AUSTIN, Texas (AP) — The Texas Killer Bees senators probably have succeeded in blocking a 1980 presidential primary bill they contend was tailor-made for John Connally, says Lt. Gov. Bill Hobby.

But don't expect Hobby to wave white flags, send out conciliatory messages to the dozen absentees or let down support for the controversial

"To reward behavior of this sort is obviously not wise," Hobby told reporters in his office Monday.

He scheduled a 10:30 a.m. Senate session today amidst rumors the gang would not reappear until 12:01 a.m. Wednesday.

If the AWOL senators return, Hobby was asked, would the presidential primary stand a chance of passage?

"I think not." he replied. As the group ended their fourth day undercover, Hobby, the Senate's presiding officer refused to withdraw warrants for their arrest.

He ordered them captured Friday after they boycotted a Senate session to stop action on a measure that would hold a 1980 presidential primary in March, separate from May primary elections. Unless two return, the 31-member Senate lacks 21 members needed for a quorum and can do

The rebels claim the primary measure would benefit Connally by allowing Democrats to vote in the Republican presidential contest, then cast ballots for conservative Democrat state candidates two months later. Connally, a Democrat when he served six years as Texas governor,

has said he does not care when Texas holds a primary Hobby thought one absent senator, Chet Brooks, D-Pasadena, was heading back Monday.

tion," the lieutenant governor said. Brooks told the Associated Press in a telephone interview that he was in

### One dead, seven hurt in McCamey

McCAMEY - One person was killed and seven others injured — two seriously - Monday night in a carpickup accident near here.

Thomas Gomez, 13, of McCamey was pronounced dead at the scene of the accident, about a mile south of McCamey on FM 305, by Peace Justice Sid Moody.

Gomez was a passenger in the car

According to Department of Public Safety reports, the pickup, driven by Anastacio Flores Jr., 28, of McCamey, attempted a U-turn in front of the car being driven by Santana Flores, 16, when the collision oc-

Lisa Gomez, 14, and Alice Corrales, 18, also passengers in the car, were taken to Odessa's Medical Center Hospital in serious condition, officials

The other injured were in fair condition in McCamey Hospital.

Those included Santana Flores, being observed at McCamey Hospital, and Reuben Molina, 13, who suffered a broken ankle and facial la-

Injured passengers in the pickup were Anastacio Flores Jr., who suffered a broken collar bone; Johnnie Gomez, 16, under observation, and Joe Guiterrez, 26, who suffered a broken collar bone. All the injured were from McCa-

# Demonstrators storm city hall in protest of manslaughter verdict

SAN FRANCISCO (AP) — Police used tear gas to break up a mob of about 5,000 angry demonstrators, many of them homosexual, who stormed city hall and set police cars afire after a jury ruled the killings of Mayor George Moscone and gay Supervisor Harvey Milk were manslaughter - not murder. Dozens were injured Monday night and damage was estimated at \$200,-

The city's gay community had expected the jury to find former Supervisor Dan White, who admitted the killings, guilty of murder in last fall's

City Hall killings. A verdict of firstdegree murder, sought by the prosecution, could have brought the death penalty. Under the verdict of voluntary manslaughter, White could be free in less than five years.

After the verdict was announced the demonstrators gathered and marched on City Hall as the sun set. The demonstrators used iron bars to smash the doors of the ornate

domed building, set cars afire and rampaged through the streets around City Hall. Chanting, they pelted City Hall with rocks, tomatoes and eggs. Several persons were injured by

flying glass when the doors were smashed, and police used the chemical Mace to control the crowd. Tear gas cannisters left a pall of acrid mist

More than a dozen police cars and private vehicles were set ablaze and their gasoline tanks exploded.

struck in the face by a rock. Her injuries reportedly were not serious. When the verdicts were announced, Mayor Dianne Feinstein issued a

The maximum sentence for White,

White had admitted shooting Moscone and Milk in their offices last Nov. 27, after trying to convince Mo-

posed reinstatement. White's defense was mental ill-

When the seven women and five men on the jury brought in their verdict, they were grim-faced after six days of deliberations, and nearly a month of being sequestered in a hotel

They refused to talk about the verdicts, but one juror, white-haired Grayce Jackson, described the jury as "very tense, very upset."

White bowed his head when the second verdict, for Milk's death, was read. There was a collective gasp in the packed 92-seat courtroom. And outside it, reaction was swift.

Many in the city's large homosexual community, estimated at one-sixth

of its 660,000 residents, marched from predominantly gay Castro Street to City Hall. The demonstration began peacefully, with shrill whistles and angry chants. Some protesters car-ried placards reading, "Avenge Har-vey Milk." Then came the march to City Hall, and the violence.

# Four feared drowned in flooded Devil's River

COMSTOCK - Authorities searched today for a fourth person feared drowned in Southwest Texas after floodwaters transformed the normally peaceful Devil's River into

Three bodies were recovered Monday near Texas 163, about 16 miles north of Comstock in Val Verde County, near the Mexican border. The victims were identified as Brad Elliott, 14, and his 12-year-old brother Byron, both of Ozona, and Del Rio resident David Sanchez, in his late

Department of Public Safety officials said they would continue to search for the boys' father, Larry

Elliott, who was missing and feared

Last Wednesday, Baker's Crossing on Devil's River was the site where a 48 year-old Midland man, Billie Rae Tisdale, drowned while swimming across the river, which often has strong undercurrents at that point. Tisdale was on vacation.

Four members of the Elliott family survived Sunday's Devil's River tragedy, including Martha Elliott, mother of the drowned boys, her 3-year-old daughter and two relatives, Mr. and Mrs. Louis Sparling, of Tulsa, Okla. DPS officers said the Elliotts were

# Terminally ill reader explains how he 'copes'

Editor's Note: The Reporter-Telegram recently published a series of articles on death and how people with terminal illnesses face that crisis.

The newspaper has received a response from a Midland resident who wanted to share with others his own ideas about how friends, loved ones and the terminally ill patient could best face the situation.

He asked that his name not be used. His letter follows:

Because I too have a terminal illness, I read with more than a cursory interest the series on death and crises appearing recently in The Midland

Reporter-Telegram. Since I am somewhat a pragmatic person, I find it difficult to relate to some of the individuals mentioned in your series as well as those in various other series on television and in peri-

Of course, the majority of persons written about are either in extreme pain and-or immobile or they are in their 20s or early 30s and under normal conditions would still have a large number of years life expectancy. They also usually have children living at home, whereas I am 55 years of age and both my children are adults in their 30s with families of their own.

Unlike most cases as mentioned in your and other reports, I experience no physical discomfort other than tiredness. I am able to travel, drive a car and walk about a mile a day. I visit my doctor but once every three or four months.

I ALSO FIND that I do not relate necessarily to Dr. Kubler-Ross' break down of the grief process mentioned in the article: denial, anger, bargaining, depression and resolu-

Of course I have had moments of depression, not because of the illness and its eventual outcome, but rather because some of the goals I had set for myself must be foregone. The resolution phase came when the diagnosis was given in October 1977.

I certainly have no quarrel with the public being made aware of this type of family and personal crisis and the consequences of the actions and reactions of those persons affected; however, I do not recall having ever read nor seen an article or program where the person with the illness is interviewed in depth other than as casually mentioned in your series.

The principal purpose of this letter is to try to express my personal convictions of how one with a terminal illness should act toward oneself (coping), toward the family and toward the general public. I also have some suggestions on how they might act with someone with a terminal

I REALIZE THAT I am but one person, whereas circumstances and severity (pain, immobility, etc.) have a great bearing on actions and reactions to situations. As I stated earlier, I do not suffer the pain and extremes of some illnesses. My thoughts are directed toward those persons who know of their illnesses, are mobile, can still communicate and commune with friends and neighbors, and are otherwise not incapacitated.

COPING (a few ideas, many will have others):

1. Get a constructive hobby. Keep your mind and hands busy. 2. If you are ambulatory, get out of the house. Go to town. Have a cup of

coffee with friends. 3. Face facts. You know you are terminal. After your death, your survivors are in for a rough time. Make it as easy on them as possible:

A. Meet with your funeral director. Pre-plan your funeral and make sure your family and minister know of your desires.

Fair skies tonight and

Wednesday. High Wednesday in the mid-80s. Details, Page 2A.

B. CHECK YOUR WILL. Be sure it says and does what you want. A good attorney can help prevent unnecces-

sary probates. See one.

C. Are your checking account and safety deposit box, as well as stocks, bonds and other matters of financial interests, so titled that your survivors can immediately have access? "Mr. and Mrs. John Doe" will just tie everything until a legal opinion is given. "John J. Doe or Mary Jane Doe" will work. If you are not sure, talk with your banker.

D. If you want to be an organ donor, make sure all survivors accountable know of your wishes. Remember, when you are deceased, you are no longer a legal entity and only your immediate survivors can make that 4. If possible, travel. Go see the

grandchildren. Go see that show you have always wanted to see.
5. Avoid feeling sorry for yourself. Remember the old saying, "I cried

when I had no shoes until I met a man who had no feet." Even though you are terminal, there are others also that way and many much worse than

6. IF POSSIBLE, get involved in civic affairs. Be an election official. The Tape Lending Library, museums, civic clubs, anything to help others.
7. If so inclined, get busy in your church, volunteer with the public

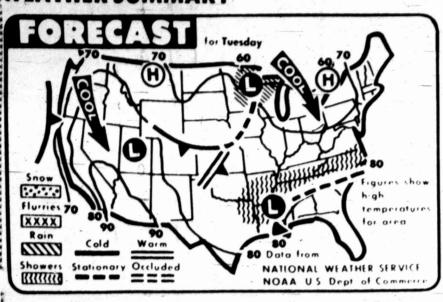

schools to be a teacher's aide. 8. Check your personal faith inventory. Do you have a faith which needs

you, or do you have one that really (See READER, Page 2A)

# Attempted murder cited among 22 indictments

A Midland County grand jury has returned indictments against 12 persons, including 52-year-old John Lee Johnson, who was indicted on a charge of attempted murder.

Johnson, of Midland, was indicted in connection with a May 8 stabbing incident which resulted in injury to Harvey Lee Williams, 46, of Mid-According to police who investigat-

ed the incident, Williams was stabbed in the chest with a file in the 1900 block of West Texas Avenue.

Johnson later was arrested and charged with attempted murder in the incident. He remains in Midland County Jail in lieu of posting a \$25,000 Also indicted by the grand jury was

27-year-old Russell Dwayne Wortham on a charge of possession of cocaine. Wortham is free on a \$10,000 bond.

He was arrested earlier this month for possession of a small amount of a substance believed to be cocaine, according to police.

Separate indictments on charges of felony theft were returned against Robert Roosevelt Hammons, Leo S. Malone, Thomas James Cloud, 41, of 1404 W. Washington Ave. and Paula Culp, 24, of San Angelo. Ms. Culp was re-indicted on the felony theft

Hammons is free on \$5,000 bond, Malone is free on \$5,000 bond, Cloud remains in jail in lieu of posting a \$7,500 bond, and Ms. Culp is free on \$3,000 bond.

Indicted on separate charges of burglary of a building were Dwane Allen Hicks of 1807 Rankin Highway and Lynn Duane Neighbors of 701

Hicks and Neighbors are free on \$5,000 bond each.

Names of the others indicted last Wednesday by the grand jury were not immediately available.

# Spell of rain to end; Basin to see fair skies

The weatherman says the rain that has fallen on the Basin for the past two days is coming to an end, and he foresees fair skies again by Wednes-

Monday's clouds dropped an official .1 inch of rain in the rain gauge at Midland Regional Airport, and little more than that anywhere in Midland, but some area towns got soaking

showers overnight. While Lamesans recorded only .25 inch in the city, many areas of the county received up to 2½ inches, according to unofficial reports.

Andrews weather watchers reported a good shower Monday night, but the clouds merely floated over Big Lake and Big Spring.
Recorded high Monday was a cool 75 degrees, nowhere near the record for the date of 105 set in 1953. Overnight low dipped to 57, somewhat closer to the record of 48 degrees set

Wednesday should be warmer, with the high predicted to be in the mid-80s. Tonight's low should be in the mid-50s.

Winds are expected to be from the

northeast at 5-10 mph tonight. Monday's shower brought Midland's monthly rainfall total to .94 inch, and upped the annual accumulation to 3.8 inches.

LONDON (AP) - The gold rush continued on the bullion markets today, with the price reaching a new peak of \$265.375 a troy ounce at midmorning - a rise of \$10 in a week and nearly \$19 since the start of the

month. The dollar dipped.

but certainly not for sympathy.

1. It's up to you how much you want others to know of your illness, but don't impose yourself just for sympathy. If they ask, tell them, but don't

# Rampaging Devil's River claims four more victims

(Continued from Page 1A)

returning to Ozona, 65 miles north of where the river crosses the highway at Baker's Crossing, late Sunday when the storm hit.

They reportedly stopped about 10 p.m. behind Sanchez' truck at a low water crossing. The exact location of the crossing, of which there are several along the Devil's River, was not known today.

In the latest drownings, the two men and teen-age boys decided to tie the two trucks together and wait out

the rising water, officials said. All four were in the Sanchez truck when the Elliott truck broke loose and floated downstream, said author-

The survivors were swept down the river, but the truck stayed afloat from an air bubble trapped inside. When it came to rest, the Elliott family found themselves chest high in water a quarter mile from the road, survivors

DPS investigators said the four in the Sanchez truck apparently got out of their truck to help the others.

Sanchez reached the teen-aged boys

and tied them to a tree, but rising water rose over their heads before help could come, said survivors. Sanchez drowned also, still clutching the rope tied around his body.

An aerial search for Elliott was conduct Monday by a DPS helicopter out of Midland and a U.S. Border Patrol airplane.

Today, searchers, including DPS officers and and Val Verde sheriff's deputies continued their search on foot and horseback.

Flood warnings and watches and severe thunderstorm warnings were posted throughout Texas Monday as thunderstorms rumbled eastward.

More than 4 inches of rain fell on Austin and between 3 to 4 inches fell on surrounding communities Monday night, flooding low lying areas.

Cary Williams, 14, was swept into a flooded drainage ditch and carried under two bridges before he managed to grab a tree and hang on until students from Austin's Travis Junior High School rescued him.

Wet streets may have contributed to the death of an 8-year-old Austin boy Monday. Tony Hernandez died after he was struck by a pickup

### United says it will honor all tickets

CHICAGO (AP) - United Airlines says it will honor passenger tickets for flights from all other airlines for 21 days from the time it resumes operations.

The carrier, which has been shut down since March 31 because of a strike by machinists, plans to resume limited operations May 28 and full operations seven to 10 days later if a tentative contract agreement reached Saturday with the International Association of Machinists and Aerospace Workers is ratified this

John Zeeman, vice president for passenger marketing, said Monday the proposal to accept comparable tickets from other airlines will provide added convenience such as more direct routing and wider choices of departure times and dates for air travelers.

Under the proposal, subject to Civil Aeronautics Board appoval, passengers holding regular or discount fare tickets issued by other airlines may present them for travel on United

during the 21-day period. "Many air travelers have been sorely inconvenienced during the strike against United," Zeeman said. "And we believe our acceptance of other airline tickets - at whatever fare is reflected on them — will aid passengers' travel plans."

### Gold rush continues

Both London and Zurich bullion prices were \$265.375, topping the records set only the day before of \$263.25 in London and \$262.52 in Zurich.

The gold rush has been spurred by alarm over inflation, reduced supplies of the metal and the dire effects the oil crisis may have on currencies

Reader explains how he 'copes

8. Communicate.

## Three firemen were hit by lightning as they battled a blaze at a church. All

for observation. Fire officials blamed lightning for the church fire and minor blazes at seven Austin homes.

were taken to Brackenridge Hospital not be possible.

2. Most people cannot relate to something they know nothing about and don't want to become involved, so don't get hurt if they "just don't understand." It's not that they neither understand nor sympathize. They are just uncomfortable with

strange things. 3. Those who know you know of your situation. If others want to know, they will ask - don't volunteer to tell them.

4. Be patient, but not smug. They, the public, still cannot separate their priorities into the important and the unimportant (and I would venture to say there would be argument on this between terminally ill persons).

5. Keep your sense of humor. You will be surprised how it will radiate in your relations with others.

THE FCLLOWING is my idea on how terminally ill persons want to be treated by the general public.

1. When you first hear of one's illness, we know you are probably uncomfortable, but please don't ratio nalize and say, "Everyone's termi-nal." We would all like to live a normal life span, but with us that will

2. Don't condescend. We don't want

special favors, just understanding. 3. Don't eliminate us from your plans. Ask us; we will tell you if we

can do it or not. 4. If you know of our condition,

please don't say, "How good you look." This makes us want to say, "How should we look?" 5. IF YOU NOTICE a personality

change, ignore it. Remember the ill person is probably getting his priorities into proper perspective and negatives just really don't matter anymore. In fact, he will probably go out of his way to avoid them. I am sure I have left out some items that others might want to add and

that there are some others would eliminate; however, in the 19 months I have known of my illness, these things I have either experienced or observed first hand. Again, as I said in the beginning, I am a pragmatist and my situation is

helped someone this day then I have had a good day. "Today is the first day of the rest of

your life" - make the most of it.

different than many, but if I have

# Former teacher chosen to fill vacant director's post by MCAA

By BILL MODISETT Staff Writer

Midland Community Action Agency's board of directors Monday night voted to hire Neva Cooper as the agency's new executive director. The action becomes effective

today A 50-year-old former schoolteacher, Mrs. Cooper fills the void created last March when Alexandra Morris resigned from the position, charging the agency with being "a political football" and not a viable entity without

elected officials. Mrs. Cooper said Monday night, "The only thing I know (about the problems of the agency) is what I

the support and cooperation of local

have read in the newspapers. "I wanted the job because I felt like it would be a challenge," she said. Mrs. Cooper added she believes she is qualified for the position and that the job will require a great deal of public relations work.

Changes for the agency may be forthcoming in future months, said the new executive director. "I think change is good for peop She said she will first learn the

operation of the agency and then make recommendations to improve the agency. A native of Midland, Mrs. Cooper and her husband, Paul, live in Green-

wood, 10 miles east of Midland. He is

an equipment auditor for Southwest-

ern Bell Telephone Co. Mrs. Cooper taught in Midland schools for 15 years. She holds a bachelor of science degree from Sul Ross State University and is working toward her master of arts degree from The University of Texas of the

Permian Basin The nine board members, meeting in the Midland County Courthouse,

unanimously approved Mrs. Cooper for the position. She was hired at a starting salary of \$900 a month.

Monday's meeting was reconvened from the May 14 meeting, at which directors met and discussed several items of business, but could take no formal action because of a lack of a The board indicated Monday that

the decision to hire Mrs. Cooper was made during an executive sesssion at that last meeting, but could not be finalized until Monday. Board members also unanimously voted to send letters to all directors

notifying them of a potential change

in the bylaws. Board member Charlie Welch had offered the motion at the previous meeting Under existing bylaws, it now takes eight members of the board - or 51

percent of the 15 members - to constitute a quorum. Welch proposed the bylaws be changed to allow the board to operate with only half of the "active, qualified

board members" present According to Board Chairman Alfredo Rey, if two-thirds of the members present at the next board meet ing approve the amendment to the bylaws, the change will go into effect. Nine members attended Monday's

meeting. The board also unanimously ratified all actions taken during last week's meeting.

Rev noted that former board mem ber Marti Garza will need to reapply for the board if she desires to rejoin the agency. Ms. Garza had resigned the board to seek the executive director's position.

The board also approved a resolution thanking Dolly Ball for acting as interim executive director. That resolution also extended to the board and the staff of MCAA.

The board approved a board training session for Saturday, June 23. At the conclusion of the meeting,

Rey said, "We've gone through a lot and we've all held together.' The agency has been criticized by city government officials and has operated without city support for the

### past two years. Mating game lacks 'winner'

TOKYO (AP) - Female panda Lan Lan seems interested in mating, but Kang Kang, the male, prefers playing with a swinging tire, Japanese experts said today.

"We thought mating season was at hand. We opened the screen partition. but Kang Kang wouldn't respond. So we called off their matrimonial date," Shiro Nakagawa, chief of the panda project team at Ueno Park Zoo, told reporters.

rubbed herself against the side of her cage 39 times, compared to the nor mal five or six times. "That's a sure sign," Nakagawa said, adding: We must be alert. A panda is liable

He said Lan Lan is restless and has

to get passionate all of a sudden at the least expected moment and we can't afford to miss the opportunity. The Japanese hope to become the

DR. NEIL SOLOMON

## Drinks may change medication effects

Dear Dr. Solomon: I take tetracycline for an acne condition. The other day a roommate of mine saw me taking a pill with a glass of milk and said it was not a good idea. What's the difference what you take with a pill as long as it goes down?—

Dear Connie: Your friend is correct. Certain combinations of drugs and food can make the drugs less useful. Tetracycline and milk is one such combination. Whenever a medicine is prescribed, the patient should be given specific instructions. Should it be taken on an empty stomach? Before, with, or after meals? How the drug is taken can influence its effectiveness.

In general, drugs should not be taken with carbonated drinks, or fruit or vegetable juices, since these may stimulate excess acid. The acid, in turn, may dissolve the drug in the stomach, instead of in the intestines, where it is more easily absorbed into the bloodstream.

If you are on medication, it is generally wise to avoid alcohol. Alcohol can conflict with a variety of drugs including antibiotics, anticoagulants, antihistamines, sedatives, tranquilizers and antihypertensive drugs.

Dear Dr. Solomon: My obstetrician wanted me to take a routine chest Xray, but I refused. This is my third pregnancy, and I've had no problem to warrant taking an X-ray at this time. Is this a common practice among obstetricians?-Mrs. B.N.

Dear Mrs. N.: You make a valid point. On the basis of a study done at the Mayo Clinic, Dr. George Malkesian, chairman of the division of obstetrics and medical gynecology, says that routine chest X-rays of pregnant women are a waste of money, and provide no useful medical information if the woman's medical history is known.

Of 11,725 pregnant women who were X-rayed routinely at the Clinic between January, 1966, through December, 1975, only 74 were found to have abnormalities. Moreover, in each case the patient either had a prior history of the problem, the abnormality was associated with the pregnancy and later disappeared, or the physician would have wanted an X-ray based on the findings at the physical examination. Dr. Malkasian adds, however, that where the medical history is not known, a

prenatal X-ray may well be indicated. The practice of requiring routine prenatal X-rays started when tuberculosis was prevalent. Today this is not a major disease in most areas, and a tuberculin skin test probably would be a preferable method of detection.

Dear Dr. Solomon: What are the chances that parents with sickle cell trait will pass it on to their children? - Mr. F.T.

Dear Mr. F.T.: Every time a man and woman who both have the trait, have a baby, the chances are: (1) two in four that the child will have the trait just like its parents; (2) one in four that the child will have the serious form known as sickle cell anemia; and (3) one in four that the child will have no form of the disease

## Trudeau catches puck at Montreal's Stanley Cup

MONTREAL (AP) - Prime Minister Pierre Elliott Trudeau caught an errant puck, swilled champagne with Stanley Cup hockey winners and drew screaming good wishes from Montreal fans in his final public appearance before today's general election.

Along the way, he received some valuable last-minute exposure on national television, which carried the hockey final between the Montreal Canadiens and New York Rangers live to millions of potential voters.

Trudeau appeared rested and exuberant, buoyed by a standing ovation from a crowd of more than 18,000 when he entered the Montreal Forum Monday night and wild cheers when

During the third period, he caught a wild puck shot over the boards, more than matching a feat by his chief political rival, Conservative Leader Joe Clark, who snagged a football tossed at him by some hotel workers at Jasper Park Lodge in Alberta earlier in the day.

The Permian Civic Ballet Guild made a \$5,000 donation to the Permian Civic Ballet Association at the guild's spring luncheon held in Midland Racquet Club. Accepting the check from Mrs. Max Curry, guild

president, second from left, is Gordon Marcum II, association president. Looking on are Mrs. James McGee, left, guild treasurer, and David Edwards, association treasurer. (Staff Photo)

# Wayne to get honor

WASHINGTON (AP) - John Wayne, who brought From the President of the United States, in a letter who fought and won World War II dozens of times, is man: taking Congress without a struggle.

"Few people are given the title, 'The," Rep. Barry Goldwater Jr. was saying. "There's The President -The Pope — The Queen — and The Duke.'

John Wayne, the Duke, 71, hospitalized for treatment of cancer, is going to have a congressional gold medal struck in his honor. No doubt about it.

The Senate already has approved the idea, and the House of Representatives is certain to do the same. Specifically, the legislation would authorize the president to present the gold medal to Wayne and authorize the Treasury Department to strike bronze replicas for sale to the public.

most of them - George Washington and Andrew Jackson to name two - didn't make movies about wars and the West. They lived them.

A House banking subcommittee met Monday to concert at 7:30 p.m. today. kick around the the idea of a medal for Wayne. It wasn't a hearing, it was a love feast.

Rep. Thomas Evans, R-Del., remembered growing up as a kid in Seaford, Del., shelling out 11 cents to "America the Beautiful," "Malaguena," "Manhat-Rep. Thomas Evans, R-Del., remembered growing watch John Wayne on the big screen. "And 11 cents tan Skyline" and highlights from "Superman." meant something," he said. "I learned a lot from John Wayne and I think

America learned a lot from him because he set the standard for American manhood," he said. Evans, 47, grew up on John Wayne. He was born

law 'n order to the American West single handedly, to Rep. Frank Annunzio, D-Ill., subcommittee chair

John Wayne's "true grit helped win the West, World War II, and the hearts of thousands of us

across the country and the world.' From Goldwater, R-Calif., sponsor of the medal

legislation in the House: 'Suffice it to say that this award will represent a sincere 'thank you' from his government and fellow citizens for a lifetime of loving his country with a fierce loyalty and more than a little pride in its goodness and despite its faults.'

### eplicas for sale to the public. Only 83 Americans have been so honored. And Lee bands play tonight

# Stock market gains

NEW YORK (AP) rapid-fire succession of merger developments provided most of the action as the stock market struggled to a small gain Monday.

The Dow Jones average of 30 industrials posted a .52 advance to 842.43 after drifting in a narrow range all day.

New York Stock Exchange volume was a sluggish 25.55 million shares, down from 26.59 million Friday.

But things were anything but quiet on the takeover front. Among numerous individual issues responding to merger news was Reliance Electric, up 10½ at 47 as of the 4 p.m. close in New York, following last Friday's announcement that Exxon had approached the company about a possible acquisition. Exxon, which said it was

interested in Reliance to help it develop a new energy-saving process for electric motors, rose 1/4 to 52.

Fairchild Camera & Instrument, which agreed to be acquired by Schlumberger Ltd. for \$66 a share in cash, led the active list and climbed 71/4 to 631/8. Fairchild had opposed a previous bid by Gould Inc. Schlumberger was off 31/4

at 691/4 in active trading. Florida Gas rose 41/4 to 44½ on word of a merger agreement with Continental

Group. The daily count on the NYSE showed about four gainers for every three stocks that declined, and the exchange's composite index rose .15 to 56.41

Standard & Poor's index of 400 industrials was up .20 at 111.62, and S&P's 500-stock composite index rose .21 to 100.14 At the American Stock Ex-

change, the market value index rose 1.08 to 181.18. The NAS-DAQ composite index for the over-the-count er market closed at 131.16, up .15.

### **NEWS IN BRIEF** Massive outage strikes Boston

BOSTON (AP) - Surgeons worked under emergency lighting and nurses carried green glow sticks through shadowy hospital corridors while utility crews worked to restore power that plunged eight hospitals, the Harvard Medical School and 40,000 homes into darknes for five hours.

The outage Monday night caused emergency cases to be diverted to other sections of the city. Elevators stopped between floors, trapping patients and visitors. Life support systems stopped temporarily and fire alarms were useless.

Boston Edison Co., the city's utility, said the blackout was caused by an explosion and fire at an electical substation. It was the second power failure in the city in as many months.

### Draft proposal looms

WASHINGTON (AP) - Proposals to renew peacetime draft registration for millions of young Americans may be moving forward faster than expected in the Senate Armed Services Committee.

Sen. Sam Nunn, D-Ga., said Monday the panel may consider the issue this week as part of a \$40 billion weapons and research bill, even though the committee already is a week late in completing action on the measure. The committee had planned to treat registration as

a separate issue later this year after completing work on the weapons bill.

### He was 'loyal' to Talmadge

WASHINGTON (AP) - Declaring that he acted out of "misplaced loyalty" to his former boss, Daniel Minchew says he personally handed over \$500 in cash to Sen. Herman E. Talmadge after funnelling the campaign contribution through a secret bank ac-

Minchew, Talmadge's closest aide from 1971 through 1974, said the transfer was part of an agreed upon scheme to provide cash for Talmadge to meet his personal expenses.

The Georgia Democrat denies any knowledge of the account and says Minchew is an embezzler who

### SALT signing in palace

VIENNA (AP) - The United States and the Soviet Union will sign the SALT II arms accord in the Hofburg Palace, former home of the Hapsburg dynasty, on the last day of the June 15-18 Vienna summit, the Austrian Press Agency reported

### More coal use urged

PARIS (AP) - Ministers of the 20-nation International Energy Agency concluded a two day meeting here today calling for greatly expanded use of coal, citing that fuel's abundant reserves in the face of swiftly dwindly and increasingly expensive oil sup-

The IEA, set up among oil consuming nations including the United States - to couterbalance the growing economic might of the Organization of Petroleum Exporting Countries, agreed to a final communique which said the members believe "greatly increased coal use is required to meet growing energy demand in the medium and long term.'

desirable and possible in light of the world's abundant coal reserves.

### Drug claims may be banned

WASHINGTON (AP) - Many claims made frequently in advertising non-prescription drugs, such as saying they are effective against colds, arthritis or indigestion, could be banned under a federal recommendation made today.

The Federal Trade Commission staff urged the commissioners to rule out claims made in advertisements for non-prescription drugs that are not allowed by the Food and Drug Administration on the labels.

FDA panels have recommended against allowing labels to tout a drug against colds, arthritis, indigestion and other maladies. If the FDA and the FTC each accept the recommendations, the claims would not be allowed in either labeling or advertising.

### Firemen to be freed

HOUSTON (AP) - Two Texas men held by the Colombian government for allegedly violating national air space and marijuana smuggling will be freed if they come up with \$60,000, says a Houston Fire Department spokesman.

William Spradley, a Houston firefighter, and Roy McLemore have been in Colombia since April 29. Spradley, who moonlights as a pilot, has reportedly said he and McLemore were headed for Venezuela to pick up drilling bits, but engine trouble forced them to land in Colombia.

He said Indians shot him in the back and kidnapped McLemore when they landed. Fire Chief V.E. Rogers flew to the Colombian coastal city Riohacha, where Spradley was being held, to negotiate his release.

Department spokesman Dale Everitt said Monday he was told the men were fined \$20,000 apiece for civil violations, and their combined attorneys fee

# Discoveries final; explorers staked

Westland Oil Development Corp. of Houston No. 1 Ralph Miller has been completed as a discovery from an unreported formation in Borden

SECTION B

County, eight miles north of Gail. Drilled to 8,722 feet, it finaled through perforations from 8,480 to 8,510 feet for a 24-hour pumping potential of 21 barrels of 38-gravity oil and 21 barrels of water. Gas-oil ratio is 142-1.

Location is 660 feet from north and west lines of section 32, block 30, T-6-N, John H. Gibson survey. It is 1.5 miles northeast of the one-

well Bull Creek (Mississippian oil) GARZA STRIKE

Maguire Oil Co. of Dallas No. 3-A Fletcher Lott Unit, has been completed as an Ellenburger discovery in the Vern-Mag (Strawn) field of Garza

County, six miles southwest of Post.

The operator reported a daily pumping potential of 45 barrels of 40.50-gravity oil, from open hole section at 8,510 feet, where 5.5-inch casing is cemented, and total depth of 8,531 feet.

The discovery is 1/2 mile southwest of 8,300-foot Strawn production and three and one-quarter miles northwest of 8,396-foot Ellenburger production in the Teas field.

Location is 300 feet from south and 200 feet from east lines of G. N. Fletcher Survey No. 1, abstract 438.

CROSBY EXPLORER

Threshold Development Co. of Fort Worth announced location for a 4,500foot wildcat in Crosby County, three miles south of Robertson.

The prospector is No. 1 J. F. Davis Jr., 467 feet from north and west lines of section 1042, bliock 1, H&OB survey and 3/4 mile east of Clear Fork production in the Hoople (Clear Fork)

CROSBY FIELD TEST

United Energy Corp. No. 3 Montgomery will be drilled one locations southeast of production in the Hoople (Clear Fork oil) pool of Crosby County, 10 miles south of Lorenzo.

Scheduled for a 4,600-foot bottom, it is 1,650 feet from north and 330 feet from east lines of section 131, block 29, W&NW survey. Ground elevation is 3,070 feet.

The Hoople (Clear Fork) field has four producers.

BORDEN RE-ENTRY

North American Royalties, Inc., Borden County, nine miles north of Vealmoor.

Bottomed at 8,320 feet, it will be re-entred and deepened to 9,850 feet. It is a southeast offset to a 8,291-foot dry hole and one and three-eighths miles northeast of the Good, Northeast (Canyon reef oil) pool.

Location is 1,980 feet from south and 730 feet from east lines of sectidon 21, block 32, T-4-N, T&P survey.

REEVES WILDCAT

Gulf Oil Corp. No. 6 S. E. Ligon-State has been spotted as a 7,000-foot wildcat to test an undesignated zone in Reeves County, 17 miles southeast

The prospector is 2,500 feet from south and 4,290 feet from west lines of section 16, block 7, H&GN survey. It is 5/8 mile south of a dual Ellenburger and Devonian gas well in the Worsham-Bayer pool and is a south offset to Gulf No. 4 Ligon which is bottomed at 6,700 feet waiting on potential test on perforations at 6,160 to 6,178 feet.

CROCKETT EXPLORER Dan J. Harrison Jr. of Houston No.

8-2-32 University is to be drilled as a 9.500-foot wildcat in Crockett County, 16 miles southwest of Ozona. The project is 660 feet from south

and west lines of section 2, block 32, University Lands survey. It is one and one-quarrer miles southeast of the Howards Creek (Canyon gas) pool and one location southwest of a 9,800foot dry hole. It also is one and threequarter miles southwest of the depleted Howards Creek, East (Pennsylvanian gas field.

**RE-ENTRY PROJECT** 

H&W Enterprises of Midland announced plans to re-enter and deepen to 1,750 feet the former Water Dog Oil Co. No. 1 University Block 46, project 16 miles southeast of Big Lake. To be operated as the No. 1 Water

Dog, it originally was drilled by Eason & Hancock to 1,748 feet and plugged back to 1,705 feet and completed in the Grayburg in the Block 46. East (Grayburg oil) pool. H&W will attempt to reopen the

depleted Grayburg pay. Location is 467 feet from north and 2,310 feet from west lines of section 12, block 46, University Lands survey.

RUNNELS TESTER

E. B. Fletcher of Dallas No. 1-427.1 Wade H. Meddow has been spotted as a 4,900-foot wildcat in Runnels County, seven miles east of Winters.

Location is 3,033 feet from north and 467 feet from east lines of Thomas R. Webb survey No. 358. The site is one mile southeast of the

Briley, Southeast pool and one mile west of the Enoch Johnson (Morris oil) pool. CHAVES PROJECTS Harlow Corp. of Amarillo spotted

to its No. 1-17 O'Brien Fee, recently completed pumping San Andres oil discovery in Chaves County, seven miles southeast of Elkins. Each of the tests will be drilled to

locations for three southwest outposts

2.850 feet. The No. 1 Kuchemann is one and

one-quarter miles southwest of the discovery and 990 feet from north and 954 feet from west lines of section No. 2-19 O'Brien Fee is one-half mile northeast of No. 1 Kuchemann

and 330 feet from south and 2,310 feet from east lines of section 19-8s-29e. No. 3-19 O'Brien Fee is 330 feet from south and 953 feet from west lines of section 19-8s-29e.

Jack G. Elam of Midland spotted locations for a pair of tests in the Elam (Strawn) area of Kent County, nine miles south of Clairemont. The No. 2-61 Wallace is a south-

west offset to the discovery well and 467 feet from south and 2,168 feet from east lines of secton 61, block 4, H&GN The No. 2-60-B Wallace is 1,980 feet

from north and 2,173 feet from east lines of section 60, block l, H&GN survey. It is a southeast offset to

They are scheduled to drill to 6,900

Pearson-Sibert Oil Co. of Midland No. 311 Frank Pearson Reef Unit has been finaled in the Frank Pearson (Strawn reef) pool of Coke County, 12 miles northwest of Robert Lee.

It finaled for a 24-hour pumping potential of 81.6 barrels of 43-gravity oil and 15 barrels of water, through perforations from 5,971 to 6,199 feet after a 10,000-gallon acid treatment. The gas-oil ratio is 1,628-1.

Total depth is 6,200 feet and 5.5-inch casing is cemented on bottom. Wellsite is 2,267 feet from north and

1,795 feet from east lines of section 151, block 2, H&TC survey.

Sabine Production Co. of Midland No. 3 D. K. Glenn, a re-entry operation, has been completed in the Abell (Detrital) pool of Crane County, seven miles northeast of Imperial.

It finaled on the pump for 10 barrels of 40.6-gravity oil and 240 barrels of water, with a gas-oil ratio of 2,000-1. Completion was through perfora-

tions from 5,256 to 5,294 feet, 5,232-5,-246 feet, and 5,201-5,219 feet. The pay was acidized with 2,825 gallons. Wellsite is 3,280 feet from northeast and 660 feet from southeast lines of

section 20, block 1, H&TC survey. It is a former McKee (lower Clear Fork) field producer. CULBERSON OUTPOST

American Trading & Production

Co. of Midland No. 1 F. H. Hillman is a new 2,800-foot test one and one-eighth miles south of C&K No. 1 Bateman, a south outpost to the Marsh, S (Delaware gas) pool of Cuberson County. It is waiting on potential test. The new project is 1,320 feet from-

north and west lines of section 45, block 45, psl survey and 10 miles southwest of Orla.

# Operators potential Ward gas producers

Hisson Drilling Co. No. 1 Julie has been completed as a gas well one and one-quarter miles southwest of the lone well in the Quito, West (Cherry Canyon gas) field of Ward County, seven miles north of Barstow.

It potentialed through Cherry Canyon Perforations from 5,938 to 6,428 feet for a calculated absolute open flow of 6,700,000 cubic feet of gas per

The pay was acidized with 1,500 gallons and fractured with 32,000 gal-

Total depth is 6,700 feet and 4.5-inch pipe is set at 6,519 feet.

A twin to Atoka gas production, it is 825 feet from northeast and 1980 feet from southeast lines of section 226, block 34, H&TC survey.

KIMSEY GASSER

Roy E. Kimsey Jr. of Midland No. 1 Lucia-Harvey-State is a new well in the Barstow field of Ward County, five miles east of Barstow. Operator reported a calculated ab-

solute open flow potential of 7.05 million cubic feet of gas per day, through perforations from 17,230 to 17,269 feet after a 9,000-gallon acid treatment. Total depth is 17,575 feet and fiveinch liner is set at 17,525 feet. The

plugged back depth is 17,478 feet. Wellsite is 2.5 miles northwest of clual Fusselman and Devonian production and one location west of Fusselman production in the Barstow

Rhe location is 8,400 feet from northeast and 933 feet from northwest lines of section 30, league 33, H&TC

# Wanda Sides promoted

Perry Gas Companies, Inc., an Odessa-based energy related holding company, announces the recent promotion of Wanda Sides and the addition of C.L. Gray to the staff.

Mrs. Sides has been promoted to administrative officer and assistant to the president of Perry Gas. She was also named assistant secretary of the corporation and for each of its seven wholly-owned subsidiaries. Mrs. Sides, a native Odessan, has

been with Perry Gas for six years serving as executive secretary and administrative assistant.

Gray, accounting supervisor for Perry Gas, was previously employed in the same capacity at El Paso Products Co., Odessa.

# Metal fatigue enters picture

GALVESTON (AP) - The rear leg of the Ranger I oil drilling rig may have broken off because of metal fatigue, according to the head of a board of inquiry looking into the May 10 collapse of the rig in which eight of the 34 men aboard were killed.

The rig toppled into the Gulf of Mexico south of Galveston. Rescuers saved 26 men and found the bodies of three others. Five men are still missing and presumed dead. There is a fracture all the way

around the leg about a foot above the mat." Capt. W.E. Whaley Jr. said Monday. The mat was the base of the rig, sitting 60 feet beneath it on the "The fracture face and configura-

tion compare to a typical fatigue failure," he said. Testimony during the four days of

hearings has shown crew members felt the rig shudder about five hours before the platform's stern leg collapsed at about 10:30 p.m.

# for more gasoline yield

Administration calling

WASHINGTON (AP) — The Carter administration, its energy policy under new attack today in Congress, is urging oil refiners to boost their production of gasoline to help ease shortages at service stations.

By TOM RAUM

Refineries have been asked by federal officials to "help ease the immediate shortage by increasing the rate of use of available crude oil and gasoline stocks," says Deputy Energy Secretary John F. O'Leary. Current oil and gasoline reserves

could be tapped by as much as 380,000 barrels a day through the end of August, O'Leary said Tuesday in written testimony for the Senate Energy Committee. rgy Committee.

Such a step woud permit gasoline
Rial No. 1-44 University, drilling
7,075 feet in lime and shale.

supplies to reach about 96 percent or 97 percent of last year's level and "help reduce long lines at gasoline stations," O'Leary said.

The statement appeared to reflect a significant change in administration policy, which previously had stressed the importance of building heating oil stocks for next winter - even at the expense of gasoline production.

However, O'Leary said crude oil and gasoline stocks could be drawn down "by a total of about 42 million. barrels by the end of the summer without causing serious operational problems.

Meanwhile, House Democrats were meeting today on a proposal to put Democrats on record as opposing the president's decision to lift price controls on domestic crude oil. Leaders of the move said it was

possible that a vote by the Democraticcaucus on their resolution might be postponed until Wednesday. Sen. Donald W. Riegle, D-Mich.,

chairman of the Senate Banking subcommittee on economic stabilization, criticized the administration today for blaming energy shortages on Con-'Wherever one assisgns the responsibility for this situation, there is

clearly a stark absence of coherent leadership on this issue," Riegle said. leadership on this issue," Riegle said.
His panel opened hearings on how the gasoline shortage is affecting independent oil suppliers and individual service station owners.

Rep. Toby Moffett, D-Conn., organizer of the stop-decontrol campaign, predicted victory for his resolution at the caucus of all 276 House Demo

the caucus of all 276 House Democrats. But he said today that an expected poor turnout might postpone the vote until Wednesday. "If we get a quorum, we have the votes," Moffett said. "I'd be shocked 11,027 feet in lime and shale.

if we didn't win on a recorded vote.' However, obtaining the majority turnout needed for a quorum has often proved difficult in attempts to put the Democratic Caucus on record on controversial issues and Moffett HOWARD COUNTY said he's not taking anything for

A staff study prepared for a House Commerce subcommitee claimed Monday that oil decontrol, combined with new federal gas pricing rules and inflation, will drive up the price of gasoline at least 20 cents a gallon by

And that assumes no further increases in world oil prices above the rate of inflation by the Organization of Petroleum Exporting Countries between now and 1981, the report said. Moffett's resolution would put House Democrats on record in favor

of continued price controls on oil. Although without legal force, such a vote would deal a heavy psychological blow to an administration energy policy still reeling from House rejection of the president's standby gasoline rationing plan.

"It's an attempt to gain momentum and send a signal to the White House," Moffett said in an interview. "At this time, we're gaining every day as House members get more and more angry.

Moffett said he also intends to offer a block-decontrol amendment on the House floor when the House considers legislation authorizing various Energy Department programs for fiscal

At the White House Monday, press secretary Jody Powell criticized the approach being taken by Congress in dealing with energy problems.

"Re-imposition of controls would be a nice, cheap vote in its political appeal, but it would do nothing for our energy problem," Powell said.

Moreover, he said, "If the Congress had passed the proposals the president sent up in 1977, we would be significantly better off in terms of gas supplies this summer."

Russell Erxleben with Saints' jersey.

# Erxleben signs million-dollar pact with New Orleans

NEW ORLEANS (AP) - The New Orleans Saints have signed their No. 1 draft choice, kicker Russell Erxleben of the University of Texas, to a sixyear, million-dollar contract.

The contract was signed Monday, but no terms were announced.

However, reports indicated it may have made Erxleben the highest paid kicker in professional football his-

The contract — a series of six, one-year pacts — reportedly included a \$300,000 signing bonus and a sliding salary that will average about \$150, 000 plus bonuses

Erxleben, both a punter and a kicker, holds the NCAA field goal record with a 77-yarder against Rice in 1977. He made three field goals of more than 60 yards and 11 of more

than 50 yards.

Asked if he thought his distance would be cut by the National Footbal League rules which forbid use of a kicking tee, Erxleben said it might b reduced about 10 yards a kick.

But he said he didn't expect any trouble kicking off the artificial turf in the Superdome

As a combination kicker, he scored 120 of 134 extra points attempted in college and 49 of 78 field goals. He punted 214 times for a 44.2-yard average, with a hang time on punts con-

sistently more than five seconds. Most NFL teams have a separate kicker and punter, but Erxleben said he plans to keep on kicking both

He said coaches' resistance to having only one kicker might be because it would require two replacements if the kicker got hurt.

"But we don't get hurt that much,"

"The kicking game is as important Jackson as offense and defense," Coach Dick Shrevepor Nolan told reporters. "Russell is capable of handling the kicking and punting jobs for us. I think we've corrected and cured our problems in

The Saints already have a kicker, Rich Szaro, and a punter, Tom Blan-

Erxleben said he'll try to take both their jobs. "I've got to get it from

Besides, he said, Szaro now wears a No. 15 jersey, and Erxleben, who was assigned No. 14 by the Saints, said: "This is the first time in my life I've had a different number than 15. I've been wearing 15 since high school, college and Little League

According to the NFL's player salary survey from 1978, Oakland All-Pro Ray Guy, a No. 1 pick in 1973, was piad \$68,571 last season. The highest salary recorded for a kicker in the survey was \$90,000 for an 11 year veteran, either Don Cockroft or Garo Yepremian.

Eddie Jones, executive vice president of the Saints, said he is "not sure Russell will be the highest paid kicker in the NFL but I'm sure he will be the highest scorer in the NFL.

# NCAA bracket ready for baseball playoffs

MISSION, Kan. (AP) - Eight atlarge teams have been selected by the NCAA to complete the 34-team bracket for the 1979 National Collegiate Division I Baseball Championship.

San Diego State, 53-16, was chosen at large Monday for the Mideast regional and will meet Mid-America

### MC seeking tennis crown

WACO, Texas (AP) - Jim Powell of Cumberland College (Tenn.) went against Jeff Savage of Prince George's Community College today to get the national junior college tennis tournament under way.

Their contest, scheduled for an 8 a.m. start, was in the first flight. The tournament has six flights of singles and three flights of doubles.

The tournament's top seed is Mike Brunnberg from Miami Dade South, Fla. No. 2 is Karl Richter of Odessa, Texas.

Odessa tied for the championship last year with Midland, Texas, and New Mexico Military Institute.

Players representing 49 schools are in the tournament. Coaches predict Odessa will repeat as champion, with Miami Dade South or Midland giving the strongest competition.

Among last year's returning players is Jose Rivera of Midland College, who won the sin-gles championship in the fourth flight last year but who is playing in the first flight this year as fourth seed. He has signed a letter of intent with Texas

Zahid Maniya of Central Texas College, runnerup to Riveria in the fourth flight last year, also is in the first flight this year. champion Miami of Ohio, 34-10. The other at-large selection in the Mideast, Pepperdine, 47-16, will meet Big Ten champion and host Michigan State,27-25. Dates of the regional are May 25-28.

In the Midwest regional Arizona, 39-23, was chosen at large and will host the games on the same dates. The Wildcats will meet Big Eight winner Oklahoma, 35-25. Hawaii, 66-12, previously chosen as an at-large team, will meet the Missouri Valley Conference winner, Indiana State, 41-

9, in the other Midwest game. Nebraska, 48-13, will meet Eastern Collegiate Athletic Conference representative St. John's, 24-9, in the Northeast regional and host Navy, 19-7, will meet another ECAC automatic qualifier, Connecticut, 27-10. Tournament dates are May 24-27.

Four at-large teams will compete in the East regional at Tallahassee, Fla., May 25-28. Host Florida State. 43-15, will meet Florida, 38-18, atlarge selection Arkansas, 42-13, will play ECAC representative George Washington, 21-7, and at-large Seton Hall, 32-9, meets East Coast cham-

pion Delaware, 34-9. Previously selected at-large team Pan American, 52-10, will meet host Texas, 50-6, the Southwest Conference champion in the Central regional and WAC winner Brigham Young, 48-23, meets Southland champion Lamar, 43-13. Dates of the regional are May

The West regional is set with four conference champions and will be hosted by Fresno State on May 25-28. Southern California champion Fullerton State, 51-12, meets Pacific 10 titlist UCLA, 42-17, and Northern Pacific winner Portland, 25-17, plays Northern California winner Fresno,

The Atlantic regional, played this weekend, was won by Miami of Florida. Mississippi State downed Murray State 18-8 Monday night to win the

South region. All eight regional champions will advance to the 33rd NCAA College World Series June 1-8 at Omaha,

### Indy becoming nightmare twisted to hit their fancy," said Loquasto, who was bumped from the field and was asking for a chance to

By HANK LOWENKRON AP Sports Writer
INDIANAPOLIS (AP) — The India

napolis 500, regarded as the showcase of the U.S. Auto Club's schedule for years, has turned into a nightmare for the organization as controversy overshadows the question of who will win Sunday's \$1 million race.

Jerry Karl, one of the drivers bumped from the field filed a protest over the time trials Monday. He said he and others in racing have "become victims of USAC's incompetence in enforcing its rules.'

The denial of seven protests involving decisions made during the time trials was announced Monday by chief steward Tom Binford following a day of hearings on the protests.

Most of the protests involved efforts by USAC to enforce its regulations restricting engine power and claims that those regulations were changed last Sunday in the middle of the time trials which determine the 33-car

Binford, referee Art Meyers, USAC technical director Jack Beckley and race registar Bob Cassaday held a closed-door hearing on the protests. They rejected claims that the regulations were changed since the track opened this month.

Binford said a notice stating competitors could qualify with at least an opening of 1.47 inches in an exhaust pipe that helps limit the amount of boost an engine receives was a warning to prevent further attempts to violate the rules and not a new stan-

THE PORTESTORS, who included drivers Larry Cannon, Al Loquasto and Spike Gehlhausen, disagreed. "Everything we told them was

### **SPORTS**

can make such a bad call. They had their minds made up about this before the meeting even began.'

Karl also indicated he was thinking about legal action to get him in the

Several of the persons, including Karl and Loquasto, involved in the dispute are affiliated with the rival Championship Auto Racing Teams. However, others involved with USAC have expressed their unhappiness over the situation and said they might leave the organization

"We're in USAC and have nointention of creating a hardship for the organization," said Richard Mamer, the president of the company spon-soring Ruth's entry for rookie Dana Carter, who was also bumped from

the field.
But our entry has been wronged...our driver has been hurt and we can't let this stand. I'm talking with my attorneys to get this thing corrected, but I really don't want to take legal action," he said.

"USAC did terrible damage to its organization," said Carter, who has

grown up in the organization with his brother, Pancho, and father both having driven in it for several years. "I'd like too stay with it, but they've really hurt my future with their poor leader-

AND WAYNE WOODWARD, an owner and mechanic on another car involved in the protests, is also with USAC which is trying to run a championship schedule this year after the deection of its biggest names to

"I'm going to CART," he said. "It's not that I wanted to, but they've forced me.

Woodward said he was planning to file suit in federal court seeking an injunction to have his car placed in the field and to have the race halted until the issue is resolved.

However, USAC's regulations require an appeal of Monday's ruling to the organization's president, Dick King. That appeal must by filed by midnight Thursday and King would appoint a three-man committee to hear the appeal.

"I'm sure King would act quickly." said Binford about action on any ap-

Cannon, however, said such an appeal would be "just a waste of time" and that he figured he'd have to go to court to gain satisfaction.

Attorney John Frasco represented Fletcher Racing and Penske Racing in their protests at the hearing. Frasco, who had to go to court to get 19 rejected CART entries into the race earlier, said he hoped the issues involved in the current dispute would not have to be taken to court.

FLETCHER'S TEAM was seeking

to have a \$5,000 fine it received for altering their waste gate exhaust pipes to affect the air flow. The attempt involved a car driven by Steve Krisiloff. The attempt involved was disallowed, but he qualified in a later

Penske was protesting the disqualification of a car qualifed by rookie Bill Alsup. An engine used in the car had been used in one qualified by another member or the Penske team, Bobby Unser. However, Penske claims the use of the engine was accidential and the disqualification was too high a penalty when compared to other cars that were allowed to qualify.

And John Martin, who wasn't allowed to file a protest because he lodged it after deadline, also was talking about legal action

"I'm a USAC member, have been for a long time, but their actions are forcing to to seek legal relief," he said. "The past 24 hours have given me the most mental anguish in my life," said the 40-year-old.

### Hogan Park hosts partnership golf play

The Hogan Park Men's Golf Association will hold a Labor Day Partnership golf tournament Saturday through Monday.

The entry deadline is Friday and the fee is \$30 per team. The field will be limited to the first 50 teams.

Teams may sign up at the Hogan Park golf shop by calling 682-7891. Entry fee includes a barbecue.

### Baseball standings Colonel Taylor wouldn't put his Texas League

# brand on just any old Bourbon.

Introducing

He was a mighty demanding man, Colonel E. H. Taylor. A stickler in everything he did. His brand didn't go on anything but the best.

Back in the 1870's and 80's the Taylor brand marked some of the finest purebred cattle ever seen in Woodford County, Kentucky.

And the brand marked a very special kind of sourmash Bourbon. Not just any old Bourbon. This was Old Taylor. An Old Taylor like today's 101. The kind of Bourbon Colonel Taylor liked to keep for himself and his special guests.

Colonel Taylor's herd is scattered now. But his brand of Old Taylor lives on. A real sour mash for real enjoyment. A full 101 proof, for full flavor. Old Taylor 101. It's a brand that true Bourbon lovers are bound to take to.
