NUMBER 117.

## AIRLINER IS FOUND WITH SEVEN DEAD

### Gulf Tropical Storm Believed to Have Veered in Course

### TAMPICO AND BROWNSVILLE GLASS NORMAL

BROWNSVILLE, June 11 — With barometers here and at Tampico normal at 10 a. m. today, observers unofficially believed a tropical hurricane reported headed for the Gulf of Mexico or had turned northward.

If it veered to the north, New Orleans or the Florida coast would be in the hurricane's path.

Official predictions were being withheld pending release of a Washington advisory.

Houston reported the barometer also was normal there, but it was said to be dropping at Freeport, Texas, with high tides at Freeport and Galveston.

There was but little excitement in the Rio Grande valley, and the weather bureau advised there was no cause for immediate alarm.

### AN SALVADOR DEAD ESTIMATED AT 2,000

SAN SALVADOR, June 11 — Relief workers today estimated the dead at 2,000 in the hurricane that devastated this area last week. They emphasized that the total was a rough estimate pending an official check-up.

### September 12 Fixed For Shady Grove Fair

September 12 was tentatively set as the date for the Shady Grove community fair this year at a meeting of the community council group Saturday evening. The meeting was held at the school building.

A general committee was named to consist of Wayne Thurman, Mrs. Frank Ziehr, Miss Willie Ward, Charlie Wendt and Edgar Altom. This group will direct the organization for the fair.

County Agent J. C. Patterson made a brief talk on keeping farm records and accounts and he and Vocational Instructor J. M. Bird, Cisco, distributed record books to the farmers.

Bird discussed the foot rot disease found to have affected small grains in this territory, doing particular damage to wheat, oats and barley.

Present were the following members of the council:

Mr. and Mrs. John McKinney, Mr. and Mrs. J. Graves, Wayne Thurman, C. Thurman, Obbie Thurman, C. Thurman, Avery Holt, Albert Schaefer, Mr. and Mrs. Frank Ziehr, and Willfield Ziehr.

### Hamilton Confident He'll Escape Chair

RUNTSVILLE, June 11 — With the belief that he led a charmed life, Raymond Hamilton, 20-year-old gunman, went on trial here today on charges of being an habitual criminal and trusted to luck he would not die in the electric chair.

"The most I will get if convicted will be another life sentence," the bragging, egotistical west Dallas hoodlum said as he entered the courtroom in shackles. "Luck hasn't left me yet."

Only one juror was selected during the morning session of the trial. When the trial opened County Attorney R. T. Burns told the court the state wanted "the death penalty or nothing."

### Another Dollar Paid To School Districts

AUSTIN, June 11 — State School Superintendent L. A. Woods today announced payment of another dollar per pupil to school districts on the \$16 per capita apportionment. Today's payment raised the total sum paid per pupil to \$1.

### WEATHER

West Texas—Partly cloudy tonight and Tuesday.

East Texas—Partly cloudy to cloudy tonight with thundershowers southwest portion and on west coast tonight and Tuesday.

### DROUTH TURNS RICH FARM SOIL TO DUST HEAP

### TUGWELL TILTS WITH FOES ON SENATE GROUP

WASHINGTON, D. C., June 11 — The American constitution is flexible enough for any changes that may be necessary in America's economic life, Rexford Tugwell said today at a senatorial public battle with his senate foes over "brain trust" practices.

Tugwell, coolly parrying the questions of Chairman Ellison D. Smith, of the senate agriculture committee, and Sen. Harry Byrd, Den.-Va., denied he favored any sweeping or revolutionary changes in American government.

The "brain trust" whose nomination has been held up many weeks by Sen. Smith because he isn't a "dirt" farmer, was fighting to prove his fitness for the undersecretaryship of the department of agriculture.

### Japs Send Warship To Chinese Capital

SHANGHAI, China, June 11 — Japan sent warships to Nanking today to "reassure" the Japanese colony in the seat of the Chinese central government after the disappearance of a Japanese vice consul. The Japanese legation here said a cruiser had been ordered to the Chinese capital immediately.

### Mill That Inspired Famous Old Song Is Said to Have Been Located in Canada

CHATTANOOGA, Tenn., June 11 — "The creaking old mill" referred to in the picturesque song, "When You and I Were Young Maggie," an old-time favorite, is in Canada, near Hamilton, Ontario, and not on Spring Creek, near Benton, Tenn., according to evidence collected by Robert Sparks Walker, Chattanooga naturalist and historian.

Much to the chagrin of the Daughters of the American Revolution, Walter has collected letters from living relatives of the author, George W. Johnson, and his childhood sweetheart-heroin, Maggie Clark, to prove that the mill was in Canada.

The following letter was received from Mrs. Elizabeth C. Badgham, of Bloomfield, N. J., who claims to be the youngest sister of Maggie:

"Maggie Clark, the heroine, was born in Glanford, a town near Hamilton, Ontario, Canada. She was the eldest of several girls, of which I was one of the youngest sisters. Our father was a prosperous farmer. . . .

"George Johnson was born in a nearby town and came to Glanford to teach our school. He and Maggie became engaged. It was about this time that he wrote a book of poems called 'Maple Leaves.' In this book he had written the poem

### Drifting Like Snow in a Gale, the powdered soil of midwest farms has piled high against houses and farm buildings and covered the fields in the record drouth that has held sway for months and taken millions' toll.

### Quadruplets Multiply Worries of Couple Whose Income Is Only \$16 Weekly Stipend

SAC CITY, Ia., June 11 — How to support nine children, including newly born quadruplets, on \$16 a week was the problem facing Larry Wycoff and his wife today. Mrs. Wycoff, who does not believe in large families, rested comfortably and listened to the lusty squalls of the four youngest additions to the family.

The doctor who delivered the babies by lamp light Saturday night in the three-room cottage said all had an excellent chance of survival.

### MULTIPLE BIRTHS ONCE COMMON SAYS DOCTOR

CHICAGO, June 11 — Medical records were brought forth today by Dr. Charles E. M. Fisher, prominent research authority, to prove his contention that the Dionne quadruplets would have been "nothing to get excited about years ago."

"In those days they really had big families," Dr. Fisher said. "Records tell of the Marquis de Tragezins of France who was one of 13 children, all born a time."

Dr. Fisher's records also listed a case of an Italian woman who gave birth to nine children in her first confinement and 11 in her next. The 20 children, he said, were a happy, healthy lot.

### Improvement Shown In Payrolls of World

GENEVA, June 11 — The United States is the only nation deliberately increasing payrolls in order to stimulate industry and reduce unemployment, according to H. B. Butler, director of the international labor office.

The rest of the world is now beginning to give up wage cutting, mainly because the economic situation is improving. Butler maintains that slicing payrolls did not improve matters at all. In fact, he strongly suspects it may possibly have worked in the opposite direction.

That is, cutting salaries may have caused meager returns for employers, instead of profits. Also, longer bread lines may have resulted from wage slashing.

"Where consumption or buying power has been seriously depleted by drastic wage cutting aggravated unemployment and crippled production seems to have been its usual accompaniment," says Mr. Butler. That is the lesson he draws from a close study of reams and reams of official documents containing wage ups and downs of the world's millions of workers.

### WON FIGHT

ASTORIA, Ore., June 11 — Descendants of Norseman won their battle before the city council, and as a result a new street will be known as "Leif Erickson Drive." The name "Adair Drive" was suggested by opponents.

### NEW SCIENCE SUGGESTED BY HARVARD MAN

By ALFRED BERTHINET  
United Press Staff Correspondent  
NEW YORK, June 11 — Cosmology — a new science — has been suggested by Dr. Harlan True Stetson, research associate in geophysics at Harvard university.

More than merely adding a new word to scientific dictionaries, this recent acquisition to the terminology of science would, according to its author, bind together the sciences governing our earth, its lithosphere, hydrosphere and atmosphere with those dealing with interstellar space such as astronomy and astrophysics.

Co-ordinate Allied Sciences  
Dr. Stetson, in his book, "Earth, Radio and the Stars," just published by Whittlesey House, claims that co-ordination of these allied sciences should be effected. Practically every science would be enrolled under the banner of this new and all-embracing one. All the representatives of the various sciences would correlate their findings toward a common end, the relation between man and his astronomical neighbors.

To substantiate one of his theories Dr. Stetson, who has been Director and Professor of astronomy at Ohio Wesleyan university for the past five years, presents a series of graphs. Research has illustrated that the levels of certain African lakes correspond closely with sun-spot cycles.

Sun Spot Frequency  
Biological and biophysical reactions have been linked with sun-spot frequency; variations in the number of rabbit, lynx and fox fells approximated quite closely the increase and decrease of sun-spots. As the spots increase, so did the pelts, and vice-versa.

Business, too, is affected by the sun-spots. Indices of various businesses, correlated with sunspot graphs indicates tentatively that when the solar constant decreases business takes an upswing. Four of five of the last business depressions followed a sun-spot maximum.

Dr. Stetson declares that the science of the modern generation largely will be synthetic in character in contrast to that of the past which was analytical.

### JURY QUICKLY SELECTED FOR GAS RATE CASE

AUSTIN, June 11 — Quick work was made today of selecting a jury for trial of the fairness of a reduction in the natural gas rate ordered by the state railroad commission for cities and towns served by the state railroad commission for cities and towns served by the Lone Star Gas company.

Testimony in the case was to start this afternoon. Secy. C. F. Pettit of the state railroad commission probably will be the first witness, certifying to the order of the commission September 13, 1933, when gas rates were ordered reduced from 40 cents to 32 cents a thousand cubic feet.

The suit was brought by the state to compel the company to observe the reduced rate.

### HAIR RETIRES AS CANDIDATE FOR ATTY-GEN.

AUSTIN, June 11 — J. F. Hair, San Antonio, withdrew from the race for attorney-general, in a communication to the state democratic executive committee which met here today to draw up the ballot for the democratic primary election, July 28.

A committee vote on whether prohibition repeal shall be submitted to referendum probably was avoided when it was decided that all resolutions shall go to a committee of five and not be presented to the whole committee.

Roy F. Tennant, holding the proxy of Will St. John, Cisco, had a resolution prepared calling for submission of repeal. Tennant is manager of the central Texas campaign for Mairy Hughes, Dallas, candidate for governor.

### PARKER WITHDRAWS HIS NAME

KILGORE, June 11 — R. D. Parker, proration enforcement officer for the Texas Railroad commission today wired the state democratic executive committee to omit his name from the primary ballot as a candidate for railroad commissioner.

Application for a place on the ballot for Parker was filed last week by 40 of his friends, who acted in hope he would take part in the race.

Parker previously had declared he would not seek the office, and his telegram to the committee today reaffirmed that statement.

### WEDNESDAY CISCO DAY AT SWIMMING POOL

Wednesday will be Cisco day at the Lake Cisco Amusement company's swimming pool through courtesy of the Cisco Daily News and the amusement company.

All Cisco people are invited to swim. Admission to the pool will be by ticket only, but these may be obtained at the Daily News office for the asking.

The amusement company and the Daily News are eager that the largest possible number take advantage of this opportunity to swim free of charge.

Each Monday morning the chapter will supervise such a swimming party between the hours of 7 and 9 for the benefit of youngsters whose parents are unable to devote the necessary time to their recreational activities. Each child is required to be provided with a swimming suit of suitable character and a towel.

Mr. and Mrs. Albert Hunt of the Lake Cisco Amusement company have opened the pool to the youngsters free of charge and assist the chapter in taking care of the youngsters.

This morning seven women, members of the local chapter, supervised the outing. The chapter has ten members and these will divide time with the program during the summer.

Mrs. Charles Sandler, president, has appealed for the aid of boys and girls who are trained swimmers to help care for the youngsters in the pool.

### 25 YOUNGSTERS ON FIRST SWIM OUTING TODAY

Twenty-five children from six to ten years of age, inclusive, were taken on a two-hour swimming party to the Lake Cisco Amusement company's big pool this morning as the Cisco chapter of the Child's Conservation league inaugurated its summer program.

Each Monday morning the chapter will supervise such a swimming party between the hours of 7 and 9 for the benefit of youngsters whose parents are unable to devote the necessary time to their recreational activities. Each child is required to be provided with a swimming suit of suitable character and a towel.

Mr. and Mrs. Albert Hunt of the Lake Cisco Amusement company have opened the pool to the youngsters free of charge and assist the chapter in taking care of the youngsters.

### Large Congregations At Sunday Services

"To delight more in real Christian worship; to be more regular in attendance on the Lord's day; to make the teaching service more effective; and to preach the gospel to the whole world, are some of the objects of the local church," said Evangelist L. S. White at the beginning of his sermon yesterday morning in the revival Sunday at the Church of Christ on West Eighth street. His subject was: "How to Build the Local Church Up to the New Testament Standard."

The visiting minister read many statements from the Bible to show what church members should do to build up their own Christian lives and to build up the local congregation. At night his subject was: "Why I am a member of the Church of Christ." The speaker was greeted by the two largest audiences of the entire revival at these two services.

He announced that the revival will close Thursday night, with two services each day, at 10 o'clock in the morning and at 8:15 at night. Many people from different places out of town were present at the Sunday night service. The public invited to all the services.

### ADMIRAL REEVES TO SUCCEED SELLERS AS HEAD OF U. S. FLEET

NEW YORK, June 11 — Admiral J. M. Reeves, present commander of the battle force of the U. S. navy, will succeed Admiral D. P. Sellers as commander of the U. S. fleet June 15.

Admiral Reeves, rated as one of the navy's most colorful officers, succeeds a sea dog who has ranked among the ablest fleet commanders in the navy's history.

Much of the present day efficiency of which the navy is so proud, has been the result of Admiral Sellers' planning and organization. He is credited with having developed many new maneuvers which are closely guarded secrets of the navy department.

Favorable Circumstances  
His successor, Admiral Reeves takes over the fleet under most favorable auspices — at this time when the country shows a renewed interest in naval affairs. If there comes an hour of national peril within the next two years, the destiny of the United States will be in his hands. His responsibility will be second only to that of the president.

Admiral Reeves graduated from the Naval Academy at Annapolis 40 years ago. He is our first flying admiral. He won his wings at Pensacola when he was 20. He is 61 now, his early vigor undiminished. His trousers band measures the same

### Cannery to Open for Business Tomorrow

The Cisco community cannery will open for the summer vegetable canning season tomorrow, Mrs. E. M. Orrey will be in charge, and those who wish to use the cannery facilities were directed to make arrangements with her.

### EIGHTH CONVENTION

Bryan, June 11 — The eighth annual convention of the Municipal Utilities league of Texas will be held in Bryan, June 18 to 19. K. K. Jackson of Seymour, president, will call the convention to order.

### BURNED WRECK IS DISCOVERED IN CATSKILLS

LIVINGSTON MANOR, New York, June 11 — The big American Airlines transport plane which vanished with seven persons aboard while en route from Newark to Chicago Saturday night, was found in the Catskill mountains, destroyed by fire and with all of its occupants dead.

The plane, object of a huge search by land and air since Sunday dawn, was found by William H. Hallock and Lee Lewis, two volunteer fliers.

Hallock told the United Press that the plane was a tangled mass of wreckage, twisted and destroyed by fire.

He said that the occupants apparently did not have a chance to escape.

Hallock and Lewis found the plane at 11 a. m., while the search was concentrated slightly north and east of this district.

The transport plane, with four passengers, a pilot, co-pilot and stewardess, left Newark at 4 p. m. Saturday and reported 45 minutes later that all was well over Newburgh, up the Hudson river. Then it vanished into thundershowers.

The department of commerce suppressed first information concerning the finding of the plane, pending arrival of officials for an investigation.

### STEVENS TRIAL STARTED TODAY AT FORT WORTH

FORT WORTH, June 11 — Two defense efforts to postpone the murder trial of O. D. Stevens were overruled here today and selection of a jury started in district court.

Stevens is charged with the slaying of Harry Rutherford, 28, Adlene, one of three men whose bodies were found in the Trinity river here last July. The state will seek the death penalty.

Stevens freshly shaved and smartly dressed in a gray suit was surrounded in the court room by a heavy guard. His appearance was far different from that of the detour-country gentleman captured by officers in his rock mansion a year ago. He has lost 40 pounds weight while awaiting trial.

### World Arms Parley Adjourns in Failure

GENEVA, Switz., June 11 — The world's arms conference, unable to approach even the resemblance of an agreement to prevent a general armament race, adjourned today indefinitely.

Even the attempt to salvage something from the conference by setting up committees to discuss security and other disarmament problems was discouraging.

Italy and Hungary announced they would merely "observe" the work of the security committee, and Great Britain said she would aid the committee but would not sign any pact guaranteeing a further measure of mutual aid and non-aggression than was established by the Locarno treaty.

### Family Feud Blamed For Deaths of Five

SUSANVILLE, Cal., June 11 — Five persons today were reported killed in what was believed to be a family feud.

The victims were Mr. and Mrs. Joe Frazio, their 20-year-old daughter, John Frazio and Lena Amisti. All had been stabbed to death.

### WEDNESDAY CISCO DAY AT SWIMMING POOL

Wednesday will be Cisco day at the Lake Cisco Amusement company's swimming pool through courtesy of the Cisco Daily News and the amusement company.

All Cisco people are invited to swim. Admission to the pool will be by ticket only, but these may be obtained at the Daily News office for the asking.

NEEDED, A LEGISLATURE

The other day a candidate for governor of the state of Texas came into the Cisco Daily News office and admitted that he was the man of the hour. He said he had a platform sound enough, a character staunch and noble enough to solve the great political problems that confront the people of Texas.

There were a couple of vulnerable points in his argument on behalf of himself. In the first place, the governor of the state of Texas is not elected to provide for the poor people. He could not do so if he wanted. It is his duty to recommend legislation and to administer such laws as exist in an impartial, economic and efficient manner with an eye ever single to the equality of man before the law.

A governor is helpless without a sympathetic legislature. He can't do a single thing about effecting his high-sounding program, either to improve the economic status of a class, control corporate greed, or cause needed reforms without a favorable house and senate.

The people of Texas have had time enough to discover that it isn't the governor so much as the legislature who determines the success of an administration. They should have learned by this time that the bombast of the hustings is just so much idle chin-wagging when it comes to the serious business of translating campaign platforms into gubernatorial deliveries.

If the people of Texas want the right type of government—and it's obvious they do, regardless of the fact that none of us knows what is the right type—then their immediate concern should be the election of more common sense to the legislative halls of the state.

NUMBER VS. EMINENCE

The old cry in Texas that the primary nominating system and direct election of United States senators has lost the state the service of notable statesmen, and has substituted drab mediocrity by public choice for eminence is just now drawing loud echoes from the rest of the country.

Admitted, there are no Roger Q. Mills, Charles A. Culberson or John H. Reagans in public life now. But there are a few things overlooked in all these lamentations. Outside public life, where are there men of this elder statesman type?

Doesn't Jim Hogg stack up pretty well with the other illustrious officials? Would he have reached public office under the aristocratic or autocratic plan of clique control?

Was it better to have six successful practical politicians choose men of resounding reputation and personal honor and integrity, to serve in public place, accountable only to this sort of a clique, than to have a succession of lesser men, but just as honest and conscientious, accountable really to the majority welfare of Texas?

Deeper, more fundamental than that: Were they any bigger anywhere, those few men who talked mightily on a narrow stage, than the hundreds, far less well known, of a later day? Maybe they weren't. Consider this:

The reputation of, say, Daniel Webster, is fixed by the histories. It is enduring. He strides through the pages in majestic glory, even while fighting to preserve the bank of the United States to prey upon the people, and while privately soliciting the bank to renew his annual retainer fee.

They were great, maybe, because they were so few. Great because people knew so little about them, as compared with present publicizing. Puffed into greatness by the very thing that profited by the tradition of grandeur, the closed coterie that assumed the right to control government and divide places of honor as a vested property right.

THE PRICE-FIXER

Bidding Is Now Open for Centennial Location

By HUGH NUGENT FITZGERALD. Money is said to be the loudest talker in the world. The Centennial commission held a one-day session in the city of Austin. It was an important session. It instructed cities desiring to bid for the main exposition location to offer their proposals by Sept. 1. Cities and towns seeking other celebrations as ordered by the commission were requested to file their offers by Nov. 1.

There are two state agencies designated by legislative act to plan the exposition. First comes the Texas Centennial commission, created by legislative act with a membership of 33. Second, a centennial advisory board estimated to comprise more than 1200 members and all named by the 31 senators and the 150 representatives of the legislative body.

There was a very large attendance from the leading cities of the commonwealth. These cities sent their representatives to prepare the way for the bidding set for Sept. 1. Houston sent a large delegation. San Antonio sent a delegation and Dallas and Fort Worth are preparing to make bids for the prize when the month of September rolls around.

Money is said to be the loudest talker in the world. And the wise ones say that straw bidding without the cash in sight will be tossed into the wastebasket when the showdown for the main location comes. Why not the old slogan, "All for one and one for all—for Texas?"

SECY HULL MAKES IMPORTANT ANNOUNCEMENT. Secy Cordell Hull is head of the department of state. He has entered a most vigorous denial to the charge that the United States has an alliance with Great Britain or any other nation for joint action in disarmament or naval affairs.

FINED FOR SAME AUTO. WATERBURY, Ind., June 11—Two men were fined \$100 and costs each for driving the same automobile while intoxicated. Judge Edward A. Masciola was unable to determine whether Fred Ziegler or Dudley Tompkins was at the wheel and found them both guilty. He remitted \$90 of the fine, however.

GREENCASTLE, Ind., June 11—June 11 will be a busy day for Dr. G. Bromley Oxnam, president of De Pauw university. After presiding at De Pauw's commencement exercises at 10 a. m., Dr. Oxnam will take a plane to Columbus, O., where he will deliver the graduation address at Ohio State university at 5 o'clock.

WATERBURY, Ind., June 11—Two men were fined \$100 and costs each for driving the same automobile while intoxicated. Judge Edward A. Masciola was unable to determine whether Fred Ziegler or Dudley Tompkins was at the wheel and found them both guilty. He remitted \$90 of the fine, however.

Texas Topics

By RAYMOND BROOKS

AUSTIN, June 11—On the accuracy of a recent statement of a candidate for public office seems predicted the possibility of a \$35,000,000-a-year gift to the people in Texas.

There is \$35,000,000 a year available for Texas citizens, through dividends upon outside investments. It is one that ought to be capable of commanding attention. A good many individual companies such as oil and gas pipelines, have been making \$35,000,000 a year in profits. That has been shown. It is evidence that a public ownership of \$35,000,000 in pipeline earnings—expenditures saved Texans—would not destroy the fabric of industry and business supported by outside investment.

There would be many considerations. One would assume as many people on the payrolls of a city-owned plant as a privately-owned plant; probably more. One would assume that the furnishing of, say, gas, fuel, water, of electricity for power and lighting, of sewage disposal, possibility of ice manufacture, could be administered by cities as well as water and light by the city of Austin.

One might assume that such service as telegraph and telephone, being already so interlinked in national systems, would not become state or city functions. One would naturally have to take into account the reimbursement of owners for existing plants that were acquired; but could

Through the Editor's Spectacles

By GEORGE

Phil Pettit thinks a good catch is worth a charley-horse anytime. But he had to find out what a charley-horse is, first. Since football became popular enough to be discussed in scientific terms, the word "charley-horse" has been common enough in sport parlance, and Philip has participated frequently in sage and serious discussions of what should be done for some young victim who is in danger of being lost to an important game because of such an affliction.

But the other day at A avenue and 14th street in the midst of a strenuous play Pettit thought someone had hurled a log that struck him on the calf of a leg, and he nearly swallowed his cud. For the time being he was almost as sore as he was when R. L. Ponsler stepped in front of him, caught a ball and robbed him of a put-out.

But the misfortune was smoothed over with his startling catch of a smoking drive off the bat of one of the firemen a short while later.

Now, "Phil" knows what a charley-horse is, and will be in a position to treat sympathetically of future such cases as may come under his observation.

The pastor of the First Methodist church has turned to pathological research with notable success. He has discovered, analyzed, classified and dubbed a new malady. The following description of the disease appeared in the bulletin at the church Sunday morning:

"A dreadful malady has seized upon a major portion of the

Tomorrow's Star Signals

By OCTAVINE

Elderly people are a source of importance during noontime tomorrow. Entertain or deal with them for success at this hour. Luncheons serving liquor in conservative amounts will be successful. The afternoon arouses spontaneity. Discussions of philosophy will find favor.

Tomorrow's Birthdays. You have a tendency to speculate and will be more successful at such an occupation than most people. Look for advancement to a better position during January, 1935. Danger July 2. Favorable July 16.

Donna and Con passed no one on their way to the car. Donna climbed in and unlocked the engine, then held out her hand. "Let's part friends, Con. For the sake of Madeline, I know you didn't mean what you said back there."

"I'm going with you," he answered, ignoring her outstretched hand. "But you can't!" she protested. "Not home with me."

"I don't mean that." As he spoke he got into the car beside her. "We haven't come to any sort of decision."

"There isn't any to come to. You feel you are entitled to what would have been Madeline's. I think it should belong to Bill." She switched on the engine and, with a sputter, the car leaped forward. "I'll drive you to the corner of the square. Then I'm going home."

"And try to induce the old man to change his will?"

"I wouldn't. I intend to stick around here. I don't want to make things unpleasant for you. But if you force my hand I'll have to do it."

"Not if she liked me and accepted my word that the person who was married that day was another woman. She knows you are in town, and nothing would suit her more than to find out that I came here to meet you. But how could she know I was coming? How could she find that out?"

"Search me! I think you're worrying without any cause. It's dollars to doughnuts that wasn't an evesdropper but someone taking a short cut through the grave yard."

"I hope so."

"Where's your car?"

"I left it on a side street not far from here. We'll have to walk around past the front gate, though. If I were only sure Mrs. Planter—"

Con squeezed her arm to reassure her and her anxiety was such that she did not notice the caress. The Baptist Church was at the extreme limit of the town. There were no street lights within a block. The snow was falling and neither saw the figure crouching beside the iron pillars that supported the gate. But Mrs. Planter, who had seen the couple disappear, had judged correctly that they would not leave through the main

entrance.

SHE had hoped Bill also would be a witness to the meeting, but she did not see him anywhere. One thing was certain, she had caught Madeline Siddal correctly. The girl was a "hussy," unfit for decent folks to associate with, and before another 24 hours went by not only Bill Siddal but everyone in Lebanon was going to know about it!

She waited until the man and woman had gone on about 50 yards. Then she gathered the shabby folds of her coat about her and began to run in the opposite direction. If that lazy Janie hadn't started supper there'd be the old Nick to pay. Jobs weren't so plentiful that Mrs. Planter wanted to chance losing hers, even in doing her duty towards the community.

Donna and Con passed no one on their way to the car. Donna climbed in and unlocked the engine, then held out her hand. "Let's part friends, Con. For the sake of Madeline, I know you didn't mean what you said back there."

"I'm going with you," he answered, ignoring her outstretched hand. "But you can't!" she protested. "Not home with me."

"And try to induce the old man to change his will?"

"I wouldn't. I intend to stick around here. I don't want to make things unpleasant for you. But if you force my hand I'll have to do it."

### "Sissie" Book For Small Boys Shown

PITTSBURGH, June 11—A book that frightens our great-grandchildren into sissie behavior is on exhibit here.

The "Book of Caution to Children" reminds little boys that they must not quarrel, because it is a disgrace to the human form. It is illustrated by zany examples of what is considered to be naughty infantile behavior.

"Wicked boys fight like dogs and bite their friends, by which they often receive each other great injury, whilst such conduct they disgrace the human form. We hope all good boys will be so struck with this lesson that they will guard against ever falling into a passion, and also be careful to avoid the company of worthless lads. Oh! Remember that the Apostle tells us that we are to be dragged in the stirrup, or tied to pieces by the horse."

The book is a noble animal, but sometimes a ferocious and terrible creature, and children never should look one of these beasts.

Sometimes little boys lose their lives by getting on their fathers' nerves. Their light weight encourages the animal to frisk and gallop, and the terrified child falls off, perhaps to be dragged in the stirrup, or tied to pieces by the horse."

One picture shows a boy's finger pointing at a dog's nose, and another shows a boy's finger pointing at a dog's nose.

"Do see! This lad's countenance says to you 'Oh, I've cut myself. What shall I do?' What a desire children have to play with knives or forks or a pair of scissors! and wounds are often the consequence. Many children even have lost their lives by handling such dangerous things."

### Reich Spokesman On Arms Policy

Germany's new spokesman on arms is Joachim Von Ribbentrop (above), appointed by President Von Hindenburg as Special Commissioner for Disarmament questions.

### Gigolos in France Are Hit by Slump

NICE, France, June 11—Gigolos here are having a rough time of it financially, because wealthy women are reducing their expenses.

For the gigolo the Riviera which used to be gold and blue, is all blue now.

"Wages" have crashed to where a hot carrier's helper makes more money than a gigolo. In the good old days an honest gigolo easily made \$50 a day by dancing just a few hours in the afternoon and three or four hours a night. If he was dishonest, he naturally made more, according to what his partner's pearls and jewels were worth.

Today's gigolo is satisfied if he picks up \$5 a day.

Recently, "Handsome Looie" Don, at one time the Riviera's most prosperous gigolo, committed suicide. In the midst of what remained of his former splendor, he shot himself through the heart. The one maid that remained out of his numerous staff of servants found him dead in the library of his villa, which had been heavily mortgaged.

His luxurious sport model car was about to be confiscated for debt. And "Handsome Looie" still was getting \$15 a dance from his de luxe clientele, where the ordinary "worker" has to be content with 75 cents or \$1 but it wasn't enough to keep his establishment going.

### They Can Shoulder a Gun, Too, These Men of the Fleet

"A snappy parade," commented Mayor La Guardia. And more than a half million New Yorkers mirrored this thought as they cheered 5,000 men of the navy in a colorful parade up smart Fifth avenue. In the city's greatest naval parade since the World war, the sailors are here shown passing the reviewing stand at Madison Square park. Two thousand soldiers from nearby forts joined the procession.

### Davisson Candidate For Legislature

George A. Davisson, Jr., Eastland, this week formally announced that he will be a candidate for the legislature from the 106th district, comprising Eastland county. He said that he will make announcement of the platform upon which he will seek election early in the week.

Mr. Davisson has gained recognition as an earnest student of public

affairs, well versed in political economy, and is counted by those who know him as well qualified for the legislative post he seeks.

**KEPT PROMISE**  
BRIDGEPORT, Conn., June 11—Henry C. Hense, 77, kept a deathbed promise he made his wife to marry his housekeeper, Rosa Lauffer, 59, because she could cook the old-fashioned German dishes he liked so well.

### Admiral Reeves--

CONTINUED FROM PAGE ONE

the old Oregon when she made the one of that heroic ship's company in 16,000-mile run from San Francisco and through straits of Magellan to join Sampson off Cuba.

As a captain in the World war he won the navy cross for distinguished service. He is the hero of a gunless victory at Geneva in 1927 when his smashing eloquence saved the American navy from the proposed 6-inch cruiser limit plan of the British.

**All Star Cast**  
Admiral Reeves' staff is what in Hollywood would be called an all-star cast. Foremost is the chief of staff, Rear Admiral Adolphus Andrews, too, was a power at Geneva. As a naval advisor in high places, for years he has been a part of the pageantry at Washington. He was aide to three presidents—the first Roosevelt, Harding and Coolidge. He was close to Taft and a cherished friend of Archie Butt. He commanded the Mayflower. Known as one of the finest officers in any navy, he has the ability of a beribboned diplomat.

He emerged from Annapolis seven years after Admiral Reeves. Returning from a tour of duty in the Asiatic where he learned the extreme value of words in an international group, he became an instructor at the Naval academy and established the public-speaking course. He made naval officers ably articulate. But Andrews is no mere pinkie admiral. He has commanded everything from tugs to the Texas when she was fleet flagship. He once went overboard to save an enlisted man from drowning.

**Fleet Operations Officer**  
Captain W. A. Glassford, Jr., fleet operations officer, is added proof of Admiral Reeves' ability to surround himself with officers of highest caliber.

In speech and bearing Glassford has the grace of a powdery-wigged Lafayette. But he has stern qualities and a pleasing accent. Skipper of the destroyer Shaw in the Atlantic convoy service, his steering gear jammed and the razor-prowed destroyer threatened to ram the Aquitania with its appalling cargo of human lives. Deliberately he sacrificed his little ship under the towering outwater of the liner. In the screaming impact of tortured steel he lost twenty of his own men. With her bow shorn cleanly off, Glassford backed his destroyer unaided into Portsmouth, England.

Admiral Reeves' home is at San Rafael, California. Mrs. Reeves is abroad often, usually in Switzerland. There are two sons, Lieut.

Joseph Mason Reeves, Jr., U.S.N.R., is an artist of international reputation. He has had two paintings in the Paris Salon. His studio is at Los Angeles. Lieut. William Reeves is an army aviator in training at Randolph Field, Texas.

**Naval Aviation**  
Admiral Reeves is credited with knowing more about aviation in its relation to naval strategy than any other individual. He was skipper of the collier Jupiter when she was converted into our first aircraft carrier, Langley. Due largely to him is the present high development of the fleet air force.

But he is no zealot who believes bombs will supplant battleships. In 15 minutes of forceful reasoning he can convince the most skeptical that wings as explosive transports cannot yet cope with big guns. As eyes of the fleet, aircraft are extending gun ranges and accuracy to unbelievable limits.

The new commander-in-chief leads a life of almost monkish seclusion in his fostered residence. Society claims him but little. And at his own cabin table, savvy young aviators are more frequent guests than foraging dowagers.

**NOTICE TO WATER USERS**  
During the hot summer months when the quantity of water used is great, patrons can materially assist the water department in keeping a good pressure by cutting off lawn sprinklers, irrigation streams and so forth at 9 p. m. to give the pumps opportunity to catch up during the night. In case of a fire alarm water should be cut off immediately.—G. R. Kilpatrick, Water Supt.—Adv.

**COUNCIL NOTICE**  
There will be a stated meeting of Cisco Council No. 128, Thursday June 14 at 7:30 p. m. Please attend. This will be the election of officers for the year. Visitors are welcome.  
F. P. YARGER, T. I. M.  
L. D. WILSON, Recorder.

### Wall Street Warns John Dillinger

SEWELLSVILLE, O., June 11—Harold O. Teagarden, who was special adviser to Glen Dague and one Schrader, when the "blonde in girl" and her lover were awaiting execution, has announced his candidacy for sheriff of Belmont county on the republican ticket. The sheriff Teagarden has been running small coal mine near here.

Daily News and American and Sunday want ads are a good investment.—Phone 80.

### Liquor Syndicate Is Spoiled by Mounties

MONTREAL, Que., June 11—The dreams of Canadian and United States bootleggers of establishing a vast market for bootleg American whiskey in Canada, are not materializing rapidly.

Ousted from the United States by repeal, bootleggers were reported to be preparing to set up business in Canada. They planned to effect the change by the simple expedient of reversing their original procedure. The high tax on alcoholic beverages in Canada would have made the change profitable, it was believed.

But they failed to take into consideration the efficiency of the Royal Canadian Mounted Police.

Anticipating the change the Mounties struck first. Acting simultaneously, they raided all suspected smuggling caches along the eastern Atlantic seaboard.

**LIVED O'PENSION**  
GALLIPOLIS, O., June 11—An aged blind man, who said he had been living on a \$44 per year pension, was an applicant for aid for the aged here.

### Stomach Gas

One dose of ADLERIKA quick relief gives gas bloating, clean out BOTH upper and lower bowels, allows you to eat and sleep good. Quick, thorough action yet gentle and entirely safe.

**ADLERIKA**  
MOORE DRUG CO.

### Stomach Gas

If Mr. Dillinger plans any exploits in New York, he'd better beware the financial district. It's because the big bankers and brokers are brushing up on their target technique at a downtown shooting gallery under the instruction of Capt. W. C. Meyer, who shows how it's done.

What this country needs is a **GOOD VACATION**

Mountains, streams and shady woods . . . gay night life or rest and relaxation . . . complete freedom from care and worry. No matter what your idea of a vacation may be, you will find the ideal place in Magnolia.

Your car will run better on **Mobilgas and Mobiloil**

**FREE ROAD MAPS**  
New 1934 Road Maps of Texas, Oklahoma, Arkansas, Louisiana, and New Mexico are now ready at all Magnolia Stations and Dealers. Drive in and ask for a set. They're FREE!

**LUBRITE**  
(Formerly Magnolia Motor Oil)  
The quality of Lubrite is second only to world-famous Mobiloil. Thousands of motorists have found that Lubrite lasts longer and protects their motors better than many other motor oils selling at a higher price.

If you want a good quality motor oil costing less than Mobiloil . . . ask for Lubrite.

**MAGNOLIA STATIONS AND DEALERS**  
"Stay with Magnolia and you stay ahead!"

### Freckles and His Friends.

### Good Showing in Car Registrations

AUSTIN, June 11 — New passenger car registrations in Texas made another favorable showing during May, according to the University of Texas bureau of business research. Seventeen counties representing all major sections of the state had a total of 5,399 registrations, against 5,429 in April and 3,760 in May, 1933, gains of 3.1 and 50 per cent respectively. In past years there has usually been a decline in sales from April to May.

Total sales during the first five months of the year were 21,768, compared with 13,276 during the corresponding period last year, a gain of 64 per cent.

# Vacation Days Are Here

**ARE YOU all ready for your vacation? All set to go? Have you figured out how much you will have to pay for railroad or bus fare...or steamer? Have you arranged for a place where you are to stay and how much the accommodations will cost?**

**Don't let these matters go until the last moment. Do your planning now. Read the advertisements for news of tours and rates. Send for booklets telling about the vacation spots you'd like to visit. And then, be sure you have everything you'll need for the trip.**

**The stores are full of vacation necessities at attractive prices. Dresses, lingerie, sportswear, shoes, hats, bathing suits, tennis racquets, golf clubs and balls, cosmetics, etc., etc. Make up a list of the things you need... then watch the advertisements. They tell you where to get quality goods at savings that will give you extra money for your vacation.**

**HAVE YOU Read The WANT-ADS To-day?**

What the Lone Star Gas System Means to Cisco

For 25 years the Lone Star Gas System has been rendering the best gas service to be found in this country. In that quarter of a century, by intense labor and the expenditure of millions of dollars...

During this period of development, a large part of the company's activity and a very substantial portion of its investments have been made in the Cisco area. In the period of the recent depression, while oil producers and others were discontinuing operations...

In addition to this, one of the most outstanding benefits which the community derives from the company is the matter of taxes. The Lone Star Gas System, including the Community Natural Gas Company, is the largest tax payer in Eastland county...

The company's expenditures in this area have been for the sole purpose of rendering dependable and complete gas service. Poor gas service is high at any price. There is no place for guess work or experiment where a city's fuel supply is concerned...

Prior to the acquisition by the Lone Star of the pipe lines serving Cisco your gas supply was undependable and insufficient. Cisco was then tied in to the large interconnected pipe line system of Lone Star Gas Company...

One of the most valuable things the company has done in this section is the large market it has supplied gas producers because of its extensive pipe line system and the numerous cities and towns it reaches.

During the last few years, due to decreased gas sales over our territory generally, the company has been unable to market the amount of gas it hopes to, yet during this period it has taken gas in proportionate amounts to the extent of its ability from all connected wells...

We believe these facts warrant an appreciation from the citizens of Cisco of the efforts that have been made to give them a good gas service and that they want these companies to continue as citizens and taxpayers who will provide a real market for the gas of this territory.

LONE STAR Community Natural Gas Co. GAS SYSTEM

# About Cisco Today

## MISS FAYE HENDERSON IS SHOWER HONOREE

Complimenting Miss Faye Henderson, who is to be married here June 24 to Mr. Blair Clark of Cisco, the Garden club and Mrs. P. P. Shepard entertained Saturday night with a garden party and shower at the home of Mrs. Shepard at 705 West Seventh street.

Mrs. J. T. Berry, dressed as a wash-woman, presented a basket of gifts to the bride-elect.

Shasta daisies and Zennias were used in colorful decoration, and delicious refreshments of angel food squares, pink hearts, heavenly hash, punch and ribbon sandwiches were served the following guests: Mesdames C. H. Fee, J. T. Berry, E. E. Lennon, J. B. Gate, F. J. Borman, W. H. LaRoque, A. S. Kimmell, E. F. Crawford, Homer Slicker, C. B. Powell, B. S. Huey, H. A. Bible, J. E. Shokley, G. B. Kelley, Jack Barton, H. C. Henderson, E. McClelland and P. P. Shepard, Misses Betty Elida Lark, Elsie Pulley, Laura Wilson, Ruby Thompson, Marjorie Russell, and Mr. Wayne Copeland of Eastland.

After the shower, Charles Shepard entertained the young ladies and also Blair Lark, Louis Jenkins, John St. John, Climo Ray, Sentei Caffrey, Judson Russell, with games and dancing in the house.

## Personal Mention

Eugene Lankford, Sr. left Sunday for DeValls Bluff, Ark., where he will attend to business affairs and also visit with his brother.

Lavon Dill is visiting with friends in Ranger.

## Behind the Scenes in Washington

### BY RODNEY DUTCHER

WASHINGTON — Hard times may come knocking at the New Deal door this summer.

Business won't be brisk and labor troubles are sure. Criticisms of the recovery program will be coming faster and thicker as election campaigns warm up. And you may get to thinking that the New Deal is endangered by the elections.

But write it in your memory book, regardless of your slant on administration programs, that Roosevelt is still the peer among all our political medicine men.

His hole ace is as good as visible to eager politicians in both parties. Roosevelt is going to propose a social legislation program which will hold out the promise of economic security to everyone, from childhood to the grave.

It will include unemployment insurance, health insurance, old age and widow pensions, perhaps legislation for shorter hours, and more jobs along with it.

If that program, presented as only Roosevelt can present it to the country, isn't the greatest vote-getter ever tossed into a campaign, the politicians will swap their pants for rompers.

Insiders on Capitol Hill know Roosevelt won't wait until Congress meets in January to reveal his plans. He is the issue in this election and has no reason to miss a trick by keeping quiet.

FEDERAL agencies concerned with labor and industry had more than the obvious reasons.

## SISTER MARY'S RECIPES

### BY MARY E. DAGUE

ANYONE who spends the day in an office, or the best part of it in the kitchen will find pleasure in meals served in the fresh air. Not only will appetites be whetted but tense nerves will relax and digestion will be aided.

The first consideration in planning meals for serving away from the family dining room is to reduce the number of dishes to a minimum. A one-dish combination of some sort with a salad and dessert simplifies serving as well as dish washing. Very often the salad can be put on the table in an attractive salad bowl for each member to help himself. If you use compartment plates, the salad plate is unnecessary.

Casserole dishes combining meat and vegetables, fish chowders and meat and vegetable pies are splendid main dishes for dinners a la fresco.

And for bread make bread and butter sandwiches or butter rolls and put them in the oven to heat.

**Veal and Vegetable Pie**

This is a delicious and attractive dish that can be varied in ways. The vegetables can be cooked early in the day and the meat can be cooked the day before if convenient. When you want to prepare your dinner you will need to make the crust and bake it. The crust will bake while you are setting the table and putting the finishing touches on the salad or dessert.

One pound lean veal, 1 cup tiny cooked onions, 1 cup diced cooked carrots, 1 cup cooked green peas, 2 cups cooked potato, marbles, 2 tablespoons butter, salt and pepper, 1 1/4 cups flour, 2 1/2 teaspoons baking powder, 2 tablespoons shortening, 1-2 teaspoon salt, milk.

Choose veal from the small part of leg since it is usually cheaper and the meat must be cut in small pieces anyway. Cover with boiling water and simmer until tender but not broken. Add salt and let cool in stock, over night if

## CALENDAR

**Monday**  
Miss Wilda Drago presents seven-year-old Miss Gloria Graham violinist, in recital Monday evening at the First Baptist church at 8 o'clock.

**Tuesday**  
The Women's Missionary society of the First Methodist church will meet Tuesday afternoon at 3 o'clock as follows:

Circle No. 1, with Mrs. F. E. Clark at 1100 West 12th street.  
Circle No. 2, with P. L. Connolly at 510 West 5th street.

Circle No. 3, with Mrs. G. P. Rainbolt at 401 East 7th street.  
The Wilson Circle of the First Baptist church will meet with Mrs. Roy Morrison, Tuesday at 3 p. m. instead of with Mrs. E. S. James, as had been announced.

Mac Burnside circle of the First Baptist church will meet with Mrs. Asa Skiles, 1510 Leggett.

Blanche Rose Walker circle will meet with Mrs. J. D. McCarrall at 2109 Humboldt.

B. L. Lockett circle of the First Baptist church will meet with Mrs. A. N. Crowmover at her home in Humboldt.

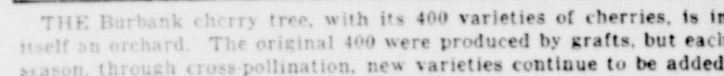

Mr. and Mrs. Fabian Bearden of Deatur spent the week-end here with Mrs. Bearden's parents.

A Sandhofer is located at 1304 Bullard.

A. A. Bolding recently of Fort Worth will now be at home at 601 West Ninth.

Mrs. Elizabeth Woods and son, Allen, are leaving in the morning for Memphis, Tenn., for a visit.

Foy Chambliss, who is working in Hamlin, spent the week-end in Cisco with his family.

Miss Jimmie Mildred Bowles of Dallas is visiting her grandmother, Mrs. J. H. Ballard.

Bert Karakalis of Albany was a visitor in Cisco Sunday.

Mr. and Mrs. M. A. Wolf have returned from a trip to Dallas.

Miss Helen Taylor of Fort Worth is the guest of Mrs. W. D. Brechen.

Mr. and Mrs. R. N. Cluck left yesterday for Arlington, where Mrs.

Cluck will be the guest of Mr. and Mrs. E. H. Varnell for a week, while Mr. Cluck will go from there to College Station.

Truett LaRoque of Breckenridge spent the week-end here.

Mr. and Mrs. H. A. McCalliss and son, H. A. Jr., were visiting relatives here yesterday.

Mr. and Mrs. Blackburn and Mrs. John Hudson spent Sunday in Brownwood.

Melvin and Wayne Bowles of Gorman spent the week-end with their grandparents, Mr. and Mrs. J. H. Ballard.

Ray Godfrey spent the week-end in Dallas with his wife and daughter, Raynell.

L. Clark spent yesterday in McGregor and accompanied his family to Cisco.

Miss Modelle Keys of Albany who has been visiting Miss Marie Qualls has returned to her home in Albany.

Miss Katherine Russell has returned to Baird where she visited the past week.

Miss Clarence Guffie of Colfman is the guest of Mrs. Metcalf.

The critical condition of Mrs. Francis Carrothers remains unchanged.

Mr. and Mrs. Homer Smith left today for Abilene where they will attend McMurry college.

Miss Laura Blount Williams is the guest of Alice Estie Spencer.

John Coats of Austin is the guest of friends.

## Eight Months Term Of School Success

RALEIGH, N. C., June 11 — The first wholly state-supported eight-months' school term in the United States has come to a close, as Tar Heel students all over the state participated in commencement exercises marking the first time most of them have had the full advantages of eight months of schooling.

Since the state has taken over the schools a saving of \$12,000,000 has been realized. The eight-months term this year cost \$18,000,000 as

compared with peak expenditures aggregating \$30,000,000 in 1929.

Enrollment during the past session was approximately a million, with an average attendance of 800,000.

During the year the state transported 250,000 children to and from school daily in 4,000 buses over routes totaling 115,000 miles at a cost of \$1,300,000 as compared with a total of \$1,800,000 the previous year. This was the largest number of

## Society Matron Back From Tour

A long tour abroad ended for Mrs. Marshall Field III of Chicago, when she arrived in New York from Europe, as pictured here. Mrs. Field, wife of the merchant prince, is a leader in Chicago society.

TO AID HAY FEVERITES  
STURGEON BAY, Wis., June 11 — Eradication of ragweed as a FERA project to improve this summer crop area and make it a haven for hay fever victims is planned in several Door county township.

ITCHING IRRITATION  
Even in persistent cases where parts are sore and tender, comfort follows the soothing touch of Resinol

WATCH OUT for weariness and irritability that come from a low level of energy. Smoke a Camel for a quick comeback in the flow of natural, healthful energy... as frequently as you wish. You will feel like your real self again, and you'll like Camels—a matchless blend of costlier tobaccos!

children transported by any state and one-seventh of all the school children thus transported in the entire country.

The eight-months' term was supported without one cent of taxes levied by the state on the home of a single pupil, or on the farm of his or her parents.

Of the \$18,000,000 spent, \$16,000,000 came from the state's general fund and \$2,000,000 came from court fines and forfeitures.

A three per cent sales tax figured materially in the support of the schools.

Just as autos have replaced horse-drawn carriages, science has developed and proven a more thorough and prompt-acting laxative called Feen-a-mint. Feen-a-mint contains a laxative ingredient prescribed by physicians. Feen-a-mint is better than old-fashioned laxatives because it does not irritate the system, "pull" action without shock or injury to even the delicate digestive organs of children. The prompt, gentle but complete action of Feen-a-mint does not interfere with usual duties. Rid system of constipation's headaches, sluggishness. "Delay" is dangerous. Chew Feen-a-mint for constipation, and 25c at druggists everywhere.

## The Nicest LAXATIVE for Busy People

Just as autos have replaced horse-drawn carriages, science has developed and proven a more thorough and prompt-acting laxative called Feen-a-mint. Feen-a-mint contains a laxative ingredient prescribed by physicians. ## An Interesting New Discovery Every Smoker Should Know!

### YOUR ENERGY VARIES DURING THE DAY

### Experience of Camel Smokers Confirmed!

In New York a famous research laboratory announces a basic discovery that throws new light on our past knowledge of cigarettes. It embodies an "energizing effect." Through it the flow of your natural energy is restored in a harmless... utterly delightful manner.

Fatigue and irritability quickly fade away. Thus an experience long known to Camel smokers has received new scientific confirmation. You do "get a lift with a Camel," and it is a pleasure that you can repeat as often as needed—all day long. For Camels never get on your nerves.

## Feel Played Out? Let CAMELS increase Your Flow of Energy

Are you irritable... cross and fussy when tired? Then light a Camel. As you enjoy its cool, rich flavor... notice how quickly you feel your flow of natural energy restored.

This fact is known to many through their own experience. How that "done-in" feeling drops away. How your natural pep and energy come flooding back and you are again able to face the "next move" with a smile!

**NATURAL ENERGY IS RELEASED**  
The effect is produced by Camels in a wholly safe, natural, and utterly

delightful way. So, whenever you feel run-down, tired and irritable, just light a Camel. Enjoy its fragrance to the full—let your flow of energy swing back—and you are your real self again!

### NO NERVE IRRITATION WITH CAMELS

You can smoke just as many Camels as you want—and it's a pleasure that actually helps you to maintain your energy.

And the finer, more expensive tobaccos in Camels never get on your nerves!

## CAMELS Costlier Tobaccos never get on your Nerves

TIRED OUT FROM SHOPPING... and then she smoked a Camel!

Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

# "Get a LIFT with a Camel!"
