey, whose home never could be brought up to the city building code, according to people who have checked the dwelling.

Hillcrest Manor has been one solution to housing for a certain number of people, however.

But there still remain people, like Worthey, who need better housing, but can neither find it nor afford it.

NEXT: Midland refuses to accept government-subsidized housing, but two nearby cities are making full use of federal funds for housing programs.

Extended forecasts

Saturday through Monday

West Texas: Seasonal temperatures with a chance of Remoon and nightime thunderstorms most sections sturday through Monday. Highs in the 80s except 90s threme southwest. Lows 50s north and mountains 60s

North Texas: Partly cloudy and warm. Highest tem-tratures in the 80s and lowest in the mid and upper

Oklahoma: Fair to partly cloudy and warm through Friday. Widely scattered showers and thunderstorms west through Friday. Highs mainly 80s. Lows 58 to 64.

Border states forecasts

West Texas: Considerable cloudiness and not as warm through Friday with scattered showers and thunder-storms most sections. Possible locally heavy rain south west. Highs through Friday upper 76s north and moun-tains to mid 80s south. Lows upper 50s north and mountains to mid 80s south.

North Texas: Partly cloudy and warm through Fri day. Widely scattered thunderstorms west portion Fri day. Highs through Friday in 80s. Lows 60 to 65.

South Texas: Partly cloudy and warm through Friday with slight chance of showers and thundershowers main-ly over the northwest portion. High through Friday in the 50s and 50s. Low in the 50s.

Arthur to Brownsville: East to southeast winds 10 mots through Friday. Seas 3 to 3 feet.

new mexico: Considerable cloudiness today through Friday with scattered thundershowers most numerous. Little temperature change. Highs 30s and 60s mountains to the 80s south. Lows upper 20s and 30s mountains to the 54 s lower supervision of the source statement of the source statement.

Slightly cooler temperatures forecast for Basin Friday

Temperatures should be cooling slightly Friday as partly cloudy skies block the sun and bring chances for rain and thunderstorms to the area, according to the weatherman.

The National Weather Service office at Midland Regional Airport is forecasting an overnight low in the low 60s with winds blowing to 10 to 15 mph.

Friday's high is expected by the weathermen to be in the low 80s. Record temperatures for the date are an even 100 degrees set in 1946 and a cool 47 degrees in 1932.

Cloudy skies with scattered sprinkles were reported in area towns early today and temperatures remained constant throughout the Basin.

Showers and thundershowers were

expected in West Texas today, but most of the state was to have pleasant weather

Skies were to be mostly clear over much of Texas and mostly cloudy over West Texas. Highs were to be mostly in the 80s with extremes ranging from the 70s in the Panhandle to the 90s in South Texas.

Some thundershower activity was reported in West Texas during the night, but most of the rainfall was light. Sanderson had the most recorded rainfall during the night, .38 of an inch.

Early morning temperatures ranged from the 50s in Southwest Texas to the 70s over the remainder of the state. Early morning extremes ranged from 54 at Marfa and 55 at El Paso to 72 at Longview.

Hearing results in ideas for using revenue sharing

(Continued from Page 1A)

city refuse any federal funds, later recommended money go to pave roads in the south part of Midland and for more playground equipment.

Other suggestions were for public restrooms and drinking fountains in parks.

Brown said \$125,000 left from last year's funds are allocated for a senior itisens' center at the current Circle Drive fire station building.

The city manager explained that some cities take the revenue sharing funds and include it in the general operating budget for services and sa-

Midland, though, has only used

it for special projects. With the government considering a cutoff of these funds, other municipal governments may be getting into a bind, he added.

The suggestions made by the public will be included in a list drawn up by the city staff, and the City Council will decide where the funds will be used, Brown said.

Staff recommendations include a new city-county health facility, ex-pansion of City Hall, new municipal court building and remodeling of Cen-tral Fire Station for police department offices.

Last year the city had \$1,614,000 to spend, but Brown said it was an accu-mulation of two years of funding plus interest.

legislator favors fiber

DES MOINES, Iowa (AP) -They've already got a state bird, a state flower, a state rock, and they came within a gnat's wing of gettng a state bug. But are the people of Iowa ready for a state fiber?

It's right there in the May 10 edition of the official Journal of the Iowa House of Representatives - page 2,-334, right after four "whereases" and a "be it resolved."

Polvester. The nomination for state fiber was the cheeky offering of State Rep. Doug Ritsema, a Republican legislator driven to official distraction by the love of his colleagues for state symbols. The final straw was a move by the House in the closing days of its session this year to name the ladybug the official state insect. The Senate didn't go along.

If it had, the bug would have been the latest entry on a list that includes state flag, seal, flower (wild rose). bird (eastern goldfinch), tree (oak) and a rock (geode) that geologists say isn't even a rock but a humble mineral formation.

Ritsema, of Orange City, took to the legislative drafting board and waited until the next-to-last day of the 1979

resolution on the glut of symbols. "The 1979 Iowa House of Represen tatives has determined that there are not enough pieces of insignificant

fore decided to add to this list by sect.

The nickname for the only state with official polyester would be the "Hawkeye State." Ritsema's state sport is six-girl basketball; his state food the Iowa pork chop. The state animal would be the cow, the number would be 1846 (year of statehood) and the color brown.

In bureaucratic talk, that's the Commission on W.A.S.T.E.

When beef prices too high, it's time for some gator aid

WASHINGTON (AP) - With beef prices at record levels, grocery shoppers in some parts of the country may see a little relief in the form of alligator meat.

No one is predicting a new breed of alligator ranchers will be contending for water holes with cattle growers. But the idea of a "gatorburger" may tantalize some consumers as traditional ground beef edges above \$2 a pound in some supermarkets.

They may be sitting on a gold mine," said a Commerce Department official Wednesday. "We shouldn't laugh.'

The possibility of alligator meat is being raised in connection with a Fish and Wildlife Service proposal that would make it easier for alligators in parts of Louisiana to be sold for their skins and, for the first time in years, permit their meat to be used as human food.

Harold J. O'Connor of the Fish and Wildlif Service said alligators no longer are a threatened species in nine Louisiana parishes where they have proliferated greatly in recent years.

The tails, he said, are the basic food portion of alligators and are considered "sort of a delicacy" in some parts of the country.

Alligator meat was sold legally until a few years ago when the gov-ernment cracked down on slaughter of the reptiles in an effort to preserve the species, he said.

"It's not a big food item on the

trivia for this great state The Iowa House of Representatives has there-

session to introduce his little-noticed

naming the ladybug as the state in-"Now therefore, be it resolved by the House of Representatives, the Senate concurring, that the following items also be added to this important list: state nickname, state sport, state food, state animal, state color, state

table, obviously, but it is enjoyed by many folks," O'Connor said. Those who have sampled it say alligator meat has a distinctly fishy taste, but with a chewy texture closer to poultry

or beef. Hearings will be held on the proposal May 25 in Morgan City, La., and May 29 in Tallahassee, Fla.

Gene Cope of the National Marine Fisheries Service initially thought he was being put on when a reporter asked about alligator meat regula-

tion "I've never heard of anyone eating them," he said. "Are you thinking of eating one?"

Odessa man again

ODESSA - A 37-year-old Odessan Wednesday was convicted for the third time on a charge of murder and sentenced to 60 years in prison.

Robert Dean McClure was found guilty by a 70th District Court jury in **Ddessa on a charge of fatally shooting** his 17-year-old wife, Illana Marie McClure, June 10, 1974, at an east Odessa motel.

He was sentenced by 70th District Court Judge Gene Ater.

Previously, McClure had been tried twice in 70th District Court and convicted during both trials. However, those convictions later were overturned.

Fred O. Worthey Jr. doesn't like nursing homes or veterans' homes, so he stays at his house, built in the early 1950s and badly in need of repairs. Paralyzed on one side, Worthey is not able to make those repairs. (Staff Photo by Mike Kardos)

Commerce Department sees more problems in housing

WASHINGTON (AP) - Rising mortgage costs and falling construction rates will plague the housing industry for most of the remainder of this year, say housing experts.

The predictions came in the wake of a report by the Commerce Department Wednesday that housing starts declined 2.1 percent in April.

While the drop was small, Michael Sumichrast, an economist for the National Associaton of Home Builders, said steeper declines are ahead because money for home mortgages is growing scarce.

Sumichrast said savings and loan associations, which provide most of the financing for home building and buying, sustained a net loss of deposits of \$1 billion in April as savers looked for more profitable investments elsewhere.

'They're running out of money

standards studied

Civil service

BIG SPRING - Richard Kesselus, technical adviser with the International Brotherhood of Police Officers is "taking the political temperature" of the city concerning civil service standards for local police and firefighters.

Local police and firefighters began a petition drive April 11, seeking enough signatures to call for a citywide referendum on a changeover to civil service.

Kesselus said more than enough signatures had been obtained and the filing for a referendum should be soon

"We want to stress that we are interested in wiping out the possibility of a strike, and civil service will help," he said. "It will give the city a good set of tools to govern regulations. and policies."

The same thing is continuing in May," he said, noting that the gasolirie shortage in California is posing ariother problem. "Housing needs traffic, and traffic is dropping sharp-

Meanwhile, two economists for the United States League of Savings and Loan Associations predicted that horne mortgage loan rates will increatse to 11 percent or even higher by early fall, up from an average of 10.34 percent in April, itself a record high. The 2.1 percent drop in housing starts in April to an annual rate of 1,749,000 followed a 29 percent increase in March. The April total was considered satisfactory, even though it was 20 percent below the pace at the same time last year, when 2 million housing units were built.

"It's not a bad number, but it's one of the last two months of good numbers," said Sumichrast. The Commerce Department said building permits for new housing fell to an a nnual rate of 1,517,000 in April,

down 6 percent from March and down 21 percent from a year earlier.

Soupy Sales

Names in the news

NEW YORK (AP) - The late Martha Mitchell carried on a "cold war" with first lady Pat Nixon while their husbands conducted the business of state, according to a forthcoming book on the outspoken Mrs. Mitchell. In excerpts from a book entitled "Martha" in the June issue of Good Housekeeping magazine, Mrs. Mitchell discussed the encounters that led to friction between the two women. The book was authored by Mrs.

Mitchell's friend, Winzola McLendon. According to the book, the late wife of former U.S. Attorney General

John Mitchell thought Mrs. Nixon was "aloof and cold," and the strain grew greater in 1972 when Mrs. Mitchell moved to New York.

NEW YORK (AP) - Comedian Soupy Sales has demanded \$500,000 in damages from ABC television because the network aired two programs with the word "Soup" in the titles.

The entertainer said Wednesday the public knows him as "Soupy" and "Soup" and that the network was seeking to "mislead and deceive". veiwers into believing he was on the program.

He also said the network plans a television series with the word "Soup" in the title, creating potential competition for his own nationally syndicated "Soupy Sales Show."

KANSAS CITY, Mo. (AP) - The motorcycle trip was 1,700 miles, but to the grandson of a former president it was just a jaunt - despite gawking motorists.

Herbert Hoover III said motorists "hang out of their window to take pictures" when they see him on his motorcycle and his wife, Meredith, in the sidecar.

The Hoovers arrived in Kansas City from their home in San Marino, Calif., to attend the American Red Cross national convention. It was a short trip for the 51-year-old Hoover, an investment broker, compared to a previous 14,000-mile, five-week venture.

NASHVILLE, Tenn. (AP) - Bluegrass singer Lester Flatt left half his estimated \$350,000 estate in trust to his grandniece, a quarter tc a niece and the other quarter to a grandnephew, says his lawyer.

Flatt, who died of heart failure Friday at age 64, left half the estate to Tammy Carolyn Herrin, 14, lawyer Grant Smith said Wednesday. A quarter went to Mrs. Brenda Green and the remaining quarter to Shane Lester Green, 4.

MOSCOW (AP) - Soviet President Leonid Brezhnev greeted Josef Tito with a bear hug as he arrived in Moscow for four days of talks, but it was apparent the Yugoslavian president, 87 this month, was in far better health than his 72-year-old host. Brezhnev's health has noticeably deteriorated in recent months and the

apparent strain with which he walked was magnified in contrast to Tito's

Sen. Patman ends filibuster after 17 hours

"In your heart and mind, you know it's all you can

get this session," responded Sen. Bill Patman. Patman, weary from a day-long filibuster, was on

the verge Wednesday of giving up his filibuster to defeat Meier's proposal that would raise the 10 percent ceiling on home loan interest to as much as 12 percent.

He surprised Meier, who had several bitter exchanges with Patman, by giving 30 minutes' notice that he was halting his filibuster.

"Can we start ringing the bell?" asked Meier, **D-Euless**.

"No," said Patman, who was not quite ready to relinquish control of the situation, "it's too early."

Patman, D-Ganado, sat down in his swivel chair at 6:50 p.m., 17 hours and 20 minutes after he had started talking in the pre-dawn hours. It was the longest filibuster of the session.

The Senate quickly returned the bill to the House, 21-10, for consideration of Senate changes.

At 52, Patman said, "I'm ready to go" on any other unfavorable bill.

Meier, 36 at the time, set a filibuster record of 43 hours in 1977.

Patman's stalling tactics were directed at a proposal that would replace the 10 percent interest cap with a "floating" limit of two percentage points above the average monthly rate for 10-year long term U.S. Treasury bonds, but not more than 12 percent. The bill would self-destruct in September 1981

After Patman quit, it took 18 minutes to round up senators for a vote. Most had deserted the Senate chamber as soon as Patman began talking at 1:30 a.m

"Yours was one of the finest stands I've seen on the Senate floor," Sen. Ron Clower, D-Garland, told Patman. "You weren't trying to set any records, you were trying to draw attention.

AUSTIN, Texas (AP) — "In my heart and mind I know this bill is right," said Sen. Bill Meier. Patman, rocking on his feet to ease the weariness in his legs, had indicated as early as 3:45 p.m. he might quit in a few hours. He had sipped ice water and sucked lemons and ""honey-candy" for nourishment.

His wife, Garrin, a member of the Democratic filibuster.

Just 'common sense'

"Environmental dedication must be tempered with common sense.

This was the profound statement voiced last week by Senate Republican Leader Howard Baker of Tennessee, and somehow the message must be gotten across to environmentalists the nation over. If not, America is in for some severe setbacks in its standard of living in the future.

As it now stands, Senator Baker's message apparently hasn't gotten through to most members of the Senate Environnent and Public Works Committee.

The committee, on Wednesday of last week, refused to permit completion of the Tellico Dam, a project which, as you will recall. threatens the life of an endangered fish species, the tiny snail darter.

It made its decision based on rules and regulations provided in the Endangered Species Act, the law used to block completion of the multi-million-dollar dam in the first place. The vote was 8-3.

The panel's decision went against a move by Senator Baker to grant the dam an exemption under the law, which prohibits work on federal construction projects which threaten the life of an endangered species.

The senator, however, said he would bring the issue up again on the Senate floor. Rep. John Duncan, R-Tenn., has introduced a similar proposal in the House of Representatives.

ridiculous situation, blocking the nation's progress and development in many instances.

JAMES N. ALLISON JR:(1931-1978)

The Senate Environment and Public Works Committee presently is working on legislation to extend the life of the Endangered Species Act. It is our opinion that the life of the act should not be extended. Many other groups and organizations across the land reportedly are of like opinion.

Anyway, taxpayers have spent approximately \$113 million so far on the 90-percent complete Tellico Dam, completion of which has been held up for two years now because of a tiny fish which very few persons had ever heard of until a couple of years ago.

Efforts have been made to establish a snail darter population in a second nearby river, and although biologists are encouraged by the results, the U.S. Fish and Wildlife Service says it will be several more years before it will be known whether the transplant has been successful. Meanwhile, the almost completed multi-million dollar dam must wait and wait and wait.

A Cabinet-level review committee refused in January to exempt the dam from the act which is responsible for holding up its completion. This was when Baker entered the picture.

He disputed that the snail darter is actually endangered, and said, "common sense" says a dam that is 90-percent complete should be finished.

"All I want to do is close the gates on a dam we bought and

WASHINGTON MERRY-GO-ROUND

Mafia takeover in Caribbean (?)

By JACK ANDERSON

remark

WASHINGTON - Such is the fearsome power of organized crime in Latin America that it now appears possible the Mob will eventually take over effective control of some small **Caribbean** countries

This alarming prospect was confided behind closed doors by Viron Vaky, assistant secretary of state for Latin American affairs, who has been following the ominous developments closely.

Some of those who heard his

fields with the active connivance of corrupt Haitian officials.

Mob has made inroads into the government and certain banking establishments. Similar reports have reached us from the British Dependency of the Cayman Islands and from Grenada. though the leftist coup in Grenada last March may have changed the situation there. Mafia influence is traditionally weak in Left-wing regimes.

from Washington, and "lots of calls" from ex-constituents who still think he has clout. "People forget that' I'm a has-been congressman," he told us a

'SUPERVISORY' TAPS: Ma Bell calls it "supervisory observing of business." A less motherly description is "phonetapping. Telephone company service representatives - the people who deal with your complaints about bills or other trouble - have long known that your calls can be monitored by supervisors at any time. Th

ART BUCHWALD A fantasy for our time offered as public service

WASHINGTON - Man and woman cannot live by bread alone. All of us need fantasies to keep us going, particularly when we're trying to fall asleep. Some people have difficulty coming up with a good fantasy, so as a public service I shall provide one which has worked for me for the past two weeks. You are all welcome to steal it.

I am driving along a hghway and I notice that my gas tank is getting close to the "Empty" mark. Up ahead I see a gas station with 16 pumps. It is all lit up in beautiful colors. There is a large sign which says: "Unleaded Gasoline 27 Cents a Gallon - With Free Car Wash.

I pull into the vacant station. A man in a spic and span blue uniform with starched hat rushes out from his office and says, "Welcome, sir. I was afraid I wouldn't have a customer this evening. How may I serve you?"

"I would like a full tank of unleaded gasoline, please.'

'Yes, sir," he salutes me smartly. We have the best that money can buy. Would you like a cup of coffee while I'm filling you up? It's on the house

"That's very kind of you," I say. Black with two lumps of sugar." The attendant gives me a steaming

cup of coffee and puts the nozzle into my tank.

"Would you care to use the restroom? We have shaving equipment, hair lotion, combs and cologne if you'd like to freshen up.

"Thank you very much. I might just do that. "In the meantime," the attendant

says, "I'll check your oil, your battery and fill your tires with the correct pressure of air. Is there anything else you would like me to do?"

"I wouldn't be mad if you checked the oil filter," I say. "I would be delighted, sir."

I go into the washroom and clean up and then return to my car.

The attendant, with a big smile on his face, says, "I took the liberty, sir, of putting your automobile through the car wash so you wouldn't have to wait.

"That's very decent of you," I say. "I also vacuumed the inside of your car and washed your floor mats for you.

"Why thank you, my good man. Here is a dollar bill for your kindness.

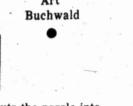

"I'm sorry, sir, but we are not permitted to take tips. We get our satisfaction from making our customers happy. Will this be cash or a charge'

"Cash. But I only have a \$20 bill." "That's no problem, sir. I'll be glad to make change. Since you have purchased 10 gallons of gasoline, you have the choice of a complete set of dishes or a copper frying pan or a newset of golf clubs."

"I think I'll take the golf clubs." "Very good, I'll put them in the trunk. We also have a fire engine for your child, or would you prefer a computerized football game? "The fire engine will do."

"Here it is. And here are your green stamps. You get a bonus of 30 for purchasing unleaded gasoline." "I must say you have a very smooth

operation here.' 'Our job is to sell gas, and if we can

In fact, intelligence sources who were surely available to Vaky have confirmed to us that the Mob has

achieved dangerous penetration of a number of Caribbean nations. In Haiti, for example, organized crime has close ties with the government of dictator Claude "Baby Doc" Duvalier. Our sources say narcotics are smuggled through Haitian air-

In the Bahamas, we were told, the

bit wistfully.

Here's hoping that the Baker-Duncan proposals yet will gain approval in both houses of Congress.

The TVA project on the Little Tennessee River has been approximately 90 percent complete for more than two years now. But work was halted because of court rulings in support of environmentalists' claims that closing the floodgates on the dam would wipe out the critical habitat for the snail darter, a three-inch fish listed on the government's endangered species list.

Good Grief! And so what if the snail darters' habitat is destroyed.

And in this connection, Americans generally would be amazed at the tremendous number of little creatures of one kind or another added to the endangered species list in the last two or three years. It is a

NICK THIMMESCH

paid for," Baker said. He followed this with his

"Environmental dedication must be tempered with common sense" declaration.

And this goes far beyond the Tellico Dam project, reaching into highway building, oil well drilling, pipeline construction, industrial expansion, mining, refinery construction, and whathave-you. It very well could be that the nation would have had enough refinery capacity to prevent a gasoline shortage had it not been for environmental dedication NOT tempered with common sense.

BIBLE VERSE

"Behold, I stand at the door, and knock: if any man hear my voice, and open the door, I will come in to him, and will sup with him, and he with me." - Rev. 3:20.

leaked them to us, feeling that the danger merited public exposure. When reached by our associate Les Whitten, Vaky first huffed that the meeting was off-the-record: then. after much hemming and hawing, he conceded that he had mentioned the Mafla in connection with "a number of little countries" in the Caribbean. But he tried to play down his remarks as mere "speculation."

Indeed, inspection of the participants' detailed notes shows that Vaky seemed more worried about leftist subversion in the area than about the Mob. Whatever the exact order of Vaky's priorities, the briefing could signal a significant change of direction for the Carter administration's Latin American policy. Vaky is a man who usually chooses his words carefully, and is regarded as an influential administration adviser.

Vaky did not identify the countries he had in mind. When asked about the possibility of a Mafia takeover, he said that his briefing remarks were intended to mean only that "something like that conceivably could happen

Jamaica, the Netherlands Antilles and the Dutch-French island of St. Maarten-St. Martin are also mentioned as Mafia targets.

As part of his remarks on leftist subversion, Vaky criticized Costa Rica, Panama and Venezuela for their opposition to right-wing Nicaraguan President Anastasio Somoza. Vaky also used the words "radical," "subversive" and "leftist" more or less interchangeably in his secret briefing.

ALBEBT'S LAMENT: What do former House Speakers do in retirement? Well, Carl Albert, the 'little giant' from McAlester, Okla. teaches university classes. collaborates on books, and answers inquiries from people who still think he's their representative in Congress. He gets about half a dozen calls a day

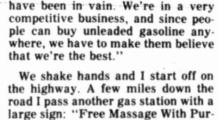

customer, of course, isn't aware of it. induce you to come back, then we feel Phone company officials insist the all the trouble we've gone to will not tapping is done to make sure customers get proper service. They also insist that there's no way anyone outside the phone company could listen in.

DECEPTIVE ADS? A strange inertia by federal bureaucrats may be indirectly causing thousands of unwanted pregnancies among women who use over-the-counter contraceptives. In the absence of vigorous government supervision of manufacturers' fulsome advertising claims, consumers can't tell whether the ads are exaggerated, misleading or ambiguous - until it's too late. Medical surveys have shown that over-the-counter products may be only 70 percent effective, yet their makers claim 98 or 99 percent effectiveness. A group of law students working under Prof. John Banzhaf at George Washington University is preparing a legal petition to get the Federal Trade Commission to take action against the deceptive advertising.

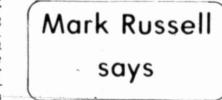

WASHINGTON WHIRL: "The government forgot about gasohol, and so did the experts," President Carter told an Iowa audience recently. "And with little acknowledgement or encouragement from Washington, the idea has been spreading." Following the Iowans' lead with all the grace he could muster, Carter announced federal assistance for construction of 100 farm-based alcohol distilleries. There are already 400 service stations selling gasohol in the state.

musical in-

Sen. Jacob Javits at 75 is as energetic as ever

WASHINGTON - Sen. Jacob Javits is 75 this week. He has served 22 years in the Senate, longer than any New Yorker holding that office. A flock of aspirants for his job wishes he would say whether he'll run in 1980. But Javits loves to heighten the suspense with statements like:

"I will decide by Lincoln's Birthday, 1980. It will be a contemporaneous decision, and I won't even begin to think about it until this fall. The factors will be my health, how I feel, what my state needs, and what the situation is with peace and the condition of our country.

"I'm not leaving aspirants out on a limb. I started my most successful campaign - the time I beat Franklin D. Roosevelt Jr., for New York attorney general - as late as August. Yes, Henry Kissinger tells me he's interested, but he doesn't wish to do anything unless I am out of it."

Javits has always been a bustler. Nowadays he goes around the corner on one wheel at 90 m.p.h., instead of his usual 100. For a Republican his name adorns a remarkable numb. ; of laws, partly because he never stops putting in bills.

No senator works harder or has a better mind than Javits. He struggles to keep P.L.O. spokesmen out of the U.S. He pushes President Carter to decide on the new black Rhodesian government which Javits says is better than anything the Marxist guerril-las could do. He defends Taiwan.

The SALT II treaty wearies younger minds, but Javits only sees it as complicated, but by no means unfa-

miliar ground." He says the Soviets and the U.S. agree on nuclear arms reductions, and the need to trade, but he is wary of what the Soviets are up to in Africa and the Middle East.

"Still, there is a base for peace now in the Middle East," Javits says. "We are finally seeing the light at the end of the tunnel. Only the irrational are determined to destroy Israel."

For 20 years, Senate Republicans considered him a sort of urban outlander too liberal for them. But now they solicit his expertise. Conservative John Tower recommended him to head the G.O.P.'s committee on economic policy. Javits worked his tail off in the job.

"Republicans finally concluded that I can solve a problem, and that it may not be a liberal solution," Javits notes. "On our economy, we must increase productivity, capital investment, and personal savings - all more profound factors than regulatory reform alone."

A freshman Republican like Minnesota's David Durenberger sees Javits in a different perspective from old-time conservatives. "Most of us look to him for advice," he says "because he is the reliable master of the process. We may not agree with him, but we know we will get an honest answer.'

The civil rights and H.E.W. issues which Javits fought for so long are not in vogue now, so Javits can only remark that budget cutters should give equal priority to agriculture and defense. He says he's not comfortable with all budget cutting, particularly when it comes to programs New York City needs.

His instinctive, programmatic liberalism is now out of time and joint. His conservative colleagues respect his persistence, and the way his enormous staff - perhaps the Senate's second largest - keeps grinding it out. It costs the feds about \$1.5 million a year to keep this 72-person staff

going. As a youngster, Javits became a Republican because he couldn't stand New York's Tammany corruption. He can blame much of the Great Depression on Woodrow Wilson's economic policies, and has offered stout defenses of Herbert Hoover's idealism and Richard Nixon's civil rights, record. Javits has always pushed free enterprise, and Wall Street appreciates it as much as Labor is grateful for his social legislation.

So he is a political blend, a compromise, perhaps, which always satisfied the New York electorate. He never neglected those voters, and he still shuttles to New York to nourish the pollucal roots.

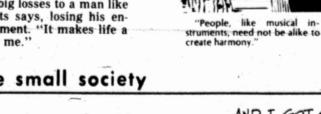

Since Javits has always been so energetic, any sign that he is slowing down would be jumped on by the ambitious. He does not refrain from telling you he still plays tennis and paddle-ball, swims, and never goes a day without exercise.

At 75, he is the fifth oldest in the Senate (Senators Young, Stennis, Randolph and Thurmond being senior), and there is precedent for senators being re-elected at even older

And yet this liberal warrior Javits can muse how many he knew are no

myself," Javits says, losing his en-ergy for a moment. "It makes life a lot lonelier for me."

Cental African Empire denies child murders

PARIS (AP) - Premier Henri Maidou of the Central African Empire has issued a denial of charges that up to 100 children were murdered by soldiers of Emperor Bokassa's Impe-

Israel debt skyrockets

TEL AVIV, Israel (AP) - Israel's foreign debt jumped 20 percent in 1978 to \$16.5 billion, according to figures released by the Central Bureau of Statistics.

The \$2.8 billion increase in 1978 was considerably higher than the \$1.7 billion jump in the previous calendar year, according to the report released esday. Israel's foreign debt was

rial Guard The denial came in a statement over Radio Bangui, delivered to news

organizations in Paris today by the country's national press agency. Maidou said that some 50 students "all aged over 16" had been arrested during demonstrations in Bangui, the

capital, April 18. They were released April 20 on Bokassa's order, Maidou said.

"It should be noted that certain demonstrators - about 140 - went to the Zaire town of Zongo across the Oubangui River opposite Bangui to escape police controls," Maidou said

"Informed by the local Zaire authorities, the Central African govern- early today continued ment invited the children to rejoin looking for a Midland their families, which was done," his with aggravated assault, statement continued "The momentary absence of these children thus may have led to the belief they had disappeared," he said. The French section of Amnesty International said Monday that about 100 children aged 8 to 16 were murdered in the central Bangui jail after the demonstrations. It said they were clubbed to death by Imperial Guards or suffocating in overcrowded cells. Maidou said that Amnesty Interna-

Union organizer dies

NEW YORK (AP) - A. Philip Randolph began by turning a handful of sleeping car porters into the first black union with an international charter from the American Federation of Labor. Later he helped ban segregation in the armed forces, fought it in the labor movement and organized the gigantic 1963 March on Washington for civil rights.

On Wednesday, he died at the age of 90, and both the labor and civil rights movements lost one of their oldest champions.

"No other living American has done more to seek justice for all the poor, the working classes and the minorities in our society and around the world than has A. Philip Randolph," said civil rights leader **Bayard Rustin**.

Randolph died at his home on Manhattan's West Side. Rustin said Randolph had been suffering for some time with heart problems and high blood pressure. Randolph's body will be cremated, Rustin said, adding that a memorial service will be held in Harlem in about a month.

"We believe we should take him home," said Rustin. He said Randolph had no known living relatives, but "millions of friends.

Although Randolph began his labor organizing about 1910, it was his 1937 victory in accomplishing the unionization of the Pullman Co. - a battle that had taken 12 years - that brought him to the nation's attention as a new black leader.

He considered himself primarily a writer and editor, but he spent the next three decades as one of the century's major black leaders and one of the founders of the modern civil rights movement.

Born Asa Philip Randolph in Crescent City, Fla., April 15, 1889, the son of an African Methodist Church preacher, Randolph moved north after finishing high school to work as an elevator operator, a porter for Consolidated Edison Co., and a waiter on the Fall River Line.

The Fall River Line discharged him for trying to organize his co-workers. In 1917, he organized a small union of elevator operators and campaigned among motion picture operators and garment trade workers. And in 1925 he began organizing sleeping nored that in pulling out of the race. car porters in Harlem into what became the International Brotherhood of Sleeping Car Porters.

An advocate of non-violent change, he was an activist nonetheless, leading four marches on Washington between 1957 and 1963 and bringing his demands for equality before five presidents.

One of those presidents, Lyndon B. Johnson, awarded him the Medal of Freedom, this country's top civilian honor, in 1964.

In 1941, Randolph planned a large march to protest exclusion of blacks from defense plants. But the march was canceled after he and other black leaders and Ronald Reagan. It gives Ford 23.6 percent, arranged a meeting with President Franklin D. Reagan 20.6 and Weicker 13.9. Roosevelt. Out of that meeting came an executive order and a Fair Employment Practices Committee conference. "You can't buck against them. to enforce it.

One of his major concerns in the post World War II era was the treatment of American blacks in the armed forces. A meeting with President Harry S. Truman resulted in an executive order to end segregation in the military.

Randolph was also instrumental in forcing the AFL-CIO to outlaw racial discrimination when the among Connecticut voters was slipping.

Woman sought

in stabbing

ODESSA - Police woman charged Tuesday

American Federation of Labor and the Congress of Indus trial Organizations merged in 1955. In 1957 he was elected a vice president of the AFL-CIO and later became a member of its executive council. "Randolph was a staunch defender of the civil right:s records of Johnson and his predecessor, John F. Kennedy. And Kennedy, for his part, said after the huge 1963 March on Washington, which took place under Randolph's aegis: "The cause of 20 million Negroes has been advanced."

Weicker pulls out of race

WASHINGTON (AP) - Sen. Lowell P. Weicker, R-Conn., gave a campaign and not enough people came.

So he called a news conference in Hartford, Conn., Wednesday and took himself out of the running for the Republican presidential nomination, a prize he originally had pledged to seek in every state prima-

His decision, just two months after his formal announcement, surprised the political world and stunned his staff.

Other seekers of the nomination, including Sen. Robert Dole, R-Kan., began laying plans to lure Weicker supporters to their camps.

'My mind is blown and I'm sitting here in a state of shock," said a Weicker staff member who asked not to be identified by name.

"On Friday the senator had a 20-minute chat with an editor from Texas and sounded like a candidate all the way," he said.

'On Monday he had an appointment in his office with his pollster, Tully Plesser.

'And at 10:20 a.m. today (Wednesday) we were told that he was out."

Wednesday was Weicker's 48th birthday. He ig-

He said he acted in a hurry after making his decision Tuesday night because he didn't want to mislead the volunteers and contributors he said the campaign was beginning to attract in relatively large numbers.

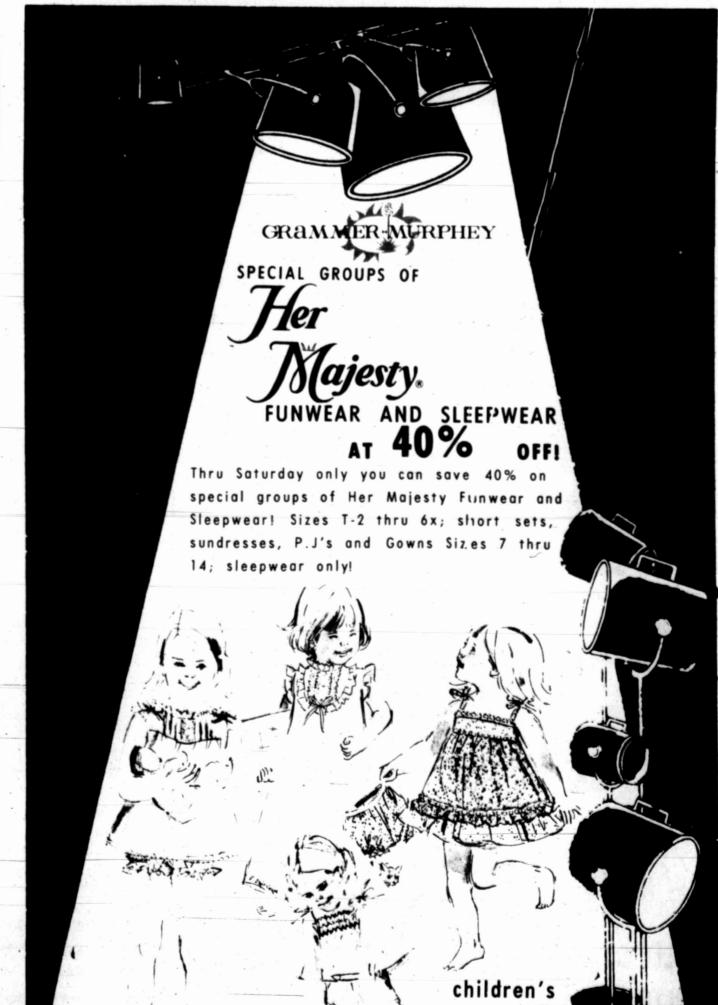

The senator's wife, Camille, said she was sorry, for philosophical reasons, to see her husband drop out of the race. But, she said, "the time was wrong."

The reason for the pullout was the poll, a comprehensive effort that shows Weicker running third in his home state, behind Republicans Gerald R. Ford

"Those are the numbers," Weicker told his news

"This was my home state and here I was in third place," Weicker said later in an interview in Washington. "If this had been the result in Iowa it would have been encouraging. But if this had been the Connecticut primary instead of a poll, people would be saying, 'Weicker can't hack it.'

He said there was another reason: his job rating

\$13.7 billion in 1977.

The Finance Ministry said it will have to set aside \$2 billion this year just to pay interest on the foreign debt, making it a central problem for Israel's overheated economy, which already is plagued by skyrocketing inflation.

Earlier this week the statistics bureau said the consumer price index leaped 8.7 percent in April and was up 23.4 percent in the first four months of the year. Inflation totaled 48.1 percent last year and the government says it may hit 90 percent this year.

The bureau did not issue a detailed breakdown of Israel's debts. In past years Israel has used foreign loans to finance costly defense purchases to pay for Israeli consumers' growing appetite for imported goods.

Hobbs axes bond issue

HOBBS, N.M. Voters Tuesday shot down a \$6 million bond issue earmarked for use in building a new elementary school and in financing renovation and remodeling on other schools by a 61-vote margin.

The defeat marked the first time voters had turned down a bond pro-posal by the Hobbs Independent School District. The second issue on the

ballot, a \$2 million levy. was approved by only three votes. Approximately \$1.02

million collected from the levy will be used for new roofing and tnsulation at many schools, with about \$800,000 going for instructional and maintainence equipment at all schools.

SAVAK men

shot in Iran

TEHRAN, Iran (AP) - Revolutionary firing squads in the holy city of Mashhad executed two former SAVAK secet police torturers today, the official Pars news agency reported.

It said Gholam Reza Pour-Rahimi, and police Sgt. Akbar Rasadtam were convicted of torture and executed at 2.30

The deaths brought the execution toll to 212 since Ayatollah Ruhollah Khomeini's forces ousted the regime of Shah Mohammad Reza Pahlavi four months ago. They also coincided with Kho-meini's 79th birthday, nnounced by the state radio.

Carter abandons cabinet proposal

WASHINGTON (AP) - President Carter has quietly abandoned his ballyhooed proposal to create a new Cabinet-level Department of Natural Resources

Word of Carter's decision to concede defeat on the issue in advance of congressional consideration did not come in a formal announcement.

Instead, a small group of officials, who asked not to be quoted by name. passed the word to an equally small number of reporters Tuesday evening. This was in sharp contrast to the fanfare that accompanied a March 1 announcement that the reorganization proposal would be forthcoming.

The prospect of a lengthy Senate debate on ratification of the new arms limitation treaty with the Soviet Union may have figured, at least

indirectly, in Carter's decision. One official said in response to a question, "I can tell you that the SALT treaty had no direct bearing on this decision

However, he quickly added the reorganization proposal would have triggered prolonged debate in the Senate at a time when SALT ratification is given top priority by the president.

This same official reported that soundings on Capitol Hill convinced Carter the natural resources proposal had no chance for congressional approval this year.

"It is my judgment this is dead for the rest of this term," he said. The reorganization plan, which had been announced by Vice President Walter F. Mondale at a White House

news conference, would have renamed the Interior Department and combined it with the Agriculture Department's Forest Service and the **Commerce Department's National** Oceanic and Atmospheric Administration

Mondale said the proposed department would eliminate overlapping programs, pare 2,000 jobs from the federal payroll and save tens of millions of dollars.

The administration had hoped to submit the proposal in the form of a reorganization plan, to take effect automatically unless vetoed within 60 days by either the Senate or House. Officials said House leaders accepted that approach

House members report interest in crude firms Millicent Fenwick, R-N.J.; Dan

By JIM ADAMS **Associated Press Writer**

WASHINGTON, D.C. (AP) - With Congress facing tough decisions affecting oil company profits and the rising price of gasoline, 29 House members report they had financial interests in oil and gas firms last year.

Another seven House members report payments for speeches and appearances at oil industry functions.

The oil and gas interests showed up in personal financial reports that all top federal officials, including members of Congress, were required to file this week under the new Ethics in Government Act.

House members' reports were released Tuesday and senators' reports are to be released soon.

Outside Congress, financial reports showed the wealthiest presidential candidate to file a statement is former Texas Gov. John B. Connally with a total income in a 16-month period of \$1,299,976.

Dozens of House members reported stockholdings in so many different industries that their votes on a range of bills could influence their personal investments

A vote affecting a member's public stock is not a conflict of interest under House rules, but members holding oil company stock could make money this year if Congress allows oil company profits to rise.

Congress will have to make that decision on President Carter's plan to decontrol oil prices and let them rise, but to offset the price rise with a "windfall profits" tax against the companies.

One of the congressmen who reported making some of the most last year by speaking to oil industry groups was Rep. John Dingell, D-Mich., who has been a staunch foe of high oil company profits.

Dingell, chairman of the House energy subcommittee, reported getting \$5,580 for such appearances. He supports Carter's price decontrols but wants a stiffer "windfall profits" tax imposed on the oil companies.

Rep. David Stockman, R-Mich., a member of Dingell's subcommittee, reported payments from oil industry groups for similar appearances.

Rep. Fortney H. (Pete) Stark, D-Calif., a member of the House Ways and Means Committee which will write the "windfall profits" tax bill,

six-digit incomes.

Rep. Philip A. Crane, R-Ill., a candidate for the GOP presidential nomination, did not file but earlier released his 1978 income tax return showing total income of \$97,700.

Here is a list of the 29 House members who reported either they or their spouses had financial interests in oil or natural gas last year, and the_ seven who reported receiving honoraria from oil industry groups: STOCKS OR ROYALTIES

Wildcat projects have been announced in Yoakum, Lubbock, Lea, Chaves and Irion counties, and a gas discovery has been completed in Eddy County, N.M., and an Eddy project has been assured discovery production in the Atoka.

J. C. and R. E. Williamson of Midland No. 1 Dan Field is to be dug as a 5,200-foot wildcat in Yoakum County, 12 miles northwest of Plains.

The project is 1/2 mile southeast of the Field (Devonian) pool which produces at 12,030 feet and 467 feet from north and 2,173 feet from eadt lines of section 120, block D, John H. Gibson survey. Ground elevation is 3,842.5 feet.

LUBBOCK PROJECT

Houston Minerals Corp. No. 1-10 Pate-Haverstock has been announced as a 10,500-foot wildcat in Lubbocks County, three miles south of Lubbock.

Location is 2,170feet from south and east lines of section 10, block E, GC&SF survey.

It is one location south of a 9.967foot dry hole.

LEA TESTER

David Fasken of Midland No. 1. Warren has been spotted as a 12,000foot wildcat in Lea County, eight miles southeast of Lovington.

It will be spudded 2,080 feet from north and 1,980 feet from east lines of section 8-17s-37e.

RE-ENTRY SET

Rex Alcorn of Roswell, N.M., announced plans to re-enter a 12,266-foot dry hole in Lea County and clean out to 11,100 feet and test.

The project, originally drilled by Coquina Oil Co. will be operated by Alcorn as the No. 1 Bobbi

Location is 1,980 feet from south and east lines of section 20-18s-36e and 15 miles southwest of Lovington.

CHAVES WILDCAT

Yates Petroleum Corp. of Artesia, N.M., No. 1-KY Erickson-State is a new 5,700-foot Devonian wildcat in Chaves County, 9.5 miles northeast of Roswell.

It is 1,980 feet from north and 660 feet from east lines of section 2-10s-25 e and 3/5 miles north of the shallow South Bitter Lake (San Andres) pool and two miles northwest of 4,314 Abo production.

IRION EXPLORER

IFA Enterprises of San Angelo spotted its Nod. 1 Ethel E. Ault and others as a 7,000-foot wildcat in Irion County, 17 miles northeast of Mert-

It is 4,229 feet from south and 672 feet from east lines of L. C. Ferguson survey No. 1013.

The location is a southwest offset to Canyon sand production in the Arden, South field and one and three-eighths miles west of a 7,171-foot dry hole.

ATOKA FLOWS GAS Maddox Energy Corp. of Midland

No. 1 Malaga, a northwest offset to production in the Malaga (Morrow gas) pool of Eddy 'County, flowed gas on a drillstem test in the Atoka zone. The first test, from: 11,540 to 11,700

feet, was open 70 min utes on first flow when it made gas at the rate of 7,700,000 cubic feet per day on a 1/4inch choke. The surface flowing pressure was 5,200 pounds. The tool was reopened for 120 mi-

nutes on the second flow. It made gas at the rate of 14,000,000 cubic feet per day on a 3/8-inch choke, with surface flowing pressure at: 4,125 pounds.

Recovery was 716 feet of water-cut drilling fluid.

Hole is being made below 11,864 feet on Morrow contra ct of 13,200 feet.

The project is 1,980 feet from north and east lines of section 3-24s-38e and four miles south of Malaga.

EDDY STRIKE

Perry R. Bass of Midland No. 68 Big Eddy Unit has been completed as a discovery in the Morrow zone in Eddy County.

The operator reported a calculated absolute open flow potential of 1.239.-000 cubic feet of gas per day, through perforations from 12,389 to 12,509 feet.

Total depth is 12,686 feet and 5.5inch casing is cemented on bottom. The location is 1,980 feet from south

and 1,780 feet ilrom west fines of section 10-20s-28e and nine miles east of Carlsbad.

The well is one and five-eighths miles north off' an undesignated Morrow gas area.

MITCHELL AREA

The Eastland Oil Co. of Midlad No. 1-H Wulfjen has been spotted as a 500-foot test in the Champion Lake (Yates gas) area of Mitchell County, nine miles so uth of Colorado City.

The location, one and five-eighths miles south of production, is 1,980 feet from south and west lines of section 8, block 13, H&r TC survey.

DELAWARE OILER

D. H. Hunt of Dallas No. 1 F. H. Scott has been completed in the Scott (Delaware oil) pool of Ward County, 4.5 miles nor thwest of Barstow.

One location northeast of Delaware production in the east side of the field, it finaled on the pump for 140 barrels of 43-gravity oil and 20 barrels of water, through perforations from 4,-933 to 5,760 feet. The gas-oil ratio is 1,130-1.

The pay section was acidized with 1,000 gallor is and fractured with 30,000 gallons.

A re-entry project, it is bottomed at 21,041 feet and five-inch casing is set at 21,036 fe et. The plugged back depth is 5,861 feret.

Location is 1,320 feet from northeast and 1,980 feet from northwest lines of section 21, block 33, H&RTC survey.

IRION W/ELLS

Alford Petroleum Corp., Woodlands, completed a pair of wells in the

Dove Creek (Canyon D oil) pool of Irion County, 14 miles southwest of San Angelo.

The No. 2-A J. M. Winterbotham, one location southwest of other Canyon D production, completed for a daily flow of 183 barrels of 44-gravity oil and 130 barrels of water, through various size chokes and perforations from 6,445 to 6,593 feet. The gas-oil ratio is 1,749-1, and the pay was acidized with 2,000 gallons and fractured with 47,000 gallons.

Total depth is 7,375 feet and 4.5-inch casing is cemented at 6,680 feet. The plugged back depth is 6,673 feet.

The wellsite is 660 feet from south and west lines of section 33, block 21, H&TC survey.

Alford No. 1-A J. M. Winterbotham, one location east of other Canyon D production, finaled for a daily flow of 176 barrels of 46-gravity oil and 47 barrels of water, through various size chokes and perforations from 6,333 to 6,521 feet. The gas-oil ratio is 3,977-1, and the pay was acidized with 2,000 gailons and fractured with 45,700 gallons.

The well is 1,980 feet from south and 1,060 feet from east lines of section 33, block 21, H&TC survey.

Craddick appointed

ble.

ty of representing Texas'

energy and oil produc-

The commission is

composed of representa-

tives from 31 states who

cooperate in dealing with

the energy shortage as

"efficiently as possi-

tion requirements,'

Craddick commented.

AUSTIN — State Rep. Tom Craddick of Midland has been named by Gov. Bill Clements to represent Texas on the **Regulatory** Practices Committee of the Interstate Oil Compact Commission.

"It is certainly an honor to have been appointed to this committee and I am looking forward to the opportuni-

A Totally New Concept!

MIDLAND EXECUTIVE CENTER ★

Offering Exciting New Executive Office Suites from two rooms to half floor (7000 contiguous sq. ft.) No other building offers so many features and conveniences:

1. Outstanding locations-Big Spring at Illinois.

2. Covered parking across the street (Midland Executive Garage or Midland Parking Center)

If you're content with an average facility then don't bother to look--BUT if you

 \star come see for yourself \star

MIDLAND EXECUTIVE CENTER

want Midland's most prestigious address then you're our kind of people.

- 3. Extra large solar reflective insulated windows.
- 4. Offices and suites with executive paneling and decorator vinyl at no extra charge.
- 5. Handsomely decorated lobby and restrooms.
- Luxuriously wide fully carpeted stairways and halls.
- 7. Building Manager located in the Midland Executive Center.
- 8. Attractive lease rates from 8.50 to 9.50 per sq. ft.
- 9. Immediate occupying on many suites.

Midland artist Travis Beckham explains his acrylic painting, "Chihuahua Chevy," to Museum of the Southwest visitor Lou Matson. Beckham's painting is included in the 13th annual Southwestern Area Art Show currently

under way at the museum, 1705 W. Missouri Ave. Visiting hours are 10 a.m. to 5 p.m. weekdays, and 2 to 5 p.m. Sundays. Admission is free. (Staff Photo)

American painting on view

FORT WORTH - Almost three centuries of American art are represented in a new exhibition at the Amon Carter Museum in Fort Worth. The paintings in the show are from the permanent collection of the Worcester Art Museum in Worcester, Mass.

The exhibition is part By exchanging collec- American art in the naof a unique experiment tions during this period, between the two art mu- the two institutions are seums. Musicals dominate summer at Fort Worth Casa Manana

FORT WORTH - Casa Manana, Fort Worth's famous theater-in-theround, will open its 22nd summer season with a production of "Fiddler on the Roof."

The season will be initiated June 18 and will continue for 12 weeks, offering such varied entertainment as five outstanding Broadway musicals plus a play, a concert series and a burlesque production, said Bud Franks, producer and general manager.

The opening attraction, "Fiddler," will feature Mel and Katy Dacus. The performers, well-known to Fort Worth audiences, have been on tour with this production. They will be returning to the Casa Manana stage for the first time in several years. The second attraction of the season will be "Here It Is - Burlesque! starring Ann Corio, Morey Amsterdam and Pinky Lee. This is a new package patterned after the very popular "That Was Burlesque" productions presented at Casa Manana in the 1974 and '75 seasons.

Lee will be on stage for two weeks.

from July 16 through July 28. The perennially-popular musical "West Side Story, will be presented July 30 through Aug. 4, followed by performances of another enormously popular musical, "South Pacific, scheduled for Aug. 6 through 11.

Singer Pat Boone will star in a special one-week concert series at Casa Manana, beginning Aug. 13 and concluding on Aug. 18. It will be Boone's first engagement at Casa.

The acclaimed musical "Godspell" will continue the season with performances Aug. 20 through Sept 1, and tion, and the collection of 19th Century frontier art belonging to the Carter Museum is known throughout the world.

The nucleus of the Worcester Museum's present collection was a group of family portraits by such gifted early American artists as Gilbert Stuart and Chester

Harding. The portraits had been given to the museum by Stephen Salisbury III, one of the leaders in the organization of the museum in 1898

Many of the paintings which traveled to Fort Worth for the exhibition at the Carter represent facets of American art that have rarely, if ever, been seen in this area. Carol Clark, curator of paintings at the Carter Museum, said that the Worcester show gives people in the Southwest

turies whose works are

The exhibition brackets two complete centuries of American art beginning with early colonial portraits by such artists as Joseph Badger, Carles Willson Peale and Thomas Sully, and ending with works by late 19th Century painters such as Childe Hassam, James Abbott McNeill Whistler and Mary Cassatt.

Also featured in the show is Edward Hicks' "Peaceable Kingdom." probably the nation's best-known and bestloved example of folk painting.

The Carter Museum, located on Fort Worth's Camp Bowie Blvd., is

Kerrville music festivals slated

24 through 28, initiates the eighth season of outdoor music festivals at this beautiful Texas Hill Country resort community.

Opening the season is the oldest and best-established of the four summer music fests here, the eighth annual Kerrville Folk Festival. The festival features five evening concerts by three dozen wellknown or fast-rising performers, including Steve Fromholz, Allen Damron, Willis Alan Ramsey,

ENTERTAINMENT

Robert Shaw, Ray Wiley Hubbard, Don Sanders, Milton Carroll, Peter Rowan, Rusty Weir, Townes Van Zandt, John Vandiver, Kurt Van Sickle and many, many more.

Daytime events will include informal sessions at The Ballad Tree as well as New Folk Concerts at the annual Texas State Arts and Crafts Fair which will. be under way on the campus of Schreiner College in Kerrville.

Special features of the folk music fest will include the annual Folk Mass and this year's added "Great

KERRVILLE - The Memorial Day weekend, May Texas Harmonica Blow-Off," which will precede the final evening concert on Memorial Day itself.

The Folk Festival, like all other summer music festivals here, is held at the outdoor theater at producer Rod Kennedy's Quiet Valley Ranch, located nine miles south of Kerrville.

Other Kerrville music fests on tap for the summer months include the Kerr Country Fair, featuring three evening concerts, on June 22, 23 and 24; the third annual Kerrville Gospel Jubiless, scheduled July 27 through 29, and the sixth annual Kerrville Bluegrass Festival, Aug. 30 through Sept. 2. Additional information about the four festival weekends may be obtained by writing to Kerrville Festivals, P.O. Box 1466, Kerrville 78028.

Dynamic Ruta Lee, a special darling of Fort Worth audiences, will return to Casa in a new show for her. "The King and I." She will be playing the Welsh schoolteacher Anna in this, her 14th show at Casa Manana. Miss

Plays to close

the season will conclude with a newfrom Broadway play, "Same Time Next Year." The play will have a week's run through Sept. 8.

Casa Manana season tickets have gone on sale at the Casa box office. with a 10 per cent discount available to purchasers until June 11. Individual tickets for the various musicals and special events will go on sale to the public June 11.

Additional details on the upcoming summer season and information on season ticket prices may be obtained Stuart, Benjamin West from Casa Manana, P.O. Box 9054. and John Singleton Co-Fort Worth 76107. The theater's telepley phone numbers are 817-332-9319 or 817-332-7692. the 18th and 19th cen-

The way to learn how to handle money is to handle money.

For example, you can learn a lot about handling money being a newspaper carrier. You do your own collecting from your own customers and keep your own cash records. You're on your own. (But not alone! There's help instruction, advice and guidance when you have the need.)

You also can learn a lot about people and the way they behave in various situations. And about yourself and the way you behave in various situations.

Whatever you do later in life, this kind of experience gives you a better start. In fact, seventeen presidents of the United States once were newspaper carriers.

Whether you're planning to be a president, or just want to earn some extra money, we'd like to talk with you about your becoming an R-T carrier. Both boys and girls are discovering a great new life of enjoyment and satisfaction on this very special team.

Why don't you come in?....or call
