# Odessans to fight cancer center

By SUSAN TOTH Staff Writer

Construction of the \$1.5 million Allison Permian Basin Center for Radiation Therapy in Midland could be caught in governmental tangles indefinitely because of a request from an Odessa hospital official.

Odessa's Medical Center Hospital has requested a project rehearing before the Region 12 Health Systems Agency, it was learned Wednesday, the same day on which announcement of the proposed center was made.

Before the center can be built, a

certificate of need must be granted by the Texas Health Facilities Commission. Before that group will grant a certificate of need, the Health Systems Agency must review and comment on the project.

A negative comment from the HSA, according to HSA spokesman Steve Oliver, could seriously affect the chances of approval.

The HSA did approve the project at a May 21 meeting by a 14 to five vote, with the five against votes reportedly having been cast by Ector County representatives. That approval now is

If the HSA's project review committee decides to rehear the matter, the application will be, procedurally speaking, back to square one. The committee can, however, decide the request for reconsideration had no merit and send the application on with the favorable comment already approved.

William S. Gibbs, associate administrator for Odessa's Medical Center Hospital, filed the request for a rehearing, citing procedural points he said were not followed in the original consideration.

Basic thrust of the objection, Gibbs

said late Wednesday, was that the "very orderly and deliberate process set by the HSA for process and review was not followed.

"Essentially," he said, "the time frame was awfully compressed" on the hearings and review of the proposed center.

A public hearing on the application, a project-review board meeting to consider the public hearing testimony and a governing body meeting to consider the provject-review board's findings were held the same night,

# Inflation plan dealt setback

WASHINGTON (AP) — A federal judge ruled today that President Carter has acted unconstitutionally in trying to enforce his "voluntary" anti-inflation guidelines by threatening to withhold federal contracts.

Dealing a heavy setback to Carter's anti-inflation program, U.S. District Judge Barrington D. Parker ruled that Carter cannot legally deny federal contracts to companies that violate his wage-price guidelines.

"President Carter has exceeded the authority conferred on him by the Constitution by seeking to control incomes and thereby prices through the procurement power," Parker ruled in the first case that directly challenges Carter's program.

"The court, therefore, reluctantly concludes that the president's anti-inflation program cannot be sustained," the judge said.

There was no immediate comment from White House or Justice Department officials.

Although the ruling strips Carter's guidelines of their only weapon of enforcement, the president apparently can continue to maintain an antiinflation program based solely on voluntary cooperation from business and labor.

The ruling was a major victory for organized labor, which filed the suit challenging Carter's program.

The government, which has defended the program as being legal, was expected to appeal the decision.

The suit, pressed by an unlikely coalition of labor leaders and Republican congressmen, carged that Carter overstepped his authority granted by Congress when he threatened to deny federal contracts worth \$5 million or more to companies that violate the guidelines.

An estimated \$40 billion to \$56 bil-

affected by Carter's program.

The judge acknowledged that "in-

flation is a vexing and festering domestic problem. It has plagued, without discrimination, all segments of our population and its impact has been felt in every facet of our political economy.

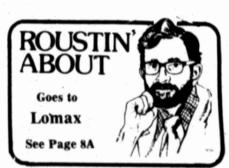

Parker added: "The efforts of the president, however well-intentioned and commendable they may be, must be predicated upon executive power conferred by the Constitution or by a congressional enactment pursuant to the Constitution.

In this case, the judge said, "the program establishes a mandatory system of wage and price controls, unsupported by the law.

Parker rejected the government's argument that the guidelines are voluntary, saying "the program imposes a real penalty" which makes it a mandatory program.

The program already has been weakened by mounting attacks from unions, which say they will not comply because the guidelines are failing to slow inflation.

But Carter said Wednesday he intends to "stick with" the guidelines, adding that it still will require some time for his seven-month-old program to be effective.

# Carter, oil execs meet amid new signs of shortages

By GLENN RITT

WASHINGTON (AP) - President Carter is meeting with oil company executives amid new signs gasoline will be even scarcer in Ju was in May.

Carter summoned the executive today's session at the White H one day after his anti-inflation ag said prices at the pump are larger than can be explained" by increases in crude oil prices alone.

said other probable violators may be announced as early as today.

At the same time, an Energy Department lawyer charged that unnamed agency officials have covered up illegal transactions that drive up the price of oil for consumers. Joseph D. McNeff told two House

subcommitees that most, if not all, of the nation's major oil companies are involved in illegal practices and said the government's own files contain massive evidence of wrongdoing.

He endorsed McNeff's recommen-

aco - planned to reduce gasoline shipped in June to below May levels despite driver demand being tradi tionally higher because the vacation season begins and mother warms. season begin

more gasoline than in May. Energy Secretary James Schlesinger said the reduced allocations are "not a favorable sign" and said the gasoline situation is being re-

somewhat" in June and July. Schlesinger probably will

the official said.

"We want to ask from their perspective what problems they see down the road" regionally or with articular types of oil products.

month, a Denver-based cement company, Ideal Basic Industries, was charged. It is appealing.

Kahn repeated Wednesday that the administration may tighten price guidelines as inflation runs at more

say, because the figures do not reflect shipments to customers, including public services and farmers, qualifying for special breaks.

In other energy-related news: Agriculture Secretary Bob Berg warned that the farm fuel crunch hot just a springtime dilemma," ing shortages will continue ater summer and into the fall har-

-Saudi Arabia, the world's largest oil exporter, has begun informing its customers that it will raise the price of some of its crude by \$1.40 a barrel or 8.5 percent, The New York Times reports today.

# Economic slowdown indicated

#### Record decline is fourth in six months

WASHINGTON (AP) — A government index designed to forecast economic trends declined by a record 3.3 percent in April, providing new evidence that a sharp slowdown in the economy is under way.

The previous record decline in the composite index of leading indicators was a 3 percent drop in September 1974, during the depths of the 1974-1975

The decline in the April index was the fourth in the last six months, the Commerce Department said in today's report. However, it revised the March index upward to show an 0.3 percent increase instead of the 0.5

percent decline reported earlier.

Many private economists say the current slowdown in the economy is actually the beginning of a recession that will occur in the second half of this year. However, Carter administration economists say a recession still can be avoided, although they admit there is a risk that one will

The economy has continued to grow for an unusually large time, four years, since the last recession. Economic slowdowns generally occur closer together than this.

Meanwhile today, a federal judge here dealt a blow to the administration's anti-inflation guidelines by ruling that President Carter cannot legally deny federal contracts to firms that violate his wage-price guide-

Carter exceeded his constitutional authority "by seeking to control incomes and thereby prices through the procurement power," U.S. District Judge Barrington D. Parker ruled. In its report, the Commerce De-

partment said eight of the 10 individueconomic statistics used in the index were negative in April, led by a sharp decline in the average work week, down 1.7 hours to 39.1 hours. However, the department said the

work week figures may have been distorted by several events that occurred during the week they were gathered. These were the Easter and Passover observances and the trucking strike and lockout.

Also negative in April were the job layoff rate, sales performance, cash and other liquid assets, sensitive prices, contracts and orders for plant and equipment, factory orders and building permits.

The only two positive statistics were stock prices and the money sup-

In the past, the index has been interpreted as forecasting a possible recession when it declines for three consecutive months. When the March report was first released last moth, it was the third month of decine.

However, the upward revision in March reported today means there has not yet been three consecutive months of decline in recent months. The index was down in November, January and February, but up in December and March.

# High school graduations tonight at Chap Center

More than 1,000 young Midlanders will be graduated from high school tonight in ceremonies at Midland College's new Chaparral Center. Lee High School's 594 graduating seniors are scheduled to walk across the

stage in ceremonies to begin at 6 p.m. Midland High's 476 will follow them during 9 p.m. ceremonies. Greenwood High School's commencement will be held at 8 p.m. tonight in the Greenwood Auditorium. The community is located 10 miles east of Mid-

Principals, administrators and school board members will take part in the ceremonies, which will feature addresses by the valedictorian and salutatori-

The public is invited to all three gatherings, school officials said.

Darlene Pomroy, 2300 Terrace Ave., winner of the Midland Chamber of Commerce slogan contest, and Joe Kloesel, chamber president, Wednesday offer a lighter-than-air approach to displaying the winning slogan. Darlene's creation - "Midland Chamber of Commerce: OUR progress is YOUR future" earned her a \$250 check from the chamber. More than a thousand entries were received in the contest, according to chamber officials. (Staff Photo by Brian Hendershot)

#### lexas area torecasts

North Texas: Partly cloudy and warm. Mostly cloudy tonight with a few thunderstorms developing west later tonight. Showers and thunderstorms spreading across the area Friday. Highs 82 to 85. Lows 62 to 68. Highs Friday 78

South Texas: Partly cloudy to cloudy and not as warm through Friday. Widely scattered showers and thunder-storms mainly west and south. Showers and thunder-storms becoming more numerous from the west tonight and Friday Highs low 80s north to mid 90s extreme south. Low upper 60s north to the mid 70s along the Coast. Highs Friday near 80 north to near 90 south.

#### Border states forecasts

Oklahoma: Variable cloudiness and a little cooler through Friday. Scattered showers and thunderstorms mainly west and over-the state tonight and Friday. Highs through Friday 60s northwest to 70s elsewhere. Lows upper 40s Panhandle to 50s elsewhere.

New Mexico: Mostly cloudy and cool northeast through Friday. Increasing cloudiness central and south through Friday. Occasional rain and showers northeast spreading south and west to all but the western third of state by Friday. Continued warm south but a little cooler Friday Highs 50s and 60s north and mountains to low 90s southwest. Lows 30s and 60s north and mountains to near 60 south. Highs Friday 60s north and mountains to mid 80s south.

# Midland man dies following accident at swimming pool

A 47-year-old Midland man died Wednesday night following an apparent swimming pool accident at the Mid-Continent Inn at Holiday Hill Road and Interstate 20, Midland potice officials said.

Charles W. Hollum, who had rented room at the motel, was pronounced ead by Peace Justice Robert Pine at : 55 p.m.

Police officials said the official cause of death will depend on results f an autopsy, but that he appeared to have died from drowning.

Winsley told police he saw Hollums in the water and yelled for help. Two other men helped Winsley pull Hollums from the pool, according to police reports.

end of the swimming pool.

Attempts to revive Hollums were unsuccessful.

Hollums had two cuts above the forehead, according to police re-

# Odessa hospital officials rap proposed cancer center

(Continued from Page 1A)

Gibbs said. Members of the project review committee received a 40-page staff eport on the application just before

the public hearing, he said.
"I don't feel there was adequate time given for consideration of an application of this magnitude.

Medical Center Hospital objected to the application at the public hearing, he said, on the basis that the facility ould duplicate facilities available in Odessa and was not needed.

Medical Center offers cobalt radiation therapy only, while the Midland center, to be built adjacent to Midland Memorial Hospital, would provide several different types of radiation and chemotherapy.

Gibbs contended the Midland facility would not meet criteria set by the HSA's cancer task force report in its five-year medical plan. That plan lists asean objective, to detelop a

specialized plan to determine an appropriate level of cancer care needed in the Permian Basin by 1981."

Gibbs said Medical Center officials interpreted that to mean there should be a year or two of study to determine the number and types of tumors and the facilities needed to treat

Midland hospital officials, however, noted Wednesday that in 1977, the last year for which figures are available, more than 800 tumors were reported in the 17-county Region 12 area, and that many patients had to be referred to distant treatment centers.

The \$1.5 million for the cancer treatment center in Midland, to be operated by the Midland County Hospital District, was donated by Mid-lander Helon Y. Allison in honor of the memory of her husband, James N. Allison Sr. and her son James N. Allison Jr.

# Commuter plane crash kills 17

OWLS HEAD, Maine (AP) - A Downeast Airlines commuter plane from Boston crashed near the Maine coast, killing 17 of the 18 persons aboard, authorities said.

Seven bodies were found late Wednesday and the rest were discovered early today in or near the wreckage, said William Reinhardt, a Knox County deputy sheriff.

One passenger, John M. McCafferty, 16, of Searsmont, was in "serious but stable condition" at a Rockport hospital. The youth, who suffered à broken leg and head injuries, was shouting for help as rescuers ar-

Police and sheriff's deputies had searched until early today, hoping to find survivors in the muddy, heavily wooded area where the turboprop De-Havilland Twin Otter went down Wednesday night en route from Boston to Owls Head.

The airline was withholding the names of the passengers and crew members until the bodies could be identified and relatives notified.

Flight 46 carried 16 passengers, a pilot and a co-pilot on the 45-minute

trip from Boston's Logan Airport. The Canadian-built aircraft crashed shortly before 9 p.m. after the pilot made a routine request for permission to divert the flight to Augusta because of poor weather conditions at Knox County Airport in Owls Head, said the Federal Aviation Ad-

But the air traffic controller at Brunswick Naval Air Station lost radio contact with the pilot at 8:43 p.m., said FAA spokesman Mike Ciccarelli, and "the next thing we knew we got word of a crash.

Sheriff Carlton Thurston said the plane lost its wing when it hit a tree on Otter Point and crashed about 400 yards from the beach. Witnesses said the plane crashed into a large rock and flipped over onto its back.

Broken bodies protruded from the wreckage as medical examiners tried to assess the carnage. Officials at the scene radioed for body bags, saying "we need plenty." A temporary morgue was set up on the grounds of the Rockport hospital.

The Knox County Sheriff's Department said it received the first report of the crash at 9: 13 p.m. and found the wreckage 25 minutes later.

An investigator from the National Transportation Safety Board was scheduled to arrive at the scene today with FAA representatives.

Downeast is a small air taxi service headquartered in Owls Head, a village just outside Rockland, a fishing port and tourist center 90 miles north-

cost per unit basis, Ingram said. Because of this, the Urban Mass Transportation Administration will be reviewing the bid submitted by

Southwest and Braniff, the lastnamed having begun operations in March. An open house at the airport for its new facilities is planned for June 15,

Mewhorter said. A plaque will be unveiled on the upper concourse area, and Federal Aviation Administration officials from Midland and Albuquerque, N.M., are expected to attend. During the Wednesday meeting,

Joe Campbell was named to head a Housing Task Force. Larry Bell reported the Parking Task Force adopted a resolution recommending that the City Council build an underground parking facility adjacent to the Exhibit Hall, now under construction downtown.

The conventions committee hopes to start booking conventions for the hall by early 1980, according to Jim

# Ex-Bandido to stand trial on firearms charges

SAN ANTONIO, Texas (AP) - Afederal judge has cleared the way for a former member of the Bandidos motorcycle club to stand trial on firearms charges filed in the wake of an investigation into the Nov. 21 attempted assassination of an assistant U.S. attorney.

Timothy Kenneth Larson was arrested on the federal firearms charge March 28, two days after he participated in a police lineup viewed by Assistant U.S. Attorney James Kerr.

Kerr, who has been involved in extensive investigations into alleged interstate narcotics trafficking, was ambushed in his car near his home by two men firing automatic rifles from the back of a stolen van. He escaped with only minor injuries caused by flying glass.

U.S. District Judge John H. Wood Jr., known for his tough sentences in many of the same West Texas drug Hollums and Fred D. Winsley were cases, was assassinated here Tueshaving a swimming race, witnesses day by a sniper. Federal officials told police, when Hollums apparently have refused to say if they've found a hit his head on the wall at the shallow connection between the two attacks.

No one has been arrested in connection with either the Kerr or Wood

Federal grand juries in El Paso and, San Antonio have investigated the alleged interstate drug smuggling and the attack on Kerr. The inquiries have focused on the Bandidos and have resulted in a variety of charges against some club members.

Several Bandidos, including Larson, have testified before the panels and taken lie detector tests and participated in the lineup.

Larson, a convicted felon, was discovered with a pistol when he was stopped near the scene of recent burglaries. He has been free on bond

in the firearms charge. Although Kerr reportedly did not

## Boy injured in bike-car mishap

A 7-year-old boy was injured Wednesday when the bike he was riding was in collision with a car. Carl Edward Miller was listed in

satisfactory condition early today at Midland Memorial Hospital with a broken leg and head injuries, according to hospital officials.

He underwent surgery Wednesday night as a result of those injuries, officials said.

The youth was riding his bike about 5: 25 p.m. when he and a car driven by Bobbie Copeland Hollis of Midland, collided, according to Department of Public Safety officials.

The accident occurred about 1/4mile east of Airline Mobile Home Park on the north service road of U.S. Highway 80 west of Midland, said DPS officials.

name Larson as his first selection in shals in the wake of the Wood assassithe lineup, FBI Special Agent Gregg G. Van De Loo said in an earlier court hearing that he considered Larson a "prime suspect" in the Kerr shoot-

Larson's attorney, Charles Butts, said his client has taken a lie detector test that cleared him of participation in the Kerr shooting. U.S. District Judge Adrian Spears,

who is being guarded by federal mar-

nation, denied Butts' motion Wednesday to exclude key evidence gained in a search of a van driven by Larson. Assistant U.S. Attorney Wayne Speck and Spears pledged to keep

Kerr case out of the trial on the firearms charge Spears told Butts he was not inclined to grant a change of venue from the Western District of Texas case

references to the Bandidos and the

because of the publicity surrounding the Bandidos, the Kerr case and the Wood assassination. "I don't think my man can get a fair

trial here," Butts told the judge. "Life has to go on," responded Spears. "We can't stop everything in its tracks. If your client can't get a fair trial in this district, nobody

ean. No trial date has been set in the

# Dallas withdraws bid for 1980 Democratic National Convention

DALLAS (AP) - Money, the coffers it would come from, and "undefined" federal election regulations forced a Dallas citizen's host committee to withdraw its bid for the 1980 Democratic National Convention. "I think we could raise the money,

but we cannot comply with the law, because we don't know what it is," complained Dallas County Democratic Chairman Ron Kessler, who announced the decision at a news conference Wednesday.

The host committee had hoped to offset the estimated \$2.4 million tab for the convention with corporate and private contributions.

**But Federal Election Committee** regulations — labeled "clearly prejudicial" by the host committee — and a state constitutional provision that forbids public funding of political conventions burst Dallas' campaign bal-

Kessler said the federal regulations limit contributions to "incorporated local retail businesses," and then only in an amount "proportionate to the commerical return reasonably expected by the business during the life of the convention."

Neither the FEC nor the Democratic National Committee has spelled out what it means by "local retail business," said Kessler. And he said limiting contributors to an undefined "proportionate return" was an impossible restriction for Dallas.

"In my opinion it would take four

lawyers for every dollar obtained to determine if the money was solicited legally, banked legally and spent legally," said Kessler. Dallas' withdrawal leaves New York, Philadelphia and Detroit in

contention for the convention. All three of those cities have pledged the free use of public facilities and other services Kessler said Philadelphia

tossed in another \$1 million in cash as an inducement Kessler said that New York, the site of the 1976 convention, is the odds-on

favorite to snare the 1980 conclave.

'That's where all of our tax dollars are goig anyway,to bail them (New Yorkers) out," said Kessler, referring to federal aid that saved the city from default.

He said the committee's decision to withdraw was unanimous after the complexities of the federals regulations were discussed.

'I doubt we ever will have a major political convention here," said Kessler, "until the law is changed."

#### Gunman kills one in attack on police

ST. LOUIS (AP) - A gunman opened fire on a police station parking lot, killing a police sergeant and wounding two other persons, in an attack authorities called "the work of a man gone berserk. The man was killed by police mo-

ments later, authorities said. Police said Lloyd Mitchell, 38, of nearby Granite City, Illinois, stole a

a woman bystander before shooting to death Sgt. William Campbell, 41. Wounded in the attack was Patrolman James Cox; 32. Shirley Fellows, 40, told police she

#### Chance of thunderstorms, slightly cooler weather in Basin forecast

Cloudy weather should bring a chance of showers and thunderstorms to the area tonight and Thursday. according to the National Weather Service at Midland Regional Airport.

Temperatures should be slightly cooler tonight and Thursday, with the overnight low expected to be near 60 degrees and the high Thursday near 80 degrees, according to the weather-

Wednesday's high was 89 degrees and the overnight low was 62 de-

The record high for Wednesday is

101 degrees set in 1977, and the record low for today is 45 degrees set in 1937, according to the weatherman.

Chances for rain tonight are 50 percent, sliding to 40 percent Friday. Unofficial reports from area towns early today indicated cloudy skies were prevalent but no rainfall was

mentioned Rainfall for the immediate Midland area this month remained at a steady .97 inch, with no additional moisture

recorded within the past 24 hours. Winds tonight are expected to be. ensterly, 10 to 15 mph.

# Student compiles enviable record

Midland High School valedictorian Bill Creager knows what it is like to be one in a million. He even knows what it is like to be one in three million.

Named both a National Merit Scholar and a Presidential Scholar this month, the 18-year-old Creager arrived at his status as Presidential Scholar from among three million high school graduates and received the Merit Scholarship after successfully competing with a million participants in high schools across the nation.

Apparently not content with just two of the nation's highest academic honors, Creager, son of Mr. and Mrs. Nance G. Creager, also is a state and local winner in activities ranging as far from the books as Junior Achievement President of the Year and seven first-division awards for French horn solos.

What's more, he was awarded the Brown Engineering Award from the Brown Foundation in Houston, three academic letters and the Cornell Award for Ingenuity in Math and Science. Still, he found time to serve on the student council and attend to

duties as president of the German Club at MHS.
"It's not easy," Creager noted. "My grades and those awards all came about because of a lot of hard work. I don't know why people say there is no homework. I have piles of homework every night.

"I was up studying until 3 a.m. today, slept a couple of hours and got up to study again at 5 Creager gives much of the credit for his high

achievements to his parents. "I was supported, but never really told to do aything after the fourth grade. By then you either have developed the motivation or you haven't, he said.

He added he inherited a tendency to "rock the boat just a little bit and battle conformity," though he said he relies on a talent for organization and logic when he is taking tests and writing themes.

A career as an engineer or a life-work in science

appeals to him most as a future use for his talents. Creager noted he is not likely to follow in the footsteps of both parents and seek a degree in geology as both his parents did. In the fall, he will enter Rice University, where his sister presently is a

His school career began in the first grade in Hobbs, N.M., and he entered Midland High School as a sophomore. He won't admit to a favorite teacher, but will name English as his favorite subject.

"English offers a creative outlet as opposed to the more rigorous structures of science and math.'

Creager said. Like most students, he expressed pride about his school. "I've been impressed by the knowledge and

diversity offered me at Midland High.' He has a good word, too, for the advanced technology offered in computer courses and science subjects and feels that Midland High is a "calm atmosphere in which to learn.

"Also, I'm all for the honors courses. I took every one available to me.

"High school has been a good learning time for me," he said, and added, "no, it hasn't been all A's. I made a C in government once." Why? "Procrastination," he smiled. "I deserved

that C and I learned a lot from it."

Creager doesn't plan to relax this summer after his years of work in high school After his audience with President Jimmy Carter

this summer as a Presidential Scholar, he will fly to Salt Lake City, Utah, where he will join other top scholars for a "salute to excellence" from the Academy of Achievement.

When he returns home from the event, he plans to wait tables at a Midland restaurant for the sum-"It will be a change," he said.

#### Hearst economics editor wins award

NEW YORK - Donald I. Rogers, economics editor for Hearst Newspapers, has been named a \$2,500 second prize winner in the 1978 Media Awards for Economic Understanding. Rogers was cited for his series, "The Endangered

Maine Lobster," which was judged the second best entry in the category titled "Syndicates and Wire Services — Deep Analysis of a Given Subject." Prizes totaling \$93,500 were awarded 1978 winners

at a luncheon meeting here at which Kenneth A. Randall, president of The Conference Board, was guest speaker. Now in its second year, the Media Awards for

Economic Understanding is a national competition created to improve the quality and increase the quantity of economic reporting in the general

Rogers' three-part series explores the declining \$80 million Maine lobster industry. Examined in the series are causes for the decline, the opinions of experts who believe it is too late to save the industry, the value of protective legislation and the industry's relation to shipbuilding and chandlery opera-

through Friday. Scattered showers and thunderstorms mainly west and over the state tonight and Friday. Highs through Friday 60s northwest to 70s elsewhere. Lows upper 60s Panhandle to 50s elsewhere.

New Mexico: Mostly cloudy and cool northeast through Friday. Increasing cloudiness central and south through Friday. Occasional rain and showers northeast spreading south and west to all but the western third of state by Friday. Continued warm south but a little cooler Friday. Highs 10s and 60s north and mountains to low 90s southwest. Lows 30s and 40s north and mountains to near 60 south. Highs Friday 60s north and mountains to mid 80s south.

# Midland man dies following accident at swimming pool

A 47-year-old Midland man died Wednesday night following an apparent swimming pool accident at the Mid-Continent Inn at Holiday Hill Road and Interstate 20, Midland potice officials said.

Charles W. Hollum, who had rented room at the motel, was pronounced lead by Peace Justice Robert Pine at

Police officials said the official cause of death will depend on results of an autopsy, but that he appeared to have died from drowning.

Hollums and Fred D. Winsley were having a swimming race, witnesses told police, when Hollums apparently hit his head on the wall at the shallow end of the swimming pool.

Winsley told police he saw Hollums in the water and yelled for help. Two other men helped Winsley pull Hollums from the pool, according to police reports. Attempts to revive Hollums were

unsuccessful.

Hollums had two cuts above the forehead, according to police re-

# Odessa hospital officials rap proposed cancer center

(Continued from Page 1A)

Gibbs said.

Members of the project review committee received a 40-page staff eport on the application just before the public hearing, he said.

"I don't feel there was adequate time given for consideration of an application of this magnitude."

Medical Center Hospital objected to the application at the public hearing, he said, on the basis that the facility yould duplicate facilities available in dessa and was not needed.

Medical Center offers cobalt radiaion therapy only, while the Midland enter, to be built adjacent to Midland Memorial Hospital, would provide several different types of radiation and chemotherapy.

Gibbs contended the Midland facility would not meet criteria set by the HSA's cancer task force report in its five-year medical plan. That plan lists assan objective, to detelop a

specialized plan to determine an appropriate level of cancer care needed in the Permian Basin by 1981."

Gibbs said Medical Center officials interpreted that to mean there should be a year or two of study to determine the number and types of tumors and the facilities needed to treat

Midland hospital officials, however, noted Wednesday that in 1977, the last year for which figures are available, more than 800 tumors were reported in the 17-county Region 12 area, and that many patients had to be referred to distant treatment centers.

The \$1.5 million for the cancer treatment center in Midland, to be operated by the Midland County Hospital District, was donated by Mid-lander Helon Y. Allison in honor of the memory of her husband, James N. Allison Sr. and her son James N. Allison Jr.

# Commuter plane crash kills 17

OWLS HEAD, Maine (AP) - A Downeast Airlines commuter plane from Boston crashed near the Maine coast, killing 17 of the 18 persons aboard, authorities said.

Seven bodies were found late Wednesday and the rest were discovered early today in or near the wreckage, said William Reinhardt, a Knox County deputy sheriff.

One passenger, John M. McCafferty, 16, of Searsmont, was in "serious but stable condition" at a Rockport hospital. The youth, who suffered a broken leg and head injuries, was shouting for help as rescuers ar-

Police and sheriff's deputies had searched until early today, hoping to find survivors in the muddy, heavily wooded area where the turboprop De-Havilland Twin Otter went down Wednesday night en route from Boston to Owls Head.

The airline was withholding the names of the passengers and crew members until the bodies could be identified and relatives notified.

Flight 46 carried 16 passengers, a pilot and a co-pilot on the 45-minute trip from Boston's Logan Airport.

The Canadian-built aircraft crashed shortly before 9 p.m. after the pilot made a routine request for permission to divert the flight to Augusta because of poor weather conditions at Knox County Airport in Owls Head, said the Federal Aviation Administration.

But the air traffic controller at Brunswick Naval Air Station lost radio contact with the pilot at 8:43 p.m., said FAA spokesman Mike Ciccarelli, and "the next thing we knew we got word of a crash.

Sheriff Carlton Thurston said the plane lost its wing when it hit a tree on Otter Point and crashed about 400 yards from the beach. Witnesses said the plane crashed into a large rock and flipped over onto its back.

Broken bodies protruded from the wreckage as medical examiners tried to assess the carnage. Officials at the scene radioed for body bags, saying "we need plenty." A temporary morgue was set up on the grounds of the Rockport hospital.

The Knox County Sheriff's Department said it received the first report of the crash at 9: 13 p.m. and found the wreckage 25 minutes later.

An investigator from the National Transportation Safety Board was scheduled to arrive at the scene today with FAA representatives.

Downeast is a small air taxi service headquartered in Owls Head, a village just outside Rockland, a fishing port and tourist center 90 miles north-

# Dallas withdraws bid for 1980 Democratic National Convention

DALLAS (AP) — Money, the coffers it would come from, and "undefined" federal election regulations forced a Dallas citizen's host committee to withdraw its bid for the 1980 Democratic National Convention.

"I think we could raise the money, but we cannot comply with the law, because we don't know what it is," complained Dallas County Democratic Chairman Ron Kessler, who announced the decision at a news conference Wednesday.

The host committee had hoped to offset the estimated \$2.4 million tab for the convention with corporate and private contributions.

**But Federal Election Committee** regulations - labeled "clearly prejudicial" by the host committee — and a state constitutional provision that forbids public funding of political conventions burst Dallas' campaign bal-

Kessler said the federal regulations limit contributions to "incorporated local retail businesses," and then only in an amount "proportionate to the commerical return reasonably expected by the business during the life of the convention.'

Cloudy weather should bring a

chance of showers and thunderstorms

to the area tonight and Thursday,

according to the National Weather

Service at Midland Regional Airport.

Temperatures should be slightly

cooler tonight and Thursday, with the

overnight low expected to be near 60

degrees and the high Thursday near

80 degrees, according to the weather-

Wednesday's high was 89 degrees

The record high for Wednesday is

and the overnight low was 62 de-

cooler weather in Basin forecast

Neither the FEC nor the Democratic National Committee has spelled out what it means by "local retail business," said Kessler. And he said limiting contributors to an undefined "proportionate return" was an impossible restriction for Dallas.

"In my opinion it would take four lawyers for every dollar obtained to determine if the money was solicited legally, banked legally and spent legally," said Kessler. Dallas' withdrawal leaves New

York; Philadelphia and Detroit in contention for the convention. All three of those cities have pledged the free use of public facilities and other services Kessler said Philadelphia

tossed in another \$1 million in cash as an inducement Kessler said that New York, the site of the 1976 convention, is the odds-on

favorite to snare the 1980 conclave.

"That's where all of our tax dollars are goig anyway,to bail them (New Yorkers) out," said Kessler, referring to federal aid that saved the city from default.

He said the committee's decision to withdraw was unanimous after the complexities of the federals regulations were discussed.

"I doubt we ever will have a major political convention here," said Kessler, "until the law is changed."

## Gunman kills one in attack on police

ST. LOUIS (AP) - A gunman opened fire on a police station parking lot, killing a police sergeant and wounding two other persons, in an attack authorities called "the work of a man gone berserk." The man was killed by police mo-

ments later, authorities said. Police said Lloyd Mitchell, 38, of nearby Granite City, Illinois, stole a

# Student compiles enviable record

Midland High School valedictorian Bill Creager knows what it is like to be one in a million. He even

knows what it is like to be one in three million. Named both a National Merit Scholar and a Presidential Scholar this month, the 18-year-old Creager arrived at his status as Presidential Scholar from among three million high school graduates and received the Merit Scholarship after successfully competing with a million participants in high schools across the nation.

Apparently not content with just two of the nation's highest academic honors, Creager, son of Mr. and Mrs. Nance G. Creager, also is a state and local winner in activities ranging as far from the books as Junior Achievement President of the Year and seven first-division awards for French horn solos.

What's more, he was awarded the Brown Engineering Award from the Brown Foundation in Houston, three academic letters and the Cornell Award for Ingenuity in Math and Science. Still, he found time to serve on the student council and attend to

duties as president of the German Club at MHS.
"It's not easy," Creager noted. "My grades and those awards all came about because of a lot of hard work. I don't know why people say there is no homework. I have piles of homework every night.

"I was up studying until 3 a.m. today, slept a couple of hours and got up to study again at 5

Creager gives much of the credit for his high achievements to his parents. "I was supported, but never really told to do aything after the fourth grade. By then you either have developed the moti-

vation or you haven't, he said. He added he inherited a tendency to "rock the boat just a little bit and battle conformity," though he said he relies on a talent for organization and logic

when he is taking tests and writing themes. A career as an engineer or a life-work in science appeals to him most as a future use for his talents. creager noted he is not likely to follow in the footsteps of both parents and seek a degree in geology as both his parents did. In the fall, he will enter Rice University, where his sister presently is a

His school career began in the first grade in Hobbs, N.M., and he entered Midland High School as a sophomore. He won't admit to a favorite teacher, but will name English as his favorite subject.

"English offers a creative outlet as opposed to the more rigorous structures of science and math," Creager said.

Like most students, he expressed pride about his school. "I've been impressed by the knowledge and

diversity offered me at Midland High." He has a good word, too, for the advanced technolo-

gy offered in computer courses and science subjects and feels that Midland High is a "calm atmosphere

"Also, I'm all for the honors courses. I took every one available to me.

"High school has been a good learning time for

me," he said, and added, "no, it hasn't been all A's. I made a C in government once." Why? "Procrastination," he smiled. "I deserved

that C and I learned a lot from it." Creager doesn't plan to relax this summer after his years of work in high school.

After his audience with President Jimmy Carter this summer as a Presidential Scholar, he will fly to Salt Lake City, Utah, where he will join other top scholars for a "salute to excellence" from the Academy of Achievement.

When he returns home from the event, he plans to wait tables at a Midland restaurant for the sum-

"It will be a change," he said

## Hearst economics editor wins award

NEW YORK — Donald I. Rogers, economics editor for Hearst Newspapers, has been named a \$2,500 second prize winner in the 1978 Media Awards for Economic Understanding.

Rogers was cited for his series, "The Endangered Maine Lobster," which was judged the second best entry in the category titled "Syndicates and Wire Services — Deep Analysis of a Given Subject."

Prizes totaling \$93,500 were awarded 1978 winners at a luncheon meeting here at which Kenneth A. Randall, president of The Conference Board, was guest speaker.

Now in its second year, the Media Awards for Economic Understanding is a national competition created to improve the quality and increase the quantity of economic reporting in the general

Rogers' three-part series explores the declining

\$80 million Maine lobster industry. Examined in the series are causes for the decline, the opinions of experts who believe it is too late to save the industry, the value of protective legislation and the industry's relation to shipbuilding and chandlery opera-

# Gunmen shoot professor

Police said the wounded professor,

for the June 3-4 national elections.

the explosion caused extensive dam-

age and injured two guards. A bomb went off in front of the home of rightist deputy Giulio Caradonna in Rome, damaging the building. Police said there were no injuries. Another bomb in the center of Rome rocked a Communist Party branch office.

Other terrorist bombings were reported in Sardinia and the Ostia suburb of Rome

Police say terrorists of both the extreme left and the right are intensifying their assaults in an attempt disrupt the elections.

In a stepped up anti-terrorism operation Wednesday, police captured a man and woman wanted in connection with last year's kidnapping and assassination of former Premier Aldo Moro last year. The couple was apprehended in a Rome apartment, where police say they found ammunition and guerrilla plans of the Red Brigades.

# Presbyterians closer to union

KANSAS CITY, Mo. (AP) - The nation's two largest Presbyterian sects have concluded an historic meeting with reunion a step closer but differences still to be healed in their 119-year split.

The nine-day session which ended Wednesday marked the first time the two groups have met in the same place since ideological differences split the church during the Civil

The two groups agreed to a reunion on the synod level, the highest ranking body below the general assembly, but admitted it could be another decade before reunion is complete.

Differences surfaced in the closing days of the session, particularly on a boycott of the textile giant J.P. Stevens Co. and on aid to the World

#### Mucey dies at age 66

WASHINGTON, Pa. (AP) -George J. Mucey, 66, former president of Toastmasters International and one of the founders of Pony League baseball, died Wednesday.

Council of Churches for its work against racism in South Africa.

The 191st General Assembly of the 2.5-million member United Presbyterian Church in the United States approved a boycott of the Stevens Company. The company has been the target of intense union organizing efforts in plants scattered throughout the South.

The 900,000-member Presbyterian Church in the United States, with roots in the Southern states, balked at a Stevens boycott a year ago and reaffirmed that position Tuesday.

The PCUS followed the lead of the senior sect in supporting the World Council of Churches' Program to Combat Racism in Rhodesia. But the Southern denomination approved an amendment to the proposal, saying it had misgivings about the use of the money and urging special care in how the fund was used

In other action during the meeting, the UPCUSA reaffirmed action taken a year ago in opposing ordination of self-avowed practicing homosexuals.

# Methodists appoint pastors

AMARILLO - Pastoral appointments for the coming year have been announced during the current spring meeting of the Northwest Texas Conference of the United Methodist Church.

Included are pastoral appointments for Midland's United Methodist churches, as well as those for Methodist units in Stanton, Lamesa, Andrews, Big Spring and elsewhere in that area. These churches are within the jurisdiction of the Big Spring District of the Northwest Texas Confer-

The annual conference meeting is being held in Amarillo's Polk Street United Methodist Church, with Dr. Alsie H. Carleton, presiding bishop of the conference, presiding.

Midland's St. Mark's United Methodist Church is the only Methodist unit in that city which will have a change in pastors. The Rev. Robert Ford has been named to that post, to succeed Dr. J. Harold Cates who, after two years at St. Mark's, is being assigned to the pastorate of the Levelland First United Methodist

At Levelland, he will succeed the Rev. J. Weldon McCormick (a former pastor at Midland's St. Mark's Church) who has been assigned to the Aldersgate UMC at Abilene.

Ford, the new minister at St. Mark's, has been serving as pastor of the Colorado City United Methodist Church for four years.

Returned to their posts for another year pastors of other Midland Methodist churches, including the Rev. Robert Netherland at Asbury UMC; Dr. Charles Lutrick and the Revs. Bill Weir and Jerry Wyatt at First UMC: the Rev. Claudius Minor at Hollowell UMC: Dr. O A McBraver and the Rev. Royce Womack at St. Luke's UMC, and the Rev. Thomas Nelson at St. Paul UMC.

Big Spring's First Church has a new pastor, the Rev. Edwin Chappell, transferring from Aldersgate Church at Abilene. He succeeds Dr. J. Weldon Butler (a former pastor of Midland's St. Luke's UMC), who is transferred to the superintendency of the Plainview District of the United Methodist Church.

At the Wesley UMC of Big Spring, the Rev. W.O. Rucker is the new pastor. He goes to that post from a four-year pastorate of Lamesa's Northridge UMC.

In the Big Spring post, he succeeds the Rev. August Aamodt, pastor at Wesley UMC for the last two years, who is transferring to a church in

Succeeding Rucker as pastor of Lamesa Northridge Church as well as pastor of the Gail Circuit is the Rev. Oland Butler, who has served the last three years as pastor of pastor of Pampa's St. Paul UMC and pastor of LeFors Circuit.

The Snyder Trinity United Methodist Church will have the Rev. James Merrell as its pastor for the coming

In that post and as pastor of the Dunn Circuit, he succeeds the Rev. Jene Greer who goes to the pastorate of Pampa St. Paul UMC and the Lefors Circuit.

Other Midland-area United Methodist pastors who have been reassigned to their posts for another year include the following:

Andrews Means Memorial UMC, the Rev. Keith Wiseman, and Andrews Wesley Church, the Rev. Hazel House; Colorado City St. Luke Church and the Dorn Circuit, the Rev. Ishan Ardhuerumly; Lamesa First Church, the Rev. Alvis Cooley, with the Rev. Jack Webb as associaate; Seminole First Church, the Rev. Weldon Rives; Snyder First Church, the Rev. David Robertson, and Union-Ira Circuit of Snyder, the Rev. Douglas Stenburg; Stanton First Church, the Rev. Davis Edens.

#### Home Savings seeks branch

**Austin Bureau** 

AUSTIN — An application by Home Savings Association, Odessa, for a branch office at the southwest corner of the intersection of Parkway Boulevard and E. 42nd, Odessa, has been set for the Savings and Loan Department's July 2 docket call.

If the application is protested, it will be set for a full hearing. If there is no protest, the application may be referred to Savings and Loan Commissioner Alvis Vandygriff

#### Planned Parenthood applies for Wink clinic **Austin Bureau**

for a decision.

AUSTIN - Permian Basin Planned Parenthood, Inc., Odessa, has applied to the Texas Health Facilities Commission to establish a family planning clinic at 100 N. Langley in Wink, to serve residents in Winkler County. The application is set for hearing

July 10. If there is no protest to the application by June 18, the application may be referred to a THFC voting session without a public hearing.

The PCUS approved the same plank this year after 40 speakers debated the issue for more than two hours. The UPCUSA also passed a resolution favoring the restoration of public fund-

ing for medically safe abortion care and opposing legislative attempts to ban abortions. The issue passed by a two-to-one margin after an emotional

# Voyager 2 to examine lo's volcanoes, snow

WASHINGTON (AP) - The Voyager 2 spacecraft, racing toward a rendezvous with Jupiter, will take a longer look at Io, the planet's moon, than previously planned. Space agency officials say a land of volcanoes and blue snow deserves more atten-

People have known about the volcanoes since the first Voyager went by Jupiter in March. But the blue snow was discovered only recently while taking a closer look at some pictures of Io, scientists said Wednesday.

Dr. Laurence Soderblom of the U.S. Geological Survey said close examination of pictures of the reddish-yellow moon show areas near the South Pole that appear to be covered with a bluish substance.

Two pictures taken six hours apart by Voyager 1 show a bluish glow developing within some surface cracks, he said.

"It suggests eruptions of a gas, possibly sulfur dioxide," Soderblom said. "Freezing gas would form fine crystals or particles that scatter blue light and look blue."

Scientists announced the surprise finding at a National Aeronautics and Space Administration briefing at the annual meeting of the American Geophysical Union. The unmanned Voyager 1 is on its

way to Saturn and a sister ship, Voy-

ager 2, is 20 million miles from Jupiter and closing in for a July 9 flyby. NASA officials said both spacecraft are in good condition, although Voyager 2 has been using its backup radio system since the primary malfunctioned early in the mission.

Dr. Edward Stone of the California Institute of Technology said scientists have added a 10-hour picture-taking session of Io to the spacecraft's flight plan in hopes of getting a continuous record of volcanic activity in one region, he said.

At the briefing, Dr. John Pearl of Goddard Space Flight Center said preliminary infrared readings from Voyager 1 show Io's volcanoes are cooler than earlier estimated.

Pearl said most areas on the satellite seem to have a temperature of about 235 degrees below zero Fahrenheit. Readings of a plume from one volcano showed a temperature of only about 80 degrees.

These figures don't match well with speculation that the volcanoes may be shooting molten sulfur, which would require temperatures of about 233 degrees, he added.

Soderblom said eight spewing volcanoes, some shooting plumes hundreds of miles high, have been positively identified so far. For unknown reasons, these volcanoes are distributed around the equator of the satellite, he added.

#### Thais arrest Americans, Dane

BANGKOK, Thailand (AP) - Two California men and their Danish navigator were arrested after narcotics agents found nearly a ton of marijuana and 171/2 ounces of heroin aboard their yacht off the Thai coast, police said today. Richard Kenneth Pattit, 34, of Newport Beach,

Calif., and Raymond Texlee, 30, a St. Louis native who told police he lives in southern California, were charged with possession of narcotics with intent to smuggle. Their 31-year-old navigator faces the same charges, police said. American drug agents here said the arrests came

after a month-long cooperative investigation with their Thai counterparts. If found guilty, the three men face a maximum penalty of life in prison on the heroin charge and 15

years on the marijuana charge. Police said they made the arrests Wednesday after spotting the yacht about five miles off the Thai coast. neading for international waters.

# SuperSonics are on Cloud Nine

LANDOVER, Md. (AP) - The Seattle SuperSonics are on Cloud

The Sonics, with a commanding 3-1 lead in their best-of-seven series with the defending champion Washington Bullets, can win their first National Basketball Association title Friday

"We have been fighting off adversity all year long," said guard Fred Brown. "But here we are, one game away from the world championship. We feel we could wrap it up Friday night."

The Sonics got a big boost Tuesday night when they won their third straight game over the Bullets, 114-112 in an overtime contest that featured 58 fouls and 72 free throw attempts.

No team has ever come back from a 3-1 deficit to win three in a row in an NBA final. But the Bullets, who made such a comeback in the Eastern championship against the San Antonio Spurs, think they can do it again in

"This is about the toughest position we can be in," said Bullets guard Kevin Grevey. "You never want to get down this far to any team, especially a team as good as Seattle.

"From now on we have to play with reckless abandon. I know we're in a tough spot. But if we keep playing this way, we can win on Friday night, come back out here and take one and then we'll be in a good spot," said Grevey.

Game 7, if necessary, would be played next Wednesday here in the Capital Centre.

Despite their lead, the Sonics say they aren't going to take it easy Friday night because they remember what happened last year when, up 3-2, they relaxed in Washington and got blown off the court. The Bullets went on to win the championship.

"We found out last year that three

wins doesn't mean anything," said Jack Sikma. "We're going to be ready to play.

Sonic Paul Silas said, "To stop us, the Bullets re going to have to wi three, and we think that's going to be pretty tugh for them to do.'

John Johnson said, "We're very confident. We'd like to get this over as

soon as possible." Gus Williams, who led all scorers with 36 points Tuesday night, said the Sonics "can't let up in D.C. The Bullets are a good team and they know they can get back after being down 3-1. They proved that against San Antonio (in the Eastern championship series)."

As Fred Brown summarized it: "Only one more win. Ain't that beau-

# Moe to stay with Spurs

SAN ANTONIO, Texas (AP) — Sán Antonio Spurs Coach Doug Moe says he had decided to leave his job. And Spurs President Angelo Drossos says he intended to get another coach. Both announced Wednesday, however, that the controversial Moe would remain next season.

The announcement ended weeks of speculation that Moe, 40, would be leaving the National Basketball Association team he has coached to two consecutive Central Division titles.

"There was a time last season when Doug wanted out of his current contract to seek employment elsewhere," Drossos said Wednesday. "For that reason, I had every intention of obtaining another head coach for the Spurs for next season.

"However, in the past few days, Doug and I have come to a clear understanding that he now prefers to stay with the Spurs, so the board of directors and I have agreed to retain him as head coach for next season,' continued Drossos.

The Spurs ended a six-year ABA and NBA playoff drought this season by eliminating Philadelphia to reach the Eastern Conference finals. They raced to a 3-1 lead over Washington in the finals, but lost the series in seven

The outspoken Moe was fined \$3,000 last week by NBA Commissioner Lawrence O'Brien for bitterly criticizing the referees in the sixth and seventh games of the Washington se-

Drossos, who has reportedly feuded with Moe this season, was critical of Moe's statements and refused at that time to give the Spurs coach a vote of confidence.

Moe projects a casual image and coaches a wide-open style of offense. That casual approach to the job, however, has reportedly irritated Spurs

"We (Drossos and Moe) argue once in a while," Moe said. "Our disagreements have been between us and not with the team. Everything is terrific

Moe said he had decided in the second half of the season to seek another job. He was reportedly interested in Denver, where he had been an assistant for two years before coming to San Antonio. That job, however, went to Donnie Walsh.

"It was jus a matter of talking contract: I wasn't thrilled with my contract," Moe said of his decision to leave the Spurs. He has a year remaining on a contract paying a reported \$75,000 per year.

Moe, the Spurs winningest coach, came to the team in 1976, the club's first season in the NBA. He has led the Spurs to a cumulative 142-104 record.

#### Slow Pitch meet set for Pecos

PECOS - The Pecos Community Recreation Department is sponsoring a pair of United States Slow Pitch Softeall Association sanctioned tournaments June 9-10.

between us now."

A men's Class C invitational, which will be West Texas' first triple elimination tourney, is open to the first 32 teams to sign up. Entry fee is \$85 per team with each squad guaranteed at least three games. Entry deadline is June 6.

Trophies will be given to the top four teams, most valuable player and in certain consolation categories. The championship team advances to the USSSA world tournament Aug. 31-Sept. 3 in Cincinnati, Ohio

# Bowie Kuhn happy over baseball attendance

NEW YORK (AP) - Major league baseball attendance has set a record for the second consecutive month and could be on its way to another single season mark, according to figures released by Commissioner Bowie Kuhn's office today.

Through games of Tuesday, May 29, the two leagues had played before 6,083,339 paying fans this month. With two playing dates still left in May, that figure had already topped the record total of 6,065,220 attracted in the entire month of May 1978.

In April, 4,990,675 fans paid their way into big league parks, representing an increase of almost 10 percent over the 4,550,231 the game drew during the opening month of the 1978

Another milestone was reached over the Memorial Day weekend when baseball's all-time attendance since 1901 pushed past the 1.1 billion mark. The sport had reached 1 billion in 1976 and added its next 100 million customers at the fastest rate in its history.

Attendance for the American and National leagues set an all-time record of 40,636,886 in 1978. For 570 openings through April and May in the two leagues this season, attendance has totaled 10,884,102, an increase of 364,-067 over the same number of games

last year. Despite all the positive numbers, only half of the 26 major league clubs show increases in attendance so far this season. The leader of that group has been the California Angels, with a jump of more than a quarter million fans following the acquisition of pe-

rennial batting champion Rod Carew. Through 21 dates in Anaheim this year, the Angels have drawn 621,980 compared to 369,709 last year.

Philadelphia, which signed free agent Pete Rose to a \$3.2 million contract, has enjoyed a jump of more than 155,000 so far. The Phillies,

shooting for a fourth straight NL East title, have attracted 814,496 this year compared to 658,551 for the same period a year ago.

The Phillies are running second in total attendance behind Los Angeles, which last year became the first team in major league history to crack the 3

million mark. Through May 28, the Dodgers attracted 991,290, but that is a drop of 60,775 from last year's fig-

The additions of Carew and Rose have had a clearcut effect in California and Philadelphia. But Cincinnati, Pittsburgh and Boston signed hold-

the price for the loss of Rose and the firing of popular Manager Sparky Anderson, are among the larger attendance losers so far, down 63,557. Boston is down an insignificant 3.088 and Pittsburgh shows a small gain of 7,-Besides Cincinnati and Los Angeles, substantial dropoffs have oc-

over stars George Foster, Dave

Parker and Jim Rice, respectively, to

similiar fat contracts and have not

prospered. The Reds, perhaps paying

curred in Toronto (down 71,505), Kansas City (down 66,024), Oakland (down 60,986), Texas (down 57,731) and Detroit (down 55,888). All figures, which are unofficial, are through May

Other teams who did not make significant roster changes are prospering. Baltimore has drawn 344,256 for 20 openings, an increase of 95,110 over last year, and Milwaukee's 403,501 for 20 dates represents a jump of 116,058.

Frank Thompson scored a hole-inone on the 195-yard No. 8 hole using a three iro at Midland Country Club Tuesday. Thompson had a 37-47-84 for the round, played in a foursome with John Carey, Bill Franklin and Al

# Duane Thomas tries to return again

GREEN BAY, Wis. (AP) — Running back Duane Thomas, whose name once spelled controversy in the National Football League, is cooperation personified as he tries to return to the game at the age of 31.

Thomas, known for problems with the press and coaches in the past, has not played football since 1975. But the Green Bay Packers think he still has the potential and signed him to a free agent contract in March

This week he is among the rookies and veterans at the Packers' early training camp.

"As I was telling my wife on the telephone this morning, Green Bay. offers me a chance to start a new life," Thomas said. "Everything here gives me the incentive and motivation to answer my football problems.'

Thomas recalled that when he signed with the Dallas Cowboys in 1970, his coach at West Texas State told him he would rather seem him going to Green Bay because he felt Vince Lombardi would give him a better chance of surviving in the

Now, Thomas is playing for Bart Starr, the man who was the field general on the Lombardi-coached Packer championship teams of the

"When I look at Coach Starr, I feel I'm looking at Coach Lombardi beecause he's a product of Coach Lombardi," Thomas said. "He's very confident. He knows what he wants, and he's a people's person.

Last fall, the Packers had Thomas in for a tryout that ended in yet another controversy. Reporters who

noticed that Thomas was still around some days after he first showed up asked Starr if that might not be a violation of the NFL's stashing rule.

Starr exploded, telling four reporters that if they printed anything about the matter and it resulted in the Packers losing a draft choice, they would no longer be welcome. He also made some temporary changes in the team's dealings with newsmen.

The league later absolved the Packers of any wrongdoing in the Thomas

"That was blown totally out of proportion," Thomas said of the incident. "I couldn't believe why anyone was upset. I was trying to pursue something that was positive. Football is my business. But that's all behind me

Thomas said he now has a much better relationship with reporters than in the early stages of his career at Dallas, and he blames himself for some of the problems in the past.

"I was concerned about playing football and not concerned about how much ink I was getting," he said. 'And then I wound up getting all the ink anyway for not saying anything. Knowing what I know now, I wouldn't have handled the press the way I

What are his chances with the Packers?

'Realistically, he's 31 years old and being away from the game for three years he has a long road to come back," said Starr. "But if he can maintain the attitude he's shown, he can make that road shorter."

Thompson scores ace

# Oil prices reach \$30

TULSA, Okla. (AP) — Some Persian Gulf crude oil reportedly is selling for \$30 a barrel and perhaps \$34, an official of Phillips Petroleum Co. says.

Spot oil prices have climbed in recent months as the worldwide shortage of oil mounts, C.M. Kittrell, executive vice president in charge of the petroleum products group, said, adding that Phillips is concerned over the potential supply of heating oil this winter.

"If we conserve gasoline usage, we will have plenty of heating oil for this winter," Kittrell said in an interview. Refineries could make more middle distillates, which incudes diesel fuel and heating oil, if the consumption of gasoline drops, allowing more crude to be processed into other producgs.

Kittrell said it appears there will be about 3 percent shortage in heating oil this winter "but if we cut back on the use of motor fuel we'll be OK."

The public, he said, can accept the shortage but wants to be asured tht the allocations are being made on an equitable basis. "This is a fetish with us," he said.

"The public likes to believe the energy crisis is contrived and looks for villians." The hunt for the person who has the key to the problem "is costing us time and all of us will pay a critical price for the disillusion," he

The shortage is being caused by such things as the Mideast's production rate and the cutoff of oil from Iran because of the revoluation, "factors over which we have no conorol"

Instead of worrying about oil company profits, he said, the administration should be noting that the price of foreign oil is rising continually.

# White House charges guidelines violation

The Washington Post

WASHINGTON — The White House Wednesday accused the Amerada Hess Corp. a major U.S. Oil refiner, of violating the president's voluntary price guidelines, and said it is notifying several other oil firms that they may be doing the same.

The action follows a Council on Wage and Price Stability study concluding that the recent rise in gasoline prices across the nation has been "far larger than can be explained" by the rise in crude-oil prices alone.

The council said that of an estimated 8.5-cent-a-gallon increase in gasoline prices nationally between January and April only a little more than a third was attributable to higher crude oil prices. The rest reflected higher profit margins for refiners and retailers.

Officials said they plan to refer the data on gasoline pricing patterns to the Energy Department for possible enforcement.

Under President Carter's wage-price program, Amerada Hess has seven days to appeal ar face denial of federal contracts.

The action came after Alfred E. Kahn, Carter's chief inflation-fighter, all but admitted that the wage-price guidelines have been ineffective, saying they are "incapable" of stemming inflation in the current economic environment.

Kahn also blamed Carter's decision to sign last year's tax-cut bill for the overheating that the economy suffered last winter and early this year. If Carter had vetoed the measure, he said, "we might have taken...the top off" inflation. CROCKETT COUNTY

Kahn also said the administration should have tried to cut another \$2 billion or so from the current's year's federal budget. And he again endorsed the use of selective credit controls to help control inflation.

The public finger-pointing at! Amerada Hess marked the second time since the start of the wage-price program last October that the administration has formally cited a corporation for violating its price guide-

Two weeks ago, the wage-price council cited a Denver-based cement company, a division of Ideal Basic Industries Inc., as violating the price standards. However, the firm chose to appeal the White House action, and the case is pending.

In discussing the gasoline price situation Wednesday, Kahn and the wage-price council refused to say publicly whether the increases in refiners' and retailers' margins amounted to any form of price-goug-

They also declined to disclose the names of other oil companies facing similar charges in coming days. Kahn said earlier that as many as nine firms might be listed as "probable non-compliers," but officials later re-

earlier that he probably will recommend easing price restrictions on lead, zinc and aluminum, on grounds that the limits are so excessive thatthey are driving some firms to export their goods, heightening shortages at

He also conceded he was not sure if the administration will be able to hold the present wage standard to 7 percent if the program continues into 1980. With inflation running at a 14 percent pace this year, there is pressure to ease the limit.

line prices was accompanied by a study by Congress' General Accounting Office concluding that oil companies now may be able to raise prices virtually at will because the Energy Department is unable to en-

Department for spending too much time trying to decide whether an oil company's violation is "willful," and called for earlier involvement in such cases by the Justice Department.

The wage-price council decision on Amerada Hess charged the company had not complied with either of the agency's two major price standards, and even had conceded that it was in

The council quoted Amerada Hess

#### Amerada Hess to comply." There was no explanation of why the company took that position, and Amerada Hess' spokesman was not

as replying in a letter: "We regret

that the price guidelines as estab-

lished by the council do not allow

available for comment Wednesday The New York-based refiner and the others presumably to be named

soon were the only ones among 80 that officials investigated that were found to be violating the price guidelines. The 8.5-cent-a-gallon rise in gaso-

line prices cited by the council covered the period from January to April. The agency said gasoline prices rose another 4.7 cents in April and jumped an estimated 4.2 cents in

Moreover, Kahn told reporters, the posted figures understate the actual price increases that consumers have had to pay because many service stations have stopped offering discounts to customers who pump their

Kahn's remarks about the guidelines and the administration's economic policies were made at a breakfast meeting with reporters. On other topics, the anti-inflation chief:

-Blamed the administration's earlier failure to cut spending for much of the current economic trouble, saying "the president's instincts have been better than those of his advisers," who talked him into tax cuts and more spending.

-Conceded that, with the current jump in crude-oil prices, Carter's decision to lift controls on oil prices could have a worse impact than first estimated, possibly half to threequarters of a percentage-point a year in inflation.

-Insisted that conditions now are so bad that Carter must go to the country next year conceding that Americans are going to suffer a reduction in their standard of living, a difficult message during an election

locations in Schleicher, Nolan and Fisher counties.

Discovery Operating, Inc., of Midland staked location for it No. 1 Lin, a 7,600-foot wildcat in Schleicher County, one and seven-eighths miles southwest of the three-well P-W (Can-

yon gas) field. Drillsite is 960 feet from south and 517 feet from east lines of section 21. block A, GC&SF survey, abstract 93. Elevation at ground level is 2,408

It also is two and one-eighth miles east of a 7,903-foot dry hole and 25

#### MERIT PROJECT

Merit Oil Co. of San Angelop staked site for a shallow wildcat in Schleicher County, 14 miles northwest

miles northwest of Eldorado.

of Eldorado. Scheduled for a 1,300-foot bottom, it is No. 1 Fred Case, 2,314.39 feet from north and 660 feet from west lines of section 35, block TT, TCRR survey. It is a south twin to a Canyon gas well in the Velrex, Southwest multipay oil

#### and gas pool.

NOLAN WILDCAT H. L. Neeb of Abilene No. 1 Rama Long is a new 7,100-foot wildcat in Nolan County, 7/8 mile southeast of a depleted undesignated Mississippian

discovery. The location is 1,452 feet from north and 660 feet from west lines of section 62. block 23. T&P survey and one and three-quarters miles northwest of the Estaban (Ellenburger) field.

#### FISHER PROSPECTOR

Arvin Norwood Drilling Co. of Midland No: 1 Weatherman has been spotted as a 5,800-foot wildcat seven miles northeast of Rotan in Fisher County.

It is 1,980 feet from south and 467 feet from west lines of section 284. block 2, H&TC survey.

The site is one mile south of the depleted Lena M. Green (Strawn) field and one and one-eighth miles southwest of the depleted Lena M. Green, East (Strawn) pool.

#### **RUNNELS TESTS**

Four wildcats have been announced in Runnels County. J. B. Production Co. of Denton No. 1 Kellermeier will be dug as a 5,000-foot wildcat 1/2 mile west of Miles and 636 feet from north and 585 feet from west

lines of section 136, WCRR survey.

Elevation is 1,818 feet. The site is one and one-eighth miles northwest of the Urban (Miles oil)

J. B. Production No. 1 Herman Heinze is 3/4 mile northeast of production in the same field and separated by a depleted oil and gas production. The site is 970 feet from south and 467 feet from west lines of section 132, WCRR survey. Elevation is 1,798

feet. It also will drill to 5,000 feet. J. B. Production No. 1 Robert Heinze is 3/8 mile northeast of Urban pool production and 1,801 feet from north and 529 feet from west lines of section 133, WCRR survey. Ground elevation is 1,799 feet. Contract depth is 5,000 feet.

one and one-quarter miles southeast G&MMB&A survey. of Fort Chadbourne and two miles northwest of the depleted Overman

(Gardner) pool. The location is 7,745 feet from northwest ad 4,670 feet from southwest lines of Hiram Friley survey No.

#### 448. Ground elevation is 1,990 feet.

HOWARD TEST Getty Oil Co., operating from Midland, will drill No. 1 Binie Lee White as a 7,900-foot wildcat in Howard County, five miles west of Vincent.

It was reported in error earlier as the No. 1 Sweetwater. Location is 5/8 mile northeast of a 7,900-foot dry hole and 660 feet from south and east lines of section 24, block 25, H&TC survey and 1.5 miles

#### southeast of the Vealmoor pool.

OUTPOSTS STAKED A pair of outposts have staked to the one-well Sugg (Ellenburger oil) pool of Irion County by Belco Petroleum

Corp. of Houston. They are contracted to 9,500 feet. The No. 1-137 Rocker B is one and one-quarter miles northwest of the producer and 660 feet from north and

east lines of section 137, block 1, T&P survey. Elevation is 2,531 feet. The No. 3-115 Sugg is 7/8 mile southwest of the well and 1,980 feet from south and 660 feet from west lines of section 115, block 14, H&TC

The sites are ll miles north of Barn-

REAGAN WELL Rial Oil Co. of Midland No. 1-3-A University has been completed in the Barnhart multipay area of Reagan

County, eight miles east of Big Lake. The pumper potentialed for 20 barrels of 40-gravity oil and 50 barrels of water, through Ellenburger perforations from 8,886 to 8,996 feet. The pay was acidized with 10,000 gallons, and the gas-oil ratio is 5,500-1.

Texas production schedule in the Barnhart pool. The zone does produce in the Barnhart, South area. Total depth is 9,290 feet, and 4.5inch casing is set on bottom. Location is 660 feet from north and 1,980 feet

from west lines of section 3, block 48,

# Somoza claimed falling

MANAGUA, Nicaragua (AP) -Government troops battled Sandinista guerrillas in the south, north and northeast of Nicaragua today as the rebels claimed they were fighting their "final offensive" against the Somoza family dictatorship.

The fighting raged between Nandaime and the Costa Rican border in the south; in Leon, the country's second largest city 60 miles north of Managua, and in Puerto Cabezas, an east coast port 250 miles northeast of the capital.

The national guard, President Anastasio Somoza's army, said it was driving the rebels south toward Costa Rica. But it banned all mention of the fighting on the nation's radio and TV stations and sealed the southern battle zone, cutting telephone communications and blocking the Pan American Highway just south of Nan-

The guerrillas claimed to control some settlements on the highway between Nandaime and the Costa Rican border. They said in a clandestine radio broadcast that much of the road was mined

Several hundred refugees were gathered in Nandaime, 30 miles north of Rivas, where the Red Crows provided them with food and shelter. More than 30 tractor-trailers lined the highway through the small village, the drivers huddling in groups along the roadway. Many of the trucks were loaded with goods bound for Costa Rica. National guardsmen stopped them at a bridge on the Ocho Mogo

A refugee who fled from Rivas when the fighting began Monday said he saw one national guard plane go down in flames. The guard said the pilot of one of its rocket-armed Cessnas was killed by gunfire, but it said the navigator flew the plane back to Managua after unloading the rockets into Lake Nicaragua.

The Managua airport was closed later Wednesday when another aircraft limped in for an emergency landing after being badly damaged by

Witnesses in Nandaime said they saw two national guard convoys, each with a Sherman tank, en route to Rivas, which the guard said it recaptured Wednesday.

The guard also said it stopped a Sandinista advance in an area called El Naranjo, where clandestine Radio Sandino said its forces were being fired upon by heavy guns from a ship in Salinas Bay. The broadcast said the ship, described as a cruiser, steamed into the area Wednesday 'after being purchased from a foreign power." The broadcast did not say where Nicaragua bought the ship and the national guard declined to

The guerrillas distributed leaflets to news media in Managua announcing that "the final offensive against he Somoza regime has finally begun." They called on leaders of the Roman Catholic Church, business and labor to prepare for a general strike to start soon.

Diplomatic observers were skeptical of the effect of the new guerrilla offensive, however, noting that moderate opposition groups had shown no support for it so far.

The guerrillas are members of the Sandinista National Liberation Front, named after a rebel who fought the U.S. Marines who put Somoza's father into power 45 years ago. The Sandinistas led a two-week uprising last September in which an estimated 1,500 persons were killed. As many more are estimated to have died in clashes since then.

# Khomeini forces pepper Arabs

KHORAMSHAHR, Iran (AP) - Ayatollah Ruhollah Khomeini's forces peppered the Arab quarter of Khoramshahr with gunfire today after checking an attempt by armed fighters of the Arab minority in southern Iran to take over the

Official sources reported 25 killed in fighting Wednesday and early today, including 22 in Khoramshahr and three in nearby Abadan, the site of the world's largest oil refinery. Arab sources put the death toll

country's largest port.

Khoramshahr's biggest hospi-

tal reported 102 wounded. Details of the fighting in Aba dan were not available, but the National Iranian Oil Compaysaid operations at the refinery were not affected.

Khomeini's revolutionary guardsmen and army troops by nightfall had driven most of the Arab fighters into the Arab quarter across the Karoun River from the main part of the city of 100,000 at the head of the Persian Gulf.

Firing World War I bolt-action rifles, U.S. repeater carbines and a machine gun, the guardsmen on the east bank directed a hail of fire through the night and late morning across the 200yard-wide river and the barges

and ships lining both banks. Most shops in the city re-

mained closed but townspeople

returned to the streets, avoiding areas where they feared they might be hit.

#### Yazdi warns U.S. of break

KUWAIT (AP) - Iranian Foreign Minister Ibrahim Yazdi says his nation will break relations with the United States if it continues to interfere in Iran's internal affairs, the Kuwaiti newspaper Al-Anbaa reported

The newspaper quoted Yazdi as saying in an interview that the Senate's recent condemnation of Iran's revolutionary executions was "an outright intervention in Iran's domestic affairs." Revolutionary firing squads have killed 242 Iranians since February; most of them members of ousted Shah Mohammad Reza Pahlavi's gov-

ernment. "If the United States continued to intervene in our internal affairs and refrains from recognizing our revolution, we will cut off links with her. But a rapprochement with the East Bloc is ruled out altogether," Yazdi

was quoted as saying. "Those who used to interfere in our country's affairs must know that such time has gone once and forever and that we are not prepared to allow -America or any other power to

will fight it if it tried to do so."

# NATO allies support SALT II, for most part

NOORDWIJKERHOUT, Netherlands (AP) - America's NATO allies supported the SALT II treaty with some reservations, and Secretary of State Cyrus R. Vance urged them to modernize their arsenals swiftly.

The allies gave their backing after Vance briefed them Wednesday on the first day of a two-day conference of NATO foreign ministers. The French, however, wanted to see more details of the accord before embracing its

The French are concerned about the next round of weapons bargaining. The Soviets are pressing to bring all nuclear powers into the SALT III process. The French are balking and have repeatedly rejected outside intervention in their nuclear weapons development.

#### Sihanouk predicts Pol Pot defeat

BANGKOK, Thailand (AP) - Cambodian Prince Norodom Sihanouk told a visitor in Peking recently he believes Cambodian rebels loval to ousted Premier Pol Pot are waging a losing battle against the stronger Vietnamese-led forces of the new Cambodian regime, a Thai newspaper reported

The Nation, an English-language daily, carried an account of a meeting earlier this month between Sihanouk, the former Cambodian chief of state, and Chana Samudavanich, Thailand's former ambassador to Cambodia. Sihanouk was quoted as having told Chana that "the Chinese told me that with their arms support, Pol Pot forces would last at least three years. But I

#### Bhutto's daughter returns home

LARKANA, Pakistan (AP) - Benazir Bhutto, daughter of executed Prime Minister Zulfikar Ali Bhutto, returned to her father's hometown after being released from detention, and supporters greeted her with chants of 'Bhutto will live for thousands of years.'

'Although, I have been freed, I am now a prisoner of grief and sorrow. In fact, the entire nation of Pakistanis is in the grip of this mood today. Zulfikar Ali Bhutto belonged to this land of Larkana," Miss Bhutto told townspeople at the train station Wednesday.

#### Strauss hints at unilateral quotas

PEKING (AP) - Trade Ambassador Robert Strauss today hinted at unilateral U.S. quotas on textile imports from China after the Chinese rejected American terms for a textile agreement needed to insure congressional approval of the new U.S.-Chinese trade pact.

"Hypothetically," Strauss said, "it is possible that the United States would take unilateral action so that we would have a textile policy in effect in our country.'

#### U.S. to supply planes to Egypt

WASHINGTON (AP) — The United States is prepared to supply Egypt with up to a dozen F-4 Phantom jets by October to boost President Anwar Sadat's military strength, U.S. officials say.

Sixteen Egyptian pilots who will be trained to fly the planes are expected to arrive Monday for a four-week course in the English language at a San Antonio, Texas, Air Force center.

By the time the courses are over, the United States and Egypt will formally strike a deal over the 12 Phantoms, said the U.S. officials who insisted they not be identified.

#### Dora Bloch's remains identified

KAMPALA, Uganda (AP) — An Israeli pathologist says he has identified the remains of Dora Bloch, the 74-year-old Jewish grandmother who reportedly was dragged from a Kampala hospital and killed by Idi Amin's men after Israel's Entebbe airport raid in 1976.

Dr. Maurice Rogoff told a news conference in Kampala Wednesday "there is no doubt in my mind" the remains found in a shallow grave near the village of Livuvu, 20 miles east of the Ugandan capital, are those of Mrs.

He said his identification was based on a comparison of the skeletal remains and Mrs. Bloch's extensive medical records. He said the skeleton had the same spinal irregularities shown in Mrs. Bloch's X-rays, and these were "as useful as a fingerprint" in determining identity.

#### Congress nears peace aid OK

WASHINGTON (AP) - Congress is just steps away from approving President Carter's \$4.8 billion aid package to support the Egypt-Israel

The Senate approved the aid 73-11 on May 14 and the House approved it The two bodies now must compromise small differences between their

#### bills into one for final approval and Carter's signature. Wey death causes security review

SAN SALVADOR, El Salvador (AP) - Embassies in San Salvador reviewed their security precautions today after the assassination of Swiss Charge d'Affaires Hugo Wey, the 96th person to die in El Salvador's political violence this month.

The diplomatic corps condemned Wey's "senseless murder," saying "this contemptible act will be repudiated throughout the world." President Carlos Humberto Romero's right-wing military government said it was "obvious that in the history of humanity, such brutal acts of violence have never contributed to the solutions of problems anywhere.'

#### Indonesian earthquake kills 20

JAKARTA, Indonesia (AP) - An earthquake measuring 6.7 on the Richter scale has killed at least 20 persons and injured 70 others on the Indonesian island of Lombok, east of Java and Bali. authorities said

The quake late Wednesday afternoon, which was centered along the western coast of Lombok, sent residents and tourists fleeing out of doors on the holiday island of Bali, 25 miles to the west. There were no reports of casualties on Bali, however.

# Stock market loses

NEW YORK (AP) - The stock market took a sharp drop Wednesday in steady selling that left the Dow Jones industrial average at its lowest level in almost three months.

The Dow industrials fell 10.39 to 822.16, the lowest close since the average stood at 815.75 on March 2. Twenty-seven of the 30

blue chip issues that make up that widely recognized indicator posted losses. Declines-outnumbered advances by a 3-1 margin in the over-all count at the New York Stock Exchange.

The biggest contributor to the Dow's loss was Du Pont, off 41/8 at 1257/8 as of the 4 p.m. close in New York. The company said it knew of no reason for the pressure on its F.W. Woolworth, another

of the average's components, dropped % to 23% on top of a 2-point loss Tuesday. Brascan Ltd. has abandoned its effort to make a \$35-ashare takeover offer for the company. Analysts said concern

over rising gasoline prices and uncertainty about fuel supplies continued to set the mood on Wall Street.

On top of that, Wednesday's Wall Street Journal revorted that Barton Biggs, research director of Morgan Stanley & Co. and an influential market analyst, was advising investors to reduce their stock holdings a bit.

And during the day the Commerce Department reported that the nation's trade deficit widened in April, with imports exceeding exports by close to \$2.2 billion.

# **BUSINESS MIRROR** Climbing debts, confidence lack expand inflation

By JOHN CUNNIFF **AP Business Analyst** 

NEW YORK (AP) - Other than for the limited supply and high cost of imported oil, is there something about the 1979 brand of inflation that makes control of it unusually difficult?

The answer is yes. Regulatory restraints on borrowing have been eased. So has the American attitude toward public and private debt. Lifestyles are involved, as is lowered confidence in govern-

In other years, inflation's onset would mean tighter federal budgets. But for fiscal 1978 the deficit was \$48.76 billion. The 1979 deficit is about \$33 billion; the 1980 projection is minus \$28.4 billion.

While they differ on so many things as to undermine confidence in their craft, economists generally agree that such deficits at the peak of a long economic expansion can only result in inflation. But private individuals have also run budget defi-

cits, adding to price pressures. Consumer installment debt—the kind repaid by the week or month has risen to more than \$275 billion, up \$45 billion in a A three-year look at the changing figures reflects

the changed attitude. In January 1977, the ratio of installment debt to income was about 13 percent. A year later it had risen to 14. This year it's 15.

Why the willingness to take on so much debt? Surveys show that people have lost faith in the government's ability to restrain inflation, and so buy before prices rise even more. They then repay in

cheaper money.

The rise in the number of women workers has also enabled some families to assume more debt. Fortyfive percent of homebuyers now have more than one wage earner in the household, according to mort-

Mortgage lenders themselves have sometimes encouraged debt by bending the rules of thumb on the size of loans that can be made on homes, sometimes granting mortgages that amount to 35 percent of

But they aren't the only lenders who have relaxed standards. Bank credit cards have proliferated, sometimes unsolicited; and with them, lines of credit have often been extended, again unasked.

Overdraft checking, which permits bank customers to write checks for amounts far beyond their deposit amounts, has also become common. And human nature being what it is, the overdraft priveleges are usually used. Wary of being squeezed by tight money, as in other

years, many businesses also have developed guaranteed lines of credit and are using them. They too recognize the beauty of repaying in cheaper dol-A particularly important regulatory change has

had a big impact on the housing market, again adding to inflationary pressures. That change permits savings institutions to offer high-yield savings

Until last year, a savings and loan association or savings bank could offer long-term savings certificates that, with compounding, might reach 8-plus percent over a seven or eight-year period. Now they can offer \$10,000, 6-month certificates that pay close

The net effect has been to delay the homebuying slump that accompanied inflation in other years, when lenders didn't have funds to lend. The 10 percent rate helped them retain deposits, which could be lent out.

As inflation worsens and interest rates climb, not even the 6-month certificates may be able to help savings and loan associations retain funds. They had a net outflow of \$1.5 billion in April. But they delayed

No, it isn't only the cost of oil that has fueled the current 13.9 percent annual rate of inflation. You might say that Americans, as individuals and through government, also added grease to the

# Business said good in used merchandise

By BRENDA MOONEY

ATLANTA (AP) - Merchants of an old school are setting up shop with increasing frequency these days in inner-city storefronts and suburban shopping They are the entrepreneurs in junk who, in a poetic

sense, turn sows' ears into silk purses for a pofit. They sell salvage and old furniture, architectural artifacts and used books, antique clothing and preowned record albums. Although used-goods stores have been popular for

business is booming. The reasons are mainly financial, said Charlie Kauffman, the owner of Record Heaven, a used-record store near downtown.

years, Atlanta-area merchants of old goods say

"Everything is going up. Even better-off people are looking for a bargain," he said. "You can't do anything about the cost of gas or heat or rent, but you certainly can do something about the price of rec-

Kauffman said most of his customers were young married couples buying rock records or older folk shopping for classical bargains. "We don't have many teen-agers," he said. "Teen-

agers have more money than people in their early to mid-20s. They're spending daddy's money." The customers' desire for something different is

the key to the business at Little Egypt Antique Clothing, said owner Patti Morrison. While the low cost of clothing in her store — \$12

average for a dress — does attract some customers, Ms. Morrison said, "I think it's more fun than Her customers are women of all ages, she said. "I would say the majority are in the 20s. We get some

teen-agers. We costume little kids and grown-ups. And a neat little lady came in yesterday and bought \$40-worth of stuff. She just loved it." Ms. Morrison, who says she haunts thrift shops all over the country for merchandise, said she had

grown up as an average middle-class child who 'never knew about thrift shops." Her big sellers are old sailors' uniforms, bowling-

shirts, silk nightgowns, slinky dresses and vests. "I don't deal in polyester at all," she said. Bill Watson, the manager of The Paper Chase, a used-book store in nearby downtown Decatur, said

most of his customers "easily could afford new books, but they don't buy them.' "We get all kinds of people, even businessmen," he said.

The customers tend to buy their favorite authors in new, hardback editions, but would rather buy light reading at half price, Watson said. "Most new paperbacks are more than \$2 apiece," he said. "We sell all of ours at half cover price." The

store also sells paperbacks that are out of print.

Long acknowledged as one of the Southwest's top golf courses is the Midland Country Club's championship links. Although MCC was founded in 1927, the present facility has been

located north of the city only since 1956. The 7,349-yard, 18-hole course has been the site of the Trans-Mississippi and Texas Amateur golf

tournaments. This view from the "turn shed" shows the 18th fairway. (Staff Photo by Bruce

# Antique-filled house had train depot in back yard

LAMAR, Colo. (AP) - A nursing home was evacuated early Wednesday and police led theater patrons to safety through chest-deep water as an intense storm inundated this southeastern Colorado town with 5½ inches of rain in 21/2 hours. There were no reports of deaths or

serious injuries as a result of the storm which swept through the area late Tuesday. While the nearby Arkansas River

Heavy rains

flood area

remained within it banks, some overflowing of irrigation ditches was reported on the outskirts of town, mostly the result of the sheer intensity of the rain.

The storm was one of many triggered along the Front Range and on the eastern plains Tuesday afternoon and evening by the arrival of a Pacific cold front pushing through the The flooding in Lamar was most

intense in a six-block area downtown. Dozens of motorists were stranded at the height of the storm when U.S. highways 50 and 287 were closed by high waters. The roads were reopened shortly after the rain The 53 residents of the Cinderella

Nursing Home were evacuated about 12:30 a.m. The rain had stopped, but weather forecasters were warning of possible additional rain and the evacuation was undertaken as a precautionary measure, said Marnie Plots, a housekeeper at the nursing home.

The residents were moved to a Colorado National Guard armory at the south end of Lamar.
