### Two Wounded in Rioting in San Francisco Dock Strike

#### POLICE BATTLE PICKETS WITH GAS AND CLUBS

SAN FRANCISCO, July 5 — Violent rioting broke out on San Francisco's waterfront shortly before 10 p. m. today in a longshoremen's strike. Two freight cars were set on fire, the rushed charging picket lines and marine strikers, flaying with their clubs and firing gas guns. Two men were shot. One, a spectator, was wounded in the hand and arm. A striker was shot in the leg. Police said the shots were fired by strikers. The trouble began after trucks created by the San Francisco Industrial association, in an effort to break the strike, had made a line of about 15 trips from the Merrick Steamship company's pier to a nearby warehouse, carting away free and general cargoes. Approximately 2,000 strikers and sympathizers were gathered back of the pier near the Matson Navigation company pier. These pickets fired a flare out in two boxes some distance away and seemed to keep the smoke as a signal for action. They surged forward. Police tried to meet them. Bricks began flying. Police brought up a tear gas and rained tear gas bombs on the rioters.

#### Duce's Daughter Seeing London

London is entertaining a distinguished guest — the daughter of Benito Mussolini, dictator of Italy. She is the Countess Ciano and is shown here as she starts from the Italian embassy for a promenade in the British capital.

#### 142 ARE DEAD IN FOURTH OF JULY MISHAPS

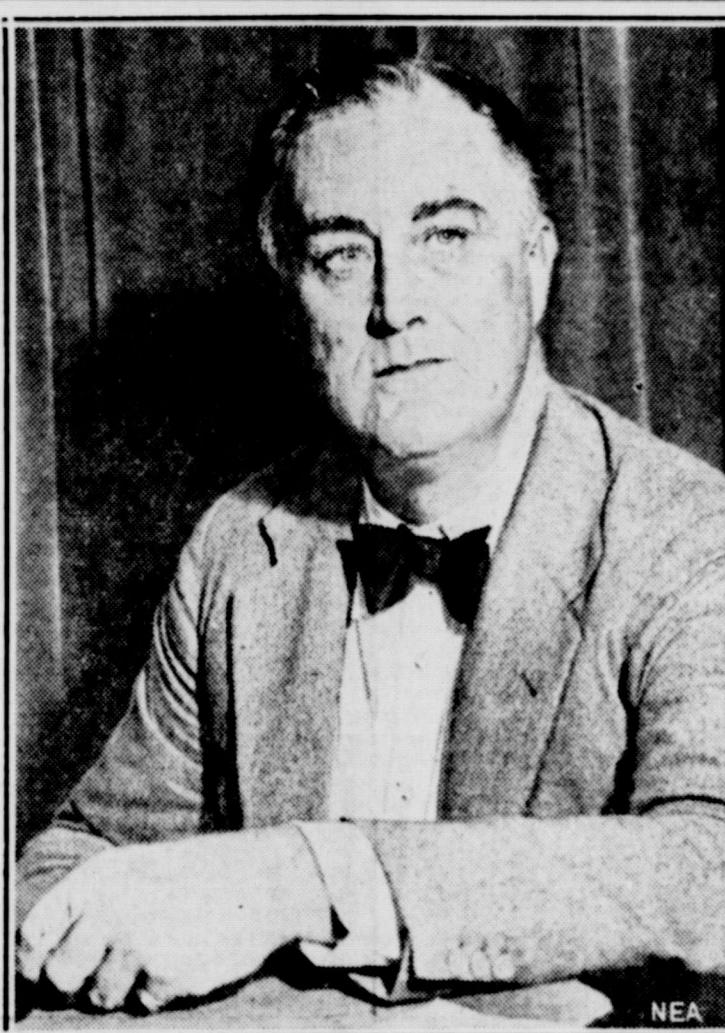

By United Press  
America's celebration of the Fourth of July under widespread police orders for a safe and sane observance resulted in 142 violent deaths, a United Press survey revealed today. But the danger from explosives, once most feared on Independence day, was reduced to the lowest point in many years. Only five fireworks deaths was reported. Many thousands however, suffered injuries in firecracker and skyrocket accidents, the total running to almost 2,500 in New York city alone.

#### Airplane and Traffic Accidents Killed More Than 50 Persons Throughout the Nation as Highways Were Jammed with Holiday Crowds. About the same number was drowned.

**FIVE KILLED IN PLANE CRASH**  
ST. ANSGAR, Ia., July 5 — An Independence day celebration left an aftermath of mourning in three communities today for five young people killed in the crash of a flaming airplane within sight of several thousand persons. The victims were passengers and the pilot.

The four passengers were being taken on a holiday taxi flight, as hundreds of persons had been during the day. The plane circled over the town, then headed for the field. Witnesses heard the plane's motor backfire viciously, watched it lose altitude and then saw it crash in the town's main street. Almost instantaneously it broke into flames.

#### The President Poses --- Some Questions

"Are you better off than you were last year? Is your bank account more secure? Are your working conditions better?" These were the questions by which President Roosevelt urged citizens to judge the progress of the recovery program when, as shown here, he propounded a farewell message from the White House before leaving on month's cruise to Hawaii.

#### THOUSANDS AT LAKE CISCO TO ENJOY FOURTH

The thousands that milled about the Lake Cisco recreation area under a broiling July sun yesterday, numbered what was said to be the largest attendance that any Fourth of July program at the lake has drawn. The peak of the attendance was reached after night fall when the coolness drew additional hundreds who take their Independence day entertainment preferably without sunshine. Estimates of the crowd ranged from 6,000 to 10,000. The political addresses in the park, a program that ran almost continuously from 10 a. m. until 6:30 p. m. brought together many hundreds who braved the heat to hear the issues of the campaign discussed. Most of these sat on benches before the concrete bandstand over which canvas had been stretched, but loud speaker systems shouted the words of the orators to all corners of the park and groups of listeners collected under every clump of trees to listen.

Tom Blanton, congressman from the 17th district, and one of his two opponents, Oscar Chastain, Eastland, led off the afternoon program. Blanton introduced a radical change in his campaign tactics this year by confining his remarks entirely to his own record and pleading for re-election upon the argument of the great influence of his seniority.

**Discussed Record**  
Chastain discussed his own record as a state representative and particular issues of national importance upon which he felt the present race has bearing.

Following Blanton appeared Joe Bailey Morris, brilliant boy orator who thrilled the crowd with an eloquent appeal for the election of Joe W. Bailey, Jr., as U. S. senator. Phil Overton, Lubbock, appeared in behalf of Maury Hughes, candidate for governor, and Mr. Hilliard spoke in the interest of Jimmy Alford's gubernatorial campaign. Last to appear on the program were Victor B. Gilbert, who spoke for Lon Smith, candidate for re-election to the Texas Railroad commission, and Milburn McCarty, Eastland, representing Walter Woodward, Coleman, candidate for attorney-general.

Judge C. O. Hamlin, of Breckenridge, was the principal speaker on the morning program. A candidate for congress from the 17th district, opposing both the incumbent, Blanton, and Chastain, he spoke for an hour beginning at 10 o'clock, to a very attentive crowd, which found the morning coolness comfortable.

Judge Hamlin was followed by many local candidates who made brief announcements.

**Introduced Speaker**  
Judge J. R. Burnett and Judge Eugene Lanford shared the responsibility of master of ceremonies for the political program, and introduced most of the speakers. Secy Spencer of the chamber of commerce assisted them.

The scheduled thrills were carried out as advertised, except for a misjudgment of the air currents aloft destroyed the effectiveness of the parachute drop. Elmo Bannister went aloft at 6 p. m., after an hour's delay, and although he aimed his drop at the lake he fell far short of the goal, at a point north of the old Kleiner homestead, a mile north of Cisco. He was picked up by Mr. and Mrs. S. H. Nance who had with them Mrs. W. C. Lightfoot, of DeLeon, as their guest for the day.

Slight scratches on his face received when his chute pulled him into brush, and the effects of a severe jar on striking the ground were the only injuries the young stunter sustained.

**Misjudged Currents**  
The pilot of the ship said that the jump had been gauged by a strong south wind on the ground and the ship maneuvered into a position from which that wind would drift Bannister into the lake, but aloft a stiff north wind was blowing which carried him too far south before the lower current was entered.

The car dash through the blazing wall, performed on the plateau just above the city zoo, was the most spectacular stunt. Young Bannister drove his Ford car through the flaming barrier at 55 miles, setting

#### Divorce-Seeker

Wife of a member of the socially prominent Drury family of Washington, D. C., Mrs. Peter Drury is shown as she appeared in New York county court, where she is seeking a divorce. Her husband is a noted aviator and sportsman.

#### REMAINDER OF RELIEF BONDS TO BE SOUGHT

DALLAS, July 5 — Former Gov. James E. Ferguson announced here today that Gov. Miriam A. Ferguson definitely had decided to call a special session of the state legislature shortly after September 11.

Alarmed over continued drought conditions, Ferguson said the governor will ask the legislature to provide for issuance of the remaining \$9,500,000 worth of state relief bonds.

The session will not be called until the run-off primary is out of the way and the state democratic convention, set for September 11, is over, Ferguson said.

"If the drought continues two weeks more there will be 200 counties needing relief," Ferguson asserted. "Instead of the 96 now on the federal list."

"The condition is now statewide and only five or six-inch rain can help. Even a soaking fall over the state can't help the corn crop now. Texas will be faced with the most serious situation in its history if the drying spell continues much longer, come as it does on top of a worldwide depression.

"The situation will be worse even than the blue days of last winter, for any county that doesn't make a corn crop is in adversity."

In traveling from Travis to Hill county yesterday, Ferguson said, he saw no cotton that would make over a bale to 15 acres, or any corn that would make five bushels to the acre.

#### Cotton Needing Rain Now, Bureau Finds

WASHINGTON, D. C., July 5. — Cotton was not seriously affected by heat last week but rain is now "badly needed" over a large western area, the weather bureau reported today in its weekly crop bulletin. Temperatures in the cotton belt are "only moderately high" but decidedly above normal in northern sections, the report said. Regional reports included: Texas, holding up well, considering the scanty soil moisture and "residual" mostly in good condition, though local deterioration is now reported from some drier sections.

#### Ferguson Pleads for Election of McDonald

ATASCA, Texas July 5 — Former Gov. Jim Ferguson returned to the political scene here last night with a loud-time fire, homely illustrations and eloquence. C. C. McDonald is the logical man Texas to elect governor, was Ferguson's plea. McDonald's platform and McDonald's ability to carry it out should be in the people's mind when they vote, Ferguson said.

#### Illness Says, Stars' Condition Unchanged

SANTA BARBARA, Cal., July 5 — Illness from the palatial estate of K. G. Billings, where Marie Dressler, famous actress, lies critically ill, indicated there was no change in her condition. Doctors discontinued issuing bulletins unless a decided change in her condition occurs.

#### Revival Begins at Bluff Branch Sat.

A revival meeting will begin at Bluff Branch school house Saturday evening, July 7, at 8:15. It was announced this week. The preaching will be done by Arch Gibson, and music will be provided by Nazarene orchestra and quartet. All surrounding communities were invited to participate.

#### WEATHER

West and east Texas — Generally clear tonight; Friday partly cloudy to somewhat unsettled; continued

#### COMMUNITY TO GIVE EASTLAND 50-CENT RATE

EASTLAND, July 5.—The latest move in the gas utilities rate controversy between the city of Eastland and the Community Natural Gas company occurred today with an announcement by Chester L. May, vice president and operations manager of the Community, that officials of his company and officials of the city had arrived at an agreement upon a 50 cent net rate for local domestic gas users. The compromise, said May, was reached at a conference this morning.

The city of Eastland has offered a proposition by the Hickok interests similar to the proposition which the city of Cisco accepted for the installation of a complete new distribution system to be paid for out of revenues and given the city when fully amortized. The plant would be supplied its gas by the Hickok concern.

No announcement was forthcoming from the city today as to what disposition had been made of this offer. Cisco city officials have accepted the offer and it was understood work would begin there next week, when materials were due to arrive.

In announcing the agreement, May said that the 50-cent net rate would apply to the first 30,000 cubic feet used, after which it would step down to 45 cents per 1,000.

He said that passage of an ordinance at Cisco which fixed the minimum rate there at 60 cents prevented the company from giving Cisco the same rate, and that the Community would do so if not so prevented.

The city of Eastland made no concessions in return for the rate, May said.

#### Free Rodeo to Be Presented Monday

A big free rodeo will be offered Monday, July 9, at the Rodeo ground at 10th street and D avenue, it was announced today by Bill Faber, in charge.

The performance will begin at 1:30 p. m., with bronc riding, wild steer riding, wild cow milking and other rodeo spectacles. First, second and third prizes will be offered contestants.

#### Crawfords Back From Trip North

Mr. and Mrs. E. P. Crawford and daughter, Helen, arrived home last night after a two-week's trip to Detroit and Flint, Mich. At Detroit Mr. Crawford attended the convention of Rotary International, and at Flint he received delivery of a new Chevrolet car purchased through the A. and G. Motor company here.

A leisurely return carried them through Kentucky, Mississippi and other southern states. On the entire trip, they visited 11 states and entered one foreign country.

#### Painter Confesses Killing Ex-Cyclops

JEFFERSON, Wis., July 5 — An itinerant painter confessed today that he killed Earl Gentry, former Indiana Klux Klan leader, according to Sheriff Joseph Lange. The sheriff said that George King, 35, admitted that he shot Gentry for \$60 and a million dollars worth of satisfaction.

King's capture and confession came a few hours after Mrs. Carrie Gill, 58-year-old widow, confessed that she planned Gentry's death because she was "deathly afraid of him."

#### Choral Singing to Little Zion Church

A Negro Baptist chorus from Brownwood will give a program at the Little Zion Baptist church, colored here Sunday evening, it was announced. Spirituals and community singing will be presented.

#### Nazi Chieftains in Session at Berlin

BERLIN, Ger., July 5.—Nazi political chieftains, the men who know the towns and provinces and people in the streets, met today to discuss the party's present state and its future trend and fortune. Chancellor Adolph Hitler ordered what amounted to an emergency national party convention. He was expected to join the convention today if it seemed advisable.

The future of Franz von Papen, vice chancellor, still was uncertain. Official announcement that he would remain in the cabinet for the present, despite the humiliations to which he had been subjected, deepened an apparent mystery. He offered his resignation and it was declined.

#### Bar Ass'n Hears Criticism by Head

FORT WORTH, July 5.—John C. Townes, Houston, president of the Texas Bar association, today flung a challenge to Texas lawyers to "rededicate themselves to the public welfare, at the cost of private business." Speaking before the annual bar association convention which opened this morning, Townes severely criticized the legal profession for an "apparent laxity in public affairs at a time when capable leadership is sorely needed."

Donald R. Richberg, chief counsel for the NRA, will speak at the convention tonight.

#### Second "Love Slave" Sought by Officers

DENVER, Colo., July 5.—Investigators today sought a second girl of less than legal age reported to have been held as a "love slave" in a rendezvous at a fashionable residential district here.

If she is found, authorities said, charges will be filed against a new group of Denver business men. Already nine persons faced statutory charges in connection with alleged offenses against a 15-year-old girl who said she had been kept in the house more than two weeks. Several of the men arrested when detectives raided the house are prominent business men, the district attorney said.

#### E. P. CRAWFORD TELLS ROTARY OF CONVENTION

E. P. Crawford, delegate from the club to the convention of Rotary International at Detroit, Mich., reported to the Cisco club today upon aspects of the world-wide gathering of Rotarians in which the local members were interested. His was the principal feature of the program which was marked with the beginning of a new regime, new officers talking over the club direction from the administration of past-President Phil Pettit without formality.

President Benny Butler announced the following committee set-up to conduct the club affairs during the next 12 months:

Officers are board of directors—B. A. Butler, president; J. C. McAfee, vice president; J. E. Spencer, secretary; O. J. Russell, treasurer; P. Pettit, E. L. Graham and E. P. Crawford, directors.

Club service—E. P. Crawford, J. M. Bird, J. E. Spencer, J. J. Collins, R. N. Clinck, J. B. Cate and P. Pettit.

Vocational service—J. Pettit, P. P. Shepard, J. Stuart Pearce and J. C. McAfee.

Community service—J. M. Bird, R. L. Pensler, Garland Nance and F. D. Wright.

Classification and membership—J. E. Spencer, P. D. Wright and O. S. Leveridge.

#### ALCATRAZ WILL BE US DEVIL'S ISLAND JULY 20

By HENRY SUPER  
United Press Staff Correspondent  
SAN FRANCISCO, July 5 — Alcatraz Island, a penitentiary in San Francisco bay from which it is said there is no possible escape, will be taken over July 20 by the department of justice. The most desperate of this country's criminals will be imprisoned there.

Formerly a military prison, this 12 acres of jutting rock surrounded by swiftly flowing currents is expected to be used for incarceration of Harvey Bailey, George (Machine Gun) Kelly, Albert Bates and other desperadoes, who now are in the federal prisons.

**Transfer Preparations**  
On June 10, seven officers at the federal penitentiary annex in Leavenworth, left for San Francisco where they began preparations for the transfer.

Alcatraz Island, despite its 18th century appearance, is equipped as one of the most modern of prisons. Popular belief had it at the time the government announced it would use the island, that Alcatraz would be a "Devil's Island."

In the sense that Alcatraz isolates its prisoners in much the same manner as the French penal colony in the Caribbean, this belief is true. But the similarity stops at that point.

**Sanitary Prison**  
Department of justice officials say Alcatraz is sanitary and healthful; the original Devil's Island is believed to be the opposite.

Alcatraz has mild weather the year around; the French prison has tropical heat and rains throughout the year.

Few persons outside of prisoners and officials ever have set foot on Alcatraz. San Franciscans know it is a prison that from the shore looks like a medieval fortress. Swift currents sweep around the rocky islands a mile and a half from the mainland.

**Spanish Fortress**  
Spaniards, first to use the Golden Gate had a fortress on Alcatraz. Prisoners working around the island continually dug up old gun placements and the rock is said to be honeycombed with tunnels.

The island, up to now, has been principally used as a disciplinary barracks for erring soldiers of the Pacific division. Out of some 12,000 federal prisoners in government institutions and 6,000 being boarded in state institutions, only the worst will be sent to Alcatraz, it is understood.

#### Volume of Building Permits Increases

AUSTIN, July 5 — The total volume of building permits in 37 Texas cities rose sharply during May to \$2,857,000, an increase of 130 per cent above April and 115 per cent greater than May, 1933, according to the University of Texas bureau of business research.

The most substantial increases occurred in Houston and Lubbock which accounted for most of the rise that occurred from April to May. Other cities showing considerable increases were: Beaumont, Dallas, El Paso, Longview, and Cleburne.

The increase in Houston was entirely due to a permit issued to one of the big oil companies for an addition to their headquarters in Houston, the amount involved being one million dollars.

#### Market Begins Era Under Commission

WASHINGTON, D. C., July 5 — The gong which ushered in the day's trading on the New York Stock Exchange today rang in at the same time a new era in the history of the exchange and of many other phases of American business as well.

The opening of business at 10 o'clock marked the first attempt of the market to do business under the federal regulations imposed on it by the stock market control bill.

Regulation through a five-man commission became an actuality as the result of President Roosevelt's action Saturday in naming the five men who will supervise the securities market.

#### Last of Bus Wreck Dead Is Identified

FORT WORTH, July 5 — Southwestern Greyhound Bus lines officials today said the last of four bodies taken from a wrecked bus at Lancaster, Texas, Tuesday night, had been identified as that of Elmer Kienzle, 22, of New York. Kienzle was identified by an Austin, Texas youth with whom he stayed while attending a missionary meeting there, officials said.

**MEDAL FOR SAVING DOG**  
BRIDGEPORT, N. J., July 5 — Because he risked his life to have his dog, Oscar Kellum, 76, was given a silver medal by the National Humane society. Kellum lost a leg when he dashed in front of a freight train and saved his dog, an 11-year-old pedigree English setter.

BELOW NORMAL PRODUCTION OF COTTON IS SEEN

AUSTIN, July 5—In a report on the cotton industry of Texas and the United States, Dr. A. B. Cox, director of the bureau of business research at the University of Texas, who is internationally known as a cotton economist, says that the prospect of production of cotton in this country this season is below normal, and that less than ten million bales is indicated for 1934. The situation warrants an increase of the price of the staple, according to the analysis made by Dr. Cox.

"The consensus is that the American acreage this season is under 30,000,000 and is probably about 28,000,000, the lowest acreage since 1908," Dr. Cox said. "It is generally believed also that the condition of the crop is below normal, and that a crop of less than ten million bales is in prospect. This situation is somewhat offset at least by the certainty of considerable increase in acreage in foreign cotton-producing countries and a gradual shift in foreign-consuming countries to grow other than American. In a report to the commission of inquiry on national policy in international economic relations at Houston, W. L. Clayton, of Anderson Clayton & Company of Houston, world's largest cotton factors, pointed out that the probabilities are that by the end of 1934 other cotton-growing countries will have increased their acreage as much as the United States has decreased its acreage. Artificial restriction may revive the patient, but permanent cure for American cotton production lies in improved quality production at lower costs, improved marketing especially in local markets, and lowered tariff burdens.

Declines "On June 1 the cotton balance sheet showed 9,216,000 bales of cotton in the United States compared with 10,905,000 bales in May and 10,537,000 in June 1 last year. June 1, 1933, the supply was 5,574,000 bales European port stocks and afloat to Europe was 1,431,000 bales on June 1, compared with 1,669,000 bales last year, or a decline of 238,000 bales. Accordingly, there has been a decline in balance of cotton in the United States plus declines in American cotton in and afloat to European ports of 1,539,000 bales.

Foreign Acreage Increase "World cotton production during the year 1933-1934 has been approximately 25,000,000 bales, compared with 23,500,000 last year," Dr. Cox continued. "United States production was decreased about 40,000 bales which means that foreign countries increased their production about 1,500,000 bales. The chances are the United States will decrease its 1934-1935 crop by at least 2,500,000 bales to 10,000,000 or under. Indications are that foreign acreage will be increased at not over 10 per cent. However, this means that total foreign production for the year 1934-1935 will be increased. United States production for the first time in over one hundred years, leaving out the Civil War period.

REICH Mr. and Mrs. A. O. Vanderford and daughter, June of Douglas, Arizona, and daughters of Douglas, Arizona. Mr. and Mrs. B. S. Greogery and children of Holiday; Mrs. Sam Fide and Mrs. Willis and son of Albany spent Friday night in the Vanderford home.

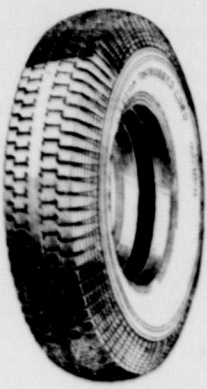

Mr. and Mrs. Roy Horn and children of Cisco and Mrs. Floyd Rains and children visited Mr. and Mrs. George Horn Saturday. Edward Callerman was the Sunday night supper guest of Robbie Hazlewood.

of Baird spent Sunday with Mr. and Mrs. R. N. Hazlewood. Mr. and Mrs. A. Reich visited Grandma Wende in the Lutheran community Sunday evening.

MORRISON, Ill., July 5—On the theory that there's nothing like trying to pigeons strove to hatch a duck egg. They had all manner of difficulty covering the egg and alternated at the task.

Subscribed and sworn to before me this 5th. day of July, 1934. (Seal) CLEO WRIGHT, Notary Public.

VOTE FOR THOMAS L. BLANTON For Congressman 17th Congressional District of Texas

This advertisement paid for by friends and supporters of Tom Blanton and run without his knowledge or consent because he remained at his post of duty in Washington looking after the people's interests while his opponents were campaigning against him.

REMAINED AT POST OF DUTY Since reaching Washington last December and until Congress adjourned, Thomas L. Blanton was actively engaged in his official duties, working long hours each day, and giving little or no thought to his approaching campaign for re-election.

Since January 1 Mr. Blanton's opponents have been actively campaigning against him, but notwithstanding this Judge Blanton remained at his post of duty, faithfully and diligently protecting the interests of his constituents and with an abiding faith that under such crucial crises as daily confronted our President, the people at the polls would take good care of the man who would support the President and stay on the job, and "Carry On" at his own personal sacrifice.

After 12 years of continuous Republican misrule, all posted persons admit that during the short period the Democrats have been in control, they have passed more constructive legislation of real benefit to the long suffering American people than has ever been passed before by any previous administration and no man has done more to accomplish this than has Thomas L. Blanton.

SENIORITY IN CONGRESS COUNTS MOST

John Garner is now vice-president because Uvalde kept him in Congress 30 years; Henry Rainey is now speaker of the House because Illinois kept him in Washington 30 years. Jo Byrns is now Democratic majority leader because Tennessee has kept him in Congress 26 years.

In Congress seniority means everything and Tom Blanton's ripe experience, his knowledge of the rules and precedents, his intimate knowledge respecting all government business, and his Appropriations Committee membership are valuable assets his district has already paid for and acquired so why throw them away by replacing him with some virtually unknown, inexperienced and untried man.

Tom Blanton is needed in Congress not only by his district and his state, but by the nation. Read the following excerpts from editorials and letters from over the country praising him for his valuable services and asking for a continuation of them.

EDITORIAL

By Crandell Mackey Former Commonwealth Attorney of Va. (The Chronicle, Clarendon, Va.)

OH! RARE TOM BLANTON

The recent statement of Frederick Vinson, chairman of the Ways and Means Committee of the House of Representatives, that Congressman Thomas L. Blanton of Texas would not be overpaid if his salary were raised to fifty thousand dollars per year, is no more than others in congress have said about that remarkable man.

Blanton during his long service in congress has blocked more bad legislation than any other member. Nothing escapes his vision.

He has put through more good legislation than any other member. Blanton is always in his seat when congress opens and has never been known to miss a roll call. He is always the first to arrive at a committee meeting, and always knows to the greatest detail every matter that comes up for consideration.

It was Blanton who discovered that insane World War veterans were being robbed by many of those appointed their guardians. In one case a guardian for 155 insane World War veterans was charged with having gotten more out of their estates than they had gotten. Blanton got legislation through putting the matter of the estates of insane World War veterans under the Veterans Bureau and knocked out the exorbitant fees that unconscionable attorneys, acting as guardians, had been getting.

There is no man in congress more familiar with parliamentary laws, practice, and procedure, and Blanton uses this knowledge often with surprising results. Blanton knows more ways for obstructing and defeating bad legislation than any member of the House. His achievements along that line would fill a big book. He is the terror of the treasury raiders.

With Blanton everything is open and above board. With him candor is the courage of the soul. To know him is to hold him in the highest esteem and respect. Few men in public life are as unselfishly working for the good of others. His example is exciting and inspiring to those who seek honesty and purity in public and private life. His influence in congress has steadily grown until he is now one of its most powerful leaders.

EDITORIAL

In The Washington Post Wednesday, May 23, 1934

George Terrell is going back to Texas when Congress adjourns, and he is not coming back. He decided last night it is not worth the candle.

"At my age, I could not hope to remain in Congress long enough to reach a prominent position on any of the important committees," he told newspapermen.

"And no one can command much influence until he has been in Congress 10 years or longer and has become chairman of some important committee."

When George Terrell who has been Commissioner of Agriculture for the State of Texas, and has held other important positions after serving here two years, admits that a new member is helpless, and cannot expect to perform service of value until he has stayed here ten years, it is quite an argument against sending a new man to Congress.

Through years of hard work Blanton has already acquired his influential position on the most important committee there—the Committee on Appropriations—which frames the big supply bills of the nation.

THANKS 17th DISTRICT FOR BLANTON

Congressman Clarence Cannon, of Missouri, Chairman of the Committee handling certain appropriations, with 23 years of experience in the House of Representatives, and author of the new Revised Rules and Precedents in 12 Volumes, in his recent

speech in the House on April 25, 1934 (Record, page 7792) said:

MR. CANNON: "Mr. Chairman, no reference to the personnel of this Congress would be complete without mention of the officer of the two brilliant Texans to whom I have just referred. It has been my privilege to serve in various capacities on the floor of this House for 23 years this month. In that time I have observed no Member who has rendered abler or more conscientious service than the gentleman from Texas, Judge Blanton. In the legislation which he has supported, in the legislation which he has opposed, and especially in the vast sums of money which he has saved the Federal Treasury, no Member of the House in the last quarter of a century has surpassed the wise and courageous and resourceful gentleman from Texas, Thomas L. Blanton. (Applause.) And speaking in behalf of the people of my State—and expressing, I am certain, the sentiments of those of every other State in the Union—I desire to thank the citizens of the Seventeenth District of Texas for sending Judge Blanton here and keeping him here all these years. His services to the House and to the country have been invaluable." (Applause.)

Monday, June 12, 1933 HOUSE OF REPRESENTATIVES

Washington, D. C., May 26, 1933.

Hon. Thomas L. Blanton, House of Representatives, Washington, D. C. My Dear Colleague: As I told you on the floor of the House a few days ago, I am planning to retire from Congress the 1st of next January to accept a judgeship in my own State; but at the time I told you of my contemplated plans it had not occurred to me that it would be but a few days until our active service together shall have ended.

Under these circumstances I cannot refrain from expressing to you what is in my mind and heart concerning your services in Congress, as a Representative of a great constituency and to reaffirm my appreciation of your never-ceasing diligence, industry, and fearless devotion to duty at all times and under all circumstances. In my public and business career of nearly 40 years I have not known any man more faithful and devoted to the interests of his country than you have been in all these trying years of these terrible economic times in which we are living.

Often have I been amazed at not only your parliamentary skill and cool, deliberate judgment, but I have wondered at your ever-failing skill and ability in overcoming the opposition. I wanted to say to you from the very depths of my heart, and in all sincerity that, in my judgment, no district in the United States ever had a more faithful or honorable Representative in the Congress than the district you have so ably represented.

I do not know your plans for the future, but in parting may I say that I shall devoutly hope you may continue to represent your district here; that the masses of the common people of America may continue to have at least one great champion of their cause continue in Congress; and that the Treasury, where the people's money is deposited, may have a real watchdog.

With kind regards and best wishes, I shall continue always. Very cordially and sincerely yours, A. J. MAY.

HOUSE OF REPRESENTATIVES

Committee on Labor

Washington, D. C., May 31, 1933

Hon. M. B. Harris, Adjutant Vernon D. Hart Post, No. 100, The American Legion, Stamford, Tex.

Dear "Buddie": Because I am a veteran of the World War, am a member of the Veterans Affairs Committee, am Chairman of the Committee on Labor, and am thoroughly familiar with all veterans' legislation here, your Congressman has just shown me your letter to him of May 28. You condemn him because he backed the President and voted for the economy bill, and I note your threat that you intend to fight him and the President, and unless Blanton appoints you postmaster, you will use your influence as district postmaster of the American Legion to defeat him for re-election.

Thomas L. Blanton and I have served together here for years. He has always been a loyal, staunch friend of the veterans of all wars. When he voted for the President's economy bill he was assured that the Bureau would do no injustice to any veteran. In the last Congress Blanton was the third Member to sign the petition that forced the Patman bill to be passed in the House to pay the bonus in cash to veterans.

At his own expense Blanton spent months investigating Col. Charles R. Forbes, former Director of the Bureau, whom the Department of Justice afterward indicted and sent to the penitentiary. At his own expense Blanton investigated numerous hospitals in the United States, including old Hospital No. 25 at Houston, and on one day caused about 200 tubercular patients to be transferred to Prescott, Ariz., and Fort Bayard, N. Mex. At his own expense Blanton made the Staples and McNorris investigations to insure justice to veterans. At his own expense Blanton spent his entire vacation investigating Col. Frederick A. Penning, and he personally conducted the trial of Penning before the Judiciary Committee, and forced Penning to resign and make retribution to several hundred shell-shocked veterans put in insane asylums and robbed by Penning. At his own expense Blanton spent several years investigating the inequities and injustices carried on in the Bureau by Maj. William Wolff Smith, general counsel, and conducted the trial of Major Smith before the Committee on Military Affairs, forcing Smith to resign, and to return to the Government money he had unlawfully collected.

I mention the above to show that you are in error when you say that Blanton "has had a change of heart." Thousands of veterans scattered in every part of the United States have appealed to Blanton, and he has never yet turned one of them down. Blanton is helping now a committee that is conferring with the President to remedy injustices, and he is a personal friend of mine, and of Patman, Rankin, Browning, Jeffers, F. Penning, and he personally handles veterans' affairs.

Very sincerely yours, WILLIAM P. CONNERY

The Speaker's Rooms, House of Representatives, United States, Washington, D. C., April 15, 1933.

Hon. Thomas L. Blanton, House of Representatives. Dear Tom: Congress has been running at a very high rate of speed. I am warned by the House physician that a number of members are overtaxing themselves.

I have been watching you and your work. You are overworking. You are rendering a splendid service. I know of no one who works harder than you. For the next few weeks there will not be so many important measures coming up, so I suggest that toward the end of the month you take a rest. I sincerely hope that you will accept this suggestion in the spirit in which it is intended.

Very truly yours, Henry T. Rainey, Office of the Majority Leader, House of Representatives, United States, Washington, D. C., June 5, 1934.

Hon. Thomas L. Blanton, House of Representatives, Washington, D. C. My Dear Tom: As we approach the close of the session, I do not wish to fail to express my deep appreciation for your kindness and valuable support.

In this connection, may I say that during all my long service I have never served with a Member who was more diligent in his effort to render real service to the people, not only of his district but of the entire nation, and who watched appropriations and expenditures more closely than yourself. It will never be known just how much money you have saved to the people by your watchful care, your ability, as well as your close knowledge of parliamentary procedure and governmental affairs. It has enabled you to render a real and a great service.

With best wishes, I am, sincerely yours, JO BYRNS, House of Representatives, United States, Committee on Appropriations, Washington, D. C., June 17, 1933.

Hon. Thomas L. Blanton, House Office Building. Dear Tom: I am familiar with the splendid record you have made in Congress and as a member of the Appropriations Committee for economy, and I wish to join with our Democratic majority leader, Hon. Jo Byrns; Democratic Chairman Cannon, of the subcommittee; and Hon. John Boylan, of New York, in their commendation of your services.

You will recall that just before the Republican administration expired, on March 3, 1933, the District appropriation bill was pending in conference and you refused to sign the conference report because you thought the amount carried in the bill constituted too great a burden upon the taxpayers of the Nation. The night before Congress adjourned you led the fight against this bill and succeeded in defeating the approval of the conference report. Your act in that fight has been vindicated by the President and by the Democratic Congress, who reduced the Budget and this appropriation bill in accordance with your contentions, thus saving over \$6,000,000 in this bill alone.

I am not unmindful of the fact that you and I have never agreed upon prohibition, that you are a pro and I am an anti, but this question should be relegated to second place when it comes in conflict of the crying need of reduction and retrenchment of the enormous expenditures of our Federal Government.

I commend you for your many accomplishments and your great energy in the interest of economy. Your friend, JAMES P. BUCHANAN, Chairman Committee on Appropriations.

HOUSE OF REPRESENTATIVES, United States, Committee on World War Veterans' Legislation, Washington, D. C., June 23, 1933.

Hon. Thomas L. Blanton, House Office Building. Dear Tom: When you go home, I want you to tell those ex-service men for me that they will make a serious mistake if they turn against you after all you have done for them, and especially will do themselves an injury if they help to deprive themselves of the benefit of your services in the future. Assuring you of my very kindest regards and best wishes at all times, I remain, Sincerely your friend, J. E. RANKIN, Chairman of Committee.

From Postmaster General James A. Farley: Democratic National Committee, Washington, D. C., June 16, 1933

Hon. Thomas L. Blanton, House Office Building. My Dear Congressman: I want you to know that I greatly appreciate the support you gave the administration during the session just closed. I feel certain the people of the country generally realize that more beneficial legislation was passed at this session of Congress than ever before in the Nation's history.

For the part you played in those remarkable accomplishments I want you to know that I am personally grateful. With best wishes, I am, sincerely, JAMES A. FARLEY, Chairman.

United States House of Representatives, Washington, D. C., May 27, 1933.

Hon. Thomas L. Blanton, House of Representatives. My Dear Mr. Blanton: I realize you hardly know me, as my first service in Congress began last December, when I succeeded Judge Crisp as Representative from the Third District of Georgia.

I have carefully considered and critically analyzed all proposed legislation and listened attentively to practically every argument and colloquy occurring in the House since my entry into Congress, and it is my candid opinion that your untiring efforts in behalf of economy during this period of greatest distress deserves grateful recognition by the Nation and the plaudits of our people.

May you live long to continue the splendid service which so few are disposed or capable of rendering. Very truly yours, B. T. CASTELLOW.

# PRODUCTION OF ELECTRIC POWER IN A HIGH SPOT

**EDITOR'S NOTE:** There follows the sixth story in a series by Arthur E. Morgan. It tells why TVA power program is being as a "yardstick" to judge electric rates elsewhere in the nation.

**DR. ARTHUR E. MORGAN** Chairman of the Tennessee Valley Authority

NOXVILLE, Tenn., July 5 — At present time electric power is one of the live issues of social planning. Everyone is familiar with the pressures of the federal trade commission, of the widespread endeavor to open and open propaganda to control the thinking of the nation on this issue.

Interested in Electric Power the Tennessee Valley Authority is interested in the electric power on several counts. First, if a case of public ownership and operation can be established, with fully open and complete cost accounts and records, may be provided with a "yardstick" by which we may discover the electric power actually ought to cost. It is not only the private utilities that will be provided with a "yardstick." Public ownership will be in a trial. One of the greatest uses of our national life is the electric system in public office. Unchecked it can be overcome it threatens very life of our democracy. If public generation and distribution of power can be kept free and from the spoils system, there is to me no reason why it cannot be economical and effective.

**Another Objection** Another object of the TVA is to this region and the country whole more fully aware of the possibilities of electric power enlarging the freedom and life of modern life in the home on the farm. This can only be done with cheap power, from which speculation and exploitation has been removed. The electric business is one of the simpler things of our country. People will use electrical power if rates are low enough. I believe the whole power industry needs learn the lesson that the general of both purchaser and producer of electrical power will be induced if power can be furnished at the rate where it will be most fully used.

**3 SETS OF TWINS** BERDEEN, Wash., July 5 — Referred to as "doing nicely," "Bossie," owned by a farmer near here, recuperating after the birth of third set of twins in the last year.

## DESDEMONA

Mr. and Mrs. A. B. Henslee and daughter, Kathleen, and baby, Sarah Ann, drove up to Caddo Sunday and visited their daughter, Mrs. Robert Dawley and family.

I. N. Williams made a business trip to Eastland Monday.

J. E. Heeter and E. T. Sterling are now working for the Lone Star Gas company on an oil well nine miles from Cisco.

Mr. and Mrs. Dick Cutting came in Saturday night from Plainview and will visit her parents, Mr. and Mrs. N. D. Gallagher until after the fourth. Mr. Cutting works in a refinery at Plainview.

Mrs. E. B. Stewart and children of Cromwell, Okla., are visiting her sister, Mrs. Roy Rushing and other relatives.

Mrs. Gifford Acrea is spending this week at Ranger with her parents.

J. A. Anderberg, of Olegon, came down Monday, to work in the place of R. J. Krapf, Magnolia gauger, who will be on his vacation for ten days. Mr. and Mrs. Krapf expect to visit their sons at Gladewater for several days.

Kelly Salyer and family of Kilgore are here visiting his mother and family.

Mrs. Z. L. Howell and two daughters, Misses Ruth and Lois Howell, are visiting another daughter, Edith.

The many friends of Miss Alva Brown will be glad to know that she has improved enough to be able to come home from Dallas where she has been in a hospital several weeks.

Mrs. I. N. Williams, accompanied by Miss Mollie O'Rear went up to Ranger Saturday and had some dental work done at the West Texas Clinic hospital.

Mrs. J. H. Rushing, Sr. returned Saturday from Arp where she had been visiting her niece and family. Her son, Weldon Rushing, remained there as he has a good job with the Humble Oil and Refining company. For the past two years Weldon has been athletic coach and history teacher in Desdemona high school and was very successful in his work here. His many friends and school pupils regret that he has left the school work for work that is better paying. Mrs. Rushing has not decided whether she will move to east Texas or remain here but her many friends hope she will stay here.

John Arnold and family left Saturday for a fishing trip on the San Saba.

Mr. and Mrs. Earl Daniels of Arp stopped here Saturday for a short visit with their cousins, Mr. and Mrs. Ford Ried. They were going to Breckenridge to visit his parents. They lived here several years ago and have many friends here.

McKinney Gibson of Dallas, is here for a short visit with his parents, Mr. and Mrs. Joe Gibson.

Ed Curry, of Pioneer candidate for representative from the 107th district was here Wednesday in the interest of his campaign. He was

accompanied by Bill Dill of Cisco one of the pioneer settlers of this county.

Mrs. May Harrison, candidate for re-election to the office of county treasurer was here Friday in the interest of her candidacy.

The sympathy of the community is being extended to Rev. and Mrs. Z. C. Chambless on account of the death of her sister which occurred suddenly Wednesday night.

On Sunday afternoon a number of friends drove out to Lowell, a few miles east of town and attended the funeral of J. M. Fair, who had passed away at the home of one of his sons Saturday night. For a number of years Mr. and Mrs. Fair lived here and were faithful members of the Church of Christ. Sympathy is extended the sorrowing family.

O. G. Lawson and family of Cisco who are always welcome guests in their former home town, visited old friends here Sunday. Miss Mollie O'Rear went home with them and will remain a few weeks.

On Friday night, June 29th, Mrs. I. N. Williams entertained her Sunday school class, the juniors of the Methodist Sunday school class with a delightful party at her home. After playing "42" and other games the hostess served delicious ice cream and cake to the following members and friends of the class: Misses Edith Parks, Neil Robert, Agatha Genoway, Boyd Crenshaw, Ruth Crenshaw, Latrell McGuire, Frances Arnold and Messrs. Robert Howell, Glenn Malby, John Welder Raymond Keith, Dale Keith and Raymond Stark of Olden.

Among former citizens of our town to make a short visit here were Mr. and Mrs. R. V. Nabers and two daughters, Misses Dorothy and Mary. They have lived at Pecos since leaving here several years ago. They stopped Thursday for a few hours with his brother Tom Nabers and wife. Many friends are glad to see them.

Rev. Z. L. Howell and Mr. and Mrs. W. E. Bertram attended a banquet at the Methodist church at Eastland Monday night. The banquet was in honor of the new presiding elder of Cisco district, Rev. Senabough who was sent to take the place of Rev. C. Q. Smith who is now president of McMurry college at Abilene. The other honor guest was Bishop Boaz who will preside over the Texas conference this fall.

Mrs. R. L. Black is spending this week in Brownwood with her daughter, Mrs. Elian Fagan, who was taken from her home at Comanche to a Brownwood hospital Thursday.

Mrs. C. T. Terrell of Harlingen, came Saturday to visit her mother, Mrs. A. C. Brown and her brothers and sister.

Mrs. Hugh Roe enjoyed a short visit Thursday from Mrs. J. M. Rieser of Breckenridge and her two daughters, Mrs. Rowland Johnson and Mrs. Polle (we failed to get her name) and Mrs. Frank McMillan formerly of Desdemona.

grandparents, Mr. and Mrs. J. J. Livingston.

San Hale of Bluff Branch was a Dan Horn visitor Saturday.

Miss Willie Weed is on the sick list.

Mrs. R. C. Speegle and children of Dothan spent the week-end here with her mother, Mrs. W. M. Weed.

Mrs. Jack Starr is at Scranton this week visiting her mother.

Miss Vera Harris went to Cisco Saturday.

J. D. Livingston left for Odessa Saturday.

Johnnie Weed is home from Honey Island.

Miss Addie Tarver was the guest of Miss Stella Horn Saturday night and Sunday.

Mrs. Henry Rice and children of Carbon spent this week with her father, W. R. Avery and other relatives here.

Mr. and Mrs. Claude King and children of Putnam were guests of Mr. and Mrs. Clyde King Sunday.

Mr. and Mrs. Ervin Yeager entertained the young people with a party Friday night which was well attended and enjoyed by all.

Levis Weed has returned from a visit to California.

Mrs. Jeff Honea and children of Eastland spent last week with her mother, Mrs. Warren Jessup.

Mrs. Jimmie Beard and son, Wayne Mrs. Benham Hull and children and

## DAN HORN

Sunday school was well attended Sunday morning. Rev. McClain of Cisco preached.

Rev. Clyde King will preach next Sunday morning. All are invited to attend.

Mrs. Charley Fowler and Mrs. Jack Cooper of Cisco visited their aunt, Mrs. Golda Nix, Sunday.

Mrs. Rhyme Harris and daughters and J. B. and Estol Harris of Best and Dick Avery of Weibert are visiting relatives and friends here.

Mrs. Jasper Stuteville and children and Mrs. Mary Herring of Albany spent Monday with Mr. and Mrs. J. G. Stuteville and boys.

Mikey Livingston from Breckenridge spent this week with his

week in Brownwood with her daughter, Mrs. Elian Fagan, who was taken from her home at Comanche to a Brownwood hospital Thursday.

Mrs. C. T. Terrell of Harlingen, came Saturday to visit her mother, Mrs. A. C. Brown and her brothers and sister.

Mrs. Hugh Roe enjoyed a short visit Thursday from Mrs. J. M. Rieser of Breckenridge and her two daughters, Mrs. Rowland Johnson and Mrs. Polle (we failed to get her name) and Mrs. Frank McMillan formerly of Desdemona.

THINK OF THE HARVEST: Whatsoever a man soweth, that shall he also reap.—Galatians 6: 7.

BORAH AS AN IDEALIST AND DREAMER

Sen. William E. Borah of Idaho celebrated his 69th birthday by handing out an interview to the Washington correspondents. First he predicted the European governmental debts to the United States will be paid eventually "if America refuses to cancel them." Second, the foreign debts will be paid "because the great nations of Europe cannot let history record their repudiation." Third, the next great phase in America's economic development will be "a sane distribution of wealth." Fourth, prohibition "may return unless the states master the problem of controlling the liquor traffic." Fifth, "political racketeers are getting into politics because the better element of our people refuse to run for public office." The Lone Eagle knows, if he knows anything, that political racketeers have been playing the game ever since the coming of the republic as an independent nation. Racketeering is as old as the ages in all fields of endeavor. Sixth, he placed this in the record as to the redistribution of wealth: "A quarter of a century of the same trend as the last quarter of a century would leave two per cent of our people in possession of 99 per cent of our wealth." Seventh, "free government, personal liberty economic freedom are impossible under such circumstances. Our institutions, our scheme of civilization depends upon a more equitable distribution of wealth—not through violence or a system of repudiation." Sen. Borah is a lifelong republican. He is an independent all the time except on election day. On the day when the ballot is the thing he votes the straight republican ticket from top to bottom. He has a record for straight voting. He ever follows the standard of the standpatters on election day and censures class legislation of the standpatters on all other days. There are thousands of republicans who are Borah brothers under the skin when it comes to unswerving loyalty to the bogus trademarks of the two major political parties. "They vote for their own yellow dogs."

HITLER MORE POWERFUL THAN KAISER

Dictator Hitler is a man of iron with a heart of steel. In his own camp many of his aides or lieutenants were plotting against him. Hitler never hesitated. He gave preemptory orders to "put them away." They were slain without warning. Those who were not slain by murderous gun fire chose the suicide route to the graveyard. Mussolini ruled with an hand. He is a man of quick action. He struck and struck hard when the striking was necessary. There is no bill of rights in Germany. There is no free speech in Germany. There is no freedom of conscience in Germany. There is no free press in Germany. There are many revolutionary factions with courageous leaders in Germany. Two of the most powerful dictators in the world today are the absolute rulers of Germany and Italy. Mussolini is the son of a blacksmith; Hitler the son of a house painter. There is another absolute dictator in soviet Russia. Stalin came up from "the ranks of the people." Gone is the house of Hohenzollern; gone is the house of Savoy; gone is the house of Hapsburg; gone is the house of the Romanoffs founded by Peter the Great. What remarkable changes have been made in the world map of nations in the short period of 20 years.

ACT SIGNED TO STIMULATE BUILDING

President Roosevelt signed the so-called housing bill. It is a measure intended to aid in reviving industry by increasing home construction and repair. A 10 per cent reduction in the price of lumber and building materials has been ordered by the national retail lumber dealers association to aid the F.D.R. housing program. This legislation, or rather the act signed, is calculated to make available several hundred million dollars for new home and modernization through government insurance of private loans for this purpose. The interstate commerce commission has been given power to reduce railroad rates on shipment of building materials. Administration officials said it would be 30 days before the machinery will be complete enough for the lagging construction industry to show any substantial improvement, "but banks were reported to have increased their lending activities in anticipation of the right to insure loans." Another important measure signed by the president is the act establishing a federal credit union system to make credit more available to people of small means, and still another is the act which "imposes taxes upon firearms and machine guns and restricts importation and interstate transportation of these weapons "employed by criminal terrorists the nation over.

JOY REIGNS IN THE RAIL WORKERS WORLD

Joy reigns in the rail workers' world. More than 1,200,000 railroads on July 1 were jubilant over a \$4,000,000 monthly increase in their pay envelopes and the Roosevelt executive approval of legislation which will retire at least 100,000 of their number on pensions this year. Rail brotherhoods worked four years to get the legislation and the pension fund will be created by deduction of two per cent from workers' salaries and four per cent from carriers' payroll to set up a reserve which is expected to consist of at least \$90,000,000 a year. Many of the rail carriers have had retirement pension systems of their own, but the new legislation creates a universal method taking in all carriers. Now a nationwide pension insurance system for the rail workers is an established fact. There is an army of rail workers in the Southwest. They backed Roosevelt and Garner in 1932. They are backing the New Deal policies in 1934.

UNDER THE DOUBLE EAGLE AGAIN

Hopkins and His Plan of Ending Unemployment

By HUGH NUGENT FITZGERALD. Harry L. Hopkins is the head of the federal emergency relief set-up of the government. He has a plan for ending unemployment in America. He visualizes a countryside dotted with small factories and the nation breaking away from the theory of mass production. He has expressed the hope that such a decentralization of industry "might be brought about by industry itself along with governmental planning for a reservoir of work that would be tapped in time of need and unemployment insurance guaranteeing security to the industrial worker. He said to interviewers that his idea or proposal would result in lowering the population of large cities, that it would get people out of tenements and into individual homes and that public works should be planned on a long time basis "so arranged as to be expanded to give work at once when an unemployment crisis arose." Henry Ford advanced this gospel plan of salvation years ago. He has for years championed a system that he dotted with small factories and "the nation moving away from mass production." Away back in those marvellous days of republican "never-ending and ever continuous Amer-

ican prosperity" the Ford idea was branded as a Utopian dream by the publicity propagandists of the wizard who looked upon the wizard of Michigan as an "accident or an incident," who evolved from a little machine shop to Alpine heights and became the third American billionaire. Practical dreamers now and then appear to climb heights and have the last laugh before they pass out of the picture. KINGFISH LONG GIVEN WARNING. Kingfish Long has a legislature grinding. Kingfish is said to speak and act through Gov. Allen. There is a bill pending that would tax cotton futures two per cent of the gross receipts of purchases and sales. Of this kind of people who read and think know that the New Orleans cotton exchange is one of the most important in the United States. Its directors and members are most militant. They have notified the Kingfish state administration that should the bill be enacted the exchange will move to another state. Well, Houston would welcome the New Orleans cotton exchange. Galveston might put in a bid. Dallas millionaires might get busy and make a very appealing offer for the prize. As for the Kingfish, to date he has known how to wield his political bludgeon. A majority of the voters of New Orleans and their leaders are at war with the Kingfish and his program. Kingfish is a very accomplished political trader. He knows how to make contact with the enemy. He knows what he wants and to date he has been able to get what he wants. Speaking of the revival of the old Louisiana lottery the Kingfish speaking through Gov. Allen "has declared war on the legislative proposal." Of course, it is the "voice of Allen" but the ear of the governor is very close to the speaking trumpet of the Kingfish, a most remarkable man this idol of the hillbillies in the Louisiana red lands country.

MILLIONS FOR RELIEF OF DROUTH SUFFERERS

President Roosevelt has issued an executive order allocating \$150,000,000 for relief of drouth sufferers in the Middle West. It was his first allocation from the \$520,000,000 appropriation for relief. There are drouth sections in Texas. Many Texas counties have been placed on the list. All in all, in the Middle West and the upper Canadian border states relief aid has been given to more than 500,000 people who were facing the pangs of hunger.

Through the Editor's Spectacles

By GEORGE. The boys thought a nudist colony had moved into town the other morning, and it was several hours before they were down to the earth of practical sense again, setting type for the daily grist. The responsible exhibit crawled out of a dusty toneau and with shocking disregard for the nine o'clock morals and inspirations of this city, exhibited the body in nothing more concealing than a pair of man's lisle shorts, practically no shirt at all and a coat of sun tan. Now that may be an extremely comfortable way to travel, but is certainly slows up Mr. Roosevelt's recovery program wherever it stops to refuel. Most of our boys have never been any nearer George's Scandals than Kickapoo Greer's picture show, and the presence of a live specimen of the genus that is said to revive the flagging spirits of the head-head front row is enough to set them ogling like a "passe" of monkeys in front of a pin wheel. The touch of irony, in case you want irony, was provided by the male half of the pair—we'll grant it was a husband—who was clothed from head to foot. Evidently, no nudist as this bird—or, perhaps, he had an appendicitis scar. Lake Cisco certainly draws the folks when it means a holiday or an outing. Yesterday's program was a convincing demonstration of that attraction. Of course, the event had been well advertised, but no amount of advertisement will put over a flop. Folks who have been going to Lake Cisco for years on end are always ready to come back. The condition of the parks this summer is a remarkable improvement over their condition in the past. Much excellent work has been done locally, but nothing comparable in effective appearance to the results of the project that is being carried out by the county relief administration. Clean grounds, cleared of brush, with trees bright in white, wash, improved roads and construction of tennis and croquet courts—these things have made the parks

as inviting as any resort in this country. Cisco owes the relief administration a vote of thanks for the splendid work that it is doing in improving these areas of recreation.

Texas Topics

AUSTIN, July 5—The drouth threat has raised critical problems for relief administration in Texas the next few months. But if the drouth lasts another few weeks and thus greatly minimizes even present crop prospects the situation will not find emergency relief agencies unprepared. The government recently has created an immense fund for use in drouth areas, including whole states which have suffered recently, and are like the Texas Panhandle which have suffered still more. But putting an adequate drouth relief program into effect will be an enormous task.

Already, Relief Dir. Adam R. Johnson has indicated he foresees a larger roster of people on relief when winter begins than in early winter months of 1933. This will be averted, he said, only if the drouth is broken and crops are produced. The drouth-area problem, assuming it virtually state-wide, will be flattened out somewhat in the widespread rural rehabilitation program which will follow a Texas survey by federal relief authorities, already in the state for the purpose. This program, intended to move as many rural families as possible into a set-up whereby they will be more self-supporting, will be carried forward regardless of the extent or duration of the dry spell.

Members of the special investigating committee of the Texas relief commission to look into reports of political activities about state headquarters, and in connection with Travis county relief at the capital have delayed starting their inquiry. They have told people at Austin the dates for taking testimony have yet to be agreed upon. Members of this committee are Carl Estes, Tyler; Houston Hartie, An Angelo; and Bertam E. Giesche, Fort Worth. Messrs. Estes and Hartie are of the five-member majority that reorganized the relief administration late in June. But Estes himself was sponsor of a declaration that if any evidences of political activities were found on the part of those in charge of state relief, he would himself propose drastic action at the next relief commission meeting.

Tomorrow's Star Signals

The morning is serious and sensible. Your thoughts will be concrete and your judgment should be good.

commission to look into reports of political activities about state headquarters, and in connection with Travis county relief at the capital have delayed starting their inquiry. They have told people at Austin the dates for taking testimony have yet to be agreed upon.

Members of this committee are Carl Estes, Tyler; Houston Hartie, An Angelo; and Bertam E. Giesche, Fort Worth. Messrs. Estes and Hartie are of the five-member majority that reorganized the relief administration late in June. But Estes himself was sponsor of a declaration that if any evidences of political activities were found on the part of those in charge of state relief, he would himself propose drastic action at the next relief commission meeting.

Announcement has been made that the state will require manufacturers of another \$4,000,000 of cigarette tax stamps for the rest of the year. It is a matter of regret that there is now no Texas plant equipped to produce the type of tax stamp found to be the best for this purpose. Contracts are made through Texas agents with large printing establishments out of state for the work.

Rates of prevailing wages for road workers have been promulgated by the highway commission, by being written into specifications for bids on each project. Each call for bids included the provision that "signed certificates of compliance with applicable approved codes will be required." They also specify that if a contractor works his employees on a greater or lesser number of hours than the eight-hour working day, the equivalent daily wage will be increased or diminished accordingly, and that overtime and legal holiday work "shall be paid for at the regular governing per diem wage rates."

The schedule ranged from 35 cents an hour, or \$2.80 for unskilled labor, to \$6 for carpenters, iron workers and crane and shovel operators on some projects. Tractor operators receive \$5 on some jobs, \$4 on others and \$3.60 on some work.

in connection with real estate property. The evening is extremely illusory. Make no love affair. Even those who hold tight to their purse strings are apt to let them tomorrow night or the day after.

WHO WAS FIRST IN AMERICA. By Joseph Nathan Fisk. Author of "Famous First Facts".

SOPHIE KERR'S SUPERB LOVE STORY "STAY OUT OF MY LIFE!" By Sophie Kerr.

twist my words." Jane stormed on. "What she here appreciates is that there's entirely new era begun for women. They're free to choose their work, to live their lives as they want. Marriage is only one of many possible careers and of the least desirable. A woman has a right to bear children if she wants to outside of marriage." AMY felt far more at home with this Jane who ranted ideas. "Oh, right," she said. "The child has the right to the portion of the ordinary civilized conventions. A woman may do as she pleases about marrying, but certainly shouldn't bring a dishonor into the world for its shame. Children don't ask for dishonor. They're helpless." "Of course you'd think that," she said. "You've always been so to go with the times." Amy suddenly wanted to get at the absurdity of arguing with Jane on the subject of female emancipation. She had been practically the first moment of their meeting. "You're like Aunt Rosa," Jane vehemently. "The reason she is because I intend to give her my inheritance, so I can do something on my own. I'm wicked for her to be being that money when I could be it, over and over again—she doesn't believe a woman can do anything about business, anything at all, the old idiot! I'm a chance after chance," she said, "I meant to tell anyone this, 'heavens,' she said, 'I must be back. She's going to have the very come up. So nice to see you, Amy, and your new house." Amy caught her arm. "Don't miss you so. Dear Jane, we're friends again?" But she knew it was useless to ask. She had turned to stone. Jane had forgotten or forgiven. "Goodbye," said Jane. "I go. I—I've nothing to say to you. I didn't want to see you any more. She started away. But Amy ran after her. "Remember, Jane dear," she said, "I'm always your friend. If there's ever anything in the world I can do for you, will." At these words another looked at Amy, a Jane who eyes were full of doubt and a lonely frightened Jane who wanted kindness and help at the years gone by Amy had other Jane before at times she had been slighted or laughed at or neglected by the other drouth, or when she had done something reckless and daring needed pardon. This was Jane Amy had always been quick to champion, to defend, to comfort. But the glimpse of other Jane lasted only an instant, so brief that Amy almost doubted that she had seen it. She now saw was the smart, brown-clad figure walking away and decisively away from her from a stranger. (Copyright, 1934, by Sophie Kerr. (To Be Continued))

THE NEW FANGLES (Mom'n Pop)

Comic strip 'THE NEW FANGLES (Mom'n Pop)' by Cowan. Panels show a woman talking to a man about a party, a man talking to a woman about a life insurance policy, and a man talking to a woman about a husband's death.

FRECKLES and HIS FRIENDS.

Comic strip 'FRECKLES and HIS FRIENDS.' Panels show a man talking to a woman about a telegram, a man talking to a woman about a car, and a man talking to a woman about a signal.

"STAY OUT OF MY LIFE!"

By Sophie Kerr

BEGIN HERE TODAY When HOWARD JACKSON, young geology professor, comes to Marburg Jane Terry, the prettiest girl in town, determines to win his heart.

she had been proud of when she had furnished it. She had thought it odd and chic, and so it was. The walls were hung from floor to ceiling with a shadowy, far-away white and gray cretonne, the furniture was painted black.

NOW GO ON WITH THE STORY

FROM the quality of the light filtering through the drawn shades, from the click of china against silver in the kitchen, and from the heartening whiff of coffee from the same quarter, Jane knew that it was nine o'clock or thereabouts, of a clear morning, and that her maid, Kitty, was almost ready to bring in her breakfast tray.

"NOBODY" knows now," said Roger Thorpe, "though I'm sure Mr. Kandel suspects."

"I'm going to get rid of him," she thought. "He's a coward. I hate him, too, along with everything else. Whining around—I shall tell him—"

THIS room, like the other, had been copied from a decorator's exhibit. Jane had traveled far from the grasscloth and mahogany which had so impressed her at Miss Jardine's. This was, so far as an apartment living room can be, a Spanish salon, heavy carved wood, dark leather, iron-work, bronzes, pottery, blue brocade, tile-top stands.

Presently she heard the bell and waited, listening. Kitty went to the door and a moment later Roger Thorpe came in. Jane swung around sharply. "I told you I didn't want to see you," she said.

"I know, but I want to see you. Jane—for God's sake—if you know what a swine I feel! You can't mean it when you say you're through with me—"

COTTONWOOD

By Sophie Kerr

The nice rain which fell Saturday afternoon was very much appreciated by the farmers of this community.

Alpha Elder with many other young folks were visitors at Scranton Sunday.

Mrs. G. W. Pence, Mrs. Joe Boatman and Mrs. I. J. Pence were guests of Mrs. Grover Cleveland Tuesday.

# About Cisco Today

## CHRISTIAN ENDEAVOR PICNIC AT LAKE CISCO

The Young People's society of the Christian Endeavor of the First Christian church had a swimming party at Lake Cisco Tuesday night at seven o'clock.

After a swim a picnic lunch was served to members and invited guests.

## Personal Mention

Mr. and Mrs. L. E. Sublett, Romney Route, Cisco, Texas, are the parents of son, Leonard Elliott, Jr., born this morning at 8:20 o'clock. The baby weighed nine pounds.

Mr. and Mrs. P. Phillips have moved to Cisco from Ranter and are at home at 401 Front St. Mr. Phillips is employed by the Lone Star Gas company.

Mrs. S. L. Houston of Clyde is visiting Mr. and Mrs. M. L. Notgrass.

Mr. and Mrs. R. L. Reese of Albany were visitors in Cisco Wednesday.

Mrs. C. B. Powell and Betty Lou have gone to Marlin for a short visit.

Madeline McIntosh of Brownwood is visiting in Cisco.

Miss Norma Johnson from Abilene is a Cisco visitor.

Mr. and Mrs. A. C. Williams from Wink spent Wednesday in Cisco.

Bill Witt, who has been visiting in Stephenville, had returned home.

Mrs. J. M. Hooks and son, J. M. Jr., and Mrs. Elmer Jobe and Gloria Jean Jobe all of Abilene, were accompanied to Marlin by Mrs. C. B. Powell and Betty Lou.

Mr. and Mrs. A. B. Hubbard have moved to Cisco from Tulsa, Okla. They are guests at the Laguna hotel of present.

Mr. and Mrs. Hugh Wagner and daughter, Patay, of Breckenridge were in Cisco Wednesday.

W. W. Williams of DeLeon visited in Cisco Wednesday.

Mr. and Mrs. F. R. Woodward and F. R. Jr. spent Wednesday in Cisco. F. R. Jr. will remain in Cisco for a visit with his grandmother, Mrs. W. W. Miller.

Mrs. R. N. Clark has gone to Haskell to visit her sister.

## PLEASANT HILL

Mrs. A. A. Abbott visited Mrs. Ed Sims Monday afternoon.

Pearl Lamb returned from Eastland Sunday where she has been visiting.

Mr. and Mrs. Dan Wende and children and Carl Cirobel visited Mr. and Mrs. Rescoe Abbott and Mr. and Mrs. Abbott Saturday night.

Mrs. J. R. M. Kirnerney visited Mrs. Bill Maynard of Romney Sunday.

Mr. and Mrs. Henry Hardin and children visited Mrs. Hardin's parents, Mr. and Mrs. Bill Welch, Sunday.

Mrs. Rescoe Abbott and Mrs. A. A. Abbott visited Mrs. Evie Boles Sunday afternoon.

Bessie Taylor is visiting Pearl Lamb this week.

The Pleasant Hill young people were entertained with a picnic Saturday given at the Strickland lake.

T. E. Clark attended church at Romney Sunday night.

Mr. and Mrs. Jeff Rallsback were guests in the home of Mr. Rallsback's sister, Mrs. J. K. Bone, Tuesday and Wednesday.

Mr. and Mrs. A. C. Poe and son, Jimmie Poe, are visiting Mrs. Poe's mother, Mrs. Ira Hooker, this week.

R. L. and Dorothy Tucker, Lola Mae Hooker, Arlene Hines, Flora and Francis Bacon, Garner Altom, Shannon Ramsey, Charlie Parks,

## Garland Kinnard and the Taylors from Eastland visited in the home of S. A. Lamb Sunday afternoon.

Rev. Raymond of Moran filled the vacancy of Rev. Skiles, who is away in a meeting at White Hall.

Several of the Pleasant Hill people attended the Shady Grove's Home Demonstration club's meeting at the Strickland lake Friday night.

Alton Clark went on a fishing trip with the F. P. A. and Lutheran community Friday night.

Twenty-seven of the Pleasant Hill young people attended the B. Y. P. U. meeting at Union Sunday. Ninrod and won the banner that Pleasant Hill has had for quite a while.

## BLUFF BRANCH

Mr. and Mrs. Melvin Payne and children of Union spent Saturday night and Sunday with her mother, Mrs. R. F. Thames.

Miss Nadine Huntington spent Sunday with Ruth Hanks.

Mr. and Mrs. Horace Calloway and sons, Wayne and Donald, of Gorman, Mr. and Mrs. A. J. Reed of Moran, and Mr. and Mrs. C. C. Phippen spent Sunday in the home of Mr. and Mrs. L. R. Nelms.

Mr. and Mrs. Alfred Hunter and children of Berghelm are visiting Mrs. Hunter's parents, Mr. and Mrs. J. A. Harwell.

Mrs. Horace Calloway, Mrs. Clarence Phippen and Misses Lois and Doris Nelms spent Monday with their grandmother, Mrs. G. W. Adair.

Mr. and Mrs. Bill Simmons and children of Putnam and Mr. and Mrs. Noel Simmons of Union spent Sunday with Mr. and Mrs. Jesse Simmons.

Mrs. A. L. Huntington and children spent Wednesday with her daughter, Mrs. Claude Davenport of Eastland.

O. B. Johnson spent Saturday night with Macon Adams of Cisco.

L. B. Carlisle spent Sunday with Marshall Simpkins.

Miss Dorothy Mae Donham spent Sunday with Elizabeth McFadden.

Hubert Johnson spent Sunday with Clifford Phippen.

Misses Mozelle and Marguerite Richardson spent Saturday night with Mrs. Irvin Phippen.

Edd Nelms spent Sunday with his parents, Mr. and Mrs. L. R. Nelms.

Mr. and Mrs. Alfred Hunter, Mrs. J. A. Harwell and Mrs. Reuben Coats spent Sunday with Mr. and Mrs. Porter McConelle of Breckenridge.

## COOK

Rev. Parkman, pastor of the East Side Baptist church, preached to a large crowd here Saturday night.

Rev. W. R. Ivis filled his regular appointment Sunday morning and Sunday night.

The District B. Y. P. U. rendered a fine program at 3 o'clock in the afternoon.

Mr. and Mrs. A. N. Simpson of Nimrod were the Sunday dinner guests of Mr. and Mrs. A. S. Walker.

Mr. and Mrs. Joe Allen of Nimrod; Mr. and Mrs. Howard White and Mr. and Mrs. Merret Dill of Cross Plains were the Sunday dinner guests of Mr. and Mrs. Bill Gardner.

Mrs. Clay Cade and Rev. W. R. Ivis and two sons were the Sunday dinner guests of Mrs. Chambliss.

Miss Alma Townsend visited Mrs. O. D. Carver Sunday.

Miss Muel Moore spent Saturday night with Miss Alma Tucker.

Miss Aleta Maples visited her uncle and aunt, Mr. and Mrs. Sam Maples Friday night and Saturday.

Congratulations and best wishes are being extended by their many friends to Mr. and Mrs. Oscar Maddox. The bride was formerly Miss Agnes Williams daughter of Mr. and Mrs. Ben. Williams.

Misses Alma and Lois Walker were the Sunday dinner guests of Mr. and Mrs. C. L. Carmichael.

Miss Berta Mae Townsend visited Miss Pushtita Townsend Sunday.

Misses George Mae Hunt, Blanch Fay Walker and Lorilla Jones visited Mr. and Mrs. Ohmie Trigg Sunday afternoon.

Mr. and Mrs. A. S. Walker and little son, Gene, visited Mr. and Mrs. G. W. Hunt Monday afternoon.

Misses Sallie Pearl and Ruth Brooks, Rozelle and Leta Simpson and Lorilla Jones were the Sunday dinner guests of Mr. and Mrs. D. L. Allen.

# N. G. A. PLAYERS FACING TEST ON BUFFALO LINKS

BUFFALO, N. Y., July 5.—En-

trants in the National Golfers' association championship this year will find the Park Country club of Buffalo, Williamsville course, on which the tournament will be played, July 24 to 29, a long, rolling layout with intricate trapping.

Although the course possesses only 33 sand bunkers, a wide creek, 30 to 75 feet from bank to bank, winds its way around and through the course, and the player often is called upon to play over water.

Woods run through and surround the entire property. The length is 6,506 yards, with a par of 72.

## Drive Uphill

No. 1 hole, 462 yards long, is a par 5, requiring two wood shots and a chip. The drive is slightly uphill, with a large trap on the right.

The par 4 second hole is 467 yards and returns down hill to parallel No. 1. The hole requires two long shots, a drive and a No. 2 iron. Trees, bushes and plenty of rough on the right necessitate a more accurately-placed drive than No. 1.

No. 3, par 4 and 350 yards, is slightly dog-legged to the left, and is a drive and pitch hole. Three of the four sand traps that make this hole tricky are placed for the drive, while the fourth is on the left front edge of the green.

Creek in Front of Tee

No. 4, measuring 380 yards, is a par 4. A well-placed drive is necessary here for the hole dog legs to the right. The creek runs in front of the tee, with all trees on either side.

The fifth hole, a par 3 of 225 yards, calls for a brassie, a spoon

and a put, Mr. and Mrs. Sam Maples Friday night and Saturday.

Congratulations and best wishes are being extended by their many friends to Mr. and Mrs. Oscar Maddox. The bride was formerly Miss Agnes Williams daughter of Mr. and Mrs. Ben. Williams.

Misses Alma and Lois Walker were the Sunday dinner guests of Mr. and Mrs. C. L. Carmichael.

Miss Berta Mae Townsend visited Miss Pushtita Townsend Sunday.

Misses George Mae Hunt, Blanch Fay Walker and Lorilla Jones visited Mr. and Mrs. Ohmie Trigg Sunday afternoon.

Mr. and Mrs. A. S. Walker and little son, Gene, visited Mr. and Mrs. G. W. Hunt Monday afternoon.

Misses Sallie Pearl and Ruth Brooks, Rozelle and Leta Simpson and Lorilla Jones were the Sunday dinner guests of Mr. and Mrs. D. L. Allen.

# Farmer's Dream of Riches Is Ruined

HARLEM, Mont., July 5.—Farm-

er Sam Harvey's dreams of sudden riches vanished to leave him holding a dozen sacks of dusty old bones.

Remains of a prehistoric dinosaur were found on a ranch near here, Darwin Harbicht, U. S. A. engineer and assistant to Barnum Brown, curator of the American Museum of Natural History, was notified.

Harbicht and his party drove to the fossil find to find the excited Harvey. Asked where the dinosaur fossil was, Harvey grinned elatedly and led them to his house.

In side the house, neatly sacked, were the crumbling remains of the prehistoric giant.

Harbicht's disappointment was great—but not as great as that of Harvey, who explained he had sacked the bones to make sure none would be stolen.

Removed by inexperienced hands, the bones were worthless.

When first reported, the skeleton was all in place and promised to be an important find, inasmuch as the bones were those of the hooded duck bill dinosaur—a freak who breathed through the upper part of his bill while he fed beneath the water with the lower part.

It was the first time that such a species had been found in Montana.

# Mastodon's Skeleton Is Found in Mexico

JUAREZ, Mex., July 5.—Proof

that giant animals of a by-gone day roamed northern and western Chihuahua was found in an arroyo near Madera recently.

U. S. Consul W. P. Blocker reported an almost perfect skeleton of a mastodon was excavated on the Las Varas ranch.

A Mexican ranch hand saw one of the mastodon's tusk sticking up through the arroyo soil, and the digging resulted.

The dance that began immediately after the pyrotechnics.

At 6 o'clock there were three bouts of boxing in a ring erected on the island across from the swimming pool gallery seats.

Thanks of the chamber of commerce for the work of the committees, whose arrangements carried the entire program off with no serious interruptions or untoward incidents, were expressed this morning. Seats, ice water, and all the details which determine success or failure of such an event, were admirably attended to, it was said.

Police reported that not even the incident of an arrest or of a collision between the cars that entered the lake area in such numbers that they were reduced to creeping, occurred to mar the day's record.

# Thousands--- CONTINUED FROM PAGE ONE

up a storm of fiery embers and dust, and came out unscathed. Only a slight scratch upon one fender marked the car in the stunt.

At 9 o'clock, across the pool from the lake pavilion a fireworks display entertained the crowds that massed into the area for the continuation of the water carnival and

## TWO WOUNDED IN FRISCO DOCK STRIKERS RIOTS

SAN FRANCISCO, July 5 — Violence broke out on San Francisco's waterfront shortly before 10 p. m. today in a longshoremen's strike.

Two freight cars were set on fire, the rushing charging picket lines of marine strikers, flaying with their clubs and firing gas guns.

Two men were shot. One, a spectator, was wounded in the hand and arm. A striker was shot in the chest.

Police said the shots were fired by strikers.

The trouble began after trucks operated by the San Francisco Industrial association, in an effort to break the strike, had made a run of about 15 trips from the Merrick Steamship company's pier to a nearby warehouse, carting away fee and general cargoes.

Approximately 2,000 strikers and sympathizers were gathered in back-porch lines near the Matson Navigation company pier. These pickets fired a fire break out in two boxcars some distance away and seemed to expect the smoke as a signal for action. They surged forward. Police rushed to meet them. Bricks began flying.

Police brought up a tear gas can and rained tear gas bombs on the rioters.

## Cotton Needing Rain Now, Bureau Finds

WASHINGTON, D. C., July 5 — Cotton was not seriously affected by heat last week but rain is now badly needed over a large portion of the cotton belt.

The weather bureau reported today in its weekly crop bulletin.

Temperatures in the cotton belt were "only moderately high" but decidedly above normal in northern sections, the report said.

Regional reports included: Texas, holding up well, considering the scanty soil moisture and "remains mostly in good condition, though local deterioration is now reported from some drier sections."

## Ferguson Pleads for Election of McDonald

ATASCA, Texas July 5 — Former Gov. Jim Ferguson returned to the political stump here last night with old-time fire, homely illustrations and eloquence.

C. C. McDonald is the logical man in Texas to elect governor, was Ferguson's plea. McDonald's platform and McDonald's ability to carry it out should be in the people's mind when they vote, Ferguson said.

During McDonald's ten-year service as secretary of state and assistant attorney-general, Ferguson got the crowd aroused with the declaration: "We do not want any more children in the governor's chair."

## Deposed Mayor Is Sought for Slaying

DEL RIO, July 5 — The extradition of Marcial Martinez, deposed mayor of Villa Acuna, Mexico, from Mexico to the United States to answer charges of murder in the slaying of L. B. Henry will be asked, authorities here said today.

Henry, a U. S. customs officer, was shot fatally in Del Rio last month, was thought by officials to have been killed for the part he played in breaking up smuggling of dope rings operating between Mexico and the United States.

Martinez was arrested and placed in jail at Piedras Negras, Mexico, Saturday night.

## Doubts Cloud Ford Compliance Letter

WASHINGTON, D. C., July 5 — Doubts arose Monday as to whether Henry Ford really had made peace with the NRA as first believed Saturday when Adm'r Hugh S. Johnson announced he had received a letter signifying the motor manufacturer would sign a compliance certificate. A Ford attorney, Louis Colombo, said the letter was not mailed by the Ford company. He further intimated that until such a letter bore the signature of Ford, negotiations would remain unchanged.

Adm'r Hugh S. Johnson at first reading of the letter said he had considered it a formal certificate of compliance.

## WEATHER

West and east Texas — Generally clear tonight; Friday partly cloudy to somewhat unsettled; continued.

## Duce's Daughter Seeing London

London is entertaining a distinguished guest — the daughter of Benito Mussolini, dictator of Italy. She is the Countess Ciano and is shown here as she starts from the Italian embassy for a promenade in the British capital.

## COMMUNITY TO GIVE EASTLAND 50-CENT RATE

EASTLAND, July 5 — The latest move in the gas utilities rate controversy between the city of Eastland and the Community Natural Gas company occurred today with an announcement by Chester L. May, vice president and operations manager of the community, that officials of the city had arrived at an agreement upon a 50 cent net rate for local domestic gas users.

The compromise, said May, was reached at a conference this morning.

The city of Eastland has been offered a proposition by the Hickok interests similar to the proposition which the city of Cisco accepted for the installation of a complete new distribution system to be paid for out of revenues and given the city when fully amortized. The plant would be supplied its gas by the Hickok concern.

No announcement was forthcoming from the city today as to what disposition had been made of this offer. Cisco city officials have accepted the offer and it was understood work would begin next week, when materials were due to arrive.

In announcing the agreement, May said that the 50-cent net rate would apply to the first 30,000 cubic feet used, after which it would step down to 45 cents per 1,000.

He said that passage of an ordinance at Cisco which fixed the minimum rate there at 60 cents prevented the company from giving Cisco the same rate, and that the community would do so if not so prevented.

The city of Eastland made no concessions in return for the rate, May said.

## Volume of Building Permits Increases

AUSTIN, July 5 — The total volume of building permits in 37 Texas cities rose sharply during May to \$2,857,000, an increase of 130 per cent above April and 115 per cent greater than May, 1933, according to the University of Texas bureau of business research.

The most substantial increases occurred in Houston and Lubbock which accounted for most of the rise that occurred from April to May. Other cities showing considerable increases were: Beaumont, Dallas, El Paso, Longview, and Cleburne.

The increase in Houston was entirely due to a permit issued to one of the big oil companies for an addition to their headquarters in Houston, the amount involved being one million dollars.

## 142 DEAD IN INDEPENDENCE DAY MISHAPS

By United Press

America's celebration of the Fourth of July under widespread police orders for a safe and sane observance resulted in 142 violent deaths, a United Press survey revealed today.

But the danger from explosives, once most feared on Independence day, was reduced to the lowest point in many years. Only five fireworks deaths was reported. Many thousands however, suffered injuries in firecracker and skyrocket accidents, the total running to almost 2,500 in New York city alone.

Airplane and traffic accidents killed more than 50 persons throughout the nation as highways were jammed with holiday crowds. About the same number was drowned.

## FIVE KILLED IN PLANE CRASH

ST. ANSGAR, Ia., July 5 — An Independence day celebration left an aftermath of mourning in three communities today for five young people killed in the crash of a flaming airplane within sight of several thousand persons.

The victims were passengers and the pilot.

The four passengers were being taken on a holiday taxi flight, as hundreds of persons had been during the day. The plane circled over the town, then headed for the field. Witnesses heard the plane's motor backfire viciously, watched it lose altitude and then saw it crash in the town's main street. Almost instantly it broke into flames.

## Free Rodeo to Be Presented Monday

A big free rodeo will be offered Monday, July 9, at the Rodeo ground at 10th street and D avenue. It was announced today by Bill Faber, in charge.

The performance will begin at 1:30 p. m., with bronc riding, wild steer riding, wild cow milking and other rodeo spectacles. First, second and third prizes will be offered contestants.

Entrants must be filed by 1 p. m. Monday, Mr. Faber said.

Merchants of the city are cooperating in the rodeo and special bargains will be offered during the afternoon.

## Crawfords Back From Trip North

Mr. and Mrs. E. P. Crawford and daughter, Helen, arrived home last night after a two-week's trip to Detroit and Flint, Mich. At Detroit Mr. Crawford attended the convention of Rotary International, and at Flint he received delivery of a new Chevrolet car purchased through the A. and G. Motor company here.

A leisurely return carried them through Kentucky, Mississippi and other southern states. On the entire trip, they visited 11 states and entered one foreign country.

## Britain Moves to Cut Down Ship Tonnage

LONDON, July 5 — Walter Runciman, president of the board of trade, announced this week that the government is prepared to spend up to \$10,000,000 for "defensive subsidies" for vessels carrying tramp cargoes under tramp conditions.

He stipulated that British ship owners must organize to bring pressure on foreign owners to arrange a common reduction of surplus world tonnage while the government brings pressure on foreign powers to reduce or abandon subsidies and reduce superfluous tonnage.

## Choral Singing to Little Zion Church

A Negro Baptist chorus from Brownwood will give a program at the Little Zion Baptist church, colored here Sunday evening. It was announced. Spirituals and community singing will be presented.

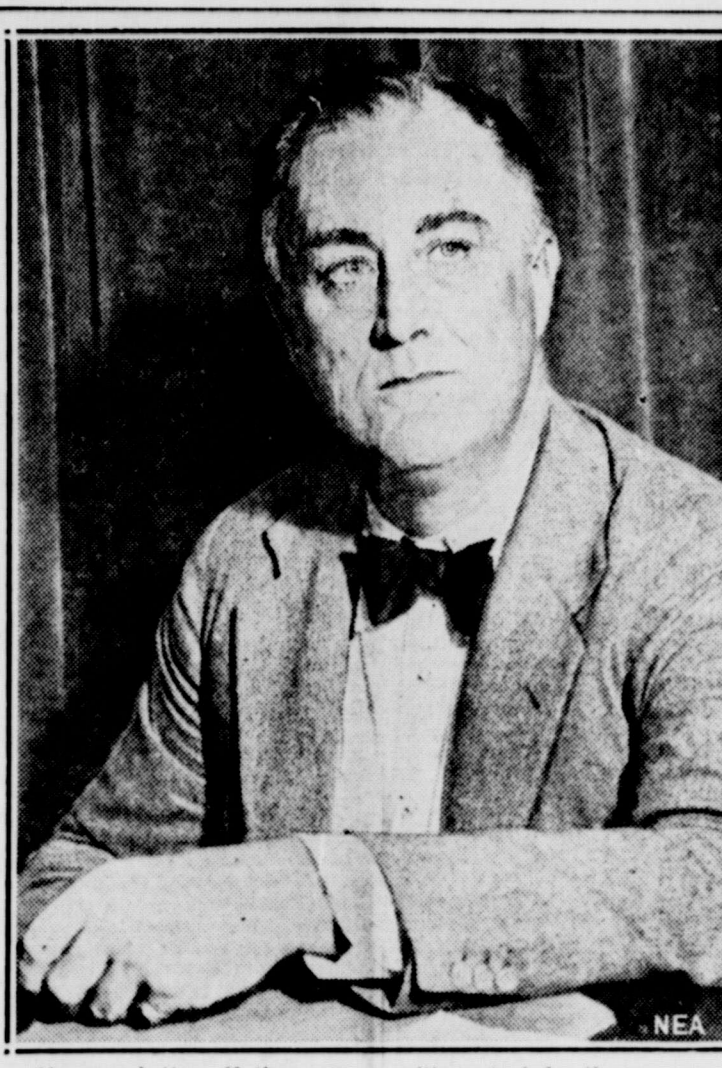

## FLAGS MADE IN JAPAN

BOSTON, July 5 — A dinner was given to Colonel Daniel D. McCormack, commissioner-general of immigration and naturalization of the United States and to each member attending a small American flag was presented—350 in number. There was a spectacular display until it was discovered that the flags were made in Japan.

## GOAT'S MILK DAIRY

NASHVILLE, Tenn., July 5 — A goat's milk dairy is operated here by F. W. Stephens, who asserts the milk "is a sanitary police officer of high rank" for the human system.

## The President Poses --- Some Questions

"Are you better off than you were last year? Is your bank account more secure? Are your working conditions better?" These were the questions by which President Roosevelt urged citizens to judge the progress of the recovery program when, as shown here, he propounded a farewell message from the White House before leaving on month's cruise to Hawaii.

## Nazi Chieftains in Session at Berlin

BERLIN, Ger., July 5.—Nazi political chieftains, the men who know the towns and provinces and people in the streets, met today to discuss the party's present state and its future trend and fortune.

Chancellor Adolph Hitler ordered what amounted to an emergency national party convention. He was expected to join the convention today if it seemed advisable.

The future of Franz von Papen, vice chancellor, still was uncertain. Official announcement that he would remain in the cabinet for the present, despite the humiliations to which he had been subjected, deepened an apparent mystery. He offered his resignation and it was declined.

## Bar Ass'n Hears Criticism by Head

FORT WORTH, July 5.—John C. Townes, Houston, president of the Texas Bar association, today flung a challenge to Texas lawyers to "rededicate themselves to the public welfare, at the cost of private business."

Speaking before the annual bar association convention which opened this morning, Townes severely criticized the legal profession for an "apparent laxity in public affairs at a time when capable leadership is sorely needed."

Donald R. Richberg, chief counsel for the NRA, will speak at the convention tonight.

## Second "Love Slave" Sought by Officers

DENVER, Colo., July 5.—Investigators today sought a second girl of less than legal age reported to have been held as a "love slave" in a rendezvous at a fashionable residential district here.

If she is found, authorities said, charges will be filed against a new group of Denver business men. Already nine persons faced statutory charges in connection with alleged offenses against a 15-year-old girl who said she had been kept in the house more than two weeks.

Several of the men arrested when detectives raided the house are prominent business men, the district attorney said.

## Silence Says, Stars' Condition Unchanged

SANTA BARBARA, Cal., July 5 — Silence from the palatial estate of C. K. G. Billins, where Marie Dressler, famous actress, lies critically ill today indicated there was no change in her condition. Doctors discontinued issuing bulletins unless a decided change in her condition occurs.

## Painter Confesses Killing Ex-Cyclops

JEFFERSON, Wis., July 5 — An itinerant painter confessed today that he killed Earl Gentry, former Indiana Klux Klan leader, according to Sheriff Joseph Lange.

The sheriff said that George King, 35, admitted that he shot Gentry for \$60 "and a million dollars worth of satisfaction."

King's capture and confession came a few hours after Mrs. Carrie Gill, 58-year-old widow, confessed that she planned Gentry's death because she was "deathly afraid of him."

## ASKS TO BUY TEETH

EL PASO, July 5 — David Stern of Hollywood, Calif., has asked permission to buy gold teeth from El Pasoans. He said he would sell the teeth in turn to the U. S. mint.

## THOUSANDS AT LAKE CISCO TO ENJOY FOURTH

The thousands that milled about the Lake Cisco recreation area under a broiling July sun yesterday, numbered what was said to be the largest attendance that any Fourth of July program at the lake has drawn. The peak of the attendance was reached after night fall when the coolness drew additional hundreds who take their Independence day entertainment preferably without sunshine. Estimates of the crowd ranged from 6,000 to 10,000.

The political addresses in the park, a program that ran almost continuously from 10 a. m. until 6:30 p. m. brought together many hundreds who braved the heat to hear the issues of the campaign discussed. Most of these sat on benches before the concrete bandstand over which canvas had been stretched, but loud speaker systems shouted the words of the orators to all corners of the park and groups of listeners collected under every clump of trees to listen.

Tom Blanton, congressman from the 17th district, and one of his two opponents, Oscar Chastain, Eastland, led off the afternoon program. Blanton introduced a radical change in his campaign tactics this year by confining his remarks entirely to his own record and pleading for re-election on the argument of the great influence of his seniority.

## Discussed Record

Chastain discussed his own record as a state representative and particular issues of national importance upon which he felt the present race has bearing.

Following Blanton appeared Joe Bailey Morris, brilliant boy orator who thrilled the crowd with an eloquent appeal for the election of Joe W. Bailey, Jr., as U. S. senator. Phil Overton, Lubbock, appeared in behalf of Maury Hughes, candidate for governor, and Mr. Hilliard spoke in the interest of Jimmy Allred's gubernatorial campaign. Last to appear on the program were Victor B. Gilbert, who spoke for Lon Smith, candidate for re-election to the Texas Railroad commission, and Milburn McCarty, Eastland, representing Walter Woodward, Coleman, candidate for attorney-general.

## E. P. CRAWFORD TELLS ROTARY OF CONVENTION

E. P. Crawford, delegate from the club to the convention of Rotary International at Detroit, Mich., reported to the Cisco club today upon aspects of the world-wide gathering of Rotarians in which the local members were interested. His was the principal feature of the program which was marked with the beginning of a new regime, new officers talking over the club direction from the administration of past-President Phil Pettit without formality.

President Benny Butler announced the following committee set-up to conduct the club affairs during the next 12 months:

Officers are board of directors—B. A. Butler, president; J. C. McAfee, vice president; J. E. Spencer, secretary; O. J. Russell, treasurer; P. Pettit, E. L. Graham and E. P. Crawford, directors.

Club service—E. P. Crawford, J. M. Bird, J. E. Spencer, J. J. Collins, R. N. Cluck, J. B. Cate and P. Pettit.

Vocational service—J. Pettit, P. P. Shepard, J. Stuart Pearce and J. C. McAfee.

Community service—J. M. Bird, R. L. Pensler, Garland Nance and F. D. Wright.

Classification and membership—J. E. Spencer, F. D. Wright and O. S. Leveridge.

Program and entertainment—J. B. Cate, O. J. Russell and E. L. Graham.

Attendance—J. J. Collins.

Fellowship—E. P. Crawford and Phil Pettit.

Boys work and student loan fund—R. N. Cluck, O. S. Leveridge and J. M. Bird.

## Misjudged Currents

The pilot of the ship said that the jump had been gauged by a strong south wind on the ground and the ship maneuvered into a position from which that wind would drift Bannister into the lake, but aloft a stiff north wind was blowing which carried him too far south before the lower current was entered.

The car dash through the blazing wall, performed on the plateau just above the city zoo, was the most spectacular stunt. Young Bannister drove his Ford car through the flaming barrier at 55 miles, setting

## MEDAL FOR SAVING DOG

BRIDGETON, N. J., July 5 — Because he risked his life to have his dog, Oscar Kellum, 76, was given a silver medal by the National Humane society. Kellum lost a leg when he dashed in front of a freight train and saved his dog, an 11-year-old pedigreed English setter.

## REUNTED

NEW BURG, Wis., July 5 — Two brothers who parted here in 1874, met at Brantton, Mich., the other day for the first time in 60 years. Peter Igel was 21 when he bid goodbye to brother Math, 12. Their ages now are 81 and 72.

## Divorce-Seeker

Wife of a member of the socially prominent Drury family of Washington, D. C., Mrs. Peter Drury is shown as she appeared in New York county court, where she is seeking a divorce. Her husband is a noted aviator and sportsman.

## ALCATRAZ WILL BE US DEVIL'S ISLAND JULY 20

By HENRY SUPER

United Press Staff Correspondent

SAN FRANCISCO, July 5 — Alcatraz Island, a penitentiary in San Francisco bay from which it is said there is no possible escape, will be taken over July 20 by the department of justice. The most desperate of this country's criminals will be imprisoned there.

Formerly a military prison, this 12 acres of jutting rock surrounded by swiftly flowing currents is expected to be used for incarceration of Harvey Bailey, George (Machine Gun) Kelly, Albert Bates and other desperadoes, who now are in the federal prisons.

Transfer Preparations

On June 10, seven officers at the federal penitentiary annex in Leavenworth, left for San Francisco where they began preparations for the transfer.

Alcatraz Island, despite its 18th century appearance, is equipped as one of the most modern of prisons. Popular belief had it that the time the government announced it would use the island, that Alcatraz would be a "Devil's Island."

In the sense that Alcatraz isolates its prisoners in much the same manner as the French penal colony in the Caribbean, this belief is true. But the similarity stops at that point.

Sanitary Prison

Department of justice officials say Alcatraz is sanitary and healthful; the original Devil's Island is believed to be the opposite.

Alcatraz has mild weather the year round; the French prison has tropical heat and rains throughout the year.

Few persons outside of prisoners and officials ever have set foot on Alcatraz. San Franciscans know it is a prison that from the shore looks like a medieval fortress. Swift currents sweep around the rocky islands a mile and a half from the mainland.

Spanish Fortress

Spaniards, first to use the Golden Gate had a fortress on Alcatraz. Prisoners working around the island continually dug up old gun placements and the rock is said to be honeycombed with tunnels.

The island, up to now, has been principally used as a disciplinary barracks for erring soldiers of the Pacific division. Out of some 12,000 federal prisoners in government institutions and 6,000 being boarded in state institutions, only the worst will be sent to Alcatraz, it is understood.

## Last of 4 Bus Wreck Dead Is Identified

FORT WORTH, July 5 — Southwestern Greyhound Bus lines officials today said the last of four bodies taken from a wrecked bus at Lancaster, Texas, Tuesday night, had been identified as that of Elmer Kienzle, 22, of New York.

Kienzle was identified by an Austin, Texas youth with whom he stayed while attending a missionary meeting there, officials said.

## Revival Begins at Bluff Branch Sat.

A revival meeting will begin at Bluff Branch school house Saturday evening, July 7, at 8:15. It was announced this week. The preaching will be done by Arch Gibson, and music will be provided by Nazarene orchestra and quartet. All surrounding communities were invited to participate.

## FERGUSON SAYS LEGISLATURE TO MEET IN SEPT.

DALLAS, July 5 — Former Gov. James E. Ferguson announced here today that Gov. Miriam A. Ferguson definitely had decided to call a special session of the state legislature shortly after September 11.

Alarmed over continued drought conditions, Ferguson said the governor will ask the legislature to provide for issuance of the remaining \$9,500,000 worth of state relief bonds.

The session will not be called until the run-off primary is out of the way and the state democratic convention, set for September 11, is over, Ferguson said.

But for the election, he intimated, the session would be called sooner.

"If the drought continues two weeks more there will be 200 counties needing relief, Ferguson asserted, instead of the 96 now on the federal list.

"The condition is now statewide and only five or six-inch rain can help. Even a soaking fall over the state can't help the corn crop now.

"Texas will be faced with the most serious situation in its history if the dry spell continues much longer, coming as it does on top of a worldwide depression.

"The situation will be worse even than the blue days of last winter, for any country that doesn't make a corn crop is in adversity."

In travelling from Travis to Hill county yesterday, Ferguson said, he saw no cotton that would make over a bale to 15 acres, or any corn that would make five bushels to the acre.

## Market Begins Era Under Commission

WASHINGTON, D. C., July 5 — The gong which ushered in the day's trading on the New York Stock Exchange today rang in at the same time a new era in the history of the exchange and of many other phases of American business as well.

The opening of business at 10 o'clock marked the first attempt of the market to do business under the federal regulations imposed on it by the stock market control bill.

Regulation through a five-man commission became an actuality as the result of President Roosevelt's action Saturday in naming the five men who will supervise the securities market.

## WORK STARTED ON REBUILDING OF HIGHWAY 23

First men went to work upon the project for reconstruction of Highway 23 south of Cisco to Romney last week, following approval by the federal bureau of roads of the contract awarded Womack-Henning Const. Co., Abilene, by the state highway commission. The company's bid was slightly in excess of \$78,000. The contract calls for reconstruction of between seven and eight miles of the highway, laying a 20-foot asphalt pavement with some changes in route to eliminate curves.

One of the changes will be made at Bettis hill, a mile south, where the first crew of eight or ten men was put to work Thursday moving dirt.

This week the force employed will be increased, with most of the new workmen going to the rock crusher located on the Garrett farm, northwest of Pleasant Hill.

All laborers must be engaged through the Eastland county federal employment agency at Eastland, it was said.

Between four and five months work will be required to complete the project, which is one of four major federal emergency highway construction projects in the county. One at Eastland and another at Ranger have been completed.

Meanwhile, the rebuilding of the Leeway cut-off road north of Cisco to a junction with Highway 87, has been suspended awaiting further appropriations by the state highway commission. The state is doing this work alone, and out of maintenance funds.

BELOW NORMAL PRODUCTION OF COTTON IS SEEN

AUSTIN, July 5.—In a report on the cotton industry of Texas and the United States, Dr. A. B. Cox, director of the bureau of business research at the University of Texas, who is internationally known as a cotton economist says that the prospective production of cotton in this country this season is below normal, and that less than ten million bales is indicated for 1934.

The consensus is that the American average this season is under 20,000,000 and is probably about 20,000,000, the lowest acreage since 1906, Dr. Cox said. It is generally believed also that the condition of the crop is below normal, and that a crop of less than ten million bales is in prospect. This situation is somewhat offset at least by the certainty of considerable increase in acreage in foreign cotton-producing countries and a gradual shift in foreign-consuming countries to grow cotton rather than American. In a report to the commission of inquiry on national policy in international economic relations at Houston, W. L. Clayton, of Anderson, Clayton & Company of Houston, Clayton's company factors predicted that the possibilities are that by the end of 1934 other cotton-growing countries will have increased their acreage as much as the United States has decreased its acreage. Artificial restriction may revive the patient, but permanent cure for American cotton production lies in improved quality production at lower costs, improved marketing especially in the new markets, and lowering tariff burdens.

On June 1 the cotton balance sheet showed 9,214,000 bales of cotton in the United States compared with 10,935,000 bales in May and 10,337,000 on June 1 last year. June 1, 1930, the supply was 9,574,000 bales. European port stocks and afloat to Europe was 1,241,000 bales on June 1, compared with 1,669,000 bales last year, or a decline of 233,000 bales. Accordingly, there has been a decline in balance of cotton in the United States, plus declines in American cotton in and afloat to European ports of 1,569,000 bales.

Based on average relations between changes in supply and index prices, this decrease in supply should cause the price to advance about 27 1/2 points in the index price in June last year. When this is converted to present price levels and modified by the spinners' margin, the indicated price of New Orleans spot cotton is about 14 cents. Calculations based on percentage changes indicate a price of about 12.50 cents. The supply-price change places the price slightly below 12 cents.

Foreign Acreage Increase  
World cotton production during the year 1933-1934 has been approximately 25,000,000 bales, compared with 23,800,000 last year. Dr. Cox continued, "United States production was decreased about 40,000 bales, which means that foreign countries increased their production about 1,900,000 bales. The chances are that the United States will increase its 1934-1935 crop by at least 2,500,000 bales to 10,000,000 or more. Indications are that foreign acreage will be increased at not over 10 per cent. However, this means that total foreign production for the year 1934-1935 will exceed United States production for the first time in over one hundred years, leaving out the Civil War period.

World's consumption of all cotton for the year 1933-1934 will be about 20,000,000 bales of which about 15,000,000 bales will be American. Thus the world's carryover of all cotton bales fair to be reduced about 500,000 bales, whereas the carryover of American cotton will be reduced about 1,300,000 bales. The world carryover of American cotton August 1 will be approximately 10,500,000 bales. A 19,000,000 bale crop this year will give a world supply of American cotton for the year 1934-1935 of 20,500,000 bales, compared with a supply of 24,500,000 for this year and about 26,000,000 a year ago.

Spinners' ratio margin declined slightly from 165 during April to 164 during May. The price margin declined seven points to 17 1/2 in May from 24 1/2 in May. During May last year the ratio margin was 162 and the price margin was 37 1/2."

REICH

Mr. and Mrs. A. O. Vanderford and daughter, June, of Douglas, Ariz., Mrs. Donna and daughters of Douglas, Ariz.; Mr. and Mrs. B. S. Greogery and children of Holiday; Mrs. Sam Fudge and Mrs. Willis and son of Albany spent Friday night in the Vanderford home.

Mr. and Mrs. Roy Horn and children of Cisco and Mrs. Floyd Rains and children visited Mr. and Mrs. George Horn Saturday.

Edward Callerman was the Sunday night supper guest of Robble Hazlewood.

Mr. and Mrs. Abe Alvey, Mrs. F. O. Schaefer and Mrs. Clarence Callerman visited Mr. and Mrs. Callerman Sunday.

Miss Addie Mae was the Saturday night guest of Wynette Rains. Mr. and Mrs. Jessie Franklin of Eastland visited Mr. and Mrs. Clarence Callerman Sunday.

Mr. and Mrs. B. D. Vanderford, Rex and Misses Fredrick and Grace Follard spent Sunday with Mr. and Mrs. Ted Horn in the Dan Horn community.

Mrs. F. O. Schaefer visited Mrs. Jim Boatman Monday evening. C. V. Horn of Tox visited his brother George Horn Sunday.

of Baird spent Sunday with Mr. and Mrs. R. N. Hazlewood. Mr. and Mrs. A. Reich visited Grandma Wende in the Lutheran community Sunday evening.

MORRISON, Ill., July 5.—On the theory that there's nothing like trying to pigeons strove to hatch a duck egg. They had all manner of difficulty covering the egg and alternated at the task.

Lower Cost Per Mile With Dayton Thorobred A Written Guarantee

Table with columns for TRUCK and BUS, Passenger Car, 4-Ply 16 Mo., 6-Ply 18 Mo., and prices for various tire models like 4.40x21, 4.50x20, etc.

TIRES AS LOW \$3.65 30x3 1/2 TUBES 87c

The above prices are net cash with your old tire. DIXIE UNIVERSAL SLIP COVERS. Coupe \$1.20, Sedan \$1.80, Coach \$2.25. Necessary Tacks and Fasteners included.

VOTE FOR THOMAS L. BLANTON For Congressman 17th Congressional District of Texas

This advertisement paid for by friends and supporters of Tom Blanton and run without his knowledge or consent because he remained at his post of duty in Washington looking after the people's interests while his opponents were campaigning against him.

REMAINED AT POST OF DUTY. Since reaching Washington last December and until Congress adjourned, Thomas L. Blanton was actively engaged in his official duties, working long hours each day, and giving little or no thought to his approaching campaign for re-election. Since January 1 Mr. Blanton's opponents have been actively campaigning against him, but notwithstanding the Judge Blanton remained at his post of duty, faithfully and diligently protecting the interests of his constituents and with an abiding faith that under such crucial crises as daily confronted our President, the people at the polls would take good care of the man who would support the President and stay on the job, and "Carry On" at his own personal sacrifice.

SENIORITY IN CONGRESS COUNTS MOST. John Garner is now vice-president because Uvalde kept him in Congress 30 years; Henry Rainey is now speaker of the House because Illinois kept him in Washington 30 years. Jo Byrns is now Democratic majority leader because Tennessee has kept him in Congress 26 years. Buchanan and Blanton now help to handle all appropriations, and Hatton Sommers controls the Judiciary committee, Sam Rayburn the Interstate and Foreign Commerce committee, Fritz Lanham the Public Buildings Committee, and Marvin Jones the Committee on Agriculture, which means much to their districts and Texas, because their districts have kept them in Congress.

In Congress seniority means everything and Tom Blanton's ripe experience, his knowledge of the rules and precedents, his intimate knowledge respecting all government business, and his Appropriations Committee membership are valuable assets his district has already paid for and acquired so why throw them away by replacing him with some virtually unknown, inexperienced and untried man. Tom Blanton is needed in Congress not only by his district and his state, but by the nation. Read the following excerpts from editorials and letters from over the country praising him for his valuable services and asking for a continuation of them.

EDITORIAL By Crandal Mackey Former Commonwealth Attorney of Va. (The Chronicle, Clarndon, Va.)

OH! RARE TOM BLANTON. The recent statement of Frederick Vinson, chairman of the Ways and Means Committee of the House of Representatives, that Congressman Thomas L. Blanton of Texas would not be overpaid if his salary were raised to fifty thousand dollars per year, is no more than others in congress have said about that remarkable man.

Blanton during his long service in congress has blocked more bad legislation than any other member. Nothing escapes his vision. He has put through more good legislation than any other member.

Blanton is always in his seat when congress opens and has never been known to miss a roll call. He is always the first to arrive at a committee meeting, and always knows to the greatest detail every matter that comes up for consideration.

It was Blanton who discovered that insane World War veterans were being robbed by many of those appointed their guardians. In one case a guardian for 155 insane World War veterans was charged with having gotten more out of their estates than they had gotten. Blanton got legislation through putting the matter of the estates of insane World War veterans under the Veterans Bureau and knocked out the exorbitant fees that unconscionable attorneys, acting as guardians, had been getting.

There is no man in congress more familiar with parliamentary laws, practice, and procedure, and Blanton uses this knowledge often with surprising results. Blanton knows more ways for obstructing and defeating bad legislation than any member of the House. His achievements along that line would fill a big book. He is the terror of the treasury raider.

With Blanton everything is open and above board. With him candor is the courage of the soul. To know him is to hold him in the highest esteem and respect. Few men in public life are as unselfishly working for the good of others. His example is exalting and inspiring to those who seek honesty and purity in public and private life. His influence in congress has steadily grown until he is now one of its most powerful leaders.

EDITORIAL In The Washington Post Wednesday, May 23, 1934

George Terrell is going back to Texas when Congress adjourns, and he is not coming back. He decided last night it is not worth the candle.

"At my age, I could not hope to remain in Congress long enough to reach a prominent position on any of the important committees," he told newspapermen.

"And no one can command much influence until he has been in Congress 10 years or longer and has become chairman of some important committee."

When George Terrell who has been Commissioner of Agriculture for the State of Texas, and has held other important positions after serving here two years, admits that a new member is helpless, and cannot expect to perform service of value until he has stayed here ten years, it is quite an argument against sending a new man to Congress.

THANKS 17th DISTRICT FOR BLANTON. Congressman Clarence Cannon, of Missouri, Chairman of the Committee handling certain appropriations, with 23 years of experience in the House of Representatives, and author of the new Revised Rules and Precedents in 12 Volumes, in his recent

speech in the House on April 25, 1934 (Record, page 7792) said: "Mr. Chairman, no reference to the personnel of this Congress would be complete without mention of the other of the two brilliant Texans to whom I have just referred. It has been my privilege to serve in various capacities on the floor of this House for 23 years this month. In that time I have observed no Member who has rendered abler or more conscientious service than the gentleman from Texas, Judge Blanton. In the legislation which he has supported, in the legislation which he has opposed, and especially in the vast sums of money which he has saved the Federal Treasury, no Member of the House in the last quarter of a century has surpassed the wise and courageous and resourceful Gentleman from Texas, Thomas L. Blanton. (Applause.) And speaking in behalf of the people of my State—and expressing, I am certain, the sentiments of those of every other State in the Union—I desire to thank the citizens of the Seventeenth District of Texas for sending Judge Blanton here and keeping him here all these years. His services to the House and to the country have been invaluable." (Applause.)

Monday, June 12, 1933 HOUSE OF REPRESENTATIVES Washington, D. C., May 26, 1933. Hon. Thomas L. Blanton, House of Representatives, Washington, D. C. My Dear Colleague: As I told you on the floor of the House a few days ago, I am planning to retire from Congress the 1st of next January to accept a judgeship in my own State; but at the time I told you of my contemplated plans it had not occurred to me that it would be but a few days until our active service together shall have ended.

Under these circumstances I cannot refrain from expressing to you what is in my mind and heart concerning your services in Congress as a Representative of a great constituency and to reaffirm my appreciation of your never-ceasing diligence, industry, and fearless devotion to duty at all times and under all circumstances. In my public and business career of nearly 40 years I have not known any man more faithful and devoted to the interests of his country than you have been in all these trying years of these terrible economic times in which we are living.

Often have I been amazed at not only your parliamentary skill and cool, deliberate judgment, but I have wondered at your never-failing skill and ability in overcoming the opposition. I wanted to say to you from the very depths of my heart and in all sincerity that, in my judgment, no district in the United States ever had a more faithful or honorable Representative in the Congress than the district you do so ably represent.

I do not know your plans for the future, but in parting may I say that I shall devoutly hope you may continue to represent your district here; that the masses of the common people of America may continue to have at least one great champion of their cause continuing in Congress; and that the Treasury, where the people's money is deposited, may have a real watchdog.

With kind regards and best wishes, I shall continue always, Very cordially and sincerely yours, A. J. MAY.

HOUSE OF REPRESENTATIVES Committee on Labor Washington, D. C., May 31, 1933

Hon. M. B. Harris, Adjutant Vernon D. Hart Post, No. 100, The American Legion, Stamford, Tex. Dear "Buddie": Because I am a veteran of the World War, am a member of the Veterans Affairs Committee, am Chairman of the Committee on Labor, and am thoroughly familiar with all veterans' legislation here, your Congressman has just shown me your letter to him of May 28. You condemn him because he backed the President and voted for the economy bill, and I note your threat that you intend to fight him and the President, and unless Blanton appoints you postmaster, you will use your influence as district committeeman of the American Legion to defeat him for re-election.

Thomas L. Blanton and I have served together here for years. He has always been a loyal, staunch friend of the veterans of all wars. When he voted for the President's economy bill he was assured that the Bureau would do no injustice to any veteran. In the last Congress Blanton was the third Member to sign the petition that forced the Patman bill to be passed in the House to pay the bonus in cash to veterans.

At his own expense Blanton spent months investigating Col. Charles R. Forbes, former Director of the Bureau, whom the Department of Justice after having indicted and sent to the penitentiary. At his own expense Blanton investigated numerous hospitals in the United States, including Old Hospital No. 25 at Houston, and on one day caused about 200 tubercular patients to be transferred to Prescott, Ariz., and Fort Bayard, N. Mex. At his own expense Blanton made the Staples and McNorris investigations to insure justice to veterans. At his own expense Blanton spent his entire vacation investigating Col. Frederick A. Fenning, and he personally conducted the trial of Fenning before the Judiciary Committee, and forced Fenning to resign and make retribution to several hundred shell-shocked veterans put in insane asylums and robbed by Fenning. At his own expense Blanton spent several years investigating the inequities and injustices carried on in the Bureau by Maj. William Wolff Smith, general counsel, and conducted the trial of Major Smith before the Committee on Military Affairs, forcing Smith to resign, and to return to the Government money he had unlawfully collected.

I mention the above to show that you are in error when you say that Blanton "has had a change of heart." Thousands of veterans scattered in every part of the United States have appealed to Blanton, and he has never yet turned one of them down. Blanton is helping now a committee that is conferring with the President to remedy injustices, and he is a personal friend of mine, and of Patman, Rankin, Browning, Jeffers, Mrs. Rogers, and others here who handle veterans' affairs.

Very sincerely yours, WILLIAM P. CONNERY

The Speaker's Rooms, House of Representatives, United States, Washington, D. C., April 15, 1933.

Hon. Thomas L. Blanton, House of Representatives. Dear Tom: Congress has been running at a very high rate of speed. I am warned by the House physician that a number of members are overtaxing themselves.

I have been watching you and your work. You are overworking. You are rendering a splendid service. I know of no one who works harder than you. For the next few weeks there will not be so many important measures coming up, so I suggest that toward the end of the month you take a rest. I sincerely hope that you will accept this suggestion in the spirit in which it is intended.

Very truly yours, Henry T. Rainey, Office of the Majority Leader, House of Representatives, United States, Washington, D. C., June 5, 1934.

Hon. Thomas L. Blanton, House of Representatives, Washington, D. C. My Dear Tom: As we approach the close of the session, I do not wish to fail to express my deep appreciation for your kindness and valuable support.

In this connection, may I say that during all my long service I have never served with a Member who was more diligent in his effort to render real service to the people, not only of his district but of the entire nation, and who watched appropriations and expenditures more closely than yourself. It will never be known just how much money you have saved to the people by your watchful care, your ability, as well as your close knowledge of parliamentary procedure and governmental affairs. It has enabled you to render a real and a great service.

With best wishes, I am, sincerely yours, JO BYRNS, House of Representatives, United States, Committee on Appropriations, Washington, D. C., June 17, 1933.

Hon. Thomas L. Blanton, House Office Building. Dear Tom: I am familiar with the splendid record you have made in Congress and as a member of the Appropriations Committee for economy, and I wish to join with our Democratic majority leader, Hon. Jo Byrns; Democratic Chairman Cannon, of the subcommittee; and Hon. John Boylan, of New York, in their commendation of your services.

You will recall that just before the Republican administration expired, on March 3, 1933, the District appropriation bill was pending in conference and you refused to sign the conference report because you thought the amount carried in the bill constituted too great a burden upon the taxpayers of the Nation. The night before Congress adjourned you led the fight against this bill and succeeded in defeating the approval of the conference report. Your act in that fight has been vindicated by the President and by the Democratic Congress, who reduced the Budget and this appropriation bill in accord with your contentions, thus saving over \$6,000,000 in this bill alone.

I am not unmindful of the fact that you and I have never agreed upon prohibition, that you are a pro and I am an anti, but this question should be relegated to second place when it comes in conflict of the crying need of reduction and retrenchment of the enormous expenditures of our Federal Government. I commend you for your many accomplishments and your great energy in the interest of economy. Your friend, JAMES P. BUCHANAN, Chairman Committee on Appropriations.

HOUSE OF REPRESENTATIVES, United States, Committee on World War Veterans' Legislation, Washington, D. C., June 23, 1933. Hon. Thomas L. Blanton, House Office Building.

Dear Tom: When you go home, I want you to tell those service men for me that they will make a serious mistake if they turn against you after all you have done for them, and especially will do themselves an injury if they help to deprive themselves of the benefit of your services in the future. Assuring you of my very kindest regards and best wishes at all times, I remain, Sincerely your friend, J. E. RANKIN, Chairman of Committee.

From Postmaster General James A. Farley: Democratic National Committee, Washington, D. C., June 16, 1933

Hon. Thomas L. Blanton, House Office Building. My Dear Congressman: I want you to know that I greatly appreciate the support you gave the administration during the session just closed. I feel certain the people of the country generally realize that more beneficial legislation was passed at this session of Congress than ever before in the Nation's history.

For the part you played in these remarkable accomplishments I want you to know that I am personally grateful. With best wishes, I am, sincerely, JAMES A. FARLEY, Chairman.

United States House of Representatives Washington, D. C., May 27, 1933. Hon. Thomas L. Blanton, House of Representatives.

My Dear Mr. Blanton: I realize you hardly know me, as my first service in Congress began last December, when I succeeded Judge Crisp as Representative from the Third District of Georgia. I have carefully considered and critically analyzed all proposed legislation and listened attentively to practically every argument and colloquy occurring in the House since my entry into Congress, and it is my candid opinion that your untiring efforts in behalf of economy during this period of our greatest distress deserves grateful recognition by the Nation and the plaudits of our people.

May you live long to continue the splendid service which so few are disposed or capable of rendering. Very truly yours, B. T. CASTELLOW, Political Advertising.

Thursday, July 5, 1934.

# PRODUCTION OF ELECTRIC POWER VIA HIGH SPOT

**EDITOR'S NOTE:** There follows the sixth story in a series by Arthur E. Morgan. It tells why TVA power program is being used as a "yardstick" to judge electricity rates elsewhere in the nation.

By DR. ARTHUR E. MORGAN  
Editor of the Tennessee Valley Authority

**KNOXVILLE, Tenn., July 5**—At present time electric power is one of the live issues of social planning. Everyone is familiar with the closures of the federal trade commission, the widespread endeavor to keep secret and open propaganda to control the thinking of the nation on this issue.

**Interested in Electric Power**—The Tennessee Valley Authority interested in the electric power on several counts.

First, if a case of public ownership and operation can be established, with fully open and comparable cost accounts and records, may be provided with a "yardstick" by which we may discover if electric power actually ought to cost. It is not only the private utilities that will be provided with a yardstick. Public ownership will be on trial. One of the greatest uses of our national life is the electric system in public office. Unless it can be overcome it threatens the very life of our democracy. If public generation and distribution of power can be kept free and clear from the spoils system, there is no reason why it cannot be economical and effective.

**Another Objection**—Another object of the TVA is to make this region and the country as a whole more fully aware of the possibilities of electric power in enlarging the freedom and life of modern life in the home and on the farm. This can only be done with cheap power, from which speculation and exploitation have been removed. The electric power business is one of the simpler businesses of our country. People will use electrical power if rates are low enough. I believe that the whole power industry needs to learn the lesson that the general public of both purchaser and producer of electrical power will be increased if power can be furnished at the rate where it will be most generally used.

**3 SETS OF TWINS**  
BERDEEN, Wash., July 5—Reported as "doing nicely," "Bossie," now owned by a farmer near here, is recuperating after the birth of a third set of twins in the last few years.

## DESDEMONA

Mr. and Mrs. A. B. Henslee and daughter, Kathleen, and baby, Sarah Ann, drove up to Caddo Sunday and visited their daughter, Mrs. Robert Dawley and family. I. N. William made a business trip to Eastland Monday. J. E. Heeter and E. T. Sterling are now working for the Lone Star Gas company on an oil well nine miles from Cisco.

Mr. and Mrs. Dick Cutting came in Saturday night from Plainview and will visit her parents, Mr. and Mrs. N. D. Gallagher until after the fourth. Mr. Cutting works in a refinery at Plainview. Mrs. E. B. Stewart and children of Cromwell, Okla., are visiting her sister Mrs. Roy Rushing and other relatives.

Mrs. Gifford Acrea is spending this week at Ranger with her parents. J. A. Anderberg, of Olden, came down Monday, to work in the place of R. J. Krapf, Magnolia gauger, who will be on his vacation for ten days. Mr. and Mrs. Krapf expect to visit their sons at Gladewater for several days.

Kelly Salyer and family of Kilgore are here visiting his mother and family.

Mrs. Z. L. Howell and two daughters, Misses Ruth and Lois Howell, are visiting another daughter at Eddy.

The many friends of Miss Alva Brown will be glad to know that she has improved enough to be able to come home from Dallas where she has been in a hospital several weeks.

Mrs. I. N. Williams, accompanied by Miss Mollie O'Rear drove up to Ranger Saturday and had some dental work done at the West Texas Clinic hospital.

Mrs. J. H. Rushing, Sr., returned Saturday from Arp where she had been visiting her niece and family. Her son, Weldon Rushing, remained there as he has a good job with the Humble Oil and Refining company. For the past two years Weldon has been athletic coach and history teacher in Desdemona high school and was very successful in his work here. His many friends and school pupils regret that he has left the school work for work that is better paying. Mr. Rushing has not decided whether she will move to east Texas or remain here but her many friends hope she will stay here.

John Arnold and family left Saturday for a fishing trip on the San Saba.

Mr. and Mrs. Earl Daniels of Arp stopped here Saturday for a short visit with their cousins, Mr. and Mrs. Ford Ried. They were going to Breckenridge to visit his parents. They lived here several years ago and have many friends here.

McKinney Gibson of Dallas, is here for a short visit with his parents, Mr. and Mrs. Joe Gibson. Ed Curry, of Pioneer candidate for representative from the 107th district was here Wednesday in the interest of his campaign. He was

accompanied by Bill Dill of Cisco, one of the pioneer settlers of this county.

Mrs. May Harrison, candidate for re-election to the office of county treasurer was here Friday in the interest of her candidacy.

The sympathy of the community is being extended to Rev. and Mrs. Z. C. Chambliss on account of the death of her sister which occurred suddenly Wednesday night.

On Sunday afternoon a number of friends drove out to Lowell, a few miles east of town and attended the funeral of J. M. Fair, who had passed away at the home of one of his sons Saturday night. For a number of years Mr. and Mrs. Fair lived here and were faithful members of the Church of Christ. Sympathy is extended the sorrowing family.

O. G. Lawson and family of Cisco who are always welcome guests in their former home town, visited old friends here Sunday. Miss Mollie O'Rear went home with them and will remain a few weeks. On Friday night June 29th, Mrs. I. N. Williams entertained her Sunday school class, the juniors of the Methodist Sunday school class with a delightful party at her home. After playing "42" and other games the hostess served delicious ice cream and cake to the following members and friends of the class: Misses Edra Parks, Nell Robert, Agatha Genoway, Boyd Creshaw, Ruth Crenshaw, Latrell McGuire, Frances Arnold and Messrs. Robert Howell, Glenn Maltby, John Welder, Raymond Keith, Dale Keith and Raymond Stark of Olden.

Among former citizens of our town to make a short visit here were Mr. and Mrs. R. V. Nabers and two daughters, Misses Dorothy and Mary. They have lived at Pecos since leaving here several years ago. They stopped Thursday for a few hours with his brother Tom Nabers and wife. Many friends are glad to see them.

Rev. Z. L. Howell and Mr. and Mrs. W. E. Brown attended a banquet at the Methodist church at Eastland Monday night. The banquet was in honor of the new presiding elder of Cisco district, Rev. Senabough who was sent to take the place of Rev. C. Q. Smith who is now president of McMurry college at Abilene. The other honor guest was Bishop Boaz who will preside over the Texas conference this fall. Mrs. R. L. Black is spending this

week in Brownwood with her daughter, Mrs. Eilan Fagan, who was taken from her home at Comanche to a Brownwood hospital Thursday. Mrs. C. T. Terrell of Harlingen, came Saturday to visit her mother, Mrs. A. C. Brown and her brothers and sister. Mrs. R. C. Speegle and children of Dothan spent the week-end here with her mother, Mrs. W. M. Weed. Mrs. Jack Starr is at Scranton this week visiting her mother. Miss Vera Harris went to Cisco Monday. J. D. Livingston left for Odessa Saturday. Johnnie Weed is home from Honey Island. Miss Addie Tarver was the guest of Miss Stella Horn Saturday night and Sunday. Mrs. Henry Rice and children of Carbon spent this week with her father, W. R. Avery and other relatives here. Mr. and Mrs. Claude King and children of Putnam were guests of Mr. and Mrs. Clyde King Sunday. Mr. and Mrs. Ervin Yeager entertained the young people with a party Friday night which was well attended and enjoyed by all. Lewis Weed has returned from a visit to California. Mrs. Jeff Honea and children of Eastland spent last week with her mother, Mrs. Warren Jessup. Mrs. Jimmie Beard and son, Wayne Mrs. Benham Hull and children and

grandparents, Mr. and Mrs. J. J. Livingston. Sam Hale of Bluff Branch was a Dan Horn visitor Saturday. Miss Willie Weed is on the sick list. Mrs. R. C. Speegle and children of Dothan spent the week-end here with her mother, Mrs. W. M. Weed. Mrs. Jack Starr is at Scranton this week visiting her mother. Miss Vera Harris went to Cisco Monday. J. D. Livingston left for Odessa Saturday. Johnnie Weed is home from Honey Island. Miss Addie Tarver was the guest of Miss Stella Horn Saturday night and Sunday. Mrs. Henry Rice and children of Carbon spent this week with her father, W. R. Avery and other relatives here. Mr. and Mrs. Claude King and children of Putnam were guests of Mr. and Mrs. Clyde King Sunday. Mr. and Mrs. Ervin Yeager entertained the young people with a party Friday night which was well attended and enjoyed by all. Lewis Weed has returned from a visit to California. Mrs. Jeff Honea and children of Eastland spent last week with her mother, Mrs. Warren Jessup. Mrs. Jimmie Beard and son, Wayne Mrs. Benham Hull and children and

## DAN HORN

Sunday school was well attended Sunday morning. Rev. McClain of Cisco preached. Rev. Clyde King will preach next Sunday morning. All are invited to attend.

Mrs. Charley Fowler and Mrs. Jack Cooper of Cisco visited their aunt, Mrs. Golda Nix Sunday. Mrs. Rhyne Harris and daughters and J. B. and Estel Harris of Best and Dick Avery of Wehner are visiting relatives and friends here.

Mrs. Jasper Stuteville and children and Mrs. Mary Herring of Albany spent Monday with Mr. and Mrs. J. G. Stuteville and boys.

Miss Key Livingston from Breckenridge spent this week with his

grandparents, Mr. and Mrs. J. J. Livingston. Sam Hale of Bluff Branch was a Dan Horn visitor Saturday. Miss Willie Weed is on the sick list. Mrs. R. C. Speegle and children of Dothan spent the week-end here with her mother, Mrs. W. M. Weed. Mrs. Jack Starr is at Scranton this week visiting her mother. Miss Vera Harris went to Cisco Monday. J. D. Livingston left for Odessa Saturday. Johnnie Weed is home from Honey Island. Miss Addie Tarver was the guest of Miss Stella Horn Saturday night and Sunday. Mrs. Henry Rice and children of Carbon spent this week with her father, W. R. Avery and other relatives here. Mr. and Mrs. Claude King and children of Putnam were guests of Mr. and Mrs. Clyde King Sunday. Mr. and Mrs. Ervin Yeager entertained the young people with a party Friday night which was well attended and enjoyed by all. Lewis Weed has returned from a visit to California. Mrs. Jeff Honea and children of Eastland spent last week with her mother, Mrs. Warren Jessup. Mrs. Jimmie Beard and son, Wayne Mrs. Benham Hull and children and

grandparents, Mr. and Mrs. J. J. Livingston. Sam Hale of Bluff Branch was a Dan Horn visitor Saturday. Miss Willie Weed is on the sick list. Mrs. R. C. ### BORAH AS AN "IDEALIST AND DREAMER"

Sen. William E. Borah of Idaho celebrated his 69th birthday by handing out an interview to the Washington correspondents. First he predicted the European governmental debts to the United States will be paid eventually "if America refuses to cancel them." Second, the foreign debts will be paid "because the great nations of Europe cannot let history record their repudiation." Third, the next great phase in America's economic development will be "a sane distribution of wealth." Fourth, prohibition "may return unless the states master the problem of controlling the liquor traffic." Fifth, "political racketeers are getting into politics because the better element of our people refuse to run for public office." The Lone Eagle knows, if he knows anything, that political racketeers have been playing the game ever since the coming of the republic as an independent nation. Racketeering is as old as the ages in all fields of endeavor. Sixth, he placed this in the record as to the redistribution of wealth: "A quarter of a century of the same trend as the last quarter of a century would leave two per cent of our people in possession of 90 per cent of our wealth." Seventh, "free government, personal liberty economic freedom are impossible under such circumstances. Our institutions, our scheme of civilization depends upon a more equitable distribution of wealth—not through violence or a system of repudiation."

Sen. Borah is a lifelong republican. He is an independent all the time except on election day. On the day when the ballot is the thing he votes the straight republican ticket from top to bottom. He has a record for straight voting. He ever follows the standard of the standpatters on election day and censures class legislation of the standpatters on all other days. There are thousands of republicans who are Borah brothers under the skin when it comes to unwavering loyalty to the bogus trademarks of the two major political parties. "They vote for their own yellow dogs."

### HITLER MORE POWERFUL THAN KAISER

Dictator Hitler is a man of iron with a heart of steel. In his own camp many of his aides or lieutenants were plotting against him. Hitler never hesitated. He gave preemptory orders to "put them away." They were slain without warning. Those who were not slain by murderous gun fire chose the suicide route to the graveyard. Mussolini ruled with an hand. He is a man of quick action. He struck and struck hard when the striking was necessary.

There is no bill of rights in Germany. There is no free speech in Germany. There is no freedom of conscience in Germany. There is no free press in Germany. There are many revolutionary factions with courageous leaders in Germany.

Two of the most powerful dictators in the world today are the absolute rulers of Germany and Italy. Mussolini is the son of a blacksmith; Hitler the son of a house painter. There is another absolute dictator in soviet Russia. Stalin came up from "the ranks of the people." Gone is the house of Hohenzollern; gone is the house of Savoy; gone is the house of Hapsburg; gone is the house of the Romanoffs founded by Peter the Great. What remarkable changes have been made in the world map of nations in the short period of 20 years.

### ACT SIGNED TO STIMULATE BUILDING

President Roosevelt signed the so-called housing bill. It is a measure intended to aid in reviving industry by increasing home construction and repair. A 10 per cent reduction in the price of lumber and building materials has been ordered by the national retail lumber dealers association to aid the F.D.R. housing program. This legislation, or rather the act signed, is calculated to make available several hundred million dollars for new home and modernization through government insurance of private loans for this purpose. The interstate commerce commission has been given power to reduce railroad rates on shipment of building materials. Administration officials said it would be 30 days before the machinery will be complete enough for the lagging construction industry to show any substantial improvement, "but banks were reported to have increased their lending activities in anticipation of the right to insure loans."

Another important measure signed by the president is the act establishing a federal credit union system to make credit more available to people of small means, and still another is the act which imposes taxes upon firearms and machine guns and restricts importation and interstate transportation of these weapons "employed by criminal terrorists to the nation over."

### JOY REIGNS IN THE RAIL WORKERS WORLD

Joy reigns in the rail workers' world. More than 1,200,000 railroaders on July 1 were jubilant over a \$4,000,000 monthly increase in their pay envelopes and the Roosevelt executive approval of legislation which will retire at least 100,000 of their number on pensions this year. Rail brotherhoods worked four years to get the legislation and the pension fund will be created by deduction of two per cent from workers' salaries and four per cent from carriers' payroll to set up a reserve which is expected to consist of at least \$90,000,000 a year. Many of the rail carriers have had retirement pension systems of their own, but the new legislation creates a universal method taking in all carriers. Now a nationwide pension insurance system for the rail workers is an established fact. There is an army of rail workers in the Southwest. They backed Roosevelt and Garner in 1932. They are backing the New Deal policies in 1934.

## UNDER THE DOUBLE EAGLE AGAIN

### Hopkins and His Plan of Ending Unemployment

By HUGH NUGENT FITZGERALD

Harry L. Hopkins is the head of the federal emergency relief set-up of the government. He has a plan for ending unemployment in America. He visualizes a countryside dotted with small factories and the nation breaking away from the theory of mass production. He has expressed the hope that such a decentralization of industry "might be brought about by industry itself along with governmental planning for a reservoir of work that would be tapped in time of need and unemployment insurance guaranteeing security to the industrial worker. He said to interviewers that his idea or proposal would result in lowering the population of large cities, that it would get people out of tenements and into individual homes and that public works should be planned on a long time basis "so arranged as to be expanded to give work at once when an unemployment crisis arose."

Henry Ford advanced this gospel plan of salvation years ago. He has for years championed a system that would cause the countryside to be dotted with small factories and "the nation moving away from mass production." Away back in those marvelous days of republican "never-ending and ever continuous American prosperity" the Ford idea was branded as a Utopian dream by the publicity propagandists of the period who looked upon the wizard of Michigan as an "accident or an incident," who evolved from a little machine shop to Alpine heights and became the third American billionaire. Practical dreamers now and then appear to climb heights and have the last laugh before they pass out of the picture.

### KINGFISH LONG GIVEN WARNING

Kingfish Long has a legislature grinding. Kingfish is said to speak and act through Gov. Allen. There is a bill pending that would tax cotton futures two per cent of the gross receipts of purchases and sales. Of course, all people who read and think know that the New Orleans cotton exchange is one of the most important in the United States. Its directors and members are most militant. They have notified the Kingfish state administration that should the bill be enacted the exchange will move to another state.

Well, Houston would welcome the New Orleans cotton exchange. Galveston might put in a bid. Dallas millionaires might get busy and make a very appealing offer for the prize. As for the Kingfish, to date

he has known how to wield his political bludgeon. A majority of the voters of New Orleans and their leaders are at war with the Kingfish and his program. Kingfish is a very accomplished political trader. He knows how to make contact with the enemy. He knows what he wants and to date he has been able to get what he wants. Speaking of the revival of the old Louisiana lottery the Kingfish speaking through Gov. Allen "has declared war on the legislative proposal." Of course, it is the voice of Allen but the ear of the governor is very close to the speaking trumpet of the Kingfish, a most remarkable man this idol of the hill-billies in the Louisiana red lands country.

### MILLIONS FOR RELIEF OF DROUGHT SUFFERERS

President Roosevelt has issued an executive order allocating \$150,000,000 for relief of drought sufferers in the Middle West. It was his first allocation from the \$520,000,000 appropriation for relief. There are drought sections in Texas. Many Texas counties have been placed on the list. All in all, in the Middle West and the upper Canadian border states relief aid has been given to more than 500,000 people who were facing the pangs of hunger.

as inviting as any resort in this country. Cisco owes the relief administration a vote of thanks for the splendid work that it is doing in improving these areas of recreation.

## Texas Topics

By RAYMOND BROOKS

AUSTIN, July 5 — The drought threat has raised critical problems for relief administration in Texas the next few months.

But if the drought lasts another few weeks and thus greatly minimizes even present crop prospects the situation will not find emergency relief agencies unprepared. The government recently has created an immense fund for use in drought areas, including whole states which have suffered recently, and areas like the Texas Panhandle which have suffered still more.

But putting an adequate drought relief program into effect will be an enormous task.

Already, Relief Dir. Adam R. Johnson has indicated he foresees a larger roster of people on relief when winter begins than in early winter months of 1933. This will be averted, he said, only if the drought is broken and crops are produced.

The drought-area problem, assuming it virtually state-wide, will be flattened out somewhat in the widespread rural rehabilitation program which will follow a Texas survey by federal relief authorities, already in the start for the purpose. This program, intended to move as many rural families as possible into a set-up whereby they will be more self-supporting, will be carried forward regardless of the extent or duration of the dry spell.

Members of the special investigating committee of the Texas relief

commission to look into reports of political activities about state headquarters, and in connection with Travis county relief at the capital have delayed starting their inquiry. They have told people at Austin the dates for taking testimony have yet to be agreed upon.

Members of this committee are Carl Estes, Tyler; Houston Harke, An Angelo, and Bertam E. Giesbeck, Fort Worth. Messrs. Estes and Harke are of the five-member majority that reorganized the relief administration late in June. But Estes himself was sponsor of a declaration that if any evidences of political activities were found on the part of those in charge of state relief, he would himself propose drastic action at the next relief commission meeting.

Announcement has been made that the state will require manufacture of another \$4,000,000 of cigarette tax stamps for the rest of the year. It is a matter of regret that there is now no Texas plant equipped to produce the type of tax stamp found to be the best for this purpose.

Contracts are made through Texas agents with large printing establishments out of state for the work.

Rates of prevailing wages for road workers have been promulgated by the highway commission, by being written into specifications for bids on each project. Each call for bids included the provision that "signed certificates of compliance with applicable approved codes will be required." They also specify that if a contractor works his employees on a greater or lesser number of hours than the eight-hour working day, the equivalent daily wage will be increased or diminished accordingly, and that overtime and legal holiday work "shall be paid for at the regular governing per diem wage rates."

The schedule ranged from 35 cents an hour, or \$2.80 for unskilled labor, to \$6 for carpenters, iron workers and crane and shovel operators on some projects. Tractor operators receive \$5 on some jobs, \$4 on others and \$3.60 on some work.

### Tomorrow's Star Signals

By OCTAVINE

The morning is serious and sensible. Your thoughts will be concrete and your judgment should be good

in connection with real estate property. The evening is extremely illusionary. Make no love ties. You are liable to deceive you at night. Even those who hold tightest their purse strings are apt to loose them tomorrow night or the following day.

### TOMORROW'S BIRTHDAYS

Your mind will be poetic, musical and dreamy September 26 through December. You may take many short trips. Pleasures, romances, speculation and children favor you from December 10 through December 21. Danger August 6, 8, 9, 10 and romantically good August 4.

### DROUTH HITS COYOTES

CORPUS CHRISTI, July 5 — Even the coyotes, wolf-like animals that prowl across Texas prairie are suffering from the drought. Farmers near here reported the coyotes broke into watermelon patches, gnawed into the melons and drank the juice.

# \$83,000,000.00 working for a Greater Texas

LIFE INSURANCE FUNDS are reservoirs of thrift which feed the streams of progress. The funds of Texas legal reserve life insurance companies play an important part in the progress of Texas, through financing community development projects and home ownership.

At the close of 1933 these companies had \$83,000,000.00 working for a greater Texas . . . invested in loans on farms and city property, in state, county and municipal bonds, in home office buildings and real estate.

This \$83,000,000.00 is money in motion, constantly increasing, and parts of it constantly being paid back and reinvested. Every Texan shares the benefits of these investments. Not only are needed improvements made possible, but the money is put into circulation . . . spent for raw materials and labor.

In 1933 these companies put into circulation an additional \$30,000,000.00 . . . in payrolls, taxes, purchases and payments to policyholders and beneficiaries.

When you show a preference for insurance in a Texas legal reserve life company you join hands with these companies and their 1,200,000 other policyholders in making Texas a better state in which to live and make a living.

## Through the Editor's Spectacles

By GEORGE

The boys thought a nudist colony had moved into town the other morning, and it was several hours before they were down to the earth of practical sense again, setting type for the daily grind. The responsible exhibit crawled out of a dusty tonneau and with shocking disregard for the nine o'clock morals and inspirations of this city, exhibited the body in nothing more concealing than a pair of man's lisle shorts, practically no shirt at all and a coat of sun tan.

Now that may be an extremely comfortable way to travel, but is certainly slows up Mr. Roosevelt's recovery program wherever it stops to refuel. Most of our boys have never been any rearer. George's Scandals than Kickapoo Greer's picture show, and the present of a live specimen of the genus that is said to revive the flagging spirits of the bald-headed front row is enough to set them ogling like a "passel" of monkeys in front of a pin wheel.

The touch of irony, in case you want irony, was provided by the male half of the pair—we'll grant it was a husband—who was clothed from head to foot. Evidently, no nudist as this bird—or, perhaps, he had an appendicitis scar.

Lake Cisco certainly draws the folks when it means a holiday or an outing. Yesterday's program was a convincing demonstration of that attraction. Of course, the event had been well advertised, but no amount of advertisement will put over a flop. Folks who have been going to Lake Cisco for years on end are always ready to come back.

The condition of the parks this summer is a remarkable improvement over their condition in the past. Much excellent work has been done locally, but nothing comparable in effective appearance to the results of the project that is being carried out by the county relief administration. Clean grounds, cleared of brush, with trees bright in white, wash, improved roads and construction of tennis and croquet courts—these things have made the parks

CAMPAIGN FOR GOVERNOR STILL PROVES PUZZLE

By GORDON K. SHEARER. United Press Staff Correspondent. AUSTIN, July 5 — With four weeks to go, the race for governor in Texas is still a puzzle...

Alfred continues to be named as leader by most Austin visitors. They give several reasons. Past races have shown him unbeatable in winning votes during a campaign tour...

Showing between C. C. McDonald and Tom Hunter depends to a considerable extent on the effectiveness of the campaign which former Gov. James E. Ferguson will launch in July for McDonald...

BOLD STROKE AGAINST RADICAL ELEMENTS STRENGTHENS HITLER

Foundations of His Regime Are Shifted Further to Right in Decisive Action That Captures Admiration of People, Says Writer

(EDITOR'S NOTE: Webb Miller, European general news Manager of the United Press, who has just returned to Europe after an eight months' tour of the United States, flew to Berlin to take charge of coverage of the political crisis there...

By WEBB MILLER. United Press European News Manager. (Copyright, 1934, by United Press.) BERLIN, July 5 — Chancellor Adolf Hitler's swift, ruthless stroke against rebellion has suddenly shifted the basis of power of the Nazi regime from wild-eyed radicalism toward the right or conservative wing...

His decisiveness and ruthlessness seemed to have captured the imagination of the people. Crowds in front of the chancellery in the Wilhelmstrasse Sunday afternoon cheered wildly when he appeared momentarily at a window.

In striking at the SA, Hitler is smashing the instrument which was his original source of power and contributed principally to his rise to the dictatorship.

In executing his friend and confidante, Ernst Roehm, head of the storm troops, Hitler boldly excised a diseased spot from his body politic and earned the admiration of the public to whom Roehm's moral perversities were well known.

Roehm rose to a powerful position and became a Reich's minister occupying a palatial home opposite the Italian embassy in Berlin's aristocratic quarters.

There he gave lavish parties and orgies which were the open scandal of Germany. It was estimated he spent 30,000 marks (\$11,700) a month on entertainment.

Despite Roehm's personal character Hitler trusted him until his fanatical extremism led to a breach. The real rift began when Roehm demanded eventual incorporation of the SA into the reichswehr or regular army...

Such a move would have brought violent opposition from France and other powers and also was opposed by strong elements in Germany which could not consent to such a concentration of power in the hands of the radical Nazis.

Hitler apparently is determined to reduce the strength of the storm troops to its normal quota of 100,000 men or perhaps less. He ordered a 30 day vacation for the SA without uniform and at the end of the period many thousands of its members probably will be cut from the party payroll and returned to civilian life.

The outstanding results of Hitler's action may be summarized as follows:

- 1. His personal position is greatly strengthened.
2. He has shifted the foundations of his regime's power further to the right.
3. He has rid himself of his greatest internal difficulty, namely elimination of the SA interests.
4. He has weakened and divided the left elements of the Nazi party.
5. He has taken steps to pull the teeth of the SA which had become a soft praetorian guard.
6. He has created a division among leaders of the nationalist right wing weakening their solidarity and compromising some of them with his own movement.

Minister Says He Will Ask New Trial

SAN ANTONIO, July 5 — The Rev. Wm. Welburn, loser in last week's divorce action brought by a woman he declared he never married, announced Monday he would file motion for a new trial. Describing himself as an innocent man, the former pastor said he would base the motion on an allegation that a grand jury indictment charging him with perjury influenced the divorce trial jury's verdict.

20,000 Greet Flying Brothers at Warsaw

WARSAW, Poland, July 5 — The Adamowicz brothers of Brooklyn landed their trans-Atlantic plane at the Warsaw airport at 5:40 p. m. Monday and were greeted by a wildly cheering crowd of 20,000 citizens.

U. S. PLANS HUGE PROGRAM AS FISCAL YEAR IS CLOSED

By RICHARD L. GRIDLEY. United Press Financial Correspondent. WASHINGTON, D. C., July 5 — The federal government Saturday closed its books for the 1934 fiscal year on the largest peace-time spending program in history and made plans for even larger expenditures over the new fiscal year beginning tomorrow.

Approximately \$7,000,000,000 or \$56 for every man, woman and child in the country was poured out of the federal treasury in an ambitious attempt to turn the tide of business and to give relief to millions of people until prosperity is restored.

Four Billion in Hole. Against the record breaking expenditures the government was able to collect \$3,000,000,000, or \$25 per capita, from taxes, tolls and tariffs leaving a deficit of \$4,000,000,000, or \$31 per capita.

The deficit was made up by borrowings from investors, which carried the government's debt to a record peak of \$27,000,000,000, surpassing the war time record of \$26,596,701,648 reached in August, 1919. Previous deficits has raised the public debt to \$22,538,672,560 a year ago today.

The current fiscal year ending today is the fourth successive 12-month period that the government's expenses have exceeded its income, bringing the accumulated deficit during this period to around \$11,000,000,000, all of which had to be made up through borrowings.

The four-year deficit, however, is still under the \$13,370,637,569 deficit suffered in the 1919 fiscal year alone.

After killing Gen. Kurt von Schleicher and his wife when Schleicher resisted arrest, the Nazi high command lined up seven of its enemies and executed them before a firing squad.

The Hitler forces suppressed the mutiny Saturday before it was well started, killing Schleicher, a former chancellor and reichswehr commander, and several of his best men in the counter stroke that blocked a hold attempted coup.

Some of the leaders of the mutinous element who were not killed or arrested, committed suicide.

Hitler seeks to justify executions. BERLIN, July 5 — After "liquidating" his political enemies in a bath of blood and bullets, Chancellor Adolf Hitler and his modern "committee of public safety" Monday sought to present to the world legal justification for the execution of at least 24 high officials.

"All executions of storm troop leaders," the Nazi high command declared, "followed summary court martial proceedings before court martials held in Berlin and Munich."

Chancellor Hitler erected another bulwark of defense for his strong position when he released telegrams from President Hindenburg which put the stamp of approval on "suppression of treasonable machinations" and gave the old warrior's blessing to the bloody undertaking of the past week-end, which may result in an even higher death toll when the whole truth is known.

"Tense But Quiet." The situation throughout Germany was "tense but quiet." Reports of cannonading heard at Munich by unnamed travellers were discounted by direct word from Munich that there was no disorder.

In its mopping up process, the government denied, although in vague terms, some of the most sensational rumors surrounding the disposition of Vice Chancellor Franz von Papen, variously reported as executed or a suicide.

Von Papen, foe of Hitler but close friend of President Hindenburg, was guarded heavily in his home by a picked squad of troops.

Similarly, it was announced, Prince August Wilhelm, fourth son of the ex-Kaiser, was still "in residence" at his Potsdam villa, in "protective custody," and had never fled nor been killed as had been widely rumored.

Man Shoots Three, Then Kills Himself

DALLAS, July 5 — Hugh Davis 50, Monday shot and killed 3 persons because they refused to attend a picnic with him. Then he shot himself fatally.

The victims: Mrs. Sally Carson, 40, former wife of Davis. Mrs. Julia Patrick, 70. Sam Carson, 19, son of Mrs. Carson.

Mrs. Frank Richards, daughter-in-law of Mrs. Carson, saw the killing. She told police that the Carson boy was shot first by Davis. Then she said, he killed the two women.

Police were informed that Davis invited the two women and the youth to attend a picnic with him Sunday night near his fishing camp. They had refused.

ANTI-RABIES DRIVE. EL PASO, July 5 — City of police have killed 41 dogs to curb a rabies epidemic which City-County Health Officer T. J. McCamant said started among wolves and coyotes.

Final Report Made By Darrow Board. WASHINGTON, D. C., July 5 — For the third and last time the Darrow recovery review board reported Monday that the NRA is squeezing the "little man" and the consumer and bolstering huge monopolies.

The board's final report was made public Monday. It differed from the earlier findings only in the specific injustices cited. The conclusions were the same as those of its first and most effective bombshell.

### TREE PLANTING STUDIED AS DROUGHT RELIEF

WASHINGTON, D. C., July 5 — A tremendous tree planting project, for a belt of trees 1,300 miles long to protect drought-stricken areas from future caprices of the weather, is under consideration by the administration officials of the American Tree Association.

The chain of verdure would be 100 miles wide from North Dakota to the Texas Panhandle. Its width would be such as to be equal to the planet Mars. Purpose of the tree belt would be to assure adequate rains for the great states, protect watersheds and soil conditions.

The gigantic phase of the nation-wide program of the administration would get underway through a \$25,000,000 allocation authorized by President Roosevelt and purchases in drought-stricken areas and CCC enlistments, Charles Mack, president of the association, said.

Mack said the entire program would take 10 to 12 years and cost \$50,000,000. The tree chain would run through the Dakotas, Nebraska, Kansas, Oklahoma and into Texas. He estimated 260,000 miles of planting would be required to keep sheep and cattle, and that 280,000 acres would be planted with poplar, green ash and other drought-resistant trees.

It was indicated that many of the 25,000,000 workers to be enlisted for service in drought areas would be aid farmers in getting the project under way.

Daily News and American and ship want ads are a good investment.—Phone 80.

### 148 Army Planes Fly In Dedication Rites

DALLAS, July 5 — One of the greatest mass flights ever witnessed in the southwest was staged here Saturday when 148 army planes representing \$6,000,000 in equipment, participated in ceremonies dedicating Hensley field.

Three hundred pilots and enlisted men came here in the ships from southwestern and middlewestern fields.

### FIRST DROUGHT CATTLE ARRIVE AT FT. WORTH

FORT WORTH, July 5 — The first shipment of drought relief cattle from west Texas counties was received here Tuesday and sent to local packing concerns where the cattle will be canned for the needy.

Tuesday's shipment was 450 head, the first of many carloads being purchased in 57 drought-stricken counties. Dr. H. L. Darby, head of the bureau of animal industries of the state here, said several carloads will be received daily in the future.

The animals will be sent to private packing concerns until the government canning plant is reopened next week.

**DRIED OUT AIRPLANES**  
CHICAGO, July 5 — The 30-day drought in the midwest did peculiar things to unprotected spars and plywood used in airplane wings. Many ships now have either a lot more dihedral or a lot less dihedral than before they dried out and warped, according to a department of commerce survey of Chicago airports.

### HEAT RECORDS BROKEN OVER MOST OF U. S.

CHICAGO, July 5 — All of the United States, except a few northern states and southern California, broiled Saturday under a glaring sun which rocketed temperatures to all-time records.

In 40 states the mercury climbed close to the 100-degree line, while at many points it exceeded that mark by several degrees.

The toll in human lives was inestimable. Vital statistics bureaus of the larger cities definitely attributed more than 60 fatalities to heat prostration. A check in states most tortured revealed that at least 85 persons drowned in five days at beaches and resorts.

Livestock still on short water rations in many western states as a result of the recently ended drought, suffered intensely. Reports of crop experts indicated that grain crops are threatened anew.

**FCC to Organize Formally on July 11**  
WASHINGTON, D. C., July 5 — Chairman E. O. Sykes of the new federal communications commissions said Tuesday the agency would be organized formally July 11 and start immediately on a sweeping investigation of all phases of international communications including telephones, telegraph and radio.

The new commission will assume regulatory powers over telephone and telegraph corporations now vested in the Interstate Commerce commission.

### Saito Cabinet Quits Over Bank Scandal

TOKYO, Japan, July 5 — The government of Premier Makoto Saito, which had governed Japan through troubled internal and international developments since 1932, resigned Tuesday because of a bank scandal involving subordinates of one of its members.

Whether another "super-party" cabinet would be created, or whether the direction of the empire would again return to the hands of one political party was not known.

### Abrogation of Gold Clause Held Legal

ALBANY, N. Y., July 5 — New York state's highest tribunal, the court of appeals, Tuesday upheld constitutionality of a congressional resolution which abrogated the gold clause.

The court denied the contention of Norman C. Norman, holder of a \$1,000 bond of the Baltimore and Ohio Railroad company, who instituted the case, that he is entitled to payment of interest on a gold basis.

### Eastland Domestic Gas Rate Is Cut

EASTLAND, July 5 — The Community Natural Gas company, which serves Eastland, has granted the city a greatly reduced domestic gas rate. The new rate is to become effective at the next reading, which will be on the July bill.

In 1931 the Eastland city commission passed an ordinance reducing the domestic rate for gas in the city from 75 cents to 50 cents. The gas company opposed this rate as confiscatory and by a federal in-

junction prevented the city from enforcing the ordinance.

The gas company then applied to the Texas Railroad commission for an increase in rates in Eastland from 75 cents to \$1.50, and after a hearing before the commission that body granted the increase and since that time Eastland gas users have paid for their gas on this price basis.

Any rate charged by the gas company has at all times been subject to a 10 per cent discount where the bill was paid by the 15th of the current month.

The new rate schedule as announced is as follows:

75c per 1000 for the first 30,000 cubic feet.

50c per 1000 for any amount in excess of 30,000 feet.

The minimum charge under the new rate is \$1 as compared with \$1.50 under the old rate.

All rates under the new schedule, except the minimum rate of course, are subject to a 10 per cent discount where the bill is paid on or before the 15th of the current month.

### President Creates Advisory Committee

WASHINGTON, D. C., July 5 — Pres. Roosevelt Monday issued an executive order creating a national emergency committee to advise him on problems connected with public works, labor disputes and industrial recovery.

The committee will be headed by Dr. Charles D. Ickes, secretary of the Interior, and will include representatives of the labor movement, business and industry.

The committee's task will be to study and report on the causes of industrial depression and to suggest effective measures for their removal.

The committee will also be authorized to hold hearings and to make such investigations as may be necessary to carry out its duties.

### Honor Day Planned For Sunday Teachers

BERLIN, July 5 — A national demonstration in the religious and civic life of America is under way in this city—a project to hold, on Oct. 6, in every community a civic celebration in appreciation of the work of the more than two million Sunday school teachers, Protestant, Catholic and Jewish.

Denominational and Sunday school leaders, as well as civic organizations, are promoting the movement, which was originated by a newspaper man, Dr. William T. Ellis, of Ewartmore, Pa., who is chairman of the National Executive Committee.

This National Recognition Day for Sunday School Teachers sounds a sweet note in a sour time. We are used to mass meetings for protest, for reform, for "causes." This is simply and only a public "Thank you" to the vast host of men and women, who, Sunday after Sunday, rain or shine, without remuneration or recognition, have been teaching the more than twenty million members of the Sunday school. They have been one of the major educational agencies of our time, instilling the cardinal virtues into each generation of children and youth," Dr. Ellis said.

An afternoon Sunday school parade on Oct. 6, and an evening mass meeting in each community's largest auditorium, and special services in every church on the following morning, are features of the program.

### TWO KILLED IN CENTER PLANE CRASH TODAY

CENTER, Texas, July 5 — Roy Heiman, Dallas, and Ned Allen, Longview, were killed Monday when their plane crashed as the two men waved goodbye to their sweethearts on the ground below.

The two men had spent the weekend here, where Heiman had come to see Miss Betsy Dixon, El Paso, and where Allen was visiting Miss Rheta Willis.

With Heiman at the controls, the cabin monoplane had reached an elevation of only about 75 feet when Heiman sought to bank the ship as the pair waved a farewell greeting. The craft suddenly nosed downward. When it hit the ground it burst into flames.

### Two Convicts Flee Harlem Prison Farm

EUGARLAND, June 30 — A posse headed by A. N. Owens, manager of the Harlem State Prison farm, today searched the Brazos river bottoms near here for two convicts who escaped from the prison late last night.

The escaped convicts are M. B. Peacock, 36, serving a term for automobile theft, and Floyd Pitts, 29, serving a four-year term for burglary. The men escaped while working on a night construction crew.

MOTH'S LARVAE BY AIR  
MELFORD, Cre., July 5 — First air shipment of a larvae parasite of the codling moth to the Pacific coast was received by the Southern Oregon experiment station. The parasite was sent from Moorestown, N. J.

Let us figure your next job of printing. Our job printing department is equipped to serve your needs.—Phone 80.

# A Million V-8 Followers

... for the Ford idea of low-cost transportation

ON June 20th the millionth Ford V-8 was produced—finest of a long line of nearly 22,000,000 Ford cars.

26 years ago Henry Ford said, "We will build a motor car for the great multitude".

This basic idea has never changed. The name Ford is synonymous with dependable, sturdy low cost motor cars. The V-8 was the answer to the need of the modern motorist for greater speed and flexibility.

Without sacrificing one whit of traditional Ford owner economy and lasting performance, the V-8 has brought to a million owners the power and comfort previously found only in the most expensive cars.

New low prices for 1934 were put into effect June 15.

# About Cisco Today

**CHRISTIAN ENDEAVOR PICNIC AT LAKE CISCO**  
The Young People's society of the Christian Endeavor of the First Christian church had a swimming party at Lake Cisco Tuesday night at seven o'clock.  
After a swim a picnic lunch was served to members and invited guests.

## Personal Mention

Mr. and Mrs. L. E. Sublett, Romney Route, Cisco, Texas, are the parents of son Leonard Elliott, Jr., born this morning at 6:20 o'clock. The baby weighed nine pounds.

Mr. and Mrs. P. Phillips have moved to Cisco from Ranger and are at home at 401 Front St. Mr. Phillips is employed by the Lone Star Gas company.

Mrs. S. L. Houston of Clyde is visiting Mr. and Mrs. M. L. Notgrass.

Mr. and Mrs. R. L. Reese of Albany were visitors in Cisco Wednesday.

Mrs. C. B. Powell and Betty Lou have gone to Martin for a short visit.

Madeline McIntosh of Brownwood is visiting in Cisco.

Miss Norma Johnson from Abilene is a Cisco visitor.

Mr. and Mrs. A. C. Williams from Wink spent Wednesday in Cisco.

Bill Witt, who has been visiting in Stephenville, had returned home.

Mrs. J. M. Hooks and son J. M. Jr., and Mrs. Elmer Jobe and Gloria Jean Jobe all of Abilene, were accompanied to Martin by Mrs. C. B. Powell and Betty Lou.

Mr. and Mrs. A. B. Hubbard have moved to Cisco from Tulsa, Okla. They are guests at the Laguna hotel at present.

Mr. and Mrs. Hugh Wagner and daughter, Patsy, of Breckenridge were in Cisco Wednesday.

W. W. Williams of DeLeon visited in Cisco Wednesday.

Mr. and Mrs. F. R. Woodward and F. R. Jr., spent Wednesday in Cisco. F. R. Jr. will remain in Cisco for a visit with his grandmother, Mrs. W. W. Miller.

Mrs. R. N. Clark has gone to Haskell to visit her sister.

## PLEASANT HILL

Mrs. A. A. Abbott visited Mrs. Ed Sims Monday afternoon.

Pearl Lamb returned from Eastland Sunday where she has been visiting.

Mr. and Mrs. Dan Wende and children and Carl Crotebel visited Mr. and Mrs. Roscoe Abbott and Mr. and Mrs. Abbott Saturday night.

Mrs. J. B. McKimney visited Mrs. Bill Maynard of Romney Sunday.

Mr. and Mrs. Henry Hardin and children visited Mrs. Hardin's parents, Mr. and Mrs. Bill Welch, Sunday afternoon.

Mrs. Roscoe Abbott and Mrs. A. A. Abbott visited Mrs. Eric Boles Sunday afternoon.

Bessie Taylor is visiting Pearl Lamb this week.

The Pleasant Hill young people were entertained with a picnic Saturday given at the Strickland lake.

T. E. Clark attended church at Romney Sunday night.

Mr. and Mrs. Jeff Hallstack were guests in the home of Mr. Hallstack's sister, Mrs. J. K. Bone, Tuesday and Wednesday.

Mr. and Mrs. A. C. Poe and son, Jimmie Dan are visiting Mrs. Poe's mother, Mrs. Ida Hooker this week.

R. L. and Dorothy Tucker, Lola Mae Hooker, Ariene Hines, Flora and Francis Bacon, Garner Alton, Shannon Ramsey, Charlie Parks,

## N. G. A. PLAYERS FACING TEST ON BUFFALO LINKS

BUFFALO, N. Y., July 5.—Entrants in the National Golfers' association championship this year will find the Park Country club of Buffalo, Williamsville course, on which the tournament will be played, July 24 to 29, a long, rolling layout with intricate trapping.

Although the course possesses only 53 sand bunkers, a wide creek, 30 to 75 feet from bank to bank, winds its way around and through the course, and the player often is called upon to play over water.

Woods run through and surround the entire property. The length is 6,506 yards, with a par of 72.

**Drive Uphill**  
No. 1 hole, 462 yards long, is a par 5, requiring two wood shots and a chip. The drive is slightly uphill, with a large trap on the right.

The par 4 second hole is 467 yards and returns down hill to parallel No. 1. The hole requires two long shots, a drive and a No. 2 iron.

Trees, bushes and plenty of rough on the right necessitate a more accurately-placed drive than No. 1.

No. 3, par 4 and 350 yards is slightly dog-legged to the left, and is a drive and pitch hole. Three of the four sand traps that make this hole tricky are placed for the drive, while the fourth is on the left front edge of the green.

**Creek in Front of Tee**  
No. 4, measuring 380 yards, is a par 4. A well-placed drive is necessary here for the hole dog legs to the right. The creek runs in front of the tee, with all trees on either side.

The fifth hole, a par 3 of 225 yards, calls for a brassie, a spoon

and a No. 1 iron, to a green that is surrounded on three sides by the creek. The creek parallels the fair way.

The No. 6 hole is par 4, and is 393 yards long. The tee shot is from the far side of the creek. There are five traps. All along the left is rough.

No. 7 is par 4, 345 yards long and fairly easy. The sloping green is guarded by three large traps.

The No. 8 hole is a par 3 measuring 160 yards. It calls for a good No. 4 iron shot to a fairly large level green.

No. 9 parallels the first hole and is a par 5, 493 yards long. It is down hill for the second shot with two large traps to carry from the tee.

The tenth is par 3, 190 yards, and needs a full No. 1 iron, or a spoon, slightly uphill to a green well-guarded by the only large trap. The green is undulating.

**Long Wood Shots**  
No. 11 is par 5, measuring 483 yards. It dog legs slightly to the left and requires two very long woods to get home in two. The only blind trap on the course is on the fairway, 75 yards back from the green.

The 12th is another par 5, 478 yards long. It parallels part of the No. 11 fairway and dog legs slightly to the right. This hole has six large sand traps.

No. 13 is par 3, measuring 130 yards. The player plays his No. 6 iron from a high bank of the creek to a fairly large green.

The 14th, par 4 and 360 yards, calls for a well-placed drive 190 yards over traps and a high ridge which runs diagonally to the left to the flat fairway on top.

**Trap a Menace**  
No. 15, par 4 and 340 yards, dog legs to the left from an elevated tee with the creek below. The player is forced to carry a trap on the right fairway, 180 yards away.

No. 16, is a par 4, measuring 460 yards and calling for a good drive and a No. 2 iron to a well-trapped green.

The 17th hole is a par 4, 390 yards long. It is slightly uphill with the fairway lined with trees to 180 yards where it widens.

No. 18 is another par 4, 400 yards long. A drive down hill to a slight hollow in the fairway leaves a 6 iron shot to get home.

**Sen. Russek Leaves To Begin Sentence**  
HOUSTON, July 5.—State Sen. Russek of Schulenberg, who pleaded guilty to a federal charge of misappropriating \$50,000 in funds of the Schulenberg bank, left here today for New Orleans to spend four months in jail.

He was given that sentence and fined \$5,000 last week by Federal Judge T. M. Kennerly.

## Farmer's Dream of Riches Is Ruined

HARLEM, Mont., July 5.—Farmer Sam Harvey's dreams of sudden riches vanished to leave him holding a dozen sacks of dusty old bones.

Remains of a prehistoric dinosaur were found on a ranch near here, Darwin Harbriant, U. S. A. engineer and assistant to Barnum Brown, curator of the American Museum of Natural History, was notified.

Harbriant and his party drove to the fossil find to find the excited Harvey, who explained he had sacked the bones to make sure none would be stolen.

Removed by inept hands, the bones were worthless.

When first reported, the skeleton was all in place and promised to be an important find, in as much as the bones were those of the hooded duck bill dinosaur—a freak who breathed through the upper part of his bill while he fed beneath the water with the lower part.

It was the first time that such a species had been found in Montana.

## Mastodon's Skeleton Is Found in Mexico

JUAREZ, Mex., July 5.—Proof that giant animals of a by-gone day roamed northern and western Chihuahua was found in an arroyo near Madera recently.

U. S. Consul W. P. Blocker reported an almost perfect skeleton of a mastodon was excavated on the Las Varas ranch.

A Mexican ranch hand saw one of the mastodon's tusks sticking up through the arroyo soil, and the digging resulted.

At 9 o'clock, across the pool from the lake pavilion, a fireworks display entertained the crowds that massed into the area for the continuation of the water carnival and

the dance that began immediately after the pyrotechnics.

At 6 o'clock there were three bouts of boxing in a ring erected on the island across from the swimming pool gallery seats.

Thanks of the chamber of commerce for the work of the committees, whose arrangements carried the entire program off with no serious interruptions or untoward incidents, were expressed this morning.

Seats, ice water, and all the details which determine success or failure of such an event, were admirably attended to, it was said.

Police reported that one of the incident of an arrest or of a collision between the cars that entered the lake area in such numbers that they were reduced to creeping, occurred to mar the day's record.

**Thousands---**

## "Your Advertising of 43% MORE NON-SKID MILEAGE is all WRONG"

says a North Carolina car dealer who has seen G-3's perform for months on mountain roads. "In My Opinion You Have 75% More!"

Reports pouring in from G-3 users everywhere read like these: "43% more non-skid mileage is too conservative!"

"60% would be closer!" "Feel I'll receive 100% more non-skid mileage." Maybe we have put the figure low, but—Goodyear's 43% statement is based on the toughest tire tests ever devised—speeding up to 50—jamming on brakes—every few miles—day and night—tougher use than most people give tires. Come see this wonderful new G-3 that "The Public Test Fleet" says is better than we claim—the costlier-tire-to-build that costs YOU nothing extra to buy!

**Top Notch Value— at Every Price!**  
Another famous example of Goodyear value possible because Goodyear Dealers sell the most tires—by millions!

**GOODYEAR SPEEDWAY**  
Built with Super-wrist Cord—Center traction; tough thick tread; full over-size.  
30 x 3 1/2 \$4.40  
4.40 x 21 \$4.95  
Other sizes in proportion expertly mounted on wheels. Prices subject to change without notice and any State sales tax.

**ASTONISHING NEW "G-3" GOODYEAR ALL-WEATHER**  
Look What You Get—No Extra Cost: 43% More Miles of real non-skid safety. . . Flatter Wider Tread. . . More Center Traction (16% more non-skid blocks). . . Heavier Tougher Tread (average of 2 lbs. more rubber). . . Supertwist Cord Body (supports heavier tread safely).

Will give me at least twice the tread mileage I ever received before.—Mass.

43% extra non-skid mileage and then some.—Iowa.

Close to 15,000 miles non-skid one-third wear off—means traction as long as ever before.—Ill.

18,030 miles—practically 75% of their non-skid left.—Wash.
