Proposed cancer center due review by consultant

By SUSAN TOTH Staff Writer

A "nationally recognized authority on design and equipment" in cancer treatment facilities will review the proposal for the Allison Permian Basin Radiation Therapy Center, Midland County Hospital District directors were told Thursday.

ton Monday.

One change that may be proposed in the Midland center is a higher powered linear accelerator. "Every Type II facility in the state we've seen has a machine with higher voltage than we've planned," Magruder noted

The more powerful machines would necessitate hiring a full-time physicist to calibrate and maintain them, he added. Magruder also said they had learned at the meeting in Houston with Dr. Charles LeMaistre, chancellor of the University of Texas Health System, and top members of the M.D. Anderson staff that the Midland cancer treatment center could not receive affiliation with the Houston hospital until it had been observed in operation for a year or two.

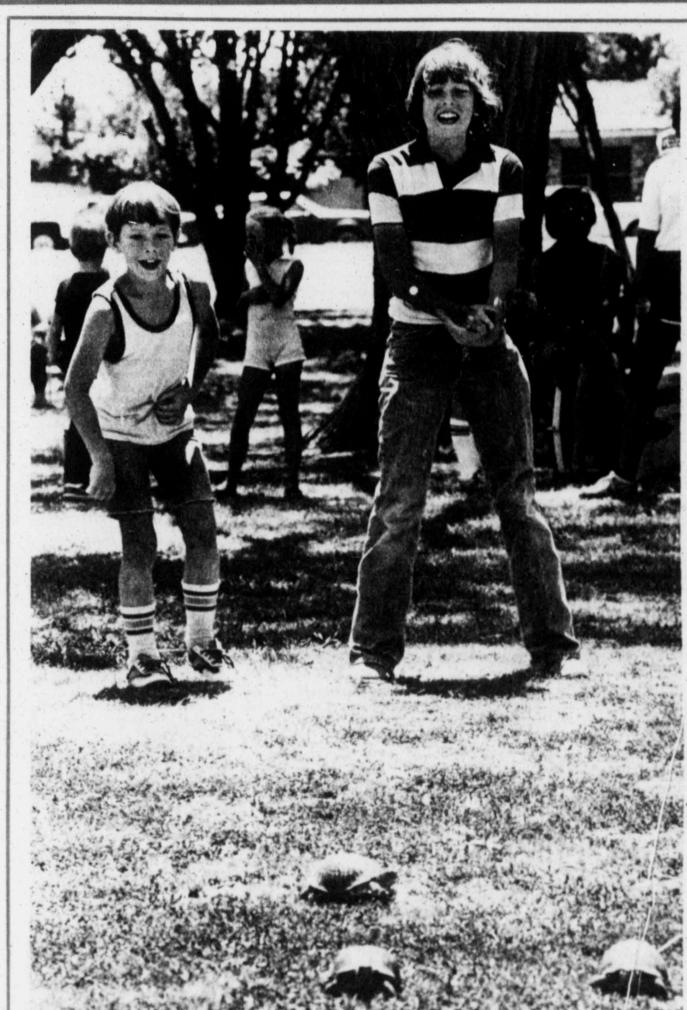

"This is a much more conservative stance on their part than we had expected," Magruder said.

Magruder stressed that no decisions on the changes in the certificate of need application for the \$1.7 million cancer treatment facility would be made until after the review by the consultant, who will consider changes in design, equipment and personnel for the facility.

Once the review is completed and changes made, however, Magruder said, the application for the certificate of need should be strengthened considerably.

A certificate of need granted by the Texas Health Facilities Commission in Austin is necessary before a hospital can spend \$100,000 or more on anything.

One step in the state review process is a local review by the Permian **Rasin Health Systems Agency** Approval by that group was granted once, but called back on a technicality when Odessa's Medical Center Hospital pointed out procedural errors in the review process.

Plenty of fun, but no records in turtle races

By RICHAF D MASON Staff 'Writer

The hare would have drawn no quarter Thursday in Wadley-**Barron** Park

There were tortoises everywhere. There were little ones in shoeboxes, wizened grandfathers with battle wounds who shuffled absout inside big detergent boxes, and stout thoroughbreds in dog cages.

The setting was the Midland Parks and Recreation Department's Sixth Annual Turtle Race.

Mark Lennon, a shy 7-yearold, won first place with a speedy entry.

But most of the 70 children in attendance got a quick glimpse of victory.

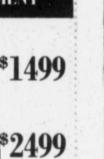

Whole empires rose and fell in the few seconds it took the hunapbacked creatures to waddle toward the finish line.

Apparently, the real secret to turtle racing is fun, and everyone got a share of that Thursday.

Oh, there were other reasons why the turtles behaved like, well, turtles

Mark Strah, 13, explained that he feeds his stable of 29 turtles a special diet.

It's dog food.

finitive exclusion of the Somoza regime.

The matter was set for another public hearing before the local group Monday, but MMH officials came back from the meeting in Houston and asked that it be put off again.

Once the application is amended, the state agency will start the process over from the beginning anyway, they noted.

No timetable for the amendments has been set, Magruder said, since hospital officials do not know how long the review will take.

In other business, the board ap-proved a recommendation from the board of trustees that the hospital not fund depreciation each month for the four months remaining in the fiscal year.

The move was necessary because of a cash flow problem at the hospital, assistant administrator Robert Aber-

nethy explained. The hospital has been transferring some \$40,000 each month to accumu-

U.S. calling for replacement of Somoza regime

WASHINGTON (AP)- The Organization of American States is trying to decide whether there is a consensus in support of a surprise U.S. call for an end to the Somoza dynasty in Nicaragua.

A seven-nation working group was named Thursday night to try to work out a resolution acceptable to a two-thirds majority of the 27-nation regional organization. The delegates were working from a draft resolution presented by the United States.

OAS foreign ministers met for four hours Thursday and it was apparent sentiment against President Anastasio Somoza was running high. Another meeting was scheduled today.

Secretary of State Cyrus Vance opened the deliberations Thursday with a call for the "replacement of the present government with a transi-

Other countries said the OAS should pursue a hands-off policy and allow

Related stories, photo Page 2A

the Sandinistas to achieve an outright military victory.

Asked whether he thought there was a two-thirds consensus for a resolution calling on Somoza to step down, a U.S. official, who asked not to be named, said, "It depends on how it's worded."

It was clear the spreading opposition to Somoza's rule in Nicaragua has led to a marked deterioration in his hemispheric support.

Equally clear, however, was the determination of some member states to abide by one of the organization's most hallowed principles: non-intervention

Mexico, for example, has been in the vanguard of anti-Somoza sentiment in the hemisphere. But Mexican Foreign Minister Jorge Castaneda, reflecting his country's historical concerns about U.S. intentions, delivered an emotion al appeal against any OAS intervention in Nicaragua.

The Carter administration has never felt comfortable about the long U.S. friendship with the Somoza regime. Vance's speech amounted to U.S. abandonment of a government which, in 1961, lent its territory to help the United States launch the Bay of Pigs invasion.

"The heart of the problem in Nicaragua is the breakdown of trust-be tween government and the people," Vance said.

Tall City stands tall in economic statistics

Midland jumps from 29th to fourth in per capita income

By LANA CUNNINGHAM Staff Writer

Midland seems to be gaining a reputation as being a leader nationwide when it comes to individual incomes and city growth.

Figures recently released by the U.S. Department of Commerce confirm that reputation.

One study looked at cities with the biggest increase in per capita income from 1976 to 1977. Midland was second among the smaller metropolitan areas with a 16.6 percent increase. Grand Forks, N.D. was first with a 19.6 percent jump.

Trailing behind Midland in that study were Janesville-Beloit, Wis., 15.3 percent; Flint, Mich., 15.3, and Pine Bluff, Ark., 14.9. Midland was classified in the study

as a center of energy research and production.

Other towns with large increases were crossroads of prospering farm industry or cities with growing automobile-plant complexes.

In a second study which focused on the percent of change in eight years. Midland moved from 29th in the nation in 1969 to fourth in 1977 in the

amount of per capita income. In 1969, the average income in the Tall City was \$4,133. In 1977, the Commerce Department shows the income had gone up 125 percent to \$9,307 per pèrson.

Nationally, the average income was \$7,026. Midland was almost \$2,100 above that

Ahead of Midland in this category are Anchorage, Alaska, \$11,430; Bridgeport-Stamford-Norwalk-Danbury, Conn., \$9,676, and Reno, Nev., \$9.368

Houston was the only Texas city which ranked close to Midland, and it was 16th with \$8,247. That figure is a 119 percent jump from a 1969 income of \$4,277 - when that city also ranked 76th among the nation's metropolitan areas.

Houston's was the biggest jump of any major metropolitan area, the report noted

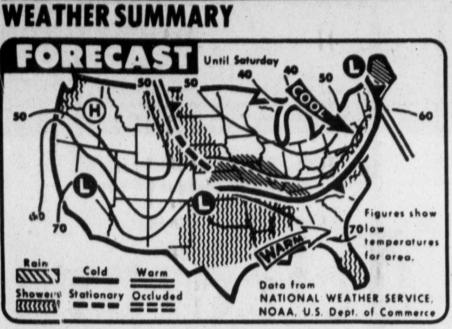

Dallas-Fort Worth, which had ranked 35th in 1969, fell to the 45th spot for 1977, the Commerce Department said.

Per capita income in that metroplex area increased 91 percent in eight years, going from \$4,036 in 1969 to \$7,704 in 1977.

Nicaraguan leader still won't resign

MANAGUA, Nicaragua (AP) President Anastasio Somoza balked at a U.S. call for his resignation but said he was open to "a democratic way of solving" the civil war ravaging Nicaragua.

Somoza's national guard warplanes, meanwhile, pounded eastern Managua slums held by Sandinista guerrillas. And the remaining employees working at the last major hotel operating in Managua left their posts, forcing foreign journalists quartered there to seek refuge elsewhere or evacuation flights out of the country.

Secretary of State Cyrus Vance called for the end of the 42-year Somoza family dictatorship at a meeting Thursday of the Organizations of American States in Washington. Declaring there has been a "breakdown in trust" between the government and the people of Nicaragua, he proposed the "replace-ment of the present government with a transitional government of national recognition." recognition.

"I gave my answer to Vance a long time ago," said Somoza, who has vowed repeatedly to stay in office until his term expires in 1981. "The same thing was said to me by Bowdler, and I proposed a plebiscite.'

Special U.S. Ambassador William Bowdler went to Nicaragua last year to try to work out a settlement after a bloody two-week uprising in Septem-ber. But the mediation by the United States and several Latin-American nations failed.

Asked in a telephone interview whether there has been any change in his determination to hang on, Somoza replied: "I'll tell it to you when I talk to the Organization of American States. I want to talk to the OAS first."

Eyyyyyyyte correspondent and a second and a He said two things could end the fighting: "First, stop countries from supplying arms to the Sandinista guerrillas, and second, a democratic way of solving the problem. "I am open to dialogue," said the

Nicaraguan strongman, offering to meet with his opponents. But his opposition has insisted Somoza leave Nicaragua before they will discuss a solution.

Gunfire continued to rock Managua Thursday night and early today. Two T-33 government jets rocketed and strafed guerrilla-held eastern neighborhoods this morning.

On Thursday, national guard troops and the guerrillas battled with heavy machine guns and automatic weapons in the center of the eastern slums.

Another hot day due for Basin

The weatherman is calling for another hot day Saturday with only the wind to provide any hope of relief. Chances of rain are slim, if any, making for continued hot afternoons, according to the National Weather Service at Midland Regional Airport. High Saturday is expected to be near 100 degrees and the overnight low should be in the low 70s.

MANAGUA, Nicaragua (AP) -Journalists covering the Nicaraguan civil war have been shot at by both sides and strafed, mortared and rock-

ribs.

"In some ways it's much worse for journalists than Vietnam. At least there you knew the American troops weren't going to shoot you," said Matthew Naythons, a San Francisco doctor who doubles as a photographer when big stories break.

Both the Sandinista guerrillas and the national guardsmen tend to treat journalists well in secured positions, but anything that moves is a target in contested areas.

The biggest hazard for reporters is

casualty in the Nicaraguan civil war. In this report, AP correspondent Tom Fenton, the first American journalist to reach Managua to cover the current fighting, examines some of the dangers in covering the upheaval in the Central American nation. By TOM FENTON

eted by the national guard.

Carter ends diesel priority in effort to mollify truckers

8888

WASHINGTON (AP) - President Carter has ordered an end to the federal rule that gave farmers priority in obtaining diesel fuel, Agriculture Secretary Bob Bergland announced today.

"The president has asked me to announce today that he has agreed with recommendations to terminate the Department of Energy's temporary diesel fuel priority program rather than wait until its July 31 expiration date," Bergland said.

The president's action followed his promise Thursday to make more diesel available to striking independent truckers, who have complained of fuel shortages.

Carter imposed the priority program, known as Rule 9, in May to insure that farmers would be able to get spring plowing and planting accomplished. Farm groups and Berg-land had wanted the rule extended beyond its July 31 expiration.

But Carter's staff recommended suspending the rule immediately to ease shortages for truckers and help mollify the strikers.

.Carter coupled his promise to get the truckers more fuel with a vow to do "whatever is necessary" to protect truckers who want to return to work.

The president appeared in the White House pressroom Thursday to say he would not tolerate continuation of the violence that has marked the shutdown by independent truckers.

Flanked by FBI Director William Webster, Carter said, "The full resources of the Department of Justice will be used to insure that order is , preserved, that violators are apprehended and that individual rights of American citizens are protected."

The government already has allowed the independent truckers a 5.6 percent rate increase to cover their soaring fuel costs.

"My administration is trying to work with (the strikers) to meet their legitimate grievances," Carter said. "Some action has already been announced. Other decisions will be announced soon. At that time, the striking truckers should go back to work and end the interruption of delivery of food and fuel and other goods to American citizens."

Carter said, "I want to stress in the strongest possible terms that violence and lawlessness will not be tolerated under any circumstances. Murder, vandalism and physical intimidation are criminal acts and they will be treated as such."

Webster said FBI agents are investigating, at Carter's 'request, the shooting death of a trucker in Alabama Wednesday. He said federal investigators are acting under a law making it a federal offense to use force or threats to obstruct interstate commerce

Carter said the federal government would, as necessary, coordinate protection of drivers. "We will do whatever is necessary to see that those truckers who want to work are not threatened by either violence or intimidation," the president said.

Officials at the White House and Justice Department, however, could give no specifics on how federal authorities would give protection to truckers.

Meanwhile, spokesmen claiming to represent a majority of America's independent truckers agreed at a rally Thursday night in Washington to continue pressing for unlimited diesel fuel and either lower diesel prices or higher freight rates.

Thursday's high was 99 degrees and the overnight low-was 71 degrees. Record high for Thursday is 107 degrees set in 1934. The record overnight low is 60 degrees set in 1973. Area towns reported fair and hot weather early today.

Man sentenced in murder trial

ODESSA - A 21-year-old Odessa man Thursday was handed a 50-year prison sentence after being convicted of murder in connection with the June 22, 1977, shooting death of Raymond Carl White.

Steven P. Perrin was found guilty Wednesday in 161st District Court and the 50-year sentence was assessed late Thursday morning.

The body of White, 41, of Odessa was found earlier this year in a grave southwest of Odessa During the trial this week, Perrin

contended the shooting of White occurred accidentally after White pointed a gun at him and the two men struggled.

Turtle races offer lots of 'slow' fun

(Continued from Page 1A)

crowd and run real fast," he said, It seems turtles or tortoises or

whatever you call them can be found most anywhere. People find them in fields, keep them in back yards (they like bugs as much as dogfood) and, as in the case of Mark Strah, import them from Central Texas.

'West Texas turtles are faster," he said.

Most everyone seemed to like the racers - everyone that is, but Dara Hudspeth, 12.

Dara, a Denver resident, was in Midland visiting relatives and friends. Thursday represented her first attendance at a turtle race.

"I know that they eat worms, flies, dogfood and catfood," she said. And, no, she didn't want to pick one up. "I'm scared," she said.

What Midland mothers think of the sport of turtle racing?

Linda Tervooren who, besides turtles and children, managed to place a husband in the field Thursday, was

excited about the event. "It's fun," she said.

blundering into a crossfire, and nearly every one of about 100 reporters covering the war has been uncomfortably close to a firefight at one time or another.

"There's no way to be safe here, but you can minimize your risks by reading the signs from people around you," said Susan Meiselas, 30, a Magnum photographer from New York City.

"In a city you will see people on the streets, or in doors or maybe back in windows. I take my cues from them. I take the situation block by block. If I don't see people I don't move.

"I never go down an empty street unless somebody I have confidence in has assured me it's tranquil."

The photographer said her closest call occurred several days ago in the rebel-held northern city of Esteli when someone tossed a grenade that landed at her feet. It was a dud.

Most of the reporters here stay at the Intercontinental Hotel next to President Anastasio Somoza's wellguarded military compound in downtown Managua.

The parking lot is filled with rented cars splattered with the words "TV," "Prensa" (press), and "Periodist" (journalist)

Many of the cars also fly white flags, though there is little evidence beligerants have any respect for them

Since Stewart's death, many journalists fear that their well-marked cars make them a target. Somoza's radio network has been denouncing journalists, saying they are paid by the communists. So did his newspaper, the day before Stewart was killed.

Heavily armed gunmen guarding high government officials in the Intercontinetal Hotel glower at and occasionally taunt journalists.

Many Nicaraguans, especially the guerrillas, hold the United States responsible for the strife because of Washington's long support of the Somoza dictatorship. That attitude makes it dangerous for American journalists, who are by far the largest

Robbery investigation shows little progress

ODESSA - Little progress had been made by police officials early

today in the investigation of a robbery at Sambo's Restaurant Thursday morning, according to a police detective.

The robbery reportedly was commited by a man who entered Sambo's about 8:10 a.m. wearing a stocking mask

According to police, the man pulled either a knife or a straight-edge razor and demanded the money in the cash register.

Police early today had made no arrests in connection with the robbery and had not determined the amount of money taken from the restaurant.

Directors also heard a report that construction at the hospital is on schedule and under budget with a "cushion" of some \$127,000. That pad is expected to be depleted by the time the project is finished, they were

doctor applying for privileges at Midland Memorial Hospital be assigned one staff physician as a contact person to see that as much red tape as possible is avoided in getting the application approved.

Lagging insurance fires little joke

For any insurance underwriters out there, they were only joking. But Midland County Hospital District directors - new owners of the former dentists' offices at 2010 W. Illinois St. - were faced with a problem Thursday.

The building was purchased so the hospital could use the land it occupies for a parking lot.

Before that happens, the building must be torn down, sold for salvage or moved. In the meantime, the temporary insurance coverage on the building is about to run out and directors were asked whether to renew the coverage until a decision was made on what to do with the structure.

"Why would we want to insure a building we may have to tear down?" a director wanted to know.

"Well," mused another, possibly remembering an earlier discussion on spiraling costs and declining patient loads, "we could always have an insurance fire.

The board chose instead to leave the decision to a committee of the hospital trustees

Bank announces placement of unissued shares of stock

Wilbur A. Yeager Jr., president of The First National Bank of Midland, announced today the bank has concluded a private placement of 100,-000 shares of previously authorized, but unissued, stock of the bank.

The shares were sold to the First National Securities Company in Dallas at a negotiated price of \$32.50 per share for a total cash consideration of \$3,250,000, Yeager said. This increases the capital accounts of the bank to approximately \$51,000,000, he added.

First National Securities Company is a Dallas-based corporation and is a subsidiary of First International Bancshares, Inc. The 100,000 shares purchased by the First National Securities Company represent 4.46 percent of the 2,242,000 shares of commmon stock which the bank has outstanding, said Yeager.

No further sales of stock are contemplated by the bank at this time, said Yeager.

Yeager said, "This private placement is part of the bank's previously announced long-range plan of maintaining a strong, equity capital base.

"First National has increased its equity capital by \$11,950,000 since early 1976. Except for this 100,000 share private placement, the equity increase has been accomplished by stock sales offered on a preferential basis to our shareholders and in the local market. Retained earnings since January 1, 1976, total some \$11,-

500,000; consequently, total capital funds of the bank have been increased by more than \$23 million during the period.

"We are pleased that the First National Securities Company has become one of our 1,500 or more shareholders. Their investment increases our ability to serve the dynamic and growing ecomomy of Midland and the Permian Basin, strengthens our competitive ability relative to local and out of area banking organizations and enhances our position as the largest independent bank in Texas, which is a position we intend to maintain.

Dizzy Gillepsie still plays on

By JAY SHARBUTT

NEW YORK (AP) - Back in 1941, John Birks Gillespie, a young trumpeter with a sturdy lip, incredible technique and a merry prankster's approach to life, got fired from Cab Calloway's band

"Something about spitballs being thrown on stage," he recalls. Still, even to this day, he denies being the guilty party and stoutly insists, "I was as innocent as a lamb.

Of course. And the kid they came to call Dizzy plays on, his lip, technique and humor unravaged by age. At 61, he may be a senior citizen of modern jazz. But he hasn't the slower schedule of one.

Tonight, for example, he's at Carnegie Hall, kicking off the 26th annual Newport Jazz Festival, both with his own four-man group and an eightdrum salute to "our biggest bulwark" in jazz - drummers.

During the 10-day, 35-event festival, he'll also play at a June 30 salute to Latin-American jazz, a form he helped pioneer in the late 1940s, and at

CBS and Time-Life Films Inc.

Grafton, adapted from the book by Jane Adams.

N.Y. Then, on July 4, he heads to Europe and a two-month tour that includes Italy, Germany, Belgium, the Nice Jazz Festival in France and three weeks in London in August. Plus some odds and ends. Such as a guest shot on "The Muppet Show," of all things, and

an Aug. 5 gig in Dublin, of all places. Then it's off to California in September to play at the Monterey Jazz Festival.

A lot of travelling. But he's been on the move physically and musically since 1935, when he broke in with the Frank Fairfax band, working in the trumpet section alongside Charlie Shavers.

That was the beginning. He considers his ejection from the Calloway band, though, the turning point in his . career: "That was the biggest move in my life, a dynamic move. Sure, it was a good job.

'He had the best musicians in the United States at that time. But it wasn't something to foment creativi-

Edna P. Futrell

LAMESA - Services for Edna Pearl Futrell, 89, mother of Lois Howell of Lamesa, will be at 4 p.m. Saturday in the First Baptist Church Chapel here with the Rev. Dan Rice officiating.

Burial will be in the Lamesa Memorial Park directed by Branon Funeral Home of Lamesa.

Mrs. Futrell died Thursday in a Lamesa hospital following a lengthy illness.

She was born Aug. 4, 1889, in Erath County. She was a resident of Lamesa for 64 years. She was a Baptist.

Other survivors include two sons, Harroll Futrell of Lubbock and Carroll Futrell of Inglewood, Calif; 11. grandchildren, 12 great-grandchildren and two great-great-grandchildren.

Van D. Alsup Sr.

LUBBOCK - Services for Van Dallas Alsup Sr., 52, of Lubbock, father of Van Alsup Jr. of Andrews, will be at 10 a.m. Saturday in Chapel Hill Baptist Church with the Rev. W.J. Farley, pastor, officiating with assistance from the Rev. Ray Allen, pastor of Andrews Baptist Church in Andrews.

Burial will be in Resthaven Memorial Park under direction of Sanders Funeral Home in Lubbock.

Alsup died Wednesday in a Slaton hospital following a sudden illness. He had lived in Lubbock since 1933 and was a structural iron worker. He

was a member of D.O.K.K. and Chapel Hill Baptist Church. Other survivors include his wife,

two daughters, two brothers, two sisters and three grandchildren.

William Everett

COLORADO CITY - Services for William J. Everett, 84, of Big Spring will be at 3 p.m. today in the Kiker-Seale Funeral Home Chapel here with Rev. Fred Smith officiating. Burial will be in the Colorado City Cemetery directed by the Kiker-Seale Funeral Home.

Mr. Everett died Wednesday in a **Big Spring hospital**

Everett was born Dec. 2, 1894, in Mitchell County. He was raised in the Colorado City-Big Spring area. He and his son comprised the first fatherand-son team to be stationed at Webb Air Force Base in Big Spring during World War II. He was a veteran of World War II. He was a Baptist.

Survivors include a son, William L. Everett of Midwest City, Okla.; three daughters, Lenora Grace Wood of Gault, Calif., Mary Womack of Coahoma and Ina Nell Stocks of Big Spring, 10 grandchildren and 21 great-grandchildren.

Ruby Lynn Speed -Services for Ruby Lynn

Myrtle Adams

AUSTIN - Myrtle Adams, 51, of Austin, sister of Christine Johnson of Ozona, died Wednesday in Austin. Services will be at 3 p.m. Saturday in Greater Mt. Zion Baptist Church in Austin with burial in Evergreen Cemetery directed by King-Tears Funeral Home.

She was born March 2, 1928, in San Angelo

Other survivors include a daughter, two sisters and two brothers.

Myra N. Dudley

LAMESA - Services for Myra Nell Dudley, 56, of Lamesa will be at 2 p.m. Saturday in the First United Methodist Church of Lamesa with the Rev. Alvis Cooley, pastor, and the Rev. Oland Butler, pastor of Northridge United Methodist Church, officiating.

Burial will be in Lamesa Memorial Park directed by Branon Funeral Home

Mrs. Dudley was born Dec. 4, 1922, in Mitchell County. She was married to B.E. Dudley in Lovington, N.M., on Jan. 27, 1939

She had lived in Lamesa 55 years. She was a member of Northridge United Methodist Church 15 years. Survivors include her husband; a daughter, Mary Beth Senn of Lubbock; a son, Don Dudley of Lamesa; her mother, Ruby Moore of Lamesa, and three grandchildren.

Isla Huddle

BIG SPRING — Services for Isla Huddle, 83, of Big Spring will be at 11 a.m. Saturday in Nalley-Pickle Rosewood Chapel here with graveside rites at 3 p.m. Saturday in Pleasant Valley Cemetery in Post.

She was born Aug. 11, 1895, in Coleman County. She was married to Leon Huddle in 1917 in Dawson County. She had lived in Big Spring 30 years. She was a Baptist.

Survivors include a sister, Malinda Hughes of El Paso, eight nieces and five nephews.

Betty Nell Brown

ODESSA - Services for Betty Nell Brown, 61, of Odessa were to be at 4 p.m. today in Hubbard-Kelly Funeral Home here. Burial was to be in Ector County Cemetery.

Mrs. Brown died Wednesday at her home following a brief illness.

She was born Nov. 19, 1917, in Linden. She was married to Luther A. Brown on Aug. 16, 1958, in Lovington, N.M. She moved to Odessa in 1936. She was a Baptist.

Survivors include her husband; two daughters, Maurice Turner of Breckenridge and Mary Williams of Odessa; a son, Gene Kail of Midland; a sister, Fay Francis of Casper, Wyo., and 11 grandchildren.

Stephen J. Leach

school in New Mexico. He was a retired petroleum engineer for Exxon. He lived briefly in Midland. Survivors include his wife, Genevieve; a son, Stephen J. Leach Jr. of Hong Kong, and two brothers, Laureene Leach of Houston and Michael J. Leach of Ithaca, N.Y.

Mary Williams

LEVELLAND — Services for Mary Helen Williams, 48, of Lubbock and formerly of Lamesa, will be at 10 a.m. Saturday in the Geo. C. Price Fu-neral Chapel in Levelland with the Rev. Robert T. Metzger, pastor of Oakwood United Methodist Church in Lubbock, officiating.

Burial will be in Resthaven Memorial Park in Lubbock.

Mrs. Williams died Thursday in a

Nader advocates boycott of gas, meat by consumers

HOUSTON (AP) - Ralph Nader says consumers should boycott such items as gasoline and meat to control inflation.

Fire damage studied

ODESSA - French Tool and Supply Co. officials today still were studying damage caused by a Wednesday night fire and explosion that blew part of the roof off the fabrication department of the welding company at 900 E. Second St.

'There has not been an estimate put out yet," Don Draper, manager for the company, which does maintenance on large trucks, said today.

Fire officials were summoned to the scene Wednesday night after three to six acetylene bottle explosions blew out the doors and most of the roof of the welding shop.

Lubbock hospital following a brief illness

She was born Aug. 1, 1930, in Lame-sa and moved to Lubbock from Levelland in 1978. She was married to Lindell Odell Williams on Dec. 31, 1965, in El Paso.

Mrs. Williams, a graduate of the West Texas School of Nursing, was a registered nurse at Health Science Hospital in Lubbock.

Survivors include her husband; a son, Matt Greenwood of Hobbs, N.M.; two daughters, Mrs. Jay (Marilyn) Maner and Mrs. Darrell (Beth) Stahlecker, both of Lubbock; her parents, Mr. and Mrs. J.C. Armstrong Sr. of Ropesville; a brother, J.C. Armstrong Jr. of Plainview, and three sisters, Nancy Reeves of Ropesville

and Kay Bailey and Sue Spradlin, both of Seagraves.

The consumer advocate said the United States is on the edge of a major price explosion and any control on inflation will have to come from consumers, not the Carter administration

He called on President Carter to support a symbolic one-day consumer boycott of purchases of both goods and services.

Nader told a University of Houston news conferece Thursday such a boyott would tell such industries as food, oil and banking that consumers are concerned about the economy and want to do something about it.

He suggested a long-range boycott on meat and gasoline, which he termed as compulsory inflationary products.

Congress may consider renter tax deductions

WASHINGTON (AP) - Rebuffed by the Internal Revenue Service, advocates of giving renters some of the income tax advantages now enjoyed by homeowners are turning their attention to Congress.

A slim chance of help from the IRS ended earlier this month when the agency issued a ruling formally rejecting a novel New York state law which would have allowed tenants to deduct from their federal returns the property taxes paid by their landlords.

Several bills are now pending before Congress to create such a deduction, or authorize the states to do so. Rep. William Green, D-N.Y., spon-sor of one of them, said, "The message implicit in all these bills is that the renters of our country deserve fairer tax treatment. It is obvious the Congress will have to take the lead if any relief for renters is to be achieved.

The major obstacle to approval of any of the bills is the potential drain on the federal treasury of close to \$1 billion a year. But Green said this cost should be viewed in comparison to tax incentives already being provided homeowners

He cited White House figures showing homeowners will claim \$6.6 billion in federal deductions next year because of the local property taxes they pay and an additional \$9 billion for mortgage interest.

Green said he has begun his drive to get similar tax breaks for renters considered in the House Ways and Means Committee by writing each of his colleagues who has a significant percentage of renters in his or her district.

Few areas approach the 90-plus percent of renting tenants in Green's "Silk Stocking" district on the East Side of Manhattan, but almost every district has at least a quarter of its families renting.

"We have to get together and convince Ways and Means that this is a good idea, both as a matter of simple fairness and as urban tax policy," Green said.

He said no further action was likely until next year, when the committee takes up the major tax bill of this Congress.

While the tenants gained a deduction, the landlords could continue to deduct the taxes from their income as a business expense.

Jury to ponder obscenity charge

ODESSA - A six-member Ector County Court jury was expected to begin considering the guilt or innocence of 26-year-old Joseph Allen Mathis this morning.

Mathis is charged with commercial exhibition of obscene material. He was charged after law enforce-

ment officers confiscated movies from the Art Flick Theater in Odessa May 14.

The movies included "Deep Throat" and "Debbie Does Dallas? Thursday, the five-woman, oneman jury viewed both movies on a color television set installed in the courtroom.

Charged along with Mathis following the raid on the theater were Marie Mathis, 29, and Laura Lucille Walker,

County Attorney Mike Atkins has indicated he will seek the maximum penalty if the jury convicts Mathis on the charge. Maximum penalty would be a \$1,000 fine and six months in jail.

ENERGY OIL & GAS

PAGE 1D

Wildcat, openers reported in Basin

A wildcat operation, re-entry projects, a discovery, a field reopener and field area projects and wells have been reported in the Permian Basin areas of West Texas and southeast New Mexico.

PECOS COUNTY

C. F. Lawrence & Associates of Midland spotted No. 1-F University as a 2,200-foot wildcat in Pecos County, four miles east of Bakersfield and 3/8 mile northeast of production in the Cardinal (Queen, West gas) pool.

It is 660 feet from south and 990 feet from west lines of section 2, block 17, University Lands survey.

PDC Gas Co. of Midland announced plans to re-enter a pair of dry holes in the Cardinal (Queen, West gas) pool.

The No. 5 University, formerly Adobe No. 3-4 University which was plugged in November 1973, is 467 feet from north and 2,173 feet from west lines of section 10, block 17, Univeristy Lands survey and three miles southeast of Bakersfield.

It is one location southeast of production.

It will be cleaned out to 1,680 feet. PDC No. 6 University, originally drilled by Tower & McKanna and plugged in 1948, will be cleaned out to 1.875 feet.

The site is 5/8 mile southeast of production and 330 feet from south and east lines of section 3, block 17, University Lands survey.

Continental Oil Co. announced a re-entry project in the Elsinore (Wolfcamp gas) area of Pecos County, 35 miles south of Fort Stockton.

The project, No. 2-3-170 J. E. Allison, is bottomed at 13,500 feet and will be tested above 8,900 feet.

A former producer in the Elsinore (multipay) field, it is three and fiveeighths miles east of the Elsisore (Wolfcamp gas) discovery and 50 feet from the north and 2,486 feet from west lines of section 2, block 170, TTRR survey.

Sohio Natural Resources Co., operating from Midland, staked location for an 8,700-foot project in the Yucca Butte, West (Strawn) oil pool of Pecos County 12 miles northwest of Sheffield.

It is No. 2-63 Canon, 467 feet from south and east lines of section 63, block A-2, TCRR survey.

The site is one location northeast of Strawn production.

WARD DISCOVERY

shallow oil production in the Midway Lane multipay field and 467 feet from north and 6,400 feet from east lines of Chambers County School Land survey No. 4.

HMH Operators of Midland No. 2 Mesa-University has been completed as the third well in an extension area of the Crockett County portion of the Farmer (San Andres) field 14 miles southeast of Big Lake.

It was finaled for a daily flowing potential of 57 barrels of 32-gravity oil and two barrels of water, through a 12/64-inch choke and perforations from 2,462 to 2,486 feet. The gas-oil ratio is 1,200-1, and the pay was acidized with 4,500 gallons.

Wellsite is 1,650 feet from south and 990 feet from east lines of section 1, block 51, University Lands survey and 1,500 feet northeast of other San Andres production.

REAGAN WELL

Saxon Oil Co. of Midland No. 1-9-A-9 University has been completed in g the Spraberry Trend Area pool of Reagan County.

The operator reported a daily pumping potential of 80 barrels of oil and 138 barrels of water, through perforations from 6,148 to 6,288 feet after 1,000 gallons of acid and 42,000 gallons of fracture fluid. The gas-oil ratio is 588-1

Total depth is 7,899 feet and 4.5-inch pipe is cemented at 7,850 feet.

Wellsite is 1,320 feet from north and west lines of section 9, block 9, University Lands survey and 12 miles northwest of Big Lake.

GLASSCOCK COUNTY

MWJ Producing Co. of Midland announced potential tests on a pair of wells in Glasscock County, one in the Calvin (Dean) field and the other in the Spraberry Trend Area pool. the Spraberry well is No. 1-25 TXL.

It finaled for a 24-hour pumping potential of 46 barrels of 37.8-gravity oil and 23 barrels of water, with a gas-oil ratio of 3,478-1.

The pay behind perforations from 6.641 to 8.307 feet was fractured with 12,000 gallons after a 6,000-gallon acid treatment

Total depth is 8,580 feet and 5.5-inch casing is cemented at 8,570 feet. The plugged back depth is 8,527 feet.

Location is 1,320 feet from north and west lines of section 25, block 36, T-4-S, T&P survey and 12 miles

Extra gas hopes dashed

HOUSTON (AP) - Hopes that Texas might get extra gasoline to ease long lines at service stations throughout the state were dashed by Energy Secretary James Schlesinger, who said gasoline set-asides will not be raised.

Presently, 5 percent of each state's gasoline allocation is earmarked, or set aside, for use by the governor in emergency or spot shortage situations.

Houston Mayor Jim McConn, who met with Schlesinger in Washington, D.C., earlier in the week, said after the meeting that the secretary had indicated he might double Texas' setaside within two to three weeks.

But during a news conference Thursday in Washington, Schlesinger said, "We do not contemplate any increase in the setaside at this time.

Schlesinger also said, however, he agreed with McConn's argument that fast-growing cities such as Houston are penalized by their gasoline allocations because the amounts do. not take recent rapid population growth into consideration.

Texas' present allocation is based on 1976 oil company allotments of gasoline to the state. Since then, McConn said, the Houston area alone has added 210,000 residents.

'Nationalization' looming, **Energy official believes**

By LARRY KRAMER The Washington Post

WASHINGTON - The top consum er affairs official of the Department of Energy has warned the oil companies that they are "heading for nationalization" if they don't explain the present crisis soon and stop what she called "manipulative" practices.

The same official, Tina Hobson, director of consumer affairs for the DOE, has warned key DOE officials in a memorandum that there is also little or no reason that "consumers (shouldn't) believe DOE is misleading, misinforming or even lying to them about petroleum data."

"We are heading toward nationalization of the oil companies," Mrs. Hobson flatly told corporate consumer affairs representatives and government regulators from several areas at a dinner late Tuesday night.

"I don't want to go in that direction, but if the oil industry and the DOE don't come up with better rationing and something better than those gas lines, there won't be a choice in the matter," she added.

Mrs. Hobson has held a variety of energy-related postions, including jobs in the Federal Energy Office and the Federal Energy Administration before joining the Department of Energy on Oct. 1, 1977, when it was created.

Although she previously criticized her department's handling of information pertaining to the energy crisis

Blockades help throw wrench in driving plans

By The Associated Press

Fuel blockades, rationing and predictions of widespread gasoline station closings threw a wrench into the driving plans of Americans hoping to get away for the first weekend of summer.

"This will be the worst weekend ever," said Wayne Konitshek, president of the Connecticut Gasoline Retailers Association, whose forebod-

ments were her strongest public warning to date. Mrs. Hobson said she had informa tion that jobbers for the major oil companies were engaging in a "manipulative process of blackmailing

gas station dealers" into staying open for only a limited number of hours and using only a limited number of pumps, "or else." She said dealers

MR Oil Co. of Midland No. 3 Tenneco-Jones, a former well in the Shipley (Queen) field of Ward County, has been re-entered and completed to reopen the field's Yates gas pay.

The well, one mile north of Royalty, finaled for a calculated absolute open flow potential of 750,000 cubic feet of dry gas per day, through perforations from 32,098 to 2,128 feet after a 20,000gallon fracture treatment.

Total depth is 2,622 feet, 4.5-inch casing is set at 2.415 feet and the plugged back depth is 2,128 feet.

Location is 990 feet from southeast and 330 feet from southwest lines of section 25, block B-29, psl survey.

CROCKETT COUNTY

C. F. Lawrence & Associates, Inc., of Midland No. 1-G Chambers County School Land has been completed as a Queen sand gas discovery in Crockett County, 14 miles north of Ozona.

It finaled for a calculated absolute open flow potential of 740,000 cubic feet of gas per day, through perforations from 1,010 to 1,015 feet after a 10,000-gallon fracture treatment.

The strike is bottomed at 1,481 feet and plugged back go 1,070 feet. Five and one-half-inch casing is cemented at 1,460 feet.

The Queen was topped at 1,080 feet on ground elevation of 2,646 feet. Other tops include the Yates at 820 feet, the Seven Rivers at 940 feet, the Grayburg at 1,306 feet and the San Andres at 1,457 feet.

The discovery is one location east of

Clements defends decontrol

LEXINGTON, Ky. (AP) - Motorists are in for a financial shock at gasoline stations when oil prices are fully decontrolled, says Texas Gov. William P. Clements Jr., but the federal government could have acted years ago to prevent the trauma.

"While living under governmentencouraged, deceptively low prices, the American public could just as well have been absorbing these cost increases gradually as prices rose according to market forces," Clements said Wednesday.

"Now we're faced with a sharp increase, as we will see with decontrol. It's a bitter pill.'

Clements made the statement to representatives of the 36-state Interstate Oil Compact Commission, which ended a three-day meeting.

"Our government has created and is perpetuating a national addiction to energy," Clements said. "We have subsidized consumers and we've had to enter the business of price-fixing. The result ... has been to discourage those incentives that are necessary to increase domestic (energy) produc-

southwest of Garden City

MWJ completed No. 1 Webb in the Calvin (Dean) field six miles west of St. Lawrence for a daily flowing potential of 30 barrels of 38.9-gravity oil and 19 barrels of water.

The flow was gauged through a 1/4-inch choke and perforations from 8,054 to 8,246 feet and from 8,279 to 8,502 feet. The pay was fractured with 80,000 gallons.

The gas-oil ratio is 3,700-1. Location is 1,980 feet from north and 660 feet from east lines of section

47, block 36, T-4-S, T&P survey.

MIDLAND PROJECT

Tom Brown, Inc., of Midland staked No. 1-B Erwin as a 9,000-foot operation in the Spraberry Trend Area field of Midland County, 15 miles east of Midland.

Location is 1,330 feet from south and 1,347 feet from west lines of section 4, block 36, T-2-S, T&P survey.

LEA COUNTY

Gulf Oil Corp. No. 1 Vandiver-Federal Communitized is to be drilled as a 13,100-foot project in the Lusk (Morrow gas) pool of Lea County, N.M., 10 miles south of Maljamar. The drillsite is 1,980 feet from south

and west lines of section 33-18s-32e. Ground level elevation is 3,692 feet. Phillips Petroleum Co. No. 21 Lea-

mex has been completed in an undesignated Paddock area of Lea County, eight miles west of Buckeye.

Operator reported a 24-hour pumping potential of 101 barrels of 40.1gravity oil, with gas-oil ratio of 5623-1, through perforations from 6,058 to 6,072 feet.

The pay was acidized with 2,000 gallons Total depth is 6,309 feet and 4.5-

inch pipe is set on bottom. Location is 660 feet from south and 2,310 feet from west lines of section 22-17s-33e

EDDY COUNTY

Exxon Corp., operating from Midland, announced plans to re-enter an old 13,700-foot Morrow gas discovery in Eddy County, N.M., six miles southeast of Loving, and plug back to 11,900 feet for completion attempt in an unreported zone.

The project, No. 1 Laguna Grande Unit, is 1,380 feet from south and 990 feet form east lines of section 28-23s-29e and three miles southwest of the Remuda (Wolfcamp) field.

Original completion was as the discovery well of the Laguna Grande (Morrow gas) pool.

Texas Oil & Gas Corp. of Midland No. 1 Shugart-State Communitized is a new well in the Shugart, North field of Eddy County, eight miles southeast of Loco Hills.

The opertor reported a daily potential of 2,000,000 cubic feet of gas, through a 1/4-inch choke and perforations from 11,706 to 11,863 feet after a 5,000-gallon acid treatment.

Total depth is 12,000 feet and 4.5inch pipe is cemented at 11,990 feet. Wellsite is 714 feet from south and 2,062 feet from west lines of section 16-18s-31e.

ings were echoed throughout the South and Midwest.

It was already bad Thursday in southeast Florida, where mile-long gas lines clogged roads, National Guardsmen hauled fuel blockaded by independent truckers and rationing was ordered in Dade, Broward and Sarasota counties.

And it could be still worse on the July Fourth weekend, with a group representing the nation's 60,000 gas retailers threatening to shut down pumps starting July 1 unless Washington lets them boost prices.

The American Automobile Association said a survey of 6,286 service stations across the country showed only 42 percent planned to open this Saturday and only 31 percent on Sunday

"I wouldn't advise anyone to plan a trip for this weekend unless they have enough gasoline in their tank when they start off," said Mary Vedder, general manager of the AAA in Albany, N.Y.

Turner spots Coke project

Turner Properties of Big Spring No. 2 Jameson Lease has been spoted in the Bloodworth, North (Canyon 5650 oil) field of Coke County, 2.5 miles east of Silver.

The project, slated for a 6,300-foot bottom, is 1,350 feet from north and 467 feet from west lines of R. H. Allison survey No. 10 and one location northwest of one of the field's four

BUSINESS MIRROR My, how the economic times have changed

By JOHN CUNNIFF

NEW YORK (AP) - Draw whatever conclusions you like, but if you contrast the economic mood of the mid-1960s with that of today you end up with a lesson and a sense of awe about the compression of time.

The time was only a dozen years ago, but it seemed like another era. Energy was something to be used, never mind the cost.

The battle of automobile horsepower was displayed in every newspaper ad, and nobody seemed to worry whether those horses were needed. They weren't, of course, but what a great way to consume conspicuously.

The all-electric home was promoted as the clean, smart, modern way to live. If you review those ads you'll see hardly a reference to cost. The sales pitch was about the same as that used to sell diets today.

Utilities eagerly sought new business, and one of the techniques was to urge business to leave its office buildings lit all night, torches in the sky that proclaimed a company's power and affluence.

In each instance the attitude prevailed that energy was plentiful, inexpensive and dependable. If it would have meant anything at the time, the promoters might have added that it was inexhaustable too

That it isn't inexhaustable or inexpensive is proclaimed each day in the late 1970s. But habits are hard to change, and it is even harder still to correct the architectural style of the 1960s.

What do you do, for example, with a skyscraper sealed tight from the cooling summer breezes, insulated from the winter sun's warmth, and so well shaded from the outside light that electricity is burned all day?

The 1960s were the decade of consumption, a time when the customer or buyer became "the consumer," a force in the marketplace who was honored and elevated and nearly consecrated as the Americaan king

Finally, the 1930s and the Great Depression and wartime austerity were behind us. A vast mass of people had money far in excess of their immediate needs. It gave them courage to let go, to raise life styles.

Consumption grew for automobiles, entertainment, travel, two-bath homes, appliances, red meat, grass seed, cat food, energy, education and even, some say, of uplifiting religion. All hit highs.

It was, in fact, an economic high, and many people, including "experts" in academe, government and business sought to maintain it. Unemployment, they insisted, could fall to 3 percent or so.

The change to the current mood didn't come overnight. Gradually, for example, we settled for 3.5 percent unemployment, then 4, then 5. Lately, it seems, we feel that anything under 6 percent is success.

Inevitably, some now reflect, inflation invaded the economic structure like termites in a house. Even before the 1960s were ended the consumer warred against grocers. They demanded government intervention.

Government responded, in a big way. But as prices continued to rise, and as inferior products continued to flood the consumer marketplace, the perception of government as the ultimate answer grew suspect.

Inflation cut deeply into the discretionary income that had powered the consumer economy as the 197 matured. It became more difficult to save. People sought hedges against inflation. Distrust of money grew The naive confidence of the 1960s is almost gone now. Too many failures. Too much disillusionment. Nobody seems to have the answers, people complain. Polls illustrate their sour, shaken mood. Shortages are equated with deprivation, it seems, for those who felt consumption was a right, and maybe an obligation. The goal now is conservation doing with less; it's a strange notion to adjust to. Draw your own conclusions, but as an aid you might consider that production is at least as important as consumption, that comfort isn't the most sacred of mankind's goals, that government doesn't always have the answers, and that foresight is one of the mind's rarest products.

Power of suggestion very powerful medicine

BOSTON (AP) - Doctors' powers of suggestion are so strong that more than 80 percent of the people who take worthless remedies for the chest pain of heart disease get better - simply because they think the treatment works, a study shows.

The medical benefits of positive thinking have long been known to doctors as "the placebo effect." However, researchers say the potency and consistency of this effect are much greater than they exected.

They add tht giving fake medicine on purpose is unethical, but doctors should remember the advantages of putting their patients in the right frame of mind.

"After all," wrote Dr. Herbert Benson, "unlike most other forms of therapy, the placebo effect has withstood the test of time and continues to be safe and inexpensive.

The study, directed by Benson at Beth Israel Hospital here, was published in today's New England Journal of Medicine.

The researchers reviewed the early results obtained by doctors who tested a variety of treatments for angina, the chest pain caused by too little blood reaching the heart.

All of these treatments - three kinds of medicine and two operations - have since been proven medically worthless for angina. But the doctors' early results were uniformly promising.

In all, the Beth Israel doctors looked at the results of 13 studies on 1,187 patients. They found that an average of 82 percent of the people improved after taking the good-for-nothing treatment.

Not only did the patients feel better, but they also could stand more exercise, get by with less nitroglycerin and produce better results on electrocardiograms.

The researchers conclude that it was the doctors' enthusiasm, not the medicine, that encouraged the patients to feel less pain.

Even though medicines now on the market have been proven effective by themselves in easing chest pain, the placebo effect can improve their power, Benson said.

"We've come to a place in medicine where we've developed such faith in science that we feel that the medicines do it on their own," Benson said in an interview. "That's not completely true. We can aid any potent medication by paying attention to the basics of a doctor-patient relationship. It enhances any therapy and in some cases even makes the therapy."
