FRENCH PAIR END FLIGHT AT NEW YORK

Commission to Receive Bids Today on Highway 23 Project

MILE STRIP SOUTH IS DUE TO BE REBUILT

The state highway department today was to take bids upon the project for widening and resurfacing highway 23 nine miles south of Cisco to Bonney. The project, estimated to cost between \$50,000 and \$60,000, is one of those submitted under the PWA program of emergency relief road construction. Plans had to be approved in Washington before bids could be taken. Considerable delay was occasioned upon the insistence of the federal road department under wider construction it was understood. Road construction projects developed at Eastland and Ranger under the same program have been completed. The award of the contract, it is understood, is also subject to approval of a federal bureau, which may cause some delay in the beginning of construction. The highway has already been rebuilt from Romney to Rising Star, a state doing that work three years ago.

Other Projects

Bids were to be received at Austin today also upon the following: Fort Worth's "Stockyard Viaduct" 28th street, North Fort Worth. A foot roadway with an additional sidewalk is to be provided. The viaduct will consist of a series of girders and beam spans on a concrete abutment and pier. Two hundred working days will be allowed for its completion.

A Southern Pacific railway under construction for Highway 72 at Schulenberg. Five large drainage structures on a fifth county feeder road between Camp and Wright City, and a crossing for Black Fork Creek on the road at Tyler.

Double bituminous surface treatment of Highway Eight in parts of Wilbrey and San Augustine counties. Similar treatment for parts of Highway Five in Dallas and Hartley counties.

Triple asphalt surface treatment of Highway 49 in Cherokee county. Awards were to be made on standardized projects after tabulations had been expected to take most of the day. Low bidders on national emergency projects will be recommended on contracts on them must have approval of the U. S. bureau.

Hamilton Indicted Under Habitual Act

BRUNTSVILLE, May 28 — Raymond Hamilton, former gun mate of a desperado Clyde Barrow, was indicted today by a county grand jury as an habitual criminal. The indictment listed the killing of Major Crowson, Eastham prison and slain in a break in which Hamilton escaped January 16, and the robbery of J. N. Bucher, of Hillsboro, Texas. It also listed a robbery of a circus case against Hamilton the robbery of the Carmine State bank in Fayette county.

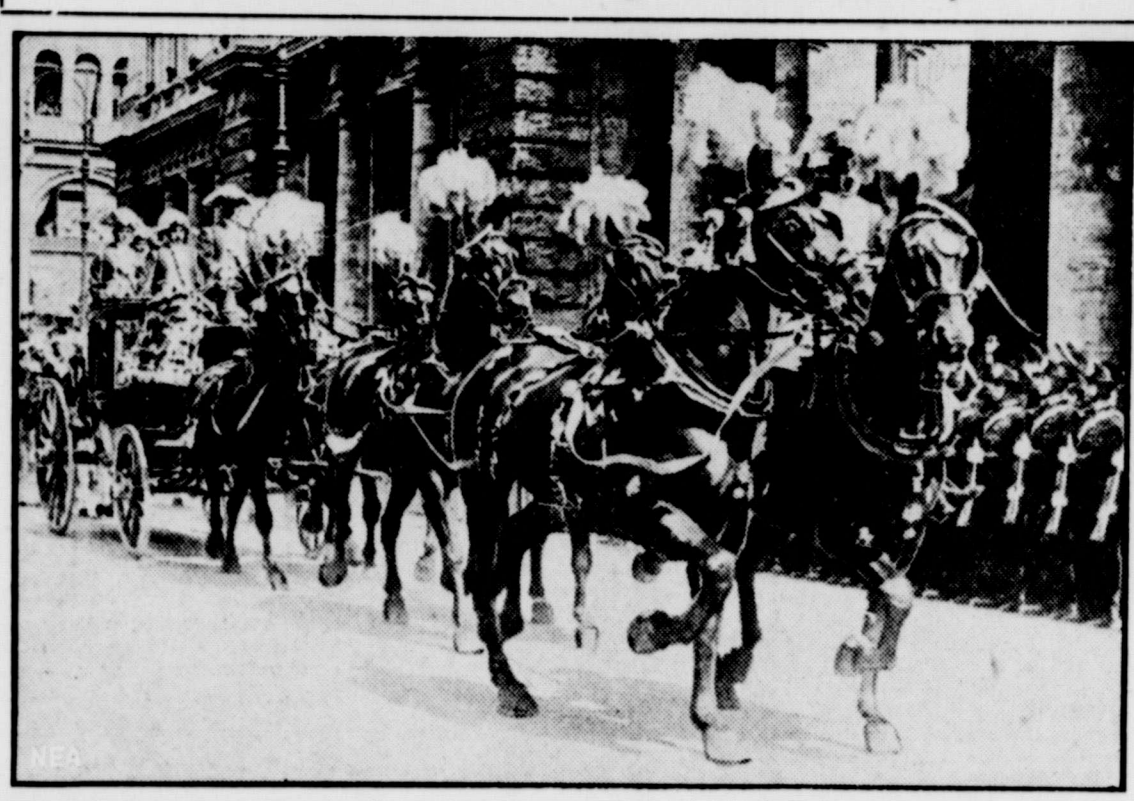

Women's Teams Play Here Wednesday

The Loyal Women's class of the First Baptist church and the J. O. class of the First Baptist church met in a game of playground basketball at Chesley field Wednesday afternoon at 6 o'clock, it was announced today. The hour has been changed from 5 to 6, in order not to interfere with mid-week prayer meeting services at the various churches, and the game will be ended in time to attend these services, it was announced.

WEATHER

West Texas—Partly cloudy, probable thundershowers in extreme west, warmer in north portion today. Tuesday partly cloudy, probable thundershowers in west portion. Texas — Generally fair; warmer except on coast tonight; today increasing cloudiness.

A Parade That Turns a Page in Italian History

A pompous ceremony which most Italians thought they were looking on for the last time is here recorded as King Victor Emmanuel was borne in state through Rome's flag bedecked streets to the chamber of deputies for the inauguration of the 29th session of the Italian parliament. Mussolini's plan for a National Council of Corporations is expected to doom parliament.

OFFICERS DENY KNOWING WHERE METHVIN HIDES

DALLAS, May 28 — Although a subpoena for Henry Methvin was reported to have been sent from Fort Worth to the Dallas county sheriff's office, local officers today denied knowledge of Methvin's whereabouts. The man, who escaped from Eastham prison and who was reported to have aided officers in trapping Clyde Barrow and Bonnie Parker in Louisiana last week, was wanted in Fort Worth to testify at a habeas corpus hearing for Mrs. Billie Mace, sister of Bonnie, held on a murder charge in the slaying of two highway patrolmen.

Canada, U. S. Lead Industrial Activity

GENEVA, Switzerland, May 28 — The United States and Canada led all countries of the world in increase of industrial activity in the first quarter of 1934, as compared to 1933, the League of Nations economic section announced today. Canada's increase was 40 per cent over the same period last year. The United States' increase was reported as 30 per cent above the first quarter of 1933.

Charges Prepared in Fatal Knife Attack

CLARKSVILLE, May 28 — Murder charges were prepared here today for filling against Frank Phelps, 40, in connection with the fatal wounding of Hood Brown, 35, yesterday. Brown died in a Paris, Texas, hospital from effects of wounds he received in a cutting scrape near the Red river, where he had gone on a fishing trip.

JUNIOR POLICEMAN GALLION, O., May 28 — Police Chief Grank Cook has recommended Bobby Thomas, school boy safety patrol member, as a "junior" policeman. Here's why: A hardware merchant told Bobby one noon that a knife was missing after a boy had been in his store. Young Thomas produced both the boy and the knife within a half hour.

WHAT NO MOSQUITO? CANYON, May 28 — Wanted: a mosquito! Army officers of the veteran's CCC camps near here have been forced to disregard orders from Ft. Bliss directing them to send a mosquito there to be examined in the army medical laboratory. Three weeks search for a mosquito has been futile.

NEW THREAT ON U. S. DIPLOMATS IN CUBA MADE

HAVANA, Cuba, May 28 — Another assassination threat against the United States diplomatic corps here was made today in the wake of an apparent attempt against the life of Jefferson Caffery, the ambassador. Four young white men in a car without license plates crowded the car of Freeman Matthews, first secretary of the embassy, to the curb. They carried a machine gun in their car. They told Charles Taylor, American negro chauffeur: "You've got two weeks to get out." The secretary himself was not in the car.

Dry Weather Booms Wheat at Chicago

CHICAGO, May 28 — The wheat market boomed today under the influence of dry weather and closed five cents above Saturday's close. May wheat closed at 98 and one-quarter cents.

Something's Really Wrong With Them

BEAUMONT, May 28 — Yes, there's something wrong with those grass roots, County Farm Agent J. F. Combs is convinced, and if you want to know just what it is he'll let you read for yourself the official diagnosis. Combs didn't like the looks of some of the roots so he sent them to the bureau of plant industry at Washington. The report received in reply said: "These roots are infested with Nematodes. We found numerous specimens of the root-knot nematode, heterodera marioni, and also another quite serious plant-infesting form, anguillulina multinecta. In addition, aphelenchoides parietinus, cephalobus exyruoides, anguillulina, filiformis, and dorylamus, perhaps obtusicaudatus, were found, but the trouble really comes from the first named species. If you don't believe it, you can examine the roots yourself."

Sherman Fugitives Sought at Guthrie

GUTHRIE, Okla., May 28 — Three youths who broke jail at Sherman, Texas, Sunday after hitting the jailer on the head with a sock full of sand, were sought in this section today. Officers believed they were the two who commandeered a car and kept the driver as hostage after blocking a highway north of Guthrie with a car taken earlier in the day from a Dallas man. Officers were close on the trail of the fugitives.

PROGRAM ENDS SCHOOL TERM THIS EVENING

The Cisco high school senior class of 56 members tonight will receive their diplomas in exercises at the high school auditorium when Dean D. M. Wiggins, Simmons university will address them. Valedictorian for the class will be Julian Ely and salutatorian, Miss Gene Webster. The diplomas will be handed the students by O. J. Russell, school board member. The members will be presented for graduation by Supt. R. N. Cluck and announcement of awards will be made by Principal H. Brandon. Last night the class and a congregation that filled the school auditorium to capacity, heard Dr. J. Stuart Pearce preach the baccalaureate sermon. Dr. Pearce, pastor of the First Presbyterian church, brought a stirring message upon self-discipline as the prerequisite to a successful life.

Choral Club Sings

The music for the services was provided by the Community Choral club directed by Mrs. W. B. Statnam with Mrs. S. E. Hittson pianist. Invocation was by Dr. David F. Tyndall, president of Randolph college and pastor of the First Christian church; Scripture reading by the Rev. C. S. Moad, pastor of the Church of God and the benediction by the Rev. E. W. Kramer, pastor of the Twelfth Street Methodist church.

New Threat Spurs Strike Negotiators

TOLEDO, O., May 28 — Threat of a general strike which would paralyze Toledo industry spurred representatives of the NRA today in efforts to bring peace in the warfare that has held the city in a bloody grasp for almost a week. Negotiators feared that labor troubles dwarfing those of the last few days would result unless they arrive at settlement of the strike at the Electric Auto-Lite company, where rioting between national guardsmen and strikers turned the region into bloody battle ground. National guardsmen continued to patrol the riot-torn "war zone" about the plant, but strikers and sympathizers apparently had no intention of resuming attack.

"Initial" Teams to Vie Tuesday Night

The "L's" and "S's" will play at the lighted soft ball diamond Tuesday night, and the "M's" and the "P's" will also play, it was announced today. Any business or professional man in Cisco who wants to take part in these games should report to the group whose initial corresponds with his own. Captains of the groups will be: "L's", Vance Littleton; "S's", Tom Stark; "M's", Nick Miller, and "P's", Jewel Poe.

Returns Sunday from Funeral for Mother

Mrs. P. B. Hudlow, office secretary for the chamber of commerce, returned last night from San Antonio where her mother, Mrs. C. F. Cockrell, was buried Friday. Mrs. Hudlow was with her mother when death took place Thursday.

OXEN ON ANNIVERSARY WEST BRANCH, Mich., May 28 — Characteristic of their earlier days, Mr. and Mrs. George Detzler, Klackling Creek, drove a team of oxen to St. Joseph's church here where they were remarried in observance of their golden wedding anniversary. The oxen excursion was planned as a part of the celebration of their anniversary.

British Debt Policy Not Altered by Note

LONDON, May 28 — The United States today delivered a note to the government reminding that the British debt installment of \$85,670,000 would be due June 15. The United Press learned immediately after the note was received that it had not altered the government's present policy which is to default the June payment unless the debt situation is altered.

FOE'LL NEVER BOARD THE TEXAS AS LONG AS KERRY CAN BATTLE

Just bring on the enemy! Kerry is ready for all comers as he stands here in watchful attitude, proud of his naval berth is mascot of the U. S. S. Texas.

ONE KILLED IN OVERTON BLAST, FIRE IS RAGING

OVERTON, Texas, May 28 — An explosion which took one life and injured six persons at the Oil Refinery, Inc. plant today was followed by a fire which still raged several hours after the blast. The refinery was completely wrecked. Damage was estimated in excess of \$100,000. With the water supply exhausted the Overton fire chief said further explosions might occur. Flames threatened several tanks of gasoline.

Better Times Reduce Operations of R. F. C.

WASHINGTON, D. C., May 28 — Business improvement is enabling the Reconstruction Finance Corporation to operate at \$1,500,000,000 under its \$4,000,000,000 budget for the current fiscal year, Chairman Jesse H. Jones revealed today.

Electric Trap for Rats Is Rigged Up

WICHITA FALLS, May 28 — J. G. Groves, operator of a shoe shop here, has rigged up an "electric chair" to rid his shop of rats, and dead rodents provided that the device works. His trap consists of a wooden shelf with cheese at one end and metal plates at the other. The plates are wired with electricity, so that when a rat tries to run over them to reach the cheese he gets instant death instead. Groves said he found 15 dead rats on the shelf at one time.

WHO WAS FIRST? IN AMERICA

By Joseph Nathan Kane Author of "Famous First Facts"

MONOPLANE IS FORCED DOWN BY BAD MOTOR

FLOYD BENNETT FIELD, N. Y., May 28 — The silver monoplane Joseph Lebriz, bound from Paris for California, completed a speedy crossing of the North Atlantic ocean today, but was forced to land at this airport—some 2,600 miles short of its goal. Motor trouble forced them down. The monoplane, bearing Lieut. Paul Codos and Lieut. Maurice Rossi, landed at 2:37 p. m., EDT, after a flight of 38 hours and 27 minutes. The only other westward flight from Paris to New York was the aerial journey of Deidonne Coste and Maurice Bellonte, in 1930. The monoplane appeared unexpectedly over the airport, circling slowly and dumping gas as she maneuvered for a landing. The fliers had cut off radio communication and had neither been sighted nor reported directly after leaving Maine.

CISCO TO BE RECOMMENDED FOR COMPANY

Cisco will be recommended as the site for the headquarters of the national guard company to be transferred from Wichita Falls, Major E. V. Harwick commandant of this national guard area, today informed the three Cisco men, who will be recommended for officer personnel of the company—Haywood Cabaness, O. L. Stamey and J. M. Bird, who will be captain and first and second lieutenants of the company, respectively. Major Harwick said that his recommendation is going forward by letter today to Major Gen. John A. Hulen, commanding officer of the 36th division, Texas national guard, the three were informed. Organization and training of the company of 65 men will be speeded in time for federal approval and participation in the summer encampment at Palacios, Cabaness said.

Services Are Being Held Under Canvas

Gospel services are being conducted this week under canvas on West Ninth street by Evangelists B. Fuller, Fort Worth, and B. F. Cox, Plainview. These services, said the evangelists, are intended to be helpful to all regardless of class or creed, and a cordial invitation is extended to the public.

INJURED MAN

WILDER, Idaho, May 28 — James G. Sevy was thrown to the ground sustained a deep cut on his upper lip and several painful bruises when can of buttermilk exploded. Sevy was attempting to loosen the lid. The can of buttermilk had been standing in the sun.

SAFETY OF THE RIGHTEOUS: The righteous shall inherit the land, and dwell therein for ever. The law of his God is in his heart; none of his steps shall slide.—Psalm 37: 29, 31.

A CLASS GRADUATES

Tonight marks the formal closing of the 1933-34 term of the Cisco high school. Fifty-six members of the senior class will be given diplomas in commencement exercises to be held at the high school auditorium when Dean D. M. Wiggins, of Simmons university, Abilene, will speak to the group.

Each of the 56 students, if he or she has done justice to the opportunities afforded the class during the period of school life just now being completed, is sufficiently equipped to fill a normal place in the social order for which they were being trained. The business of the public school is not to train people for professions. Its business is to equip the man and woman of the future with the means to be good citizens; give these a groundwork of knowledge that will enable them to intelligently discharge their duties to a democratic society and to make an enlightened determination of their individual destinies.

Each of the 56 students, if he or she has done justice to the opportunities afforded the class during the period of school life just now being completed, is sufficiently equipped to fill a normal place in the social order for which they were being trained. The business of the public school is not to train people for professions. Its business is to equip the man and woman of the future with the means to be good citizens; give these a groundwork of knowledge that will enable them to intelligently discharge their duties to a democratic society and to make an enlightened determination of their individual destinies.

The difference between the high school of today and that of yesterday is as great as the difference between the high school of today and the university. But that difference is only relative. It represents a parallel to the advancement that has been made in social and mechanical knowledge. The class of yesterday, as classical as some of its instruction may have been, was perhaps as well equipped for its day as are the students who tonight receive diplomas from the hands of the public school authorities.

WET STATES MUST PAY LIQUOR TAX

Another important decision has been made by the court of last resort—the supreme court of the United States. Ohio and other states which monopolized the sale of intoxicating liquors within their boundaries must pay federal taxes, Ohio to prevent the return of the saloon, in December, 1932 set up a state monopoly for the distribution and sale of all spirituous liquor and purchased a supply costing approximately \$4,500,000 for sale through stores owned, managed and controlled by the state. An unanimous decision of the court of last resort declared "the principle had been firmly established that the instrumentalities, means and operations whereby the states exert the governmental powers belonging to them are exempt from taxation by the United States, but that the immunity of the states from federal taxation is limited to those agencies which are of a governmental character."

OUT OUR WAY.

"Sacred to the Memory of Heroes Who Died for Rights of State"

By HUGH NUGENT FITZGERALD On the capital grounds stands a monument of granite erected by people who loved the empire state of Texas, dedicated to the memory of soldiers who died for the rights of the state. It was not a dream when the piece of stone was placed on the capitol grounds. To those who contributed to its cost and its dedication it was a reality as well as a memory. That was precipitated by the slavery of a few million blacks and the total value of the chattels would not have exceeded \$2,000,000,000. In the march of time chattel slavery was abolished in the Southland. Indeed, the emancipation of the slaves was the real issue which provoked a war of the sword and the sovereign rights of a commonwealth were not involved in the bloody conflict. Now an issue has arisen under the big dome in the city of Washington, which involves not only the right of the ancient republic made by freemen but the constitutional right guaranteed to the people of a state that voted for annexation to the federal union.

lands. These university lands are non-taxable by the state or the nation. Valuable fields of petroleum as well as natural gas have been uncovered by those who are engaged in the oil and gas industry. The Thomas bill provides for a federal czar of oil. The Disney bill provides for a federal czar--all powerful-- regardless of the constitutional rights or the annexation rights of the commonwealth of Texas. Indeed, the most appalling issues ever raised in the halls of legislation since the close of the war between the states. Beer in mind not many years ago when the mid-continent territory was brought in, one of the famous scouts and geologists of one of the most gigantic oil corporations in the world spent more than a year under the stars of the Lone Star state. He carried a little book. He studied, he surveyed, he tested and in his little red-covered book, in red letters, he jotted down the information that in than 65 counties he had had covered there were rich and positive indications of the existence of a black gold of commerce and traffic and having a value of billions in human convenience and comfort. He covered many additional counties. No doubt if his little book is in evidence today it tells the story of the incomparable mineral wealth, speaking of petroleum and natural gas, everywhere else in Texas.

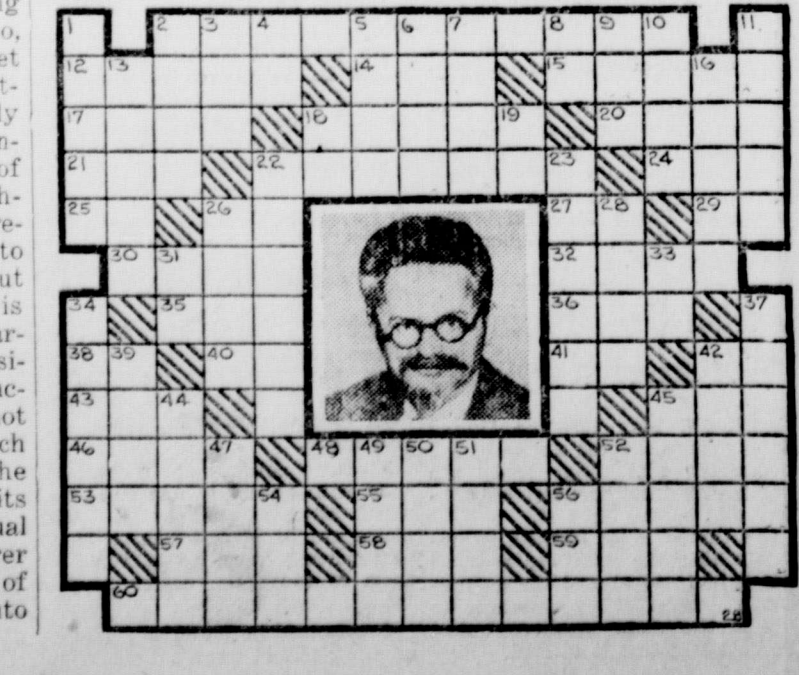

the dead and the living ages have ever bowed to the sceptre of kingly or individual autocracy. Texas has a great university. It has been expanded until it bids fair to become one of the most important seats of learning on this hemisphere. Royalty on oil from the lands of the un-annexation and the school will continue if the sacred rights of the people are upheld, to expand until the physical plant and the teaching body will be more than comparable with the ancient universities of Europe and all other countries. Should the czar plan go over the man who obtains a permit must go to Washington. The farmer who has oil under the surface of his possessions must go to Washington for a permit to drill or dicker with the agents of the major companies of the world. The wild-catter, the daring solo who has risked all and many times in the end gained nothing although he brought in streams of black gold, will be crucified on the cross of this violation of the rights of a commonwealth conferred by the constitution and ever looked on as sacred since the close of civil strife at Appomattox courthouse in the long ago.

Tomorrow's Star Signals

By OCTAVINE Attend to important things and make decisions in the morning. The evening is unfortunate for games of chance. Deceit, illusion, and undermining programs are likely to be met with in the coming two weeks. Steer clear of these during this time.

Man Without a Country

Word puzzle section with horizontal and vertical clues and a grid. Clues include: 'Who is the Russian in picture?', 'Roentgen rays', 'To drone', 'Hair ornament', 'Tertiary formation', 'He wanted to succeed as strong man of Russia', 'To let fall', 'Boy', 'Germ cells', 'Owed', 'Type standard', 'Father', 'Nuclear power', 'Senior', 'Propbet', 'Weathercock', 'Guided', 'God of war', 'Second note', 'Half an em', 'Measure of area', 'Inlet', 'Small candle', 'Wanders', 'To wake', 'Minor note', 'Flower plot', 'Socialistic council', 'Nobleman', 'To mend', 'Delty', 'North America', 'Twisted out of shape', 'He was ordered of Russia', 'Recently', 'Prevaricator', 'Pertaining to from his land', 'Excuse', 'Morning virgin', 'Portrait statue', 'To instigate', 'To roam', 'Pitcher', 'To puff', 'Black bird', 'Fish', 'Today he is an 42 Pertaining to from his land', 'Excuse', 'Morning virgin', 'Portrait statue', 'To instigate', 'To roam', 'Pitcher', 'To puff', 'Black bird', 'Fish'.

of the use one has made of his time, is apt to grow with the years. Another feeling commonly expressed was that of regret or sadness at parting from friends, students or teachers or both. A few had learned the lesson or at least the resolution to do better in the future. The emotions of some were evidently arising from the interests of the immediate hour. Those of a few arose from the deeper and more prolonged concerns of life. But there was evident in all a commingling of emotions. It is for this reason, no doubt, that commencement stands out as one of the milestones, or a few of the milestones as the case may be, in the life of most every boy and girl.—W. F. BRUCE.

Texas Topics

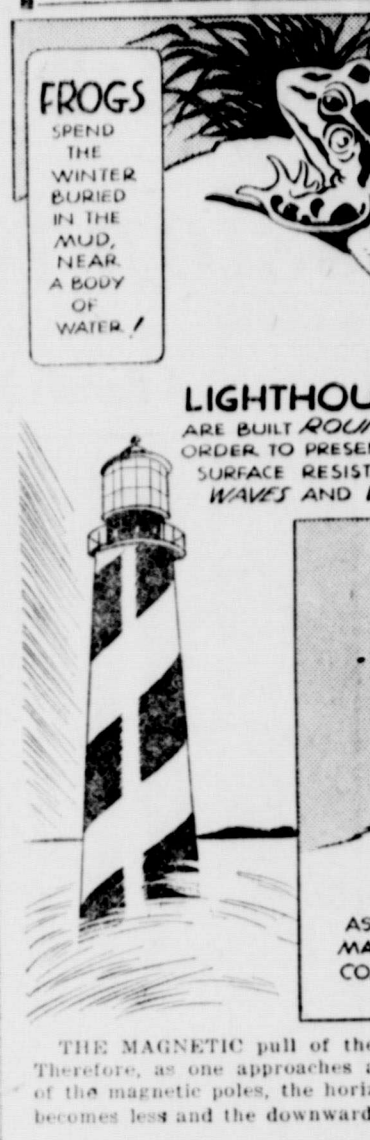

By RAYMOND BROOKS AUSTIN, May 28.—It is political campaigns, such as the present, with more than 1000 candidates for congress and perhaps 100 candidates for the United States senate going before the voters, that the constant agitation of the war veterans' bonus bill breeds ever anew. There are myriad proposals for "expanding" the currency, and the candidate, getting onto this money question which few can escape, often ends with the question of how to get the proposed expanded currency into the hands of the people. Thus Joe Bailey, in his first speech for the senate, suggested that paying off the bonus certificates, "an existing obligation," would distribute an expanded national currency on nearly a per capita basis in the states and areas of the country. Bailey said, in advocating such payment, that such new money would within a few days find its way into the channels of business.

DONNA of the BIG TOP

BEGIN HERE TODAY DONNA GABRIEL, circus performer, falls from a high wire and is injured. To please her partner, MADLINE SIDDAI, Donna goes to Madline's home to recuperate, pretending to be the other girl. She is ashamed of this deception but keeps it up even when BELLE, her sister, comes to see her. MADLINE, Madline's cousin, asks her to marry him. AMOS SIDDAI, Madline's grandfather, comes to the aid of MADLINE. PLANTER, housekeeper dismissed by Donna, is her enemy. Donna and BELLE are married. Meanwhile Madline has married CON DAVID, circus animal trainer, and takes part in the animal act. Amos Sidjai has a stroke. In New Orleans Madeline goes into the cage alone with the Bengal tiger. The tiger springs and she is killed. Renfro blames Con for the accident and discharges him. NOW GO ON WITH THE STORY In his first anger over Con's callousness and the shock of Madeline's death Renfro had meant what he said when he dismissed the animal trainer. Soon, however, showmanship dominated sentiment and after three performances without Con's animal act Renfro had reason to repent his hasty action. He therefore sent word for Con to return. A message from the hotel where the animal trainer had stayed brought the information that he had checked out immediately after his wife's funeral and that he had left no forwarding address. Renfro made a round of the hotels but could find no trace of the performer. When the circus left New Orleans, therefore, it departed minus several lions, tigers and their trainer. A period of rainy weather set in. Everyone in the troupe was downcast and ridden with the superstition that had luck was bounding the show. Since expenses were eating up all profit and there were only a few more dates to be played before closing for the winter, Renfro posted a notice that these engagements had been cancelled. Hence the circus did not reach Montgomery and Con failed to receive the letter Donna sent there. Though Con had managed to elude Renfro, he was still in New Orleans. He had become a victim of remorse, finding (now that she was dead) that he had really cared for the girl who had given him her whole-hearted devotion. He had checked out of the hotel where he and Madeline had stayed because the walls seemed to echo his dead wife's voice and he could see her in the shadows and in every hallway. Always she looked as she had that last night—white-faced and terrified, about to enter the cage with the tigers. Over and over again Con could hear Renfro's accusation, "You killed her!" HE knew that it was true. It had been nothing more than a desire to punish Madeline for her part folly that had impelled him to force her to go through the act alone with Lucy. Moving away from the hotel, he soon found, could not erase the memories that haunted him. He thought of Madeline as she had been on the motor trip to New Orleans, laughing and gay. She had said, "If we could only go on like

BOSTON INVITES BOSTON BOSTON, May 28.— Citizens of Boston, Mass., have been invited to visit old Boston, in Lincolnshire, England, on July 21, when the annual Hospital carnival will be held to celebrate the friendship of the two cities.

THIS CURIOUS WORLD

THE MAGNETIC pull of the earth is far below the surface. Therefore, as one approaches a point directly above either one of the magnetic poles, the horizontal pull on the compass needle becomes less and the downward dip increases.

spread the news that he was temperamental and difficult to handle and that he had walked out on the circus. Business was not good, the agents told him. Pictures drew better than vaudeville and a good single did as much to fill a house as an animal act, which entails much greater expense. Con, as they said, belonged in a circus, anyway, where there were facilities for taking care of the animal. Perhaps had conditions been different he would not have given Amos Sidjai and his farm so many as a thought, but after several days of vain attempts to find employment it occurred to the animal trainer that there should be a welcome for Madeline's husband on the farm. It would also be cheap to recuperate there from his illness.

BESIDES that he could see Donna again. This idea intrigued Con. He could see how she and her former husband were making out. Probably she would not offer him a very cordial welcome. On the other hand, she might be bored by this time with the life she had been leading. If that were true she would receive her old friend with open arms. Con knew how Madeline and Donna had hounded Amos Sidjai by exchanging identities. Now he decided that, unless she had admitted the truth to the family, she was high time she should be compelled to do so. When Grandfather Sidjai died the fortune he left to his grandchild would, by rights, belong to Madeline's husband.

Thus Con reasoned himself into a frame of mind that sent him to a ticket agency to buy a ticket to Lebanon. There was no use, he decided, to send word to the farm that he was coming. He wanted to get the lay of the land before he walked in on them. He was not conscious of any desire to injure Donna as he made these plans. If anyone were to suffer, Con thought, it would be his husband. Embittered by the many blows he had received in the past few months, Con centered his rancor on the man who, he felt, had robbed him of the only woman he had ever really loved. That Donna had never cared for him did not matter, or the fact that, if the blame lay at anyone's door, it lay at Madeline's. Con argued that Donna had married someone else and, because of this, the whole structure of his life had fallen.

Some men become big with a verity, develop muscles of character and principles, but Con Davy shriveled and lost the decency that had carried him far in his chosen profession. On the trip to Lebanon he envisioned himself as Donna's husband and the master of the Sidjai property. He saw Bill Sidjai gnawing his lip with chagrin at eating his heart out with disappointment. This picture seemed to please Con mightily. (To Be Continued)

CLASSIFIED ADVERTISING RATES AND REGULATIONS

All CLASSIFIED advertising is payable in advance, but copy MAY be telephoned to the Cisco Daily News office and paid for as soon as collector calls.

HAS LONG JUANT

GLOUCESTER, O., May 28.—Robert Hooper, unburied by 85 years on his shoulders, recently walked three miles in 50 minutes, in going to call on a neighbor. The jaunt included one unusually long, steep hill. Always an early riser, Hooper was "on the road" at 4:20 a. m.

Political Announcement

The Cisco Daily News and American and Roundup are authorized to announce the following as candidates for the political offices with which their names are associated, subject to the action of the democratic 1934 primaries:

- For County Treasurer:**
JOHN WHITE
MRS. MAY HARRISON
- For Sheriff:**
VIRGE FOSTER
(Re-election)
- For County Comm'r. Pre. No. 4:**
ARCH BINT
(Second Term)
BIRT BRITAIN
L. H. QUALLS
J. J. HORVA
- For County School Superintendent:**
C. S. ELDRIDGE
- County Judge:**
W. D. R. OWEN
CLYDE L. GARRETT
(Re-Election)
- Justice Precinct No. 6:**
JOE WILSON

AN ORDINANCE

An Ordinance to Regulate Fishing and Prevent the Pollution of the Waters in the Lakes and Reservoirs Belonging to the City of Cisco, and Declaring an Emergency.

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF CISCO:

That on and after the passage of this Act it shall be unlawful to take fish from the lakes or reservoirs owned by the City of Cisco or to fish in said lakes or reservoirs except as hereinafter provided.

All persons fishing in the lakes or reservoirs belonging to the City of Cisco must obtain a written permit from the Mayor of said city before entering upon the lands adjoining said lakes or reservoirs owned by the City of Cisco and before fishing in said lakes or reservoirs, and must present same for inspection to the watchman or caretaker of any of said lakes or reservoirs or any authorized officer of the City of Cisco when called upon to do so.

An annual permit shall be obtained by the payment of the sum of One Dollar and fifty cents (\$1.50) per annum, or a daily permit upon the payment of the sum of twenty-five cents (25c), for each permit. The annual permit shall be good for the current calendar year, and the daily permit shall be good for the period of one day. The annual or daily permit shall entitle the holder or the members of his or her immediate family or any out-of-town guests, when accompanied by the holder of the permit, to fish in said lakes or reservoirs, provided, however, that the holder of the permit shall be at all times responsible for the infraction on the part of the members of his or her family or on the part of the guests of the holder, of any of the rules and regulations herein or that may be hereafter prescribed.

It shall be unlawful to use any kind of bait except live bait or artificial lures and flies, to set nets, seines, snares, traps, or other devices for taking fish from the waters of the said City of Cisco, or to use dynamite, powder or drugs of

THE NEW FANGLES (Mom'n Pop)

any kind to kill fish in said waters. It shall be unlawful to use or leave any meats or the body or any part of the body of any animal or fowl or any other putrefying substance in or near said lakes or reservoirs or on the watershed thereof.

It shall be unlawful for any person to take from said lakes or reservoirs in any one day more than fifteen (15) pounds of bass and crappie on his or her permit provided, however, that if any person should catch one fish weighing fifteen pounds or more, he or she will be allowed to keep said fish, but will return to the waters carefully and alive all other bass and crappie that may have been caught. And it shall be unlawful to keep any bass under eleven inches in length, or any crappie under seven inches in length, measurements being taken from point of nose to end of tail fin, and all fish caught under the length herein specified shall be carefully returned to the waters alive.

It shall be unlawful for any person to fish in any lake or reservoir belonging to the City of Cisco without first obtaining the permit hereinafter provided for. These permits are not transferable and only one permit will be issued to each person at one time.

It shall be unlawful for any person to take fish from any lake or reservoir belonging to the City of Cisco for commercial purposes or to sell any fish so taken from said lakes or reservoirs.

Any person violating any provision of this ordinance shall be fined in any sum of not less than Five Dollars (\$5.00) and not more than One Hundred Dollars (\$100.00), and

in addition thereto the City Commission may cancel said permit.

All previous ordinances or parts of ordinances conflicting with this ordinance are hereby expressly repealed.

In view of the fact that there are not adequate and uniform regulations providing for the regulation of the sanitary conditions in or at the lakes and reservoirs of the City of Cisco and controlling the fishing in said lakes or reservoirs, this act shall be placed on final reading and shall become effective from and after its passage and publication.

Passed on this the 22 day of May, 1934.
Approved on this the 22 day of

May, 1934.
J. T. BERRY, Mayor.
Correct Attest:
J. B. CATE, City Secretary.

LOSER PUSHED PEANUT

BOSTON, May 28.—William J. Day, Jr., son of a South Boston judge, pushed a peanut around Boston college with his nose because he lost a bet that his classmate could not catch a tennis ball dropped from the Bunker Hill monument in Charlestown. The classmate stood at the bottom while Day dropped the balls from the top. The first one was missed, the second stung too much, but the third one was caught.

ITALY'S NAT'L LOTTERY GETS POOR PENNIES

By THOMAS B. MORGAN

United Press Staff Correspondent
ROME, May 28.—The Italian state makes from \$5,000,000 to \$6,000,000 a year on its national weekly lottery which is chiefly supported by the pennies of the poor.

It is a long-standing institution, and is played regularly every week by thousands, many of whom go on for years without ever winning anything.

On the other hand, a lucky win can bring a man a fortune for a small outlay.

The system follows. Every Saturday, five numbers are drawn from all the numbers between and including one and 90. A blindfolded boy goes the drawing in public. The drawings are made in eight of the chief cities: Rome, Venice, Milan, Turin, Bari, Florence, Naples, Palermo. The would-be lottery winner may bet that two, three, four or even five certain numbers from the numbers between one and 90 will be drawn. To be on two numbers being drawn, say 51 and 67, is called a "ambo" and is, of course, easier than to guess right about three numbers, which is known as a "terno." Four numbers called a "quaterno" is very hard to guess and brings in a correspondingly large win.

It is open to the tacker to bet on the numbers in his own town, or in any town, or all the towns. Thus to bet that two numbers will come out in the drawing in one of the eight cities is the least difficult kind of bet to make and does not bring in a very high return.

On one other hand a quite small sum, say five or ten lire, on four numbers being guessed correctly,

would net the lucky guesser a handsome sum if he were right.

The winning numbers are published in the evening papers on Saturday, and payment is made to the lucky winners the following week. It sometimes happens that large sums running into the hundreds of thousands of lire are won but it is a very hard game to play and much more difficult to guess winning numbers than it would seem.

W. F. C. SHOWS PROFIT

WASHINGTON, D. C., May 28.—The U. S. government has made a profit of nearly \$70,000,000 on operations of its War Finance corporation, the far-time counterpart to the present Reconstruction Finance corporation, begun in 1925, is virtually completed.

FREE ROAD MAPS

New 1934 Road Maps of Texas, Oklahoma, Arkansas, Louisiana, and New Mexico are now ready at all Magnolia Stations and Dealers. Drive in and ask for a set. They're FREE!

MAGNOLIALAND is truly Vacationland. Here in the Southwest is every kind of pleasure and recreation you could wish for.

Miles upon miles of paved highways make it easy for you to drive in comfort. Thousands of Magnolia Stations and Dealers are eager to provide you with road maps . . . information . . . and to keep your motor pur-

ring smoothly with Mobilgas and Mobiloil.

Before you go, let us Mobilbriate your car, fill your gas tank with Mobilgas and your crank-case with summer-grade Mobiloil, the world's largest selling motor oil. You'll find that your car has more power and greater smoothness when it is protected by Mobilgas, Mobiloil and Mobilgrease.

LUBRITE

(Formerly Magnolia Motor Oil)

Lubrite is a tough, full-bodied, long-lasting motor oil, second only to the world-famous Mobiloil. Exhaustive tests indicate that Lubrite gives as good (if not better) performance than many other motor oils selling at a higher price . . . If you want a good quality motor oil costing less than Mobiloil, ask for Lubrite.

About Cisco Today

HONORS DAUGHTER AS H. S. GRADUATE

Honoring her daughter, Marcia Mobley, a member of the high school graduating class, Mrs. J. S. Mobley entertained with a luncheon at her home Saturday at noon. The senior class colors, lavender and white, were used in table and floral decoration. Those present were, Misses Dixie Bills, Delpha Mae Blair, Edna Cookles, Ruby Lee Blanton, Maynell Edmondson, Sue Mobley and the honoree.

Personal Mention

Mrs. A. C. Green and Mrs. Edward S. Collins have returned from Wichita where they attended the graduating exercises of their niece, Miss Dorothy Hoffman, was awarded a diploma.

Mr. and Mrs. John Smith and Mr. and Mrs. G. A. Eppler, spent Saturday night and Sunday in Colorado, Texas.

Truett LaRogue of Breckenridge spent the week-end in Cisco.

Luther McCrea transacted business in Abilene today.

Mrs. B. F. Pratt and daughter, Betty June, and Doris Marie of Lorraine left for their home yesterday after a visit with Mrs. Pratt's sisters, Mrs. G. F. Poo and Mrs. H. H. Hageman. They were accompanied home by Mrs. Hageman and daughter, Mary Louise, who will visit for several days in Lorraine, Hermleigh and Snyder.

Mr. and Mrs. W. H. LaRogue spent Sunday in Sidney attending annual memorial services.

Mr. and Mrs. H. G. Gandy of Breckenridge spent yesterday with Mr. and Mrs. E. C. McClelland.

Mrs. C. B. Jenkins is reported to be seriously ill at her home at 504 East Tenth street.

M. J. Lamb is here from Seadrift visiting his children, Mrs. C. J. Stephens and Cecil Lamb.

Mr. and Mrs. Phil Berry and Miss Jeanette Pickel of Stanton and Big Spring have returned home after a week-end visit with Mr. Berry's parents, Mr. and Mrs. J. T. Berry.

Mrs. Jack Elkins and mother, Mrs. Tuna, are visiting in Dallas this week.

George and Clair Swartz spent the week-end here with their mother, Mrs. George Swartz.

Mr. and Mrs. C. B. Powell and daughter, Betty Lou, spent Sunday in Abilene.

Mr. and Mrs. R. O. Jacobs and son Paul Jacobs of Rising Star and Mrs. Frank Jacobs of Besse, Texas, were the guests of Mr. and Mrs. Wyatt Jacobs Sunday.

Mrs. F. N. Taylor and Mrs. C. G. Whittaker left yesterday for New Castle where they will visit a few days.

Ramey Medical of Abilene was the guest of John C. Penn Sunday.

Mr. and Mrs. Lewis Linder and daughter spent Sunday afternoon in Breckenridge.

Mr. and Mrs. Harold Krieter and daughter, Pasty Ann, are leaving today for Cleburne where they will visit Mr. Krieter's mother.

Melton Bills from Vernon spent the week-end here with his mother, Mrs. R. Q. Bills, and sister, Miss Dixie Bills.

Mr. and Mrs. L. G. Bartholomew of Brownwood and Miss Audrey Bell Brewster spent the week-end in Cisco with relatives and friends.

Mr. and Mrs. Tom Linder spent Sunday in Eastland.

Dr. H. A. Hoy of Brownwood formerly of Cisco spent the week-end here with friends.

Jules Karkalis, a student of Baylor university is home for the summer.

Miss Laura Lou Waring has for her guests this week her mother, Mrs. John D. Waring, and Mrs. W. McCoy, her aunt both of Comanche.

Mr. and Mrs. W. Hastings of Houston spent the week-end with Mr. and E. J. Keough, niece of Mrs. Hastings.

Mrs. Graham Connolly left Saturday afternoon for McGregor for a days visit with her mother. From there she will go on to Kilgore where she is making her home.

Mrs. Irene Hallmark is leaving today for her home in Purlmea. She will be accompanied by her nephew, Bobbie Grantham.

Mrs. J. Lockhead is expected to leave shortly for Chicago where she will join her son, Talbot, and his bride, the former Miss Iris Renfro, and the party will go from there to New York and Maine.

Mrs. Dutch Damm of Ranger is the guest of Mrs. Jack Anderson.

CALENDAR

Tuesday

The 22nd annual birthday party of the First Presbyterian church will be held Tuesday afternoon at the church. All members are urged to be present.

The Missionary society of the First Methodist church meets Tuesday afternoon at 3 o'clock at the church. Mrs. Pettit will lead the Bible study.

The Baptist Circle will meet Tuesday afternoon for a social at the church.

ROMNEY CLUB

The Romney Home Demonstration club met in regular session Tuesday afternoon, May 22, at their club room with 14 members and Miss Ramey present.

A foundation pattern is a pattern altered to fit one individual in every particular, and it can not really fit anyone else; a foundation skirt pattern, however, is drafted from actual measurements, and is not made from another pattern. Because the two people are of exactly the same build, foundation patterns are necessary for true fitting of clothing.

Miss Ramey, Mrs. Floyd Harelson, clothing demonstrator, and Mrs. Gill Walker, co-operator, made two foundation skirt patterns. In making them, two opposite types were chosen, the largest member present and one of the very slender ladies. The contrast in measurements brought out the individual problems admirably, and accented the need for individual patterns. We are glad to say that much interest is being shown in this subject.

The next meeting will be June 12, when Miss Ramey will conduct a cake-making demonstration, and the club will meet with Mrs. J. B. Webb, because of the need for a larger kitchen.—Reported.

CAMELS START NEW CAMPAIGN OF ADVERTISING

The R. J. Reynolds Tobacco company has just released an intensive new nationwide campaign of newspaper advertising for Camel cigarettes. As revealed in the first advertisement appearing in this newspaper this week, the new campaign embodies important facts for smokers which throw a new light upon our past knowledge of cigarettes.

A basic scientific discovery has been made in a famous New York Research Laboratory concerning Camel cigarettes and their "energizing effect" which means that the flow of normal, natural energy is restored. Thus, an almost immediate relief from fatigue is accomplished by smoking a Camel.

During the day one's "energy curve" varies a great deal—frequently drops below normal. That's when fatigue and irritability put in their appearance. The "energizing" effect of Camels has long been recognized by Camel smokers, but even science hasn't been able to explain it until now.

Importance of Costlier Tobaccos
Summing up with a popular slogan, each advertisement carries the reminder that you can "Get A Lift With A Camel"—at any time, as often as you like—because the finer, more expensive tobaccos used in the manufacture of Camel cigarettes never interfere with healthy nerves.

The first advertisement in this new and impressive series proclaims in large size display type, "NEWS Science Reveals Important New Facts For Smokers!" accompanied by a chart showing the variable energy curve which people experience during the day. The illustration depicts an attractively gowned girl, all ready for a party but "Too Tired For Fun," followed by the caption "And Then She Smoked A Camel," and a picture showing her refreshed and ready for the gaiety and fun of a social evening.

Instruments for Stratosphere Balloon Flight This Summer Will Weigh Ton

DAYTON, O., May 28—A mass assembling of scientific instruments to pierce andathom the secrets of the upper air, many of them provided with "electric brains" and "photographic eyes," is going on here at Wright field in the machine shop and laboratory of the United States army air corps.

This load of nearly a ton of apparatus is being made ready for the most ambitious stratospheric expedition yet planned. The flight is sponsored by the National Geographic society and the air corps. It will be set 15 miles up in the air early this summer from the Black Hills of the West under the direction of Major William E. Kepner, pilot of the balloon, and Capt. Albert W. Stevens, scientific observer, both of the army air corps.

Stevens Supervising Work
All of the work here on the devices to gather scientific data is being done under the supervision of Capt. Stevens who has himself designed some of the instruments.

Since Capt. Stevens is one of the foremost aerial photographers of the world, photography is cast in important roles as detective, recorder and labor saver in the stratospheric scientific work.

An important piece of completed apparatus here is a large aerial camera to rest in the bottom of the gondola with its lens ring mounted directly into an airtight opening in the metal shell itself. A motor driven train of gears, will automatically make pictures straight down, one every minute and a half. The photographs at the ceiling of the flight exposures will show an area of 150 square miles.

At the same time the master mechanism makes exposures by the aerial camera, it will set off three other small cameras inside the gondola by means of electric solenoids. These exposures will record instrument readings.

One of the small cameras will be mounted so as to slide up and down in front of the barometer box. It will photograph two barometers, the face of a watch, a compass and a thermometer.

Another small camera inside the

gondola will take pictures of the electrically operated pointers of two thermometer meters—and again a thermometer face. The thermometers themselves will be outside to record the temperature of the cold stratospheric air.

Records Light
Before the lens of a third recording camera will be assembled a group of spirit levels, dials showing brightness of sunlight and skylight and a third watch.

Each time the master mechanism makes a contact—four photographs will be made and twelve instrument dials will be read.

Two units, built here, will be mounted on arms to indicate the temperature of the outside air. Copper wires almost as fine as human hair are wound on a skeleton cone to form a resistance coil. This is enclosed in a tube within a tube to shield it from the sunlight. The two units will be held by their brackets seven feet from the gondola to protect them from the possibility of radiated heat.

Reduce Errors
In order to reduce errors due to heat losses and to cut down current consumption a number of very small motors have been built by employing a newly developed magnetic alloy. The efficiency of these motors is extremely high and they are capable of speeds of more than 7,000 revolutions per minute.

Capt. Stevens has built a balloon valve which will be opened by means of a long rubber hose into which compressed gas will be admitted. When the air pressure is released the valve closes. The principle is like that used for operating air brakes.

WATCH FOUND
BROCKTON, Mass., May 28—Henry Noonan lost his watch while serving with the French ambulance unit during the World war. He was notified recently that it had been found. Mrs. Mary O'Neil, of Fairbault, Minn., who just came into possession of it, asked in a letter to the Brockton lodge of Elks to create Noonan for her, because his name and lodge number were inscribed on the back of the watch.

Hundreds Due for Kerrville Conference

KERRVILLE, May 28—Three religious-conference centers which draw hundreds of people to Kerrville vicinity each summer from the entire state or the southwest section, will hold programs in June, July and August.

The Southwest Texas encampment of Christian churches, nine miles south of here at Center Point, will hold its young peoples' conference July 16-22. The 1934 program includes no adult assemblies.

Camp Adelante for girls 12 to 16, will open the schedule at the Kerrville Methodist assembly, which serves the West Texas Conference. Conference dates are as follows:

Camp Adelante, June 11-25; Christian adventure assembly, ages 12 to 15, June 26-July 3; young peoples' assembly, ages 16-23, July 5-12; program for adult group from Travis Park Methodist church, San Antonio, week end of July 4. Other adult conferences not announced. Westminster encampment, sur-

ing the Texas Synod (Southern Presbyterian) will open its 29th annual program with its young peoples' conference June 7-15. Other dates are: interaetate youths conference, June 25-30; combined conferences on religious education, ministers' work, and laboratory training school, July 22-August 5; annual meeting of the Texas Synod, July 24-27; Texas Synodical, statewide women's meeting, August 14-16; training school for Woman's auxiliary, August 16-24.

TOY BOAT FOR BOBBER
WALTHAM, Mass., May 28—Veteran fishermen can get a few pointers from Paul Milvel, 11, on how to

catch, not only the big ones, but good many at a time. Paul uses a toy boat to which he attaches four lines with baited hooks. The boat goes out about 50 feet with the fish trolling behind and when the fish bite the hooks the boat bobs up and down. He then pulls in his fish.

BAN LIQUOR

CLEVELAND, May 28—Clevelanders were deprived of cocktail and hard liquor here during the day on which a special election was held in line with the board of election construction of the new state liquor laws. The ban was lifted, however, after polls closed at 6:30 p. m. and did not include 3.2 beer, held to be non-intoxicating.

NEWS!

Science reveals important new Facts for Smokers!

YOUR ENERGY VARIES DURING THE DAY

Camel Smokers can verify these facts!

A famous New York research laboratory announces a basic discovery that throws new light on our past knowledge of cigarettes. It embodies an "energizing effect" . . . a quick restoration of the flow of natural body energy . . . an experience well known to Camel smokers. When you smoke a Camel you feel an almost im-

mediate relief from fatigue. What has actually happened is that you have released and made available the latent energy in your body. You've helped your body to help itself. During the day your energy curve hits certain low points. Camels raise your flow of energy . . . quickly, conveniently and without jangling your nerves.

There's a "Lift" in CAMELS that drives away Fatigue and Irritability

Feel "all in"? Then's the best time to light a Camel.

It's cool and fragrant and delightful . . . but far more important than that, it brings your flow of energy up from the depths!

You feel fatigue vanish. Irritability seems to slip away. And you go back to work—or play—with the energy and cheerfulness that are *naturally* yours.

YOU'VE HAD THE EXPERIENCE...HERE'S THE EXPLANATION!

This experience is no news to Camel smokers. But the explanation is news—and good news—to everyone.

The "lift" you get from smoking Camels is simply a release of the natu-

ral latent energy in your body. In other words you have helped your body to help itself . . . easily, naturally, and without the slightest strain.

Remember this explanation when your energy curve is "down" . . . times when you're irritable and your brain just doesn't seem to work and you feel too tired to move. At such times . . . "Get a lift with a Camel!"

AND CAMELS NEVER JANGLE YOUR NERVES!

Camel fans smoke frequently—and they can—as often as they like. Camel's costlier tobaccos never get on the nerves.

Keep your flow of energy at a higher level with Camels.

CAMEL'S Costlier Tobaccos never get on your Nerves

Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

KNOW THIS FEELING? The feeling of being too "all in" to respond to the gaiety of the crowd? No taste for the pleasure and fun of the sort of social evening that you would ordinarily look forward to? That's one of the many times to light a Camel, enjoying its rich flavor while your flow of natural, healthful energy is restored. You'll like Camels—a matchless blend of costlier tobaccos!

Copyright, 1934, R. J. Reynolds Tobacco Company
