NO REDUCTION IN ACREAGE, NO FEDERAL LOANS

Cotton growers who are eligible to sign cotton acreage reduction contracts with the federal government and do not do so will receive no additional federal loans of any character, local committee Chairman Felix Boland made plain today.

The government, he said, has determined to "play ball" with the farmers who play with it and under no circumstances will it give assistance to growers who are not cooperating in helping to reduce the huge cotton carry-over and hike the prices for the staple.

Boland said that the 100 pound per acre minimum production requirement for eligibility to executive cotton crop reduction contracts with the government will effect the Eastland county situation seriously.

PROTEST COTTON REQUIREMENT

The minimum requirement of 100 pounds per acre average production threatens the success of the federal government's cotton reduction campaign, declare a group of farmers and farm leaders who have called a mass meeting of cotton growers of this area to meet at Anson Saturday to consider the problem. The administration will accept no contracts upon and pay no rentals for land which over the five-year base period, 1928 to 1932, inclusive, did not produce an average of 100 pounds of lint cotton per acre. In the case of Eastland county, this regulation will exclude a great number of growers who would otherwise cooperate. The country's average acre production over the period is said to be less than 100 pounds. The government will pay three and one-half cents per pound upon the basis of this average production for all land removed from the crop next year. As much as 40 per cent of a grower's cotton soil may be so leased to the government as a guarantee against over-production of the staple which for generations has set the economic pace of the south.

The Eastland county committees are already at work helping the farmers to sign up contracts. The Cisco committee is established at the chamber of commerce where the cotton growers of this area may receive the assistance of the members without cost to themselves. All contracts must be signed by February 1 to become effective. As in the case of last summer's cotton plow-up contracts, they must be approved by the agricultural adjustment administration at Washington. No payments will be made until the farmer signing such an agreement demonstrates that he is carrying out its terms. But all who joined with the government in reducing the planted acreage of last year's crop realize that the administration will do what it promises.

It is too early to register a verdict upon the Roosevelt farm program, but it is not too early to point out the distinction between past administrations under which farm crises occurred and the present leadership at Washington. It takes no particularly deep study of history to show that a prosperous farmer makes a prosperous nation. The farmer is and will continue to be the source of economic welfare. Social strata dependent upon his production may flourish in a temporary plethora of prosperity, but the result is always the same. Speculation never produced anything. It never will. If prosperity returns to America it will return because the hands of the workers of America fashioned it, and it will start with the man behind the plow.

Of the rental payments on plow-up contracts last summer, figures released from Washington show that a total of \$43,127,942 went to Texas. This represented payment on 252, 683 contracts. Texas producers also hold options on 731,023 bales of government cotton. Funds from this, above six cents per pound, are yet to be distributed to the holders. And there is a rising cotton market.

THE FARLEY TRIP

The Farley junket trip to Texas is due to get the congressional probing needle. The bland, astute patronage dispenser of the federal administration and members of his party would be asked who provided their air transportation to the southwest on a goodwill mission that was Mr. Farley's personal gesture of thanks for what Texas has done to help put Roosevelt in office and a bid for future democratic support. Republicans, digging around in the Washington apple barrel are badly in need of a few rotten pippens. An American Airways plane, the republicans hint, was placed at the disposal of the Farley party for the trip. American Airways is the holder of important government air mail contracts, that were not awarded under democratic administration. Regardless of whether or not that means anything, it might help republican feelings considerably while they are explaining certain empty files in the office of ex-postoffice officials at Washington.

COTTON VALUES HIKED \$6 A BALE

At New Orleans, one of the great cotton markets of the world, as well as one of the great export markets, cotton values climaxed a steady three weeks advance with a further rally of 85 cents to \$1 a bale at the close Jan. 13. Indeed, final prices on that date represented a net gain of nearly \$6 a bale since Christmas week. All of which was very gratifying news to the owners of cotton held on the farm or stored in the warehouses of the country.

Speaking of Texas and Texans, all delegates attending the Interstate Commerce commission cotton rate hearing at Houston voted almost unanimously for a resolution endorsing the nomination of Walter M. W. Splawn as a member of the interstate commerce commission. President Roosevelt was congratulated in the resolution for his appointment of the former president of the University of Texas and speedy confirmation by the senate was urged.

A Texan, Sam Rayburn, is chairman of the house interstate commerce committee. He is one of the sponsors of Splawn. It is said that Splawn has the united backing of the two Texas senators and the 21 representatives. A Texan, John H. Reagan, was responsible for the creation of the Interstate Commerce commission. Reagan was a member of the senate. He declined a place on the newly created commission tendered by Grover Cleveland, who was president of the United States. Reagan, who was the postmaster-general of the Confederacy under Jefferson Davis, resigned his senatorship to accept appointment of the Texas state railroad commission. James Stephen Hogg was governor and the venerable Reagan was his loyal friend and constant adviser. Now a Texan has been named for the I. C. C. post, the first since creation of this very important branch of the federal government.

BOY CAN WE TAKE IT!

Cheering News for Texas Sheep and Goat Men

By HUGH NUGENT FITZGERALD
William I. Myer, governor of the farm credit administration, has announced the continuation this year of a marketing plan for the wool and mohair clip similar to the one employed in 1933. He said in his statement the plan would "assure the industry a much firmer price foundation than might otherwise exist although it is an effort to prevent unnecessary fluctuations rather than to control prices." Avoiding both forced sale and withholding wool and mohair from the market the growers producing and marketing association and the farm credit administration will cooperate to market the clip in response to consumption demand. Moreover the plan is solely a method of orderly marketing and the prices of grease wool advance sharply throughout the greater part of 1933 following its institution. This year the price of wool, according to Myer, would be determined by fundamental factors of supply and demand. He advised that no rise of such proportions as experienced in 1933 was looked for this year.

of the people of the Valley prophesied a wonderful future for the lower country. This is an excerpt: "I believe that every business man in the Valley believes that better times and conditions are at hand for a rally, and he tells the reason why. 'With their unparalleled agricultural advantages and backed by deserving aid from the federal and state governments we are on the threshold of an epoch of advancement and national prosperity... We should begin to make our plans for building our business to greater proportions anticipation of trade that is over there will be millions of dollars in process of spending in the Valley on public projects. More millions will come in through vegetables and fruit crops. The nation will hear of these things and new people, with money in their pockets, looking for business and home sites, will come.' A man without vision is a man without hope. Editor Bray is a man of vision. Texas is on the verge of a new departure. Texas in 1950 may have a population of 12,000,000. It will have the greatest ports of entry. Its coast line is the largest of any commonwealth. Its natural resources are the richest. Its soil and its climate should appeal to all seekers of homes from other states

and countries. "Out on the firing line" is the place for all red blooded men and women who love their state and would see it move forward in all the years of the future.

Certain twitterings and mutterings that occasionally haunt the shadowy corners of the city hall offices while Mayor Berry is enjoying a nap, have been the source of considerable speculation among keen-eyed visitors. Those whose duties confine them to the building have grown so accustomed to the inarticulate sounds that they accept them as a part of the official atmosphere. There is nothing ghostly about the sounds. They may be likened to delicate snoozing, as though a sleeper afflicted with the habit had learned to confine it to bounds of reason. But there is no convenient nose to which they may be traced. The solution to this puzzling phenomenon is a tribute to the

EUROPEAN MARKETS FOR TEXAS GRAPEFRUIT
Texas grapefruit has made it bow to the people as well as the palate of France. An American ship touched dock at Harve just the other day with a cargo of 500 cases of Magic Valley grapefruit and thus opened a new market in Europe for the Texas grower. French importers are said to have expressed the hope that the Texas growers could furnish 25,000 cases this season. This first cargo loaded at Houston, included fruit from the region around McAllen. There is no quota on imports of grapefruit in France at present, although the French government has rigid restrictions on American apples and pears and other fruits.

For almost six months Cisco has enjoyed an excellent fire record. It has been as near perfect as it is probable a record of the sort will be. In that period only one fire of sufficient consequence to require the use of water has occurred and that just recently. Jack Jamevson's car and garage were destroyed.

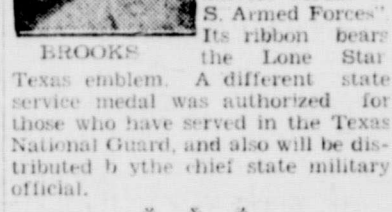

Cisco property owners are today paying the cost of excessive fire losses in previous years. A 12 per cent penalty has been added to the insurance rate to reimburse the insurance companies for the money paid out during years when there were frequent and destructive fires. It is further unfortunate that the increased cost took place during depression years.

The 12 per cent means that several thousands of dollars in additional premium go out of Cisco annually. It does the local agents no good for they receive no increased commissions. It injures their business, instead for the higher cost may deter prospective purchasers of insurance protection.

Now, while Cisco is having success with its fire prevention program, it is time to lay new emphasis upon the necessity of public cooperation in keeping Cisco free of fires. Let's keep up the good record.

AUSTIN, Jan. 18 — A service medal, decreed by the legislature every Texas who has served in U. S. forces in any war, has been designed by A. H. Gen. Henry Hutchings and prepared for distribution. It will be furnished by the department to all Texas veterans. The medal bears a design of the Alamo, encircled by the words "Texas Service Medal U. S. Armed Forces". Its ribbon bears the Lone Star Texas emblem. A different state service medal was authorized for those who have served in the Texas National Guard, and also will be distributed by the chief state military official.

A Texas historical survey, sponsored by the federal government, is being started in Austin. Wichita Falls and other cities, opening the way for the first systematic collection of historical documents and data. Besides the incidental employment this will offer, the survey will lay the groundwork for the real Texas Centennial movement of 1936.

Not only will documents of lasting value be sought out and preserved, but the lore of the southwest, the lively record of vivid Texas events that exist now only in the memories of old-timers will be required to orderly form, verified and documented.

Texas owes a real expression of thanks to those who were willing to see this undertaking in motion as a government project, and to those who will carry it through.

So far, every question ever aimed at the power of the home rule charter city has been resolved in favor of the breadth of the city's power. This is doubly significant, now that the voters have empowered counties to adopt similar home rule charters. One of the long list of tests has now matured in supreme court awaiting a decision, and no guess is offered as to its outcome. That question is whether city charter provisions are valid that permit the issuance of bonds based on revenue of municipal utilities, and not as a lien on property. It will be decided in the Houston and Dayton mandamus cases in which Atty. Gen. James V. Alford and federal public works authorities are cooperating to secure the final court decision.

COPS MUST BE THRIFTY
UTICA, N. J., Jan. 18 — Because Utica police and firemen "have become noted for not paying their bills," Capt. Arthur W. Picard, newly appointed commissioner of public safety, has ordered the men to pay their debts. "Either pay your bills or get out of the department," Picard's order said. "Remember you can't entertain a champagne appetite with a beer income."

Jury Gives Verdict "Roosevelt Way"

HOUSTON, Jan. 18 — Do it the Roosevelt way," is the new jury instruction heard in District Judge Langston G. King's court here. After the jury had heard Pedro Fatino, 35, Mexican plead guilty to a murder charge, Judge King issued his brand new order, telling the jurors there was no use leaving the box. "Just let your foreman sign the verdict right here," he said. "Do it the Roosevelt way." Attorneys had agreed on a five-year sentence. Use Cisco Daily News want ads for result. Call 80.

TEN YEARS YOUNGER

There is probably one statement we hear around the Crazy Water Hotel more than one other. We hear it just as our guests are shaking hands with Mr. Love, and saying goodbye. It usually ends up with: "I feel ten years younger!"

What do they mean? Well, they might be thinking about the climate. Here in Texas, sunshine is no novelty—but have you ever tried our sunshine here? We don't have any copyright on fresh air—but have you ever stretched your lungs over our mountain air at sunrise on a nippy winter morning? And there are plenty of ways to enjoy this climate. We're still playing golf in our shirtsleeves. And the bass have been taking flies. And the first few days of the duck season, at daybreak every morning it sounded like a war.

All these things are right at the city's doorstep.

It may be our guests after all, however, are thinking about the wonderful relaxation, stimulation, youth-i-fication in a course of Crazy Mineral Baths. In giving their bodies a good overhauling, you might say, inside and out, with Crazy Mineral Water—Nature's perfect eliminant.

Come to the Home of Crazy Water. Throw off about ten years of unnecessary age. Go home with an appetite like a timber wolf. And what will this cost you in dollars and cents? Listen:

Rates by the week (our "Treatment Plan") include a comfortable outside room, Crazy Mineral Baths, as much Crazy Water as you can drink, your meals (and good cooking)—in fact, all the comforts of a first class modern hotel — for as low as \$20 per week single, \$35 double.

If that isn't enough to make you drop everything and come, write us for more. Better still, just come and see!

DIRECTOR IS ENDORSED BY COMM'N VOTE

AUSTIN, Jan. 18 — Another day of disagreement in the Texas commission broke through today and resulted in a seething session which ended in a resolution endorsing State Relief Director Lawrence Westbrook and department heads in relief administration.

The vote followed a statement in a meeting that there was a movement on foot in west Texas to have Westbrook supplanted by A. Bandeen, Stamford, manager of the West Texas chamber of commerce.

Commission members voting for resolution were Ed Husson, Dallas; B. E. Giescke, Austin; W. Brooks, Jr., Dallas; Carl Estes, Dallas; Robert Real, Kerrville; N. Christman, Dallas; Earle C. Crockett; and R. L. Hollie, El Paso, asked to be recorded and not voting.

Brooks brought the matter to a vote. There is a certain man in this state who is being removed because he is doing it by Gov. Ferguson," Brooks said. "I resent that an individual should deliberately try to put an officer of the board in charge, one Bandeen. He's scheduled, I understand to take the Colonel's position."

GOVERNOR IS SILENT UPON LEGAL LIQUOR

AUSTIN, Jan. 18 — Gov. Miriam Ferguson's lips remained sealed today on prospects of legal liquor.

She failed to answer an inquiry whether she will submit amendments to the Dean liquor law at a special session of the legislature.

She does, and the legislature is to amend now proposed, believed Texans can legally add states enjoy under the repeal prohibition.

Mrs. King Murder Case Set for Feb. 7

(Special to the News) EASTLAND, Jan. 18 — Criminal District Attorney Grady Owen has announced a re-setting of the Mrs. King murder case for Wednesday, February 7. The case had formerly been set for trial on January 22 in the 91st district court.

WESTBROOK IS MENTIONED AS HOPKINS AIDE

FORT WORTH, Jan. 18 — Col. Lawrence Westbrook, Texas relief administrator, may go to Washington as an executive assistant to Harry Hopkins, federal emergency relief administrator, a special dispatch from Washington, D. C., said Wednesday.

For some months, particularly since the CWA has been in operation, the dispatch said, Westbrook has been under fire in many sections of the state. But throughout all his tribulations, he has had the steadfast backing of Administrator Hopkins and his staff.

Westbrook's problems have been caused in no small part, it is said in Washington by the clash of political factions about him. But the Washington office regards him as neither an ally of the Ferguson administration nor any other clique there.

According to Washington reports, the dispatch said, Westbrook wants to resign but Hopkins does not want him to quit "at least until he finds a successor or some capable man who has no political affiliations one way or another."

If such a man is found, and Westbrook still wants to quit, he will be permitted to do so and will be brought to Washington as one of Administrator Hopkins' executive assistants the article said.

Mrs. Norris Says Repeat Is Doomed

HAMILTON, Bermuda, Jan. 18 — Kathleen Norris, American novelist, who has never taken a drink in her life, believes it is only a matter of time until repeal is killed by new laws, not as stringent as the 18th amendment, but more effective.

Calling herself "one of the last of the drays," she revealed this opinion in an interview during a visit here.

Temporarily, Mrs. Norris believes repeal is a good thing. She returned to the United States from a trip around the world, arriving in New York soon after repeal became effective.

"Repeal has put the American people into a happier, more optimistic frame of mind," she said. "New York was a livelier, busier and happier city than it has been for five years." But after ten days of the rejuvenated New York, Mrs. Norris said, she sailed for Bermuda to take a rest.

"Almost everywhere people were having cocktails and highballs," she said, "but there was very little abuse of liquor. However, that doesn't mean that this is not happening and will not occur in the future. Consequently, I am sure that eventually the United States will have to draft new laws to prevent, or at least to curtail, drinking. These laws will not be as stringent as the 18th Amendment, but they will have more control over the liquor situation. The exact details of these laws will have to be worked out by intelligent and competent persons after a thorough study of the situations as it is now and as it was under prohibition. America will solve the problem in due time. The death of Repeal is inevitable."

Felt Much Better By Taking Cardui

"I took Cardui at two different times for a run-down condition," writes Mrs. P. M. Deason, of Tyler, Texas. "I would get nervous and could not sleep well. This would make me feel badly in daytime. I read about Cardui and thought it would be a good idea to take it. I took eight bottles one time and six another. I felt much better after taking it and was able to sleep. If you are weak, run-down, nervous, take Cardui, for women."

YOUNG DEMOS TO MEET FEB 3 AT LUBBOCK

LUBBOCK, Jan. 18 — Eyes of Texas political observers will be trained on Lubbock, Feb. 3, when Young Democrats of 125 west Texas counties gather here for their first annual convention.

State Democratic Chairman Maury Hughes of Dallas will make the principal address. Candidates for all state offices are invited and many will be called upon during the convention, which is expected to draw 300 enthusiastic young party leaders.

State officials of the Young Democratic clubs are urging young democrats in all counties to organize and send a sizeable delegation to Lubbock and where it is impossible to organize in advance, a large delegation of individuals interested in the movement is urged.

Permanent organization of the Young Democratic clubs of west Texas, similar to the south Texas organizations, will be formed here and an east Texas organization will be held for that section later. After formation of the three regional organizations a state convention will be held at some central point.

J. Doyle Settle, president of the Lubbock Young Democrats club, has appointed a large number of committees to work with the Lubbock chamber of commerce in handling local arrangements for the convention.

Dances, banquets and other entertaining features are being worked out which will make the convention a gala affair outside of the business and organization sessions.

Committee chairmen are: Hugh Anderson, arrangements; Mart Pederson, entertainment; Vaughn Wilson, transportation; Vernice Ford, reception; C. W. Ratliff, publicity; Rob O'Hair, registration; and Ben Kucera, decorations.

Penn Vets Entitled To Bonus, Says Owen

(Special to the News) EASTLAND, Jan. 18 — Eastland county world war veterans who enlisted in the service from the state of Pennsylvania are entitled to a bonus from that state, according to District Attorney Grady Owen of Eastland, who is in receipt of a communication from the adjutant general of Pennsylvania advising that the Pennsylvania legislature recently passed a veteran bonus bill.

Veterans in Eastland county who enlisted from Pennsylvania may get further information regarding the matter by addressing Mr. Owen at Eastland.

Spurious Cigaret Tax Charges Filed

AUSTIN, Jan. 18 Charges of counterfeiting cigarette tax stamps were filed in justice of peace court here against F. A. Melton and M. T. Beckery, Dallas, after state officers had seized stamps representing a value between \$5,000 and \$7,000.

The men were arrested Monday night, in Dallas, according to the state comptroller's department here. Counterfeiting equipment, spurious stamps and the two suspects were brought here by Texas Ranger Hannah and two tax supervisors of the cigarette tax division.

A WISE STRAY DOG

FORT WORTH, Jan. 18 — A stray German police dog jumped on the running board of a police scout car as it cruised through the streets. The dog refused to leave the policemen in the car, with the result that the police force has a mascot.

DEMOCRATS TO PAY TRIBUTE TO MAURY HUGHES

DALLAS, Jan. 18 — From all corners of Texas prominent political leaders will come to Dallas, February 6 to pay tribute to Maury Hughes, chairman of the State democratic committee, for his efforts in behalf of the democratic party. On that date friends of Mr. Hughes will stage a monster banquet in the great ballroom of the Adolphus hotel.

While he has made no public expression persons close to Mr. Hughes are of the opinion that he will announce his candidacy for governor at the affair.

In order to accommodate the greatest possible number of guests at the dinner the committee in charge has reduced the price to one dollar a person. Col. Tom Moroney, chairman of the arrangements committee, pointed out that a dollar is the most democratic price possible and no one could remain away from the dinner on the grounds that it was too costly.

The reception committee will be headed by Robert G. Storey, chairman and Mrs. Harold Abrams, co-chairman.

Statewide Hookup — The toastmaster for the evening will be Murrell Buckner, Dallas county democratic chairman. Arrangements have been made for a statewide hookup of radio stations to carry the proceedings of the testimonial dinner to every section of Texas.

Although headquarters for the banquet were opened in the Adolphus hotel only Monday, hundreds of requests for tickets have been received by members of the arrangements committee. Hotel officials will set the big junior ballroom to accommodate the greatest number of guests ever assembled in the spacious banquet hall and extra tables will be placed around the wide balcony to care for the overflow.

"ALL-BRAN WILL ALWAYS BE A PART OF MY DIET"

Delicious Cereal Corrected His Constipation

If you suffer from constipation, read this fine letter: "I have been troubled for years with constipation. During this time, I have tried almost every known remedy. Then some one recommended eating Kellogg's ALL-BRAN, and the proper results followed immediately.

"Since eating Kellogg's ALL-BRAN each morning, there has been a general improvement in my health without the ill effects that I formerly experienced when taking laxatives. Hereafter, Kellogg's ALL-BRAN will always be a part of my diet." — Mr. E. G. Himes, 1201 E. 7th St., Los Angeles, Calif.

Research shows Kellogg's ALL-BRAN provides "bulk" to exercise the intestines, and vitamin B to aid elimination. ALL-BRAN also supplies iron for the blood.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. Isn't this "cereal way" safer than risking patent medicines? Two tablespoonfuls daily are usually sufficient to relieve ordinary constipation. With each meal, in serious cases. If not relieved this way, see your doctor. Be sure to ask for Kellogg's ALL-BRAN. It contains much more needed "bulk" than part-bran products. In the red-and-green package. Made by Kellogg in Battle Creek.

BOGUS TEAMS — Because five young men can play basketball and raise some sort of a beard in a week does not give them any right to pose as a House of David Team, says Attorney H. T. Dewhirst, head of the House. The Big Advantage is under the hood — A V-8 Engine

WASHINGTON, D. C., Jan. 19 — The civil works administration contemplated a drastic demobilization among its workers, starting February 15, which "substantially means dropping 1,000,000 men every two weeks," Civil Works Administrator Hopkins said today.

Hopkins said sufficient funds were on hand to meet the CWA payroll at least up to February 10. Any activities of the civil works administration after February 15, he said, will depend on whether congress appropriates \$350,000,000 as requested by the president.

Hopkins repeated a previous statement that it is planned to continue CWA until May 1, 1934. He pointed out, however, that by that time, CWA should be entirely "out of business."

Bushick made no direct charges in his statement. He did say regarding his recommendation, that Eastland county had been the source of more complaints than any other county in his district of 23. He declared that \$80,000 per month is being expended in federal funds in the county and that inadequate records and administration exist to account for it. He indicated that specific charges will be placed before the county committee.

"I have nothing personally against Mr. Gilbert," said Bushick. "He is to my knowledge a fine man and a conscientious worker. He has done his best."

Mr. Gilbert told the group the records are in the CWA office here and they are open to all of you. He invited them to inspect these records.

SOVIET SUBWAY TO BE FINISHED IN NOVEMBER

By JOSEPH H. BAIRD
United Press Staff Correspondent
MOSCOW, Jan. 18.—The first subway ever constructed in Russia is being rapidly pushed toward completion in the capital of the Soviets.

At intervals around the business district of Moscow are enclosures of strange-looking boarded shafts, which before long will be artistic stations for the underground railroad. Meanwhile, far under the earth some 35,000 men, boys and even girls are fighting a furious battle with rocks, hard earth and treacherous underground streams as they bore tunnels.

Present plans call for completion of the two main lines by Nov. 7, 1934. These will total 11.9 kilometers in length. One will run from Sokolniki, a suburb of Moscow, to the Park of Culture and Rest, the other from the Hotel National to the Smolenski market.

The saving travel time which the line will mean to Moscow citizens will be judged from the fact that the subway will go from Sokolniki to the park in 18 minutes. The trip requires more than an hour by surface street-car lines. And Moscow street cars always are packed like sardine cans.

Shifting Stream Hampers Work
Although the subway will be Russia's first, engineers anticipate that it will be one of the finest in the world. A model, the Paris, London and Berlin undergrounds were studied and the Moscow tubes will combine the best features of all.

An attempt is being made to make the stations artistically beautiful as well as efficient in handling crowds. The tubes will be supplied with fresh air by means of forced draft and the trains will be equipped with all modern safety devices.

The subway project has proved a challenge to Soviet engineering skill as well as to the loyalty of individual workers. Under the streets of Moscow flows the subterranean Neginka river, a shifting stream which threatened constantly to inundate the tubes. This danger was averted by means of a special hydraulic shield, which was made and set in place by Soviet workers without foreign technical assistance.

The treacherous marshy subsoil of Moscow also proved an obstacle. Sometimes the excavators met patches of "wandering soil" or shifting dirt. This was conquered by drying it with compressed air.

Faced Labor Shortage
There was difficulty, too, in getting enough workers to complete the project on schedule. So the subway was declared to be a "hobby" or piece of "hock work" construction. The Moscow committee of the Communist party called for "enlistments" and thousands of young Komsomols, both boys and girls, donned miners' overalls and went to work in the tunnels.

Some skilled workers, of course were needed. So the Communist chieftains summoned miners from the coal basins of the Don river, as well as brigades of workers who had gained experience on the Dnieper-dam, the Turkish railroad and the Magnitostroi steel mill.

Brunk's Comedians Open Here Monday

The Cisco fire department is bringing the "No. 1" show of the Brunk's Comedians to Cisco for a week's run beginning Monday evening, January 22, under the management and direction of Fred G. Brunk, who has the original Brunk show. This visit will be the first he has made to Cisco in about six years although other shows under the direction of brothers of Fred have appeared here.

The advance agent for the show was in Cisco earlier in the week and stated that show managers in Brownwood and Abilene have declared that the show is the best Brunk's have ever had in this territory. He also stated that the show is equipped with new canvas and water and weatherproof, with five under ground furnaces to warm the interior.

Advance information indicates that the entire program offered by Brunk's is first class entertainment, with feature stage show successes on the books for the entire run with good comedy, romance and topped by a superthriller mystery show, "The House of Fear" which will be presented on one of the nights. Good music by Zeke Boyd and his orchestra, and by Ted Edlin's band is a regular feature of the show, according to the advance man.

Admission charges to the tent which will be located at the west end of the viaduct on Eighth street behind the Manhattan Cafe, will be 10c and 20c it has been announced.

HEALTH BOARD ORGANIZED FOR EASTLAND CO.

By B. E. McGLAMERY
County School Supt.

Pursuant to a call by Fleming Waters, county supervisor of sanitation, a number of interested citizens from the several towns of the county met in the county court room at Eastland on Tuesday afternoon.

After Mr. Waters had explained the work of his department as it is being carried on in the county and Dr. F. T. Isbell, county health officer, had outlined some special work which he thought ought to be carried on under the leadership of a county health nurse as now provided for the county, it was decided to organize the Eastland County Health association, which association should have for its purpose the formation and carrying out of a program of health and sanitation for the county. Officers were chosen for the association as follows: President, Dr. F. T. Isbell, of Eastland; vice president, Miss Lillian Joynt, of Cisco; secretary, B. E. McGlamery, county superintendent.

The president will appoint a governing board of seven members, from the county at large, which together with the officers of the association and County Judge Clyde Garrett will determine the policies of the association. Among those present who took part in the discussions were: Dr. J. H. Cator, Dr. F. T. Isbell, Dr. R. C. Ferguson, Dr. L. C. Brown, County Judge Clyde Garrett, Miss Ruth Ramey, county home demonstration agent, J. C. Patterson, county agent; County Supt. B. E. McGlamery; and Dr. E. R. Townsend, of Eastland; Dr. Hubert Seale, of Cisco; L. H. Fievelyn and Wade Swift, of Ranger.

The next meeting of the association will be a meeting of the board of directors called for Tuesday afternoon, January 30. The meeting will be called to order in the commissioners room at the court house in Eastland and it is hoped that all the members of the governing board will have been appointed and have accepted their places by that time.

Why Get Up Nights?
Lax the Bladder With Juniper Oil, Buchu, Etc.
Drive out the impurities and excess acids that cause irritation, burning and frequent desire. Juniper oil is pleasant to take in the form of BUKETS, the bladder laxative, also containing Buchu leaves, etc. Works on the bladder similar to castor oil on the bowels. Get a 25c box from any drug store. After four days if not relieved of "getting up nights" go back and get your money. If you are bothered with backache or leg pains caused from bladder disorders you are bound to feel better after this cleansing and you get your regular sleep.

TEARS WON BRIDE
DETROIT, Jan. 18.—The pleas of a plumber may be strongly convincing, but the tears of a steamfitter are well-nigh irresistible, explained Miss Mary Barnett when she applied for her second marriage license in 30 days. The first license was to marry Frank Gladych, a plumber. Three weeks later, still unmarried, she obtained a license to wed Steamfitter Douglas McGregor, explaining that her friend Doug had broken into tears while trying to tell how much he was hurt by plans to marry Frank.
