To Test Truth Serum On Amnesia Victim

HOUSTON, June 2 — Truth serum will be employed here to aid in the identification of a pretty dark-haired amnesia victim.

Workmen Killed by High Voltage

MINERAL WELLS, June 2 — Frank Mulkey, 43, who was employed by the Upland plant at its Lake Pir electrocuted about 11 day morning when he was reported to have come in contact with high voltage wire.

Gov. James Rolph, Jr., Succumbs Saturday

SAN JOSE, Cal., June 2 — Gov. James Rolph, Jr., 64, died at 1:30 p. m. Pacific standard time, today. Rolph for 15 years was one of the leading politicians of the western coast. He precipitated a national controversy when he publicly commended the mob which hanged the two kidnapers-slayers of a San Jose youth last fall.

RELIEF FUNDS BILL REPORTED BY COMMITTEE

WASHINGTON, D. C., June 2 — The \$1,712,000,000 deficiency bill, carrying relief and public works funds, was reported favorably by the house today, carrying provisions which for the first time reduce the permissive power of the president to spend federal money for emergency purposes.

Johnson Battling Steel Strike Threat

WASHINGTON, D. C., June 2 — Gen. Hugh S. Johnson, fighting major strike threats that might jeopardize the national recovery program, brought all possible pressure to bear today to avoid a labor tie-up in the steel industry.

Cisco Snappers to Play Ranger Today

Sateh Henson and his Cisco Snappers will take on the Ranger club in a double-header this afternoon at 2:30 at Chesley field. Local fans will have a chance for the first time in this game to see Buford Allen on the mound. George Van Horn will play first base and Barnhill second.

Wet-back Is Suffered By One Quintuplet

NORTH BAY, Ont., June 2 — One of the Dionne quintuplets suffered a wet-back and fears were held for his life.

SON OF SMITH FACES CHARGE OF CONSPIRACY

TYLER, June 2 — Louis C. Tyler, son of the late oil magnate, was charged today with conspiracy to defraud the state bank with \$50,000 capital and \$100,000 surplus to be made Monday, Mr. Dabney said.

NO FAVORITISM FOR SON, SAYS SMITH

HOUSTON, June 2 — Railroad Comm'r Lon A. Smith said today that if his son had violated oil laws of Texas he must expect no favoritism and should be prosecuted to the fullest extent of the law.

Johnson Battling Steel Strike Threat

WASHINGTON, D. C., June 2 — Gen. Hugh S. Johnson, fighting major strike threats that might jeopardize the national recovery program, brought all possible pressure to bear today to avoid a labor tie-up in the steel industry.

Workmen Killed by High Voltage

MINERAL WELLS, June 2 — Frank Mulkey, 43, who was employed by the Upland plant at its Lake Pir electrocuted about 11 day morning when he was reported to have come in contact with high voltage wire.

RFC LOAN FOR CISCO BANKING CO. APPROVED

Final approval of the Cisco Mortgage Loan company's application for a \$140,000 loan by the Reconstruction Finance corporation was formally announced yesterday to Guy Dabney, active vice president, with receipt of the RFC resolution at Washington, D. C., granting the loan, subject to certain requirements.

Depositors Called

Every depositor in the Cisco Banking company was requested to call at the bank offices at the earliest moment possible in a statement issued Saturday by Guy Dabney, active vice president of the bank.

TOLL OF 40 OR MORE LIVES IS TAKEN BY HEAT

CHICAGO, June 2 — A death toll of at least 40 already has been caused by the burning heat wave that swept eastward today after driving temperatures in the Middle-west to unprecedented heights.

Schedule Announced For Soft Ball Teams

The playground baseball league schedule for this week was announced Saturday by T. C. Williams, league manager, as follows: Monday—Lions vs. Methodist at Avenue and 14th St. and Rotary vs. Petroleum at grammar school.

Wet-back Is Suffered By One Quintuplet

NORTH BAY, Ont., June 2 — One of the Dionne quintuplets suffered a wet-back and fears were held for his life.

Hardin & Simmons Commencement Climaxes Dr. J. D. Sandefer's 25th Year as President

DR. J. D. SANDEFER, PRESIDENT

MR. AND MRS. JOHN G. HARDIN

GEORGE H. MAHON, COMMENCEMENT SPEAKER

HARDIN & SIMMONS CENTRUS

ABILENE, June 2. — When 42nd annual commencement exercises are held Thursday, June 7, at Hardin and Simmons university, Abilene, they will mark the first commencement of the school under the new name and the close of Dr. J. D. Sandefer's 25th year as president. Seventy-eight seniors will receive degrees.

Above are shown: Dr. Sandefer, who came to old Simmons college as president in 1909 and under whose leadership the school has grown steadily; Mr. and Mrs. John G. Hardin, whose recent gift of \$400,000 moved the trustees as a gesture of thanks to change the name of the institution; and George H. Mahon, Colorado attorney, an alumnus, who will deliver the commencement address.

Dr. Sandefer was honored Friday in a program attended by a number of the state's leading educators. Dr. George W. Truett of Dallas was the main speaker.

Other highlights of commencement are: Cowgirl reunion on June 1, 2 and 3; baccalaureate sermon by Dr. W. Marshall Craig of Dallas on June 3; Cowboy Band reunion on May 31; and alumni and ex-students' banquet on the evening of June 6.

12 OF 14 STATES POLLED OKEH F.D.R. POLICIES

President Roosevelt's acts and policies are approved by the voters of twelve states and disapproved by those of two states as shown by 405,464 ballots reported in the third tally of The Literary Digest's New Deal poll, which will be published in Saturday's issue of the magazine.

The administration receives a 59.29 per cent confidence vote of the total tabulation to date. This compares with a ratio in the previous

return of 61.64 per cent for the president's policies.

The balloting now is 240,424 votes for the New Deal to 165,060 against the New Deal.

In the fourteen states from which votes have been received in The Literary Digest poll so far, Roosevelt obtained 51.89 per cent of the 1932 popular vote, which shows a gain for him of 7.30 per cent over his official election ratio.

In the 1932 presidential election, Roosevelt received 57.32 per cent of the entire popular vote.

An analysis of "How Voters in This Poll Voted in 1932 and How They Vote Now" shows 80.34 per cent of those who voted for Roosevelt support his policies and the balance of 19.46 per cent oppose him.

Of those who voted for Hoover in 1932, 64.82 per cent disapprove the

New Deal while 35.18 per cent approve the administration's policies.

76.46 per cent of those who voted for minor candidates the last election voted of confidence, in the order named.

Pennsylvania, New York and Rhode Island give the president his greatest vote of confidence, in the order named.

64.25 per cent of the 76,748 ballots

received from Pennsylvania vote "Yes" to the question, "Do You Approve on the Whole the Acts and Policies of Roosevelt's First Year?"

Maine continues to disapprove the administration by a scant majority of 50.10 per cent. It is joined this week by Vermont which votes 51.59 per cent against the president's policies.

First returns are received this

MANY PEOPLE

Have Adopted the Plan of

DINING AT

LAGUNA HOTEL COFFEE SHOP

You'll enjoy the food and service. Start Today.

YOUR STOMACH

It's time to do something when:
—You can't look a meal in the face;
—Eating always means stomach pain, distress;
—Gas, belching, bloating give you daily discomfort;
—You're nervous; you lose sleep; you're dragging around "half alive."

If that describes you, then you already know baking soda and things like that don't do any lasting good.

If you're going to get that stomach back on the job—to where you can eat what you like and enjoy it, sleep like a log, feel "like a million dollars"—isn't it common sense to get after the cause?

Every day your body must purify itself of certain poisons and purities that otherwise result in sickness and pain. When it cannot do this vital work properly it must have help.

Many already have found this help in Crazy Water Crystals. Thousands of them have written us: "I can eat what I like once more. I am sleeping soundly. I feel ten years younger."

Crazy Water Crystals are taken from a great cleansing, purifying mineral water—they were prepared by old Mother Nature herself. They are not some human being's idea of how this cleansing ought to be done. Nothing is added to them. Anyone who tells you a different story does not tell the truth.

This cleansing means a great deal more than just moving the bowels. This mineral water—made at home with Crazy Water Crystals—cleanses the system—not just the digestive tract. The part played by the kidneys in this purifying work is as great as, or greater than that of the bowels. And drinking this mineral water increases elimination through the kidneys as well as through the digestive tract.

This explains why so many thousands of victims of other troubles besides stomach disorders—many of the aches in muscles and joints which they call "Rheumatism," "Arthritis," or "Neuritis;" terrible backaches; headaches; loss of sleep and extreme nervousness; and some things less serious, like ugly skin, foul breath, etc.—bless the very name "CRAZY." The way to up-root a trouble like this is to get right at its cause.

We do not believe Crazy Water Crystals are magic. They are not a cure-all. But if your life is being made miserable by one of these troubles, give them a thorough, honest trial. Get a package today. Stay with them a month, at least. It will cost you only a few pennies a day, at the most. And then let your own common sense tell you how much better you feel.

BIDDING THE McMAHON'S ADIEU

Cisco views with deep regret the loss of such citizens as F. D. McMahon, for ten years superintendent of the west Texas division of the Humble Pipe Line company here, and his family. "Mac," as he is known to his friends and those who work with him in the great Humble community, has made himself during the ten years he lived here, a real Cisco citizen. Ties that are formed in ten years are difficult to break. When one has given such a period of his life to a place, a sort of welding process occurs—he becomes part of the community and the community becomes part of him. The Humble has given Cisco many fine men and women, who have contributed much to the atmosphere of the community. It also has an unfortunate habit of taking them away just about the time we begin to think of them as permanent parts of the local dramatis personae, and indispensable. The Humble cannot be blamed, for the needs of the company in the prosecution of its vast enterprises are, first of all, personnel. But we should like mighty well for the Humble to make the west Texas district a district and a job bigger enough to command the talents of Mr. Mac over the demands of the east Texas district, and keep him here.

Cisco gained when J. W. (Skipper) Thomas, northwest Texas division superintendent, came here from Wichita Falls, and from what we hear of George Lee, who comes from McCamey to be "Skipper's" assistant, Cisco will like him mighty well, too, but for old time's sake, we'd like to keep Mr. Mac along with them.

With regret that the Humble had to find a tough spot in east Texas that needs the Irish, we bid Mr. Mac and his family adieu.

ENCOURAGING

Approval at Washington of the Cisco Mortgage Loan company's application for a loan of \$140,000 subject to certain conditions, is encouraging to Cisco people who have long held hope for the re-opening of the Cisco Banking company and the release there of a quarter of a million dollars in frozen assets. The Cisco Mortgage Loan company was organized to take over the assets of the closed bank as a requirement of the Reconstruction Finance corporation which has approved the loan, and these assets will be collateral for the loan. The reopening of this bank, which has been closed for two years, not only will stimulate local business conditions by putting many thousands of dollars of idle money to work, but it will bring the healthful influences of a new business, commensurate with its magnitude, and improve conditions all over the town.

The Cisco Banking company will apply for a state charter next week. If granted, and petitions signed by more than 700 Cisco citizens speak for the public interest in the application, Cisco's prestige as the banking center of its section will be greatly enhanced. With the latent resources of the Cisco Banking company put to work alongside the splendid institution of the First National bank, which has served so well during the depression, Cisco should emerge from the trying period of the past four years in a strategic position, commanding an influence throughout this section that will mean greatly improved trade and economic conditions for the community.

"BIG BUSINESS ENDORSES NRA"

This is an amazing age of economic changes and upheavals. Contrary to the general impression, big business approves the wage and hour provisions of the NRA, "but it would like to scrap the price fixing and production control features." This report was made in the city of New York May 25 by Fortune magazine in announcing in its June issue the results of a canvass of the active heads of large American corporations in the Northeast and Middlewest.

This is the editorial foreword of the magazine: "To begin with, if Fortune's preliminary survey of opinion is even approximately correct, it will be found that the vast majority—in a ratio better than two to one—are against the scrapping of the NRA in June, 1935. This ratio, it must be borne in mind, holds only for the heads of large industries. That small manufacturers may entertain a different opinion is quite probable. The New England council's April survey of industry employing an average of less than 30 workmen showed that 43 per cent of the small manufacturers in that area thought their codes had hurt them against 28 per cent who thought their codes had helped."

This is the prediction made by Fortune: "Mr. Roosevelt may therefore discover in the not distant future that it is the little industrialist rather than the big one who is his most determined antagonist." This is another excerpt taken from the canvass of the active heads of large American corporations made by Fortune: "Industrialists have learned two things in the last five years. They have learned that free competition provides no security for labor. On the contrary, free competition in a declining market operates at the expense of labor." It regards the failure of free competition to correct abuses as costly. This is an amazing age, an age of rapid change in personal viewpoint as well as public opinion.

INTERESTING RULING BY SUPREME COURT

According to a recent decision by the supreme court of Texas, railroads have rights-of-way over public waters subject to the state police power and cannot recover more than actual damages when the right-of-way is flooded in improvement projects. The ruling was made in the Chicago-Rock Island and Gulf railway suit against a Tarrant county water control and improvement district. The railway had sought to recover, not only the damages caused by the water improvement district to its line along the Trinity river, but for the cost of relocating the tracks at another site.

Graduation Exercises May Be Unusually Exciting This Year

Robert L. Holliday Legal Member Relief Board

By HUGH NUGENT FITZGERALD

Legislators enact laws. High courts interpret laws.

The supreme court of Texas has spoken its judicial mind. Robert L. Holliday is a legal member of the state relief board. Julius Dorenfeld, Jr. of Potter county is on the outside looking in. Justice Greenwood wrote the opinion. It was a unanimous decision. In its answer to certified questions to the civil appeals court of this district the Texas court of last resort held that the act creating the state relief commission made its members state officials and that they could be removed only by judicial trial or impeachment.

Therefore the court held Speaker Coke Stevenson's removal of Holliday was void and Dorenfeld was not legally a member of the state relief organization.

Speaker Stevenson appointed Holliday. It was alleged that certain labor organizations in El Paso demanded the removal of Holliday. Stevenson bowed to demands of the El Paso faction seeking the scalp of Holliday. He tossed the former member of the university board of regents in the discard. It goes without saying that the supreme court decision held Holliday could not be removed without notice and trial and that his removal by the speaker was void.

This places Holliday back on the

commission except for 15 days allowed for a motion for a rehearing. Justice T. B. Greenwood declared that "language could hardly make it clearer that the commission members are state officials and could be removed only after trial, that a state officer is given a definite term, as was accorded in the act creating the commission or other trial prescribed by law and that a legislature would not have the authority to prescribe a different method of removal in the face of the specific terms of the constitution." In an elaborate review Mr. Justice Greenwood construed the commission act as according terms of office and that "the legislature did not attempt to prescribe differently." Incidentally but to the point after the Stevenson removal Holliday asserted his right to vote and has continued to do so. It is also a matter of record that the commission voted four to three to unseat Holliday and recognize Dorenfeld. After Speaker Stevenson had tossed Holliday aside the state relief commission ousted Adam Johnson as state director and elected Miss Marie Dresden to the place which she now holds.

It is a clear-cut decision. Had it been the reverse in the political haunts of men it is whispered that the ax would have been swung on the heads of many officeholders.

who were appointed to place in recent years and the heads would have rolled into the wastebasket of the political executioners.

Through the Editor's Spectacles

By GEORGE

The playground baseball situation has "come home" in a satisfactory way. Development of contests among the business men, lessening of emphasis on the "professional" or "winning" character of game, and increasing emphasis upon good sportsmanship, re-recreational benefits and good fellowship has made the contests as played in Cisco of real significance in a field where the physical values of the game are the most needed.

Those who have directed the organization of the playground baseball league here have done a good job of slanting its activities. Hard-fought contests between picked teams are all right, but they should not supplant the humbler but more important features of the sport. The game, by the very nature of the play and the simple equipment required for it, was intended to be played for general recreation. Hard baseball is the type for professional interest.

Speaking of inter-community play, I have at hand a letter from Brownwood offering a challenge to a Cisco soft ball team. The writer is Luther Crawford, Acadia News company, Brownwood, who says he noticed stories about Cisco's teams and wants to match a contest between one of these and a Brownwood team that has won the Brownwood championship two years in succession. He will be willing to play an all-star team he says—that's what he thinks of his organization. I pass along the information to such of you as may be interested. The letter, with more information regarding dates and expenses is at the Daily News for those who may wish to see it.

The Moore Drug store has installed a new popcorn vending machine, and K. H. Pittard has accused Dewey Moore of having taken a three months course in operating the machine. He told me privately he thought Dewey ought to study several months more.

It is a noteworthy fact that the average length of time required for juries to bring in verdicts is much

Tomorrow's Star Signals

By OCTAVINE

The day beyond a period of social enthusiasm. Meeting with strangers and old friends will be encountered. Embarrassing situations will arise. Be careful to avoid compromising positions. Favorable for fraternal organizations and associations promoting brotherly love.

TOMORROW'S BIRTHDAYS
You are a keen observer. Your profession could be that of a performer. You will be subject to strange experiences during June and through August. Your employment will be a gain to you from November 23 through December 3. Danger June 17. Success July 6 and 7. Depression will gain influence over you early this month if you are not careful.

longer during a depression than in good times. The number of excuses offered to escape service is also noticeably smaller, and grimaces of disappointment have even been apparent upon the faces of rejected veterans.

Many a man nowadays doesn't mind spending a few nights in a bed furnished by the state, listening to a lot of dry testimony, arguments and rulings and playing checkers or dominoes for the remainder of his day, while being fed and paid for his time.

At such times an argument in the jury room is less justice than profit.

And a hung jury might pay several weekly grocery bills.

Nature and Human Nature

Chiggers

The first question that occurs to me at the start is, "What am I writing about?" I have never had a close look at these little mites in my life. The existence of the atom of the scientists is accepted on the basis of the consistency of all facts with the idea that it exists. There is more proof of the reality of the chigger than that, and yet there is something intangible, something un-get-at-able, about him. But all experience goes to show that there is some very small creature with an exceedingly effective probing instrument which affects unpleasantly the surface tips of certain nerves in some particular spot of human integument.

The irresistible effect of chigger operations is an involuntary urge to get at the offender with the only available weapon always at hand, the finger nails, in a repetition of back and forth strokes over the spot of attack. This presumptuous interference with his work is apparently distasteful to the animal who gets revenge in a more vigorous prosecution of his pricking activities. His victim is soon fighting frantically with his intangible antagonist. At last comes a pull in the battle from the mutual exhaustion of either party. Momentary ease may then follow until the itching sets up again in the same or some neighboring spot.

One advantage for the defense is found in the bolder unconventionalism of the present generation. The chigger is really a private possession, but since the chigger is no respecter of persons and therefore chigger experience is so common to

the race as to make his work de facto public rather than private, since his selection of anatomical site for drilling operations is by no means characterized by delicacy, and since his working hours are not limited to those that correspond with the privacy of home life, it follows that the practice of chigger fighting is brought out into the open. Ever at that the art of scratching needs to be cultivated so as to obtain the sympathy of one's fellows as companions in suffering rather than their disgust as critics of social etiquette. — W. F. BRUCE

Hester Retires
The legislature will lose the services of George C. Hester of Georgetown, professor of government in Southwestern.
Mr. Hester has decided not to make a race for a second term. His services were valuable to Texas. Rep. George Winningham, who started the drive that thinned lobbyists out of the house during sessions, said of Rep. Hester: "He is one of the ablest members of the house, and of the most aggressive fighters in behalf of the common man."—Raymond Brooks.

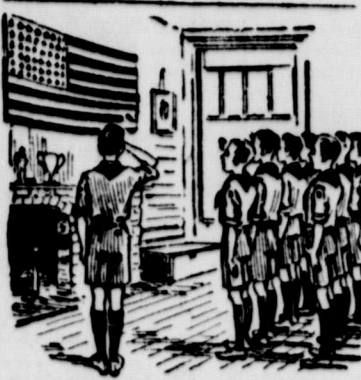

THIS CURIOUS WORLD By William Ferguson

DONNA of the BIG TOP by BEULAH POWNIER
A serialized story about Donna and her circus life.

CROSBY UNCLE TO TWINS
SPOKANE, Wash., June 2.—Bing Crosby, Hollywood crooner, is an uncle to two girls who were born to his brother Ted's wife.

16 YEARS IN MAIL
MAHANBY CITY, Pa., June 2.—A postman of this city, recently received a package which he had mailed to his family 16 years ago while he was a member of the Army of Occupation in Germany. No explanation of the delay was offered by post office officials.

Keeping Up With The Boy Scouts

Troop Charters Received
Officers for Troop 21, Comanche are: Rev. Kenneth L. Smith, scoutmaster; H. R. Jones, chairman of troop committee, assisted by L. C. Durham, Robert Eaton, W. G. Barrett.

Officers for Troop 13, Brownwood, are: R. A. Willetford, scoutmaster; William Grady Leach, assistant scoutmaster; Bland Ewing Harper, chairman of troop committee, assisted by Marvin Edward De Hay, and Carl Odell.

Officers for Troop 14, Brownwood, are: C. E. Boyd, scoutmaster; W. P. Hopkins, assistant scoutmaster; L. W. Gorman, chairman of troop committee, assisted by John C. Edwards, and Ira B. Funderburk.

Officers for Troop 35 Blanket are: W. B. Jones, scoutmaster; L. L. Lanford, chairman of troop committee, assisted by M. A. Richmond, T. M. McCulley and T. E. Levisay.

Troop News
We have a report coming from Troop 103 that Scout Donald Russell has been ill several days in an Eastland county hospital from an injury caused by a nail, which he stuck in his foot. A recent report states that Scout Russell is much better and hopes to be back on his job shortly. Donald is a carrier for the Eastland Telegram, and a good scout. We wish him a speedy recovery.

Troop 12 is planning a week-end camp under the direction of their scoutmaster, Sterling Holloway. The destination is the Holloway cabin on Lake Brownwood. We are sure they are going to have a great time. Just a little priming trip to get in readiness for the big council camp in July.

Troop 25 F. N. Wood, scoutmaster, sends in additional enrollment.

Troop 2 is planning a "parent's night", to discuss the summer camp.

Troop 8 is planning a "parent's night", and reorganization meeting.

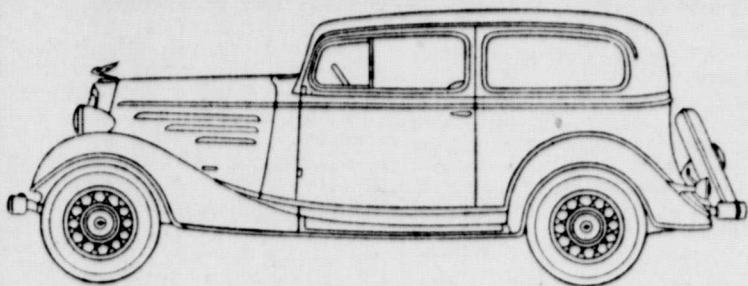

Troop 25, Lometa, says it is going to have the largest troop attendance at the summer camp.

Scoutmaster J. R. Fraley left Saturday to be in school this summer.

The Sea Scoutship in Stephenville is just about ready to pull anchor.

Scouter Charles Rutherford, formerly of Troop 115, Rising Star, has registered as assistant scoutmaster with Troop 2, Brownwood.

"Standard Six" Chevrolet Announced

Chevrolet Motor company has formally announced "the world's lowest price six-cylinder car" with the introduction of the new improved 1934 Standard Six models, supplementing the Master Chevrolet models previously presented. This announcement was made here recently by A. D. Anderson, manager of A. G. Motor Co.

Two closed and two open car models comprise the new improved Standard line. They are the sport roadster, \$465, phaeton, \$495, coupe, \$485; and two-door sedan, \$495. The new cars, says the Chevrolet Motor company's announcement, thus list under any other six on the market, and \$89 to \$100 under corresponding models of the Master Chevrolets.

The new cars are replete with improvements designed to achieve better performance, riding qualities, comfort, and appearance. Both chassis and body have been completely redesigned in keeping with the latest advance in engineering and styling. The same numerous engineering features which have made Chevrolet the Leader in sales in recent years are embodied in the new low priced car.

In the engine—smoothness and flexibility have been combined with outstanding economy. The new valve-in-head engine design gives the Chevrolet Standard Six buyers a car that costs less to operate than any other make on the market.

The new models share with the Master series such appearance features as sleek, flowing lines, deep fenders hugging the tires, long hood with horizontal louvers, and steeply inclined radiator grille. Numerous interior refinements similarly enhance the style and finish of the passenger compartments.

The number of advance orders on hand for this new economy car indicate the immediate public's acceptance of this new Chevrolet.

SOUTH CLYDE

Messrs. Reuben Sanders, Hansel Sanders, Wayne and Irvin Dennis, Lloyd Snow, Ralph Austin, Howard Franklin, B. L. Vines, Thurman Vines, and Edd Franklin, and Misses Loretta Dennis, Laura and Ella Mae Schmidt, Elsie Simmons and Ia Mae Snow attended the picnic at Enterprise last Friday and the play Friday night.

Messrs. John H. Swinney, Roy Lee Swinney and J. W. Harrison, and Misses Beulah Harrison, Katherine Russell and Lucy Fay Russom of Merkel were Sunday visitors in the home of Miss Ia Mae Snow of this place. Miss Harrison is spending the week with Miss Snow.

Quite a few friends gathered at the home of Miss Ia Mae Snow last Sunday afternoon to play ball.

Misses Elsie Simmons and Laura Schmidt were visiting in Abilene Monday afternoon.

Miss Irene Snow celebrated her

eleventh birthday Wednesday with a dinner. Those present were Misses Elsie and Conova Simmons, Beulah Harrison and Messrs. Reuben and Hansel Sanders and the immediate family.

Miss Elsie Simmons was given a farewell party Wednesday night at the home of Mr. and Mrs. Z. E. Snow. Elsie left for San Antonio Thursday morning.

DAN HORN

A good rain is badly needed here. Mr. and Mrs. J. G. Heslep are on the sick list.

Mr. and Mrs. Robert Jessup of Eastland spent Sunday here with Mr. and Mrs. Warren Jessup.

Mr. and Mrs. Sam Hale were Sunday guests of Mr. and Mrs. W. L. Nix.

Mrs. J. E. Spencer and father C. B. Poe and daughter, Alice Estel, of Cisco and Brad Poe and Mrs. Martin and daughter, Virginia, were here Friday.

Miss Willie Weed spent Sunday with Miss Stella Horn.

Miss Eva Ervin was the Sunday guest of Miss Estelle King.

Mrs. J. H. Montgomery of Jayton and Mrs. John Gilbert of Rotan recently visited their sister, Mrs. Clyde King.

Mrs. Vestel Owen of Cisco spent this week with her mother, Mrs. Sam Bishoe.

The Dan Horn school closed Friday. The pupils presented a splendid program at 10 o'clock. A large number

of the patrons attended, bringing dinner and enjoyed the ball games in the afternoon.

Rev. Satterwhite of Abilene preached here Sunday morning and was dinner guest of Mr. and Mrs. Grover Taylor.

Singing Sunday afternoon was enjoyed by a large crowd. Quite a few from Reich attended.

COTTONWOOD

Mr. and Mrs. Grover Cleveland were Sunday guests of Mr. and Mrs. Edward Vanman of Cisco.

Florine Yeager and Oletta Boatman are spending the week with Mr. and Mrs. Jesse Hagan of Gorman.

Mr. and Mrs. Van Parmer, Mrs. I. J. Pence and daughter, and Oletta Huestis were Sunday guests of Rev. and Mrs. Luther Pryor.

Lorby Sue Lamb spent Saturday night with her grandparents, Mr. and Mrs. G. W. Pence.

Florine Yeager was Thursday guest of Oletta Boatman.

Laynda Pence was Friday night guest of Oletta Huestis.

Rev. and Mrs. Luther Pryor and family were Wednesday evening guests of Mr. and Mrs. I. J. Pence.

Mr. and Mrs. George Jones and son and Mr. Bennett Jones, and Mother took dinner with Mr. and Mrs. Van Parmer Monday.

Houston Channel Tonnage Heaviest

HOUSTON, June 2.—Tonnage over the Houston ship channel in April was the heaviest ever recorded in a single previous month since the port was built 19 years ago as a deep water terminal. Port Director Russell Wait reported.

The movement totaled 1,664,673 tons, Wait said. Largest previous month was January of this year.

when a new high tonnage record was set at 1,625,527 tons.

A total of 448 ships plied the water during the month of April, Wait said. Only 365 moved on the channel in April a year ago.

Ocean going tonnage last month amounted to 1,541,134 tons, approximately 30 per cent more than was handled the same date a year ago.

AN ORDINANCE

An Ordinance to Regulate Fishing and Prevent the Pollution of the Waters in the Lakes and Reservoirs Belonging to the City of Cisco, and Declaring an Emergency.

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF CISCO: That on and after the passage of this Act it shall be unlawful to take fish from the lakes or reservoirs owned by the City of Cisco or to fish in said lakes or reservoirs except as hereinafter provided.

All persons fishing in the lakes or reservoirs belonging to the City of Cisco must obtain a written permit from the Mayor of said city before entering upon the lands adjoining said lakes or reservoirs owned by the City of Cisco and before fishing in said lakes or reservoirs, and must present same for inspection to the watchman or caretaker of any of said lakes or reservoirs, or to any authorized officer of the City of Cisco when called upon to do so.

An annual permit shall be obtained by the payment of the sum of One Dollar and fifty cents (\$1.50) per annum, or a daily permit upon the payment of the sum of twenty-five cents (.25c), for each permit. The annual permit shall be good for the current calendar year, and the daily permit shall be good for the period of one day.

It shall be unlawful to use any kind of bait except live bait or artificial lures and flies, to set nets, seines, snares, traps, or other devices for taking fish from the waters of the said City of Cisco, or to use dynamite, powder or drugs of any kind to kill fish in said waters. It shall be unlawful to use or leave any meats or the body or any part of the body of any animal or fowl or any other putrefying substance in or near said lakes or reservoirs or on the watershed thereof.

It shall be unlawful for any person to take from said lakes or reservoirs in any one day more than fifteen (15) pounds of bass and/or crappie on his or her permit provided, however, that if any person should catch one fish weighing fifteen pounds or more, he or she will be allowed to keep said fish, but will return to the waters carefully and alive all other bass and crappie that may have been caught. And it shall be unlawful to keep any bass under eleven inches in length, or any crappie under seven inches in length, measurements being taken from point of nose to end of tail fin, and all fish caught under the length herein specified shall be carefully returned to the waters alive.

It shall be unlawful for any person to fish in any lake or reservoir belonging to the City of Cisco with out first obtaining the permit hereinbefore provided for. These permits are not transferable and only one permit will be issued to each person at one time.

It shall be unlawful for any person to take fish from any lake or reservoir belonging to the City of Cisco for commercial purposes or to sell any fish so taken from said lakes or reservoirs. Any person violating any provision of this ordinance shall be fined in any sum of not less than Five Dollars (\$5.00) and not more than One Hundred Dollars (\$100.00), and in addition thereto the City Commission may cancel said permit.

THIS IS the MONTH

JUNE! The month of roses, wedding bells, brides, commencements and graduates ... the month of promise and of high hopes for the future.

June is also the month of gifts ... second only to December and Christmas.

The gift problem is always easier when you consult the advertisements in this newspaper. There you will find many helpful suggestions. Things that are worth-while and useful at prices that do not put too great a strain on your pocket-book.

The advertisements are also your guide to the newest things in the market places of the world. There you read first about the new inventions ... the new household conveniences ... the newest designs in silver, in glassware and in furniture.

Wise is the shopper who reads them carefully and follows the straight road to VALUE and SATISFACTION.

Mr. and Mrs. Whit Criswell and daughter of Marlin are the guests of Mr. and Mrs. Wyatt Jacobs. Mr. and Mrs. Criswell are Mrs. Jacobs' parents.

Clyde Karkalis, Frank Yarger, and L. D. Wilson attended the Chapter meeting in Eastland last night.

Mrs. C. F. Maulle of Mustang, Mich., is visiting her mother, Mrs. C. B. Jenkins, who has been seriously ill, but is slightly improved.

Miss B. B. Smith and Willie Smith of Peacock are also visiting Mrs. Jenkins.

Leonard Sanders of Stephenville is visiting his parents in Cisco.

Joe Shelton of Abilene, who has been the guest of Hagen McMahon

and Hartman McCall, has returned to his home. Hartman and Hagen accompanied him to Baird Saturday.

W. C. Hodges was a visitor in Fritch Friday evening.

AT THE CHURCHES

FIRST METHODIST CHURCH
Sunday school at 9:30 a. m. There will be communion service at the morning service at 10:50 when the pastor will use as his subject, "The Broken Body." Epworth League meet at 7:15 p. m. and at 8 p. m. the pastor will preach on "Passing of Religious Opportunity."—FRANK L. TURNER, Pastor.

FIRST CHRISTIAN CHURCH
Children's day will be observed at the 11 o'clock service, and all parents are urged to come and have their children at the church for a special sermon by the pastor, Sunday school at 9:45. Evening service at 8.—DAVID F. TYNDALL, Pastor.

CHURCH OF CHRIST
Sunday school, 10 a. m.; preaching 11 a. m.; evening service, 7:15 p. m.—J. EDDIE WEEMS, Pastor.

HOLY ROSARY CHURCH
Today is the Second Sunday after Pentecost. The Epistle read today is taken from the First Epistle of St. John III:13-18, the Gospel is from St. Luke XIV:16-24. In the Epistle we are told that: "He that loveth not, abideth in death. Whosoever hateth his brother is a murderer." Brother here means any human being. Hence we must love all men. Mass will be at 9 a. m. by Rev. M. Collins.

FIRST PRESBYTERIAN CHURCH
Sunday school at 9:45 a. m. Preaching by the pastor at 11 a. m. and 8 p. m. Young people meet at 7 p. m.—J. STUART PEARCE, Pastor.

GRACE LUTHERAN CHURCH
Sunday school and Bible class at 9:30 a. m. An English service will be held at 10:30 a. m. The theme of the sermon will be: "True Christian Joy." The public is invited.—E. H. RIESE, Pastor.

FIRST BAPTIST CHURCH
There will be no preaching services today. The pastor is recuperating from an operation earlier in the week. Sunday school will take place at 9:45 a. m. as usual, and the BTS will meet at 7 o'clock.—E. S. JAMES, Pastor.

FUNDAMENTALIST BAPTIST
Sunday school at 9:45 a. m. followed by preaching at 11 a. m. by the Rev. J. E. Thompson on "What Will You Do With Jesus Which Is Called the Christ?" The public is cordially invited.—JOHN W. REYNOLDS, Pastor.

COONS CHANGE HABITS
HARTEFORD, Conn., June 2.—Connecticut raccoons are changing their natural habits because of the scarceness of hollow trees, the State Board of Fisheries and Game has announced. Owners of woodlands

are urged to spare the decaying trees and bring the coons back from among rocky ledges to which they were forced to adapt themselves in recent years.

TO LATE TO CLASSIFY
FOR SALE OF TRADE—One Hoffman Automatic water heater First class condition. See G. R. Kilpatrick, class urged to spare the decaying

OLD TREE BEARS FRUIT
VAN COUVER, Wash., June 2.—An apple tree planted by Dr. John McLaughlin of the Hudson Bay company more than 100 years is still bearing delicious fruit. Patronize Our Advertisers.

SISTER MARY'S RECIPES

BY MARY E. DAGUE

THE most delightful sight in the world to a real housekeeper is a kitchenful of bright, shining pots and pans, each qualified to do its special task to perfection.

This lovely efficiency pre-supposes, however, a very special kind of care on the part of the housekeeper. For aluminum, enamel, glass and pottery all require different treatment to be at their best.

The popular aluminum is available of course in many brands and weights. Naturally, the heavier the metal, the longer it will last but all aluminum wears well and is light to handle. A good scouring powder easily dissolves stains. If you remember that alkali is the darkening agent for aluminum, you can care for it accordingly. The best equipment is a neutral soap for washing, wood for scrubbing (half a clothespin for cleaning and a wooden spoon for stirring during cooking) and very fine sandpaper or steel wool for scouring with thorough scalding and wiping.

Care of Enamel
Enamel ware requires gentle handling since hard knocks make it chip. Nor will the average stand intense heat without checking, which leads eventually to chipping. However, it has little tendency to discolor and stains are easily removed with any good scouring powder. Wood must be used for scraping and stirring in enamel ware, too, because metal scratches the glaze of enamel and makes dark streaks. Hot soapsuds, thorough scalding and drying keep this material at its best. If food sticks and burns let the pan cool before putting water in it. Then soak and scrape off the burned particles with wood. If the burning was bad and some of the spots obstinate, melt a small amount of fat slowly in the pan and scrape again.

"Seasoning" Iron Utensils
Iron utensils often are covered with a thin coating of some sort of shellac when shipped from the factory. This must be removed and the iron "seasoned" before using. First let the utensil stand for several hours in water in which washing soda has been dissolved. Wash in warm soapsuds and dry. Then rub with unsalted fat and let stand in a warm oven for two or three hours and then heat to the smoking point. Let cool and wash in hot soapsuds, scald and dry. Rub well with fat for the second time and heat slowly and thoroughly in the oven. Wipe off the surplus fat with a soft crumpled paper and the utensil is ready to use.

Tomorrow's Menu

BREAKFAST: Shredded fresh pineapple, cereal, cream, crisp bread, bacon, bran bread toasted, milk, coffee.

LUNCHEON: Casserole of vegetables, rye bread and cheese toasted sandwiches, chocolate cup cakes, stewed rhubarb, milk, tea.

DINNER: Fillet of flounder baked with tomatoes and onions, spaghetti timbales, stuffed beet salad, sour cream raisin pie, milk, coffee.

Glass is popular for ovenware and requires no special preparation if it's one of the brands particularly constructed to withstand the strain of expansion and contraction. The glass measuring cups, mixing bowls and miscellaneous dishes used in the kitchen will wear better if they are immersed in a panful of cold water and brought slowly to the boiling point and boiled for five or ten minutes. Let cool in the water. If you would keep your glass clear and shining wash in hot soapsuds, scald and dry. If food sticks it usually will soak off.

THE FORD DRAMA OF PROGRESS

The Ford Motor Company invites you to visit its exposition at A Century of Progress, Chicago, where the absorbing story of Ford men, methods and ideals has been unfolded beneath a single roof.

THE Ford Exposition is dominated by a tower ten stories high, in the center of which is an open court. Through the top of the rotunda, the sun's rays pour down upon a twenty-foot rotating globe—its surface bearing in relief the myriad units of the Ford industries.

Grouped about the Ford globe is a pageant of transportation, from the earliest Egyptian chariot, crude ox-carts and covered wagons to automobiles of varied age, type and design. A "Roads of the World" exhibit faithfully reproduces the roads upon which these vehicles traveled, from the earliest dawn of history.

Surrounding the Ford workshop is a series of displays which sharply etch the advance from the cruder machinery of other days to the almost wholly automatic machine shop of today. It is the story of "a hundred years of mechanical progress."

In this story of advancement are imprints of Henry Ford's own career. Many devices in the display came into being through Mr. Ford's efforts, or through exigencies created by his insistent drive toward improvement and increased efficiency in every mechanical operation.

Beside the Ford Exposition Building stands the gray, weather-beaten barn in which Henry Ford worked and played as a Michigan farmer boy. Its presence is peculiarly significant, because it has been equipped with machinery to illustrate how the farmer may process raw materials for industrial uses and bring about a closer and mutually profitable relationship between industry and the farmer.

Suppliers Join Ford in Educational Exhibit

Twenty-one of the suppliers who manufacture Ford V-8 parts have joined with the Ford Motor Company in the industrial exhibits to make them complete and informative. Each exhibit begins and

The Grand Concourse of the Ford Building. Shown here is a priceless collection of vehicles of transportation of all time, from the ancient Egyptian chariot to the automobile of today.

ends upon the same two keys—the first that every part of the Ford car comes from the earth. The second is that each part, from the smallest bolt to the heaviest steel part, must pass individual tests to make sure it is up to Ford standards.

From Mine to Finished Automobile Parts

The sources of iron, steel, copper, aluminum, zinc, lead and other metals are graphically portrayed. Exhibits depicting the processes that are used in manufacturing parts from these metals are actually at work producing the finished parts.

A program of symphony orchestra music has been planned for the Ford Exposition to last throughout the summer months. Opening the musical program will be the Women's Symphony Orchestra of Chicago, directed by Miss Ebba Sundstrom. The Women's Symphony will close a one-week program June 13th. An afternoon and evening concert will be given daily.

On June 16th the Detroit Symphony Orchestra will begin a series of daily concerts to continue for twelve weeks. Under the baton of Victor Kolar the Detroit Symphony will give a two-hour concert each afternoon and evening of the week.

The Ford Exposition Building is illuminated at night by hidden batteries of lights. These lights, playing upon the central tower exterior, produce an effect of great beauty. Straight up from the tower is a mighty beam of light furnished by searchlights with a combined strength of 600,000,000 candle-power. It is visible for many miles, and for hundreds of miles to airplanes.
