FRECKLES and HIS FRIENDS.

Comic strip 'Freckles and His Friends' by NEA Service. Panels show Freckles coaching a team, talking to a friend, and writing a letter. Includes dialogue like 'ALL RIGHT, BOYS...LINE UP TWO TEAMS...FIRST AND SECOND, AND WE'LL SCRIMMAGE! FRECKLES, SKIPPER THE FIRST STRING!' and 'DID BIFF CAMERON TELL YOU WHAT I SAID ABOUT YOUR NOT CHASING AROUND WITH BETTY MORTIMER?'.

Works of 52 Artists To Be in Exhibition

PITTSBURGH, P., Oct. 11—Fifty-two artists will make their initial appearance at the 1934 Carnegie Institute International Exhibition of Modern Paintings, which will open here on Oct. 18.

The exhibition, the 32nd to be held here, will include paintings from 12 European nations. Artists from Great Britain, France, Italy, Spain, Germany, Union of Soviet Socialist Republics, Austria, Norway, Sweden, Poland, Belgium, and Holland have been invited to contribute. There will be 253 paintings from Europe and 103 from the United States, making a total of 356 in the exhibition.

Homer Saint-Gaudens, director of fine arts, in a three-month sojourn throughout Europe this spring, assembled the European paintings to be shown.

Paintings, as has been the custom in the past, will be hung in separate galleries, according to nations. In the event an artist has been invited to contribute more than one painting, his works will be grouped.

The members of the jury of award

It is really wonderful what our dry cleaning will do for the shabbiest garment. Put it to the test with a suit you have discarded.'

this year are: Elisabeth Luther Cary, art editor of the New York Times; Alfred H. Barr, Jr., director of the Museum of Modern Art of New York City and Gifford Beal, American artist. Prizes will be as follows:

First, \$1,500; second prize, \$1,000; third prize, \$500; and a prize of \$300 will be offered by the Garden club of Allegheny county for the best painting of a garden or flowers.

Prizes will be announced at the Founder's day exercises in the Carnegie Music Hall on Thursday, Oct. 18.

NOSE WORTH \$21,300 SPOKANE, Wash., October 11 — Thomas Fosley values his nose highly. He sued a dairy for \$21,300 damages for a scar on his nose sustained in a crash with the dairy's delivery truck.

BLIND MAN CANDIDATE MILWAUKEE, Oct. 11 — Walter Hatemann, 37, stone-blind since a piece of tin struck him in the eye when he was six years old, has announced his candidacy for democratic state assemblyman.

flushed his assembly for democratic state assemblyman. Hatemann who writes on a typewriter with speed and accuracy, became acquainted with politics when he sold newspapers as a youth in the old Milwaukee county courthouse.

WHITE LEGHORN WON STAFFORD, N. Y., Oct. 11 — The pen of single White Leghorns, bred by W. A. Seidel, of San Antonio, Texas led all other breeds in the western New York egg laying contest at the end of the 36th week. The pen laid 2,580 eggs, for a total of 2,616.63 points. Second in the test were Kauder's Leghorns from New Paltz, N. Y., with 2,578 eggs and 2,580.5 points.

DIDN'T HELP BUFFALO, N. Y., Oct. 11 — For each of the four events which Roger Don Rae, of Lansing, Mich., won at the annual Buffalo air races, he received a silver cocktail shaker and a set of glasses. He doesn't drink. He found consolation, however, in the fact that he took down first prize money in each of the races.

Flush Poisons From Kidneys and Stop Getting Up Nights

When you can get for 35 cents a supremely efficient and harmless stimulant and diuretic that will flush from your kidneys the waste matter, poisons and acid that are now doing you harm, why continue to break your restful sleep by getting up thru the night. Just ask your druggist for Gold Medal Haarlem Oil Capsules—but be sure and get GOLD MEDAL—right from Haarlem in Holland. Other symptoms of weak kidneys and irritated bladder are backache, puffy eyes, leg cramps, moist palms, burning or scanty passage. — Adv.

THINGS YOU MAY NOT KNOW ABOUT YOUR TELEPHONE

Advertisement for Bell Telephone Laboratories. Includes text: 'The telephone had its birth nearly 60 years ago in a makeshift research laboratory, where Alexander Graham Bell watched a tiny straw attached to the eardrum from a human skull trace wavering lines on smoked glass. In the half century and more since then, the history of the telephone has been told in the countless scientific problems that have been solved.' and 'INVENTIONS of the research scientists at Bell Telephone Laboratories have been devoted, not to swell profits, but to improvements and economies that have aided this company in giving service at a fair cost to the telephone user. This policy has been adopted in the belief that as much from your standpoint as from our it is sound and workable. It is based upon feeling that in an undertaking planned like telephone service for the long pull, what is for the telephone user is in the end the success that will bring us the surer, more enduring success.'

Advertisement for Southwestern Bell Telephone Company. Includes text: 'SOUTHWESTERN BELL TELEPHONE COMPANY' and 'Scientists of Bell Laboratories are paid to be satisfied with telephone service... to find better ways of furnishing it... to keep the cost of service as low as possible... out their help, the men and women who give telephone service here could not do their job better.'

ALLISON PUTS AWAY TENNIS UNTIL SPRING

WILMER ALLISON, who blasted his way to the top American tennis position this summer by winning the Davis Cup, has decided to put his tennis racket until after Christmas.

Allison said he gets a great thrill meeting in foreign countries those persons to whom he has talked through the air. "In one trip to Australia, I met more than 200 persons to whom I had talked on my set."

Dr. Penick believed Allison was victim of bad management on this year's cup squad. Allison was shipped to England and shipped back again without hitting a ball for the United States.

Allison regretted the incident at the time. He is now convinced that the two-weeks lay-off caused by the boat ride was one of the principal factors in his excellent display in the tournaments which followed.

Believing in the revised adage that "all play and no work make a champion tennis player," Allison has laid away his rackets for the winter. After Christmas he will return to the courts.

FAMED FRENCH THEATER BOWS TO PICTURES

PARIS, Oct. 11 — The historic Comedie Francaise, that for centuries has been devoted to the stage production of the classic dramatists, at last has bowed, although somewhat sulkily, to the movies.

Following a meeting of the administration committee of the House of Moliere, it officially was announced that two films will be produced and shown in the theater for the first time in history.

To avoid a too radical break from tradition the first picture will be a documentary film recording the activities of the great actors and actresses. It will include special shots of some of the departed figures of the legitimate stage such as Sarah Bernhardt and Edouard de Max.

Backstage Scenes

Scenes of the backstage of the Comedie Francaise, including its vast costume department, scenery workshop and subterranean storerooms far below the level of the street will be taken visually to places in this last pillar of the classic drama that he otherwise never would see.

Second Film

The second film will be a screen adaptation of "Les Precieuses Ridicules" of Moliere and particular

LEISURELY FISHING Aid for Insanity

HASTINGS, N.D., Oct. 11—Fishing—the leisurely, old-fashioned kind where the fisherman sits on the bank and waits dreamily for a bite—is being used to heal shattered minds at the state hospital for the insane here.

Dr. J. C. Nielsen, superintendent of the state institution, since his advent here has extended to great lengths the practice of occupational therapy. Under his guidance, patients have been given a wide variety of jobs—sewing, painting, basket making and other occupations, on the theory that normal activity is a prime factor in restoration of mental health.

In this line of healing, Dr. Nielsen even has established a beauty shop for women patients. And the system works.

On every fair day during the summer, the more nearly normal patients have been furnished with fishing equipment and allowed to sit on the banks of two large fishing ponds developed in the institution's grounds.

The ponds were stocked with fish and fed by representatives of the state game, parks and forestation

DEAN AND FRESHMAN

CLARINDA, Mo., Oct. 11 — Richard D. Rowley is dean of Clarinda Junior college and also a student in the school's freshman class. He found he'd have to have credits in French and German in order to obtain a master's degree so he enrolled as a full-fledged freshman. He's proving an apt scholar, his instructors say. He has held the position of dean six years. His previous education includes studies at Friends university, Wichita, Kan., and at the universities of California, Wyoming and Nebraska.

IMPROMPTU RECEPTION

LYNN, Mass., Oct. 11—The Murphy's—mother and two sons — had an impromptu wedding reception. The mother, Mr. Charles McCallum, formerly Mrs. Mable Murphy brought home her new husband. Then Norman and George announced their secret marriage. A wedding reception was held immediately.

TIRE BUYERS!

Goodrich gives you MORE than a "printed" guarantee

A "PRINTED" GUARANTEE ALONE MAY PROTECT YOUR TIRE INVESTMENT—BUT HOW ABOUT YOUR LIFE?

Here's a tire guarantee that gives a new meaning to motoring safety... a guarantee that protects not only your pocketbook, but your life as well!

Goodrich, of course, guarantees the new Safety Silvertown passenger car tire, with the Life-Saver Golden Ply, for a full 12 months (business use, 6 mos.) against accidental damage due to cuts, bruises, blow-outs, rim cuts, faulty brakes, wheels out of alignment, and ordinary wear and tear as specified in the written Certificate of Warranty given with the purchase of every Goodrich passenger car tire. But, more, Goodrich builds the Life-Saver Golden Ply into every Silvertown.

This amazing invention makes you 3 times safer from blow-outs at high speeds. Racing daredevils proved this. On the world's fastest track they gave it everything they had. Not one blow-out! Similar

tires without the Life-Saver Golden Ply failed at one-third the distance the Golden Ply Silvertowns were run. And what's more, the Golden Ply Silvertowns kept right on eating up the miles!

No other tire manufacturer can duplicate this in full. Other tires may duplicate the Goodrich warranty. But only the new Goodrich Silvertown can guarantee you the exclusive blow-out protection of the Life-Saver Golden Ply.

—And A Guarantee That Really Means Something!

When you're buying tires, remember this: "paper" guarantees may protect your investment but they won't save your life when your tire blows out going 40, 50 or 60 miles an hour! Play safe. Get the new Goodrich Silvertown... the only passenger car tire in the world that guarantees you Golden Ply blow-out protection, plus a full 12 months' guarantee (business use, 6 mos.) Come in today.

DROUTH BROUGHT SANTA CLAUS TO FARMERS OF MIDDLEWEST

DALLAS, Oct. 11.—It was pretty bad all right, but the drouth in Texas was not quite the calamity it was painted, an exhaustive survey by the Texas Daily Press League indicates.

The rainfall maps and charts showing estimates of crop conditions placed Texas in the "drouth area," but, as one economist pointed out, "business maps don't coincide with rainfall maps."

With most of the state's crops harvested and the proceeds thereof in circulation or in the bank, and with ranches cleared of surplus or diseased cattle, conditions appear not nearly so bad as calamity howlers predicted, according to the league's review.

Oil was one factor that kept Texas business on the upgrade, despite the effects of drouth, the press league's bulletin disclosed. So far as oil was concerned "there was no crop failure."

Oil Income Doubled. Texas received more than twice as much for oil produced in the first six months of 1934 as during the same period in 1933, the survey showed.

For the first year the state produced 185,025,583 barrels of oil sold for \$78,592,987. For the same period this year the oil income was \$197,709,900, although only a little more petroleum was produced—198,306,737 barrels.

There is an increase for 1934 of \$17,116,313, the press league bulletin pointed out. "Of this amount, \$24,463,737 or \$136,642 daily, 30 days a month for every month since Jan. 1—has been going into the hands of royalty owners alone, covering their owners' one-eighth, with the money being spread over the entire state."

Farmers of the state, directly affected by the drouth, aren't in such bad shape, either, the league's statistics show.

Value of the state's five major crops—cotton, wheat, corn, oats, and grain sorghums—is more than \$302,000,000 greater than for 1932 and more than \$140,000,000 greater than for 1931.

The league produced a cheerful gloss of other figures to indicate the state's business trend.

Texas retail stores reported average dollar sales increased 13.4 per cent in July, 1934, over July, 1933. Aggregate sales for the first seven months of this year were 26 per cent greater than for the same period in 1933.

Net revenue for Texas railroads in the first six months of 1934 was 74.2 per cent above net revenue for the same period last year.

Commercial failures in July were 60 per cent fewer than for the same month a year ago.

Texas farmers received an average of \$111 in federal payments, or one-sixth as much as their average receipts from all crops in 1933.

So why the calamity howling? Exaggerated Idea. The press league blames it on an exaggerated idea of harm done by the drouth which in turn resulted from the scramble for state and federal relief funds.

ROUGH GOING WILL BE FACED BY CENTENNIAL

By VERNON A. McGEHE. United Press Staff Correspondent. AUSTIN, Oct. 11.—The Texas centennial commission faces some rough political weather before the state may hang up a "welcome" sign in 1936 and open the gates to its celebration of 100 years of independence.

Centennial commissioners requested a state appropriation for the celebration when legislators were in their third extraordinary session last month to provide winter relief for destitute unemployed.

The house of representatives answered by adopting a resolution calling for a popular referendum Nov. 6, on a \$5,000,000 centennial appropriation.

The senate defeated the referendum proposal, thereby saving the centennial commission a severe rebuke, by a margin of only one vote. That vote, changed from "aye" to "no" only after considerable pleading, sufficed to indicate rough weather ahead.

Believe Referendum Fatal. Many legislators believed the referendum would have been fatal to the centennial project, that Texas voters would not approve a \$5,000,000 appropriation when the state already faces a \$14,000,000 deficit.

Refused an immediate appropriation, and threatened with a referendum that might have meant a mandate against any appropriation at all, centennial commissioners retired in good order.

They are expected to renew their request for an immediate appropriation this month when a fourth special session of the legislature is scheduled. Meanwhile, the centennial is courting popular sentiment to back up the request for state aid.

May Not Submit Topic. Governor Ferguson may not submit the topic. She herself is a centennial advocate. But the legislature did not intend for the centennial commission to return for help until January, 1935.

Another section of the law directed that the central exposition be located in the city offering the largest financial inducement.

At that point also the centennial commission faces rough weather, unless public opinion comes to its aid. The central centennial exposition was awarded Dallas' bid has never been divulged, but has been reported at various amounts between \$7,000,000 and \$9,000,000.

Several legislators suspect that valuation placed on state fair buildings at Dallas were hiked to make the aggregate bid the highest of the three received by the commission. Legislators propose to examine all bids when the centennial commission reports to the regular session of the legislature.

Phillips Party Here Making Explorations. A party of Phillips Petroleum company drillers and geologists is in Cisco making exhaustive tests of possible oil and gas bearing formations over an area southwest of Cisco. The group, expected to be here for three or four months, is core drilling in the vicinity of Dan Horn, it was reported.

Members are Ralph Singbush, Springdale, Ark.; Dan Griffin, Edmond, Okla.; Glenn Keady, Wakarusa, Kan.; Earl Reimund, Shider, Okla.; Larry LaPrade, Bartlesville, Okla.; and E. R. Elledge, Chickasha, Okla. Wayne Gover, of Fayetteville, Ark., who died early Sunday morning here, was another member of the party.

LEGISLATORS NOTIFIED OF NEW SESSION

AUSTIN, Oct. 11.—Texas legislators Tuesday formally were notified by Secy of State W. W. Heath to convene in the fourth extraordinary session Friday noon to consider Gov. Miriam A. Ferguson's five-point \$100,000 program for economic rehabilitation.

The governor's special session call was issued a few minutes before the dinner hour Monday night. While she signed official copies of her proclamation at the governor's mansion, James E. Ferguson sat in the shadows of the executive office and talked to newspapermen.

Nineteen senators and 104 house members favored a special session and a second chance to enact the recovery program, he said.

Text of Call. Following is the text of the governor's proclamation: "I, Miriam A. Ferguson, governor of the state of Texas, do by virtue of authority vested in me by the constitution of this state, hereby call a special session of the Forty-third legislature to be convened in the city of Austin, at 12 o'clock noon, on Friday, the twelfth day of October, A. D. 1934, for the consideration of the following matters:

1. Remission of penalty and interest on delinquent taxes. 2. Authority for completion of what is known as the Buchanan dam or dams on the Colorado river and its tributaries and necessary funds therefor. 3. Authority for the Brazos river project for construction of dams to impound and conserve the waters thereof and the reclamation of overflowed lands on said Brazos river and its tributaries and necessary funds therefor. 4. The Texas centennial and the provision for adequate funds therefor.

5. For additional and necessary relief for indigent and unemployed people of Texas as is now required. 6. To consider and act on such other subjects and questions as I as governor may from time to time during said call session submit by message or otherwise to the legislature.

The secretary of state will hereby take notice of this action and notify the members of the legislature at once."

REAL 'TRAGEDY' COMPLETED BY DEATH DECREE

WILKES-BARRE Pa., Oct. 11.—A jury of miners Saturday condemned Robert A. Edwards to death for murdering one sweetheart so that he would be free to marry another.

The verdict completed the parallel between the tragedy of Harvey's lake where Freda McKechnie, expectant mother of Edwards' child, was black-jacked to death, and the Dreiser novel, "An American Tragedy."

The jury of conservative middle-aged men had deliberated through most of the night. They examined the dress Miss McKechnie had made to wear at her wedding, believing Edwards was about to put the seal of legality upon their affair.

173 letters Edwards wrote his second sweetheart, Miss Margaret Craih, were sent into the jury room where, presumably, they were carefully read.

At 8:30 a. m. Judge W. A. Valentine reconvened court to receive the verdict. The clerk didn't need to ask for it; it was evident in the faces of 12 men.

Face Blanches. Edwards blanched when the fatal words "guilty" were read. His lips contracted into a thin, white line. He whispered to his counsel.

The jury was polled. Each man in a firm voice responded: "Guilty in the first degree—death."

Judge Valentine thanked the jury and adjourned court. Edwards, 21 years old, and even younger in appearance, lighted a cigaret with a trembling hand. His face was expressionless as photographers exploded flash bulbs. He put out his left hand for the manacles that chained him to a deputy sheriff, and almost ran out of the room. He was taken to "murderers row" of county prison.

Neither Edwards' parents nor the parents of the murdered girl were in court. Once close friends, they had attended all previous sessions without so much as glancing at one another. They are next door neighbors and leading citizens of the nearby mining community of Edwardsville.

Judge Valentine will formally sentence Edwards to the electric chair after defense counsel has had an opportunity to file notice of appeal. Thomas E. Lewis, the prosecutor, said he thought the verdict "very proper." Defense counsel would not comment.

Ruler of Yugoslavia Shot on French Visit

MARSEILLES, France, Oct. 11.—King Alexander of Yugoslavia and French Foreign Minister Louis Barthou were shot to death Tuesday by an assassin.

Gen. George, a French officer, also was killed by bullets by the assassin and Admiral Berthelot, the French prefect at Toulon, was critically wounded.

The fatal shots echoed through Europe with a political repercussion that recalled the assassination in 1914 of Archduke Francis Ferdinand of Austria, leading to the World War.

European affairs, with France, Italy, Germany, Yugoslavia and the other members of the Little Entente juggling for a balance of power, will undoubtedly be profoundly affected by the assassination.

The king was shot just after he landed here from a Yugoslavian warship on an important mission affecting the French-Italian lineup.

Stepped on Running Board. As he took his place in an official automobile alongside Barthou, the assassin stepped to the running board and fired shots at the king from arm's length.

A chauffeur deflected his aim by a blow of his fist after the first shot had wounded the king mortally.

Barthou, his arm broken by a bullet thereof to shield the king and was fatally wounded in the abdomen.

The king fell unconscious on the floor of the car, bleeding from the mouth and chest. He was taken to the police prefecture where he died at about 5 p. m. Barthou died at 5:45 p. m. after a blood transfusion had failed.

Gen. George was fatally wounded when the police opened fire on the crowd. Many persons were arrested as the guard closed in quickly. A shot struck the youth but he continued shooting until he fell mortally wounded by the shots and a swinging police sabre.

The assassin's connection led police to discount reports that communists were responsible for the murder.

STRONGER LAW INCREASES GAS TAX RETURNS

AUSTIN, Oct. 11.—The state common school fund received the record total of \$8,496,212 as its one-fourth "cut" of Texas gasoline tax income for the fiscal year which ended August 31, or nearly \$1,000,000 more than in every previous year.

Proportionate parents nor the parents of the murdered girl were in court. Once close friends, they had attended all previous sessions without so much as glancing at one another. They are next door neighbors and leading citizens of the nearby mining community of Edwardsville.

BUSINESS MEN AID SCHOOL IN NEW COURSES

Cooperation of the business men with the local high school has made possible the introduction there of occupational courses for training the boys and girls in various trades and occupations, according to J. R. D. Eddy, diversified occupational director. The response to the call for places in which to train students has resulted in more places being offered than can be filled at the present time, he said.

Fifteen students have been chosen as trainees and others will be admitted to the classes later. These students study subjects related to their occupational work in the morning and receive practical training in the occupations themselves from experienced business men in the afternoon. The training by the business men is done under actual working conditions, it was pointed out, and with the theoretical and technical knowledge in the morning classes, would make well trained employees out of the boys and girls.

The work is being carried on in cooperation with the state and federal governments and is the result of the establishment of an industrial program for the high school student who cannot go to college. The work is also available for those who have already graduated or who have dropped out of school in the past.

LOBOES DEFEAT SWEETWATER IN HARD STRUGGLE

Cisco's Loboos had the strength when it was most sorely needed here Friday night and turned back the Sweetwater Mustangs by a 19 to 6 score that did not at all indicate the number of thrills packed into the game. It was only after the Loboos had battered themselves down and given Cisco fans the jitters with their dazzling running attack in a fourth quarter drive that the Loboos were able to subdue them, stuff the game into a bag, and tie the string into a hard knot.

While Cisco scored the three touchdowns that meant victory over their rivals, Sweetwater rolled up a yard of ten first downs to nine for the Loboos. When it appeared that their drives would result in red and white touchdowns, the Mustangs failed to click or hit a stone wall deep in Cisco territory and lost the tail on downs.

The best man on the field on both attack and defense was Capt. Sentell Caffrey of the Loboos, who furnished most of the offensive drive, backed up the five-man Cisco line by playing a good portion of the evening in the Sweetwater backfield and generally making himself useful to the Black and Gold. It was the deadly accuracy of his toe in the first quarter that put the visitors back in their own graveyard corner time and again.

Mustang Rival. The Mustangs made a strong attempt to match Caffrey's play with that of their own captain, Barnett, who did most of their ball-totting, passing, and kicking. He and the diminutive Billings were the chief sparks in the fire that burned up the Lobo defense for a time. Scales Sweetwater tackle, played a great game, coming through the Lobo blockers to smear play after play.

After a first quarter in which only one first down was made, the Loboos unkered their first scoring threat when Popeye Beasley circled left end for 17 yards to give the Loboos a first down on the Sweetwater 19-yard line. A plunge netted a yard and on a reverse Caffrey picked up 10, but Cisco drew a penalty for clipping that placed the ball on the 35-yard marker. Roy and Parsons each knocked down a pass and Caffrey kicked out on the six-yard line.

Barnett kicked to Colium, who returned five yards to the Mustang 27. After hitting a brick wall in Scales, Colium dropped back and heaved a pass to Caffrey who was blocked out of bounds by Barnett on the six-yard line. Beasley circled left end to the one-foot line and Colium plunged over for the first touchdown. Shackerford's kick for point was blocked.

Retaliated. The Mustangs immediately retaliated by starting a drive from the kickoff that ended by tying the score. Roy returned the kick to the Mustang 38 and Barnett went around left end for 11 yards and a first down. Then the two drove 21 yards more for another first down on the Cisco 39.

Roy fumbled but recovered and a plunge failed to gain. Then Monday took Barnett's pass for another first down on the 15-yard line. Roy was dropped for a yard loss on an attempted pass and McCandle broke through to back up Barnett two more yards.

On the next play Barnett heaved a pass to Sullivan over the left flat for 18 yards and a touchdown. Barnett's low kick was blocked and the score was tied 7-6.

Sweetwater started a drive in the second half but drew a 15-yard penalty and an incomplete pass gave Cisco the ball on the Lobo 42-yard line. Caffrey made two on a spin and Beasley picked up 3 at left end. Then Caffrey ploughed through for a first down on the Sweetwater 43-yard line.

Lateals and line backs gave the Loboos another first down on the Horses 32. Beasley made eight yards in two plays and with good blocking Caffrey ran to the Sweetwater 11-yard marker, where the visitors called time out.

The Mustangs stiffened and the

Woman Given Five Years for Murder

DALLAS, Oct. 11.—Mrs. Wilson, 34, was found guilty of murder without malice in the slaying of Vestus Tolbert, 42, and was sentenced to five years in the state penitentiary.

The woman was arrested in the slaying of Vestus Tolbert, 42, who was shot in the back of the head in a rooming house in Dallas last week.

Good Taste

Luckies

They Taste Better

The clean center leaves—these are the mildest leaves—They Cost More

"It's toasted"

Your throat protection—against irritation—against cough

It's the taste that counts—that's why Luckies use only clean center leaves—for the clean center leaves are the mildest leaves—they cost more—they taste better.

ENROLLMENT HIKE CAUSES ARE EXPLORED

AUSTIN, Oct. 11.—With a total enrollment closely approaching the 1933-34 mark at the University of Texas an increase of approximately one thousand over that of last year at the corresponding date, and with reports of like increases of student registration at the various other state and denominational universities and colleges in Texas, much interest has been aroused on the part of faculty men and women and other educators as to the probable cause of this apparent awakening of the young men and women of the state to the advantages of college training.

A variety of reasons have been offered in private discussions of the subject for this seeming abnormal increase of enrollment at higher institutions of learning this new academic year. It is attributed by some to the lack of employment of youths of families who have sufficient means to send their sons and daughters to college. Rather than they should be idle they are kept in school, it is pointed out.

Mental development. Another theory which has strong supporters among educators, who have kept in close touch with the student youth movement is that during the last few years, especially there has been noticeable development of the mental characteristics of the students. Those who are studying in universities and colleges today are more serious-minded and have more well defined purposes in life than those who in former years attended these institutions. This new epoch of student thought is said to have been first manifested shortly after the World war. It has been accentuated during recent years by economic problems and crises which have touched to a greater or less degree practically every person in Texas and perhaps throughout the country, it is stated by university teachers who have given the matter earnest thought. Students have had their interest aroused to an unusual degree in affairs of government. Those who are fresh out of high school are anxious to equip themselves for a fight for livelihood and success in the various lines of human endeavor in which they hope to devote their life work.

Of course, these continue to be a certain segment of students in all universities and colleges who are there merely to "pass the time away" but it is the expressed belief of teachers that the percentage of such students is much smaller than in times past.

The improved efficiency of high school education throughout Texas is also credited with having had much to do with the sending of more students to the higher educational institutions than was the case a few years ago.

ALMOST 1,000 INCREASE

AUSTIN, Oct. 11.—Just eleven short of one thousand more students had enrolled at the University of Texas by October 6, 1934, than on the corresponding date last year, according to records of the auditor. Students have until October 15 to register for credit. A total of 6,843 students had registered through October 5, as compared with 5,845 last year. This figure surpasses the usual total enrollment for the entire session.

KANSAS COPS FIND TWO-WAY RADIO AN AID

KANSAS CITY, Kan., Oct. 11.—A two-way police department radio system, considered the most modern in the country has brought the Kansas City, Kan., department many minutes closer to the bandit and sneak thief.

The system, recently installed, outdoes the police radio in general use in that the cruising cars, as well as the headquarters office, are sending stations. The cruising patrolmen not only receive instructions from the department dispatcher, but communicate with him.

Coincident with the installation of the new system three outside substations were closed and the city now operates with only the headquarters station where the radio control room is located.

The radio station, licensed by the government, operates on a frequency of 33,100 kilocycles, or a nine meter band. This high frequency, the engineers say, will prevent interference. The power is 100 watts, and that of the cruiser stations, which also are individually licensed to broadcast—but four watts, provided by storage batteries.

Because of the rough terrain of Kansas City, with high ridges of hills rearing themselves between some of the districts and headquarters, the light power of the car sending stations is inadequate. However, to overcome this a booster relay station has been erected. Severe tests showed two-way communication was possible from every section of the city regardless of traffic and other physical conditions which a few years ago would have caused so much static that reception would have been impossible.

New Books Added To Cisco Library

The following new books have been added to the stacks of the Cisco Public Library:

"State Versus Honor Norton" by Mary Roberts Rinehart. "Seven Men Came Back" Warwick Deering. "Five Silver Daughters" Louis Glöckner. "Three Men and Diana" Kathleen Norris. "The Island of Alure" Jackson Gregory. "Happiness" Grace Livingston Hill. "The Man Without Nerves" E. Phillips Oppenheim. "Roaring River" Win. McLeod Raines. "Slim" William Waizer Haines. "Goodbye, Mr. Chips" James Hilton. and "Work of Art" Sinclair Lewis.

COTTON SUPPLY IN U. S. DOWN 3,160,000 BALES

AUSTIN, Oct. 11.—The cotton textile industry of Texas showed mixed tendencies during August. Dr. A. B. Cox, director of the University of Texas bureau of business research pointed out in his monthly review of the cotton trade.

Consumption totaled 4,792 bales, an increase of 28 per cent over July but a decline of nearly 28 per cent over August last year, he said. Production of cloth amounted to 5,143,000 yards, up 37 per cent from July but 24 per cent below August last year. Sales of 7,001,000 yards represented a rise of 50 per cent above July and 81 per cent over August a year ago. Unfilled orders, amounting to 9,143,000 yards on August 31, were 13 per cent lower than in July but 19 per cent greater than on the same date in 1933. Spindle hours, totaling 39,259,000, were up 20 per cent from July but 28 per cent lower than a year ago.

According to official reports, the indicated supply of cotton in the United States, September 1 was 16,320,000 bales compared with 19,480,000 bales September 1, 1933. Dr. Cox said. The indicated supply in the United States this year is thus 3,160,000 bales less than on September 1 last year.

U. S. Stocks Abound Less

"Moreover, stocks in European ports and afloat to Europe of American cotton are 480,000 bales less than last year," he said. "In other words, the effective supply of these items is 3,640,000 bales less than last year. During the past seven years the average points change in price as a result of a change of 100,000 bales in supply has been 25.8 points. If these figures hold good for this year the index price is due to go up 9.39 cents from last year. When this index price of 22.34 cents is adjusted for the wholesale index number of 76.4 and the spinners margin, the indicated New Orleans spot price figured on the base of averages is between 15 and 17 cents. When the price is calculated in terms of average percentage change during the past seven years, the indicated New Orleans spot price is 14.5¢. The bureau supply-demand chart indicates a price of 14 cents.

"The wide variation of the actual price from the calculated price at this time is very exceptional. Probably a number of causes are contributing to the relatively low price of American cotton in terms of past years, such as the large increase in the supplies of foreign growths which greatly lessen the control of the American supply over world cotton prices, the weakening of the world business outlook, the textile strike in the United States, and the government twelve cent loan on American cotton is below normal for the first time in many months. The average was 154.6 in August compared with 161 for July and 170 in August last year. The average price margin for August was 3.94¢ compared with 3.96¢ in July and 3.95¢ in August last year. The narrowing spinners' margins on American cotton and the decline of the price of other growth relative to American are undoubtedly strong factors in the shift from American to foreign growths."

TRINITY FIELD SCENE OF FAST DEVELOPMENT

TRINITY, Oct. 11.—One of the fastest oil developments on record is taking place eight miles northwest of here.

On September 2 Jack and Garrett Boone, brothers, of Houston, brought in a wildcat test on the Trinity State bank 140-acre tract in Houston county just across the line from Trinity county.

Weeks later more than a dozen wells were drilled and nearly a score were prepared to drilling, the populations of Trinity, Lovelady and Crockett were doubled, and the Texas Long-Leaf Lumber company's giant mill was running to capacity and building construction was booming.

Acreage far from the wildcat well sold and continues to sell for fabulous prices. Oil from the discovery well was being moved in tank cars along a railroad long declared a losing venture but now considered valuable property.

The apparent introduction of another long-time Texas oil pool interested the Humble Oil company and more than 70 truck loads of equipment were unloaded. Headquarters for the company were erected in the vicinity and a field camp built.

Hunt Brothers rigged up one and a half miles northwest of the discovery. Lacey's Hanner No. 1 derrick three miles west of the wildcat was built and drilling started.

Clearing was made two miles north of the Boone well for East Texas Refining company's Christolm No. 1.

East of the discovery well only 660 feet on Texas Long Leaf Lumber company land, the Boone brothers have sunk another well.

Sandy farms that would have sold for \$8 an acre cash three months ago were leased for as high as \$500 several miles from the well. Prices of \$1,000 close to the well were reported.

Royalties were being traded from operator to operator, with the cash that bought them resting in the hands of the citizens.

Foreign Production. Foreign countries have steadily increased their share in world cotton production for more than 40 years, regardless of big American crops. It was pointed out. "To return to big crops in the South will afford no more protection against foreign competition in the future than it has in the past. There is reason to believe that foreign increases will be smaller in the future because of very definite limitation to expansion in

Cooperation With AAA Will Insure Fairly Steady Prices for Cotton, Farmers Told

Fairly steady prices for cotton at a decent level every year are in prospect if the South continues to cooperate with the Agricultural Adjustment Administration to build a long-time program, it was explained to a representative group of farmers and farm women here from four counties Tuesday Oct. 9. W. H. Darrow, southwestern regional contact representative of the AAA, College Station.

In a 29 to 0 vote of approval of the AAA cotton program, farm leaders present decided to hold a series of community educational meetings this fall and winter to acquaint farmers and farm women with the facts in the agricultural situation. How to organize community agricultural associations for carrying out such a program and for performing other needed community work was explained by R. H. Bush, extension organization specialist, Texas A&M college.

30 Farmers Present. Present at the meeting were 30 farmers, mostly cotton committeemen, the county home demonstration council, and 25 farmers, farm women, and county farm and home demonstration agents from 3 other counties. The meeting was called by County Agent J. C. Patterson in cooperation with Home Demonstration Agent Miss Ruth Ramey.

The following officers were elected: The County Farm Demonstration Council—W. R. Uusery, chairman; J. B. Eberhart, vice chairman; and H. M. Gilbert, secretary. From the two committees or councils—the County Farm Demonstration Council and the County Home Demonstration Council—of which had already been elected and of which Mrs. Lee Burkhead is chairman, Mrs. E. F. Todd, vice chairman, and Mrs. Elizabeth McCracken, secretary.

The following County Agricultural association officers were elected: E. F. Altom, chairman, Matt Bailey, vice chairman, and Mrs. Elizabeth McCracken, secretary. Delegates elected to represent the county at the State Agricultural association meeting in Dallas December 3-6 are: E. F. Altom, W. R. Uusery, and Mrs. Elizabeth McCracken.

In the discussion on cotton it was brought out that the AAA program is not losing our foreign cotton markets; that continued production control will enable the South to maintain ample cotton production at fair prices; and that AAA offers the opportunity to build Southern farming on solid basis.

Foreign countries have steadily increased their share in world cotton production for more than 40 years, regardless of big American crops. It was pointed out. "To return to big crops in the South will afford no more protection against foreign competition in the future than it has in the past. There is reason to believe that foreign increases will be smaller in the future because of very definite limitation to expansion in

the chief competing nations. Brazil offers the most serious threat, but huge investments will be required to clear land and import farmers if cotton expansion is to go very far in that country. It will take very high cotton prices for a long period of years to provoke very great competition in that country. Cotton acreage declined this year in India, Egypt and Russia; in China there was a small increase, but food shortage and poor transportation will likely limit large future increases, and future increases in Russia, which are limited, will probably be absorbed by greater consumption in that country. As long as the South has normal cotton crops reasonably priced there seems to be no occasion for alarm.

Acreage Can Jump

American cotton acreage can easily jump from 28 million acres this year to 50 million acres next year or in future years. Unless brakes are applied the South will continue to be periodically depressed to the detriment of farming and business. By production control farmers can cooperate to do together what they have never been able to do individually. Cotton processing tax enables the AAA to help farmers adjust their production. This tax on consumers, it was pointed out, is financing the benefit payments. The AAA programs are not adding to the public debt. The processing taxes make up to the farmer the difference between the market price of cotton and what he ought to get for it, or partly.

Processing taxes are mild compared to tariff taxes, and should not increase consumers' prices on cotton goods much. The processing tax on a cheap cotton shirt is 3 1-2 cents and the tariff 25 cents. Less than one-third of the increased prices of cotton goods the last year have been due to processing taxes and higher cotton prices to farmers. For years tariff taxes have added to the cost of many manufactured commodities and have snuff off foreign imports which in turn has restricted exports.

The American farmer is our largest exporter, and has therefore suffered the most from import tariffs. Largely because of tariffs America now has 30 million acres of land not needed to produce for a vanished foreign trade. The processing tax acts as the farmer's tariff. Through adjustment programs it is planned to shift the production from these 50 million acres to hay and pasture crops, to the cotton, corn, hog and wheat situations. Cotton acreage will not be indefinitely reduced but kept at a reasonable normal from year to year.

Attention was called to the fact that the present drastic prostration of an emergency an temporary nature, designed to bring quick relief to farmers and business men to afford crop insurance, remove surpluses and bring farm prices back in line with other goods. It was brought out that it will be disastrous

for farmers to produce at capacity while industry plows up production. For these reasons it is believed that continued production control or adjustment is essential to Southern prosperity. The building of a sound long time program based on good farm management and helped by production control is the real opportunity offered by AAA. If the South takes advantage of the opportunity both farming and business should profit by more stable prices and the way paved to far higher standards of living on farms.

GRANDMOTHER IS SAVED BY PLUCKY YOUTH

FORT WORTH, Oct. 11.—The alert mind and plucky bravery of Billie Miller, 12, Saturday saved his bedridden grandmother, Mrs. Kate Gardner, 92, from burning to death in a fire which destroyed his parents' home.

Billie was alone in the home with his grandmother, while his mother was driving his father, W. B. Miller, down town. The youth said he had been playing with a shot gun and had put it back in a closet.

Presently he heard it explode setting fire to the house. He raced for the garden hose and tried to quell the flames. Unable to do so, he called the fire department and then went to the rescue of his grandmother, suffering from heart ailment.

The youth had succeeded in getting her from the bed and into a chair near an outside door when aid arrived.

Stop Chills and Fever!

Rid Your System of Malaria!

Shivering with chills one moment and burning with fever the next—that's one of the effects of Malaria. Unless checked, the disease will do serious harm to your health. Malaria, a blood infection, calls for two things. First, destroying the infection in blood. Second, building up the blood to overcome the effects of the disease and to fortify against further attack.

Grove's Tasteless Chilli Tonic supplies both these effects. It contains tasteless quinine, which kills the infection in the blood, and iron, which enriches and builds up the blood. Chills and fever soon stop and you are restored to health and comfort. For half a century, Grove's Tasteless Chilli Tonic has been sure relief for Malaria. It is just as useful, too, as a general tonic for old and young. Pleasant to take and absolutely harmless. Safe to give children. Get a bottle at any drug store. Now two sizes—50c and \$1. The \$1 size contains 2 1/2 times as much as the 50c size and gives you 25 per cent more for your money.—Adv.

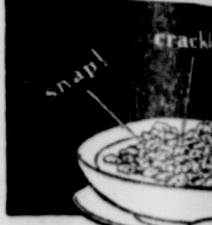

et al. Young; Standard Metal Co. et al. vs. A. Wichita.

Havana Strike Sent Back

HAVANA, Cuba, Oct. 11.—Workers were ordered today by union leaders to continue normal activities. What was to be a general sympathy with the strikers' company employees' union, cent effective Monday, city workers who called cut themselves in a because the strike was revolutionary time.

FOR TEXAS IS URGED

Collateral Celebrations Will Augment Texas Centennial Observance at Dallas
DALLAS, Oct. 11.—Comprehensive plans, being formulated, will set up celebration centers in numerous locations in this state, in connection with the observance in 1936 of the centennial of Texas independence. It is expected that roves of thousands of tourists from other states and foreign countries will be attracted to Texas for that event. Additional stimulation of business activities is anticipated from the treks of Texans from their immediate localities to visit the celebrations and points of interest in other sections of the state.

Early plans are expected to add other celebration centers to the six historic points, San Antonio, Houston, Galveston, Brenham, Nacogdoches and Huntsville, designated by the legislature, and the central exposition city, Dallas, selected by the Texas centennial commission. The statute providing that other historic points shall be added to those mentioned specifically in the act.

Ambitious Celebrations
Two of the most ambitious of these concurrent celebrations will be planned for San Antonio and Houston, those two cities having been the scenes of two important incidents contributing to the carving of the state of Texas first out of a wilderness and then out of a tyrant-oppressed land. San Antonio is the location of some of the early Spanish missions, which were among the first enclaves of the white man's civilization in a savage terrain.

An outstanding attraction of the San Antonio celebration undoubtedly will be the old mission chapel of the Alamo, the shrine of Texas liberty, where a little band of heroes died at the hands of Santa Anna's Mexican hordes rather than surrender. Tales of that battle, where even the wounded asked that their coats be moved across the sword-drawn line, which was indicative of their willingness to fight to the death, are known to school children throughout America and even beyond the confines of this nation.

Near Houston is an historic park the battlefield of San Jacinto, where Sam Houston and his rugged band of Texans routed an overwhelming force of Mexicans under Santa Anna in an encounter which international historians regard as the decisive battle of the world, previous to the world war. It not only avenged the Alamo martyrs and won Texas' independence from Mexico, but also probably was the deciding factor in fixing the western boundary of the United States at the Mississippi river but at the Pacific ocean.

One of Main Centers
That park, where monuments already mark the main points of interest in the battle and where the fine old oak tree, under which lay Houston with his shattered ankle when he accepted the surrender of Santa Anna, is planned to be one of the main centers of the centennial celebrations. It has been a historic shrine for many years, with the aged son of Sam Houston, Col. Andrew Jackson Houston, living on the grounds as custodian.

The city of Houston, itself, will play an important role in the centennial observance, having figured prominently in the territorial history of Texas and the early development of the young republic and the growth of the state. Interesting plans will be made in connection with the other cities, which have found their places in the stirring annals of the commonwealth.

BIG ENROLLMENT
STATE COLLEGE, Pa., Oct. 9.—The 5th anniversary of the entrance of the first students at the Pennsylvania State college found the largest freshman class ever to matriculate here. In 1859 the first year 69 students were enrolled. The number this year is slightly in excess of 14,000, the number agreed upon as about the limit of the school's facilities.

The latter always have been the direct supervision of the university, intercollegiate athletics have been directed by the graduate manager of athletics, directly responsible to the athletic association.

Appointing the committee of the University for the first time recognized a direct responsibility in fostering intercollegiate sports.

Unique Vicks Formula Is Now Aiding Millions In Preventing Many Colds

Va-tro-nol — for Nose and Throat — Aids Nature's Functions to Prevent Many Colds—and to Throw Off Colds in the Early Stages
Is Amazingly Successful

These new Vicks Formula combinations of Va-tro-nol and other natural ingredients in Famous Vicks VapoRub are now being used by millions of people to prevent colds and to throw off colds in the early stages.

6,074,808 Cattle Bought by Gov't
WASHINGTON, D. C., Oct. 11.—A total of 6,074,808 head of cattle and 571,332 head of ewes, were purchased up to Sept. 24, under the Agricultural Adjustment Administration's plan to buy cattle and sheep in the drought-stricken areas of western states, it was announced.

Up to the close of business on September 25, cattle purchase and benefit payments totaling \$60,491,464, representing the cost of acquisition of 4,478,250 head, has been certified. The average cost per head of cattle is \$13.54.

Up to close of business on Sept. 24, vouchers had been issued for service disposition payments and purchase payment for 6,755 head of sheep representing a total of \$13,570.

While a state-by-state summary is not available on the September 25 cattle purchase report, expenditures up to September 21 totaled \$57,536,166 paid to 341,869 livestock producers in 31 states. Of this amount, \$36,422,979 were purchase payments, and \$21,103,187 were benefit payments, on 4,254,967 head of cattle.

Cattle purchases by states, through September 24 are: Arizona, 62,325 head; Arkansas, 76,189; California, 18,490; Colorado, 188,259; Idaho, 28,537; Illinois, 2,534; Iowa, 17,539; Kansas, 368,695; Minnesota, 225,414; Missouri, 385,713; Montana, 298,798; Nebraska, 287,511; Nevada, 104,317; New Mexico, 354,739; North Dakota, 932,428; Oklahoma, 261,000; Oregon, 7,379; South Dakota, 784,716; Texas, 1,406,620; Utah, 92,539; Wisconsin, 50,454; Wyoming, 187,968.

Sheep buying is progressing rapidly in the western range states. Up to September 24, the following purchases of sheep has been made: Colorado, 22,295; Montana, 43,152; Nebraska, 6,522; Nevada, 3,551; Oregon, 104,317; South Dakota, 3,953; Texas, 193,568; Utah, 1,549; Wyoming, 191,849.

Of the cattle purchased by the government in the drought relief program, a total of 3,385,855 head had been shipped out of the drought areas, either to packing plants, or to grazing areas. Of this total approximately 1,171,215 head are now on pasture in 31 states awaiting later processing.

"JACK KELLY'S" ABUNDANT
MT. VERNON, O., Oct. 9.—A news story circulated widely by the United Press mail service concerning Jack Kelly who left a roll of bills for Jim Platt, local theater manager, to keep for him, brought letters from dozens of "Jack Kelly" claimants to the roll Platt said. Platt said none had identified himself as the right Jack Kelly and that he was still holding the bills.

WOMAN HUNTER OUT
BARNESVILLE, Ohio, Oct. 9.—Many a squirrel hermits has a woman to hunt that he may live through the squirrel season, just opened in Ohio. Miss Lena Murphy, who killed 39 squirrels last season and 46 the year before, is convalescing from an appendectomy and can't hunt this year.

CHANGED HIS MIND
NEW BRITAIN, Conn., Oct. 11.—John Mikalauskas started to make a cheese omelet, but changed his mind when he cracked open an egg and found it contained three yolks. He placed it on exhibition in his restaurant window.

HINSDALE, Ill., Oct. 11.—Mr. and Mrs. William O'Donnell heard a mysterious knocking on the kitchen floor. They discovered later that the tapping noise was the washbasin floating in the cellar. The town was washed out and the cellar was full of water.

Credit Democratization Makes Loans For Renovation Available on Character

"Democratization" of credit on a vast scale is here as the result of the modernization plan of the Federal Housing Administration. It was revealed recently in an address by Roger Steffen, director of modernization credits for the administration.

"For the first time in banking history," said Steffen, speaking before the Ohio Building Association league at Cincinnati, "it is possible — if not for the man in the street — at least for the man with a home — to apply to any cooperating financial institution, whether or not he had a previous banking connection there. That is a stupendous feat regarding the broadening of the credit base in this country, that has escaped the recognition that it otherwise would have received because of the many other dramatic phases of the modernization credit plan."

He described the plan as a "workable credit tool sponsored by the United States government and implemented by private capital" and as the local federal savings and loan associations. The plan, he said, is lacking in red tape and the plans of collateral, co-makers, endorses, mortgages and other security, substitutes a contract of insurance.

"This," he said, "protects it is considered 100 per cent financial institutions against credit loss, and in effect, is intended to release unsecured credit based on character and earning power to property owners so they can improve and enjoy their properties now, and pay for these desirable results with very small monthly installments over a period of from one to five years."

Credit on Character
The plan applies to renovation of properties, and the only tests for applicant are whether or not the payments are within his means and whether or not he will pay. He said any property owner may apply for a loan under the plan, as explained by Steffen. Loans of from \$100 to \$2,000 are available on notes running from one to five years. The financial institution may not collect more than \$5 discount per \$100 original face amount of a one-year note. Charge for longer periods than one year are on the same basis. Note may be paid in full before maturity dates with reasonable rebate for prepayment.

This plan, evolved as the most practical and easiest credit instrument toward renovation of the vast amount of run-down property in the nation, is expected to stimulate a revival of activity in one of the basic national industries, a revival that is essential to recovery.

The facilities for such credit are available in all towns where federal savings and loan associations have branches.

As "rhinopithecus" — more than 60 years ago. It is a close relative of the sacred Hoo-man monkey of India.

SKIN OF RARE MONK PUT IN SMITHSONIAN

WASHINGTON, D. C., Oct. 11.—The skin of one of the most hideous creatures in the world — a kintseu, or "money of the snows" — has been added to the Smithsonian Institution's collection of strange specimens.

The skin is one of few ever received in America of Europe. Due to the remoteness and inaccessibility of its habitat, the kintseu is one of the rarest of animals.

It possesses an evil, snarl face ranging in color from green to turquoise. Its large, bulging nose are surrounded by a gear of long orange hair. The body is covered with hair six or seven inches long and varies in color from gold to silver.

Adapted to Cold
The monkeys band together in bamboo forests, just below the level of perpetual snow. They are adapted more to intense cold than any of their kinmen.

59-Year-Old Town Hall Found Illegal

GROVEPORT, O., Oct. 11.—The most completely illegal and downright dishonest public institution in Ohio — the town hall here — has been discovered by state officials.

For 59 years, the affairs of Groveport have been carried on here by a town government in a building which did not legally exist, according to state records.

In that almost six decades, there was one mistake made with public funds — the town paid the federal government \$121 which it was not required to pay, state examiners found.

"I suppose," said H. C. Rainer, trustee, "that something will have to be done about it — I mean the legal status, not the fact that we've been honest all these years."

"If we go legal at this late date," E. Wildermuth, chairman declared, "it may be bad all around. While we lived so long in sin, legally, we are at least pretty respectable. If we get legal, we may go crooked. I'm against it."

WOMAN HUNTER OUT
BARNESVILLE, Ohio, Oct. 9.—Many a squirrel hermits has a woman to hunt that he may live through the squirrel season, just opened in Ohio. Miss Lena Murphy, who killed 39 squirrels last season and 46 the year before, is convalescing from an appendectomy and can't hunt this year.

CHARGE FILED IN CLEBURNE MAN'S SLAYING

HILLSBORO, Oct. 11.—H. R. Taylor, 42, former convict with a long prison record, Tuesday was charged with murder in the slaying of Walter L. Jones, well-known Cleburne money lender and professional bondman.

Sherriff J. W. Freedland filed the complaint with Dist. Atty. Sam H. Alfred, after Taylor had been identified as the alleged "stranger" and last person seen with Jones last Friday. Alfred then filed the complaint in justice court.

George Belcher and D. A. Collins of Cleburne, who talked with the "stranger" for 30 minutes before he was shot, drove south toward Waco, pointed out the suspect as a "stranger."

Ed Morrison and Homer Adams of Cleburne, who also talked with the "stranger" did not identify Taylor as the man, however.

The body of Jones, who had a habit of carrying large sums of money and frequently offered a \$10,000 bill as payment for small purchases, was found Sunday beneath a culvert on a side road 14 miles southwest of here.

Belcher said Jones told him last Friday morning that he and the "stranger" were to go that day to Waco to make a \$5,000 cash bond for a man.

Taylor was brought here last night from Cleburne, where he was viewed by several Cleburne men. He was arrested at Fort Worth along with a second suspect. Freedland said the second suspect had not been connected with the case.

TEMPLE STARTS ITS 51ST YEAR AS UNIVERSITY

PHILADELPHIA, Oct. 11.—Temple University has begun its 51st academic year.

Student enrollment is expected to reach the normal peak of 12,000. Financial aid, through employment offered by the federal government, increased the number of students.

Several educational innovations, additions to the faculty and new in-

... and while we're talking about cigarettes

I don't suppose you were ever in a warehouse where they were storing bogsheads of tobacco. Anyway here's something interesting:

Liggett & Myers, the people who make Chesterfields, have about 4½ miles of storage warehouses where they age the tobacco.

Down South where they grow tobacco folks say . . .

It's no wonder so many people smoke Chesterfields. The tobaccos are mild and ripe to start with, and then they're aged the right way to make a milder, better-tasting cigarette.

a good cigarette gives you a lot of pleasure—

Chesterfield

the cigarette that's Milder
the cigarette that TASTES BETTER

Circle 2 Meets With Mrs. M. A. Northup

Mrs. M. A. Northup was hostess Tuesday afternoon at 3 p. m. to the members of the M. E. Missionary society circle 2, at the home of Mrs. W. B. Statham, 1003 West Sixth St. Mrs. William Reagan, circle leader, presided and Mrs. Frank L. Turner gave the devotional on "Loyalty." The group sang, "Loyalty to Christ," followed by a prayer by Mrs. Northup.

The Missionary bulletin was given by Mrs. Lee Owen. Mrs. P. J. Connally talked on an article from "World Outlook on 'Movies and Methodists'."

Mrs. Fred S. Hayes sang, "In The Garden." The concluding prayer was given by Mrs. W. E. Ricks.

A short business session was held after which refreshments of ice cream and cookies were served to Messadmes Joe Wilson, George Fee, Mary Andrew, W. H. Hurd, Fred S. Hayes, Lee Owen, P. J. Connally, W. H. Craddock, George Winston, William Reagan, Frank Turner, W. B. Statham, W. E. Ricks, W. D. Peeler and the hostess.

Many Attend Civic Tea In Eastland

Several members of the Cisco City Federation of Women's club attended the Civic League tea at Eastland Wednesday afternoon. This was the opening meeting of the Eastland League. Cisco women who attended Mrs. Homer Slicker, Mrs. E. P. Crawford, Mrs. Hubert Seale, Mrs. P. P. Shepard, Mrs. William Reagan, Mrs. N. A. Brown, Mrs. W. W. Wallace and Mrs. G. B. Kelly.

Mrs. Harper Hostess To Loyalty Club

The Loyalty club of the Woodman circle Grove 356 met Wednesday afternoon at the home of Mrs. Iva Harper on Twelfth street.

The afternoon was spent in piecing quilts which will be sent to the Woodman home in Sherman.

The club made plans for its members to visit the home in Sherman sometime in October.

Mrs. Harper assisted by her daughter, Miss Lucille Harper, served refreshments of sandwiches, potato chips, vegetable mint salad, cake and iced tea.

Messadmes Katie Cooper, Effie Mayhew, Mary Abbott, H. C. Wipern, Clementine Vaughn, and Misses Sarah Mayhew, Lucille Harper and Bobby Lee Cooper attended.

The Loyalty club will meet next Wednesday at 3 p. m. at the W. O. W. hall.

CALENDAR

Friday
Cisco Choral club will meet at the home of the director, Miss Jewel Ely, 400 East Third street, at 7:30.

The Live Oak club Grove 131 Auxiliary to Grove 356 will meet at 4 p. m. at the W. O. W. hall. This meeting is called by the Junior supervisor.

Monday
The Garden club will meet at the Women's club at 3 o'clock.

Personal Mention

Mrs. W. R. Cabaniss and son, Ralph, Jr., of Memphis are visiting Mrs. Cabaniss' mother, Mrs. M. A. Ford.

Mr. and Mrs. Ray Patterson and Miss Emily of Murray county, Kentucky, en route they stopped in Windon to visit Miss Ray's sister, Mrs. J. F. Barras.

Dr. Hubert Seale is attending a meeting of the Mid-West Medical association in Abilene today.

Mrs. W. L. Harrell is visiting in Fort Worth.

Independent Club

The Independent club met with Mrs. Sadie Gardner Oct. 3 and spent an enjoyable day making crepe paper flowers and attending to business affairs.

Most of the members were present. We hope that all will be present at the next meeting. The Independent club will meet with Mrs. Daisy Taylor Oct. 17 to make a quilt.

LIFE EXPECTANCY 35

CLEVELAND, Oct. 11 — Thirteen years of life expectancy have been added to possibilities of Greater Clevelanders, bringing the life span here up to 35, according to Dr. Harold J. Knapp, city health commissioner. Dr. Knapp said the 13 years' expectancy increase had occurred in 23 years' time.

8 PRISON DOGS HEROES OF PEN CONVICT RIOT

GRATERFORD, Pa., Oct. 11 — Eastern State penitentiary has eight "heroes," who have just been officially recognized for their part in subduing the rioting here in August.

The "heroes"—eight Belgian police dogs—were paid a tribute in the report compiled for the Board of Trustees by Captain Elmer Leithiser, deputy warden.

Fearing by every convict, the dogs play a major role in maintaining order within the prison. They work eight hours a day in two shifts, patrolling the grounds.

The dogs obey only two men—chief trainer and his own particular master. Other guards and prisoners are warned not to talk to or pet the dogs. And to run when a dog is in sight is suicide.

Trained Six Weeks
Six weeks' training by Herbert McCoy, chief trainer, is necessary before the dogs are permitted to work. Training consists of putting them over jumps ranging from four to eight feet in height. The dogs are trained to hold anything they may catch. McCoy declares his "heroes" will hold a stick in their jaws for hours unless he gives the command. McCoy is careful not to cause jealousy among his charges.

The dogs answer to the names of Kieaur, Khan, Kopti, Zeece, Danie Oura, Paix and Flavio, respectively. The first three are from an original group of seven presented to the late Colonel Joan C. Grome, when he was warden here. They were born in Switzerland and understood nothing out French. It was necessary for McCoy to learn the language before he could train them.

INDICTED OWN BANDIT

CAMBRIDGE, Mass., Oct. 11 — Edmund W. Kirby, Newton jeweler had the satisfaction of being a member of the grand jury that indicted Victor R. Ragalevsky, 22, on a larceny charge. Ragalevsky allegedly robbed Kirby of \$3,700 last April.

CELLINI COIN IN OREGON

PORTLAND, Ore., Oct. 11 — A silver coin struck by the great Italian artist, Cellini, is owned by Geo. A. Pipes. The coin is one of a few made during the period 1533-35 and is called a Testone. It is a little smaller than a 50-cent piece.

REFUTE TWIN CLAIM

CORVALLIS, Ore., Oct. 11 — Oscar F. Fredrickson and his twin brother,

Meat Handling to Be Taught at Tarleton

STEPHENVILLE, Oct. 12 — There will be a supervised practice course in killing, dressing, curing and canning beef, mutton, and pork, and inspecting carcasses on the four Saturdays of November. Cooperating with the college is the State Board of Vocational Education.

The instructional staff for the course includes Mr. Neal Gerreard, director of school of agriculture; Miss Mattie Walker, director of school of home economics; Miss Lou Nelson, associate professor of foods and nutrition; Mr. H. N. Smith, professor of animal husbandry; Miss Lela Vaughan, college dietitian; Mr. Verne Scott, professor veterinary medicine; and Miss Ima Hensarling, canning specialist for the Kerr Glass company.

On November 3, the course includes killing and dressing two hogs and one yearling and inspection of carcasses. November 10, those taking the course will cut and cure two hogs and one yearling and identify and compare wholesale and retail cuts of pork and beef. November 17, two sheep, one hog, and one yearling will be killed, and the carcasses inspected. Also there will be the reworking of pork in cure. November 24, two sheep will be cut and wholesale and retail cuts will be identified and compared, also pork in cure will be reworked. There will also be the preparation and canning of meat and meat products, such as mince meat, beef stew, soup stock, liver paste, chili meat, swiss steak and meat loaf.

Enrollment for the course will be limited to eight teachers of vocational agriculture, so that each man will get the maximum of work and experience.

JUDGE SEES MICHIGAN AS RENO RIVAL

DETROIT, Oct. 11 — Reno soon will be crowned out of the divorce picture in favor of Michigan, Judge Theodore J. Richter of the Wayne circuit court believes.

"Divorces have become as easy to obtain here as in Reno and Michigan soon will be the divorce center of the United States as well as a large portion of Canada.

"Children are the innocent victims of these divorces," he said. "Ninety per cent of the cases tried in juvenile court concern the children of divorced parents. They have been robbed of their homes and left with none to guide them.

Never Had Home
"If you study the background of most criminals, you will find they never had a home in the real sense of the word. They are of divorced parents, or there was no religious training in their homes."

Judge Richter suggested that the church takes its part. He listed three things the church might do:

Work for uniform divorce laws.

For the establishment of a court of domestic relations.

Set up domestic relations committees to go into families which face a break up, follow the case through the divorce courts if the divorce cannot be prevented, and see that the children are properly cared for.

CUT WIRE ELECTROCUTED

SPENCERVILLE, O., Oct. 11 — Donald F. Kennedy, 50, of Monticello, O., near here, climbed high in the trees of his lawn, took shears with him, set about to prune branches. Concealed in the leaves was a high tension wire. Kennedy trimmed it unknowingly, was electrocuted.

PROVINCETOWN, Mass., Oct. 11

—Although he had only a correspondence school education, he got his man, Charles H. Adams, with the use of his magnifying glass, little brushes, powder, camera, fingerprints, and his mail-order course in detecting, was able to trace a burglar.

MAN 45, TO DIVORCE WIFE, 19

LIBERTY, Mo., Oct. 11 — An 45-year-old Missouri farmer, Zena Milburn, has filed for a divorce from his wife, Ezora who is only 19. She treated him cruelly, he contended by beating him with a club.

BUSY DAY IN STOCKYARDS

OGDEN, Utah, Oct. 11 — The Ogden stockyards recently had the biggest day of the year. More than 3,316 cattle passed through its chutes in 24 hours.

21 OUT OF 23 ST. LOUIS CARDINALS SMOKE CAMELS!

by FRANK FRISCH

They sure made it hot for us this year, but the Cardinals came through in great style clear to the end when we needed every ounce of energy to win. We needed it—and we had it. There's the story in a nutshell. It seems as though the team line up just as well on their smoking habits as they do on the ball field. Here's our line-up on smoking: 21 out of 23 of the Cardinals prefer Camels.

The World Series is over. The Cardinals are on the top. Their astounding achievement will go down in history—a sensational change from 7 games behind to win the pennant...and then the series!

They are champions—and popular champions. Frankie Frisch, Carleton Rothrock, Orsatti, Leo Durocher, Bill Walker, Medwick—all America knows this Cardinal team by heart and applauds its stirring victory.

"What do the World Champions smoke?" A natural question. And above you get Frank Frisch's answer. The preference is overwhelmingly for Camels.

The Cardinals' virtually unanimous preference for Camels is worthy of every smoker's attention. Be guided by their experience. Enjoy Camel's "energizing effect" which science has studied and confirmed. Camels are milder—made from a matchless blend of finer, MORE EXPENSIVE TOBACCOS. They never get on your nerves!

THE DEANS!

PAUL DEAN says: "Smoking a Camel gives me the feeling of having more energy. Camels never give me jumpy nerves or leave a 'cigarette' aftertaste!"

"DIZZY" DEAN: "A Camel sure brings back your energy after a hard game, or any time when you're tired, and Camels never frazzle the nerves."

A TIP TO THE FANS...
WHEN YOU'RE TIRED
GET A LIFT WITH A CAMEL!

CAMEL'S COSTLIEST TOBACCOS NEVER GET ON YOUR NERVES!

LEAF-TOBACCO EXPERTS AGREE

"Camels are made of finer, More Expensive Tobaccos—Turkish Domestic—than other popular brands."

Massacre Probe Unearths Gang Political Ramifications

ENDERGAST LIEUTENANT IS INVOLVED

ANSAS CITY, Mo., Oct. 11 — A mass disclosure and evidence of the ramifications of gang politics in Kansas City following today upon the heels of the government's latest move in solving the station massacre in which were slain.

John Latta, the Italian ex-convict who became a power in the demolition organization of Tom Pendergast, had a hand in preparing for the massacre, according to a story today told by James Lacara, another underworld character.

Latta was slain last night in a fight which has not been fully explained, but there have been rumors that some of his associates feared he planned to "back" and so silenced him by the "black" federal agents entered the hunt for Charles "Pretty Boy" Floyd successor to the late Alvin Karpis as America's arch criminal.

Missing Officer Is Sought in Southwest

EDINBURGH, Texas, Oct. 11 — Fear for the safety of Deputy Sheriff Jack Rapp, who disappeared while escorting three prisoners from McAllen to the county jail here, increased hourly today.

Two airplanes flew over a wide area seeking some trace of the missing officer, and more than 100 possums tramped about through brushland between here and Rio Grande city to the west.

Rapp left McAllen more than 24 hours ago with D. M. Hodd, 53, paroled convict, and Hood's two sons, Clifford and Carl.

BROWNWOOD, CISCO GAME TO OPEN SEASON

The Cisco Loobes will open their conference season against an invading Brownwood Lions team tomorrow night at Chesley field. Both teams, on the basis of advance information, appear to be evenly matched, with Brownwood making up in weight and speed some disadvantage in the lack of experience.

An effort was being made today to reconcile the conflict between the revival services to be held at the First Baptist church and the game as was done last Friday when the Cisco eleven before. The game will also be the first official clash for the Lions.

Practically the same lineup that was used against Sweetwater last week will be sent against the Lions tomorrow night. Theron Graves, regular tackle, is still missing from his position because of a shoulder injury. He will probably not be used until the Breckenridge game on October 26, Coach Shelly said.

Registration Under Truck Code Begins

Every owner of property carrying vehicles for hire, whether motor propelled or horse drawn, will be required to register immediately under the trucking code authority, Crigier Paschall, county administrator for the national re-employment service at Eastland, said today.

Hauptmann Hearing Delayed to Monday

NEW YORK, Oct. 11 — Bruno R. Hauptmann won the opening skirmish against extradition to face charges of murdering the Lindbergh baby in New Jersey when hearing on a habeas corpus writ was postponed today until Monday.

ITALIAN GETS BEATING FROM BELGRADE MOB

BELGRADE, Oct. 11 — With Italian-Jugoslav relations already strained, demonstrators at Laibach today beat an attaché of the Italian consulate.

The mob was crying "Down with Italy"—held responsible by many Jugoslavs for King Alexander's assassination — when the attaché passed. He objected to the insult of the crowd and was beaten before police could intervene.

TWO SUSPECTS IN ASSASSINATION HELD

PARIS, Oct. 11 — Police today announced the arrest of two men allegedly implicated with Petrus Kellemen in the assassination of King Alexander of Jugo-Slavia and first French Foreign Minister Louis Barthou.

VOTE OPPOSES CROP CONTROL CONTINUATION

KANSAS CITY, Oct. 11 — A poll conducted by the Drovers' Telegram of Kansas City among its farm readers in 14 states indicates overwhelming opposition to continuation of government crop control, the papers said today. There were 5,435 votes cast, 2754 by contract signers and 2,500 by non-signers. The vote against control was 5,275 to 160.

Lobo Band Member Plays for Rotary

Daskam Stephens, a member of the Cisco Lobo band, was presented in two trombone solos at the Cisco Rotary club luncheon today, with G. W. Colburn, bandmaster, accompanying.

Program Announced For Debating Club

The following program will be presented at the regular meeting of the Demosthenian Literary club in Bivins hall of Randolph college Thursday night beginning at 7:30.

Insull Inter-Unit Stock Sales Shown

CHICAGO, Oct. 11 — Sales of stock from one Insull utility holding company to another to maintain the market price were cited today by the government in the mail fraud trial of Samuel Insull, Sr., and 16 other defendants.

Eton School Boy Becomes King

Crown Prince Peter, healthy, outdoor-loving lad of 11, shown here at left is the new king of Jugo-slavia, succeeding his assassinated father, King Alexander. He is seen here as he arrived in London recently on his way to Eton school. The prince, who will rule through a regency, has been officially proclaimed king and has left London to return to his native land, plans for his English education being abandoned in the crisis into which the slaying of his father has plunged his country and Europe generally. Lower photo shows the assassinated monarch.

Start Fund to Buy Uniforms for Band

A movement is now under way to raise a fund to equip the Lobo band with complete new uniforms. With a goal of \$600 set for this purpose a group of business men met with Bandmaster G. W. Colburn and Supt. R. N. Cluck at the chamber of commerce yesterday when \$95 of the fund was subscribed.

Burnams Leave to Attend Convention

Mr. and Mrs. J. C. Burnam left at noon today for Waco where they will attend a convention of salesmen for the Great Southern Life Insurance company over the week-end. The convention begins Friday morning and will close Sunday.

Three Bank Bandits Sought at St. Jo

ST. JO, Texas, Oct. 11 — Authorities today searched for three bandits who held up the First National bank here yesterday and escaped in an automobile with \$995.

Carnival Troupe Is Queried in Looting

WAXAHACHIE, Oct. 11 — State and Ellis county officers questioned 90 members of a carnival troupe today in connection with the looting of highway department warehouses.

Indian Burial

MARSHFIELD, Ore., Oct. 11 — A complete Indian burial exhibit was part of a display shown at the Paul Bunyan celebration here. This included a complete skeleton, surrounded with trinkets, stone and bone relics, horn, and shell work.

SUIT MAY BE CLUE IN JONES MURDER CASE

FORT WORTH, Oct. 11 — Detectives today found a suit in a dry cleaning plant here which was identified as belonging to Herschel Taylor, 42, former convict, charged with murder in the slaying of Walter L. Jones, wealthy Cleburne bondsmen.

The suit already had been cleaned when it was located, but the cleaner told officers that it was spotted badly when it came to him. Several spots remained in the suit. Officers planned a chemical analysis to determine whether they were caused by blood.

PHILIPPINES ARE FAVORED BY U. S. TRADE

MANILA, Oct. 11 — Proponents of the aggressive movement under way for tariff legislation, better to protect American goods entering the Philippine market, are using bureau of customs figures for the first six months of 1934 to drive home their points.

ONLY GROWERS ENTITLED TO COTTON TAGS

Cotton tax exemption certificates must be transferred through the county agent's office, a statement from O. W. Ewing, assistant in cotton adjustment for Eastland county, reminded cotton growers holding such certificates.

4 Are Killed When Train Leaves Bridge

GUTTENBERG, Ia., Oct. 11 — Four persons were killed and three seriously injured today when a Milwaukee railroad passenger train plunged off a small bridge two miles south of here.

Waxahachie, Oct. 11 — State and Ellis county officers questioned 90 members of a carnival troupe today in connection with the looting of highway department warehouses.

Auto, Row Boat Collided

YORK HARBOR, Me., Oct. 11 — A rowboat, straying from its course collided with an automobile here and the boat was wrecked. The boat was being towed by another automobile. Investigation disclosed that the boat had been stolen.

Edwards Calm After Verdict

"I feel all right," Robert A. Edwards assured his counsel after the Wilkes-Barre, Pa., jury brought in the death sentence verdict convicting him of murdering Freda McKechnie. Above he is shown nonchalantly smoking a cigarette as he was led back to his cell.

FEAR BEATING BY KIDNAPER MAY BE FATAL

LOUISVILLE, Ky., Oct. 11 — Authorities here made progress today solving the abduction of Mrs. Alice Stoll. It appeared late today, 24 hours after the kidnapping.

Commonwealth Attorney O'Neal announced that he had a definite lead but refused to amplify his statement. Meanwhile, that the wealthy husband stood by the statement.

26-Year-Old Society Woman

The 26-year-old society woman and daughter of one of the leading families of the south was kidnapped from her sick bed and carried off scantily clad by a kidnaper who "acted like a fiend" according to Mrs. Stoll's maid who was left behind, bound and gagged.

26-Year-Old Society Woman

The 26-year-old society woman and daughter of one of the leading families of the south was kidnapped from her sick bed and carried off scantily clad by a kidnaper who "acted like a fiend" according to Mrs. Stoll's maid who was left behind, bound and gagged.

\$200,000 Allotted For Maintenance

AUSTIN, Oct. 11 — State highway commissioners today allotted more than \$200,000 in special appropriations for improvement and maintenance of Texas highway facilities. Maintenance projects ordered today included Johnson county, \$1,237 for roadway maintenance on Highway 34 from the Ellis county line to the Tarrant county line.

1 Permit For Two

BOSTON, Oct. 11 — A single re-entry permit to the United States was issued here to two Canadians. The applicants were Simplicio and Lucio Godino, 40-year-old Siamese twins.

Preaching at Bluff Branch Is Announced

There will be preaching services at Bluff Branch Sunday morning at 11 and Sunday evening at 7:30. It was announced today. An invitation was extended to the public.

FRECKLES and HIS FRIENDS.

ALL RIGHT BOYS...LINE UP TWO TEAMS...FIRST AND SECOND, AND WE'LL SCRIMMAGE! FRECKLES, SKIPPER THE FIRST STRING!!

OKAY, COACH!

DID BIFF CAMERON TELL YOU WHAT I SAID ABOUT YOUR NOT CHASING AROUND WITH BETTY MORTIMER?

FORGET IT, DODO! WE'RE PLAYING FOOTBALL NOW!

I WON'T FORGET IT! I MEANT WHAT I SAID!!

SO DID I! LET'S KEEP OUR PERSONAL DIFFERENCES OFF THE FOOTBALL FIELD! WE'LL TALK ABOUT IT LATER!

WELL, IF YOU DON'T PIPE DOWN NOW, I WON'T EVEN PUT YOURS IN THE HAT! NOW, GET IN YOUR POSITION!!

LISTEN DODO! EVERY COMPLAINT I GET, I WRITE ON A SLIP OF PAPER AND PUT IT INTO A HAT...AT THE END OF THE MONTH I DRAW ONE OUT AND ANSWER IT! SEE?

WELL, TALK ABOUT IT NOW!!

WHEN WE RETURN A SUIT OF CLOTHES after dry cleaning it, the owner finds it difficult to believe they are the same garments which looked so soiled when he sent them to us. It is really wonderful what our dry cleaning will do for the shabbiest garment. Put it to the test with a suit you have discarded.

Works of 52 Artists To Be in Exhibition

PITTSBURGH, Pa., Oct. 11—Fifty-two artists will make their initial appearance at the 1934 Carnegie Institute International Exhibition of Modern Paintings, which will open here on Oct. 18.

The exhibition, the 32nd to be held here, will include paintings from 12 European nations. Artists from Great Britain, France, Italy, Spain, Germany, Union of Soviet Socialist Republics, Austria, Norway, Sweden, Poland, Belgium, and Holland have been invited to contribute. There will be 253 paintings from Europe and 103 from the United States, making a total of 356 in the exhibition.

Homer Saint-Gaudens, director of fine arts, in a three-month sojourn throughout Europe this spring assembled the European paintings to be shown.

Paintings, as has been the custom in the past, will be hung in separate galleries, according to nations. In the event an artist has been invited to contribute more than one painting, his works will be grouped.

The members of the jury of award

TULLOS BROS.

this year are: Elisabeth Luther Cary, art editor of the New York Times; Alfred H. Barr, Jr., director of the Museum of Modern Art of New York City and Gifford Beal, American artist. Prizes will be as follows:

First, \$1,500; second prize, \$1,000; third prize, \$500; and a prize of \$300 will be offered by the Garden club of Allegheny county for the best painting of a garden or flowers.

Prizes will be announced at the Founder's day exercises in the Carnegie Music Hall on Thursday, Oct. 18.

NOSE WORTH \$21,200
SPOKANE, Wash., October 11 — Thomas Poisey values his nose highly. He sued a dairy for \$21,200 damages for a scar on his nose sustained in a crash with the dairy's delivery truck.

BLIND MAN CANDIDATE
MILWAUKEE, Oct. 11 — Walter Heilmann, 37, stone-blind since a piece of tin struck him in the eye when he was six years old, has announced his candidacy for democratic state assemblyman. Hafemann who writes on a typewriter with speed and accuracy, became acquainted with politics when he sold newspapers as a youth in the old Milwaukee county courthouse.

WHITE LEGHORN WON
STAFFORD, N. Y., Oct. 11 — The pen of single White Leghorns, bred by W. A. Seidel, of San Antonio, Texas led all other breeds in the western New York egg laying contest at the end of the 56th week. The pen laid 2,586 eggs, for a total of 2,616.65 points. Second in the test were Kauder's Leghorns from New Paltz, N. Y., with 2,578 eggs and 2,580.5 points.

DIDN'T HELP
BUFFALO, N. Y., Oct. 11 — For each of the four events which Roger Don Rae, of Lansing, Mich., won at the annual Buffalo air races, he received a silver cocktail shaker and a set of glasses. He doesn't drink. He found consolation, however, in the fact that he took down first prize money in each of the races.

Flush Poisons From Kidneys and Stop Getting Up Nights

When you can get for 35 cents a supremely efficient and harmless stimulant and diuretic that will flush from your kidneys the waste matter, poisons and acid that are now doing you harm, why continue to break your restless sleep by getting up thru the night. Just ask your druggist for Gold Medal Haarlem Oil Capsules—but be sure and get GOLD MEDAL—right from Haarlem in Holland. Other symptoms of weak kidneys and irritated bladder are backache and irritated leg cramps, moist palms, burning or scanty passage.—Adv.

THINGS YOU MAY NOT KNOW ABOUT YOUR TELEPHONE

Scientists of Bell Laboratories are paid to be satisfied with telephone service... to find better ways of furnishing it... to keep the cost of service as low as possible... their help, the men and women who give you telephone service here could not do their job so well.

1. The telephone had its birth nearly 60 years ago in a makeshift research laboratory, where Alexander Graham Bell watched a tiny straw attached to the eardrum from a human skull trace wavering lines on smoked glass. In the half century and more since then, the history of the telephone has been told in the countless scientific problems that have been solved.
2. Bell Telephone Laboratories, the research arm of the telephone service, has contributed the developments that have made possible transcontinental and trans-oceanic telephone calls; that have made possible 1800, instead of 50, pairs of wires in a telephone cable; that allow, by using special equipment, four simultaneous conversations over a single long distance line.
3. Entirely as by-products of this research, the scientists employed at the laboratories have invented an artificial larynx for persons deprived of speech by throat operations, produced many aids for the hard of hearing, and developed equipment for sending pictures over wires.

SOUTHWESTERN BELL TELEPHONE COMPANY

PUTS TENNIS UNTIL SPRING

W. Oct. 11 — Wilmer Allison said his way to the top in tennis this summer was denied a place on the Cup team, hopes that he would play tennis until after the winter break.

Dr. Penick believed Allison was victim of bad management on this year's cup squad. Allison was shipped to England and shipped back again without hitting a ball for the United States.

Allison regretted the incident at the time. He is now convinced that the two-weeks lay-off caused by the boat ride was one of the principal factors in his excellent display in the tournaments which followed.

Believing in the revised advice that "all play and no work make a dull tennis player," Allison has laid away his racquets for the winter. After Christmas he will return to the courts.

FAMED FRENCH THEATER BOWS TO PICTURES

PARIS, Oct. 11 — The historic Comedie Francaise, that for centuries has been devoted to the stage production of the classic dramatists, at last has bowed, although somewhat stiffly, to the movies.

Following a meeting of the administration committee of the House of Moliere, it officially was announced that two films will be produced and shown in the theater for the first time in history.

To avoid a too radical break from tradition the first picture will be a documentary film recording the activities of the great actors and actresses. It will include special shots of some of the departed figures of the legitimate stage such as Sarah Bernhardt and Edouard de Max.

Leisurely Fishing Aid for Insanity

HASTINGS, N.B., Oct. 11 — Fishing—kind where the fisherman sits on the bank and waits dreamily for a bite—is being used to heal shattered minds at the state hospital for the insane here.

Dr. J. C. Nielsen, superintendent of the state institution, since his advent here has extended to great lengths the practice of occupational therapy. Under his guidance, patients have been given a wide variety of jobs—weaving, painting, basket making and other occupations. In the theory that normal activity is a prime factor in restoration of mental health.

Backstage Scenes of the Comedie Francaise

Scenes of the backstage of the Comedie Francaise, including its vast costume department, scenery workshop and subterranean storerooms far below the level of the street will be shown. The spectator will be taken visually to places in this last pillar of the classic drama that he otherwise never would see.

Second Film of "Les Precieuses Ridicules"

The second film will be a screen adaptation of "Les Precieuses Ridicules" of Moliere and particular scenes and eligible transfers. Penick said that he hoped to find his singles No. 1 man.

In the 20 years of Southwest conference history, Texas has lost the singles championship twice—once to Hess' brother, Jake, of Rice, and to John (Doc) Barr of S. M. U. The Orange has also missed the doubles championship twice in the same length of time.

RATTLESNAKE IS PET MYSTIC, Conn., Oct. 11 — Even rattlesnakes appreciate the Golden Rule. A resident of Ledyard, returning from a day of berrying heard a thrashing noise in the underbrush and found a three-foot snake with 13 rattles and three buttons, nearly exhausted from attempts to extricate itself from a tangle of briars. Grasping the snake behind the head he cut away the briars and turned it loose. The snake followed him home, was fed milk and now is a family pet.

MAY REBURY "BOOMER" TONKAWA, Okla., Oct. 11 — Re-

newed efforts to have the body of David L. Payne, famous "boomer" who name is associated closely with the opening of the Cherokee Strip removed from Wellington, Kan., and buried in Oklahoma are being made here. The Tonkawa Old Settlers' association is seeking to interest other organizations in the proposal. Payne who was active in efforts to have the Strip opened to white settlers, died in 1884.

TIRE BUYERS!

Goodrich gives you MORE than a "printed" guarantee

A "PRINTED" GUARANTEE ALONE MAY PROTECT YOUR TIRE INVESTMENT—BUT HOW ABOUT YOUR LIFE?

Here's a tire guarantee that gives a new meaning to motoring safety . . . a guarantee that protects not only your pocketbook, but your life as well!

Goodrich, of course, guarantees the new Safety Silvertown passenger car tire, with the Life-Saver Golden Ply, for a full 12 months (business use, 6 mos.) against accidental damage due to cuts, bruises, blow-outs, rim cuts, faulty brakes, wheels out of alignment, and ordinary wear and tear as specified in the written Certificate of Warranty given with the purchase of every Goodrich passenger car tire. But, more, Goodrich builds the Life-Saver Golden Ply into every Silvertown.

This amazing invention makes you 3 times safer from blow-outs at high speeds. Racing daredevils proved this. On the world's fastest track they gave it everything they had. Not one blow-out! Similar tires without the Life-Saver Golden Ply failed at one-third the distance the Golden Ply Silvertowns were run. And what's more, the Golden Ply Silvertowns kept right on eating up the miles!

No other tire manufacturer can duplicate this in full. Other tires may duplicate the Goodrich warranty. But only the new Goodrich Silvertown can guarantee you the exclusive blow-out protection of the Life-Saver Golden Ply.

—And A Guarantee That Really Means Something!

When you're buying tires, remember this: "paper" guarantees may protect your investment but they won't save your life when your tire blows out going 40, 50 or 60 miles an hour! Play safe. Get the new Goodrich Silvertown . . . the only passenger car tire in the world that guarantees you Golden Ply blow-out protection, plus a full 12 months' guarantee (business use, 6 mos.) Come in today.

Circle 2 Meets With Mrs. M. A. Northup

Mrs. M. A. Northup was hostess Tuesday afternoon at 3 p. m. to the members of the M. E. Missionary society circle 2, at the home of Mrs. W. B. Statham, 1903 West Sixth St.

Mrs. William Reagan, circle leader presided and Mrs. Frank L. Turner gave the devotional on "Loyalty." The group sang, "Loyalty to Christ," followed by a prayer by Mrs. Northup.

The missionary bulletin was given by Mrs. Lee Owen. Mrs. P. J. Connally talked on an article from "World Outlook on 'Movies and Methods'."

Mrs. Fred S. Hayes sang, "In The Garden." The concluding prayer was given by Mrs. W. E. Ricks.

A short business session was held after which refreshments of ice cream and cookies were served to Mesdames Joe Wilson, George Fee, Mary Andrus, W. H. Hurd, Fred S. Hayes, Lee Owen, P. J. Connally, W. H. Craddock, George Winston, William Reagan, Frank Turner, W. B. Statham, W. E. Ricks, W. D. Peeler and the hostess.

Many Attend Civic Tea In Eastland

Several members of the Cisco City Federation of Women's club attended the Civic League tea at Eastland Wednesday afternoon. This was the opening meeting of the Eastland League. Cisco women who attended Mrs. Homer Slicker, Mrs. E. P. Crawford, Mrs. Hilbert Seale, Mrs. P. P. Shepard, Mrs. William Reagan, Mrs. N. A. Brown, Mrs. W. W. Wallace and Mrs. G. B. Kelly.

Mrs. Harper Hostess To Loyalty Club

The Loyalty club of the Woodman circle Grove 36 met Wednesday afternoon at the home of Mrs. Iva Harper on Twelfth street.

The afternoon was spent in piecing quilts which will be sent to the Woodman home in Sherman.

If your regular store doesn't have HANES Underwear for children and men, please write P. H. Hanes Knitting Co., W. H. Harrison—Salem, N. C.

Outfitting of HANES Men's Underwear. (Fig. "C" for boys 6 to 16, with a drop-seat for boys 2 to 4.) Just like its Daddy—with strong buttons, double-strength shoulders, elastic cuffs that are stitched and re-stitched. Warm and wind-resistant. Short or long sleeves with ankle or knee-length legs. Unusual value, 75c.

8 PRISON DOGS HEROES OF PEN CONVICT RIOT

GRATERFORD, Pa., Oct. 11—Eastern State penitentiary has eight "heroes" who have just been officially recognized for their part in subduing the rioting here in August.

The "heroes"—eight Belgian police dogs—were paid a tribute in the report compiled for the Board of Trustees by Captain Elmer Leithiser, deputy warden.

Fearing by every convict, the dogs play a major role in maintaining order within the prison. They work eight hours a day in two shifts, patrolling the grounds.

The dogs obey only two men—chief trainer and his own particular master. Other guards and prisoners are warned not to talk, or pet the dogs. And to run when a dog is in sight is suicide.

Trained Six Weeks

Six weeks' training by Herbert McCoy, chief trainer, is necessary before the dogs are permitted to work. Training consists of putting them over jumps ranging from four to eight feet in height. The dogs are trained to hold anything they may catch. McCoy declares his "heroes" will hold a stick in their jaws for hours unless he gives the command.

McCoy is careful not to cause jealousy among his charges.

The dogs answer to the names of Kheure, Khan, Kepl, Zeebe, Dante, Ours, Pix and Flavo, respectively. The first three are from an original group of seven presented to the late Colonel Joan C. Grome, when he was warden here. They were born in Switzerland and understood nothing but French. It was necessary for McCoy to learn the language before he could train them.

MAN 85 TO DIVORCE WIFE

LIBERTY, Mo., Oct. 11—An 85-year-old Missouri farmer, Zena Milburn, has filed for a divorce from his wife, Ezora who is only 10. She treated him cruelly, he contended by beating him with a club.

BUSY DAY IN STOCKYARDS

OGDEN, Utah, Oct. 11—The Ogden stockyards recently had the biggest day of the year. More than 3,316 cattle passed through its chutes in 24 hours.

Meat Handling to Be Taught at Tarleton

STEPHENVILLE, Oct. 12—There will be a supervised practice course in killing, dressing, curing and canning beef, mutton and pork, and inspecting carcasses on the four Saturdays of November. Cooperating with the college is the State Board of Vocational Education.

The instructional staff for the course includes Mr. Neal Gerreard, director of school of agriculture; Miss Mattie Walker, director of school of home economics; Miss Lou Nelson, associate professor of foods and nutrition; Mr. H. N. Smith, professor of animal husbandry; Miss Lela Vaughan, college dietitian; Mr. Verne Scott, professor veterinary medicine; and Miss Ima Hensarling, canning specialist for the Kerr Glass company.

JUDGE SEES MICHIGAN AS RENO RIVAL

DETROIT, Oct. 11—Reno soon will be crowned out of the divorce picture in favor of Michigan, Judge Theodore J. Richter of the Wayne circuit court believes.

"Divorces have become as easy to obtain here as in Reno and Michigan soon will be the divorce center of the United States as well as a large portion of Canada.

"Children are the innocent victims of these divorces," he said. "Ninety per cent of the cases tried in juvenile court concern the children of divorced parents. They have been robbed of their homes and left with none to guide them.

Never Had Home

"If you study the background of most criminals, you will find they never had a home in the real sense of the word. They are of divorced parents, or there was no religious training in their homes."

Judge Richter suggested that the church takes its part. He listed three things the church might do:

Work for uniform divorce laws.

For the establishment of a court of domestic relations.

Set up domestic relations committees to go into families which face a break up, follow the case through the divorce courts if the divorce cannot be prevented, and see that the children are properly cared for.

CUT WIRE, ELECTROCUTED

FENCERVILLE, O., Oct. 11—Daniel F. Kennedy, 50, of Monticello, O., near here, climbed high in the trees of his lawn, took shears with him, set about to prune branches. Concealed in the leaves was a high tension wire. Kennedy trimmed it unknowingly, was electrocuted.

CELLINI COIN IN OREGON

PORTLAND, Ore., Oct. 11—A silver coin struck by the great Italian artist, Cellini, is owned by Geo. A. Pipes. The coin is one of a few made during the period 1533-35 and is called a Testone. It is a little smaller than a 50-cent piece.

REFUTE TWIN CLAIM

CORVALLIS, Ore., Oct. 11—Oscar F. Fredrickson and his twin brother,

21 OUT OF 23 ST. LOUIS CARDINALS SMOKE CAMELS!

by FRANK FRISCH

They sure made it hot for us this year, but the Cardinals came through in great style clear to the end when we needed every ounce of energy to win. We needed it—and we had it. There's the story in a nutshell. It seems as though the team line up just as well on their smoking habits as they do on the ball field. Here's our line-up on smoking: 21 out of 23 of the Cardinals prefer Camels.

THE DEANS!

"DUCKY" MEDWICK: (Left) "A Camel takes away the tired feeling as soon as I leave the field, turns on my 'pep' again."

"RIP" COLLINS (Right) says: "A Camel has a way of 'turning on' my energy. And when I'm tired I notice they help me to snap back quickly."

"PEPPER" MARTIN: (Right) "I like Camels because when I light one I can actually feel all tiredness slip away."

A TIP TO THE FANS... WHEN YOU'RE TIRED GET A LIFT WITH A CAMEL!

PAUL DEAN says: "Smoking a Camel gives me the feeling of having more energy. Camels never give me jumpy nerves or leave a 'cigarette' aftertaste!"

"DIZZY" DEAN: "A Camel sure brings back your energy after a hard game, or any time when you're tired, and Camels never frazzle the nerves."

CAMEL'S COSTLIER TOBACCOS NEVER GET ON YOUR NERVES!
