

## Homecoming Game Friday

Stratford Elks will meet Spearman here Friday night in the homecoming game of the year. The game will start at 7:30. Crowning of the Homecoming Football Queen is scheduled for 7:15, a short time before the beginning of the game. Donna Boner, Natacha Morris, Sandra Diehl, Sharon Gamble and Ruthie Kendrick have been nominated by the football squad as girls representing their choice for their queen of the year. One of the girls will be crowned as the Football Queen and the other girls selected as candidates, will serve as her attendants during the coronation ceremonies. Spearman Lynx have a record of being a good team, but like all high school football teams, have their weak points. Young and inexperienced Stratford Elks, learning and ambitious, are just as likely to put up a hotly contested pitched battle against a good team, as they are to play a good game against a weak team. Fans still believe in the future of the Elk team which has been built from freshmen, sophomores, juniors and a few seniors, will hold a new record in winning football games. During the year the Elks have unexpectedly shown surprising ability in several of their games.

Marvin McKee, president of Panhandle Agricultural & Mechanical College at Goodwell, has highly complimented the Stratford Elk Band for their performance on the PAMC home coming program. President McKee's letter to R. W. Standefer Jr., superintendent of the Stratford Schools, states: "Your band took part in our 50th anniversary homecoming parade and made an excellent showing in both their playing and marching ability. You can well be proud of Mr. Hill, the director, and of the students who made up the band personnel. This group would be a credit to a school of twice the enrollment of Stratford." **Mrs. M. Sweny—**

(Continued from Page 1) than this nominee.

She was a member of a "Home-makers" club in the county before the county had home demonstration work in Sherman County.

She helped to organize some of the first Home Demonstration Clubs. She has served her club as she has held every office in her local club and also served on most of the committees at one time or another. She was Council Chairman for two years and before that had held all of the offices in the Council and has served on every standing committee in the Council. At one time Mrs. Sweny was T.H.-D.A. chairman for the county.

This candidate has been an elected delegate to both state and district meetings on several occasions. She has served as 4-H leader in her community for several years.

Mrs. Sweny has always helped with the county fair and has been on the fair board for several years. She is a member of the county planning committee and has been since its organization. She takes subscriptions for the Amarillo News and gives the commission to the County Council.

When the polio drive was held she contacted every person in her precinct and encouraged them to get their polio shots.

During the garden seasons she cans and freezes for her family needs. She does her sewing and sewed for her children when they were at home and now she sews for her grandchildren.

The Swenys raise their own chickens and laying hens. This past year they sold \$1,236.00 worth of eggs and will sell about the same amount this year.

Mrs. Sweny is always interested in schools and was especially so while she had children at home and in school. She attends ball games and all school activities.

She has served as a member of the school board and has been a member of the election board for two years in her precinct.

Mrs. Sweny has a real community spirit, always ready to help neighbors children as needed.

Her door is always open to hospitality as one can see as she entertained twenty-four guests at different times this summer. Some guests only stayed over night while others spent three to four weeks. She is, along with her husband, a wonderful hostess.

She is very faithful to her church, serving where she can,

and entertains her pastor often in their home. For many years she has been a Sunday School teacher at the Spurlock Chapel

and has been secretary-treasurer of Sunday School and Church. She and her husband gave a window to the Parkwood

Methodist Church in Pasadena in memory of their son. The Southside Club feels Mrs. Sweny is very worthy of being

chosen the "Woman of the Year" as she is a devoted wife, mother and neighbor, and a credit to her home, community and church.

MRS. TEAGUE'S

## Sixth Grade

(By Vickie Ellison)

This week we got a new boy named Richard Reznik from Davis, Oklahoma.

Friday, October 23, we elected the women to help with the Hallowe'en party. They are Mrs. O. H. Bouldin, Mrs. Joe Lopez, Mrs. J. T. Newcomb, Mrs. W. O. Henderson, Mrs. G. W. Preston and Mrs. Leonard Plunk. The

Hallowe'en party will be Friday, October 30, at 3:15 p. m. Each six weeks Mrs. Teague gives us a poem to learn. This six weeks she gave us the poem, "Tree" by Joyce Kilmer.

## Eighth Grade

(By Judy Steinberger)

We elected our prince and princess. They are Duane Pittman and Charlotte Eller.

Two members of the class will do a stunt for the Hallowe'en carnival. In civics class a panel was ap-

pointed to discuss the topic, "Democracy Begins in the New World". Panel members are: Lynn Allen, Judy Steinberger, Cynthia Heil, Donna Moon, and Charlotte Eller.

Patricia Long enrolled in our class last week. We have 43 Eighth graders this year.

Our football team has lost one game and won five this year. We are very proud of our team.

## Meditation Of A Principal

Hallowe'en is rapidly approaching for Stratford school kids, would like to take this opportunity to express my appreciation to the Mayor, Mr. Odus Bryant, and City Council members, for their cooperation and interest shown in trying to have something entertaining for the younger set instead of wanton mischievous practices that might occur when nothing is planned. My thanks also to the various committee chairmen and committee members on decoration, music and refreshments for their interest and their efforts. It takes a lot of people doing a lot of work to accomplish anything worthwhile. Who may come is a good question — all Stratford School kids plus those through the college age and teachers are welcome to attend the program in the Legion Hall. Time of starting will be after the football game Friday night, probably starting time will be 10:30 P. M. and closing time will be 12:30.

For the small fry free refreshments and a free show will be run continuously throughout the evening.

## Brown Patch In Lawns Can Be Controlled

Brown patch is a disease in St. Augustine grass, Bermuda grass, and blue grass and is taking a heavy toll in central and east central Texas now and will probably continue until late winter and early spring. It has been present in many lawns in the Panhandle this summer and fall. This disease can be controlled if proper measures are used, according to Harlan E. Smith, extension plant pathologist.

Pentachloronitrobenzene (PCNB) 75 percent wettable powder can be used for control. One pound mixed with water will cover 1,000 square feet of turf. Enough water should be mixed with the chemical to thoroughly soak the solution throughout the old grass clippings and down to the soil beneath the grass. Smith cautions against applying excess amounts of the chemical. Only two applications a year will give control, and more than this

may result in a toxicity problem.

Where the disease is already present, applications are more effective if made during the first 24 hours following a rain or irrigation. If the disease covers a large area at the time of application you can expect some results in two to three weeks.

Proper use of fertilizer and water will help prevent the disease, notes the pathologist. Brown patch is apt to occur on lawns that have received excess amounts of water and fertilizer. Grass should not be watered late in the evening.

Other hints for preventing brown patch are: fill in with soil and level low spots where water tends to accumulate, avoid letting thick layers of old grass clippings or "thatch" accumulate, and mow properly.

## Cleaning Stone At Court House

Stone and brick at the court house in Stratford is being cleaned and mortar joints are being water proofed. J. Sivadon,

a Fort Worth masonry firm, is doing the work. All of the stone will be left in its natural color. This is the first work of this nature which has been done on the court house since it was erected in 1922.

Respect and obey all traffic signs.

## ELECTRIC CLOTHES DRYERS COST LESS TO BUY - LESS TO INSTALL - LESS TO MAINTAIN

That's right, you can buy an electric clothes dryer for much less money than any other type.

You can install it for less, too, because it need not be vented and needs only a three-wire electrical connection. And remember, even the lowest cost electric dryer is completely automatic.

Finally, it takes only five moving parts to provide electric heat, while other dryers require more than three times as many — cutting down your maintenance cost.

Don't be penny-wise, but dollar-foolish. Buy the economical clothes dryer. Of course, it's electric.

### Ballengees To Work And Visit In Mexico City

Mr. and Mrs. H. P. Ballengee of Phillips visited Saturday night and Sunday in the home of their parents, Mr. and Mrs. M. H. Harrison. They left Monday morning for Trinidad, Colorado to visit for a few days with his brother from Honolulu and other relatives.

Mr. and Mrs. Ballengee are on their way to Mexico City where he will spend 10 days inspecting a new unit of a plant which has been built by the Phillips Petroleum Co. They will tour Old Mexico and go deep sea fishing and enjoy hunting trips for two weeks before returning to Mexico City for another 10 inspection of the Phillips plant. They plan to return home about the middle of December.

### Maize Harvest Estimated 80% Complete

Grain men and producers have estimated that 80% of the maize harvest in the immediate territory has been completed. The "cut as you can" harvest caused little excitement or rush. Crews were able to work in only a few fields at a time.

Combines have not been able to start work in some fields where the moisture content of the grain is too high for storage.

Look out for the driver who doesn't look out for you. Drive safely.
