## RICHARDSON FOUND GUILTY, GETS LIFE

### Flight of Brady and Clark Is Aided by Confederates

#### TEACHER SAYS WOMAN AIDED TWO FUGITIVES

BARTLESVILLE, Okla., Jan. 20.—Brady and Jim Clark, two of the southwest's most notorious outlaws and leaders of the Kansas penitentiary prison escape, met confederates here and Barnsburn today and fled to the Osage country.

Dr. Dresser, Kansas school teacher kidnaped by the outlaw pair, released unharmed and identified police photographs of Brady and Clark as those of his captors.

Contact with the "convicts" commenced was made 20 miles east of Bartlesville—Barnsburn. Dresser said the convicts persuaded him on the promise that they would not advise authorities of whereabouts of an hour.

He was given the keys of his automobile and drove, first to Pawhuska and later to Bartlesville, where police and department of justice agents began questioning him.

Dresser said a woman was seated in the wheel of the automobile when he was stopped by the roadside during the outlaws.

Authorities here said Dresser's description tallied with that of one Parker, cigar-smoking out-of-control companion of Clyde Barrow, who this week was credited with releasing five convicts from a Texas penitentiary work farm.

#### Tires of Flight; Back to Prison

"The most-hunted woman in the country," Mrs. Irene McCann, weary of dodging the law, is pictured after she walked into a Chicago police station and gave up, asking to be sent back to Missouri state prison, from where she escaped the second time in Dec., 1932.

Mrs. McCann was given 10 years in 1931 for aiding her husband in the murder of a Joplin, Mo., jailer.

#### AUTHORITIES ARE CERTAIN BREMER ALIVE

ST. PAUL, Jan. 20.—Police were convinced today that Edward Bremer, kidnaped banker, was alive after the struggle which resulted in staining his car with blood.

Positive identification of Bremer's signature on the first ransom note, which police were certain was written after his capture, was the ground for their conviction.

Police believed, however, that Bremer fought a short, bloody battle with three abductors before being subdued.

The theory was based on discovery of bloodstains in Bremer's automobile.

**Father in Charge**

Adolph Bremer, wealthy brewer and friend of President Roosevelt, today was in personal charge of attempts to obtain his son's release.

At Mr. Bremer's request police and federal anti-kidnaping campaign agents remained out of the case to enable the payment of \$200,000 ransom for release of the victim.

Police had the report of James Quenhan, milk wagon driver, who said he saw the Bremer automobile being curbed by another automobile on Summit avenue last Wednesday morning.

Both automobiles were driven away almost immediately after he saw them. Quenhan followed the other car, he said.

From the position of bloodstains in the front seat of Mr. Bremer's automobile, police deduced that Mr. Bremer had been forced to drive his automobile at the point of a gun to the spot where the car was found.

Police believed that the young banker seized an opportunity and struck one of his captors on the nose. This man bled in the front seat of the car. Other captors were believed to have clobbered with Mr. Bremer and eventually subdued him, probably with a pistol blow on the head, police said.

#### Just Tired Old Woman to Camera

The camera tells the story candidly and mercilessly, as no painting or word description can. Without dramatic touches, it shows Dr. Alice Wynkoop, eyes closed, as just a tired old woman, near the breaking point from mental and physical exhaustion, as she sat in court at Chicago while her trial for murder went on.

#### Heart Attacks Halt Trial of Wynkoop

CHICAGO, Jan. 20.—The murder trial of Dr. Alice Wynkoop was stalemated today with further prosecution of the woman physician dependent upon the report of three physicians.

Dr. Wynkoop was under physicians' care at the county jail where she experienced another heart attack. Continuation of the trial was expected to rest upon the decision of the physicians.

#### Heads New Farm Cooperative Bank

RISING STAR, Jan. 20.—Sterling C. Evans, son of Mr. and Mrs. J. H. Evans, of this city, has recently been appointed president of the new farm co-operatives bank at Houston, the new bank being a unit of the Farm Credit association. It is a government institution.

For the past several years Mr. Evans has been with the extension department of A. & M. college in charge of all local agents in west Texas. Mr. Evans has visited his parents here on a number of different occasions and is quite well known here.

#### Stupendous Tragedy Indicated in Quake

CALCUTTA, India, Jan. 20.—Reports reaching Calcutta today from the devastated state of Bengal, indicate that the recent earthquake may have caused one of the most stupendous human tragedies of modern times, with perhaps 20,000 persons dead in the ruined cities.

Refugees reported an estimated death toll of between 6,000 and 8,000 in Monghyr. An unofficial estimate in the province of Behar showed 15,000 dead.

#### Bates, Bailey Said to Be on Hunger Strike

WASHINGTON, D. C., Jan. 20.—Albert W. Bates and Harvey J. Bailey serving life sentences in Leavenworth penitentiary, following their conviction in the Urschel kidnaping case, were reported by the justice department today to have gone on a hunger strike.

#### Cisco CWA Department Is Unanimous in Helping to Make Birthday Ball Success

L. A. White, director of CWA employment and relief work in the Cisco area, Saturday reported to J. A. Bearman, general chairman of the Birthday Ball for the President that 24 members of the CWA, including his entire department, had signed to assist in the ball, which is one of several thousand to be held Tuesday, January 30, in honor of the 52nd birthday of President Roosevelt.

Proceeds from the sale of tickets for these balls will go into a permanent endowment fund for the Warm Springs foundation for children afflicted with infantile paralysis. The fund will enable the benefits of the Warm Springs, Ga., resort to be made available to hundreds of little sufferers. President Roosevelt fought his way back to health at Warm Springs from a paralytic attack, and out of gratitude for the benefit he received, he is endeavoring to establish it as a permanent resort for crippled children.

**Doing Their Part.**

Mr. White reported the following names to Mr. Bearman:

L. A. White, Noah C. Fowler, Cecil E. Prickett, D. W. LeBlanc, C. J. Daniels, R. W. Cleavenger, R. L. Wilson, Callie Ward, Ida Mae Collins, Louise Trammell, R. S. Glenn, J. G. Reagan, W. M. Miller, Mrs. M. W. Robbins, Theima Halstead, J. V. Heyser, L. C. Eppler, O. W. Kean, P. J. Connally, J. E. Stuart, Fleming

#### HOPKINS HIKES TEXAS WEEKLY FUND \$450,000

AUSTIN, Jan. 20.—Restoration of 1,400 projects to consideration by the state CWA administration will be the result of an order Saturday by Federal Administrator Hopkins granting authority for the Texas civil works administration to expend \$200,000 weekly for team and truck hire and \$250,000 for materials and supplies.

The order was issued Saturday and will permit employment of nearly 100,000 men in the state to continue it was estimated.

The 1,400 projects had been abandoned Friday as the result of retrenchments ordered in the civil works program for this state. Had the Hopkins order not restored these projects to consideration about 40 per cent of the civil works employees throughout the state would have been affected.

#### Lindbergh Offers To Aid Mail Probe

Named during the senate air mail contract inquiry at Washington, Colonel Charles A. Lindbergh (above), has not only seen the senators a record of his financial transactions in aviation, but has offered to make himself available to clarify any misunderstanding about them. He is reported to resent the interpretation that he received a "gift" of \$25,000 from an aviation firm.

#### GRAHAM JURY AGREES IN 12 HOUR SESSION

GRAHAM, Jan. 20.—A district court jury today found Charles S. Richardson, former mayor of Olney, guilty on a charge of murder in connection with the death of his son, Elga, 20, and assessed a penalty of life imprisonment.

The jurors deliberated more than 12 hours.

The defendant took the verdict calmly. To hear it he paused from his reading of a newspaper account of the trial proceedings.

It was reported that on the first ballot last night the jurors stood seven to five for assessing the death penalty. Three ballots were cast last night and three this morning. The state had asked, but had not demanded, the death penalty.

Defense Attorney R. E. Taylor immediately informed the court that he would file a petition for a new trial. He indicated that if the plea was denied, the case would be appealed to a higher court.

Elga was shot to death on New Year's day as the aftermath to a family quarrel said to have involved financial matters.

The Richardson boy was a student at North Texas Teachers college, Denton, and was at home for a holiday visit when he was fatally shot.

**Accident Theory**

Defense counsel constructed his case around the theory that the gun which the former mayor admittedly fired was discharged accidentally, and also that Richardson was of un-sound mind.

Both state and defense presented an array of witnesses who expressed widely contrasting views on those two points of contention.

High point of the trial was reached Wednesday when the defendant himself took the witness stand.

"I loved the boy, but I simply could not provide him with the money he demanded," Richardson told the judge and jury.

"When he came home he told me that he had written several checks which had been returned. He demanded that I give him the money. Claimed Attack

"I told him I didn't have it, but that I would give it to him as soon as I could.

"He accused me of lying to him. He said if I didn't have the money I should sell the house, which he insisted belonged in part to him."

Richardson said the boy attacked him, declared he seized a gun with the intention of frightening him away, and insisted the shot was fired accidentally.

Several prosecution witnesses, however, testified in direct refutation of this statement.

Elga's mother died several years ago. His father recently married for the second time. His pretty 23-year-old bride was at his side throughout the greater portion of the trial and she was among the defense witnesses who testified in his behalf. Mrs. Richardson declared she was of the opinion her husband was mentally unbalanced.

#### LIVE FIVE ARE STILL NEAR LANSING

LANSING, Kan., Jan. 20.—Seven fugitives from the Kansas state penitentiary today paced their pursuers a far-flung chase. Twenty-eight heavily armed guards joined a group of national guardsmen at Victory station where an intensive search is under way. Five of the escaped fugitives were believed hiding in the countryside near there.

#### M'DONALD HAS BIGGEST BLOC FOR PRIMARY

By GORDON K. SHEARER  
United Press Staff Correspondent

AUSTIN, Jan. 20.—C. C. McDonald will go into the democratic primary for governor this year with the biggest single bloc of votes ever behind a candidate for that office.

A campaign to have relief recipients arm themselves with poll tax receipts already is under way. Receipts would set in an entire CWA group on last payday took out poll tax receipts at Waco.

It is estimated that at least 200,000 potential voters are to be had among the recipients of direct and work relief. A call upon them to make a sacrifice and equip themselves with poll tax receipts so they can vote was made by former Gov. James E. Ferguson, who is supporting McDonald's candidacy.

This appeal is likely to be followed by a campaign instilling the belief that continued state aid can be expected only if the administration favorite is elected.

Danger for McDonald lurks in possible relief collapse before July 28 when the first primary vote will be cast. In such an event a reaction probably would set in that would help Hunter's campaign. Hunter, who outspokenly took the side of the underdog in his campaign of two years ago. That he was sincere in his plea has not been questioned so he may be expected to follow the lead.

#### REGARD DEATH NOTE AS WORK OF CRANK

MINNEAPOLIS, Minn., Jan. 20.—A note saying Edward Bremer, kidnaped banker had been accidentally killed by his abductor was received today by Postmaster W. C. Robertson.

The note was addressed to "The Postmaster of Minneapolis."

**To a Federal Officer:**

"Very sorry, but Ed Bremer is resting in bed—was by accident. Body near Anoka. Will not be found until snow leaves. Contact all off. Please forgive us. All a mistake by one of our gang. Benn drunk. Please tell Walter Magee."

The only signature was a crudely drawn insignia on the lower part of the note paper. Robertson said he believed it was the work of a crank. The note was unstamped and apparently had been placed in a mail box in the Minneapolis business district late yesterday.

#### Heart Attacks Halt Trial of Wynkoop

CHICAGO, Jan. 20.—The murder trial of Dr. Alice Wynkoop was stalemated today with further prosecution of the woman physician dependent upon the report of three physicians.

Dr. Wynkoop was under physicians' care at the county jail where she experienced another heart attack. Continuation of the trial was expected to rest upon the decision of the physicians.

#### Compulsory Crop Reduction Studied

WASHINGTON, Jan. 20.—A referendum among cotton farmers to determine their attitude toward compulsory crop limitation was suggested to a senate committee today by Wallace, appearing in connection with the Bankhead cotton control bill before the senate agriculture committee, said he hesitated to commend a policy of compulsion until views of the farmers themselves are known.

He said indications thus far were that three-quarters of the cotton farmers wanted some sort of limitation.

#### Death Assessed in Warren Murder Trial

TYLER, Jan. 20.—Defense attorneys for Grady Warren, 23, found guilty on a charge of murder in connection with the death of E. C. Brown, a peach orchard employe, today planned to appeal for a new trial. A district court jury after deliberating six and one-half hours and Warren guilty and specified the death verdict.

Brown was beaten to death December 30 by persons who robbed him of about \$50 he had received as wages from his employer.

#### Edison "Bright Boy" Is Glad to Have Job

SEATTLE, Wash., Jan. 20.—The nation's "brightest boy" of four years ago—Wilbur B. Huston—found the depression was the real thing when he left Massachusetts Institute of Technology as the first Edison scholar and now is mighty glad to have a job.

After visiting his family here, he returned to his position at the Sallerton Products, Inc., of West Orange, N. J. He is specializing in acoustics and vibration engineering.

Young Huston, waving aside all talk of the "brightest boy," said "every boy who can afford it should go to college."

"Higher education not only is helpful in landing a job, but also in keeping it."

The former San Antonio, Tex., youth was a ranking graduate at M. I. T., after being selected as the first protegee of the late Thomas A. Edison. He is the son of Bishop S. Arthur Huston, former rector of St. Mark's Episcopal church of San Antonio from 1921 to 1925, the latter year becoming Episcopal bishop of the diocese of Olympia, Wash. His parents live in Seattle.

#### Ft. Worth Firms Buy \$58,000 Relief Bonds

FORT WORTH, Jan. 20.—Sale of \$59,000 worth of state relief bonds to five worth concerns was announced today by the Fort Worth National bank, fiscal agent for the Texas Relief Bond commission.

The bank here has received subscriptions for all but \$190,000 of the \$2,750,000 issue.

Two Fort Worth banks and two Dallas banks advanced the money for the \$1,148,000 sold in December in order that the funds might be available immediately for direct relief. The same banks will underwrite the \$1,602,000 worth as soon as the remaining \$190,000 is subscribed, it was announced.

#### Brown Returns Two Mail Records Files

WASHINGTON, D. C., Jan. 20.—Mysteriously missing official records of the post office department, once thought burned, were available to the senate ocean and air mail contract investigators today after their sudden return by former Postmaster-general Walter Brown.

Brown, political leader of the Hoover administration, personally delivered the two fat files to the office of Postmaster-general Farley late yesterday and left them with the implication that they had been placed in his baggage by "character assassins."

#### MONETARY BILL PASSES HOUSE LATE SATURDAY

WASHINGTON, D. C., Jan. 20.—The administration gold seizure and devaluation bill was passed by the house of representatives shortly before adjournment this afternoon, thus speeding the monetary bill toward enactment. Senate action upon the measure is expected early next week.

#### CONGRESS RAID ON TREASURY FEARED

WASHINGTON, Jan. 20.—A congressional raid on the treasury for funds to continue public works, restore government pay, further liberalize veterans' benefits, and put the government in a variety of other expensive projects was in prospect today.

Sponsors of specific appropriations cited profits which the government plans to realize from the seizure and revaluation of gold as the reason for the new outburst of enthusiasm for spending the government's money.

President Roosevelt moved to forestall the raiding late yesterday by signing an executive order increasing by \$21,092,205 the total compensation of veterans, but whether this action, easing the curtailment voted in the economy bill last spring, will be sufficient to quell congressional rebellion was problematical.

#### FFA CHAPTER HOSTS TO DADS AT CHILLI FEED

Members of the Part-time F. F. A. chapter in the Lutheran community six miles south of Cisco entertained their fathers at a chilli supper Thursday evening.

Alvin Wende, president of the chapter, prepared the chilli and instructed and sponsored the chapter directed the program.

Members of the Part-time chapter also contributed to the entertainment.

The terracing committee reported that since the F. F. A. chapters in Cisco and the Lutheran community had been awarded a terracing machine by the Brown Tool company, of Breckenridge, for the amount of terracing done, the chapter had built over 21,000 yards of terraces in 516 hours of work.

The following members of the chapter were present:

Albert Schoor, Alvin Schoor, A. P. Wende, Edwin Wende, Ben Wende, Alvin Stroebel, Adolph Stroebel, Clarence Stroebel, Carl Stroebel, Herbert Wende, Willie Wende, Bernard Wiser, Altom Clark, Aubrey Holt, Avery Holt, Roy Kinard, Ray Kinard, Louis Prang.

#### NOTED SEAMAN WILL SPEAK IN CISCO JAN. 25TH

Under the auspices of the City Federation of Women's clubs, Commander Herbert Hartley, former captain of the U. S. S. Leviathan, will speak at the high school auditorium next Thursday evening at 7:30.

The famous sea captain will give interesting accounts of some of his experiences afloat and of royalty and world-famous personages he has carried on his ships.

There will be no charge for admission. Mrs. G. B. Kelly, president of the federation, will preside. Commander Hartley will be introduced by Dr. C. Q. Smith, presiding elder of the Methodist church for the Cisco district.

The business of commanding a great liner, directing its navigation between two teeming continents, and the necessity of dealing with all sorts of people in quick-breaking emergencies is a fertile field for adventure, no matter whether it wears a dress coat in the luxurious parlors of the floating hotel or salt-crusted sailor togs on the deck in raging seas. Commander Hartley has plenty to tell, and he tells it in an interesting way.

At other cities he has been enthusiastically received. Cities such as Dallas and Fort Worth have entertained him generously. His appearance in Cisco, in view of the demands made upon his time by the larger cities, is considered a splendid treat for Ciscoans, and the women's organizations are anxious that the auditorium be filled for the address.

### Crumbling Ruin in Cotton Patch Near Newcastle Is Shrine of Western History

NEWCASTLE, Jan. 20 — Casual passersby, traveling the road a few miles west of here, today would scarcely recognize the small stone building which stands in the center of a cotton patch — although it is one of the shrines of western history.

Its walls are more than a foot thick, a building constructed for long wear. Its non-pretentious size, its drab color and its ordinary setting belie the importance that once was attached to it.

This deception is furthered by the pigs that inhabit it while the cattle stabled in the rocky ruins of nearby buildings give it an air of commonplace.

Once this spot was the center of social life of the Texas Northwest. Here came gallant young officers from West Point to take their first lessons in the art of war; here was the outpost of civilization.

A sightseer, uninformed, would hardly recognize this mouldering ruin as the place where Captain Sul Ross, famous Texan, outfitted his patriots for the Indian expedition which was to return Cynthia Ann Parker, captured white woman, to civilization.

If you have not guessed, the crumbling ruin is old Fort Belknap. Beside it is the well that Robert E. Lee, then a young lieutenant, helped to dig—now filled with tin cans and automobile fenders.

There the old fort stands, for all its past dignity, a pig-sty in a cotton patch.

### McDonald--

CONTINUED FROM PAGE ONE

same line when his campaign this year gets under way. If relief recipients become dissatisfied with relief administration, a large part of them would probably swing to Hunter.

Prompt steps have been taken by the Texas Relief commission to head off relief being made a political football. Administration and non-administration members of the commission joined in this step. Notice was given that political activity of relief administration would be considered grounds for calling for their resignations. Candidacy for office or management of political campaigns were included in the kind of political activity not consistent with relief services.

One resignation that will be tendered between now and Feb. 1 for political reasons, will not be due to this ruling of the relief commission. The official who will resign confided to the United Press more than a week before the commission met, that he intended to resign to "feel free for political activities."

**Changed Mind**

Elbert Hooper, Fort Worth, first assistant attorney-general, has also decided that political activity and continuance in office is not so desirable. Hooper has changed his mind for attorney-general and will give all his time to the state's legal department. He will direct its affairs when General Allred is absent from Austin. Allred's race for governor will require considerable absence from the state capital and Hooper frankly said his decision was based on belief that he would be able to contribute more to Allred's election by relinquishing his own candidacy.

During the week, State Land Commissioner J. H. Walker, formally announced his candidacy for reelection.

Phil Sanders, Naogoches, former chairman of the house appropriations committee, being urged to get in a state race but if he has decided to do so has not notified Austin friends or relatives.

House Speaker Coke Stevenson visited the capitol during the week without throwing new light on his political intentions.

### Shoppers Bane Of Book Dealers

FORT WORTH, January 20 — It's unusual but true that book store operators here are faced with a puzzling problem in attempting to check repeated theft of books from their shelves.

"It may seem strange," the manager of a large downtown department said, "but you'd be surprised at the number of books we lose this way."

The list of books which shoplifters take runs the gamut of literature, everything from detective stories to the driest books of fact-takers of the books, operators say vary from the young boy, snatching a Rover Boy book, to dignified looking matrons, duking with an O Henry.

The problem of detection is equally puzzling, one manager said, for you cannot accost a customer while still in the store for fear of offending. The "customer" can easily claim intention of purchasing the book.

Once the person is outside of the store the matter of intention is virtually impossible, owners said.

### State Starts Drive To Exterminate Rats

AUSTIN, Jan. 20 — One-fifth of the world's present supply of red squill for poisoning and 172,800 traps have been shipped to Texas for the extermination of rats.

"The Pied Piper of Hamelin," declared the state department of health, "will have nothing on the joint federal project for extermination of rats and control of typhus fever."

The state health department is interested in the rat flea and other parasites that cause typhus fever. The U. S. biological survey is interested in the economic loss caused by rodents. Both have combined forces for the destruction of rats in typhus infected areas of the state.

### LITTLE RED HEN STORY

FORT WORTH, Jan. 19 — The Little Red Hen, minus her fabled scissors and spectacles, went to church in style. When Mrs. A. W. Lauritzen returned to her automobile from a musicale she found a little red hen perched on the bumper. She had ridden for several miles, from Mrs. Lauritzen's home to the church.

### C. S. ELDRIDGE CANDIDATE FOR COUNTY SUPT.

C. S. Eldridge, of Carbon, who is completing his seventh term as principal of the Mangum public school, Saturday authorized the Cisco Daily News and the American and Roundup (weekly) to announce that he will be a candidate for county school superintendent of Eastland county.

Mr. Eldridge has lived in this county for 30 years and has had 20 years experience as a public school teacher. Of the 20 years, 16 have been spent in rural schools of his home county—seven at Mangum.

The new candidate holds a permanent certificate from the state department of education. He feels that his long experience as a teacher in the rural schools has made him thoroughly conversant to interpret the needs of the county school system and to suggest the proper means of meeting these needs.

He said that if he is elected he will devote himself constantly and unselfishly to the duties of the office.

His candidacy is subject to the action of the voters in the democratic July primary.

### BOATS ARE STRANDED

PARIS, Jan. 20 — Two hundred boats were stranded here when the level of the Seine dropped approximately four feet. The customary level of the river is 60 feet above sea level. As a result, some of the locks have a depth of less than six feet, insufficient for passage of the river boats. Barges and motor boats were stranded all along the way from Boulogne to Rouen.

### CLOTHED IN PLENTY

CLIFTON FORGE, Va., Jan. 20 — A penniless man applied at police headquarters for a night's lodging. He was taking no chances on getting cold, even if he didn't have any food or a place to sleep. He was clad in ten coats, six vests and seven pairs of trousers.

### BEHIND THE SCENES IN WASHINGTON

BY RODNEY DUTCHER  
NEA Service Staff Correspondent

WASHINGTON.—The administration is moving toward more drastic regulation of grain exchanges.

The "brain trust" crowd at AAA, working on the code presented by exchanges, is set to give Secretary Wallace all the regulatory powers which exchange rulers now possess over their own operations. That includes the right to limit daily fluctuations and the amount of grain futures contracts.

The administration's reformers think two things most need correction: 1. Ability of large operators to influence price movements, bearing or bulling; 2. "Squeezes" by operators who buy up futures and plaster premiums on grain sellers prevented from deliveries as per contract by congestion or other factors.

They propose specifically to limit future speculation to 2,000,000 bushels and to permit the secretary to liberalize delivery rules when advisable. This plan was worked out by Hyron P. Parry, grain expert attached to AAA.

The grain trade balks, though, though such federal powers would be used only in emergencies.

**PEANUT** butter can be used in many ways to give variety to winter menus. It is generally recognized as a sandwich filling, but seldom worked into menus as an important food.

Peanuts themselves are an excellent food, comparing favorably with meat. The quality of peanut protein has been analyzed by the chemists of the United States Food Bureau and found to be remarkably rich in the essentials of high quality protein. Comparative tables show that one pound of peanuts yields 25.8 per cent protein, while one pound of porterhouse steak yields 21.9 per cent, and boiled eggs 12.8 per cent of these valuable calories.

Comparing the fat content of peanuts, beef steak and eggs, a table of comparative food values gives peanuts 38.8 per cent, steak 20.4 per cent, and eggs 11.4 per cent.

Peanuts also contribute 24.4 per cent carbohydrates, while steak and eggs furnish none.

**Rich in Minerals**

The total number of calories provided by each of these food-stuffs reveals an amazing comparison. Eggs supply 755 calories per pound, steak 1230 calories per pound, and peanuts 2490 calories per pound.

As to mineral content, peanuts are much richer in calcium and phosphorus than either steak or eggs. Iron is .001 per cent higher in steak and eggs than in the nuts.

The vitamin content of peanuts is lower than that of eggs, but otherwise the vitamins are the same as those supplied by the ordinary sources of protein.

Naturally, peanut butter provides all these qualities, but in a form that is easier to digest than the whole nuts. In their natural state peanuts are rather difficult

### Tomorrow's Menu

**BREAKFAST:** Grapefruit sections, cereal, cream, fried cornmeal mush, maple syrup, milk, coffee.

**LUNCHEON:** Cream of peanut butter soup, croutons, apples cooked in cranberry juice, peanut butter cookies, milk, tea.

**DINNER:** Chile con carne, salad of mixed greens with French dressing, steamed fig pudding, milk, coffee.

### PEANUT BUTTER AND POTATO CROQUETTES

One-half cup peanut butter, 2 cups mashed potatoes, few drops onion juice, 1-2 teaspoon salt, 1-4 teaspoon pepper, 1 egg yolk, 1 teaspoon minced parsley, milk.

Use white of egg for crumbling. Mix ingredients in order given, using just enough milk to make moist. Shape into balls and roll in fine dry bread crumbs. Dip in white of egg slightly beaten with 2 tablespoons water. Roll again in crumbs and fry in deep hot fat. The fat should be hot enough to brown an inch cube of bread in 40 seconds. Drain on crumpled brown paper and serve with tomato sauce or creamed peas.
