Plot to Set Up Fascist Dictator Reported

CHARGE ARMY SET TO MARCH ON CAPITAL

NEW YORK, Nov. 21 — Congressional committee investigation of a purported plot to set up a fascist dictatorship in the United States led today to allegations that an army of 500,000 veterans was to have been mobilized at an Elk Ridge, Mr. CCC camp for a march on Washington.

The alleged plot was brought before the congressional committee in investigating South American activities by Gen. Smedley D. Butler yesterday, when he aired charges that Wall Street operators had approached him with the proposal that he become dictator—a suggestion which he declined.

The proposed Elk Ridge base was disclosed as the congressional committee convened to consider further details of the supposed plot.

Aid Plans for Workers' Security

When national leaders met in Washington to ponder plans for economic security, including employment and sickness insurance and old age pensions, the trio pictured here played prominent parts in the parley at which President Roosevelt outlined a program. Left to right are Mayor Fiorello LaGuardia of New York, Mrs. Frances Perkins, secretary of labor, and Frank P. Graham, head of the new advisory council on economic security.

BOOSTER CLUB MEET DRAWS LARGE CROWD

Nearly 100 business and professional men of Cisco gathered at the Laguna hotel last night to open a drive for the boosting of Cisco and its possibilities. The program was climaxed by an address by Dr. J. D. Sandefer, president of Hardin-Simmons university.

A checkup of ticket sales this morning revealed that 97 persons had attended the banquet. This was far in excess of the number expected.

Tentative plans for an advertising campaign were presented to the group by leaders last night. At a later meeting members of the Booster club will be given an opportunity to discuss the projects which were touched briefly last night.

Dr. Sandefer congratulated the city on having such a loyal group of business and professional men, and said that he would not have thought it possible to bring a crowd the size of that at the banquet, of a similar meeting in any city this size in the entire state.

Taking Advantage

Dr. Sandefer, who was introduced by Johnny Cox, said that in the future West Texas will see a great building campaign, and that Cisco is wise in taking advantage of its opportunities now. He stressed the importance of building up Lake Cisco as a resort.

Copies of the booklet, "Why Cisco?" were distributed at the meeting. This booklet tells of the advantages and the resources of Cisco and the surrounding area.

In addition to the reports from various committees, C. C. Duff entertained the crowd with free-hand drawing and Harry Schaefer's orchestra furnished music. George Boyd was toastmaster.

A membership drive in the club met with a good response. All local Ciscoans were urged to join the organization.

Gets Face Washed

The nation's capitol will present a shining face to congressmen returning to duty in Washington a few weeks hence, its exterior scrubbed and polished to a marvelous freshness. Here firemen are pictured as they play powerful streams of water on the stately structure, in the annual bathing process.

STOCKMEN IN PANHANDLE TO GET WARNING

AMARILLO, Nov. 21 — Winter struck the Texas panhandle with a rush today, bringing rain, snow and near-freezing temperatures.

The forecast was for sub-freezing weather tonight. Livestock warnings were sent out.

An inch of rain fell over the tri-state area last night, continued in a chilly drizzle. Traces of snow were reported at several points.

Reports from Lehman, Cochran county, said four inches of snow lay on the ground there. Eight inches of snow was reported from Mountain Air, N. M., with a temperature of 36 degrees for the past 24 hours.

By United Press

The weather bureau today forecast much cooler weather for tonight. By Thursday night the temperature will be near freezing in many sections of the state.

Freezing was predicted for the northwest for tonight and a cold wave for the southeast section of the state.

MOTHER AND CHILD DROWN IN BATHTUB

DALLAS, Nov. 21 — A dependent mother today clasped her 5-year-old daughter to her and lay down in an overflowing bathtub. Both were drowned.

Justice of the peace E. J. Baldwin returned a verdict of homicide and suicide. The dead were Mrs. M. E. Meade, 32, wife of a telephone company employe, and her daughter, Marian.

One Killed, 4 Wounded When Pair Try to Hold Up Domino Parlor

GLADEWATER, Nov. 21 — One man was killed another wounded critically, and two others hurt less seriously here today when two men attempted to hold up a domino parlor.

"Foots" Matthews, well known oil field worker and a patron in the parlor, was wounded fatally when a stray bullet struck him in the back. He died 45 minutes later.

Claude Simmons, 26, who with his brother, Clarence, attempted to hold up the domino players, was shot and critically wounded by a policeman. Clarence was captured.

The policeman and another player received minor wounds.

Treasury In Drive On Illegal Liquor

WASHINGTON, Nov. 21 — The treasury began today its biggest liquor enforcement drive since repeal of prohibition.

Its goal was the drying up of 20 states which still have anti-liquor laws. Texas was included in the list.

The program involved rigid collection of federal taxes in a roundup of thousands of liquor sellers who have not paid their excise duties. In this manner the government expects to obtain additional revenues and help in driving out illicit sale of liquor.

Reorganization of Power Concern Advances Step in Federal Court

MINERAL WELLS, Nov. 21 — United States Senator Tom Connally will discuss possibilities of the Brazos river development at the annual banquet of the Mineral Wells Chamber of Commerce Nov. 26. It was announced today.

The banquet will be open to the public and one of the largest crowds in the history of the local organization is expected.

HIGHWAYS ARE SUBJECTS AT C. C. MEETING

Highway matters formed the principal topic of discussion at the regular meeting of the Chamber of Commerce board of directors Tuesday evening. Work on all the highway projects, including Highway 69, the Weatherford cutoff, is progressing rapidly, it was announced. Officials hope to have the new highway open to traffic by the first of the year.

It was learned that no further action has been taken on the relocation of Highway 1, through Cisco.

Proposals for decorating Cisco streets and for sponsoring a trades day in connection with the opening of the holiday season were discussed, and a committee was appointed to work out plans. The committee was composed of J. J. Collins, chairman, Charles Sandler, W. J. Leach, and O. C. Lomax.

The following members were present at the meeting: Dr. F. E. Clark, C. P. Cole, J. J. Collins, E. P. Crawford, Dr. Charles Hale, S. H. Nance, Charles Sandler, J. E. Spencer, P. P. Shepard, and F. D. Wright.

Youths Confess To Slaying at Waco

WACO, Nov. 21 — McLennan county officers today took written statements from two Hill county youths who reportedly confessed to slaying of one man, the kidnaping of three others and a woman, and the theft of several automobiles.

The youths are Averett, 23, and Roy Curry, 26, surrendered last night after four days of desperate flight. They confessed to the killing and robbing of Malcolm Stewart of Katy, former Baylor university student.

Mounties Are Home From Arctic Duty

VANCOUVER, B. C., Nov. 21 — Fourteen men aboard the Royal Canadian Mounted Police supply ship, St. Roch, arrived here recently after four years above the Arctic circle.

The patrol enforced the King's law in the Arctic. It's only contact was with Eskimos and scattered Mountie outposts. Coronation Gulf was the center of activities.

The deck of the St. Roch was laden with dozens of empty fuel drums, testifying to her numerous long voyages. Her propeller blades were nearly flatted from repeated contacts with floating ice.

Sgt. H. A. Larsen, commander, noted a distinct lack of drifting ice this summer.

"We even had difficulty in finding ice for cooling purposes," he said.

Revolution Talk Heard on Border

DEL RIO, Nov. 21 — Talk of revolution was heard on both sides of the Rio Grande today as political opponents of the Mexican government harangued their followers.

Political referees were in conferences in groups on the American side. It was rumored they were attempting to raise funds to finance a general revolution.

FOUR MEN ROB HOTEL SAFE AT HOUSTON

HOUSTON, Nov. 21 — The office safe of the Ben Miami hotel was looted here today by four men of \$10,000 in unregistered negotiable Liberty bonds, belonging to G. H. Hamilton, resident of the hotel and an employe of the Missouri-Pacific railroad.

The quartet, armed with rifles and a pistol, entered the hotel early this morning and forced six employes to lie down back of the lobby desk while they took \$350 from the cash drawer and then looted the safe in which guests had left their valuables.

WETS CHARGED WITH FAILURE OF PROMISES

Rev. J. T. Sparkman, in a meeting of the United Forces Against the Liquor Traffic Monday, charged that wet forces have broken their promises to the people. The following, he said, are some of the facts in support of his argument:

"1—Statistics show that drunkenness has increased 25 to 400 per cent.

"2—Repeat has given the government one-third less revenue than the minimum estimate of its advocates.

"3—The saloon has not returned; we have something worse. The old saloon was closed on Sunday; no minors or women were admitted and only men were attendants. The substitute operates seven days a week; the patronage of minors and women is solicited, and the most attractive girls serve."

"The meeting date of the organization has been changed to the second and fourth Tuesday evening of each month. The next meeting, which will be held at the East Cisco Baptist church, will be Nov. 27.

Huge Loss Reported In Wichita Flames

WICHITA FALLS, Nov. 21 — The heaviest fire loss in the history of Wichita Falls resulted today when flames swept the J. C. Penney department store causing damage estimated at \$250,000.

Four Lost As Lake Boat Hits Steamer

ALPHEA, Mich., Nov. 21 — Four lives were lost when the lake freighter W. C. Franz, sank today after a collision with the steamship Edward Loomis in a dense fog 17 miles southeast of Sturgeon Point in Lake Huron.

The Loomis was damaged badly but was proceeding slowly with rescued members of the Franz crew. Names of the men lost were not included in the radiogram which told of the collision.

Death Crossing Is Up For Discussion

EASTLAND, Nov. 21 — The Eastland Rotary club Monday took action on a study of ways and means by which the Gulf crossing west of Eastland can be eliminated. Three persons were killed at that point Saturday.

The club's relief project committee, Ben Hamner, Gray Pipkin and J. E. Lewis, were instructed by the president, B. M. Collie, to bring the matter before the county commissioners, the relief office and authoritative bodies. A move of the crossing further east, and possibly fencing of the present point, was the plan, according to table talk and Ben Hamner, the suggester of the move.

Jury Will Probe Garrison Slaying

EASTLAND, Nov. 21 — Investigation of the fatal shooting of William Seaman Garrison will be made by the 21st district grand jury which convenes Dec. 3. District Attorney Grady Owen said Tuesday.

Jep Lowe, charged with murder in connection with the shooting, is at liberty under \$5,000 bond.

Clyde Moon Given 3-Year Sentence

EASTLAND, Nov. 21 — Clyde Moon, formerly of Desdemona, who pleaded guilty of the theft of Herman Woods' automobile, in the 88th district court Monday was assessed a three year term in the state penitentiary. Moon waived a jury trial. The German resident's car was stolen in Eastland on the square.

Moon was returned to Eastland from Henderson, where he faced charges against him in that vicinity.

Babe Shoots Low Round in Tourney

FORT WORTH, Nov. 21 — Mildred (Babe) Didrikson, 1932 Texas Olympic track star turned in a dazzling performance here today to win her first round match in the Fort Worth Women's Golf association invitation tournament.

The Babe eliminated Miss Nell Mooney, Sherel eliminated Miss Tomoyuki, and the Iron Mine, despite a high wind and closing out the final six holes in two over men's par.

Roosevelt Agrees To Birthday Ball

WARM SPRINGS, Ga., Nov. 21 — President Roosevelt today gave his consent for a second nationwide ball next January for the purpose of raising funds to fight infantile paralysis.

The decision was reached after a conference with the trustees of the Warm Springs foundation.

Special Program Is Prepared by Church

The Thanksgiving program of St. Marks Colored Baptist church is well under way, it has been announced. The pastor, Rev. O. B. McKinney, will preach a special sermon at 11:30 a. m. The week's service will be devoted to departmental prayer. A turkey dinner will be served from 12:30 a. m. to 2 p. m. There will be a special program at night by the juniors of the church.

Crop Ascribed To Use of Good Seed

FRANKLIN, Nov. 21 — Matt Salvaggio, 13 year old 4-H club boy of Robertson county, is a firm believer in the use of good seed and poison as factors in producing cotton, according to V. L. Sandlin, farm demonstration agent. Using practically the same cultural methods as are used by other farmers in his community, young Salvaggio produced 569 pounds of lint cotton on one acre of land while his neighbors did not make more than 375 pounds. He describes the difference to the fact that he planted good seed which produced a large proportion of lint from the seed cotton and that he used 14 pounds of poison on his crop at the proper time.

The gross proceeds from this one acre amounted to \$101.26 resulting from the sale of 569 pounds of lint at 14 1/2 cents per pound and 962 pounds of seed at 49¢ per ton.

Titus County To Use Trench Silos

MOUNT PLEASANT, Nov. 21 — Trench silos came into their own this year in Titus county, according to the report of J. O. Graham, farm demonstration agent. The case of W. A. Ford who salvaged his perishing grain sorghum crop by making silage is typical. Ford stored away 60 tons at a cost of approximately \$1.25 per ton for cutting and storing. So satisfactory was this method of putting up feed that Mr. Ford expects to add more trench silos next year.

Telephone Company Declares Dividend

NEW YORK, Nov. 21 — Directors of the American Telephone and Telegraph company today declared the regular quarterly dividend of \$2.25 a share, involving a distribution to more than 600,000 stockholders of nearly \$42,000,000.

Court Reforms And Upholds Sentence

AUSTIN, Nov. 21 — The court of criminal appeals today reformed and affirmed the 25-years sentence of Sonny Lamb in Stephens county on a charge of robbing Dick Pair, of \$318 last January 13.

The court found the sentence improperly worded and changed it to read "not less than five years nor more than 25 years."

AMBULANCES EXEMPT

BOSTON, Nov. 21 — If they can arrange it, commuters using the new East Boston tunnel will ride to work in ambulances. Mayor Frederick Mansfield ruled that all ambulances, whether owned by the city of Boston or not, will be exempt from paying tolls when using the traffic tunnel.

Memphis Flood Sets New All-Time Mark

MEMPHIS, Tenn., Nov. 21 — Rain which broke all records, flooded and marooned homes, endangered lives of hundreds, tied up traffic, and indirectly caused death of one person today. In 12 hours, the all-time 24 hour record of 9.67 inches of rainfall was surpassed. Most of the rain had fallen since 11 o'clock last night.

ELECTION OF JURY BEGUN IN DOGGETT CASE

STANDARD Nov. 2 — Six jurors had been selected this morning in trial in 88th district court of Lord Doggett, charged with murder in the slaying of L. F. Threet, the engineer.

The original venire of 55 was expanded yesterday and 40 additional jurors reported for jury duty this morning.

The court yesterday overruled motions of pleas of former jeopardy and continuance by Doggett's attorney, J. Frank Sparks.

Telephone Company Declares Dividend

NEW YORK, Nov. 21 — Directors of the American Telephone and Telegraph company today declared the regular quarterly dividend of \$2.25 a share, involving a distribution to more than 600,000 stockholders of nearly \$42,000,000.

BURGALARIZING POLLING PLACE

NEW BEDFORD, Mass., Nov. 21 — Police were forced to break into the Betsey E. Windlow School, a polling place in the recent election, to permit citizens to vote — the janitor of the school had overstept.

WEATHER

West Texas — Fair, colder, freezing lower temperatures cold wave southeast portion tonight. Thursday fair, colder southeast portion. Outlook warnings.

East Texas — Generally fair, cold-freezing in northwest portion tonight. Thursday fair and colder.

Aspirants to Senate Jobs

Cong.-Elect Nat Patton of Crockett has resigned from the state senate, effective January 1, and Rep. Gordon Burns of Huntsville has announced as a candidate for the place.

Former Rep. E. T. Murphy of Livingston is reported also as an aspirant to the senate. Election will be for the remaining two years of Patton's term.

Mr. Burns has a record of effective and constructive service in the house, on up through the session just closed. He is among the three or four most effective speakers the body has produced in recent years.

If Mr. Burns is elected, he will retire from the house, as of the date of the election; but if the election is held 30 days before January 8, a special election can be held to name his successor so there will be no vacancy during the regular session.

The Joke That Became Serious

What was hailed at first as a rip-roaring joke has turned out to be serious and solemn sense—the proposal of Railroad Commr. Ernest O. Thompson to let railroads haul, at 10 cents per mile, loaded freight motor trucks on hauls of over 220 miles, which would otherwise cost the truck operators 15 cents per mile.

Some truck line operators have seized upon the plan, welcoming it as a means of saving five cents a mile. Railroad people will be perfectly happy to haul all the loaded trucks there are at 10 cents a mile.

Of course, for large-volume haulage between chief cities, the trucking lines will have detachable bodies for their trucks, and ship only the bodies, rather than the entire equipment.

Death Blow to Hot Oil

Another death blow to hot oil has been administered, another loophole closed, another powerful weapon for enforcement created. The railroad commission has ordered that trucks cannot haul oil or gasoline without commission tenders. This step, affecting several thousand barrels of oil and gasoline a day—enough illegal oil to jar the stability of the market—strikes at the easiest form of evasion of conservation orders. Pipelines and railroad cars are readily accessible; trucks are not.

The Comptroller's Tax Plan

Compt. George H. Sheppard has worked out a plan that will bring much of \$200,000,000 unrendered property onto the state and county tax rolls. He is preparing separate rendition rolls to take all registered automobiles into assessment. Texas has over 1,000,000 cars, a very large percentage of which have escaped ad valorem taxation.

The Riddle of the Man in the Moon

The man in the moon isn't in the moon at all, nor are all those cold and lonely looking mountains, according to a theory propounded by Mr. Joseph Weisberger, Austrian astronomer.

Mr. Weisberger has published a book called, "The Riddle of the Double Planet, Earth and Moon," in which he puts forward the theory that the moon, like the earth, is covered with an atmosphere, whose upper surface reflects the light of the sun in such a way that we can never see the globe it encloses. What they see is moon stratosphere, he contends.

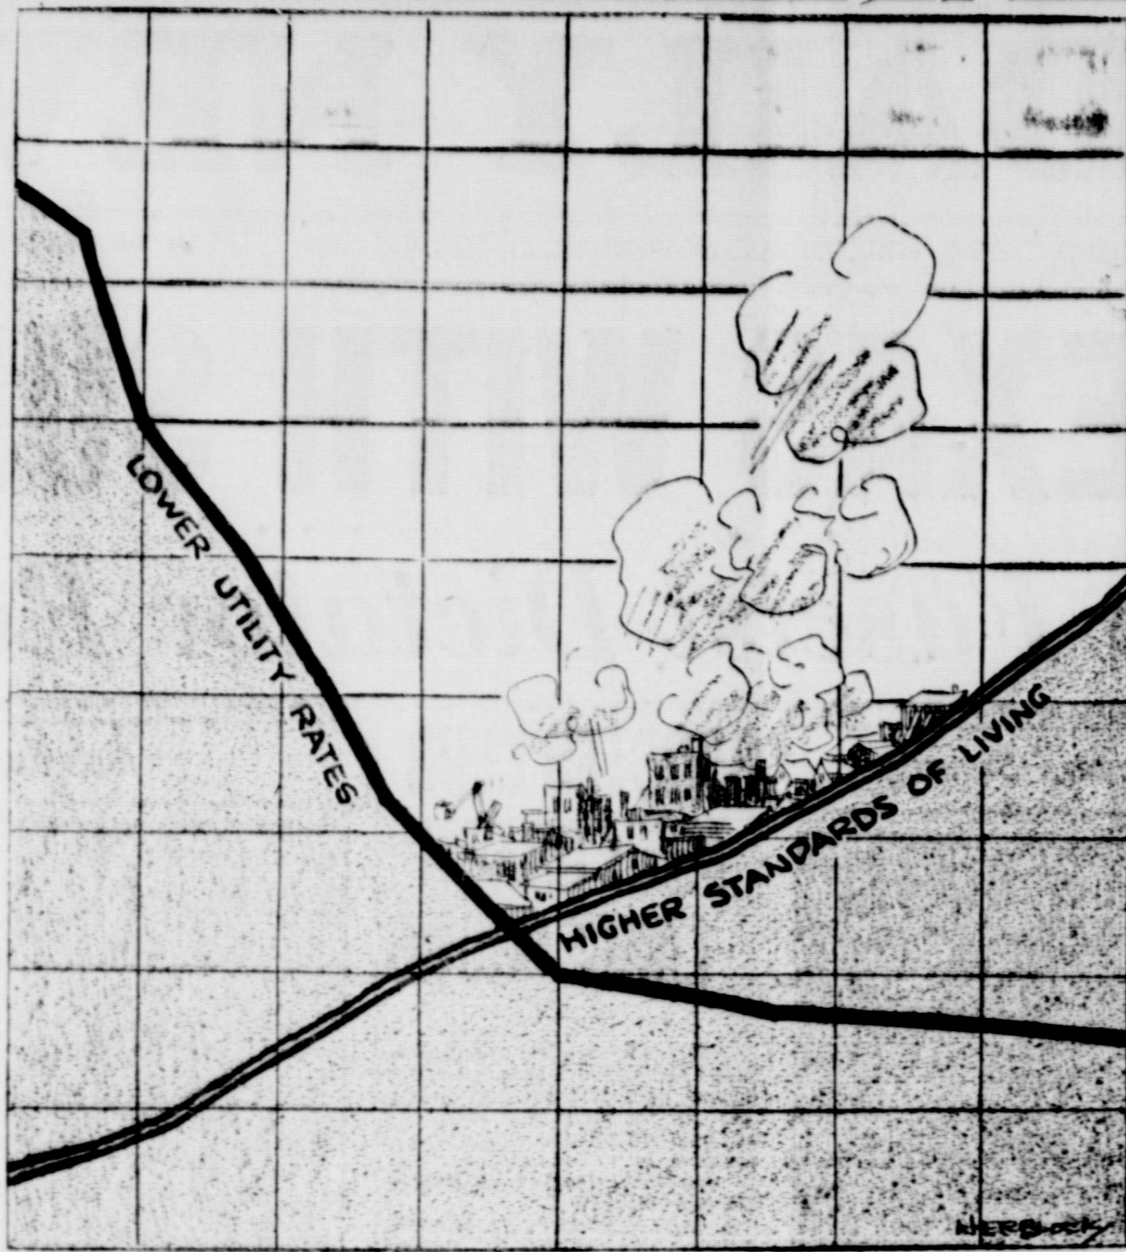

Mr. Weisberger bases his hypothesis on the observation that maps of the moon are exceedingly variable. Lunar geography, he says, is very vague and uncertain. Tomorrow the camera may show a picture of the moon greatly different from the one it caught today.

What one sees, he says, is an ever changing atmosphere shell about the moon, and it may no more resemble the real object than the prickly hull of a chestnut resembles the smooth brown object inside.

Due to the rotation of the moon, the surface of its air cover has assumed the form of waves and spirals of varying density and depth, which resemble mountain chains and craters, not entirely unlike the surface of a cloud on which one may look down from a high mountain peak.

The author of this theory thinks it is substantiated by the character of the shadows in the moon. If the mountains there are really as high as scientists believe, they would cast long and dense shadows, he thinks, which would make the edges of the moon dark and jagged like a saw blade. But just the opposite is the case, he asserts, for the brightest part of the moon is near the circumference.

Going Up or Down?

Texas Topics

By RAYMOND BROOKS

While successful state campaigns have been made on a platform of revamping some particularly bad phase of government, top to bottom, of state administrative machinery...

1. Start the tax business anew. Let property pay city and school costs, or most of it; but for once make the levy universal upon all property.

2. With only one governor and only one supreme court of three members, try the experiment of getting along on one legislature, rather than a two-house system. Limit

the number of members to 25 or 30, pay enough to command the ablest possible members for full-time service and prohibit their receiving outside money, as judges and the governor are now prohibited.

3. Elect one court in the state, rather than 135. Let the court name an adequate number of trial chancellors, men of sufficient skill to sit with the court as a commission, when desired, and to perform the intermediate appellate function of the appeals courts.

4. Have one system of education, instead of 20-odd in Texas, administered by an interlocking board of say nine members, three devoted to public schools, three to higher education, and three general. Integrate the schools so they form a system, not a competitive set-up. Use all institutions, but differentiate their functions.

5. Elect an administrative head of the government and an attorney general, and administer the executive side of the government as a unified, interrelated and coherent unit. This principle is in the Graves administrative code, but there hampered by cumbersome machinery.

6. Subordinate county government, instead of making the state a collection of independent county units. Reduce the number of county administrative districts to that nearly required—20 or 30. Have elected county boards fully responsible for all functions of county government.

7. Work out some plan to eliminate duplication of city and county functions, omitting county police, road fund, poor relief, tax assessing and collecting, in homerule cities, using city agencies to serve state purposes, the same as counties.

It is easy for anybody to dream Utopian plans; it is hard for any set of people to work into fact any reform that will eliminate thou-

OUT OUR WAY

RELIEF ROLLS GET ATTENTION AT HOSPITALS

EASTLAND, Nov. 21—Clients on relief rolls in Eastland county are eligible to receive hospitalization at the municipal and county hospital at Ranger to the amount of \$2.50 per person per day, it was announced by County Administrator H. E. Driscoll, following receipt of a letter from Adam R. Johnson, relief director, at Austin.

Following is the text of Director Johnson's letter: "The board of control is hereby directed to use 2 1-2 per cent or so much thereof as may be necessary, of the proceeds of the Texas relief bonds herein authorized for the payment of hospital services, and such services shall be available to persons who are eligible for relief under the terms of this act in need of hospital services and who are unable to bear such expense."

Provided, however, that the amount authorized to be expended for such purposes shall not exceed \$2.50 per day per patient. Such hospitalization shall be authorized only in cases where special care is essential to the preservation of life and health, and the same cannot be otherwise adequately secured. And provided further, that the provisions of this section shall not apply to cities and counties having, owning or operating county or municipally supported hospitals.

Beginning on date of receipt of this letter you are not to authorize payment of hospital bills for county residents providing your county owns or operates a hospital, or for residents of any city which owns or operates a hospital in which city residents are not admitted and have no city hospital you may provide hospitalization for persons on your relief rolls, "where special care is essential to the preservation of life and health."

You will note that you may not exceed the \$2.50 per day per patient fee which is the same amount authorized previously, and that you may "use 2 1-2 per cent or so much thereof as may be necessary" of state funds for hospitalization. (No federal funds may be used for hospitalization.)

Kansas Women Get Out Their Hatchets

TOPEKA, Kan., Nov. 21—Kansas, which went dry in 1880 by 8,000 votes, and elected to remain that way in the recent election by 70,000 votes, may be the focal point for a new drive to bring the nation once again under the banner of prohibition.

Dry leasers, elated by the way Kansas turned back the effort to repeal its ancient prohibition amendment, already are planning to make the state even more arid by outlawing sale of 32 beer.

When the legislature meets this winter it is expected pressure will be brought to force enactment of a measure declaring 32 beer intoxicating. The courts, under the present law, have held it merely an innocent beverage. But the drys say it is the same stuff that was sold in Kansas prior to 1880, and add that beer constitutes 90 per cent of the traffic in alcoholic drinks.

A ban of hatchet wielders, reminiscent of Carrie Nation, may come from this new militant feeling in Kansas. A day or so after the Kansas election a group of W. C. T. U. workers met in Arkansas City, where for months a fight has been waged over the roadhouses that dot the highways just outside the city limits, even as they do in the wet states.

Mrs. May Frazee, spokesman for the 50 women, sounded the call for hatchet swingers. "If the law isn't enforced we'll get out hatchets and go to work," she said.

"We don't want to take such drastic measures, but you can rely on it that we will if necessary."

Cut in Wine Duty Is Aid To Canada

PARIS, Nov. 21—By lowering the import duties on French wines, Canada has gone ahead as an exporter of agricultural products to France.

Terms of the recent Franco-Canadian trade agreement reveal that Canada receives the minimum tariff scale for wheat, oats, rye, frozen pork, liver, canned lobster and potatoes, the latter destined for the West Indian colonies.

A particularly interesting fact is that Canadian whisky is admitted to France at the minimum duty. Concessions also are made for some manufactured goods and metals.

The French benefit by 63 per cent reduction of the duty on still wines, and 20 per cent reduction on champagne and sparkling wine duties.

BALLOT BEAT STORK

MANCHESTER, N. H., Nov. 21—This time the stork had to wait. Mrs. George Corriveau wanted to vote in the state election held recently but thought she would be unable to. Dr. Damase Garon, the attending physician when the baby was born, rushed Mrs. Corriveau to the polls and was back to the hospital before the stork arrived.

LEECH SALES BOOM STORE BOSTON, Nov. 21—A Hanover-Street drug store in Boston's North End is doing a bumper business in leeches—especially "the morning after." A drug clerk explained the leeches, of the Belgian variety, are sold in great numbers to apply to black eyes.

SISTER MARY'S RECIPES

BY MARY E. DAGUE, SEA Service Staff Writer. THE reason stew and hash have a boarding-house connotation and usually are greeted with sighs of resignation at home is just that the average housekeeper makes them so badly. Properly done, they are dishes for the gods and that being true, it's my opinion that every bride ought to be put through a course in stew-making, through a course in stew-making, through a course in stew-making, through a course in stew-making, through a course in stew-making.

Tomorrow's Menu BREAKFAST: Apple cereal, cream, broiled corned ham, bran and raisin muffins, milk, coffee. LUNCHEON: Rice croquette with cheese sauce, Chicken with French dressing, peach cottage pudding, mint tea. DINNER: Veal stew dumplings or baked tripe, creamed cauliflower, French endive, steamed date pudding with whipped cream, milk coffee.

Dumplings add distinction to all stews, but particularly to the veal variety. Lamb stew gains by the addition of green peas, fresh or canned. Carrots provide color for any stew. Onions and tomatoes help and a few mushrooms, dried or fresh, give the final touch.

A big platter of stew with dumplings, an extra vegetable such as baked squash, a crisp vegetable salad and an easy dessert (steamed date pudding)—such a dinner, simple as it is, tests the skill of the cook. And happy is she who can pass with high marks.

Trim fat from meat and put into a frying pan over a low fire until fat is tried out. Remove crisp cracklings. Cut meat in small pieces and roll in flour. Brown with onion in the hot fat in the frying pan. Toss into a deep sauce pan or kettle. Pour boiling water into frying pan and then pour over meat. Cover close-

ly and simmer for two hours. Pare potatoes cut in neat slices, salt, pepper and shredded carrot. Put in a saucepan and simmer for five minutes and add to the stew. This develops the room flavor. Cook thirty minutes longer, adding water if necessary.

Cook Dumplings in Broth There should be about three-quarters of a cup of broth for each dumpling. Drop dumplings by tip of spoon into briskly boiling water. Cover closely and boil gently for twelve minutes without stirring the cover. Perhaps the top of your glass baking dish will just how your dumplings are cooking and not have to guess whether they are cooking enough or whether they are done.

For a thick stew, stir two tablespoons flour to a smooth paste with a little cold water and add to rapidly boiling stock after dumplings have been cooked. mouth depot without funds to turn home. He provided the necessary amount, but several hours later was forced to arrest the woman, a drunkness charge. She had a ton woman stranded at South Wey-

BREAD UPON WATERS WEYMOUTH, Mass., Nov. 21—Patrolman William Riley performed a kindness then had to arrest his beneficiary, Riley found a Boston woman stranded at South Wey-

mouth depot without funds to turn home. He provided the necessary amount, but several hours later was forced to arrest the woman, a drunkness charge. She had a ton woman stranded at South Wey-

FOUND

A Sure Way To Prevent Winter Trouble for Motorist OF CISCO.

Special Winter Grades of Germ Processed Oil Give Positive Starting, Improved Gasoline Mileage and Utmost Motor Protection!

Change now to the proper grade of New and Improved Conoco Germ Processed Motor Oil. You'll get:

- 1. Positive Starting. These new lighter grades permit your motor to reach higher "cranking speed." You save your battery. You choke less—waste no gasoline. 2. Definitely more miles per gallon of gasoline. These lighter grade oils flow freely and minimize friction. 3. Utmost Motor Protection. Other oils drain away, leaving parts unprotected when you start. Only Conoco Germ Processed Oil penetrates and combines with metal surfaces, forming the "Hidden Guard that Never Drains Away." Every part is fully oiled from the first turn of the motor. It cuts down starting wear—saves repair bills!

Conoco dealers and stations have the new Winter Grades, namely, 10W and 20W— heavier grades, too—in refinery-sealed cans and in bulk. Consult the Conoco chart, fill with the proper grade—and stop worrying!

WINDY SKIES BRING SNAP TO BOBO PRACTICE

Keeping them guessing and then a rest after their game manager, the weather man to- gether on the Lobos with a slight cold snap promised to send the Lobos with their paces with renewed in preparation for their game. Lobos will leave for Chil- dren's early Thursday morn- ing was announced today by R. N. Clark. This will give a little time to rest and loo- after their arrival, before the is called the following after- noon Friday.

Lobos have been able to use of the rest in order to let injuries received in the Ranger deal, but now are ready for again, and can probably shoot full load against the North- west.

Conditions are that the same which has started the last games will form the opening Friday, with the possible ex- cept of Coffey, who, although he is expected to play, may be given a rest in view of the ap- pearing Allene tangle here regarding probable lineup will be Bur- and Thomas Graves, ends; and Wendie guards; Little- center; Collum, quarter, Caf- and Beasley, halves; Rylee, full backfield will likely see a good changes, inasmuch as Coach has used two sets of backs in game. The other set will like- Samsbury, Groce, Shackle- and Hayes.

MODIFIED TYPE OF GRID GAME IS TRIED OUT

HEBRON, Neb., Nov. 21. — Six- man football, designed to restore the gridiron sport to popularity with small high schools, is being tested in Nebraska this fall.

The game, which already has been subjected to the test of actual competition, was designed by Steph- en Epler, assistant coach at Beatrice, Neb., high school, and is designed to accomplish three purposes:

1. Reduce the expense of equip- ment, 11 man teams.
 2. Limit the possibility of injury to immature high school players.
 3. Preserve the enthusiasm and interest that the present game of football affords.
- "The need for modification of regulations to fit the situation exist- ing in small schools," Epler says, "is shown by the fact that in 1933 only 218 of Nebraska's 505 high schools sponsored football teams. This was 43 per cent of the total. Only 19 per cent of high schools with registration less than 100 had teams."
- Modified Rules**
- Inadequate equipment and train- ing, he points out, increase the ratio of danger to immature prep school players. He believes his modified rules will solve these ma- jor problems.

The rules, as drafted and mod- ified by Epler, provide:

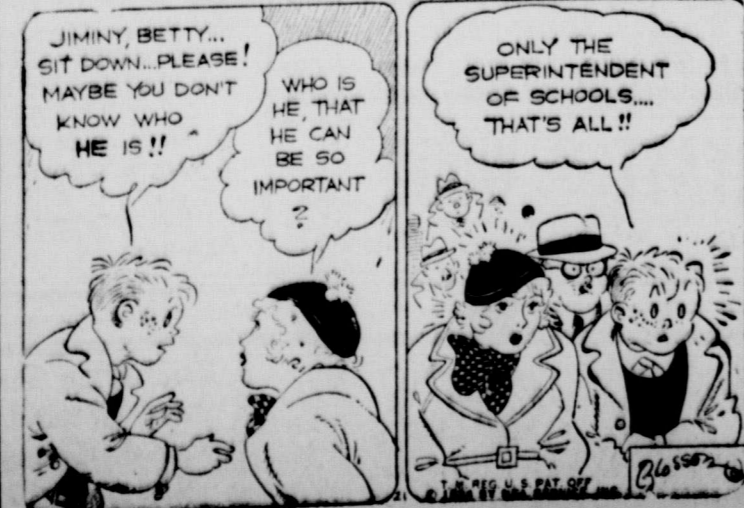

1. Each team shall be composed of six players.
2. Playing field shall be 80 yards long and 40 wide.
3. All but the center are eligible to receive a pass on the offensive.
4. Offensive team must have three or more men on the scrimmage line.
5. Forward passes may be exe- cuted anywhere behind scrimmage line.
6. Offensive ball carrier receiving the ball from center must pass to a team-mate before crossing scrim- mage line. Pass must be for at least two yards and may be either forward or backward.
7. All players must wear basket- ball or tennis shoes to reduce equip- ment costs.
8. Playing time shall consist of four eight-minute periods.

New Plane Engines Overcome Weather

NEW YORK, Nov. 21 — New type dependable engines are the latest ally of the big air liners in over- coming unfavorable weather, as seven-ton transports can when re- quired to be flown to an altitude of 27,200 feet with full load, show actual tests made with one of United Air Lines' twin-engine coast-to- coast Boeings.

This enables the pilot, when necessary, to go to an altitude well above the elevation of even unusual storms, and when above the bad weather the pilot holds his true course by the direct radio beam.

Queen Anne So Dirty It Takes Seven Months Just To Give Her Good Bath

By H. L. PERCY
United Press Staff Correspondent
LONDON, Nov. 21. — Queen Anne has had her first bath in 90 years. She also had a face lift and beauty treatment. It took seven months.

Actually it was the effigy of Queen Anne that received the treatment. She is one of the very many statues and effigies in Westminster Abbey which will be clean for the wedding of the Duke of Kent (Prince George) and Princess Marina of Greece, on Nov. 29.

Self-Satisfied Smile

Pump, with the suggestion of a self-satisfied smile, she has just been returned to her old station in the Abbey. With the grime of 90 years washed off she looks as though she has been made up for a talkie of the "private life" series.

Looking at some of the other spring-cleaned effigies gives one the impression that some of the movie stars got their fashions from them.

Queen Elizabeth, as fresh as paint, presents the Dietrich eye- brows. They are perfect ginger arches. Her little eyes are bright and the eyelids have a slightly inflame look. But her thin, pursed lips have just the right amount of lip-stick, and her finger-nails, clutching orb and scepter, are tinted a deli- cate pink.

Gay Old Lady

In fact, she looks an extremely gay old lady, to say the least, in the bejeweled splendor of one of her thousand dresses. The fake pearls, rubies and emeralds sparkle, the lace at her bosom is spotless.

The Coleman mustache is seen in prickly precision on the swarthy features of Charles II. It is the neatest pin-line of bristles, and his eyelashes would be the envy of the greatest vamps of the screen.

Healthy Tan

Charles obviously has been sunning in the South of France. They may have toasted him as

WACO, Nov. 21. — Forerunning the clash between the Southern Methodist Mustangs and the Baylor Bears in Waco Saturday the freshman teams of the two universities will battle on the local gridiron Fri- day night, Nov. 23. This encounter will be the first between the fresh- levens of these schools, the game being allowed by a new ruling of the Southwest conference.

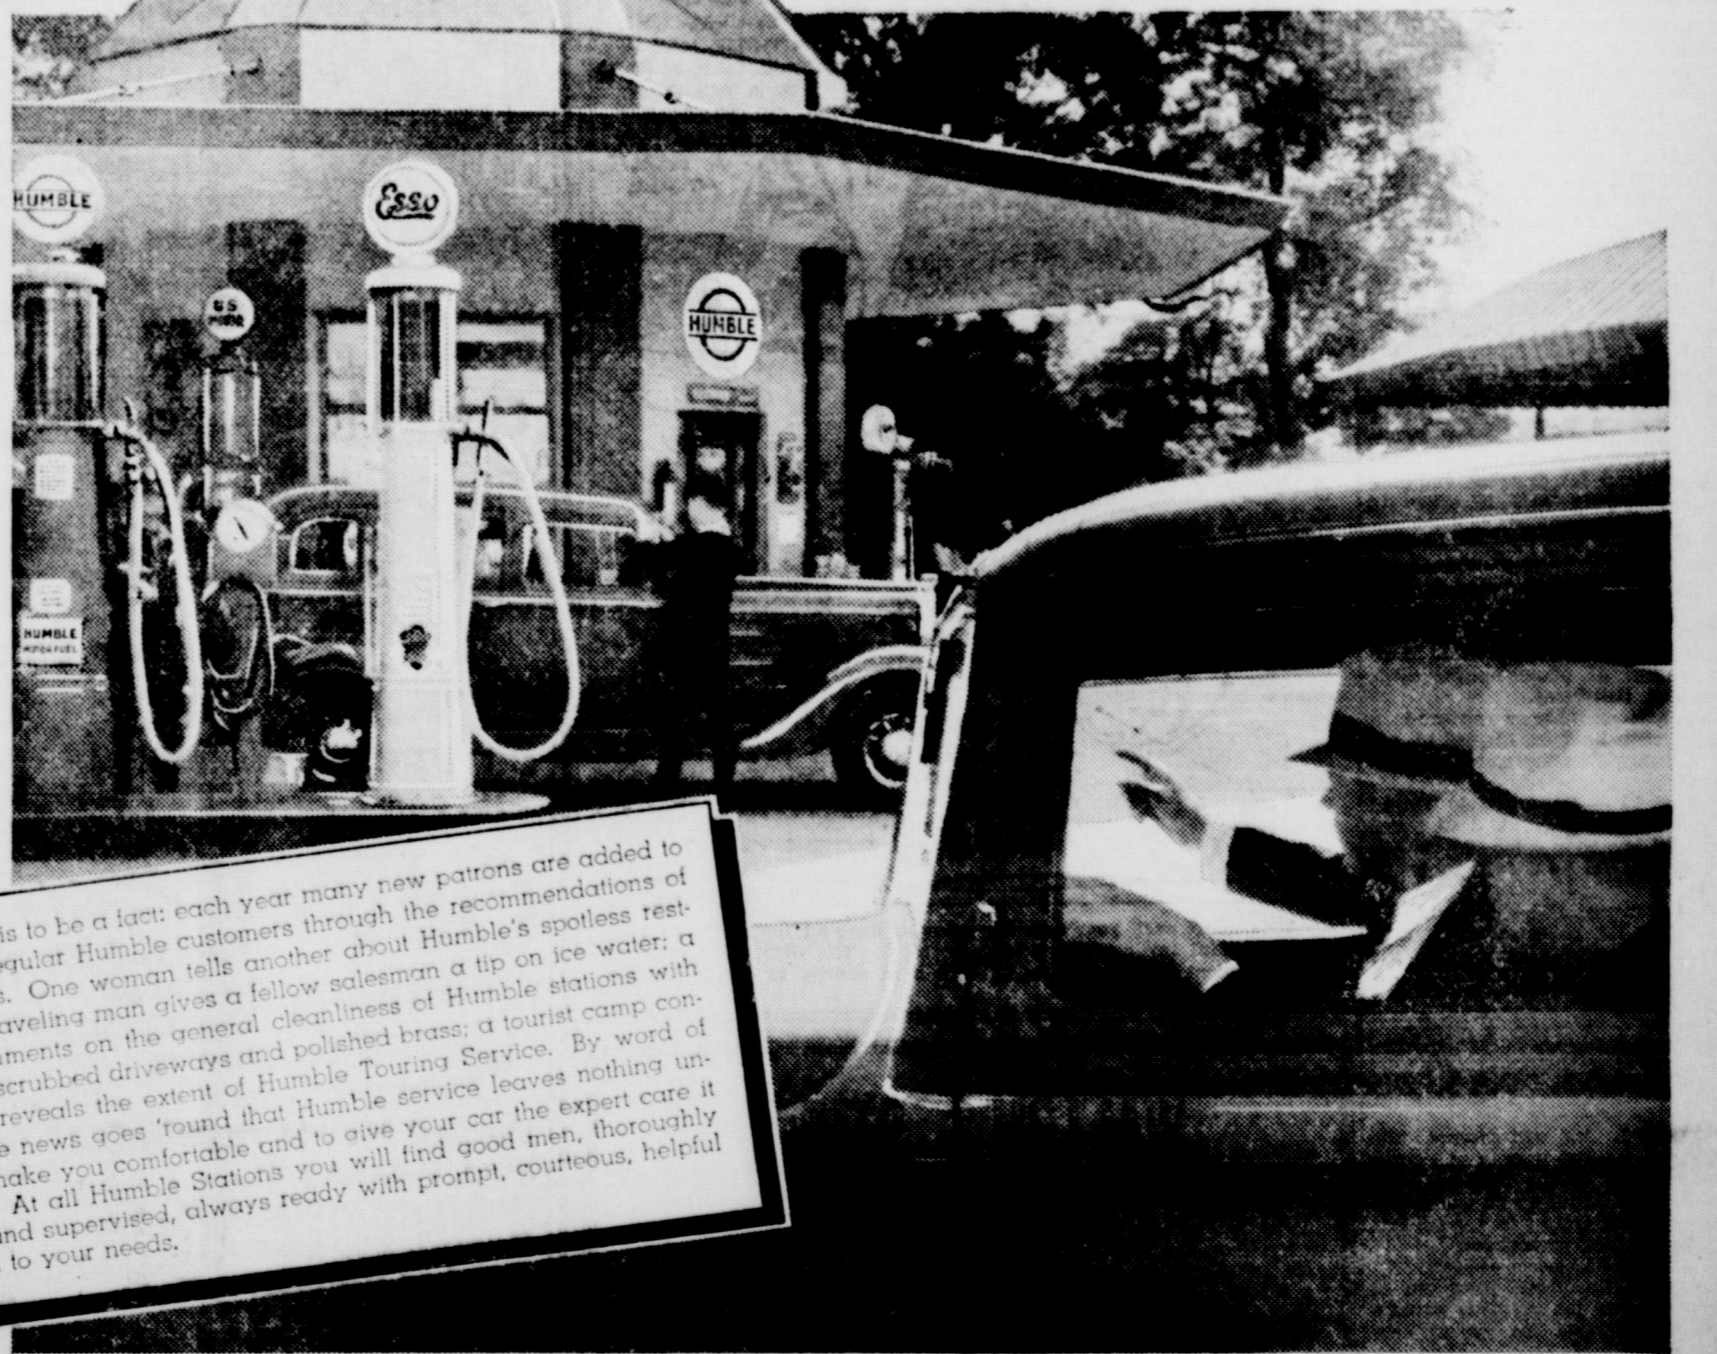

The Bear club, formed by a group of local business men in the interior of the football situation at Baylor, is promoting this contest and is push- ing ticket sales in an effort to swell the attendance.

"From Friend to Friend — Try HUMBLE"

We know this to be a fact: each year many new patrons are added to the list of regular Humble customers through the recommendations of their friends. One woman tells another about Humble's spotless rest- rooms; a traveling man gives a fellow salesman a tip on ice water; a doctor comments on the general cleanliness of Humble stations with their well scrubbed driveways and polished brass; a tourist camp con- versation reveals the extent of Humble Towing Service. By word of mouth, the news goes 'round that Humble service leaves nothing un- done to make you comfortable and to give your car the expert care it requires. At all Humble Stations you will find good men, thoroughly trained and supervised, always ready with prompt, courteous, helpful attention to your needs.

We make no advertising claims for the Humble prod- ucts you will find at Humble Service Stations. But we promise this: You will always find Humble products second to none. Humble Motor Fuel and Humble 997 Motor Oil have received the unqualified approval of literally thousands of users all over Texas. Test these two products in your own automobile; experience tells us that you'll come back for more. Other consumer- tested, Humble products at Humble Service Stations include: Esso, the world's leading premium fuel, more powerful than any gasoline; Velvet Motor Oil, a first

class, medium price product; special lubricants of all kinds; and a full line of petroleum specialties—Humble Household Lubricant; Humble Cedar Oil Polish; Flit and Flit Lotion; Humble Flashlike Lighter Fluid; Trim and Nu-Trim; Tri-Rad Radiator Rust Preventive, Radiator Stop-Leak, and Anti-Freeze; Extane Cleaner and Extane Spot Remover. At Humble Stations, there is a product for every car and a price for every purse; shop for your car with Humble.
