Railroad Advertises for Men to Work During Strike

VOTE RESULT SHOWS FAVOR FOR WALKOUT

HOUSTON, Nov. 20 — The Southern Pacific lines advertised in Houston, El Paso, and New Orleans newspapers today for applications of railroad men willing to work under strike conditions. It was learned from a reliable source that a strike vote being taken among 3,000 railroad employees belonging to the "Big Four" brotherhoods, showed sentiment to be evenly in favor of a strike. If, as the union men predicted, the strike is voted, it will be called promptly as circumstances dictate, the unions announced. The advertisements were addressed to "Railroad Men — locomotive engineers, locomotive firemen, conductors, brakemen and yardmen". The strike ballot was ordered last week after grand lodge officers of the brotherhoods held an executive session. The ballot listed 108 questions at issue, but the officers said there are at least 700 other questions involved in the dispute between the railroad and employees.

PERMIT POLICY IS NOT WRONG HOWTH CLAIMS

AUSTIN, Nov. 20 — C. W. Howth, general attorney, who said he had "rather rob a bank" than to lose money for getting someone a job, today declared there was no wrong doing in the swapping of wrestling promotion licenses in payment. He testified here before the legislative committee investigating alleged job sales, which resumed its session this morning. "Money has been offered me for jobs, but I have always declined to accept a penny of it," Howth testified. "I'd rather rob a bank than take that kind of money." Art Mondt, Beaumont wrestler, had previously testified before the committee that he had been required to "make his peace" with Howth in order to secure a permit to promote wrestling. The Beaumont attorney also denied he had ever said it cost \$200 to elect Gov. Ferguson. He declared he never collected a penny campaign funds.

To Enlarge Plant At Arlington Downs

FORT WORTH, Nov. 20 — Extensive preparations have already started for the spring horse racing meet at Arlington Downs, almost four months before the first meeting is cleared away. Enlargement of the W. T. Wagner course, with erection of larger stands and a longer track, is to start about the first of December. The track will start soon to be in condition for the spring races. The large crowds that swarmed to the recent meet overflowed the present stands. A new grandstand to seat 15,000 persons is to be erected. Average daily attendance at the meet just finished was about 9,000 with the closing day attracting more than 35,000. Altogether, some 200,000 persons witnessed the 21 day meet. In addition an extension of the grandstand in front of the stands and clubhouse will be made to provide more room for spectators and to permit movement of betters. The pace at which fans played the pari mutuels, turning over approximately \$2,000,000 in the meet, and the present booths inadequate. Additional, conveniently located betting booths are to be constructed. With the 21-day spring meet, from March 29 to April 21, expected to attract many eastern horses training for the Kentucky Derby, the ability for 200 more horses will be able. Stable facilities on the Three farm could not take care of the more than 1,000 animals entered the recent meet. A larger number of horses is expected to be attracted by the \$100,000 added purse for the Texas Derby and the raising of the minimum prize from \$600 to \$700.

Slayer of Russian Woman Is Hunted

DENISON, Nov. 20 — Spurred by the belief she was murdered for money, officers and volunteers posse men today continued the search of the Red river valley country northwest of here for the slayer of Miss Antonia Backman, 49, Russian immigrant and farm woman slain Saturday night. Miss Backman, who, with her sister, operated a farm near Pittsburg, was fatally wounded late Saturday. Her attacker was thought to have sought money supposedly hidden in the house.

FIVE CARS OF TURKEYS ARE SHIPPED HERE

The fifth car of dressed turkeys left Cisco today for the eastern Thanksgiving markets. The five cars are one more than the number dressed by Cisco produce firms last season for both the Thanksgiving and Christmas markets. Turkey dealers here estimate that only about one-third of the potential crop has been dressed, at that, and predict that seven or eight more car-loads of the holiday fowl will be shipped from Cisco for the Christmas market. Meantime, there will be a lull in dressing until December. Prices paid for turkeys by Cisco produce men were nine and ten cents for best grade. This about compares with last year's price, it was said.

Breck Man Buried Today at Ft. Selman

FORT WORTH, Nov. 20 — The body of Eugene Jones, 24, of Breckenridge, one of two men killed in an automobile collision near Roanoke Saturday night, was taken to Fort Selman, Texas today by a Breckenridge undertaking establishment, where funeral services were to be held today. Funeral services were held today for C. R. Lipsey at Roanoke, his home. Lipsey, a foreman for a road construction company, was driving home. His car ran into another automobile and careened into Jones' truck. Each man died within a few minutes of fractured skulls.

VALUED AT \$40,000

BOISE, Idaho, Nov. 20 — A needle left in his body was valued at \$40,000 by H. E. Reinhold and the Idaho State Supreme court agreed to the extent of \$42,000. Reinhold charged malpractice against Dr. H. D. Spencer, who, he asserted, left a needle in his body after an operation.

Russian Recognition Opens Market for Million More Bales of Cotton, Says Savant

By W. WINSTON COPELAND United Press Staff Correspondent FORT WORTH, Nov. 20 — Recognition of Soviet Russia by the United States and opening channels of trade should mean an annual market for 1,000,000 additional bales of Texas cotton, Dr. E. A. Elliott, head of Texas Christian university economics department believes. This will be one of the two direct effects of Russian recognition, Dr. Elliott told the United Press. The others will be increased importation of sulphur from the United States. Texas predominates in American output of sulphur, he pointed out, and should provide the greater amount of the Russian demand. Russia's potential cotton market will be the greatest factor felt by Texas, he continued. The Soviet Republics provide a market for 1,000,000 bales of American cotton annually. Texas will supply half of that, Dr. Elliott said, because it is the biggest cotton producer in the United States and because its type of cotton better meets the Russian demand. Recognition of Russia with this cotton market should enable the federal government to forego the probability of plowing under or elimination in some manner of 9,000,000 acres of cotton land next year. One 9,000,000 acres between 2,000,000 and 3,000,000 bales of cotton, or the equivalent of the Russian consumption, will be raised. Abandonment of the plow-up campaign will keep about 250,000 United States tenant farmers on their lands, Dr. Elliott said, about 80,000 of them in Texas. Collective Benefit The average person, the corner drug store or the village grocery probably will not be able to tell an appreciable immediate effect of Russian recognition, he said. The market for its own private business may not be greatly felt but there will be a collective benefit which for the whole state should be of sizeable proportions. Indirectly, recognition of Russia will have other effects on Texas, Dr. Elliott said. Heavy industries of the East, steel and machinery, probably will be the first to profit. Workers in steel industries will consume more raw products, cotton, clothing and wheat, which Texas produces. Russia, Elliott thinks, furnishes the world's greatest potential market for consumption goods. Its 160,000,000 people are all consumers of foreign goods, he pointed out, and not the upper classes alone as in other countries. The vast communistic state is prepared now to purchase \$150,000,000 of goods annually, he said, offering a tremendous market for consumptive merchandise. "Moreover, the advantage of doing business with Russia is that you are doing business with the government and Russia has one of the best credits of any nation in the world," Dr. Elliott said. Another factor in favor of the United States is the German international policy which, he said, is alienating Soviet trade. Germany is America's biggest competitor for Russian machinery trade.

1.5 INCHES OF RAIN BLESSES CISCO SECTION

Winter grass, fall grains, soil moisture needed for early breaking to conserve further winter rains, stock water and the agricultural industry in general got a boon this morning as copious showers drenching the Cisco countryside to a total precipitation of one and one-half inches. The thunderstorm that brought the downpour began about 5:30 a. m. and the showers continued well into the morning, flushing streets with swift currents, pouring replenishing floods into dry stock tanks and submerging dry acres with a beneficial moisture. Winter wheat, principally wheat and oats with some barley intermingled, was given a boost that will carry it well into the winter and start a healthy germination for spring growing without much additional moisture during the season. Plantings to grain crops in this section are, however, somewhat less than in past seasons, said to be in the season of topsoil for winter wheat breaking to absorb and conserve further seasonal rains. Many ranches in the vicinity were spared the further necessity of hauling water to supplement rapidly dwindling supplies. In some cases ranchmen were put to the extremity of sinking wells to provide for their herds. Winter range, given a few pleasant days will be greatly benefited. Cows should respond quickly to that stimulus.

Tell of Drafts on Long Treasurer

NEW ORLEANS, Nov. 20 — Bankers testified before a senate investigating committee today that thousands of dollars worth of drafts were drawn on Seymour Weiss, unofficial treasurer of Sen Huey P. Long's political organization, during and soon after the senatorial campaign of John Overton. Overton, backed by the Long organization, defeated Sen. Edwin Broussard in the 1932 primary. Anti-long leaders have charged that huge sums of money were expended illegally in Overton's behalf, and that Weiss mixed his personal and campaign accounts.

SCHOOL MAKES TOYS

MILWAUKEE, Wis., Nov. 20 — Christmas toys are made by children and parents alike at workshops maintained here by the public school extension department. Dr. Ben D. Wood, a University of Texas graduate, now director of the Bureau of Collegiate Educational Research in Columbia college, New York City. He was co-director of an experimental study of the educational uses of the typewriter in elementary school; wrote several books including "Motion Pictures in the Classroom." Dr. Ambrose L. Suhrie who, during the past 10 years, has visited all the tax-supported higher institutions of learning in the United States in connection with a personal survey of teacher-preparing programs in various states. He is a well-known lecturer, is head of the department of teachers college and normal school education in the School of Education, New York university. He will fly to Texas from New York. Dean Gordon J. Laing, annual professor in the American Academy in Rome, general editor of the University Press in the University of Chicago. He is an active archeologist.

Bandits Get \$800 From Theater Safe

SHERMAN, Nov. 20 — Two bandits obtained \$800 from the safe of a local theater today after they blindfolded and bound a negro porter. They knocked the knob from the safe. A widespread search was started for the bandits.

Welles Gives F. D. R. "Lowdown" on Cuba

WARM SPRINGS, Ga., Nov. 20 — President Roosevelt today studied a comprehensive outline of the Cuban political situation, placed before him by Ambassador Sumner Welles. Welles, in a five-hour conference, gave him a mass of highly confidential information. The nature of this information was undisclosed, but led to speedy dispatch of Welles to confer with state department officials.

WOMAN PUT FORWARD FOR TEACHER HEAD

AUSTIN, Nov. 20 — Women school teachers of Texas, a little weary perhaps of masculine rule of the Texas State Teachers' association, will seek to elect Mrs. Roy C. Owens, Tyler, as president when they convene here Thanksgiving day. Mrs. Owens is a graduate of the East Texas State Teachers' college and is working on her Master of Arts degree at Peabody college, Nashville, Tenn. In Tyler she has been a grade teacher, high school teacher, vice-principal of the high school, and director of instruction in the public schools. Endorsers of J. O. Loftin who has taught in Corpus Christi, San Antonio and San Marcos, have placed an NRA plank in his platform for the association's presidency. The NRA should be asked to work out a code for teachers, many of whom receive salaries less than the minimum wages guaranteed for non-skilled labor, Loftin declares. His other proposed planks include: preparation for a "legislative year" by acquainting Texas teachers with educational goals; extensive publicity to the cause of public schools; local and sectional organization of teachers; closer cooperation between the state board of education, the state department, and the state teachers' association. A program that includes 42 sectional meetings, varying in subjects from penmanship to science, has been planned for the convention. A host of noted educators also have been invited to address the convention. Among them are: Herbert B. Bruner, professor of education in charge of the curriculum laboratory, Teachers' college, Columbia university. He was once a football coach at McMillan high school, Mexico, Mo.; later became an author, among whose works is one entitled "Children's Poetry Interests." He has served at various times as curriculum consultant at Houston, Port Arthur, Beaumont, and Fort Worth. Dr. Ben D. Wood, a University of Texas graduate, now director of the Bureau of Collegiate Educational Research in Columbia college, New York City. He was co-director of an experimental study of the educational uses of the typewriter in elementary school; wrote several books including "Motion Pictures in the Classroom." Dr. Ambrose L. Suhrie who, during the past 10 years, has visited all the tax-supported higher institutions of learning in the United States in connection with a personal survey of teacher-preparing programs in various states. He is a well-known lecturer, is head of the department of teachers college and normal school education in the School of Education, New York university. He will fly to Texas from New York. Dean Gordon J. Laing, annual professor in the American Academy in Rome, general editor of the University Press in the University of Chicago. He is an active archeologist.

ORGANIZATION FOR RED CROSS DRIVE READY

An elaborate organization of groups of women workers to make a whirlwind campaign of the city beginning Wednesday morning at 9 o'clock, was snapped at a meeting of the Red Cross roll call executive committee this morning. The committee met at the chamber of commerce offices. It has called a meeting of all workers whose names are listed below to meet at the same place Tuesday morning at 9 when final instructions will be issued for a drive which Mrs. William Reagan, chairman of the roll call forces in Cisco, and her sister officers, hope will consume only a day in reaching the quota of 500 members fixed for this city. Mrs. J. B. Cate is vice chairman of the group and Mrs. W. W. Wallace secretary. These three women and J. E. Spencer, county chapter chairman, and H. L. Dyer, county roll call chairman, form the executive committee for the local drive. In a statement urging attendance of all workers upon the preliminary meeting tomorrow morning at 9 o'clock, Mrs. Reagan said that the campaign objective is expected to be reached within two days at the most, but that this result will depend upon the cooperation that the workers can give.

Teams

The teams and their fields are: Humboldt: Mrs. P. D. McMahon, Mrs. W. C. McDaniel, Mrs. Rice Forman, Mrs. G. C. Rosenthal. Randolph Hill: Mrs. John Spertzer, Miss Effie King, Miss Nina Watts. Main street, R. R. to 6th, 6th to 10th, 10th to 14th: Mrs. Geo. Fee, Mrs. W. J. Leach, Mrs. J. R. Henderson, Mrs. H. E. McGowan, Miss Ester Hale, Miss Catherine Cunningham, Mrs. Helen McGinnis. Bank: Mrs. J. T. Berry, Mrs. J. J. Butts. Post office: Mrs. P. P. Shepard, Mrs. C. C. Jones, Miss Mary Jane Butts. East of A avenue, Katy R. R. to Lee's road: Mrs. J. F. Benedict, Mrs. James Haney. East of D avenue to 14th to Lee's road to A avenue: Mrs. K. N. Greer, Mrs. F. J. Borman. West of D Avenue West of A avenue to 14th to H avenue: Mrs. S. W. Coplin, Mrs. C. S. Sandler. West of H avenue to 14th: Mrs. Paul Woods, Mrs. Allen Wood. 14th and 13th, north side of 14th: Mrs. S. E. Hittson, Mrs. P. R. Warwick. 10th and 11th streets: Mrs. A. J. Olson, Mrs. D. E. Waters, Mrs. W. H. LaRoque. 9th street: Mrs. H. L. Dyer, Mrs. Shaefter. 8th street: Mrs. Homer Slicker, Mrs. G. B. Kelly. 7th street: Mrs. Hubert Seale, Mrs. E. P. Crawford. 6th street: Mrs. J. E. Spencer, Mrs. J. T. Anderson, Mrs. W. E. Rice. 5th and 4th streets: Mrs. A. N. Crownover, Mrs. A. L. Filler. 3rd, 2nd, and 1st streets: Mrs. L. E. Boyd, Mrs. H. G. Bailey.

Other Sectors

Harrell's addition: Mrs. Paul Woods, Mrs. Allen Woods. Belmont: Mrs. Leon Maner, Mrs. Dexter Shelley. Katy R. R. east to T. & P. south to 10th: Mrs. Sam Kimmel, Mrs. James Flournoy. Katy R. R. east 10th to 14th: Miss Dorothy Kramer, Miss Earlene Hageman. Katy R. R. east 14th to highway: Mrs. Linebarger, Mrs. R. W. Smith. Highway south to Katy, Elfretham Heights: Mrs. Litchfield, Mrs. E. A. Wilson. Junior Roll Call West Ward: Mrs. T. C. Williams, Mrs. Connally, Howard Goss. East Ward: T. C. Williams, Lucile Spruill. High school: Mrs. Irby, Miss Marion Chambliss. Grammar school: Mr. L. Stamey, Frank Langston, Miss Fannie Stevens.

ROW STOLE COP'S PIPE

BEAVER DAM, Wis., Nov. 20 — Hans, a crow owned by William Jones, but the pet of the entire community, was killed recently by an automobile. Hans' most famous escapade was the theft of a pipe from Assistant Chief of Police Henry Lewis. The bird was perched on the back of the chief's chair. It took the pipe from Lewis' mouth, flew out of the police station, and placed it on a ledge of a downtown office building.

Cisco Hunters Have Uniform Success in Deer Country; Three Parties Make Trip

Uniform success has blessed the early season excursions of Cisco deer hunters into the deer country of southwestern Texas. Three parties returned and one still out by Sunday morning had accounted for ten deer, it was reported today. Eight-point bucks were bagged by Dr. Charles Hale and O. J. Tillinghast, members of separate parties. Smaller animals were taken by Alex Spears, who was probably the first Ciscoan to bring down a deer this season; E. R. McDaniel and W. R. Winston. Mr. Spears, Dr. Hale and Mr. McDaniel formed one group. They went to a hunting lease in the Davis mountains, arriving for the opening of the season Thursday. Mr. Spears brought down a four-point buck within the first hour of hunting. Dr. Hale and Mr. McDaniel, the latter getting a five-point specimen, were not successful until Saturday morning.

Formal Protest of Ranger Player Made

Cisco school officials this morning protested the ineligibility of Horace Hill, tackle on the district-leading Ranger Bulldog football team, on the score that the player is too old to participate in interscholastic league athletics. The protest was filed by telephone, followed by a formal statement to district Executive Committee Chairman Dudley, of Abilene, immediately after Supt. R. N. Chuck was informed of a statement by Supt. R. F. Holloway, of Ranger, denying he had conceded the ineligibility of the player and declaring in effect that the "next move is up to Cisco."

CANADA SEES INCREASE IN RUM RUNNING

MONTREAL, Nov. 20 — Smuggling of liquor along the Canadian-United States border, instead of diminishing with repeal, will become more widespread, it is predicted here. According to indications, smuggling will be particularly active in Canada, where high excise taxes and consequent high price to the consumer literally "invite" rum running operations. Hitherto, rum-runners on the Atlantic coast have operated with the double purpose of smuggling liquor into the United States, where legal sale is forbidden, and into Canada, where, if the \$8 a gallon excise tax can be avoided, it can be sold far below the legal price. It is believed here that bootleggers will find smuggling unprofitable in the United States because they will be unable to compete with the low prices expected to be charged for the legal product, and will concentrate on Canada. Consequently officials expect extensive smuggling on the eastern seaboard will be attempted. Smuggling of liquor into Canada is no new development, but it has become particularly serious during the last few months. The tax, in Canada is so high that smuggling operations always have been profitable to a charge of receiving stolen property. Wagoner was arrested here August 5 as he stepped from an airplane with \$86,000 worth of stolen bonds in his possession. The bulk of the securities were taken in a robbery of the Windsor State bank, of Windsor, Kan., last May.

PLEADS GUILTY

LOS ANGELES, Nov. 20 — Elmer F. Wagoner, alleged member of a nation-wide "hot bond" ring, today pleaded guilty to a charge of receiving stolen property. Wagoner was arrested here August 5 as he stepped from an airplane with \$86,000 worth of stolen bonds in his possession. The bulk of the securities were taken in a robbery of the Windsor State bank, of Windsor, Kan., last May.

NOT ENOUGH HOMES

Not enough residences to accommodate all the visitors due to be here next week for the Nazarene district convention have been secured, the Rev. Luther Pryor, pastor of the local church, said today. Those who have beds to place at the disposal of the church for the entertainment of visitors should call 734, the minister's home, to list them. No meals will be asked.

SECOND TRY BEING MADE BY SETTLES

CHICAGO, Nov. 20 — Commander T. W. G. Settles, in his stratosphere balloon, was 49,000 feet in the air and somewhere between East Liverpool and Pittsburgh at 12:30 p. m. CST, he radioed back to earth today. Explorers encased in metal gondola AKRON, O., Nov. 20 — Two aeronauts shot upward from earth today, encased in a metal gondola attached to a huge balloon which they believed would take them into the stratospheric regions, ten miles or more above the ground. Lieut. Commander T. W. G. Settles, attempting his second stratospheric flight, and Major Chester Fordney of the U. S. marines, were in the balloon as it tore itself from the grasp of the ground crew and shot skyward at 9:37 a. m. One of the main objectives of the flight was to study cosmic rays in the stratospheric regions ten miles above earth. Today's flight marked the second attempt of Commander Settles to invade the stratosphere. On August 5, he took off from Chicago as a feature of the World's fair but landed on railroad tracks ten minutes later because of sticky gas valves. A crowd of 400 or 500 persons watched as the craft soared into the air this morning and drifted off toward the southeast, rising rapidly.

COAST GUARD CONTINUES WAR UPON RUM ROW

ABOARD U. S. S. AURORA, at Sea, Nov. 20 — The coast guard's war with Rum Row flared into new activity today with a score of foreign vessels cruising off shore seeking to dispose of about \$3,000,000 worth of liquor in time for the Thanksgiving trade. Bobbing about in the sea, the Aurora is watching to prevent part of the smuggling. Stretched along beside it are two other rum runners. Other boats are patrolling nearby sections. The liquor out here now, if imported legitimately, would add \$1-500,000 to federal revenue. This kind of untaxed liquor will be contraband after repeal just as it was before. The Aurora is watching for the 20 or more specialized rum carrying vessels scattered over a 10,000-mile area off the New York and New Jersey coasts.

Arkansas Player Found Ineligible

FAYETTEVILLE, Ark., Nov. 20 — Violation of the Southwest conference football eligibility rules was revealed here today by the athletic council of the University of Arkansas. Dean J. S. Waterman, chairman of the council, said that Heinie Schlietter, reserve tackle, was registered at the University of Nebraska last year where he played football and therefore was ineligible for competition in the southwest conference. The Arkansas team now leads the Southwest conference race and faces the University of Texas in a crucial game Saturday which may determine the championship of the conference.

PRICE FIXING IS DENOUNCED BY SEN. DICKINSON

WASHINGTON, D. C., Nov. 20 — Sec'y of Interior Ickes, as oil code administrator, announced today that the effective date of the price fixing scheduled for the petroleum industry had been postponed until January 1, 1934. A slashing attack on government price-fixing was led by Sen. L. J. Dickinson of Iowa, keynote at his last republican national convention as hearings were arranged today before the petroleum planning and coordination committee on a proposed schedule of prices for the oil industry. More than 150 persons were scheduled to testify at the hearing. Oil Administrator Ickes revealed that between 500 and 700 briefs had been submitted, most of them objecting either to price control as a policy or to items in the schedule. The hearing was scheduled for 10 a. m. but was recessed until 2 p. m. Dickinson charged that proposed prices would "unnecessarily increase the take-off of the big companies by hundreds of millions of dollars annually, at the expense of the consumer."

WEATHER

West Texas — Generally fair tonight and Tuesday. Cooler north portion Tuesday. East Texas — Mostly cloudy; probable local showers east and south portions tonight and Tuesday. Cooler northwest portion Tuesday.

Arkansas Razorbacks Hard to Stop In Race for S. W. Conference Title

By MERRILL E. COMPTON
United Press Staff Correspondent
Dallas, Nov. 20. — Notes from Southwest Conference grid camps: Sports writers in Texas generally rate Ray Morrison, head football coach at Southern Methodist University, the best of the seven coaches in the conference.

University of Arkansas usually has the poorest material. This is not the case this year, for the Razorback with plenty of squadsmen are having a big year and are making a desperate bid for the conference title.

Fans may witness the annual University of Texas vs. A. and M. game, a traditional battle cheaper this year than in the past. The price is \$2 per seat. The game will be played at the Cadets' historic Kyle Field at College Station.

College news does not occupy all the space in sport pages in Texas newspapers. Item in the Port Arthur News after the local high school team had defeated Corpus Christi College Academy eleven, 78 to 14.

Highland Park High School, Dallas, has had as many as 5,000 persons follow the team when it plays an out-of-town team. Several Southwest conference games were played early this season with less than 5,000 persons in the stands.

Men who have played opposite Tackle Will Greathouse of Baylor say he lives up to his name "Sulitcase" Simpson, named because of his big feet, is one of the fleetest men on the Baylor squad.

Did You Ever Stop to Think?

By EDSON E. WAITS
Shawnee, Oklahoma.

It is an ancient axiom that "from little causes great events do spring."

There are a few cities in this country where the merchants fight each other. Citizens who fight each other keep the home town in an uproar all the time and then wonder why business does not get better and why the city does not grow.

From press reports I note that Germany has a Minister of Propaganda. Well, that's nothing new to us. We have plenty of them in this country.

The advertisements in this newspaper throw a powerful light to guide you as to where and when to buy.

Members of Congress should not at any time keep the people in ignorance of what really is happening and should always give them a knowledge of affairs as they go along, painting a picture of future prospects.

It needs no stretch of imagination to realize how tiresome it is when you sit down to listen to a program of music on the radio and are bombarded with a lot of advertising. When most people want to find where to buy, they read the advertisements in the newspapers. When they want entertainment, they turn on the radio. Advertisers should stop and think this over.

The road to success should be paved with good deeds for your city.

PLANS PAGEANT

TEXARKANA, Ark., Nov. 20 — A gigantic pageant will celebrate the growth of Texarkana, strategically located as the trade center of four states area, here December 7-8.

WIDE DOLLAR FLUCTUATIONS SWAY MARKET

In its weekly review of business and financial conditions The Wall Street Journal says:

Wide and extremely erratic fluctuations in the dollar in the foreign exchange market made speculators and investors in stocks and commodities extremely nervous over the past week. Rumors of all sorts, bearing particularly on the possibility of stabilization and government action to halt the flight of capital from this country, were spread through the financial community, adding to the uncertainties surrounding the markets.

The government's monetary policies continued to occupy the foreground in the market picture, and the most interesting development of the week, in this regard, was the action of the Reconstruction Finance Corp. in holding the price of gold at \$33.56 an ounce for four successive days.

The financial community is as much in the dark as ever in regard to the monetary moves to be made in the near future. Secretary Woodin has announced his intention of explaining the gold policy in an address to the country, but his withdrawal from the treasury department on leave of absence, brought a cancellation of that proposal.

Show Improvement
The securities in the monetary situation did not completely cover the fact that some businesses were showing improvement. Merchandise sales, particularly activity in mail order houses, were at a considerably higher level. Cold weather, bringing an expansion in seasonal buying, was partly responsible. The weather

HOOKS AND SLIDES

Horses Go South

RUNNING horses will be going south very soon, like the horses do. . . . Hialeah Park and Tropical Park at Miami will house the stables of the Whitneys, Joseph E. Widener, Sylvester W. Labrot, A. C. Bostwick. . . . Labrot's mare, the great Tred Avon, which once defeated Equipoise, will be among those entered for the major stakes.

It's Official

THE wrestling season now is actually on. Tiger Man Pesek having posted his \$1000 check to bind a match at St. Louis with Ray Steele. . . . For several years a South Bend newspaper has been running articles signed by "Bearskin," taking pot shots at the Notre Dame team. . . . The players used to figure Rock was doing them. . . . but the letters have continued, one printed the other day being a honey.

Sports promoters will have something when they combine rodeo with racing. . . . Alabama Pitts, Sing Sing star, will be lost to the team by graduation in about a year and a half. . . . he's a young Alabamian and that story about him

also played a part in lifting electric output, and boosting the coal business.

The most eagerly awaited news is steps the government will take for December 15 financing when roughly \$27,000,000 of certificates of indebtedness matures.

For the first time in many weeks the trend of steel operations has reversed. After touching 58.95 per cent for July there was practically an uninterrupted decline, with a low of 25.2 per cent on November 6. As of November 13, the American Iron & Steel Institute reports 27.1 per cent, an increase of 1.9 per cent over a week earlier.

Most of the improvement occurred among the smaller independent companies which encountered a more active demand from customers

More Sorrow Than Anger

ONE of Hank Anderson's severest critics, a fellow who has been writing to us for more than a year pointing out Hank's weaknesses has changed his mind. . . . and wants to see Hank retained next year. . . . says he's beginning to sorry for a guy who has taken the way of Hank has.

If Max Baer had fought Schmeling again last summer to weeks after he knocked the German out, the Livermore Larruper probably would have beaten der Schlegel. . . . but if the two meet again Feb. 22, as planned in San Francisco, Max Baer may find the little bit too tough (not an advertisement for Hollywood, city of beautiful homes, etc.).

Mr. O'Goody wants to know this here Litvinov can rattle. . . . Pop Warner is right when he says football today is too much defense. . . . the pros have been putting wild scoring games with their rule that allows passes to be thrown from any point behind the line of scrimmage. . . . whereas there are too many zeros in the college game

for deliveries on lighter articles. The week's range of the Dow Jones averages follows: 30 Industrials—High, 99.01; 94.36; last, 98.09.

20 Railroads—High, 39.71; 37.34; last, 38.61. 20 Utilities—High, 24.38; low, 21; last, 23.21.

40 Bonds—High, 80.56; low, 78.80; last, 78.80. Week ended November 17, 1934.

DOGS WERE HEIRS

PORTLAND, Ore., Nov. 20—The dogs of Portland got a big treat recently when Circuit Judge Tawell ruled valid portions of will bequeathing \$19,000 to care for strays. A home for dogs is to be built with the money, according to the will.

GAS DEMAND ON FIRST COOL DAY WAS DOUBLED

Demands for gas service doubled in a few hours here when the first cold weather of the season ushered in yesterday. H. E. Dyer, manager of the local gas company, said: Fifty additional wells in four gas fields had to be opened the first day and 11 additional compressor engines totaling 10,000 horsepower were started to supply the suddenly increased demand over the gas system.

These engines and wells, idle since last winter, are only a part of the gas company facilities which must be kept in readiness to meet almost instant demands of winter, Mr. Dyer explained. As the weather grows colder, more engines and wells idle during summer will be put into service.

With arrival of winter, Mr. Dyer gave some simple pointers for greater economy and efficiency in house-heating. All heating appliances should be cleaned and adjusted, he said. A blue flame indicates an efficient gas blaze while a yellow flame denotes waste.

Gas should not be turned up in open flame heaters so high that the flame leaps above the top. This causes waste and disagreeable, unhealthy fumes. Bathroom heaters should be turned down as soon as a comfortable temperature obtained. If such heaters are left on continuously.

People should not leave gas heaters burning when they go shopping or leave the house in the evening. By closing doors and windows, the rooms will retain most of their warmth. Any open fire is a fire hazard when not guarded.

Instead of opening doors and windows to reduce temperature, heaters should be turned down. A wall thermometer will help to keep heaters regulated to comfortable temperature. Sweating of walls and windows can be reduced by opening a window slightly from the top to give air circulation, or by connecting the heater to a flue.

H. I. O. C. AIDS KANSANS
KANSAS CITY, Mo., Nov. 20 — The Home Loan Owners' corporation already has brought relief to 334 urban mortgages in Missouri and 2,826 in Kansas. The Missouri totals approximate \$1,342,021; those in Kansas, \$3,877,225.

San Quentin Prison Paper Is Widely Read

SAN QUENTIN PRISON, Calif., Nov. 20 — "Some men desire greatness, some would achieve wealth, while still others aspire to power. But in San Quentin more than 5,000 men ask only that they be permitted to become ex-convicts."

True, there are many of these that is circulated to these 5,000. And it's always good for a grim smile from every one of them who can read.

True, there are many of these gray-haired prisoners who are unable to read, but the majority can. And a good percentage of this majority not only readily understand the English language, but is more than adept at writing it entertainingly.

Every letter, every space and every punctuation point in The Bulletin is set by hand. It takes three men a total of 360 spare hours to set a twenty-page issue.

O. B. Lake, California publisher, recently estimated that newspapers and magazines throughout the world picked up more than 13,000 excerpts from the Bulletin.

Robert Hall, woman inmate, is the first of her sex to be appointed to the staff of any major prison publication says the magazine, explaining that this information is based on "a recent search." She is a regular contributor to the organ, which carries illustrations, and poems by the "Caged Poets."

DELAYS PLANS

MONTREAL, Nov. 20 — Plans for celebrating the 400th anniversary of the discovery of Canada are being delayed because a group of citizens are not sure when the country will be 400-years-old. Some members of the committee in charge of the celebration insist that the event should be held in 1934. Others are equally sure that it should be held in 1935.

CLOSING TIME FOR MAILS

 - Fort Worth and El Paso Train No. 2 (E. Bound) 10:40 a. m.
 - Fort Worth and El Paso Train No. 3 (W. Bound) 11:45 a. m.
 - Waco and Stamford Train No. 36 (N. Bound) 10:40 a. m.
 - Fort Worth and El Paso Train No. 4 (E. Bound) 3:30 p. m.
 - Fort Worth and El Paso Train No. 1 (W. Bound) 4 p. m.
- All night mails close at 9 p. m. with exception of Sunday when night mails close at 6:45 p. m.

SISTER MARY'S RECIPES

BY SISTER MARY
NIA Service Staff Writer

IT'S difficult to understand just why the menu for the Thanksgiving dinner should puzzle any one of us. Our honored ancestors in the days of the Pilgrim fathers and mothers established a menu that has remained fixed and unchangeable through the years, yet each year in countless homes, November brings the important question of "What shall we have for our Thanksgiving dinner?"

Usually the answer is "Turkey, by all means." However, the very small family may prefer a good sized chicken stuffed and roasted exactly like the turkey, or a savory duck with sage and onion stuffing. Guinea hen and any variety of game may take their places as the piece de resistance for the Thanksgiving dinner with excellent effect.

But turkey alone can't make a Thanksgiving dinner. The "fixin's" are as important as King Turk. In some parts of old New England chicken pie ran a close second to turkey. Both were often served at the same dinner. According to our modern way of thinking and eating, either one or the other, but not both, should be served.

Ten-Pound Bird for Eight
A ten-pound turkey is ideal for a group of six or eight. If the family is to include ten or more persons of course more turkey will be needed. Two ten-pound turkeys will be found more satisfactory than one sixteen or twenty pounder. The meat on the small bird is apt to be much more tender and sweet than on the larger ones. Don't forget to have the turkey delivered to you drawn and cleaned.

Have the turkey delivered early in the morning of the day before Thanksgiving. This gives time to wash and thoroughly drain the bird before stuffing late in the afternoon. If the turkey must be washed and stuffed on Thanksgiving morning, confusion is likely to reign in the kitchen.

The following menu is a typical "old time" dinner. While simple it is interesting enough to give you a simple opportunity to display her skill. If it does not meet your immediate needs it may sug-

- Tomorrow's Menu**
- BREAKFAST: Stewed prunes with lemon, cereal, cream, crisp broiled bacon, corn bread, milk, coffee.
 - LUNCHEON: Baked macaroni and oysters, rye bread, hearts of celery, baked quinces, milk, tea.
 - DINNER: Baked spareribs, mashed potatoes and sauer kraut, baked corn, grated carrots and apple salad, cherry (canned) pie, milk, coffee.

rest other possibilities to you. Clear tomato soup can be substituted for clam broth and a plain bread stuffing for the oyster stuffing.

- Thanksgiving Dinner Menu**
- Clam broth
 - Celery Pickles
 - Olives
 - Roast turkey
 - Oyster stuffing
 - Cranberry Jelly
 - Mashed potatoes
 - Giblet gravy
 - Shredded cabbage and green pepper salad
 - Boston brown bread
 - Pumpkin Pie or Thanksgiving pudding
 - Nuts
 - Fruit
 - Coffee

Do these things on Wednesday: Cook and chop giblets. Wash and stuff and truss turkey.

Cook onions. They are then ready to reheat in the cream sauce which must be made Thursday. Select tiny onions and cook them whole.

Bake squash and remove from shell. Bake the brown bread. Stew pumpkin and run through colander.

The cranberry jelly can be made Tuesday. On Thursday morning bake the pies before the turkey needs the oven. The potatoes must be cooked and mashed. The gravy is made in the roasting pan after the turkey is removed to a hot platter. Make cream sauce for onions and allow them to sit for the onions to heat in the sauce.

Season squash and reheat over hot water. Make the soup and salad and set the table.
