PLAN AIRMAIL SHIFT IN TWO MONTHS

Leaders Striving for Senate Vote to Sustain FDR Veto

HOUSE ACTION YESTERDAY IS WORST REBUFF

WASHINGTON, D. C., March 28.—The battle over veteran legislation blazed today as the senate, playing its most dramatic scene of the session before crowded galleries, brought out the issue of whether to sustain President Roosevelt's veto.

WASHINGTON, D. C., March 26.—President Roosevelt's veto of the veterans pay restoration bill, overridden in the house yesterday, comes before the senate today with administration leaders striving desperately to marshal enough votes to sustain the chief executive.

The outcome of the senate vote is doubtful. Administration leaders and veterans advocates both claimed victory but both admitted the vote would be close. In the background were the powerful veterans lobby which had made a rapid comeback from the smashing defeat Mr. Roosevelt administered last year when he forced his economy program through congress and this time elections with many senators and representatives running for reelection who would find support by veterans helpful.

ROOSEVELT NOT RETURNED. ABOARD ROOSEVELT SPECIAL, Route, Jacksonville, Fla., March 27.—Apparently unperurbed by reports congress might override his veto of veterans-government work legislation, President Roosevelt prepared to board the sea-going yacht, Nourmahal, for a special cruise far from the cares of office.

WIRT CHARGES TERMED 'BUNK' IN COMMITTEE

WASHINGTON, D. C., March 28.—Dr. Wm. A. Wirt's "brain trust" charges today were termed "bunk" and "Wall Street propaganda" by members of the house rules committee considering a formal inquiry.

Class Meeting at City Hall Called

A mass meeting has been summoned for Friday evening, March 30, 8 o'clock at the city hall auditorium under the auspices of the Progressive Cooperative League, at which all candidates for city office will be invited to give outlines of their platforms.

WEATHER

West Texas—Fair, warmer tonight; Thursday cloudy, warmer; next day, colder north portion.

Stars of "Cavalcade," judged the best film of the year. Clive Brook and Diana Wynyard are shown as they appeared in Los Angeles at the ceremony of the Academy of Motion Picture Arts and Sciences, when gold statuettes were awarded individuals and firms for outstanding artistic and technical work in the last 18 months.

Dr. J. L. Martin Is Buried on Monday

EASTLAND, March 28.—Dr. J. L. (Gene) Martin, 35, son of Mr. and Mrs. J. P. Martin of Eastland, died at 4:30 p. m. Sunday at Legion sanatorium, Texas, and was buried at Dale, Monday. The Masonic lodges of San Antonio and Lockhart had charge of the burial ceremonies.

Dr. Martin's wife, who lives at Gorman, and his brothers, Paul and Fred, attended the funeral. His parents were physically unable to attend.

In addition to his parents, his wife and two brothers, he is survived by two children, a boy and girl.

Dr. Martin's parents were pioneer settlers of Eastland county and Dr. Martin was born in Eastland county a few miles west of Eastland. He attended dental college and for many years practiced dentistry at one time having an office in Eastland. He served with the United States navy during the world war.

Dr. Martin had been in ill health since his discharge from the navy and in the last three years had undergone three major operations.

He visited his parents in Eastland last summer en route to Chicago for medical treatment.

Only a short time ago he wrote his mother telling her that government doctors, whom he said had been patient, kind and considerate of him, had done all within their power for him without avail and that he realized that he was nearing death, but that he was prepared and ready and willing to go.

Byrd Starts Lonely Eight Months Vigil

LITTLE AMERICA, Antarctica, March 28. (via Mackay Radio).—Rear Admiral Richard E. Byrd was isolated in a little snow buried hut on the blizzard swept Ross ice barrier, 123 miles from this camp today, prepared to spend eight months alone and in darkness.

It was Byrd's idea to bury himself out on the ice barrier at 60 degrees and more below zero to study alone meteorological conditions.

Byrd has three wireless sets. He said before he left here, however, that he might not be able to keep in communication with the camp and might not want to, so that no one was to worry about him if he was silent.

DONOVAN SAYS HE FAVORS TAX COMMON SENSE

W. J. Donovan, one of three candidates for city commission in opposition to three incumbents seeking re-election, today denied reports that, if elected, he would favor strict enforcement of city ordinances for tax collection.

"In view of the times and the condition of the people," he said in a statement he asked the News to publish, "I believe that the greatest leniency possible should be shown in tax collection. People are already overburdened with taxes as it is, and I believe that they are paying just as well as they can. When I was a member of the commission I advocated common sense in this matter and I still believe in common sense. I certainly don't favor grinding down the public with tax collection contracts and legal proceedings when they are doing their best."

Donovan is one of three candidates whose petitions for places on the municipal ballot were found insufficient because of the lack of sufficient signatures of qualified voters. The commission had held that the petitions were filed too late, however, and refused to place their names on the ballot which had already been ordered printed.

Opposing this ticket are the three commissioners whose terms expire, J. R. Burnett, H. C. Henderson and W. R. (Bob) Winston.

The election will be held next Tuesday.

THREE BIRTHDAYS ROCKVILLE, Conn., March 28

It's an expensive proposition buying birthday presents in the Kibbe family. Mrs. Julia Kibbe, her grandsons, Charles and her niece, Phyllis, have the same birthday anniversary. Three birthday cakes decorated the table at the last one. Mrs. Kibbe's had 81 candles.

USED NRA KALISPELL, Mont., March 28

The Blue Eagle flies over Kalispell's illicit liquor industry. When officers seized Glynn Cox and Wayne Bull on charges of selling moonshine, bottles taken as evidence were found to be stamped neatly with NRA labels and the customary, "We Do Our Part."

960 DEER KILLED TULARE, Cal., March 28

If all the buck deer shot in the Sierra national forest this year were stood nose to tail, they would extend in an unbroken line almost a mile long, forest rangers estimated today. During the season, their records showed 5,034 hunters from 400 California cities bagged 960 deer in the forest.

PLANS ROUNDUP HELENA, Mont., March 28

Helena will have a modern network of highways as a result of the civil works administration program. C W A funds were used to construct, or to improve, 70 airports, giving the state a total of 80 usable landing fields spaced less than 100 miles apart.

INSULL VESSEL SEEKING PORT IN ROUMANIA

ISTANBUL, Turkey, March 28.—The Greek steamship Maitis chartered by Samuel Insull to seek refuge from American extradition charges, passed Chanak, in the Dardanelles, at 8 a. m. today. The ship's master said he was bound for a Roumanian port.

The Maitis is due at the straits of the Bosphorus at Istanbul tonight.

As the news reached here of the Maitis' entrance into the Dardanelles, one of Insull's Athens lawyers revealed that neither he nor the ship's owners had heard from it for three days.

MARTIN INSULL DECLARED AN ALIEN

DETROIT, Mich., March 28.—Martin Insull, indicted Chicago utilities official, today was declared an alien at an immigration hearing conducted here.

He was immediately paroled to Chicago officers, however, for return there to face embezzlement charges in connection with the collapse of the Insull properties.

K. C. Election Death Toll Raised to Four

KANSAS CITY, Mo., March 28.—The death toll in Kansas City's bloody municipal election jumped to four today when P. W. Oldham, a bystander, succumbed to a bullet wound suffered when he happened within range of dueling gunmen of the victorious democratic machine.

The battle occurred as votes were being tabulated to give the incumbent machine controlled by Tom Pendergast, a 59,000-vote majority over the ticket of the fusion party.

Thus, to the tune of pistol shots and thwacking clubs in the hands of thugs, was Kansas City's famous "Little Tammany" returned to power over the city government for another four years.

Judges Selected For District Meet

Partial selection of judges for the district interscholastic league meet in Breckenridge, April 4-5, occupied most of the time at the session of the district executive committee in that city Monday, March 26.

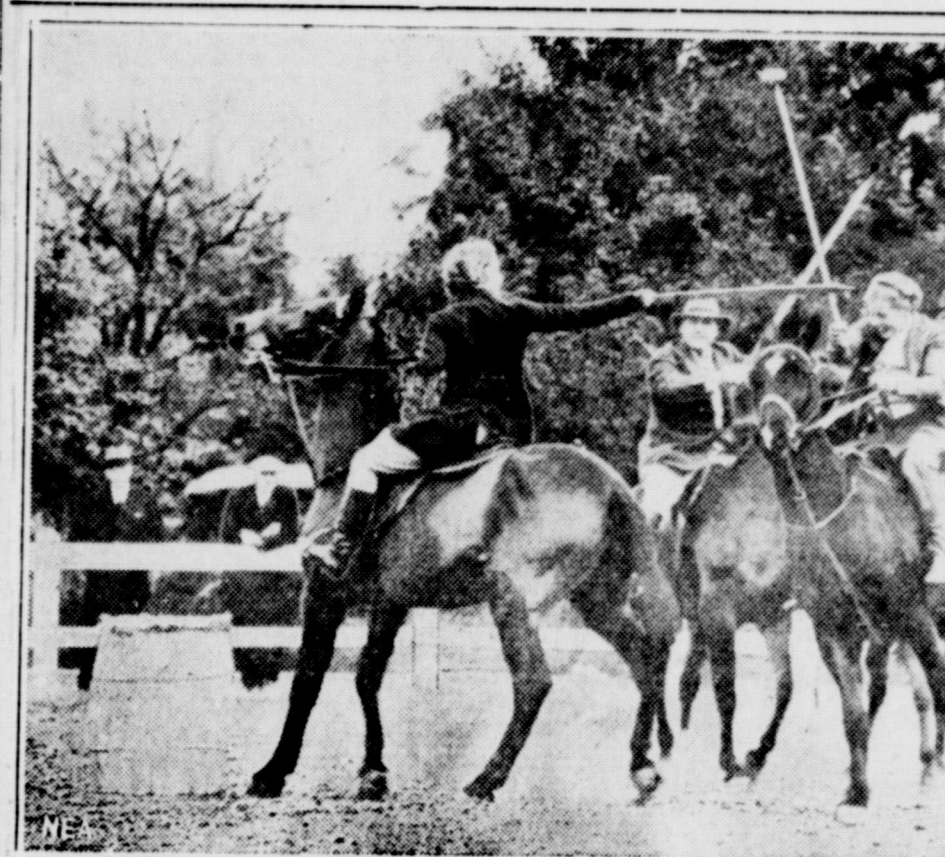

At the meet the executive committee extended the time for the final date of all county meets to April 4 because the former dates set for the county meet were ones in which inclement weather was prevalent. By this date all entries for athletic events of the district meet must have been received by P. L. Shotwell athletic director. Weather conditions have not interfered with literary events, consequently no time for extension has been requested.

The committee decided that instead of using three judges for one act plays, one expert judge would be employed. The one act play contest, will be held Thursday, April 5th, high school auditorium, Breckenridge.

Principals of high schools were in Abilene today selecting other judges and making arrangements for judges from the colleges located in that city.

Members of the executive committee attending the meet in Breckenridge were Principal W. A. Ross, Mineral Wells and Coach Stovall; Principals H. Brandon, Cisco; W. P. Palm, Eastland; Superintendent E. T. Dawson, Rising Star, and D. T. Smith, Albany; and Miss Martha Kite, J. F. Bailey, P. E. Shotwell, and N. S. Holland, all of Breckenridge.

Takes a Little Starch to Play Potato Polo!

Marjorie comes from Kew Gardens, L. I.

CWA OFFICIAL EXPLAINS NEW RELIEF PLANS

EASTLAND, March 28.—H. E. Driscoll, county administrator for CWA who returned to Eastland from a trip to Austin Monday where he had conferred with administrative officials concerning the new relief program to be instituted, made a statement Tuesday morning giving information regarding the program. He said: "I have just returned from Austin working out the details of the new program to be inaugurated April 2. The plan is a new modified form of relief on a budgetary basis. All employees are to receive one-third of their pay in cash and two-thirds in commodities."

"In places with population of over 5,000 we must close every case book March 31. Anyone who wants relief must apply after that date. We do not necessarily start another record as we can use re-investigatory records made in accordance from instruction from Austin recently but means clients must make new application April 1 or thereafter," Mr. Driscoll said.

New Problems. New problems have arisen, Driscoll stated. "One of the problems that is created by instruction is to put everyone on a budgetary basis. Another problem is that the employees work 24 hours a week and 54 hours a month which will put some skilled workmen making one dollar an hour receiving \$54 a month while our budget requires less. Austin will advise us as to the proper handling at a later date. Several details are still lacking in the plan to complete the program."

"The only cities in the county according to information for this office, which have a population of 5,000 or over are Cisco and Ranger, and according to the new ruling from population standpoint means that a great deal of office work must be done prior to the start of the new program and we ask consideration of all affected in bearing with us if we find it physically impossible to have our program ready to present on time. We feel as if it will be accomplished," Mr. Driscoll said.

Committees, consisting of Pete Coates, Cisco, to represent employers of construction labor; Mr. Leverton, labor; and M. B. Kowalsky, county superintendent of Eastland county relief, will meet in the near future prior to the inauguration of the new program and set the governing wage scale applying to all skilled and unskilled labor.

The personnel of the CWA county headquarters will undergo a few changes.

MEASURE PRIZE PORT ISABEL, March 28

A rubber tape measure for the most prevaricating angler is being considered as a prize suggestion by the Valley Tarpon rodeo committee for the "best" or worst liar of the contest. The prize will be awarded during the tarpon rodeo, Aug. 8 to 12.

"Rainbow Trail" at Randolph Thursday

The "Rainbow Trail" by Zane Grey, is to be presented by the M. G. M. Stars under the auspices of the senior class of Randolph college in the college auditorium at 7:30 p. m., Thursday.

Some of the M. G. M. stars are travelling in person with the show. Added attractions of real knife throwing and hatchet throwing in person, and also saddles and bridles used by the movie stars to be on exhibition.

Receipts will be used by the senior class to pay for the arch at the entrance of the campus.

OLD CARRIERS MUST REVAMP THEIR SETUPS

WASHINGTON, D. C., March 28.—Transportation of airmail will be returned to private companies within two months, with all airlines eligible to bid for temporary contracts if they purge themselves of former officials charged with fraud and collusion. Postmaster-general James A. Farley announced today.

Advertisements of bids will be sent out by the post office department this week, calling for submission of bids within 15 days. Successful bidders will be required to start operations within 30 days after contracts are awarded, Farley said.

Fifteen routes will be flown at the start, covering slightly more than half of the mileage formerly covered by commercial air routes.

Companies whose contracts were cancelled on charges of fraud and collusion must change their corporate setups, Farley said. In addition, they must have dismissed all officers who were connected with the so-called "spoils conference" held by Postmaster-general Brown in 1930.

Farley said he had been advised by lawyers that existing lines could revamp their companies in a reasonable time and be eligible to bid on the temporary contracts. However, it was emphasized that changing their corporate set-ups would not qualify them if any of the new company officials attended the 1930 conference.

SEEK TO LINK STEVENS MONEY WITH ROBBERY

FORT WORTH, March 28.—A score of witnesses called by the government today in the \$71,000 mail robbery trial testified O. D. Stevens and W. D. May paid off notes on their farms in \$1,000 bills and paid for improvements in \$50 and \$1 bills.

United States District Atty. Clyde Eastus attempted to link these payments with currency of the same denomination taken in the holdup February 21, 1933.

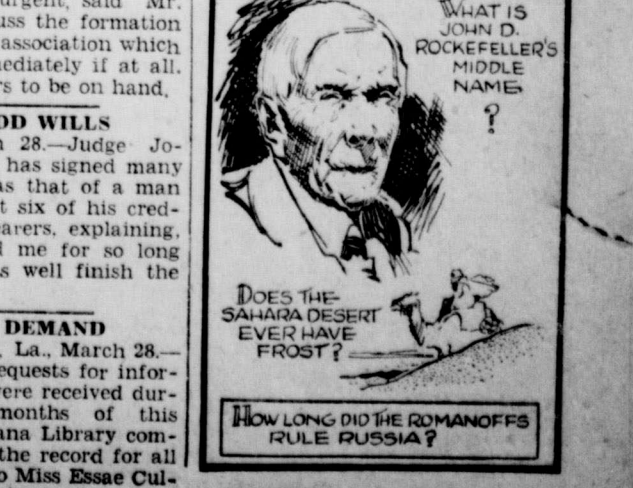

Stevens, May and eight others are on trial. The high point of today's trial was expected to be reached when the young widows of two of three men slain here last July testified that the government contends was a dispute over the robbery loot.

Through several witnesses late yesterday, including airline and hotel employes, the government sought to prove that Stevens made three separate trips to New York under the name of R. A. Doyle, presumably to exchange the loot with a fence.

GIVES SWEDEN HOME STOCKHOLM, March 28

The Stockholm home of Anders de Wahl, Sweden's most celebrated actor, was donated by the artist to the city as a future haven for some deserving thespian. The donation was made on de Wahl's 65th birthday. His home is located on the top of a patrician house on fashionable Strandvaegen, and is filled with rare art objects from all over the world.

BETTER TIMES FOR HOUSTON ARE REVEALED

HOUSTON, March 28 — Better times have come to Houston, the south's second largest city.

A survey of the city revealed decided upward trends in real estate, in bank clearings, in shipping and even in the professional men's clubs and country clubs.

More new automobiles have been sold for cash in Houston during the past four months than in the previous five years.

Available rental property has decreased 60 per cent during the past six months and less than six per cent of the residential property is vacant, according to Ralph Henderson, business manager of the Houston Press, whose carrier boys have just completed a survey.

Indications are that residential building will be started within the next few months, Henderson said, because of the scarcity of rental property. Residential rentals of \$85 per month and over are practically unobtainable, Henderson learned in his survey.

Traffic patrolmen and taxi operators reported a 15 per cent increase in traffic compared with a year ago, Henderson said.

New Firms
He offered explanation in that many new firms, particularly oil companies are moving into the city. There are 20 merchandising companies waiting to come to Houston when suitable locations are available he said.

During the past three months 162 businesses have opened here, 43 of which were directly related to the oil industry.

Many business concerns are expanding their quarters. Humble and Refining company announced it would build an 11-story annex to its main office building here.

Moving of the Shell and T. Dewater oil companies offices here more than a year ago is credited with much of the recent development of business.

Oil that a year ago was selling from 10 to 25 cents a barrel now is being marketed at approximately \$1. This new revenue has had its part in the recovery movement. Families that once lived two or three in a house have moved into separate residences utility companies' records show.

Bank Liquid
Prosperity that permits this "undoubling" of families naturally reflects in the merchandising business, Henderson observed.

Houston banks have reported their liquid condition never better and unlimited funds are available for loans to those who qualify for a line of credit on which requirements are no more severe than pre-depression days. Debits in the banks are mounting daily, clearing house figures show, revealing increase in transacting throughout the city.

Railroads reported increased car loading and passenger transportation, although no exact percentages of comparison are available.

A "substantial profit" was announced by the Houston Electric company, operators of surface lines, for the past year.

The Houston club, an exclusive business and professional men's club, has increased its membership 40 per cent during the past 90 days. Country clubs, golf clubs, yacht clubs, polo clubs and other recreational organizations have shown similar gains.

PENTHOUSE FOR NUNS
PITTSBURGH, March 28 — The Nuns of the Sacred Heart parish will live in a penthouse-like structure after their new school is built. The plans made public recently call for a 30-room dwelling on top of the school house. Besides the bedrooms it will include a large dining room, recreation rooms, chapel, laundry and reception room. An electric elevator will take the sisters from their home to the class rooms. The entire project will cost approximately \$450,000.

OUR CITY COMMISSION RULED OUR NAMES OFF, OUR PETITION BEING TOO LATE. Ours was filed March 13th.

Explain to us why it costs the city government of Cisco three times as much to operate as that of Ranger or two and one-half times that of Eastland.

We think the Fire Department is the only efficient department of the city. We believe it should be continued as an independent organization as heretofore, and kept free of politics.

NEW TEXAS U. RISING FROM OLD CAMPUS

AUSTIN, March 27.—Hosts of "Texas-Exes" will return here April 13, 14 and 15 to "re-discover" the University of Texas.

From a trench-scarred, pit-marked campus nine new buildings have arisen during the past year in the University's \$4,000,000 building program.

Nearly \$9,000,000 has been spent in building, equipping and beautifying the state university since oil was discovered beneath university "grazing lands" back in 1923.

University of Texas now is the richest university in the south from the standpoint of endowment, according to records of the state library here.

Old grads returning for the university's fifth annual round-up must inquire their way around the campus. The first shrine many will visit is the domed, ivy-crowned Main building.

It sheltered a student revolution

which led to observance of March 2 as Texas Independence day. It housed the "English Channel," a hallway flanked by the offices of English professors. Successful passage has long been notoriously difficult for freshmen and sophomore students. For years "Old Main" was the university itself.

Cost \$1,633,000

The building is to be torn down to permit construction of a new Main-Library building on the same hilltop site. Cost of razing and reconstruction will approximate \$1,633,000. Most of the sum has been loaned by the public works administration. It will be repaid from rental fees on university grazing lands in west and southwest Texas.

Program for annual round-up in April contains more than inspection of the new university, according to John A. McCurdy, executive secretary of the ex-students' association.

The university's annual round-up, revue and ball, a special football exhibition a triangle track meet, homecoming parties and reception and dramatic plays also are planned for the celebration.

The revue will be featured by the introduction of the 1934 "Sweetheart of the University of Texas" to be selected by student election. Mrs. Genevieve Weldon of Houston won the honor last year.
