Elks And Texline Meet In Grid Battle Friday

Stratford Elks and Texline will meet Friday on the local field at 7:30 p. m. for what is expected to be a thrilling football game. The Elks continued their winning streak Friday, and Development have more than even odds in winning the game over Texline Friday night. Texline appear-ed with one of the strongest teams of the territory in the early part of the season. Sev-eral jointing of Texline players eral injuries of Texline players weakened the team and caused it to drop from the top bracket of competition in later games. Several of Texline's injured players are expected to be back in condition for the game Friday night.

Elks Down Boise City In 46 To 6 Game

Stratford Elks continued to remain an undefeated team as they played Boise City Friday night, winning over their oppon-ents by a score of 46 to 6. James Spurlock scored four of the Elk touchdowns. Cagle Kendrick scored one touchdown and Jer-ry Galloway scored one touch-down. Kenneth Knight, Cagle Kendrick, Bill Steinberger and Jerry Galloway scored extra

points. Stratford played every boy on the Elk squad during the Boise City game. The Elk line is showing greater strength as the Donelson. of the linemen has made pos-sible sensational plays which have been scored by the Elk Buckles is chairman. backfield.

W. P. Mullican celebrated his 80th birthday Sunday at a gathof ering of members of the family Chi Delta Mu, Christian service in the home of his son-in-law organization at TCU, and holds and daughter, Mr. and Mrs. W.

Grady Mullican, a son of Mr. and Mrs. W. P. Mullican, also celebrated his birthday which falls on the same date as that

of his father. Mr. and Mrs. A. L. Henning of Amarillo attended the birthday Reserve together in 1958, dinner. Mrs. Henning is a daughter of Mr. and Mrs. W. P. Mullican.

Widespread interest in the Conservation Reserve, the only Soil Bank program available in 1959, indicates that participation by farmers in Sherman County may be much greater than in previous years, Chairman R. C. Buckles of the Sherman County Agricultural Stabilization and Conservation Committee an-

The chairman explained that daughter, Donna Lee, to Ben Thomas Wells, son of Mr. and Mrs. N. N. Wells of Amarillo. in formal applications for Conservation Reserve contracts, the result could be that applications will exceed funds available for program payments in the coun-

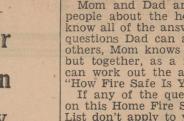

> Under Conservation Reserve regulations, applications for contracts have to be accepted in accordance with a definite priority plan, on the basis of the best offer per acre. There-fore, farmers who offer to accept contracts at a rate less than the maximum set for their farms will increase the possibility of their applications being accepted.

The required order of priority in which Conservation Reserve contracts will be awarded is as follows:

1. Farmers who had all of their cropland in the Acreage Reserve and the Conservation. and are now offering to put the acre-age which was the Acreage **Re**-serve into the Conservation **Re**serve

2. Other applicants offering land at the lowest rate when compared on a percentage ba-sis with the applicable maximum rate.

3. Applicants offering land at the lowest applicable maximum rate per acre. In case there are applications at the same percentage of the maximum applicable rate, priority will begiven to them in the following order

in

in a scoring position. Whorton scored the touchdown and Gary Hudson carried the ball across the goal line for two additional points.

School Trustees Award Building

Contract

Timmons Construction Co. of Amarillo was awarded the school building expansion contract Thursday night with a low bid of \$151,090.00 with work to begin in about two weeks. The completion date will be set for August 1. 1959.

The contract calls for addition to the present high school building which will include an additional science room, visual education room, commercial depart-ment and an additional class Fertilizer should be a Additions the to room. elementary building will include four class rooms. Three of the present rooms will be converted lush growth by late fertilization, into rooms for music, art and an elementary library.

have alrealy been completed include heating repairs, relighting dormant. of the high school building, Apply

of the high school building, parking areas and two concrete tennis courts. Bids submitted for the con-struction work were: Timmons Construction Co. of Amarillo \$151,090, West Texas Construc-tion Co. of Borger \$153,650, Bur-ford Construction Co. of Dallas \$162,900, Ramey Construction \$162,900, Ramey Construction Co. Amarillo \$164,080, Doyle Construction Co. of Amarillo \$167,925, and Panhandle Engineers of Amarlilo \$168,381.

ford Friday night. C Cameron states that the literally cut the heads Charles hail from maize stalks in one corner of his field. In other portions of the field, the crop was stripped of leaves, but little damage to the

vehicle: all steel bodies, better

been made in the design of the quire that they be brought in in five. Safe walking habits safety devices, traffic safety is for inspection. This is done at are taught in schools, and many still in the hands of the individlights, wider windshields and automatic windshield wipers for better visibility. To make sure that automobiles are kept in a safe condition, some states re-

(Contiued from Page 1)

trian. An unsafe highway, an unsafe vehicle, or natural dangers such as bad weather are also causse of accidents.

The driver is the most im-portant factor. A careful driv-er will keep his vehicle in good condition and will make allow-ances for heavy traffic, bad roads or bad weather.

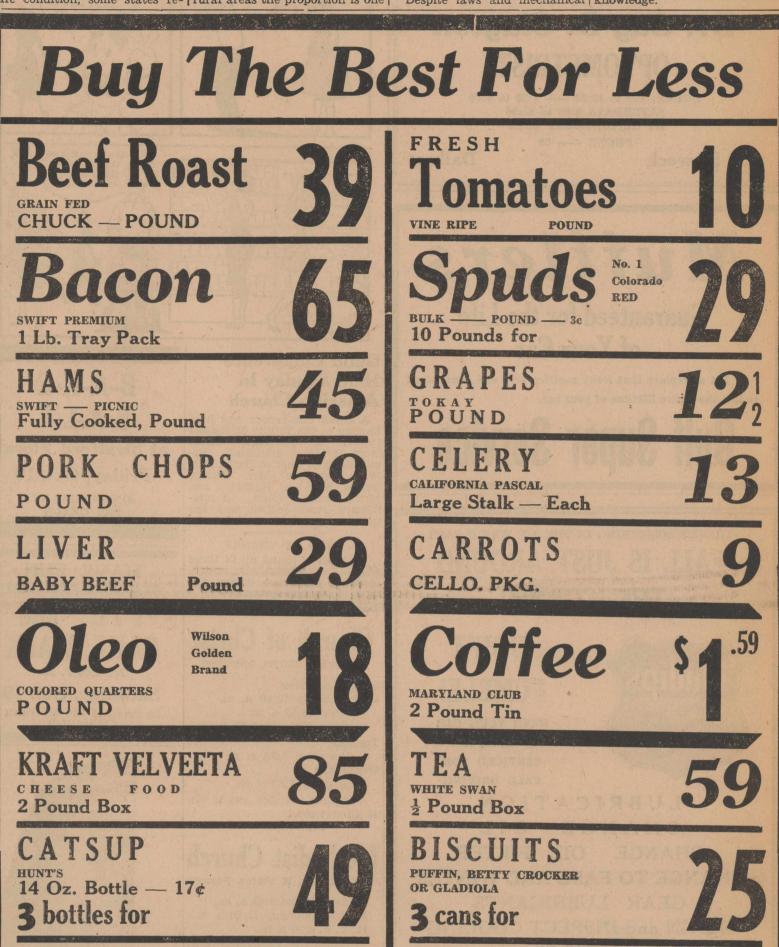

Speed and other unsafe driving practices are found in at least two out of every three traffic accidents. About one in every five fatal accidents in-volves either a driver or a pedestrian who has been drinking. According to special studies based on mileage, drivers less than 20 years of age have the highest accident rate. The rate decreases steadily until about the age of 50, when it increases

Two out of every five persons killed in traffic are pedestrians. Two of every three pedestrians killed by motor vehicles are at fault in breaking a traffic law About six percent of the traffic accidents are caused directly by defect in the highway, and about 11 percent may be charg-

ed to unsafe vehicles. Darkness is definitely a factor in traffic accidents. Three of every five fatal accidents occur In one of every four fatal accidents, cloudy, foggy, rainy or snowy weather is a fac-

tor. Laws regulating speed and other driving practices have been passed, and special police have been detailed to help en-force the laws. Almost all of the states require a driver to be li-censed, and in many of them the driver muct pass a road test to driver must pass a road test to qualify for a license. If it is proved in an accident that a driver is neglectful, he may lose his license. To help develop better drivers, some high schools have offered courses in automobile driving. This work has been promoted largely by the American Automobile Associa-

improvements have been made in highway design and construction. Curves have been banked and made less Wide express highways have been built, and in some cases the lanes of traffic going in opposite directions are sep-arated by a strip of parkway. Bad intersections have been Highway markers warn drivers of approaching curves, hills or other dangers which make a slower speed ne-Many improvements have also
