

Under the Wide And **SPREADING SKY**

SUMMER is the season when the possibilities for enjoyment are multiplied about you. Under the wide and spreading sky there is room for much happiness.

You don't need great wealth, and you don't need to fasten all your hopes for happiness on a short vacation. Whether you live in the city, with all its modern means of tempering the climate to your needs, or in the country where the good earth responds so beautifully to your touch --there is much to do, pleasantly and happily.

But there is art in enjoyment. You should dress properly for each occasion. You should have within easy reach the things that make hospitality inviting and gracious. You should have the means of refreshing and beautifying your person and improving your sense of well-being. You should be comfortable.

It is not so hard to do all this. It is not accomplished in one frenzied and expensive effort. Comforts should grow about your home, as flowers and fruits blossom and ripen.

Read the advertisements, and acquire the things you need from what you learn there. Fresh light summer wear. Foods and beverages that keep crisp and cool in modern refrigerators. Gas and electricity that cook and brighten without heating your rooms. Electric fans, perhaps. Soaps, cosmetics, and heaps of fresh towels for frequent showers.

And read in the advertisements where to go and what to do in order to make Summer the golden season of your life.

STATES FOR D.R. POLICIES, POLL REVEALS

Seventy-seven states vote in favor of Roosevelt's acts and policies as 875,000 ballots are tabulated in the report of the Literary Digest's special poll, the returns of which will be published in tomorrow's issue of the magazine.

The president receives 534,804 in support of his administration against 340,569 in opposition, giving him a majority of 61.09 per cent of the total vote to date, an increase of 3.77 per cent over his 1932 return and also an increase in majority over the previous returns of the poll.

Montana is the only state voting against the Roosevelt policies so far, the poll vote shows an increased amount now for the president over 1932 election ratios he received

Twenty-nine states give the president a higher percentage of votes in the poll than they did in the 1932 election while nineteen states in most of which are in the agricultural regions, give him a smaller percentage than they did eighteen months ago.

"Analysis of How Voters in Poll Voted in 1932 and How They Now" shows that about 4 out of 5 who voted for Roosevelt then voted for his policies now, while more than 1 out of 3 who voted for Hoover in their ballots now in support of New Deal.

South Heaviest Support for the New Deal comes from the southern tier states which votes an average of 3 to 1 for the Roosevelt acts policies.

Industrial centers continue to support the president good majorities, New England and New York, Jersey and Pennsylvania return ratios for the president in New Deal poll than they did for Hoover in 1932.

Special balloting conducted among the bankers of forty states upon the same question: "Do you approve of the Whole Act Policies of Roosevelt's First Term?" shows a majority of "noes" in 1932.

Bankers' Reaction shows that 1 of every 4 bankers who voted for Roosevelt in 1932 now opposes his acts and policies, while 18.26 per cent of the bankers who voted Hoover favor the New Deal, as shown by the special poll balloting.

The southern bankers give a substantial vote for the New Deal, averaging about the same majorities as regular vote of the poll in the southern states.

Another special poll being conducted among leading colleges still in session, in cooperation with their student newspapers, shows a heavy majority vote of approval for the Roosevelt policies among the American undergraduates.

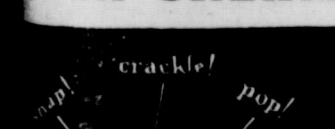

The combined vote from seven universities from which returns are available shows a vote of 5,201 to 1,400 nearly 3 to 2 in favor of the New Deal.

The ballots, it is stated, have been sent so far from Harvard, Yale, Cornell, Brown, University of Virginia, University of Wisconsin and New York university.

Among ten other colleges is now being conducted.

HEY crackle IN CREAM

There's no other cereal like Kellogg's Rice Krispies. Bubbles of rice so crisp they crackle and pop in milk or cream.

Children, especially, like this fascinating cereal. Wholesome, too—let them eat all they want. Fine for breakfast, lunch, or the kiddies' supper. Made by Kellogg in Battle Creek.

Listen!—get hungry

Subirrigation Hints: Do not turn the water on so that it will run a large volume of water into the subirrigation tile. It is impossible for the soil to take the water up quickly. A small stream will seep out slowly and cover a wider area than where pressure is put in the tile with lots of water. Remember that coal oil does

not go up a lamp wick quickly, and neither can you force a large volume into concrete tile to spread through the soil at a rapid rate.
Garden A B C's: The correct use of the vitamin alphabet pays as important a part in good health as the letter alphabet in correct spelling. The proper use of both alphabets is a mark of intelligence. The garden

supplies the following vitamins:

Vitamin A, the anti-infective vitamin necessary for health and vigor and a good appetite, is found in corn, peas, rice, carrots, and spinach.

Vitamin B, the anti-beriberi vitamin which protects the body from nervous diseases, promotes appetite, digestion and growth, is found in corn, peas, rice, carrots, and spinach.

Vitamin C, the anti-scurvy vitamin which protects the body from scurvy, and keeps teeth and bones in good condition, is found in cabbage, lettuce, onions, spinach, tomatoes, celery, and strawberries.

Vitamin D, the cheapest of all the essential to health, is obtained from ample sunlight and air.

Vitamin E, the anti-sterility vitamin, is found in lettuce, beans, corn, and peas.

Vitamin G, the anti-pellagra vitamin, is found in spinach, potatoes, turnip greens, and tomatoes.

Save Your Own Garden Seed: I know of a superb kind of English pea that has been "in the family" for 40 years. It is unnamed but seed have been saved each year and it is highly prized because it is prolific and has an unusual flavor. It is true that home selection and saving of seed results in having plants adapted to local conditions.

I know some gardeners in Texas who sell a considerable quantity of seed to their neighbors who know that particular strain or variety.

How to Save Seed
Beans and peas. Mark a few of the best plants, allowing the pods to ripen for seed. When the entire crop is matured, harvest the beans and treat the seed with high-lif (carbon disulphide). A pint of high-lif will treat a barrel (fifty gallons) of peas or beans in the pod. Pour the high-lif into an open pan and place the pan on top of the beans in the barrel. Use a cover on the barrel while fumigating. Keep the lid on the barrel for twelve hours, open and ventilate, then store the beans or peas, shelled or in the hull, in a dry place until planting time.

Cucumbers and Squash: Select fruits of desired characteristics and allow to ripen fully on vine. Split the ripe fruit, scrape out the seed and pulp and wash seed until clean, pouring off the refuse and light floating seed. Spread out the washed seed in the sunshine, not over two seed deep in thickness. Dry from two to five days. Be sure seed are dry before storing.

Tomatoes. Cut tomatoes in halves, place in a barrel and allow to ferment for two days. The seed will settle to the bottom and the pulp will rise to the surface. Stir the mixture twice daily. On the second day pour off pulp and wash seed, spread out and dry.

Beet Pickle
Johnnie Foster farm food supply co-operator of the Flatwood 4-H club has used and likes the following recipe for pickling beets. It is time to get the beets before they are large and stringy. The beets should be young, tender, practically free from cracks, peeled and with defects trimmed, uniform size and good

Oil Creates Host of Oklahoma Problems

OKLAHOMA CITY, June 15—Oil which spouted wealth and misery in Oklahoma, has created a host of problems not likely to be settled in a lifetime.

Once crying for regulation, oil men now are watching with mixed sentiments developments in Washington, where congress is wrestling with oil legislation.

Some producers want strict control, to prevent collapse of prices and the return of 10 cents a barrel crude which demoralized the entire industry, and saw the beginning of "hot oil runs."

Secret pipelines were installed, false potentials set up, and heavy producers piped secretly into smaller wells to boost production in those holes. It was then Gov. W. H. (Alfalfa Bill) Murray resorted to military law. Despite his efforts 10,000,000 barrels of hot oil were run in the Oklahoma City field alone.

A second oil faction is opposed to making Secretary of Interior Ickes czar of oil, contending any strict regulation should be restricted to two years duration.

Oil also has invaded the present political campaign, with candidates scouring Gov. Murray's administration of oil regulation under the military.

color. Sort the beets, putting those of uniform size together. Cut the tops leaving about two inches of the stem and the roots on, until after cooking. Steam under fifteen pounds pressure fifteen to twenty minutes or boil until skins will slip off. Peel, trim and drop while hot into speed vinegar which has previously been prepared and hot.

Spiced vinegar—One gallon of four per cent vinegar five cups sugar and five teaspoons mixed spices. The spices in bag. Mix sugar, vinegar and spices. Let simmer about half an hour for the spices to infuse.

Drop hot beets in and let boil three minutes. Remove spice bag, pack jars with beets and cover with hot vinegar. Seal immediately and place where they will cool quickly. Poor color may be due to (1) Lack of color in raw stock. (2) Steaming at low temperature. (3) Slow handling from steaming to sealing cans. (4) Slow cooling.

Texas Led Nation in Road Employment

HOUSTON, June 15.—Texas led the nation in the number of men employed directly on federal aid highway projects at the close of May, according to a report received here from Public Works Administrator Harold Ickes. The number totaled 18,875 during the month.

At the end of May, the bureau of public works reported, Texas had 506 public works highway projects advertised for contract. Of this number 494 had been awarded to contract.

Of the projects advertised, \$21,121,000 or 37.1 per cent represented PWA funds allotted the state under the NRA, the report revealed.

The estimated total cost of the work advertised for contract was given at \$23,651,000. Of the 494 Texas highway projects awarded to contract, \$20,669,000 represented PWA funds, of \$5.3 per cent.

Further check of public works highway building progress in Texas by the bureau showed 282 projects under construction and 177 completed.

Work under construction represented \$15,016,000 of PWA money, while projects completed represented \$3,864,000 from that agency.

The estimated total cost of work under construction was placed at \$16,374,000 while total cost of completed work was estimated at \$4,758,000.

The federal aid highway program, including work under way and completed in the entire country involved 90 per cent of the \$400,000,000 PWA road fund at the close of the month, the report showed.

CHEWING LAXATIVE CLEANSSES BETTER

You can't get the laxative ingredients from Feen-a-mint without chewing—and chewing distributes the laxative uniformly throughout the intestines and supplies precious saliva juice that is needed. Clogged, dry waste matter becomes soft. Out it goes—leaving the walls of intestines cleansed of putrid matter. Delicious Feen-a-mint is the chewing gum laxative that enlists the aid of nature. It is a thorough cleansing laxative that acts promptly—naturally—and is free from all discomforts. Feen-a-mint banishes laxative dread. "Delay" is dangerous—chew Feen-a-mint for constipation. 15c and 50c at druggists everywhere.

FAYE HENDERSON SHOWER HONOREE
Mrs. C. E. McClelland and Mrs. Leon Henderson honored Miss Faye Henderson with a shower Thursday June 14 at 4 o'clock.

Each guest upon her arrival registered in a hand painted bride's book. Two very amusing games were played one was the hunting of red hearts, the other "Smiles" where each guest was required to smile and tell why she had married or why she

was going to marry. Miss Marsell Robbins rendered a violin solo accompanied by Durwood McClelland. Misses Luellian, Lucille and Betty E. Clark sang "I Love You Truly."

Little Helen Gene Cunningham and Douglas Schultz as Bride and Groom entered the room with a wagon of gifts covered with yellow and white crepe paper. The bride presented Miss Henderson with a bridal corsage, while the groom read a note of congratulation. The pres-

ents were then opened by Miss Henderson.

Everyone then entered the dining room where a table was covered with a lace spread centered with a miniature bridal party. The color scheme was carried out in yellow and white. Refreshments consisted of brick ice cream and individual white cake with yellow icing, and mints and orangeade. Favors on the plates were crepe paper brides.

Those attending were: Mmes. Fannie Clark, S. H. Nance, Leon McPherson, O. V. Cunningham, Leon Robbins, Alewida Snackelford, C. N. Nichols, M. L. Agnew, T. L. Linder, O. S. Leveridge, A. V. Clark, P. P. Shepard, Jack Barion, Misses Luellian Clark, H. C. Henderson, Betty E. Clark, H. C. Clark, L. Laura Rupe, and Marselle Robbins and hostesses and honoree.

Personal Mention

Rev. and Mrs. E. L. Miley of Fredricks, Okla., who have been visiting Mrs. A. J. Ward and other friends here returned to their home today. Rev. Miley was formerly pastor of the First Christian church in Cisco.

Miss Agnes Bearman is in Dallas today.

Miss Ora Bess Moore left today for a week's stay in Durant, Okla.

Mr. and Mrs. John L. Bynard of Carthage were the guests of Mr. and Mrs. R. Henderson, Thursday night. They are en route to San Antonio.

Mrs. Jack Jones is spending this week in Houston.

Mr. and Mrs. E. J. Bryant of Ranter visited in Cisco Thursday.

Misses Addie and Fannie Stevens and Mrs. M. W. Robbin are spending today in Brownwood.

Miss Laura B. Williams of Ft. Worth who has been visiting Miss Alice Estel Spencer returned home today.

Miss Paula Dunigan of Hobbs, New Mexico who has been visiting Miss Pauline Dunigan has returned home.

Pauline McClinton who has been ill for some time is making a satisfactory recovery.

Mrs. J. A. Tume returned home today after a weeks visit in Dallas.

Mrs. Ray Godfrey who has been visiting in Dallas is expected home.

Mrs. Bob Kelly and children of Putnam, and Mrs. Jeanie Wood and

Drouth Relief---

88-Year-Old Editor Writes Book on Youth

DES MOINES, Ia., June 15.—Johnson Brigham, state librarian and former militant newspaper editor, at 88 is publishing a book about youth.

"The Youth of Old Age," his eleventh volume, is just off the press. Ironically, nearly 30 years ago, at 59, Brigham published as his

first book a work entitled, "An Old Man's Idyl."

Brigham has a more youthful outlook than many men 40 years his junior. He believes that man's best years lie beyond the 'four score and ten.'

Brigham not only is an historian of Iowa and its people, but he is a part of that history. As editor of the Cedar Rapids, Ia., Republican from 1882 to 1893, his editorials aroused so much liquor interest amonged that he was forced to sit with a revolver on his desk as he worked.

Brigham established the Midland Monthly Magazine at Des Moines in 1894, and for five years fought to keep alive a great national literary magazine in the Middle West.

Since 1898 he has been state librarian, and most of his books have been written since he was 60.

Find Wonderful New Face Powder

Poor complexions and old looking skins lack protection. Preserve your skin with the new wonderful Face Powder MELLO-GLO used by so many beautiful women. Its special tint and finish are so youthful. MELLO-GLO stays on longer, prevents large pores, and spreads so smoothly. Purest powder made and does not irritate your skin. 50c and \$1.—Adv.

BLACK-DRAUGHT For CONSTIPATION

"I am 71 years old and have used Theodor's Black-Draught about forty years," writes Mr. W. J. Vanover, of Rome, Ky. "We are never without it. I take it as a purgative when I am bilious, dizzy and have swimming in my head. Black-Draught relieves this, and helps me in many ways. . . . Keep a package of this old, reliable, purely vegetable laxative in your home, and take it for prompt relief at the first sign of constipation."

No one needs to tell her!

• Possessing a keen sense of values, she's too smart and intelligent to be disturbed by all she hears and reads. No one needs to tell her which is the best refrigerator. She has the ability to find out for herself. She knows how to shop and what to look for just as she knows how to play and bask in the sun. She's ready for her new automatic, but before she buys she's going to look at Electrolux and find out why her many friends have bought gas refrigeration.

• The constant, steady cold below 50 degrees which Electrolux maintains without machinery or motors, its permanent silence, its freedom from costly repairs and its remarkably low (about 25c a week) operating cost are things which appeal to her. She wants to test them; to prove to herself that such simplicity in safe refrigeration is possible. And when she does, she's intelligent enough to recognize more years of care-free, dependable refrigeration at the least cost in the gas refrigerator.

Do you have to be told?

Community Natural Gas Co

FAIR COMPETITION

After a thorough study of conditions we are of the opinion the depression throughout our land was largely brought about by UNFAIR TRADE PRACTICES.

We said to you once before that we were forced to enter your bread market fully on account of what we believed to be UNFAIR COMPETITION. We appealed for you to investigate and if you found one of your Bakeries to be UNFAIR to you and ourselves then give us at least a portion of your bread business. We again ask the Cafes, Merchants and Citizens of Cisco to investigate.

If your Cafes find one of your bakeries hauling hamburger buns and pullman loaves to Baird and selling them to Cafes for less than they do to you: If the Merchants find the same Bakery hauling bread to Putnam and Baird and selling it for less than they charge you: And if you find the same Bakery hauling bread to Rising Star and selling it for less than they sell it to you for, then we ask the Cafes, Merchants and Citizens of Cisco in all fairness to give us the business you have been giving the Bakery which would treat you and ourselves in such manner.

Our bread will be found for sale on most every Grocery counter in Cisco. The Merchants will be glad to fill your order with our bread if you ask for it. Do by us as we would do by you and accept our thanks in advance.
