## Farmers Must Help Themselves

Sherman County Wheat Growers opened their annual membership drive Friday night with a program and steak fry in the American Legion Hall. A crowd of 150 farmers, their wives and guests attended the meeting.

J. R. Hogge, Potter County farmer and president of the Texas Wheat Growers Association, urged producers to do something to aid themselves by joining the wheat growers association, soliciting the aid of their wives, promoting their own program, and by advertising their products in a favorable light before the consumers.

Hogge said that producers in this section were suffering from the effects of the fourth most devastating drought in history and that there was a possibility producers of the current era might be classified in business history as the 49'ers. He stressed the importance of securing the aid of the women of the home. When you sell a man you have one convert, but when you sell a woman of the home, you soon have the support of the entire family, Hogge told his audience.

Hogge came to this country with his parents in an immigrant car which provided space for livestock in one end and provided space for the family and their personal possessions in the other. In his early manhood at Lakeview he told of listening to a soap box orator speaking in behalf of socialism. He told of how the orator always ended his speech on the plight of the farmers by saying "its the damn system we are living under." In Washington, he told of hearing an elderly clerk of the house agriculture committee, say, "you can tear a page from the records of 20 years ago and you will read of the plight of the producer caught in the squeeze of rising prices of finished goods and declining farm prices just as you will find them today, when will they ever become self-sufficient." Wheat Growers Association members have been told that the Korean war gave them a 5-year period of borrowed time in supplying them with a foreign market, and now they are at the end of the grace period. Special interests, politicians and others could not help but notice the confusion at the agricultural hearings in Washington, Hogge said. There were so many special interests they did not know what to do, and each special interest made their bid for a program. Tobacco, peanut, rice and cotton producers had older organizations, and secured better results. Wheat producers with a younger organization, had many difficulties but were successful as a stabilizing influence.

Producers must do something to help themselves, Hogge told the gathering. For many years the producers have been at the mercy of the merchandiser. Action is necessary for self preservation and mutual profit as well as a sound farm program.

The Wheat Growers Association did enough work in Washington to attract the attention of the Cotton Council which has invited the Wheat Growers to meet with them in June.

Hogge believes in the Wheat Growers Association as an organization which does something for the producers instead of waiting for the efforts of others. The organization is responsible for the committees of quality and clean commodities, the small grain research committee, and its recommendations on a state and national level, he believes will result in profitable storage of grain on the farm. Research has been

## H. M. Flores Named Citizen Of The Year

Hose M. Flores, former president of the Lions Club, former mayor of Stratford, and treasurer of the First Methodist Church, who was named honor citizen of the year, was presented a desk set at the meeting of the Lions Club Monday night by Lion President Leon Guthrie, who included the wish: "May the road rise up before you with the wind at your back, and may God hold you in the palm of his hand."

Guthrie briefly sketched the life of honor citizen of 1956 Hose Flores. He was born at Vernon, Texas and moved to Sherman County with his parents in 1916, entering one of the county's rural schools. Two of his early school teachers were Mrs. Robert Alexander of Gruver and Mrs. O. H. Finch of Dalhart. In 1919 he entered the Stratford schools where he became a good student, minded his own business, and expected others to do the same. In 1929 he graduated from Stratford High School as the salutatorian of the class and accepted a position with the First State Bank. December 12, 1933, he was married to Maudie Hitchcock in Amarillo, with the bride's father, the late Rev. W. A. Hitchcock, reading the wedding service. They have two daughters, Sue Ellen and Barbara Jo.

Flores was chosen for the honor as citizen of the year for his interest in his home and the useful service of his work in the community.

Flores accepted the gift and expressed his appreciation of the honor. He gave credit to the cooperation of the organizations of the town for the accomplishments for the betterment of the city.

Patricia Newman, Betty Bradley and Darla Jean Galloway appeared in a musical program arranged by George Dick. Miss Newman, who will enter the soloists contest at Enid, Oklahoma, played a flute solo, "Song of India." Miss Bradley, an Enid contest soloist, played "The Message" as a saxophone solo. Miss Galloway played the piano accompaniments.

Kenneth Kendrick gave the invocation. Rev. Cryder Brayslaw was the song leader. Leon Guthrie presided over the meeting.

Helicopters from the Clovis Air Base and the Fourth Army are aiding in the search. Amateur divers of Amarillo and Lubbock are working. Usually there is plenty of help during the week ends but man power is short during the first of the week. The searching party needs cooks, navigators and strong men to handle a drag line. Food has been supplied by Dumas merchants and sleeping facilities are provided.

Rev. Cryder Brayslaw announced funeral services for

### Students Home From Dallas Trip

An unforgettable tour was made by thirty-eight Stratford Elementary students to Dallas on May 5. The students were accompanied by three mothers, Mrs. John Knight, Mrs. Virgie Matthews, and Mrs. G. R. Garrison, and two teacher sponsors, Mrs. Ruth Dozier and Mrs. Pauline Teague.

The educational tour started by boarding the train at Dalhart Friday night. The group arrived in Dallas at about 7:00 a. m. and went immediately to the Hotel Dallas for breakfast. This breakfast consisted of tomato juice, bacon, eggs, milk, toast, butter and jelly.

Following breakfast the tour went first to the building of the Dallas Morning News. It was an experience for all, they saw the presses roll.

The group then boarded chartered buses bound for the zoo and amusement area where they stayed for a while, described as not nearly long enough for the children.

Again on the buses, they went to the State Fair Grounds, where they went through the Natural History building, the Art Museum, the Aquarium, Health building, and then to a delicious lunch of barbecued beef, beans, rice, potato salad, cold slaw, onions, pickles, cake and an orange drink.

As a climax to the trip they went to the Melba Theatre to see "Cinerama, Seven Wonders of the World." It was truly superb, according to their reports.

The tired group again assembled on the buses for a tour through Highland Park, and Southern Methodist University where they were shown through the student building.

At the Hotel Dallas a dinner of steak, potatoes, English peas, salad and ice cream was enjoyed.

At the depot the group of exhausted children said good-bye to Dallas although a happy and never to be forgotten trip was coming to an end. Their last experience was that of having breakfast in the diner on the train.

### Stratford Study Club Meets With Mrs. Foreman

The Stratford Study Club met Friday afternoon, May 4, in the home of Mrs. Shirley Foreman with Mrs. Betty Brown as co-hostess.

The meeting was opened by all members reading the club collect.

Roll call was answered with predictions for presidential nominees.

The minutes of the last meeting were read and approved by the secretary, Mrs. June Frizzell.

Plans are being made for the installation of officers at a breakfast in the home of Mrs. Juanita Donelson, June 1.

Mrs. Dot Ross, program leader, summarized briefly the biographies of each of the Democratic presidential nominees, and the Republican vice-presidential nominees.

Adali E. Stevenson was born

in Los Angeles in 1900. His home is now in Libertyville, Illinois and his office in Chicago. He received his degree from Princeton, admitted to Illinois bar in 1926, and has practiced law in Chicago and Washington. He served on Agricultural Adjustment Administration in 1933-34, his duties were like a nation wide county agent. He has served as assistant legal counsel on Federal Alcohol Administration; special assistant to Secretary of Navy, Frank Knox in 1941-44. In 1943 he was appointed as Chief of Foreign Economic Administration.

In 1945 he became assistant Secretary of State where he helped promote understanding of United Nations; replaced Stettinius during illness; and he was alternate delegate to U. N. in 1947. This same year he returned to law practice in Illinois and was elected governor in 1948.

Estes Kefauver was born on a farm in Monroe County, Tennessee in 1903, grandson of a Baptist minister, married in 1935 and is the father of 4 children. In 1951 he received the honor, Father of the Year. He received high school education in Monroe County where he was very active in all high school activities. He worked his way through Yale Law school by waiting tables and firing furnaces. He was elected to Congress in 1939, during his 10 years in the House he defended TVA; led in securing legislation for benefiting small business and a sponsor of G.I. Bill of Rights; deep interest in improving work procedures of Congress and Executive relations. Elected to Senate in 1948 when he first won national prominence by fighting the Crump political or-

ganization, which he won. Brought again to the public eye by conducting hearings of Senate Committee to investigate organized crime in Interstate Commerce. He has conducted nation wide hearings aimed to eliminate conditions which breed youthful crimes. His subcommittee has introduced 25 measures to curb and cure juvenile delinquency.

He favors flexible foreign policy; advocates policy of economic and technical aid for underdeveloped nations to help them resist communist ventures and achieve democracy and economic prosperity. Kefauver lacks eloquence but has succeeded in impressing himself on the people in the face of the hostility of party professional and organization leaders. His voting record is consistent and liberal, some of his Dixie Colleagues term him an "Unsouthern Southerner."

Lyndon Johnson born in 1908 at Stonewall, Texas, received degree from Southwest State Teachers College, San Marcos, and taught in public schools several years. In 1937 he filled the vacancy of Congressman Buchanan, who died, he was successful and was reelected next 5 years. In 1948 he was a successful candidate for Senate and re-elected in 1954. He has been known as one of the hardest working members of Congress throughout his service. When elected minority leader of 83rd Congress, he was the youngest man of either party ever to hold his leadership. He was elected majority leader of 84th Congress. He has been a staunch advocate of adequate military preparedness, first against aggression of the Axis and then Communists. He has supported R.E.A., adequate farm programs, legislation fair to both management and labor, far reaching water conservation program and legislation to protect the Nation against Communists.

Frank A. Lausche, has been elected five times as governor of Ohio, and sure of Ohio delegation as favorite son. There appears little chance for his nomination as he admitted he voted for Senator Robert Taft in 1950, also said he thought Eisenhower did right in vetoing farm bill. He favors states rights; has not committed himself on segregation; against rigid price supports; believes that tax cuts should come after budget is balanced.

Stuart Symington of Creve Coeur, Missouri, born in 1901 in Massachusetts. He attended public schools in Baltimore, Maryland, and received his B.A. degree from Yale. He started in the steel business as a moulder in Rochester, New York, studying mechanical and electrical engineering in night school and by correspondence. He worked with various radio iron and steel companies in executive capacities from 1925 to 1937, became president of Emerson Electric of St. Louis, Missouri in 1938. He went to England at request of War Department in 1941 to study airplane armament. He entered full-time government service in 1945, as chairman of the Surplus Property Board, was assistant Secretary of War for Air; Nations first Secretary of the Air Force; chairman of National Security Resources Board; Administrator, Reconstruction Finance Corporation. Elected Senator of Missouri in 1952. He is a member of the Armed Services, Agricultural and Government Operations Committees; and the Special Foreign Relations Subcommittee on Disarmament. He is chairman of the Armed Services Subcommittees on the Air Force, and on the National Stockpile and Naval Petroleum Reserves.

**Vice-President Nominees**  
Richard M. Nixon, Republican, born in Whittier, California in 1913, received his education in public schools, Whittier College and Duke University Law School. He practiced law in Whittier from 1937 to 1942; attorney in Office of Emergency Management, Washington from January to August of 1942. Served 4 years active duty with the Navy, elected to 80th Congress and re-elected to 81st Congress in 1948. His hard work earned him the nomination of both parties for this term. He became vice-president, term beginning January 20, 1953, since then has been charged with precedent-

breaking responsibilities, including presiding over Cabinet and National Security Council, and consulting with the President on such matters as internal security, political timing and tactics, and labor policy.

William F. Knowland born 1908 Alameda, California, graduate of University of California. Member of California State Assembly from 1933 to 1935, and State Senate from 1935 to 1939. He served three years in the army, being discharged as major. He was appointed to the Senate in 1945 to fill Hiram Johnson's unexpired term, re-elected in 1946 for 6 year term and again in 1952 when he won both party nominations and received the largest vote ever polled for public official in California. He has served on innumerable committees of each session of Congress from 79th through 84th. His business activities consist of Vice-President and director Oakland Tribune Building Co., and Franklin Investment Co., Oakland. He is also director and Assistant Publisher of Tribune Publishing Co. in Oakland.

Delicious refreshments were served by hostess, Mrs. Shirley Foreman and co-hostess, Mrs. Betty Brown, to the following members: Mesdames Phyllis Winborn, Virginia Cain, Mary W. Wisdom, Jimmie Pronger, Lorraine Mehner, Ione Kendrick, Helen Taylor, Dot Ross, June Frizzell, and Dixie McAdams.

**Raise 1956-Crop Wheat Minimum  
Price Support To \$2.00 Per Bushel**

Sign trade in a highly competi-  
tive producers business. He  
advocated the advertising of the  
consumption of wheat in the  
same manner in which citrus  
growers have cultivated the taste  
of the public and increased the  
use of juices and fruits. "Pull-  
ing together is part of the an-  
swer," Hogge told his audience in  
his closing remarks.

Carroll Boyd, vice-president of  
the National Wheat Growers As-  
sociation, spoke on the impor-  
tance of a local wheat growers  
association. Boyd acknowl-  
edged Sherman County as one  
of the leading counties in estab-  
lishing the growers association,  
and said the work of the organ-  
izations from a local to a state  
and national organization is  
becoming sufficiently effective  
to be heard by the national gov-  
ernment. He compared the sub-  
sidizing program of other indus-  
tries which amounted to \$50.00 a  
person a year to the cost of the  
wheat subsidy of 45 cents a year.  
Boyd spoke of the work of the  
organization in Washington  
when the recent farm bill was  
being written. He described the  
efforts of the organization to  
place pressure on Eisenhower to  
sign the bill. Boyd expressed  
displeasure over the attitude of  
the corn producer. He said  
they want every thing. He be-  
lieves that had even the domes-  
tic parity plan advocated by the  
wheat growers been put into  
practice, that there would be  
little if any surplus wheat to-  
day. The organization favored  
90% of parity but as a com-  
promise advocated domestic par-  
ity as a solution to the wheat  
surplus problem.

The organization fought for a  
historical average in computing  
benefits. Sherman County has  
an average yield of 10.7 bushels  
of wheat on the 10 year average  
as compared to 3.4 bushels in the  
three year average during the  
drouth. Moore County had  
only an average of 2.5 bushels  
in the three year average.

Boyd described as one of  
the small victories of the or-  
ganization the raising of the  
support price of wheat from 76%  
to 84%, a boost in price of from  
\$1.65 to \$1.84.

Mrs. William Glen Hart, Mrs.  
Kenneth Kendrick and Mrs. W.  
O. Bryant signed fifty-two \$6.00  
memberships in the Sherman  
County Wheat Growers Associa-  
tion at the close of the pro-  
gram.

Guests at the meeting includ-  
ed Johnny Bookout, P. Bryant,  
D. Brown and Earl French of  
Hartley County, C. Witkowski,  
L. Bruceby and Charles Burkes  
of Castro County, Homer Davis  
and Mr. and Mrs. Frank McCown  
of Dalhart, Bill Smith of Potter  
County and Mr. and Mrs. C.  
Baker of California.

A quartet composed of K. El-  
ler, F. L. Yates, C. W. Moon and  
George Dick sang, "Rock of  
Ages," "Down By the Riverside"  
and "The Bull Dog on the Bank."  
Miss Wilma Sneed sang "If God  
Left Only You." Miss Nellie  
Johnson sang "I Don't Wish to  
Marry." Miss Darla Jean Gal-  
loway played the piano accom-  
paniments.

W. O. Bryant, president of the  
Sherman County Wheat Growers  
Association, was master of  
ceremonies.

**Circle Three**

**Meets With**

**Mrs. Wakefield**

Circle Three met in the home  
of Mrs. Tommy Wakefield May  
2. Mrs. Arthur Folsom called  
the meeting to order. Mrs. Nor-  
val Davis offered prayer. Ten  
members were present. Reports  
were made of 4 books being read  
and 6 daily devotionals being  
conducted.

Mrs. Donald Borth led the les-  
son, "University of the Gospels"  
and "The Authority of the Gos-  
pels." Mrs. Arthur Judd gave  
the devotional. The meeting  
was closed with the circle ben-  
ediction by the group.

The hostess served delicious  
refreshments and a social hour  
was enjoyed.

Secretary of Agriculture Ezra  
Taft Benson raised the mini-  
mum national average support  
price for 1956-crop wheat to  
\$2.00 April 23.

This is in line with the Presi-  
dent's message of April 16 an-  
nouncing prompt administra-  
tive action to increase farm in-  
come, with a minimum wheat  
price support of \$2.00 per bushel  
but not less than 82½% of the  
wheat parity price. In the  
event that 82½% of parity as of  
the beginning of the marketing  
year (July 1, 1956) is more than  
\$2.00 per bushel, the support  
price will be increased. At  
present, \$2.00 is 83.7 percent of  
parity.

Specific rates by classes and  
grades for county and terminal  
locations will be made available  
soon. Wheat price supports  
will be carried out, as in the  
past, through non-recourse loans  
and purchase agreements, and  
will be available from the be-  
ginning of harvest through Janu-  
ary 31, 1957. Both wheat  
marketing quotas (approved by  
producers in a referendum June  
25, 1955) and acreage allotments  
are in effect for the 1956 crop  
of wheat.

Wheat price support will be  
available at the full rate in the  
commercial area (36 major  
wheat-producing states) to pro-  
ducers who plant within their  
acreage allotments and market-  
ing quotas. In the 12 non-  
commercial wheat producing  
States, price support rates will  
be at 75 per cent of the level  
available in the commercial  
area, as provided by law.

The April 23 action, following  
the President's farm message,  
raises the minimum support  
price for 1956-crop wheat from  
the \$1.81 per bushel level (76  
per cent of parity) previously  
announced. For the 1955-  
crop wheat, the national average  
support price was \$2.08 per bu-  
shel or 82½% of parity.

Approximately 318 million  
bushels of 1955-crop wheat have  
been put under price support by  
producers. Of this total, 274.6  
million bushels were put under  
loan and 43.5 million bushels  
under purchase agreements. As  
of April 11, the Commodity Cre-  
dit Corporation had uncommit-  
ted inventory stocks of wheat  
amounting to an estimated  
871,036,000 bushels.
