FAA grounds DC-10s after cracks found on jet engine mounts

WASHINGTON (AP) — The Federafter receiving information Tuesday Lavey said it was not known how al Aviation Administration today sunight that two American Airlines DC-

spended the design certificate of the DC-10, indefinitely grounding all 138 of the jetliners flown by the nation's airlines. The FAA acted after new cracks

were found in the engine mounts of two of the jumbo jets that had been inspected and cleared earlier, an agency spokesman said.

The spokesman, Jerry Doolittle, said the grounding order came in the form of an emergency suspension of the DC-10's design certificate, an apparently unprecedented step involving a commercial jetliner.

Doolittle said the design certificate is required before a type of airplane is given an airworthiness certificate, a document that attests to the safet of the airplane.

'It's too early to tell" exactly what the inspctions will entail, said another FAA spokesman, Jerry Lavey. "We're going to have to satisfy ourselves that the aircraft now in operation conform with the original design we approved. We're going to look at everything."

Doolittle said that while the order covered the design of the entire plane, the engine mounting area was "the only area we're concerned with at the

Reporter-Telegram

to close early

The Reporter-Telegram will be closed Thursday from 1 until 4 p.m. in respect to the memory of William M. "Bill" Woody, long the DC-10 fleet will be out of service.

Special inspections of the engine mounts of the DC-10 came after an American Airlines DC-10 lost an engine and crashed in Chicago May 25, killing 272 persons aboard the jet and three on the ground. It was the nation's worst air disaster.

The DC-10, a tri-engine, wide-body

Grounding catches carriers by surprise and a passenger group raps aviation officials. See these related stories on Page 2A. .

transport built by McDonnell Douglas Corp., carries an estimated 33,000 of the nation's air travelers daily. Eight U.S. airlines operate the plane.

At least three of the eight airlines, United, Continental and Northwest Orient, said they were cancelling all DC-10 flights immediately. United and Northwest Orient said it hoped to substitute other aircraft for the grounded jets, but Continental said it had no spare equipment.

Overseas, Lufthansa German Airlines grounded all its DC-10s on orders of the West German government. In all, 33 foreign air carriers fly the DC-10, and they are not legally bound by the FAA grounding order.

Lavey said the DC-10s in the air when the certificate was suspended were permitted to continue on to their nearest destination.

The order was hand-carried to McDonnell Douglas' plant in Long Beach, Calif., Doolittle said.

A McDonnell Douglas spokesman

the execution of - a temporary order to ground the DC-10s. In staying his order, he said he wanted to give the FAA a chance to try to show that the jets were safe.

Robinson's action was in response to a request from the Airline Passengers Association

"I'm happy that the FAA, for whatever reason, has complied with the federal judge's order," James E. Dunne, president of the 50,000-member association, said of today's action by the agency. "I've only asked that there be a complete scientific study in depth ... Better to be inconvenienced and to know that you're not taking a risk of unknown proportions.'

Doolittle said the new cracks reported Tuesday night were uncovered as the planes were nearing their 100hour inspections, which were called for in a recent directive.

"Why this is so disturbing is that these two aircraft had gone through (the inspection) process" and were thought free of problems, he said. The judge's original grounding order had said the FAA is "restrained from permitting the continued operation of the McDonnell-Douglas DC-10" until the cause of the engine loss is determined and "sufficient corrective measures have been taken.'

initially issued - but later postponed

vice president and general manager, who died Tuesday. The newspaper's metro and home editions will be combined and published earlier than usual in order that employees may attend funeral services. Offices will re-open at 4 p.m.

had no immediate reaction to the FAA's action

The FAA's action early today came only hours before the agency was to return to federal court here to try to convince a judge that the jumbo jet was safe to fly.

Doolittle said the agency acted

Not too many newborns make their own birth announcements, but that's apparently the case as Bill Conner of County Road 1120, near Greenwood, became a "daddy" May 31 and this sign appeared

in the window of the electronics store where he works. Bill's wife Londa, and the baby girl, Jody, came home from the hospital Monday. (Staff Photo by Bruce Partain)

Health agency to start over

Will reconsider application for cancer center

Austin.

By SUSAN TOTH **Staff Writer**

The project review committee of the Permian Basin Health Systems Agency decided Tuesday night it had failed to follow its written procedures and recommended starting over in considering Midland Memorial Hospital's application for a certificate of need for a \$1.7 million cancer treatment center.

Six of the nine-member committee were present Tuesday night for the reconsideration hearing requested by Odessa's Medical Center Hospital.

None of those present said he thought the deviation from procedure had affected the group's decision, but agreed the rehearing would remove any question about the validity of the final recommendation.

Medical Center opposes building of the level III cancer treatment center in Midland because that hospital claims such a center would duplicate facilities already available in Odes-\$8.

PROPONENTS CLAIM, however, that the Midland center would offer sophisticated treatments not now available in the Permian Basin area. A donation of \$1.5 million from Midlander Helon Y. Allison would be

used to build the Midland center. The recommendation by the committee must now be reviewed by the agency's 32-member governing body. If that group agrees with the committee, the certificate of need application will be back at its intitial point.

A certificate of need issued by the **Texas Health Facilities Commission** is necessary before a hospital can

spend \$100,000 or more on anything. Comments from the local Health Systems Agency should have a significant effect on the consideration in Austin, according to Harley Reeves, director of the HSA, because the local group is the one which designed the five-year health plan for the region.

The local HSA, however, has only until June 29 - 60 days after the THFC received the application - to submit its comments.

In the three weeks remaining before the deadline, the 32-member governing body must meet to rule on the committee recommendation for a rehearing.

THE GOVERNING body can disapprove the recommendation and send the appliation to Austin with the favorable comments already written by the committee.

If the body approves the recommendation, the committee must hold another public hearing, meet and formulate written comments on the public hearing, then submit that written report at a second governing body meeting.

If the deadline is missed, the application goes without any comment from the group back to the THFC in

In the original hearing on the matter May 22, the public hearing, project review committee meeting and governing body meeting were held back-to-back.

No written report from the committee to the governing body was submitted, and a 28-page staff report on the application required to be to the committee five days before the hearing was handed out just before it start-

Those deviations from the written procedures were the bases of one of Medical Center's objections to the original hearing.

They also contended Midland Memorial had implied a stronger agreement with M.D. Anderson Hospital in Houston than actually existed.

MIDLAND MEMORIAL Hospital

said there was "tentative approval" of the link with the Houston cancer center, but Joe Weber, attorney for Medical Center, said Tuesday night no agreement, however tentative, actually existed. Committee members discounted that argument.

Committee members spent most of Tuesday's two-hour meeting trying to decide how "material" the deviation from the standard procedure had

This is the first certificate of need application the group has reviewed, and it apparently followed its regular pattern for granting reviews instead of the more technical certificate of need procedures.

thought the deviations were significant enough to have changed the favorable recommendation, Weber ar-gued that, since this was the first such procedure handled by the group, it should set a pattern for future reviews.

"Your rules are written so your time is not wasted," Weber said. "If you continue to meet back-to-back (with the governing body), you're wasting your time."

COMMITTEE MEMBERS commented that most of the governing body had been present in the public hearing and was privy to all the infor-

of vehicles in Midland By MIKE SLATON Staff Writer

Of recent, a number of Midland motorists have found themselves and their vehicles under the joint scrutiny of the Texas Department of Highways and Public Transportation and the Midland Police Department

Police making inspections

For example, a vehicle registration check was made Monday at two main thoroughfares in the city.

Approximately 80 tickets were issued by two police officers at check points set up in the 2600 block of Wadley Avenue and in the 700 block of the Andrews Highway, according to police.

The largest number of tickets were issued for vehicles not having a front license plate, although many others were issued for lack of motor vehicle inspection stickers and invalid driver licenses, police said.

Inspector Allan Neighbors of the highway department's Motor Vehicle Divison, said 27 notices were issued by his department for expired license plates.

"No fine is involved with notices issued by the highway department," said Neighbors. He added, however, that failure to comply with such notices could result in a complaint being filed by the state of Texas with a fine being the ultimate possible result of such action.

'The Texas Highway Department is not a law enforcement agency,' said Neighbors. Basically the department was engaged in a public information service, he said.

'About once a month we check vehicle registration in Midland," the inspector explained. Expired vehicle registration (license plates) and outof state registration are the main focal points of the department's efforts, he said.

'If someone lives in the state more than 30 days, has established a home, is employed here, sets up utility agreements, such as gas or electric, or in some way establishes themselves as a resident of Texas, they must register their vehicle in Texas," Neighbors said.

When a person is found in violation of such regulations, said Neighbors, he is given a pamphlet explaining what he must do to be in compliance with the law

WASHINGTON (AP) — A Senate plan giving President Carter new powers to deal with fuel shortages — including authority to ban home gas hoarding and to require states to meet fuel-saving targets - is awaiting House action.

The plan, viewed by many backers as a substitute for the president's rejected proposals for gasoline rationing and energy conservation, was approved by a 77-13 Senate vote Tuesday night.

Action is expected next in the House Commerce Committee, where a group of Democrats led by Rep. Toby Moffett, D-Conn., are vowing to re-place the Senate bill with their own plan.

Their proposal includes a sticker plan under which motorists might be

required to leave their cars at home one day a week to save fuel. A proposal by Sen. Lowell Weicker, R-Conn., for a similar but stricter driveless-day plan was rejected 79-10 by the Senate.

Under the overall plan passed by the Senate, the president could set national fuel-saving targets during serious energy shortages. States failing to meet these targets with their own plans would be subject to mandatory conservation orders issued and enforced by the president.

The bill sets no guidelines on what type orders Carter might issue, although backers said they could range from limits on gas sales to banning parking on city streets to encourage mass transit.

The Senate rejected a suggestion that Congress be given veto power over plans the president issues despite arguments from critics like Sen.

William Armstrong, R-Colo., that the president could easily abuse the potentially sweeping new authority the legislation would give him.

But Sen. Bennett Johnston, D-La., one of the sponsors of the bill, argued that given Congress' past inability to reach agreement on key energy issues, it was probably better to let the president have this power alone.

However, senators made two exceptions: Under no circumstances could the president order gasoline stations closed on weekends nor could he impose curtailments on gasohol, a blend of gasoline and alcohol.

And the Senate also gave the president a new power that wouldn't have to wait for a declaration of a serious energy shortage - the authority to ban home gasoline storage tanks and other forms of fuel hoarding.

Sen. Walter Huddleston, D-Ky., said he proposed the measure - approved unanimously by the Senate - to stop people from putting tanks in their yards to hoard gasoline. This practice is likely "to escalate in the coming months if it is not

checked," said Huddleston.

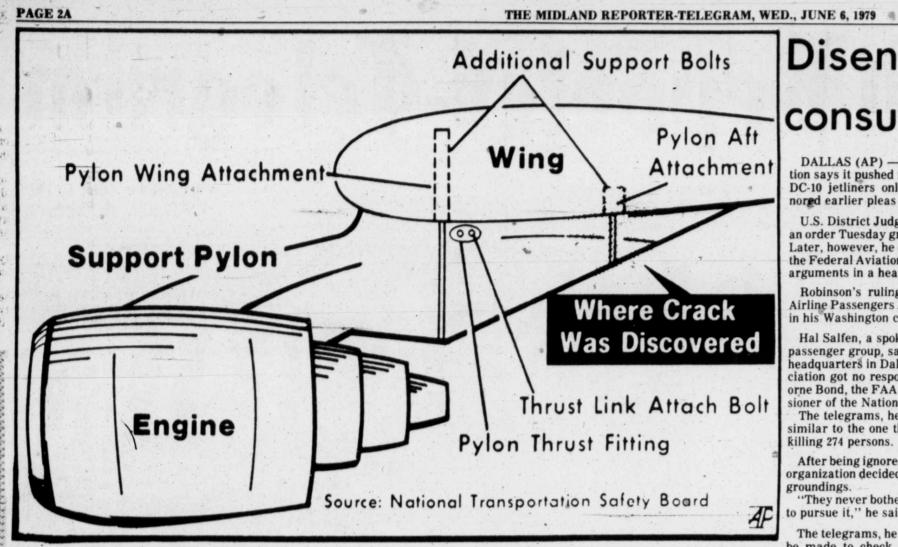

Huddleston indicated his attention was drawn by news accounts describ-ing how former Navy Secretary William Middendorf had sunk a 4,000-gallon gasoline storage tank in the front yard of his Virginia home as a hedge against gas shortages.

Some opponents of the bill claim the complexity of the process — requiring steps by both the president and the states — would virtually assure that the plan couldn't be used to ease gasoline shortages this summer.

mation the committee had, Midland Memorial attorney Fred Davis acknowledged procedural de-

viations had occurred, but noted the rules said the deviations must be "material" before a rehearing must be held.

While none of the committee

The area where a 10-inch crack was discovered in the aft attachment point of a pulon that separated from the engine of the ill-fated DC-10 that crashed May 25, killing more than 270 persons, is located in this Associated Press drawing. In the latest development Tuesday, as investigations into the crash continued, a federal court judge

granted a temporary restraining order grounding all DC-10s. He acted after hearing arguments from a consumer group. After requesting a delay until further arguments, could be made in the Washington hearing, the FAA grounded the planes today in a surprise move. (AP Laserphoto)

Disenchanted with officials, consumer group sought ruling

DALLAS (AP) — An airline passengers organization says it pushed for the grounding of all domestic DC-10 jetliners only because aviation officials ignored earlier pleas to test the planes.

U.S. District Judge Aubrey E. Robinson Jr. issued an order Tuesday grounding all DC-10s immediately. Later, however, he delayed implementation to allow the Federal Aviation Administration to make further arguments in a hearing today at Washington.

Robinson's rulings came on the request by the Airline Passengers Association at a hearing Tuesday in his Washington court.

Hal Salfen, a spokesman for the consumer airline passenger group, said Tuesday at the organization's headquarters in Dallas that the 50,000-member association got no response to telegrams it sent Langhorne Bond, the FAA chief, and James King, commissioner of the National Transportation Safety Board. The telegrams, he said, asked for tests on a plane similar to the one that crashed recently in Chicago killing 274 persons.

After being ignored in that request, Salfen said, the organization decided to seek court action to force the groundings.

"They never bothered to answer us. We felt we had to pursue it," he said.

The telegrams, he said, "asked that scientific tests be made to check for metal fatigue and possible design problems.'

Salfen said the telegrams sent Saturday to King and Bond asked only that a plane of similar design and age be tested, and "groundings would be a disservice to the air traveling public.

'We are not gleeful over the thing at all," he said. "We are sorry so many people will be inconvenall. We are looking out for the safety of our members and the traveling public."

WANT ADS reach thousands daily, WORK FAST. Dial 682-6222

. The passengers' group was rebuffed Sunday in an earlier attempt to have the DC-10s grounded.

The National Transportation Safety Board then announced Monday that improper maintenance procedures may have produced a crack that led to the Chicago crash May 25.

'(The ruling) did not take us by surprise," Salfen continued, "That's what we asked for. We felt in light of the added information supplied by the National Transportation Safety Board yesterday afternoon (Monday) that the judge did not have on Sunday, they would take another look at the intial decision

Robinson directed Bond to bar continued operation of DC-10s "until such time as the cause for the loss of the left engine on American Airlines DC-10 Flight 191 is identified and sufficient corrective measures have been taken to prevent future occurrences of the type that led to the crash.'

Salfen said the association was formed 20 years ago as a consumer safety organization concentrating on the "convenience, comfort, economy and safety" of its members.

The association periodically surveys its members - most of whom make between 35 and 40 air trips a year - which airline and planes they prefer.

Ironically, American Airlines has been named the favorite airline the past five years. The DC-10 ranked second behind the 747 for trips over three hours and second behind the 727 for trips under three hours

Salfen said the association often helps smooth the way for members who encounter problems such as lost baggage and overbooked flights. The APA has

Chicago bank to lend \$8 million to China

HONG KONG (AP) - The First National Bank of Chicago has agreed to lend \$8 million to China for the purchase of cargo ships, a bank official announced here today.

Executive Vice President William McDonough said the loan is believed to be the first granted to China by a sure Talmadge

Talmadge, chairman of the Senate Agriculture Committee, says Minchew is a "proven liar, thief, embezzler

Minchew insists the conversion scheme was approved by the senator as a means of providing him with a ready source of cash.

When newspaper accounts of financial irregularities first surfaced last summer, Talmadge convened meetings to decide how to respond.

Minchew said he attended some of those meetings even though he had left Talmadge's staff in 1974 and last summer was a member of the International Trade Commission, a post he has since resigned.

Following one meeting on June 13, 1978, Minchew wrote a memo to the senator spelling out some details of the money conversion scheme from four years previously.

Minchew testified that Talmadge's instructions were to keep the conversion plan a secret between them.

Instead, according to Minchew, Talmadge turned the memo over to the Justice Department, which sent a lawyer to question Talmadge's former assistant.

Believing that the Justice Department obtained the memo from someone other than Talmadge, Minchew said he "purposely withheld information" from the government lawyer, and "was less than candid."

"I tried to buy time, to mislead him, so that I could get further clarification from my principal (Talmadge).

Minchew said his principal concern was that investigators be kept away from the fact that campaign contributions were passed through the secret account

Later, Minchew said, he learned that Talmadge had precipitated the investigation.

Minchew has previously testified that Talmadge has an excellent memory for facts and figures. But Minchew said last summer, he felt it necessary to "refresh" the senator's memory on how campaign contributions and expense funds were funneled through a secret Washington bank account.

Asked why, Minchew testified that Talmadge had a great many personal problems at the time and he was unsure "what his (Talmadge's) abilities were in 1978.

Talmadge was treated for alcoholism earlier this year, after an incident in which he visibly stumbled down the aisle on the Senate floor in

January. In all, Minchew says he handled \$45,000 in Senate expense funds and campaign contributions in 1973 and

Clarence Jay Faulkner, 4900 E. University Blvd., was charged Tuesday with the alleged armed robberies of The Inn of the Golden West and a 7-Eleven store between 2:30 and 3 a.m. of that day.

Rubin Suarez, 22, a clerk in the 7-Eleven store allegedly robbed at rifle point about 3 a.m. Tuesday, apprehended a man in an alley behind the store. Suarez, recently of the Marine Corps, said his chasing of the man was "just instinct.

The man allegedly fired two shots from a .22-caliber rifle during the incident, reportedly to get Suarez to move faster, according to statements made to police

Earlier, about 2:30 a.m. Tuesday, a man fitting the same description allegedly had robbed the Inn of the Golden West of an undisclosed amount of cash, firing one shot from a .22-caliber rifle to gain the cooperation of the desk clerks, police were told

Mad Hatter or White Rabbit?

ATLANTA (AP) - Former federal budget director Bert Lance, indicted last month, says that seeing his name in the newspapers sometimes makes him feel like a character in Lewis Carroll's "Alice in Wonderland.

Lance, indicted by a federal grand jury on various conspiracy and bank fraud charges, said Tuesday the news media occasionally practices "red queen journalism - where the queen says the verdict first, then the facts."

In a speech to communications students at Georgia State University, the former federal budget director emphasized he was "a strong supporter of freedon of the press." But he added that some segments of the media practice "interpretive" journalism. He singled out a recent editorial in The Washington Post, which he said "did not allow me the constitutional guarantee to be presumed innocent until proved otherwise. Lance said the United States was "at a critical juncture" at which freedom of the press and other constitutional safeguards appeared to be in con-

Two persons hurt in auto accident

Two Midlanders sustained minor injuries and a third was uninjured Tuesday when the station wagon they were in went out of control and hit a telephone pole, according to officials.

Shirley Franklin, 29, 501 Francis Ave., driver of the car, and Margaret Brown, 19, 1003 Midkiff Road, were treated and released from Midland Memorial Hospital. A second passenger in the car, Evert Brown, 22° 1003 Midkiff Road, was uninjured in the accident, according to official reports.

A spokesman for the Department of Public Safety said the car's engine apparently stalled, causing a loss of power steering.

The spokesman said the driver lost control of the car and failed to negotiate a turn on East County Road 140 at its intersection with County Road 1140

J.S. bank.

McDonough said the loan agree ment was signed with the Fujian (Fukien) Investment Corporation in China's southern Fujian province. He said the note was guaranteed by the Bank of China.

Both McDonough and Robert Abboud, chairman of the bank, declined to give other details of the agreement during a news conference.

The bank held a board meeting in Peking last week.

He said that with China's modernization program, the bank hopes to conclude more loan agreements with China when "occasions arise.

1974. Some \$39,000 passed through the secret bank account On Tuesday, Minchew said he used

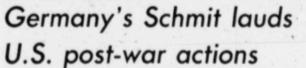

\$16,000 of the money himself, gave about \$10,000 to Talmadge's late son Bobby, \$500 to Betty Talmadge, the senator's former wife, \$13,500 to Talmadge, and \$5,000 was restored to legitimate use in Talmadge's 1974 reelection campaign.

Asked about the money to Mrs. Talmadge, Minchew said he was informed at some point that she needed money. He was also asked how he decided how much to give her. "It was

pulled out of the air," he said

"I hope we never get to the point where we are assigning priorities and degrees to the things that are precious to us in our Constitution," he said. For the most part, however, Lance's speech was

light and peppered with anecdotes.

NEW YORK (AP) - West German Chancellor Helmut Schmit said today that the 35th anniversary of D-Day means less to him than two other events not long afterwards that signaled American post-war generosity.

'Of course I do remember the invasion," he said on the NBC "Today" program. "But I must tell you that the exact date hasn't engraved itself so deeply in my memory.

D-Day refers to June 6, 1944, the day the Allies invaded Europe, marking a turning point in World War II.

Schmit described Germany as war-weary by then and hoping for the end of it.

"There are two other dates right after the end of the war which I commemorate much more strongly; namely, the speech which the then American secretary of state, James Byrnes, gave in 1946 in Stuttgart and another speech given in 1947 by his successor, George Marshall, at Harvard.'

The first, he said, "told us Germans that there would be a place for us in the future world, (a) place even for the defeated Germans.'

The second was the announcement of the Marshall Plan, "in which we were shown this great solidarity of the American nation, willing to help all the Europeans whose industries and cities had been destroyed, even including us Germans."

The unspoken tribute.

What do you say when a big part of your life suddenly goes away? First I sent flowers to the funeral. That was a matter of respect.

"But then when I thought about it awhile. I sent flowers to Jim's wife and the kids. That was a matter of caring.

There are times when the traditional may not be enough to express your feelings as well as you'd like them expressed.

We can help. We've been helping people in these matters for many many years

Judges to study guidelines

WASHINGTON (AP) - In a rare action, a full nine-judge panel of the U.S. Court of Appeals will meet a week from today to consider whether the Carter administration has the legal right to punish violators of his voluntary wage-price guidelines.

Usually only three appellate judges hear cases. A government attorney said Tuesday it was unusual for all nine to gather to hear a case this quickly.

The case is the government's appeal of a ruling last week that said Carter lacked constitutional authority to threaten denial of federal contracts to companies that violate the wageprice standards.

A government attorney who asked not to be identified said the appellate court moved with "extraordinary rapidity' in the case, apparenty paving the way for quick action should it move to the Supreme Court.

Last week, U.S. District Judge Barrington Parker ruled in response to a suit filed by the AFL-CIO. But after ruling against the president, Parker temporarily stayed his decision pending appeal.

The appeals court Monday continued the stay "until further order of this court.

That allows the administration to threaten penalties against guideline violators until the appeals court rules.

Pair 'demoted' to uniform status

BIG SPRING — Crime Task Force members John Burson and Gilbert Limon have been returned to uniform status after Big Spring Police Chief Stanley Bogard charged the two men "were not doing the job we expected of them.'

Their job, under a state grant, was to investigate the major criminal cases handled by the department's detective division.

Capt. Jim McCain, the officers' supervisior, said the task force worked 'only" 24 cases, although Burson and Limon claimed they had processed 64 cases in five months.

Burson and Limon are expected to appeal their "demotion" through the Texas Council for the International Brotherhood of Police Officers in Austin.

Burson is the IBPO chapter president here and as been active in a drive to have civil service standards applied to the Big Spring Police Department.

C.J. and Lona Cornelius aren't worried about gas prices anymore. (Staff Photo)

Couple hits the triking trail

Story and Photo **By BRUCE PARTAIN News Staff**

C.J. and Lona Cornelius travel all over town without ever filling

They sail right past most gas stations, only stopping once every few weeks to air up their tires

two dollars a gallon," said Mrs. Cornelius.

This Midland couple has an answer to oil and gas shortages.

Tricycles. Big, overgrown tricycles. "I've had mine about four or

five years," said Mrs. Cornelius, "but he's only had his a year and a half."

Cornelius, 71, and his wife, 62 cover most of Midland on their three-wheelers, heading out to all points from their 402 S. Fort Worth St. home.

She is the faster tricyclist of the two.

"I can make it to Walgreen's in 10 minutes if I'm goin' alone," she said, "but if he's along it

takes me 20." "She starts goin' too fast sometimes and I'll holler 'slow down, slow down," said Cornelius.

Although the trikes are economical, they haven't solved all the Cornelius' problems.

"People told me 'you'll lose weight,' but I haven't lost a pound," said Mrs. Cornelius. Do they ever wish they had a car?

"No, never," she said emphatically.

"Weeeelll," said C.J., scratching his chin and probably thinking of Lona's pace, "there have been a few times...'

Candidate Bush calls for talks on U.S., world energy strategy

PHILADELPHIA (AP) - Republican presidential candidate George Bush called today for a national summit conference to develop an energy strategy as grand as the landing on distrust and defeatism.

"I believe the United States must devise an emergency energy program as broad in concept and as grand in scale as the landing on the beaches of

tinual deadlock, will be much, much higher," Bush said. "The only way we're going to break this hammerlock and regain control of our own destiny is to stop dithering and start produc-

Former coach loses his appeal

BIG SPRING - Former Big Spring High School basketball coach James Griffin has lost his appeal for reinstatement to his coaching job.

The 261st State District Court in Austin dismissed a reinstatement appeal by Griffin on grounds that Griffin did not file a motion for rehearing with the Texas State Board of Education within a prescribed time and thereby made a board order that Griffin not be reinstated final.

The court ruled that it does not have jurisdiction to hear Griffin's claim.

Normandy beaches 35 years ago.

In remarks prepared for the World Affairs Council, Bush also said energy-consuming nations of the world should join together in their dealings with the oil-producing nations, and suggested a possible international summit conference between the major consuming and producing nations.

"Today our economy is locked in a painful vise, pinned down on one side by our inability to produce more domestic energy and on the other by an international cartel whose desire for profits seems almost infinite," Bush said. "And worst of all, as the squeeze grows tighter, we are totally incapacitated by our own internal voices of

Normandy 35 years ago," said Bush. "As a first order of business, the president should convene a domestic summit conference that brings together leaders of government, of industry, of academe, of consumer interest, of farming and others."

Bush said it would be better to expose our weaknesses and thrash out our differences in public than to go any longer without a national plan of attack on the energy crisis. Any effective energy program will mean higher costs at the gas pump, relaxed environmental standards to encourage the use of coal and a costly crash program to develop synthetic fuels, he said.

"LaBut the price of indecision, of con-

Bush also said that when President Carter meets in Tokyo this month with the heads of other industrialized democracies, he should make his highest priority development of a concerted plan for dealing with nations of the Organization of Petroleum Exporting Countries.

"The consumer nations are capsizing in the same boat together," Bush said. "To rescue ourselves, it is imperative that we finaly begin rowing together

'If a concerted strategy can be hammered out in Tokyo, there may be considerable merit in an international summit conference drawing together the major consumer and producer nations," Bush said.

City detectives clear record level of burglaries in May

The Detective Division of the Midland Police Department has set an enviable precedent in clearing cases with the record it turned in for the month of May.

Plainciothesmen at the station managed to clear 74 residential burglaries for the month of May, according to the Detective Division's monthly report.

That in itself is higher than usual. But what is really out of the ordinary is that only 18 residential burglaries were reported for the month.

That gives the police a clearance rate of 411 percent.

Detectives Tuesday attributed this record to the arrests of two men late last month who linked themselves to 72 burglaries in Midland over the past several months.

The burglaries accounted for about \$56,400 in stolen goods, according to police records.

Officials in the Detective Division said they noticed that after the arrest of the two men, residential burglaries in Midland dropped to a third of the usual number reported. Clearance rate for all offenses for

the month of May was 92 percent, the report indicated. Of 224 reported offenses, 207 were cleared.

There were 10 fewer offenses in May this year than May 1978, according to the report. Officials said it was the first time in about three years there has been a decline in the monthly comparision figures.

Records for individual offenses indicate a total of 37 thefts over \$200 reported for last month as compared to 19 reported in May 1978.

Clearance rate for thefts for the month is 32 percent, according to the report.

Three rapes were reported this past month compared to four for the same period a year ago. The three were cleared, according to the report.

Robbery cases increased by two over May 1978 for a total of three. Two of those robberies were cleared, the report indicated.

Area temperatures expected to reach mid-90s Thursday

The Permian Basin should have a chance to dry out after a week of rain and high humidity with temperatures expected to climb into the mid-90s Thursday, according to the weatherman

Partly cloudy skies and a warm afternoon are in the forecast for the area Thursday.

Only a 20 percent chance of rain with a slight chance of thunderstorms is predicted for tonight by the National Weather Service at Midland Regional Airport. There is no chance for rain in Thursday's forecast, the weatherman said.

The overnight low is expected to drop into the mid-60s

High temperature Tuesday was 85 degrees and the mercury dropped to 67 degrees for the low today.

No rain was recorded in the past 24 hours by the National Weather Service. The monthly rainfall total and the yearly total are holding steady at 2.08 and 6.08 inches, respectively.

Record high for Tuesday is 102 degrees set in 1974. The record low for today is 56 degrees recorded in 1973

Economy cars sold

DETROIT (AP) - Scrambling for fuel economy, Americans bought imported cars in record numbers in May.

Buyers shied away from American cars, except the small models. While total industry sales fell 9.2 percent, domestic makes dropped 17 percent and imports rose 30 percent.

Rescuing her dog and heading for high ground in Mamie Lewis. one of hundreds of Wichita Falls residents forced to leave their homes after a five-inch rain fell on that city Tuesday. (AP Laserphoto)

WICHITA FALLS, Texas (AP) -Hundreds of residents scrambled for higher ground Tuesday as more than five inches of rain sent three creeks spilling over their banks and raised the Wichita River to threatening

Flood waters cover portions

Floodwaters inundated about one third of the area devastated by the massive tornado that killed 48 persons when it cut a swath April 10 through the southwest side of this city, which sits near the Texas-Oklahoma line.

But flooding problems were reported in low-lying areas in several other sections of Texas, also. Flood warnings were issued in several other places and at least three funnel clouds were spotted in widely separated locations about Texas.

In Wichita Falls, a fire department spokesman said Tuesday at least 12 persons had to be evacuated from their flooded homes. There were no reports of injuries.

Officials said as many as 200 families may have heeded warnings to seek higher ground.

Red Cross chapter manager Jan Beall said survey teams reported at least 50 to 100 homes had been flooded. She said the teams, which were still checking homes late Tuesday night, found many streets impassable.

Floodwaters swirled about four feet deep in some of the houses along the Holliday, Plum and McGrath creeks, said Red Cross worker Pat Root.

The rampaging waters washed out at least three bridges in Wichita County and inundated others, the sheriff's department said.

Assistant City Manager Bob Haley said employees would survey the extent of the damage today.

Residents living near the banks of the Wichita River were urged to move to higher ground Tuesday as the river approached flood stage.

Severe thunderstorms dumped torrents of water and twirling funnels snaked out of dark clouds at opposite ends of the state Tuesday.

Other Texas towns and cities reporting flooding from the hard-hitting thunderstorms included Fort Worth and Jacksboro in North Texas, Laredo in Southwest Texas and Colorado City in West Texas.

Funnel clouds were sighted by the public in Corpus Christi near the Gulfway Shopping Center; near Earth in Lamb County, northwest of Lubbock; and west of Sabine Pass in Southeast Texas.

Rains of 3 inches or more were measured across the state, with many areas getting 6 to 8 inches. Hail also fell.

Flash flood watches and warnings were commonplace. Texas' major rivers filled quickly, causing minor to moderate lowland flooding.

The Texas Highway Department closed Texas 55 at the Nueces River in Uvalde County because of high water. Texas 127 was closed at the Frio and Sabinal Rivers in that county.

Lake Stamford, north of Abilene in Haskell County, went over its spillway and rose rapidly Tuesday when more than 6 inches of rain fell. A flood

Fort Worth, with 4 inches of rain in three hours, reported local street flooding before noon, as did San Antonio, 280 miles to the south.

Government active in probing alleged energy field crime

THE MIDLAND REPORTER-TELEGRAM, WED., JUNE 6, 1979

WASHINGTON (AP) - The Justice Department and the FBI have a distressing warning for Congress and the nation's consumers: Rip-off artists go hand-in-hand with an energy short-

"If the energy situation remains critical over a protracted period, an increase in fraudulent practicies can be anticipated," Deputy Assistant Attorney General John C. Keeney says. Appearing with Keeney before the House subcommittees on crime and

energy and power, Francis M. Mullen Jr. of the FBI delivered a similar message.

BLADE FITS ANY TRAC II

CURLY'Q WAND

BY NORELCO

OUR REG.

SALE

SHAVER. 9 PACK.

VISA

Mullen said a special training seminar is being arranged at the FBI's academy at Quantico, Va., for agents involved in energy investigations.

"The primary problems which we have encountered in these cases are developing expertise in the oil indus? try terminology and procedures and in developing an understanding of the complex energy regulations," he said

Mullen, Keeney and other witnesses denied charges of a government cover-up of white-collar crime in the oil industry, and said there are dozens of suspected criminal cases under investigation around the country.

fendant indictments involving individuals and companies," he said.

In the majority of cases, Keeney said, prosecutors are working toward felony prosecutions on charges of conspiracy to defraud, mail and wire fraud and making false statements.

In a very few instances, he said, the Energy Department has referred cases to Justice Department lawyers that involve regulatory violations of Energy Department pricing regulations

In addition to the 39 cases under active investigation, a second Justice Department official, lawyer Richard Fishkin, said there are "potentially 70

ings along to the Justice Department, which conducts its own inquiry to see whether the case should go to a grand jury for possible indictment.

PAGE 9A

In a related area, Mullen disclosed that FBI agents are conducting more than 100 investigations of suspected fraud in the coal industry. "The manner of the fraud or frauds is only bound by the imagination and ingenuity of the perpetrator," he said. An FBI spokesman said afer the

hearing that most of the investigations enter in the Huntington, W.Va., area. In a few cases, the spokesman said, federal grand juries have issued. indictments

Keeney and other witnesses denied allegations made last week by an Energy Department lawyer that government officials have covered up white-collar crime in the industry.

CAPITOL IDEAS Junketers find each other great By DONALD M. ROTHBERG

Stock[®]

market

WASHINGTON (AP) - To hear the members of

the House tell it, their trip to Prague, Czechoslovakia, for the spring meeting of the Interparliamentary Union was a rousing success.

'We had an able and hard-working delegation attending from our country and our delegation not only promoted much good will and understanding among other delegations, but had a very important influence on the work and the output of the conference," said Rep. Claude Pepper, D-Fla.

The twice-yearly conferences often are dismissed as junkets for travel-hungry members of Congress and so it seems only fair to take note of the one hour members of the House spent last week reporting on their five days in Prague in April. The U.S. delegation included 10 members of the

House and one senator. Their report to the House told how they discussed matters of mutual interest with legislators from 72 countries, including western democracies and also nations such as Bangladesh, Bulgaria, North Korea, Mongolia and Zaire.

But, most of all, the U.S. legislators were impressed with each other.

"Let me at the outset pay special tribute to the overall leadership of my colleague from Illinois, Rep. Edward J. Derwinski," said Rep. L.H. Fountain, D-N.C.

Derwinski responded by noting: "As a very senior member of the House Committee on Foreign Relations, the gentleman from North Carolia brought great expertise to our U.S. delegation and is a very, very effective member of our group." Derwinski also found Rep. M. Caldwell Butler,

R-Va., "a very valuable member of our delegation" who "was able to handle the intricate subjects with great expertise. The Illinois Republican congressman, who was

chairman of the group, also found that Pepper brought "much-needed expertise" to the delega-

Rep. Robert McClory, R-Ill., said Derwinski "was one of our very active and veteran members.'

And McClory was moved to pay tribute to Derwinski "whose broad understanding of international affairs and whose articulate leadership on the issues affecting our relations with other countries, attract the respect of delegates from both sides of the Iron Curtain.

IN CASE YOU missed it, May 11, was the 121st anniversary of Minnesota's admission to the Union.

REP. PAUL N. McCloskey Jr., R-Calif., doesn't hesitate to admit that the issues facing Congress are too much for one person to handle

He told reporters last week that things have become so complex that the best a congressman can hope to do is stay on top of about 20 of the 700 issues that come to a vote each year.

Most of the time he depends on his staff or on colleagues for advice on how to vote.

As an example, McCloskey cited the dozens of amendments voted on during House debate on the congressional budget resolution. Two weeks after the vote, McCloskey said he still is

'asking my staff how I voted and a rational reason why."

SOMEONE BETTER TELL Evan Dobelle the definition of "moral turpitude." According to the dictionary, it means base or vile character. Dobelle is chairman of the Carter-Mondale Campaign Committee and tends to go out of his way to say nice things about Jimmy Carter. Or at least he tries to. He was trying the other day at a press club luncheon when he suffered this slip of the tongue: "As far as Jimmy Carter the man, his integrity, his moral turpitude, his commitment to government, his commitment to family, it is unimpeachable."

SECTION B

By PATSY GORDON Lifestyle Writer

All high school students who will be seniors this fall are urged to make an appointment to have their senior yearbook portraits taken

There is no charge for the yearbook photos, but students must schedule appointments if their pictures are to appear in the 1980 yearbooks.

Students should call Hollis Studio at 684-4343 Tuesday through Friday as soon as possible for their appointments or they may find it difficult to schedule appointments in the fall, studio spokesmen said. No photographs will be taken

after Sept. 28.

Students wearing glasses are asked to contact their optometrists and arrange to borrow a set of empty frames similar to their own. Reflections, glare and shadows caused by glasses

cannot be corrected. Girls are asked to wear a simple, long-sleeved, medium color or dark blouse, top or dress. The traditional drape is furnished by the studio for students who request it.

Boys should be clean-shaven unless wearing a moustache or beard. The studio asks that they wear a coat, tie and shirt. Boys' shirts should be white or

pastel with little or no pattern. Coats should be of a dark or medium shade, preferably a solid color. The studio will furnish a coat, tie and shirt unless the student wears an exceptionally large or small size ...

DRT hears about meet

The Aaron Estes Chapter of the Daughters of the Republic of Texas met for a salad luncheon in the home of Mrs. R.D. Hanley.

ian

After the luncheon, reports of the 88th annual convention of the DRT were heard. Mrs. John P McKinley and Mrs. F.H. McGuigan represented the chapter at the convention.

It was announced the 19th annual convention and pilgrimage of the Children of the Republic of Texas will be held in Davis Mountain State Park Friday and Saturday. Hostess chapters will be Hally Bryan Perry Chapter of Alpine and Tunas Creek Chapter of Fort Stockton. District meetings in the 10 DRT districts will be held in each district between September and November. Mrs. John Cross, a member and also a past regent of the Lt. William Brewer Chapter, Daughters of the American Revolution, installed the incoming officers. They are Mrs. Stanley Erskine, president; Mrs. Max Perry, vice president; Mrs. F. H. McGuigan, secretary; Mrs. Robert Knott, registrar; Mrs. Richard Brooks, historian, and Mrs. Edward Brannon, chaplain.

AT WIT'S END Shopping centers grow

LIFESTYLE

GENERAL NEWS/ENTERTAINMENT

By ERMA BOMBECK It's not the first time it's happened and it won't be the last. An elderly woman went shopping with her sister in one of those citysized shopping centers They became separated from one another and she was lost for three day

Lucky she was a strong woman. A weaker one would have panicked and they would have found her unconscious body thrown over a waist-high glass map that looks like a pigeon relief station with her fingers pointing to "YOU ARE HERE!" Every day shopping centers get larger and larger, with each one vying for the "biggest in the world status. After awhile, when someone i missing, the standard procedure will be to check all the hospitals morgues and the shop-

ping centers.

statehood.

Birth defects down despite chemicals

By BRENDA MOONEY Associated Press Writer

ATLANTA (AP) - Declines in the rate of some major birth defects may indicate that fears of widespread deformities caused by chemicals and radiation are "much ado about nothing," says a national Center for Disease Control researcher.

A new CDC study shows that the incidence of two of the most common birth defects - open head and open spine - declined measurably from 1970-71 to 1976-77, officials say.

Rates of anencephaly, or open head, declined 5.4 percent, and spina bifida, or open spine, dropped 6.7 percent.

Victims of anencephaly are born without all or part of the brain, while victims of spina bifida are born with an exposed spine.

Dr. Godfrey Oakley, chief of the CDC's birth defects branch, said in an interview that while the figures do not dispel fears of defects caused by chemicals and low-level radiation, they do show that the fears of mass deformities are generally groundless

The annual book sale of the Friends of the Library is slated Oct. 5-7" and the group currently is seeking used books and records for the event. Anyone with such items to contribute should take them to the alley entrance of the Midland County Public Library and put them inside the door. Persons having more than they can personally

deliver, should call 682-5873 and arrangements will be made to pick up the items. Sorting through the books already donated are Rufus Emmons Jr. and Edith Gilmore, both members of the board of the Friends of the Library. (Staff Photo)

First black woman general appointed

WASHINGTON (AP) - Army Col. Hazel W. Johnson said today her selection to become the nation's first black woman general "is a significant event." But, she added, "I would hope that the criterion for my selection was competence, not race.'

Col. Johnson, a native of West Chester, Pa., will be promoted to brigadier general as chief of the Army Nurse Corps in September, succeeding retiring Brig. Gen. Madelyn N. Parks.

Col. Johnson was formally presented by Army Secretary Clifford Alexander at a Pentagon briefing. Alexander said she was chosen over 50 other colonels.

The new Army Nurse Corps chief has been in the Army for 24 years and most recently was nursing chief at the U.S. Army Hospital at Seoul, Korea.

Of the Army's 420 generals, two are women and 21 are black

DEATHS Minnie Anderson

BIG SPRING — Services for Minnie Anderson, 87, of Big Spring were to be at 3 p.m. today in Nalley-Pickle Fu-neral Home. Burial was to be in Mount Olive Memorial Park.

Mrs. Anderson died Tuesday in a Big Spring hospital. She was born Nov. 7, 1891, in Geor-

gia and was a longtime Big Spring resident. Her husband, Robert Lee Anderson, died on May 15, 1946.

Mrs. Anderson was a member of the Fourth Street Baptist Church. Survivors include a sister, Sarah

Bruton of San Jose, Calif., and a niece, Mrs. Royce Reynolds of Jal, N.M.

A. Chamberlain

BROWNWOOD - Services for Amy May Chamberlain, 97, mother of Marie Jetton of McCamey, were to be at 2 p.m. at Morelock Funeral Home with burial in Cox Cemetery.

Mrs. Chamberlain died Monday in a Cisco nursing home.

She was born May 27, 1882, in San Saba County. She was married to John Jackson Chamberlain Dec. 24. 1899, in San Saba County. He died Feb. 5, 1943.

Mrs. Chamberlain was a a member of the Church of Christ. She had lived most of her life in the Mercury-San Saba County area.

Other survivors include two sons, a brother, 14 grandchildren and 29 great-grandchildren.

Mrs. C. Lefebvre

PORT ALLEN, La. - Services for Mrs. Charles E. Lefebvre of Port Allen, La., sister of Gladys Meredith of Midland, were held Saturday in Port Allen. She died Friday.

Other survivors include her husband, four children, three other sisters and six grandchildren, all of Louisiana.

Eldrid D. Ogle

CRANE — Graveside services for Eldrid Daniel Ogle, 91, of Crane will be at 2 p.m. Thursday in Resthaven Cemetery in McCamey directed by Larry D. Sheppard Funeral Home. Ogle died Tuesday in a Crane hospi-

tal after a short illness. He was born June 12, 1887, in Texas.

He owned a local mattress factory. His wife died April 25, 1978.

Survivors include a son, Charlie Ogle of Crane, and a number of ... grandchildren and great-grandchil-

Clara M. Talbott **BIG SPRING** — Services for Mrs. riend (Clara Mae) Talbott, 79, of Big

T. Stewart Jr.

CHATTANOOGA, Tenn. - Services for Thomas Stewart Jr., 48, of Chatanooga, Tenn., and formerly of Midland, will be Thursday in Franklin-Strickland Funeral Home in Chatanooga. Burial will be in the American Veterans Cemetery here. He died Thursday after a short illness.

Stewart was born June 21, 1930. Survivors include four daughters, Georgia Mae Stewart of Buffalo, N.Y., Kim Stewart and Joyce Stewart, both of Chattanooga, Tenn., and Tonya Nicole Stewart of Midland; two sons, Thomas Wendell Stewart and Terrance Earl Stewart, both of Midland; two sisters. Earnestine Hunt of Midland and Carrie Lee Swafford of Chattanooga, his former wife, Lully Faye Stewart Williams of Midland, and several nieces and nephews.

R.W. Moler

SACRAMENTO, Calif. - Richard Wesley Moler, 72, of Sacramento, Calif., father of William E. Moler of Midland, died Saturday in a Sacramento hospital.

Services were to be at 2 p.m. today in Koerwitz-Sweeten Funeral Home with burial in a Sacramento cemetery.

He was born Oct. 22, 1906, in Kansas.

Other survivors include his wife, a son, two daughters, a sister and four grandchildren.

The family has requested that memorials be directed to the Midland Heart Fund or the Shriner burns and children's hospitals.

C.E. Gould Sr.

EL PASO - Services for Charles E. Gould Sr., 53, of El Paso, nephew of Susan and Martha Gould of Midland, were Friday in Harding-Orr Funeral Home with the Rev. Al Waugh officiating. Burial was in Ft. Bliss National Cemetery with military honors.

Gould died Wednesday after an apparent heart attack

He was an electrical technician at White Sands Missile Range and a yeteran of World War II. Other survivors include his wife, a

son and a daughter.

Prestidge Kane

BIG LAKE - Services for Prestidge Young Kane, 55, of Big Lake will be at 2:30 p.m. Thursday in the First Baptist Church in Big Lake with the Rev. J.B. Bitner, pastor, officiating.

Real life drama slated for TV

By HARRY F. ROSENTHAL

THE MIDLAND REPORTER-TELEGRAM, WED., JUNE 6, 1979

WASHINGTON (AP) - Jack Jones lived in a flophouse and got into the worst kind of trouble. He shot a man

His story is not much different from ones found on any police blotter, anywhere, anytime. But this one will be on prime time television Friday and those who stick with it will experience the criminal justice system at the street level - in a way most lawabiding citizens never see it.

The fictional Kojak and Kaz may seem thin soup beside the real-life drama of Jack Jones in a documentary, "The Shooting of Big Man: Anatomy of a Criminal Case.

The program will be shown on ABC at 9 p.m. EDT.

The program eavesdrops on defense lawyers talking with their client in jail, on the victim hooked to his life support system in the hospital, on the prosecutor plotting his strategy and on the judge preparing for trial.

For this program, cameras were allowed everywhere and provide a rare glimpse into the courtroom. Real lawyers make real arguments. Real witnesses testify. A real defendant undergoes real cross-examination. Network publicity calls it "television's first examination of an entire criminal case.

Jones, a resident of the decaying Terrace View Hotel in Seattle, shoots Raymond Collins, nicknamed Big Man. The viewer meets Jones in jail and sees Big Man at a hospital, where he is paralyzed and near death.

'He come over to me, tried to intimidate me with his hand in his pocket and I told him to get on away from me

lawyers from the public defender's office. "He kept coming and I pulled the gun... I fired at him. I was trying to scare him at that time...but he kept messing with me when he kept on coming after me so I shot him.'

and leave me alone," Jones tells his

Jones was drunk when he was arrested. In his statement to police, he admits shooting another man the day before. The victim, Big Man, is depicted as a bully and rapist.

with intent to murder.

There are moments in a criminal whole to get the message that, you

There are jail-cell rehearsals of testimony and Jones saying "that's what I'm trying to get around to learn-

editing.

Although Jones never becomes any sort of sympathetic figure - or his victim, the object of pity - the verdict may come as a surprise to some viewers. But as Nesson says in an interview with ABC Supreme Court

gram is that viewers not leave it with the idea that they sometimes leave television dramas with, and that's

that the defendant is either clearly guilty or clearly innnocent. "That's not real life. In real life

Ukrainian woman ends sit-in at U.S. embassy

MOSCOW (AP) - A Ukrainian woman who has been trying to emigrate from the Soviet Union for five years ended a two-day sit-in at the U.S. Embassy today, an embassy spokesman said.

A consular officer escorted Mariya S. Okopnaya, 45, to the street and there were no problems with Soviet guards outside, the spokesman said. The woman was expected to board a train for Lvov, her hometown, where she resides with her engineer husband, Mikhail, and two daughters,

Mrs. Okopnaya entered the embassy unescorted Monday to call attention to her case and refused to leave, the spokesman said. When she refused to leave, she was permitted to stay in the embassy consular section, he said.

The woman had told reporters she applied to leave the country in 1974 on the basis of an invitation from an aunt who had lived in the United States, married a Jew and moved to Israel. Mrs. Okopnava, who is not Jewish. said she quit her job as an engineer to pursue emigration visas for her family fulltime, and has been trying to prevent her daughters from marrying for fear it would make emigration more difficult.

She said she has uncles in New York and Detroit and was invited to the United States, but she said she has not shown authorities that letter of invitation for fear it would cause further delay. She said she believes Israel is the only place she might be allowed to

The embassy spokesman said the names of Mr. and Mrs. Okopnaya and their two daughters, Galina, 23, and Oksana, 19, were on a list of divided families U.S. Ambassador Malcolm Toon presented to Soviet Foreign Minister Andrei A. Gromyko in February.

Ector County schools to expand special ed

ODESSA - Ector County school trustees added 22 special education posts to the staff Tuesday.

The new positions to be filled next school year include five elementary teachers, 14 secondary teachers, a psychologist and an associate psychologist.

Schools Superintendent Bill Holm + said the new positions were needed to handle the increases in students in special education classes.

Spring will be at 11 a.m. Thursday in the First Presbyterian Church here. Burial will be in Mount Olive Memorial Park directed by Nalley-Pickle Funeral Home. Mrs. Talbott died Tuesday in a Big

Spring hospital after a brief illness. She was born Nov. 18, 1899, in Big Spring. She moved to Chester, Neb. at the age of 6 with her family. She was married to Friend Talbott Aug. 19, 1919, in Wagner, Okla. They moved to Big Spring in April 1937. She was a member of the First Presbyterian Church and a 50-year member of the Order of Eastern Star. She was a Gold Star mother

Survivors include her husband; a son, William "Bill" Talbott of Big Spring; a daughter, Ann McDaniel of Houston; two brothers, Paul Soldan of Big Spring and Louis Soldan of Berkley, Mich.; a sister, Francis Jewell of Chester, seven grandchildren and 11 great-grandchildren.

Burial will be in Glen Rest Cemetery directed by Robert Massie Funeral Home Kane died Tuesday in San Angelo.

He was born Feb. 11, 1924, in Junction. He was married to Daisy Duncan July 16, 1944, in Big Lake. He was a member of the Masonic Lodge and had served as a past worshipful master:

Kane was past worthy patron of the Order of Eastern Star here and a member of the Scottish Rite and the First Baptist Church of Big Lake. Survivors include his wife; two

sons, Prestidge Lee Kane of Big Lake and Ralph Bowman Kane of San Angelo; a daughter, Janice Fitzgerald of San Angelo; two brothers, John Kane of Newbern, Tenn., and Elmer Kane of Comfort; three sisters, Mrs. Jim Herring of Junction, Mrs. Bill Orcitt of Collinsville, Okla., and Bernice Loeffler of Dallas, and five grandchildren

British media adviser urges aid to Western-style media

LAS VEGAS, Nev. (AP) - Emerging nations that seek to become democracies should be encouraged to establish Western-style media, the head of Britain's media advisory commission to UNESCO said Tues-

day. "The West has made a poor showing because it has failed to recognize the legitimate complaints of the developing countries and has not yet taken sufficient steps to alleviate them," Tom Margerison told the 32nd Congress of the International Federation of Newspaper Publishers.

Those developing countries which have chosen the path toward democracy should receive massive encouragement and assistance to establish Western-style media," he said, "even though for the time being the degree of freedom given to them is less than we would consider acceptable."

Some developing nations have complained that the news agencies give inadequate coverage to the interests of their countries and proposed that the agencies allocate space for news from each country. The proposals were discussed at a conference of UNESCO - the United Nations Educational, Scientific and Cultural Organization - in Paris last year.

Margerison warned that proposals for a "free flow and more balanced exchange of information" by UNE-SCO "are much more serious than they seem and they might threaten the whole concept of freedom of the press.

He told a seminar on freedom of the press and aid to the media of developing nations that a final UNESCO report on the role of the news media in Third World countries could present problems for those countries that subscribe to traditional Western definitions of freedom of the press.

Keith Fuller, president and general manager of The Associated Press, said Third World nations have complained bitterly that they are ignored by the international news services.

"There will be no resolution, no solution to the (media) problems of the Third World until it is separated from the politics masking the real intentions of some of the authors of the UNESCO resolution," Fuller said

He said it was not the role of the AP or other international news organizations to allocate a certain amount of space for news from each country, urging developing nations to form their own news agencies. The function of any international news agency, he said, was to cover the top stories of the day.

"There must be a structure to gather and disseminate news in each country if they are going to take their place in the exchange of international news." Fuller said.

Such a structure, he said, makes it more likely that the country "will be represented in the transcendent news of the world because the news of that country is coming to light via the local vehicle.

Meanwhile, in Acapulco, Mexico, Sean MacBride, the chairman of a **UNESCO** commission studying world communications said international news agencies have improved their coverage of Third World countries in the past two years.

The commission is preparing a report at its five-day meeting that will be submitted to the UNESCO general assembly in Belgrade next year.

WANT ADS reduce selling costs, boost selling power. 682-6222

THE MIDLAND REPORTER-TELEGRAM, WED., JUNE 6, 1979

By RICHARD MASON Staff Writer

ALBUQUERQUE, N.M. - The first of two days of public hearings on the environmental impact statement for a nuclear waste repository experiment in southern New Mexico gets under way here Thursday.

More than 75 people are registered to comment during the two Albuquerque sessions and a subsequent hearing Saturday in Carlsbad, N.M.

Meanwhile, the director of information for the project, which is called the Waste Isolation Pilot Plant (WIPP), said Tuesday he is expecting anti-nuclear energy demonstrators to

be present at some time during the Albuquerque hearings. "I wouldn't be at all suprised, since

Three Mile Island prompted additional interest in anything associated with nuclear waste management and nuclear power," George Dennis said in a telephone interview. Dennis said he had not heard of any

plans by demonstrators to appear outside the hearings, which will be held in Albuqueque's Convention Center. But Dennis added that demonstra-

tors had appeared previously at public meetings involving WIPP. "The demonstrations have been

non-violent in the past. There hasn't

been any violence involved and I wouldn't expect any," Dennis said.

Unlike previous meetings on WIPP - a waste management experiment which the U.S. Department of Energy proposes to build in an underground salt formation 25 miles southeast of Carlsbad - the comment during the three meetings this week will be limited to issues raised in the Draft Environmental Impact Statement for the project.

That statement, released in April, defined the scope of the experiment. Dennis said there still are a number of uncertainties about the project,

including the scope of the experiment and the type of wastes scheduled for burial at the Carlsbad site.

Currently, the government is proposing to build two nuclear waste storage facilities beginning 2,100 feet beneath the surface of the land.

'Low-level transuranic wastes'' produced by U.S. Department of Defense programs would be stored in the shallower facility.

A deeper storage facility for "highlevel wastes," nuclear materials with high temperatures, also has been proposed. That facility has been suggested as a repository for about 1,000 spent fuel rod assemblies from commercial nuclear reactors.

If commercial rods are buried there, the facility will be licensed by

the Nuclear Regulatory Commission. The DOE is proposing to use the deeper storage facility as an experiment to see whether salt domes such as the one near Carlsbad are capable of containing nuclear waste byproducts

"It's not necessarily going to be a dump forever. We want to-check whether embedded salt is a medium for nuclear waste disposal," Dennis said.

He added that it is likely that both Midland and Odessa would be on the southern rail transportation route for the wastes if commercial fuel rods and high level wastes are stored at

the WIPP site

AVAILABILITY

these advertise required to be readil

except a

"It's one of those 'what if' things. If (commercial and high-level) wastes are stored there, I'm sure Midland is on the rail routes if the wastes are coming from the east," Dennis said. A spokesman from the Odessa League of Women Voters is scheduled

PAGE 7B

to speak Friday afternoon in Albuquerque. The league has asked the DOE to

guarantee an alternative water supply in the event an aquifer within 50 miles of the site is polluted by radioactive materials.

The city of Odessa receives water from wells in Ward County.

Water interests also concern the city of Midland.

These are the three composite drawings issued Tuesday in San Antonio by the FBI. The men sought in connection with last week's assassination of U.S. District Judge John

H. Wood Jr. The FBI had earlier issued two other sketches. (AP Laserphoto)

FBI releases more sketches

released a total of five composite sketches of men being sought for questioning in the May 29 sniper slaving of U.S. District Judge John H. Wood Jr.

Federal officials issued three composites Tuesday of men who witnesses told investigators were near Wood's townhouse either the morning the judge was assassinated or a undetermined number of days prior.

"They're not suspects as such, but we want to find out who they are and what they were doing there,' said Special Agent Manuel Marquez.

The FBI had released two composites last Friday of men who witnesses said were in the "immediate vicinity" of the Chateau Dijon Townhomes about the time Wood was cut down by a single bullet to the spine as he left for work.

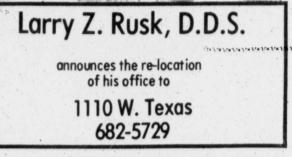

Marquez said Tuesday that those two men had not been identified despite an intense investigation, rewards totaing \$125,000 and numeros tips phoned in to a secial 24-hour telephone.

The 63-year-old Wood, who had earned the nickname "Maximum John" because of his stiff sentences in drug cases died from a single .243bullet, which splintered on his spine and sent deadly fragments into vital organs. Such a bullet is usually

SAN ANTONIO, Texas (AP) - The FBI has fired from a high-powered "varmint rifle" used in South Texas to hunt javelinas, coyotes and deer.

The slaying was the second time in seven months a Western District of Texas official involved in West Texas drug cases had been fired upon. Assistant U.S. Attorney James Kerr escaped serious injury Nov. 21 when his car was riddled by bullets. No one has been arrested in that case.

FBI officials refuse to say whether they believe there is a connection between the two assaults. Both Kerr and U.S. Attorney Jamie Boyd have said they believe Wood's slaying is connected to their massive West Texas drug crackdown.

Age discrimination plan uses labor mediators

WASHINGTON (AP) - In a novel approach to civil rights enforcement, the government will use federal labor mediators to handle all complaints of age discrimination in federally financed programs.

The Federal Mediation and Conciliation Service will try to resolve the disputes in 60 days under the terms of the new government-wide regulations issued Tuesday by the Department of-Health, Education and Welfare.

If mediation fails, the complaint would follow a traditional route with an agency inquiry that could lead to a hearing before an administrative law judge and a possible cutoff of federal funds

The regulations implement the Age **Discrimination** Act that Congress passed in 1975 generally banning discrimination against people of all ages in any program run with federal funds

There are some exceptions, however, such as programs that provide special discounts to the elderly or children for travel, or tax breaks for the elderly.

Schools will still be able to limit programs like Head Start to children age 3 to 5, but medical schools and other graduate programs will not be able to set an arbitrary admissions policy that rejects any applicant over a certain age, HEW Secretary Joseph A. Califano Jr. said in announcing the regulations

Likewise, the rules state that an HEW-sponsored adult education program could not bar from admission

education cases, the age distinction is not necessary to the normal operation of the program, HEW contends.

The law allows age distinctions that are necessary for normal operations or were based on "reasonable factors other than age," such as agility or strength, Califano noted.

HEW's rules also will sanction any age distinction set by federal, state or local statute.

That provision was attacked Tuesday by the executive director of the National Council on the Aging, Jack Ossofsky, who charged it largely defeats the purpose of the Age Discrimination Act. Several members of the House Select Committee on Aging who helped write the legislation echoed Ossofsky's criticism.

Califano told a news conference he agrees that "it makes little sense to permit state and local governments" to set age distinctions in their federally-aided programs and called on Congress to close off that exception.

Noting that the Senate refused to go along with the House last year in disallowing exemptions written into local law, Califano said, "I don't think any bureaucrat should arrogate to himself or herself the power to strike down state and local laws in the face of a legislative history like that."

HEW's rules take effect July 1. Other federal agencies that finance programs must issue their own rules within seven months and weed out any unjustified age distinctions by early 1981. Colleges, hospitals and other recipients must evaluate themselves and abolish their unjustified age distinctions by the fall of 1981, Califano said.

Advocate of blind workers push for minimum wage law

WASHINGTON (AP) - On assembly lines in Cincinnati or Chicago or New York they work - some for more than 20 years - forming candles, producing mattresses, packaging airplane meals. For their labors, they earn as little as 61 cents an hour.

They are blind people employed at privately run "sheltered workshops" across the nation. Their advocates charge they are being exploited as a cheap labor pool with the Labor Department's blessing.

The 50,000-member National Federation of the Blind wants the government to eliminate rules allowing employers to pay blind workers less than the federal minimum wage - now \$2.90 an hour.

Opposing the federation are the non-profit workshops, which contend they are providing job opportunties that otherwise would be denied the handicapped. Paying the minimum wage to all blind workers could force some workshops to close, the employers say.

The two sides are debating the issue during a three-day Labor Department hearing that began Tuesday.

Federal law now lets employers pay blind and other handicapped employees less than the minimum wage if they can prove the workers are less productive than sighted workers.

The government estimates there are up to 7,000 blind employees at . sheltered workshops, with the majority earning a sub-minimum wage.

By contrast, very few blind people employed by profit-making companies are paid sub-minimum wages. "Blindness is not an impediment to

productive work," said James Gashel, a spokesman for the Federation of the Blind. "It has been proven than the blind can earn the minimum wage if the employers adopt more efficient methods.

Gashel said Tuesday workshops use poor production methods and the Labor Department uses faulty tests to measure blind workers' productivity.

"The argument that blind workers are not productive enough to earn the minimum wage pales in the face of profit-loss statements," he said.

Gashel said after-cost revenues, up to \$2.4 million at one workshop, go to support other charitable programs rather than to the workers who produced the money.

"We want a fair share" of that money, said Gashel, who termed the current system "morally wrong." He complained that while employees are earning sub-minimum wages, workshop administrators pull down \$50,-000-a-year salaries.

Last year, sheltered workshops had sales of \$123 million, half of which came from federal contracts.

Southside Lions Club installs officers, directors at banquet

Officers and directors of the Southside Lions Club for 1979-80 were installed last week in connection with the club's 25th anniversary banquet held at Ranchland Hills Country Club.

Officers of the Dandy Lions, the clubs' woman's auxiliary, also were installed.

Past District Gov. Duke Jimerson, who also is a past president of the Downtown Lions Club, installed the clubs' officers and directors.

Everett J. "Ebb" Grindstaff of Ballinger, a past international director of Lions and a candidate for third vice president of the In-ternational Association of Lions Clubs, was the principal speaker at the function.

Joe Ellis was installed as president of the club, succeeding Dr. David Norton.

Other new officers are Bill Stone, Elyson Taylor and Wayne Butler, vice presidents: Mery Cross, secretary; Bob Pierce, treasurer; Bob Wallace, tailtwister; Arby Koons, Lion Tamer; the Rev. Jimmy Stovall, chaplain, and Bettie Schuler, sweetheart.*

Directors are T.L. "Happy" Bond,

- The state of the second second

Leonard Hanson, E.J. Pryor, Leo Scoggin and Fred Thummel.

The new Dandy Lion officers, installed by Mrs. Bob Drummond of the Lioness 700 Club (Westside Lions), are Mrs. Marie Bond, president; Mrs. Ramona Pierce, vice president; Mrs. Dorothy Koons, secretary; Mrs. Frances Garrett, treasurer, and Mrs. Betty Ellis, reporter.

The Southside Lions Club was organized May 24, 1954, with 28 charter members. It was sponsored by the Downtown Lions Club. The charter was presented on June 3, 1954. Charter members Happy Bond,

Jim my Stovall and L.B. Garrett were recognized for their contributions to the club during its 25-year existence.

Carmon McCain was recognized as "Lion of the Year" and received an award for his service to the club and Lionism. He presently is serving as Leo Club chairm an of the district.

District Gov. and Mrs. Harland B. Brancel of San Angelo were among the special guests attending the banquet session.

A number of special awards were presented during the evening.

with gravity of the condensate 65 degrees.

The well is 1,280 feet east of the depleted discovery well of the field and 660 feet from south and 1,880 feet from east lines of section 12, block 39, University Lands survey.

Total depth is 8,227 feet and 4.5-inch casing is cemented on bottom. The plugged back depth is 8,108 feet.

The Ellenburger was topped at 7, Champlin Petroleum Co. No. 1 Doo- 3743 feet on ground elevation of 2,511 feet

Other tops include the Queen, 743 feet; San Andres, 1,350 feet; Spraberry, 38,826 feet; Dean, 5,237 feet; Canyon sand, 5,995 feet, and Barnett at 7,638 feet.

SPRABERRY STRIKE

Andover Oil Co. of Tulsa No. 1-18-38-C University, a re-entry project in the Block 38 (Elfenburger) field of Crockett County, has been completed as a Spraberry oil discovery. The well, which was the discovery

well and only producer in the field, finaled from the Spraberry for a daily flow of 91.62 barrels of 39-gravity oil and two barrels of water, through a choke of unreported size. The gas-oil ratio is 568-1.

Completion was through perforations from 3,811 to 3,852 feet after 1,500 gallons of acid and 30,000 gallons of fracture solution.

Total depth is 9,812 feet and plugged back depth is 4,250 feet.

Location is 1,320 feet from north and east lines of section 18, block 38, University Lands survey.

WINKLER OFFSET

Rial Oil Co. of Midland has spudded its No. 3-68 Sealy & Smith, new project in the Darmer, Northeast (Pennsylvanian) field of Winkler County, 17 miles southeast of Kermit.

Scheduled for a 9,000-foot bottom, it is 1,980 feet from south and east lines of section 68, block A, G&MMB&A survey. It is a south offset to one of the field's two wells.

REEVES AREA

Cola Petroleum, Inc., of Midland No. 1 Oney Brothers is to be dug as a 5,500-foot gas project in the Hamon (5270) field of Reeves County, 20 miles southeast of Pecos.

The test is 467 feet from south and west lines of section 15, block 50, T-8, T&P survey and 1/2 mile northeast of the discovery well which is the only producer in the field.

Subsidy to continue

WASHINGTON (AP) - The Carter administration is refusing to abandon its subsidy program for home heating oil imports, despite urgings from European nations.

European officials are concerned that the \$5-per-barrel subsidy will boost the already fast-rising price of oil on the spot market.

U.S. officials said Tuesday that the subsidy will continue until October.

Visiting French foreign and industry ministers asked administration officials to halt the program.

Andre Giraud, French industry minister and chairman of the European Economic Community's council of energy, told reporters the subsidy was "unilateral, inefficient and counterproductive."

He expressed concern that continued oil price increases could cause a "tremendous world economic crisis, very likely a recession.

He accompanied French Foreign Minister Jean Francois-Poncet, who is also president of the European Council of Ministers.

Competition for oil on some Western European spot markets has pushed prices past \$30 a barrel, more than twice the base levels charged by the Organization of Petroleum Exporting Countries.

Administration officials say the subsidy program is intended to provide importers with sufficient incentive to move home heating oil into this country.

Field work reported in Permian Basin areas

Sun Oil Co. No. 1 J. S. Walker has been completed as the current second gas well in the Jameson, Southeast (Strawn oil and gas) pool of Coke County, two miles south of Silver.

The operator reported a calculated absolute open flow potential of 1 million cubic feet of gas per day, through perforations from 5,761 to 5,788 feet after 500 gallons of acid an

Later, Schlesinger told a confer-

a little easier to get the unleaded gasoline their autos require after the administration acted to increase production of the fuel. Under the actions, refiners will be

allowed to add two cents a gallon to the base price of any increased production of unleaded gas, which is required by cars equipped with mandatory anti-pollution devices.

WASHINGTON (AP) - Americans

who drive late-model cars may find it

The increase is expected to cost motorists an extra one-fifth of a cent per gallon at the pump.

The actions also call for suspending until Oct. 1 a ban on the octane-boosting MMT additive used in producing unleaded gasoline and in delaying for a year stricter limits on the amount of

lead in gasoline. The EPA had planned on implementing, on Oct. 1, standards limiting the overall average of lead per gallon

to .5 gram. But it now will continue to

permit the current standard of .8 gram per gallon. Energy Secretary James R. Schle-

trator of the Environmental Protection Agency, announced the plans at the White House Monday. The officials said the plans could

DRILLING REPORT

August after bidding for leases from the federal government.

The prospector is 1,980 feet from north and 660 feet from west lines of section 32-18s-35e.

STONEWALL WILDCAT

Marline Oil Corp. of Houston No. 1 B. Brown Smith has been spotted as a 7,000-foot wildcat in Stonewall County, nine miles southwest of Peacock. Location is 467 feet from north and 1,205 feet from west lines of section 422, block 2, H&TC survey, abstract 1511.

It is 5/8 mile northeast of a 6,860foot dry hole and two and one-quarter miles north of the one-well Brownie (Hope lime) pool.

IRION TEST

An attempt will be made to reopen San Angelo production in the Lucky-Mag field of Irion County at Merit Oil Co. of San Angelo No. 1 Mark Lack-

ey. The re-entry project will test at 1,527 feet in the former San Angelo well.

It is six miles north of Mertzon and 2,242 feet from south and 1,980 feet from east lines of section 21, block 2, H&TC survey.

It originally was completed by Brunner & Homes as the No. 1 Lackey. It was abandoned in 1960.

RUNNELS TRY

Simpsomn-Man Oil Producers of San Angelo No. 1-136 Webb is to be dug as a 4,450-foot wildcat in Runnels County, one-half mile south of Miles. It is one location west of the Urban (Miles) pool and 467 feet from south and east lines of section 136, WCRR survey. The field produces at 4,300 feet.

RECLASSIFIED WELL

Terra Resources, Inc., No. 2 Field, formerly John H. Hill No. 2 Field, has been reclassified as a Wolfcamp oil reopener in the Wardlaw Three field of Irion County, 17 miles northeast of Mertzon.

A former 5,800-foot gas producer, it finaled as an oil well for 1.38 barrels of 57.8-gravity oil and 13 barrels of water, flowing through perforations from 5,785 to 5,899 feet. Gas-oil ratio is 1.579-1

The pay was acidized with 2.000 gallons.

It was completed by Hill in March 1977 for a calculated absolute open flow of 8 million cubic feet of gas per day, through perforations from 5,785 to 5,897 feet.

Location is 1,100 feet from north and 2,750 feet from east lines of S. C. Bennett survey No. 1805.

FIELD REOPENED

J. M. Huber of Midland has completed its No. 1-12-39 University to reopen the Block 39-B (Ellenburger gas) field of Crockett County, 18 miles southeast of Barnhart.

The reopener completed for a calculated open flow potential of 2,034,-000 cubic feet of gas per day, through perforations from 7,750 to 7,754 feet and from 7,782 to 7,792 feet after a 3,000-gallon acid treatment.

The gas-liquid ratio is 117,273-1,

CRANE PROJECT

The four-well Lea (Tubb oil) pool of Crane County gained a new project with the staking of Gulf Oil Corp. No. 105 P. J. Lea and others, 11 miles west of Crane.

Drillsite for the 4,900-foot test is 1,880 feet from north and 2,030 feet from west lines of section 39, block 32, psl survey. It is a north offset to San Andres production and one location south of Tubb production.

WINKLER WELL

Shell Oil Co. No. 4-B Sealy-Smith is a new well in the Halley (Clear Fork) field of Winkler County, nine miles southeast of Wink. Bottomed at 10,470 feet, it is a re-

entry project which is plugged back to 7,512 feet.

A former Strawn producer in the Halley, East field, it finaled from the Clear Fork as the 11th well in the Halley (Clear Fork) field. It potential for 125 barrels of oil per day, plus 130 barrels of water, pumping from pay behind casing perforations from 5,471 to 5,488 feet.

The pay was acidized with 5,000 gallons, and the gas-oil ratio is 720-1. Wellsite is 1,980 feet from east and 660 feet from north lines of section 91, block A, G&MMB&A survey.

MITCHELL WELL

Texas International Petroleum Corp. has announced a flowing potential test on a new Odom lime well in the Dixon multipay pool of Mitchell County.

A re-entry project, it is No. 12 Edwin Parks and originally was completed as an Ellenburger well.

From the Odom, it finaled for a daily potential of 108 barrels of 42gravity oil, no water, through a 9/64inch choke and perforations from 7,-102 to 7,031 feet. The gas-oil ratio is 1,296-1, and the pay was acidized with 250 gallons.

Total depth is 7,222 feet and 5.5-inch casing is set at 7,212 feet. Hole is plugged back to 7,200 feet.

The wellsite is 3/4 mile west and slightly north of other Odom production and 467 feet from north and 1,800 feet from east lines of section 1, block 1-A, H&TC survey and five

PECOS OILER

John R. Seay of Midland No. 2 Shearer, a re-entered Montoya well in the Lehn Apco, North multipay field of Pecos County, has been re-completed as as a Montoya well and assigned to the Lehn-Apco field.

The operator reported a daily pumping potential of 20 barrels of 35-gravity oil and 20 barrels of water. from open hole at 4,999-5,002 feet, after a 2,000-gallon acid treatment.

Total depth is 5,007 feet and 5.5-inch casing is set at 4,990 feet. The plugged back depth is 5,002 feet.

Wellsite is 1,980 feet from northwest and 660 feet from southwest lines of section 37, block 10, H&GN survey and three miles south of Imperial.

gallons of fracture solution.

The well is 1/2 mile west of the other well and 660 feet from north and 610 feet from west lines of section 326. block 1-A, H&TC survey.

ROOSEVELT TEST

Enserch Exploration, Inc., of Midland No. 1 Gladys Rade and others is to be drilled as an 8,000-foot project in the Peterson, South (Fusselman) pool of Roosevelt County, N.M., 10 miles west of Pep.

Location is 1,830 feet from south and 660 feet from west lines of section 32-5s-33e.

LEA OILER

Energy Reserves Group, Inc., of Midland No. 1 Amoco-State is a new well in the Buckeye (Abo oil) pool of Lea County, four miles southeast of Buckeuye.

The sixth well in the field, it finaled for a 24-hour pumping potential of 208 barrels of oil, gravity and gas-oil ratio not reported, through perforations from 8,989 to 9,060 feet after a 7,500gallon acid treatment.

Total depth is 9,309 feet and 4.5-inch pipe is set on bottom. The plugged back depth is 9,070 feet.

Location is 660 feet from north and west lines of section 10-18s-35e and one location south and east of other production.

EXTENDER FINALS

Cabot Corp. of Pampa No. 1-C Whitten has been completed to extend the Eldorado (6,000-foot gas) field in Schleicher County 1/2 mile east and northeast.

The well finaled for a calculated absolute open flow potential o 1.12 million cubic feet of gas per day, through perforations from 6,036 to 6,150 feet after 3,400 gallons of acid and 33,000 gallons of fracture solution.

The gas-liquid ratio is 81,818-1, with gravity of the liquid 67 degrees.

Wellsite is 1,320 feet from north and 1,980 feet from east lines of section 26, block LL, TCRR survey and six miles northwest of Eldorado.

UPTON WELL

The eighth Bend oil producer has been completed in the Old Upland multipay field of Upton County, nine miles north of Rankin.

It is John L. Cox of Midland No. 1-B Cowden. The operator reported a daily flowing potential of 37 barrels of 46-gravity oil, through a 10/64-inch choke and perfoations from 10,197 to 10,223 feet. No water was made with the oil

The pay section was acidized with 2,500 gallons, and the gas-oil ratio is 5,950-1.

Location is 3/8 mile southwest of other Bend production and 1980 feet from south and 660 feet from west lines of secton 58, block Y, TCRR survey.

COKE PROJECT

Sun oil Corp. No. 10-A Central Na-tional Bank is to be drilled as a southwest offset to one of the six wells in the Lygay oil pool of Coke County, northwest of Mertzon.

If either of the wells are successful, the pool will be extended from Tom Green and Sterling counties into Irion County

The No. 1-54 Richey will be drilled to 7,500 feet, 715 feet from south and 977 feet from west lines of section 54, block 6, H&TC survey. It is four miles southeast of the Tom Green County portion of the field. Ground elevation is 2,508 feet.

The No. 1-55 Richey, three and seven-eighths miles southeast of Tom Green production, is 500 feet from south and 1,980 feet from west lines of section 55, block 6, H&TC survey. Ground elevation is 2,523 feet. It also is scheduled for a 7,500-foot

bottom. The tests are 2.5 miles Southwest of the Wayne Harris (Canyon) field.

Plant work under way

Ground-breaking ceremonies were held Tuesday for the new home of Omega Manufacturing Corp., formerly Petro-Chem Research & Sales,

The new name for the Midlandbased firm was announced during the ground-breaking by Robert Beeson, president.

The facilities are being built on a three-acre site in the K&C Industrial Park, near the intersection of Cottonflat Road and Francis Street.

When the project is completed this summer, all of Omega's operations will be combined under one roof, with the new building to provide administrative and sales offices, a laboratory, and blending facilities to include a reactor for base chemicals.

Omega Manufacturing provides chemical treatment for all facets of oil and gas production, offering sales and service throughout the Permian Basin and in South Texas.

In addition to Beeson, officers of Omega include Ron Garner, vice president, and Joe Clark, vice president and secretary-treasurer. Bill Zeigler is plant manager.

Import bill at \$55 billion

WASHINGTON (AP) - What are Americans paying to import oil from the Organization of Petroleum Exporting Countries?

C. Fred Bergsten, a Treasury Department assistant secretary, gave this explanation in a speech Tuesday to management specialists:

"We estimate that the United States now imports roughly 9 million barrels of oil a day. At today's prices, the cost of this oil is roughly \$55 billion a year - \$150 million a day."

That works out to "\$250 a year for every man, woman and child in the United States," Bergsten said.

Hogs stun UT in College World Series

OMAHA, Neb. (AP) — Arkansas has gained the upper hand in the 33rd College World Series, thanks to the hitting and fielding exploits of a parttime farmer who had to chop wood to keep warm this winter.

PAGE 2C

Marc Brumble, who manages a 100acre farm outside Fayetteville in addition to going to class and playing baseball, sparkled at the plate and in the field Tuesday night as the Razorbacks whipped Texas 9-4.

The victory leaves Arkansas the

Brumble leads

only undefeated team in the series **HE ALSO** made four outstanding and assures the Razorbacks of a berth catches in left field, including a diving in the championship game. Texas, the grab that took an extra base hit away from Terry Salazar. nation's No.1-rated team, will be eli-

Brumble became a farmer when he and his wife, Cayla, agreed to manage an acreage owned by a Fayetteville resident. They live on the farm rent free, but Brumble has found the life of a farmer-student-athlete to be a busy one

"During the winter, we had no heat, just a wood stove," he said. "I had to chop wood every day. I'd go to class,

feed the livestock twice a day and go to practice.

'They call me 'Country' on the team. I grew up in Tulsa, Okla., but it was always a dream of mine to have a farm some day

Cayla is expecting the couple's first child later this month, however, and Brumble says that will force them to return to city life.

"It was tough the past year. There was a lot of responsibility with all the feeding and stuff," Brumble said. "I don't want to have to do that with a

ACTOCIDE

child, so I'm going to get her (Cayla) a duplex.'

Freshman Kevin McReynolds joined Brumble as the hitting hero, starting the third inning rally with a 400-foot home run over the center field wall and capping it with a two-run double. McReynolds is batting .700 in Arkansas' three series games.

IT WAS a sweet victory for seventh-rated Arkansas, 49-13, which was runner-up to Texas in the Southwest Conference and lost to the

Longhorns four times in five games earlier this season.

Both teams play again tonight, with Arkansas meeting third-rated Fullerton State, 57-14, and Texas, 55-7, going against No.8 Pepperdine, 52-17. The Texas-Pepperdine loser goes home and Fullerton will be eliminated if it loses.

Razorbacks into

seventh.

driver's seat

OMAHA, Neb. (AP) - Marc Brumble sets the pace for the University of Arkansas baseball team and the others follow, says Razorback coach Norm DeBriyn.

So it was Tuesday, when Brumble, a senior, hit a three-run double and a solo home run to lead Arkansas to a 9-4 victory over No. 1-rated Texas in the 33rd College World Series.

SPORTS

team in the double-elimination series and is assured of a berth in the championship game.

The Hogs face third-rated Fullerton State (57-14) tonight in the second game of a doubleheader. Texas (55-7). plays No. 8 Pepperdine (52-17) in the opener, with the loser of that game eliminated from the series.

"Marc Brumble has been a leader all year," DeBriyn said. "He's had a tremendous tournament so far. I guess you could call this our biggest win ever.

Seventh-rated Arkansas (49-13) was runnerup to Texas in the Southwest Conference and lost to the Longhorns four times in five games earlier this season.

Brumble hit a bases-loaded double to highlight a seven-run third inning and slugged a solo home run, his sixth

"The Pepperdine game was a great thrill, but this was the greatest ever,' Brumble said. "We've been a Cinderella team all year and now we're proving some things to a lot of people. I wish it could go on forever.'

minated if it loses one more game.

"Everyone was talking about a

low-scoring game," Brumble said,

"but I couldn't see us not hitting and I

the hitting, smacking a three-run

double to highlight a seven-run third

inning and belting a solo homer in the

Brumble certainly contributed to

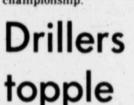

know Texas is a good hitting club."

Sophomore Jeff Huddleston, 1-2, who was sidelined for seven weeks this year with a broken jaw, pitched 4 2/3 innings of shutout relief to earn the victory. Keith Creel, 10-2, was the victim of Arkansas' third-inning uprising and suffered the loss.

McReynolds began the third by smashing a 400-foot home run over the center field fence and capped the rally with a two-run double to left. Ed Wallace drew a bases-loaded walk to force in a run and Brumble followed with his double off the left field wall. Texas took a 2-0 lead in the top of the third. Kevin Shannon brought home one run with a squeeze bunt that

he beat out for a hit and Keith Walker scored Shannon with a single. Mark Chelette hit a two-run double for the Longhorns in the fourth.

Brumble was already thinking about Fullerton State after the Texas game. "We've got (pitcher) Steve Krueger to go against Fullerton now and we're going after a national championship.'

of the year, over the left field wall in the seventh. Kevin McReynolds hit a solo homer and two-run double in the big third inning

Brumble, who homered in Arkansas' 5-4 victory over Pepperdine in the first round, also made four outstanding catches in left field, including a diving grab that robbed Terry Salazar of an extra-base hit in the seventh.

Paso El By The Associated Press

A 4-for-4 performance by Tulsa's Ron Carney carried the Drillers to a 12-7 victory Tuesday night over El Paso in the Texas League

In the only other league action, Amarillo and Arkansas split a doubleheader. Arkansas' Travelers took the first game, 7-0, but the Gold Sox came back for a 3-0 decision in the second game of the twinbill.

Rain postponed Midland's game at Jackson and Shreveport's game at San Antonio.

Carney hit a two-run homer in the second inning to get Tulsa off to an early lead. But Rick Oliver of El Paso hit a solo homer, his first round-tripper of the season, in the fourth to tie the game at 6-6.

Rick Lisi of Tulsa hit solo home runs in the seventh and ninth as the Drillers took a 12-6 edge which El Paso could not overcome. John Butcher, 4-4, got the win over Mike Heaton,

Arkansas erupted for 13 hits in its victory. The Travelers scored seven runs in two innings. Tito Landrum led off the first with a double, and singles by Joe DeSa, Gene Roof, Fred Tisdale and Ty Waller brought in three runs. and Tisdale scored Arkansas' fourth run of the inning on a throwing error

Landrum doubled again to open the second and scored on Neil Fiala's single. Fiala was tagged out, but DeSa and Roof singled, and Waller followed with a double.

two-day tournament

The Midland Tennis Club and the Midland Junior Tennis Association June 9-10 are sponsoring a tournament for boys and girls 15 years old and under.

The two-day event will begin at 9 a.m. and will be held on the Midland Lee courts.

Entry deadline is June 7 at 6 p.m. Sign up is being held at'S. D. Armstrong's, 906 W. Tennessee. Youngsters need not belong to

MJTA to participate in the tourney.

Weight program

enrollment continues

Sign-up is underway and continues through Friday for the tenth season of veteran Midland High athletic trainer James "Doc" Dodson's weight training program.

Enrollment is at the Memorial Stadium fieldhouse. For more information, call Dodson at 682-3376.

The six week program, which runs Monday through Friday from June 4 until July 13 at the Memorial Stadium weight room, is open to two groups. Fourth through sixth graders will work-out from 2-3 p.m. while seventh graders through sophomores will go from 3-4 p.m.

Archer, Moody have rough time

By The Associated Press A couple of seasoned old pros turned sour and squandered their chances to participate in this vear's United States Open Colf Tournament — one year's United States Open Golf Tournament - one who won the event ten years ago, and one who shot a ten Tuesday on a single hole.

George Archer, a veteran touring professional, competing at La Cumbre Country Club in Santa Barbara, Calif., withdrew after carding an embarrassing 10 on the first hole of his second round.

Meanwhile, Orville Moody, the 1969 Open winner, also failed to qualify in the 36-hole Atlanta sectional, as did such familiar names on the tour as Marty Fleckman, Don Bies, and Rod Curl.

A total of 41 players won U.S. Open berths Tuesday to round out the overall field of 153 (including 43 golfers exempt from qualifying) which will compete from June 14-17 at the Inverness Club in Toledo, Ohio

Tim Simpson of Atlanta and Bobby Walzel of Missouri City, Texas, led the Atlanta play with identical scores on two different layouts.

Simpson and Walzel each shot 70 on the 6,800-yard Horseshoe Bend Country Club course and 67 on the 7,000-yard Dunwoody Country Club course for 7under-par 137 totals

Amateur Joe Rassett of Turlock, Calif., led a group of six qualifiers at La Cumbre with a 36-ole score f 136, 6-under-par, including rounds of 67 and 69.

Ron Streck of Tulsa, Okla., fired a 36-hole, 137 to win one of two spots in the sectional qualifying at Memphis, Tenn.

Streck, who covered the par 70, 6,590-yard Memphis Country Club course with a 69-68, was joined by Frank Gusmus Jr. of Memphis with a 71-70-141. In another qualifying regional, Ken Leber of An-

nandale, Va., who plays out of Army-Navy Country Club, was the medalist in a field of 30 at Rockville, Md., with his 71-68-139 for 36 holes.

Larry Rentz of the University of Florida, who shot 72-71-143 over the par 70, 6,382-yard Manor Country Club course, earned a spot by firing a birdie on the second hole of sudden death to edge John Buczek of Plainfield, N.J.

Dana Quigley of Barrington, R.I.; and Mike Burke, Jr. of Allenhurst, N.J., shared the medalist honors at The Stanwich Club in Greenwich, Conn.

Quigley and Burke each shot 36-hole scores of 2-over-par 146 to pace the field of 60 pros and 12 amateurs vying for nine spots there.

Burke combined a morning 77 with "my best competitive round ever," a 69, in the afternoon. Quigley, who lost his tour card for not making enough money last season but requalified at the PGA winter school, cashed in with a pair of 73s

Wolvernies League club owners were expected to outlaw forms of the "chop block" are popular duce the injury toll that has sidelined increasing numbers of high-priced during draft

By The Associated Press

their two-day meeting NEW YORK (AP) - Major league baseball gave Tuesday by barring retiring University of Michigan Coach Moby Benedict a little going-away present Tuesday selecting helmets to "butt, ram or three of his players in the first round of the annual spear" an opponent, and free agent draft. banning players from. The Detroit Tigers made Michigan outfielder Rick 'unnecessarily'' using Leach the first Wolverine selection. Then the Los the tops or crowns of Angeles Dodgers chose two of Benedict's pitchers, their helmets against an left-hander Steve Howe and right-hander Steve Perry Leach was the 13th player chosen. Howe was No.16 The prohibition and Perry No.25 as Coach Benedict's team dominatagainst the use of heled the early selections. mets as battering rams Leach, of course, also is a highly-rated quarter carries a 15-yard penalty back and must decide between foottball and basefor violators, and was ball. He was picked by the Denver Broncos in the aimed at reducing rib fifth round of last month's National Football League and back injuries. The draft, the 132nd player selected in that lottery. purpose of outlawing One player who already has made up his mind certain forms of the chop about the football-baseball dilemma is Al "Chooblock would be to cut the Choo" Chambers. Chambers is a slugging outfielder number of leg and knee from Harrisburg, Pa. who was the first player selected in the draft, chosen by the Seattle Mari-"The chop block is an ners. innovation of recent Chambers, who batted .484 in 22 games this season. had signed a letter of intent to play football at years where you get that low chop to the legs or Arizona State. But after the draft's first round, the Mariners announced that they had signed the knees ... a lot of it is coached," said Commis-6-foot-4, 210-pound youngster, who graduates from high school today sioner Pete Rozelle. Chambers said that being the nation's No.1 choice He said the owners had was something he'd always dreamed about. debated legislation "I didn't think it would happen," he said. "But I against it Tuesday, but thought if I worked hard and was determined, I because some amendmight go early. Then, when Seattle's scout came ments were made, decidaround, and I knew they had the No.1 pick, I figured I ed to put off a vote until could be No.1 in the nation."
