Although Standard Oil Co. of Ohio officials have expressed pessimism about the future of crude oil pipeline between Long Beach, Calif. and Midland, the company has gone ahead with all the necessary permit applications, it was learned Thursday.

A spokesman for the Texas Air Control Board in Austin confirmed Thursday that Sohio has received an extension to July 5, 1979, for its permit to begin construction of four crude oil holding tanks in Midland.

That permit originally expired in April.

Meanwhile, information supplied in an environmental impact statement concerning construction in Midland indicates that the four 500,000-barrel facilities will emit between 40 and 80 tons of hydrocarbons into the air each

That amount is equivalent to the hydrocarbon output of 2,000 automobiles over the same period, the state-

"It's not a large amount," said Sam Crowther, a senior engineer with the Crowther said Thursday that Sohio

had received its second extension on the permit to begin construction of the holding facilities in Midland. ar as we know, the p

# Castro blasts immigration policy

COZUMEL, Mexico (AP) — Fidel Castro, visiting Mexico to "tighten the bonds of friendship," blasted the United States for its treatment of illegal Mexican immigrants and praised his host, President Jose Lopez Portillo, for refusing to tailor his oil policy to suit Washington.

The Cuban president said the unemployment that send Mexicans across the U.S.-Mexican border in

search of work is the result of 'the bitter and inevitable mutilation of the national territory and the underdevelopment imposed by the force, the arrogance and the domination of the United States in the past."

Cuba supports the demands of the Mexicans for "just, civilized and humane treatment in the United States," Castro said in a toast Thursday following his arrival on this re-

his first visit to Mexico since his exile here 23 years ago.

Turning to the recent discovery of vast new oil reserves in southern Mexico, he told Lopez Portillo: "We are pleased...you have clearly expressed that you do not propose to view Mexico's oil development as a part of North American oil needs but as an instrument for the development of your own country."

# Board accused of covering up hospital's ills

Maverick hospital Director Dr. Michael Burleson, in a less-than-friendly exchange with board President Ed Magruder, Thursday accused Midland Memorial Hospital's district directors, trustees and management of "covering up" problems rather than solving them.

Magruder opened the 3 p.m. meeting of the Midland County Hospital District board of directors with a response to charges made by Burleson about the operating efficiency of the hospital and to questions raised by The Taxpayer's Association of Midland, a group which had purchased advertising urging people to attend Thursday's meeting.

Some 40 persons, including several hospital employees, crowded into the hospital board room for the meeting. In the past, most such board meetings have attracted few visitors.

MAGRUDER'S written statement, passed out to members of the audience as they entered, included statistics which showed the cost per stay at Midland Memorial Hospital is \$75 to \$110 lower on the average than for other hospitals in Texas and across the country despite a higher per-day Burleson had criticized hospital management earlier for what he termed

cost overruns and inefficiency. "Hospital management constantly monitors length of stay statistics in a continuing effort to provide quality hospital care on the one hand, but for

such a length of time as not to unnecessarily run up the cost to the patient on the other." the statement said. THE STATEMENT SAID the true rate of turnover in nursing personnel

was 26.5 percent rather than 78 percent rate cited by Dr. Burleson and noted that two transfers of tax funds to hospital operating accounts totalpreviously approved would not be needed, but that a transfer of \$105,000 would be made on or before June 10. 'The directors and trustees are well aware of the high cost of provid-

ing health care. We are aware, and we care, and we are working very hard to solve all the problems that go with the operation of your primary health care facility here in Midland," the statement concluded.

Citing statistics showing higher-than-average labor costs in many areas of the hospital, Burleson Thursday blasted the "keep quiet and we'll take care of it" attitude he said was prevalent in the hospital management.

"YOU'RE TRYING to give statistics that show there are no problems when there are," he said. "The people making the decisions should be look-

ing for problems and trying to solve them instead of trying to cover up.
"I'm not after anybody," Burleson, a proponent of hiring an outside hospital management firm, said. "I don't care who does it, but we've got to stop talking platitudes. That's not going to work."

In a heated exchange, Magruder denied the board or administration is covering up problems of the hospital and pointed to new personnel added to increase collections and improve management.

"THE WHOLE THRUST of your performance here today," Burleson responded, "is to prove there is no problem and if we'll all just be quiet and go away, it will be taken care of.

"We don't deny there are problems," Magruder replied, "we just don't agree with your way to hire a firm and cut our employment in

After that brief flurry between the two elected officials, Magruder reminded the audience that questions to the board had to be submitted in writing 10 days in advance of meetings so items to be discussed could be placed on the agenda in compliance with open meetings laws.

After a short recess, held apparently to allow tempers to cool and members of the audience not interested in the remainder of the agenda to leave, directors heard a report on the construction and renovation program from Mickey Cappadonna, immediate past president of the board of trustees. The board of trustees consists of appointed volunteers who serve as an administrative board for the hospital.

AFTER A REVIEW of the process behind the original decision to form the hospital district and remodel the existing building rather than to build a completely new facility, Cappadonna noted some of the budget problems

**EDITOR'S NOTE: Obtaining hous**ing in Midland, whether by buying a home or renting an apartment, is becoming an increasingly complex problem, and one not easily solved. This is the sixth in a seven part series examining the issue.

> By LANA CUNNINGHAM Staff Writer

"If a free society can not help the many who are poor, it cannot save the few who are rich."

John F. Kennedy

To the people in the north part of Midland, it's a necessity and accepted

To those in south or southeast Midland, it's a luxury.

Though the two subjects may seem unrelated, paved streets can be linked in direct fashion to the quality of housing in some parts of the Tall

City.
Those sections of Midland which have the poorest housing conditions also have the fewest paved streets. Funds to ease both situations no longer are available in the Midland

For the third consecutive year, the Midland City Council in December 1978 refused to apply for a Community Development Block Grant which would have gone for a variety of projects, including housing and pav-

By now, it's become almost a matter of principle — and habit: The council refuses to be told by the federal government what to do.

MEANWHILE, THOSE who need some type of housing help are left with scant, if any, assistance. They continue to fight the dust

from the roads which blows through the cracks in their houses. Relations between the Department of Housing and Urban Development and the Midland City Council were

but dissipated that spring.
In its application for CD funds, the city refused to include a rental subsidy program, also known as Section VIII. Without that program, HUD re-

shaky even before 1977, but they all

jected the city's application for \$946,-That meant the loss of \$310,000 for

paving and curbing, \$220,000 for hous-

ing rehabilitation, \$140,000 for a senior citizens center, \$114,000 for park improvements, \$56,000 for planning, \$28,000 for administration and \$23,000 for

contigencies.

The following year the council part six cuss whether or of a series

not to apply.

Then in 1978, the item was placed on the agenda by a councilman. After a lengthy discussion by residents who cited a need for the funds and by some on the council who cited reasons for turning the money down, the measure to apply barely failed. Interestingly, the vote was 3-3.

THE LAST YEAR the city received the funding, in 1977, \$160,000 had gone to rehabilitate 47 homes, primarily for the elderly and handicapped.

Section 8, in brief, would have meant \$66,000 allotted for a rental subsidy program for low income people of all ages, not just the elderly and

That lack of "discrimination" was one reason the City Council said it did not like the program.

In a move to ease the sudden withdrawal of funding for housing rehabilitation, Mayor Ernest Angelo Jr. set up a housing commission. While that commission gathered

\$100,000 in local funds for rehabilitation, the monies now are depleted and no plans have been announced to continue the Midland Commission for Local Housing. When the City Council refused to

apply for the funds this last time, it wasn't just the lower income people who felt the panel may have taken a

Don Hellinghausen is a member of a relatively new organization called Midland Housing Association.

He commented that "we (residents) don't talk about the good that could be done with the nearly \$1 million that we could have applied for this year. Of that, \$400,000 of it would have been used to rehabilitate homes. Some more money would have gone to paving streets in those sections of

"We take federal funds for every-

thing else here," he said. "Why draw a line for the poor?'

Money funding the CD grants is tax money paid into the federal government by the municipalities. The program was set up to channel money back to the cities and to the areas where money is needed.

WHEN MIDLAND doesn't apply, the funds the city would have received go elsewhere. "It doesn't go back to the Treasury and help reduce the national debt," Hellinghausen

And the funds Midlanders gave for the local housing commission only meant that some people were paying twice to get the same thing done, but with fewer homes fixed, he said. And all the while Midland keeps

turning down the funds, the city of Odessa - well-known as is Midland for its conservative approach - continues to apply for more and get it.

The neighboring city not only has a

rental subsidy program, but also a recently opened apartment complex for low income Odessans.

Jack Dillard, director of planning and community development for the city of Odessa, said his city has a .4 percent vacancy rate in available housing "HUD says when you have less that

6 percent, you have insufficient housing," he said.
"When you compare those figures

(6 percent) to less than half of 1 percent, you realize what a godawful housing shortage we have here."

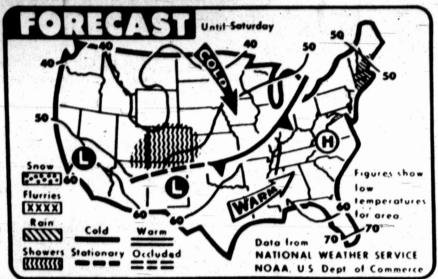

The Odessa City Council makes the ultimate decision on participating in the HUD program. In 1975, Odessa applied for CD funds and was told by HUD to participate in a related housing program.

'The council determined there was a need, and that we would pursue the funds," Dillard said.

BIG SPRING, to the east, also takes CD funds and has a rental subsidy program. Terry White, now with the Texas Department of Human Re-sources in Midland, formerly worked with that housing program in Big

"Rental subsidy was started by HUD when they realized their sever-al-storied complexes were creating

# **Budget**, construction

round out board topics

(Continued from Page 1A) of the hospital are being caused by the operating deficiencies of the build-

While the projected completion date for the current \$10 million construction and renovation program under way now is February 1980, he warned, "this building is going to be like the airport. There's going to be something every year.

Discussing problems in staffing as related to fluctuating patient loads, Cappadonna noted the hospital "empties out on Friday. 'If we just had more sick folks," he noted half-seriously, "we could do a

WHILE CAPPADONNA said the hospital and its supporters may have

been slow to admit problems in the past, he urged staying with local management rather than hiring an outside professional management firm to run "I just feel more comfortable with the people in Midland running the hospital than some outside company," he said.

"Maybe we don't respond as quickly as those in franchised medicine,"

he said, but added he felt local management through the board of trustees is more responsive to needs of doctors using the facilities and helps keep the hospital in touch with the community. In other business, the board approved an increase in daily rates for the newly

opened critical care and post-critical care facilities effective June 1. New rate for critical care patients will be \$205 a day, up from the current charge of \$175 a day. Rate for the post critical care patients will increase from \$125 a day to \$140 a day.

THE INCREASES are needed to cover the higher costs of new sophisticated monitoring equipment and higher housekeeping and utility bills,

The new rates are well within limits for the services set by Blue Cross, Assistant Administrator Robert Abernethy noted. Air conditioning in the hospital is expected to be off beginning this

afternoon through Saturday morning while workmen install a new 600-ton chiller to the system, Hospital Administrator Wayne Ulrich told direc-

A switch from the current 300-ton unit was scheduled to be made earlier in the year when the air conditioning was not in use, but delivery delays made weekend installation necessary, he said.

## Slight chance of moisture remains in Basin forecast through Saturday

Skies should be cloudy with a chance of afternoon and evening thunderstorms Saturday, according

to the weatherman. The National Weather Service of fice at Midland Regional Airport is forecasting an overnight low in the low 60s with winds at 10 to 15 mph.

Saturday's high is expected by the weathermen to be in the mid-80s. Andrews reported a two-minute shower early today, but other area towns reported no rainfall.

Chances of rain in the Permian Basin, said the weatherman, are 30

percent tonight and 20 percent Satur-

Record high recorded for Thursday

s 97 degrees in 1978 and the record low for today is 45 degrees recorded 90s in South Texas.

Scattered showers and thunderstorms were forecast for most of

Texas today. Thunderstorms moved across the Texas Panhandle and into Western Oklahoma during the night.

Although rainfall amounts were not immediately available, the National Weather Service said heavy showers fell east of Amarillo during the

The only shower activity in the state during the pre-dawn hours today was in the Guadalupe Mountains of Southwest Texas.

Highs today were expected to range from the middle 70s in the Panhandle to the 80s in Northeast Texas to the

(Continued from Page 1A)

ghetto environments in some cities,"

Under rental subsidy, people are given a chance to go out and look for their own place to rent. The stipulation is that the apartment or house must fit HUD guidelines for rental assistance, White added.

In Odessa, the City Council got its rental subsidy program started in October 1975 by lending the Housing Authority about \$20,000, which was paid back by HUD.

Odessa now has 552 units on contract authority as the maximum, Dillard said. About 505 families are living under that program. The annual contract with HUD results in Odessa receiving \$869,000.

THE CITY of Odessa recently opened a \$2.7 million facility having 108 units for the elderly. In addition, Odessa is preparing to sell about \$5.5 onds to construct 136 units for low income families.

At the end of February, a preliminary proposal was submitted to HUD for another 100 units of low income housing. Of that, 20 Odessa units will be reserved for elderly and handicapped persons. The remaining 80

will go for low income families. Income and family size are the major determining factors in eligibility for any of the programs. In some cases, Dillard said, unusual expenses such as medical or child care, is

considered for eligibility. Those who qualify are allowed a "fair market rent" when looking for a place to live. Dillard said that term represents the maximum amount a

place can rent for to be under the

Lamesa hospital after a lengthy ill-

sonnel had to do a lot of talking to get bad, White said. a few landlords to try the program. But today, there is no problem getting the landlords to partipate in that city, he said.

Both White and Dillard agree that one fear clearly is unfounded: Subsidy does not keep more people on They admitted there is a certain

amount of cheating on the part of both tenants and landlords. But the ratio is very low in comparison to the overall number of people who participate, the two men said. 'We can't use our value judgment

in this office (DHR) to decide who does and does not get welfare," White said. "We have federal guidelines to go by and if they fit, the people get The same theory applies to the HUD program.

As a result of rental subsidy in his city, Dillard said he is beginning to notice a renewed interest in the affected area of the town. A new restau-

"WE'RE NOW BEGINNING to see some enthusiasm and some confidence from a number of sources in that area," Dillard said. "It makes us feel encouraged that we'll see some substantial re-investment there in the near future

The good points of the program in Big Spring have far outweighed the

"The program has taken away the fear people had of not being able to pay their rent and being kicked out with no place to go. "With this program, you begin to

give these people a self-respect, a concept, a pride. They will get up and try again," he said.

Midland County commissioners recently decided to apply for CD funds and were warned to attach a rental subsidy program. The commission plans to apply, which may mean philosophies in the Tall City are chang-

The county will be allotted enough money to subsidize 20 units. And, county commissioners were told, if not enough applicants for the program are found, the county still will get its CD funds.

The program will be administered by the Midland Housing Association with people volunteering their time, and an office space donated by Casa

Of the City Council's continuing decision not to apply for the CD funds, White said, "Integrity is great. But it doesn't mean much to someone who doesn't have adequate housing."

**NEXT: Solutions to housing for low** income residents are not that impossible, some theorize, but the city must first admit it has a problem.

# Firm seeks extensions on permits for pipeline

(Continued from Page 1A)

still anticipated," Crowther said. Officials for Sohio said the company still is "in a holding pattern" pending the outcome of litigation in California and legislative action in California and Congress.

"We're maintaining the status quo and trying to be sure that we don't let anything (like permits) expire," Harlan Flint, assistant director for state affairs for the company, said Thurs-

According to the environmental impact statement, now on file in the Midland city secretary's office, the company is proposing construction of four 500,000-barrel capacity crude oil storage tanks east of the intersection of Fairground and Cloverdale roads.

"Based upon information supplied by the applicant, there will be no additional employment, (or) commercial, residential, non-industrial growth as a result of this project," the document states. The tanks will be 245 feet in diame-

ter and 66 feet high with a floating

## **Brussels** airport placed on alert

BRUSSELS, Belgium (AP) — The Brussels airport was put on alert today as security services reported a 'serious terrorist attack threat." There was no immediate elabora-

Traffic was not interrupted and passengers were not evacuated, but all other people were asked to leave the airport buildings. Two Palestinian terrorists attacked

the terminal after an Israeli airliner landed on April 16. They were captured after they threw grenades which caused a few injuries.

#### Correction

On Page 1A of Thursday's Reporter-Telegram, the principal person referred to in a story was misidentified as Fred O. Worthey Jr.

The correct identification is Fred O. Worthey Sr.

The environmental statement reveals that "the proposed facility is an integral part of a transportation system for moving the crude oil surplus from the West Coast to Midland and ultimately to the existing Midwest oil distribution system. This project would reduce the oil surplus presently existing on the West Coast and could reduce the reliance on oil imports."

Sohio officials said Thursday the project "would lose its economic value" if it can not be started within the next few months.

"It will lose its usefulness and cease to be economically attractive unless the obstacles are out of the way sometime in the next few months," Flint Flint confirmed, however, that the

project "was still alive."

The major obstacles, he said, were three lawsuits filed against the project in Long Beach, Calif. Two of the suits were just getting under way and could delay the project for a number of years — essentially killing the proposal, he said.

John Andes, a senior staff specialist with Sohio, said the West Coast oil surplus was "only a manner of speak-

Andes said refinery capacity in California could not handle all the crude being produced in Alaska. By moving the oil to Midland, it can be distributed to refineries along the Gulf Coast and in the Midwest.

# It's status quo for State Bar under present bill

AUSTIN, Texas (AP) - Openly risking a veto, the House has tentatively approved a bill preserving the State Bar of Texas in essentially its present form, including mandatory membership by all lawyers.

The bill advanced, 118-17, on Thursday. Final passage was expected today. That would return the bill to the Senate for action on changes made by the House.

But House members overwhelmingly voted, in effect, to ignore Gov. Bill Clements' threat to veto the bill if it failed to do two things:

- Force the bar to put its money in the state treasury, where it could be spent only as appropriated by the Legislature. - Make the bar an agency of the executive branch, with a nine-mem

ber board of directors entirely appointed by the governor. If the bill does not become law, the bar would go out of business as a state agency in 1980. It probably could continue as a voluntary association. Some believe the Texas Supreme Court can re-establish it as it now

exists and require all lawyers to belong. Rep. W.S. Heatly, D-Paducah, tried to compel the bar to deposit its members' \$65-a-year dues in the treasury. His amendment was trounced, 101

"There has been criticism of the salary of the executive director, his

expense accounts in the saloons of Texas, his transportation," Heatly Former executive director H.C. Pittman made \$54,000 a year, plus an

expense account and a Lincoln Continental. When Tom Hanna replaced him last year, the bar said the salary would be smaller and the fringe benefits less elaborate.

The House also refused, 112-23, to enable the governor to appoint the bar's directors, who now are elected by lawyers. An amendment by Rep. Fred Head, D-Troup, repealing the requirement

that attorneys belong to the bar was tabled, 111-25. "I belong to the bar association and I will continue to belong to it but I don't think I should have to ... If you believe in the right-to-work law, you'll vote 'no' on the motion to table," Head said

The bill ratifies the bar's control of its \$6 million Texas Law Center northwest of the state Capitol and allows the bar to go into debt. For the first time, six non-lawyers would be members of the bar's board

The Texas Supreme Court would pass on the bar's budget, taking ultimate control of finances from the board of directors. The directors would have to hold a public hearing before sending their budget request to

House members passed and returned to the Senate for action on changes several other bills resulting from the Sunset process.

They would: Merge the Board of Landscape Architects with the State Board of

Architectural Examiners. - Continue the State Board of Barber Examiners

 Extend the life of the Texas Turnpike Authority.
 Preserve the State Structural Pest Control Board, but connect it administratively to the Texas Department of Agriculture.

The House also voted tentative approval to Senate-passed Sunset bills that would:

- Extend the State Board of Public Accountancy

 Continue the State Board of Morticians but include four non-mortician members on the nine-member board and add numerous consumer protection features to the law governing undertakers.

Extend the life of the Texas Cosmetology Commission.

## Projects receive favorable comment

Two Midland area projects including the Head Start program for the Midland Independent School District received favorable comment during the regular monthly meeting of the Permian Basin Regional Planning Commission Wednesday.

The commission granted favorable comment to grant applications from the Human Resources Advisory Committee on Head Start programs in Midland and Big Spring schools.

MISD has submitted an application to the Department of Health Education and Welfare for \$175,107 to continue the Head Start Program beyond Sept. 1. The program employs eight teachers and teacher aides to work with 155 children.

Midland schools will supply an additional \$71,000 to

the project. Under the program, students and their parents participate in classroom activities four hours a week at the Enrichment Center at Carver Elementary

Children also are given physical and dental examinations through the program.

The program aids children from families with incomes below the poverty level as well as the handi-

The Big Spring program is seeking \$220,678 in federal funds from HEW to supplement its own Head Start Program, which serves 215 children.

The BSISD will contribute \$53,000 to the pro-The PBRPC is submitting an application to the

Criminal Justice Division of the Governor's Office for funds to purchase identification and fingerprinting equipment. The equipment will be used in Midland and Winkler Counties

The planning commission also granted favorable comment to a number of housing projects in Odessa and one in Fort Stockton.

### Bill would reorganize Commission for Deaf

AUSTIN, Texas (AP) - The Texas Commission for the Deaf would be dominated by deaf persons, professionals who serve them and parents of deaf proved by the House.

The measure must be considered one more time by the House. Final passage would return it to the Senate for action on House amendments.

If the bill becomes law, the commission would be reorganized. Three of its members would be deaf persons, two would be parents of deaf children, two would be professionals who work with the deal and two would be from the general public.

The board has been wracked with controversy in recent months, following its dismissal of Carl Roberts as its executive director.

Deaf persons and their families protested that Roberts understood their problems better than the six commissioners did. Only two of the six are

## Salute to musuems

Today marks the second annual commemoration of "Texas Museum Day," as proclaimed by Gov. Bill Clements.

And if ever a community should join wholeheartedly in such an observance, it is Midland, which is fortunate in having outstanding museums which add materially to the overall betterment of the com. munity.

There is no doubt that Midland's museum community is a civic and economic asset. It is estimated that annual visitation at three Midland institutions-Permian Basin Petroleum Museum, Library and Hall of Fame; Museum of the Southwest, and Midland County Historical Museum-is 70,000, including thousands from other states and foreign lands. The total could. should and undoubtedly will be more in the future as word of their fame spreads across the land and abroad.

Those in the know call attention to vastly increased interest in museums, nationwide, pointing out that today's museum, more than ever before, is where the action is.

It is significant also that many communities throughout the Permian Basin Empire have museums which are worthy of note and visitation. The West of the Pecos Museum at Pecos, the Presidential Museum at Odessa, the Diamond M and the Scurry County museums at Snyder, and the Fort Concho Preservation & Museum at San Angelo are outstanding examples.

Other fine museums are located

at Stanton, Lamesa, Big Spring, Crane, Rankin, Iraan, Seagraves, O'Donnell, Gail, Sweetwater, Abilene, Colorado City, Kermit, Van Horn, Fort Davis, Alpine and El Paso. All are affilated with the Permian Basin Museums Institute, which coordinates the programs and efforts of the region's museums.

Someone has said that some of the museums are larger and more complete than others, but that each offers something of interest to all persons.

Goy, Clements, in his proclamation, said that museums "hold in trust for future generations a substantial part of the material patrimony of Texas produced by the skills of our predecessors and

He said further that museums "encourage curiosity in the very young, offer enlightenment and education to the student, and provide a continuing source of enjoyment, cultural enrichment and lifelong learning for all."

They also are centers for research for scholars and "contribute significantly to our knowledge of history, science and the arts.

And while traveling closer to home on weekends and vacations as a result of the gasoline shortage, why not consider visiting some or all of the fine museums in West Texas? You will be glad that

Meanwhile, museums throughout West Texas and beyond merit a snappy salute from

# Greetings, PBPA

The 17th annual meeting of the Permian Basin Petroleum Association is in full swing here today, and the Tall City once again is delighted to have members of the fine and influential organization from throughout the Basin and beyond here on this particular occasion.

The association has been favored with a vastly enlarged membership during the past year and it is hoped that many of the new members will be on hand, along with members of longer duration, at today's sessions.

PBPA long has been an effective voice for the petroleum industry in this vast, highly-productive region, and with more members and increased revenues it can and will be even more influential in

**WASHINGTON** — The appearance

of Gov. Edmund G. Brown Jr. before

the nation's independent oil operators

typified the unique style he will use in

his campaign against President

Carter: horrendously incompetent

advance preparations compensated

# Communism can't defeat morality and spirituality

By CHARLEY REESE Sun Belt Syndicate

ORLANDO, Fla. - I have a friend who is fighting a cold war with an oil company. He leases a station from one of the majors and they want him to convert to a self-service operation and he wants to stay full service. So

There is no need to mention names because the dispute itself is neither unique nor important to anyone except the people involved. What is important for the rest of us is the example it provides of a society that has substituted legality for morality.

You can guess, if you have had any experience inside a large corporation, what has happened. Way up at the top a perfectly rational and responsible decision is made: let's cut down on the number of leased full service stations and move toward more self-service, corporate owned and operated

Nothing wrong with that decision: Directors of corporations have a responsibility to make decisions that will result in more efficient and more profitable operations. I would bet a lot that at the top the orders go out as a statement of the new policy and instructions to encourage conversion as leases expire.

Unfortunately as it trickles down the corporate levels, the little men who are obsessed with climbing to the

As for the ex-secretary's un-

diplomatic description of her, Fallaci

said smoothly: "Forget the painful

words Dr. Kissinger uses in judging

my physical appearance. Being

judged unattractive by such a

tasteless man is a relief ... Besides, it

is difficult to discuss my stature,

which is short, as short as Dr.

Kissinger, with the difference that I

Informed that Kissinger told his

friends it would have been all right if

Fallaci "had described me as a

combination of Charles de Gaulle and

Disraeli," she confessed that "it

never occurred to me ... out of respect

for de Gaulle or Disraeli." They

would, she said, "turn in their

Explained Fallaci: "I described Dr.

Kissinger as a cowboy because this

Charley Reese

top pounce on the new policy as a way to make themselves look good in the eyes of the big shots. Each manager puts the pressure on the guys below him who respond by squeezing the guys below them until by the time you reach the people who actually deal with the station operators, the word "encourage" has been entirely forgotten. The word is now, "push."

In my friend's case, the moment he frustrated the objective things began to go wrong. The pumps are not repaired so quickly; the rent goes up; the credit terms get tougher; his gasoline allocation gets cut; prices get higher; and there are regular visits to the office where he is browbeaten and threatened.

Everything is perfectly legal; it's just that people who have become obsessed with materialism and people who have substituted the legal brief for their moral values forget that they are human beings.

I guess I'm trying to make a subtle point, but I'm sure you can think of similar cases where the human element gets crushed by the efficiency expert or the sound accounting principle or the legal interpretation.

My soul is thirsty for a man who says, "I know I can do it legally but I

If our goal is simply more and more at any price, then our society is ready for a bankruptcy sale. Our materialism cannot compete with the more ruthless and realistic materialism of the communists.

If it's to be merely system versus system, bureaucracy versus bureaucracy, then communism will win because the communists will do what we shrink from doing. They will kill however many they have to kill, keep their population in poverty for however long they have to, and channel as much of their resources into guns as

they need. But what communism cannot defeat is morality and spirituality. That communists know they cannot conquer the soul; they must convince their victims souls don't exist.

I am not trying to preach a sermon but rather to figure out why we keep getting weaker; why our people sell technology to communists; why we make the compromises and concessions; and why the West is shrinking and the East is expanding.

I think it's connected to what my friend is going through with the oil company. We've gotten so greedy for a buck we're stepping all over each other, g aging each other, and not caring for each other and the Russians are just laughing.

# Mark Russell says

The former director of the Bureau of Engraving and Printing has doubled his income by going to work for the manufacturer of the presses that print our money. Well, even a bartender takes a little nip now and

Since the decline of the dollar, things are a bit loose at Engraving and Printing. A guard now comes in on Wednesday.

Treasury officials claim that a number of problems with the presses developed while this man was director. Like all those \$5 bills with Lincoln wearing a leisure suit.

Treasury officials are also claiming that the bureau was overcharged for the presses. We can always pay for the presses with the money they

#### IT HAPPENED HERE

30 YEARS AGO (May 18, 1949):

Roy Minear for president headed a slate of officers recommended to the Midland Lions Club at its meeting today noon in Hotel Scharbauer. The election will be held next Wednesday.

Mrs. J. P. Ruckman reviewed the closing chapters of a book, "The Episcopal Church," at a Monday meeting of St. Cecilia's Guild of the Trinity Episcopal Woman's Auxiliary.

#### **WASHINGTON MERRY-GO-ROUND**

# A pushover for women reporters

By JACK ANDERSON

WASHINGTON - Henry Kissinger's well-cultivated reputation for single-handedly achieving impossible feats of diplomatic legerdemain earned him the sobriquet

Whether the pudgy, bespectacled secretary of state with the burlesquecomic German accent deserved comparison with Superman is still a matter of conjecture. But one thing has been made clear from secret documents: Like the comic-strip hero, Kissinger was a pushover for the Lois Lanes of the world. Whether from high hopes or low male chauvinism, Kissinger was repeatedly caught off guard by female journalists.

A year after he claimed to have been "anguished" over the Christmas-1972 bombing of Hanoi, he made the damaging admission to Flora Lewis of The New York Times that he had actually wanted to bomb even more, but "the president wouldn't let

Another distaff reporter who outwitted the urbane professor was Sally Quinn of The Washington Post. She would bump into him at Washington parties and after a few minutes of wily, womanly buttering up, Kissinger would be lulled into saying something ridiculous - which would promptly appear in the Post to the secretary's discomfiture.

Kissinger eventually grew gun-shy of Quinn, and firmly refused her request for an "in-depth" interview.

I wouldn't let Sally Quinn interview me," he confided to a foreign diplomat in 1976. "She is vicious. I

Gov. Jerry Brown strikes again – and wins 'em over

don't know anyone who has survived being interviewed by her. I know her socially, but I don't talk to her."

Alas for Dr. K., he had already learned to his sorrow the perils of a clever woman reporter - Oriana Fallaci. He later ruefully described the taped interview he gave the Italian journalist in 1972 as the "stupidest thing" he had ever done.

While this self-assessment may be question, there s no doubt the Fallaci interview, with its "lone cowboy" reference, didn't exactly enhance Kissinger's reputation. either among world leaders or the public at large.

Although he was aware of Fallaci's reputation as a tough interviewer even Quinn warned him - Kissinger evidently thought he could handle her with no trouble. "Why I agreed to it, I'll never know," he later moaned to

Actually, he did know, According to a secret transcript. Kissinger told a friend three years after the Fallaci interview, "She really got me in trouble. The only reason I agreed to an interview was that I saw a picture of her in a book and she looked at-

Fallaci, he told his friends, "is a dumpy little girl, totally unat-

Reached by our associate Dale Van Atta by phone in Milan, Fallaci was surprised to learn how she had been granted the famous interview. "It's unbelievable," she said. "Were our lives in the hands of such an individual who accepted to see a journalist because of a photo?" Kissinger had told her, she said, that

tractive, so I wanted to meet her.'

Even that turned to sour grapes.

#### DOLLAR DIPLOMACY: Dollar diplomacy is not dead. The Carter administration recently wrote off \$10

million the Thai government had agreed to pay for munitions left behind when American forces were withdrawn from Thailand, A State Department official explained that it would have cost more to ship the material back home than to let the Thais have it - and technological advances have made the stuff worthless to our troops anyway. But another source told us the main purpose of the gift was to cement our ties to the Thais.

WASHINGTON WHIRL: 'Broadway Joe' Califano, Secretary of Health, Education and Welfare, added insult to injury when he delivered a report on home health care to the Senate Committee on Aging seven months late. It was addressed to "The Hon. Frank Church, Chairman, Special Committee on Aging, House of Representatives." Not only is Church a senator, he hasn't been chairman of the Senate committee for four months. A member of the committee, Sen. Peter Domenici, R-N.M., commented that the covering letter was "indicative of the sloppy and inefficient way the whole report was

#### BIBLE VERSE

"If ye then, being evil, know how to give good gifts unto your children: how much more shall your heavenly Father give the Holy Spirit to them that ask him." - - Luke 11:13.

#### President boosters. IPAA executive vice president Lloyd Unsell accepted SAUDI TROUBLE Brown's offer, giving him the May 8 luncheon spot. The weeks passed, however, with-

One week after Saudi Arabia's shocking ouster of the CIA station chief in Jeddah, Secretary of State-Cyrus Vance threw a new verbal punch at the oil-rich Arab state which angered White House foreign policy

The White House was reeling from the impact of the unprecedented ouster of the Central Intelligence Agency (CIA) station chief when Vance told the House Foreign Affairs Committee that "clear and sharp differences" were developing between the U.S. and Saudi Arabia. Taken together, these developments have brought the two

old allies to their lowest state ever. The Saudi government had nothing personally against the CIA's station chief, but a lot against the administration. For one thing, CIA headquarters here infuriated the Saudis by ordering its local operatives to count the number of minority Shiite Moslems with ties to revolutionary Iran.

The overriding problem stems from U.S. pressure on the Saudis to get in line behind the U.S. and the new Egyptian-Israeli peace treaty. Saudi officials feel that because of the grave split on this issue between their country and the U.S., Washington is conducting an undercover campaign depicting a disintegrating Saudi royal

Against that backdrop, when Vance was asked about U.S.-Saudi relations, he plunged in - making matters worse, not smoothing over the differences. White House aides were flabbergasted. They tried to explain Vance's criticism as the lawyer-like reaction of a good attorney analyzing a worsening case. Privately, however, they were furious that Vance would pour more oil on the inflamed

U.S.-Saudi connection. The Saudi decision ordering the CIA agent out of the country was the first time ever that a CIA man has been ousted from any country. That reveals the sorry state of relations between the U.S. and its chief foreign oil supplier.

# Israeli commandos storm Palestinian base

AUSTIN, Texas (AP) - After suffering the first legislative override of a veto in 38 years, Gov. Bill Clements says he would not mind doing it

Clements says override

of his veto 'feels good'

'It feels good," the Republican said Thursday after senators followed the House in defying his veto of a local bill and voting the measure into

"It was probably coming sooner or later but I think they've chosen the wrong issue," Clements said of the bill that will exempt Comal County

commissioners from statewide hunting regulations. Gov. W. Lee "Pappy" O'Daniel, a former flour-salesman, was the last governor to have a veto overturned. He vetoed 12 measures in vain during his administration. During the 1941 Legislature alone, O'Daniel saw 10

bills become law over his protest. Until Thursday, override attempts have failed since July 3, 1941, when the Legislature sent two vetoed bills to the lawbooks. The last bills to survive a veto established the Texas Commission on Interstate Com-

merce and allowed Laredo and Robstown to pay off old bond debts. The local game bill by Rep. Bennie Bock, D-New Braunfels, passed both chambers without opposition — 130-0 in the House and 31-0 in the Senate. Senators voted 25-6 to override after the House decided 90-42 on

Tuesday to annul the governor's action. Clements objected to allowing counties to escape state rules.

"If we allowed each county to regulate health regulations applicable to the whole state and establish their own, we'd have 254 different 'state' health regulations," the governor said in his veto message. He admitted at a news conference Thursday he was tangling with a sen-

sitive tradition of the overwhelmingly Democratic Legislature. 'Apparently this comes under the local privilege situation but I think it is a bad law," Clements said. The governor added he already has told

sponsors of four similar game bills that he will veto those proposals.

fought a savage, two-hour battle with guerrilla armies under the PLO umbrella. defenders at a Palestinian coastal base in southern Lebanon before pulling out, guerrilla commanders and local authorities reported today. The attack, involving machine guns, grenades and

armor-piercing rockets, came as Israeli Prime Minister Menachem Begin offered to meet with Jordan's King Hussein for peace talks and an Israeli Cabinet committee endorsed Begin's plan for Palestinian autonomy despite Defense Minister Ezer Weizman's

Guerrilla commanders in this Palestinian-controlled town said the fighting occurred Thursday night in guerrilla-held areas between the towns of Insariyeh and Adloun overlooking southern Lebanon's Mediterranean highway 21 miles north of the Israeli frontier. The scene was two miles south of Sarafand and 40 miles south of Beirut.

The Israeli command in Tel Aviv said the commandos blew up a Palestinian training camp near Adloun, destroyed buildings and ammunition stockpiles, killed an undisclosed number of guerrillas, and that all of the attackers returned safely.

The guerrillas reported a Palestinian and a Lebanese were wounded and said "many" Israelis were killed or wounded and evacuated by helicopter.

The raid was made two days after a Palestinian terrorist bomb killed two teen-age boys and injured 32 other persons in the northern Israeli town of

SARAFAND, Lebanon (AP) — More than 150 being retaliatory. Instead, military sources said the Israeli commandos stormed ashore behind a barrage from missile boats and helicopter gunships and organization. Saiqa is one of the eight guerrilla reliable sources say Jordanian and Israeli officials rage from missile boats and helicopter gunships and organization. Saiqa is one of the eight guerrilla

Israel has blamed the Syrian band for a spate of years. attacks on Jews and Israelis in Europe this spring, including two bombings in Paris March 20 that wounded 20 Jewish students, the bombing of an Israeli Embassy on Cyprus April 15 and an attack on Jewish community building in Vienna April 22.

The commando strike appeared to be part of the government's newly-declared "war of attrition" against guerrillas based in Lebanon. Israel's last cross-border foray was May 9, when 400 troops went after a guerrilla squad spotted trying to cross the frontier into Israel. U.N. peacekeeping troops stopped the Israelis at an Arab village near the frontier and the raiders withdrew after a tense fivehour standoff with the U.N. forces.

Begin offered to talk peace with Hussein in an interview today on Armed Forces Radio. Lebanon rejected a similar Begin offer of peace talks last

"I invite King Hussein to talk with me. If he wants to come to Jerusalem he will be received warmly. I am ready to meet with him in Amman (Jordan) or in Zurich (Switzerland) or in any other place," Begin

**SANITARY** 

plumbing- heating air conditioning Inc. Jordan has opposed the direct public negotiations

have been meeting secretly "at the highest level" for The state radio reported the Cabinet committee's adoption of Begin's plan for Palestinian autonomy on the West Bank of the Jordan River and in the Gaza Strip despite sharp objections from Weizman, the

leading dove in Begin's hardline government. The plan, which goes to the full Cabinet on Monday, will serve as Israel's bargaining position for autonomy talks with Egypt set to open May 25.

Weizman is reported to feel the Begin plan does not provide a realistic basis for substantive negotiations. The radio said the proposal firmly rules out the creation of a Palestinian state in the Arab lands occupied in 1967, promotes continued Jewish settlement and upholds Israel's intention to reassert its claim to the areas after the five-year autonomy

## W.L. Tankersley

Waymond Ladell Tankersley, 61, died Tuesday at his residence, 705 N. Marienfeld St., after a lengthy ill-

Services were to be at 2 p.m. today in Kiker-Seale Funeral Home in Colorado City. Burial was to be in Dunn Cemetery in Dunn. Thomas Funeral Home handled the local arrangements.

Tankersley was born April 8, 1918, in Comanche County. He had lived in Monahans 15 years before moving

to Midland in March 1979. Survivors include his wife, Dixie; three sons, Waymond Tankersley Jr. and Charles Ray Tankersley, both of Midland, and James R. Tankersley of Sweetwater; six daughters, Judy Rhea, Lillian Harrington and Kay Rogers, all of Midland, Barbara Harding of Rotan, Doris Jean Bullock of Sweetwater and Jackie Ladell Tankersley of Plano, four sisters and 18 grandchildren.

#### **Arnold Balke**

Services for Arnold Balke, 68, of 1801 N. Midland Drive were to be at 4 p.m. today in Newnie W. Ellis Funeral Home with the Rev. Roy A. Carley, associate minister of First Baptist Church, officiating. Burial was to be at Resthaven Memorial Park.

Balke died Wednesday in a Midland Hospital.

Balke was born Dec. 13, 1910, in Peters and was reared in Sealy. He attended Texas A&M University. He was married to Frances Margaret Brown in Luling Jan. 11, 1935. She died Feb. 8, 1971.

Balke lived in Midland from 1953 to 1963. He then lived in Luling, Karnes City, Premont, Wichita, Kan., Hale City and Oklahoma City before returning to Midland in January 1979. He worked with Magnolia Pipeline Company for 40 years, retiring in 1974. He had been in poor health since July 1978. He was a member of First United Methodist Church and the Masonic Lodge in Karnes City.

Survivors include four daughters, Jo Ann Weatherred and Nancy Jean Roderick, both of Midland, Sue Margaret Watts of Amarillo and Ginger Louise Resnik of Whitewater, Kansas; three brothers, Bennie Balke of Waco, Raymond Balke of Santa Anna and Louis Balke of Texas City; three sisters, Ruth Mullins and Leola Ellis. both of Galveston, and Anita Schumann of Bellville and six grandchil-

#### Ira Attebery

#### wrote last will

#### before shooting

SAN ANTONIO, Texas (AP) — Five days before police say he sprayed deadly gunfire into a crowd of parade spectators, Ira Attebery apparently wrote a will. But a lawyer who is temporary administrator for Attebery's estate says he won't try to probate that

The attorney, Steve Gross, said Thursday that the document was discovered Tuesday in a safety deposit box at a local bank. It was handwritten in ink on ordinary lined paper and dated April 22.

Gross turned over the will to the Bexar County clerk's office as required by law, but no application for probate was filed. The will, therefore, isn't public record.

"I'm not going to pro-bate it," said Gross. "First, I don't think any of the assets would go to the heirs because of all the damage suits."

#### Annie L. Merritt

Services for Annie L. Merritt, 93, of 2500 W. Louisiana Ave. were to be at 10 a.m. today in Cottonflat Baptist Church with the Rev. Ross Payne, pastor, officiating.

Burial will be in Resthaven Memorial Park-directed by Newnie W. Ellis Funeral Home.

Mrs. Merritt died Wednesday in a Midland hospital after a lengthy ill-She was born Sept. 29, 1885, in Hood

County and was reared there. She was married to W.W. Merritt March 22, 1903, and lived in Parker County on a farm 15 years. She moved to Snyder in 1918 and then to Midland County in 1935. Her husband died Jan. 3, 1959. She was a member of Cottonflat Baptist Church.

Survivors include four sons, Jack Merritt and Pat Merritt, both of Midland, G.C. Merritt Sr. of Hereford and Barney Merritt of Lubbock; five daughters, Marjorie Hill, Ima Collins and Nora Woody, all of Midland, Rhoda Bonner of Snyder and Era Hobbs of Corpus Christi; three sisters, Alice Yates and Mabel Hughes. both of Midland, and Dovie Herring of Lapan; 23 grandchildren, 57 greatgrandchildren and 22 great-greatgrandchildren.

Pallbearers were to be the grand-

#### Margie Carr

Mrs. Lawrence (Margie) Carr, 52, of 4308 Harvard Avenue died

Thursday in a Midland hospital. Services will be at 2 p.m. Saturday in Wilshire Park Baptist Church with the Rev. John Riggs, pastor, officiating. Burial will be in Resthaven Memorial Park directed by Newnie W. Ellis Funeral Home.

Mrs. Carr was born Nov. 23, 1926, at Tuscola. She was married to Lawrence Carr in 1946 at Stephenville. She lived in Abilene for four years prior to coming to Midland in 1950. She was employed by Basin, Inc. until January when she became ill. She was a member of Wilshire Park Baptist Church.

Survivors include her husband: two sons, Larry Carr and Gary Carr, both of Midland; three daughters, Sherry Stanley and Terry Hughes, both of Midland, and Jerri Smith of Scurry; a sister, Louise Standard of Abilene;

#### William Mason

William R. Mason, 29, of Austin, a former Midland resident, was killed Monday in a car-bicycle accident in Austin.

Graveside services were held Wednesday afternoon in the Cathedral of the Pines Cemetery at Tyler, under direction of Lloyd James Funeral Home.

Mason, born in Dallas, lived in Midland from 1965 to 1974 and was a graduate of Midland's Lee High School. He attended the John Connally Technical School in Waco and was employed by a bakery firm in Austin. He was an Episcopalian.

Surviving are his parents, Mr. and Mrs. F.M. Mason of Tyler; two sisters, Sarah Elizabeth Stroup of Richardson and Allison Mason of Tyler; a brother, Frank M. Mason Jr. of San Antonio, and his maternal grandmother, Mrs. E.E. Ray of Dallas.

The family has requested that any memorial contributions be directed to the Midland Association for Retarded

#### Many products may contain

#### some asbestos WASHINGTON (AP)

- Consumer protection officials, facing a possible end to the controversy over asbestos in hair dryers, now are turning their attention to use of asbestos in other common products.

**The Consumer Product** Safety Commission endorsed Thursday plans by 11 major companies to offer millions of consumers free modification of asbestos-containing hair dryers or replacement models.

The commission then directed its staff to try to identify other household products containing asbestos and to design a program to regulate any problems

"Asbestos is a ubiquitous product in the environment and in consumer products," said Susan King, head of the commission

#### Marceille Moore

Services for Marceille Moore, 54, of 1103 W. Kansas Ave., director of the Midland County Welfare Department, were to be at 4 p.m. today in Thomas Funeral Home with the Rev. Jerry Thorpe of the Temple Baptist Church in Odessa officiating.

Burial was to be in Resthaven Memorial Park.

Mrs. Moore died Thursday in a Midland hospital.

She was born April 23, 1925, in Itasca. She was director of the county's welfare department for the past 11 years. She resided in Brownfield before moving to Midland in 1966.

Survivors include a daughter, Jane Burton of Midland; a brother, A.C. Lambert Jr. of Amarillo; a sister, Mrs. Harry Neuhardt of Amarillo, and her parents, Mr. and Mrs. A.C. Lambert Sr. of O'Donnell

Pallbearers were to be R.C. Carroll Jr., Bob Leggott, E.C. Farris and Richard Mansell. Honorary pallbearers include County Judge William Ahders and the county commission-

Jack Leonard and Win Brown.

## Iva B. Grissom

LAMESA - Services for Iva B. Grissom, 64, of Lamesa were to be at 2 p.m. today in Northside Baptist Church here with the Rev. Billy Bush, pastor, and the Rev. E.G. Lambright, pastor of the First Baptist Church at Melrose, N.M., both offficiating.

Burial was in Lamesa Memorial Park under direction of Branon Funeral Home.

Mrs. Grissom died Tuesday afternoon in her home.

She was a Dawson County resident for 39 years. She was married to Ed Grissom in Lovington, N.M., in 1939 and the couple farmed in the Key community until he died in 1968. She was a Baptist.

Survivors include three sons, Paul Grissom of El Paso, Eddie Grissom of Orlando, Fla., and Jerry Grissom of Mount Pleasant; two daughters, Faye Langham of Claypool, Ariz., and Patsy Lambright of Melrose.

ers, Durward Wright, Charlie Welch, N.M.; two sisters, Audrey Chapman of Lamesa and Mrs. Dan James of Palestine; a brother, Norman Chaffin of Lubbock, eight grandchildren and three great-grandchildren.

Roy McLemore from Houston sits on a bench in Riohacha, Golombia, Thursday with Colombian soldiers guarding him at

rear. McLemore was held for ransom for 17 days, escaped and was arrested by Colombian troops. (AP Laserphoto)

# 'I thought we were goners

Texan tells bizarre story of kidnapping in Columbia

RIOHACHA, Colombia (AP) — Texas pilot Roy McLemore says he was certain his kidnappers were going to kill him, but God saved him and he's ready for church after being robbed. shot at and held nine days in the broiling desert and seven more in a house full of screaming

McLemore wept after he escaped from the house in the northern Colombian town of Maicao and jumped into an army jeep.

'I've never been a religious man," he said. "but I think I'm going to start going to

McLemore's escape Tuesday didn't mean the end of his problems. He was put in a steaming, fly-infested jail in this waterfront hangout for Colombian dope smugglers and charged with illegally entering the country's airspace. His co-pilot, Houston fireman William Spradley, is hospitalized with a bullet in the back and faces the same charge

McLemore was interviewed Thursday by The Associated Press in the back of a pickup truck while being taken from an army base to the jail. This was his story

He and Spradley, who flies in his spare time to make extra money, were en route from Miami to Venezuela April 29 to pick up some oil-drilling bits when engine trouble forced them to land on Colombia's Guajira Peninsula.

Tons of marijuana are flown out daily to the United States from desert airstrips on the peninsula, and rival gangs there frequently shoot American pilots if they land at the wrong airstrip and rob them of the thousands of dollars in cash they carry to pay for the drug.

"People came from every direction, grabbing our billfolds, watches, and things out of the plane, too, even the spare oil. They were like starving people who find some meat.

'Bill and I jumped into one of the trucks these people had and took off. I was driving and two other trucks were chasing us. Ours got bogged down and one of the men ran up to Bill's side and fired four shots - bam, bam, bam, bam. Bill got hit. There was blood all over the place. Then they pulled us out and threw us down on the sand. Bill's blood was all over me so I guess they thought they had shot me, too, but I wasn't hit. Anyway they drove off and left us there to die,

they thought. They lay in the desert for 30 or 45 minutes when

they saw vehicle lights approaching.

the job. I thought we were goners for sure. These people got out and stood around us jabbering for maybe half an hour and it finally dawned on me

that they weren't the same people.' The people were Indians, and McLemore used the few words of Spanish he knew trying to get Spradley to a hospital. The Indians loaded the wounded man into the back of a pickup truck and took him to a clinic in a village about two hours way. Then they took McLemore to "a hut, a little shack made out of sticks. They gave me

water and put up a hammock for me that night. "The next day three tough-looking characters showed up and in some broken English told me they wanted to know who in the United States they could call to demand a ransom. Then they took me to another shack about an hour and a half away and stuck me in a goat-killing pen with nothing but cactus around as far as you

McLemore said he was there nine days. Whenever his two guards heard one of the army helicopters that make regular trips over the desert "they would whip out their guns and make me run into cactus and hide as long as half an hour. I got cactus spines into me all over, and God, it was hot.'

But McLemore said in general he was treated and fed well. His captors brought him ice water from a nearby shack, cold soft drinks, cans of meat, crackers, bread and cigarettes.

"Then some men came and gave me back everything from my billfold except the money, he went on. "There was a blank check of mine and they made me sign it for \$100,000."

After nine days he was taken to a house about two hours away in the small town of Maicao. another haven for smugglers close to the Venezuelan border.

"It was three rooms and there were 10 people living there. I guess six of them were kids and there was one old woman. They were very nice to me and I think the kidnappers, at least from the way they seemed to be threatening the family, had threatened to kill all of them if they didn't keep me there.

"Two of the people would sleep in the kitchen and the other eight slept on pieces of cardboard in my room. There was a sheet they draped from the ceiling to separate my part of the room from theirs. I never saw any guns among the people who were living there. It was only the other men who came almost every day and threatened to

# 'Youngest Congressman' title does have compensations

in their answer to Gar- evidence the chemical

By RUDY MAXA The Washington Post

WASHINGTON - His mother said, "Oh, my God!" when she heard he intended to run for Congress, but now Mrs. Shannon's little boy James has his own office on Capitol Hill. And as the youngest federal legislator, Shannon doesn't mind the title 'Kid Congresman.'

"You stand out; people know who you are," says the Andover and Johns Hopkins-educated congressman who turned 27 earlier this month. Shannon a Democrat from a district near Boston — is the only congressman born since 1950. When elected last year at age 26, he was a mere year over the minimum constitutional age for his office.

Since he was 8 years old, when his father, a physician, took him to rallies for John Kennedy, Shannon has been drawn toward politics. The magnet was Washington, which is why he attended college in Baltimore. Impatient to get his name on a ballot somewhere, he earned his degree in political science in three years and immediately pursued a law degree at George Washington University

Shannon was a political junkie on Capitol Hill who spent his free hours lobbying against America's involvement in Vietnam, interviewing members of the Masschusetts congressional delegation, and writing a thesis on Tip O'Neill. In that last project Shannon predicted O'Neill would never become House speaker; it was, of course, Speaker O'Neill who this year made Shannon the youngest member of the House Ways and Means Committee since

"I had kind of been thinking of how to get elected to the House," says Shannon of his student days in the Washington-Baltimore area. He returned to his hometown of Lawrence, set up a law practice that never did very well, and began thinking politics. "I keyed on a state senate seat and in 1976 lost by nine votes to the incumbent (who was 50 years older than Shannon). I thought I was the unluckiest guy in the world."

His luck changed. A House seat opened unexpectedly when Paul Tsongas decided to run for Edward Brooke's Senate spot. Shannon won in a crowded primary and then handily defeated the mayor of Lowell in the general election. While his age was Shannon, D-Mass. He was 27 in April. (Washnot a major issue, his stand against Proposition ington Post Photo) 13-like proposals, his belief that the government ought not meddle in the abortion issue, and his advocacy of mandatory wage-price controls did set him apart.

Shannon does not have a lean and hungry look posed and reelected last despite his lifelong lust for office. He is serious and amiable and his early success surprises him.

"I arrived here never having done anything longer than a stretch of four years," he says. "I can't Ph.D. in French history at Boston University, just envision doing the same thing when I'm 40 years old. joined him here.

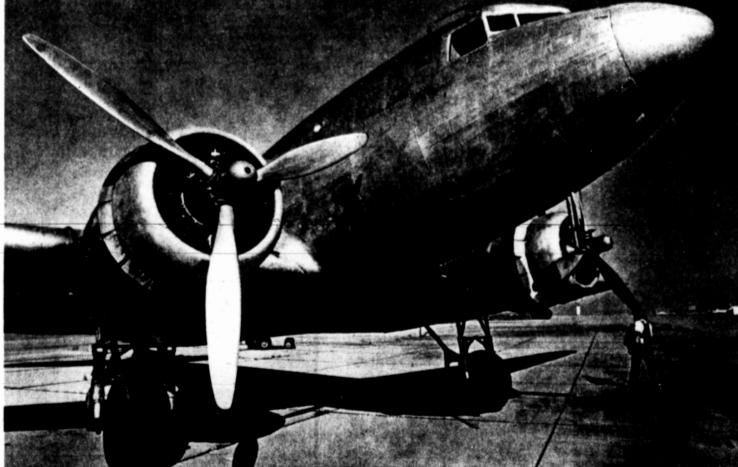

The youngest member of Congress in James

The worst that can happen is that I'll have done what I wanted to do for at least one term. Now that I've done it. I can think about other things... I can think about lying on a beach for six months someday. That

# TVA workers hushed up

KNOXVILLE, Tenn. (AP) - The Tennessee Valley Authority ordered its employees to quit speaking publicly about its nuclear power program after the Three Mile Island nuclear accident, TVA officials say.

The officials, who asked not to be identified, said Thursday the order was sent down last week by the government utility's two directors Chairman S. David Freeman and Richard M. Freeman

The officials said the two directors. who are not related, reportedly were upset about news stories quoting officials on how the March 28 accident at the Pennsylvania plant affects TVA's nuclear commitment.

Richard Freeman defended the directive but said it was issued it much earlier than last week.

"It's not a gag order," he said. 'Simply, we just don't have anything to say until we have our own analysis of Three Mile Island, what when wrong there and the impact on our own operation.

TVA's directors have ordered a staff study of the Three Mile Island which has the largest nuclear commitment of any utility in the nation. Freeman said the report should be completed by the end of May

"It's a matter of timing, that's all," he said. "We're not going to be popping off on things we don't know anything about until we have some confidence that we know what we're

# Prison glove factory OKd

BIG SPRING - Plans for a glove manufacturing plant to be part of a proposed prison complex for Big Spring were approved Thursday by the Big Spring Steering Committee.

John Allman, superintendent for the minimum-security prison which is scheduled to open July 1, appeared before the board on behalf of the request.

According to Allman's presentation, the work force at the facility will eventually grow to 120 people with the addition of the new industries to the

The board granted approval for three warehouses which would be located in the Big Spring Industrial Park. One of those warehouses would be used as the site for an electronic cable manufacturing plant which is being transferred to Big Spring from the McNeil Island Federal Prison in New York. That facility is closing, Allman said.

Allman told the committee that the U.S. Bureau of Prisons had decided against using the old Webb Air Force Base Hospital as a site for the glove

Allman said the prison's projected opening date of July 1 "was still realistic

#### Man hurt in car wreck

A 32-year-old Midland man was listed in satisfactory condition early today with multiple bruises and cuts suffered in a two-car collision, officials said.

Randolph Bortree, 32, of Route 5 was admitted to Midland Memorial Hospital about 9:20 p.m. Thursday after the car he was driving and a car driven by Antonio Hernandez, 31, also of Route 5, collided, officials said.

The accident occurred on the service road of Interstate 20 near its intersection with County Road 223. officials said.

# Drive for better autos to begin

WASHINGTON (AP) - President Carter summoned the nation's big four automakers to the White House today to discuss a program aimed at developing a safe, fuel-thrifty and

non-polluting "car of the future." Transportation Secretary Brock Adams, who set up the meeting, has called for domestic automakers to

Now the Carter administration seems on the verge of offering federal help in doing that.

"re-invent the automobile."

Proposals for a joint industry-government research and development program already have been cleared by the Justice Department, which has ruled that antitrust laws won't bar the automakers from sharing research information developed by such a pro-

Administration officials envision grants to universities and private researchers with fruits of the research available to any manufacturer who wishes to use it.

"All this will be in the public domain," said one administration official, asking not to be named.

"This is Brock's 'car of the future' effort," said a Transportation Department official, likewise asking to remain anonymous

"The aim of it is to kind of get a program going," said the official, who said an announcement was likely today but who also cautioned. 'There's many a slip twixt the cup and the lip.

General Motors spokesman John Hartnett said only that the auto executives were coming at the bidding of

the White House. "They invited us,"

he said.

Also invited were chief executives from Ford, Chrysler and American

Not officially on the agenda but sure to be discussed was the automakers' complaint that the government's timetable for improving gasoline mileage in new cars is unreason-

able and too costly to consumers. The companies no longer contest the congressionally mandated goal of an average of 27:5 miles to the gallon for 1985 models.

# Performers resort to earplugs

PHILADELPHIA -(AP) — When 40 Philadelphia Orchestra string players donned earplugs during rehearsals of George Crumb's cantata "Star Child," it wasn't that they didn't like the music. They just thought it was too loud.

"It is a pollution problem, and a potential health hazard," said orchestra personnel manager Mason

The players said they took the unusual step to protect themselves from a thunderous five-minute stint by the expanded percussion section and resounding trumpets. For Crumb's composition, the strings have been moved from their usual place

PHONE. 697-3204

CINE 4

would wear the ear protectors during the performances, scheduled for Thursday, Friday and Satur-"For some parts of the piece, it's quite likely," Santarlasci said. 'We handed them out because some of the strings are sitting right next to the battery (percussion) section. There's a loud period during bout four or five minutes of the piece. 'The rest of it, some of it, is rather quiet, but there SPECIAL—SPECIAL—TONIGHT SHOW TONIGHT

Stock market gains

NEW YORK (AP) - The stock market ran up a stronggain today in a rally that got its start late in Tuesday's session. Trading remained relatively quiet, however. Analysts said the upswing

stemmed largely from internal market forces after the decline of the past several weeks. On Wednesday the government reported declines in

housing starts and industrial production. Some saw the figures as tentative evidence of a slowing in the economv. But brokers also noted that a reduced economic pace might be warmly received by many investors hoping for an easing of inflation and interest rates. They

market responded favorably to the news. The Dow Jones average of 30 industrials jumped 14.47 to 42.95 for its best shoing in

# Machines save, if used properly

By JOHN CUNNIFF

NEW YORK (AP) - What should American industry do after having spent in recent years \$70 billion a year for office information systems, only to find that office productivity has barely increased at all? Spend more. Yes, more, says Harvey Poppel of

Booz, Allen & Hamilton. Spend more, and within 10 years the potential savings will be hundreds of billions of dollars a year. He stakes his future on it. Laggard office productivity, he states, is not the fault of machines - the typewriters, copiers, computers and mail and telephone devices. The problem,

he says, is one of proper usage, a management Office automation, says Poppel, whose background at the big consulting firm is in both management and technology, has been applied mainly to clerical procedures, where the savings potential is

relatively low. Now, he maintains, industry must automate the professional and management areas, where savings could be enormous but where the target is more elusive, one of the reasons it has been ingnored to

"Considering that professional-level wages are two to three times clerical wages, even a modest improvement at this level could result in substantial economy and increased quality," Poppel reasons.

"In fact, our projections show that with better professional-level productivity, the gross savings to U.S. business could amount to more than \$300 million annually by 1980," he states. Numbers of that size talk. Financed by technology

producers and users, Booz, Allen has begun a 10month study to document its estimates, "to make a case that will stand the scrutiny of the business executive." Those are the words of Poppel, senior vice presi-

dent, who says he has done enough limited, specific studies to feel confident in making this larger one. He would not have taken the step five years ago, he Since then technology has improved. "I've watched it ripen to a point where it can do most of the

things we feel need to be done," he said. Manufacturers are confident too, as confident as users are Among initial supporters of the study are American Telephone & Telegraph, International Business Machines, International Telephone & Telegraph, and

Xerox, potential beneficiaries as both makers and Their interest was sharpened by those earlier studies hinting at the possibilities.

That, for instance, up to 50 percent of business travel might be eliminated by "teleconferencing." Or that professionals often don't do what they're paid for, such as to analyze and communicate, but instead spend it in search of data that should be available at the touch of a button.

So much time is also spent seeking and absorbing information from print, or telephoning, or sitting in informational meetings that it leaves only 30 percent of time for analysis, Poppel has determined. In a government office he found that of 800 profes-

sional hours, 200 were spent on clerical support work that could be handled by technology. "A 25 percent improvement right off the top," he said. Not only can it be done, it must, he insists. "The demands on managers and professionals is increas-

so many hurdles, like politics and environment." You cannot overpower these problems with people, warns Poppel, "so you have to make the people more productive." Already, he observes, recently trained

professionals work with machinery routinely. How incongruous, he thinks, that there has been such an enormous growth in clerical systems high-speed copiers, computers, "smart" telephone

systems, memory typewrters - and so little for professionals. "It's time to focus greater attention on the more

than 20 million managers and other professionals who populate our offices," he said. Automation must be made available to them as it was to the clerks.

## Kindergarten round-up set at Fannin School

Parents of children who will be attending kindergarten at Fannin Elementary School next year should come by the school at Fannin and Lanham streets next week to pick up pre-registration forms and information, school principal Bob Watkins

The kindergarten round-up set Monday through Friday from 8 a.m. to 4 p.m. each day is for children who will be 5 by Sept. 1 and who live in the Fannin district, he noted.

Parents of students who will be entering Fannin for the first time for first grade also should come by the school office for pre-registration forms, he said. Before registering, students will need to have a birth certificate and immunzation records.

## Car cushions busload from injuries in wreck

SAN ANTONIO, Texas (AP) - A small car smashed between a fully loaded gravel truck and a stationary school bus provided a cushion that saved 52 high school students and their bus driver from injury in a wreck Thursday, according to witnesses and authorities. The driver of the car was killed, but there were no

other injuries, officials said. "If that little car hadn't been between us and the

truck, there's no telling how many kids might have been killed," said Blaine Church, 55, driver of the "That car that was in between the truck and the bus acted as sort of a cushion and it really prevented

a disaster," said W.H. Ferrell, a Bexar County sheriff's deputy who was first on the scene. Brian Keith Stone, 20, was identified as the driver of the car. The driver of the truck was identified by Ferrell as 25-year-old Montgomery Hine.

The wreck occurred on the city's northeast fringe

as Church stopped the bus to let off two students "I could see them (the car and gravel truck) coming in the mirror," said Church. "I didn't know what was going to happen. They couldn't go around me because the cars in the oncoming lane were stopped for the school bus."

"We're going to be hit! We're going to be hit!" Church said the students cried as they looked out the back window "The kids looked like they were going to panic, so I

yelled, 'Hang on!, Hang on!' and that's what they did," Church said.

James W. Watson, senior vice president of DeGolyer and MacNaughton, the U.S. firm hired by Mexico to certify its oil discoveries, said Mexico's proved oil reserves are well below 28 billion barrels.

"We've reminded (the Mexican government) over and over about the danger of losing credibility," Watson said. "We've been trying to hold them

Watson, who has been in charge of certifying Mexico's oil and natural

national petroleum company, vowed to "set the record straight" in any future Department of Energy hearings in Washington on the purchase of Mexican natural gas by U.S. compan-

Pemex hired the Dallas firm in 1976, not only to certify its petroleum discoveries, but to get the credibility it desperately needed to borrow funds from international banking con-

The Mexican government has also indicated potential reserves may be as high as 200 billion barrels, but petroleum experts and government officials said those estimates are grossly in error, the paper reported.

A.A. Meyerhoff, of Tulsa, Okla., one of the world's leading geologists, said the estimate of 200 billion barrels was 'utter nonsense.'

Francisco Viniegra, former exploration manager for Pemex, said of the 200 billion estimate: "It's impossible. I know the geology of Mexico and it's not there.

# OIME shows off vast manufacturing facilities

ODESSA — West Texas industry and civic leaders got a good look at the Oil Industries Manufacturing and Engineering (OIME) facilities Thursday in Odessa during the firm's Permian Basin Day which was designed to show off its sprawling plant.

OIME, one of world's leading manufacturers of drilling industry equipment, conducts its operations at its engineering and factrication facility which covers 54 acres of land between Insterstate 20 and U.S. 80 immediately east of Odessa

E. "Bud" Prince Jr., president of OIME, told the plant visitors that OIME was founded in 1957 to build drilling rig components, and now the manufacturing concern is the third largest maker of drilling industry equipment.

Since 1975, OIME has been a wholly-owned subsidiary of Parker Drilling Company of Tulsa, the worlds largest publicly-held, land-based drilling company.

OIME employs approximately 400 skilled professional and craft workers, including designers, engineers,

## Plant bill approved

approved a bill Thursday providing Rep. Dan Kubiak's bill was sent to

the governor on a 31-0 vote. The measure would allow the Texas Industrial Commission to make loans totaling up to 90 percent of the plant

machinists, welders and assemblers Prince said that although OIME does have a standard product line. much of its manufacturing is for what a customer needs "exactly what the customer needs, to his specifications and in an unbelievably short time. This includes drilling rig packages, rig modifications, drawworks, specialized well stimulation equipment and custom power transmission equipment.

OIME engineering has developed the Heli-Hoist Rig, a complete drilling rig package which breaks down into loads that can be hauled economically into remote locations by helicopter; a completly self-contained drilling rig and living facility on wheels, specifically designed to function in severe Arctic conditions; the Hercules E-300 electric drillinfg rig - a rig which can drill deeper than man has ever drilled before; the OIME Split Level Rig, a design which OIME feels will be the drilling rig of the future, and offshore workover rigs and custon designed drawworks. from 350 to 3,000 horse-

OIME's facility includes more than 110,000 square feet of working space under roof.

The Thursday visitors examined OIME's 18.000-square-foot material preparation facility, a completely integrated machine shop, the immense welding and fabrication area and the AUSTIN, Texas (AP) - The Senate 39-acre rig up yard which is so vast that the tour of that area was by

Prince pointed out that OIME's 1978 payroll was in excess of \$10 million "We estimate that 1,500 or more employees, and their dependents, are supported directly by OIME - and countless others indirectly.'

## Charges considered

WASHINGTON (AP) - The Federal Trade Commission is considering bringing antitrust charges against four companies accused of tipping each other to planned price changes through

An agency official who asked not to be named said Thursday the FTC staff has recommended that formal charges be lodged against four firms making antiknock additives for gasoline.

They are: Ethyl Corp. of Richmond, Va.; Du Pont Co. of Wilmington, Del.; PPG Industries Inc. of Pittsburgh, and Nalco Chemical Co. of Oak Brook, Ill.

A spokesman for Ethyl Corp. said the company believed its actions were "proper" and would fight any charges brought by the FTC. Du Pont and Nalco officials had no comment. PPG officials were not immediately available.

If charges are filed, they would be the first alleging "price signaling.

The FTC source said such a case would not charge direct collusion, but would argue that the companies violated the law by communicating indirectly with each other through the press and by other means.

Common prices eventually could be worked out through announcements to the press and others, the official said.

The staff suggestion is for an order barring companies from giving customers and the press advance notice of price increases, the official said. He acknowledged that the commission would have to consider possible conflicts with the First Amendment guarantee of freedom of the press.

Harvey E. Yates Co. of Roswell. N.M., No. 2-22 Amoco-State is a new 12,500-foot operation in the Carlsbad, South (Morrow gas) pool of Eddy County, seven miles south of Carls-

The location is 1,980 feet from north and east lines of section 22-23s-27e.

Yates Petroleum Corp. of Artesia No. 2-CQ Allison-Federal is a 9,300foot test in the Boyd (Morrow) pool of Eddy County, 12 miles north of Lakewood.

It is 1,980 feet from south and 660 feet from west lines of section 12-19s-

MESA TESTER

Mesa Petroleum Co. of Midland No. 7 Nash Unit has been spotted 5/8 mile north of the Nash Draw (Morrow and Atoka) field of Eddy County, 10 miles northeast of Loving.

Contracted to 14,295 feet, it is 1,315 feet from south and 1,320 feet from west lines of section 7-23s-30e. Ground elevation is 3,012 feet.

ANTELOPE RIDGE Natomas North America, Inc.,

spotted location for a 13,900-foot Morrow project in the Antelope Ridge (Atoka and Morrow) pool of Lea County, 17 miles northwest of Jal. It is No. 2-23 Sgtate, 1,980 feet from north and west lines of section 23-23s-

LUSK, NORTH AREA Gulf Oil Corp. No. 1-D

Lansdale-Federal Communitized has been completed in the Lusk, North (Morrow gas) pool of Lea County, 11 miles south of Maljamar. The oprator reported a calculated

absolute open flow potential of 4,813,-000 cubic feet of gas per day, through perforations from 12,560 to 12,726 Total depth is 13,000 feet and 5.5-

inch pipe was cemented on bottom. The plugged back depth is 12,068

Wellsite is 1,980 feet from south and 660 feet from east lines of section 4-19s-32e.

LEO FIELD AREA

C. E. LaRue and B. N. Muncy Jr. of Artesia, N.M., No. 1-FR Federal has been completed in the Leo (Queen) field of Eddy County, 15 miles southwest of Maljar.

On 24-hour potential test it swabbed 35 barrels of 34-gravity oil and one barrel of water, through perforations opposite the Queen from 3,172 to 3,178 feet. The pay was acidized with 46 barrels and fractured with 87,000 gal-

Total depth is 3,610 feet and 5.5-inch casing is set at 3,610 feet.

Location is 1,980 feet from south and 660 feet from east lines of section

# California board boosts lead content in gasoline

By REYNOLDS R. RAST

LOS ANGELES (AP) - California's Air Resources Board and its state Senate have moved to allow a temporary boost in the lead content of gasoline as a way to increase fuel supplies for the gas-short state.

That prompted a debate over the amount of lead that should be allowed in gasoline, while gas station lines remained long — and tempers short. Things got so bad at one Los An-

geles station Thursday a shootout resulted that left three people wound-The effect of the ARB and Senate actions could be to move California

nearer to federal lead standards now in force in the rest of the country. For several years, as a way to manage smog and other air pollution, California has enforced more stringent standards. Those who want to relax the rules now say the standards have contributed to the current severe gasoline shortage in the state.

ARB Chairman Tom Quinn said the revision would eventually mean a 5 percent increase in gas production in the state.

But Sen. David Roberti, D-Los Angeles, objected, saying "the whole shortages is contrived in the first place because they (the oil companies) want to eliminate these standards."

The ARB resolution allows Chevron USA. Union Oil and Mobil Oil to begin production immediately under the relaxed standards, which expire Oct. 1. Other companies must separately request a lowering of lead content standards. Quinn said Chevron, Mobil and Union were the only firms attending the ARB meeting that passed the newtrules.

The ARB has been trying to get the oil firms to come up with detailed information on refinery operations, and Quinn laid down a one-week deadline after which he said they will face subpoenas.

An earlier attempt to relax lead standards was made Wednesday, while Democratic Gov. Edmund G. Brown Jr. was in Washington. Republican Lt. Gov. Mike Curb signed the order but Brown, on his return, dismissed it as "political hijinks." A spokesman said Brown wouldn't even bother to rescind it because it had no legal effect.

Brown took no direct role in Thursday's ARB action, but it was announced by Quinn, a Brown appoin-

Meanwhile, the state Senate passed two related bills authored by Sen. John Foran, D-San Francisco. One would boost lead levels for all oil companies, and the other would ease air pollution rules restricting the amount of fumes gasoline can give

Foran conceded the second bill might ause some smog, but if passed by the Assembly and signed by the governor, he said the two bills together would increase daily California

## Mobil quits Canyon area

ATLANTIC CITY, N.J. (AP) -Mobil Oil Corp. says it is giving up exploration off the mid-Atlantic coast after reporting the industry's 13th dry well in the Baltimore Canyon Trough.

Only three drilling rigs presently remain in the area off New Jersey and Delaware, although a few more are expected to begin wells on new lease tracts later this summer.

Mobil is the fifth oil company to give up on the mid-Atlantic drilling area, which the government predicted may hold as much as 1.02 billion barrels of oil and 13.5 trillion cubic feet of natural gas.

Mobil's dry well - its second in the area - was reported by the semi-submersible rig Western Pacesetter III about 100 miles east of Cape May in a little-explored area of the Baltimore Canyon Trough.

The well, started on Jan. 6, reached a depth of 13,992 feet and was plugged "after tests indicated no significant quantities of hydrocarbons," Mobil spokesman James Amanna said Wednesday.

The company's statement was taken in the industry to mean that some small signs of oil or gas were found in the well, which was in 258 feet of water about 10 miles from the edge of the Continental Shelf.

## Clements told crises near

AUSTIN, Texas (AP) - The United States may be on the "outer edge of the long-predicted energy crisis of the 1980s," Gov. Bill Clements was told Thursday by the Council on Energy Resources.

Clements asked the council to report to him on current policy energy issues to be used in supporting the Texas position in the energy crisis. The council, located at the Universi-

ty of Texas, said it may take a "herculean national and international ef-fort" to keep the energy shortage from reaching a global-wide crisis. The report said both the public and

keep the "sporadic energy shortages of the coming months" from exploding into something much more serious "a protracted global shortage of energy among the oil-producing na-

gasoline production by more than 5 million gallons. Meanwhile, the state's gasoline

shortage continued. Police said a Los Angeles gas sta-

#### **ENERGY** OIL & GAS

tion owner was shot after confronting a man who was trying to collect deposits for gas from motorists waiting in line. A shootout ensued when police arrived, and the alleged assailant and a policeman were also wounded. Police said Andrew Doyle, 28, was booked for investigation of attempted murder and assault with a deadly

weapon on a police officer. The Air Resources Board also was looking into reports that oil companies may have illegally stored gasoline in abandoned service stations sta-

In San Luis Obispo, meanwhile, 28 of 36 stations were closed in an apparent wildcat action despite a decision by the northern California service station association to call off a threatened four-day shutdown of stations to protest federal price con-

And the state Automobile Club reported that the state's odd-even gasoline distribution plan has had scant effect on gas lines.

# Homes in New England face short fuel supply

WASHINGTON (AP) - If action isn't taken beforehand, Americans in the Northeast may face cold winter months without enough heating oil to warm their homes, a new study

But the report from the New England Economic Research Office says the potentially serious problem can be averted if action is taken immediately, including even such drastic steps as ordering refineries to cut back gasoline production now to make more heating oil available

"A continuation of current trends in petroleum product supply and demand will result in a major shortage of home heating oil during January and February of next winter," the study said.

It claimed, "The problem is of sufficient gravity to pose the threat of empty heating oil tanks in some New England homes next February and March. Another problem, according to the

report, is that what heating oil is

available will be much more expen-

sive. It said oil selling now at all-time

high levels of 65 to 69 cents a gallon

may soar to 90 cents a gallon.

It said major heating oil suppliers are reluctant to renew contracts to wholesale and retail dealers, meaning more oil will have to be bought on the "spot market" at higher prices. The report urged the government to

use "high level jawboning" to persuade the refiners to renew contracts at "reasonable prices. The problem isn't limited to New England, the report said, because heating oil is used extensively in Mid-

west and Middle Atlantic states.

'This shortage...is a national economic problem as well," it said. The office that wrote the study does research on economic matters for members of Congress from New En-

In another development Thursday, the Federal Energy Commission approved rules to allow industrial fuel users and electric utilities to purchase natural gas directly from a producer, intrastate pipeline or local distribution company. The commission says the change will encourage industry and utilities to shift from oil to natural gas, at a saving o up to 250,000 barrels of oil a day.

# Class book quotes call for caution

By HUGH A. MULLIGAN

RIDGEFIELD, Conn. (AP) - It is epigram time once again across this singing land.

In the shadow of rented mortarboards young brows are furrowed, brains are being searched and ballpoint pens are poised to write an appropriate line of endearment alongside a photograph in the high school or college yearbook for a fellow or sister graduate.

Parting is indeed one of life's sweetest sorrows, when the parchments are handed out from the podium. So the exit line written to a departing classmate in the yearbook he or she just plunked down forty or so bucks for must perforce linger until the pages turn yellow and hairlines turn gray, even if everyone will see each other next morning in the carpark and all the rest of the summer at the

The line or lines penned next to the portrait must be tender, terse and take into consideration the ironic possibility that today's campus oaf may be tomorrow's Nobel laureate or the puffy-faced blonde named Norma Jean Baker might yet grow up to become Marilyn Monroe. Time has a way of tossing those kind of curve

balls at epigrammatists who get too sardonic with the material at hand.

A bit of obscurity in the prose might be the best way to write off the class schlepp or the one with the face like a washed out bridge, just in case the ensuing decades do produce an unlikely role reversal.

Something on the order of, "Aw, ya big lug," which Wallace Beery said to Jackie Coogan in the original version of "The Champ," (or was it to Marie Dressler in "Tugboat Annie?"), might be warmly evasive enough for the class Incredible Hulk or whoever was voted most likely to go through life on the wrist of a corrections offi-

For the class ogre, who may yet turn out to be a beauty or a brain, despite the evident odds, it is best to find some obscure passage in literature that can in no way be misconstrued as affection or insult, especially if the old man owns the local bank or has a controlling hand on the summer job market. There is a line in Vladimir Nabokov's "Ada" (not "Lolita" which some bluenoses might consider inappropriate for yearbook sentiments) that seems to say more than it says without actually saying anything, which is as close to poetry as one ought to get in writing for the ages in a book that might someday be held against you:

"Let us not squander the tumescence of retrieved time on the gush of small talk." I wish someone had written that in

my college yearbook instead of the drearily materialistic: "As you wander through life, broth-

Whatever be your goal, Keep your eye upon the donut

And not upon the hole." But there was one divine womanchild of russet hair and enormous purple eyes who penned besides my graduation photo lines that I thought at the time were the most exquisite ever devised by mortal invention:

"Remember the river. Remember the brook, Remember the girl

Who wrote in this book." Those words went off to summer camp with me that year, locked in my footlocker along with my scout knife and insect repellant, and they might have been engraved in my heart forever had I not learned that she wrote the very same lines in every other boy's book in the class. Not only that, but closer inspection of my own yearbook revealed that at least four other girls had defied the law of probability and thought up the same poem.

Class yearbooks hadn't been invented when William Wordsworth went to St. John's College in Cambridge, which didn't prevent him from writing the lines that I remember most in mine: "Bliss it was in that dawn to be

But to be young was very heav-

Unfortunately the person who inscribed this to me was a faculty member - chemistry, no less - and he gave me a "D," which shows how unpredictable this sort of commitment in poetry to posterity can be.

Looking through my own high school yearbook now, coming face to face with the friends of those thousand lovely yesterdays, I wish I had written next to all their pictures the verse from Yeats that Jim Smith, an AP colleague in Boston, quoted in response to a testimonial:

"Tell where one's glory begins and And say: My glory is I have such

Matthew T. Scott, son of Mr. and Mrs. Thomas E. Scott of Midland, standing, presents the Tau Beta Pi Outstanding Professor of the Year Award to Louis J. "Jack" Powers recently. Scott is chapter president of the honorary engineering association at Texas Tech University. The award is designed to recognize a professor's work with committees and student groups, teaching loads, research and overall achievements.

# DR. NEIL SOLOMON Cataract patients have alternatives

my father had an operation for cataracts about 20 years ago, he wound up wearing very thick glasses. At 57 years of age I am developing cataracts in both eyes and will soon be needing surgery. Are those heavy glasses still necessary? The thought of having to wear them troubles me more than the operation itself .- Ella

Dear Ella: A patient who undergoes cataract surgery today may have as many as three choices. Many patients continue to be fitted with the thick cataract glasses to which you refer. Aside from appearance, they have other drawbacks. They provide clear vision only through the center of the lens; they make objects appear about 30 percent larger than they actually are; and they may require frequent adjustments. In addition, some patients have difficulty adjusting to the distortion caused by the heavy lenses. And finally, cataract glasses are of limited value to patients who have had a cataract removed from only one eye.

A second method of lens replacement is with a contact lens. These provide for more natural vision than the cataract glasses, but are more difficult to handle. You are

probably aware of stories of lenses being dropped, misplaced, and lost; and older patients, in particular, often have trouble handling them.

The third and newest form of replacement is the intraocular lens. or lens implant, which is placed inside the eye in almost the same position previously occupied by the natural lens. If this method is appropriate, the patient may have almost normal vision without the need to clean or handle a lens of any kind.

Dear Dr. Solomon: Several months ago my doctor prescribed pills to help control my high blood pressure. Since then, my sex life has been going in one direction-down. Is this just a coincidence? I hate to think I'm over the hill sexually at 45.-Ed

Dear Ed: First of all, 45 is not over the hill sexually. Neither is 55, 65, 75 or even 85. In fact, sexual activity in healthy persons can continue virtually throughout their lives.

Secondly, some antihypertensive drugs can cause impotence in someand I emphasize "some"-men. although why this is so is not clear. having this effect on you is something you should discuss with your physician.

Since the April 10 tornado, owners of a Wichita Falls service station have had a guest - a boat-tailed grackle. The bird spends much of the day hopping around in the chrome-lined pumps, squawking as he

catches differing glimpses of his feathered profile. Whether he's an admirer or protester of the gasoline situation has not been determined. (AP Laserphoto)

UNLEADED

# Canadian vote nears

REGULAR

OTTAWA (AP) — Canada's political leaders neared the end of campaigning for the general election Tuesday.

In separate appearances Thursday, Liberal Party Clark hit out at Trudeau and Ed Broadbent, chief of the tiny New Democratic Party, while Broadbent took aim at Trudeau.

Trudeau, in his last campaign visit to the separatist-minded province of Quebec before the election, said Clark and his Conservatives were unable to provide strong central leadership because they rally and television interviews and is scheduled to changed their minds under pressure, spinning around like whirling dervishes.

Clark said in Toronto his public image has improved. "People see me as less of a robot," he said. Gunning for the opposition, he said the New Democratic Party campaign is collapsing because Broadstartled some lovers on a Lake Ontario beach when health. he sprinted over to introduce himself.

The prime minister, himself a French-Canadian praised themselves and blasted their foes as they from Montreal, amplified his pitch for a strong central government and for a constitution that would protected the language rights of French and English speakers. At a stop in Montreal's East End, he said Prime Minister Pierre Elliott Trudeau attacked his French-speakers could be devoured by Englishchief rival, Conservative Party leader Joe Clark, speaking Canada without constitutional language and cultural protections.

The desire of the predominant French-Canadian community in Quebec to protect its language and culture is a cornerstone of the Quebecers' crusade for independence.

Trudeau takes his campaign to Toronto today for a hold a later rally in Whitby, Ontario, Broadbent's home turf. Clark is off to British Columbia for campaign appearances at Penticton and Williams Lake and Broadbent is bound for Newfoundland, with stops scheduled at Gander and Grand Falls.

In another development, Robert Burns, the separbent lacks charisma and the Liberals are in trouble tist Parti Quebecois minister of parliamentary rebecause they were unprepared for the election. Clark form, announced he is quitting his post for reasons of

Burns, who suffered a heart attack several years Broadbent, in Sault Ste. Marie, Ontario, charged ago, offered a gloomyforecast for the outcome of a that Trudeau has waged a campaign of evasions and referendum on Quebec independence being planned insults. He told a raucous crowd of 400 in a union hall, by the party. If the vote were held today, he said, "It is time Trudeau is booted out of office — right support for independence would total no more than

Grande, Ohio, is volunteer worker Curtis Ramey. About 150 chickens are expected to compete. (AP Laserphoto)

# Profit debate may begin anew

WASHINGTON (AP) - The debate over corporate quarter) profits show a flattening," Business Week profits could heat up again with the government's said in the current issue, basing its conclusion on latest announcement of profit figures.

The announcement, due today, covers the first

three months of 1979. profits in the final quarter of 1978 were 26.4 percent Credit Corp. of Charlotte, N.C. ahead of the fourth quarter of 1977 drew howls from labor officials and from Alfred Kahn, the president's chief inflation fighter.

"Profit gouging," charged AFL-CIO President gets sentence

"It's a dramatic figure, and it's bad," said Kahn. The problem, of course, is that the government is attempting to slow the rate of inflation by getting contractor has been senvoluntary cooperation with wage and price guide-

Kahn and others fear that, if corporate profits rise and a \$5,000 fine for payrapidly, it will be diffiult to convince workers to ing kickbacks to General abide by the guidelines, which call for wage in Services Administration BEVERAGE Commiscreases of no more than 7 percent a year. Prices are employees. to be held half a percentage point below 1976-77 in-

The government's March and April reports the same penalty Thursshowed that profits for the fourth quarter of 1978 day on Carmen O'Connor totaled almost \$225 billion at a seasonally adjusted as he handed down last annual rate. That was an increase of 9.6 percent over week to contractor David the third quarter's \$205 billion. And it put the profits Harold Smith of Adelphi, increase for the year at just over 16 percent.

the figure for the first three months of this year 200 hours of community should show little growth from the final quarter of service as part of their 1979, especially when adjusted for inflation. This would parallel the change in the gross nation-

vices - which grew less than 1 percent in the first guilty to one count of con-'Compared with the fourth quarter of 1978, (first-
