GARNER IS FOR TOM, BUT JOE'S STILL IN RACE

Bailey visited the White House yesterday and is understood to have offered to withdraw from the race should the president prefer Connally. When Bailey emerged from the White House conferring with all he would say was: "I'm still in the race."

March on Paris Is Threatened by Vets

PARIS, March 22.—New sensational revelations of Alexandre Stavisky's political influence were threatened today as 3,500,000 war veterans—already disgusted with alleged official corruption—threatened a fascist march on Paris.

Charges of murder instigated by high officials, reports that men high in British public life would join those in France suspected of being associated with the suicide banker and statements of such importance before a parliamentary investigating committee that the evidence was withheld, startled Parisians today.

Tomorrow the national confederation of war veterans, representing 3,500,000 men, will meet here for a three-day congress. WHITE HOUSE HOPEFUL FOR SETTLEMENT

WASHINGTON, D. C., March 22.—Automobile union leaders in a noisy session, told Recovery Adm'r Johnson today they were willing to go to great length to avoid a strike.

WASHINGTON, D. C., March 22.—Labor and industry remained far from agreement today as the administration swung into a second day of personal conferences in its effort to stave off the threatened automobile strike.

Meantime, it was said that the White House does not regard the automobile strike situation as hopeless, although admitting that both sides appear adamant.

Automobile union leaders from Detroit and Cleveland met with President Wm. Green of the American Federation and then conferred with Recovery Adm'r Hugh S. Johnson preparatory to their afternoon meeting with President Roosevelt.

They vowed to stand firm in their demands for collective bargaining through unions and the right to organize which they claim has been denied.

The manufacturers, who had a two-hour session with the president yesterday, were standing fast as firm in their fight against unionization.

It appeared to many that the best that president could hope for immediately would be continuation of the present truce which had halted the strike temporarily.

CONTROVERSY REVIVED OVER OLD CUSTOM

By DYKE WILLIAMS
United Press Staff Correspondent
COOLIDGE, Ariz., March 22—An old controversy on human sacrifice in the United States may be renewed through a discovery reported to the superintendent of Southwestern monuments here it was learned today.

The find is believed to be a "sacificial altar," near the White Sands National monument in New Mexico. It is similar in many respects to those of Mexico, whose early inhabitants are declared by archeologists to have practiced the custom. The section is rich in signs of prehistoric habitation, but it is yet uncertain whether the skeletons, pottery, mounds (which when excavated are found to be Hopi-style houses) and other remains were all left by the Pueblo people, or whether an earlier race which archeologists only have begun to delineate and speculate upon was responsible for some. If there was an earlier people, to them likely will be laid the charge of human sacrifice—should that be determined as the use of the strange new altar.

The find is in an almost inaccessible region, and was reported by Laurance Cone, of the White Sands monument staff.
At the top of a small hill at Three Rivers facing the setting sun, there are huge stones, ten feet or more in height, flanking a large flat horizontal rock, the "sacificial block." The entire altar is before a grassy platform.

Did You Ever Stop to Think?

By EDSON R. WAITE
Shawnee, Oklahoma.

That your home merchants always carry in stock seasonal merchandise at reasonable prices. You can get quality, price and satisfaction from home merchants, so why buy from a peddler or a catalogue?

The amount of money taken away from every community by door-to-door peddlers is surprising. Peddlers are usually people who do not live in the community in which they work, they pay no taxes, do not help to support the community and are interested only in what they can take out of it.

Money spent with them is money taken out of the community to work for some city far away.

Everyone should stop and investigate before they buy from a peddler or a catalogue.

Money spent with home merchants serves the home community. It stays at home and works at home. Every dollar sent away from your community takes needed strength from it. Keep your money working in the home community!

Smith appeared before the committee with a prepared statement that the treasury approved major objectives of the bill and that the provisions of the original bill which affected government financing and banking had been revised to "minimize" the dangers to recovery.

March on Paris Is Threatened by Vets

PARIS, March 22 — New sensational revelations of Alexandre Stavisky's political influence were threatened today as 3,500,000 war veterans—already disgusted with alleged official corruption—threatened a fascist march on Paris.

Charges of murder instigated by high officials, reports that men high in British public life would join those in France suspected of being associated with the suicide banker and statements of such importance before a parliamentary investigating committee that the evidence was withheld, started Parisians today.

Tomorrow the national confederation of war veterans, representing 3,500,000 men, will meet here for a three-day congress. In a speech willed throughout the country last night, the secretary of the federation warned that the congress might decide to offer the government its choice between accepting suggestions for state reform or facing direct action by the veterans.

SMITH QUILTS AS EDITOR OF NEW OUTLOOK
NEW YORK, March 22 — Following a disagreement with his publisher over editorial policy Alfred E. Smith has resigned as editor of the monthly magazine, "The New Outlook," it was learned today.

No mention of any disagreement was made in formal announcement of the resignation which cited "pressure of business obligations" as the cause of Smith's withdrawal. Smith's correspondence with Frank Tichenor, owner and publisher, was released at his office.

The real reason, however, was disagreement over the magazine's viewpoint toward the national administration, it was learned from sources close to both men. Tichenor, a republican, was understood to have wanted to handle Washington criticism "without gloves" while Smith favored remaining silent on some questions.

C. C. ENDORSES COUNTY FAIR LOAN PROJECT

The board of directors of the Cisco chamber of commerce meeting in regular session Tuesday night, took action to endorse the application of the Eastland County Fair association for a PWA loan to build a fair plant at Eastland, and to hasten work on highway construction of consequence to Cisco.

One member of the board, E. P. Crawford, accompanied by Mrs. Crawford, officially represented the local chamber at the Eastland chamber of commerce annual banquet addressed by Walter Cline, West Texas chamber of commerce president. The fact that the evening was the regular meeting date of the Cisco chamber prevented President Charles Hale or other officers attending, it was said.

Discussion of work on highway 89, the so-called "cut-off" from Strawn to Weatherford, developed that all grading and drainage structures in Eastland, Parker and Erath counties are either built, building or contracted to build, while work is under way on the bridge that will carry the highway over the Brazos. Completion of this structure is expected about September 1. Twenty miles of grading and drainage structure in Palo Pinto county is still not under contract.

A plea to the highway commission was directed, urging that it continue appropriations for grading and laying calcite base on the Leary road, leading north out of Cisco to a junction with Highway 69. An appropriation for grading and putting down base on one-half the nine-mile route will be expended about May 1. Sec'y Spencer said. The chamber will push this project earnestly, he said, in the expectation that the road will be carried through to complete paving without a stop.

C. C. McDONALD, CAMPAIGNS IN CISCO TODAY
C. C. McDonald, Wichita Falls, candidate for governor spent Tuesday night and a few hours Wednesday morning in Cisco. En route east, Mr. McDonald has just completed a tour of the northern area of west central Texas.

"I am going to try to visit every county and every community of importance in each county in Texas before the election," said he. Since he began this community tour January 1 he has covered about two-thirds of the area of the state.

"I have been in some towns that no candidate but Pat Neff in 1930 visited and I've even been in some towns that Neff did not visit," said he.

Improved transportation facilities since 1920 make it possible to cover the state in a fraction of the time that the now president of Baylor university required to travel about the state in a hand-cranked Ford over indifferent roads, said he.

WHITE HOUSE IS HOPEFUL OF STRIKE TRUCE

WASHINGTON, D. C., March 22 — Automobile union leaders in a noisy session, told Recovery Adm'r Johnson today they were willing to go to great length to avoid a strike.

WASHINGTON, D. C., March 22 — Labor and industry remained far from agreement today as the administration swung into a second day of personal conferences in its effort to stave off the threatened automobile strike.

Meantime, it was said that the White House does not regard the automobile strike situation as hopeless, although admitting that both sides appear adamant.

Automobile union leaders from Detroit and Cleveland met with President Wm. Green of the American Federation and then conferred with Recovery Adm'r Hugh S. Johnson preparatory to their afternoon meeting with President Roosevelt.

They vowed to stand firm in their demands for collective bargaining through unions and the right to organize, which they claim has been denied.

The manufacturers, who had a two-hour session with the president yesterday, were standing just as firm in their fight against unionization.

It appeared to many that the best that president could hope for immediately would be continuation of the present truce which had halted the strike temporarily.

OLD FRONTIER OFFICER TELLS OF EARLY DAYS

GUTHRIE, Okla., March 22 — Chris Madsen, famous frontier marshal of the days when such notorious characters as the Doolins, Daltons, and Youngs were robbing trains and banks, has at last shattered the reticence of a lifetime.

At 83, Madsen, who rounded up early day gangs with the famous Bill Tighman and Capt. Heck Thomas, finally has made a public speech. He addressed students and faculty members at Northwestern Teachers college at Alva, and received an ovation when he had ended his simple recital of his life history.

Madsen, Tighman and Thomas were known as the "Three Guardians" of early Oklahoma officers.

Usually Madsen's story, terse and cryptic, was told in his reports to the United States marshal, with no flourish or embellishment of his dangerous exploits and adventures. In recent years when the grizzled old warrior of the days of Colts 45 caliber "thumb-busters" and carbine 30-30's served as federal court bailiff, he kept his stories to himself, shunning all interviews and publicity.

Justice Paralyzed

When a young man, Madsen rode into Beaver City to find justice in that west Oklahoma frontier city paralyzed, and ruffians swaggering through the streets defying the officers and preventing a session of federal court.

Madsen promptly knocked the leader down, invited his companions to "pitch in," and court was opened without further difficulty.

On another occasion, an eastern lawyer protested for his client, "this is no United States court."

"Hell no!" Madsen answered, "this is the deputy United States marshal's court. If you don't like it you can go into federal court."

The lawyer retracted his statement, and his client was sentenced.

Madsen twice trailed down the notorious Bob Hughes and Jim Bourland gang of bandits, capturing them once in El Reno and later in east Oklahoma, after they had broken jail. He also played a part in

LYDE GARRETT STATES RECORD FOR NEW RACE

The people of Eastland county have been good to me. They have allowed me to office on several occasions, for all of which I shall ever be deeply grateful. They have repeatedly elected me to office and I have endeavored to render the most honest and efficient service, and to trust placed in me. Being that my past experience and knowledge of the county's needs will enable me to efficiently discharge my duties of county judge and because of my desire to render the county a real service and the further fact that many of our outstanding and substantial citizens have urged me, I am announcing for reelection.

Believing our citizens should know what their public officials are doing, I shall briefly mention some things which I feel they are deeply interested in and in which I have had a small part.

Bond Relief

Two years ago, together with other west Texas county judges, I signed faithfully to secure the passage of the law which sets aside one cent per gallon of the gasoline tax to be applied on the payment of our county road bonds. The proceeds of the tax went to the building of designated state highways, the result being that the state is paying all the cost of said bonds and 30 per cent of the principal, and one cent per gallon being insufficient to pay the balance above amount, however, we are now working to the end that the state assume the entire amount of the bonds. It is confidently hoped that this will be accomplished within the year or two. The state has not made payment of any of the bonds, but merely agrees to guarantee for a period of two years, and one-half of which have expired in these bonds the proceeds which went into the construction of "designated" state highways. An amount has been reached by the state and county that our outstanding bonds, \$2,000,000 were used in constructing state highways and the state agrees to participate in the payment of this amount as far as the gasoline tax will permit. The state's assumption of the above amount will mean the lifting of a heavy burden from our tax-payers if elected, I pledge my continued efforts along this line.

Tax Value Equalization

With other members of the commissioners' court, I have worked actively in an attempt to fairly and impartially equalize values for public purposes. Many corrections and adjustments have been made in the tax-payer when it appeared under circumstances justified same. I also shall continue to be my duty, if elected.

Since becoming county judge, due reduction in values and tax rate, has been reduced between 40 and 50 per cent. This fact can be verified by merely comparing tax receipts. Although the times have been distressing the last few years we have been unable to pay their taxes. Eastland county has been run on a bare basis to insure laborer or merchant having to carry a heavy load of services or merchandise. Many of the cities and counties in this state have been compelled to default in their obligations, Eastland county, because of the co-operation of its citizens, has promptly met its obligation, including principal interest on bonds.

Aid to Farmer

I have stood for lending every possible aid to the farmer, poultry, stockmen, sheep and goat raisers—and when they are helped they are benefited—in that even the face of the fact that funds have been very short, the commissioners' court over which I preside, just as far as funds would permit, and the law authorize, paid bounties on jack rabbits, wolves, wild and bob cats which are destroyers of sheep, turkeys and chicken, goats and sheep and is paying same now. I not only pay a portion of one cent on the farmer's salary but also pay the local citizens a bounty. Realizing that I was elected to the entire county, I have earnestly co-operated with representatives from all parts of the county in making with the highway department, sparing no time and distance, projects which would mean the appropriation of funds, employment of men or construction of more roads for the county. Feeling that the locating of highways through incorporated cities should be handled locally, never, at any time, have I interested myself in these matters. I firmly believe that intimate acquaintance and friendly connection with the highway department has been and will continue to be worth much to Eastland county.

Fleemosynary Cases

While jails over the state have been filled with insane people awaiting admission into our crowded institutions, by earnest co-operation we have been successful in getting our county's insane relatives of the county relieved promptly of the public embarrassment of having loved ones confined in jail. Likewise, I have been reasonably successful in getting promptly admitted to our various institutions those who were adjudged in my

Thousands of Punctures Picked Up From Eastland County Highways

EASTLAND, March 22 — C. W. Whitaker, who operates a magnetic highway apparatus which picks up nails off roads, in the employment of the state highway department, has just completed a tour of Eastland county roads.

The total number of miles worked in the county was 113 from which 1118 pounds of nails was gathered.

L. H. QUALLS IS CANDIDATE FOR PRE. 4 COMM'R

L. H. Qualls Saturday has authorized the Cisco American and Roundup to announce that he will be a candidate for county commissioner for precinct number four, of Eastland county.

Saying that he would have a full statement to make later on, Mr. Qualls declared that if he is elected he would try to the limit of his ability to treat every person fairly and squarely and to conduct the business of the office in the very best way possible.

He said that he would endeavor to keep the lateral roads, which are the market roads of the county and of great importance to farmers, in the best order.

He has never held political office, he said.

He asked that the voters of the precinct give his candidacy their earnest consideration and said that it is his intention to make a thorough canvass of the precinct and to talk to every voter he can possibly reach before the election.

"I will be grateful for your support," he said, "and will endeavor to repay with faithful and efficient service the confidence reposed in me if given the opportunity to do so through election."

court to be tuberculars, epileptics and feeble-minded.

Concerning those of our county who have been extremely unfortunate from a financial and physical standpoint, I have tried to be very considerate and charitable and have had a part in seeing that many who were unable to provide it, had, not only food, clothing, shelter and medicine, but also hospitalization and surgical attention. In many instances emergency cases have been admitted to the City-County as well as private hospitals permitting reimbursement to county where charity would not be accepted. Some criticism has been made concerning some of above policies, but in each instance I used by best judgement.

It will be my purpose to give during the campaign, a more detailed report of my stewardship and to see personally every voter possible. But in the meantime, I most respectfully urge every voter to make a careful investigation concerning my official acts while serving you as county judge—an office which belongs to the people of Eastland county and not to the one placed there by them.

Sincerely and earnestly soliciting your support and influence, solely upon my merits and qualifications, I am,

Very respectfully yours,
C. L. (Clyde) GARRETT.

HONEA FAVORS EMPLOYMENT OF MORE FARMERS

J. J. Honea this week made public an announcement of his candidacy for county commissioner of Precinct No. 4. In connection with the announcement, he issued the following statement:

"To My Friends and Voters of Precinct No. 4:

"I have decided to announce as a candidate for county commissioner. I favor a change of tractors and graders for our old-style teams and burning machinery, but I think at this time it would be a good thing to have the farmers to drag our roads and to employ our single hands as much as possible. If I am elected, I will do all in my power to let the teams over our precinct drag the roads and get some of the tax money back that they have paid out. I will use as many single hands as possible, and administer our county affairs economically. I favor also giving our voters a county audit at the first of each year so they can check our county expenses every year.

"I will be thankful for any consideration that the voters of our precinct show my candidacy. I invite their consideration of my platform and my record as a citizen."

Four Robbers Loot Bank at Rotan

ROTAN, Texas, March 22.—Four bandits, equipped with machine guns, Tuesday robbed the First National bank of Rotan and escaped with approximately \$900 in silver.

The robbery was staged after the bandits entered the American Legion hall, captured Nightwatchman Nathan Kelly and five young men, bound all six with chains, then took them to the bank.

One of the youths, Jerry Sheppard, put up a fight. He was subdued by a blow from the butt of a pistol. Physicians said he suffered a severe scalp wound.

The raiders pointed weapons at the prisoners while they hurriedly treated every person fairly and squarely and to conduct the business of the office in the very best way possible.

After spending about an hour in the bank, the bandits fled toward Sweetwater, 30 miles south of here, in an automobile.

West Texas Band Contest at Abilene

ABILENE, March 22.—The sixth annual west Texas high school band contest, under the auspices of the western division of the Texas Band Teachers association and sponsored by the Simmons university Cowboy band, is to be held at the university here on Saturday, April 28, according to D. O. Wiley, Cowboy band director and chairman of the tournament.

High school bands in four classes will compete. Class "A" bands are those which come from high schools of 650 enrollment or more. Class "B" those with 250 to 650 enrollment. Class "C" those with less than 250, and Class "D" those from schools whose band has been organized only one year, regardless of size. A new class is also being added this year—the junior high school class for those school systems which have elementary bands in addition to their high school bands.

Auto Registrations Jump in February

AUSTIN, March 22 — New passenger car registrations in the 16 most populous counties of Texas totaled 3,237 in February against 1,851 in January and 1,793 in February, 1933, gains of 75 per cent and 81 per cent respectively, according to the University of Texas bureau of business research.

Registrations for January and February combined totaled 5,088 against 4,281 during the corresponding period last year, a gain of 20 per cent.

The difficulties which many automobile companies had in getting their production schedules under way during January seem to have been largely overcome, and with the big backlog of orders which now prevails, registrations should continue to make highly favorable comparisons with the past three years, the bureau's report said.

19 Counties Quit Anti-Beer Ranks

AUSTIN, March 22 — Wet territory is continuing to expand through local option elections. Beer sale permit applications have come to the office of State Comptroller George Sheppard from 19 counties that were dry when the state beer law became effective last September.

Some of the 19 counties have voted to permit beer in all parts of the county; some have permitted sales only in particular cities, towns or precincts.

The added wet territory has been in Smith, Willacy, Freestone, Stone, Wall, Lipscomb, Maverick, Trinity, Terry, Calhoun, Hale, Eastland, Haskell, Runnels, Burnet, Childress, Young, Nolan, Motley and Palo Pinto counties.

Beer was permitted in 132 counties upon adoption of the beer amendment and beer act.

RANDOLPH DAY PROGRAM PLAN PUT UNDER WAY

At a meeting of the Randolph faculty Friday morning, plans were made for the observance of the annual Randolph day, April 20 and 21. This will also be "Homecoming Day" for ex-students. An extensive drive will be made to get as many former students as possible to be here at that time to help the college and the citizens of Cisco celebrate the day.

For many years April 21 has been recognized as Randolph day. Cisco citizens have respected this day and have refrained from placing other meetings and affairs at this time so as not to interfere with the full celebration. One of the most successful of these days was the one observed last year when about 500 citizens joined with the college in a big barbecue and other events.

President Tyndall has appointed the following faculty committee to work out the program for this year's event: Dean E. Buford Isaacks, H. R. Garrett, Mrs. Lee Clark, W. F. Bruce, and Miss Nina Watts. Dean Isaacks will have charge of the free

JOHN A. LASH FUNERAL HELD AT 3 MONDAY

Funeral services were held at the First Presbyterian church Monday afternoon at 3 o'clock for John A. Lash, 63, Cisco oil man who died Saturday evening after a lengthy illness. The services were conducted by Dr. J. Stuart Pearce, pastor of the church. Rev. Mr. Lipsey, Randolph student and pastor of the Eastland Christian church, assisted. Mr. Lipsey was a close personal friend of Mr. Lash.

A large gathering of friends and acquaintances of Mr. Lash attended the services and a large floral offering spoke of the esteem in which he was held.

A Knight Templar guard of honor accompanied the casket from the home to the church and then to the grave in Oakwood cemetery.

In his funeral sermon, Dr. Pearce spoke upon three phases of the character of Mr. Lash—his citizenship, his qualities as a husband and father and his Christian life.

The Rev. Mr. Lipsey read the Scripture and closed the services at the church with prayer. The choir sang "The Old Rugged Cross" and "Rock of Ages."

Born in Pennsylvania

He was born at Oil City, Pa., December 13, 1869, the youngest of eight children. On September 6, 1895, he was married to Mrs. Ida Hendrickson at Meadville, Pa., who survives him. Temperature Drops To 21 Degrees Sat.

Temperatures touched a near winter low here Saturday morning when the mercury fell to 21 degrees at 7 a. m., according to the record charts of the West Texas Utilities plant. The chart showed that from 11 p. m. to 7 a. m. the temperature maintained a level of about 22 degrees, dipping below that point just before it began a rise Sunday morning.

A minimum of 42 degrees was reached Sunday and a minimum Monday morning of 31 degrees at 4 o'clock.

The norther blow up in the shape of high winds that brought a severe sandstorm Saturday evening while the temperature began to drop rapidly. A thunderstorm followed late at night, bringing heavy sleet, hail and some snow that covered the ground to a depth of half an inch. The ice melted rapidly Sunday, but early garden vegetables received some damage and such fruit that had bloomed was blighted. Extent of this damage could not be estimated. It was not believed, however, that any extensive harm had been done since preceding cold spells had served to retard budding. It was even predicted that the fruit crop might be helped by restricting the quantity.

Heavily losses to farmers feared.

DALLAS, March 22.—A related winter blast which brought sub-freezing temperatures to Texas over the week-end brought heavy losses to farmers and stockmen. It was feared.

According to Victor Schoffelmayer, agricultural editor of the Dallas News, excessive damage to commercial orchards in north and east Texas may have been averted by the dry fall which held back growth of peach, plum and pear trees and retarded development of fruit buds.

Degree of damage to commercial peach orchards may not be known for several days.

Early gardens were seriously hurt and in many instances destroyed. Young corn was killed or badly hurt. Spring oats also suffered. Fall oats were badly hurt and cut back.

Panhandle wheat was blown out of the ground in many parts of that region and, unprotected by a sufficient blanket of snow, was hard hit by temperatures of 15 degrees or lower.

VALLEY VEGETABLE CROP DAMAGED

HARLINGEN, March 22.—Frost in the lower Rio Grande valley Sunday night ruined half of the vegetable crop. It was estimated Monday. It will be several days before accurate figures of the damage are obtained.

Stolen Car Found In Gorman Crash

A 1929 Chevrolet coupe belonging to Mark Stamps, Cisco, stolen from Mr. Stamps' home on Eighth street, Monday night, was recovered near Gorman Tuesday night after a collision. An Abilene mortician was driving the car with which the coupe collided. After the collision, he told officers, a car following the stolen machine moved alongside and the driver of the coupe stepped into it and drove hurriedly away with a companion.

The two machines were taken into Gorman by a wrecker called by the Abilene man. A by-pass switch used by the thieves was taken from the car and is in the possession of Chief of Police Purdie here.

SALES TAX IS ORPHANED FOR THIS CAMPAIGN

By GORDON K. SHEARER United Press Staff Correspondent

AUSTIN, March 22.—The sales tax, orphaned for this year's campaign, goes begging for support among this year's candidates for governor.

C. C. McDonald, Ferguson - endorsed candidate in his platform favors taxes on mortgages, on capital stock, on intangible assets and on labor-saving machinery, but omits the sales tax.

Tom Hunter mentions it in his campaign documents. He favors a sales tax only on articles brought into the state to compete with home produced goods. How this sort of an interstate tariff will get by the federal constitution is not explained.

Anti-War Clubs Are Condemned

BALTIMORE, Md., March 22.—The adoption of a declaration by members of liberal clubs of seven Maryland colleges in conference here against participation in war, brought expressions of condemnation from many Maryland leaders.

Prominent church and military figures denounced the action as "absurd" and "subversive to the fundamental principles upon which this country was founded." Other comment branded it as ridiculous and added, "it is as foolish to do away with national defense as it would be to discontinue our police force."

Fifty delegates to the conference, sponsored by the Johns Hopkins Liberal club and the Goucher college chapter of the League for Industrial Democracy, signed the statement. "We declare that under no circumstances will we support any war entered into by the government of the United States."

The institutions represented were: Johns Hopkins university, Goucher college, Morgan college, the University of Baltimore, the University of Maryland, and Maryland college for Women.

Maury Hughes seized something more tangible to attack as an opener. He delivered his first "jock" of the campaign at the state ranger force. If he becomes governor it will be either taken "out of politics" or be abolished, he announced.

Issues will become defined as the candidates get on the stump and get a reaction from their bases. McDonald will "open" at Bonham when it gets "warm in April" meaning probably San Jacinto day. Alford will open at Bowie but has not set the day. Others are also expected to be on the stump by May.

U. S. Couple Revealed As Spy Gang Heads

PARIS, France, March 22.—Robert G. Switz, young New Yorker, was revealed by his own confession this week as the Paris chief of an international spy gang which police said operated on behalf of soviet Russia and Germany to learn the military secrets of France, Great Britain and the United States.

With Switz is held his wife, the former Marjorie Tilley, Vassar girl. After a merciless cross-examination lasting far into the night, Switz made admissions which led to five more arrests, in addition to some 20 already made.

American and British secret agents were said to have cooperated in uncovering the ring.

The young Switz succeeded to leadership of the conspiracy a year ago, police said, after the original chief had been nearly trapped and fled from France.

Maury Hughes seized something more tangible to attack as an opener. He delivered his first "jock" of the campaign at the state ranger force. If he becomes governor it will be either taken "out of politics" or be abolished, he announced.

Issues will become defined as the candidates get on the stump and get a reaction from their bases. McDonald will "open" at Bonham when it gets "warm in April" meaning probably San Jacinto day. Alford will open at Bowie but has not set the day. Others are also expected to be on the stump by May.

Kellogg's ALL-BRAN

WILL you ever forget the sulphur and molasses "spring tonic"? But times have changed. Today, we know that much of the listlessness of spring days results from common constipation.

ALL-BRAN also provides vitamin B, as well as a generous share of the iron you need in spring.

People who are really ill after the winter, of course, should consult their physicians. ALL-BRAN is simply recommended for common constipation—and is not a "cure-all."

CONTROVERSY REVIVED OVER OLD CUSTOM

By DYKE WILLIAMS

United Press Staff Correspondent

COOLIDGE, Ariz., March 22.—An old controversy on human sacrifice in the United States may be renewed through a discovery reported to the superintendent of Southwestern monuments here it was learned today.

The find is believed to be a "sacrificial altar," near the White Sands National monument in New Mexico. It is similar in many respects to those of Mexico, whose early inhabitants are declared by archeologists to have practiced the custom.

The section is rich in signs of prehistoric habitation, but it is yet uncertain whether the skeletons, pottery, mounds (which when excavated are found to be Hopi-style houses) and other remains were all left by the Pueblo people, or whether an earlier race which archeologists only have begun to delineate and speculate upon was responsible for some.

If there was an earlier people, to them likely will be laid the charge of human sacrifice—should that be determined as the use of the strange new altar.

The find is in an almost inaccessible region, and was reported by Laurence Cone, of the White Sands monument staff.

At the top of a small hill at Three Rivers, facing the setting sun, there are huge stones, ten feet or more in height, flanking a large flat horizontal rock, the "sacrificial block." The entire altar is before a grassy platform.

Officials of the company complimented the men from north Texas upon the fine work they had done in distributing "Admiration" and "Bright and Early" coffees, fresh from the roasting ovens.
