## THREE CHARGED IN SKELETON MYSTERY

### About Our Friends

By STEPHEN A. LONG

Cisco Roundup October 1910.

Scarlet of Eastland is a guest of Mrs. Harvey Spoon.

Gene Duncan of Dublin was in the city Wednesday.

Mayor left Friday for Dallas on a business trip.

Judge Stubblefield of the city Thursday and Friday.

Mrs. Geo. Langston and Miss Joyce were Fair this week.

M. H. Leach and Miss Dora Smith left to spend several days at the home of Mrs. J. R. Bucy of Rising Star.

Mrs. J. R. Bucy of Rising Star is a guest of her aunt Mrs. R. H. Roscoe St. John and of her relatives in the city.

Miss Montcastle came in Wednesday to visit friends.

Katherine Berry of Marshall, Tex., visited her mother, Mrs. Harrell and family.

Mrs. Williams left Saturday for a month with her mother.

R. B. Ridgway made a business trip to Eastland Wednesday.

J. Alexander left this week for Ellsboro where he will buy a house.

Mrs. A. B. Johnson was in the Presbyterian Ladies' Society Tuesday afternoon.

L. L. Neal of Ranger is in the city visiting the family of Dr. B. C. Moore.

Mrs. J. A. Kerley and Mrs. Clyde arrived in Cisco Tuesday to visit her sister, Mrs. Moore.

Mrs. Jas. Blair of Spring Springs is spending a few days with Mrs. Reece Barnhill in the city.

Mrs. J. J. Winston went to Houston Friday to visit her son, and was accompanied by Mrs. Barlow and Otho Keane who are in the city.

Mrs. W. L. Harrell and Mrs. Wm. Alsbrook, of the city, visited relatives in Gorman Tuesday.

A fine girl arrived at the home of Mr. and Mrs. Will Moore Tuesday.

Mrs. Noble and Misses Gray of Rising Star were in the city Monday.

Mr. and Mrs. Gray and harness for a trip to the coast.

Mr. and Mrs. J. S. Blount left Tuesday for an extended trip in East Texas.

Boyet of Durant, Oklahoma, was visiting friends in the city.

Mr. and Mrs. S. R. Gray spent a few days in Dallas attending the Fair the first of the week.

Mr. and Mrs. Theo. France and wife left Tuesday for Dallas to attend the Fair and also visit relatives.

Mr. and Mrs. J. M. Brown of Scranton was in the city Monday enroute to Dallas to visit her sister, Mrs. Josie and Morzee Weems.

Mr. and Mrs. B. G. H. C. Saturday evening with delicious cream cake.

The Mass Meeting of the call of Mayor was held at the city hall last Friday afternoon for the purpose of discussing the advisability of getting up a petition asking the commissioner of the court to issue bonds to better wagon roads through the district.

The proposition was discussed by Mr. and Mrs. A. S. John, J. H. Calhoun, C. Bedford, J. M. Lane and W. Michael was appointed to ascertain how much the precinct would be allowed to bond for good roads, and to also circulate a petition and get the required number of signatures to same.

## Big Business Optimistic But Wary of 1935

### RECOVERY IN 1935 SEEN BY EXECUTIVES

**BULLETIN**  
CLEVELAND, Dec. 28 — A continuous upturn in industry during 1935 was forecast by Donald Richberg, federal recovery coordinator.

(Copyright 1934 by United Press)

NEW YORK, Dec. 28 — Big business is heading into the new year in an attitude of cautious optimism. High executives in practically all major lines foresee further improvement in 1935, although not without some obstacles.

A cross section of American industry on the outlook of 1935 was obtained in the following survey by the United Press:

Alfred Sloan, Jr., president of General Motors—"The fact that there is a foundation not only for recovery but the possibility of speeding up the process of recovery and a broadening intelligence as to the principles involved in the solution of the problem justifies the belief the business of the nation in 1935 should be somewhat better than in 1934.

R. B. White, president of Western Union Telegraph—"Continuation through 1935 of the present improvement is dependent upon stabilization of general economic conditions. If the present growing conditions without continued serious interruption, the prospects are for better business in 1935. Indications appear to promise moderate growth in telegraph revenues during the early months of 1935 and perhaps throughout the year.

Gerald Swape, president General Electric company—"For the year 1935, we look forward to a continued improvement in business.

### Flaming Symbol of Mob Rule

Blind fury of a mob and hatred and defiance of law is symbolized by this flaming structure, the courthouse in Shelbyville, Tenn., shown at the height of the fire which destroyed it. The mob which was thwarted in its attempt to lynch E. K. Harris, negro charged with criminal assault, applied the torch to the building, constructed in 1867 and having a replacement value of \$200,000.

### WORK RELIEF PROGRAM FOR 1935 IS SEEN

WASHINGTON, Dec. 28 — The federal emergency administration today cleared the way for a broad work relief program in 1935. Administrator Harry Hopkins ordered individual states, counties, and municipalities to raise and spend their own money to care for all "chronic dependents" — persons unable to work because of old age, mental disabilities, or physical handicaps.

The order, effective Feb. 1, will result in clearing federal relief rolls of almost 4,000,000 who must receive relief to live. It will leave around 15,000,000 unemployed able to earn wages on government work.

The order was interpreted in official circles as being the administration's first move to base the new year's relief program on work, despite recent big business demand that the cheaper "handout" system be substituted.

Result of Hopkins' new order probably will be threefold:

- 1 — Relief costs are expected to mount slightly, although relief rolls will be reduced.
- 2 — Those remaining on relief probably will receive more than the \$25 to \$30 then now average each month.
- 3 — State, county, and local tax payers may be called upon to pay more levies.

Hopkins estimated work relief is about 15 per cent more expensive with the additional funds needed for purchasing materials.

Wherever possible, Hopkins said, the amount the state spends in caring for chronic dependents will be credited toward their contribution to federal relief.

### Baby Refugee's Bottle Is Missing

This scene at a Hungarian refugee station might have been painted by Rembrandt. It portrays the plight of unfortunate peasants who were driven from Jugo-Slavia in reprisal for the assassination of King Alexander.

Baby's bottles left behind in the mad flight to escape Slavic fury, the youngster has to take his milk from a beer stein almost as big as he.

### SECOND MAN ARRESTED IN RISING STAR

**BULLETIN**  
RISING STAR, Dec. 28 — Melton Tyler, 34, was charged today with murder in connection with the slaying of H. L. McBee, whose skeleton was found near here Saturday.

Tyler, married, of Rising Star, was arrested by Sheriff Virge Foster and taken to the Eastland city jail.

Sheriff Foster announced that the examining trial for Tyler, and Mr. and Mrs. Raymond Henry, arrested yesterday, would be held before Justice of the Peace W. M. Morrison at Rising Star Saturday at 11 a. m.

RISING STAR, Dec. 28 — Raymond Henry, 24, farmer, and his wife were in jail today charged with murder in connection with the slaying of H. L. McBee whose skeleton was found dangling from a tree near here Saturday.

Mrs. Henry was formerly the wife of McBee. The arrest was made by Sheriff Virge Foster and Deputy Loss Woods of Eastland, who, with constable Sexton Hulien of Rising Star, had been conducting an investigation since the skeleton was found.

McBee, formerly a state highway worker, disappeared in May, 1933. The skeleton found Saturday and was identified through a highway department tag.

Henry and his wife reside on a farm five miles southwest of Rising Star. Mr. Henry is being held in the Callahan county jail at Baird. Henry was taken to the Stephens county jail today from the Eastland city jail where he was lodged during repairs of the Eastland county jail.

Henry was at first brought to Cisco where he was held in the city hall while officers took his wife to the Baird jail yesterday.

### POST OFFICE WILL BE OPEN ON SATURDAY

The Cisco post office will be open until 4 p. m. Saturday, it was announced today by Postmaster Cragg.

"We are usually open all day on the last three Saturdays of the year," he said, "due to the heavy volume of business."

The Cisco office will observe the New Year's holiday next Tuesday, however, he said. "There will be no office work on that date and the office will be closed all day. All mail will be dispatched as usual on Tuesday, he said."

### RELIEF MONEY FOR JANUARY IS ALLOTTED

WASHINGTON, Dec. 28 — Harry Hopkins, federal emergency relief administrator, today allotted \$3,774,695 to Texas for relief work in January.

Hopkins announced that total federal, state, and local relief cost for November amounted to \$171,789,742 and increase of 12.1 per cent over October.

The November relief roll included 4,177,735 families compared with 4,051,493 in October.

### Souvenir Service To Be Held Sunday

A unique service, called by the pastor a souvenir service, will be held at the First Methodist church Sunday morning at 11 o'clock. It was announced today by Rev. Frank L. Turner.

Each person attending the worship will receive a memento. The ship will receive a memento. The pastor has chosen as his sermon subject "Watch." Miss Marion Chambers will be soloist at the morning hour. The public has been invited to attend.

### HAUPTMANN HOME DURING TRIAL CELL IN NEW FLEMINGTON JAIL

FLEMINGTON, N. J., Dec. 28 — When Bruno R. Hauptmann goes to trial here on charges of murdering Charles A. Lindbergh, Jr., he will march from his cell in a modern, foot-proof jail to an antiquated courtroom in the century old court house without leaving the building.

The two structures are joined by a "Bridge of Sighs" through which Hauptmann will be taken under heavy guard. He will not be permitted to venture out of doors at any time during his trial.

### TAX REVISION EFFORTS HELD AT STANDSTILL

AUSTIN, Dec. 28 — With a call for a new state constitution, the state senate tax research committee today had practically thrown over attempts to bring about general tax revision at the session of the state legislature which convenes Jan. 8.

"We have found it impossible to write highly desirable laws because of inhibitions and restrictions in the state constitution," Sen. Arthur Duggan of Littlefield, chairman of the committee, said. He announced the committee has agreed to recommend to the legislature a proposal to the voters for calling a convention to draft a new constitution.

The present constitution was adopted in 1876. Many changes by amendment have been made. Eight amendments, several dealing with taxes, were defeated at the last election. A proposal to classify property taxation was among them.

Temporary tax improvement will be suggested to the legislature by the committee. One proposal will be to make the tax commissioner one of the chief state officials. Now the office has comparative minor duties. Gov.-Elect James Allred has announced he views it as one of the key places.

A sales tax as a means to finance the state debt has been advocated before the committee but Gov.-Elect Allred is pledged by his campaign to veto such a tax.

### North Suffering From Storms, Cold

CHICAGO, Dec. 28 — Snow and another cold wave from the Rockies swept down on the midwest today while a storm that lashed both coasts swept out to sea and temperatures rose.

New England, cleaning up debris and counting casualties of a hurricane, was threatened like the midwest with snow and cold after a day of respite.

Scores of persons were injured in Boston and Springfield, Mass., New York, and other cities to the north when the wind reached 66 miles an hour in Boston. 75 in Springfield and velocities passing 50 miles in almost every New England state.

### Mormon Leader Here For Sermon Tonight

Elder Charles E. Rowan of the Church of Jesus Christ, Latter Day Saint (Mormon church) has arrived in Cisco and will speak at the city hall at 7:15 this evening. It was announced today by Dr. W. I. Ghormley.

Dr. Ghormley invited the public to attend and get first hand information concerning the teaching of Mormonism. There will be no collection taken, he said.

### Governor Pardons Johnson County Man

AUSTIN, Dec. 28 — Gov. Miriam A. Ferguson today issued a conditional pardon to Booker Marshall who was convicted and sentenced to serve a two years term for burglary in Johnson county.

### MAYHEW RITES CONDUCTED AT CHURCH TODAY

Funeral services for Ewell Glenn Mayhew, 33, were to be held at 2 o'clock this afternoon at the First Methodist church with Rev. Frank L. Turner, pastor, officiating, burial in Oakwood cemetery, Mitcham.

Funeral home of Brownwood in charge. Mr. Mayhew died at the home of his parents, Mr. and Mrs. J. C. Mayhew, here yesterday at 4 a. m. after a brief illness.

Funeralbearers named were L. L. Hooker, R. L. Wilson, J. W. Slaughter, C. W. Hanson, W. E. Brown and Ray Godfrey.

Survivors are the widow, Mrs. Lucile Mayhew, two children, Jackie Glenn, 10, and Freddie James, 8; the parents; two grandmothers, W. C. Mayhew of Cisco and Mrs. J. A. Houston, who makes her home with her daughter, J. C. Mayhew; one brother, Earl Mayhew; and two sisters, Misses Elma and Nagine Mayhew.

Mr. Mayhew was born in Jonesboro, Feb. 10, 1901, and moved with his parents to Cisco when he was six months of age and grew up here. He was engaged in the barber business with his father here for a number of years.

### J. E. SPENCER HAPPY TODAY OVER PAY SHOWING MADE BY GOLD MINE

J. E. Spencer, executive secretary of the Cisco Chamber of Commerce, today was elated over the fact that his gold mining project in California is living up to expectations.

He had received a telegram from officials at the mine to the effect that the first two zinc boxes at the mine had been cleaned up, yielding 60 ounces of gold. This he pointed out, was probably half of the amount in the entire 10 zinc boxes.

"This isn't regular fresh-mined ore," he said, "but is what was left in the boxes by the former operator." He estimated that this, with gold selling to the government at \$35 an ounce, made the refuse ore worth approximately four dollars a ton.

"This shows that the mine will live up to our expectations," he said. "I believe our fresh-mined ore will run from \$5 to \$15 a ton."

The cleanup of the first two boxes was necessary before the regular ore could be run through, he said. This will begin about the middle of January or possibly a little earlier.

Gold-laden water is run through a series of 10 boxes at the mine, where it comes into contact with shredded zinc. The gold "eats up" the zinc, and is deposited in the boxes with the most gold naturally found in the first ones. The yield becomes leaner the farther away the water travels from its first contact with the zinc.

The mining company, known as The Oroco Mines, is in Inyo county on the north slope of the Argos mountain, a part of the Sierra Nevada range. Twenty-five miles from Death Valley, it is 20 miles from Trona, where the Twenty Mule Borax company is located. It is situated north of the Mojave desert, 175 miles northeast of Los Angeles.

Secretary Spencer recently returned from California where he was called on business.

### HEARINGS FOR OIL TENDERS TO BE PRIVATE

AUSTIN, Dec. 28 — Dist. Judge W. F. Robertson today granted a temporary order restraining the Texas railroad commission from holiday public hearings on applications of plaintiff for oil tenders.

Utah Refining company and the Potter Brothers Pipe Line company of Kilgore, independent oil concerns, applied for the injunction.

In effect, the court order temporarily gagged the East Texas tender board prohibiting it from airing private business affairs of the plaintiffs when hearing tender applications.

Several companies have vigorously protested public hearing before the East Texas tender commission and the questions which outside attorneys were permitted to ask.

### Driscoll Asks Date For Resuming Work

EASTLAND, Dec. 28 — County Administrator H. E. Driscoll and E. Meyer left for Austin today to find out when work on county projects could be resumed.

The work was shut down Thursday due to a shortage of funds at the end of the year. All other relief has been going forward as usual, it was announced by relief headquarters here.

### Sunday School Goal For Baptists is 400

A goal of 400 has been set for the First Baptist Sunday school next Sunday. It was announced today by Rev. E. S. James, pastor of the church. "We want to start the new year right," he said. A goal of 100 was set for the B. T. U. He announced that his sermon for the morning will be the "Jewels for the New Year" and for the evening on "The Road."

"Everyone is invited to start the New Year right by attending religious church somewhere," the pastor said, "and everyone not attending elsewhere is extended a cordial welcome to the First Baptist church."

### CISCOANS SEE NEW FORD AT DALLAS SHOW

S. H. and Garland Nance, president and vice president of the Nance Motor company together with a group of Cisco business men and employees of the company attended the first showing of the new 1935 Ford at Dallas Thursday.

The presentation was a part of an international showing which included Canada, Australia, South Africa, India and New Zealand, and featured a telephone hookup, whereby Henry Ford, Edsel Ford, and sales managers at the Dearborn plant and Canada plant talked directly to the guests of the Ford organization.

### Thousands Attend

The 205 Ford agents of the Dallas district, their salesmen, and invited guests, making more than 1,000 in all, gathered at the coliseum at the fair grounds and after a banquet listened to greetings, sales talks, and descriptions of the new Ford V-8, interspersed with music by a special orchestra, which gradually led up to a climax of the unveiling of the actual new models which are to be shown at each agency Saturday, December 29.

In the lectures which preceded the actual presentation of the new models, detailed description of the quality of material, workmanship and special features of the V-8 Ford was given. Some of the special features dilated upon were the easy riding quality, made possible through the placing of both front and rear seats between the axles and the lengthening of the springs. A roomier body with air-flow stream

### Two Charged After Highway Collision

LITTLE ROCK, Ark., Dec. 28 — Two persons were charged with manslaughter on three separate counts today in the death of three Alabama football fans killed in an automobile-truck crash near here last night when the car was wrecked on the way to the Rose Bowl game New Year.

The warrants were issued against E. E. and J. P. Campbell, owner and driver, respectively, of the truck which was parked on the highway when the automobile rammed it head on in a driving rain.

### Spanish Town Has Irish Saint Name

By United Press  
Easily discernable is Texas' town named San Patricio, Spanish for St. Patrick, which was founded in 1829 by two Irishmen.

John McMullen and Patrick Mc-Clain were leaders in the expedition of 200 colonists, which settled the territory. They named the principal town after Ireland's patron saint.

**WEATHER**  
West Texas — Partly cloudy, unsettled.  
East Texas — Cloudy, unsettled.  
Weather tonight and Saturday likely mist or light rain in east section.

Economic Highlights

What promises to be the "show" of 1935 will start early in January. Officially called the congress of the United States, there is an excellent chance that for drama, excitement and thrills it will outdo Belasco.

Business is frankly worried, looks to congressional action with fear and trembling. And it seems certain that the White House anticipates the session with something less than unmixed pleasure. The congress is overwhelmingly Democratic. It is—-if campaign speeches mean anything... committed heart and soul to the Roosevelt policies. But it likewise contains a number of men who, had it not been for the potent Roosevelt support, would never have had a chance of election to a first-class office, who know little of economics, less of industrial problems, and nothing of monetary affairs.

Best guessers believe that one of the big debates of the next congress will center around the proposed 30-hour work week. Many representatives have pledged its enactment, as have a number of senators. Business does not want it... nor does the president. He knows that it would place a burden on industry which it cannot afford at this time, that shortened working weeks must come by a process of evolution, rather than by legislative fiat.

The bonus, a cross which every president since Wilson has been forced to bear, will be up again. Passed at the last congress, it was vetoed by Mr. Roosevelt, then re-passed over his veto by the House. He managed to summon sufficient senatorial support to kill it at last. Many observers now think, however, that there is sufficient sentiment for it in both branches of congress to overcome a veto.

Public works and relief expenditures will also cause a tussle. A thorough survey indicates that if congress is left to its own devices it will appropriate and spend the gigantic total of \$15,000,000,000. The president's program calls for an expenditure of less than half of this amount... about \$7,000,000,000.

The next congress will contain many currency inflationists, some of whom, according to their speeches, are in favor of turning the presses loose in the bureau of printing and engraving. Mr. Roosevelt has said little concerning inflation... but men close to him are confident he is against it. So another battle looms.

The future of NRA will likewise arise. The chances are that it will be continued, but on a much smaller scale. It will still enforce hours-and-wages conditions... but it will probably drop price-fixing, have less to say about industrial management.

It will be recommended that the subsistence homestead plan be expanded. This is being tried now in a few places. Under it, people are taken from areas where they cannot make a living, are placed in cooperative communities where all work for the common good. Housing Administrator Moffat believes the plan to be highly successful... wants to see more such homesteads created. There is a good chance that the president will back him... but many members of congress are sure to oppose it for a variety of reasons.

So it goes, down a long line of topics. Some may wonder why there is any question as to Mr. Roosevelt's control, in view of the great Democratic victory last November. The answer to that is that adversity binds men and parties together... they must either cooperate or perish, a position the Republicans are in at this time. Great success, however, which eliminates effective opposition, almost inevitably breeds discords, fights and ruptures within a party. Having nothing to worry about from the established opposition, party members feel free to go off an tangents, refuse to submit to the authority at the top. And that, right now, is the greatest of Mr. Roosevelt's many political problems.

Newest business reports show an up-swing in trade in every part of the country. Christmas shopping is above the level of the past few years.

Middle West retail sales were about 20 per cent above those of a year ago. The South was up 50 to 100 per cent. Southwest gains amounted to 20 per cent. The East was roughly, up 10 per cent. The Pacific Coast has advanced 25 per cent.

Dun and Bradstreet reports that business, for the country as a whole, has improved 15 to 20 per cent, and forecasts gains for 1935.

POLITICAL WISHES UN FILLED CHRISTMAS

By RAYMOND BROOKS

AUSTIN Dec. 28—This Christmas week brought anxious yearnings to many Texas people, eager and hopeful for places in the new state administration. Virtually all of them had to go through the holiday period still in the dark, but still with the privilege of expectancy and anticipation.

ments have been decided upon, or announced. But while there are fewer than a dozen major offices to be filled by appointment, there are somewhere near 1000 positions whose occupancy is uncertain at the change of administration and those in the jobs, as well as those seeking them both feel the same degree of anxiety as do the more aspirant to the higher places.

The election of officials and job-holders is state departments is undoubtedly a matter of worry and concern for the appointment authority, as well as for the aspirants and applicants. There are from 10 to 300 people seeking every available place. Some of the candidates have their pleas bulwarmed with letters from scores of friends. The incoming governor, and the incoming head

Lovable

By MARY RAYMOND

BEGIN HERE TODAY ANN HOLLISTER, pretty and 20, breaks her engagement to FRED BROWN, commercial artist, because of his drinking and general irresponsibility. The mother, MRS. KENDALL, wealthy and prominent, learns how VALERIA BENNETT, the nurse, has decided. Ann tells her everything is over between them.

Ann and Peter, both heart-sick and disillusioned, meet and discuss their mutual unhappiness. When Peter asks Ann to marry him she agrees. They go to Florida and spend several weeks happily. Then Peter is called home because of business. All of the Kendall family except Peter's sister, MILLENT, snub Ann. MRS. KENDALL suspects her daughter, CAROL, is in love with LAWRENCE, the chauffeur, and discharges him. Carol leaves, ostensibly to visit friends in Miami. Ann sees her in a car and learns that Carol has married the discharged chauffeur. She promises Carol that she will keep her secret.

he had sat through the long, anxious hours watching her. He closed the door. The nurse was waiting in the living room, hat and coat on. "I'm afraid I alarmed you, Mr. Kendall. I'm sure there's nothing to worry about. Mrs. Kendall is just tired. She seemed so well I thought a few friends could call but she must have overtaken herself. A good night's sleep is what she needs."

THE next afternoon Peter took Ann home. Because she was still weak from shock a trained nurse was engaged.

Friends called. There were cards and flowers. Valeria sent "uses, gorgeous red ones to brighten the sick room." Peter read the written messages to Ann and relayed verbal ones.

HE was gripped by a terrible fear. Could the blow on Ann's head have affected her mind? Then he saw the small envelope, addressed "Peter." His fingers were shaking as he opened it.

She was recovering rapidly. She would be quite well by the end of the week. In fact, she was so well on the fifth day after the accident that the nurse arranged to leave after dinner that evening. She had been called to an old patient who was ill.

"You're doing Peter a great injustice," Valeria said. "Of course he wants to be fair, Ann, even though his grandfather is going to cut him off because of you."

"Peter, I've found out about you," Ann had started to write "and Valeria" but had decided against that. The note might fall into other hands. So she had merely written:

Dressed in a turquoise blue satin negligee, Ann was lying on a chaise longue by the window. She had been permitted to see a number of friends that afternoon. Sarah and Mae, Millicent, Marcia Johnson, Merle Merrilweather.

"Please go," Ann whispered. The door closed behind Valeria. Ann stared at the door a long time, her eyes dull and expressionless, traveling over the satiny surface.

"I've found out about you... and because I can't possibly bear it, I am going away. Lovable."

Ann had been glad to see them so. She might not get well so soon, looking at Valeria's roses. Valeria looked cool, sweet and smiling. But inside was turmoil. The story of Peter Kendall's anxiety had been brought to her. Millicent had told Mrs. Kendall because she enjoyed seeing her mother's discomfort. And Mrs. Kendall had told Valeria that Peter had acted like "a crazy young fool" when Ann had been thrown from the horse.

"Hm-m." Miss Brock was tempted to step out of her professional role and talk to Peter. She compromised by saying to him, "Miss Bennett shouldn't be allowed to see Mrs. Kendall until she is stronger. She upsets her."

"You may go, Susan," he said in a hoarse, unnatural voice. He read the note again in bewilderment. "I've found out about you... and because I can't possibly bear it, I am going away. Lovable."

"The nurse says I'm well. I'm only being lazy now."

"Hm-m." Miss Brock was tempted to step out of her professional role and talk to Peter. She compromised by saying to him, "Miss Bennett shouldn't be allowed to see Mrs. Kendall until she is stronger. She upsets her."

There could be no other explanation, no other reason for her flight. "I could not possibly bear it. Wave after wave of agony poured over him."

"Hm-m." Miss Brock was tempted to step out of her professional role and talk to Peter. She compromised by saying to him, "Miss Bennett shouldn't be allowed to see Mrs. Kendall until she is stronger. She upsets her."

There could be no other explanation, no other reason for her flight. "I could not possibly bear it. Wave after wave of agony poured over him."

Ann had been glad to see them so. She might not get well so soon, looking at Valeria's roses. Valeria looked cool, sweet and smiling. But inside was turmoil. The story of Peter Kendall's anxiety had been brought to her. Millicent had told Mrs. Kendall because she enjoyed seeing her mother's discomfort. And Mrs. Kendall had told Valeria that Peter had acted like "a crazy young fool" when Ann had been thrown from the horse.

"Hm-m." Miss Brock was tempted to step out of her professional role and talk to Peter. She compromised by saying to him, "Miss Bennett shouldn't be allowed to see Mrs. Kendall until she is stronger. She upsets her."

There could be no other explanation, no other reason for her flight. "I could not possibly bear it. Wave after wave of agony poured over him."

ANN was relieved. It had been an ordeal. Somehow she had the feeling that there was something venomous and cruel beneath Valeria's surface friendliness.

"There was a piece of paper on the rug. Ann reached down and

he thought, almost as pale as she was the night of the accident when

of a department, can name only one to a job and thus must disappoint many times the number that can be gratified. Often the choice is a close one! often there are distinguished, able and eligible people whom an administration desires to recognize and to draw to its service whom only the lack of place bars from the public service.

Most governors have said that the most distressing phase of their work, aside from the necessary refusal to set aside death penalties and countless other pleas for clemency, is the selection of public appointees in that the selections always disappoint so many friends and so many worthy people.

Regents of the state teacher colleges have extended the hand of helpful cooperation to the incoming state administration in the matter of salary schedules. Teacher colleges like all other state agencies, took a 25-per cent salary cut two years ago. The regents would like, if possible, to see upward revision of the salaries this year; but they have indicated a willingness to go along and share what the other colleges and institutions are given, whether it is full or partial restoration of the salaries, or whether it is two year, more or less ratios.

Many of the college authorities have urged that the appropriation be made in lump sum, as done in most states, leaving the boards and executive authorities to use the money to best advantage. They are perfectly willing to be bound by salary limits, but often times can adjust the budget to changing needs in a way the legislature cannot force in two years in advance.

In a few past occasions the educational appropriations have been made in lump sums for salaries for maintenance and so on, and excellent results have shown from such handling.

As to the two main types, the members of the commission, the executive officials for the department, in the they simply outline policy and all administration to the officer, not a member of the mission.

The railroad commission, elected members, is like the control, in that its members full time to the state and gaged in actual administrative highway commission, with the engineer as the executive of the department, parallel the city manager for municipal government.

The Graves administration of two years ago proposed to reduce the volume of business, by instituting a sharp curtailment of the range of matters justifying appeal cases.

It overlooked the theoretical possibilities of having one court, instead of two, by membership of one to control criminal division. On number matters, decisions of the two courts have been in conflict. Matters as have been in conflict decision of the state level of taxation on marble granite pelate decisions by two courts, and the possibility of in these decisions.

The opportunity of free access to the voters always appears someone in government. Thus the Huey Long plan, state radio system.

Thus Texas lawmakers really have advocated a Texas create a criminal identification bureau, this desire may show in

22 MILLIONS SPENT IN SALT LAKE CITY Utah. A total of \$22,448,641.31 has poured into the battle of drought, unemployment and relief in Utah during the 28 months from Sept. 1, 1932, to Jan. 1, 1934, report by Acting Director Geo. Haer of the Utah FERA group.

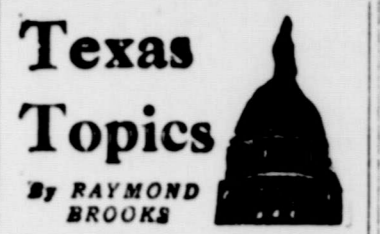

CROCKETT, Tenn., Dec. 27—W. M. Hudson, who lives near has a copper kettle purchased her family during the Revolution. It is still in good condition is being used daily.

HUSKY THROAT. Overtaxed by speaking, singing, smoking. VICKS COUGH DRUG.

Did You Ever Stop To Think

By Edson R. Waite Shawnee, Oklahoma

Col. Roy Bourne, editor of the Salt Lake City Telegram, says: "The value of newspaper advertising rests upon the confidence of the people in newspapers. There are some people, of course, who will say, 'Oh, it's only a newspaper story.' There is not much independent thinking behind an assertion of this sort. Individuals who repeat, parrot-like, the phrase which somebody somewhere, sometime thought both true and clever, are merely victims of sloppiness. They are as likely to pick up any word coinage without taking the time to ask even them, selves if it reflects truth or error.

AUSTIN, Dec. 28—If the legislature next month gets into the field of revising governmental agencies for greater correlation and simplicity, it will find that the state in the past has created conflicting and widely divergent types of set-up.

The state has both the administrative commission such as the board of control and the insurance commission, and the commission-manager system, as represented by the highway department. It has some few of the third form of agencies, the ex-officio board, and a further variation of a policy commission with a separate administrative official not responsible to it, as in the board of education and state superintendent.

Advertisement for West Texas Utilities Company. It features a large illustration of a man in a suit sitting at a desk with a typewriter, looking thoughtful. The text reads: 'You Mustn't Take Chances... With Children's Eyes'. It emphasizes the importance of good vision for children and offers a 'surprisingly low rate schedule' for electric service. The West Texas Utilities Company logo is at the bottom.

### Large Collection of Arctic Spores Shows How Plant Diseases May Spread

WASHINGTON, Dec. 28 — Col. Lindbergh made one of his most important contributions to the science of agriculture through the Arctic areas in 1933, have been exposed to the microscope in the U. S. department of agriculture which is studying the path of plant diseases which cause long distances — from the continent to continent — by air.

Meier of the department of agriculture, who is studying the path of plant diseases which cause long distances — from the continent to continent — by air.

#### Exposed 25 Slides

In his flights between the American mainland and Denmark by way of Greenland and Iceland, Col. Lindbergh exposed 25 slides and returned them with field notes and free-hand maps indicating exactly where and for how long, and under what conditions each slide had been exposed. Meier has taken care of the preservation of the slides and has examined and photographed representative sections. He has been able to identify the genus and in some cases the species of many of the objects trapped in the petroleum jelly which covered the slides. More complete identifications will in many cases have to await the assistance of botanists familiar with the characteristics which identify various kinds of pollen, and of scientific workers who are specialists in different groups of fungi, mosses, lichens. On one slide, exposed far north of the Arctic Circle, Mr. Meier was able to discover under the microscope more than 40 different types of objects in a space centimeters square. This was on a slide exposed 3,000 feet above sea level along the northeastern coast of Greenland.

Meier and other department of agriculture workers, assisted by army, navy, and coast guard flyers, have done considerable aerial work in trapping spores and other microorganisms, but this has been over land and in places where it was to be expected that the catch would be abundant. "This Lindbergh collection," says Meier, "is the first of its kind to give concrete evidence of the part played by air currents in the distribution of fungi between northern lands." He points out the possibility that a single living spore which is transferred by the air currents and dropped in a spot favorable for reproduction might create a center for rapid spread of infection.

### 'Brightest Boy' Is Making Good

One of "America's brightest boys," the Thomas A. Edison scholar of 1930, is making good the promise that he showed to win the coveted award. He is Arthur O. Williams, Jr., shown here explaining a bridge structure problem, in his work as assistant physics instructor at Brown University, Providence, R. I.

### Streamlined Train Had Old Forerunner

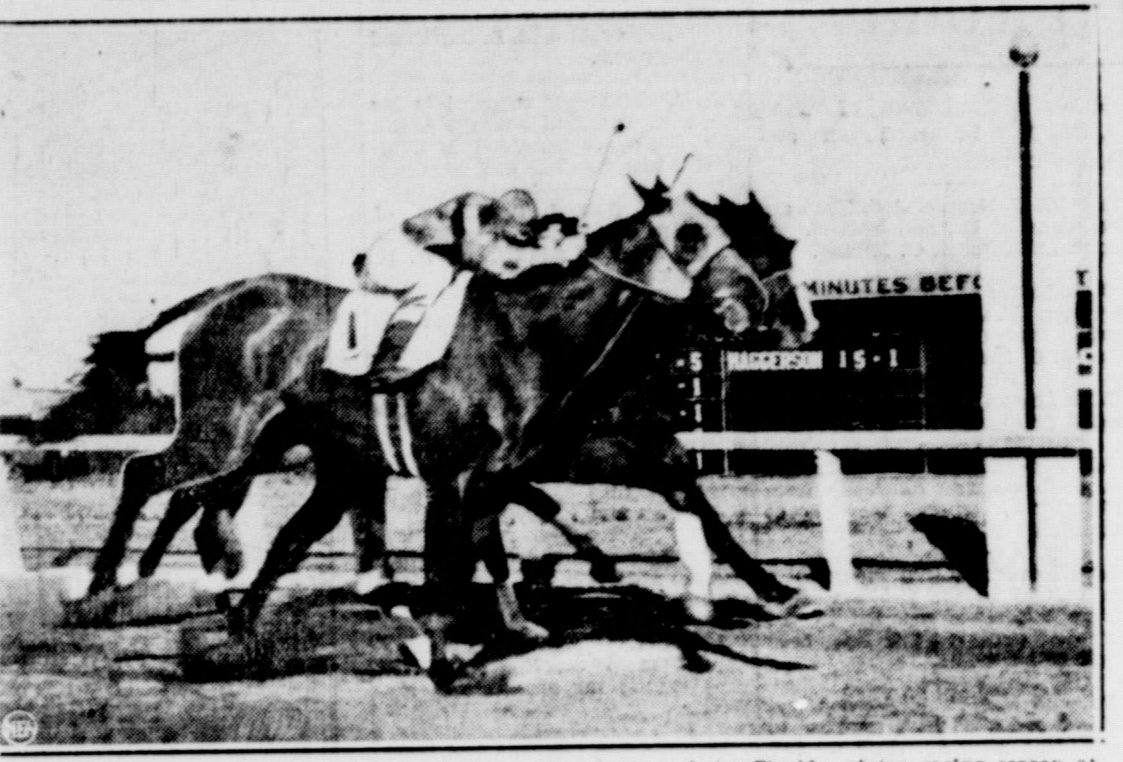

BOSTON, Dec. 28 — Another genius who was ahead of his time has been brought to life, and new proof of the truth of the adage, "There's nothing new under the sun." This time it's that newest development of this speed-mad era, the streamlined train. At first it seemed new, but now it appears that it was all worked out way back in 1865 about the time grandfather was coming home from the Civil war by a Roxbury trolleyman, the Rev. Samuel R. Calthrop.

Dr. Calthrop's designs still may be seen in the Patent Office, where he filed them 69 years ago, and they bear a remarkable resemblance of the new "Zephyr."

The train had the appearance of one unit, the cars being joined by flexible vestibules. The locomotive had a shovel-like snout, and was completely sheathed, except for the stack — for this, of course, was to be a steam train. Windows and doors were built flush with the sheathing, which extended all the way around the cars, the wheels running in slots, the rear of the last car tapering to a point in the latest approved manner. Another modern feature was the system of forced ventilation with which Dr. Calthrop anticipated air conditioning.

The "Air Resisting Train," as Dr. Calthrop called it, never came to anything. Nearly 70 years were to elapse before his dream was translated into fact. Possibly the good Doctor was too interested in his work with the Harvard crew, which he coached in their first race with Yale, to waste time on such a trifling thing as an invention.

### Close Finish Starts Florida Racing Season

The 12,000 spectators who turned out to witness the opening of the Florida winter racing season at Tropical Park, Coral Gables, were treated to some spectacular finishes. Here are two horses rushing toward the judges' stand in the Coral Gables handicap with hardly a gleam of daylight between their noses. Sabula, E. Litzenger up, won the race.

### Chicago Students Favor Medicine, Law

CHICAGO, Dec. 28 — Freshmen at the University of Chicago continue to favor the traditional "doctor lawyer, merchant, chief" professions as vocations to follow after graduation.

A report issued by Robert C. Woellner, head of the vocational guidance and placement service at the university, showed that approximately 50 per cent of the freshmen who have made a vocational decision chose medicine, law or education.

Nearly 24 per cent of those who are in school for a definite purpose have chosen to enter business. Woellner said.

Journalism, art and decoration, dramatics and music lagged behind the favorite vocational choices.

**DUCKS FLEE STORM**  
SANDUSKY, O., Dec. 27 — Literally millions of ducks swarmed over Sandusky Bay on Lake Erie on one day recently fleeing storms from the north.

### Californian Kills Rattler With Rake

KERNVILLE, Cal., Dec. 28 — Ordering her guest not to move when imperiled by a huge rattlesnake a few inches from her feet, Mrs. Dave Yarbrough snatched a garden rake and sank the teeth into the reptile.

"A gopher snake, isn't it?" asked Helen Batty, guest from a nearby city in Mrs. Yarbrough's mountain cabin, as she almost stepped on the rattler tumbling out of bed.

As a memento of the incident the visitor stripped the snake of its hide for curing. The four-foot snake had 10 rattles.

### Cotton Industry Picture Is Drab

AUSTIN, Dec. 28 — The cotton textile industry in Texas continues to present a drab picture in contrast with the favorable situation which prevails in most other branches of trade and industry in the state, according to the University of Texas bureau of business research. During November only 2,283 bales of cotton were consumed in Texas mills, a decline of 34 per cent from October of the current year and a drop of 61 per cent from November, 1933.

Cloth produced, 3,931,000 yards, was down 7.7 per cent from October and 35 per cent from November last year. Sales of cloth, 2,230,000 yards, were up 38 per cent from October but 28 per cent below November a year ago. Unfilled orders on the last day of November totaled 8,707,000 yards, an increase of 9.2 per cent from October, 31 but 15 per cent below November 30 last year.

Active spindles, 133,462 in number, decreased 2.4 per cent from October last year, and spindle hours totaling 23,517,000 increased 3.2 per cent over October but were 46.4 per cent below November last year.

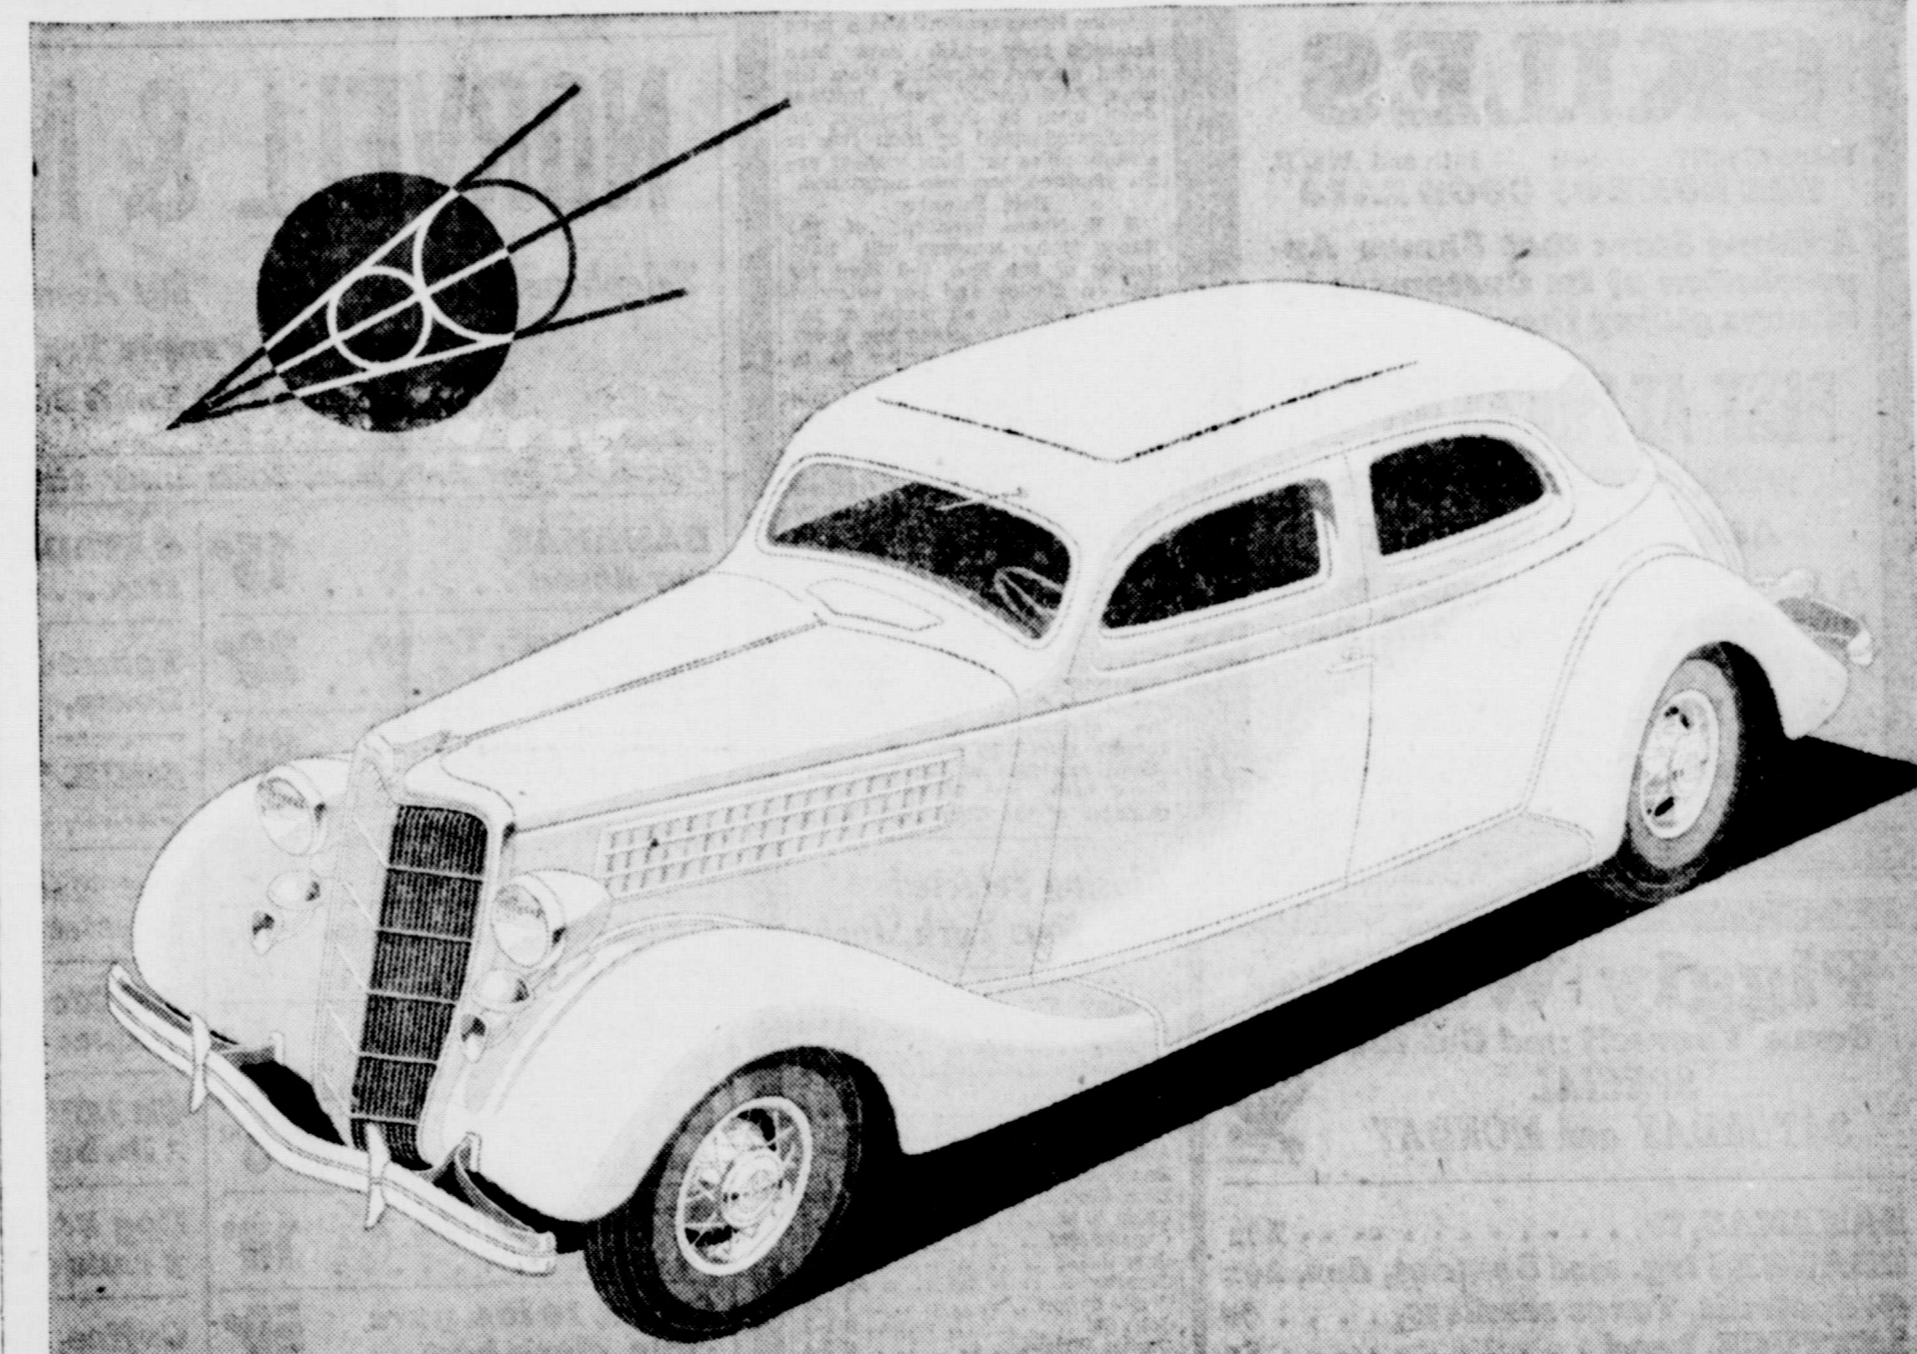

### BRAN SAVED MAN

HOLT, Mo., Dec. 28 — A sack of bran carried on the shoulders of W. H. Harris saved him from serious injury when he was struck by a train recently. The engine hit the sack of bran. Harris received a few cuts and bruises when he hit the ground, but otherwise was uninjured.

### BIRTH ANNOUNCEMENT

A seven and one half pound boy was delivered to Mr. and Mrs. Malcolm Hail for a Christmas gift, December 25. Mrs. Hail is the daughter of Mr. and Mrs. C. C. Oulter, Moberly hotel.

### Freckles and His Friends.

## THE NEW FORD V-8 FOR 1935

The New Ford V-8 for 1935 is the biggest and roomiest Ford car ever built. It is a strikingly handsome car, with modern lines and new, luxurious appointments.

But most important of all it is designed to give you smooth, easy riding over all kinds of roads—"a front-seat ride for back-seat riders."

This ease of riding is achieved by the use of three basic principles never before combined in a low-price car.

1. Correct distribution of car weight by moving engine and body forward eight and a half inches.
  2. New location of seats, with rear seat moved forward, toward the center of the car—away from the rear axle and away from the bumps.
  3. New spring suspension which permits the use of longer, more flexible springs and increases the spring-base to 123 inches.
- The result is Center-Poise—which not only gives you a new riding comfort but adds to the stability of the car and its ease of handling. You can take curves with greater safety.
- There are many new features in the Ford V-8 for 1935 which make the car still easier to drive.

## INTRODUCED TOMORROW A New Ford V-8 That Brings New Beauty, New Safety, and a New Kind of Riding Comfort Within Reach of Millions of People

New brakes give more power for stopping quickly with far less foot pressure on the pedal. A new easy-pressure clutch employs centrifugal force to increase efficiency at higher speeds. New steering mechanism makes the car still easier to handle.

The New Ford V-8 for 1935 retains the V-8 engine which has demonstrated its dependability and economy in the service of more than a million owners. There are refinements—including crankcase ventilation, cast alloy steel crankshaft and copper-lead floating connecting-rod bearings—but no change in basic design. You buy premium performance when you buy this Ford V-8—full 65 horsepower and capable of 50 miles an hour.

modern instrument board of the De Luxe body types.

The spring leaves are tapered for quiet as well as flexibility. Larger tires have a new, wider tread, specially designed for safety and comfort. Bodies are insulated for quiet and temperature.

We invite you to see this New Ford V-8 at the showrooms of Ford dealers. You will want to ride in it—to drive it yourself. You will find it a new experience in motoring.

**Ford V-8 Prices Are Low**

12 BODY TYPES—Coupe (5 windows), \$495; Tudor Sedan, \$510; Fordor Sedan, \$575; DE LUXE—Roadster (with rumble seat), \$550; Coupe (5 windows), \$570; Phaeton, \$580; Tudor sedan, \$575; Cabriolet (with rumble seat), \$625; Fordor sedan, \$635; TOURING SEDANS, with built-in trunk—Tudor Touring Sedan, \$595; Fordor Touring Sedan, \$655.

W. O. B. Detroit. Standard necessary group including bumpers and spare tire extra. All body types have Safety Glass throughout, at no additional cost. Small down payment. Convenient, economical terms through the Universal Credit Co.)

# About Cisco Today

## Personals

Sam Pearce of Dallas who has been visiting with his mother, Mrs. J. W. Pearce returned to his home today.

Mrs. R. G. Milling and children enjoyed a reunion in her home Christmas day, her guests for dinner were Dr. and Mrs. H. H. Milling of Mineral Wells, Miss Mary Ella Milling of Mineral Wells, Dr. R. G. Milling of Brownwood, Mr.

and Mrs. Richard Young of Waco, Dr. and Mrs. N. A. Brown and Chief of Cisco.

Mrs. C. C. Dean and children are the guests of Dr. and Mrs. N. A. Brown and Mrs. R. G. Milling.

J. E. Leazer of Longview and Mr. and Mrs. W. J. Leazer of Sipe Springs were Christmas guests of Mrs. M. C. Leazer.

Miss Lorena Erwin visited in Sabina during the holidays.

Mr. and Mrs. R. L. Ponsler and son Luther have returned from Tulsa, Okla., where they spent Christmas.

Miss Lois Pulley who underwent a tonsillectomy in the Graham sanatorium Sunday is reported to be somewhat improved and has been moved to her home.

Mr. and Mrs. Frank Vernon and children of Dallas have returned to their home after spending a few days as guests of Mr. and Mrs. Wm. Reagan.

Mrs. T. H. Conner of Fort Worth guests of Mr. and Mrs. William Reagan through Friday.

Jack Evans who has been doing some extensive traveling in the east is visiting with his mother, Mrs. Evans, of Moore Drug.

Mr. and Mrs. Emery McBeth and sons, Alton John and Arnell of Overton are the guests of Mrs. McBeth's mother, Mrs. M. B. Curtis and other relatives.

J. C. McGregor returned to his home in Richland Springs today. Mrs. McGregor remained in Cisco to visit with relatives and friends.

Mr. and Mrs. J. T. Fielder of Plainview are visitors in the home of Mr. Fielder's sister, Mrs. W. H. LaRoque.

Arthur Wendt was a visitor in Brownwood yesterday.

Cy Jones of Brownwood arrived last night to visit a few days with friends here.

Neil Moore of Abilene was the guest, yesterday of Mr. and Mrs. J. E. Burnam and family.

Mrs. James Bates left yesterday Bastrop after spending the holidays visiting in Cisco.

I. G. Leveridge is spending a few days in Cisco working at Perry Bros. during the absence of Mr. Wood.

Miss Thressa Lee who has spent Christmas with her father and mother, Dr. and Mrs. W. P. Lee, left for her home in San Antonio.

Mr. and Mrs. T. F. O'Brien have returned from Fort Worth where they spent the holidays.

## Ciscoans See

(Continued from page one)

line and V-shaped radiator gives the car a much classier appearance. Greater riding comfort and a more beautiful body which have been added without detracting from the usual Ford quality, were features dwelt upon by these lecturers. An accelerated speed of from five to seventy miles per hour without extra vibration, was also mentioned.

Here Saturday S. H. Nance, president of the Nance Motor company will have models of the New V-8 Ford for 1935 on display and has extended an invitation to all people of the trade territory to attend the showing of Saturday, December 29, to be held in their display rooms.

Those attending the banquet and presentation at Dallas from Cisco and conveyed in the fleet of three 1934 V-8 Fords of the Nance Motor company, were: S. H. and Garland Nance, W. B. Statham, Roy Huffmyer, J. Richardson and J. O. Barnhill of the Ford organization and the following invited guests: J. M. Bird, vocational agriculturalist; G. A. Lee, assistant superintendent of Humble Pipe Line company here; Rex Carruthers of the purchasing department of Humble Pipe Line company; O. V. Cunningham, of the engineering department of Humble Pipe Line company; Alex Spear, president of the First National bank; and W. H. LaRoque manager of the Cisco Daily News.

## OUT OUR WAY

## Experts Disagree Over Moon Surface

ROCHESTER, N. Y., Dec. 28 — Partial disagreement with conclusions announced by Dr. F. E. Wright, of the Carnegie Institution, that the surface of the moon is composed of translucent rocks, was announced here by Prof. Brian O'Brien, of the University of Rochester.

For the last three years, investigators wish to examine in detail the direction of Professor O'Brien at the Institute of Applied Optics on the River Campus on the same matter, he declared.

Although he agreed in general with Dr. Wright's findings, which were announced recently in Washington, Professor O'Brien said that the local investigations thus far have failed to show that light reaching the moon penetrates more than an exceedingly short distance before reflection.

Great difficulties beset investigators who wish to examine in detail the fine structure of the surface of a cold body a quarter of a million miles away. Professor O'Brien pointed out, however, while Dr. Wright and he are seeking the same in-

formation, he said to entirely different methods are being used. The local investigators are measuring the reflecting of the moon's surface for violet light, while Dr. Wright is measuring the polarization reflection from the moon.
