HARTLAND CO. — Area 925 square miles; population 23,981; cotton, fruit, poultry, dairying, natural gas and oil. Cisco is headquarters for operations of the great shallow oil field; churches of all denominations.

CISCO DAILY NEWS

CISCO, TEXAS — 1,614 feet above the sea; 5 lakes of water; 5 rail exits; 6 paved highway exits; 127 blocks of brick streets; good hotels; A-1 public schools and Randolph College; no mosquitoes; no malaria or typhoid.

VOLUME XV. UNITED PRESS SERVICE CISCO, TEXAS, WEDNESDAY, OCTOBER 24, 1934. FOUR PAGES TODAY NO. 231.

COM'M'N TO STUDY SHUT-DOWN ORDER House Finally Passes Brazos River Appropriation Bill

QUESTION OF 2-3 MAJORITY BEING RAISED

AUSTIN, Oct. 24 — The bill for appropriation of the \$30,000,000 development project on the Brazos river bed was finally passed by the house of representatives today. A check of the vote, first announced from the register on the floor voting machine, showed it to be 45 to 44. It was not a two-thirds majority.

PAYMENT OF BONUS ASKED BY LEGION

MIAMI, Fla., Oct. 24 — The American Legion legislature committee today adopted a resolution demanding immediate payment of the soldiers' bonus.

Midweek Service Hour Is Changed

The hour for the mid-week service at the First Methodist church was moved up from 7:30 to 7 o'clock each Wednesday evening, according to Rev. Frank L. Turner, pastor.

Chuck Wagon Gang To Be Here Friday

Bewley's Chuck Wagon orchestra will be in Cisco Friday and will play in front of Novell and Miller groves between the hours of 1:30 and 2:30, was announced by Mr. Miller, who is familiar with this orchestra as it frequently broadcasts over WAP.

Former Mayor Of Albany Is Pardoned

AUSTIN, Oct. 24 — Gov. Ferguson today pardoned G. C. Butler, former mayor of Albany, who had been convicted on a swindling charge in connection with the sale of rights to luminous signs. Seven years and the judge who tried him pardoned in a plea asking the governor's clemency.

WEATHER

EAST AND WEST TEXAS — Partly cloudy to unsettled and cooler tonight and Thursday.

Hutchins Joins Brain Trusters

Another college president to be recruited for the Roosevelt brain trust is Robert H. Hutchins, 35, of Chicago, shown here as he left the White House. He is mentioned for head of the National Labor Relations Board and also as a co-ordinator between NRA divisions.

MOCK TRIAL FEATURE AT LIONS CLUB

The principal feature of the Lions program today was the trial of Howard Fuller, manager of the Laguna hotel and coffee shop, for misappropriating a spoon from the Connellee hotel.

The case was based on circumstantial evidence and after the calling of many witnesses, it looked as if the defendant would be acquitted.

NEW DISTRICTS ARE FORESEEN FOR SENATORS

AUSTIN, Oct. 24 — Texas may be carved into new senatorial districts to assure re-election of Arthur Parr, who held a tenth of the state in almost feudal control for a quarter-century.

Student From Cisco Pledges Fraternity

AUSTIN, Oct. 24 — J. W. Shepard of Cisco has formally pledged Kappa Sigma fraternity at the University of Texas, it was announced today.

LOBOES GET LIGHT WORK BEFORE GAME

Perfection rather than toughening is the keynote for the Lobos' drill this week before their game with the Green and White Buckaroos at Breckenridge Friday afternoon.

The Lobos, who have had a two-week rest since they took the measure of the Sweetwater Mustangs, 19 to 0, will continue their practice with no heavier work than dummy scrimmage the rest of the week.

PEP RALLY THURSDAY NIGHT

Lobo fans will hold a mammoth pep rally at Chesley field tomorrow evening at 7:30 in preparation for the Breckenridge-Cisco class Friday afternoon.

Pep leaders and high school authorities joined in urging every fan in Cisco to be present.

RFC Head Declares Bank Dangers Past

WASHINGTON, Oct. 24 — Chairman Jesse Jones of the Reconstruction Finance corporation today assured the American Bankers association that dangers to banks were past and called upon them to lead the way to recovery.

PROJECTS ARE DISCUSSED AT COMM'N MEET

With a full attendance at its meeting at the city hall last night, the city commission considered proposed projects for aiding employment of Cisco's relief workers, waiting for the call from the relief office.

PRETTY BOY'S BODY IS SENT TO OKLAHOMA

EAST LIVERPOOL, O., Oct. 24 — They sent Pretty Boy Floyd home today in a plain pine box.

3 Are Dead In Missouri Storm

MARYVILLE, Mo., Oct. 24 — Three dead one missing a score injured and property damage estimated at \$400,000 was the toll of a tornado that swept through this town late yesterday.

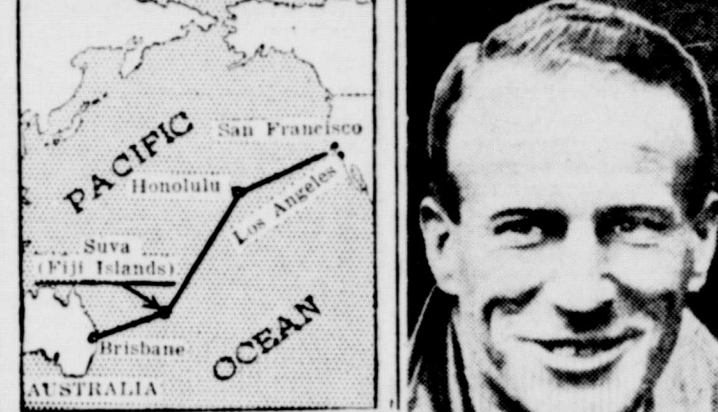

Elwin Skiles Goes To B. S. U. Meet

WACO, Oct. 24 — Elwin Skiles of Cisco, graduate student in Baylor University, was a member of a delegation of twenty-five Baylor university students who left by car at noon Wednesday to attend the quadrennial south-wide convention of the Baptist Student Union in Memphis, Tenn.

Retirement Act Is Unconstitutional

WASHINGTON, Oct. 24 — The railroad retirement act, affecting about 1,000,000 employees, was held unconstitutional by the supreme court today.

Ace Aims at 7000-Mile Pacific Hop

A 7000-mile flight across the Pacific ocean from Brisbane, Australia, to San Francisco or Los Angeles in three days is the aim of Sir Charles Kingsford-Smith, Australian air ace, right, in his low-wing Lockheed plane, Lady Southern Cross, shown above. The man indicates the proposed route, with stops slated at Suva, Fiji Islands, and Honolulu, Co-pilot on the flight will be Capt. P. G. Taylor.

SIX ESCAPE WHEN JAILER IS SLUGGED

HOLDENVILLE, Okla., Oct. 24 — Four men and two women slugged a jailer, escaped from the county jail and fled in two commandeered automobiles here today.

PURCHASE OF 300,000 CATTLE IS ADVOCATED

EL PASO, Oct. 24 — Purchase by the government of 300,000 head of New Mexico cattle was advocated today by cattlemen to prevent starvation during the winter.

Wool Selling Held Up at Kerrville

KERRVILLE, Oct. 24 — Wool sales during the past two weeks were reported at Del Rio, San Angelo and Sonora, but the selling season has not started here.

New Firm Is Among Business Concerns

Another business concern has joined the ranks of new firms for Cisco. J. D. Hall has taken over the Central Super-Service station at the corner of Main and Broadway and will sell Gulf products, wash and lubricate automobiles, and vulcanize tubes, and feature accessories for popular makes of cars.

Miss Cunningham Returns From Trip

Miss Catherine Cunningham was back on the job today. She arrived last evening about 6 p. m. Her friends will be glad to know that she had a pleasant trip even though she isn't the same girl that she was before she left. Miss Cunningham left New Britain Saturday October 20, spent Saturday night and Sunday in New York City, returning by way of Philadelphia and St. Louis.

SON HUNTED

CHARGED WITH aiding and abetting the kidnaping of Mrs. Berry Stoll, Thomas H. Robinson, Sr., is shown here after he pleaded not guilty and posted \$25,000 bond in Nashville, Tenn. The elder Robinson, a bridge builder, was named intermediary by the kidnaper, believed to be his son, Thomas, now target of a widespread hunt.

NEAR 100 ARE EXPECTED AT PYTHIAN MEET

EASTLAND, Oct. 24 — Correspondence from lodges from a number of cities indicates that a near one hundred will be on hand in Eastland tonight at 7:30 when a regional Pythian meet opens. The meeting will be held in the Eastland lodge hall.

Masked Man Holds Up Petrolia Bank

WICHITA FALLS, Oct. 24 — A masked robber held up the Continental State bank of Petrolia, Texas, shortly after 1 p. m. today and escaped with an undetermined amount of money.

3 Are Dead In Missouri Storm

MARYVILLE, Mo., Oct. 24 — Three dead one missing a score injured and property damage estimated at \$400,000 was the toll of a tornado that swept through this town late yesterday.

Elwin Skiles Goes To B. S. U. Meet

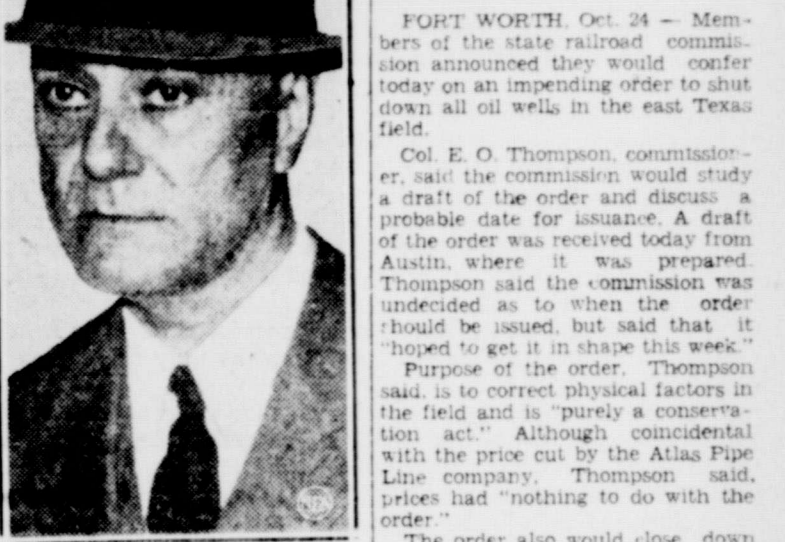

WACO, Oct. 24 — Elwin Skiles of Cisco, graduate student in Baylor University, was a member of a delegation of twenty-five Baylor university students who left by car at noon Wednesday to attend the quadrennial south-wide convention of the Baptist Student Union in Memphis, Tenn.

Federal Loan Ass'n Formed at Quannah

QUANAH, Oct. 24 — The Quannah Federal Savings and Loan association has been formed. A drive for the minimum subscription of \$2500 went over the top late in the afternoon.

WICHITA FALLS, Oct. 24 — A barroom check having five toes was hatched at the home of J. W. Thomas, negro elevator operator here.

MOVE MADE IN INTEREST OF CONSERVATION

FORT WORTH, Oct. 24 — Members of the state railroad commission announced they would confer today on an impending order to shut down all oil wells in the east Texas field.

Fight Waged For OES Convention

FORT WORTH, Oct. 24 — The main business session of the convention of the Order of Eastern Stars began here today with San Antonio and Mineral Wells in a tense fight for the convention city honors.

Dry Forces to Hold Meeting Thursday

A meeting of the United Forces Against the Liquor Traffic at the First Baptist Church at 7:30 p. m. Thursday has been called by Rev. E. S. James, president of the organization. There has been some misunderstanding about the time of the meeting, it is being held in lieu of the one which should have been held last week.

Hauptmann Trial Is Set For Jan. 2

FLEMINGTON, N. J., Oct. 24 — Bruno R. Hauptmann will go to trial January 2, 1935, charged with the murder of Col. Charles A. Lindbergh's infant son, who was kidnaped from the Lindbergh home at Hopewell in 1932.

WICHITA FALLS, Oct. 24 — A barroom check having five toes was hatched at the home of J. W. Thomas, negro elevator operator here.

WICHITA FALLS, Oct. 24 — A barroom check having five toes was hatched at the home of J. W. Thomas, negro elevator operator here.

The trial date was set today. Hauptmann pleaded not guilty when arraigned.

W. J. LEACH'S HORNED FROGS

And now W. J. Leach comes forward with something that may develop into a new industry for Cisco—something that no one has ever thought of as money for this section.

When the Booster Club was organized some months ago with a membership from the young business men of Cisco, it was generally conceded by most people who discussed it, as a good movement with only a few expressing themselves that it was an unnecessary organization.

The great majority believed, they said, that with the young blood of the town enlisted into planning for more industries, ground that had never been turned over in quest of something new, would now be sifted out and much good could come of the effort.

And all the while Mr. Leach, proprietor of the Leach Stores, was unwittingly uncovering what may have great possibilities for us here.

Some time last year, Mr. Leach made the acquaintance of a gentleman in Chicago, who was searching for a new idea in advertising. This gentleman found that Mr. Leach was from the land of the famed "Old Rip," and so was acquainted with horned frogs. Without going into details as to his plans for advertising through the use of horned frogs, suffice it to say that he asked Mr. Leach to assist him in securing these frogs, and Mr. Leach consenting to arrange for it if he could in turn arrange through his local theater to have boys collect the frogs and bring them to the theatre as payment for tickets, the boys to get the full price of three cents per frog which was the amount the gentleman would pay. The theater did not find it convenient at that time to carry out the enterprise, but the 500 frogs were gathered, at any rate, by boys and they shipped the frogs to Chicago.

And now comes the part that some of W. J.'s friends are going to say, "ain't so." He has actually had to return to the Chicago gentleman, a money order to the amount of \$21 for another order for frogs which could not be filled, on account of the frogs not keeping up with the editor's weather report and hence, not knowing that summer weather was still prevailing. The frogs, depending on intuition of course, go into hibernation about September 15, and do not come out until spring is well advanced.

But, seriously, this is just an illustration of what live, enterprising boosters may turn up, once they begin earnestly looking for something. There may be more "acres of diamonds" at our doors—opportunities for development of natural resources that may mean much in the industrial future we are trying to materialize. Long live the Boosters!

THE GARDEN CLUBS' PROJECT

And speaking of projects, if all Cisco units were as busy at that matter—as faithful, as energetic, as enthusiastic, as determined, as is the Garden Club, headed by Mrs. Chas. H. Fee and supported by her band of patriotic women, who comprise that body, there would be plenty of projects.

In the eyes of these women, the high school grounds are a reproach to the citizenship of Cisco. Neighboring towns have improved their local school grounds—notably Abilene and Eastland, the latter making an impossible hill-site into a veritable beauty spot for the children. But these women have been hammering away at the matter until it seems as though they are finally going to get it done. Plans have been made—dirt has been secured, being generously donated by A. Z. Myrick, local dairyman. Now all they need are trucks to haul the dirt and men to load it and spread it. But they do not want to stop at the high school. All of the schools need more or less landscaping and leveling up.

All of which goes to say that we get what we want if we just keep pegging away—to borrow a phrase from one of our good friends: "You're not licked until you quit; don't quit."

Human Nature And Business Depressions

At the bottom of a business depression most of us think and act quite differently from what we do at the top of a business boom.

When business is depressed we are depressed. We are cautious, thrifty, and industrious. We warn our families against extravagance. We apply ourselves diligently to our jobs. We live within our incomes.

When everything has been going well for a few years we start to act foolish. We live up to the last penny we earn. Not satisfied with what we earn, we give a willing ear to our neighbor's tale of how much money he has made in the stock market or in real estate. We withdraw our savings and decide to go after some easy money. Then we become slightly indifferent toward our regular work. Our initial speculations turn out so profitably that we indulge our families in luxuries that could not possibly be gratified from our normal income.

In each crisis, millions of others act exactly as we act. That is why it seems that booms and depressions are inevitable.

13 SPADES DEALT
PHILADELPHIA, Oct. 24 — William C. Braubury, Swarthmore college student, was dealt 13 spades in a bridge game here. He bid seven spades. The cards were so distributed that his opponents would have been set only two tricks had they bid seven no-trump.

Daily News and American and Roundup want ads are a good investment—Phone 80.

The Silent Reaper Waits

Texas Topics

By RAYMOND BROOKS

AUSTIN, Oct. 24 — Several Austin judges and university faculty members will go to Waco Friday of this week to attend a meeting of the Texas Civil Justice Council. Among those are C. M. Careton, chief justice of supreme court, James W. McClendon, presiding justice, third civil appeal court, Dean Ira P. Hill, dean of Texas Law School, Sen. Walter C. Woodward of Coleman, now attending the legislative session, Alenoa Watson of Dallas, lay member.

The council is engaged in the cautious study of civil procedure reforms, designed to expedite disposition of civil cases, reduce the number of appeals, and ultimately afford more adequate and less expensive adjudication of civil litigation.

That the federal government is now proposing to move against the interstate shipment of gasoline made from illegally produced oil is all due to the efforts of Texas officials and legislators. For the first time in 14 months, since U. S. Sen. Tom Connally of Texas put the interstate control of oil and its products in the national recovery act, there is a gesture of stopping gasoline shipments—except for the halting of three steamers loaded with such gasoline. But on present activities as in the cases of the steamship tankers, evidence and the request for federal action came alike from Texas conservation officials—and a request for federal action came alike from Texas conservation officials—and a request for action under the law furnished by a Texas member of the U. S. senate.

By his voluntary retirement at the end of this session, the legislature will lose the service of one of its most valuable members, Rep. R. M. Wagstaff of Abilene. Wagstaff championed important public policy measures on land titles. He took part in a dozen of the big policy debates of the 42nd and 43rd legislature. He did not waste time on trivial amendments or meaningless squabbles over language or indirect and innuendo attacks upon policy legislation.

Mr. Wagstaff proved himself a hard worker, serious, concerned with really important matters; and won from his colleagues respect for his ability and for his leadership. He was among the half-dozen most effective members of the house during the past two sessions.

The drama of a congressional committee hearing in Dallas Nov. 16, on the advisability of federal dictatorship of oil production within the states, may reach the lighter vein of comedy. Railroad Commr. Ernest O. Thompson has been called as a witness to present the state's views on the question; officially it is of record that the railroad commission wants federal cooperation in matters crossing state lines, but feels that Texas should administer its own affairs within the state. Recently there has been a shift by W. S. Parish, C. B. Ames and many other leaders of the oil in-

dustry from federal control to the voluntary plan of an interstate compact on oil. Heretofore agitation was strong among major interests for federal control. Such federal cooperation now as is being secured to halt interstate shipments of gasoline refined from "mot" oil is coming under the amendment of Sen. Tom Connally of Texas to the NRA, and upon evidence and urging of Texas oil conservation officials.

Here is where the comedy comes in. The A. P. I., made up of the big groups and interests of the oil industry, has been clamoring for this and that, and no doubt will continue to do so.

Commr. Thompson, running through a report of the A. P. I., in 1925, found a report by its committee of 13, including such men as J. Edgar Pev, chairman, W. S. Parish, E. W. Marland, now nominee for Oklahoma governor, and others, that said in effect: "The country has a petroleum supply that will last beyond the period when science will render the use of petroleum obsolete," and science is improving methods of production and refining and of utilization. The proper course is unrestricted competition—that will take care of price, new development, and everything. Keep the government from meddling with the oil business."

It seemed, as congress, through its committee, gets a broad background of the claims for and arguments against federal encroachment within the states that the A. P. I.'s former recommendations are sure to be read into the record. If for no other purposes, it would relate the present A. P. I. agitation, and evaluate more recent A. P. I. developments to the background of the oil industry over a period of years, as delineated by the same chief figures now in leadership of that powerful institute.

Much water, and more hot gasoline, has run over the wheel since 1925, but the A. P. I. has moved on majestically from position to position.

TESTIMONY COST COP 62

BOSTON, Oct. 24 — It cost Patrolman Thomas F. Johnson \$3 to testify against a man he arrested. Johnson had parked his automobile outside the courthouse. The \$3 was a fine for a parking violation.

MARTIN TO HAVE ARM FIXED

ST. LOUIS, Oct. 24 — John (Pepper) Martin, hard-playing third baseman for the World Champion Cardinals, will have a bone chip removed from his left arm before next season.

RIM FRACTURED SKULL

CAMBRIDGE, Mass., Oct. 24 — Louis DeStefano was watching a tire being changed when the tire rim slipped to the air. It struck him on the head, fracturing his skull.

Did You Ever Stop To Think

By Edson R. Waite
Shawnee, Oklahoma

That many cities have no adequate service for listing houses, rooms and apartments for rent.

Often people leave a city because they cannot find suitable places in which to live.

Given prospective residents who have been attracted to a city by business locations or positions, or by the fact that the city is known as a good place to do business, leave because they fail to find a place in which to live.

The classified columns of local newspapers should be used as a clearing house and listing place for those who want houses, rooms and apartments and those who have them for rent.

People do not realize the importance of classified ads. If these columns were used more, it would do much in keeping houses and rooms rented.

Classified ads are a time saver for the house and room hunters.

Jockeys Turn To Arlington Downs

ARLINGTON, Tex., Oct. 24 — Outstanding riders of Chicago, Detroit and Fairmount Park and elsewhere will demonstrate their talents for race fans during the inaugural Arlington Downs' autumn meeting, Oct. 25 to Nov. 12.

From Chicago come Paul Keester and Jimmy King, two apprentices who are reported to have shown considerable promise in their appearances. Keester is under contract to C. E. Davison, the trainer who developed Eddie Arcazo, Jimmy King rode in Texas during the spring, winning acclaim from many spectators and experts.

Frank Mauro, another Texas development now under contract to C. Hyde Smith, of the Odessa Farms, will come from Detroit.

Fairmount Park riders are smoke of P. A. Smith, diminutive Cuban jockey, Smith acted as pace-setter during the Thistedown and Bainbridge meetings.

Other jockeys who have indicated their intention of riding in Texas are D. R. Stuller, H. Hughes, C. Landolt, M. Mathews, L. Hardy, C. Hanauer, T. May P. Martinez, F.

Behind the Scenes in Washington

BY RODNEY DUTCHER
SEA Service Staff Correspondent

WASHINGTON—There may be a new cabinet member within the next year. If so, he will be the "Secretary of Public Welfare," or something very like that.

The idea is thick in the local air and many New Dealers are sympathetic. Roosevelt has considered it, but no one is able to say that he is committed to making such recommendation to the next Congress.

It's by no means a new plan. Whenever government reorganization has been discussed, there always have been talks to recommend that "Department of Public Welfare."

Three major factors are making it an actual issue at this time—the mounting problem of relief, which will be with us for a long time, the administration's forthcoming social security program, which will call for plenty of federal supervision, and an increasing tendency in the administration to give consumers a chance to be heard—at least faintly—along with industry, labor, and agriculture.

The man commonly mentioned for the job is Relett Administrator Harry Hopkins. His relief duties would be an essential task of a "public welfare" department and he is the prime mover in the social security program as well as the self-help production exchange program for the unemployed, which, regardless of Up-ton Sinclair's plans, may be expanded in a big way.

Federal supervision over investment of unemployment insurance, aid and pension, and any other

work closely with the AAA and NRA units, and its Consumer Council will—quite present projected plans—be ultimately absorbed into the proposed "public welfare" department. But many internal squabbles must be fought before the allocation. No cabinet member resigns or gives up anything willingly. Personally, if I were naming this department, I'd call it The Department of the Forgotten Man.

PHILLIP V. DECREE FOUND
BARCELONA, Spain, Oct. 24 — The original document, signed by Phillip V. on Jan. 16, 1716, decreeing the end of the autonomous liberties of Catalonia, was discovered in a supreme provincial court's archives here.

WOMAN'S HARVEST BEST
SPRINGWATER, Ore., Oct. 24 — Maybe woman is more thorough than man. But anyway Mrs. Elizabeth Kumpetz reaped 24 bushels of wheat to the acre while her male neighbors harvested but 2 to 3 bushels.

The Clew of the Forgotten Murder

By CARLETON KENDRANE
© 1934 N.E. Sewell Co.

BEGIN HERE TODAY
When DAN BLEEKER, publisher of the Blade, learns that CHARLES MORDEN, police reporter, has been mysteriously killed he employs SIDNEY GRIFF, famous criminologist, to solve the murder.

Morden had been investigating the affairs of FRANK B. CATHAY, wealthy and prominent, who had threatened to sue the Blade because the newspaper reported Cathay had been arrested. The man arrested was an instructor giving the name of Cathay and accompanied by a girl called MARY BRIGGS.

Soon after Morden is found dead comes news that Cathay is dead—possibly poisoned.

Morden's fingerprints are found in the apartment of a girl named ALICE LORTON who has reported the disappearance of her roommate, ESTHER ORDWAY. Griff and Bleeker visit Alice Lorton and question her.

NOW GO ON WITH THE STORY CHAPTER XVIII

SIDNEY GRIFF started pacing the floor. Bleeker watched him with frowning speculation. Alice Lorton's blue eyes were fastened upon him with wide candor, the candor with which a young patient regards a skilled physician who has come to minister to his suffering—an expression of blind faith which bordered upon devotion.

"How about magazines?" Griff asked suddenly, sweeping his hand in an inclusive gesture toward the magazines on the table. "These weren't purchased at news stands, were they?"

Alice Lorton shook her head. Griff peered several up, looked at the back pages.

"They were all Esther's," the girl said. "She subscribed to them. Some of them came in papers. Some of them had her name stamped on the covers."

"You don't know anything about her family?"

"No."

"Know whether she'd been married or not?"

"I don't think she had. She didn't have much use for men."

"That might indicate she'd been married and separated?"

ing there reading."

"What did you do the evenings when you had your boy friends come to see you?" Griff asked.

"SHE went out to picture shows, I think, although she didn't care much for them."

"She came home late?"

"Yes, quite late."

"Did you tell her what time to come home?"

"No, I just used to tell her that I would have a boy friend in for the evening."

"How often did you have your friends here?"

"Not very often—not as often as she did. You see, I don't know many boys."

"You're working?"

"No, I haven't been for some time."

"You're here quite a bit then during the daytime?"

"Sometimes, yes."

"And Esther Ordway was here quite a bit during the daytime?"

"No," Alice Lorton said, "that's the funny thing about her. She used to get up early, before any one was stirring. She got up at 6 o'clock in the morning and always left the apartment by quarter to 7, sometimes earlier. I think Mrs. Cathay employed Racine to locate Mrs. Blanche Malone. At any rate, she's connected with the case in some way."

"Now, here's something you've got to do that may make trouble. You've got to get some young woman in whom you have confidence. She should go to an apartment and take the apartment under the name of Esther Ordway. The girl should go to the postoffice and leave a forwarding address, forwarding the mail of Esther Ordway from the Elite Apartments at 313 Robinson street to this apartment where the woman is living."

"That's going to get us into trouble with the postal authorities," Bleeker objected.

"It won't if they don't find out about it," Griff remarked.

"But they'll be bound to find out about it."

"I'm not so certain."

"But why go to all that trouble to read the woman's mail? Whoever is mixed up in the case with her, or knows she's mixed up in the case, knows that she's disappeared. You can't make me believe that she was spirited away. I think she deliberately stepped out of the picture and I'm willing to bet two to one that we will find where she took an airplane."

"Griff shook his head.

"I've got a theory about Esther Ordway," he said. "So far I haven't got enough data on the subject to back up the theory, but I want to get some additional facts just as rapidly as possible. In the meantime, you can have your men comb the outgoing airplanes you want to, but if you make a bet, you're very likely to lose it."

(To Be Continued)

In the next installment a hot register yields information about the man who impersonated Frank Cathay.

CLASSIFIED ADVERTISING RATES AND REGULATIONS

All CLASSIFIED advertising is payable in advance, but copy may be telephoned to the Cisco Daily News office and paid for as soon as the collector arrives.

WANTED—5 room furnished house, prefer something close in. Box H, Cisco News.

Remarkable Formula Helps To Prevent Colds--Samples Free at Local Drug Stores

Tested in Clinics by Practicing Physicians, and Proved in Everyday Home Use, Vicks Va-tro-nol Helps Millions in Avoiding Many Colds

FREE TRIAL PACKAGE Also Contains Other Medications Used in Vicks Plan Better Colds-Control

FOLDER EXPLAINS PLAN Every family in Cisco interested in having fewer colds has a chance now to get acquainted with the unique aid in preventing colds—Vicks Va-tro-nol.

Va-tro-nol is especially designed for the nose and throat—where most colds start. It aids and stimulates the functions provided by Nature—

in the nose—to prevent colds, and to throw off colds in their early stages.

Va-tro-nol is easy and convenient to use—any time or place—at home or at work. Just a few drops up each nostril—at the first sign of discomfort in the nose—irritation or dryness, sniffle or sneeze. Used in time, it helps to avoid many a cold entirely.

Where irritation has led to a clogged-up nose (a stuffy head cold or nasal catarrh) Va-tro-nol penetrates deep into the nasal passages—reduces swollen membranes—clears away clogging mucus, brings comforting relief.

THE NEW FANGLES (MOM 'V POP) By Cowan

By Cowan Plumbing Contractor Gives Fort Worth One of Greatest Indian Collections

PORT WORTH, Oct. 24—One of the greatest Indian collections in the southwest, assembled through perilous searches by its collector, has been offered the city of Fort Worth. The collection is owned by W. J. Layland, of Cleburne, a plumbing contractor whose hobby has been the gathering of Indian relics. His only stipulation is that a suitable place be provided for the collection. Layland's collection is valued at \$10,000, a value which it is calculated will increase proportionately as time goes on. The collection consists of many thousands of pieces from all over the United States, Mexico, Canada and the West Indies. For 48 years Layland has spent from two to four months each year going in ancient graves and houses, roving over the western world, digging, buying when necessary and following a hobby that started when as a schoolboy, he dug up an Indian mound in Illinois. Faced Starvation Twice he faced starvation in deserts in western United States. He penetrated the deserts before the days of automobile roads and on two separate expeditions was forced to eat grass to keep alive. Many times in his life has been in danger. Four times he has gone to Europe to trace down important bits for his collection. His collection of Indian clothing contains a rare dress beaded with 1900 silk teeth and another with 86,000 colored Indian beads. There are relics also from the family of Quannah Parer, famous Comanche Chief. Myriads of arrowheads, ruby knives, green jade, pink jade, moonstone, goldstone and obsidian pieces are contained in the collection now housed between bathtubs and water heaters in his shop in Cleburne. Among the rare prehistoric pieces are two turquoise pendants which he obtained years ago in the now famous Canyon del Muerto in Arizona. He knows of only one other in existence, owned by the National Geographic Society. Layland once intended to build a museum of his own in Cleburne. He made considerable preparations for the museum but gave it up after several years of depression. In view of the fact the federal government has taken over virtually all Indian burying grounds and ruins, and has restricted archeological exploration by private individuals, the collections becomes all the more important as a private collection.

PLANS ARE LAID FOR NEW DEAL TO AID THE NEW FORGOTTEN MAN

By VINCENT MAHONEY United Press Staff Correspondent LOS ANGELES, Oct. 24—With the admission that the New Deal, too, has its "forgotten men," the federal administration has launched a movement to care for them. The forgotten "men" are the adolescents and young men, who were blocked wholesale from apprentices' jobs by the NRA. Delegated by Madame Frances Perkins, Secretary of Labor, Joseph Coxen, regional agent for the Federal Department of Education, has just completed a tour of the California territory spent in meeting with state government, educational, industrial and labor heads to arrange a co-ordinated effort to find jobs for youths without jeopardizing jobs already held by adults. Trained Apprentices The movement is intended not only to relieve unemployment—and the presumably resultant increase in youthful delinquency—but to supply industry with trained apprentices against a better day when they will be badly needed. Coxen said. He pointed out that the average age of skilled labor has increased considerably of recent years, bearing out the belief that with technological advances industry has come to lean more and more on

TIRED OF TREASURE HUNT TUMACACORI NATIONAL MONUMENT, Ariz., Oct. 25—Custodian G. L. Boudney of the monument here is tired of treasure hunters, so he has set the government to work officially to prove that there isn't \$5,000,000 buried under prehistoric pueblo buildings. Two men have been equipped with tools, and told to "go ahead," preserving the outlines of the ancient buildings. The monument has been overrun with amateur surveyors seeking an immense gold cache. Boudney reported. Checks COLDS and FEVER first day Liquid - Tablets Headaches Salve-Nose Drops in 30 minutes

TEXAS LOOKS TO FOUR JUNIORS TO BREAK NATIONAL RELAY MARK

AUSTIN, Oct. 24—Four University of Texas juniors are being counted on by Coach Clyde Littlefield to break the national collegiate half-mile relay record next spring and endanger the existing quarter-mile relay mark.

The addition of H. V. Reeves, Jr., of El Campo gives Littlefield four of the southwest's finest sprinters. All have two years of competition remaining. Reeves, as a student at Schroeder Institute last year, outran the best that Texas offered on two occasions, however, and will probably run as anchor man on the new team.

Harvey (Chink) Wallender of Tyler, Beverly Rockhold of Big Spring and Charles Grunstein of Dallas, were members of the quartet that last spring tied the collegiate half-mile time of 1:25.8 at the Kansas relays. Aided by Reeves, Littlefield has no doubt that the record will fall in 1935. Captain Euren Edwards of Big Spring will be the fifth member of the team.

From the first mentioned four are Moody Pickett of Beaumont, another second-year man, Littlefield will select a 440-yard relay team. Earring mishap, the southwest conference mark of 42 seconds will be lowered by Texas in this race.

With most of his 1933 squad back for another year, the Texas coach predicted a third consecutive conference title for the Longhorns "if all come through in their courses." The team he explained will be similar to that last year strong in all departments except middle distance races and weight events.

Texas also may look forward to the resumption of Texas relays one of the Nation's outstanding spring events. The meet was abandoned in 1931 after seven years in which teams from all parts of the country competed. The 1934-35 athletic budget authorizes the meet, but final sanction is being withheld pending the financial outcome of the University of Texas football season. If money is available the Texas relays will be held March 29.

HEAD W. C. T. U. 22ND TIME SPRINGFIELD, Mo., Oct. 24—Mrs. Nelle C. Burger, Springfield, is serving her 22nd consecutive term as president of the Missouri W. C. T. U.

APPROVAL FOR PROJECT HERE IS REQUESTED

EASTLAND, Oct. 24—Two work relief projects, which if approved will mean employment of 57 men and the expenditure of over \$9,000 have been sent to Austin, H. E. Driscoll, county administrator, announced Tuesday.

One of the projects, of Cisco origin, calls for construction of a new state fish hatchery three miles north of Cisco. Included in the Cisco projects is claying of two pond bottoms to prevent seepage. The general repair of the entire hatchery will mean employment for 42 men and expenditure of \$8,898. Driscoll said.

Use Cisco Daily News want ads for results.—Call 30.

Okra residents will benefit if the project of cleaning out the surface of a tank located in the community is approved. The project will call for the removal of 2,500 cubic yards of mud from the tank to conserve the water supply. Expenditure of 15 men, if the project is approved. "Water will be made more sanitary for the school and community," Driscoll stated.

KILLED 113 BLACKBIRDS MEXICO, Mo., Oct. 24—Marlow Wright, driving along a highway here in his motor car, crashed through a heavy flock of blackbirds. He stepped and counted 113 dead birds.

BORER APPLIES IN OCTOBER FREDORADO SPRINGS, Mo., Oct. 24—An apple tree in the yard of Fred Huff is bearing apples in October. New blossoms appeared on its branches this fall.

Let's find out why Turkish tobacco is so important to a good cigarette

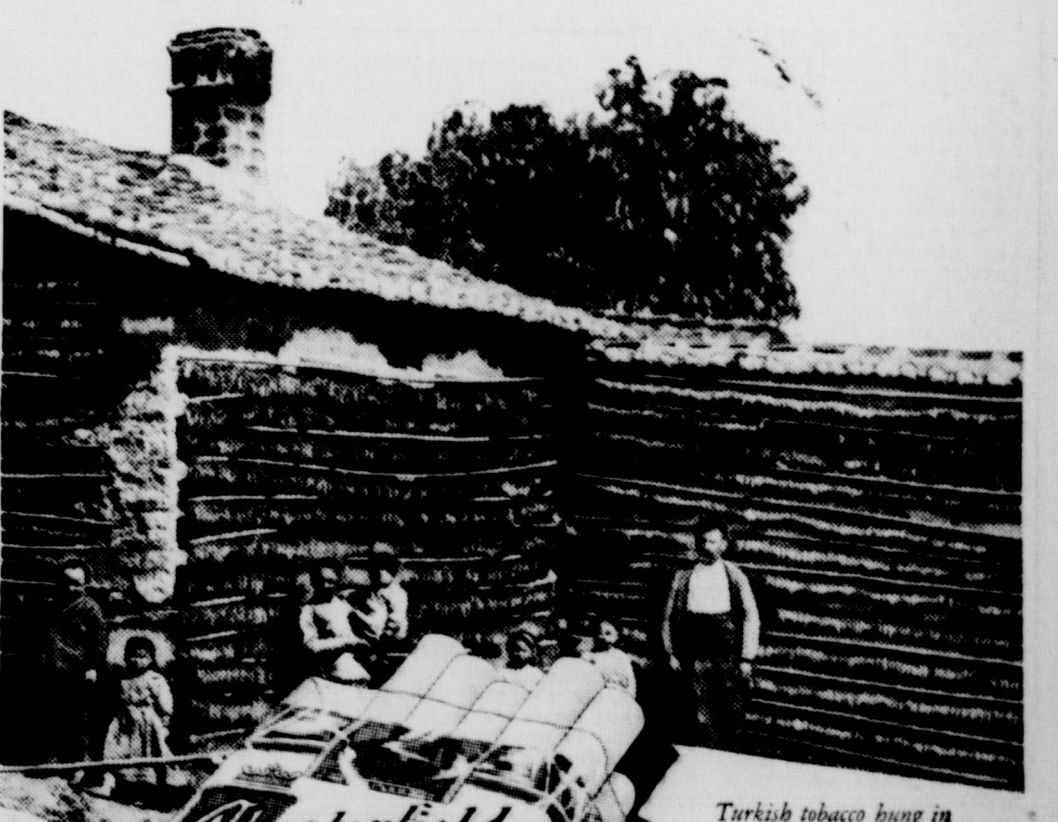

On the sunny slopes of Smyrna . . . in the fertile fields of Macedonia . . . along the shores of the Black Sea . . . grows a kind of tobacco that is different from any other tobacco in the world.

THESE Turkish tobaccos are the only tobaccos of foreign cultivation that are used to any great extent in making American cigarettes.

Turkish tobaccos are famous for their spicy aroma, and a blend of the right kinds of Turkish tobacco with our own home-grown tobaccos is better than any one kind used alone.

In Chesterfield we balance mild, ripe tobaccos grown in this country with just the right amounts of the right kinds of Turkish.

It is by blending and cross-blending these different tobaccos that we make Chesterfield the cigarette that's milder, the cigarette that tastes better.

Turkish tobacco hung in the open air to be cured.

Native tobacco grower telling American tourists how Turkish tobacco is cured.

About Cisco Today

BAPTIST CIRCLE NO. III
Circle No. III met Tuesday afternoon with Mrs. A. D. Estes in her home on 201 West 13th.

The devotional was led by Mrs. Roy Morrison, each member taking part in the Scripture reading. The lesson, on Home Missions was taught by Mrs. Langston. After a short business meeting was held in which Mrs. Clarence Cleere was elected secretary, refreshments were served. Those present were: Mesdames R. D. Jones, Leon McPherson, Mac Stephens, J. T. Bryant, J. B. Langston, H. J. McArdie, Roy Morrison, Clarence Cleere and Mrs. A. D. Estes.

CALENDAR Wednesday
The Loyalty Circle Grove No. 356 will meet Wednesday afternoon at 3 o'clock in the W. O. W. hall.

Saturday
Co-council of the P-T-A. association will meet in the Eastland high school auditorium Saturday October 27, at 2 p. m.

Mr and Mrs. J. W. Thomas left this morning for Dallas, Fort Worth and Houston.

BAYLOR FACES HANDICAP FOR FARMER GAME

WACO, Oct. 24—Coach Morley Jennings is faced with the problem of revising his offensive tactics for the game next Saturday with Coach Homer Norton's Texas Aggies. Lloyd Russell, triple-threat sophomore back, one of the mainstays of the Bear running attack, is on the sidelines for two weeks or more with a dislocated shoulder suffered in scrimmage last week. In addition, Hal Finley and Lawrence Thornton, both first rate backfield men, are out with injuries received in the game with Hardin Simmons last week end. Thornton has a broken leg and is out for the season. Finley is out indefinitely with a bad knee.

These casualties do not seriously hamper the chances of the Bears, but it is probable that a passing attack will be more in evidence next Saturday than at any time this far in the season. To bolster the backfield strength of the Bears, John Williams, a full-back last year who has been playing capably at right end this season, may be shifted back to his old position. Coach Jennings can still start an excellent backfield in Joe Jack Pearce, Pennie Frisby, Bob Masters, and Aubrey Stringer.

The freshmen scrimmaged the Varsity today using Aggie formations. On the whole, the attack was solved satisfactorily by the Bruins but there will be two more sessions with the freshmen before Saturday in order to get the Bear machine in top form. Sonny Bartosh, promising sophomore lineman, is being held out a few days by an injury received in the Hardin-Simmons clash last Friday night.

Despite the poor record made by the A. M. team to date the Bears are not expecting a picnic Saturday. They know that the Farmers will come to Waco primed to erase their past defeats with a win over Baylor, and no matter what the outcome, the game will be bitterly fought.

Piccards Confident Of Their Success

CADIZ O., Oct. 24—Jean and Jeanette Piccard, recovered from their flight ten miles above the earth's surface today packed their dozens of scientific instruments, confident their flight would contribute much new information concerning the nature of the Stratosphere.

Their instruments were unharmed in a rough landing. They fell about of the world's altitude record by at least a mile and a half, but they had no desire of bettering it.

Personal Mention

Mrs. W. J. Armstrong and daughter, Miss Jourdain, spent yesterday in Fort Worth. They were joined there by Karl Armstrong, brother to W. J. Armstrong, from Tulsa, Okla., who returned home with them.

S. O. Barnhill and Mr. and Mrs. J. O. Barnhill visited in Big Spring Sunday.

O. C. Burkett, Bobby Burkett and Buford Richardson attended the Dallas fair Saturday.

Mrs. E. L. Graham and daughter, Gloria attended the Sixth District Federation of Music clubs Saturday in Sweetwater where Miss Gloria was on the program for a solo.

W. J. Armstrong and Karl Armstrong transacted business in west Texas today.

Mrs. F. N. Kelly, Mrs. Oscar Wilson of Eastland and Mrs. Wilson's guest, Mrs. J. H. Harry of Chicago were visitors in Cisco this morning.

Mrs. George Weaver and her daughter, Mrs. George Christ of Rising Star were business visitors in Ranger yesterday afternoon.

Mr. and Mrs. John Ducker and daughter, Carolyn of Ranger and Mr. and Mrs. Lewis Ducker of Kansas City, spent yesterday in Cisco visiting with relatives.

Miss Gladys Harwell who has been visiting Mrs. Homer Hensley in Humboldt has returned to her home in Gorman.

Frank Walker and Robert Walker have returned from a few days trip to San Angelo.

Jimmie Welsh of Bowler is visiting with his cousin, Roy Burnam and other relatives.

Mrs. Sam Kimmel, Mrs. Davin Tyndall, Miss Alice Bacon, Mrs. Jim Flournoy, and Mrs. F. M. Hooks, attended a tea in Abilene yesterday celebrating the 60th anniversary of the founding of the Missionary society of the Christian church.

Wayne C. Hickey, secretary of the Chamber of Commerce in Ranger and J. E. Maxson of Ranger were visitors in Cisco this morning.

Mrs. Howard Sherman of Moran was a shopping visitor in Cisco today.

Mrs. E. J. Wendt who underwent a tonsillectomy Monday, is reported doing nicely today.

Tom Lewis of Rising Star transacted business in Cisco yesterday.

SISTER MARY'S RECIPES

BY MARY E. DAGUE

ALL year long I make a point of clipping suggestions for party menus so that when it's my turn to entertain my sewing or card club, I won't be in a stew about what to have to eat and drink that's a little different.

This year I expect all the members of my bridge club will be begging for the recipe for my chocolate tea bread which, by the way, makes amazing ribbon sandwiches when combined with orange bread.

What you have to eat depends partly, of course, on what you have to drink. With tea a sweet sandwich, cookie or tiny cake is best. Coffee on the other hand, usually is served with sandwiches with a delicately piquant filling or with rich cake such as pound or fruit cake. Late in the winter when cold weather makes rich foods welcome, I like to serve coffee in the afternoon to informal groups, but in the autumn the "cup that cheers" seems to fit my mood and purpose more agreeably.

All the sandwich breads made with fruits and nuts are delicious with tea and may be used filled or as just plain bread and butter sandwiches. Most of these breads may be made with yeast or as quick breads with a leavening of baking powder or soda.

Chocolate Tea Bread

Three cups sifted pastry flour, 2 teaspoons baking powder, 1-1/2 teaspoons salt, 1 cup brown sugar, 1 egg, 1-1/4 cups milk, 4 tablespoons melted butter or other shortening, 2 squares bitter chocolate.

Sift flour once, measure, add baking powder and salt and sift again. Add brown sugar and mix well. When measuring sugar pack firmly in cup after rolling on molding board. If you stretch a sheet of oiled paper over the board and roll the sugar on this you'll find it very easy to handle. Beat egg well and add milk. Melt chocolate over hot water. Slowly add egg mixture to dry ingredients, mixing thoroughly. Add

Tomorrow's Menu

BREAKFAST: Chilled tomato juice, cereal, cream, crisp broiled bacon, lyonnaise potatoes, toast, milk, coffee.

LUNCHEON: Stuffed and baked onions, salad of shredded vegetables in lemon jelly, chocolate tea bread sandwich, milk, tea. (These sandwiches will be most acceptable as a luncheon sweet for both children and grown-ups.)

DINNER: Breast of lamb with baked pineapple and sweet potatoes, creamed carrots, stuffed peach salad, gingerbread with whipped cream, milk, coffee.

Orange Bread

Four cups flour, 6 teaspoons baking powder, 1-1/2 teaspoons salt, 1-2 cup sugar, 2 tablespoons melted butter, 2 tablespoons grated orange rind, 1 cup orange marmalade, 1 egg, 1-1/3 cups milk.

Mix and sift flour, salt, baking powder and sugar. Beat egg until light and add with remaining ingredients to dry mixture. Mix thoroughly and turn into a well oiled bread pan. Let rise 15 minutes and bake one hour in a moderate oven (375 degrees F.). Nuts can be added to this recipe if liked, but if you are using a nut filling for your chocolate tea bread sandwiches nuts should not be used in the accompanying sandwiches.

OUT OUR WAY.

FRECKLES and HIS FRIENDS.

WORLD FAIR CLOSING OCT. 31 WITH MANY ATTENDANCE MARKS IN BAG

CHICAGO, Oct. 24 — Last few days of October bring the last of the special, long stop-over, railroad round trips to the world's fair. The fair closes one week from Wednesday, at midnight, October 31, and the vast spectacle summing up the achievements of a century of progress will be a thing of the past.

The fair swings into its closing days with many world records safe in the bag. Largest attendance of any World's Fair in this country—close to 37,000,000 now and with crowds pouring in for the last few days. Thirty billion candle power is used in the Fair's matchless night illumination spectacle. Three miles of unprecedented creations of the new architecture. Fifteen foreign villages. Incomparably the greatest display ever imagined of the miracles of science. More than a hundred features in the daily program. Spectacular, free entertainment every hour of the day. The \$50,000,000 show winds up in blaze of success.

Demolition Starts Nov. 1
Work of demolition will start Nov. 1 as, according to the contracts, nothing may be touched before the official closing date. Cost of removing the buildings is estimated at \$1,000,000. Largest building is the Hall of Science, costing \$1,100,000 and with nine acres of floor space, housing nearly 500 operating exhibits in pure science, the greatest visual education project ever created. A year will be occupied in the

LEARNED LESSON TOO WELL

COLUMBIA, Mo., Oct. 24 — Professors of political economy at the University of Missouri believe their students are learning their lessons all too well. A count of ballots in election of junior school cheer leaders revealed some 200 more votes than the number of persons registered.

DEER BURNED TO DEATH

GOLD BEACH, Ore., Oct. 23 — Forest rangers today estimated that 1,000 deer were burned to death in the recent Boulder and Lobster creek fires which burned over 4,000 acres. A strong wind carried the flames faster than a horse could gallop, rangers reported.

OWL THINLY-CLADS SCHEDULED TO LEAD CONFERENCE THIS YEAR

DALLAS, Oct. 25—Rice institute is expected to lead the southwest conference with her cross country team this season.

Texas A. & M. is favored as a possible second and the University of Texas third.

Coaches look to the three and a quarter mile event to prepare the distance runners for the spring track season.

Rice has scheduled only one meet. The runners will vie with the Texas team during the football game between the two schools at Houston Saturday. Track Coach Emmett Brunson directs the Rice squad.

Coach Clyde Littlefield of Texas already has sent his team into one match this season, which resulted in a loss to the University of Oklahoma. Other meets are with Rice, North Texas Teachers College, Abilene Christian College and Texas A. & M.

The opening race for Texas A. & M. has been set for November 9, or 10 at Austin. Track Coach Frank G. Anderson announced.

Top runners at Texas are George (Mule) Wilson, Fort Worth, and Capt. Joe Storm, Austin. Other members of the team are Ruman Thomas, El Paso sophomore, and Track Capt. Buren Edwards, Big Spring.

Bevis Frazier, sophomore of Pasadena, has pushed to the front in practice at Rice. Three other leading candidates are Vernon Wilson, junior of Goose Creek; Paul Griggs, West Columbia junior, and Malcolm McCants, Houston sophomore.

In preliminary trials at Texas A. & M. "Hub" Wilson, sophomore of Groesbeck, clipped off a three and a-half mile race in 19 minutes, 1-2 seconds, considerably slower than average Hunter Park, Terrell, Leonard Giesecke, Houston; Van Davis, Bracketville; Val Frothingham, Fort Worth; Max Chenault, Snyder and Capt. Roy Langley, Bon View are other members of the squad.

North Texas Gets Labor Code Posters

DALLAS, Oct. 24 — More than 1500 copies of the labor provision posters for the retail code have been mailed to firms in North Texas towns of more than 2500 population where a local retail code authority has not been named. It was announced by H. P. Drought, of San Antonio, state NRA compliance director for Texas. Sherswood H. Avery is Mr. Drought's executive assistant in the Dallas NRA office.

"Failure to display the labor provision posters constitutes a violation of the terms of the code," Mr. Drought said. The display of the posters is required in an executive order of February 8. Applications for the posters should be addressed to the National Recovery Administration, 1212 Republic Bank building, Dallas, Texas.

Train Heralds New Passenger Service

OMAHA, Neb., Oct. 24 — The Union Pacific stream-lined aluminum train, leading a new era in passenger rail service, arrived at Omaha at 6:07 a. m. CST with two new records since leaving Los Angeles at 10 p. m. PST, last Monday.

The Diesel-engine train attained a speed of 120 miles an hour for two miles on the run in Nebraska. Its second record was made here during the 509 miles between Cheyenne and Omaha in six hours for an average of 84 miles per hour.

Don't Trifle With Coughs

Don't let them get a strange hold. Fight them quickly. Creomulsion combines 7 helps in one. Powerful but harmless. Pleasant to take. No narcotics. Your own druggist is authorized to refund your money on the spot if your cough or cold is not relieved by Creomulsion. (Adv.)

Never Had A Lesson!

Her Cooking is always perfect

EXPERIENCED cooks aren't the only ones nowadays who can prepare tempting meals. With modern gas service, it's simple for any woman to cook well... also quickly, easily and economically.

What touches of magic the new gas ranges have! A temperature control you can set, so you will not be tied to the kitchen pecking and watching baking or roasting. Automatic lighting so you won't have to strike a match to start cooking. And an insulated oven that keeps the kitchen comfortable and actually does more cooking on the same amount of gas!

Visit your gas company or appliance dealer today and see how easy these modern gas ranges are to own.

WHY NOTHING ELSE EQUALS Gas for Cooking

1. Faster results.
2. Most economical.
3. Cleanest to use.
4. Flexible to any desired heat.
5. Exact control of temperature.
6. Automatic with modern gas appliances.
7. Constant, dependable service at all times.

SMOKELESS BROILER
A depression in the pan catches juices; no smoke.

OVEN INSULATION
Keeps the heat in the oven where it belongs.

OVEN HEAT CONTROL
Regulates temperatures for baking or roasting.

AUTOMATIC TOP LIGHTER
Burners light by merely turning the gas cock.

Be sure the range you select carries the seal of approval of the American Gas Association testing laboratory.

Community Natural Gas Co.
