Board says it will proceed with plan to take Hill house

By SUSAN TOTH Staff Writer

It was "so long, Plan O; hello Hill House" at the Midland school board meeting Tuesday.

School trustees officially laid to rest one controversial issue, but drew battle lines on another.

Trustees at the meeting voted unanimously to eliminate Plan O as an alternative to equalizing enrollments at the city's two high schools, but told opponents of Hill House condemnation proceedings that they would continue with their plans to acquire the Hill property.

The proposal to consolidate the two schools into a single high school with sophomores on one campus and juniors and seniors on the other drew fire from a wide segment of the community when it was proposed in Jan-

Plan O was suggested as a way to prevent regular boundary changes to keep the student enrollments in the two schools equal.

A non-binding referendum on the proposal was soundly defeated in April 7 school board elections, and trustees Tuesday followed the lead of their constituents.

After the 5-0 vote, board vice president Ed Runyan announced to applause that "Ladies and gentlemen,

Plan O is officially dead. Trustees Johnny Warren and Marshal McCrea were absent from the

Board members did confirm after the meeting, however, that their vote is not binding on future school boards, so the issue may be laid to rest only for the time being.

Before Plan O was officially nixed, though, board members took up the gauntlet on an equally controversial

Saying they were committed by the Plan O defeat to maintain two equal high schools, board members accepted petitions bearing 4,047 signatures, asking them to dismiss their eminent domain suit against the J.E. and

Irene Hill estates. The board plans to take the nearly four acres in the Hill estate - which includes the Hill home, believed built in 1902 by the Cowden family - for expansion of Midland High School.

PRIDE, the group circulating peti-tions against the move, based their oppositions equally on the historic value of the home and on the group's voiced displeasure with eminent domain as a method of taking the prop-

Eminent domain allows the school board to take the property for school use for a value set by the courts without regard to the owners' wish to

Board members stressed they had planned to acquire the property before Plan O was defeated or even discussed, and that they had been buying property in the area on the open market as it became available.

"We are going to continue our present course of action, but we will continue to work so a compromise can be worked out so all of us can achieve at least part of our goals," Runyan told PRIDE representatives.

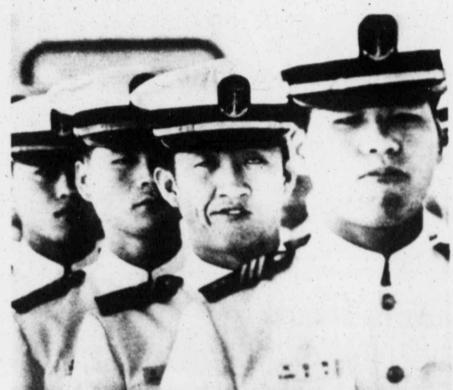

Floyd Ireland, who represented the group at the meeting, told board members he would form a citizen's committee to work with the district on that compromise.

According to the MISD master plan which, Runyan said, is "not carved in marble" - the corner of Illinois Avenue and F Street, where the Hill house now sits, will be used for a baseball diamond.

The district plans to acquire most of the land from Midland High School to F Street between Illinois and Tennesfields and parking lot facilities level

New hearing for cancer center

Health agency votes to start over

By SUSAN TOTH Staff Writer

Plans for a Midland-located center for radiation therapy will face another hearing before the local Health Systems Agency, it was determined

That action came because original hearings on the project were judged not to have followed procedures required for a certificate of need application. The Permian Basin Health Systems Agency Tuesday night agreed with

the earlier suggestion of its project review committee to start over with the review of the \$1.7 million cancer treatment center proposed for building at Midland Memorial Hospital. Officials of Odessa's Medical Center Hospital called for the rehearing

on the basis procedural violations. The Midland center was one of three certificate of need applications

given approval by the HSA in a marathon meeting earlier this month. A certificate of need from the Texas Health Facilities Commission is required before any hospital can spend more than \$100,000 on any purchase.

Comment from the local HSA carries significant weight in the state

agency's consideration of certificates of need. The previous, one-night approval process violated the group's written procedures because staff reports on all three applications were received by the committee just as public hearings on the matters began - rather

than five days before as required. Also, the project review committee delivered a verbal report on the public hearing at an HSA governing body meeting that began immediately after the project review committee met, rather than delivering written

comment as required. Joe Weber, attorney for Medical Center Hospital, told project review committee members when they voted for the rehearing last week that the first certificate of need applications would "set a precedent for all those that follow," and that procedure should be followed to the letter.

"Otherwise," he told the committee, "you are wasting your time. Your procedures were written so you don't waste your time.'

Identical procedures were followed in approving certificates of need for the Pecos Nursing Home and for the Big Sky Ranch.

Neither application had any opposition at the original public hearings, and Medical Center Hospitals officials have made no rehearing request concerning those applications. They cited the need to "protect the procedural integrity of the process" in holding up the Midland center appli-

The Odessa group contends the Midland center would duplicate facilities already available in Odessa, although agreeing more sophisticated treatment also would be available here.

Since comments from the HSA must be in Austin for review by the Texas Health Facilities Commission by June 29, the repeat review of the project will be on a tight, but strictly legal, timetable. Public hearing on the project will be held at 7:30 p.m. Monday in

the conference room of the Region XVIII Education Service Center at Midland Regional Airport. The project review committee will meet the next morning to formulate its written comment and that afternoon to vote on the matter.

The governing body, a 32-member group of people who live throughout the 17-county region, will meet again June 25 to consider the written comments of the project review committee.

If nothing has changed, and the committee members acknowledge they know of no significant new information that could change their original findings, final comment of the governing body drawn up after the first approval was granted may be sent to Austin.

In Austin, the entire procedure, from fact-finding to public hearing to final determination, will be repeated by the Texas Health Facilities Commission, whose job it is to prevent duplication in health services.

Carter's Rhodesia position gains

WASHINGTON (AP) - President Carter's chances of maintaining trade sanctions against Zimbabwe Rhodesia are improving, despite a Senate call for ending the 14-year-old embargo, White House officials say.

Administration lobbyists say the president has doubled Senate support for his position on the newly lected black majority government in that southern African nation. And they say he has more than enough votes to sustain a possible veto of attempts to end the restrictions.

The Senate voted 52-41 Tuesday night to kill an effort to extend the trade embargo through Dec. 1, and perhaps longer.

The lobbyists, who asked not to be identified, said the 41 votes favoring the president's position represent a solid base from which to sustain a veto of any legislation containing provisions to lift the sanctions.

And they said the vote shows a significant improvement in the president's position since the Senate went on record in a 75,19 vote three weeks ago to urge Carter to lift the trade embargo.

"We came in expecting to get no more than 30 votes and we broke 40," a White House lobbyist said. "I think the continuing education on our southern Africa policy is bearing fruit, and we expect to increase our margin in the weeks ahead."

Carter announced last Thursday he would retain the restrictions as a way An amendment, sponsored by Sen. Harry F. Byrd, Ind-Va., to end the embargo was written into the pending \$41 billion military procurement bill by the Senate Armed Services Com-

The House version of the bill has no such language. Thus, attempts to put the Byrd amendment into law face possible tests in the House and in a Senate-House conference committee,

"We came in expecting to get no more than 30 votes and we broke 40. I think the continuing education on our southern Africa policy is bearing fruit." — A White House lobbyist

of keeping pressure on the new Zimbabwe Rhodesian government to make further progress toward "more genuine black majority rule."

The president is required to lift the economic sanctions if he determines that free and fair elections have been held and have resulted in a govern-ment that has made a good faith effort to end the guerrilla war.

as well as in a possible final confrontation over a Carter veto.

"I would say this is just the opening gun in the battle, and the war is far from over," said Sen. Frank Church, D-Idaho, chairman of the Senate Foreign Relations Committee.

Secretary of State Cyrus Vance spent several hours Tuesday telling members of both the Senate and the

House that lifting the embargo now would be a diplomatic - and possibly economic - disaster for the United

Vance said the move would reduce "practically to nil" U.S. influence and prestige among the nations of black Africa and would encourage intervention by Soviet-backed Cuban forces. He said the action also would open the way to possible economic repri-

Those reprisals could include an oil embargo by Nigeria, the second largest supplier of U.S. imported oil,

Church said. Church and Sen. Jacob Javits, R-N.Y., argued that Great Britain should take the lead in deciding o lift sanctions. The London government still retains legal, if not physical, possession of the former British colony of Rhodesia.

Senators opposed to the embargo said it hinders democratic development in Zimbabwe Rhodesia and encourages "Russian-inspired terror-

Violence goes on as truckers protest high fuel prices

By The Associated Press

A trucker's wife was shot and critically wounded while riding with her husband in Alabama early today in the most serious incident of violence in a week of protests by independent

Shots were reported fired at trucks in three other states Tuesday and an industry official predicted more gunfire as truckers stayed off the road to protest fuel costs and load regula-

"You get violence when you string it out," said Todd Spencer, a board member of the Owner-Operator Independent Drivers Association of America. "Nobody with big payments

can afford to stay out long. But there was no encouragement from the head of the Interstate Commerce Commission who listened to 15 truckers' complaints for two hours Tuesday and said he had sympathy

but no power to help. "There's no way to wave a magic

wand," said A. Daniel O'Neal. Authorities said Linda Pruett, 20, of Warner Robins, Ga., was wounded when gunfire hit her husband's semitruck on U.S. 82 west of Northport. Her husband, Fred, 23, was not injured in the hootings.

'She's in critical condition." said a spokeswoman at Druid City Hospital in Tuscaloosa, Ala., where the woman underwent surgery early today.

A radio reporter, Sam Hart of WACT, Tuscaloosa, said the truck was struck on the driver's side by at least three bullets, apparently fired from an embankment across the road. There were no arrests.

There were reports of trucks being shot up in Kansas, Wisconsin and Tennessee. In Indiana, a truckstop protest resulted in the arrest of an irate motorist who allegedly threatened to shoot out the tires of trucks blocking fuel pumps, police said.

There were also some nervous moments in Union Gap, Wash., where five rigs at a truck stop had to crash through a fence to break out of a blockade by 100 other trucks.

Thirty rig operators were arrested in Maryland as hundreds of trucks snarled traffic by crawling along highways three and four abreast. Nine truckers in Milford, Conn., were charged with criminal trespassing for refusing to move their rigs out of a truck station.

The truckers are hoping they will find an ear for their complaints once foodstuffs begin to pile up for lack of transportation and shortages develop. They predicted this would happen

in about a week. In Washington state, truckers aye aiming to stop deliveries of the multimillion-dollar cherry crop, now just ripening.

"The only way to get to the government and industry is to get to the people,"said Matt Berry, one of the protest coordinators.

Milton Segel, head of the Massachusetts Food Association, noted that his state imports 85 percent of its food, mostly by truck.

'What concerns me most is what these fuel price increases and supply shortages are going to do to the cost of food here, since we are so dependent

on trucks," Segel said. The truckers are protesting the price and scarcity of diesel fuel, which is seiling at up to \$1.29 a gallon in some parts of the country.

Truckers also want uniform weight and load limits in all the states and an increase in the speed limit to 65

No trouble in Basin from disgruntled truckers

Truckers, upset over diesel fuel shortages and rising prices, have barricaded truck stops in some portions of the country in recent days, but so far the Permian Basin area has been spared. Early Tuesday morning, however, 10 to 12 tractor-trailers barricaded

the diesel pump at the Circle Bar Truck Corral in Ozona in what was termed a peaceful demonstration to protest high diesel fuel prices. Truckers said they were conducting apeaceful demonstration which

started in Houston. And they said they would continue to barricade truck stops along Interstate 10 to Los Angeles, Calif. The truckers reportedly barricaded the diesel pumps, but not the self-service stop for cars. The trucks rolled away from the pumps shortly

The barricade was staged to call attention to the fact that truckers are

going broke due to high diesel fuel prices, the truckers said. They also said they hoped to either lower prices or to bring the rate increase up to a level at which truckers could compensate for the increased

A spot check of several other truck stops around the Permian Basin area this morning indicated no other barricades had occurred, although one was threatened in Midland. Ed Roets, general manager of Warfield Truck Terminal, said he re-

ceived an anonymous long-distance telephone call a few days ago in which the caller told him 25 trucks were being sent to barricade the Warfield terminal. That announced barricade has never come about, he said. The caller refused to identify himself, Roets said, but he said he sus-

pects the call came from the Dallas area. There's a possibility" that truck stop barricades may occur in the Midland-Odessa area, Roets said. He added that the diesel fuel situation is "very tight" at this time.

It may not be the best gas, but it could be the costliest

BOSTON (AP) - He's been criticized, ordered, sued and now arrested but Glenn Martin Heller keeps on pumping some of the nation's most expensive gasoline.

The bearded and bespectacled gas dealer, whose 24-hour pumps doled out their commodity for as much as \$1.56.9 a gallon, appeared in federal court Tuesday to face price-gouging charges.

Heller pleaded innocent before a U.S. magistrate to "unlawfully, knowingly and willfully" selling gasoline for more than the federal price limit - making 55 cents profit on every gallon, prosecutors said.

The 30-year-old Heller was released on \$10,000 bail for a probable cause hearing June 29. If convicted he faces up to a year in prison and a \$10,000

But today his tiny Gulf station at the foot of historic Beacon Hill was still pumping unleaded gasoline for \$1.56.9 a gallon, a price posted an hour before his arrest by federal marshals Tues-

Tug's crew rides flammable fuel-filled barge to safety

GALVESTON (AP) - The crew of a burning tug scrambled to safety on a barge filled with highly flammable fuel early Tuesday in the Houston Ship Channel, the Coast Guard reported.

"It was loose; it had broken free and it was floating away from the fire so they all scrambled on board," said Lt. John Byrd from the 8th Coast Guard District's rescue center in New

The tug Phillip Arthur and one of two barges filled with light naphtha burst into flames after colliding with another tug early today in the mouth of the channel here, the Coast Guard

"The people at the Coast Guard in Galveston said it was quite a fireball - it had flames shooting 90 feet into the air," said Lt. John Byrd.

Nobody was hurt in the accident, reported Chief Petty Officer Claude

"We don't know how many people there were aboard the boats, but we do know they're all accounted for," he

The tug was still blazing after 61/2 hours and it took took about 41/2 hours to put out the blaze on one barge, the Coast Guard said

The second tug, the Warren McKinney, apparently escaped without major damage, Byrd said.

Byrd said the crash occurred right outside the Coast Guard office in Galveston shortly before 1:30 p.m.

"We were on the phone with them at the time, and I guess they saw it right outside the window," he said. "They said, 'Oh, my God, it's blowing up right outside the window. We'll call you back.' We had to sit here a while, and then they did.

He said a helicopter and three small boats were sent to the scene. The cause of the collision had not been determined, Otto said.

Some pollution was reported from a collision between two oil workboats that sank one of the boats about 1 a.m. in Calcaieu Pass at Cameron, La., Otto said.

He said nobody was hurt, but the 165-foot Ionia Seahorse was left along the jetties at the edge of the pass.

Carter says he'll 'whip' Kennedy

WASHINGTON (AP) - If Sen. Edward M. Kennedy makes a run for the 1980 Democratic presidential nomination, President Carter is quoted as saying he will "whip his ass."

Two congressmen who attended a White House dinner earlier this week said Tuesday night that Carter made the remark after being asked about a possible challenge by Kennedy.

Reps. William Brodhead, D-Mich. and Thomas Downey, D-N.Y., said they both heard Carter reply, in answer to the question, "If Kennedy runs, I'll whip his ass.

They said he repeated the remark

after being asked to do so. Appearing on NBC-TV's "Today" show this morning, Kennedy laughed when asked his reaction to Carter's reported comment, then said: "Well, if I were to run, which I don't intend to, I would hope to win.

Interviewer Tom Brokaw persisted, asking, "So you don't expect him to beat you?"

'Well, since I'm not a candidate and don't expect to be ...," the Massachusetts Democrat replied with a

Some 60 House members attended the dinner Monday night. They also were given a briefing on legislation now in the House to implement the controversial Panama Canal trea-

Downey, who was sitting next to Carter at a small dinner table, said the president was asked how he felt about the 1980 presidential race. Downey quoted him as saying, "I feel good. I'm ready.

Downey said the president then was asked about Kennedy Brodhead said he was "startled" by

the remark. "I thought my ears were deceiving

me," he said. "(I said) excuse me Mr. President, what did you say? And ·Carter replied, 'If Kennedy runs, I'll whip his ass.

Asked what happened after that, Brodhead replied: "Nothing. I just went on with my dinner. I didn't know what to say after that. I was taken

Both Brodhead and Downey were interviewed by telephone.

An alternative, trustee Joe Dominey pointed out Tuesday, would be to build an entirely new high school at a cost of probably \$12 million.

"Many people may feel that preserving that historic location (of MHS) and sacrificing that house is preferable to a \$12 million bond issue." he

In other business, the board agreed to hire another tennis coach and move the junior and freshman high schooltennis programs from the physical education department to the athletics department, heard a very preliminary budget report that indicated the district probably was hurt financially by the tax relief efforts of the last Legislature and handled several appeals on transfer requests within the

Second record low recorded

A second record low this week was set shortly before sunrise today when the temperature dropped 57 degrees. The previous record low was 58 degrees set in 1947, the weatherman

Strangely enough, the record high for Tuesday was also set in 1947 when the temperature climbed to 104 degrees, many degrees above Tuesday's 85 degrees.

A record low was also reached early Tuesday when the temperature dropped to 55 degrees, one degree less than the previous record set in 1957.

The mercury should drop into the mid-60s tonight. The high for Thursday is expected to be in the mid-90s, according to the National Weather Service at Midland Regional Airport. Winds tonight should be southerly

10 to 15 mph, said the weatherman. A large high pressure system centered over East Texas produced clear skies and mild temperatures across all of Texas today.

Forecasts called for clear skies and warmer temperatures in northern and western sections of the state and for continued warm readings in South Texas. Highs were to be mostly in the 80s and 90s except for the Big Bend area of Southwest Texas where readings were likely to pass the 100-degree

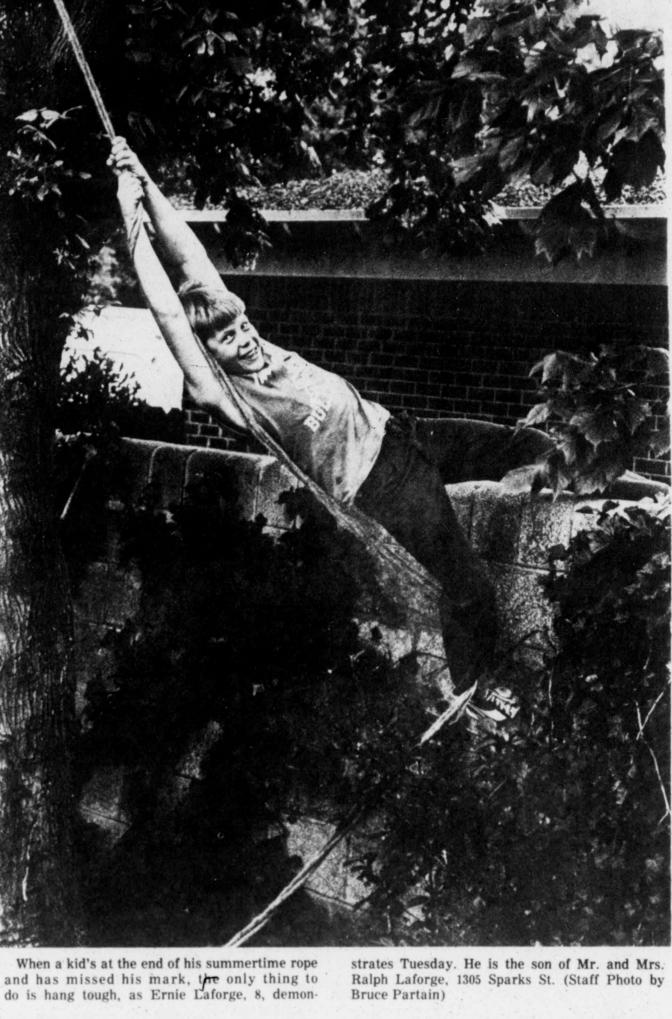

Tools, television reported stolen

Police received a report of one burglary Tuesday, according to offi-

R.V. Culp reported a burglary at Culp's Plumbing in which a clock radio, a black and white television set and miscellaneous plumbers tools were reported taken.

Police said entry to the building at 1011 S. Big Spring St. was through a door window.

Value of the items taken had not been determined today according to police reports.

House nearing vote on pay hike, continuation of 'free parking'

WASHINGTON (AP) — The House is nearing a vote on legislation that could give its members a \$4,000-ayear pay raise and could continue the free parking privileges now enjoyed by congressmen, their staffs and the Capitol Hill news media.

There was no indication on how the House might line up on the measure. However, the first indication could come today in the early proceedings, when the House considers a rule that would bring the bill to the floor for

The Rules Committee voted Tuesday to prohibit any attempt to cut the 7 percent pay raise to anything below 5.5 percent. That action made it more difficult for opponents to prevent any pay increase this year.

Both the pay and parking provisions are part of a bill that would provide \$952.9 million to operate the House and to pay the salaries and expenses of the congressional agencies that provide 435 House members with research and other services.

Following tradition, the House bill contains no money for the Senate and imposes no restrictions on senators or

The pay raise provision passed the House Appropriations Committee so quietly last week that not even all committee members knew about it.

As a result, one committee member - Rep. George M. O'Brien, R-Ill. has promised to fight the legislation

The parking issue, however, has been in the public eye since President Carter announced earlier this year he was eliminating free parking privileges for government workers under his control as a gasoline conservation measure. Carter urged Congress to follow suit by imposing fees on the 8,800 parking spaces it maintains on Capitol Hill.

The parking issue has become so controversial that the Democratic Study Group, a panel which normally analyzes the merits of legislation and suggests courses of action, decided simply to list the arguments for and against the bill. That took 11 pages.

Sponsors of the pay hike provision insist the purpose of their legislation is not to raise the pay of congressmen and top-ranking bureaucrats, but to limit any pay hike to no more than 7 percent, the standard set by Carter's voluntary wage-price guidelines.

The president is required by law each year to adjust the wages of federal employees to keep pace with inflation and increases in private pay Last year Carter recommended a

5.5 percent hike, but Congress ex-

empted itself and all bureaucrats who

made over \$47,500 from the increase.

As a result, congressional pay levels remain at the \$57,500 level.

Sponsors of the legislation contend Congress did not permanently exempt itself and other top-paid members of the government from the pay hike, but only deferred the raise for one year. Thus, they say, this group is entitled this year to the 5.5 percent hike from last year plus any other increase which Carter might recom-

mend this year. So if the president recommends another 5.5 percent hike, members of Congress could end up getting an 11 percent overall increase unless the 7 percent cap is placed on the raise, supporters say.

O'Brien, however, says the provision is a back-door maneuver to increase congressional pay

The parking provision has produced at least seven bills in the House and Senate to place charges on parking spaces used by congressional employ-

Cut in food stamp benefits ordered pending new funds

WASHINGTON (AP) - Agriculure Secretary Bob Bergland has told state welfare officials to make preparations for cutting August food stamp benefits in half, if Congress does not provide an additional \$620 million for the program by then.

Such a cut is unprecedented in the 15-year history of the program, Bergland said Tuesday in issuing an 'emergency regulation." He added the advance notice was necessary to avoid chaos if the cuts must be The states were alerted last month

that Tuesday's action would be coming. The notice directs state officials to prepare to change computer programs used to calculate benefits for most of the more than 6 million households receiving the aid. In 1977, Congress made sweeping

changes in the program and set spending ceilings for each fiscal year based on late-1976 economic forecasts for the period through 1981. For the fiscal year ending Sept. 30,

the spending limit is \$6.16 billion, excluding \$383 million left over from last year's appropriations. But the Carter administration now

if full benefits of \$7.2 billion are to be paid through September. Last week, the House Agriculture Committee approved a bill to raise the ceiling by \$620 million. That bill and the appropriations to back it must be sent to President

says up to \$650 million more is needed

Carter for his signature before August or benefits will have to be cut, Bergland has said. Monthly benefits average \$30 a person. Food prices, on which the bene-

fits are based, have risen at a rate three to four times faster than projected when the ceilings were set. Also, low-income families are coming onto the rolls faster than expected

as a result of some of the new rules. Earlier Tuesday, Bergland asked

the House subcommittee that oversees food stamps to pass a bill repealing the specific spending limits, unique among federal welfare programs.

A ceiling of \$6.19 billion was set for the fiscal year beginning Oct. 1, but the cost is certain to exceed that by at least \$1 billion if full benefits are to be

However, uncertainty over the economy makes it impossible to predict by how much, Bergland said.

He said a spending ceiling should be kept on the program. But, he said, it should be set each year by appropriations committees rather than being set for several years at a time by the agriculture committees.

Bergland also urged passage of "a battery of new anti-fraud proposals" to force states to better police the program and to help cut costs next year by \$150 million.

The agriculture secretary mildly opposed proposals to ease some of the new rules aimed at providing \$26 million to \$30 million more in stamps to the elderly and disabled poor.

Soldier death probe asked

WASHINGTON (AP) - An investigation into the death of Pfc. Kenneth L. Mosier, 18, of Benton, Ark., has been requested by U.S. Sen. Dale Bumpers, D-Ark.

Mosier died at Fort Hood, Texas, on March 15, six days after he was released from a hospital. He had been treated for pneumonia.

The cause of death was listed as heart failure resulting from a blood clot in the lungs.

Bumpers was not satisfied with an earlier investigation the Army conducted at his request.

Mosier had, applied for a discharge in November.

Roxye Williams

Mrs. P.V. (Roxye) Williams, 84, died Tuesday in a Midland nursing

Services will be at 2 p.m. Thursday in the First United Methodist Church in Munday. Local arrangements were handled by Newnie W. Ellis Funeral

Mrs. Williams was born Jan. 30 1895, in Montague, where she spent her early life. She moved to Munday with her family in a covered wagon. She attended schools in Munday and met and married P.V. Williams there in 1916. He died in 1958.

In 1978, she moved to Corpus Christi. She had lived in Midland since January. She was a member of the First United Methodist Church in Munday.

Survivors include a son, Col. Jack Williams of Portland; three daughters, Mrs. Joe Bill Pierce of Midland, Mrs. Perry Wilton of Dallas and Mrs. Jerry Kane of Munday; a brother, A.L. Maples of Abilene, 13 grandchildren and 10 great-grandchildren.

Mrs. Youngblood

SAN ANGELO - Graveside services for Mrs. H.L. Youngblood, 83, of San Angelo, grandmother of L.M. McLaughlin of McCamey, will be at 2 p.m. Thursday in Fairmount Cemetery directed by Johnson's Funeral Home.

She died Tuesday in a San Angelo hospital.

Mrs. Youngblood was born June 23, 1895, in Vernon and had lived in San Angelo 44 years. She was married to H.L. Youngblood. He died in August

Mrs. Youngblood was a national life member of the Texas Garden Clubs, Inc., and an honorary member of San Angelo Garden Club. She had been active in civic affairs.

Oth survivors include a daughter, two sist is and two great-grandsons.

Sue Bowen

KERMIT - Sue Bowen, 66, of Kermit, mother of Wayne Brookins of Midkiff and sister of Lorene Barnett of Midland, died Tuesday in Odessa.

Services will be at 2 p.m. Thursday in the First United Methodist Church here with burial in Kermit Cemetery, directed by Cooper Funeral Home.

Mrs. Bowen was born March 24, 1913, in Electra. She was a Baptist. She had lived in Kermit a year, having moved from Midkiff, where she had lived 25 years.

Other survivors include a son, a daughter, six brothers, two sisters and six grandchildren.

Mrs. Willie Fisher

EASTLAND-Services for Mrs. Willie L. Fisher, 86, mother of Leonard Fisher of Midland and sister Ruby Springer of Lamesa and Francis Rutherford of Odessa, were to be at 2 p.m. today in Arrington Funeral Home. Burial was to be in Eastland Cemetery.

Mrs. Fisher died Monday in a Lubbock hospital.

She was born Dec. 17, 1892, in Naple. She was a Baptist.

Other survivors include two sons, a daughter, a sister, eight grandchildren and 11 great-grandchildren.

Elaine K. Smith

Sales slow down, inventories rise

WASHINGTON (AP) - A slowdown in sales of goods is being blamed for the sharp 1.4 percent increase in business inventories in April, the government says.

The inventory gain was the largest in a year, the Commerce Department

said Tuesday Manufacturing, retail and merchant wholesale inventories increased \$5.4 billion to \$397.1 billion,

the report said. The dollar increase "was bigger than any we've had since October of 1974" when the economy headed into a

analyst who asked not to be identi-

In March, inventories rose \$4.3 billion or 1.1 percent.

Much of the April gain was blamed on a slowdown in sales, particularly of automobiles, the report indicated. "In a situation with declining sales,

it (an inventory increase) would sig-

nal a backing up of goods," the Commerce analyst said. If wholesalers and retailers are caught with large inventories, they in turn may stop buying, which could force manufacturing levels lower

An Alyeska Pipeline Service Co. crew works late to catch a thin film of crude oil leaking from the trans-Alaska pipeline at a spot near the summit of the 4,800-foot Atigun Pass, about 365 miles south of

Prudhoe Bay. The line was shutdown Sunday in the first closure caused by a major break since the pipeline was the target of sabotage near Fairbanks in February 1978. (AP Laserphoto)

expected to flow today Alaska oil

By SARAH OVERMYER

ANCHORAGE, Alaska (AP) -With a five-inch crack in the trans-Alaska pipeline repaired temporarily, oil was expected to start flowing today from the rich fields of Alaska's North Slope into Valdez.

Pipeline officials still do not know what caused the rupture in the 48-inch steel pipe near the summit of 4,800foot Atigun Pass, allowing some 1,500 barrels of crude to escape.

Cleanup crews recovered 700 barrels of the spilled oil, but some escaped into the nearby Atigun River.

Welders patched the hole Tuesday to pave the way for the first flow of oil since Sunday morning, said Alyeska Pipeline Service Co. spokesman John

Ratterman said the flow of oil would be increased gradually to the normal daily 1.2 million barrels, while pipeline monitors kept a close watch on the temporary patch.

Eventually, Ratterman said, the section of pipe containing the hole will have to e replaced. He said that could be done without shutting down the line through the use of a temporary by-

Leaking oil was discovered Sunday morning and the line was shut down within two hours. On Monday, workers found a wrinkle in the pipe and later a crack five inches long and 1-64th of an inch wide.

Ratterman said the closing of the line did not result in a loss of oil production, but said there would be a delay in the delivery of crude to oil refineries in the lower 48 states.

"Now we have to determine what caused the wrinkle," said Morris K. Turner of the Department of Interior's Alaska Pipeline Office. "That is quite important, because what caused the stress?'

Turner and Ratterman said the stress could have been caused by an earthquake or a construction deficiency, like improper bedding of the pipe. Turnerlsaid a design deficiency also could have been at fault, but it was too early to pinpoint the reason.

Alyeska designed an electronic device called a "superpig" to travel through the line and detect changes in the pipe's contour.

The device ran through the 800-mile line last fall. But data collected by the superpig has not been interpreted because the necessary computer program has not been completed.

Five areas draw wildcat operations

Mitchell, Edwards, Fisher, and Runnels counties in Texas and Eddy County, N.M., have gained wildcat

operations. Sweetwater Drilling Co., Inc., of Sweetwater spotted its No. 1 Soloman as a 4,500-foot wildcat in Mitchell County, four miles west of Cuthbert.

It is 467 feet from north and east lines of section 11, J. C. Erwin survey. The site is one location west of an 8,273-foot dry hole and 3/8 mile northwest of a 7,494-foot failure.

The closest production is 2.5 miles to the east in the Coleman Ranch

EDWARDS PROJECT

Continental Oil Co., operating from Midland, announced location for a 12,500-foot Ellenburger wildcat in Edwards County, 24 miles southwest of

The deep test is No. 1 H. B. Doran, 2,202 feet from south and 604 feet from east lines of section 31, block 2, GWT&P survey, abstract 1152.

The site is 4.5 miles northwest of a 13,520-foot dry hole and 17 miles southwest of an undesignated gas discovery which was completed in 1977 by Amoco Production Co. at its No. 1 J. A. Rudasill. That strike finaled for a calculated absolute open flow potential of 3,700,000 cubic feet of gas per day, through perforations from 9,-637 to 9,732 feet.

FISHER PROJECT

A 3,000-foot wildcat was spotted four miles west of Noodle in Fisher County by Hill Production Co. of Dal-

It is No. 1-A Pike Hall, 1,175 feet from the north and 1,250 feet from the west lines of G. W. Peck survey No. 284 and in the south area of the Eskota (Canyon and Noodle Creek) field. The Canyon production is at 4,388 feet and the Noodle Creek produces at 2,545

RUNNELS TRY

E. B. Fletlcher, Operator, of Dallas staked No. 3-425 Wayne Roberts as a 4.900-foot wildcat in Runnels County. seven miles southwst of Winters and one location southwest of an old gas well and one location northwest of production in the Howerton (Goen)

The location is 1,050 feet from north and 3,300 feet from east lines of section 54, block 63, HLT&B survey.

EDDY PROJECTS

A pair of wildcat operations were announced in Eddy County.

Perry R. Bass of Fort Worth staked No. 77 Big Eddy Unit as a 12,600-foot operation 17.5 miles southeast of Carlsbad and one mile west of the Dublin Ranch (Morrow gas) pool.

The location is 1,650 feet from south and 1,980 feet from west lines of section 9-22s-28e. Ground elevation is 3,-095 feet.

Meadco Properties of Midland No. 1 Hudson-Federal is a re-entry wildcat operation in Eddy County, 15 miles

northeast of Carlsbad. Originally completed from the Strawn, through perforations from 11,098 to 11,102 feet on total depth of 11,643 feet, it will be plugged back and tested above 4,250 feet.

Ground level elevation is 3,095

WARD PROJECT

Adobe Oil & Gas Corp. of Midland No. 20 Barstow has been spotted one and three-eighths miles north of production in the Scott (Cherry Canyon gas) pool of Ward County, one mile southeast of Barstow.

Scheduled for tests of the Cherry Canyon, it is scheduled to 6,500 feet and will be drilled 660 feet from southeast and 1,408 feet from southwest lines of section 173, block 34, H&TC survey.

REEVES WELL

William B. Wilson & Sons of Midland No. 2 Worsham has been completed as the fifth Cherry Canyon gas well in the Scott multipay area. The well extends the pool from Ward County into Reeves County.

The operator reported a calculated absolute open flow potential of 6 million cubic feet of gas per day through perforations from 6,386 to 6,413 feet. The gas-liquid ratio is 64,109-1, with gravity of the oil at 48.6 degrees.

The pay was acidized with 500 gallons and fractured with 30,000 gal-

Total depth is 6,488 feet and 5.5inch casing is set at 6,471 feet. The hole is plugged back to 6,434 feet.

The well is 3/4 mile south of the closest Cherry Canyon gas production and 9,407 feet from south and 660 feet from east lines of section 13, block 6, H&GN survey and five miles southeast of Barstow.

ECTOR FIELD TEST

Shell Oil Co. will re-enter a former San Andres well in the Goldsmith, North field of Ector County and plugback for tests in the Yates as a gas

If successful it will be the sixth well in the Andector (Yates gas) pool. The project is No. 4-C Cummins, 560 feet from south and 2,080 feet from west lines of section 9, block A, PSL

survey. It will be tested above 4,504

HOWARD PROJECT

Texaco Inc., operating from Midland, announced plans to re-enter a project in the Vealmoor (Canyon Reef) pool of Howard County and test it in the Cisco zone.

If completed in the Cisco it would be the second well in the Vealmoor (Cisco) field.

It is No. 1 Clyde Clanton, 560 feet from north and west lines of section 39, block 32, T-3-N, T&P survey and 16 miles north of Big Spring and two miles southeast of the Cisco well. It will be tested above 7,900 feet.

HOWARD OILER

Campana Petroleum Co. of Midland No. 1-A Read is a new flowing well ir the Coahoma, North (Fusselman) pool of Howard County, three miles northeast of Coahoma.

The operator reported a daily potential of 210 barrels of 48.4-gravity oil, no water, inrough a 12/64-inch choke and perforations from 8,814 to The gas-oil ratio is 1,076-1.

The pay was acidized with 11,500 gallons.

pipe is set at 8,890 feet and hole is plugged back to 8,877 feet. Wellsite is 1.980 feet from north and 467 feet from west lines of section 40,

block 30, T-1-N, T&P survey.

Total depth is 8,894 feet, 4.5-inch

EDDY FIELD AREA

Tenneco Oil Co. announced locations for a pair of projects in the Empire, South (Cisco-Wolfcamp) field of Eddy County, six miles southwest of Loco Hills. The No. 3-33-E Federal will be

drilled 1,980 feet from north and 520 feet from west lines of section 33-17s-29e. Elevation is 3,554 feet. The No. 2-33-C Federal is 910 feet

from north and 1,710 feet from west lines of section 33-17s-29e. Ground elevation is 3,555 feet. Each of the projects will be dirlled to 9,200 feet.

AMOCO GASSER

Amoco Production Co. announced potential test for a new well in the Tonto, West (Morrow gas) field of Lea County, N.M., 15 miles southwest of Buckeye.

It is No. 5 Bondurant-Federal and was completed for a daily flow of 2,440,000 cubic feet of gas per day, through a 22/64-inch choke and perforations from 13,326 to 13,341 feet.

Total depth is 13,698 feet and 5.5inch pipe is set on bottom. The plugged back depth is 13,640 feet. Location is 1,980 feet from south and east lines of section 12-19s-32e.

C& K PETROLEUM BLDG.

Bell operates private line network from city

A private line telephone network which stretches across the vast flatlands of West Texas is centralized on one floor of the Southwestern Bell Telephone Co. building at 410 W. Mis-

The Special Services Center has been in operation since last October, and already has brought improved service to more than 10,500 private line customers from Dumas to Abilene to Fort Stockton, according to a spokesman with the telephone compa-

The private line circuit is a special telephone connection from one city to another which uses copper cable or mircrowave radio transmission. Cost of the service is determined on a monthly base rate plus a mileage

While this service has been offered to this area for a number of years, its use increased last year by 35 percent, said the spokesman.

The Midland Special Services district in 1978 connected more than 2,400 private lines. This year, the company expects to complete about 3,600 circuits - almost a 50 percent increase

Neal Marshall, district manager for the Special Services Center, said the office is responsible for total operation of each private line.

"Monitoring the private line network is a very complicated process and requires constant surveillance and follow-up, especially during in-

Southwestern Bell adminsters and tracks each installation from beginning to end - from the customer location, through each local and toll central office to the final destination in another city, whether it be Lubbock or New York, Marshall said.

A private line starting in Odessa and ending in Lubbock would be routed through a local switching office in

It would be carried via cable to the local toll office, to the Midland toll office and, finally, to the toll office in Lubbock. From there it would go to the local switching office and end at the customer's location

Marshall said many of the private lines travel as far as New York City or

The SSC is divided into three functions - installation, routine maintenance and repair service, Marshall

The Midland office is only into its first phase, which is coordinating installation of each private line.

By the end of 1981, the company is expected to introduce the final stages of SSC - centralized routine maintenance and repair service, according to Marshall.

These functions will be centralized on a Switched Access Remote Test System. Personnel can test the entire circuit and isolate any problem along

Repair service will be centralized in

Midland "Until 1981, though, we're only taking partial repair reports in this office." Marshall said. Later this year, the office will handle repair calls on this service from 11 p.m. until 7 a.m.

On the average, the firm receives three to four repair calls a night. Marshall said by centralizing all repair calls in one office, instead of six, the company saves as much as \$350,-

When all repair service is centralized in the Midland office, the company should save as much as \$900,000 a year, according to Marshall.

Southwestern Bell's Special Services Center in Midland is responsible for the total operations of the company's large private line

network in West Texas. Tracking private line installation procedures are, from left, Terri Hart, records clerk; Diana Boland and Judy

refugees still gone

DACCA, Bangladesh (AP) - Some 27,000 of more than 200,000 Burmese who fled to Bangladesh last year remain to be repatriated, and they will be sent home by mid-July, Home Minister Mustafizur Rahman told Parliament Monday.

Most of the refugees were Moslems who fled to escape persecution by the Buddhist Burmese army. Rahman said they are being repatriated at the rate of 2,500 every three days.

He reported 12,241 of the refugees - 2,081 men, 2,442 women and 7,768 children - died in Bangladesh.

New phone surge due

CHICAGO (AP) -Former astronaut James Lovell predicts a growth in telecommunication markets over the next two decades that may rival the expenditures on the Apollo moon pro-

Now a director of the North American Telephone Association, Lovell said in a recent speech that the explosion in new equipment and services should add some \$20 billion or more to the current \$50-billiona-year telecommunications industry.

Kan. (AP) - For the man who became a national symbol of machismo as the cowboy star of Marlboro's cigarette commercials, ... Wayne Dunafon is pretty unassuming. He doesn't even

smoke all that much. But the 59-year-old take 10,000 photos in northeast Kansas rancher still has the trim, muscular physique that made him a champion steer wrestler during his rodeo days and drew the interest of television viewers during his 14 years riding around

Marlboro Country. Dunafon, who was in Chevenne, Wyo., at the time, was chosen for the commercials from among a group of rodeo cowboys after the cigarette company had some problems with authentic-

'There was one commercial where a guy was wearing his spurs upside down, and they got about 80 letters from ranchers. So they decided to find some real cowboys, and they came to Cheyenne to screen us at a rodeo there," he says.

The job came pretty naturally to Dunafon, but some days he worked harder for the photographers than he would on a day at his own ranch.

Tuesday's Sports In Brief
By The Associated Press
BASEBALL
NEW YORK (AP) — Boston outfielder-designated hitter Jim Rice, who hit
A19 as the Red Sox were winning six of
seven games last week, was named the
American League's nlaver of the week. American League's player of the week, AL Presidnt Lee MacPhail announced. Al. Presidnt Lee MacPhail announced.
Rice hit in six of seven games last week
with five homers, four doubles and a
triple. He had three three-hit games.
HOCKEY
MONTREAL (AP) — One-time Boston
Busins defenseman Bobby Orr, 31, was
among three former players named to
the Hockey Hall of Fame; it was ancouncied at the National Hockey Learner

nounced at the National Hockey League

rearguard Harry Howell of the New York Rangers, the Oakland-California Seals and the Los Angeles Kings, and center-Henri Richard of the Montreal Cana-

diens.

It was also announced that New York
Islanders cepter Bryan Trottier won two
of seven individual trophies awarded by
the National Hockey League in a vote of
members of the Professional Hockey

members of the Professional Hockey Writers Association.

Trottier won the Art Ross Trophy for most points in 1978-79 season with 47 goals and 87 assists for 134 points. Guy Lafleur of Montreal had won the trophy the past three years. Trottier also won the Hart Trophy as the league's most valuable player.

scored 30 goals and 44 assists for 74 point

TENNIS

LONDON (AP) — John McEnroe defeated Charlie Pasarell 6-4, 6-4 in she \$123,000 Stella Artois tennis tournament at London's Queen's Club and begin his grass-court warm-up for Wimbledon. Other first-round winners, on another day cut short by rain, were America's Dick Stockton and Jose Luis Clerc of Argentina. Stockton downed Andrew Pattison of Rhodesia 3-6, 8-3, 8-4 while Clerc beat American Shermond Stewart Clerc beat American Sherwood Stewart

He has all the credentials. They were exhibited in awesome, overwhelming fashion last weekend with

majors."

TOLEDO, Ohio (AP) - He hasn't his 23-under-par, 8-shot victory in the yet been there, so Andy Bean doesn't Atlanta Classic. He did it all. know what it would mean to him to

The 6-foot-4, 210 pound Bean had the win the United States Open Golf strength to reach the par-5's in 2. He Championship - financially and holed long putts. When the occasion demanded, he exhibited a deft and "But I sure would like to find out," delicate touch on the testing little the big guy said. And the victory stamped the 26year-old as a prime candidate for the American national championship that begins Thursday on the 6,982 yard, par 71 Inverness Club course.

And Bean figures he has the tools to

Like most Open courses, this one has difficult rough, narrow fairways and small, fast greens. Inverness, in fact, has greens that are smaller and faster than usual even for the Open.

And that suits big Andy just fine. "It is the type of course that is molded to my game," he said during break in a practice round Tuesday.

'You have to play position on the fairways, and the greens are awfully small. Well, I grew up playing that kind of course

That smarts! Texas Ranger Bump Wills holds his mouth after the ball bounced and hit him in a pickoff attempt in Tuesday night's game in Arling-

ton. The throw came from Texas catcher Jim Sundberg in an attempt to get Milwaukee's Gorman Thomas on the play. (AP Laserphoto).

North could capture second straight win

TOLEDO, Ohio (AP) - Andy North realizes his chances of becoming the first golfer in 28 years to win back-toback United States Opens are improbable, if not impossible.

"But who knows. I like to think I can or I wouldn't be here," said North after a practice tour Tuesday of Inverness Club, the site of the Open for the fourth time.

Ben Hogan, in 1950-51, was the last to capture consecutive Opens. The only others in the 79 years of America's No.1 golf tournament were Willie Anderson (1903-04-05), John McDermott (1911-12) and Bobby Jones (1929-

North does not rank with the favorites. Since his Open triumph at Cherry Hills last June, the tall, lanky 29-year-old has finished in the top 10

Andy Bean is seeking

his first Open Golf title

scoring is low, I don't do so well," said

The line of favorites starts with Tom Watson and includes Jack Nicklaus, Lanny Wadkins, Fuzzy Zoeller, Lee Trevino, Gray Player and Andy

The field of 138 professionals and 15 amateurs facing the first round Thursday includes 11 former Open champions. The titleholders are led by three-time winner Nicklaus and two-time king Trevino.

This Open is important to Watson and Nicklaus for different reasons. Watson, 29, recognized by nearly everyone as the game's No. 1 current player, numbers no Open title among

his 15 victories. "You must win an Open to be recognized as a truly great player,"

says Watson.

A victory here would add more luster to a great 1979 for the redhaired Missourian. Watson has won

four times and has been second four more in 14 starts for earnings of almost \$354,000 - just \$8,000 from his all-time record in 1978.

For Nicklaus, it's simply a matter. of winning. The man with 15 major professional titles and more than \$3.8 million in career earnings, both unparalleled, has not won since Philadelphia last July.

The 39-year-old Nicklaus is fighting over-the-hill talk. He's been in the top 10 only once in eight 1979 starts and frankly admits, "I need a win under my belt to get untracked."

The last of Nicklaus' three Open victories was in 1972.

The other anticipated challengers are Masters champion Zoeller, No.2 on the money list; Wadkins, a double 1979 victor like Zoeller and third in money; former Open champs Trevino and Player and Bean, the impressive 23-under-par winner at Atlanta last week.

However, Trevino, who won the Open in 1968 and 1971, shrugs off his chances on this revamped, 76-yearold layout that now measures 6,982 yards and plays to par of 71.

"I took my wife to Hawaii for a week and I'm completely out of shape," said Trevino. "If I play well here, I'd surprise even myself.

Player, if he matches his 1965 Open title Sunday, would become the oldest player ever to win this major. The

South African is 43. "You know how big an ambition that is so I don't even have to explain it," said the man who has won \$43,000 in just six American tournaments this

Wimbledon net meet washed out

CHICHESTER, England (AP) -Wimbledon champion Martina Navratilova named Chris Evert Lloyd and 16-year-old American Tracy Austin as her two main rivals for this year's Wimbledon title.

Meanwhile, though, Navratilova spent a day of frustration waiting for rain to clear so that she can begin her Wimbledon build-up. For the sec-ond day in a row, the \$75,000 grass court tournament here was washed

"Tracy has proved herself," she said. "I know I really have to play my best to beat her. She is so much improved.

Austin is missing this week's tournament to continue her schooling at Rolling Hills High School in California. She won the Italian Championship in Rome last month.

The frustration of two days of rain caught up with Navratilova Tuesday and she stormily refused to talked to reporters but gave in after cajoling by the tournament organiz-

"It is terribly frustrating," she said of the delay in play. "The only consolation is that it's the same for everybody. But it is hard trying to stay in

Navratilova and a number of the other top women players in this event, tried to keep in shape by doing gym exercises. But most were reduced to sitting around vainly waiting for the

weather to improve The lack of match play is particularly distressing for Navratilova, who has taken a four-week break from tennis and missed the French and Italian Open tournaments.

"I don't regret skipping them," she said. "I didn't think they would give me the right sort of build-up. I wanted to do things at my own pace.

Dishman, Miller claim Hogan win

Charles Dishman and Art Miller combined for a 67 over the weekend to win the Hogan Park Men's Golf Association three-club limit partnership tournament at Hogan Park.

Dishman and Miller were three strokes better than the second place team of Leonard Hernandez and Joe Moreno. Warren Teichman and David Teichman placed third with a 71.

Fred Ramirez and Herb Langley won the first flight with a card playoff after posting a 77 with Jesse Madrid and Charles Warren.

Andy Hooker and Gene Thomas posted a 79 to take the second flight by one stroke over Bill Anthony and Jack Thornton. Jerry Bergeron and Bill Thomas

combined for a 74 to win the third flight while Tom McCranie and Arthur Valencia placed second with an

Solomon inks

KINGS ISLAND, Ohio (AP) Harold Solomon, ninth-ranked world professional in 1978, is the latest professional signed to play in the \$200,000 Association of Tennis Professionals Championship Aug. 20-26.

Other name players signed include Arthur Ashe and Roscoe Tanner.

DOWNTOWN & SUBURBAN

Use our convenient OPTION CHARGE PLAN

Obstacle could hurt expansion

MONTREAL (AP) - Another obstacle has been thrown in the path of National Hockey League expansion. The Winnipeg Jets, Quebec Nordiques, Hartford Whalers and Edmonton Oilers were to walk into the expansion draft today without having reached status as official NHL mem-

NHL President John Ziegler had hoped all the details of this multi-million dollar transaction could have been finished before this annual league convention began. Quite simply, those details - one involving \$5 million due from Edmonton - have not been resolved.

"It's not Edmonton solely," said Ziegler, who spent much of Tuesday in meetings and on conference calls in trying to complete the enormously complicated deal, "We also have to certify certain (financial) representations from other teams. And since we knew we wouldn't be able to get everything completed by midnight, we decided to hold off on the finalization of expansion until every 't' has

been crossed." As a result, the four incoming clubs will not officially be awarded their franchises until on or before June 22, the weekend before the league's next Board of Governors meeting.

"We had the choice of postponing the draft and everything else or coming up with an alternative to provide the ability to close this deal at a later date," said Ziegler.

One of the bigger matters was a document the Oilers were to have provided assuring \$5 million in "continuing financial responsibility," according to Edmonton owner Peter Pocklington. In essence, the document assures the NHL of an ability to provide that amount if it is needed.

"But Edmonton did not know until this morning (Tuesday) that the additional (money) was required," said Pocklington. "This figure was never presented as a prerequisite. It was never communicated to me. But we will meet the deadline.'

Meanwhile, the other clubs await the removal of this latest stumbling block. They entered today's draft with the first round virtually planned

Winnipeg, which had the first choice, was expected to draft right wing Peter Marsh from the negotiation list of the Montreal Canadiens. The 6-foot-1, 180-pound Marsh scored 43 goals and 23 assists for the Cincinnati Stingers who, with the Birmingham Bulls, were the only two World Hockey Association clubs who did not figure in NHL expansion plans.

Edmonton, picking second, was expected to chose left wing Cam Connor from the Canadiens' list. Connor appeared in 23 games for the league champions, collecting a goal and

three assists. Hartford was to follow by picking defenseman Alan Hangsleben - yet another player unprotected by the Canadiens. Hangsleben played lastyear for the Whalers, scoring 10 goals and 19 assists, but his NHL rights were owned by Montreal, which re-

claimed him from Hartford's roster. Quebec, which had the fourth and final pick of the first round, also received the first pick in the second round, since the order of selection is reversed as each round passes. The Nordiques were planning to use those consecutive choices on goalie Wayne Stephenson of the Philadelphia Flyers and left wing Alain Cote, also from

Montreal's list. That would end the Canadiens' role in the draft, since none of the 17 clubs may lose more than four players. Of those four players lost, only one of the them - Connor - played for Montreal last season.

The draft was to continue until each club has surrendered a total of four players to the incoming teams. Their rosters finally decided, all that was left for the expansion clubs was to wait until their franchises are ap-

In other developments Tuesday, the

to the shrine when the committee waived its requirement that a candidate be retired three years or more. He became the ninth player in the

Richard.

before finishing his career with brief stops with five other teams. Richard, younger brother of

most valuable player.

Maurice "The Rocket" Richard, played 20 years with the Canadiens and helped Montreal to 11 Stanley Cup. championships in that span.

league hockey history. He spent 17

seasons with the New York Rangers

Slowing inflation should bring end to 'if only' game

By JOHN CUNNIFF AP Business Analyst

NEW YORK (AP) - We've been playing the "if only" game for years now, counting the dollars we would have made if only the stock market had risen a bit, if only inflation had departed and left us in

For years it was just a frivolous pastime. We knew inflation would not disappear, and we knew that during such economic chaos the stock market wasn't likely to rise very far. But we dreamed.

Someday, though, prices won't rise so swiftly. How and when it comes - through hard collapse or soft landing, by year's end or sometime later - is debatable. But when it does, the game becomes the

What happens to the stock market still won't be fully predictable. But the impact on personal paychecks, savings, insurance and planning is fairly well known. The only missing ingredient is the degree of impact.

As inflation slows, the paycheck is likely to catch up with prices. If it practically disappears, which would be around 2 percent or so, then paychecks in all probability will begin to grow in real terms.

That would be a huge change from recent experience. In the 12 months through March, for example,

straight-time wages rose 7.8 percent, but consumer prices jumped 10.2 percent, resuting in loss of buying

Reflecting an understanding of how inflation corrodes liquid assets, would-be savers have been investing in more inflation-resistant items, including land, houses, diamonds, art and gold bars.

Why not? Does it pay to leave money in the bank at 5 percent to 6 percent interest and pay out more than 13 percent to inflation? Or is it better to invest in a house that appreciated by at least the inflation

Those questions have led to hard decisions by millions. They chose the latter, and the U.S. savings rate dropped to less than 5 percent of takehome pay, around the lowest rate for any major industrial

The return on savings has now been raised. U.S. Savings Bonds pay 6.5 percent rather than 6. Passbook savings at thrift institutions have been raised to 5.5 percent, and at commercial banks to 5.25 per-

A the rate of inflation falls nearer to these numbers, the percentage of takehome pay that goes into savings is almost certain to rise.

So long as double-digit inflation persists, long-term life insurance is a questionable, or at least controversial, buy. At 10 percent, for example, the face value of a policy is cut in half within 8 years.

As stability returns, however, it becomes more possible to calculate the risk-reward ratio. True, so long as any inflation exists, face values decline. But sometimes premiums do to - as in the past two

Not just in insurance but in all areas of finance, stability makes plannning easier, and that could mean a significant change in American plans regarding jobs, pensions, big-ticket purchases, debt,

It remains axiomatic that if it pays to invest in the

It's only when the future of so many investments is unstable that they play the "if only" game and put their money in items over which they have more

Livestock auction report

The Southwestern Livestock Auction Co. ran through 1,028 head of cattle Tuesday in unusually heavy trading. The market was \$2 to \$3 higher on all classes of cattle. Packer cows were \$3 higher, while packer bulls were steady at \$66.50 to \$68 per

Steers weighing 600 to 700 pounds were auctioned for \$70 to \$74.50 per hundredweight; 500 to 600, \$74.50 to \$78.50; 400 to 500, \$80 to \$85; 300 to 400, \$85 to \$94.50, and under 300 pounds, \$91 to \$115 per hundredweight.

Heifers weighing 600 to 700 pounds were sold for \$64.50 to \$67.50 per hundredweight; 500 to 600, \$70 to \$74.50; 400 to 500, \$72.50 to \$76; 300 to 400, \$76 to \$80, and under 300 pounds, \$90 to \$114 per hundredweight.

Cows utility were auctioned for \$50 to \$54.50 per hundredweight. Canners and cutters sold for \$47.50 to \$50 per

hundredweight. Bulls yields grades 1 and 2 went for \$66 to \$67.50 per

hundredweight. Bred cows sold for \$54 to \$60 per hundredweight.

Cow-and-calf pairs were auctioned for \$650 to \$810 per pair. The right signal to call

Elephant helps with stony theory

By ANDREW ROSENTHAL

DENVER (AP) - The 9.000-pound carcass of Margie, a circus elephant, has helped scientists prove that Stone Age spears — and Stone Age men must have been pretty tough indeed.

Armed with replicas of prehistoric weapons, archaeologists from six states attacked the carcass in an experimet aimed at proving the world's earliest elephant hunters actually used the stone-headed spears and axes to bring down their enormous

The scientists found the weapons were stronger than they seemed strong enough to kill an elephant weighing more than four tons - and that it would take equally tough cavemen to use them.

"Our hands were really battered up," assistant Colorado archaeologist Steve Cassells said Tuesday. couldn't believe it when I looked at my hand this morning. I must have 150 nicks, plus a couple of big

Margie's carcass was delivered to a Denver rendering plant after she died Friday in the back of a circus van en

route from New Mexico to Denver. Margie had been stricken in Santa Fe with an illness resembling food poisoning, the same illness that claimed the lives of her two long-time companions. She was being shipped to Denver to get her near other elephants, in hopes that companions

would boost her spirits. State archaeologists organized Monday's experiment after being informed the carcass was available.

"There haven't been many opportunities to field test those tools to do what we call experimental archaeology," said Cassells.

The experiment drew 45 archaeologists from six states to test tools painstakingly duplicated from origi-

nal specimens. Cassells said the scientists began by thrusting "Clayis point" spears into Margie's body, which was suspended upside down in chains hung from a crane.

The scientists had fashioned nine such points, weapons often found among 11,000-year-old elephant fossils in North and Central America. Cassells said a Clovis point is "rather long and has a deep flute on each side of the base which allows the thing to sit into a shaft."

Taking turns with the single spear shaft they had, the scientists thrust the points into Margie at spots prehistoric hunters probably would have targeted for a quick kill.

'Most of the time there wasn't any damage to the points and in very few cases did we really dull a tool," said Cassells. "But we did get some good

breaks at the base" that were identical to those found at sites in Ari-

By the time the scientists had partially butchered Margie's carcass, the experiment had taken six hours, roughly twice the time it might have taken a 10-man prehistoric hunting

Cassells said the archaeologists 'didn't want to seem like we were perpetrating an immoral act," but added the scientists did get some pleasure out of their exhausting, bloody task.

MC offering non-credit courses

Four non-credit evening short courses will begin at Midland College

A three-week course in the practical application of photography taught by Bob Fiehweg will give the student an insight on how to make money with

Students bring their own cameras and explore black and white and color photography. Lighting, film selection, processing and printing are part of the course study. Classes are limited to 20 students meeting from 7 to 10 p.m. on Tuesdays and Thursdays in room 104 of the Occupational-Tech-

nical Building. Course fee for "Camera: An Eye on Tomorrow" is \$22.

Andrea Yarbrough's three-week course titled "Typing Brush-up" meets from 7 to 9 p.m. Mondays, of the Occ-Tech Building. First class is Tuesday

Classes are limited to 20 students and the fee is \$12. who have had a prior course in typ-

Students will become familiar with electric machines, keyboards and machine parts. Typing techniques and tabulation will be taught and speed and accuracy drills given each

Books may be purchased at the MC bookstore. Course fee is \$20.

A three-evening course in Defensive Driving will be held Tuesday, Wednesday and Thursday from 7 to 10 p.m. in room 100 of the Occ-Tech Building.

Students who complete the course and receive their certificates are enti-

Tuesdays and Thursdays in room 151 automobile insurance which is good for three years. Course instructor is Jack Moore.

Dan McAngus will hold a threeweek "Introduction to the Stockmarket" on Tuesdays and Thursdays between 7 and 9 p.m. in room 106 of the Occ-Tech Building.

Subjects to be covered include the meaning of investments, types of stocks, risks, methods of investing, speculation, securities and how to

read the financial news. Course fee is \$15. Students may pre-register Monday and Tuesday between 7 a.m. and noon

and 12: 30 to 5: 30 p.m. in room 140 of the Occ-Tech Building.

More information may be obtained by calling 684-7851, extension 147 or tled to apply for a discount on their 216.

Names in the News

John Belushi

NEW YORK (AP) - First it was Chevy Chase to leave NBC's comedy zoo "Saturday Night Live" and now a second son is reported ready to stray from the zany fold - John Belushi.

The New York Daily News today quoted producer Lorne Michaels as saying the burly Belushi probably won't be back for the show's fifth

Michaels said Belushi and comic buddy Dan Aykroyd are going well for themselves with their singing act, "The Blues Brothers," and they'll be

shooting a movie this summer.

'Whatever Belushi decides, I'll abide by his wishes," Michaels said. The success of 'Animal House' (Belushi's first hit film) and the Blues

Brothers has caused enormous confusion in John's life." Reached by The Daily News at his vacation retreat at Martha's Vineyard, Belushi declined comment on his future.

LOS ANGELES (AP) - ABC and Lorimar Productions are suing actor Dick Van Patten, star of the popular TV series "Eight Is Enough," for \$23 million, saying he is refusing to work without a pay increase.

The network and production company say Van Patten's agent, Mary Ellen White, informed them the actor had no intention of showing up for shooting Friday unless his contract is revised. They say the agreement gave them a four-year option on Van Patten's services. Lorimar is seeking \$20 million damages, and ABC asks for \$3 mil-

Neither Van Patten nor his agent could be reached for comment.

SANTA ANA, Calif. (AP) '- It took him two years and two trials, but Dr. William Waddill is now cleared of charges of strangling a baby girl who survived an abortion

Waddill says he now must rebuild his obstetrics practice and climb out of a financial hole created by a legal team he said cost him at least \$2

A judge dismissed murder charges against the 43-year-old doctor Monday after a jury in his second trial deadlocked 11-1 in favor of acquittal.

"I was tremendously embarrassed and upset that I had created this problem for our profession," he said Tuesday.

ATLANTA (AP) - Billy Carter says his lawyers are working out a deal to keep his family's home from being put on the public auction block. The president's brother said Monday he knew nothing specific about plans to stop the sale next month at the Marion County courthouse, but added, "The lawyers are working it out."

A foreclosure notice on the \$54,500 house and surrounding 58 acres was published last week by J. Myron Wells, a Buena Vista accountant who holds the mortgage on the home at Draneville, Ga. The notice said Carter's wife, Sybil, in whose name the property was purchased, had defaulted on the house payments.

LAS VEGAS, Nev. (AP) - The husband of Totie Fields is suing a husband-and-wife team of doctors for \$10,000, saying they failed to provide proper care for the late comedienne after a facelift that led to serious complications.

The suit was filed in federal court Monday by George Johnston, Miss Fields' husband of 27 years, against Drs. Theodore and Parvin Modaber Jacobs. Johnston said they had been his wife's physicians since 1976.

The action claimed the two doctors failed to warn Miss Fields of the dangers of the facelift performed by a New York physician and failed to provide proper care after the operation.

As a result, the suit claimed, Miss Fields "sustained severe and permanment injuries, including the loss of the left leg above the knee, loss of vision in the right eye, a cardiac condition, scarring of the face, impairment of vision in the left eye, extreme mental anguish and distress with psychological overlay.'

The New York doctor was not named a defendant in the suit. Miss Fields died of a heart attack last August.

HOLLYWOOD (AP) - "I'm thrilled and flabbergasted," said actresssinger Doris Day upon learning of a judge's decision that gave her pet

Municipal Judge Roy Carstairs ordered the donation as part of the penalty imposed on a doctor who admitted firing a high-powered rifle at a small dog who had intruded on his property. Miss Day said by telephone from her Carmel home that the first she

knew about the unusual ruling was when the check was received Tuesday by the Doris Day Pet Foundation. The group finds homes for unwanted and discarded dogs and cats and sponsors research for better pet care.

CUERNAVACA, Mexico (AP) - For the shah of Iran, it's a time for relaxation. Not so for the Mexican security force charged with protecting

the exiled monarch, marked for death by his country's Islamic regime. A federal security agent said Tuesday Shah Mohammed Reza Pahlavi is passing his time reading, walking in the garden with his dogs or in the swimming pool." But neither he nor his wife Empress Farah has left

A 46-member detail of Mexican secret police has been assigned to guard the shah. Men armed with automatic rifles and submachine guns were visible Tuesday on the roof, in the gardens and on the street leading to the plush mansion where the shah arrived Sunday.

CAMP LEJEUNE, N.C. (AP) - Pfc. Robert Garwood, facing possible charges of collaborating with the enemy in Vietnam, has been granted a 10-day leave after breaking a collarbone in a motorcycle accident.

Marine spokesman Maj. John Woggon said Tuesday the 33-year-old Garwood broke his left collarbone Sunday while riding at a motocross

Garwood was at first given 30 days of light duty, but after he reported for work at his clerical job he asked for and was granted a 10-day leave, Garwood returned to the United States this year after spending almost 14 years in Vietnam. The Marine Corps is investigating possible desertion

and collaboration charges against him.

Midland High School graduate Jeffrey W. Salmon, 18, son of Mr. and Mrs. Will H. Salmon, has been elected to the Society of Distinguished American High School Students. At MHS, he was named an outstanding industrial arts student two years and was a member of JETS and Young Life. The Eagle Scout was president of the Christian Youth Fellowship at Memorial Christian Church for two years. He is studying architectural design at Midland Col-

Men's weight logs increase

WASHINGTON (AP) - Men are heavier than their counterparts were 20 years ago, according to the American Council of Life Insurance.

The council says men in their 20s are now from three to 17 pounds heavier than the same age group was in 1959. Those in their 30s are from two to eight pounds heavier, and 40- to 49-year-olds are up to six pounds hea-

Texans in House vote to fund M-X misile;

WASHINGTON-Here's how area members of Congress were recorded on major roll call votes May 31 through June 6.

HOUSE

M-X MISSILE: The house rejected, 89 for and 311 against, an amendment to eliminate \$265 million for a new "M-X" land-based, movable missile from a bill authorizing \$1.3 billion in additional defense spending this fiscal year. The bill (HR 2575) was later passed and sent to conference with the Senate. It contained money for the missile.

Proponents say a movable missile such as the M-X is needed because current stationary land-based missiles will soon become vulnerable to a surprise Soviet attack. Opponents say submarine-launched and cruise

missiles are sufficient to deter an at-

Members voting "yea" favored eliminating money for the M-X.

Reps. Bob Eckhardt, D-8, Kika de la Garza, D-15, and Ron Paul, R-22, voted "yea." Reps. Charles Wilson, D-2, James Collins, R-3. Jim Mattox, D-5, Phil Gramm, D-6, Bill Archer, R-7, Jack Brooks, D-9, Jake Pickle, D-10, J. Mar-

vin Leath, D-11, James Wright, D-12, Jack ROLL CALL REPORT.

Hightower, D-13, Joe Wyatt, D-14, Richard White, D-16, Charles Stenholm, D-17, Kent Hance, D-19, Henry Gonzalez, D-20, Tom Loef-fler, R-21, and Martin Frost, D-24, voted "nay." Mickey Leland, D-18, and Abraham Kazen, D-23.

Agent Orange troubling VA

WASHINGTON (AP) - Veterans Administrator Max Cleland says everywhere he goes he is asked by fellow Vietnam veterans about Agent Orange. Is the herbicide sprayed in the defoliation campaigns giving them cancer? Is it shortening their lives? Will it make them the fathers of deformed babies?

Cleland appeared briefly Monday before a panel of scientists assembled by the Veterans Administration to ask that it provide the answers.

Ronald DeYoung, veterans coordinator at Columbia College in Chicago and an organizer of a group called Concerned American Veterans Against Toxins, also appeared - to accuse Cleland's VA of callous indifference to the same veterans.

"These men want to know if their own government has crippled their children," he said. "They want to know if they can safely have more children. They need answers soon."

Their comments underscored the issue's emotional impact as the advi-

sory committee assembled by the VA held its first meeting in a two-year study of the effect on the health of 2.4 million men who served in Vietnam of exposure to dioxin, a contaminant

Until Vietnamese women complained of giving birth to malformed babies, the Air Force sprayed 10.6 million gallons of the mixture of 2,4,D and 2,4,5-T on the jungle.

present in the herbicide Agent Or-

James R. Allen Jr., a pathologist at the University of Wisconsin Medical School, showed slides illustrating what happened to laboratory monkeys given a dioxin called TCDD in far weaker doses than that which sometimes formed in Agent Orange.

He said half of eight monkeys given 500 parts dioxin per trillion were dead within a year.

Of 500 applications for disability payments based on claims of ailments arising from exposure to Agent Orange, the VA has approved only

MASS TRANSIT: By a vote of 127 for and 270 against, the House rejected an amendment to spend an additional \$125 million this fiscal year for grants to develop mass transportation. The amendment was proposed to HR 4289, a fiscal 1979 appropriations bill later passed and sent to the Senate. The money was to have been in addition to \$1.25 billion already appropriated to help states and localities buy buses, build subways and undertake other mass transit programs.

Members voting "yea" favored spending an additional \$125 million for mass transit in the current fiscal

Eckhardt, Leland, Gonzalez and Kazen voted

Hall, Collins, Roberts, Mattox, Gramm, Archer, Brooks, Leath, Wright, Hightower, Wyatt, de la Garza, White, Stenholm, Hance, Loeffler, Paul and Frost voted "nay." Wilson and Pickle did not vote.

CITY MONEY: The House rejected, 159 for and 263 against, an amendment to transfer \$200 million from the fiscal 1980 Urban Development Action Grant (UDAG) program to the Community Development Block Grant fund. The amendment was proposed to HR 3875, a Housing and Urban Development (HUD) spending bill headed for final passage.

The purpose of the amendment was to downgrade the UDAG program. under which categorical grants are awarded to fund community development proposals which HUD feels are particularaly innovative.

Members voting "yea" favored downgrading UDAG.

Collins, Archer, Loeffler and Paul voted

"yea."
Hall, Wilson, Roberts, Mattox, Gramm, Eckhardt, Brooks, Pickle, Leath, Wright, Hightower, Wyatt, de la Garza, White, Stenholm. Leland, Hance, Gonzalez, Kazen and Frost voted

SENATE

against, the Senate adopted a nonbinding resolution that criticized President Carter for terminating on his own the mutual defense pact with Taiwan. The resolution said that Senate approval is "required" before a President can end any treaty.

Although the vote does nothing to repair the Taiwan treaty that was ended when the U.S. opened diplomatic relations with Peking, it has symbolic value in that the Senate is scolding Carter for acting unilaterally.

Senators voting "yea" favored the sharpest possible rebuke of President Carter for unilaterally ending the Taiwan treaty.

Sens. Lloyd Bentsen, D, and John Tower, R, voter "yea:"

BUSING: The Senate voted to table. and thus kill, an amendment to outlaw school busing programs as energy wasters. The vote to table was 52-39. It came during consideration of a bill (S 1030) dealing with energy conservation, later passed and sent to the

Senators voting "yea" were opposed to the amendment to ban school busing for racial purposes, in order to save energy.

Bentsen voted "yea." * Tower voted "nay."

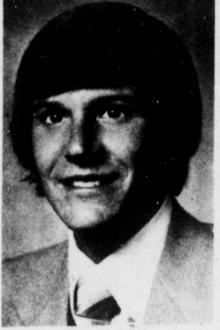

Depression spotted

MIAMI (AP) - The Atlantic hurricane season's first tropical depression has stalled about 200 miles west of Jamaica for nearly a day, the National Hurricane Center reports.

The depression formed early Monday. Forecasters urged small boats in the northwestern Caribbean to remain near port.

A tropical depression is characterized by sustained winds of up to 38 mph. When winds reach 39 mph the system is classified a tropical storm and given a name. A storm becames a

hurricane when winds reach 74 mph. The Atlantic hurricane season runs

Robert C. Glenn

Glenn named to West Point

Robert Charles Glenn, son of Mr. and Mrs. Jack D. Glenn, 1605 W. Dengar Ave., has been accepted for admission to the United States Military Academy at West Point. He will begin his appointment July 2.

Glenn recently graduated 44th in a class of 500 from Midland High School with a 3.912 grade point average.

While at MHS, he served as treasurer of the Senior Class and on the Student Council President's cabinet for assemblies.

He is a member of the National Honor Society. He has lettered in academics, track and drama.

Glenn also is an Eagle Scout and has earned the God and Country Award.

Former U.S. Rep. George Mahon nominated Glenn for the West Point

appointment.

DR. NEIL SOLOMON Avoid all fad diets

Dear Dr. Solomon: A few weeks ago I went on a diet recommended by a friend. I lost a pound a day for the first week, and everything seemed to be going along fine. After that, however, I stopped losing and now I'm beginning to put the weight back on. How do you account for this, and what do you recommend?-

Dear Anne: I would speculate that your initial loss of weight mostly resulted from a loss of body water. As you have learned from experience, however, your diet has not been successful in helping you achieve a loss of fat. If you are really serious about dieting. keep in mind the equation: Calorie intake must be less than the calories expended. If weight is to be lost and kept off, eating habits must be properly adjusted. Fad diets are not the means of accomplishing permanent weight loss.

Dear Dr. Solomon: With all the various substances said to be carcinogenic, it seems more and more true that living is hazardous to one's health. Now they say that beer may contain a cancer-causing agent. Say it isn't so! -Jim

Dear Jim: There's no need for you to discard your six-pack-at least not until we have more information on the subject. The study to which you refer was done in West Germany where researchers found nitrosamines in 111 out of 158 brands of beer. Both foreign and domestic brands were included in the study, but as yet it is not clear whether beer brewed in this country was involved. Additionally, while nitrosamines have been found to be carcinogenic when fed to animals in large doses, there is some controversy about whether this finding applies to humans.

Dear Dr. Solomon: I want my family to have a balanced nutritious diet, but I'm not certain how my children's needs compare with those of my husband and myself. Can you help? - Mrs. J.W.

Dear Mrs. W .: Nutrient requirements increase as children grow. The total needs for very young children are relatively low. For children one to three years of age, the requirements for protein, calories, a number of minerals, and vitamins A, B, and E, are about half those for adults, while calcium and vitamin C needs are about the same. When it comes to iron, however, children under four years of age often need a supplement since they require 50 percent more iron than is needed by an adult. All children, including teen-agers, need vitamin D, which is provided by fortified milk.

By the time your children reach their teens, their vitamin, mineral, and protein requirements will be the same as for an adult. However, their calcium need will increase to one and a half times that of an adult. Additionally, 18 milligrams of iron per day is needed by all teens, as well as by women until the age of 50. Teen-age girls and women often require an iron supplement.

Teen-age boys and athletes need more calories. preferably in the form of extra bread and cereal, rather than sweets.

(If you have a medical problem, see your doctor. If you have a medical question, write to Neil Solomon, M.D., 1726 Reisterstown Road, Baltimore, Md. 21208. Dr. Solomon cannot give personal replies but will answer as many questions as possible in his column.)

France eyes woman for first cosmonaut

French government hopes its cosmonaut on the first Soviet-French space shot will be a

woman, Industry Minister Andre Giraud said. President Valery Giscard d'Estaing and President Leonid Brezhnev agreed in principle

PARIS (AP) - The Speaking at the Paris Air Show Monday, Giraud said the flight would be made "soon."

The most likely choice appears to be Anny Chantal Levasseur-Regourg, 33, who was an unsuccessful candidate for the four European in April on the joint places on the U.S. space manned space shot, shuttle.

Outbreak of rabies is feared

EAGLE PASS, Texas (AP) - Efforts to stem the tide of a feared second wave of canine rabies infections in this Southwest Texas border city continue while doctors wait anxiously for test results on an 8-yearold boy hospitalized with symptoms "suggestive

Geraldo Castano, feared bitten by a rabid dog May 10, "is in a semi-conscious state" in intensive care at San Antonio's Santa Rosa Hospital Tuesday, hospital spokesman Jack Finger

said Tuesday. "Doctors still are awaiting a report from the National Center for Disease Control in Atlanta to confirm or deny the existence of rabies,' Finger said. "They expect it within 48 hours."

He said Castano "presented a clinical picture suggestive of rabies," including "cramps, difficulty in breathing, difficulty in swallowing, confusion disorientation."

The boy, bitten on the right hand by his father's dog in Piedras Negras, Mexico, experienced 'weakness and pain in his right arm and hand," Finger said.

"Vital signs still are somewhat unstable and he is being assisted in breathing by a mechanical respirator," said Finger. But he added doctors were encourged because the rate of deterioration in the boy's condition seemed to have slowed

Mayor Edward Rodrigues said 50 persons, bitten by dogs with confirmed cases of rabies, have undergone the painful 21-shot rabies treatment during the last 90 days in Eagle Pass.

Another eight persons bitten by rabid dogs were still undergoing treatment Tuesday across the border in Piedras Negras, according to Dr. Alberto Valdez, a Mexican public health offi-

cer. Texas and Mexican officials still sought an unidentified Mexican man Tuesday bitten by a rabid dog in Eagle Pass 13 days ago. The man apparently returned to Mexico unaware of the seriousness of his

wound Police, who have been rounding up stray dogs in Eagle Pass, destroy animals displaying unsual behavior.

But a wave of secondary canine infections were feared in Eagle Pass because the incubation period has past and dogs exposed earlier may develop the disease, said Dr. William Nettles, a Uvalde veterinarian.
